REBUILDING — This is the way the four business establishments looked Monday. Lowrey's and the Central Cafe, along with Young's Barber Shop will be ready to occupy in another month. At least that is what they hope will happen. Although a roof has been added to the J. T. May Variety, nothing had been decided on the building by press time.

## MOD Drive Being Launched Here

The Knox County March of Dimes campaign got underway Tuesday with a "kick-off luncheon" at Roddy's Cafe. Chairmen and co-chairmen representing the different communities of the county are: Mesdames C. J. Albus and E. F. Albus of Rhineland; E. J. Jones of Truscott; Clelan Russell of Vera; Rosellen Glenn of Benjamin, and Donald Tankersley and Charlie Clarke of Knox City.

Mrs. Billy G. Johnston, county campaign director, reminds everyone that although polio has

almost been conquered through the Salk vaccine, there is still a need for patient aid. The New March of Dimes also is financing research in birth defects and such crippling diseases as rheumatoid arthritis and osteoarthritis.

"Let's help prevent crippling diseases. Say YES to the March

of Dimes," is the slogan for this year's March.

Mrs. Tankersley said containers are now in all stores in Knox City for the MOD.

### MOD Mothers March Will Be Held Tonight

The 1961 March of Dimes Mothers March will be held tonight, Jan. 19, beginning at 7:00 o'clock when the fire siren will sound.

Members and friends of the 1946 Study Club will conduct the march.

Citizens of Knox City are asked to heed the slogan—"Please say yes to the March of Dimes."

### Coach Roberts Wishes School And Coaches Good Luck

In an interview with Coach Norman Roberts Wednesday, the Herald asked the coach if he had made any plans for next year.

"No, we haven't made any definite plans. We have had an offer or two, but it wasn't the part of the state in which we would like to live," he said.

The coach praised the school kids highly and said he had received excellent cooperation during the year.

In another question, "Do you like Knox City, and have you been satisfied here?" The coach said:

"Yes! We all like Knox City. Unfortunately we came here at a bad time, but we have steadily made headway. Now we know all the kids and most of the parents."

Coach Roberts said he thought it would take a couple of years at least to have a really strong ball club. Only a few lettermen will graduate this year, and next year will see the Junior High boys suited out in High School.

In reviewing the past season the Herald reporter said, "Coach, all but a few people here knew that the past year would not be anywhere near the type year we had last season, did you have ideas any different?"

"No, I was told when I came here that practically all the lettermen would be gone. I think a winning team is 90 per cent material and 10 per cent coaching," he said.

Coach Roberts said he hadn't expected to make a big showing in this first year, because too many things had happened.

Coach Ross wished the best of luck to the team and Coaches Darland and Hines.

### Fire Chief Vinita Says "Take Heed" Of Fire Warnings

Fire Chief Johnny Vinita said there were 510 deaths in Texas in 1960 from fires. Those who died in fires by age groups are as follows: Children 14 years of age and under—150 . . . Aged people 60 years and older—170 . . . People between the age of 15 and 60 years, 190.

Other significant statistics are that approximately 30 per cent of the children who died from fire were three years of age or under. Also, approximately 95 per cent of the fire deaths occurred in the home. Fire death reports indicate that an estimated 65 per cent of fire deaths resulted from being trapped in the home. It appears that the number one cause of fire deaths was matches—smoking, smoking in bed and children playing with matches.

The number two cause of fire deaths was from electrical fires, such as improper fusing, overloaded electrical circuits and defective wiring and appliances.

Number three on the report was unprotected open heating units (young and old backing into unprotected heating units), defective stoves and appliances.

The number four cause of fire deaths was the misuse of kerosene and gasoline in starting or quickening fires, the misuse of gasoline as a cleaning fluid in the home and otherwise.

To reduce fires, Vinita said first to keep matches away from small children and to encourage adults to smoke safely—never in bed.

2. Stop misuse of electricity by improper wiring and fusing.

3. Have heating equipment—stoves and furnaces—annually cleaned, inspected and defects repaired, and make sure that all gas heating stoves are properly connected with approved connections.

4. Never allow gasoline, benzene, naphtha or similar volatile flammable liquids in the home for any purpose, and never use gasoline as a cleaning agent.

5. Never allow gasoline or kerosene to be used to start or to quicken a fire.

6. Keep home free of rubbish and unnecessary combustibles.

### Livestock Judging Team Places 4th In District Meet

Knox County Livestock Judging team placed fourth in the district livestock judging contest held at Childress Jan. 14. The team competed for honors in the Green Belt livestock judging contest as well.

The team was composed of Gary Conner, Bill Roberts, and Kenneth Roberts all of the Benjamin 4-H Club. The contest choose the teams that will represent the district in the state contests to be held this summer at A&M College.

Kenneth Roberts had the honor of being the second high individual of the contest. Kenneth scored a total of 301 points out of a possible 350 points.

The Young County team placed first and then was followed by Dickens and Wichita.

### Fat Stock Show To Be Held In Benjamin, Jan. 21

Officers and officials have planned for the annual Knox County livestock show to be held this year in Benjamin on Jan. 21. The show will be held in the grain storage barn south of the post office that is owned by Sam Leaverton.

The number of entries this year is expected to be smaller than usual; however, the quality of the stock will be far above average. Knox County Agent Jack Moore said and the people who attend the show this year will see top animals.

Animals are due in their pens or stalls by 9:30 a.m. and the judging schedule is as follows:

- 1:30—Lambs
- 2:15—Fat Barrows, Gilts, and Boars
- 3:15—Steers
- 3:45—Sulphury

The superintendents and officials for the show this year are: Lee Smith, Alfonse Keuhler, Elmo Todd, Herbert Partridge, Jack Moore, David Boren, Arnold Brown, Kenneth Roberts and Roy Ansley. The show officials have stated that all stock will remain in their stalls until 4 p.m.

Members of the Knox City FFA will enter livestock in all classes except the fat steer class.

Those entering fat lambs are Danny Fisher, Charlie Bateman, Freddy Smith, Bobby Burnett, Danny Jones, Mark Anderson, Richard Averitt and Ray Beason.

Entering in the swine departments are Ronnie White, Don Reeves, Ken Cornett, and Jerry Cornett.

All animals must be in their pens by 9 a.m. and judging will start at 1 p.m.

Prize money and ribbons will be given to the top animals. The public is invited.

Top lambs are also entered in the Abilene and Fort Worth stock shows.

### Grain Sorghum Demonstration Is Planned

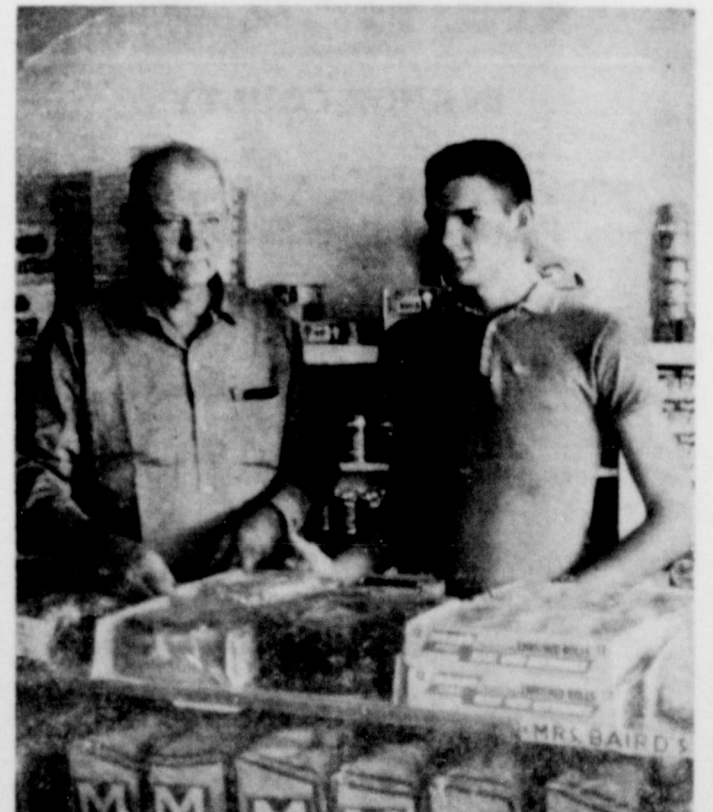

The grain crops committee of the county program committee has met and made plans for several demonstrations to be conducted in the county this next year.

The committee felt that since there would be over 150 certified varieties of sorghum on the market this next year and the possibility that a variety test would greatly benefit the farmers in the communities of even more in 1962, the locations of the demonstrations have not been all secured at the present time.

It is planned that there will be about seven of the grain sorghum plots and two forage plots. The committee felt that since there should be about an acre of each variety in each of the plots, there will be eight varieties in each plot and each variety will be clearly marked so that they can be watched during the growing season.

Commercial varieties as well as Texas varieties will be used in the demonstration. The committee is composed of Arnold Navratil, chairman, and Gaylon Scott, Sam Leaverton, Fuller Shannon, Billy Mitchel, and Lester Hickman, members.

# STATE CAPITAL Highlights AND Sidelights by Vern Sanford TEXAS PRESS ASSOCIATION

AUSTIN — Texas' 57th Legislature began a note that's likely to continue for some time—difficulty over money.

Many House members felt colleagues had made an awkward start in an awkward situation when they voted themselves salary raises as the first item of business. House voted 97-to-45 to put into effect the \$4,800 a

year legislative salaries made possible when the people approved a constitutional amendment last November.

Objectors were quick to point out that (1) the state general revenue fund was at that moment \$85,249,951 in the red and (2) many lawmakers campaigned on an "economy in government" platform.

Rep. Raymond Bartram of New Braunfels said he felt the people would rather legislators take care of teacher salary raises and medical assistance for the aged before spending extra money on themselves.

H. B. 1, the legislative salary and expense bill, would divert some \$2,600,000 from the cigarette tax and drivers license funds—Money had to be "found," since the general revenue fund, as fast as it comes in, has to be used to pay the state's "hot checks."

Down the road are even more fireworks as the legislature searches for \$200,000,000-plus to take care of the wants of other state agencies and services.

TURMAN SPEAKER — Farmers have one of their own in one of the most important of state offices.

Rep. James Turman of Gober was elected Speaker of the House by a vote of 83-to-66. Rep. Wade Spilman of McAllen, whose support was largely from conservative House members, was the losing candidate.

Turman and his family operate

a 103-acre farm in Fannin County. He is a former grade school teacher and worked his way to a doctor of philosophy degree in education. For a time he was assistant to the president of Texas Women's University at Denton.

As Speaker, Turman's first job is appointing House committees, due to go into action about January 23. By his selections, he can influence to a considerable degree how certain legislation will be handled.

SEN. ROBERTS HONORED—Senator Ray Roberts of McKinney is president pro tempore of the Senate for the present session.

His job, largely honorary, is to preside over the Senate in the absence of the lieutenant governor. Also, he is second in line of succession to the governorship. By tradition, during each president pro tem's term, the governor and lieutenant governor leave the state so the senate president can serve as "governor for a day."

Senator Roberts, a World War II Naval hero, is a farmer and realtor.

GRIST FOR THE MILL—Texas Legislative Council, an influential joint House-Senate study group, will offer a mass of proposals for new legislation.

Among recommendations: 1. Some streamlining, but not a wholesale re-writing of the state constitution. This will be a disappointment to groups working for steps toward a new constitutional convention.

2. Limitations on the annexation powers of cities and towns.

3. Increased facilities for juvenile guidance and care, including a home for dependent Negro children, facilities for mentally ill juveniles and regional training centers for delinquent youth.

4. Higher minimum coverage requirements for automobile insurance. Present minimum is \$5,000. A raise to \$10,000 or \$20,000 was suggested.

Another study group, a special Senate committee, recommends removal of some of the restrictions on investment of the permanent school fund. It suggests investments in corporate securities and real estate mortgages, guaranteed by the federal government.

## Uncle Ben from Benjamin says:

DEAR MISTER EDITOR: Seems like I been going to a heap of meetings lately. Friday night I went to a small git-together of the wimmen folk. They was trying to git some kind of neighborhood cannery project started and wanted some advice from the men folks. I didn't offer none on account of knowing any woman smart enough to

ask a man's advice ain't dumb enough to take it. Anyhow, the men couldn't git in a word edge-wise. I was reading in the papers the other day where the average American family consists of 3.7 members. After going to that meeting I found out who the 7 member is. Stay away from these wimmen meetings, Mister Editor, they'll shake your faith in the right of the female to vote.

Saturday night I went up to the country store to find out how things is going on a world-wide basis. When I got there Ed Doolittle was telling about a law they now got in North Carolina where you've got to boil sloop afore you feed it to the hogs. The fellers in general was in favor of this law. Clem Webster said that with a little piece of ham costing 90 cents a pound, nothing was too good fer the hog that produced it. If ham gits back to a dollar a pound, Clem allowed as how he was in favor of giving the hogs a little ice cream fer dessert.

All the fellers was upset about them Congressmen spending tax

requests for senior college status and state support for Pan American College at Edinburg and San Angelo College.

On Del Mar, the Commission will make its negative recommendation to the Legislature which will have the final say. In the past, the Legislature has approved more such requests than the Commission.

NEW STATE BUILDING — Contracts have been awarded for construction of a second new State Office Building just north of the Capitol.

It will be a four-story granite building with 147,205 square feet. Cost is to be \$2,076,102. It will be known as State Office Building No. 2 and will house the Game and Fish Commission, State Board of Plumbing Examiners and some other agencies now scattered over Austin.

This is one of six buildings in the current program to create a unified government center, clustered around the State Capital. Already in use are State Office Building No. 1, the State Courts Building and the Texas Employment Commission Building. Archives Building is to be finished soon, and a new Insurance Building is due to start this year.

DECENTRALIZATION SET—State Game and Fish Commission has voted to set up a system of five regional and 20 district offices to improve operation of its field service.

Reorganization plan was recommended by the Texas Research League, a privately financed organization to study operation of governmental agencies.

Regional offices will be at Seabrook, Rockport, Tyler, San Angelo and Waco.

District offices will be at Amarillo, Beaumont, Bryan, Houston, Victoria, San Antonio, Edinburg, Corpus Christi, Lubbock, El Paso, Wichita Falls, Midland, Fort Worth, Temple, Brownwood, Kerrville, Dallas, Texarkana, Palestine and Lufkin.

money fer liquor and fine hotels while taking their kinfolks on these trips to all parts of the world. Zeke Grubb said he set down the other night to write his Congressman a letter criticizing such things but it took him so long looking up how to spell criticizing that he didn't have no time left to write the letter.

They do some crazy things in Washington, Mister Editor, but I reckon it's good we got such a place. They say the good Lord provided the dog with fleas so's he'd be too worried about being a dog. I reckon the Lord give us Congress to keep us from worrying ourself to death over things closer home. And if a feller goes crazy he can always move to Washington where nobody will notice it.

I closed out my week of meetings by going to preaching Sunday morning. Our preacher said he was putting on a "little collection drive." He got mighty per-

Ozelle Stephens

We must not cease to pray the prayer of faith in these days when men's hearts are filled with fear and doubt. When false teachers are increasing, teaching damnable heresies, even denying the power of Christ, and the holy spirit. They are selling great quantities of merchandise which teach cunningly, devised old fables, doctrines of devils, speaking lies in hypocrisy, forbidding to marry. We must not be dismayed but must turn to Christ and the Word. When you search out the truths of God's Word and believe them in your heart, He will give unto you the spirit of wisdom and revelation in the knowledge of Himself.

The eyes of your understanding being enlightened; that ye might know what is the hope of His calling and what the riches of the glory of His inheritance in the saints. And what is the exceeding greatness of His power to us—who believe, according to the working of His mighty power. Like Peter, we must fix our hearts on Jesus Christ, for when we give our attention to the storms of life we begin to sink.

... AND "LAYS MONEY ON THE TABLE"

Why is our faith backed by dollars?

Very simply, it is because the Southwest is growing 21% faster than the nation, and the WTU service area is the CENTER OF THE SOUTHWEST.

As a result, one of our major projects is designed to stimulate this growth, and another is designed to add service facilities to meet it. These projects are described briefly below. We will keep you informed of their progress as we go along, since they are of vital importance to this community.

It is our conviction that with faith, vision and cooperative effort on the part of all of us, the Center of the Southwest has a sound foundation for GROWTH UNLIMITED in the years ahead.

OUR AREA DEVELOPMENT PROGRAM PROMOTES

## Growth Unlimited

For many years we have been engaged in a program designed to inform business executives about the industrial advantages of the Center of the Southwest.

This activity is being continued in 1961 with an expanded area development program.

It includes a new series of ads running in a number of national publications, which depict the growth potential of this area and the states it serves.

The national advertising schedule, the information brochures we are publishing, the trips we will make to industrial centers, and the fine cooperative spirit of communities like this one, all combine to promote GROWTH UNLIMITED.

\$50 MILLION EXPANSION PREPARES FOR

## Growth Unlimited

On the shores of Oak Creek Lake in Cooke County, construction is progressing rapidly on a large new WTU generating station.

It is tangible evidence of the expansion being made in our generating and distribution facilities, in anticipation of coming growth in the Center of the Southwest.

An area expansion program, costing in excess of \$10 million, is well under way, and will continue through the months ahead. It will permit us to keep pace with the growing needs of this growing area.

It is proof that here is GROWTH UNLIMITED.

## Melanie Meddles

By MELANIE VERHALEN

With a 2-0 district rating the Greyhounds and Houndettes meet Mesargle here Friday night at 7:00. Back the Hounds!

Life begins when parents hold their squalling, red-faced baby. Life is midnight formula, the day their tot takes his first step or says "Mama" or "Dada." It is a child crying in the dark or a mixture of Easter dress with mud pies.

To the child, life means the first day of school, learning to swim, and the Three Stooges. Girls think life is a golden-haired doll or a Christmas pageant. A boy's life is a broken knife or keeping a forbidden snake in his pocket. Life becomes baseball or "plusing" someone. It is roller skates resulting in a brok-

## CHEERFUL HELPERS MEET

The Cheerful Helpers Club of the First Baptist Church elected officers Sunday. They are: President, Twyla Standly; vice president, Tenia Flenniken; secretary-treasurer Libby Michael; assistant secretary, Lenny Meinzer, and reporter, Susan Reeves.

en arm. School is homework and Picture Memory or catching the mumps during State Fair week. Life becomes a banquet, graduation, first high heels, a first date.

Life is learning to water ski or breaking a new tennis racket. Life is Freshman initiation or a hot-rod car. It is walking in the rain with your "steady" or not understanding an algebra problem. Life varies from a noisy band trip to wanting a formal that costs too much. Life is a long mid-term test or a football letter. It is watching American Bandstand, forgetting your lines in the Junior play, or breaking a bus seat on Junior Sneak Day. Dancing is life or trying somebody's tennis shoes laces in knots. It is making an all-tournament team or breaking your foot during Senior year basketball. Life is short skirts and circle pins and an epidemic of bleached hair. It is articles about a trip to New Orleans, banquet speeches, and caps and gowns pasted in a scrapbook.

It is a college scholarship for burning midnight oil and college dances. It is rushing home on weekends or joining a sorority. College life finally becomes a yearbook and a promising career.

Life is love and marriage and having a family of your own. It is a budget that doesn't fit or a television tube that dies. It is losing connections with your old friends and borrowing sugar from new ones. Life is cutting your daughter's "pig-tails" or teaching your son to play poker. It is trying new recipes or being stumped by fifth grade arithmetic. Life is a P.T.A. meeting and being Santa Claus. It is taking your family to church on Sunday or reading a best seller. It is growing old gracefully and proving that an old dog can learn new tricks. It is sending Christmas cards and baby-sitting with the grandchildren. Life is death. For if you have "met these triumphs and disasters just the same," you have only begun to live.

## LETTER TO THE EDITOR

Dear Editor:

Coaches Darland and Hines are coming back to Knox City! I would be the last to deny the value of these two guys, both as coaches and men. However, I wonder if we have done the right thing by offering them their old posts at Knox City High School.

No one blamed them last summer for going to Quanah and advancing in position and salary. We know how they hated to leave, but when they left, we were placed in a predicament.

Coaches Roberts and Ross had a tough assignment in trying to shape up a winning football team in less than two weeks—in a football-minded town. The Greyhounds, with only a few returning lettermen, were naturally disappointed and let down at having lost their mainspring—their friends, the coaches. It takes time for boys and coaches to become a unit—there were more than an average amount of injuries—these made an unsuccessful football season.

Already in basketball our coaches have proved their worth. The Houndettes went into district play with a 15-5 record and the Hounds held a 12-7.

Knox City with its 2100 friendly people has become a home to these four coaches and their families. The high school kids are confused between gladness to have Hines and Darland return and regret that Roberts and Ross will leave. But I think I can speak for the majority of the high school body in saying that the new coaches deserved a fairer deal.

## "Think And Save"

By Miss S. C. Kinsey,

CLOTHING SALES MAY PRESENT GOOD BUYS . . .

Sales of winter fabrics, winter dresses, suits and coats will be tempting during the next few weeks. Before you buy certain fabrics or other clothing items on sale or otherwise, consider these points:

1. Keep your total wardrobe in mind. Buy only those items that fit in with your budget, color plan, accessories and activities.

2. Consider lines, color and texture of the garment. Are they likely to look wrong next season?

3. Look at the label carefully. Get as much information as possible on care and cleaning required.

4. Will the dress or fabric purchased require you to buy accessories to go with it, or will the color blend with things you already have and still do a good job of accessorizing the new costume?
