SOMETHING

EVERY DAY

At first, we made picture frames for just ordinary things, like pictures, but now our customers have brought in such items as violins, wedding dresses, shoes and dolls, and a host of different items. You will have to see some of these picture frames yourself to really know what we are talking about when we say: "see the distinctive picture frames at Cameron's." You will be pleasantly surprised, as so many others are, the first time you look over work we have completed and the huge array of frames we have in stock.
