SWIFT GIN DE-STROYED BY FIRE

UNKNOWN ORIGIN

Monday night about ten thirty o'clock the Swift Gin was destroyed by fire. The origin of the fire was unknown, there not being a fire there for several weeks.

By the time Mr. Swift could reach the scene of the fire, following the alarm, the entire building was in flames and part of the roof falling

The Fire Department answered the call and labored earnestly to subdue the flames. The pipe lines were frozen and it was only after wuch work that they were thawed. After succeeding in getting the water started the pressure was too low for any use. Finding their efforts in this way to be fighting a losing game, the fre boys began work a another angle. Part of the building was torn away, seperating the seed house where the fire started, and the boiler room and engine, which

Although the loss is heavy it would have been much more had the fire boys not worked with a determina-

MINTER TIME

The days were gray and sunless, Out in a lonely pasture.

A amb was too cold to bleat. Six hens were huddled in a corner Of the barn that sat near the

Their craws were thin and most And bodies cold, no doubt,

Trees surrounded the small house

Though cold as it could be. Inside lay a lonely widow

And her children there were three On the outside the house looked

gloomy, But the inside was worse to be-There the widow was most uncon-

scious And the children looked awfully cold.

No bread had graced their table, For days it was plain to see; as the visitor made preparation To give them bread and tea.

The widow looked up most grateful As she opened her eyes and beheld

The visitor in all her kindness That was by her bed with a pill,

Next morning was brighter for the widow;

She was able to sittly the fire And the children were much happier.

So they played with very little tire

The visitor bad done very little, Though the widow and her littie three

Gave thanks to God for sending Them this visitor, bread and tea. The weather grew much warmer;

Mr. Sun came out to see Mahelp had come to the widow And her lonely little three.

The heas began their hustle And what do you suppose they

found As the sun moved the ice from over The grain that was on the ground.

The lamb came up from the pasture And there to it's delight, Were mistreee, children, chickens

With faces smiling bright,

Mr. and Mrs. Ogle Robinson of O'Brien spent Sunday aftencon with Mr. and Mrs. C. H. Keck.

RULE, TEXAS

Have you ever thought of the ridiculously low cost of electrical service?

Listed below are just a few labor-saving and time-saving appliances that can be operated for absurdly small amounts.

or instance, a penny will operate a vacuum cleaner for 54 minutes, a washing machine for 49 minutes, a sewing machine for I hour and 54 minutes or a heating pad for 2 hours and 51 minute. The same penny will cook 6 waffles, toast ten slices of bread or brew 5 cups of coffee!

Nuncrous other appliances can be operated for like amounts. Take full advantage of this economy. There are hundreds of which can be performed more efficiently, more easily, wie ber and cheaper with Electricity.
