Now since Geo. Clark has smiled and felt happy on account of the republican party indorsement, he will have to shape his future policy more in accord with their views, and in their next platform we may expect Clark to demand a force bill.

The democratic party of Texas never had as much as 185,000 democratic majority. This large majority was constituted by republicans voting with the Democrats. Now since the Democrats have split the republicans will vote for a man who represents their views, and the following election will show the real democratic strength of the state.

GROVER CLEVELAND.
Writes to Murray, Secretary Hogg Committee—
A Letter of Approval.

RICHLAND, Tex., Sept. 20.—Win. H. Murray, secretary of the Hogg state Democratic convention at Houston, who has his headquarters here during the campaign, has received a personal letter from Hon. Grover Cleveland, endorsing his course and zeal in the interest of true Democracy in the present campaign in Texas.

Dropped on the Hogg Side.

Mr. Colten F. Thomas, in his paper, the Central Texas, to-day says: "To Judge Clark, Dear Judge—it is with regret that I say good-bye. It is always hard to see a good man go wrong. Since your announcement six months ago for the high office of governor we have worn out several pencils puffing you, strained our lungs on diverse occasions yelling for you, saved the air and torn our shirt into tatters, trying to 'Turn Texas Loose.' But the people, judge, did not see matters as we did. They believed that there was a good deal of buncombe in our calamity cry. They sat down on us, paddled us with a big democratic board and gave you as our leader such a spanking that you ran off, judge. Lots of the bally boys got mad like you did, took their rollrags and ran off because they could not have their own way. Now, dear judge, we can't go with you. As your pupil you taught us some good lessons, which we cannot forget. Once you showed us how, when you could not rule the democratic roost, to bow with Ward McAllister grace. We remember that lesson and bow. Another time you told us young dem ocrats that the rest of democracy was voting the ticket—we remember that lesson and shall vote the ticket. Again, upon that occasion when you proclaimed Grover Cleveland as a charlatan and a demagogue, you said you had no use for a democrat when he got bigger than his party. We remember that lesson and cannot join you in breaking the democratic breeching and ripping the democratic collar of the democratic harness worn by the democratic war horses of the past. More yet, dear judge, you announced yourself a Moses, though you lacked his meekness to purify the old party. This was a strong plea, but now with the incense rising from your sacrifice on your democratic altar is mingled an odor erstwhile offensive to democratic nostrils. With these lessons that you have taught us, we cannot go with you longer. We admire you much, but love the democratic party more. You are a fellow-townsmen, but democratic fealty is bigger than home pride. So farewell, judge, in our own native Tennessee dialect: 'Tis hard for we'uns from you'uns to part, For you'uns had won we'uns hart.

Texas Central Extension.
TERRILL, Tex., Sept. 19.—Joseph McWilliams, superintendent of the Garrett-Roberts branch of the Texas Central railway, was seen to-day by the News reporter and questioned as to the authenticity of the report that the road had been purchased by Mrs. Hettie Green and that it would be extended to Paris at once.

His statements to the reporter went to corroborate statements made by Mr. Green in an interview with the News representative published in Sunday's issue, and were that the road at the end of a month's time would be controlled solely by Mrs. Green, and that the extension would certainly begin just as soon as the transfer was made. As to Mr. Green above referred to, Mr. McWilliams substantiates all claims that he made for himself, and says that he (Green) is the son of Mrs. Hettie Green and that he was here as the duly qualified agent of his mother.—Dallas News.

The time is not far distant when the Texas Central will extend from Albany to the Northwest.

Haskell is preparing for the encouragement of such a move, and when the time comes we will have a boom never witnessed before.

Educational Column.
J. W. Weaver.
"Brains have built and they rule the modern world, but brains would be neither wise nor efficient without education."

The Texas Educational Journal holds to the position that the school interests are paramount to every other consideration. Have men wealth? It may take into itself wings and fly away; yet even then it may be regained. In thousands of instances men have regained shattered fortunes. History furnishes instances of financial crash, following financial crash, in almost regular succession strike after strike, and the floods have destroyed millions and millions of dollars worth of property; fires have consumed as many more, yet in the face of these great panics and dire calamities, the spirit of the people has been invincible. Soon the panic was bridged over, cities and railroads rebuilt and fortunes regained. But what can supply to the child lost opportunities for getting an education? Youth is the seed time—once passed it is irrevocable. The boy or girl who does not "get a start" for education in his younger days, must go on without it to the end of the chapter. Questions like "Free Grass," the Railroad, the Alien Land Law, and the Coinage of Silver, etc., sink into utter insignificance, when compared to the great question of education. These questions, like the tides, come and sometimes they are before the people and sometimes they are not, but education like a mighty river, "rapid, exhaustless, deep," flows on forever. It is, it always will be a question of vital importance. Think of 600,000 people between the ages of eight and eighteen to be educated! Is this not a weighty problem, and should not the people give it due consideration above all other problems?

October 21st is the national holiday set apart by the president for the celebration of Columbus. Why not have a Columbian celebration in Haskell?

CHOLERA SITUATION

The Port of New York Declared Infected With Cholera.

A SUPPOSED TRAIN ROBBER CAPTURED.

A Prominent Mississippi Attorney Sues for a Port, Minister to Italy, Resigns.

WASHINGTON, Sept. 19.—The vice consul at Lisbon cables the state department that the port of New York has been declared infected with cholera and suspected ports on the east coast of the United States, including Florida, the United States minister to Norway and Sweden cables Sweden declares United States ports on the Atlantic coast infected also. It is presumed from the above cablegrams that the countries referred to will detain all passengers from the United States until danger from infection has passed.

New Cases Reported.

New York, Sept. 17.—The metropolis awoke yesterday morning with a cloudless sky and a crisp, windy atmosphere. These conditions, while cholera is near, become a daily element in the new situation. It is not far away, the days are already having their night and fever at night. The crisp air also braces the spirits of the population against the light of that nervous apprehension that in its results invites the approach of any disorder. It was announced by the health department yesterday that another death from supposed cholera had been reported and is under investigation that of Edward Hoop. During the past twenty-four hours, ending last night, at least thirty cases of suspected cholera were reported at the health department. Miss Maria Spozate reported Thursday night as suffering from cholera was found free from the disease. An Italian died on Sullivan street Thursday night under suspicious circumstances. The doctor thinks it is cholera. His case is being investigated. Sanitary Superintendent Edison examined Maria Spozate, the young Irish girl found yesterday suffering with suspected cholera. He says there is very little doubt the girl has cholera. No secondary cases have been found in the house. John McAvoy, street-sweeper, suffering with cramps was taken to St. Vincent's hospital. The case is being investigated. A bacteriological examination of the intestinal contents of the body of Charlotte Beck who died Sept. 13 has revealed genuine cholera. Edward Harper's body was examined and the intestines and stomach will be bacteriologically examined.

Jack Frost Will Do the Work.

New York, Sept. 18.—The morning opened bright and frosty and New York is enjoying just the kind of weather to prevent any spread of cholera. The few cases which have appeared here have in no way alarmed the city. It is a relief to have a frost. A 15-year-old boy, residing at 42 Second avenue, who has been removed to the floating hospital. This matter confirmed the prevalent belief that the health authorities have the matter well in hand. The city is in too healthy a condition to be alarmed and the people are too intelligent to allow any serious visitation of cholera to take place. However, this will not prevent the authorities and the public in general from recognizing their efforts to prevent an ounce of prevention is worth a pound of cure. A few weeks more and welcome Jack Frost will not get at the slightest danger of any possible cases.

People's Party Conference.

St. Louis, Mo., Sept. 13.—The national executive committee of the People's party held a called session here yesterday. Besides Chairman James Beck, David of Texas, Benjamin Harrison of Ohio, and William of Washington, D. C., Senators of Nebraska and Washington of Mississippi, were present. The session of the committee, which lasted all day, was secret and it is given out that nothing was done except to take other future appointments of the party's officers and power upon the chance of success next November. A report was received of the work of the recently organized eastern sub-committee which was very flattering.

His Accounts Sane.

KANSAS CITY, Mo., Sept. 17.—Augustus I. Kerr, formerly head bookkeeper of the Kansas City office of the Jarvis-Conklin Mortgage Trust company, headquarters for the western business of the company, is short in his accounts \$20,000. Kerr is now in jail. The American Surety company is on Kerr's bond for \$20,000, and is making efforts to secure the arrest of the fugitive. Kerr has been in the employ of the Jarvis-Conklin company several years. The money went in unsuccessful bucket shops, of which he was part owner.

Yellow Fever on Board.

NEW ORLEANS, La., Sept. 15.—The Physicians' Board, Springs, Miss., special agent, reports in a circular letter to the effect that the vessel Rosina Smith, now loading at Ship Island, has yellow fever on board. She came from an infected port. One man died on board Saturday.

Minister Porter Resigns.

NEW YORK, Sept. 19.—A Porter of Indianapolis arrived from Europe on the steamer Fuerst Bismarck Saturday and confirmed the rumor that he had resigned as minister to Italy before leaving for America. He said his resignation took effect last Thursday.

A Lawyer Shoots Himself.

Vicksburg, Miss., Sept. 19.—Richard S. Buck, a prominent attorney and pioneer resident of Vicksburg, suicided yesterday morning, shooting himself with a pistol. He was about 55 years old. Cause despondency resulting from ill health.

Cholera in New York.

NEW YORK, Sept. 15.—The New York board of health yesterday afternoon reported that from bacteriological examination of several suspected cholera cases in the city of New York. It has been determined that

five deaths have been caused by Asiatic cholera. The names of those who died are: Charles McAvoy, aged 55, died Sept. 6; Mrs. Sophia Wignam, aged 53, died Sept. 10; William Wignam, her husband, aged 52, died Sept. 11; Minnie Levinger, a child, died Sept. 11; Charlotte Beck, aged 40, died Sept. 13. From information in charge of the division of pathology and bacteriology of the health department, who made bacteriological examinations of intestinal fluids taken from the bodies of the five suspected cases, reported to the health department yesterday afternoon the result of the examination and announced unhesitatingly that the cases were Asiatic cholera. Wignam had been sick eight days and his wife about the same length of time. The physicians of the health department were unable to find out how cholera was contracted. In each case so far as they were able to learn none of the dead persons came in contact with cholera cases. Every precaution has been taken to prevent the spread of cholera from different houses occupied by the deceased persons. The bodies of each has been burned and the houses placed under observation. The board of health last night issued the following bulletin: "The cases had been treated with the same precautionary measures as if they had been immediately recognized. Thus far no secondary cases have occurred on the premises occupied by the deceased persons. No case has arisen from them. The board has under examination the body of a woman who died with symptoms of cholera Sept. 15. All suspected or reported cases of cholera since Sept. 1 have been carefully investigated and kept under observation. No suspected cases have been reported to the board since 8:30 a. m. Sunday. President Wilson said yesterday evening there is no occasion for excitement at the city. The health department has taken every possible measure to prevent the spread of cholera. The sanitary officers said there was no danger of cholera becoming epidemic. There would be sporadic cases, he said, at least sixty days, until real cool weather sets in, which will have the effect of stamping out the disease. He sent to Ellis Island for passenger lists of all vessels that have arrived here since Aug. 23. Every effort will be made to trace the passengers as far as practicable.

A BLOODY BATTLE

Between Officers and Train Robbers in the Country.

FRENCH, Cal., Sept. 14.—A posse encountered Evans and Sontag, the train robbers, at Sampson flats yesterday and an exchange of shots took place. The robbers made a desperate defense and killed four men. The killed are United States Marshal Wilson, Dick Olson, a man named Wilson and one whose name has not yet been learned. George Witky, who was wounded before, was again shot, and the horse ridden by Constable Warren Hill was shot from under him. The news caused great excitement and additional officers are going in pursuit. Additional news was received yesterday that a Smith's mill at Snyouga. The affair happened yesterday morning at Young's place at Sampson flat. The posse tracked the robbers from Dunsmuir to Snyouga. The posse was coming down the trail, and when they passed Young's house the door was violently thrown open and Evans and Sontag appeared. Before the officers could recover from the surprise the robbers opened a deadly fire on the posse in the shotgun and Winchester. The posse was so demoralized by the sudden attack that they could make no effective resistance. Four men fell under the deadly fire of the robbers. Three were mortally wounded. Immediately afterwards the robbers escaped. The whole country in the neighborhood of the encounter is aroused, and no further attempt to trace the robbers will be made. They will be shot on sight.

Politics and Blood.

CADDO, La., Sept. 13.—Gov. Wilson N. Jones arrived yesterday and organized militia to proceed to Metairie to quell the attacks made on prominent politicians of that vicinity by a gang of armed men and members of the National party. It is reported that six or eight men have been killed at Metairie and Hartshorne during the last two days from no other than political causes. United States Indian Agent Leo E. Bennett is here at Gov. Jones request, conferring with him about the matter. The governor's militia will be well armed in case of another attack. They left yesterday at 2 o'clock for the scene of battle.

Shot and Captured.

LITTLE ROCK, Ark., Sept. 19.—A fellow giving his name as Jim Robinson and who is thought to be a member of the band of robbers who recently stopped a train on the road beyond Fort Worth, was shot and captured near Morrilton, Ark., late Saturday afternoon. He has been held near that place for two months past. He was surprised by a sheriff's posse and shot before he could cook his plan, which he had drawn and was endeavoring to use.

THE MARKETS.

Will D. Barbee has been arrested at Marfa by state rangers for the murder of Albert Van Kleser at Ozona, Crockett county, August 10.

Terrell's Cotton Oil Mill and Refining company will have their plant in operation by Oct. 10. Nearly all the machinery has arrived.

Near Honey Grove a few days ago John Jones, aged 27, was drowned in Red river while attempting to ride a horse across the stream.

Charley Bowser, a 15-year-old boy, died at San Antonio a few days ago from the effect of a kick in the abdomen by a vicious horse.

Farmers in the Denton section are very much disappointed over the corn crop. It will not average over twenty-five bushels to the acre.

The Concho Valley fair grounds at San Angelo are said to be in perfect condition for the opening of the annual exhibition in October.

It is said that preparations are being made at Alvarado for the removal of the division shops and headquarters from that place to Hillsboro.

Very heavy rains are reported from all over the Abilene country. Cattlemen agree that there will be the best fall grass ever seen for years.

While firing anvils near Brenham a few days ago Charles Dagner had three pounds of powder explode in his hands, seriously injuring him.

In a row over a game of croquet at Dallas, recently, John Actis struck his brother Milton, over the head with a mallet, fracturing his skull.

The tax rolls of Tom Green county have been completed, the taxable values footing up \$4,250,390, which is an increase of \$354,428 over last year.

In a row at Itasca, recently, between two farmers, Frank Beckner and Ben Harvey, the former was seriously stabbed in the neck by the latter.

Dallas capitalists have subscribed \$51,600 to the Trinity navigation project. A company has been organized and the present outlook is that work will soon begin.

The property of the Weatherford Park and Improvement company has recently been sold to the public.

At Ellinger a few days ago John Ziegler had his right arm caught in a gin and horribly mangled. The arm had to be taken to pieces before Ziegler could be extricated.

Melvin Farmer met a terrible death while working in a cotton gin near Corsicana, recently. He was caught in the saws and one arm lacerated by a torn from his body.

It is reported from Albany that recent good rains in that section have a splendid prospect of crop and cattlemen are feeling highly elated over the prospects for winter grazing.

The Brenham council has fixed the rate of taxation for the ensuing year at 20 cents on the \$100 for general fund, 25 cents for improvement fund and 50 cents for the school fund.

Ben Arnold has been placed in jail at Gainesville on the double charge of horse theft and assault to murder, he having attempted to slay his father for accusing him of the theft.

The mayor of Victoria has issued a proclamation enjoining the citizens to clean up their premises in conformity with the sanitary regulations of the city. Those failing to do so will be severely dealt with.

Near Bonham recently, while driving as ox team Jack Harris, an old negro, was looked in the abdomen by one of the oxen and a hole torn from which the entrails protruded. The negro will probably die.

Near Greenville, recently, while three negroes were stealing a ride on a Missouri, Kansas and Texas freight train, one of them fell under a wheel in attempting to pass from one car to another and was ground to atoms.

J. W. Davenport, who lites a few miles south of Denison, while digging a well recently, struck at a depth of twenty feet a ledge of rock which proved to be quartz containing very rich lead ore with a small per centage of silver.

At Crawford a few days ago John Hays, colored, was fired upon through the door of his house by unknown parties, one shot passing through his ankle and another through his hips. The wounds are considered very serious.

While working in a gin at Reagan, recently, Irvin Ritter met with a serious accident. In fixing a belt his leg was caught by a rapidly revolving pulley and wrapped around a shaft shivering the limb and forcing the broken bones out through the flesh.

On the Hughes place, twelve miles east of Victoria recently Lewis Giles beat his daughter unmercifully, for which his nephew, Abner Smith, attacked him with a knife. Giles produced a gun and killed Smith, whereupon Robert Smith, a brother of the dead man, carried Giles to pieces with a knife.

The Earlyview neighborhood, near Brenham, has had a mad dog epidemic. Twelve rabid canines invaded the community at one time a few days ago, careering over the country and attacking everything that came in their reach. A crusade was inaugurated against them and the dogs were soon exterminated.

ST. LOUIS CARNIVAL.

Special Attractions for the Entertainment of the Crowds.

THE EXPOSITION HOLDS A UNIQUELY

Successful Ninth Consecutive Season—Traveling Men to Conclude October 1.

St. Louis, Sept. 15.—The attendance in St. Louis today is remarkably large, the immense number of people having come in from all directions to witness the fifth of the series of twelve grand illuminations which are making the city famous this fall throughout the entire continent. Owing to the enormous work in getting the 75,000 electric and gas lights into proper condition for a perfect illumination, to-night is really the first night in which it has been possible to light up each one of the 75,000, and successful as the earlier illuminations were, the effect to-night far exceeds them.

The carnival is now at its height and the Exposition is proving a wonderful success, the attendance during the first week showing an increase of over 25 per cent. Gilmore with his strengthened band of 100 pieces is doing magnificent work, and so popular are his concerts that many who obtain good seats to hear them remain seated during the hour of the concert in order to retain their seats for the next concert. The Exposition generally is very fine, and the scenes in the aisles and galleries call forth expressions of admiration from visitors from all parts of America. A large number of special nights at the Exposition are announced, and on Oct. 1st the Traversers' Protective Association will take charge of the program. Special trains will be run from Chicago, Terre Haute, Peoria, Kansas City, Memphis and other points, and a number of the visiting delegations will be accompanied by strong local bands. It is estimated that about 2,000 traveling men will arrive in St. Louis on the morning of the 1st and they will at once be taken charge of by the president of the National association, who resides in St. Louis, aided by a strong local committee. Carriages will be provided for the delegates, who will be hospitably entertained until the evening, when they will give a unique entertainment at the Exposition building. The oration of the day will be delivered by Mr. W. C. P. Brockbridge of Arkansas, with speeches by the governors of Missouri, Illinois, Indiana and other States.

The day promises to be one of the most interesting of the entire forty days of the festivities, and during the afternoon the Velled Prophet will arrive in the city by boat. He will be accompanied by strong local bands. It is estimated that about 2,000 traveling men will arrive in St. Louis on the morning of the 1st and they will at once be taken charge of by the president of the National association, who resides in St. Louis, aided by a strong local committee. Carriages will be provided for the delegates, who will be hospitably entertained until the evening, when they will give a unique entertainment at the Exposition building. The oration of the day will be delivered by Mr. W. C. P. Brockbridge of Arkansas, with speeches by the governors of Missouri, Illinois, Indiana and other States.

The Velled Prophet's parade and ball will take place on Tuesday, October 4, on the evening of which day there will be a grand street illumination with all the electrical paraphernalia in full work. On Thursday, October 6, the great day of the St. Louis Fair there will be another illumination, and these two days promise to be the most successful and brilliant of the carnival. The Fair lasts the entire week, opening October 3 and closing October 8, and the program includes a large number of very important and very interesting novelties. The concluding illuminations will be on October 13 to October 20.

The Homestead Workers' Strike. The trials of the Homestead workers who have been held to the grand jury on varying charges of murder, aggravated riot and conspiracy will not begin until the first week in October. Fifty-five men have been held, and against some of them there were four or five charges. A large number of arrests are still to be made, including many women. The disorderly conduct and inciting riot. Lawyers on both sides of these prosecutions are now hard at work arranging them and preparing for what must be a memorable series of trials.

Mail Robber in Custody. PENSACOLA, Fla., Sept. 13.—The United States postoffice inspector arrived here with T. P. Farrell, mail contractor for the route between Tallahassee and Gannab, and had him committed to jail in default of \$6000 bail. Farrell is charged with robbing the mail on the route. It is claimed by the postal authorities this solves the mystery of the wholesale disappearance of valuable registered letters and packages on the Gannab route during the past few years.

An Indiana Precentor. KINGMAN, Ariz., Sept. 17.—Representatives from the four tribes of Indians met at Pine Springs to negotiate against the government forcibly taking Indian children from their parents and sending them to eastern schools. Many chiefs want to go on the war-path.

The J. H. Brown Estate. CHICAGO, Ill., Sept. 16.—Letters of administration on the estate of James M. Brown, the Texas horseman who was shot at Garfield race track by Officer Powell, were taken out yesterday by John G. Brown, a son of deceased. The estate is valued at \$25,000.

An Incorrect Report. NEW ORLEANS, La., Sept. 16.—The official report sent out by the Marine hospital service stating that the ship May arrived at New Orleans Wednesday with four cases of yellow fever aboard is incorrect. She is at Chandler Island quarantine.

Next to the Pen for Fezzing. GREENSBORO, N. C., Sept. 17.—Judge Green Wednesday sentenced John Finch, a prominent farmer, to 15 years in the penitentiary for swearing falsely when being examined as a juror in the district court.

Fixing Collins's Place. COLLING (proudly)—Mr. Depew says that self-confidence is the attribute of great men and of fools. Miss Foslack—Yes, and no one would accuse you of being a great man, you know.

A Cosmopolitan Clock. A New Yorker has made a clock from 34,000 pieces of wood, comprising over 300 varieties. For ten years he has had sailors bringing him rare woods from every quarter of the globe.

Had No Opportunity. Professor (examining an applicant for a teacher's certificate)—Can you decline 'love's kiss' easily? Miss Gaskoy (happily)—I have never had a chance to kiss.

COMING TO THE PAPER AGE

Days of Brass and Iron Passing and a New Era Dawning.

The world has seen its iron age and its brass age. Now the Paper Age is dawning. This is the age of paper. It will soon be true that without paper there is nothing made. We live in paper houses, wear paper clothing and sit on paper cushions in paper cars rolling on paper wheels. If we lived in Bergen, Norway, we could go on Sundays to a paper church. We do a paper business over paper counters, buying paper goods, paying for them with paper money and deal in paper stocks and paper markets. We row races in paper boats for paper prizes. We go to paper theaters where paper actors play to paper audiences.

As the age develops the coming man will become more deeply unshod in the paper net. He will awake in the morning and creep from under the paper clothing of his paper bed and put on his paper dressing gown and his paper slippers. He will walk over paper carpets, down paper stairs and, seating himself in a paper chair, will read the paper news in the morning paper. A paper bell will call him to his breakfast, cooked in a paper oven, served on paper dishes laid on a paper cloth on a paper table. He will wipe his lips with a paper napkin and having put on his paper shoes, paper hat and paper coat, and then take his paper stick, he will have the choice of two descriptions already, he will walk on a paper pavement or ride in a paper carriage to his paper office.

He will organize paper enterprises and make paper profits. He will sail the ocean on paper steamships and navigate the air in paper balloons. He will smoke a paper cigar or paper tobacco in a paper pipe, lighted in a paper match. He will write with a paper pencil, write paper sticks with a paper knife, go fishing with a paper fishing rod, a paper line and a paper hook, and put his catch in a paper basket. He will go shooting with a paper gun, loaded with paper cartridges, and will defend his country in paper forts with paper cannon and paper bombs. Having lived his paper life, he will achieve a paper fame and paper wealth he will retire to paper peace.

The e will be a paper funeral at which the mourners dressed in paper hoods, will wipe their eyes with paper hand

"August Flower"

I have been troubled with dyspepsia, but after a fair trial of August Flower, am freed from the vexatious trouble.—J. B. Young, Daughters College, Harrodsburg, Ky. I had headache one year steady. One bottle of August Flower cured me. It was positively worth one hundred dollars to me.—J. W. Smith, P. M. and Gen. Merchant, Townsend, Ont. I have tried it myself for constipation and dyspepsia and it cured me. It is the best seller I ever handled.—C. Rugh, Druggist, Mechanicsburg, Pa.

AT BEDTIME I TAKE A PLEASANT SWEET TASTE MEDICINE

Unlike the Dutch Process No Alkalies Other Chemicals are used in the preparation of W. BAKER & CO.'S Breakfast Cocoa which is absolutely pure and soluble.

TOWER'S FISH BRAND SLICKER

The Best Waterproof Coat in the World!

It has more than 100,000,000 uses in the world. It is made from the finest materials and is guaranteed to last for years.

Positively cure Sick-headache, Constipation, Biliousness, Liver Complaint, Colic and General debility. 40 to the bottle. Sugar coated. Easy to take. Do not gripe nor sicken the stomach. Sold by druggists. Price 25c. Reliable and economical. Sample dose free.

"MOTHERS' FRIEND"

MADE BY THE WILD BIRTH EASY.

Colic, etc., from 1866.—My wife used MOTHERS' FRIEND before her third confinement, and says she would not be without it for hundreds of dollars.

DR. BIGGERS' HUCKLEBERRY CORDIAL

CURES ALL BOVINE AND STOMACH AND CHILDREN'S TROUBLES.

WE HAVE FOR SALE Engines and Boilers.

NETHERINGTON & NASON.

RESISTANT FOR Consumptives and people who have weak lungs or Asthma. It is the best cough syrup. Sold everywhere, 25c.

WAOO FEMALE COLLEGE.

The African Main Plant discovered in Congo. Cure for Asthma, Cough, Bronchitis, etc. Sold by all druggists.

Haskell County.

For Resources, Advantages, Prospects and Future Prospects.

Topography, Water, Soil, Products, Shipping Points, Railroads, Public Schools, and Mill Facilities.

Haskell county is situated in the southern part of the Panhandle on the line of the one hundredth meridian west from Greenwich. It is 1500 feet above the sea, and has mild winters and summers. It is thirty miles square and contains 570,000 acres of land. It was created in 1858 from a part of Fannin and Miami counties, and named in honor of Charles Haskell, a young Tennessee, who fell at the massacre at Glendale in 1836.

It remained unsettled until 1874, when there was one or two ranches established. Other ranchmen followed, and in 1880 the county could boast of fifteen or twenty inhabitants. There was no further development until early in 1884, when the town of Haskell was laid off, and by donating lots a few settlers were induced to build residences, and in January 1885 the county organized with a polled vote of fifty-seven electors.

Up to 1884 the soil had never been turned by a plow, and the people depended upon raising cattle, sheep and horses, as the natural grasses furnish food both winter and summer for immense herds. The poorer people made money by gathering many thousand tons of buffalo bones and shipping them east to be made into fertilizers used in the old states.

Experiments were made in 1885 with garden products, corn, oats, wheat, rye, barley and cotton and the yield was bountiful. The acreage in farms have increased to at least 50,000.

The county is an undulating plain, with occasional creeks and branches. It is bounded on the north by the picturesque stream, the Salt Fork of the Brazos, and on the west by Double-Mountain Fork.

There are a few washes and gulches along the breaks and rivers, but with rivers, breaks, rocks and poor land combined their area in Haskell county would not exceed 10,000 acres that would not be fine agricultural land.

It is traversed by numerous creeks and branches besides the rivers mentioned, some of which are fed by never failing springs of purest water.

Besides the numerous branches that afford water for stock all the time, the south half of the country is traversed by Paint and California creeks with their numerous tributaries draining the south half of the county.

The north half is traversed from northwest to northeast by Lake and Miller creeks whose tributaries furnish water and drainage for the same.

Besides the surface water there is an abundance to be obtained by digging from 15 to 40 feet, and all of a good quality, some of which is unsurpassed by that of any section in the state for purity and temperature.

per acre, and usually sells at 25 cents per bushel, cotton yields a half to three-quarters of a bale per acre. Other crops including good yields and command corresponding prices. Hogs made per bushel 4 to 6 cents; home made butter, fresh beef 4 to 6 cents; home made buttermilk, sweet and delicious, usually sells at 25 cents per pound, chickens 15 to 25 cents each, and eggs 10 to 25 cents per dozen.

As yet Haskell has no railroad, and our people do their principal shipping to and from Abilene, a town 52 miles south, in Taylor county, on the Texas and Pacific railroad, Albany on the Texas Central 45 miles from Haskell on the southeast, and Seymour on the Wichita Valley road 45 miles northeast.

There is one road being built from Seymour to this place and one to be built from Fort Worth. The Texas Central will extend in a short time from Albany and Haskell is on the line as originally surveyed.

The land men of Abilene have organized a company to build a road from that city to this section of the state, where they control nearly all the land, and one of the principal members owns 150,000 acres in this and Kang counties, besides he owns the large addition to the town of Haskell on the south.

Haskell is 52 miles north of the T. & P. R. R. and 50 miles south of the F. & W. & D. R. R., and is situated on the direct line of the cattle trail over which the Rock Island and G. C. & S. P. R. propose to extend their lines.

Our school fund is perhaps the best in any county in the northwest. In addition to the amount received from the state, about \$500 per capita, our commissioners' court have wisely expended a large sum for the purchase of school land, situated in the Panhandle, the revenue from which, added to the amount received from the state, gives us a fund fully sufficient to run the several schools of the county ten months in the year.

There is a daily mail service from Haskell to Abilene via Anson, and a weekly mail north to Benjamin and a daily mail to Seymour, also a tri-weekly express line to Albany. These all carry express and passengers.

RELIGIOUS ORGANIZATIONS. The religious and moral status of the people of Haskell county will compare favorably with that of any people. The Methodists, Baptists, Christians, Old School and Cumberland Presbyterians each have organized churches in the town of Haskell, and have preaching on Sundays, also preaching at other points in the county.

HASKELL. The town of Haskell is the county site of, and is situated one and one-half miles south of the center of Haskell county, on a beautiful table land, and is eight years old, and has a population of 942. Has good water as can be found anywhere, which is secured at a depth of 15 to 20 feet. Also has two never-failing springs of purest water.

The town of Haskell has her natural advantages of location, climate, good water and fertility of soil is destined in the near future to be the queen city of northwest Texas, and rail road connection for Haskell is all that is needed to accomplish these.

ADVANTAGES AND RESOURCES. In almost every neighborhood of the older states and the thickly settled portion of our own state there are many of its citizens who are contemplating a removal or a change of residence for many reasons. Some to restore lost health, some to make their beginning in the world, others to repair financial losses, others seeking safe and profitable investments of surplus capital. There are many others who have comfortable homes and are well contented, but who have children, whom they would like to provide with lands suitable for a home, and assist to commence business in life, but cannot do so with their present surroundings, and must seek cheaper lands and better opportunities in other and newer localities.

OUR ST. LOUIS LETTER.

No Alarm Held as Regards the Cholera. A Leaflet Issued in a Large Office Building.

St. Louis, Mo., Sept. 19.—Of all the large cities in the country, St. Louis seems to be the least affected by the talk about cholera. Numerous sanitary officers have been appointed who are looking after the cleanliness of the city, but the ordinary citizen does not concern himself at all about the reports coming from the East. If you ask one of them why he is not alarmed, his reply will likely be: "Why, there could be no epidemic disease here, with such a system of sewerage as we have."

And he would be right. From all sides St. Louis slopes down to the river and to the Mississippi valley. The small sewers run directly into the river and through the valley in hidden common sewer through which a furniture can be drawn by two horses. There has never been anything like an epidemic disease since these sewers were built, even when it was most endangered by disease coming from other points. The sanitary officers feel confident that the city is safe from cholera, and respect they could protect the city even if the cholera approached as near as Chicago.

The pneumatic tube will be used in St. Louis for the transmission of mails through the city some time before Philadelphia, the only other town which has adopted the plan, gets its apparatus in working order. Arrangements have just been made to lay the conduit through which the tubes will be run. Here we already have the conduit, which is to be the railway tunnel running under the city from the bridge to the Union depot.

There is a daily mail service from Haskell to Abilene via Anson, and a weekly mail north to Benjamin and a daily mail to Seymour, also a tri-weekly express line to Albany. These all carry express and passengers.

RELIGIOUS ORGANIZATIONS. The religious and moral status of the people of Haskell county will compare favorably with that of any people. The Methodists, Baptists, Christians, Old School and Cumberland Presbyterians each have organized churches in the town of Haskell, and have preaching on Sundays, also preaching at other points in the county.

TABLE TALK. Paris consumes daily four tons of the cultivated mushroom. Bananas are an excellent substitute for meat.

A new variety of ham in the Eastern market is noted as "cut from only milk-fed pigs."

SUICIDE OF A DOG.

He Plunged Into the Water and Made an Attempt to Swim.

A small dog, perhaps one of the spit family, committed suicide at the wharf at Green Cove Springs near Savannah, Ga., recently, by drowning. About 5 o'clock the spit came at a fearful pace from St. Johns avenue and ran out on the small wharf, and after looking longingly into the water's edge and taking an even start with it. After plunging in he swam outward, then circled around for awhile, finally making for the outer end of the dock, where one of the hands of the steamer Manatee lowered a rope, encircled the dog's body and raised him to the dock.

Phantom. The hopes of cure held out in the advertisement of a medicine are more than anything without the slightest shadow of reality. On the other hand, no statement has ever been made in behalf of Hester's Balm. It is not a cure for anything, but a remedy for the most respectable medical men of the world. It is a chronic indigestion and biliousness. It is an infallible cure for all cases of indigestion and biliousness. It is a remedy for all cases of indigestion and biliousness. To the kind people of Haskell:
We wish to express to the people of Haskell our heart felt thanks, for the kind attention, and tender courtesies they have shown our son during the six weeks of serious illness, he has just passed through. We can never forget the kind hands who have done all they could to alleviate his suffering and shall ever look to these good people with gratitude and hold them in sacred remembrance.
Respectfully,
Dr. and Mrs. McGregor.

—Having sold my stock to Mr. R. E. Martin, I respectfully request all parties who know themselves to be indebted to the Palace Drug Store to come forward and settle at once, as I will not be here later than Oct. 1st. 92.
Respectfully,
S. E. Frost.
Explanation.
We wish to explain to the people why we are selling furniture cheaper than any town in west Texas this fall. It is because we placed orders with the factories when crop prospects were favorable, and find now that our stock will be entirely too large for the short crop, hence we will give great bargains in order to induce surrounding counties to purchase from us.
J. J. SANCHEZ,
Seymour Texas.
