Prof. Odor, band instructor was here several days this week getting the class started off in their practice. Arrangements have been made whereby the Professor is to give four lessons each week instead of two as planned at first. We hope the boys will make good progress and that we will soon be enjoying band music of the home made variety.

the world can use it. These things must be done by a large number of farmers working together collectively. A large No. of business men working together build the railroads, the steel industry, the petroleum industry. By far the larger part of modern industry and commerce is the result of the joint efforts of many people working in one industry commonly known as the cotton business. It isn't the part of the cotton business that this example of marketing organization by a group of people are having every business

assets of the Standard Company have now passed a million dollars. You may think it peculiar that a single selling concern could accumulate such a staggering fortune in the few years of its existence, but its success is first of all based on its volume of business and next its rigid systematic methods in handling business and lastly having an article which is a prime necessity and has a steady demand.

An Armenian orphan in shreds
Barefooted in snow, "Just look at them," he states in his report, "let your eyes look the ground surrounding circle from the many of them. There are bare feet, the children's, shivering painfully on the frozen earth; there are the multicolored shreds and patches, pinned together with thorns and fapping in the wind like a scarecrow's rags; there are the arms, folded across the wastelands, as a starving man draws his hand to his face; and last, the innumerable quivering faces and last, the tent area, fixed--you would think upon a display of gold and jewels, each bare term 'WORN CLOTHING'."

Great Demand for Old Clothing
The clothing that was sent through the Near East Relief last year was the means of saving thousands of lives in the bitter cold regions of the Caucasus. They were insufficient and with several hundred thousand added to care for this winter, a great amount of old clothing is imperative, needed. The demand is imperative, according to Staff Secretary O. K. Lowry of the Near East Relief, 719 Dallas County State Bank Building, Dallas, who said:

"What Edison Likes in Music"

THERE is a certain song which holds a fascination for Mr. Edison.

That song is "I'll Take You Home Again, Kathleen."

Mr. Edison has his other favorites, too. He listens to them in those moments of relaxation which he snatches from his never-ceasing research work.

Wouldn't it be interesting to know these tunes?

Get a copy of "What Edison Likes in Music" (use our Edison Requisition Blank). Know Mr. Edison's 25 favorite selections. Note his personal views on what is good and what is bad in music. See the six selections

he thinks everybody ought to have. You will get new side-lights on Mr. Edison, the man,--also valuable music suggestions you can use.

This is the booklet the magazines have been talking about. We haven't a large supply. The demand is heavy. So, act promptly.

The phonograph which Mr. Edison has for his personal use is acknowledged to be the most perfect type of sound-reproducing instrument in the world. We have its exact duplicate. Come in and hear it. Ask for the Official Laboratory Model. You can buy it on our Budget Plan. That is, we'll make a gentleman's agreement with you.

Study This Picture! Know What It Means?

It means that famous vocalists and instrumentalists have compared their performances with the RE-CREATION of those performances by the New Edison. It means that there is no difference between the living performance and the RE-CREATED performance. It means that only the New Edison gives music exactly as great artists give it--but only the New Edison sustains this test of direct comparison. (The New Edison also plays all makes of talking machine records,--and plays them better.)
