Representative Finnell Candidate For Senate

HOLLIDAY -- State Rep. Charles Finnell of Holliday announced Wednesday, December 12, as a candidate for State Senator, 30th Senatorial District, vacated by Jack Hightower of Vernon who has announced plans to run for the U.S. Congress.

Finnell praised Hightower's work and said that their team efforts over the past eight years, 'have given me an understanding of the needs of the entire vast area of our district." The senatorial district, which includes Knox County, covers most of northwest Texas.

Finnell, a veteran of four terms in the Texas house of Representatives, promised to wage an active campaign in all 29 counties of the district-even though he will be busy in Austin as a delegate to the Texas Constitutional Convention this

'The opportunity for meaningful public service in state government is greater today than ever before. Finnell commented.

"I will address myself to the problems confronting our state as a whole." Finnell said in his announcement, "and by doing so hope to bring into perspective the problems and common goals of this district."

Finnell, who has never missed a day during his entire legislative career, was first elected to the House in 1966, carrying every county in the district, was elected in 1968 and 1970 without opposition, and won his fourth term last year by defeating 3

Appreciation **Expressed For Used Clothing**

Howard and Selma Word have reported to the News that the response to the request for used clothing for the Texas Department of Mental Health and Mental Retardation at Vernon was tremendous and expressed their sincerest appreciation to everyone who brought clothing to the American Legion Hall Monday of this week.

Mrs. Word said that Guy Bradley assisted in loading the many boxes and that she and David Albus made a trip to Vernon Tuesday morning to deliver the clothing.

Mrs. Pauline Speer, volunteer coordinator at the center, asked them to extend thanks to persons here for their help.

Mrs. Word explained that several had items to go that failed to get them to the Legion Hall in time, but another trip would be made to the center later and these items would be

'And she (Mary) brought forth her first born son, and wrapped him in swaddling clothes, and laid him in a manger:...Luke 2:7.

When Jesus was born in Bethlehem of Judea, the city of David, it was God born into this world and lay in the arms of Mary. God clothed himself in human flesh. Jesus said. "I and My Father are One." "He that hath seen me hath seen the Father." The disciples did not realize the beauty, the glory, the purity, the holiness, the Majesty and the splendor of the Almigh ty God that was in Jesus Christ. Their eyes were closed with unbelief, so are all who do not take time to read, study, and commune with God. For the greatest Christmas you have ever had, let Him come into your heart and have His way with you. Wait in his Holy presence and you can look deep into the Savior's eyes and you can know God is looking at you. You can hear his words and know He is speaking to you.

Junior College in Kansas City, the birth of the Savior. As you Missouri, coming to Knox City know, it has become much more as minister of the First Christian than that, it has also become a Church while continuing his secular holiday with many pagan influences. The Holy nativity scene has been overshadowed by loud and joyous Mike's wife, Marla, and their celebrations; feasts of turkey son, Miles, who is now 18 and dressing; parties of questionable moral character; swapping of gifts; etc. Bright lights, people traveling great distances, stores staying open late; all add to the problem of the energy crisis. Where is Christ in all this? Have we let our festive mood force the true meaning of Christmas to be forgotten?

Perhaps the cutbacks and economic situation of our country will be a help to us as we try to reclaim Christmas for Christ this year. I believe God's hand is present in all this; He's trying to force us to slow down, forget some of the usual hustle and bustle; and for many of us, to sit down and reflect on what this season is all about, i.e. the Advent of our Savior. The love of God in Christ Jesus. The following are some came down to us that first found our reason for existing indeed, we have found the surpose of God in all of life. Through Him we have come to know ourselves as people loved by God; through Him we have realized the forgiveness of our sins, and through Him, we have been reconciled with the Father. All of this we have, because of that first Christmas. Now there's our real cause for rejoicing, and this is the spirit of Christmas God would have us to have. With this spirit, we can add our voices to those of the Angels when they said, "Glory to God in the highest." If this is our attitude, to respond to the gift of the Savior by giving Glory to God, then this will be our merriest Christmas ever.

Marshall Wilsons Moving To Snyder

Knox City residents Mr. and Mrs. Marshall K. Wilson are moving to Snyder where Wilson will continue his work as a Field Superintendent for Exxon Oil Compnay.

Wilson assumes his duties at Snyder January 1, 1974. Mrs. Wilson expects to join him the latter part of January.

The Wilsons came here from an assignment in Andrews. Witson began his career in the oil business in California in 1945. Field assignments took him to several locations in California prior to being transferred to Texas.

While here, the Wilsons attended the First United Methodist Church. Mrs. Wilson was active in the Knox City Garden Club and the Knox City Home

Demonstration Club. The Wilsons are parents of a daughter, Mrs. Stephen Horton of Corpus Christi.

MERRY CHRISTMAS!!!

In earlier games last week we didn't play well, stood around offensively, and weren't mentally sharp. One important thing to consider is that last year at this time we had already played in three tournaments and had played twice as many games as we have at this point. Actually we are progressing at

about the right pace. Our other tournament will be during the Christmas holidays. I am hoping that this tourney over the holidays will help us get ready for those district games in January and prevent a lag or slump during the holidays. Our record stands now at 8-0 with the tough games coming up. We play Clyde at Clyde tonight in what I expect to be our toughest opponent so far this We did have a game scheduled for this past Tuesday night with Vernon Northside. but they called and cancelled it last week and we weren't able to reschedule anyone on such short notice. Our real test will come during the holidays at the HSU Tourney. In our opening game we play Wylie who is now undefeated. Other teams entered are Albany, Seymour, Petrolia, Clyde, Merkel, and

The Knox City Houndettes found the Hounds from Throckmorton a little too tough last Saturday night, and finished runner-up in the Knox City Tournament. The hot-shotting crew from Throckmorton burned the nets for 61 points, while the Houndettes managed only 43. It was, I feel, our worst shooting night of the season, hitting only 39% of our shots. compares with our season average of 54%. The Throckmorton team appears to be headed for the playoffs in Class B, if they

continue their hot shooting. Basically, we played a fair ball game, committing fewer turnovers than we had been and rebounding well on the defensive boards. Tamie Grindstaff pulled down a career-high of eleven defensive rebounds in that game. Obviously, our biggest problem was offensively. The 43 point total was the

lowest figure we have scored all year. Up until Saturday night, we had been averaging around 60 points per game.

In other games in the tourna-ment, the Houndettes defeated O'Brien and Jayton. Making All-Tournament for the Hound ettes were Temi Baker, who averaged 28 points per game in the tourney, and Mandy Lank ford, whose defensive play highlighted action for the KC

Grades Show Little Change

Grade 41 continues to be predominant at the Munday Classing Office with forty-four percent, according to Sidney Ferrell who is in charge. USDA's Agricultural Marketing Service Office classed 13,800 samples during the week ending Friday, December 14, bringing the season total to 69,600. At the same time last year only 41,000 samples had been class-

Quality statistics show grade 31 with four percent of the weekly total; grade 51, seven percent; grade 32, seventeen percent; grade 42, twenty-three percent; and grade 52 with three percent. The two predominant staples were 31 and 32 with forty-eight percent and forty percent respectively. Staple 30 accounted for nine percent, and staple 33 and longer was three percent.

Mike readings remained unchanged with eighty-five percent miking 3.5-4.9, and fourteen percent miking 5.0 and higher. Pressley fiber results showed the average strength to be 83,000 pounds per square

Cotton prices started out strong, but toward the end of the week, dropped from 100 to 200 points. Grades with staples of 30 and shorter ranged from 3600 to 3800 points over CCC loan prices, while grades with staple 31 and longer ranged from 3900 to 4300 points over. The average price for grade 4131 was 57.67 cents per pound, and grade 4231 was 57.24 cents.

For the last several months. the Texas Pork Producers Association (TPPA) has discussed and evaluated the feasibility of conducting a state-wide referendum vote for a mandatory check-off on market hogs. They are required to conduct educational meetings in the major hog producing areas of the state in order to provide all producers with as much information as possible concerning the pro's and con's of the proposed mandatory check-off.

Educational meetings have already been held in several locations. One of these meetings will be held December 21. 1974 at the Wilbarger Auditorium, 2100 Yamparika Street, Vernon, starting at 7:30 p.m.

It is important that all producers be aware of this proposed referendum vote because the decision made concerning the referendum will affect them whether they market 50, 500 or 5,000 hogs a year.

these consumers, we will make some extensive curtailments of service to our large volume customers during extreme cold weather this winter. In fact, our contracts with large volume customers anticipate the need to curtail up to 100% of their needs during these cold periods. This allows us to assure service to residential, commercial and other higher priority customers.

We're taking major steps to make suff you have gas to the future. New gas we're buying
