## Local Operator Gets In "Mouth Piece"

Sometimes we guess the local operator thinks she must get into the mouth-piece to get some of the numbers that are given her but the time about which we speak, she really did get into the mouth-piece. "The Mouth-Piece," however it is the monthly magazine published by the Telephone Utilities System and Mrs. M. D. Metts was given a nice little space on a prominent page this month. Her subject was "A Cherry Number Please" and following is what she said.

A Cherry Number Please  
When you go out to work each morn  
Are your words kind all the way,  
Or is your mouth looking all firm  
And a cross "Number please" you  
say?  
Do you always register a happy smile  
When a subscriber comes his bill  
to pay.  
And make him feel a telephone's  
worth while  
When he goes away?  
A cherry "Number please" will help  
a heap  
When a big reward you'll feel you've  
reaped  
When he replies "Thank you".  
Kind words help a fellow from the  
ditch  
Which he has fallen in.  
So give your mouth a great big hitch  
And say "Number please" again!  
If Mrs. Metts philosophy were practiced by all telephone users it would doubtless help her and her operators to give that smile and say again "Number Please".

### FRIZZELLS ENTERTAINS WITH HALLOWEEN PARTY

Last Thursday night Mrs. T. P. Frizzell and Mrs. T. P. Frizzell Jr. were joint hostesses entertaining with a Hallowe'en party in the home of Mrs. Frizzell. The guests, 55 in number, all being masked, were greeted at the door by two ghosts, both of whom gave their greetings. One required the guests to shake hands (?) while the other gave instructions for the type of conduct expected during the evening. The guests closely adhered to the instructions and the party was quite "dumb" until a game of 42 was played and the alarm clock sounded.

At this period masks went in every direction and the suppressed laughs that needed so much to be expressed, came forth. The remainder of the evening was spent playing 42 after which refreshments of salad, pickles, hot rolls, coffee and pumpkins were served.

The entire evening was happy and varied sufficient to be thoroughly enjoyed by all.

### NOVEMBER 4 IS ELECTION DAY

Next Tuesday is general election day. Here is hoping the Democrats get control of Congress we have had too much Republican Prosperity. I can't stand much more of it.

There are four amendments for the voter to pass on.

The first says the supreme court "may" sit at any time, not must. They "may" sit now if they only would.

The next would contribute money to West Texas counties tax on the State lands.

The next fixes terms for convening legislature as 90 days instead of 60, with another increasing salary from \$5 to \$10.

Still another authorizing investment of permanent University funds in U. S. bonds, State bonds, county school and municipality bonds.

Tuesday, November 4th is election day.

The Couples Class was delightfully entertained Wednesday night with a Hallowe'en party in the home of Mr. and Mrs. Holt Moseley. Masks were worn. A witch told interesting unique fortunes for the guests after which 42 was played. Refreshments of pumpkin pie topped with whipped cream, coffee and candy were served.

The Missionary Society concluded its study course Monday afternoon. The next meeting will be given to the business end and will be held at the church next Monday.

## Boosting Texas Products

Gov. Dan Moody, guest of honor, and John W. Carpenter, toastmaster are shown arriving at the East Texas Dinner. In their all-Texas-made clothes.

## Why Not Wear More of Our Own Cotton Goods?

"Prosperity" is altogether unbecoming, impolite, ridiculous and infact downright disgraceful for a Jeffersonian Democrat.

Now, don't read this and send this editor silk socks for a birthday present or a Christmas present, for positively we would be ashamed to wear silk socks when cotton socks look better, suit this climate better and indicate a higher degree of practical common sense on part of the wearer to which our cotton may be put.

A large shortage of demand is due in some measure, to the fact that we wear silk when the practical and right thing to do is to wear cotton goods instead.

If this country had a surplus of goat meat and no pork at all and the goat meat was so low in price that we were forced to go on half rations by selling our goat meat to pig pork, when the goat meat is just as wholesome as a goat, would we not be foolish if we refused to consume our own meat product and add to our health and prosperity?

Just so with this foolish silk fad that causes us cotton growers to trade a whole car load of cotton stockings material for a wheel barrow load of silk worm product from Japan and then whine about our poverty while shouting about our pride.

That's just foolish pride. To be certain get more happiness out of foolishness and let all the world know that we are foolish and continue to cultivate a practical program that develops a smile by hiding behind the richest and softest of silks that forms the basis of a whale.

Preparations were being made Tuesday, as we visited the school, to have all the desks varnished. There is lumber on the ground now for the erection of a new coal bin in the very future. The bin will be located west of the building.

The school is equipped with a minute first aid kit which has helped the boys and girls over numerous scrapes and bumps.

On the desk of the principal, Mrs. Branton, are three loving cups won last year by the school. They are for music, memory, girls base ball, and for the best all round rural school. The boys and girls are very proud of these cups and are working this year with hope of receiving them again at the interscholastic meet.

The grounds about the building are well kept at all times. The teachers help the pupils to play as well as to study, by supervising their games.

The Union Grove School, with its two teachers and 36 pupils now attending, is working for even a better school year than that enjoyed last year.
