Fourth Of July Traffic Accidents Will Be Heavy

**MOTORCIDE**

The Texas Department of Public Safety forecast today 26 persons will be killed in traffic accidents this weekend when the Fourth of July holiday creates one of the most deadly three-day driving periods of the year.

Col. Homer Garrison, Jr., Director, issued the grim prediction along with an urgent plea to motorists to "prove we have over-estimated by maintaining unusual alertness to the added dangers of holiday traffic."

He noted that the prediction of 26 traffic fatalities is one more than the 25 victims counted in a similar three-day Fourth of July period last year. The prediction is higher this year, he said, because of a definite upward trend in motorcides.

"Therefore, it can be said that the streets and highways of Texas will be potentially more dangerous during the celebration of Independence Day this year," Garrison said.

The Public Safety Director announced that "Operation Holiday" will be in effect starting at 12:01 A. M. Friday, July 3, until mid night Sunday, July 5. During this period all radar units available will be in operation, and the Highway Patrol force will be expanded by some 125 additional patrolmen from the License and Weight and Motor Vehicle Inspection divisions.

## Rev. Glasscock To Conduct Youth Activity Week

Rev. James A. Glasscock, of Shamrock, will hold a Youth Activity Week at the local First Methodist Church, beginning Monday, July 6, and continuing through July 11.

General topic for the week will be "Finding God Through . . ." In making this announcement, the visiting minister said, "I have found there is a resurgence of vital Christianity in this generation. The people, youth and adult, are really asking some timely questions, which have been before. Because of this searching attitude, I want to share with them this week in which we may come to grips with issues that bear directly on our spiritual growth."
