Annual Barbecue At League Ranch Draws Large, Hungry Crowd

The Annual Tenant Barbecue at the League Ranch was held there at noon Friday, March 17, with a record crowd in attendance. Representatives from Knox City, Seymour, Munday, Goree and Truscott, as well as the entire territory were among those present.

Knox City was represented by B. B. Campbell, E. O. Jamison, E. R. Carpenter, O. L. Jamison and Roy Smith.

It was a gala day for everyone concerned with plenty of good eats and fine weather to celebrate this annual event.

Jack Idol, manager of the ranch, served as master of ceremonies and saw that everyone had plenty to eat and had a good time. When the barbecue and a l l the trimmings were ready, Mr. Idol brought the crowd to attention and following t h e invocation, the folks lined up i n four lines leading by the tables laden with piles of barbecued b e e f, bread, pickles, beans, gravy, soft drinks and pots of fine hot western coffee.

The feast lasted about an hour in which friends met, talked and enjoyed a very sociable time.

Mr. Idol again called the crowd together and told of the twenty boys from the families on the League ranch that are i n the service of Uncle Sam. He then presented Wateras S. Davis who with his sister, Mrs. Catherine Ganss, are owners of the ranch. Mrs. Davis was also presented and i n her remarks she stated that she hoped the tenants on the place were as favorably impressed with her as she was with them o n their short b u t pleasant acquaintance.

Mr. Idol read a letter just received from Mrs. Gausz expressing her regrets that she could not be present since she was i n Connecticut with her husband who is sailing shortly f o r duty overseas.

Stanley Glover, 4-H club boy who showed the Grand Champion calf at the Wichita Falls Calf Show, was then introduced and responded with a few well-chosen remarks. Carrol Glover, brother to Stanley, was runner-up i n the show. The League Ranch bred the championship stock that the boys exhibited and have always been a strong influence i n this part of the state for fine bred cattle.

About 3.00 o'clock the crowd began dispersing after expressing their appreciation of the fine event to Mr. Idol, Mrs. and Mrs. Davis and the residents of the ranch.

Lions Hear Rochester Pastor At Luncheon

Rev. J. M. Lunsford, pastor of the Rochester Baptist Church was the noon speaker at the weekly luncheon of the Knox City Lions Club. Rev. Several visitors were introduced at the meeting. As a part of the program the members were privileged to inspect three head of fine Shorthorn cattle that had been bought by S. N. Reed and Guy Steen. Judging honors were still at a draw at the last report.

Death i n the form of a flaming inferno struck twice i n one quick blow last Saturday night when two small children, Delwin Ray and Betty Ann Robertson, age 5 and 3, perished i n a fire that destroyed their farm home three miles northwest of Knox City.

The children were the son and daughter of Mr. and Mrs. Elton Robertson, residing on the Abe Watson farm where they had lived for the past year.

The flames quickly enveloped the house and destroyed it. The two children were i n the room at the time of the explosion and were apparently covered by the flaming kerosene.

Unable to get the children out of the burning house, Robertson dashed outside and attempted to extinguish his flaming clothing by rolling o n the ground. His efforts to re-enter the house were unsuccessful.

Mrs. Robertson was holding their baby, Doris Jean, one year old, and carried her from the room. Mrs. Robertson suffered burns on her hands i n trying to extinguish the flames on her husband.

Suffering painful burns, Robertson was forced to drive the family car the three miles to Knox City to summon aid. Mrs. Robertson had never learned to drive.

According to late reports from the Knox County Hospital, Robertson is still i n a critical condition but attending physicians say he is likely to recover.

What Do I Do When I Go To Church?

Under the title of "The Front of Human Decency", former President Hoover has a challenging article i n the April issue o f Woman's Home Companion. If I were acting as critic, which I am not, there is only one bit of criticism I would make of it and that is that appearing i n a Woman's magazine and appealing to the women of America i n the article, the impression might be left, which is already too prevalent i n America, that the business of decency, morality and the maintaining o f t h e Churches is a woman's business. As a matter of fact if the men of America, and I do mean MEN, do not maintain decency, morality and more especially the church, then there is no hope for either.

In answering the above question, "What do I do when I go to church?" I would say first and foremost that I give public demonstration to the

Boyce House Makes Record Number Talks

Public speakers in Texas were given a mark to shoot at when Boyce House, "I Give You Texas" columnist and author of the best-selling book by the same title, delivered his ninety-fourth speech in two months, a few days ago. He addressed service clubs, conventions, high schools and colleges—most of the addresses being in his capacity of "good will ambassador" for the Southwestern Exposition & Fat Stock Show in Fort Worth, which just concluded one of the most successful runs in its history.

In making 94 speeches in 60 days, House twice spoke five times in a single day.

Two years ago, House was a strong candidate for Lieutenant Governor of Texas and his name has been frequently mentioned as a likely candidate for that office again this year.

THE AVERAGE AMERICAN FAMILY

Includes 3 1/2 persons

owns 3/5 of a bathtub

owns 1/2 of a house

listens to 9/10 of a radio

1929

1944

AND gets about twice as much electricity for its money as it did 15 years ago!

The envy of the world today is the average American family. That family has the world's highest standard of living. Statistically speaking, that average American family is composed of three and four-fifths persons. It uses three-fifths of a bathtub and owns one-half of a house, listens to nine-tenths of a radio, and gets about twice as much electricity for its money as it did 15 years ago.

Obviously, three-fifths of a bathtub wouldn't hold water very well! That is just another way of saying that three out of five American homes have bathtubs. The figure about electricity applies only to homes that have electric service (four out of five). But as an average of all these homes, it is a fact.

Most families own more electric appliances now than they did in 1929. Over the years as they used more electricity the cost per unit used, was steadily reduced. So—though your total bill today may be as much as it was in 1929—yet you are getting twice as much electricity for your money.

The cost of electricity has not only been steadily reduced but it has stayed down while most other prices are going up. Today, electricity is just about the biggest bargain in your war-time budget! For this you can credit your electric service company, manned and managed by practical business people. Their hard work has made electric service dependable and cheap.

WHAT DO I DO WHEN I GO TO CHURCH?

(Continued from front page)

fact that I believe in God. So strongly do I believe this that I say without fear of logical contradiction that any one who habitually stays away from church when it is possible for them to go does not believe in God. Their assertions to the contrary will not stand the test of common sense.

In the second place, when I go to church I strengthen my own will to stand up for and do battle for the common decencies and moralities which Mr. Hoover was talking about. The weakness of compromise is a constant companion of us all. Without the strength which can come alone from communion with God and the fellowship of fellow Christians, I am apt to dismiss as "not my affair" the violations of the moral order which is so insistent upon "its rights" during days of stress and strain as that through which we are now passing.

In the third place, I go to church because the church represents the highest there is in human thinking. It has always been the bulwark of freedom and in every country when a dictator wishes to arise he first challenges the authority of the church and seeks to put a muzzle on its spokesmen. Where there is a wide spread of disregard for the church as there is in America today, this task of the dictator is made easy by public apathy and indifference.

Mr. Hoover very correctly says that "The front of religious faith is the greatest safeguard of a civilization." Then he asks significantly, "Are we upholding our agencies of religious faith?" The church is the ONLY 'agency' of religious faith, and so another thing which I do when I go to church is to 'uphold' that agency.

During World War I, the church grew stronger; she prayed daily; she was responsible for public seasons of prayer, yet in spite of that there was a wave of indecency, immorality and lawlessness which swept over the land at the close of the war such as America had never had before. Today because our men have very largely deserted the church, the church is not exercising this influence to anything like the extent it did then. If there was a wave of immorality following World War I, in spite of all the church could do, what will be the condition following this war when the church is failing to exercise such an influence?

ONLY the church has the answer to a crumbling civilization. ONLY the men of the church can maintain the kind of a church which will apply that answer. If the church is a 'sissy' institution, suitable only for women and children, then the common decencies are effeminate and the strength of a nation is in its immorality.

Only a belief in God that dares to stand openly and publicly for Him through the church, will give the lie to this doctrine of effeminacy.

C. H. Williams.
