Paint Creek Farmer Kept Busy Giving His Bees Away!

Mr. and Mrs. Albert English and children of the Paint Creek community spent Friday with Green in this city. The Paint Creek farmer has had quite a lot of bee trouble this spring. He doesn't want bees, because his children are so small and he is afraid they will be stung. But there is a hive of bees somewhere on his place, he thinks in an unused chimney, that send out swarms every now and then. Instead of swarming to some neighbors place where they might be welcome and put in a hive, they hang on a tree in the English yard several days. Then Mr. English has to drive around the neighborhood and see if somebody wouldn't like to bring a hive and take them off his hands. He has given two swarms away and the last time we saw him, he was trying to find a home for. He is sort of an unintentional "keeper of the bees."

MABEL OVERTON

Mack and Tony Earles returned from their vacation last Wednesday, and I thought their trip was most newsworthy because they took Tony's father, M. D. McCrary of Munday back to visit his old homeplace in Wavelly, Tenn. It had been 60 years since Mr. McCrary had been back. He visited the private cemetery on the homeplace where his father, his grandparents and an aunt and five or six Negro slaves were buried. And although the homeplace itself was gone, there were several old trees still standing that he remembered climbing as a boy. He still has many relatives there whom he visited including many nieces and nephews and cousins and an aunt who is younger than he. It was a wonderful trip for Mr. McCrary. They

returned by way of Alabama, Mississippi and Louisiana, and they visited museums and memorial parks and Civil War battle grounds and cemeteries on the way home. Mr. and Mrs. W. A. Montgomery and children, Mr. and Mrs. Boyd, Cathey and daughter, Elizabeth were home for the weekend. Beryl and Elizabeth are spending the week with them. Mary Helen Bounds, daughter of Mr. and Mrs. Raymond Bounds, who is a nurse in the Veterans hospital in Big Springs, was home for the weekend to attend the wedding of Margaret Houston and Dempsey Bolding, and be a member of the house-party at the reception. Callahan of San Antonio, and his mother, Mrs. Emma Isbell of South Bend. Mr. and Mrs. J. M. Wright and grandson of Peacock visited her sister, Mrs. J. M. Mickler and family a few days last week. Mr. and Mrs. Allen (Jiggs) Isbell had as dinner guests Sunday Mrs. Isbell's parents, Mr. and Mrs. W. D. Mickler. In an impressive candlelight ceremony at the home of her parents in Abilene, Miss Frances Cook became the bride of Walter Buerger Thursday June 30. The bride is the daughter of Mr. and Mrs. Cook and the groom is the son of Mr. and Mrs. Fred Buerger. Rev. Milton Baty of Tuscola officiated at the double ring ceremony. Jo Ann Taylor of Brownwood was maid of honor, and Paul Baccus of Kilgore served as best man. Guests were friends and relatives from Abilene, Brownwood, San Angelo, Stamford, Avoca and Haskell. From our community guests were Mr. Fred Buerger, Mr. and Mrs. Dan LeFevre and Mr. and Mrs. W. D. Thane. The young couple will make their home in Paint Creek at the Fred Buerger home place. Mr. and Mrs. Fred Buerger are building a new home in Stamford and will move to town soon. Members of the Methodist Church gathered in the church yard Thursday night for an ice

cream supper. There were more cakes and freezers of cream than could possibly have been eaten, and everybody had a good time. Margaret Houston and Dempsey Bolding Exchange Vows In Ceremony Sunday

Margaret Houston became the bride of Dempsey Bolding at the Paint Creek Methodist Church Sunday afternoon at 4 o'clock. Rev. J. B. Thompson officiated at the double ring ceremony in a lovely setting formed by an arch entwined with palm leaves and fern, with baskets of white gladiolas and candelabra with white candles. Margaret chose July 10 as her wedding day because it was the 34th anniversary of her parents, Mr. and Mrs. Olin Houston of Paint Creek. Dempsey's parents are Mr. and Mrs. Luther Bolding of Avoca. Dolin Hughes and Stanley Paul Ivy, nephews of the bride served as ushers as guests arrived, and lighted candles before the ceremony. Bobbie Parker of Stamford sang "One Alone" and "Because," and "The Lord's Prayer" at the close of the ceremony. She was accompanied by Mrs. Gene Overton, who also played the wedding march.

Peggy Houston was her sister's maid of honor. She wore a melon green taffeta dress, ballerina length, with puffed sleeves and hooped skirt and matching green slippers. In her hair she wore a bold bandeaux which held a short veil of green net, and she wore elbow mitts of green taffeta. She carried a colonial bouquet of split white carnations. The bridesmaids, Pat Bolding, sister of the groom, and Carolyn Bounds, cousin of the bride, wore green taffeta dresses, exact replicas of the maid of honor's costume except they wore tiaras of silver interwoven with the taffeta and edged in green net. Rex Bolding served his brother as best man, and Dolin Hughes and Stanley Paul Ivy were groomsmen.

The bride, given in marriage by her father, wore a lovely white lace and slipper satin dress hand fashioned by her sister, Mrs. Morris F. Hughes. The dress was styled with a long torso fitted bodice of chantilly lace, with a high neckline and Peter Pan collar and long sleeves that tapered to petal points over the hands, and closed with tiny lace covered buttons. The full gathered skirt of white satin was floor length and was worn over hooped skirt and crinolines. Her veil chapel length of white silk illusion was held with a white satin and lace bandeaux. She carried a purple throated white orchid with lily of the valley and split white carnations on a white lace nylon tulle covered Bible. Traditional something old was a gold lavalliere worn by her mother at her wedding, something new was a strand of pearls, a gift of the groom, something borrowed was the wedding Bible of Tillie Nanny, and something blue was a blue garter. Linda Bean, the little flower girl wore a green taffeta dress, an exact replica of the bridesmaids, and a tiny tiara of green taffeta and net. Teddy Ivy, nephew of the bride was ringbearer, and carried the rings on a satin pillow which the bride made of the same satin as the wedding dress. Two white satin ribbon roses atop the pillow held the rings. Immediately following the ceremony a wedding reception was held at the Gene Overton home. Mrs. Raymond Bounds met the guests at the door, and Miss Mary Helen Bounds registered them in the bride's book. In the receiving line was the bride and groom and their parents. The bride's table was arranged with a lace cloth over green with appointments in silver and crystal. Mrs. Elmer Miller served wedding cake, and Mrs. Jack Jones ladeled punch. For her wedding trip the bride wore a pink linen suit with pink linen bag and shoes, and a tiny pink straw hat. She wore the orchid from her corsage. Mrs. Bolding graduated with the class of 1953 from Paint Creek High School and also from Draughons Business College in Abilene. She has been employed for the past year in Stamford. The groom graduated from Avoca High School in 1948 and is a veteran of the Korean War. He is employed by the Bell Telephone Co. at Granbury where they will live. Mr. and Mrs. Parks Woodson spent the weekend in Fort Worth where they attended a district meeting of Philco dealers, held Sunday at the Hilton Hotel in that city. CARD OF THANKS We desire to express our sincere appreciation to friends and neighbors, for the many acts of kindness extended, and the expressions of sympathy to us in the loss of our loved one, Mrs. Antony Felz. May God bless each of you in our prayer.—Mrs. L. C. Killion and family, Mrs. J. L. Kirshner, Mrs. L. B. Fouts. 28p

measures are not followed. Also commonly known as blue bugs and chicken ticks, these blood sucking insects pose a problem for turkey and chicken raisers during July, August and September, says Ben R. Wormeli, extension specialist.
They hide in cracks and crevices of the poultry house during the day and appear at night to suck the blood of poultry. On the range ticks repose under bark of fence posts and trees and in old lumber.
"It's easier to discover the ticks by looking for masses of them in cracks and under loose planks in the poultry house," Wormeli says. "Usually you don't know they are around until the flock shows marked symptoms of attack."

This Big Buick SPECIAL 2-Door, 6-Passenger Sedan delivers locally at a small-car price
 (Come in and check it!)

We'll mince no words. You can buy a Buick SPECIAL like the one shown here if you can buy any new car. You can boss this big and brawny Buick sedan for just about the price of the smaller cars—even for less than some models of the three most well-known smaller cars. The price tag we'll show you proves that. But you can't get anywhere else for the money what you get in this Buick, or any other new Buick—and that's something you really ought to look into. For Buick sales are soaring to all-time best-seller highs this year just because more and more people are discovering how much more automobile their dollars buy in a Buick than the same dollars buy elsewhere. They find Buick a bigger package of sheer automobile for the money—bigger in power, thrill, in stretch-out comfort, in ride steady- ness, in structural solidity.

Cattle Movement Resumes Heavy Proportions

By TED GOULDY

Fort Worth—Searing summer sun that scorched pastures and threatened some promising crops over much of the Southwest started the cattle and calves rolling to market this week in normal heavy seasonal numbers.

Prices on grassy cattle and calves weakened all down the line with 50 cent declines general and some sales fully \$1 per hundred off.

Despite the weaker fed cattle market across the Corn Belt, the small numbers of fed steers and yearlings that arrived at Fort Worth sold steady to strong, and some supplementally fed grass steers were a bit higher. A shipment of Montague County fed grassers sold at \$21.25, and several loads of their mates sold earlier had brought only \$21.

Comparative prices at Fort Worth Monday: Good and choice fed steers and yearlings \$19-\$22.50; medium and plainer kinds, \$11-\$18. Fat cows \$10-\$13; canners and cutters \$6-\$10; bulls \$10-\$14. Slaughter calves \$10-\$19; stocker steer calves \$21.50 down; steer yearlings \$19.50 down; stocker cows \$8-\$12.

His office in Haskell is located in the county office building on the southeast corner of the square, formerly the old county jail.

Veterans are reminded to call at the Haskell County office on any week day except Wednesday.

They were traveling through Canada after making a trip from Texas through Arkansas, Missouri, Iowa and Duluth, Minn. They planned to travel the trans-con-

tinental highway in Canada and return to the United States by way of Niagara Falls and New York City.

Sergeant First Class Royce Linch, Mrs. Linch and their little son, William Royce of Anchorage, Alaska, spent last week here visiting in the home of Mrs. Linch's parents, Mr. and Mrs. W. E. Brady in this city. Sgt. and Mrs. Linch and son are in Hico this week, where they are visiting in the home of Sgt. Linch's parents, Mr. and Mrs. M. A. Linch. After a tour of duty in Alaska, Sgt. Linch is being rotated to Fort Hood, Texas, for reassignment.

Frances Honeycutt and Jane Frierzon have returned from Cisco, where they spent a week at the Presbyterian Camp at Lake Cisco.

Frances Owens, assistant in the Haskell County Agriculture Stabilization and Conservation office, spent last week end with her parents in Quanah. Rex Carpenter of Clovis, N. M., was a recent visitor in Haskell. Purpose of his trip to this section was to secure several head of registered swine for use of 4-H Club boys in his section. Mr. Carpenter said that farming country around Clovis in Curry County, was similar to this section, although little cotton was being grown there. He said that considerable work was being done toward development of irrigation from wells. Last year, he estimated that around 22 irrigation wells were used, and that in the past 12 months approximately 200 wells had been put down.

Mr. and Mrs. W. E. Green of this city spent the week end in Odessa, where they visited in the home of their son and family, Mr. and Mrs. Bill Green and sons, Mike and Matt.

Mr. and Mrs. John Manning and children, Don and Cynthia, left last weekend for a two weeks vacation in the mountains of New Mexico.

John F. Ivy returned Friday from a 10-days visit with his son and family, John M. Ivy, at Texline, Texas. The Haskell man also spent several days in the mountains between Taos and Las Vegas, N. M., where John M. Ivy owns and operates a vacation resort during the summer months. Former superintendent

Municipalities Use Of Atomic Power Foreseen Soon

Texas municipalities may be using atomic power to generate electricity in 6 to 10 years, Dr. Herbert S. Isbin, a University of Texas visiting professor, declares.

The nuclear power will supplement present electric-power sources, Dr. Isbin, a University of Minnesota faculty member and nuclear reactor authority, added.

The rate of peacetime nuclear energy development in Texas will depend to a large extent on citizens' support of facilities and training, Dr. Isbin said.

"The most critical barrier to such peacetime development is lack of trained manpower," he asserted. He cited an Atomic Industrial Forum Survey indicating U. S. industry alone will need at least 20,000 scientists and technicians in atomic energy work by 1958, and between 30,000 and 40,000 by 1964.

"We ought to begin now to

make our high school students aware of that need and opportunity," Dr. Isbin declared. Dr. Isbin has 20 students enrolled in two nuclear courses this summer. Thirteen are in an undergraduate course on nuclear engineering in general, while seven are in a graduate course in nuclear reactor design.

Texas industrialists and government officials can obtain much atomic energy information at the University of Texas main library. The University is the only official library depository in the state for Atomic Energy Commission publications and almost 10,000 AEC unclassified documents are available.

F. T. SANDERS HOME FROM HOSPITAL

The many friends of F. T. Sanders, retired Haskell gin-ner, will be glad to learn that he has been returned to his home here from Harris Hospital in Fort Worth. Mr. Sanders suffered a fractured hip recently when he fell at his home, and was carried to the Fort Worth hospital for treatment by specialists.

"Spot" Oiling of Johnson Grass Found To Give 99 Per Cent Kill in Tests

By F. W. Martin County Agent
Farmers can now get rid of Johnson grass completely without swinging a hoe.
Spot application of diesel and naphtha-type oil sprays is proving a practical answer to row crop control of Johnson grass. At College Station four treatments of such oils killed 99 per cent of all Johnson grass in cotton stands in one season. Four trips over a similar field with hand hoes eliminated only 44 per cent of the grass.
Homer E. Rea, agronomist for the Texas Agricultural Experiment Station who has been working with various Johnson grass killers, believes that successful spot oiling of Johnson grass is highly significant.
"It does away with intensive hand labor methods which few farmers can afford these days," Rea said.
Varsol 1, Lightfoot 23, No-week oil, Lion 1 and Flt 38 are among commercial preparations to use. An ordinary knapsack sprayer applying a half and half mixture of one of these oils and diesel fuel will do the job, Rea explained. About one-third of a teaspoon of oil mixture on the stem near the base of each plant is sufficient for results. Best kills are obtained on young grass.
Within hours after the initial treatment Johnson grass usually is shriveled and killed to ground level. To completely eradicate the roots and prevent later re-sprouting repeated oilings at intervals of 7 to 10 days may be necessary. This usually means four to six treatments.
The cost of application figured at \$14.10 an acre, counting oil and labor. The cost, of course, will vary with the amount of oil used and the intensity of Johnson grass infestation.

Foreign Cotton Cuts Exports of Texas Staple

Austin, Texas—The Texas cotton industry, which exports most of its products, is getting stronger competition from cotton growers outside the U. S., a University of Texas study shows.
The University Cotton Economic Research Division's comparative study of U. S. and world cottons indicates foreign growers are producing large amounts of American-type cotton.
The average annual production of American-type cottons outside this country in 1934-38 was 4,486,000 bales, the University study shows. The figure climbed to 7,759,000 bales in 1953-54.
That means foreign countries are copying the U. S. growers' policy of supplying large amounts of American-type cotton with relatively uniform fiber properties, an important factor in mass production of textiles.
That trend coupled with lower foreign-cotton prices is one of the reasons why world-market buyers apparently are taking Texas cotton only after exhausting sources of the same varieties grown outside the U. S., Research Scientist Joel H. Hembree warned.
"The University's comparative survey of U. S. and world cottons should challenge us to improve our varieties and marketing procedures and strengthen our competitive position in the world market," Hembree declared.

acreage transferred was the smallest in land market record history.
"Continued drought, decreases in agricultural prices, acreage allotments and tight holdings of land tended to depress land market activity. Wm. G. Adkins, agricultural economist at Texas A&M College, explained. Fewer veteran land board purchases and modifications of that program helped push the sales volume down.

Attempts to enlarge units, demand for irrigated acreages, mineral activity and urban and industrial development were factors tending to increase market activity.
Adkins reported that owner-operators were the principle buyers in 1954 and farm size continued to grow. Tenants made only 10 per cent of the purchases. Land price increases were most significant in the Panhandle wheat, High Plains cotton and

Lower Rio Grande Valley. Price declines were reported in the Upper Rio Grande irrigated area, the High Plains and in the

Housing Authority Mechanic Attends District Meet

Buster Hunt, maintenance mechanic for the Haskell Housing Authority attended a recent meeting in Wichita Falls, which was held for all Housing Authorities of the district. Purpose of the two-day meeting was to instruct all maintenance mechanics in improving their methods of upkeep of the projects. Hunt believes that the information he received will be advantageous in his work here. He also states that there are vacancies in the local projects, and anyone who is interested may contact Mrs. Opal Rose, executive director, whose office address is 311 North 1st Street.

Lower Hog Prices Seen If Big Feed Crop Materializes

By TED GOULDY
Butcher hogs topped at \$18.50 to \$18.75 at Fort Worth Monday, a gain of 25 cents over last week's close. Sows at \$11 to \$16 were steady to strong. One nationally circulated agricultural tip sheet that originates in Washington says some observers are fearing a \$12 top on hogs next winter when the big crop in the making goes to town. It quotes others as saying something like \$15 hogs is in prospect. While that \$12 figure looks too bearish, it is a fact that if the weather is kind for the rest of the crop season the feed grain production, especially corn and grain sorghums, is going to be tremendous. Some forecasters say if the crop makes next winter it could bring \$1 to \$1.25 corn, with more "free corn" available from acreage outside quotas. At any rate it looks like a big year for feeding livestock and poultry coming up in the next 12 months and that the feeder will have to couple good management with good judgement to make it a really big profitable year.

Four More From Haskell Enroll In McM Band School

Abilene. (Spl.)—Four more Haskell students have registered for McMurry College's 7th annual summer band school, to be held here July 17-30. They are Robbie Lou and Sara Sue Roberson, daughters of Mr. and Mrs. Thos. B. Roberson of 1501 N. Ave. G; Sandra Nell Hadaway, daughter of Mr. and Mrs. H. T. Hadaway of 706 N. 9th; and Kay Henry, daughter of Mr. and Mrs. H. K. Henry, 503 North Ave. E. Previous enrollees from Haskell are Janice and Betty Hester, daughters of Mr. and Mrs. Ed Hester of Star Route. Bill Adkins of Haskell will again direct the 10-member twirling instructional staff of the band school. Adkins, son of Mr. and Mrs. W. H. Harrell of Haskell, was for three years drum major of the McMurry Indian Band, and in 1952-53 was featured twirler with the University of Texas Longhorn Band. More than 275 bandsmen and twirlers were signed to attend the band school as of July 17, according to Raymond T. Bynum, McMurry band director who is in charge. Total enrollment is expected to exceed 343 students, Bynum said. Registrations will continue to be accepted through July 18, opening day for the band school. The students will stay in the McMurry College dormitories and take their meals in the college dining hall. At the band school, they will receive instruction in music theory, solo instrument work, actual practice in concert bands, and techniques of baton twirling and drum majoring.

Knox Grand Jury Indicts Haskell Man for Theft

The Knox County grand jury, in session last week at Benjamin, returned twelve indictments one against a Haskell man for theft. Two indictments were for theft, nine for forgery, and one for swindling. Williams Rivers Gilchrist, 32, of Abilene, and Joe A. Groce, 35, of Haskell, were charged with theft of over \$50. The men are charged with theft of a saddle from the J-Y Ranch near Truscott. The swindling indictment was returned against a man not in custody. The man is charged with giving a worthless check on an Enid, Okla., bank to George W. Hunt of Goreau. James Edward Kelly, 25, of Linden, was charged with raising the amount of a labor check from \$6 to \$60 and attempting to cash it in a Munday grocery store. Four Dallas Negroes were indicted on two counts each of making and passing forged instruments. They are Donald J. Hereford, Willie Red Riley, Annie Mae Hereford and Ola Mae Johnson.

Texas Draft Call For 550 Men Due In August

A Texas draft induction call for 550 men for August was announced today by Lt. Col Morris S. Schwartz, Austin, deputy director of state Selective Service. The call, Texas' share of a national call for 10,000 men, is identical with the quota for July. Quotas have maintained an almost constant level for several months.

HIGHLIGHTS AND SIDELIGHTS From Your State Capitol

By VERN SANFORD
Texas Press Association

Austin, Texas—Every outward sign of confidence is being exhibited by Bascom Giles.

His trial on charges of taking \$6,800 from the state, in connection with a Kinney County land deal, got under way July 5. Almost the entire week was spent in selecting jurors.

More than 50 witnesses were subpoenaed by the state before the trial began, but Giles' attorneys refused to show their hands by issuing early subpoenas.

Testimony is expected to consume the greater part of two weeks.

Giles, who originated the \$100,000,000 veterans land program, and administered it until Jan. 1 of this year, appears to be as cool and confident as any man in the room.

Among those representing him is his son, Rogan. Others are former state senator Clint Small, Sr., Clint Small, Jr., and Polk Shelton. All are Austin attorneys.

Representing the state is Les Procter, district attorney of Travis County, and his two assistants, John Allen and Bob Smith.

Procter sought, but did not receive funds from the legislature to hire extra staff members for the veterans land program case.

Representatives from the Attorney General's office sat as spectators as the trial got under way. Procter ducked questions as to why they were not participating.

Brady land dealer B. R. Sheffield, indicted jointly with Giles, in the Kinney County deal, awaits trial after Giles. Trials are yet to come, too, in scores of other cases stemming from the sweeping inquiries into the land program, which began last November.

Parr Trial Starts Monday

A judge's attack of asthma gave South Texas political boss George Parr a breathing spell last week. But Parr faces additional difficulties in a federal income tax evasion case set for July 18 in Austin.

Parr's trial on a conspiracy charge in District John R. Fuchs' court in New Braunfels was indefinitely postponed when the 69-year-old jurist was severely stricken with asthma.

Parr, along with 11 others, is under indictment for misappropriation of Benavides Independent School District funds in Duval County.

Desegregation Policy Set

It's "hands off" for the State Board of Education, in racial integration of local school districts. School districts will get their state aid money whether they are segregated or not.

Although offering the assistance of its staff in solving desegregation problems, the board made it clear that no suggestion or direction will be given as to what each school district should do to comply with the U. S. Supreme Court ruling which ended public school segregation.

UT To Open Doors

University of Texas regents took three momentous steps at their July meeting.

1. They voted immediate admission of all qualified students to all divisions of the graduate school.

2. They voted to admit Negro

undergraduate students, beginning with the Sept., 1956 term, in the main university; and at Texas Western College branch in El Paso, this September. Admission to all other branches will be in Sept., 1956.

3. They also voted to set up restrictions on all admissions, based on examination and scholastic requirements, effective in 1956.

UT regents also refused to reconsider their earlier rule which banned from the campus automobiles by freshmen and sophomore students.

Interscholastic League Reappraises

Texas public schools which admit Negroes will not be barred from Interscholastic League activities next year.

This ruling made last week by the league's executive committee, resulted from a petition from the El Paso system regarding its status. El Paso plans to desegregate next fall.

Interscholastic League's constitution, framed before the U. S. Supreme Court's ruling against school segregation, limits membership to "any public white school."

Insurance Rates Lowered

Large industrial plants in Texas were promised lower fire insurance rates when the Insurance Commission adopted a new rating plan "for highly protected risks."

Praising the recently enacted insurance code, the commission said it is "one of the best in the nation" and every loophole in Texas insurance laws "has been closed."

Daniel Still Hedging

U. S. Sen. Price Daniel, in Austin for a few days of visiting, dodged questions about his future political plans.

He declared he had neither "warmed up nor cooled off" in regard to a possible race for the Texas governorship. His decision, he said, cannot be made until after the first of the year.

Short Snorts

Gov. Allan Shivers is on a month's vacation with his family at Woodville. Texas business activity reached a new peak in May—177 per cent of the 1947-49 base period. Forty-seven full-time city and county health units are in operation. They cover 57 counties with 62 per cent of the state's population.

Allen Mooney of Woodville was appointed by Gov. Shivers as district attorney for the 88th judicial district.

LEAVE FOR VISIT IN PENNSYLVANIA

Deputy Sheriff Jim Alvis, Mrs. Alvis and their daughter, Ruby Kay, accompanied by Mrs. J. C. Holt, left early Monday on a 10-days vacation trip which will take them to Norristown, Penn. There they will visit the Alvis' son, Mr. and Mrs. Kenneth Alvis and baby. Kenneth is in the Army and stationed at Norristown.

W. E. Brady of this city and his son-in-law, Sgt. Floyd Linch, just home from Alaska, accompanied by M. A. and Gene Linch of Hico spent three days last week fishing at Whitney Dam. They returned Sunday.
