Members of the John B. Gordon Chapter U. D. C. met at the residence of Mrs. R. A. Kendall, promptly at the hour 4:30 p. m. Nov. 8th.
Every one present seemed imbued with unusual interest, many subjects being discussed and questions of importance answered.
Heartfelt congratulations were extended to Mrs. M. J. Webb for the patriotically reminiscent remarks made in her application for membership.
Though some of the assigned participants were absent, the program as rendered by those that were present, was beautifully appropriate and second strangely sweet, as the old Confederate flag floated near an unyielding monument of the "Lost Cause."

A CARD BY THE COUNCIL.

Mr. ENTREE—In your issue of last week there appeared an article headed "The Proposed Reservoir a Fallacy" signed by W. C. Powell.
As this article is largely made up on the charge that the City did not retain the services of an engineer to see that the work of construction of our water works was done according to plans and specifications. We the undersigned members of the City Council at said during the time of construction of our water works system, desire to correct this erroneous idea—or conclusion jumped at by Capt. Powell in its hole too far to be reached by any old cat.

As a matter of fact which is substantiated by the records of our City: We did employ and retain an engineer throughout and to the end of the work. The Engineer was Mr. Murray Harris, who is well known in this community who is recognized by large corporations all over the country as one of the best in Texas. He drew up the plans and gave the construction his personal supervision from beginning to the end.

SETH LOW IS ELECTED

He Defeats Shepard for Mayor of Greater New York.

MAJORITY IS 100,000.

Governor Nash of Ohio and Crane of Massachusetts Were Re-Elected. Republicans Successful in Most Other States.

New York, Sept. 6.—Seth Low, former president of Columbia university, and four years ago the District Attorney candidate for the first mayor of Greater New York, has been elected the second mayor of Greater New York by the franchise by a plurality margin from 30,000 to 40,000, defeating Edward M. Shepard of Brooklyn, the Democratic nominee. The campaign was an exciting one and the vote somewhat less than the presidential election a year ago, was the largest ever polled in a municipal contest in the country.

In addition to the canvass for mayor, the interest largely centered by the franchise in William W. Rockwell, the district attorney and Mayor Robert A. Fisher by the Democrats, for justice of the supreme court, who were voted for only in the territory named as New York county.

Returns received indicate that Jackson had been elected the comfortable plurality, and ex-Mayor Van Wyck had been defeated, the latter receiving 15,000 to 20,000.

Returns also indicate the complete victory of the Democratic ticket headed by John W. Aldrich, Charles Vincent Foster, and the Republicans for president of the board of aldermen, defeating Eugene A. Hensch, the Democratic nominee.

The board elected its entire Republican ticket including Gans for mayor, with majorities ranging from 11,000 to 20,000.

Gov. Frank B. Rowland, Nov. 6.—Returns indicate republican gains in Cincinnati, Cleveland, Toledo, Zanesville, Columbus, Canton, Springfield and other cities, the notable exception being Columbus, the notable exception being Governor Nash and Colonel B. O. Kilbourne, the democratic and candidate for governor.

The greatest republican gains are in the rural districts where the democratic counties showed the largest republican gains.

In Pike and Adams, which jointly elect a representative throughout the state for the first time in eight years, Governor Nash's majority may exceed 5,000.
