DESERT PLACES by Ozelle Stephens The second second second

What is man that Thou art mindful of him, and the son of man, that Thou visitest him? (Ps. 8:4)

God made man a little lower than the angels, and crowned him with glory and honor. When God spoke to the earth and created man, he became a thought of God, and all thoughts of God are infinite. They are not measured up by time, for things that are concerned with time begin and end. The thoughts of God are from the everlasting of the past unto the never ending days to come -- and so is man. the spirit man.

In making man free to choose the life he lives. God made every provision for his salvation. When you turn your eyes to the cross of Christ you realize how great his love is for you. He also sends the Holy Spirit to be your constant companion. He is supreme in intelligence and will inspire your mind to understand his deep truths which will lead you to joy. happiness, and everlasting life; giving you understanding and strength to be victorious over all the trials of this life. ### American Flag Is **On Phone Directory**

adopted by the Continental General Telephone company of the Southwest is making a unique contribution to the observance of the nation's 200th birthday in the form of a special telephone directory cover featuring a painting of the first "official" American flag.

The bicentennial directory symbolizing the observance of the nation's 200th anniversary will be delivered to telephone customers in Aspermont, Benjamin, Goree, Haskell, Knox City, Munday, Rochester, Rule, and Weinert. Deliveries began August 29, according to G.F. Kehoe, Customer Service Manager.

The flag design was painted by artist Stevan Dohanos, noted for his paintings of historical subjects and his illustrations of contemporary American life. Kehoe said the flag depict-

Congress in 1777 and is spread over the front cover in hanging position. The legend "1776-1976 the 200th Birthday of Our Country" is the only printing appearing on the front cover. The information usually appearing on the front is shown on the back of the directory. In addition to the regular information found on the in-

side front cover is the language of the Act of the Continental Congress under which the flag was created along with explanatory text. A brief biographical sketch of the artist also is included on the inside front cover.

By the year 2000 the plastics industry is expected to employ 1.6 million peopleabout 1.3 percent of the labor force-and that's a lot of jobs for a lot of people. But many people believe that, in order to realize this figure. government action is neces sary to allocate sufficient petrochemical feedstocks to the plastics industry and to derive power from other sources such as nuclear, solar or geothermal.

micro-organisms

Drying methods include sun-drying, oven drying and sun (solar) heaters. Successful drying depends on enough heat to draw out moisture, but not enough to cook the food material. It's also necessary to have dry air to absorb released moisture and air circulation to carry off the moisture.

Sun drving was invented at the same time as agriculture. Man dried fish, meat and fruit to reserve them for another day

Today sun-drying for preservation is especially important to underdeveloped nations. In Turkey, yogurt made from cow or buffalo milk is sun-dried into a chalky powder that can be stored indefinitely

To this is added flour, bits of carrots, beans or pepper. Boiling in water reconstitutes it to produce a stew containing most of the original ingredients, except Vitamin C which sunlight destroys.

Although drying preserves food, it also affects taste--not always for the best.

Two fruits that do have agreeable flavors are prunes and raisins, which are dried plums and grapes.

Drying almost always causes some loss of nutritional quality. A few vitamins, particularly, tend to be destroyed or depleted by the light of sun-drving.

Fruits that may be dried include apples, apricots, berries, cherries, dates, figs, grapes, nectarines, peaches, pears, and plums

#### FHA NEWS by Sandy Stubbs

On August 21 at 5:00 a.m. several FHA officers pulled many sleepy memebers out of bed for the annual "Come as you are breakfast."

The breakfast consisted of biscuits, sausage, jelly, and orange juice.

Special entertainment for the breakfast featured girls modeling their favorite sleepwear. Awards were presented to Debbie Ray for Miss MakeUp. Jan Lowrey for Miss Legs. Jo Tweedy for Miss Personality, Jewell Culberson for Miss Hair-do and Sandra Johnson for Miss Best Dressed. Also at the breakfast was Mrs. Dottie Lowrey, who was our honored guest.

We would like to thank Mrs. David Counts, Mrs. Allen McGaughey, and Mrs. Laymon Newton for making the breakfast successful.

Are Now On Sale WASHINGTON - The De-

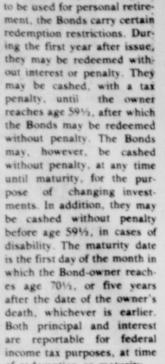

Retirement Bonds

partment of the Treasury has placed on sale U.S. Individual Retirement Bonds. They are specifically designed for investment by persons who lack coverage by any other retirement plan. The Bonds are issued pursuant to the provisions of the Employee Retirement Income Security Act of 1974

They are sold at face value in denominations of \$50, \$100 and \$500. Interest accrues at the rate of six percent per year, compounded semiannually, and is payable upon redemption.

Individual Retirement Bonds may be purchased from any Federal Reserve Bank or Branch, or directly from the Treasury Department. They may be registered in either single ownership or beneficiary form, in the names of natural persons only. Individual Retirement Bonds are nontransferable; they cannot be sold or used as collateral

The new Bonds permit persons, who work for employers unable to finance a pension plan, to set aside a portion of their annual income--up to a yearly limit of \$1,500, or 15 percent of gross income, whichever is less-for retirement. The amount set aside annually is deductible from gross income for federal

income tax purposes.

Because they are designed

of redemption or maturity. Complete regulations covering the Individual Retirement Bond may be found in Treasury Department Circular, Public Debt Series 1-75.

ENOI CITY, TELAS

Dear Billye Bess:

1 am sending my renewal for the Knox City paper, as I love to hear from home. I enjoyed my visit to Knox City in July, I got to be thereduring the revival at the First Baptist Church. Got to see so many old friends. I missed seeing Mr. and Mrs. H.F. Wall and several others that probably were away on vacation.

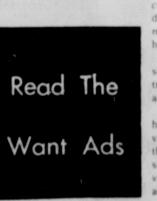

Hello, everyone. Am still having fun at the Villa. Will be having a 42 tournament next week. August 18 and 19. Look out, our rhythm band

may be coming down your way to entertain. HA!

The most recent anthrax deaths occurred in five herds in the Marlin-Bremond area of Falls and Robertson counties. These and adjacent herds have been placed under state quarantine.

There is no cause for alarm among livestock producers. Producers in the affected counties as well as those in neighboring counties should vaccinate their herds as soon as possible if they were not vaccinated back in the spring. Annual vaccinations against anthrax in March or April is advised in those areas where the disease has been confirmed, indicating that the anthrax organisms remain in the soil.

Livestock deaths from anthrax can be quickly stopped within eight days in almost all cases by prompt and proper vaccination with Sterne's strain vaccine.

### SLEEPING SICKNESS DISEASE IN HORSES

Most Knox County horse owners are aware of a few cases of sleeping sickness discase in the area, but there may be a few who have not heard.

Dr. W.H. Stewart has seen some of these cases and if treatment is started soon the animals may recover.

For any horse owner who has not had his animals vaccinated for the disease in the past several months, 1 suggest you check with your veterinarian for vaccination advice
