Teacher Association met last week at which officers for the coming year were elected. They are as follows:

Mrs. Press Clarke, president; Mrs. J. A. Wilson, vice president; Mr. Cash (relected), secretary; Mrs. Cloud (relected), treasurer.

An interesting feature of the last meeting was the report made by ladies who attended the District Parent Teacher meeting recently held in Falls. Those who participated in the report were Mrs. Edwards, Mrs. A. Wilson and Mrs. Press Clarke.

The county Parent Teacher Association will be held here early in May. Mrs. Hoge, county chairman, is arranging a program on health for this meeting. State speakers will be present to assist in the program.

The local association is offering medals to the honor pupils of high school. In view of this the committee of Mrs. Clarke, Mrs. A. Wilson and Mrs. Press Clarke has appointed Mrs. Cloud as the medalist.

The association has recently had a picnic on the stage gone over. The picnic was a success and the new firm and those faded and repainted. The organization is asking that you take notice of the picnic.

The meeting of the association will be held on Wednesday afternoon the 6th.

SCHOOL DAY AT THE METHODIST CHURCH

School day will be Sunday School at the Methodist Church. The school hour will be given to the program. A very interesting program is being prepared by the departments of the Sunday school.

The church is cordially invited to be present at these services.

There has been set and we wish to make a statement as to our program.

COUNTY WIDE HEALTH SURVEY BEING MADE

Dr. Stoker of Truscott, county health officer in Knox County held a call meeting in Benjamin Tuesday afternoon of this week at which time plans for a county wide health survey were made.

Mrs. C. C. Hoge, representative of Knox City makes an interesting report of the work and plans of this meeting. All Parent-Teacher-Associations, Federated Clubs, Medical Clubs etc. of the county were represented at the meeting, each showing much interest and giving cooperation in the work to be done. The purpose of the work under way is to cover thoroughly our portion in the drought stricken district, which is the entire county. The health officers will get a nurse and an inspector for a period of eight to fourteen months. The inspector is to make a survey of all cafes, barber shops, beauty shops etc for sanitary conditions. Also all those in the county, especially of school age, if they desire, are to be vaccinated for the various diseases.

The purpose of such work is to secure healthful conditions throughout the county and insure the children against diseases.

A permanent health committee has been named, those from Knox City being Mrs. J. E. Clarke and Mrs. F. S. Edwards. Mrs. Melton of Benjamin is chairman of this committee.

Mr. and Mrs. T. P. Reeder of Crowell visited his mother, Mrs. M. A. Reeder, here one day last week.

Those Fishing Permits

Mr. Carl McGohtlin of Benjamin was quite busy in Knox City Monday selling Fishing Permits for the Benjamin lake. Although Mr. McGohtlin made no official report to the Herald as to the number of permits he left in Knox City, it is believed that a good number will be bought by Knox City people.

Three years ago thirty thousand fish were put in the Benjamin lake which should now total a million or more. Evidently there is good fishing in the lake.

Knox City is possessed with a number of people who claim themselves as fishermen and who indeed so fish in; rather often and who will doubtless find themselves parked either on the bank or in a boat at the Benjamin lake on May the first.

OLIVER FAMILY HERE IN ILLNESSES OF FATHER

Mr. A. P. Oliver, who took his bed two weeks ago with a severe cold and pneumonia, is now in the hospital. He has showed some improvement during the last week. Taylor and two children of Quitaque, W. G. Oliver and two children of Lockney, Mr. and Mrs. J. K. Holmes and children of Floydada. A brother to the stricken man, C. C. Oliver of Dublin, who is now 87 years of age, came. Also a life long friend of the Oliver family, John Smith of Rule, came Wednesday of this week.

Wednesday Mr. Taylor and Mr. Holmes returned to their homes.

It is the desire of the Oliver children that an expression of appreciation be made in the Herald for the many kind things done for their father before they could come to him, also for the many, many kindnesses shown them and their father since that date.

The District Conference of the Stamford District Methodist church is being held this week, Thursday and Friday, in Munday. Bishop Boaz is expected to preach Friday at the eleven o'clock hour. Delegates from the Knox City church are E. M. Clonts, L. N. Bridges, M. F. Wharton, R. H. Fortenberry, Mr. and Mrs. J. W. Smith, Mrs. T. S. Edwards and Mrs. C. C. Hoge.

In view of the fact that the date of the Camp Fire girls play has not definitely been announced, the Junior class are asking that you plan to see the play, regardless of when it is given, and to put an extra dime, quarter or fifty cents in your pocket that night for this class is giving a pie supper following the play. Pie will be ten cents a slice. Big, generous slices, and any kind you want.

Press day again and as the editor is devouring a perfectly good chill rain is falling about the same as on last press day. We are pleased to have the rain but wish we could divide it with our farmer friends who were not fortunate enough to receive rain last week.

SCHOOL NEWS OF INTEREST

Knox City almost failed to mark at the district League held in Abilene Friday and Saturday. The literary events were held Friday with Track and Field events on Saturday.

Much hope was set for the girls debating team and they won their first debate but lost later.

In track events Lynn Waldrip made second place in Low Hurdle and third place in high hurdle.

Knox City, from the standpoint of attendance, was pretty well represented in Abilene Friday and Saturday.

The Camp Fire girls announce that they are well under way with their play which they are staging soon.

Upon averaging the grades made during the school year it is learned that Miss Constance Browning is valedictorian of the Senior class. Miss Eva Payne Hutton is salutatorian. Miller Lee made the highest grade among the boys.

The last day of class work in the school will be Monday, May the 11th. All final examinations will be given on Tuesday, Wednesday and Thursday, May the 12, 13, and 14th.

UNION GROVE HIGHEST IN RURAL SCHOOL

This school first won more points than all other rural school in the county (Knox county) and at the district meet held its own there. Our of an available six cups in the county, the Union Grove school has five. This record of this particular school is just a continuation of what it has been doing the last number of years.

At the district meet Anica McBrayer and Florence Cornet won first place in Music Memory. Daisy L. Pannell and Alice Wilson won second place in 3 R. contest and third place in declamation. Mildred Lea, R. Land and J. W. McMahon tied for first place in picture memory.

The Union Grove school is to be commended for its good work.

GLAD HAND CLASS

The Glad Hand Class of the First Baptist Sunday School is striving toward a goal of fifty members present next Sunday, and hopes to bring the enrollment to seventy-five by the first of May. Uncle Joe Smith, our teacher, urges every member to be present with their Bible and a prepared lesson as we are endeavoring to make a perfect report. So come to Sunday School and bring a new member with you.

TODAY AND TOMORROW

By Frank Parker Stockbridge

LONGWORTH

A great gentleman whom I am proud to have known as a friend passed when Nicholas Longworth died. Politically we often disagreed. Personally Nick Longworth had the happy faculty of making and keeping friends, regardless of their political or other beliefs. Born to the purple, he was never a snob.

At his home, "Rockwood," the stately mansion built by his grand father on the banks of the Ohio near Cincinnati, he had one of the largest collections of letters and documents relating to the early history and settlement of the Northwest Territory. The first Nicholas Longworth had the idea of establishing great vineyards along the Ohio, which reminded him of the Rhine. He brought German Grape culturists and wine-makers from the Rhenish Palatinate, and so established the first German colony in what was then the West. He produced a wine from scuppernon grapes which was the subject of one of Longfellow's best poems. The poet often visited him. Once, Nick told me, his grandfather commented on the similarity of the names "Longworth" and "Lopsiflow," to which the poet replied with a line from of Pope's poems: "Work makes the man, the want of it the fellow."

RUSSIA

Nobody but a Russian can understand the Russians. Hence, nobody in this country really understands what the Soviet government is trying to do and how it hopes to accomplish it. William C. White, who learned Russian and lived four years among the Russian people in cities and villages, comes nearest to it in his book, "The Russians."

Two or three things seem clear after reading this book. One is that the Russian people, much more akin to the Chinese than to any Europeans place a trifling value on human life. Another is that the rulers who are promoting the "Five-Year-Plan" are trying to make Russia as much like the United States as they can, so far as material progress goes. And another unescapable conclusion is that, unless something happens, all of the people of Russia will become slaves under military discipline.

Well, Army life isn't so bad—for the officers.

EMPLOYMENT

Edward A. Filene, famous Boston merchant who has long been active in many programs of social welfare, says the problem of unemployment, because of seasonal or general business depressions, can be solved by State legislation, requiring all industries to set aside a given percentage of their payrolls for a fund to carry their employees over in the times.

The state would not go into the job insurance business under Mr. Filene's plan, but doubtless insurance companies would, and every employer of labor would have to carry it. One result, his author thinks, would be no more business derisions, because the buying power of the mass would never be diminished by reason of unemployment.

MAYORS

Anton Joseph Cermak, the new Mayor of Chicago, was elected not because he is a Democrat but because the people of Chicago were disgusted with the rule of the political gang which calls itself Republican, and its Mayor, the blatant William Hale Thompson.

James Joseph Walker, the suave and personally popular Mayor of New York, is under fire because of revelations of grave corruption in the city's police department and minor courts. Back of Walker is a political gang which calls itself a Democratic. Mr. Walker has not yet shown signs of renouncing Tammany Hall and leading the movement to clean up the city.

Foolish partisans support incor-

petent local officials because of the party names attached to the political gangs which control them. Almost the only cities in which there is anything like honest and efficient administration of the people's government are those in which the administrative machinery has been turned over to a non-partisan commission and a City Manager. New York and Chicago will come to that in time.

WAR

Twenty years ago presumably intelligent Americans were assuring each other that there would never be another great war.

Intelligent Europeans never shared American optimism about wars impossibility. The smile at the thought that the "last" war was a "war to end war." They set up the League of Nations, which will act as a deterrent of war until some powerful nation decides to ignore it. And they laugh in their sleeves when anybody suggests that the era of permanent peace has arrived.

France is criticized for maintaining an army twice as large as any other in the world. France is building a great wall of fortifications along the German border. Why not? French territory has been invaded by enemies from the North many times in 170 years. If anything like that had happened to us, we would have a thousand forts and a million soldiers along the Canadian border.

Miss Janie Smith visited her brother in the country this week.

Like a Symphony . . . the best Gasoline is Blended

IT'S primer knowledge to the orchestra conductor that each group of instruments in the ensemble brings a necessary influence into the symphony's finished blend of tone. In the unaccompanied "oompah" of the ban horns the overlay of melody provided by singing violins and mellow woodwinds is lacking. All must be blended by the baton of the conductor according to the expert formula of the composer before the perfection of the symphony is achieved.

CONOCO long has realized that harmony is as necessary to gasoline as to music. So CONOCO gasoline is Blended—and Blended. One type of gasoline is no more satisfactory than is an orchestra of ban horns. So CONOCO refiners take the three types

containing the elements of the perfect fuel and deftly combine them until they blend in absolute harmony.

That's why CONOCO contains: Natural Gasoline, for quick starting and long mileage; Cracked Gasoline, for its anti-knock qualities.

No single type of gasoline can contain all these qualities. They are present, though, in CONOCO Gasoline—blended there into a symphonic, harmonious whole, with CONOCO's master refiners wielding the baton. For, after all, it's in knowing how. That's why some musical directors, as well as some refiners, achieve fame.

You'll find this triple-test gasoline with the balanced-blend wherever you see the CONOCO Red Triangle.
