VOLUME 40

KNOX CITY, KNOX COUNTY, TEXAS, THURSDAY, FEB. 22, 1945

NUMBER 20

## WASHINGTON LETTER

By Congressman Ed Gossett

Washington, Feb. 17th—Dramatic events on the many war fronts this week dwarf all domestic news. Still, it's a bold official who will predict just when the end of hostilities will come. Here's how some of the higher ranking military men have guessed in the past. Said Admiral Halsey on New Year's Day of 1943: "1943 will see the complete, absolute defeat of the Axis." Said General H. H. Arnold in February of 1943: "I have an appointment in Berlin a year from today." Said Lieut. Gen. Mark W. Clark in November of 1943: "It's my hope and belief that before November, 1944 the Battle of Europe will have terminated in a smashing victory." In December of 1943, General Eisenhower thought, "The Allies will win the European war in 1944." Undersecretary of War, Patterson, in August of 1944, thought, "Victory over the Germans is not far off." And General Marshall wrote in the Army and Navy Journal for December 7, 1944: "Before this statement is published, hostilities might have terminated in the European theater."

The fear of some Washington officials that the 50 German generals now prisoners of the Russians, headed by their prize officer, Field Marshal von Paulus would be set up by the Russians to run Germany seems to have been cleared by the Big Three Crimean conference.

Eyebrows in Washington lifted this week with the report that new Secretary of State Stettinius on his visit to Moscow gave a Russian actress a 3,000 ruble (\$240) bouquet of flowers. Notwithstanding Russian devotion to opera, this doubtless to the vast majority of Russians was conclusive evidence of capitalistic extravagance. Stettinius, former chairman of the board of directors, U. S. Steel, is a rich man and this was simply change out of his own pocket.

Retiring Commissioner of Indian Affairs, John Collier, makes an interesting report. Since he took over the administration of Indian Affairs in 1933, and secured adoption of his Reorganization Act by Congress in 1934, the income of Indians has increased 300 percent, their death rate has decreased 15 percent, and their population has increased since 1900 53 percent. The population is now 377,000. Historians estimate the Indian population of America was never more than about 900,000.

Reports indicate France is going through her worst winter. Only 30 percent of the national industrial equipment is usable due to shortage of raw materials. The best hotels are without light or heat. Even the French troops lack blankets and overcoats.

The Pacific Coast longshoremen are still working on a 6-hour day, and get time and a half or double time for overtime. San Francisco operators say that one-third of this present force of longshoremen could do the present job more quickly than all are now doing if they would really work at it.

Petroleum Administrator Ickes estimates that military needs require at least 27,000 new oil wells during 1945.

The war has given strong impetus to long-range weather forecasting. The U. S. Weather Bureau eventually expects to make regular forecasts over a 10-day period, and to plot general trends over longer periods. This will be of great benefit to farmers, vegetable and fruit growers and cattlemen, as well as to industry and trade, aviation, shipping, railroads, public utilities, and the public in general.

Before the war the U. S. had only a few hundred weather stations. Now Army Air Forces alone operates observation stations all over the world. Named by G. F. A. Some of the stations are in lonely spots with almost no human contacts. These boys are doing Mark Twain's remark that nobody does anything about the weather. While they don't control it, they do report the kind to be expected.

At this time Washingtonians would welcome some sunny weather. Recently we have had a few days of springlike, cloud filtered sunshine which made farm reared desk workers here long for the pleasure of walking barefoot over freshly plowed earth.

Order your cut flowers for any occasion from the Knox City Study Club. Call Mrs. Otis Cash, Mrs. C. C. Hoge or Mrs. S. M. Clonts.

## Glover Calf Wins Championship Prize; Hill Wins Reserve

Stanley D. Glover of Benjamin was winner of the Grand Championship with his 4-H Club calf at the 11th Annual 4-H Club Calf Show which was held in Knox City, Saturday, February 17th. The Grand Champion calf was bred by the League-Davis Ranch, and weighed 835 pounds.

Buddy Crenshaw, also of Benjamin, was winner of the Reserve Championship and his calf was bred by the McFadden Ranch. The calf weighed 875 pounds.

Pat Hill of Munday was winner of the Junior class, with a calf that was bred by the League-Davis Ranch and weighed 735 pounds.

Leroy Davis of Vera showed the second place Junior calf, bred by League-Davis, weighing 765 pounds.

The Grand Championship calf won a premium of \$65.00 in cash, and the Reserve Champion collected a premium of \$50.00 in cash.

The ten calves selected by the judges, Frank Wendt of Willbarger County, and O. K. Hoyle of Baylor County, to represent Knox County in the District 4-H Club Show, to be held in Wichita Falls on February 28, March 1 and 2, are calves bred by Stanley D. Glover, Buddy Crenshaw, Carol Fred Glover, J. G. Puits, Pat Hill, Leroy Davis Olen Ray, Anson Ray, John Charles McFerrin and Jerrel Trainham.

Five of the Knox County boys, most of whom are calf feeders, will also represent Knox County in a District Livestock Judging Contest in competition with 17 other counties. The boys will judge four classes of fat steers and will give oral lessons on two classes of fat steers before the judges. There will be four steers in each class. The Knox County boys have been working hard for the past six weeks and have visited many of the Hereford breeders in Baylor and Knox Counties, and have had some good workouts on fat classes of cattle.

## Mrs. Heath Attends Trial Father's Slayer

Mrs. Eunice Mae Heath of Knox City attended the trial in Dallas of Emmett Howeth Fulton, charged with the knife slaying of her father, Frederick F. Davies, in Dallas Sept. 4, 1944.

The trial was concluded last week with Fulton receiving a sentence of from 5 to 99 years in prison. Contrary to newspaper reports that Mr. Davies was from Knox City, Mrs. Heath asserts that her father had never been here.

## Pvt. Jack Simmons Wounded In France

Mr. and Mrs. Joe Simmons were notified on February 15, that their son, Pvt. Jack Simmons, had been wounded in France on January 19. Pvt. Simmons had landed there on January 9, only 10 days prior to being wounded. He received his basic training at Camp Wolters last summer.

## Pvt. Frank McAuley In El Paso Hospital

William Beaumont Gen. Hospital—Pvt. Frank W. McAuley, formerly of Knox City, Texas, is now recuperating at William Beaumont General Hospital, El Paso, from wounds received in the Pacific Theater of Operation, and for which he was recently awarded the Purple Heart. A veteran of nine months overseas, Pvt. McAuley is the son of Mrs. Frank McAuley of Knox City.

## Final Tabulations In For Paralysis Fund

A final tabulation of the recent Infantile Paralysis Fund drive reveals the following figures:

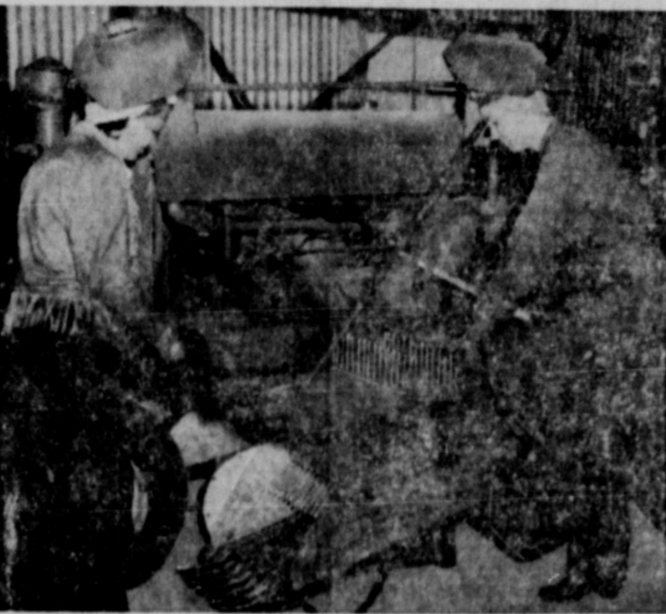

Benjamin	\$216.59
Truscott	116.07
Gilliland	16.01
Vera	46.05
Goree	53.73
Munday	394.00
Rhineland	45.84
Sunset	13.78
Hefner	19.16
Knox City, Brock	
Union Grove	263.00

Officials of the county organization were highly pleased with the results of the campaign.

## SINGING AT GRAHAM'S

The regular Sunday afternoon singing will be held next Sunday in the L. W. Graham home, north of Knox City. Everybody invited to come out.

## Queens Help "King" Mechanize

Women war workers are not all at shipyards or plane plants; Marie Aldrich and Dolly Ash, feminine welders, are working in a Texas machine shop building mechanical harvesters for cotton, "The Nation's No. 1 War Crop."

Harvesting 6 to 8 bales a day, at savings estimated by farmers at \$25 per bale or more as compared with hand methods, such machines are helping to solve wartime labor problems and to insure the postwar future of the Cotton Belt's most valuable crop.

Homemade "sleds" and "strippers," converted grain combines, and a limited number of commercial pickers will harvest thousands of acres of cotton in 1945, and leading implement manufacturers have successful harvesters ready for postwar production. Combined with mechanical cotton choppers, flame cultivators and other new implements, these machines are revolutionizing the production of the crop which brought growers one and one-half billion dollars revenue from its lint and seed in 1944.

## Ration Outlook for 1945 Is Gloomy Picture As Surplus Goods Fast Disappearing

Several months ago many of our large ammunition plants were shut down because stocks seemed adequate to meet foreseeable needs. Draft calls were reduced. Plans were made to convert some war manpower and machines to the production of peacetime goods.

In September, 1944, the War Food Administration, which is responsible for the production and allocation of food supplies and for deciding what foods shall be rationed, ordered 17 processed food items removed from the ration list. There was optimism in many quarters about the end of the European war. It was hoped that part of the food stocks set aside for military use might soon be released for civilians.

Today the ammunition plants are rushing into production again to supply the sharply increased demand resulting from a longer-than-expected war in Europe and a sharply stepped-up offensive in the Pacific. Draft calls have been increased. Reconversion plans have been set aside. It is necessary to tighten the wartime food rationing program as the facts presented below clearly show.

MEAT—The per capita meat supply in 1944 was 148 pounds. Available figures for the 1945 supply of meat would give a per capita total of 127 pounds. If supplies were available in 1945, civilian consumption would reach 170 lbs. Allocation to civilians for the first quarter of 1945 is 15 percent less than during the last quarter of 1944.

CANNED FRUIT—Civilians will actually get about 25 percent less than last year when we used eight million cases of carry-over stocks in addition to the allocation for the year. This year civilians will get 25,500,000 cases compared with 33,800,000 cases last year.

CANNED FRUIT and VEGETABLE JUICES—The total civilian supply of grape, tomato, pineapple and mixed vegetable juices is 11 percent less than last year and 52 percent less than in 1941-42. Supplies of citrus juices for civilians may be as much as one-third less than they were last year, depending on the outcome of canning operations which are now getting underway.

CANNED VEGETABLES—In 1944-45 civilians will get from the new pack 33 percent less commercially canned vegetables than last year and 36 percent less than in 1941-42. On December 1, 1944, supplies of canned vegetables in the hands of processors and wholesalers amounted to only 56 percent of the supplies available on December 1, 1943.

SUGAR—We are going into 1945 with the smallest sugar stock in recent years. A smooth rationing operation requires a basic working inventory large enough to maintain at least small stocks in stores throughout the country. An inadequate in-

ventory invariably results in local shortages which make ration currency worthless at least temporarily. Sugar stocks have fallen from 2,613,000 tons on January 1, 1940 and 1,761,000 tons on January 1, 1944, to an estimated low of 1,300,000 tons on January 1, 1945.

There are four main reasons for this:

(1) Civilians consumed about 500,000 tons more sugar than we could afford in 1944. The black market accounted for a small part of that overdraft but the home canning program was chiefly responsible. Supplies of commercially canned fruit for civilians had been short for several months. The 1944 fruit crop was large. Every effort was made to encourage home canning by making it easier for home canners to get the sugar they needed. Two things happened. The legitimate demand was unexpectedly heavy, and many people applied for more sugar than they needed for canning.

(2) The 1944 domestic beet sugar production was 500,000 tons below the annual production.

(3) Due to shortage of grain, 900,000 tons of sugar were diverted to the production of industrial alcohol for synthetic rubber and munitions. Plentiful grain crops will make this diversion unnecessary in 1945.

(4) Recurrent shipping shortages. We must get along with less sugar in 1945. In 1941 civilians consumed 7,350,000 tons of sugar in all forms—about 104 pounds per person. In 1944 we used 6,100,000 tons or 88 pounds per person. In 1945 we must live within a civilian quota of about 5,400,000 tons—78 pounds per capita. This is the same as the 1944 civilian quota. But, it is about 700,000 tons (or about 10 pounds per person) less than was actually used by civilians in 1944.

There is simply not enough sugar available to allow for an overdraft in 1945. We are starting the year with a first quarter allocation of 1,300,000 tons compared with 1,308,000 actually used in the first quarter of 1944.

Shipping and manpower are still short. Ships are not available in unlimited numbers to bring sugar into the United States ports. Even if the ships were available to bring in all the sugar available, the manpower problem in many refineries would slow down production.

Military and other government requirements will be larger in 1945. During 1944 the armed forces used about a million tons of sugar and lend-lease required another 300,000 tons, a total of 1,300,000 tons. In 1945 it is estimated that military and lend-lease requirements will total 1,600,000 tons—or about 106 pounds for every family in the United States. Each soldier actually consumes over twice as much sugar as

(Continued on back page)

## City Election Set For Tuesday, April 3rd

A municipal election will be held in Knox City, April 3, for the purpose of electing a mayor, one commissioner and city marshal, all for terms of two years.

Mayor Hoge ordered the election at the regular meeting of the mayor and commissioners held at the City Hall February 14.

## \$1900 Quota Set For Knox City Section Red Cross Roll Call

Co-chairmen C. A. Richardson and Clad Reed have announced "all ready" for the annual Red Cross Roll Call drive beginning March 1st. Richardson and Reed are heading the committees in charge of canvassing the Knox City, Union Grove and Brock areas in the drive.

The local quota of \$1,900.00 is just under what this locality subscribed last year and there is little reason to doubt that the final figure will exceed this amount. Last year's total was \$1911.41, and in view of the urgency of this year's call, officials of the drive believe the public will show their appreciation of the splendid work the Red Cross is doing by running the quota over the top.

Rev. Lloyd Hamilton is county chairman of the Roll Call drive. He made a short talk and exhibited a Red Cross prisoner of war package at the Lions Club weekly luncheon today noon.

The national quota of \$200,000,000 will be made up from the efforts of the entire nation and every community will be depended upon to assume its share.

The local committees will canvass this community thoroughly starting March 1st. The entire Roll Call for this section will be printed in the Herald when final tabulations are made.

## Benjamin Sergeant Wins Bronze Star

Fifth Army, Italy—Sergeant Doris M. Steward of Benjamin, Texas, recently was awarded the Bronze Star for meritorious service in direct support of combat operations on the Fifth Army front in Italy.

Steward, communications sergeant of an anti-aircraft artillery unit under II Corps, was responsible for the installation and maintenance of telephone lines on routes under artillery fire. He often worked for 72 hours without rest to keep the lines intact. Overseas 21 months, Steward wears three campaign stars on his European Theater Ribbon.

His parents, Mr. and Mrs. Henry W. Steward, live in Benjamin.

He has three brothers in the service, Corporal Raymond, fighting in the Pacific Theater and SDC Elsie and Gunner's Mate Tritschu, both at sea.

## Masons Will Have Washington Program

A special George Washington program will be observed by the local Masonic Lodge, Monday night, Feb. 26th, starting at 8 o'clock.

A good program has been arranged with Rev. C. A. Powell of Hule as principal speaker of the evening.

All Masons, their wives and friends are invited to attend the affair.

## CAMP FIRE GIRLS ELECT OFFICERS AT MEETING

The newly organized group of Camp Fire Girls met in their regular meeting Wednesday and elected the following officers:

President, Betty Sue Teague, vice-president, Patsy Yarbrough, secretary, Norma Whitten, treasurer, Carol Ann Armstrong, scribe, Zana Ann Hamm.

The group meets each Wednesday after school hours.

## Book Club Meets

The Knox City Book Club met on Wednesday, February 14, in the Homemaking room of the school building. A dinner, with the Valentine theme, was prepared by different members of the club.

Following the meal, a short talk on table manners and table service was given by Mrs. M. S. Sellers.

The book, "A Tree Grows in Brooklyn," was reviewed by Miss Ruth Rice.

Bouquets, wreaths or potted flowers for any occasion. Knox City Study Club. Mrs. Cash, Mrs. Hoge or Mrs. S. M. Clonts.

## Lee Coffman Dies Ft. Worth Wednesday

Lee Coffman, 60, a resident of this county for 45 years and District Clerk for the past six years, died in St. Joseph's Hospital in Fort Worth Wednesday morning, February 21, at 6 o'clock. He has been living at Benjamin for several years.

Mr. Coffman had suffered severe injuries in an automobile accident in Fort Worth a week prior to his death. He had been confined to the Fort Worth hospital since that time.

Funeral services were held today, Thursday, at 4 o'clock, with Rev. Swindell of Abilene and Rev. Farley of Vera conducting the last rites. The services were held in the District Court room at Benjamin where for the past years Mr. Coffman performed his duties. Interment was in the Benjamin cemetery. Arrangements were handled by Mahan Funeral Home of Munday.

Mr. Coffman was born in Young County, Texas, and had lived in this section of the state all his life. He was well-known over this part of the state and had a multitude of friends to mourn his passing.

Surviving him are his wife and two sons by a former marriage.

## County Red Cross Chapter Furnishes 432 Service Kit Bags

The Knox County chapter of the American Red Cross has made and shipped 432 kit bags since January 1, 1945. These kits consist of comfort items, such as cigarettes, playing cards, writing paper, pencil, envelopes, razor blades, hard candy, shoe shine cloth, shoe laces, plastic soap boxes, soap, pocket size books and a small sewing kit.

One is given to each service man when he embarks for foreign service and another when he returns from the firing line. They are also distributed among the wounded in hospitals on foreign soil.

The material for making the kits is furnished by area headquarters, but the contents are purchased by the local chapter, costing approximately \$1.00 per kit.

They are made by specifications furnished by the military. The military also designates the contents and asks that Red Cross chapters not leave out or add to the articles called for by the specifications. The Knox County chapter also shipped 16,200 surgical dressings this week. This brings the total number made by the county chapter to 265,800 in the past two years.

## Baptist Workers To Meet At Haskell

The Haskell Baptist Association Workers' Conference will meet with the First Baptist Church at Haskell, Tuesday, February 27th.

The program will start at 10:30 a.m. and conclude at 2:30. Rev. Tom Keenan, pastor of the Knox City Baptist Church will appear on the program as a speaker. A business session will follow the lunch hour recess.

## Birthday Dinner

Mrs. Geo. Hardberger honored her granddaughter, Diane Darnell, of Ft. Worth, with a birthday dinner Sunday, February 18. A small group of Diane's friends were invited, including Rebecca Hackfield, Jean Carol McAuley, Zana Ann Hamm, Carol Ann Armstrong, Julie Prizzell and the honoree.

After dinner, birthday cake and 12 candles were brought out with the girls singing, "Happy Birthday, Diane."

## The Weather

## GIVE YOU TEXAS

by BOYCE HOUSE

My grandpa never cared much for politicians. Of one, he said, "I'd like to buy that fellow for what he's worth and sell him for what he thinks he's worth."

And of one perennial office-holder, grandpa remarked, "He can change sides like a chameleon can change color—in fact, he's better'n a chameleon because I heard of one of those little lizards bein' placed on a piece o' changeable silk and he strained himself to death."

Grandpa summed up a joint debate between two candidates: "Jonas' speech was like a Mother Hubbard—it covered everything and touched nothing; Brown's speech was like a flapper's dress—it touched everything and covered nothing."

Would it be correct to say that a photograph of John L. Lewis is a "striking" likeness?

"The grandeur that was Rome," Poe wrote—and the city that ruled the world 2,000 years ago possessed such glories as the temple of Apollo, built of solid white marble; the Coliseum, which seated 87,000, and the Circus Maximus, (the scene of chariot races), which could seat 385,000 persons. There was at least one building, a palace, which was 10 stories in height and the dome of the Pantheon was 200 feet high. The walls of the city had a circumference of 21 miles and the aqueduct had arches that were 100 feet high, water being piped into the houses. The Romans were masters of the art of war and, in attacking a walled city, they made use of towers, some of which had a height of 315 feet. When the Coliseum was dedicated,

### Red Cross Assisting Home Front Families

Facilities for aiding the families of servicemen and veterans are maintained by the American Red Cross in nearly all of its 3,737 chapters. Called "Home Service," this branch of Red Cross activity last year helped 3,500,000 servicemen and their families solve problems that might otherwise have robbed the men of their fighting efficiency and threatened the security of their homes.

At one end of the world-girdling system of communications that make this Red Cross service possible is the serviceman's hometown or county Red Cross chapter. At the other is the Red Cross field director who follows him right up to the battle line, and the Red Cross hospital workers, who continue to keep him in touch with his family even if he is wounded or ill.

And when he is discharged and returns home, Red Cross Home Service continues to serve him by helping him understand and become adjusted to his status as a veteran. Last year 350,000 ex-servicemen and their families received this service.

Call Mrs. Ottis Cash, Mrs. C. C. Hoge or Mrs. S. M. Clonts for your next order of flowers.

The installment plan is the only method so far discovered that will induce some people to do things on time.

Today's man without a country is the rescued European.

Most of us are kept poor all our life paying life insurance so we can die rich.

The celebration required 100 days and 3,000 wild animals were slaughtered. What a story for a sports writer!

Can you remember: Tree-sitters? Mah Jong? Red Grange?

When you hear a man talking about his "culture," you can be pretty sure he doesn't have it.

### Letters From Men in Service

Dear Mary: Well, here I am wondering how you two are. I am well. I got some of your letters, was glad to get them. I would like to have the things you said you would send me but don't send anything to eat, because I get plenty and a letter will be the best. Stuff is too hard to get to you as there is so much mail and it would be mashed up.

I am like a sailboat now. I know you would like to know where I am. Just listen to the radio and you will know. I thought I was in the Navy instead of the Army, for a while, I stayed in the water so long.

I live in a cocoon now; there are lots of banana trees here. They raise rice and corn. This is a right nice looking country, good looking land. The nights are cool and it doesn't rain so much here. I have seen several Filipino villages, been inside a Catholic Church, nice building; it was over 200 years old. There are some good homes and some built of cocoon limbs and bamboo. You have seen them in the picture show.

Yes, it would have been good to have been with you when you went home Christmas. You two pray for me and I will be home someday. Then we will visit some before I start to work. I have your two pictures so I can look at you when I write. We have our alerts at night, may not get to write very often, but will every chance I get. I am with a swell bunch, some that have been over ever since the war broke out. It was the first division to come over here. They know what it is and they kinda get the yellow rats out. That means a lot to know you are in a good outfit.

So don't worry about me, we have the best doctors in the world and if it is the Lord's will I will be back so that is all we can look forward to, and trust to God to protect me. Pvt. Lunsford C. Sanders.

#### GOLDEN RULE

All things whatsoever ye would that men should do to you, do ye even so to them.—Matthew 7:12

Whatever is unjust is contrary to the divine will; and from this it follows that no true and abiding happiness can be gained by those who are unjust.—Stretch.

Do not make things comfortable for yourself in such a way as to make them uncomfortable for others.—Chinese Proverb.

Let us serve instead of rule, knock instead of push at the door of human hearts, and allow to each and every one the same rights and privileges that we claim for ourselves.—Mary Baker Eddy.

Be honest but hate no one; overturn a man's wrongdoing but do not overturn him unless it must be done in the overturning of the wrong.—Abraham Lincoln.

Death and taxes are certain; but you feel the effect of death only once.

**Locals**

Mr. and Mrs. L. N. Bridges spent most of last week visiting in Lubbock, Levelland, Portales and Clovis.

Mr. and Mrs. J. H. Darnell and daughter, Diane, of Fort Worth, and their son, John Henry, student at A.C.C., spent the weekend here with Mrs. Darnell's parents, Mr. and Mrs. G. T. Hardberger.

Sgt. Leon Wimberly is home, on a 60-day furlough from Fort Sam Houston Hospital with his wife and baby daughter.

A. J. Malouf of Lubbock spent several days here attending to business.

Mrs. Vincent Lane and small son of Wichita Falls are visiting her parents, Mr. and Mrs. H. E. Wall.

Miss Mayme Shaver and Mrs. John Hansen of Lubbock spent the week end here with their parents, Mr. and Mrs. E. B. Shaver.

Call Mrs. Otis Cash, Mrs. C. C. Hoge or Mrs. S. M. Clonts for your next order of flowers.

Tom Lauren Hampton of Dallas is here visiting his grandparents, Dr. and Mrs. T. S. Edwards.

Rev. Lloyd Hamilton's parents from near Lubbock spent the weekend here with him and Mrs. Hamilton.

Ross Griffith will return from Morristown, New Jersey, Friday. He has been there for the past six weeks training with his Seeing Eye dog.

Mr. and Mrs. J. W. Tankersley spent Saturday night in Haskell with the Roy Tankersley family.

George Tillinghast of Big Spring was a business visitor in Knox City Monday.

Mrs. E. E. C. Ferguson and Mrs. Minnie White of Stephenville spent last week here with Grandma White and other relatives.

Mr. and Mrs. Henry Jones are visiting the Den Davises in Ruidoso.

Rufus Benson of Benjamin is repairing the Masonic Hall this week.

Guests in the home of Mr. and Mrs. M. F. Whitten this weekend were Mrs. G. E. Thomas and son of Ropesville, Mr. and Mrs. Geo. Whitten, James Roland and Linda Kay of Levelland, Mr. and Mrs. Sipo Griffith, Mr. and Mrs. Kenneth Thomas of Arlington, and Mr. and Mrs. Cecil Anderson and family.

Miss Wynelle McGee and her room mate at McMurry College, Miss Mayme Jo Hefflin, were here over the past weekend visiting Miss McGee's parents, Mr. and Mrs. J. C. McGee.

Bouquets, wreaths or potted flowers for any occasion. Knox City Study Club, Mrs. Cash, Mrs. Hoge or Mrs. S. M. Clonts.

**Dinner Party**

Mrs. J. C. McGee, assisted by Mrs. W. E. Clonts and Miss Doris Elaine Clonts, entertained a group of the younger set with a dinner party on the evening of February 14, in the McGee home.

The dining table was very pretty with its large red Valentine centerpiece. The Valentine accent was extended to the dainty place cards which marked the places for the following guests: Lora Beth Bradberry, Sue Webb, Reba Mae Yarbrough, Mildred McGee, Henry L. White, Rudolph Hackfield, Sam Emory Clonts, Joe Murray Clonts.

**Election Notice**

At a regular meeting of the City Commission held at the City Hall on February 14th, 1945, it was ordered that an election be held in the City Hall of Knox City, Texas, on the first Tuesday of April, 1945, the same being the third (3rd) day of April, for the purpose of electing a mayor, one city commissioner and city marshal for a term of two years each. B. M. Farmer has been appointed presiding officer for said election. The manner of holding said election shall be governed by the laws of the State of Texas regulating general elections.

C. C. Hoge, Mayor

Join The Red Cross—Do Your Bit

**Study Club Sponsors  
Home Nursing Course**

Mrs. J. O. Hamm was hostess to the Knox City Study Club in her home Saturday afternoon, February 17th. Mrs. E. F. Branton, club president, conducted the business session.

The club voted unanimously to sponsor the Grade School Campfire Girls and to aid them in any way possible. The Howell Florists of Munday offered the club a percentage plan for flower orders through the club, and the finance committee, Mrs. Otis Cash, Mrs. C. C. Hoge and Mrs. S. M. Clonts, were appointed to take the orders. The members voted to send a contribution to the Cancer Research and Control Foundation.

Mrs. E. E. Teaff was unanimously voted a member of the club.

Mrs. T. S. Edwards read a letter from the General Federation President, Mrs. LaFell Dickinson, reminding the club that conventions were not to be held for the duration. She also stressed and urged all clubs to aid the government in the following ways: In securing nurses for Army hospitals, in the rehabilitation of returned veterans, in enforcing OPA prices, to urge the use of V-Mail and in the purchase of war bonds.

The club had contracted for the services of a Red Cross nurse to give instructions in "Home Nursing" and Mrs. T. S. Edwards read a letter from the chapter telling that a nurse had been assigned to this district and would probably be here in April. This is a six weeks course and everyone is urged to take it in order to relieve doctors for more urgent duties. The club plans to have a class for colored people and Mexicans if possible.

G. S. Dowell, vocational agriculture teacher in the Munday schools and manager of the Wichita Valley Nursery, gave a most interesting and instructive talk on gardening and landscaping. In gardening he stressed fertilizing to counteract alkalinizing soil, but to never fertilize directly over the plant, always between rows. He recommended arsenate of lead as an all-purpose poisoning for leaf worm and bugs. Another prime factor in a successful garden is fresh seed, properly treated with Ceresan or some other method to offset cold and mould. Mr. Dowell urged that we try many different kinds of vegetables and to depend more on our spring, fall and winter gardens since the summers are usually too dry and hot for successful gardening.

In landscaping, Mr. Dowell brought out that it is best to leave the front of the yard open and to plant shrubs and plants to the sides. The proper pruning time is right after shrubs have bloomed.

The meeting closed with a piano solo, "Twilight on the River," from the Barcarolle, by Mrs. Geo. Hardberger.

The next club meeting will be held in the home of Mrs. Lloyd Hamilton on Saturday, March 3, at 3 o'clock.

**Needmore-Hutto**

The ladies quilting club met last Thursday with Mrs. Cyle Carver with 14 present. Three quilts were made. The club will meet this Thursday with Mrs. Bailey Brown.

Mrs. C. C. Carver spent several days last week with Mrs. J. W. Carver. They made and canned 40 qts. of hominy.

Miss Ala Jo Oliver of Lubbock spent last weekend with her mother, Mrs. Ross Oliver and family.

Janoma Williams and her cousin and family from Clovis, visited her parents, Mr. and Mrs. G. F. Williams, last weekend.

Grandma Fritts from Rochester is visiting her grandson, Mr. and Mrs. Pete Edge, this week.

Mr. and Mrs. Earl Holmes and family and Pvt. Ray Holmes visited Mrs. Holmes' sister, Mrs. Clyde Williams, and her parents, Mr. and Mrs. L. L. Houston, last Friday. Pvt. Ray Holmes is to report at Fort Ord, Cal. February 23.

Mr. and Mrs. L. L. Houston are visiting their son at Abilene, and Mrs. Houston's sister at Lawn this week.

Mrs. Clyde Williams and Mrs. Cyle Carver were in Haskell and Stamford shopping last Monday.

**WOLFE'S ROSSBERRY  
The New Berry Sensation**

FREE: Write and get Wolfe's new Berry Catalogue in natural colors. Contains complete facts, color pictures and prices of the Rossberry. Ross R. Wolfe, Texas Horticulturist who has introduced a number of new fruits and nuts, discovered and introduced this sensational berry that you have been reading about or have heard about over the radio. Rossberry was created by the famous Luther Burbank and has broken all records for production and outstanding merits. It is the greatest berry ever discovered. Grows like a Boysenberry, loaded with giant-size, 2 by 1 inch, wine-colored, delicious berries. Has the combined flavor of Boysenberry and raspberry with some sweet added. Those who have tried it are re-acting their whole patch with Rossberry. Rossberry is really the dream berry—the ideal that we have all wanted for so long. Grows anywhere.

Every home can and should have some Rossberries growing in the back yard. Now is the time to plant, so get your copy of WOLFE'S BERRY SPECIAL. Write today to WOLFE NURSERY, Dept. W, Stephenville, Texas, and your catalogue will be mailed immediately. Get your copy while the supply lasts.

### Freshman News

The Freshman girls are taking Commercial Geography now instead of homemaking. We find the course very interesting.

Clara Dean James and Billy Dodd have been sick this week. We missed them a lot.

### Sophomore News

The Sophs have surely been quiet this week, but that's no sign they haven't been busy.

Some of the Sophs had a nice time last Tuesday night, especially after the party.

We hope the football banquet's a success; we almost know it will be.

### Junior News

We were very glad to have Henry back in school this week. He was out Friday because he received a slight injury of the ankle.

The two people who have been competing for the highest speed in typing are Willie Mae Cogburn and Sam Clonts (both Juniors!). The other day Willie Marie made 54 words per minute leaving Sam somewhat behind. However, Monte, consoling one, had it all figured out that the most frequently used keys were used by the left hand; therefore, Willie must be left-handed.

The Junior and Senior girls have been playing the Freshman and Sophomore girls in baseball. The two teams have been doing very well.

### Sport News

The basketball team played Weinert at Munday Friday afternoon. The score was tied almost all the way through the first half, but Weinert forged ahead in the last half and won 18 to 24.

### The Doghouse

Say, Glenn, why do you stay at home so much nowadays? Could it be because Sue lives there now?

Rudy, what happened to Reba Mae after that dinner the other night? Did somebody kidnap her?

Hardy, we hear you're having trouble with your new heart throb. Who's causing that trouble? Could it be Monte?

Say, Dot, has Sunset forgotten the way over here, or ?? ??

# Ration Picture

(Continued from front page)  
year as the average civilian now receives.

Why can't sugar production be increased in 1945? Three quarters of our 1945 sugar supply must come chiefly from Hawaii, Puerto Rico, and Cuba. Production from these areas has already been sharply increased. For example, Cuba's production is 2,000,000 tons above prewar levels. Further increases in planting could not affect the sugar supply until 1946 and 1947.

**BUTTER**—Butter production in 1944 has been the smallest in years, well below both 1943 and the 1935-39 average. Here are the reasons:

(1) Milk production in 1944 was close to the all-time record of 1942. But American families with increased incomes are drinking more milk than ever before—191 quarts per person in 1944 compared with an average of only 158 quarts for each year from 1935 to 1939. That increase in milk drinking means that about 3 1/4 pounds less butter is produced per year per person.

(2) More of the milk supply is going into sharply increased production of condensed, dried and evaporated milk and cheddar cheese to meet government needs. The government requires about 40 percent of the cheddar cheese production and almost half of the dried and canned milk supply.

(3) A big increase in ice cream production for military use has taken a share of the butterfat supply. The manufacture of ice cream for civilian use has been limited by the War Food Administration, as has the sale of cream and cheeses other than cheddar. However, there is no restriction on the use of butterfat in products made for government use.

The prospects for 1945 are about like this. Milk production is expected to be near the 1944 level, but with more and more men in combat, government requirements for both packaged milk products and butter are expected to continue at a high level. The civilian demand for fluid milk is also expected to continue heavy.

# The Family Altar

By Rev. Violet Byers  
Co-Pastor, Foursquare Church

Mrs. Nile Byers, co-pastor of the Foursquare Church, has been in the Knox County Hospital for a few days but is now recovering and will assume her duties in the church next Sunday.

As we look around us today we see many people with broken hearts because of the loss of loved ones, separation from loved ones and many other things, too numerous to mention. We can see there is a great loneliness in the hearts and lives of many people. There is such a great need for comfort, we stop to seek words that might bring comfort and peace to some heart.

In searching ourselves we find we are helpless, but when we obey the commands of God to read His word, we find that He is an all comforting God with grace that is sufficient for every sorrow, heartache or trial, and power to save every soul who will come unto Him.

Jesus said, "Whosoever cometh unto me I will in no wise cast out." David tells us in Psalms 34:18 that, "The Lord is nigh unto them that are of a broken heart; and saveth such as be of a contrite spirit."

What is more blessed than having the Lord near? Men for generation after generation have searched the world for peace, joy and happiness and when come to die, have said, "All things that are worth cometh from God on high. He is the giver of all good and perfect gift and no good thing shall be withholden from those who seek after God and His righteousness."

So if we will forsake the things of the world and seek God with a whole heart we shall find a sweet peace of heart and a joy that will last throughout eternity.

Matthew tells us, "He that is heavy laden come unto me and I will give you rest." Hebrews 4:16 says, "Let us therefore come boldly unto the throne of grace that we may obtain mercy, and find grace to help in time of need."

Truly the world is in a time of need and I would admonish you who are Christians to seek God for his guidance and grace that you might be able to stand steadfast in the faith, lending a helping hand to those who are broken-hearted in our land and country.

To those of you who are broken-hearted, I have no words of my own to give, but will give you God's own word found in Isaiah 40:29-31, "No giveth power to the faint; and to them that have no might he increaseth strength. He that wait upon the Lord shall renew their strength; they shall mount up with wings as eagles; they shall run and not be weary; and they shall walk and not faint."

May the Lord ever bless and keep every one, and remember Jesus loves you always.

Ozelle Stephens,  
FAMILY ALTAR

# Here's the Modern Gas Heating You VENT TO A FLUE

Proper heating requires that appliances be vented to a flue. The appliances illustrated above are types that are vented. For this reason your gas company recommends them, for only with heaters that are vented to a flue can you enjoy natural gas heat at its best. Only when appliances are vented are wall sweating and stuffy air eliminated. Plan healthful, modern heat—vented heat—for your new postwar home. Make sure there will be enough flues.

The Mark of a  
Properly Heated Home

One of the identifying marks of a comfortable home is the flue showing in the roof. It is necessary to vent modern gas heaters and only with modern gas heaters do you enjoy freedom from wall sweating and stuffy air.

**LONE STAR GAS COMPANY**

• VENT to prevent  
wall sweating

• VENT to prevent  
stuffy air
