

YOU — John Egenbacher, right, now sole owner of Egenbacher Implement-hand-man' Wilburn Condron, bookkeeper and parts man, invite all of come in for a visit soon.

Egenbacher Owns Implement Firm

After a tour of duty with the U.S. Navy, John moved to Knox City in 1946, and began work for Erwin as parts manager and shop foreman. John said when he began that the shop had 450 parts bins, and there are presently more than 8,000 bins containing over 25,000 different parts.

The business, although still located in its original site at 100 South Central, has expanded several times through the years.

Wilburn Condron, bookkeeper for the past 12 years, will continue to serve in this capacity as well as assisting in the parts department, Mr. Egenbacher said.

John is married to the former Dessie Day and they have two children, Sue a junior at Texas

Tech in Lubbock, and Randy, a KCHS sophomore.

The Egenbacher home was totally destroyed, with the exception of the bathroom, in the devastating tornado that hit Knox City in 1953. John laughingly explained that since the striking in the same placetwice, he has decided to stay here as he would "hate to take his chances somewhere else."

As will be noted in the display ad elsewhere in this week's News, John invites his customers to "Try Me - I May Have It!"

John explained that no major changes in the business are being planned and that he will continue to try and serve his customers in the same courteous manner he has in the past.

Jo Nell Cornett Now Employed By Knox County News

Mrs. Clifford (Jo Nell) Cornett has been employed by The Knox County News and began work here last month. Jo Nell, in addition to gathering the news, is also helping "put the paper together each week".

She replaces Mrs. B.J. (Globbie) Foster who had planned to resign February 1, but due to her husband's unexpected illness and surgery, quit earlier than she had planned.

The News staff regretted losing Mrs. Foster. She began work for the former publication of the Herald, on February 1, 1971. After the News office began its own composition, there was the necessity for more hours on the job than Mrs. Foster felt she could manage.

Mrs. Cornett has already proved to be a valuable asset to the News. She is well-known to most of our readers as she and her husband have lived here all of their lives. They have two married children, Bill, who lives in Houston with his wife, Sherri, where he attends the University of Houston Law School and she teaches at Galena Park, and Gail, who with her husband, Ray Etheredge, attends Tarleton State College at Stephenville. The Cornetts are active members of the First Baptist Church.

Streams In Desert Places

BY OZELLE STEPHENS

"Your word is a lamp to my feet, and a light to my path." Proverbs 6:23 and Ps. 119:105.

When reading the Word of God with a sincere and believing heart there comes unto your soul a beam of light; which is the true light of God's truth. This true light which lights every man's path (who believes) You no longer dwell in darkness, for the light will be within your heart making you see your way. You become conscious of a new and different life, a new love for all people. You have a new power and understanding to make right decision. This light gives illumination and guidance. This spiritual light will direct you into way of happiness and success. James says, "Every good and perfect gift comes down from the Father of light." As this light streams into your being you distribute the love of God in your thought, word and deed.

Homemaking II
By DEBBIE BISHOP

For the past few weeks the Homemaking II girls have been talking about how to take care of the money expenses if and when we get married.

One day we thought of all the supplies, food products, and canned goods that would be needed to fill our new kitchens. The next day we went to "M" System and got the prices of all the merchandise. Later, we figured up the prices and I feel that most of us would rather stay single!!

FTA News
By MARY JO CAMPBELL

This past week the FTA chapter has been very busy stuffing and addressing envelopes. Dean Bouldin is running for state vice-president, and the entire FTA chapter is helping him send letters and hand bills to the nearly five hundred chapters in Texas.

In addition to the letters and handbills, other campaign material has been purchased. The chapter voted to buy black felt derbies to wear and to buy balloons and ribbons for further advertising. Both the balloons and ribbons are red with black lettering and push "Dean for Vice".

The convention is being held February 25-26. The Knox City delegation will be staying at the Adolphus Hotel. As of the present, forty-six students and three advisers signed up to go on the trip.

Coaches' Comments

BY JERRY LOWERY

The Greyhounds came through with two big clutch victories last week to force our district race into a playoff game at Stamford. The first big win was against Wylie, but to me the greatest pressure game was the Albany game, of course, we had to win both games but after beating Wylie we could have suffered a let-down; and had Albany beaten us, it would have been all over. But our boys didn't fold under the pressure and politely bombed Albany by a nineteen point margin.

To me it's not difficult to explain our recent success after an early slump. The key has been our defense. Of course, we've scored better this half also but only one time in our last five district games did we allow over fifty points. Limiting Wylie to 38 points certainly was due to some fine defensive work. We only scored 50 points in that game and didn't have one of our best offensive games; but we played defense, and it saved us. I've said it many times

beers that there are games when a player is going to be cold and can't hit. But there is never any excuse for not playing good defense. I think it comes down to a matter of personal pride. A player that has a lot of pride will try to keep his man from scoring every time.

I can't single out any one player but would like to credit our success to our entire team. When you look at our scoring averages, we don't have a boy averaging over 15 points a game. But what we do have is about four or five scoring in double figures each game. This makes it hard to defend us because of a balanced attack. It also helps a lot when your second unit is as tough as ours. I'd be willing to play our bench against anyone in our district and feel they have won a good many games for us this year. Plus when we work against each other in practice it's not like playing a bunch of "rag-knots".

Hope to see you at Stamford Thursday night to find out which dog is "top" dog.
