Otis Harbert to Be Next Lions President

Otis Harbert was nominated for in a report by the nominating For Drought Feed committee at Wednesday's meeting of the club.

Officers will be elected at a meeting in the near future, according to club president G. W. Coats. Others nominated by the committee were Paul Hoge, first vice-president; Otto Lawson, second vice-president; Doyle Graham, third vice-president; Coats, secretary and treasurer; Guy Robinson, Lion tamer; and Martin Smith, Department of Agriculture last tail twister.

Nominated for director for two year terms were Ottis Cash and Paul Fitzgerald. Holdover members of the board of directors are L. W. Graham and W: P. White, and retiring president Coats will

ed and certified by the Knox Coun- be an ex-officio member. Members of the nominating committee were C. H. Keck, J. M. Averitt and Floyd V. Bailey.

The program at the meeting Wednesday was a film on the history of helicopters. The film was shed by Shell Oil Co., accord-

the building into a cafetorium were rejected, as the school board felt the bids were too high. The matter of renovating the building will be taken up again when the building is vacated, it was announced.

Other contracts awarded Tuesnight were awarded for day plumbing and heating, to Rowland Plumbing Co., Vernon, on a bid \$19,200, and for electrical of work to Graham Electric, Knox City, on a bid of \$8,360. Graham

cluding affairs of home, state, nation and the world. Also on the program for the annual meeting are the auditor's report, talks by Mr. Reed, S. J. Reeves, chairman of the board, and Bert Davis, assistant general manager, and election of directors.

Everyone is invited to attend Lubbock by Coach Paul the meeting.

Electric was the only local firm to submit a bid on any of the work

The three winning bids, which totaled \$153,360, were the low bids in their categories. The board received nine bids on general con-struction, nine on plumbing and heating and two on electrical work

The figures on new construction were within one or two cents of the \$10 per sq. ft. figure which the architects had estimated, but all bids on re-working the present high school building were much higher than had been anticipated. School board members were greatly disappointed that the entire program, including the cafetorium, could not be gone into at this time, according to Supt. Chas. E. Silk. The board and the architects felt, however, that it would be inadvisable to reject all bids and call for new bids on the entire program

Present plan of the board is to build the new building, furnish and equip the school, and when the present high school building is vacated, rebuild it as much as available funds will allow, converting it into a cafetorium or a cafeteria.

The new furniture and equipment will be purchased on a competitive bid basis, Mr. Silk said.

Actual construction on the new high school, which will be located east of the present building, will probably start within 20 days, the superintendent said.

A building committee composed of Bobby Burnett, Lloyd Waldrip and Horace Finley, was appointed to work closely with the architects and contractors on problems coming up during construction of the new building. Any major problem, however, will be brought before the entire school board, Mr. Silk said

O'Brien Ladies Plan Pie Supper With New Twist

The O'Brien Woman's Society of Christian Service promises something really different at the "pie supper" to be held tomorrow (Friday) night at the O'Brien school auditorium.

The affair is being held to raise funds for a new piano for the O'Brien Methodist Church.

"Come and bring a needle," sponsors say, "because you'll laugh yourself into stitches!" They report that Olen Dotson of Haskell will serve as auctioneer, and instead of bidding on pies the men will bid on ladies' feet as they appear under the stage curtain. The number of each pair of feet will correspond with a pie. And the owner of the feet will be the winning bidder's partner for the supper.

There'll be extra pies for the "timid men," the ladies add.

After watching the farmers' crease for the past several years, Knox County farmers have little hope that the president's program-if it is passed by congress -will relieve the situation.

Under the farm program as it now stands cotton is being grown under rigid marketing quotas, with allotments totaling 17,391,000 acres. If the support price is 821 percent of parity, as Eisenhower proposed, that would be 28.75 cents a pound, compared to 31.7

cents last year. The president's soil bank program, which was included in the farm bill and which he wants passed as a separate measure, will not mean much to this area, part ly because of the prolonged drought that has held the average peracre yield down. As it now stands, soil bank payments would be based on the average vield of the land that would be put in the plan.

While President Eisenhower's | feel the payments won't be enough

D., and vice president of the Rodeo Cowboys' Association, is one of only three men in rodeo history to win both the bareback and the saddle brone crowns in the same year (1951). His third specialty is bull riding.

The energetic 25-year-old bronc buster recalls a 12-day period last year when he was entered in five rodeos from coast to coast and won championships in four of them

Other big names on the tanbark circuit who will be back again this year are Jim Shoulders of Henryeta, Okla., funner-up for last year's All-Around title; Harry Tompkins, a New Yorker who turned bull rider and was fourth among the world's best all-around performers in 1955; and Todd Whatley of Hugo, Okla., a former world's champion bull rider.

A co-feature of the 11th annual Roundup will be the Livestock Exposition, which features scores of the most talented and sleek quarter horses in the nation. More than 1,000 horses are expected to prance through a twomile-long parade starting at 2 p. m. Monday, May 7, according to John Biggs, general manager of the Roundup. More than 25 Texas and Oklahoma riding clubs are expected

GREETINGS:

STRENOTH IN RESERVE - important words for an important cause at an important time. The national security of the United States of America rests largely on the shoulders of the Armed Forces Reserve. STRENOTH is the key word to our power as a nation. RESERVE is the key word to our military strength.

April 22 to 28 has been designated as Military Reserve Week through-out the nation. It has been endorsed by the President, the Secretary of Defense, the Secretary of the Army and the Army Chief of Staff. Wilitary Reserve Week is being sponsored by the National Security Committee and 19 Constituent Organizations. It is being supported by the National Security Training Commission Security Training Commission.

It is incumbent upon us as Texans to give of our time and our efforts to the wholehearted support of our Reserve Forces. It is our privilage and our duty to honor these — our Military Reserve Forces — whose responsibility it is to defend our State and our nation in the event of an emergency.

NCW, THEREFORE, I, as Governor of Texas, do hereby designate April 22 - 28, 1956, as

MILITARY RESERVE WEEK IN TELAS

Dear Triends

As a part of their work in Humble's Refining Research Laboratory, Humble scientists bombard petroleum hydrocarbons with electrons in a 2-million volt Van de Graaff Accelerator.

But if you ask one of these scientists what he expects to find, he'll answer, who knows!

For this is fundamental research. Results may be quick or they may be a long time developing. Who knows?

Our high school correspondent says that Economics and Geography students are going in for "grass roots" studying.

They're going to charter buses and take off on Operation See-For-Yourself-have a ten-day look at some of the things they've been studying about. As I remember, it was hard to

keep your mind on schoolbooks at this time of year. Today's kids can give in to that old urge to bust out of the classroom-with a clear conscience. Wish they'd take me along.

From where I sit, it does hurt us adults, either, to get and see how the rest of the ca try lives. CHEVROLEI ts Than Am

It's enough to quicken anybody's pulse, the way this powerful new Chevrolet takes to the highway!

When you feel that big bore V8 come alive, and your heart skips a beat, chalk it up to Chevrolet's zestful, let's-go-places spirit, with horsepower ranging up to 225. This is the car, you know, that took top honors in the NASCAR Daytona Beach time trials. Chevy won both the acceleration and flying mile contests for popular-priced cars -and both in record-breaking time! Come on in and hear what your heart has to say about Chevrolet. Why not make it soon?
