LICK FOR MONTHS**

**Petersburg Resident Says She Had
About Lost Hope of Getting Bet-
ter—Now Well and Happy.**

"Tanlac has been such a blessing to me I can't help singing its praises," said Mrs. T. J. Archer, highly esteemed resident of 1147 Shepard St., Petersburg, Va.

"I had indigestion so bad I couldn't eat a thing without being in misery for hours, and the pain around my heart caused by the gas seemed all I could stand. I constantly had headaches and awful spells of dizziness. Then to make matters worse rheumatism in my arms, shoulders and knees almost drove me to distraction, and for three months I couldn't do a stroke of work."

"I had just about decided it was no use to take any more medicine when my husband brought me a bottle of Tanlac. Now I never have a touch of indigestion. Headaches and dizzy spells are a thing of the past, and rheumatism has left me entirely. I never have known a medicine to equal Tanlac."

Tanlac is sold by all good druggists.

Tomorrow is the first day in the foot's calendar.

GIRLS TAKE HOME ECONOMICS

**Number in Southern States Attending
School on Scholarships Won Is
Placed at 1,056—Alabama
Women Assisting.**

(Prepared by the United States Department
of Agriculture.)

In 15 southern states 2,042 boys' and girls' club members last year paid all or part of their school expenses from money earned in club work. In other sections 1,344 former club members are now attending agricultural colleges, most of whom are partly paying their expenses from club-work earnings. This does not include 465 girls taking home economics in various colleges. The number of boys and girls in all the states attending high schools, normal schools, and colleges on scholarships won for club work is 1,056. These clubs are an important feature of extension work carried on by the United States Department of Agriculture co-operating with the state agricultural colleges.

Begun Work Early.

These boys and girls did not wait until ready to go to high school or college before starting their club work and savings. Some began two, three, or more years before, or, as one boy said, as soon as he could, meaning 10 years—the youngest age at which children are admitted to the clubs. Two girls of Mobile, Ala., with a flock of chickens, began their savings three years ago. In Georgia a number of club girls have started "go-to-college funds." They put the money realized from the sale of their club products, which are mostly fancy packs of preserves, jams, and marmalades, in the

**A Pig Club Boy Preparing His Prize
Winner for the Show Ring.**

bank to their own credit. Thus far 200 Georgia girls are attending school on the proceeds from their work.

Scholarship is Voted.

Another development from the interest shown in education by the club girls is that in Birmingham, Ala., the members of women's clubs became so much interested that they voted an annual scholarship of \$200 to be lent to girls wishing to prepare for home demonstration work.

Two Possible Profits.

started and hence when there is danger of injuring the foliage. The common spray for the control of chewing insects is arsenate of lead, but arsenate of calcium is gaining in favor. Paris green is still used to some extent on Irish potatoes and tobacco. Leadline sulphate, or tobacco Paris, sometimes called blackleaf, is effective against plant lice. Bordeaux mixture also sprays when reduced to strength for apples, pears, and other fruits. Various combinations for various insect pests are available and are practical or

**ALL MILK CANS
AS SOON AS EMPTY**

**Use Appliances
for Cleaning Utensils.**

**Hotels, Restaurants and Others Buy-
ing Milk in Wholesale Quantities
Are Particular in Giving At-
tention to Containers.**

(Prepared by the United States Department
of Agriculture.)

The milk can has the same relation to the wholesale trade as the milk bottle has to the retail trade, and it is just as important that it be washed immediately after being emptied, says the United States Department of Agriculture. Milk dealers have appli-

**Sterilizing Dairy Utensils is an Im-
portant Factor in Keeping Milk
Sweet.**

ances for washing and sterilizing the cans, but this does not excuse the buyer from rinsing them before they become sour as a result of the multiplication of bacteria in the film of milk left in the can. Cans that become foul in this way are hard to clean when they arrive at the plant.

Investigations show that hotels, restaurants, bakeries and other places which buy milk in wholesale quantities do not always give proper attention to the containers. As soon as the cans are emptied they are placed on the doorstep or left in a warm room until collected by the dealer. They return to the plant teeming with bacteria, and the mechanical washers will not always clean and sterilize them thoroughly. They must be washed by hand with a brush, and then sent to the machine washer.

Consumers can help a great deal in making it easier to maintain a safe milk supply. All that is needed is a little care at the right time, says the department.

SOY BEANS AND SUDAN GRASS

**Combination Makes Good Feed and
May Be Handled Like Timothy
Work Land Well.**

Soy beans and sudan grass seeded together at corn planting time and cut for hay when the beans are in the dough stage make good feed, and may be handled same as timothy. Moist black land is suitable for this use, and some of the alkali peat soils may be used to advantage for this crop mixture. Work the land down well, and sow broadcast about 12 pounds of sudan grass to the acre, then drill in three pecks an acre of beans. The drilling will cover the grass seed. Mammoth Yellow or Hollyrock Mongli are good soys.

**Important to all Women
Readers of this Paper**

Thousands upon thousands of women have kidney or bladder trouble and never suspect it. Women's complaints often prove to be nothing else but kidney trouble, or the result of kidney or bladder disease. If the kidneys are not in a healthy condition, they may cause the other organs to become diseased.

You may suffer pain in the back, headache and loss of ambition. Poor health makes you nervous, irritable and may be depondent; it makes any one so. But hundreds of women claim that Dr. Kilmer's Swamp-Root, by restoring health to the kidneys, proved to be just the remedy needed to overcome such conditions.

Many send for a sample bottle to see what Swamp-Root, the great kidney, liver and bladder medicine, will do for them. By enclosing ten cents to Dr. Kilmer & Co., Binghamton, N. Y., you may receive sample size bottle by Parcel Post. You can purchase medium and large size bottles at all drug stores.—Advertisement.

Perhaps, maybe the reason so many women insist upon eating things that disagree with them is because they are an argument.

 The state fire insurance commission has awarded the good fire record maximum credit of 15 per cent off the final rate to two additional towns, Gainesville and Menard, with three-year loss ratios of 240 and 373, respectively.
 The jasmine shipping season is over for Alvin, Texas. During that period, it is estimated, the crop this season netted the growers and shippers around \$80,000. Jasmine growing is one among Alvin's big industries and rarely ever falls as a money producer.
 Postoffice receipts in Houston, Texas, for May, 1922, increased 11.84 per cent over those for May, 1921, according to figures issued by Acting Postmaster General Bartlett at Washington. Postal receipts last month totaled \$113,591.83 in Houston. Last May's total was \$101,565.34.
 Generally over West Texas sentiment is strongly in favor of good roads, and the roads that have been constructed are in fairly good condition. Captain J. D. Fauntleroy, state highway engineer, said upon his return to Austin after a trip of two weeks through the western part of the state.
 With a cabbage crop more than double that of last season, Texas leads all states in the union in the production of cabbage, with a total of 3623 carlot shipments up to May 27, according to data compiled by E. M. Johnson of the federal bureau of statistics, Houston. The crop last year amounted to 1670 carlot shipments.
 A new high record for recent years in the number of state convicts on hand was set up Saturday when the prison commission reported a total of 3,524 convicts on hand. There were 2,500 in the penitentiary on January 21, 1921. The number has increased over 1,000. At one time, some years ago, there were 4,999 incarcerated.
 The boys and girls in the Paris schools saved during the year just closed, through a system of saving operating in each of the wards through the Lamar State Bank, the sum of \$2,555.10. The savings by wards were: First ward, \$278.70; Second ward, \$182.10; Third ward, \$643.35; Fourth ward, \$1,213.95; Fifth ward, \$192.30; Sixth ward, \$43.
 With the largest sweet potato crop in five years, Texas ranks fourth among the states producing sweet potatoes. Virginia leads with 4,774 carloads shipped this season, and New Jersey and Delaware hold second and third place. A record movement of 1,220 carloads shipped up to May, 1922, is shown by figures given by E. M. Johnson of the federal bureau of statistics.

SEEM TO PROVE CONNECTION WOMAN HAS HISTORIC PEN

Stone Implements Found in Chile and in South Dakota Found to Be Identical.

Scientists are given something to ponder over by the assertion of Richard Franklin Pettigrew of Sioux Falls, S. D., former United States senator, upon his return to the city from a four-month trip along the west coast of South America, that stone implements representing the stone age in Chile are exactly like a number of stone hatchets, axes and other implements recently found in the hills along the Split Rock and Big Sioux rivers, ten or fifteen miles east of Sioux Falls.

Pettigrew states that a doctor who is studying prehistoric man at Santiago, Chile, gave the implements to him. "I was intensely interested in the resemblance," said Pettigrew. "Although I do not pretend to account for it. The United States ambassador sent them to the United States for me and I found them on my return to Washington."

Long Memory.
 "I hear Sam Pruittfoot is down with rheumatism," remarked Squire Withersbee.

"Serves him right," snapped Deacon Benders.

"What have you got against him?"

"I've got a lot against him. He died me in a boss fight some thirty years ago."—Herald.

One of the hardest things in the world to do is nothing.

Pay your debts first and give presents afterward.

Used by President Harrison When He Signed the Present American Copyright Bill.

The recent celebration by the League of American Pen Women of their twenty-fifth anniversary, or "silver jubilee," makes this story timely.

During the administration of Benjamin Harrison, the present American copyright bill was passed. William McKinley, then a member of the house of representatives, offered the bill, the date for which was supplied by Margaret Sullivan Burke, newspaper correspondent, and afterward first president of the League of American Pen Women. She gave this league its first name and its name.

Afterward, when President Harrison signed this bill, the pen with which he signed it was presented to Mrs. Burke by Elijah Halford, his private secretary, and one of her old Indiana friends. This pen is now in the possession of her daughter, Hills Burke.

His Attitude.
 "You don't believe in spirits?"

"Not the kind I read about," said Mr. Grumpson. "I don't take any stock in that rapping, the rattling of tambourines, and mysterious voices in a darkened room."

"What have you got against spirits?"

"I've got a lot against them. They died me in a boss fight some thirty years ago."—Herald.

After hearing a ghost, the listener is apt to wonder its name.

A pound of care will not pay a pound of debt.

Grape Nuts

Here's a real treasure from Nature's storehouse

GOOD old Mother Nature has placed in wheat and barley the wonderful food properties which build and sustain life and health.

Many so-called "refined" foods are robbed of vital elements which the body needs.

Grape-Nuts—that famous wheat and barley food—brings you all the natural goodness of the grains in perfected form, with crispness and flavor that charm the appetite.

You will find Grape-Nuts an ideal dish for breakfast or supper-time. Ready to serve from the package, with cream or good milk.

Order Grape-Nuts from your grocer today.

WILL THEY DO?

Texas, June 13.—The name of James B. Ferguson will go on the Democratic primary ticket as a candidate for the United States Senate, it was announced by the action of the Executive Committee here today. Ferguson, who will be elected for himself, under the provisions of the pledge. Nor can he be elected by the party and will follow Ferguson and McGee out of the party two years ago and will then political idol of the people. Ferguson's last night in place of the pledge is the most drastic and history of the Democratic party in Texas, and according to the constitution, the most ever written to govern a state, and taking the name of Marshall Hicks of the community, represented in the Senate, who sat in the

the ticket as a "legal right." Ferguson and his friends today construe the pledge to "rob us of the right of franchise because, with the American party disbanded and with the doors of the House of our Fathers closed by this ridiculous pledge, if it is to be generally regarded, there is nowhere for us to go.—News Item.

Perhaps about the best thing to do would be to "go away back and sit down."

Pushing or Riding,

Which are you doing? A community is judged by the people within it. Everyone who lives in this town, makes a living off of it or out of it, educates his children in it and gets all he possibly can out of it, owes it a debt of loyalty and appreciation that can only be absorbed by returning something to it.

Our town depends upon its farmers, our farmers depend upon the town for without the town, values of the land would slump tremendously. Only with co-operation from both the town and the farming community around it can we hope to progress and develop as we should.

Let's push together, boost together, get together. Let people know you are back of the community in which you live. Make your "pushing" felt. Don't be content to just "ride" on the momentum that others have given.

Don't wait to be approached on community betterment. Start something yourself. There is plenty to be done right now. Be a leader and see how quickly your friends and neighbors will follow you.

So put your shoulder to the wheel. Push for your community. Be loyal to our home merchants and farmers, to our schools and churches.—Copied from the Burroughs Clearing House.

A new \$12,000 brick school building is in course of construction at Chillicothe. \$10,000 bonds have been voted for a new brick school building at Hadley and we are informed that Vera is seriously considering a bond issue for a brick school building. You can't keep a live community down—and there are live ones in Knox County as well as elsewhere.

Prospects for good crops as good as ever seen in this vicinity, so we are told by the pioneer citizens of the community, and from reports that come to us from all over the state, there are no better prospects anywhere in the state than we have right around Knox City.

The old school closed a successful term yesterday, an appropriate program being rendered on the occasion. We would be glad to receive a write up of such an event from any of the surrounding communities. We would also appreciate it if someone could assume the role of writer connected from this community, as well as other communities in this section. We would be glad to have every school in the community represented in our columns with news.

Mrs. John Wilson. The ho was decorated in yellow and flower and hand painted sunflower tallies were passed. The guests arrived they were served punch by Mrs. Thelma Smith and Miss Sadie Sue Hardberger. Forty two was enjoyed for an hour after which a salad plate was passed to members and visitors. Club visitors were Mrs. Ed Humphries, Mrs. Frank Humphries, and Mrs. Sanders. The club will meet the 23rd with Mrs. Earl Benedict.

W. W. Frazier of Vera was here Monday. Mr. Frazier was formerly employed in the City Barber Shop in Knox City, by W. W. McCarty, but now owns a barber shop in Vera. He reports crops looking good in his community. He says there is not a great deal of wheat in that vicinity this year, but what there is looking good at this time.

W. M. Lackey, the father of our fellow townsman, E. A. Lackey, came in from Commerce last week for a few days visit with his son. Mr. Lackey was 98 years of age last December. He is a Confederate Veteran and is known and loved by the Confederate Veterans of Knox City and vicinity, some of whom were his comrades on the battlefield.

H. Hutchinson, W. E. Raney and Bob Withrow and their families took dinner with Dan Weaver and family, near Murday, last Sunday, the occasion being Mr. Weaver's 49th birthday. They report an exceedingly enjoyable time and a splendid repast. We join Mr. Weaver's hosts of friends in wishing for him many returns of the day.
