S-Sgt O. L. Knight Gets Outstanding Award As NCO

S-Sgt. O. L. "Pete" Knight, son of Mr. and Mrs. Osborn Knight of Winnsboro, Tex., was named outstanding NCO of the 702nd Strategic Missile Wing for the month of December. The honor was made known through a letter to Sgt. Knight's parents from his company commander, Col. Richard W. Beck.

A trophy and certificate commemorating the honor were presented to Sgt. Knight at ceremonies held at a luncheon in downtown Prisque Isle, Maine, where he is stationed.

Sgt. Knight was selected because of his outstanding abilities of leadership, technical ability, devotion to duty, effort toward self-improvement and personal responsibility. An important and prominent professional characteristic is his remarkable success in classroom teaching.

In social activity participation, Sgt. Knight organized and managed the basketball, volleyball and softball teams and walked away with the highest honors in all but one of these.

In his letter to Sgt. Knight's parents, Col. Beck said, "Airmen of your son's caliber form the backbone of the USAF. It is gratifying to me to be a member of the same organization."

Sgt. Knight was a graduate of the Knox City High School and his father, "Pete" was a former commissioner and city secretary in Knox City.

Prayer Written Few Days Before Her Husband's Death

In the early morning a few days prior to the death of Clarence Symes, Jr., his wife, the former Gertrude Sams, arose from her restless sleep and wrote the following prayer, which was the closing prayer at the funeral services last week for her dearly departed husband.

Our Gracious Father in Heaven above
Your kingdom today is especially full of love,
For our loved one you have called home to rest
His cross he courageously bore and passed the test,
To live in glory from now on he shall be blessed.
May we ever be grateful that his suffering, tribulations and sorrows have ceased.
He has earned his reward in heaven and his ties from earth released.
Thank you, dear God, for sharing him when we needed him most,
For his presence and love made him a most gracious host.
Our loves have been enlightened as his light so shone each day,
To strengthen our faith and to prepare the way.
Through devotion, wisdom, humility, and deeds our loved one has served his cause.
So now, in tribute, love and respect may we humbly pause,
To thank You again, for the memory of our loved one shall remain.
May we be reconciled to realize that our loss on earth is heaven's gain.
Through knowledge of your loving hand guiding his way in your holy name we pray.

Special Handling Explained By Postmaster

"Contrary to popular belief, payment of a 'Special Handling' fee does not mean that parcels will be processed more carefully than other mail, nor does it provide for 'Special Delivery' at the office of address," says Postmaster Jeff Graham.

According to Postmaster Graham, payment of a "Special Handling" fee provides only that fourth-class mail (parcel post) will receive the same fast transportation as first-class mail when traveling between post offices.

So those who are anxious for their parcel post to go quickly to its destination may pay a "Special Handling" fee and receive first-class transportation at less cost than would be involved by mailing a parcel at the first-class rate of postage.

Both "Special Handling" and "Special Delivery" mail receive the most expeditious surface transportation possible between post offices. "Special Delivery" mail is delivered immediately upon arrival at the office to which it is addressed. "Special Handling" parcels are not delivered until the next scheduled trip of the regular carrier.

"These two special services have other distinguishing features that are not generally known," says Postmaster Graham. All classes of mail may be sent by "Special Delivery," but only parcel post may be sent by "Special Handling." When it is necessary to forward "Special Handling" mail to another post office, this mail continues to receive first-class transportation without payment of an additional fee; however, forwarding postage at the fourth-class rate is collected on delivery. "Special Delivery" mail does not continue to receive "Special Delivery" service at the office to which it is forwarded unless a forwarding order has been left by the addressee at the original office of address in advance of arrival of the mail.

This and other postal matters may be obtained by calling the post office at 658-3701.

Study Club Has Book Review By Mrs. R. A. Shaver

Mrs. R. A. Shaver of Rochester reviewed "Mama's Way" by Thyra Bjorn for members and guests of the 1946 Study Club Tuesday afternoon at the Womens Club.

The serving table was laid with a linen cloth and centered with an arrangement of orchid iris and lilacs in a milk glass pitcher. Coffee was poured from the silver service by Mrs. Jerry Cobb. Individual cake squares iced in orchid with the name of the book to be reviewed were served. Orchid mints and napkins carried out the color scheme which was in the club's colors.

An arrangement of books was also used on the table and other arrangements of iris and lilacs decorated the room. Mrs. Joe Clonts introduced the speaker and presented her with a gift from the club following the review.

Other hostesses for the afternoon were Mrs. Gerald Averitt and Mrs. Arnold Brown.

Mrs. Buster Lowrey presided at a short business meeting following the program. Mrs. Sammy Tankersley was chosen to attend the District Convention in Wichita Falls April 12 and 13.

Roll call was answered by members with "What I Like to Read." The resignation of Mrs. W. J. Roddy was accepted.

Hostesses for the next meeting April 18, will be Mmes. Ben Knight, Zeb Smith and Bill Sams.

Speaker for the day will be Father James A. Meurre of Saint Ann's Church in Stamford.

Inspection Sticker Deadline April 15!

Inspection Sticker!—Deadline?—Saturday midnight, April 15, 1961. Motorists are warned there is less than two weeks for procuring their new 1961 inspection sticker. This announcement was made by Captain Alan Johnson Service of the Texas Department of Public Safety.

Johnson pointed out that of the 544,419 vehicles registered in the 60 counties of this region, only a little more than half of them have been inspected and approved. This means that in the last few days of inspection there will be long lines of cars and trucks waiting to be inspected.

Motorists are reminded that the inspection law prohibits inspections being made when it is raining or the streets are wet. So, it is possible that inclement weather could prevent inspection these last few days. "There will be no extension of the April 15 deadline for inspection," Johnson stated.

Anyone operating a motor vehicle after midnight April 15, without displaying a 1961 inspection sticker will be operating in violation of the law and subject to a fine not to exceed \$200, plus court costs.

As we have one press run on Tuesday (four pages) and the last one Wednesday it is very important that we observe the above schedule. We would also like to solicit the help of readers of the Herald, to turn in personal.

If you visit out-of-town, or out-of-town people visit you, that is NEWS... tell us about it.

If you aren't a regular advertiser in the Herald and want to run an ad, please tell us Monday so we can plan on having you in the paper. We want all the advertising we can get, BUT a lot of times we are filled up by Wednesday and it is too late to add more pages at that time.

Please Observe Herald Deadlines

For the past few weeks the Herald has been receiving ads and news stories a day or two past the deadlines. As most of our readers are aware, we print the paper on Wednesday nights. In order to do this, it is extremely important that we receive our advertising by noon on Tuesdays.

Correspondents should have their news in not later than noon Tuesday, and society in by Monday noon. If a picture is to run with the society story, the picture must be in by Monday morning also.

Uncle Ben from Benjamin says:

DEAR MISTER EDITOR:

Spring ain't arrived real good where we get troubles. The fellers at the country store Saturday night was agreed that April is gitting to be the most appreciating month in the year.

First off, Ed Doolittle warned everybody to be on the lookout for the annual Spring cleaning. Ed says that in one day a feller's old lady can clean up around the place in such a manner as to set the household back a whole year. Some of the fellers was in favor of a law making Spring cleaning illegal, unlawful, and a public felony.

And Clem Webster reported he'd saw in the papers where one school has already named their Commencement speaker. This was received as mighty bad news on account of it has took most of us all Summer and Winter to git over some of the Commencement speeches we read in the papers last spring. Clem claims it'd be a heap better fer the graduates if they'd git turned out a couple hours earlier so's they could git a running start in life. They ain't got a second to lose in adjusting themselves to a country where a plumber's helper makes more money than the school principal, where prices is so high they'll probably have to wear their caps and gowns to work, and where the only blessing of finishing one war is to git ready for the next one.

And when the Government set April aside for the Revenue folks it just about put the stopper in the jug Zeke Grubb allowed as how it used to be a feller could do a little twisting and turning with them income tax forms but now, claims Zeke, if you do more subtracting than adding, you got to send the records along fer proof. That'll be had fer Zeke on account of him subtracting a heap better'n he adds. And I happen to know that Zeke keeps his records writ on the barn door, and gitting that barn door mailed to the Income Tax folks is going to be a problem fer Zeke.

Of course, April has a few good points. Fer instance, Thomas Jefferson was born in April. But we even got a little argument from the fellers about ole Tom. Most of the fellers was agreed that Jefferson done a heap of fine things in his life, but Bug Hookum was lamenting about ole Tom inventing the swivel chair. Bug allowed as how inventing that contraption fer them bureaucrats in Washington just about offset all the good he done in life.

Taking everything in consideration, threats of Spring cleaning and Commencement speeches, income tax, and swivel chairs, it was voted by all that April ain't one of our best months. Ed Doolittle went so far as to say we

Ranger Junior College.

Mr. and Mrs. Hugh Finley and girls of Hamlin spent the week end with Mr. and Mrs. H. Finley.

Mr. and Mrs. Vaughn Brooks and family of Friona visited relatives here over the week end.

could run the country pretty good with just eleven months and give April to Kharuschef.

Yours truly,
Uncle Ben

MELANIE MEDDLES

By MELANIE VERHALEN

What would you do with a million dollars? My younger brother, Bonnie, has made his decision. First of all I would travel to Europe and see all the sights

of the Old World. My first stop would be England where I would try my hand at Channel swimming. After they rescue me from the Channel, I shall go and see Big Ben in London. As I

understand, Big Ben was built by a near-sighted watchmaker who thought he was making a pocket watch for the local banker.

Next, I would take a ferry to France and see the place where Robespierre talked the people into the French guillotine. After France I would travel to Germany, the land of Hitler's supermen. If they didn't believe his lies they were sent to concentration camps where they were tortured or put to work until they calmed down.

In Switzerland I would risk my neck trying to climb an Alp; if I lived through that ordeal, I would learn to yodel so I could do beer commercials. In Italy I would stuff myself with spaghetti and meatballs and get seasick riding on gondolas. Before leaving Italy, I would surely visit Rome, because all roads lead there—how could I miss it?

Going to Egypt, I would look at the ancient sentinels of the desert, the Pyramids, which brings us again to the age-old question, "Why did the pyramid builders take so long to come to a point?"

The Sahara Desert used to provide a good living to the people who lived there and exported sand to Europe to be used in hour-glasses. With the invention of the watch, hour-glasses went steadily out of style (after all who wants to wear an hour-glass on his wrist?) So sand steadily lost its importance.

After I get back from my trip, I shall live out the rest of my days in Las Vegas trying to break even.

My career as an actress was short, sweet? and evidently successful. Faye Graham asked Samantha, "I didn't know Melanie lisped!"

The power of God that burst open the grave and rolled the great stone away from the door let loose your and my Christ to bring to us victory in this life. Victory over death and gives eternal life. This power is yours who will study the Word of God, for in it is found wisdom and understanding. To you who seek, out of it comes righteousness, justice, and equity. To study it is to be wise, for it gives you understanding to acquire skill that will help you enter the straight gate and walk the narrow way. It teaches you the true love of God without which you become as sounding brass and tinkling symbol. The word is the key that opens the door to faith, hope, peace, and joy.

Yes, and to the Kingdom of God. Open the Book and drink of the waters from the fountain of life. Worry, fear, and doubt will vanish, and God, who liveth, will abide with you forever.

Your Neighbor... Uses LIQUID FERTILIZER How About You?

MAURICE CAIN, who lives 3 miles south west of Ropesville, is a booster of Liquid Fertilizers. "To me it's the SOLUTION to my fertilizer problem. I am putting down 60-lbs. of Nitrogen, 48-lbs. of Phosphate and 8-lbs. of Potash on my irrigated cotton land. I definitely feel that SOLUTIONS will give as good or better results than other types of fertilizers if used properly. I particularly like the uniform application I get with my tail-wheel drive squeeze pump applicator. I'm rigged up so that I can side-dress and cultivate in one operation later in the season. I can also see a big labor and time-saving by being able to apply more acres per day as compared to other kinds of fertilizers," said Mr. Cain.

Cain is farming 1200 acres—500 acres of cotton and 700 acres of grain. Last year he averaged about 1 1/4 bales per acre... "and I would have made more had I side-dressed at the right time. I feel very strongly that in order to realize the most out of fertilizers they must be applied at the right time. I was late on side-dressing last year, consequently I didn't get the full benefit that I would have gotten had I been a few days earlier," said Cain. STATE CAPITAL Highlights AND Sidelights

by Vern Sanford

AUSTIN, Tex. — Texas Senate now has a tax bill — one designed to wipe out about half the deficit that is expected to be about \$63,000,000 when the new fiscal year starts September 1.

Revenue-raising measures must be passed by the House before they can be considered by the Senate, and the upper chamber has waited with polite impatience for the House to send it something to work on.

Passed 85-to-60 by the House was the so-called "loophole bill" by Rep. Charles Ballman of Borger.

It is a sort of catchall bill that (1) plugs up some leaks in the revenue bill passed last session, taxing central air conditioners, juke boxes, etc., (2) provides for a transfer of 1 per cent of the permanent school fund to the available school fund, (3) sets up a two-factor formula for corporate franchise taxes and (4) levies a state gift tax of one-half the federal gift tax.

Caption of the Ballman bill is broad enough that a variety of other money raising plans could be added to it should legislators be able to agree to them.

Meanwhile, the House Revenue and Taxation Committee still has a lot of other tax bills in the mill. Three sales tax bills were sent to subcommittee, as well as a hotly debated proposal to levy a 10 per cent tax on trading stamps.

A trading company spokesman said there is only a three per cent profit on the operation and that a 10 per cent tax would put them out of business.

On the other hand, stamps were attacked as "counterfeit money" and an unnecessary burden on both merchant and consumer.

STRIKE THREE — Texas Supreme Court made short work of a 1959-passed tax law that many lawmakers had hoped would be a potent future revenue raiser.

Without issuing an opinion, the high court agreed with the trial court and civil appeals court that the severance beneficiary tax on gas is unconstitutional.

Although three state courts have turned thumbs down on the gas tax, the last chapter remains to be written by the U. S. Supreme Court. As passed in 1959, the gas tax was low (1 and one-half per cent of market value), but supporters had indicated that if the law survived its court battles, the rate would be raised to bring in more money.

LADIES SCORE IN HOUSE

House has passed and sent to the Senate a proposed constitutional amendment that would automatically erase all statutes that treat women differently from men.

Rep. Ben Atwell's very brief amendment that "equality under the law shall not be denied or abridged because of sex." It passed the House 135-to-10.

Senators have misgivings about causing such sweeping changes in the law. Some 44 statutes would be affected.

LOAN FIGHT SHAPES UP—House members are coming to grips with one of the session's toughest issues — regulation of small loan companies.

House Committee on Banking and Finance reported to the floor a bill authored by Rep. Criss Cole of Houston. It is being subjected to widespread criticism, but Cole, long-time veteran of the loan regulation effort, declared that no bill was going to satisfy all the interested factions.

Cole's bill sets up a sliding scale that would allow interest rates of just under 40 per cent on loans of \$100 and dropping gradually to about 11 per cent on a \$3,000 loan. It also allows for "reasonable insurance charges," at rates set by the State Board of Insurance.

Abner McCall of Waco, spokesman of a statewide committee for sound loan laws, said the interest rates were too high and that the limit on credit insurance charges should be clearly defined.

BREWERIES (pro and con)—Legal restrictions on breweries and the desirability of having breweries at all came up for spirited discussion before the Senate State Affairs Committee.

Rep. Don Kennard of Fort Worth is author of the House-passed bill that would give brewers of ale the privilege, as beer makers, to continue their operations in a territory after it is voted dry. It would also increase from one year to three years the time allowed a brewery to begin production after it got its license.

A large out-of-state manufacturer of ale is planning to build a \$20,000,000 plant in Tarrant County. Any change would, of course, affect the whole state.

Supporters of the bill emphasized the new jobs and payroll it would create. Opponents, mostly ministers and church leaders, declared it would contribute to the problems of alcoholism.

PHONE RATES STUDIED — House State Committee is studying a bill by Rep. Dan Struve of Campbellton that would place regulation of telephone service, within the state's borders, in the hands of the Texas Railroad Commission.

Representative Struve says Texas is one of two states that do not have this sort of regulation and that other states have lower rates.

Other witnesses testified that a long distance call within Texas borders costs more than one of the same distance that crosses the state line.

PRE-PAYED FUNERALS DEBATED — Funeral directors and cemetery operators clashed before both House and Senate committee over a bill to restrict pre-paid funeral arrangements.

Funeral directors declared that their only desire was to protect the public by requiring that money paid in advance for funeral expenses be put in a trust fund. Cemetery and mortuary operators retorted that the funeral directors wanted to discourage pre-paying of funeral expenses. They contended that families who make funeral arrangements at the time of bereavement spend more money than if arrangements are made in advance.

SHORT SHORTS — A test vote in the Senate indicated that Sen. Dorsey Hardeman's proposal to abolish the Court of Criminal Appeals and transfer its duties to the State Supreme Court, is short of enough support for passage. Sen. A. R. Schwartz of Galveston says he

Social Security News Concerning Latest Facts

Today there are 14 million Americans who are receiving social security benefits. It is the aim of the Social Security Administration that each beneficiary receive every check to which he is entitled promptly and without delay.

But, the prompt delivery of these millions of checks every month is not entirely the responsibility of the social security people. If you have filed an application for benefits, you also have certain responsibilities.

If you earned more than \$1200 in 1960 and received a year social security checks in 1960 you must file an annual report of your earnings with the Social Security Administration before April 15, 1961. This report may be looked upon as a balancing of the books for the year past, and it is especially important to people who work only a part of the year.

Even though earnings may have exceeded \$1200 in 1960, benefits still are payable for all months in which a beneficiary did not earn wages in excess of \$100 per month, nor was actively self-employed.

Betty Smith has been receiving benefits for herself and minor child since Betty's husband died four years ago. In 1960, Betty taught school and earned \$4000 during the year, but she did not work in June, July and August. Even though she earned \$4000 during the year, Betty still is entitled to checks for June, July and August, because she did not earn \$100 in any of those months.

Betty's father, Bill Scott, has always been a self-employed farmer. Bill filed application for social security benefits several years ago because, although he was continuing to farm, his earnings each year were less than \$1200.

Bill attained age 72 in April 1960. In early 1961, Bill figured up his net earnings from the farm for 1960 and found that they were \$1500. Since Bill received net earnings of over \$1200 in 1960, he must file an annual report of his earnings. Since he was under age 72 in January, February and March of 1960, and was actively engaged in farming all months of the year, he is not entitled to checks for the three months in which he was under age 72.

If Bill had been over 72 years

of age before 1960, he would not have been required to file an annual report for that year. Benefits would have been payable to him for all months of the year, regardless of his earnings.

If you are entitled to social security benefits, be sure you understand your responsibilities. By doing so, you can be sure you will receive all of the benefits to which you are entitled promptly and without delay.

I would also like to say "thanks" to all of those who helped me in the campaign.

CONGRATULATIONS to our mayor, Guy Glenn.
