STREAMS in Desert Places

By Ozelle Stephens

Once when God was instructing Isaiah how to overcome a conflict, he said, "Take heed, and be quiet, fear not, neither be faint-hearted." Quietness before the Lord gives chance for divine courage. Courage, that firmness of spirit which meets danger without fear.

The Lord exhorts us to "Be strong and of good courage, fear not, nor be afraid, for the Lord thy God, He it is that doeth good with thee; he will not fail thee, nor forsake thee." Just remember, "Know therefore that the Lord thy God, he is God, the faithful God, which keepeth covenant and mercy with them that love him and keep his commandments to a thousand generations." (Deut. 7:9). Put your trust in God, have confidence and sweet peace will STREAM into your soul. "Trust ye in the Lord forever: for in the Lord Jehovah is everlasting strength." (Isa. 26:4). His strength will make you victorious.

Strict Tests Through Every Process Assure Safety of Salk Polio Vaccine

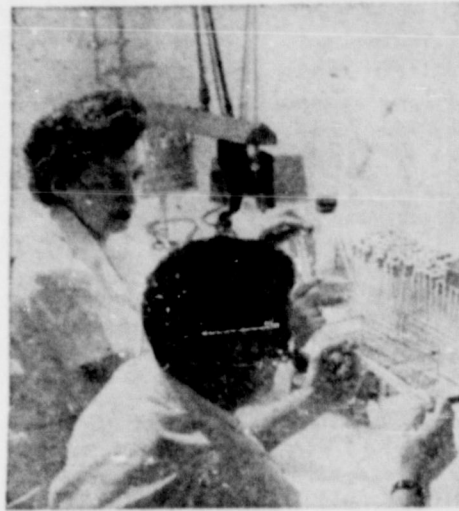

For the first time in history, a vaccine is protecting millions of human beings from paralytic polio. While the Salk vaccine will not work in every case, American children are being safeguarded against the dread disease, with no more risk than they would take in a vaccination against smallpox or a typhoid shot. The Salk vaccine must pass elaborate tests under the watchful eye of a government inspector at every stage of production. Then the final packaged vaccine is approved by the U.S. Public Health Service for distribution. Here are shown a few of the steps that assure American parents their children are being given a safe vaccine.

This technician is filtering dead cells and all other foreign matter from polio virus after it has grown on animal tissue in glass containers.

Virus is "cooked" in tank with formaldehyde (from bottle) until it is rendered harmless, after which it must pass exacting safety tests.

Animal tissue in tubes is inoculated with vaccine and let stand. If any live virus remains, it will multiply here, hence can be detected.

This expert is examining tissue after contact with vaccine, to determine absence of live virus.

It's all over and it didn't hurt a bit! Salk vaccine makes this little girl safer now from paralytic polio. And her parents feel better too.

U. S. FARM EXPORTS UP 7 PERCENT IN LAST YEAR

Exports of United States agricultural products for the year ending June 30 totaled \$3,130,000,000, an increase of 7 percent over the previous year and 11 percent above the 1952-53 total.

The U. S. Department of Agriculture has reported that all major commodity classes showed some improvement but it took a grain buying upswing in June to bring that commodity up to the level of the year before.

Exports registered gains in 1954-55 mainly for vegetable fats and oils and livestock products, but increases also were listed for cotton, tobacco, and fruits and vegetables.

Cited as contributing factors to the increase were improvements in economic conditions abroad and Europe's poor grain harvests in 1954.

Satisfactory levels of gold and dollar accumulations attained during the year also made it possible for some countries to expand their dollar purchases of American farm products. On the other hand, some European countries continue to maintain restrictions against imports from the United States. Exports would probably have increased further had foreign demand been able to fully assert itself.

The large supplies and govern-

ment programs aided the flow of farm products abroad. The most important of these programs were sales for export at competitive prices, sales for foreign currencies, barter agreements, grants to foreign countries for emergency relief and welfare donations in foreign countries.

Cyle Kerbow, student in Harvard University, spent the week end here with Mr. and Mrs. Sam E. Clonts and Mr. and Mrs. Henry L. White.

"Light" Snack For Ducks

Coming back from Balesville the other night I noticed a powerful light at Whitey Fisher's Duck Farm. Seemed to be shining out over the water.

I stopped to ask Whitey what went on. He took me down to his pond and pointed out a 200-watt bulb—rigged up on a pole about three feet above the surface. The light was attracting thousands of insects for the ducks to eat.

Seemed kind of odd to me—but Whitey was enthusiastic. "Best idea I ever heard of," he claims. "Keeps the feed bill down—and

the bug population, too. Why do you suppose I never thought of it before?"

From where I sit, Whitey's the type who's always ready to pioneer a worth-while new trick. Me, I stick to old methods. Just a case of personal feeling, I guess... like the way you may prefer coffee with meals while I always prefer a traditional glass of beer. Not that I'd claim you're wrong—respect for the other man's opinion is my "guiding light."

WORLD NAMED ASSOCIATION
WORLD — Four of the
 the Hereford Feeder
 be held at the market
 September 16 have
 one of them, Kirk

Edwards, of Henrietta in Clay
 County, showed the champion load
 of feeders at the Denver show a
 few years ago.
 Others who have accepted bids
 to judge the show were on hand
 for the first show at the Ft. Worth

market in June, and the speed
 with which these ranchmen sorted
 out the winners is still the talk of
 the cattle trade in Ft. Worth.
 With six divisions, there will be
 six judges. Others already named
 include Jack Idol, bossman of the
 League Ranch in Knox County;
 Ferd Slocum, Cresson rancher;
 and Quincy Corbett, Jr., of Breck-
 enridge, whose father was one of
 Texas' most promising cattlemen.
 Secretary Henry Kider reports
 others who received bids have not
 been heard from, but says that all
 will be ranchmen of long experi-
 ence. Much interest in the show
 and sale is being exhibited by
 cattlemen all over the southwest,
 and many out-of-state consign-
 ments are expected in the show
 and sale.

PUBLIC HOUSING OFFICIALS TO MEET IN FORT WORTH

Housing officials from three states, including J. R. Hitchcock, Executive Director of the Knox City Housing Authority, have been invited to Ft. Worth August 24,

25 and 26 for a special conference on management operations.

The conference is under the auspices of the Fort Worth field office of the Public Housing Administration and is the first of a series designed to keep local housing directors abreast of new developments. Topics to be discussed include accounting, operations, development activities, and public relations, together with a review of the Housing Amendments of 1955.

As executive director of the Knox City Housing Authority, Mr. Hitchcock has the responsibility of managing 32 units of low-rent public housing in Knox City.

METHODIST CHURCH SCHOOL SUPERINTENDENTS TO MEET AT CETA CANYON AUG. 27-28

CANYON. — Northwest Texas Methodist Conference church school superintendents will meet at Ceta Canyon Methodist Encampment near here Saturday noon, Aug. 27, to Sunday noon, Aug. 28.

Program features will include discussion groups on the following subjects: "The Work of the General Church School Superintendent," "The Work of the Assistant Superintendent for Membership Cultivation," "Christian Education Week," "Church School Rally Day," "The Church School Record System," "Leadership, Enlistment and Training" and "The Use of Methodist Church School Literature."

Charles E. Lutrick, conference board of education executive secretary will be in general charge along with a continuing committee composed of Arch Harper of Lubbock, Earl Martin of Colorado City, and Thurman Rives of Wheeler.

Leaders say there will be ample time for discussion groups in which the problems and questions of the men based on their experience and lack of experience will be raised and discussed within the groups. There will also be time for worship and recreation periods. Some of the local church school

superintendents have been asked to present various phases of the work.

JOHNSTON TO GRADUATE
