Harold Spain was program di-rector for the meeting, and in-troduced the Wichita Falls man. Blanton's talk was on a timely subject, "Politics." Geographic and economic positions have an important bearing on the politics of a nation or region, Blanton told Lions. He pointed out that England and France have a number of political parties, while the United States only has two major parties, and a few "splinter" parties.

The speaker stressed the im-portance of the individual in politics as the means of having voice in local, state and national government. He admitted that he had only attended his first precinct political meeting

With more and more citizens becoming interested in politics and government, Blanton said that his hearers might definitely see the forming of two definite parties in Texas. He cited the growing strength of the conservative element which now has a strong influence in Texas politics.

Revival at First Baptist Will Feature

A rather unique sort of revival plan has been worked out for this summer, says Pastor M. D.

The outstanding Youth Revival leam of Rev. Bo and Dick Baker will lead the revival services. These two fine young men had much to do with the movement that made Youth Revivals not only famous but genuinely effective. This evangelistic team has been the feature attraction of many of the city-wide Youth Revivals throughout Texas and the South. The Baker brothers will have complete charge the second week of the revival.

The revival, says Pastor Rexrode, will be carried on under the direction of the young people of the church. Some eight or ten committees have already been

#### TO THE VOTERS OF PRECINCT

I greatly appreciate those who voted for me and I thank you beyond expression. I will say some people said my defeat was caused by me voting for Eisenhower. I have never cast a vote during my life but what I thought I was doing it for the best for my country. And I didn't seek election on sympathy but sought it on my qualifications. I have never thought of being a "cry baby" therefore I didn't cry for sympathy. The Bible says all things work together for good to them that love the Lord. Therefore I believe that is right because if I had won some of my supporters may have got too much "mountain dew" in their rejoicing over my election and got put in jail!

Cattle and calves sold in active trade at fully steady to stronger prices at Fort Worth Monday. Numerous spots were 25 to 50 cents above last week's close. The salesmen were asking substantially higher prices on most kinds and buyers were inclined to resist but apparently needed supplies badly enough to make

concessions. Good and choice slaughter steers and yearlings drew \$18 to \$21.25 while common and medium grassers sold from \$10 to \$17. Stocker and feeder steer yearlings sold mostly from \$12 to \$17, with some choice feeders to \$18.50.

Fat calves drew \$15 to \$18.50 when good and choice and some yearling kinds sold to \$19 and

better. Common and medium sorts sold from \$10 to \$14, and culls from \$8 to \$10.

Stocker steer calves of the better kinds sold from \$15 to \$19 and plain sorts sold from \$12 to \$14. Heifer calves ranged around \$2 under steers.

Fat cows drew \$9 to \$12, and canners and cutters cashed at \$6 to \$9.50. Bulls drew \$8 to \$12.50 a few to \$13.

Butcher hogs moved to a \$23 top at Fort Worth Monday and this represented a 25c advance over the Friday close. Some of the heavy butchers were more than 25c higher, and some weighing up to 260 pounds and better drew the top prices.

Sows were steady to 50c higher and sold from \$13 to \$18.50.

Melva Jean Andress, daughter of Mrs. Willie Andress, Rt. 3, and Felton M. Everett, son of Mr. and Mrs. Trav Everett, were married Sunday evening in the East Side Baptist Church.

The Rev. Raymond Elmore, brother-in-law of the bride, officiated at the double ring ceremony. The archway was centered with white wedding bells and flanked with baskets of white gladioli. White satin covered the prayer bench.

Matron of honor was Mrs. Ray Elmore, the bride's sister from Woodson, Roy Everett, brother of

the bridegroom, was best man. Bridesmaids were Mrs. Eugene Hester of Ardmore, Okla., and Glenda Davis, both cousins of the bride.

Ushering were Rice Alvis, Jr.,

osnering were Rice Aivis, Jr., and Olen King.
Pianist, Mrs. Wilda Medford accompanied Mrs. Roy Everett as she sang "I Love You Truly,"
"Tell Me Why" and "The Lord's Prayer."

The bride, given in marriage by ner mother, wore a satin floor length dress with lace covered fitted bodice which came to a point in both front and back. A round neckline and lace sleeves coming to points over the hands completed the design. Her rhinestone jewelry was a gift from the bridegroom. The bridal bouquet was white carnations showered with white stephanotis arranged on a white Bible.

An aunt and uncle of the bride. Mr. and Mrs. Woodley Davis. hosted the reception in their home. The table was laid with lace cloth centered with the bridesmaid's bouquets. The three tiered wedding cake was topped with a miniature bridal couple.

A navy linen sheath dress with white linen box jacket was worn by the bride on the wedding trip to New Mexico. Her accessories were navy and white. The bride was graduated from

Haskell High School in 1954 as valedictorian of her class. The bridegroom was graduated from HHS and is employed by Henderson Service Station. They will live at 204 North Avenue D.

#### Haskell Camp Fire Girls Attend Camp Wetexa During Past Week

The West Texas Area Council held their annual week of camp last week at Camp Wetexa, on t h e Lueders Encampment Grounds, Haskell was well represented at the annual camp, with a number of the Tanda Camp Fire group attending the this city.

The girls reported a wonderful time besides learning how to do and make many new things, along with receiving numerous honor beads for each of the seven crafts presented in Camp Fire

The girls began their day at 6:45 each morning, breakfasted at 7 o'clock and had morning singing at 8:15. Six classes were held daily, three in the morning and three in the afternoon. Morning classes started at 9 and continued until 11:45, followed with lunch at 12 noon. A rest period was observed until 2 p. m., then classes were resumed until 5 p. m.

Dinner was held at 6 p. m., and each girl dressed in the camp costume for dinner at night, wearing white blouses and blue Wednesday night the camp had

a weiner roast down by the river and a program presented by service. On the preceding Tuesday night each cabin had presented their talent.

Thursday night was guest night when mothers and fathers came to the camp for dinner and a program was presented which included a stunt from each cabin. Friday, the final night of the

camp, the girls had a Council Fire where the beads and honors were presented to each girl. The girls won "Polly Wog." Frog and "Fish" badges in

passing their swimming tests. Outdoor craft taught many things including a game their mothers used to play, "O'Leary," for which they received an honor

#### **Sprinkler Irrigation** 1-3 Down

ADVANTAGES OF PORTABLE SPRINKLER IRRIGATION OVER SURFACE IRRIGATION

SOIL ECONOMIES

1) Portable sprinkler irrigation can be used on land of any contour-flat or hilly. Land formerly regarded too irregular for irrigation can be utilized. 2. Expensive land leveling operations can be eliminated. Top

soil is not disturbed; no baring of less fertile land. No waterlogging or drainage problems. Water can be applied at any rate, from as low as one-tenth of an inch, up to an inch or more per hour.

#### INSTALLATION AND OPERATING ADVANTAGES

1. No plowing of furrows to distribute water, an operation that requires great care to get uniform distribution. 2. With portable sprinkler irrigation, time and labor lost in opening and closing borders, ditches, gates, etc., is saved.

3. Nothing to interfere with cultivation. When the sprinkler system is not in use, it may be removed from the field to permit working the land freely.

4. When fields are too dry for plowing, you can save valuable time by sprinkling. This softens the earth and prepares the ground for seeding.

You get more good out of your fertilizer dollars. Sprinkling does not disturb the even distribution of dry fertilizers. When centrifugal pumps are used, some types of soluble fertilizers can be economically applied by introducing the solution into the sprinkler line through a hose on the suction side of the

6. There are no ditches or other obstructions to take up crop space, interfere with cultivation, or to harbor weeds. No flooding to distribute weed seeds throughout the field. You actually use less water with sprinklers than you do

with surface irrigation. You eliminate the deep percolation that sceurs around ditches.

#### WHY YOU AND YOUR CROPS DO BETTER WITH SPRINKLER IRRIGATION Plants not only start faster but grow faster because air is

not excluded from the roots by standing water which interrup's growth. The yield per acre and quality of your crops can be im-

proved when you have the accurate control of moisture at the root zone that portable sprinklers give you

Plants require the greatest quantity of nitrates during their maximum growth period. It is more efficient to apply the required quantities in several applications, through irrigation water, than applying it all at the time of planting and having much of it leached out beyond the root zone before the plants

By having water when they need it, crops mature faster, can be marketed early when prices are high.

Even in years of average rainfall there are often dry spells that slow down plant growth. An inch or two of water at those times may mean the difference between profit and loss. In years of drought, you have "crop insurance" with port-able sprinklers. Because the systems can be moved to any loation quickly, you can save crops that might be totally lost.

## Nation's Farmers By Slim Margin

The Agriculture Department at Washington reported Monday that the nation's wheat farmers voted 195,801 to 71,303 in favor of controls on next year's crops. The margin for controls, how-

ever, was only 73.3 per cent, a record low. The total vote also was light. The results mean the government will continue to pay high support prices for wheat, anywhere between 75 and 90 per

cent of parity, depending on what

figures Congress finally decides on and the President accepts. At the same time, the farmers voted to go along with the toughest controls ever on next year's plantings. The 1955 acreage allotment has been set at 55 million acres for wheat, compared with 63 million this year.

Agriculture Secretary Benson issued a statement after the unofficial totals were tabulated, saying the acceptance of marketing quotas shows most of wheat farmers recognize the "serious" surplus problem and are "willing to make production adjustments to help bring supplies into better balance with demand."

The margin for controls another crop year-73.3 per cent-was not very far above the 66.7 per cent required to continue them. It was far under expecta-

#### Use of Additional Salt Advised In Hot Weather

Austin—There is little doubt that summer is here. If you don't think so, take a quick look at your thermometer or feel your shirt or blouse-chances are that it will be wet and salty with

Excessive sweating means the loss of body salt, and Dr. Henry A. Holle, State Health Office advises the use of salt in drinking water as a means of avoiding heat cramps.

"Salt is a prominent constituent of sweat," says Dr. Holle. "On days when the thermometer goes to 90 degrees or above, as it has recently, the body loses as much as fifty grams of salt. Laborers, farmers, and even white collar workers should be especially watchful of heat cramps."

Heat cramps are characterized by pains in the stomach, headaches, and sometimes nausea and vomiting. The danger comes because the loss of salt may occur without the knowledge of the individual until the deficiency causes cramps or heat fag.

Salt tablets may be purchased commercially. If they are not available, a pinch of table salt will serve the same purpose "Since milk contains more salt than water, drinking milk is an excellent method of replacing body salt lost through perspira-tion," Dr. Holle says.

## Look at the 3-way bonus you get in the car that's sweeping the nation!

1. You get the car that's styled for tomorrow

and for just a few dollars more than the so-called "low-price three"!

In Buick today you find the fresh modern beauty that will pattern the styling of other cars yet to come. That's a major reason for Buick's soaring success this year. But the clincher is Buick's low delivered price-lower than you think, No other car at so low a price gives you this advanced styling-plus Buick's 2. You get the car that's a sure high resale value

Of this you can be sure: the new Buick you buy today will look modern next year, too-because that broad panoramic windshield will be appearing on other cars as a 1955 feature. So with the new Buick you buy now, you'll stay right up in the style parade for years to comeand command a higher resale price when you trade it in.

3. You get a bigger allowance from our volume business

Regardless of price class, Buick today is outselling all other cars in America except two of the "low-price three." That's fact. So with this tremendous sales volume, we can offer you a higher trade-in allowance when you buy a new Buick. Come in, see and drive Buick the beautiful buy. Then see for yourself how our volume business means a far bigger allowance for you.

Constitution of the State of Texas creating the State Building Commission and determining the embership thereof; creating the State Building Fund providing for State Building Fund providing for the surplus in the Confederate Pension Fund to be transferred annually to the State Building Fund; providing for the expendi-ture of such fund under the di-rection of the Legislature; providing for the expenditures of a lim-

ited amount of the building fund for the erection of memorials under certain conditions and limitations; providing for an election thereon, the proclamation of such election, and the form of ballot. BE IT RESOLVED BY THE LEGISLATURE OF THE STATE OF TEXAS:

Section 1. Article III of the Constitution of the State of Texas shall be hereby amended by adding thereto a new section to be known as Section 51-b and reading as follows:

"Section 51-b. (a) The State Building Commission is hereby created. Its membership snail consist of the Governor, the Atorney General and the Chairman of the Board of Control. The Legislature may provide by law for some other State official to be a member of this Commission in lieu of the Chairman of the Board of Control, and in the event said State official has not already been confirmed by the Senate as such State official he shall be so confirmed as a member of the State Building Commission in the same manner that other State officials are confirmed.

"(b) The State Building Fund

is hereby created. On or before the first day of January following the adoption of this amendment, and each year thereafter, the Comptroller of Public Accounts shall certify to the State Treasurer the amount of money necessary to pay Confederate pensions for the ensuing calendar year as provided by the constitution and laws of this State. Thereupon each year the State Treasurer shall transfer forthwith from the Confederate Pension Fund to the State Building Fund all money except that needed to pay the Confederate pensions as certified by the Comptroller. This provision is self-enacting. The State Building Fund shall be expended by the commission upon appropriation by the Legislature for uses and purposes set forth in subdivision (c) hereof.

"(c) Under such terms and conditions as are now or may be hereafter provided by law, the Commission may acquire necessary real and personal property, salvage and dispose of property unsuitable for State purposes, modernize, remodel, build and equip buildings for State purposes, and negotiate and make contracts necessary to carry out and effectuate the purposes herein mentioned.

The first major structure erected from the State Building Fund shall be known and designated as a memorial to the Texans who served in the Armed Forces of the Confederate States of America, and shall be devoted to the use and occupancy of the Su-preme Court and such other courts and State agencies as may be provided by law. The second major structure erected from the State Building Fund shall be a State office building and shall be used by whatever State agencies as may be provided by law.
"Under such terms and condi-

tions as are now or may hereafter be provided by law, the State Building Commission pend not exceeding five (5%) percent of the moneys available to it in any one year, for the purpose of erecting memorials to the Texans who served in the Armed Forces of the Confederate States of America. Said memorials may be upon battlefields or other suitable places within or without the boundaries of this State. The authorization for expenditures for memorials herein mentioned shall cease as of December 31, 1965.

"Under such terms and conditions as are now or may hereaf-ter be permitted by law, the State Building Commission may expend not exceeding Thirty Thousand (\$30,000.00) Dollars in the aggregate for the purpose of erecting memorials to the Texans who served in the Armed Forces of the Republic in the Texas War for Independence. Said memorials may be erected upon battlefields in cemeteries, or other suitable places within or without boundaries of this State. The authorization for expenditures for memorials herein mentioned shall ease as of December 31, 1965.

"(d) The State ad valorem tax on property of Two (2c) Cents on the One Hundred (\$100.00) Dollars valuation now levied under Section 51 of Article III of the Constitution as amended by Secion 17, of Article VII (adopted in 1947) is hereby specifically levied for the purpose of continuing the payment of Conferedate pensions as provided under Article III, Section 51, and for the establishment and continued maintenance of the State Building Fund here-

by created.
"(e) Should the 53rd Legislature enact a law or laws in anticipation of the adoption of this amendment, such shall not be invalid by reason of their anticipatory character."

Sec. 2. The foregoing amendment shall be submitted to a

vote of the qualified electors of exas at the general election to e held throughout the State on the first Tuesday after the first Monday in November, 1954, at velich election those favering such amendment shall have printed or written on their ballot the

following: FOR the amendment transfer ring that portion of the Confederate Pension Fund not needed for the payment of Confederate pensions to the State Build's? #### Son of Mr. and Mrs. Holt Eastland Dies In Big Spring

Barry Eastland, 14, youngest son of Mr. and Mrs. Holt Eastland of Wickett, former Haskell resident, died early Monday in Boward County Foundation Hospital at Big Spring.

Death of the boy was attributed to complications resulting from injuries received in an automobile accident between Snyder and Big Spring last June 11. The boy and his parents were on their way to Haskell at the time, and their car was involved in collision with another automobile. In the collision, Barry suffered a skull fracture and his parents were also injured. The lad was dismissed from the Big Spring Hospital several weeks ago, apparently on the road to recovery. He was returned to the hospital last Friday after he developed meningi-

Funeral service for Barry was deferred until Tuesday to await arrival of his brother, Airman Tommy Eastland, stationed with a U. S. Air Force unit in Frankfort, Germany. He came by plane on emergency leave and arrived at Monahans shortly after noon Tuesday.

Final rites were held at the Monahans Church of Christ at 5 p .m. Tuesday, with the local minister officiating. Burial was in Monahans Cemetery.

Mr. and Mrs. Eastland have been living at Wickett, a small community near Monahans, for some time. Mr. Eastland is employed there by Cabot Oil Company. Barry had been attending school in Monahans, and would have been a freshman in Monahans High School during the coming term.

In addition to his parents and brother, other survivors are his grandmothers, Mrs. Sue Eastland and Mrs. Minnie Moser, both of Haskell and grandfather, S. A. Moser of Stamford.

#### Yarborough Hits Delay In Meeting Water Problems

Gubernatorial candidate Ralph Yarborough of Austin told a Central Texas farm and ranch audience this week that "action now" is needed to preserve Texas' "precious water and soil resources"-"not five or more years of crippling limping de-

Yarborough, speaking at Johnson City, only a few miles from the multiple dams of the Lower Colorado River Authority, said: "One of the great governmental

needs of Texas is a water conservation program of action now. "Five years of delay in the midst of the worst drouth in Texas history ought to be enough to convince everyone that action -not words-is needed."

The Austin attorney, a member of the original board of directors of the river authority, called for the construction of "50 great dams on the lower reaches of Texas' main rivers" for the twoway purpose of preventing flood destruction and conserving precious water.

He would supplement this basic program, he said, with the building of many smaller dams on the upper reaches of our rivers, and their tributary streams and ponds and tanks on our farms and

#### New Bulletins Now Available From Extension Service

Dairying and wheat are the subjects of new bulletins released by he Texas Agricultural Extension Service. They may be obtained without cost from local county extension agents.

Such subjects as cultural practices, implements, fertilizers, irrigation, grazing, varieties, production of seed, quality, disease and insects and grain sanitation are covered in the bulletin on wheat. The authors of B-226, Wheat-A Major Cash Crop in Texas, Fred T. Dines, formerly extension wheat marketing specialist; I. M. Atkins, agronomist, in charge of small grains, Texas Agricultural Experiment Station and K. B. Porter, associate agronomist, Amarillo Conservation Experiment Station, point out that for the period from 1942-51 wheat was exceeded only by cotton as a major source of farm income in Texas. During the past five years, however, due to unfavorable en-vironmental conditions, it has dropped below grain sorghum in importance.

The dairy bulletin, B-241 Dairy Handbook, was prepared by R. E. Burleson and A. M. Meekma, extension dairy husbandmen, and is "chuck-full" of information in outline form. It should be valuable not only to dairy men but all groups interested in seeing the State's dairy industry progress. Such subjects as feeding, breeding, management, herd records, marketing and methods of putting over a dairy program are outlined in the publication.
