Thanksgiving is a wonderful time of the year, a time when give the weather forecast fer a whole year. It was voted unanito to the thankful and believing to the the thankful and believing to the thankful and believing to the thankful and the thankful heart Streams of Divine bless ing continue to flow from God's Knox County will receive bids store-house, for it is never closungrateful.

Jesus said, "Freely ye receive, freely give." He said again "Give and it shall be given unto you." Jesus was referring to more than material things. He meant that we should give our prayerful blessings that we have already received from God, and by so doing, help them to become more active in our life. For example, God loves us with unending love, but in order to un-derstand and enjoy His love, we must use it to love Him and others. When we do He fills our life with a joy so powerful that it wipes out all feelings of unhappiness that distress us.

Registration will start at 2 at 8 p.m. after a "snack supper."

## 'Graham Crackers'

It is only fitting that I dedi cate my column to football, just as we must concentrate our efforts on beating Lockett for Knox City's first regional championship.

Last year during track, Lockett amazed everyone with its his sprint relay and it displays the same dazzeling speed on the football field. Remembering our tough and tight on defense un-Elledge loosened them up with reverses and passes. Perhaps not everyone realizes

that Knox City has a chance to become one of a maximum of 12 teams in the state of Texas. But for those who do not I will explain how this is possible. In classes A, 2A 3A, and 4A, there can only be one undefeated-united team because of the state championship. In those classes to go the entire season without a loss or tie means you must win state. In class "B" however, the most possible to win is your region. There are eight regions and champs. If you are to go un defeated in class "B" you must become a regional champion. However it is also possible that a defeated or tied team could win state in one of the higher classes as it seems unlikely that very many regional champs in class "B" will be without a loss. So at the most the greatest number of undefeated-united teams in Texas could be 12, but most likely the number will be con-

For instance, the Wichita Falls Coyotes are favored to win 4A this year, and although they are without a loss, they have been tied. The same thing is true in class 3A: Breckenridge the fav orite has also been tied.

The Greyhounds are one game away from not only being Reg

tees and other lay leaders from congregations in 24 counties an Churches across North Cent have been invited to the insti
