He was transferred to Memphis, Texas, in December, 1965, where he worked with the SCS until July, 1966, at which time he was reassigned here as assistant manager. He is a graduate of Oklahoma State University in Stillwater.

The deadline to enter livestock in the annual West Texas Fair to be held in Abilene September 11-16, has been extended to September 1, according to D. R. Derusha, General Superintendent of the Livestock Division.

"We felt that the additional time would provide an opportunity for more exhibitors to enter their animals," Derusha said.

Originally, the cut-off date was August 20, to enter the division.

As of Monday, a total of 136 Herefords, 91 Angus, 31 Jerseys, 53 swine, 171 sheep and 24 goats had been entered in the show.

Lee Smith Area Chairman Of 1967 Cattleman's Round-Up

Lee Smith of Knox City has been appointed area chairman of the 1967 Cattleman's Round-Up for Crippled Children.

The announcement was made by Charlie Morris of Abilene, general chairman of the Round-Up, the chief means of support

for the West Texas Rehabilitation Center. Several persons from this area receive free treatment at the WTRC, which has accepted neither state or federal funds during its nearly 14 years of operation.

The area chairman, supporters of the Round-Up for many years, act as the chief link between the Round-Up and the ranchers in their area.

Throughout the years, the WTRC has received valuable support from generous area ranchers who have cut out ahead or two of cattle — or other livestock — and donated them to the WTRC for sale at the annual Round-Up. This year, the Round-Up will be conducted September 25th at Ranchers and Farmers Livestock Auction in Abilene.

During each of the last two years, the Round-Up has raised nearly \$80,000 toward the Center's annual budget of \$260,000. Other operational funds come from memorial contributions and from various United Funds.

The Center provides free treatment, without regard for race, creed, color or financial circumstance, to more than 1,600 patients from far-flung areas.

"We have the WTRC at our disposal only because we cattlemen care," Morris said in emphasizing the need for an especially good Round-Up this year. "The cattlemen of West Texas haven't let us down yet, and we don't expect them to this year."

Any livestock donated to the Round-Up will be transported free of charge to the Abilene auction site, the chairman added. Anyone wishing to donate livestock to the sale should contact his area chairman or the WTRC in Abilene. Morris said.

Fire Damages Bedroom At Wesley Robbins, House

Members of the Knox City Volunteer Fire Department answered a call Wednesday, August 16, at 3 p.m. to the residence of the Wesley Robbins at 403 East 7th Street and found the back bedroom ablaze. The quick discovery of the fire by Mrs. Robbins, and the fast action of the firemen confined the damage to the one room.

According to Mrs. Robbins, she was in the living room and their three small children, Guy, 4, Mark, 2, and Sharon, 1, were playing in the back yard. She heard a loud report from the back bedroom similar to the backfire of an automobile and on investigating she found smoke inside the evaporative

window air conditioner. She said that she saw no fire so she disconnected the cord and after a few minutes returned to the living room. After several more minutes she walked to the kitchen door to check on the children's play and found the baby bed afire and a box of clothing which was under the bed also on fire. She warned the children not to come near and promptly connected the water hose. She said she could see that she could not control the blaze so she immediately turned in the alarm.

The stucco house is the property of Marvin Goodson, former resident of Knox City.

WHERE THE FIRE STARTED — Shown above is the back bedroom of the Wesley Robbins' residence which was heavily damaged by fire Wednesday afternoon of last week.

Driver's License Law Amended; Effective Date To Be August 28

The Department of Public Safety reminded Texans today that August 28 marks the effective date of several amendments to the drivers license law which are designed to benefit Texas motorists from the standpoint of providing added protection.

The law sets new minimum age limits for acquiring a license, provides for issuing a provisional license to any person

son under the age of 21, and increases the penalties for driving without a license and violations calling for automatic suspension.

It also sets penalties for counterfeiting or forging a license, or for possessing such a license.

The age limits were raised to a minimum of 16 years for obtaining a license when a person has satisfactorily completed an approved driver education course, and to 18 years for persons who have not had such a course.

The minimum age for operating a five-brake horsepower motor scooter was raised to 15 years. A special examination will be required after January 1 for applicants desiring a license to operate a motorcycle which includes an "off-street phase" and an "on-street phase." The applicant must provide the motorcycle and a passenger vehicle and licensed driver to convey the License Examiner during the road test.

Licenses issued to persons under 21 years of age will be stamped "Provisional" and may be suspended if the operator is convicted of two traffic law violations in a twelve-month period. This becomes effective January 1.

Upon conviction of driving without a license, a motorist is subject to a fine of up to \$200 for the first offense and increasingly stiffer penalties for each successive conviction.

Persons convicted of driving while intoxicated (or a similar offense) are subject to a first suspension of twelve months. Any subsequent sus-

What people are saying about . . . **A CLEAN BREAK WITH THE PAST**

"Electric heat keeps mother so comfortable," says Mrs. Earl D. Tracy of Junction, Texas. Mrs. Tracy's mother, who is 90 years old, makes her home with the Tracys. Caring for her in an electric comfort-conditioned home is much easier, Mrs. Tracy says. "As you get along in years, drafts and varying temperatures in the winter time are bad. With electric heat, the room stays the same temperature, and there is no dryness like from other heating. And individual room controls allow each of us to select the temperature we like best."

Mr. Tracy is a rancher, and is well known in and around Junction. The Tracys really live in their home—enjoy it themselves and entertain friends. Mrs. Tracy has cooked electrically for 35 years, and the Tracys have lived in total-electric comfort for two years. The cooling system is ducted-in type, the kitchen total-electric, there is an electric home laundry, water heater and two bath heaters in addition to baseboard heating. The home is of brick construction—6 rooms and two baths—and the average per month cost is only \$26.20. "Electric living is so much less expensive than I ever thought," Mrs. Tracy says.

Why don't you convert to total-electric living and see what you have to say about it?

"Melanie Meddles"

By Melanie Whitley

We owe this weeks column to Paul Hoge. First he showed me where to oil my typewriter; then, just a little while ago I panicked when the ribbon wouldn't move. It seems that some little technician had set my machine to type on carbon.

Relieved and feeling a little stupid, I asked Paul what I would do without his help. "Read the book, I guess," he said.

Last week I bought the kids some new books and then went home to fix lunch. Kim, the oldest one, kept pestering me to read to her. I told her I didn't have time.

"Well," she solved the problem, "take off your watch!"

Incidentally, if anyone tires of reading about children, please notify the editor and your subscription will be cancelled immediately.

Spent the weekend in Oklahoma; we will now have a few words about that state.

Oklahoma City covers an area of 632 square miles - the largest area of any city in the United States. Don drove around it twice while I gritted my teeth.

With the turnpike and freeways the exception, the highways are terrible. Oklahomians acknowledge this fact. One reported that if road work continued at its present rate, the state's highways would be up to the standard accepted condition in just 68 years.

In Pawnee, we visited the state's newest museum, the home of "Pawnee Bill" Lillie, who made his fortune and fame with Buffalo Bill and their Wild West Show.

This \$100,000 mansion was completed in 1910 and its workmanship, western treasures and antiques are hard to believe.

To give you an idea of the elegance, the home contained mahogany woodwork throughout, tooled leather on the walls, ten foot bathroom walls covered with imported French tile

trimmed in 24 carat gold, a cut glass vase valued at \$400, a Navajo rug valued at \$1500, rugs of buffalo, brahma and bear, private guest rooms of Will Rogers and Buffalo Bill, Chinese teak chairs with pearl inlays; in short, a treasure house of the early west.

Over the stairs next to Will Rogers' room hung a painting of two men paddling a canoe. Standing in one spot directly outside the door of his room, you could see the ghost of Will Rogers superimposed over the painting. "Ghost on the Stairway" was the name of the picture.

Pawnee Bill and his wife, May, had no children so they adopted a boy. When he was nine years old, he was playing on the windmill and hanged himself.

Having no heirs, they left their mansion as a museum to the state of Oklahoma.

Boy, you never know what connections can do for you. Jo Ann Oliver has some friends in Pecos who know some twins who were in California during the summer and saw the last two episodes of "The Fugitive."

For one free babysitting or 46 green stamps, Jo Ann will tell you how it ends before Tuesday night.

Grahams Return From Idaho Trip

Mr. and Mrs. Doyle Graham and son, Paul, returned recently from a two-week vacation and family reunion in Coeur d'Alene, Idaho. Mrs. Graham's sister and her family, Mr. and Mrs. John Gipson of Fort Worth accompanied them on the trip. Enroute they visited the Grand Tetons and Yellowstone National Park. In Idaho they visited the Boy Scout International Jamboree at Farragut, where the Doyle Grahams formerly lived.

Two highlights of the trip included the first reunion in twenty years of the five Brevick sisters, Louise Graham being the eldest. The other event was the 50th wedding celebration of Mr. and Mrs. Carl Olson, aunt and uncle of the girls. Relatives gathered from several areas of the country.

Ladies' Golf Group Plans Activities

Members of the Ladies Golf Association met Wednesday, August 16 for regular play and a salad luncheon at the Knox City Country Club.

Results of the recently-completed circle tournament were announced during an afternoon business session by Mrs. Betty Williams, president. Mrs. Odell Harbert was awarded the prize for having the lowest score of 37. Mrs. Billie Jean McAuley was the most improved player, with Mrs. Dorothy Jean Lain as next improved. Mrs. Faye Graham was recognized for her recent hole-in-one.

Thursday, Sept. 21, was set for the date of the annual one-day invitational golf tournament. Mrs. Marion Perdue was appointed tournament chairman with Mrs. June Tankersley as her co-chairman.

Wednesday, Sept. 6, is slated for "Beginners' Day" with play starting at 9 a. m. Ladies who are beginners or who wish to start are especially invited to come and play. Experienced players will be on hand to assist them.

The next luncheon will be Wednesday, Sept. 13. Play will begin at 9 a.m. Club members and friends who are unable to play golf are invited to bring a salad and eat at the Club House at 12:00 noon.

In addition to those mentioned, other members attending the August 16 meeting were Mmes. Dean Johnston, Barbara Howell, Ruby Wilson, Ada Mae Averitt, Ruth Averitt, and Miss Colleen Averitt.

Monday Alarm Is Grass Fire

The Knox City Volunteer Fire Department answered a call about 5 p.m. Monday. According to a report from Richard Poteet, it was a grass fire behind the Doyle Graham residence, and no damage was done.

Area Students Register At CJC

Four area students are among some 200 students who have completed pre-registration procedures at Cisco Junior College for the Fall, 1967-68 semester according to Carroll Scott, Registrar at the College. These include Carl Brock of Knox City, Carol Cox, Billy Duncan, and Terry Hester, all of O'Brien. With approximately five more weeks of registration to go indications are that enrollment will exceed 1100. The college had 900 students in the Fall, 1966-67 second year.

Cisco Junior College is a fully accredited two-year institution with courses leading to degrees in virtually all fields. With some 14 new faculty members, in addition to past staff, the college is prepared to offer the finest in educational facilities and teaching. CJC is also offering terminal programs for those individuals interested in immediate employment. One of the big new features is addition of a new IBM 1401 computer which will enable the college to offer a completely new electronic date processing technology program.

Leland Willis, President of CJC, recently announced plans for the construction of a new \$300,000 Library facility to be built on the campus as soon as present construction of a new Fine Arts Building is completed, and indicated that the college administration is considering plans for new dormitory space. Cisco Junior College is fortunate to be able to announce that presently it has more facilities for resident students than any other junior college in the state, but continued increased enrollment will necessitate even more in the near future, Mr. Willis added.

Pre-registration and counseling will continue until September 11 and 12, the dates for regular registration, with September 27 the deadline for re-

gistration. Two more area students have completed pre-registration procedures at Cisco Junior College for the Fall semester. They are Lewis McPherson, son of Mr. and Mrs. O. L. McPherson, of Knox City and Jim Edd Adkins, son of Mr. and Mrs. E. L. Adkins of O'Brien.

Report Of Lion Club Fines By The Tail Twister

At the Wednesday noon luncheon of the Lions Club, charges were made against the following members by Joe Boone, Tail Twister:

Joe Boone - fined for being late by acting Tail Twister, Lyndol Cypert.

Lyndol Cypert - fined for usurping the authority of the Tail Twister.

Pete Hatfield and H. C. Stone - fined for being late. Stone would not admit it and was fined for lying. Hatfield admitted it and was only fined for being late.

Bill Fletcher - fined for eating dessert with his right hand.

Howard Carleton - fined for overeating.

Ansel Waldrip - hadn't paid a fine in 3 weeks so fined on general principles.

Tail Twister - had to pay a fine for referring to Ansel instead of Lion Ansel.

LeeRoy Baker - circumstantial evidence was found that indicated he had eaten two deserts. He plead guilty without trial and was fined.

Sterling Lewis - fined for looking too pleased with himself. He thought he was going to get by without a fine.

Otto Lawson - fined for lying about being late to the meeting.

John Crowover - claimed he wasn't late but fined anyway as he was probably guilty of some other infraction anyway.

Ottis Cash - contributing factor to the general disorderly conduct and rowdiness of the whole west half of the north table.

Joe Cartmill - fined for depriving the club of his membership dues by leaving town.

Donald Johnson - unfined. He had his Lions Club button on for the first time in 6 weeks.

President J. C. McGee - fined for lack of faith in Tail Twister.

Appointed acting TT before regular TT arrived, at meeting.

L. A. Parker - fined for being too quiet.

Jesse Gilpin - made a speech. Fined because it was too brief.

Jesse Gilpin of the Knox County ASC Office presented to the Lions Club the highlights of the present USDA farm program benefits available through the ASC office. He pointed out that almost 2 1/2 million dollars will be paid to Knox County farmers in 1967 through the cotton and wheat programs. Payments for the feed grain program and A. C. P. payments are in addition to the 2 1/2 million. Now this is a lot of cabbage for Knox County!

IN HOUSTON

Miss Lou Denton and Mrs. Wm. David Denton of Abilene are in Houston visiting with Mr. and Mrs. Burt Denton and David.

Knox County Residents Urged To Get Stickers

Texas motorists will find higher standards will be required in automotive safety inspections starting August 28.

Captain Alan Johnson, in charge of the Texas Department of Public Safety's Motor Vehicle Inspection Service in the northwest Texas area, said the vehicle inspection period starting late this month will continue through the usual deadline, April 15.

Quickest to catch the eye of the Texas motorist will be the new seat belt regulations. Another new provision is the inspection fee itself, raised to a \$1.75 from the previous rate of \$1.00.

The state legislature has ruled that front seat belts must be installed in all vehicles in which seat belt anchorages were a part of the manufacturer's original equipment.

Captain Johnson points out that seat belt anchorages are threaded holes in the vehicle structure suitable for receiving seat belt attachment fittings. "And seat belt anchorages were part of the manufacturer's original equipment on all American made passenger cars beginning with 1962 models," the captain explained.

Seat belts also will be required on foreign made cars in which seat belt anchorages were original equipment. In addition, the new regulation requires that seat belts must be in serviceable condition, that attachment fittings are not damaged or loose, and that seat belt buckles are operative.

The new safety regulations also take in two more new areas - calling for mechanics to inspect steering, wheels and rims.

Safety inspection stickers will not be issued to vehicles with loose steering, in which the steering wheel can be moved more than two inches (measured on the outside rim) with out movement of the front wheels.

Also rejected will be those vehicles in which the steering wheel cannot be turned from full right to full left without jamming, and those in which the power steering fluid is below the recommended level.

In inspecting wheels and rims, mechanics are forbidden to issue safety stickers to vehicles with defective or bent rim flanges; or loose or missing bolts, nuts, or lugs; or rims with defects and cracks that may impair the safe mounting and proper retention of tires.

Captain Johnson urged that residents of Haskell County obtain 1968 safety inspections as soon as possible, since more than 7,900 vehicles must be checked at official inspection stations by the April 15 deadline.

IN HOUSTON

Miss Lou Denton and Mrs. Wm. David Denton of Abilene are in Houston visiting with Mr. and Mrs. Burt Denton and David.

Hunters It's Dove Season September 1

Hunters! It's that time again. Get your guns ready for the opening of the 1967 mourning dove season and be ready to fire that first shot at noon (1 p.m. daylight saving time) Friday, September 1, as that date marks the opening of the mourning dove season in the north zone, which covers about three-fifths of the state.

Hunting seasons will continue through sunset Monday, October 30, with a bag limit of 12 per day and 24 in possession. Shooting hours will be from noon, central standard time, to sunset.

E. A. Walker, director of wildlife services for the Texas Parks and Wildlife Department, said prospects are favorable for substantial numbers as reports indicate a generally good hatch in most areas and that food and water conditions have been adequate, except in a few areas.

Walker cautioned hunters that the usual regulations involving plugged guns to three shots and such, will prevail, and that the south zone will not open until September 23.

The wildlife coordinator said the best time to hunt usually is late afternoon and that grain fields, wild seed areas and the stock tank are favored shooting spots. He advised hunters to obtain land owners permission and to avoid shooting on the highways or from cars.

RETURN FROM TRIP

Mr. and Mrs. Charles Lankford, Mandy and Lydia returned home last weekend after spending the past week in Durango, Colorado, Santa Fe, Taos, Red River and Raton, N. M.
