First Baptist Buys Sanctuary for Mexican Mission

The former house of worship used by the East Side Baptist Church has been sold to the First Baptist Church of this city to be used as a meeting place for the Mexican Mission of the First Church.

Several months ago some of the laymen learned of the availability of the property and investigated. John Couch headed the movement to raise enough money to secure the property which would be added to what the Southern Baptist Home Mission Board gave to the project.

Ed Thomas, Associational Mexican Missionary of Munday, stated that the Mexican people will begin cleaning and preparing the building for entrance in the near future. The Mexican Baptist Mission has been meeting for several years in the First Baptist Church.

The former East Side Baptist Church building, pictured here, is to be the new sanctuary for the Mexican Baptist Mission of the First Baptist Church. Purchase of the building by the First Baptist Church was announced this week.

4-H Club Boys and Girls Plan Exhibits During Observance of National 4-H Week

Over 2,000,000 4-H club boys and girls in the United States will join together March 5-13 to celebrate National 4-H club week. Each year the calendar is filled with weeks and days set aside by various organizations. The purpose of this is to keep the public aware of the objectives, accomplishments, and to deepen the loyalties of the members. It isn't possible to observe all the days but 4-H club boys and girls would like to have you stop and think about 4-H club work this week.

National 4-H club week is of special concern to the American people because it calls attention to the opportunities offered to rural boys and girls through 4-H club work. It may even go farther and re-affirm the conviction that cultivation of the earth is the most important labor of man and farm life is a satisfying one.

There are some 450 4-H club boys and girls in Haskell County at this time. To observe this week, the boys and girls are preparing exhibits and posters to better tell the story of 4-H club work.

No tabulation has been made this morning of the total amount raised to date, but a full report will be made as soon as all workers report after completing their canvass, Henderson said.

Haskell, Rule Firemen Hurt in Mishaps While Responding to Alarms Saturday

As a result of separate mishaps in Haskell and Rule Saturday while volunteer firemen were responding to alarms, Doss Fuller, member of the Rule fire department, and Alton Middleton, Haskell fireman, were hospitalized for injuries received in the two accidents.

Fuller, water superintendent at Rule and a former deputy sheriff, was the most seriously injured. He received a fracture of his left hip, several broken ribs and extensive bruises when crushed between the Rule fire truck and narrow door of the fire station. The truck had started to leave the station to answer an alarm for a residence fire. Fuller boarded the truck running board and was standing beside the cab when he was pinned between the vehicle and the door. The injured man was brought to the Haskell Hospital, and will likely be confined for several weeks.

Rule firemen were responding to an alarm turned in when a residence in the southwest part of town was discovered on fire. The house, owned by Bailey Miller, was extensively damaged by flames. Middleton was injured late 3:40 p. m. Saturday while responding to a fire alarm at 1012 North Avenue D. He was riding on the side of the department's No. 3 light pumper, standing near the cab of the vehicle. As the truck slowed to a stop, the department's heavy American La France pumper crashed into the rear of the lighter truck. Middleton was knocked from the truck he was riding, receiving a severe laceration above the left eye, fracture of his right wrist, bruises on his left knee and body.

E. J. Stewart, driver of the first truck, and Emmett Starr, driving the La France, were not injured, and neither truck was badly damaged. Starr said brakes on the truck he was driving failed to stop before crashing into the lighter vehicle. No damage resulted from the fire, except possibly smoke damage to the kitchen of the house.

High School "Career Day" Program Planned March 11

As one of the activities of Public School Week, Haskell High School will have a Career Day Friday, March 11. Plans for the Career Day were begun several months ago and actual work got under way with the appointment of a local committee of lay workers composed of Dr. Ernest Kimbrough, W. E. Lawson, Charles Swinson, Ben Clifton, Royce Adkins, Dr. R. K. McCall, Mrs. Brooks Middleton, Miss Thelma Wirges, and Mrs. W. P. Trice. Following the general assembly, the pupils will go to the group of their choice. There will be both local and guest speakers for these sectional meetings. The lay committee has put forth much effort to secure speakers who are authorities in their respective fields and who have made a success in the vocation to be discussed. It is hoped that all interested persons and that at least one parent of each high school student will hear Dr. Beamer's address.

Reports indicate that some thirty business men will participate in the program held on the third Tuesday of each month.

During the business session discussion of the annual Christmas Program was made, and all members were anxious that careful planning should begin in the early summer in order to stage the best holiday entertainment that we have ever had. In setting up the holidays to be observed by closing business establishments, it was suggested that area Chamber of Commerce managers and Retail Trade representatives have a meeting in the early weeks of 1955 and try to work out a uniform list of holidays for all towns to recognize.

Over \$92,000 is now being placed in the hands of Haskell County cotton growers in the form of 1935 tax exemption cotton checks which were received by the local office Saturday. An additional 1700 checks, which will total approximately \$100,000 are expected in the near future. County Agent Maxwell reported.

Relief in Haskell jumped to the highest mark in a year Saturday when the sum of \$3,490.40 was distributed during the week through the local office, according to T. L. Donohoo, administrator. Slightly more than \$3,500 a week was distributed in the early months of 1934.

Under the supervision of Edd Hollar, foreman of State Highway work in Haskell County more than 2,000 trees and shrubs have been planted along the highways in a beautification program.

The Haskell post office will remain in its present location for the next five years, Postmaster J. M. Diggs has been advised. The post office department has renewed a 5-year lease on the Barnes Building, he was advised. It has been the site of the post office for the past 10 years.

Fed Cattle Lower, Hogs Top at \$17 At Fort Worth

Fed cattle were 50 cents and some bids \$1 lower at Ft. Worth Monday. Heavy supplies at Northern markets, plus the fact recent prices grade for grade at Fort Worth have been above the Corn Belt averages, was credited with weakening of prices.

Choice steers topped at \$24. Cows were steady, and bulls unchanged. Calves were 50c to \$1 lower, heavyweights to \$21 and \$21.50, and mostly \$20.50 down. Stocker calves sold from \$22 down.

Butcher hogs opened at a top of \$17 Monday. This was steady to 25 cents lower than last week's close. Buyers again were emphasizing the meat-type hogs and paying the better prices for those kinds. Sows were steady at \$15.50 down.

NEWS OF INTEREST TO WOMEN

"Parade of American Music" is Theme Of Harmony Club Program February 24th

"Parade of American Music," which is the theme of the National Federation of Music Clubs for the month of February was observed Thursday evening, Feb. 24 by the Harmony Club in a program dedicated to the National president, Mrs. Ada Holding Miller.

The program, directed by Mrs. V. W. Meadors, Sr., featured talks by the district president, Mrs. Delbert H. Taylor, and Mrs. Roy Nussbaum of Fort Worth.

Mrs. Tommie B. Hawkins, president presided and extended greetings to members and guests and pointed out that over 5,000 music clubs with six hundred thousand members over the nation are stressing American music this month.

Mrs. Meadors, in discussing our history of music said that "American music is not alone but a blend of many nationalities, with the Puritan influence showing strongly in secular music and the folk songs of the Negro race which have been handed down by word of mouth through generations are usually accented by a sad theme but still retain the happiness of the race by blues songs, rhythm and syncopation." The speaker grouped famous songs into four main classifications: cowboy songs, Negro spirituals, patriotic and religious songs. She also discussed the life and works of Stephen Foster as a "Master of Folk Songs" and "a musical genius who had little musical education and whose family was indifferent to his talent and to music in general."

Mrs. Taylor in her discussion on Federation, said that "Federation is a non-money-making, workable organization that strives to touch every one musically inclined and whose purpose is to seek out and assist young talent. Forty young people were sent to summer music camps last year and the Federation is also instrumental in discovering new talent for the \$2,000 Steinway Scholarship fund. The speaker concluded by stressing the use of "Texas as Our Texas" as the State song and announced that the State convention is to be held in Mineral Wells in March.

Mrs. Nussbaum, who is a former district president, told of the organization's work in hospitals. She stated that many musical instruments and television sets have been placed in veterans hospitals for "music is a great healing power, especially among mental patients."

Illustrating American composers' works the following program was presented: "The Sweetest Story Ever Told," by Mrs. Tommie Hawkins dressed in a "Gay Nineties" costume.

"Beautiful Dreamer," vocal solo, Mrs. Floyd Cook.

New Chevrolets To Be Awarded

You or a member of your family can win a 1955 Chevrolet and a \$1,000 U. S. Savings Bond to boot in a contest beginning here March 1 under the sponsorship of the Chevrolet Motor Division and Eubanks Chevrolet Company of this city.

To enter the Chevrolet "Miracle Mile" contest, you need merely fill out an entry form, write 25 words or less why you would like to own a 1955 Chevrolet and deposit the entry in the mailbox provided at Eubanks Chevrolet. Others of driving age in the family may also enter by preparing the material on plain paper and attaching them to the official form, Mat Eubanks, owner of the agency, explained.

Entry forms may be obtained at the dealership, Eubanks said. There's a bonus of \$1,000 bond in it for every winner who takes a demonstration ride in a new Chevrolet at the time he turns in the entry form. Besides writing frankly why he would like to own a new Chevrolet, each contestant must answer four elementary questions about the car's mechanical features, answers for which may be found in the contest booklet, Eubanks said. Entries are being judged nationally on the basis of sincerity and originality rather than writing excellence, grammar and vocabulary.

The contest ends May 9 and is divided into six periods. In each contest period, 16 new Chevrolet Bel Air sedans and a sports model will be awarded winners, for a total of 102 cars nationally. Each winner who has taken a "Miracle Mile" ride will be given a \$1,000 bond.

If a winner has purchased a new Chevrolet during the contest, he will be presented with the full retail price of a 1955 Chevrolet Bel Air sedan in cash and a \$1,000 bond as well, if he has taken a demonstration ride. Eubanks said.

Varied Activities Keep Interest High For Elementary School Pupils, Teachers

By SCHOOL REPORTER

The slogan "To fill every week with worthwhile activities" continues in the Elementary school. The mothers really went "all out" to promote a happy Valentine party in every room. Laughter and excitement filled the air. It was akin to the Christmas spirit!

The school pictures arrived. Oh's and ah's and little giggles were exchanged as the children admired one another's pictures. The trading and exchanging of pictures exceeded that of Wall Street's busiest day for a fact. As a result, the children go about with a smile on their faces and a billfold carried proudly in the hand, displaying pictures of friends and a favorite teacher. There were a few disappointed children who did not receive pictures but to remedy that, re-takes were made so their day will come.

One section of the fifth grade is sponsoring a weekly school paper which is creating much interest as well as giving the children some valuable experience in newspaper work. Phil Spain and Jerry Allen will be grand feature writers for a large newspaper some day as they are persistent in collecting the news.

There is a grocery store in one second grade room and post office in a first grade room. The children are learning some worthwhile lessons in taking turns as everyone wants to be the cashier or the postmaster. Some good lessons in addition, subtraction, and money exchange have developed from these play activities.

We are justly proud of our visual aid and equipment and it is used daily in some class rooms. Every class enjoyed some film during the week which was suitable for that grade level. The kindergarten children are studying safety and the rules became more impressive after seeing a film on "Safety."

The first grade children are doing more reading, so some are enjoying the tape recorder. They can hear themselves read which is the best way to improve one's reading as well as develop speed.

Miss Lucille Miller, a reading consultant, from Houghton-Mifflin Book Company, spent Thursday and Friday in the Elementary school. She did some visiting and observing Thursday and then taught demonstration lessons in

the first three grades. Some of our loyal patrons cooperated with us again. The following mothers came to school Friday and taught in the various rooms so teachers could observe the demonstrations: Mesdames Ollie Kelley, Wallace Stark and Bill Holter. We appreciate the services of these people very much.

The Elementary teachers have been placed on committees with the Junior High and High School teachers to work on the Evaluation program of the Haskell schools. It is a very worthwhile thing as it will bring about more unity within the group as well as carrying out the aim to continue to improve our school system. There is work ahead for the teachers but it is interesting and the values which will come from it makes the task a pleasant one.

Co. Supt. Jessie Vick Will Attend Denver Meeting

Miss Jessie Vick, county school superintendent, will be among a large group of school administrators from Texas attending the 1953 regional convention of American Association of School Administrators in Denver, Colo., March 13-16.

The Haskell school administrator and others from this area will leave Wichita Falls on a special train Saturday, March 12, for Denver. The train, which will originate in Dallas, will carry more than 300 Texas educators to the convention, which will begin Sunday, March 13 and continue through Wednesday, March 16.

On every other year, the AASA holds regional conferences, and this year the Texas delegation is included in the Denver conference. Others are being held in St. Louis, Mo., and Cleveland, Ohio.

Preliminary convention activities will get under way March 12, but the first general session is scheduled at 4 p. m. March 13. Various discussion groups will be held throughout March 14 and March 15, with subjects varying from school construction to forces in community life affecting schools. A series of clinics March 16 will conclude the sessions.

Sociable Drinking Party Ends in Fight, Then Fines Against 2 Women and 8 Men

What started out as a sociable drinking party Friday night ended with one man being beaten and allegedly robbed, and the appearance in court of ten persons, two women and eight men, who were involved in the incident, with fines subsequently being assessed against all the participants.

Sheriff Bill Pennington and Deputy Jim Alvis also lost considerable sleep rounding up the celebrants. A couple just outside the north city limits, near whose home the disturbance occurred, also lost several hours sleep.

As pieced together by the officers, the story runs something like this:

The man and two women companions, with a few cans of beer, had parked their car on a country road north of town around 3 a. m. Saturday. Several minutes later another car drove up and an argument ensued between men in the second car and the two women's escort.

Next a fight started between the men. The first man, outnumbered from the start, soon realized that too many beers had slowed his reflexes and was hampering his skill with his fists. But his footwork was still good, so he took off to seek help.

He ran to the nearest farmhouse, started pounding on the door and yelling for help.

After awakening the couple living at the house, the man was so excited and frightened that he could hardly tell a coherent story. Probably the beers hadn't helped any, either.

He finally made it clear, however, that he, a peaceable man who

had never harmed anyone in his life, had been attacked, beaten, slugged, robbed, and was about to be murdered. He needed protection, quickly, his story indicated.

That seemed to be a matter for the officers, and Sheriff Pennington was notified. He and Deputy Alvis picked up the man, and in a few minutes had rounded up nine others, including the two women.

All were in custody until Saturday morning, when they were arraigned in county and justice court. Questioning developed that the man who started out with the women had lost \$22. The money was found in one of the cars, but all of the others denied taking it.

As a result of their investigations, officers filed a theft case against one man, and charged the other seven men and two women with drunkenness.

All entered pleas of guilty, and a fine of \$15.50 was assessed against each defendant charged with drunkenness. The man charged with theft was fined \$25 and costs for a total of \$48.20.

One man and one woman involved in the incident live in Stamford, all the others are residents of Haskell, officers said.

PIPE LINE PEEPER

A new "magic eye" which enables oil men to tell what is passing through a pipe line at any given moment has been developed. The instrument called a capacitance recorder, gives a continuous and accurate check on pipe line contents. So sensitive it can differentiate between two batches of a grade of gasoline as they pass through the line, the device gives greater efficiency and economy in handling multiple products.

The word "denominational" is preferred by most. "Sectarian" savors of narrowness. There really is no difference. The former describes the fact of the latter. Sectarianism is the doctrine of a "sect." A sect is a party. It is recognized as distinct when it is distinctively denominational. The denominator may lend an air of Scriptural respectability to the party. It did in Corinth. The parties were denominated by Paul as of Paul, of Apollos, of Cephas, of Christ.

Strange that the latter should be included. But Paul himself recognized that the enemies of the faith referred to those who were disciples of Christ—not capitalized—as "this sect." It is not only as it is a party of individual relationship to Jesus as Lord and Christ. Any denominator other than "Christian" must therefore be a sectarian party, designation setting apart those who wear it from the general mass of professional disciples of the Lord.

Those therefore who object to the adjective, "sectarian," being used, have only to drop the denominator and practices which justify its use. That is so easily accomplished. It is really a positive rather than negative attitude. It requires acceptance of only that which is fundamentally common to the mass of believers in Christ. This is found in the New Testament. Once accepted the sectarian relationship automatically disappears. Its worth a trial, anyway.

If one can become and remain a loyal Citizen of the United States of America, a "Good American," without belonging to any political party in the Union, then we submit, one can become and remain a Loyal Citizen of the Kingdom of the Son of God's Love—a "Good Christian"—without belonging to any religious party within the Realm.—John Barry.

WHERE DOES OUR MONEY GO?

Last year, one hundred and four Texas counties did not bother to submit their budgets to the state auditor, although this is required by law. Why? The state auditor has no power to make them do so. So, nobody but the commissioners' court in those counties knows what became of the tax monies collected.

There is no reason to believe that the great majority of these local governing bodies did anything with county funds that shouldn't have been done; we are attacking only the principle of the thing—the idea that the public need not know what the government does with its hard-earned tax dollars.

Texas commissioners' courts handed over a billion dollars in assessed property taxes last year. Texas counties have gross debts of one billion 500 million dollars. We believe the people should know exactly where this money goes, and how these debts accumulate.

Public attendance at meetings of the commissioners' court is notoriously small, and even when the public attends, it does not understand a great many of the court's actions. So that isn't the answer.

The answer lies in complete publication of the minutes of county commissioners' court meetings. This is not unreasonable—local officials have just been granted four-year terms by Texas voters, and in return the public is entitled to a more thorough knowledge of the actions of our grass-roots government.

There is now in the legislative hopper at Austin a bill (HB 12) which will provide for the publication of such proceedings. It deserves the support of every free-thinking citizen.

Your 1954 Income Tax

Self-Employment Tax
 Every self-employed individual must file an annual return of his self-employment income on Form 1040 if he had at least \$400 of net earnings from self-employment in 1954.

If your income was derived from salary or wages, or from dividends and interest on investments, capital gains, annuities, or pensions, you will have no self-employment income and no self-employment tax to pay.

Generally, if you carry on a business as sole proprietor, or if you render service as an independent contractor, or as a partnership or similar organization, you will have self-employment income.

The computation of your self-employment tax is made on separate Schedule C, which, with attached Schedule C-a, should be filed with your individual tax return. The self-employment tax is a part of the income tax.

Now Is Time to Fertilize Peach and Plum Trees

Peach and plum trees will grow off faster and offer chances for bigger harvests if treated early in the year with a complete fertilizer.

Three-hundred to 400 pounds of 12-12-12 in February or March followed in April by a 300 pound application of 5-10-10 will do the job in an orchard of 70 bearing trees an acre.

Spread four to six pounds of the 12-12-12 mixture around each tree and a like amount of 5-10-10 in April, advises J. F. Rosborough, extension horticultural marketing specialist. Scatter the fertilizer in an area from the outer edges of each tree's shade cover to within three or four feet of the trunk, Rosborough says.

Disk the fertilizer into the soil to a depth of three or four inches immediately after application.

A grove of 70 trees an acre needs at least 60 pounds of nitrogen, 80-100 pounds of phosphoric acid and 60-80 pounds of potash yearly. These requirements are met with the above recommendation, the specialist adds.

Rosborough explains that fruit trees need abundant nitrogen early in the season. Heavy applications later, however, may cause excessive terminal growth and delayed ripening of the fruit.

Late April and early May is a critical time in fruit production, he concludes. That's the time when trees develop a fruit crop and set next year's fruiting buds.

Last year, one out of every three pints of blood donated to the Red Cross was provided for national defense use.

Of the 3,700 Red Cross chapters throughout the United States, one out of every three is staffed solely by volunteers.

Two More Names Filed for Place On City Ballot

Two additional names were filed this week as candidates for Alderman in the city election to be held Tuesday, April 5.

This brings the list of candidates to six for the two places to be filled in this year's election.

Filed this week were the applications of A. T. Ballard and Chas. E. Smith.

Previously filed were the names of J. E. Walling, Jr., and Olen Dotson, both for re-election; H. M. Bledsoe and R. C. Couch, Jr.

Both new candidates are well known Haskell businessmen. Ballard has been manager of the Market Poultry & Egg Company in this city for a number of years. Smith, owner and operator of Smitty's automotive supply business, has been identified with Haskell business circles for more than 20 years.

Deadline for filing on the city ballot is March 5.

Leaders Named to Direct CC Farm, Ranch Program

Roy Johnson, director of the Farm and Ranch division of the Chamber of Commerce, has announced appointment of committee chairmen to head the various panels of his division in carrying out the program of work for the coming year.

Named on the committees were: James Ludeke, chairman, 4-H and FFA Project Shows; O. J. Curry, chairman, Soil and Water Conservation; John Kimbrough, chairman, Rural Telephones; Alfred Turnbow, chairman, Highways and Farm-to-Market roads; Thelma Wirges, chairman, Home Demonstration Club activities; Shelly Royall, chairman, Farm Bureau activities.

Discussion of Haskell's participation in the National Cotton Week scheduled for May 9 through 14th was the major topic of interest during a recent meeting of the Farm and Ranch committee. Committee members will meet with other area personnel at Stamford on March 7 when representatives of the National Cotton Council will be present to explain and offer suggestions for carrying out the celebration in honor of the cotton industry.

Tentative plans were outlined for the local recognition but the first complete program will be set up after the meeting on March 7 in Stamford.

Car Registration At Slow Pace in County

Although the April 1 deadline is less than a month away, only about 17 per cent of the motor vehicles in Haskell County have been registered for the current year, records in the office of Tax Assessor-Collector R. A. Coburn reveal.

He estimates there are approximately 6,000 vehicles to be registered in the county and only 908 had been registered late Tuesday afternoon, the collector reported.

That means that there will likely be a rush during the final days of March if 1955 license tags are secured for all cars and trucks subject to registration.

Largest number of new tags, 646, had been issued for passenger cars, Coburn reported. Tags for 127 farm trucks, 116 commercial vehicles, one truck-tractor, and 18 trailers, made up the total of 908 plates issued. Only one dealer tag had been issued, he said.

The safety inspection sticker is not a requisite for registering, the Tax Collector said. However, car owners should have their certificate of title and 1954 license receipt to expedite registering, he explained.

The Navy consumed 1,750,000-000 pounds of food last year, enough to fill a freight train reaching from Newport, R. I. to Baltimore, Md.

Haskell Will Be Host for Legion Meet In April

Haskell will be host city for a two-day district meeting of the American Legion in April, according to the Chamber of Commerce calendar of community events.

The convention will be held April 16 and 17, in the American Legion building south of the square.

Several hundred Legionnaires from posts throughout West Texas are expected in attendance, along with district and State Legion officials.

This is the first occasion for the local post to host a district convention, and officers and members of Rogers-Cox Post are planning a well-rounded program for the event.
