To The Voters of Knox Co.

As the campaign comes to a close permit me to extend to the citizens of Knox county my sincere thanks for the treatment and consideration you have shown me, and even though I should be unsuccessful in my race for County Superintendent, I shall always feel that my efforts have not been mis-spent, for I have learned to know the people better and have enjoyed my association with them, and shall ever feel grateful for the numerous courtesies extended.

During the campaign I have endeavored to conduct my candidacy on a high plane. I feel that I am particularly well qualified to render efficient service in enlarging the scope of usefulness of the rural schools of Knox county since in addition to taking my Bachelor of Arts degree from the University of Texas, I also specialized in Business Administration and for some years have been associated with the Department of Education at Austin, hence I feel that I am in position to know their requirements and can administer the school affairs of the county in such a manner as to reflect credit upon the citizenship of the county.

In conclusion permit me to say that I will greatly appreciate your vote in Saturday's primary, and should you see fit to honor me with this responsible position I shall strive diligently to merit your confidence and it shall be my constant aim to exert every effort to the end that every child in Knox county might have educational advantages second to none, and I respectfully solicit your vote and influence.

Respectfully submitted,
J. LYNDALE HUGHES

—Many of these dismissals represent these following convictions on one of the several counts.

One man had four counts for burglary; he was given life on one count and three cases were dismissed. It would have averaged the State between six and seven hundred dollars apiece to prosecute the other three. Burglary and forgery make up these dismissals after conviction on one count.

The exceptional popularity which Chevrolet has enjoyed for many years has naturally had its effect on Chevrolet prices. Large sales have enabled Chevrolet to maintain consistently low purchase prices, which were recently lowered even further. As a result, Chevrolet now offers you the lowest priced six-cylinder automobile obtainable—a big, comfortable car with Fisher Body styling and equipment—safe, weatherproof, cable-controlled brakes—the smoothness and economy of a valve-in-head, six-cylinder engine—and typical Chevrolet dependability. In offering this car, and the Master models, at substantially lower prices, Chevrolet hopes to repay the motoring public in full measure, for consistently placing Chevrolet so high in public esteem.

Citizens of Sunset Community

As a token of appreciation for the man who has endeared himself to the hearts of the pupils and patrons alike in the Sunset School District, we, his friends in this district, offer the following appraisal of the man:

- First we believe him to be qualified, because
- he has shown exceptional ability as a teacher in our school and has demonstrated a capacity for organization and administration;
 - he knows the needs of rural and village school children because he received his public school education in these schools;
 - he is a student of school problems;
 - he has the foundation in a Bachelor of Arts degree which will enable him to develop as he works;
 - and finally, we believe in his ability as a bookkeeper and business manager for the schools of the County. He is a qualified teacher in our school, and we consider him qualified to carry on one of the most important functions of the County Superintendent.
- Second, we would add to our appraisal of the qualifications of the man, our belief in
- his sincerity
 - his integrity
 - his Christian character

PROMINENT BUSINESS MAN MAKES STATEMENT

(COPY OF AFFIDAVIT)

STATE OF TEXAS
COUNTY OF WICHITA

Before me, the undersigned authority, on this day personally appeared M. A. Marcus, who after being by me first duly sworn deposes and says:

My name is M. A. Marcus. I live in Wichita Falls, Texas at 1891 McGregor street and have been a resident of Wichita Falls and Wichita county for about 50 years.

After I.C. beer was legalized in the state of Oklahoma and before it was legalized in Texas, I opened a place for wholesale distribution of beer at the Oklahoma side of the free bridge North of Burkburnett. Associated with me was a man named J. T. Day who operated as a retail dispenser of beer. The whole establishment was in my charge although the retail license was issued to Mr. Day. I did not at any time give him any orders to give away any beer to Sam B. Spence or any other person and any statement that he had orders from 'headquarters' to let him (Spence) have all he wanted to drink and all he wanted to take away with him is untrue. No such orders or any that could be so construed were ever issued by me or any one that had such authority.

Signed: M. A. MARCUS

Subscribed and sworn to before me this the 21st day of August, A. D. 1934.

Signed: T. W. McHAM

(Seal) Notary Public in and for Wichita County, Texas.

"No other electric refrigerator has the Super Freezer... that's why Ours is a Frigidaire '34"

Frigidaire's Super Freezer has a combination of three major features.

- It has automatic ice tray release... the trays slide out of the freezer at a finger touch!
- It turns itself on—automatically—when defrosting is completed!
- And the freezer is located in the center, instead of off to one side. This feature not only provides room on both sides of the freezing unit for tall bottles, but also helps keep the entire food compartment uniformly cold! See the Frigidaire '34 at our showroom. Come in today.

Do you know that your increased use of Electric Service is billed on a surprise regular low rate schedule... and adds only a small amount to your total bill?

West Texas Utilities Company

Never has safe Home Refrigeration cost so little!

with **ELECTROLUX**, of course...

Owners write to tell us how amazed they are to find how very little gas it takes to operate Electrolux. Many report little difference in gas bills.

Because this is a saving that goes on day after day and year after year we believe you'll be much more pleased with a gas refrigerator than any other type. You will find that it makes no noise—operates constantly to maintain a uniform, steady cold—and is trouble-free, for parts that do not move cannot wear and cause trouble.

It is these fundamental advantages which have swung housewives in all parts of the Southwest to gas refrigeration to reduce the cost of safe food protection in thousands of homes. See Electrolux, the gas refrigerator, today!

You'll Save on a FORD V-8 from the day you buy

LOW FIRST COST!
\$505 and up, F.O.B. Detroit. Ford V-8 prices are at their 1934 low.

LOW UPKEEP COST!
The new Ford V-8 is the most economical car to run that Ford has ever built.

HIGH TURN-IN VALUE!
Year after year the record shows that Ford cars retain an unusually great per cent of their original value.

THE Ford V-8 would be a great buy even at a much higher price. It's the only V-8 selling for less than \$2500. Ford alone has been able to put a V-8 engine in a low price car.

The first cost of a Ford V-8 is decidedly low. But that saving is only the beginning... Ford V-8 valves seldom need grinding. Carbon removal is virtually eliminated. The new Ford V-8 consumes less gasoline and oil the year's economical Ford. Ford V-8 parts cost very little.

In addition, on that day your Ford V-8 can honorably retire, find that it has a high value. The record of Authorized Ford Dealers in the Southwest shows that the Ford V-8 is a great buy.
