Actual sales figures throughout the country show that sales have doubled over last year as America goes for "The Big One!" And why not? In the new Dodge you'll find "solid gold" luxury and value-for only a few dollars a month

more than you'd pay for one of the "low price three." In its class, it actually costs less than cars up to 9 inches shorter. And its flair-fashioned styling is stealing the "Oh's" from cars costing a thousand dollars more. The rush is on . . . with 17 magnificent new Dodge models to choose from. So head for your Dodge dealer's . . . and take your pick!

Breakfast and Installation Service Held By Harmony Club as Final Program of Year Wins State Award

The Haskell Harmony Club closed the season for the 1954-55 club year with a breakfast New Officers for and installation service at the club room of the Texas Cafe Carild Installed Wednesday morning, May 4.

The president, Mrs. Tommye B. Hawkins extended greetings to members and guests, and Mrs. John Barry gave the invocation. Highlighting the program was

a descriptive travelogue with col-or pictures by Mrs. V. W. Meadors, Sr., and her daughter, Martha, based on their recent tour of the principal cities of Europe. Each country visited, France, Germany, Holland, Switzerland and England was well portrayed in her interesting and educational talk. The speaker brought each scene typical of styles, manners and mode of travel to yiew. Of special interest were the Eiffel Tower, Westminister Abbey, the Queen's Palace, Shakespeare's home and the Appian Way which was originally a mere trail.
Mrs. C. L. Lewis installed the

new officers in a musical setting and as each officer was intro-duced, Mrs. O. E. Patterson a piano number emphasizing the officer's work.

Mrs. J. F. Cadenhead, Sr., presdent, was installed with the song "A Stranger at the Door;" Mrs Meadors, vice president, "There's a Long, Long Trail;" Mrs. A. C. Foster, Jr., second vice president, "Trust and Obey;" Mrs. Tannye H. Squyres, "A Charge to Keep;" Miss Beryle Boone, corresponding secretary, "Katy's Letter;" Mrs. J. M. Home Council met in the recreation parlor of the First Baptist Church for a program honoring National Home Demonstration Week.

The council was called to order by Mrs Paul Cothron and were told to select a nominee for the delegate to the state convention which meets in Fort Worth Aug.

Mrs. Marlene Conder of Rule gave the report of the 4-H clubs of the county saying there were 10 4-H clubs in the county, one new club being organized this year for Senior girls and 214 4-H club members in the county. The girls have worked on dairy foods and bedroom improvements this year. Last year the county had 5 district 4-H winners and 1 state winner. This year 5 district winners and 3 of 6 district 4-H contests open to girls. There will be another district contest in August which will include the following organized 4-H council. achievement day, bake show and county contests and have planned a tour to see bedroom improvements. There will also be a

summer sewing workshop. Edith Murray sang a solo accompanied by her sister, Miss Myrtle Murray. She also played the piano during recreation.

Mrs Rex Murray reviewed the book, "Good Morning Miss Dove." There were thirty-four present for the program.

### Space, Not Size, is Requirement for Modern Home

DENTON-Space, not size, is what today's family needs in a home-free unencumbered space. says Ray Gough, associate professor of art at North Texas State College.

You achieve space by planning your home with "areas" for the various home activities which are flexible, he reports in an isited relatives and friends here article, "Functional Housing for Contemporary Family Living in the April Journal of Home Economics.

She and her family and guestday use these same spaces, with slight changes, for conversation, games, music, television viewing, study, or sleeping.

Today's house may of necessity have to be smaller than the house of a few decades ago, says Gough, "but it need not seem smaller. Useful space is not measured entirely by the tape measure."

In building this functional ouse for the contemporary family, furniture should be carefully correlated with it. Mechanial aids are important. Gough recommends extension, folding. or stacking features for furniare to aid in space-saving.

"The principal point apparently involves use of artificial baits that is so far as the residentia individual is concerned, because the state law requires persons using artificial bait to have ; regular state fishing license. Persons not susing artificial balt may fish in their own home counties without a license, under the general law."

The Assistant Executive Secretary said that until the record drouth set in a few years back, there had been a tremendous trend toward creation of private lakes or ponds for personal fishing facilities.

"Our best estimate is that there are upward of five thousand such lakes or ponds," he said. "These projects naturally have been encouraged on the theory that development of private fishing facilities takes just that much pressure off public waters."

retary said the fact that some of the private lakes or ponds have been stocked with fish from state hatcheries has no bearing on the personal license regula-

Smith, along with 18 other directors of the Texas Soil Conservation District Supervisors, was present in the governor's office in Austin March 14 when Governor Shivers proclaimed May 9 to 15 as Soil Conservation District Week in Texas. In signing the proclamaition,

Governor Shivers pointed out: Realizing that much progress has been made in conserving our vital natural resources, soil and water, but recognizing the fact that each year thousands of acres of our soil suffer from wind and water erosion, vast areas of our range and timber land becomes more depleted and large quantities of our water resources are lost, all to the detriment of Tex-Texas land owners have organized 171 soil conservation districts covering more than 97 per cent of land of Texas, are proving that known conservation Hatch of Albuquerque,, N. Loafing Hens Are Expensive

A hen that lays 250 eggs a year eats only 25 to 26 pounds of feed more than one that doesn't lay

That's evidence enough why producers can't afford to feed a non-producer, says County Agent F. W. Martin.

A 4-pound non-laying hen will eat about 56 pounds of feed a year, while the same bird that lays 250 eggs yearly will consume about 81 pounds.

Feed costs make up 60 per cent or more of the total cost of producing eggs, says Parnell. By culling closely, producers can cut feed costs per dozen eggs and help maintain their profits.

Go along the roost at night with a flashlight and check the health signs of hens in production. Look for enlarged combs cake, pound cake, ice cream and and wattles with a bright red color. They feel soft and waxy.

rain Sunday night and Monday night. Some parts of the community reported one fourth inch and some parts reported one and a half inches. Every drop was appreciated, and though the grain can't benefit too much from it. or the wheat at least, it is just wonderful for the little maize and oats, the cotton land ready to be planted, and these poor burned up gardens and yards. Not only does the thirsty land look better this Tuesday morning, but it is amazing what some rain has done for the feelings of the farmers. They all wear smiles from ear to ear, and they all laugh and joke as they compare amounts rain on their places.

It takes a lot of patience to be farmer anyway. When a fellow buys expensive seed and fuel for his tractor, and puts in long hard hours working his land, and then watches it all burn up and there's nothing he can do about it, brother, it takes intestinal fortitude to go on. Then when he watches it burn up for three years straight, and still he keeps trying, even though he may have borrow to buy seed and fuel make another crop-he's a farmer. Most of us would trade jobs with anybody, though. Just to look out over a field of wheat or cotton that has wrestled away from the and the weeds and the weather, and see it all ready to harvest, and know just we and the good Lord's rain and sunis soul-satisfying. Of course it has been three or four years since we have had such soulsatisfaction. But maybe this is the year. Anyway, we're very grateful for the rain.

# A Tribute . . . To Our Hospitals

Someone once said that all well people should visit a hospital occasionally to see how fortunate they are. When a friend or loved one is being tenderly cared for in one of our hospitals, then we understand the great importance of these institutions. Staffed with doctors, nurses, internes and all manner of life saving equipment, the hospital is mercy headquarters for all who are suffering. We never cease to wonder at the modern miracles performed in our hospitals. Their works go largely unheralded. But their eagerness to bind up wounds and make men whole again goes on forever. What would we do without these havens of healing?

### Trashy Plowed Fields Conserve Soil, Moisture

Maize stubble bedded out on top of the land breaks down by spring, and provides a form of low-cost water conservation, farmers of the California Creek Soil Conservation District have learned.

J. M. Dubose, northwest of Anson, was one of many farmers in this area who left maize stalks on top of the land. Dubose said he was surprised at how fast the stalks broke down over the winter. Many farmers saw this land that was plowed trashy last fall. Some had doubts about plowing trashy land in the spring. Look now at those fields. The trash is there, but the old stalk is rot-

During the winter clean fields lost snow, which caught in trashy fields. Charlie Pyron near Truby. said extra snow covered his maize stubble. Soil Conservation Service personnel plan with district cooperators for trashy farming. Stubble is the cheapest of water conservation measures. The cost is, you plow so that stubble is left on top of land rather than turned turned under Stubble cuts wind velocity at level. Rain goes in the ground ground that is covered with stubble. Stubble lowers ground temperatures; thereby, it lowers evaporation. Bare soil runs a temperature of 140 degress in the summer. Most hot water heaters are set for 140 degrees which is

bert Williams, apparently was none the worse Sunday after-noon after having a 22 caliber bullet removed from his back after he had been wounded by the accidental discharge of a small rife. Hospital attendants said the injury was minor.

The boy, who lives with his parents on a farm in the Curry Chapel section, was handling the rifle Sunday afternoon when the gun was accidentally discharged. The builet struck the boy in the right side below the ribs, and ranged toward the back. The lad was brought to the Haskell Hospital where surgeons located the pellet just under the skin near the spine. The bullet was removed, and after receiving emergency treatment the boy was released from the hospital.

The accident, which happened about 3 p. m., was investigated by Deputy Sheriff Jim Alvis. who said that all indications were that the mishap was purely ac-

Chevrolet's great new L.C.F. models bring you all the advantages of a C.O.E. -plus a long list of important new advances you won't find anywhere else.

For example, the cab is a full seven inches lower than former C.O.E. models. And it has only two steps instand of the usual three for C.O.E.'s. Just think of the time and effort this will

save the driver! Also, the low L.C.F. is handsomer by far than any C.O.E. ever built!

Inside, the L.C.F.'s new Flight-Ride cab has a level floor with plenty of "stretch-out" leg room and offers new drives comfort. The driver has a commanding view of the road-both far ahead and close up front-through the big, broad panoramic windshield.

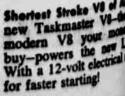

Quicker, simpler maintenance is another big advantage offered by the new L.C.F. Everything's easier to reach in the roomy engine compartment.

In an L.C.F. you still get the easy maneuverability of a C.O.E. plusnew frames, new suspension, a whole truck-load of modern features!

LOOKED AT YOUR MAILBOX LATELY? . . .

### Rural Mailbox Improvement Week Stresses Value of Attractive Box

third Monday in May has been designated officially and permanently by the Post Office Department as Rural Mailbox Improvement Week.

It is a project worthwhile not only from the standpoint of the rural carriers, but to the patron as well, because mail service is definitely improved where the patron has a mailbox properly located and erected, and with an approach which is free of ruts and obstructions. In addition, a well placed and painted rural mailbox is an attractive addition to the farm or home surround-

See that posts are securely erected-are not leaning badlyand that box is fastened secure-

Replace obsolete box if it hard to get mail into it, or if it is hard to see into it for letters

that you want mailed. Name should be side of box which carrier ap-proaches (or can be on front of box if several boxes are grouped

together) It is a big help if several boxes are neatly and closely placed on a plank extending between

two posts. Bottom of box should be 42 inches above roadway, and be on an arm extending out away from the post, in such a manner that it can be easily reached, with all obstructions (including snow and parked cars) promptly removed.

Drive your own car up to your box. If you can easily reach your mail from behind the wheel of your car, reaching out the right hand side as the carrier is required to do, then the chances are that your box is pretty well located. But better yet, talk to your carrier about the proper location, and the correct set-

Your carrier serves this box 305 days every year. If it is correctly set, it lightens his work and saves him time so that he can more quickly serve other patrons farther along his route and saving his time can save the Government money).

This will be appreciated, for with the rapid development of housing on acreages, the work load of most rural carriers has more than doubled in the past ew years

Your mailbox is the front door o your home. Since it is usually in front of your home, its leat appearance will add considerably to the neat appearance of your home. Ruts filled-box white-possibly a few flowers planted behind it.

### Fined \$548 On Two Court Charges

Aspermont Man

was out \$548.40 in two fines levied in County Court Tuesday and in addition lost his automobile in a forfeiture case-all as a result of trying to outrun officers after they had attempted to stop him. Also, officers had previously confiscated 40 cases of Jax and Budweiser beer, which was found in his car.

ng, and DWI had been pending against the man since March 24. when he was taken in custody by Highway Patrolmen and members of the Sheriff's department after a chase of several miles. The incident occurred in southwest Haskell County.

After his arrest, the Aspermont resident had been at liberty under bond. When his case came up in County Court Tuesday, he entered a plea of guilty on two complaints. He was fined \$400 and costs on the transporting complaint, and \$100 and costs on the speeding complaint. Court costs were \$24.20 in each case, for a total of \$548.40. Also, he lost his car in forfeiture proceedings, County Attorney Curtis

A DWI case is still pending against the man, the county prosecutor said.
