Cancer Threat To One Out of Every Five Points Need for Backing Cancer Crusade

There's a red danger flag flying for one out of every five persons who die today. Unless action is taken to "Fight Cancer Before Cancer Fights You." With this startling fact to spur them on, the county-wide campaign, emphasizing the three main divisions of the cancer fight: Research, to determine the cause and discover a cure for all; Education, to recognize the first symptoms of cancer, prevent mortality; and Service, to diagnose and treat cancer victims.

To accomplish this goal, Geo. Haus, county chairman, has enlisted the aid of the following civic leaders to crusade for cancer throughout Haskell county: Wix Currie, Haskell; Morris Neal, Rule; Rev. Temple Lewis, Weinert; "Hap" Smith, Rochester; Fritz Siegmoller, Sagerton; Gene Overton, Paint Creek; H. H. Sego, Mattson; and the Rev. Bruno Gaskamp, Cobb community. Mr. Hewett told of the soil conservation practices being carried out by the Haskell farmer, and Mr. Olson, area supervisor of the soil district, reviewed the conservation program being carried out in the district. The California Creek district embraces part of five counties, and 900 farmers are cooperating in the soil and water program, Olson said.

Students who will make the trip are Roy Forehand, Billie Jean Bowen, Johnny Wheatley, Glenn Darden, E. H. Walton, Frankie Jo Tanner and Margaret Roberts, Seniors; Sue Couch, Leo Steiwert, Oma Gayle Holcomb, Bobby Dreesedow, Carl Moeller and Joan Mapes, Juniors.

any other member of the Haskell Lodge.

In recognition of his long membership, members of the local lodge have arranged Friday's night's banquet, with an estimated 100 members and their wives expected to attend the affair.

The Haskell County Democratic convention, usually a tame affair attended by a handful of party supporters and speechmakers, took on an entirely different atmosphere when the Democrats assembled here Tuesday afternoon, and turned into a dandy, vociferously argumentative and sharply divided party squabble. The end result was two conventions—the "regular" convention and a "rump" session—with leaders of both factions determined to seek recognition as Haskell County's official delegation at the State convention in San Antonio.

An estimated 100 or more delegates from the county's 20 voting precincts, took part in the convention held in the district courtroom. Progress of a civil case being heard by District Judge Chapman was halted, and the jurors, attorneys and court attendants remained in the courtroom to "take in" the convention.

"Although tempers of advocates on both sides of the controversy pleaded issue near the boiling point at times, the entire affair ended peaceably between two party factions.

In the organization of the regular convention, John A. Couch was elected chairman and Dennis P. Ratliff secretary. After a roll call of precinct delegates, they were polled on the instructed or "uninstructed" issue. The pro-Shivers group favoring an uninstructed delegation easily won control of the convention with a vote of 26-9, with two precincts not represented.

A resolution committee composed of Dr. J. C. Davis, Pro. O. Weinert, Jim Ferguson, Courtney Hunt and Bill Wilson was unable to present a unanimous recommendation on resolutions. The majority group, Davis, Weinert and Wilson, brought a resolution for an uninstructed delegation. An amendment offered by Hunt and another offered by Oliver Cunningham, Haskell farmer and former State Senator, both were voted down. In offering his amendment, Cunningham addressed the gathering, stating that he favored the State delegation working and supporting a National nominee acceptable to Texas and the South, but urged that the county and State delegations be pledged not to bolt the party after a nominee is selected. "What's the matter with you Democrats?" he asked, adding, "You're mad over the tidelands and the FEPC, and you're going to lose the whole farm program for the tidelands."

Announcing they would hold a convention of "Loyal Democrats," Hunt and Cunningham were joined by 25 others in the courtroom and they met in an adjoining office.

The majority remaining in the regular courtroom, estimated at about 75, proceeded with the adoption of resolutions for an uninstructed delegation, support of the Gossett-Lodge bill, and adoption of the unit rule for the county delegation. Delegates and alternates to the convention were named to cast the county's 3 votes for the pro-Shivers measures at the State meet.

In the smaller convention, Oliver Cunningham was named chairman and Bob Herren secretary. The 27 present signed the Democrat loyalty pledge and all were named delegates to the State convention bound by the unit rule and instructed to work and vote for a State delegation pledged to support the eventual nominee of the national convention.

"We Are All Good Democrats," Demo Party Chief Says

The following statement was issued Wednesday by John A. Couch, chairman of the Haskell County Democratic Executive Committee, concerning the "bolt" from the county convention: "I am very sorry of the discord in our County Convention Tuesday. I have great respect for the inherent right of individual opinion, but at the same time I didn't feel that we had the right or power to void the spoken voice of the Precinct Conventions and it was my purpose to exercise the highest sense of fairness in my rulings.

"The men who walked out of the convention were and are my personal friends. I believe them to be sincere. I would fight for their right of individual opinion, and I have no criticism to offer because of their actions.

"I believe we are all good democrats."

Very sincerely,
John A. Couch,
Permanent Chairman of the County Convention and Chairman of the Democratic Executive Committee.

Accidental Gun Wound Injures George Weaver

George Weaver, well known Haskell resident and public weigher of the Haskell precinct, was seriously injured Saturday about 5 p. m. by the accidental discharge of a 22 caliber target pistol. The small bullet struck him in the right side, just above his stomach.

Mr. Weaver was working at the home of V. W. Meadors in North Haskell and the accident occurred when he picked up the small pistol lying on a shelf in the garage. Pin holding the chamber had been removed and the loaded chamber fell to the concrete floor and was discharged.

Although suffering some pain, Mr. Weaver did not believe the injury serious, and took time to gather the tools with which he had been working, then drove to the office of a physician. Examination revealed that the bullet had caused serious internal injuries, requiring major surgery. Although the injuries are not considered critical, his recovery will be slow. He was reported improving nicely Thursday morning.

Haskell Farmers To Plant 800-1,000 Acres Castor Beans

Haskell County farmers will plant between 800 and 1,000 acres in castor beans this year, County Agent F. W. Martin believes. Farmers will plant the beans as a trial crop to determine whether they can be profitably grown in this section.

Farmers in the Haskell and Rochester areas have already purchased enough planting seed to plant 800 acres in castor beans, Martin said today. From 8 to 10 pounds of seed are required per acre, he explained. Growers are guaranteed a price of ten cents a pound for all castor beans harvested, or the current market price at the time the crop is sold, whichever is higher, the county agent said.

Among farmers in the Haskell vicinity who have purchased castor bean seed for planting are Eugene Tonn, who plans to seed 100 acres on his farm east of Haskell; Clarence Burson, who will plant 75 acres on farms northwest of Haskell; and Jim Alvis and Dave Persons, who will plant 50 acres each on their farms.

Betty Joy Redwine will be the narrator to tell of the points of interest as the tour progresses.

The various countries visited will be Mexico, Hawaii, Korea, Roumania, Sweden, Holland and Italy then back to the U. S. to New York, Carolina, Missouri, Arkansas, Texas, New Mexico, Arizona and at last to the glamorous Hollywood, Calif.

There will be a contest to select "Miss Liberty" who is to be the most outstanding girl in Junior High. She will be chosen by the students by secret ballot. The winner of the contest will not be known until presented that night.

1952 COTTON PRICE SUPPORT PROGRAM DETAILS ANNOUNCED

Details of the price support program for 1952 crop upland cotton was announced today by the U. S. Department of Agriculture. The program differs from previous programs in that it gives greater encouragement to the use of local lending agencies and local administrative committees in the granting and servicing of loans on cotton, and makes the purchase agreements on cotton available for the first time. Equity transfer agreements also will be available to producers.

The Department announced on November 29, 1951, that the 1952 crop cotton would be supported at 90 per cent of parity. On February 21, 1952, the Department announced that the average loan rate would be not less than 30.91 cents per pound, basis middling 7-8 inch cotton, or 90 per cent of parity at the beginning of the marketing year, (August 1, 1952), whichever is higher. The final loan rate will be announced about August 1, 1952.

To facilitate granting and servicing of loans, loans will be made this year (1) by local banks, production credit associations, and other qualified local agencies that have entered into agreements with Commodity Credit Corporation to make the loans, or (2) by the Production Marketing Administration county committees, which will be authorized to issue single drafts drawn on CCC. The loan documents will be kept in the local area, either in the local lending agency or in the office of the PMA county committee. In other years such documents were required to be transmitted to the PMA Commodity office at New Orleans or San Francisco within 15 days. The change this year will speed up servicing of the loans since it eliminates the time previously lost in waiting for the return of essential documents from distant custodial offices, such as the Federal Reserve Banks or a PMA Commodity office. Producers will be encouraged to obtain loans through local lending agencies.

In the past, equity transfer agreements were supplied to pro-

ducers at the time of making loans. Under the support program for 1952 crop cotton, an equity transfer agreement will be made available to a producer after he has agreed to sell his equity in one or more bales of cotton covered by a particular note. Such agreements will be made available at the local PMA county office where they will be dated as of the day of issuance and will have a valid life for loan redemption purposes of 7 days. (Note: A producer uses an equity transfer agreement to sell his remaining equity in the cotton over and above amount of the CCC loan, plus interest and other charges.)

The Department stated that CCC will make price support loans available to eligible producers in the early harvesting areas on 1952 crop upland cotton prior to August 1, 1952, at 30.91 cents per pound, basis middling 7-8 inch cotton at average location.

Premiums and discounts for all qualities of 1952 upland cotton also were announced. Premiums and discounts have been determined in the same manner as in previous years, on the basis of actual market difference for the various grades and staples.

The basic support rate for 1952

crop cotton will apply to middling 7-8 inch cotton at average location. The loans and purchase agreements will be available through April 30, 1953. The loans will mature July 31, 1953, or earlier upon demand and producers must deliver any cotton tendered under purchase agreements by August 3, 1953. If the loans are not repaid prior to maturity CCC may take over the cotton from producers, sell the cotton to others, or pool the cotton for producers' account. Loans will be available in cotton stored in warehouses approved by CCC and in farm storage structures approved by PMA county committees. Any cotton delivered under purchase agreements must be in a warehouse approved by CCC. Approved lending agencies may make advance loans to producers prior to the time loan values can be determined.

June Draft Call Small, With Only 384 Men Called

AUSTIN, Texas.—State draft boards will be called on in June for only 384 men, Brigadier General Paul L. Wakefield, State Selective Service director, announced today.

Quotas to local boards for this call, smallest received by the state since July 1951, will be figured and placed in the mail on or about May 7. The June state quota of 384 is Texas' share of a national quota of 10,000.

General Wakefield predicted that calls on Texas will increase greatly, beginning in July. He pointed out that the first draftees inducted after invasion of South Korea will be eligible for release late this summer and early this fall.

He said everything points toward heavier calls the remainder of this year and the first four or five months of 1953.

Eal Treadwell To Seek Office of Justice of Peace

Eal Treadwell, a longtime resident of Haskell and this section and former City Marshal of Haskell, has authorized the announcement of his candidacy for Justice of the Peace in Precinct No. 1. The office serves the city of Haskell and considerable adjacent territory.

In announcing his decision to seek the precinct office, Mr. Treadwell said that he desired to thank the citizens of Haskell for their confidence and support in electing him to city office, and the voters and citizenship of the precinct for the encouragement and substantial vote accorded him two years ago.

He believes that the experience gained as a city official will be an added qualification in the precinct office for which he is asking. If elected, he will endeavor at all times to handle the affairs of the office in a manner consistent with the rights and interests of all concerned. Also it will be his aim at all times to cooperate to the fullest extent with officials and all others having business with the office.

Because of his long residence in Haskell and this section, he enjoys the acquaintance and friendship of a majority of the people in the precinct. However, it is his intention to make as extensive a campaign as possible before the primary is held.

He solicits and will appreciate careful consideration of his candidacy by the voters until he has the opportunity to discuss his claims for the office with them personally.

a return engagement at Weinert Tuesday night at 8:30 p. m. The Chicks 10-4 shellacking from the Stamford nine Tuesday night at Stamford in the second of a two game series.

Miscues by the Chicks allowed Stamford a big second inning as they scored five runs to take a 6-0 lead. In the top of the fourth frame, Stamford hurler Wayne Baldwin began to blow up and threw 7 wild pitches. Baldwin gave up 8 hits.

E. L. Bassing, one the mound for the Chicks, allowed only seven safeties.

First baseman Tommy Alexander led the Stamford batters, getting three hits in four trips. For the Chicks, right fielder Olen King smashed out two for three, one being a double. Bassing and Durwood Jacobs each collected a triple off Baldwin.

Stamford Spoils Chick Opener With 6-0 Shutout Win

Haskell's Chicks muffed up their opening game of the season last Friday night when Stamford's powerful softballers shutout the locals, 6-0 at Fair Park Stadium.

Errors were lingering over the Chicks during the 7-inning contest and caused their downfall in the debut before the local fans.

Four miscues were made by the Chicks allowing half of Stamford's total to cross home plate.

Pitcher E. L. Bassing, displayed a sturdy hurling attack which scattered nine hits from the Stamford bats. However, Bassing crossed the plate with pitching that sent nine opponents back to the bench via strikeouts. He allowed only one Stamfordite to reach first base on balls.

With Roy Weak on the mound for Stamford, the Chicks were up against rough pitching from the veteran softball slinger. Weak struck out ten Chicks and did not walk a single batter. Haskell batters collected 8 safeties off Weak as the hurler went the distance for Stamford.

The Black Indians will meet the Throckmorton All-Stars Sunday afternoon at 3 p. m. at Fair Park Stadium.

Manager Albert Sharp said this week that the Black Indian lineup was in good condition and had a very good chance of adding another mark to the win column. However, he added, the Throckmorton club has a good bunch of players, plus some very good pitching.

Toeing the mound for the Black Indians Sunday will be Tommie Rivers, a veteran hurler for the Haskell colored team.

Making out the rest of the Black Indian alignment will be catcher, Jimmy White; first base, Roy Lauderdale; second base, L. C. Broadway; third base, Billy Davis; shortstop, Cleo Thomas; left field, Ray Lauderdale; center field, Louis Mack; and right field, Lonnie Hill.

It makes each drop of gas say uncle

ACCORDING to combustion experts, there's as much energy locked in a drop of gasoline as there is in a drop of nitroglycerine.

But the problem is to put that energy to work.

So Buick engineers aren't content just to mix that drop with air and touch it off. They've designed an engine that brings it catapulting into a cylinder head where it strikes a turbo-top piston—gets whipped into a churning, swirling ball of tight-packed energy.

Then it's fired. And when that happens, a drop of gasoline certainly lets loose power.

This isn't something that happens in a "car of the future."

It happens in a Buick Fireball 8 Engine today. It's a high-compression engine. It's a valve-in-head engine. But it's also a Fireball in performance as well as name.

And it puts extra power under the hood—and extra miles in the fuel back in the gas tank.

Now, power is great, but what goes with it?

Mister, that's something you ought to find out—and soon.

What goes with it is an automobile as sweet-handling, eager and willing as anything that ever made your pulse leap to a faster beat.

It's a car that seems to know what you

want it to do—true and sure in its course on a straightaway—beautifully balanced on curves.

It's a car with Dynaflo Drive* to feel power with infinite smoothness—and road-hugging levelness of ride that too a million in cold cash to perfect.

And it is, with all this, a very tight bargain. Why not price it, drive it, know it for yourself? We'll be glad to arrange a demonstration.

Homemaking Class Visits Home of Bob Herrens

The third-year homemaking class of Haskell High School made their fifth visit to one of Haskell's new and modern homes last Friday.

The group went through the home of Mr. and Mrs. Bob Herren where many convenient features were pointed out by Betty Jo Herren, a member of the class, and her mother. The young prospective homemakers were shown the large amount of storage space that can be put into a home, as well as the lovely drapery designs and indirect lighting.

The hostesses served refreshments to the girls group after they had made a complete tour of the new home.

They were served small pickles and cheese on tooth picks piercing a Chinese cabbage, porcupine style which made an unusual and attractive center piece.

The third-year homemaking class has also visited the home of Mr. and Mrs. Art McMillin, Mr. and Mrs. Claiborn Payne, Mr. and Mrs. Ed Hester and Mr. and Mrs. R. W. Turnbow this year.
