### Trial of Liquor Cases, DWI Complaint, on Indian Field in Scheduled Monday In County Court Trial of four liquor cases, and as the result of work by an un-

one for driving while intoxicated dercover man of the State Liquor has been scheduled in County Control Board. Prosecution of the sulldogs, who have panel of 24 petit jurors has been the No. 1 slot for called for jury service on the Attorney Royce Adkins,

The four liquor cases have been pending on the docket since March of this year, when they were filed

## Improvements At Indian Stadium Near Completion

Members of the Quarterback Club were told at their meeting Tuesday night that improvements on Indian Stadium sponsored by the club, would be completed in time for Friday night's initial game when the HHS Indians tangle with the Stamford Bull-

The improvements include a new and enlarged pressbox, an electric clock and scoreboard, and new markers for the field. Entire cost of the improvements was borne by the Q-B Club. Members voted Tuesday night to install a telephone in the pressbox, for emergency use when needed

HHS Coaches Royce Smith, Ray Overton, Jr., and Tom Jones reported the 1952 Indian squad as being ready for their opening game against the Stamford Bull-dogs, traditional foes. Coach Smith pointed out, however, that the Indians will be up against a tough assignment in facing the ment and plaster contractor. Bulldogs, rated as the strongest team in District 5-AA. "Toothpeck" Robinson, nefty and experienced Indian center, has been ors: out with an injured knee this

week. Coach Smith reported. Quarterbackers were urged to turn out in force Friday afternoon Eugene D. Rose, R. R. Clark for the HHS Band and Pep Squad rally to be held downtown at 3 thauer, Bruce Young Lynn B. Played October 11 on Indian Field o'clock. The Junior Class will Carlton, Glenn Caddell, C. sponsor pre-game sales of pennants during football season

Q-B members were told. Membership in the club is still considerably under the goal set for the season, President Swinson announced, and urged that each member work toward enrolling Indian fans and supporters a Quarterbackers. A film of the 1950 TCU-SMU Southwest Conference game concluded Tuesday evening's program.

### **Band Boosters** Meet Tuesday, Elect Officers

The Band Boosters met Tues day night, Sept. 9 to elect officers for the coming year.

Those elected were: President-Clay Hattox. Vice President-Belton

Secretary-Mrs. Roy Cook. Treasure-Mrs. Weldon Turn-

The Band Boosters will meet again Tuesday night, Sept. 16, at 7:30 p. m. in the Band Hall. All parents are urged to attend

### Sophomore Class In HHS Elects Officers

The Haskell High School Sopomore Class met Sept. 1 to elect officers for the 1952-53 term. The following were elected: President-Wayne Harris. Vice President-Bobby Stone. Secretary - Treasurer - Don

Reporter-Jimmy McMillen, Class sponsors are Mrs. W. P. McCollum and Haskell Stone.

### Charles Warren of Abilene Now With City Barber Shop

Charles Warren, formerly of Abilene has accepted a position with the City Barber Shop, and began work there last week. The shop has three barbers, Richard Bischofhausen and Bob Harrison

owners, and Warren. Mr. Warren, an experienced barber, is a World War II veteran He plans to locate permanently ir

Haskell. RETURN FROM VISIT

Mr. and Mrs. K. R. Perdue and daughter, Mrs. W. L. Nelso of Abilene have returned home after visiting in the home of Mr and Mrs. Trent Simmons and family of Ray, N. D. Mrs. Simmons and baby, Steven Trent, accompanied them home for a visit.

County Judge Alfred Turnbow presiding for the hearings. Cases scheduled for trial Monday are listed on the county court

cases will be directed by County

docket as follows: State of Texas vs. Jessie Mae charged with sale of whiskey in a dry area. The offense allegedly occurred March

State of Texas vs. Jack Breedlove, charged with sale of whiskey on March 22, 1952.

Two prior convictions against each of the defendants are alleged in the complaints, County Attorney Adkins said. Court records show that Jessie Mae Foster was convicted April 4, 1949, and again on Nov. 12, 1949, for possession of liquor for the purpose of sale. The County Attorney said Breedlove was convicted April 12, 1949 for possession of liquor for sale. and on July 23, 1951, for sale of

When prior convictions are alleged, the County Attorney explained that conviction for the third offense carried a minimum fine of \$400, with a maximum fine

of \$4,000 and four years in jail. Also set for trial Monday are two additional cases charging sale of whiskey in which Anna Clara Whitaker and James Whitaker are named defendants in separate

court actions. Defendant in the DWI complaint set for trial Monday is Robert Owen Miller, Haskell ce-

PMA secretary Joe Harper ex-

Orders taken Tuesday ranged from one ton to 75 tons. clerks in the PMA office said. The 75-ton order was for a Haskell rancher who is feeding 500 head of foundation

By Wednesday afternoon, 92 applications to purchase hay had been processed in the county PMA office, Harper reported, and orders fo 408 tons had been forwarded

A big increase in applications is expected this weekend, and The slow rains, most general Harper estimates that at least 200 since early Spring, were heavier applications will be filed before be required to meet needs of farmers and stock raisers in the Haskell area.

The hay will be purchased in the North, principally in Ne-braska, Wisconsin, Iowa and Minnesota, and will be furnished to the cattlemen and farmers at their unloading point at \$36 per ton for legume hay, \$28 per ton for grass County Agent F. W. hay, and \$32 per ton for mixed

Farmers and stockmen are not permitted to place an order for more than a 30-day supply, but have come through the recent time to time. He is required to pay \$5 per top for the house

> The hay will be shipped to unloading points nearest the largest number of applicants. Most of it coming to Haskell County will be shipped to Haskell and Stamford, PMA officials believe. These two points are nearest the areas where bulk of the feed will

> be needed, it was explained. Virtually all farmers and stockmen in this area were compelled to start feeding livestock during the summer as a result of the drouth, and hay trucked in has been selling at \$58 a ton or more

### locally, farmers reported. Sam B. Pierson, Former Resident, Dies Sunday

Sam B. Pierson, 73, retired banker and land owner of Ropesville, and a member of a pioneer Haskell County family, died Sunday at his home in Ropesville. He had suffered with a heart ailment for several years, and be-came seriously ill following a

heart attack last week. Funeral for Mr. Pierson was held Tuesday at 2:30 p. m. at the First Baptist Church in Ropesville. Burial was in a Lubbock cemetary.

Mr. Pierson had lived in Ropes-

ville a number of years. He organized the First State Bank of that city and was identified with its operation until his retirement from active business. He was the son of the late Mr. and Mrs. M. S. Pierson, earlyday settlers in Haskell, young man he worked in the Has-

kell National Bank, founded by

his father in 1890. He married

the former Miss Bertie Berry of Benjamin in 1900. He is survived by his wife, of Ropesville: two brothers, A. C. Pierson, Haskell banker, and J. C. Pierson of Sweetwater: and three sisters, Mrs. G. W. Waldrop and Miss Mary Pierson of Abilene and Mrs. Oliver Cunningham of

### Haskell Farmers Attend Farm Bureau Meet at Crowell

H. H. Sego, vice president of the Haskell County Farm Bureau, headed a delegation of farmers from Haskell and vicinity attending a Farm Bureau meeting for District 3, held at Crowell

Mr. Sego was among several speakers who addressed the gathering. Other speakers included State Senator George Moffett of Chillicothe, Marvin Carter, district organization director of the Farm Bureau, and O. R. Long of Tennessee, Farm Bureau organization director for the Southwest Region.

In the group attending from Haskell County were Sego, Clinton Herren, H. D. Gammill, Thurman Rice, Elmer Boedeker, N. W Boedeker and Herman Nauert.

Production for Freedom Week—September 7-13

# Electric Power

# PRODUCTION FOR FREEDOM

America must produce more and more to stay free! And the key to that vital production is an abundance of electric power. With only six per cent of the world's population and only a small fraction of the world's natural resources, American workers . . . utilizing enormous quantities of electrical energy . . . produce nearly half the world's goods.

That abundance of electrical power is provided by the heavily taxed, privately owned electric companies financed directly or indirectly by the savings of private citizens. Since 1945 those privately owned companies have spent \$10 billion to increase the nation's electric productive capacity 50 per cent; and in 1954 another \$8 billion will step up generating capacity 100

Here in West Texas, your electric service company by 1953 will have increased its capacity for production 151 per cent since 1945. Yes, the privately owned electric companies have proved their ability to provide more ... and more ... and more Electric Power for Production for Freedom.

# GET MORE POWER AT LESS COST WITH A DODGE TRUC

Puente, Calif.

# "Dodge power really puts out the work at low cost!"

"We use four Dodge 'Job-Rated' trucks in our operation -and Dodge power really puts out the work at low cost! Most of our work is off the highway over mud holes, ditches, and sloppy ground. But that means nothing to a Dodge, because Dodge power pulls us through anything!

"A Dodge truck doesn't 'two-bits you to death' either. Rarely do we have any maintenance expense and when we do, it's legitimate wear and tear we can reasonably expect. Our Dodge trucks are ready to go 365 days a year!"

There's a Dodge truck — 1/2through 4-ton — that's "Job-Rated" for your job.

- Dependable performance with ample power is assured by fea-tures like high-capacity fuel pump, two fuel filters.
- High-efficiency fuel systems on all 8 Dodge engines save gas. Heavier models offer twin carburetion and exhaust systems.
- For smooth power, you can get gyrol Fluid Drive on ½-, ¾-, 1ton, and Route-Van models. See us today for a demonstration—and an extra-good deall

Power with low upkeep! Dodge engines save on maintenance . . . keep your truck on the job. You get such Dodge advantages as exhaust valve seat inserts, chrome-plated top pictor size. plated top piston rings.

### Herren Home Scene Of Gift Shower For Mrs. Thomas

Mrs. Clyde Thomas, the former Miss Ann McFarlin was named honoree when Miss Betty Jo Herren, Miss Rosalie McCall, Miss Bessie Mae Chamberlain and Miss Diane Clare entertained with a gift shower in the Herren home at 706 N Ave. L. Saturday, Sept. 6th from 3 to 6 o'clock.

Guests were met at the door by Miss Herren. In the receiving line were Mrs. Thomas and her mother, Mrs. W. L. McFarlin, Mrs John Thomas and Mrs. J. T. Kerley, mother and grandmother of the groom.

Gifts were displayed on the glassed-in sunporch in its setting of growing plants and greenery from an L-shaped table laid with white linen accented with white satin bows. An arrangement of fall flowers centered the refreshment table which was laid with a chartreuse linen cloth and accented with a silver and crystal punch service.

Bessie Mae Chamberlain pre-

sided at the table and background daughter, Mar music was furnished by Rosalie Texas; her at McCall and Diane Clare. Assisting the hostesses were Mrs. R. W. Herren and Mrs. J. V. Clare. Other members of the house party were the bride's sister and guests called or

We Deliver

TT 7E'LL tell you the answer to that one -VV it's the figures on the price tag.

For some reason, lots of people just can't believe they can buy a Buick at a price so close to "the low-priced three."

Maybe it's because a Buick seems so much better and bigger.

Maybe it's because they think Buick has so much more power and room-which is true.

Maybe it is because so many distinguished

people own Buicks-which is also a fact. But the fact remains-if you can afford a new

car, you can own a Buick - so let's see what you get. You get the thrilling power of a Fireball 8 Engine, that's a gas-saving high-compression

valve-in-head - as much power as you can get in cars costing \$300 to \$400 more. You get as much room as you'll get in cars cost-

ing hundreds of dollars more.

You get a ride that cost an honest-to-goodness million dollars to develop.

You get the silken smoothness of Dynaflow Drive.\*

You get big-car comfort, styling, durability.

Don't take our word for it. Come in and see for yourself why so many folks are stepping up to this great car this year.

Equipment, accessories, trim and models are subject to change without notice. \*Standard on Roadmaster, optional at extra cost on other Series.

### ... Don't let TIME squeeze you ... Get a long-term Federal Land Bank loan

The old fashioned farm mortgage came due all at once. Time was always squeezing folks to pay. Back in 1917, the Federal Land Bank changed this, with a long term loan — the kind you pay back gradually, with payments geared to your farm's normal income. If you're building or remodeling . . . or buying land or want to refinance other debts . . . SEE US NOW for a Federal Land Bank Loan.

## A. O. Richardson, WTU Land Man, Dies In Abilene

A. O. Richardson, 64, employe of the West Texas Utilities Company for 26 years, and well known

Mr. Richrdson was employed as a right-of-way and land agent for West Texas Utilities Company For more than a quarter century he had bought land for right-ofway transmission and distribution lines over the 49-county district he served. His most recent work in the Haskell vicinity was securing right-of-way and lands for the transmission lines and site of the WTU generating plant now being built on Paint Creek, southeast of Haskell.

He was a native of Texas, born July 23, 1888, in Fannin County. He moved to Anson in 1922, where he was in business until moving to Abilene in 1925. He joined West Texas Utilities Company as land man in 1926. Funeral for Mr. Richardson was

held Monday at 4 p. m. at the First Presbyterian Church, Abilene. Burial was in that city. He is survived by his wife; a son and daughter, one sister, and

three brothers; a granddaughter, and several nieces and nephews.

### Assembly Program Marks Opening of O'Brien Schools

The Rev. W. A. Malone, pastor of the O'Brien Baptist Church, was the speaker at an assembly program marking the beginning of the 1952-53 term of the O'Brien schools last week.

Other speakers were R. H Meixner, principal of the high school; Milton Rowan, president of the school board; and G. C.

All the faculty members of the O'Brien schools hold degrees this year, and five teachers have master's degrees.

In the high school the teachers are Meixner, social science and driver education; Mrs. G. C. Herring, English; Aubry Fox, mathematics; F. A. Johnston, vocational agriculture; Neta Clark, vocation\_ al homemaking; and G. C. Herring, business administration.

In the elementary grades J. B Gibson is principal and does departmental work in the sixth, sev-enth and eighth grades; Margie Lowery teaches in the six, seventh and eighth grades; Margaret Waldrip, fourth and fifth grades: Mrs. Gladys Fox, third grade Mrs. Marie Gibson, second grade and Mrs. Ruth Robin, first grave

## Home Fire Co. 4 Rising; Here Are Prevention Tips

It costs much more to have a destructive home fire than it used

In a warning to home owners in connection with National Fire Prevention Week, the Tile Council of America reports insurance figures which show that inflation has come close to doubling all

property replacement expenses. Advising greater use of fireproof materials in home construction, and better housekeeping methods to prevent conflagrations, the Council offers these timely suggestions for reducing property losses due to fire:

1. Kitchens are especially susceptible to fire because of cooking operations. There were about 57,000 kitchen blazes in this country last year alone. There-fore, the more extensively fireproof materials such as clay tile are used, particularly around the range, the less likelihood of

flames caused by grease.

2. Wise selection of a heating system is important. The plant should be properly installed and insulated, and located as f a r from inflammable materials as

3. The garage is a third leading site of home fires. If walls and floor are surfaced in fireproof material such as clay tile, which also may be washed free of blazefeeding grease and oil quickly the garage can be as fireproof as any room in the house.

planning Sensible home calls for a basement which dis-courages collection of rubble that frequently is the source of spontaneous combustion. Good storage facilities are especially important in the basement for this reason. 5. Wiring should be of the best quality and installed by experts, in order to prevent short circuits.

HASKELL MINISTER ATTENDS SYNOD

Dr. R. K. McCall, pastor of the First Presbyterian Church, attended the Synod of Texas, held Tuesday at Mo-Ranch, near Hunt, Texas.

# Vation's Livestock Markets Have Biggest Run Since 1948

House Plan No. 30

# Livable, Two - Story Farmhouse

be interested in this Farm and workroom. Ranch Plan No. 30. It has been prepared for those who want spacious living areas, yet must consider cost when they build.

We have tried to provide lots of those housewife pleasers, comfort and convenience, in the arrangement of the kitchen and workroom area. You can serve family meals, even for a large family, in the kitchen and feel like you're in the wide, open spaces. This eating area is com-

two-story home? If so, you will pantry, and cabinet space in the

All three bedrooms provide spacious living and have an abundance of closets. The two hall closets will serve as ample storage for linens and cleaning supplies

By putting an extra stack in the fireplace chimney and using the chimney from the kitchen, it would be very easy to heat this entire house with ordinary space heaters. Every room is easily accessible to a chimney.

Everyone enjoys lounging in pletely out of the work area spacious, well ventilated and There is plenty of cabinet space lighted area on a typical southern

Are you interested in building in the kitchen, in addition to the summer day. This living-dining area and screened porch will be just that. It will be ideal to arrange this house so that your pre-vailing breeze will come in at the left corner of the dining room and

send coolness through the house.

If you do not need a basement the space under the stairs could easily be made into a small powder room or used for additional storage space.

For those who would like a basement, we suggest that the workroom be replaced by a small stoop at the kitchen door. An outside entrance to the basement can be made under the stairway A door is left for that purpose We suggest that an outside basement door be provided immediately back of the kitchen.

You can obtain blueprints for this Haskell Free Press-Farm & Ranch Plan No. 5030 and a handy list of materials by which you can figure your construction cost accurately. Send \$1 to Building Editor, Farm & Ranch-Southern Agriculturist, Dept. L-98, Nashville, Tenn. Order by number-Plan No. 5030. Blueprints are adequate for any farm carpenter or for any farmer handy with tools

### Cancer Usually Curable in First Stages

Fear of cancer cannot help its victim and unreasonable should be replaced by intelligent action concerning this disease, is the opinion of Dr. Geo. W. Cox State Health Officer.

The doctor said in a statement this week that cancer can usually be cured in its earlier stages. This has been demonstrated by the fact that many persons have been treated successfully by surgery, radium, or x-ray and are living now, many years after a definite diagnosis of early cancer was made. Many people postpone diagnosis when they suspect cancer either because they dread to hear the truth or because they believe

that cure is impossible.
"In the treatment of cancer time is the most important fac-tor," Dr. Cox said. "To produce satisfactory results, treatment must begin early in the cure of the disease while the cancer is still confined to a small area. Persons suspecting cancer should con. sult their physician as soon as they notice an unexplainable lump sons suspecting cancer should consult their physician as soon as they ntoice an unexplainable lump, unusual discharge a, persore on any part of the body, or any change in the appearance of a mole or wart. It is often dis-astrous to wait for pain since this is a late symptom that usually doesn't occur until the maglignant growth has made considerable

advance.' The value of early diagnosis cannot be stressed too strongly ac-cording to Dr. Cox and that is one reassn why regular periodic examinations are recommended particularly for those of middle or old age.

Low or "penalty" cotton grades can be avoided if more emphasis is placed on harvesting, both hand and mechanical. Pick only dry cotton and do not tramp it into a trailer are good rules to follow. Also, early stalk destruct-ion will reduce the insects next

U. S. Presidents Thomas Jeff-erson and John Adams both died

### "Save The Shade Trees" Advice To Homeowners

Shade trees in Texas are in poor condition now as a result of two extremely cold winters out of the last four and two years of unprecedented drouth, says G. M. Watkins, pathologist for the Texas A&M College system.

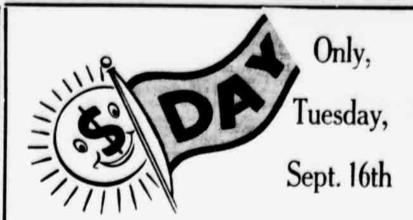

To improve the condition of trees, they should be watered and fertilized. To accomplish this build a circular dike of soil around the teee sufficient to hold water 4 inches deep in the basin thus enclosed. The diameter of the basin should be equal that of the shade canopy of the tree. For very small trees or shrubs a diameter of 6 feet is suggested.

Spread a commercial fertilizer over the soil within the dike. The formula and rate of application will depend on the inherent fertility of the soil. As a starter one pound of 5-10-5 or 8-8-8 per 100 square feet of soil surface is sug-

Fill the basin with water to a depth of 4 inches and allow to soak in. During the hot, dry part of the year watering can well be repeated every week or 10 days but discontinued during wet sea-

Repeat the fertilizer application every thirty days during the growing season, withholding fertilizer as the tree starts to go into dormacy. Always water well every time fertilizer is added.

Brigham Young was reputed to have left 19 wives and he was the father of 57 children.

### Social Security Representative To Be Here Sept. 18

Ralph T. Fisher, manager of the Abilene office of the Social Security Administration, will be it Haskell at the Chamber of Commerce at 11 a. m. on Thursday Sept. 18. Persons wishing help in connection with retirement claims or death claims under the Social Security Act are invited to call at

Persons in this area receiving old age survivor insurance payments are due for a raise when September checks are received about October 5, according

Fisher stated that the increase will average about \$6.00 with some people gettng more and others less. In fact some family groups, the increase will be only to the retired worker. He stress-ed the fact that there is no form to complete, nothing to sign, and that there is no need to get in touch with the social security office to receive the raise. It is automatic and is based on the present payment.

Future social security claimant's will also get the advantage of the change in the law. Provision has been made for them to have the higher payment rate from the time they start receiving their first checks.

### WTUC Granted Tax Write-Offs on New Paint Creek Lines

According to a news dispatch from Washington, the West Texas Utilities Company last week was granted fast tax amortization for transmission lines running from its Paint Creek generating plant now under construction southeast of Haskell, to Abilene, Stamford, and Haskell.

The West Texas company's application was one of 18 electric power projects granted fast write-offs by the Defense Electric Power Administration Thursday. It is estimated the entire group will increase the nation's electric power supply up to 80,000 kilowatts.

West Texas was granted the rapid amortization at a 40 per cent rate on \$100,790 for construc\_ tion of the line to Stamford; at 55 per cent on the \$426,917 erection of the Abilene line; and 55 per cent on the \$72,637 construction of the Haskell line.

### Cases of Typhus Fever Reported In Various Sections

Typhus fever continues to make its appearance in various counties of Texas, says Dr. Geo. W. Cox, State Health Officer, Like typhoid fever, most cases appear during the summer and fall and all citizens are urged to help control the spread of typhus by assisting in exterminating rats.

"There is only one way in which typhus can be controlled," Dr. Cox said, 'and that is by, as nearly as possible, completely exterminating rats in the State, since fleas from infected rats transmit the disease to man. We can begin to visualize the extent of the needed extermination campaign when we realize that there is es-timated to be 13,000,000 rats in

There has been some confusion concerning the type of Typhus Fever which is occurring in Texas, but Cox pointed out that this disease is entirely different from the old world type which has fol-lowed some of the armies in Europe. Ordinarily the kind of ty-phus which makes its appearance in this section of the country is not a fatal disease although there has been a death rate of about 2 per cent from typhus this year

The poisoning and trapping of rats throughout the State will help to centrol the spread of this disease although these are temporary measures. In order to be permanently rid of rats they will have to be starved out, which means that buildings housing food supplies must be rat proofed.

It should be remembered that rats cost the householder millions of dollars each year in the amount of food they either eat or

This year's pullets should be-gin to pay off. Because produ-cers reduced their flocks earlier storage stock are on the decline and the market has strengthened. Feed prices remain high but feedegg ratios have become favorable for the first time in months.

# Making Budget Work Is Family Affair

Setting up a budget and making work is a family affair. Eula Newman, home management specialist with the Texas Agricultural Extension Service points out that in successful families all members help make the budget and agree on how the money is to be

A budget is simply a spending and saving plan which gives a family control over disposal of its
