"Playing peek-a-boo with motorists is a deadly game!" In these words, E. C. McFad-

siana, and Florida. Only three den, president, Texas Safety Association, Inc., urged walkers not signifito obscure their vision with parcels as they cross streets.

"These and other careless walking habits have cost many pedestrians their lives," McFadden said. He pointed out that walking becomes especially dangerous at this time of the year when rain use of farm machinery. More and ice make visibility poor and available credit is also given as footing precarious. These weather conditions, he said also make it difficult for motorists to see pedestrians and to control their vehicles

"Another factor that increases farms and farm tracts sold in 1954 the pedestrian's danger is the greater number of hours of dark ness," Mr. McFadden said. "Pedes trian deaths increase sharply dur ing the fall and winter months and the increase usually comes after sunset.

McFadden reminded walkers to do everything they can to make themselves visible to motorists

Postmaster Urges Early Mailing

H's time to start mailing those Christmas packages, Postmaster Jeff Graham said this, launching his annual "Mail Early for Christmas" campaign.

"On the calendar it's still al nost a month away-but here in the postoffice it's Christmas to-day and every day until December 25," he said.

The postoffice has already dis patched many gift packages head-ed for members of the armed forces overseas. Christmas cards for service personnel may still be delivered in time if they are sent by air mail within the next day OF SO

Packages addressed to friends and relatives in other states should be mailed now, Graham said, to insure delivery by Christmas. And all packages, he added, should be mailed by December 10.

The postmaster urged each pa tron to check his Christmas card list carefully and make sure that each address includes the full name, street or box number, eity and state. He advised that 3-cent stamps be used on Christmas cards for first-class mail service.
