BAPTIST W.M.U. MEETS FOR BUSINESS SESSION

The Woman's Missionary Union of the Baptist Church met at the church Monday afternoon for a business session.

After the opening song and prayer, Mrs. J. T. May presided over the meeting. The minutes were read and approved and reports were given by the committee chairman, the treasurer and the young people's director.

The three circles made plans for the new officers to be installed at the next meeting. The new circle was named the Maybelle Taylor Circle. Material for the yearbooks was planned by each circle.

Seventeen members were present for the meeting.

Jerry Wilson, 1953 graduate of the local school and salutatorian of his class, has enrolled in Southern Methodist University, Dallas, and is coming out for the university's football team. Jerry is the son of Mr. and Mrs. Chad Wilson.

EMPLOYMENT COMMISSION TO MAKE WAGE SURVEY

G. B. Purcell of the Texas Employment Commission informed the Herald today that Knox County farmers will soon receive letters requesting them to supply information and wage data for a "range of wage survey" being conducted by the Texas Employment Commission and the local Crop Wage Committee.

The letter, he said, will explain the wage survey plan in detail, and will include a questionnaire which will request information on the general characteristics of the farm, such as size, cotton acreage, anticipated cotton yield, whether the farm is irrigated or not, and similar data necessary for an analysis of the sample to assure that it is representative in all respects.

The survey will be made, according to Purcell, in compliance with Public Law 78, which, in part, says that Mexican Nationals may be admitted to this Country for farm employment only if it is found that the wages and working conditions of domestic farm workers will not be adversely affected.

"Wages which the farmer agrees to pay Mexican Nationals are subject to change, depending on what other farmers pay their workers," Purcell said. "Therefore, the survey is made for the convenience of the employers hiring Mexican Nationals."

"In fact," he said, "the Migrant Labor Agreement of 1951, as amended, reads in part as follows: The Mexican Consuls and the Representatives of the Secretary of Labor shall exercise vigilance to insure that the wage rate paid to the Mexican worker is not less than the prevailing wage rate for similar work in the area of employment and that wages are paid to the Mexican workers in accordance with such rate or with any increases in such rate which may become effective in the area during the period of employment, but not below the minimum rate specified in the Work Contract. Increases in prevailing wage rates shall be put into effect immediately by the employer and shall not be contingent upon a formal request to do so by the Mexican worker, the Consul of Mexico, or the representative of the Secretary of Labor. Declines in prevailing wage rates shall be recognized by the Mexican worker, provided they do not fall below the rates specified in the Work Contract."

The surveys are made only in areas where Mexican Nationals are to be employed in numbers to warrant a survey. The surveys will be made bi-weekly during the cotton harvest season, Purcell said. He added that a folded, perforated card will be mailed to each farmer included in the survey on Mondays of the survey week. Information requested should be related to Wednesday of the survey week and returned the same day for tabulation. Farmers not included on the sample list for the survey will untarily furnish information cards that will be cotton gins in the area.

From where I sit ... by Joe Marsh

One for the Books!

Noticed the Missus had a red ribbon tied around her finger at breakfast one morning last week. "What's that for?" I asked. "Your memory slipping?"

"It's not for me," she answers, "it's to remind you, and everybody else who asks what it's for, to contribute to the Woman's Club Library Fund. We need \$200 and we figured we'd get more help if we could get people to ask us about it."

Well, as it turned out, the red ribbon worked just fine. The ladies are having the library all fixed up—and there's enough money for some new books, too.

From where I sit, it would be a fine thing if we had some sort of private reminder when we forget the rights of our neighbors. Like when we start telling them what we think is best. I may like a travel book and a temperate glass of beer while you prefer a cup of tea with your historical novel. Let's both remember not to "put the finger" on the other!

THE FINE CAR at half the fine car price

Duplicating America's costliest cars, feature after feature, Ford is worth more when you buy it . . . worth more when you sell it!

A FEW MINUTES on the telephone calling the dealers who sell America's finest cars will reveal there are at least eleven models among four makes with price tags over \$4,000!

Now the interesting thing is that in feature after feature the Ford car duplicates each of these fine cars, and for less than half the fine car price!

Look under the hood of the most expensive cars and what do you find?

A V-8 Engine!

Well, the Ford car has a V-8, too. In fact, it has had a V-8 since 1932, and since that time Ford has built more V-8's—by millions—than all other manufacturers combined. And there's no other builder in Ford's price range that's seen fit to offer one yet!

But the engine, as fine as it is, is only one of many things that make a fine car fine.

Automatic shifting, for example. All the fine cars offer it in one form or another because it's one of the things that make a fine car fine. But if you've never driven a Ford with automatic you've missed one of the finer things of life. This amazing transmission not only does away with clutching and shifting forever—it

gives you exactly the amount of power you want, when you want it—automatically.

Fine car power steering, too. The big, heavy costly cars offer it for the same reason they offer power brakes. It's a man-sized job for a 120 pound woman to handle a car weighing two tons or more without it—especially when parking. Our "Master-Guide" has two distinct benefits.

First, it gives a hydraulic power assist right down at the wheels and just enough to take out the work. You don't relinquish one particle of control—rather your control is more complete and far easier.

Second, being hydraulic, "Master-Guide" power steering absorbs those fatiguing steering wheel tremors caused by ruts and roads in bad repair. And you don't pay a fine car price for "Master-Guide."

But there is another fine car feature—the Ford ride. Books have been written on the subject of riding quality in an automobile, but the payoff comes on the pavement—or lack of it! Many people associate a comfortable ride with excess weight, but it's not weight alone that makes for comfort. If it were, those big five-ton trucks which you see every day

would be the most comfortable vehicles on the road.

Without being technical we can tell you that what's been done with the suspension and springing system gives the Ford a softer ride, a smoother ride than many cars which tip the scales at better than an added half ton.

What about room? Here's an interesting point. If you've felt that only a costly car offered enough room, you just ought to sit down in a Ford even if you're out-size and six feet four! The so-called big car is bigger on the outside, but unless you buy a limousine with those little jump seats, it's not one passenger bigger inside.

Visibility is another fine car Ford feature. We say Ford cars offer "full-circle" visibility because they all have huge, curved one-piece windshields and a huge rear window to match. . . plus side windows that mean every passenger gets room with a view!

How beautiful is a Ford? A great English poet, John Keats, once wrote "Beauty is Truth, Truth Beauty"—well, he could have been writing about our Ford for its beauty comes from honest, clean lines in every dimension. In fact, we think most people agree—even our competitors

—that the appearance of a Ford leaves very little to be desired. It's "at home" wherever it goes and goes everywhere.

But what about Ford quality? Does it too match the fine car? Is the sheet metal of the body panels as thick? Is the finish as good? How about the trim and things like that? Well, as far as we can determine, the sheet metal is identical in thickness in practically all instances. As to finish—we believe Ford's baked-on enamel has no equal in any car. Ford upholstery fabrics and trim are less costly, but they're less delicate, too, and if anything, more durable.

How then is it possible to give you this fine car at half the fine car price?

Part of the answer lies in Ford manufacturing skills and knowledge as evidenced by the V-8 engine. Part of it comes from the ever increasing numbers of cars Ford produces and the economies they make possible. And, part of it comes from Ford's willingness to give greater values than might be expected in cars selling in Ford's price range. And that's the Ford idea.

STREAMS in Desert Places

By Ozelle Stephens

Looking again into the mighty words that streamed from the lips of our Master, we find Him saying life-giving words. They give abundant life to you and you will never see death if you believe them. "Simon Peter answered him, Lord, to whom shall we go? Thou hath the words of eternal life." (Jn. 6:68)

They are incomparable words that give knowledge and understanding. They give blessed assurance to those who keep them. "The officers answered, Never man spake like this man." (Jn. 7:46)

They are words of Judgment, showing you the truth of GOD. "He that rejecteth me, and receiveth not my words, hath one that judgeth him: the word that I have spoken, the same shall judge him in the last day." (12:48)

They are Divine words, giving spiritual strength that Streams into you through them. They give you access to GOD through the open, that no man can shut. "He that loveth me not keepeth not my sayings: and the word which ye hear is not mine, but the Father's which sent me." (Jn. 14:24). "I know thy works: behold I have set before you an open door, and no man can shut it; for thou hath a little strength, and hath kept my word, and hath not denied my name." (Rev. 3:8)

If you have kept His sayings and believed, you can hear that small voice saying these words to you. For truly they are to you, God hath spoken to all men.

STYLES - BENSON VOWS EXCHANGED SEPT. 21

Miss Ila Mae Styles, daughter of Mr. and Mrs. D. F. Styles of Seymour, and Kenneth Benson, son of Mr. and Mrs. R. D. Benson of Benjamin, were united in marriage Monday, Sept. 21 at 7 p. m., in the Red Springs Baptist Church with the pastor, Rev. Keith Parks, officiating.

The background was of greenery, yellow mums, bronze pom poms and yellow gladiolas, illuminated by tiers of burning yellow candles in candelabra.

Miss Sue Lawson of Seymour sang "Because" and "With These Hands." Buster and John Styles of Seymour lighted the candles.

The bride, escorted by her father, wore a powder blue, two piece dress with navy accessories. She carried a white Bible topped with feathered mums and carnations. Miss Glenna Brown of Seymour, the maid of honor, wore a beige dress with navy accessories.

Best man was Billy West of Seymour, and ushers were Jimmy Welch and Glen Ray Chapman of Seymour.

A reception was held home of the bride's father, Sam Styles, in Seymour. Lucille McCain of Seymour served the four-tiered cake, and Miss Joyce Wichita Falls served Mrs. Gerald Styles of Seymour. Her husband presided at the bride's table.

The bride attended Seymour. Her husband is a graduate of Benjamin School and is now in the awaiting overseas assignment.
