ON ITS WAY - Workers had the former nurses' quarters off its foundation and the roof separated from the Knox County Hospital's east end in preparation for its move last week.

## Nurses' Quarters Removed From Site

A familiar sight to Knox City and area residents is no longer visible, since the removal of the nurses' quarters, east of the Knox County Hospital, last week. The residence, built in 1936, with a capacity of nine persons, was used strictly as a home for nurses working in the local hospital until 1966. It was filled to capacity until about 1945, but from then until 1966, only two or three lived there at a time. It was last occupied as nurses' quarters in 1966, and until 1969, the former living room was used as an office for the hospital administrator. From 1936 till 1943, the building stood apart from the hospital proper and was reached by a cobblestone walkway from the east exit of the original hospital. In 1943 a ten-room addition was built, joining the nurses' quarters and the hospital. When the disastrous tornado struck Knox City in 1953, the entire roof of the nurses' home was destroyed, but there were no injuries received by the occupants. In late 1969, the quarters were closed completely. The Medicare Division of the Social Security Administration made a routine building survey in October of 1969 and requested so many changes in the actual construction of the building that the Hospital Board voted to have the building moved. The 'exposed' end of the hos-

## Correction!

We are sorry that the names of the three Benson sons and their families from Benjamin were omitted in the R. D. Bensons' 50th wedding anniversary story which appeared in last week's paper. Our apologies to Mr. and Mrs. Vernon Benson, Mr. and Mrs. Billy Benson, and Carl Benson, all of Benjamin.

## Forty-Two Sessions Now Enjoyed By Senior Women

Knox City senior citizen women met October 14 at the Kennel in the City Park to play games of forty-two for the afternoon and are extending an invitation to others to join them. The next meeting will be Wednesday, October 28, from 2:00-4:00 p.m. at the Kennel with Mrs. L. W. Graham as

## Residents Asked For Cooperation

Knox City residents are asked to please place any and all tree limbs or shrubbery trimmings of any kind beside their trash barrels, rather than inside the containers, Mrs. Faye Rallsback, city secretary, said this week. Some residents are continuing to use barrels or other containers too heavy for the employee to manage. Mrs. Rallsback said that everyone's cooperation will be appreciated and unless the trimmings are left outside the containers they will no longer be picked up.

## Conservation Film, Program Available From SCS Library

Knox City - Conservation education in local and area schools is being promoted by the Wichita-Branos Soil Conservation District. In a recent meeting, school representatives Chet Forehand of Weinert, Phil Simmons of Rochester, Jim Coulston of Goree, and John McGaughey of Knox City met with the SCD Board of Supervisors in Knox City and heard Mike Risinger and Arche Lieb of the Soil Conservation Service outline the assistance available from the Soil Conservation Service. Each school was also given a film catalogue. Risinger presented a slide program to familiarize the representatives with the

## Supt. W. R. Baker To Speak TSTA Fall Convention Slated Fri. At Vernon

Some 2,200 area teachers are expected to congregate in Vernon Friday (October 23) as the District IX, Texas State Teachers Association, posts its annual fall convention in Wilbarger Auditorium. Ninety-five delegates representing 15 local units, plus the ten-member executive committee, will be present for the business meeting. The general session, to be attended by teachers from a 12-county area in North Central Texas, opens at 10 a.m. with Frank G. McIntyre, director of information services, California Teachers Association, as keynote speaker. District President Vance Rogers, Olney schoolman, will rap the session to order. Mayor H. W. D. Naylor of Vernon will welcome the teachers. Greetings from the parent Texas State Teachers Association will be brought by John Lovelady, member of the TSTA headquarters staff. Reports from membership chairmen of the District's TSTA and National Education Association Committees will be made prior to the main address from McIntyre. Following the morning session, a series of luncheon meetings, divided along professional and curriculum lines, will be held at the various public school buildings and Wilbarger Auditorium. Robert Orr, Assistant Superintendent of the Vernon Schools, is in charge of local arrangements, and he has coordinated the luncheon meetings. Knox City Supt. W. R. Baker has been asked to speak at one of the noon luncheons and will discuss provisions of House Bill 240 the Hinson-Aikin Minimum Foundation Program bill passed in the 61st Legislature. Mr. and Mrs. Bill Sanderson returned to Lubbock with their son and his family, Mr. and Mrs. James Sanderson and Sherry for a few days' visit after they had spent the weekend here with them.

## Club's Choice In Oct. 9 Game

Knox City Greyhound Bobby Lewis, son of Mr. and Mrs. Sterling Lewis, was the choice selection of the Quarterback Club for Greyhound of the Week at its Tuesday night meeting. Lewis was chosen for his extraordinary defensive and offensive play in the Munday and Knox City game. The 175 pound guard is a two-year letterman and a senior at KCBS.

## 'Bud' Reynolds Buried Oct. 16

Services for W. E. "Bud" Reynolds, 83, who died Wednesday, October 14, in the Munday Nursing Center, were conducted Friday at 10 a.m. at the First Baptist Church in Munday, with the Rev. H. B. Graves Jr., officiating. Burial was in Johnson Memorial Cemetery.

## Survivors Include His Wife, Abbie Gail; two daughters, Mrs. George Tweed of Santa Martino, Calif., and Mrs. Ralph Watkins of Commerce; one son, Don, of Commerce and six grandchildren.

## Schools Represented Drug Abuse Seminar

Principal John McTear, Science teacher, and student Gary Hewitt, approximately 138 administrators, and attended a four-day workshop in Munday at Midwestern University in Wichita Falls October 12 through 15. The workshop, sponsored by the Region IX Education Service Center, was aimed at helping 46 Wichita Falls area school districts develop a drug education program for grades 5-12, required by state law. It was the first in a series of workshops during the 1970-71 school year, designated a planning year for determining what type of program is needed in each district. The educators heard state narcotics laws discussed by state and law officials, and heard experiences from four former drug users. Also covered was the use of common dangerous drugs from the legal, medical, and social standpoints. School representatives were given suggestions as to how the program might be included in the local curriculum. Six more days of study are planned at future dates. Texas Education Agency, in cooperation with the local school systems, hopes the efforts expended will be significant in the reduction of drug abuse throughout the state, Mr. McGaughey said.

## Benjamin Student On Exchange From Peru

A new addition to Benjamin High School student body is Fernando Lopez, an exchange student from Huancaayo, Peru. The 18 year old student came to Benjamin through the International Fellowship Incorporated and is making his new home with Mr. and Mrs. Kenneth Roberts and Donnie. Lopez completed his high school studies in Huancaayo and says most of his life has been spent around large cities since his home is only a short distance east of Lima. His family includes his parents, Dr. and Mrs. Andres Lopez, two brothers and two sisters between the ages of 22 and 15. The handsome youngster has adjusted quite well in spite of his limited knowledge of the English language and says that other than the communication difficulty, the American food and climate are the only other strange phenomena.

## It's About Time

Yes, it's that time again. Saturday at midnight, October 25, we can run our clocks back an hour. We barely get used to the new time until it's time to change back again, but thank goodness! From Sunday until April 30, 1971, we can just enjoy our "old" time.

## Three Accidents On Rural Hwys. In Knox County

The Texas Highway Patrol investigated three accidents on rural highways in Knox County during the month of September, according to Sergeant J. W. Garner, Highway Patrol supervisor of this area.

These crashes resulted in an estimated property damage of \$1,150.00.

The rural accident summary for this county during the first nine months of 1970 shows a total of 48 accidents resulting in no persons killed, 15 persons injured, and an estimated property damage of \$35,230.00.

Total traffic accidents in Texas during the last twenty years have increased from 200,000 in 1950 to approximately one million in 1969. Total number of persons injured in traffic accidents has increased from 69,000 in 1959 to 223,000 in 1969. Total number of persons killed in traffic accidents has increased from 2,410 in 1950 to 3,551 in 1969.

The Sergeant reminded all Texas motorists that vehicles bearing red motor vehicle inspection stickers with the large black numeral "10" in the lower left-hand corner of the windshield must be reinspected before midnight, October 31.

Name-dropping is a minor sport. We all give it a whirl. To drop her maiden name, and soon, is the dream of every girl!

## KC Garden Club Enjoys Workshop

The Knox City Garden Club met October 13 in the home of Mrs. J. C. McGee for an all-day workshop where flowers were made from aluminum cans and egg cartons.

A covered dish luncheon was served to 16 members. Out of town visitors included Mrs. Clara Hines of Rule and Mrs. Oma Parker of Benjamin, and several other visitors came by during the day. Also present was a new member, Mrs. Idoma Chowning of Truscott.

A business meeting was held in the afternoon with the president, Mrs. Ernie Wilson, in charge.

The next Garden Club meeting will be held in the home of Mrs. Gladys Reed on November 10 at 2:00 p.m. with Mrs. Arthur Crownover as co-hostess. The program "Leaves and Their Functions and Uses" will be presented.

# THREE FOR FALL

NEW YORK (ED)—City girl, country mouse, suburban moppet... when fall comes they all face it in the same way... with anticipation of things to come and a wardrobe of fresh, crisp dresses. This fall's frocks are a mixed bag of fabrics and looks. The only common denominator is performance. Fortrel polyester knits bring new flexibility and endurance to school clothes... soft and pliable yet strong enough to withstand the most enthusiastic eraser clapping, recess activities. And the prettiest party dresses are wrinkle free, wash and dry quicker than you can say Sesame Street. For school, dresses have a new elongated look. Waistlines are low. Skirts are short and bouancy, with pleats or gathered fullness.

THE CITY GIRL... loves to walk on Wall Street, gets a kick out of feeding the llama at the zoo, likes to see the newest movies in between homework assignments... For her, an almost grown-up knit, with low-down waist, pleated skirt and tiny metal balls outlining the squared-shoulders. It's an understated Fortrel knit for casual sophistication.

THE COUNTRY MOUSE... quiet evenings by the fire reading Dr. Seuss is her speed... also loves to walk in the woods gathering chestnuts and munching apples... For cozy times and the active life, a cuddly knit of a sweater dress with a zip-up neckline, pointed collar and long sleeves... snappily striped in yellow, white and green in Celanese Fortrel.

Whether you're a beginner or an expert, consider these steps before you start sewing: Before you shop, look at your current wardrobe to see what you need most and also what you may want to wear with what you'll make. Go to the fabric counter with notes on colors and kinds of fabrics you want.

One of the most fashionable fabrics this year is a crepe made of Arnel triacetate or Fortrel polyester. These fabrics are excellent choices for elegant party dresses with the 30s look, short day shifts and luxurious blouses. Check bolt ends and hangtags for recommended care; some crepes may be washable but others will retain their best appearance if drycleaned. Here are some tips for sewing these crepes:

If slight shrinkage is expected to present a problem, shrink the fabric before cutting. This can be done by laundering, or if drycleaning is recommended, you can usually preshrink the fabric satisfactorily by pressing on grain with a steam iron.

Pin the fabric carefully on grain without stretching it. Use a cotton-covered polyester thread when sewing. Loosen the tension

**To Voters Of The 80th Legislative District**

We want to direct your attention to the candidacy of Representative Bill Heatly of Paducah, and to enlist your active support in his behalf. Our reasons are these:

His knowledge of law and government eminently qualify him for the position. Fortunately, Bill has a clear understanding of this district's goals and problems. His ability and courage in something about them is unquestioned. These qualities have won recognition and respect within the Democratic House majority and the public officials with whom he works.

This same dedication and effective effort also has made enemies. You can be certain that smear tactics and innuendoes sown and spread by self-serving, outside interests, which precede the primary election, will be renewed with vigor. So be forewarned!

Bill has given this district effective representation. He will continue to do so as a seasoned member of the Democratic majority, already assured of election. We hope that not only Bill Heatly, but for what it means to Texas and to our district in particular, that you—and your friends—will actively support him in his campaign for re-election November 3.

## Unemployment Compensation Coverage New Coverage Employment For Workers

Employment Compensation Act of 1968 provides that the new unemployment compensation law will result in the increase in the benefits since the federal-state insurance program was established in 1935. An estimated 30,000 more workers will be covered by unemployment insurance tax, beginning July 1, 1972. The law provides for extended unemployment insurance up to a 3 weeks in times of unemployment. The federal government will pay half the cost. Extended unemployment insurance is exhausted. The law also makes more workers eligible for benefits, employers subject to the federal unemployment tax who are affected by the law. About 100,000 jobs organizations are covered. These are employing four or more workers in 20 weeks of preceding calendar year. They have the option of paying taxes or restate for benefits of a church, or other institutions. About 183,000 Texas jobs are covered by the employer as one

for the unemployment tax, beginning in 1972 and hikes the net federal tax of 4 percent of covered payroll by 1/10 of 1.0 percent to .5 percent, retroactive to January 1, 1970.

Changes required in state laws to bring them into federal conformity prohibit the so-called "double dip" (payment of benefits in a new benefit year without some work since beginning of the previous benefit year); provide that no one will be denied benefits when taking approved training; prohibit denial or reduction of compensation because of filing a claim in another state or Canada; prevent total disqualification of a claimant except for misconduct in connection with work, fraud in connection with a claim, or receipt of disqualifying income.

The new law provides for an unemployment compensation research program to give priority research on farm coverage; for federal grants to train unemployment compensation personnel; and for a federal advisory council on unemployment compensation to review and suggest improvements in the federal-state unemployment insurance program.

Mr. and Mrs. C. E. Williams and Judge and Mrs. L. M. Williams were in Fort Worth Sunday, October 11, where they were hosts at the 60th wedding anniversary reception for Mr. and Mrs. J. Rollie Pray, parents of Mrs. C. E. Williams.

To finance the extended coverage, the law raises from \$3,000 to \$4,200 the wage base

## 1040 U.S. Individual Income Tax Return Taxpayers Ask IRS

This column of questions and answers on federal tax matters is provided by the local office of the U.S. Internal Revenue Service and is published as a public service to taxpayers. The column answers questions most frequently asked by taxpayers.

**Q) I moved into a motel with my family for a few weeks while our home was being fixed up after a fire. Is it true the living expenses paid by our insurance for this period are not taxable?**

**A) Amounts you received for living expenses from your insurance company may be partially tax exempt under the Tax Reform Act of 1969. It provides that amounts received to offset an increase in your living costs as a result of the loss of use of your home need not be reported.**

This provision covers situations where a taxpayer's home is damaged or destroyed by fire, flood, storm or other casualty, or he is denied access to his home by governmental authorities because a casualty occurred or may occur.

**Q) My wife hired a cleaning woman last month. Where can I get information about the social security tax that has to be paid for this help?**

**A) Send a post card to your local IRS office and ask for a copy of Form 942, Employer's Quarterly Return for Household Employees. It has the information you will need to fill out the form.**

The deadline for filing the return and paying taxes due for the July, August and September quarter is November 2.

**Q) Are strike benefits taxable?**

**A) Yes, in most cases they are unless the facts show that they were intended as a gift. A gift would be indicated where the benefits are paid to nonunion as well as union workers, on the basis of need, in situations where unemployment and public assistance programs are not available.**

**Q) I bought a lot of raffle tickets that my church and the volunteer fire department were selling at the county fair. Can I add these to my other charitable contributions?**

**A) IRS generally has three years from the date a return is due to assess additional taxes. However, under special circumstances the general rule may not apply. For example, in fraud cases there is no time limit.**

**A) No, they are treated as gambling losses under Federal tax law. If you itemize deductions, losses may be deducted but only to the extent of winnings. This would reduce the tax due.**

**A car or other merchandise won in a raffle must be included in income at its fair market value.**

**Q) Where can I get help with my taxes? I just opened a business of my own.**

**A) Contact your local IRS office. They have a special publication "Mr. Businessman's Kit" designed especially for you. They will arrange to meet with you to present your kit and to explain your obligations under the tax laws.**

**Q) I just got a letter saying my 1968 return is being examined. How far can you go back?**

**A) IRS generally has three years from the date a return is due to assess additional taxes. However, under special circumstances the general rule may not apply. For example, in fraud cases there is no time limit.**

## Crushed Patents Style For Year

Crushed patents, a favorite fabric for rain garments and sportswear, requires special techniques for sewing. A pattern with few seams makes it easier to manipulate the vinyl-type fabric. Raglan or kimono sleeves are easiest, but some of the crushed patents are soft and pliable enough to sew set-in sleeves. The pattern should be altered to fit before the garment is cut. Seams cannot be let out without damage to the fabric. When fastening the pattern to the fabric, place pins in seam allowances only or tape the pattern to the fabric. Cut with sharp shears. Mark darts, seamlines and other construction details with chalk or a pencil on the wrong side of the fabric. Use a grease pencil when making markings on the right side. These can easily be wiped off. A medium-sized machine needle and 10 to 12 stitches per

inch are satisfactory for top stitching on crushed patents. A piece of tissue paper placed between the shiny or right side of the fabric and the feed-dog of the machine prevents damage to the fabric when stitching. The tissue paper can easily be torn away when stitching is completed. Finger press seams and darts, unless the label on the bolt or roll of crushed patents states that the fabric can be pressed with steam or a warm iron. Both zippers and buttonholes can be used on crushed patents. The centered application makes a flat zipper closing. Hems can be top stitched or slip stitched in place to the backing of the fabric. Follow the fabric manufacturer's care recommendations for cleaning. Some vinyl-like fabrics can be hand washed, while others need to be wiped clean with a damp cloth. If linings are used in the garment, they should require the same care as the outer fabric.

## FROZEN FOODS AN AID TO GOOD NUTRITION

People who live alone — the elderly, bachelors, career women — frequently neglect their eating habits. Although aware of the importance of a good diet for good health, they often do not exert the effort to prepare well-balanced nutritious meals.

This is where frozen prepared dinners are unbeatable. A complete dinner that might take an hour or more to prepare requires only a brief heating. Frozen dinners also give more freedom in menu selection by providing foods that people who eat alone would not ordinarily prepare because of the time or quantity of food involved. Roast beef, pork and turkey, for example.

Illustrated is just one example of a tasty, well-balanced meal that comes packed in a ready-to-heat foil tray. It consists of fried chicken, whipped potatoes, mixed vegetables and spiced apples. The accompaniments, also from the freezer are yeast-raised rolls, crabmeat cocktail and cherry-topped cheesecake.

For people who prefer to assemble their own menus from freezer cabinets, there also is a wide selection of frozen pre-

pared entrees in sizes ideally suited for generous single servings. Among them are individual main dish pies, cheese souffle, creamed chicken and seafood newburg. And, if you think you are indulging in luxury when you purchase frozen dinners and entrees, you actually may be saving money. A study by the Department of Agriculture on convenience foods showed that more than a quarter of them are actually less expensive than those prepared from standard home recipes. Some of the best money savers were the frozen convenience foods where the comparable fresh product includes a high percentage of waste. With frozen foods, you pay for only what you eat.

**STRENGTH FOR THESE DAYS**  
from The Bible  
This is the day which the Lord has made.  
—(Psalms 118:24).  
There is time enough! The need is not for more time, but more wisdom in planning and using it. Our need is to show good judgment in the way we handle the things that we have to do. We not only have the time but the strength to follow through and to accomplish successfully and well whatever is before us. Let this be our living realization this day and let God work through us in all that we do.

that we elect State Rep. W. S. (Bill) Healy of Paducah to another term in the Texas House of Representatives.

The recent census is going to take more and more of the rural voice and give it to the big cities, and we definitely need our representative to be in a position of leadership among the 150 members.

The big cities are already very strong. Houston has 19 seats in the House right now and Dallas and Fort Worth total 23. The 1970 census will allot them even more representation.

Rep. Healy is the representative for nine counties. And, he has represented all of us well. He has been a leader protecting the farmer, building a strong farm-to-market road system, and has a deep interest in education, youth, mental health, and the total economy.

He is also chairman of the House Appropriations Committee and has served in that capacity for four House Speakers.

Rep. Healy is called upon for guidance by many other members and other elected officials. If his opponent were sent to Austin, not only would he not have this position of leadership, but his alien Republican voice would be little more than a whisper.

Vote for W. S. (Bill) Healy for State Representative.

The Knox County Herald also endorses Preston Smith for Governor of Texas, Graham Purcell for U. S. Representative and Lloyd Bentsen for U. S. Senator. \*\*\*\*\*

**DISCUSS INDUSTRY** - State Rep. W. S. (Bill) Healy of Paducah discusses plans for attracting new industry to smaller areas of Texas with Gov. Preston Smith at the Conference on Industrial Expansion in Austin (10-13-70). Rep. Healy addressed the Governor's conference, discussing financial incentives for industry.

## Letter To The Editor

To the Editor:  
For the past several weeks, I have heard pros and cons concerning the race for representative in our district, and I would like to take this opportunity to give recognition and express thanks to our present representative, Mr. W. S. "Bill" Healy. I had heard that Mr. Healy had helped many students in our area to obtain a college education, so I contacted Mr. Healy and requested that he attempt to help me, for that I could go to college.  
Mr. Healy did help me, for it was through his efforts that

- Jesus said, "I am come that they may have life, and have it abundantly." John 10:10.  
Jesus was saying, "I have come that you might better understand that you can face life squarely. And that you can live it successfully, fully and richly."

Life is truly an experience in growth and unfoldment for each of us. God gives us the ability to make it a very wonderful experience on the road of life, we have our challenges and problems; we make mistakes and have periods of defeat, but these are experiences which can make us know that we are spiritually equipped to meet and handle. We can work through, pray through, and overcome by the leading of the Holy Spirit as we yield to his leading.  
For Jesus brought us life abundantly. \*\*\*\*\*

## Weather Again Halts Harvesting

Harvesting activities were delayed due to rain, says R. B. Manly Jr., Officer-in-charge of the U.S.D.A. Cotton Classing Office, Ahlene, Texas.

We raised 7,400 samples for the week ending October 16, 1970 compared to 6,200 for the same period last season. Our season's total is now 9,700 samples classed compared to 11,400 for the seasons total a year ago.

Predominant grades for the week were 31, 20 percent, 41, 19 percent, 32, 44 percent, and 42, 12 percent. One percent was "barky".

Predominant staple lengths were 29, 28 percent, 30, 50 percent and 31, 12 percent. Micronaire readings showed 77 percent was in the premium range.

The Consumer and Marketing Services, Ahlene, reports that no price information was available for publication, however, buyers are offering from 200 to 400 points over the government loan.

## ACC Conference Friday, Oct. 30

Ahlene - "New Concepts in Range Management" will be the theme of a range management conference scheduled Friday, October 30, at Ahlene Christian College.

Speakers from College Station, Lubbock, Ahlene, Vernon and Las Cruces, N. M., will be featured during the one-day program, according to Dr. F. M. Churchill, ACC professor of agriculture and conference program director.

Dr. Bobby Ragsdale of College Station, president of the Texas section of the American Society of Range Management, will give the welcome address Friday at 9 a.m. Dr. John C. Stevens, ACC president, will also welcome the visitors to the campus.

Morning speeches scheduled are "Remote Sensing of Range Lands" by Dr. Robert H. Hass, Department of Range Science, Texas A&M; "Fertilization of Blue Gramma Range" by Dr. Don D. Dwyer, Department of Animal, Range and Wildlife Sciences, New Mexico State; and "Multiple Use of Range Lands" by Dr. Donald A. Klebenow, Department of Range and Wildlife Management, Texas Tech.

Afternoon speeches will be "Latest Development in Mechanical Brush Control" by Dwayne McMillan, Treanor Caterpillar Equipment Company, Ahlene; "Computer Analysis for the Ranshing Industry" by Norman Britts, farm management specialist, Texas A&M; and "Prescribed Burning for West Texas" by Dr. Henry A. Wright, Department of Range and Wildlife Management, Texas Tech.

ACC and Texas Tech host the conference on a rotating schedule. \*\*\*\*\*

## EDITORIAL

By HILLYE B. ANGLE  
The Knox County Herald joins The Munday Times in endorsing State Rep. W. S. (Bill) Healy in his bid for reelection from the 60th District in the Texas House of Representatives.

Rep. Healy offers all the qualities we need in Austin. He has experience; he listens to our problems and does something about them; he is the friend and servant to all the people of the district and has been a leader in such vital areas as farm, education, mental health, highway and economic legislation.

Rep. Healy has served 10 years in the Texas House and is recognized as a strong leader not only for his district, but throughout the state. He has served as chairman of the House Appropriations Committee, the most prestigious and respected committee assignment in the House, under four Speakers.

He is a fulltime member and works continually for the people of the 60th District.  
Now more than ever before, it is vital to the 60th District

## Robbins Help Trains SCS Employees

Knox City - Soil Conservation Service employees must stay abreast of the latest in farming technology, according to Wes Robbins, soil conservationist with the Soil Conservation Service office in Knox City.

In a recent workshop Gary Scheer of Anson, Gerald Harmon of Rotan, Dan Caudle of Sweetwater, Joe Watson of Abilene, and Waymon Moore of Rotan received training in Minimum Tillage farming.

Minimum Tillage is an advanced method of farming. Basically it limits the number of plowing operations to those that are properly timed and essential to produce a crop. This helps to prevent soil damage due to compaction and wind or water erosion.

Mrs. Eubank returned home with them to Carlisbad for a visit. Wednesday she visited Mr. and Mrs. D. W. Eubank and family in Hobbs, N. M., and then Friday visited Mr. and Mrs. Louis Eubank in Denver City. Louis Eubank returned to Truscott with her Saturday.

PEACH TREE BORER CONTROL

Peach trees that are attacked by the peach tree borer are unthrifty and may produce off-color foliage. Infested trees usually die within a few years.

The larvae of the peach borer destroys the cambium layer and inner bark of the peach trees near the ground line. Infested trees have large masses of gum around the base of the trunk. This gum is mixed with a brownish frass or sawdust.

Control can be obtained from October 20 to November 15 or before the soil temperature drops below 55 degrees Fahrenheit by placing paradichlorobenzene (PDB) crystals in a band around the trunk of the tree.

All leaf material and grass should be cleaned out and the soil loosened in an area of one foot from the tree trunk. The PDB crystals are then placed in a narrow circular band or shallow trench about two inches from the trunk of the tree. This band is then covered with soil, free of leaf or grass trash, and the soil is mounded around the trunk so as to form a cone-shaped pile about six inches high. Avoid pushing any of the PDB crystals against the tree since crystals in contact with the tree will cause injury.

The mound of soil should be raked back away from the tree in the early spring. Failure to do this may result in injury to the tree.

The amount of PDB crystals to be applied will vary with the age of the tree. For two and three year old trees, use 1/2

ounce of crystals; four to five year old trees, 3/4 ounce; mature trees, one ounce.

Additional information on the peach tree borer and other pest of peaches is available at your county agent's office.

## Senior Class News

By GWEN ANGLE

Last week we had some of our school pictures taken for the annual. Individual, class favorites and runners-up, and class officers pictures were made. Some pictures were made in Mrs. Ernie Wilson's house and we certainly do appreciate her letting us use her home. Thank you, Mrs. Wilson.

Friday in Civics, Mr. Herman Fox from the Texas Youth Council, spoke to our class on juvenile law. He gave a very interesting lecture and we were free to ask any questions that we thought of. Here is an outline containing his main points.

## Junior Class News

By JAN LANKFORD

The Juniors are selling Zip Code-Area Directories, so if you haven't bought one be sure to buy one and help the Junior Class.

Junior Charlie Lieb will be unable to play any more this season due to a knee injury, but he hopes to play next year. Stay in there, Charlie! Charlie's done a good job this season and the Juniors are proud of him.

The Junior Class elected favorites last week. Terri Whitten and Charlie Lieb were chosen as favorites, and Sharon Green and Brent Hallstark were chosen as runners-up. We also elected Alan Orr and Nolandia Stubbs as our candidates for Annual King and Queen.

Next Saturday the Juniors have planned a car wash and bake sale to raise money for the annual.

## Sophomore Class News

By DEBBIE WALL

Thursday, school pictures were made. The favorites and class officers' pictures were made at Mrs. Wilson's house. We really appreciated her letting us use her home. We made posters several times this week, and it paid off. Friday, at the pep rally, the Sophomores were presented the Spirit Stick for the SECOND time!

Saturday, a few Sophomores got up early and helped with our bake sale. We are going to have a bake sale this Saturday and also a car wash.

## Freshman Class News

By DENISE GRINDSTAFF

Thursday, pictures were made. Individual, class favorites, and football pic-

tures were made. Friday, we were all pleased when the Hounds won their first district game with Wylie. Congratulations! Let's do the same to Baird this Friday night here at 7:30. Come and support our team.

Friday we had a class meeting to discuss and organize what to do for Saturday in order to make money for the Annual King and Queen. Since it was so muddy our projects were canceled, but we will do something this Saturday. So support our Freshman class!

The Freshman class has begun working on its money making project for the Annual King and Queen contest.

The class will have a work day Saturday, October 24 all day long. Saturday morning they will have a door to door sale on tire inflators and puncture sealers for \$2.00 apiece. Class members will have a Pancake and Sausage Supper at the Methodist Church, and the tickets will be \$1.00 a plate. Time will be from 6 to 7 p.m.

## Greyhound News

By BOBBY LEWIS

The KC Greyhounds proved who were top dogs last Friday night. The Hounds traveled to Wylie and won their initial game in very sloppy conditions. The front line of the Hounds continued to open gaping holes in the Wylie front four.

This week we play Baird which has a big team and enjoys throwing the ball. By the way, our victory Friday night marked the third straight time that the Hounds had beaten a team at their own homecoming.

## Pep Club News

By ALICE MARTINEZ

Congratulations to the Hounds for a job well done, Friday night.

Jody McKinney and Coach Stillabower began the pep rally with a skill. The spirit stick was presented to the Sophomores. KEEP UP THE GOOD SPIRIT!

Coach Lowrey presented stars to Bobby Lewis, best offensive blocker; Max Spencer, best defensive player; Phillip Newton, best running back.

## Greenhand News

By RANDY PACK

This week we have been pretty busy at the Ag. Farm. We have been building new pens and fixing old pens so that pigs will have a good place to stay.

We have been studying Parliamentary Procedure in class. Mr. Burkhart showed us the correct procedure for conducting a FFA meeting, and everybody has been acting out different parts of the class officers.

## Homemaking II

By PATTY PITTS

In our class things are beginning to look nice. The girls' projects are really looking nice. Some of the girls are ahead of others. A few are behind. It's a good thing Mrs. Newton has patience.

The Home Experiences were brought in last week. All the projects were neat and fashionable. Many girls brought in dresses and a few brought skirts and jumpers. Many girls brought blouses also. The next day many girls wanted to wear their projects which made Mrs. Newton have them all graded before the next day.

## Homemaking I

By JAINNA HISE

This past week our Homemaking I class has been working on our Junior Homemaking Degrees. We have just started going over the materials and making first drafts. In it we include our life story, our goals for the future, and pictures. These will be due next April.

## Eighth Grade News

By STACY ANGLE

Last Thursday night the Greypops were scheduled to play the Monday Braves here at 7:30 but due to the rain and bad weather the game was called off. The game was rescheduled for Saturday morning at 9:30 and again was called off.

This week school pictures were made for the annual. The class officers' pictures were made in the home of Mrs. Ernie Wilson and the officers would like to thank Mrs. Wilson for the use of her home. Later the photographer will be back for the group pictures such as band, pep club, band officers, newspaper, and cheerleaders.

FIRST YEAR Biology students in first lab.

## Science Dept. News

By JEAN MARTINEZ

This week, first year Biology students had their first lab on bacteria.

They found that the one-celled plant is found under the phylum thallophyta. One of its major characteristics is that bacteria does not have chlorophyll as do the majority of thallophytas. Because it does not have chlorophyll, bacteria is listed under the sub-phylum fungi.

Another important characteristic of bacteria is that it is one of the few plants that can move about under its own power.

There are three forms of bacteria. The first is coccus, these are spherical in shape. Bacillus are rod-shaped, and spirillum are spiral in shape.

They all reproduce as the result of simple cell division. The students obtained culture dishes of bacterial growth, which they had previously prepared.

From the bacterial growth, the students made several slides and observed them under the microscope.

The students made one last slide for the purpose of grade. This was a stained slide. Each student made one individually, then stated what type of bacteria was on the slide.

Next week the students will be preparing a special culture dish and testing the growth with a retarding ability of antibiotics.

In Advanced Biology the students had another frog lab. This week they made slides of striated, smooth, and cardiac muscle tissue.

The striated muscle tissue was obtained from the hind-limb of the frog. The smooth muscle tissue was obtained from the stomach, and the cardiac muscle tissue was obtained from the frog's heart.

After making slides of each type of muscle, the students made drawings of what they observed under the microscope.

Next the students made two individual slides of the muscle cells for identification.

One of the slides contained a sample of tissue obtained from the mid-section of the frog's tongue. The other slide contained a sample of tissue obtained from the abdominal wall of the frog, called the rectus abdominis.

## Coaches' Comments

By COACH JIMMY ROGERS

Last Friday night the coaches were really proud of the Knox City Greyhounds. When a team holds the opposition to one first down and then scores 24 points, someone is playing football. This was a team victory. It seemed all eleven players played as one unit. We made few mistakes and played heads-up football.

Our B-Team is organized again and going strong. Last Saturday morning we played Hale and beat them 12-0. After a long lay off the B-Team looked pretty good.

They play Aspermont Thursday night. This Friday night we play Baird at home. They run the same offense as we do. Their interior line is big, they have good backs, and they throw 50% of the time. It should be an exciting ballgame. Support the Hounds Friday night as they go for their second district win.
