Look To The East
By Aaron Edgar

We have some sympathy and a whole lot of admiration for a person who will go to jail rather than betray a trust.

That happens to dedicated newsmen periodically. The demands of a court that newsmen reveal sources of their information is "way off to the left" in our opinion. A refusal to meet those demands places a person "in contempt of court," which is the basis for their being incarcerated. This, to us, seems a shame and disgrace on the part of those presiding in the courts.

Just recently, four newsmen of the Fresno Bee in Fresno, Calif., went to jail for refusing to reveal a confidential source. A spokesman for the group said:

"It is apparent the courts intend to punish us for our dedication to the public's right to know and for protecting our confidential sources. We are firmly proud rather than dismayed, for we are defending one of our basic freedoms."

More recently, Daniel Schorr, a television reporter in Washington, D. C., refused to tell a congressional committee who gave him a secret House report on U. S. intelligence activities, facing a possible jail sentence.

John J. Flynt Jr., a Democrat from Georgia, said after a hearing that he did not know if the committee would cite Schorr for contempt of Congress. Six of the 12-member committee indicated they would vote against any move to cite Schorr. Seven votes would be necessary to initiate any contempt action.

Flynt warned the newsmen nine times that he could be imprisoned and fined for contempt of congress for refusing to answer questions. Nine times, Schorr refused to answer the questions.

Schorr said: "My rights to withhold my sources are protected by the First Amendment which is absolutely essential to the free press of this country. In some 40 years of practicing journalism, I have never yielded to a demand for the disclosing of a source that I had promised to protect. I cannot do so now."

To betray a confidential source would mean to dry up many future sources for many future reporters. The reporters and the news organization would be the immediate losers. The ultimate losers would be the American people and their free institutions."

While we laud the "big time" boys in journalism for their bold stand to protect the freedom of the press, we sometimes wonder if we're not kinda lax in this respect. Frequently, when an item appears in the small weekly papers, perhaps containing an error, we get telephone calls protesting such occurrence. We find people a lot more diligent in registering their protests than in giving commendation for a job well done.

Quite often when the telephone rings we receive

Airport Dedication Set Oct. 15

The Munday Municipal Airport will be formally dedicated in appropriate ceremonies on Friday, October 15, 1976, according to a joint statement by Mayor Clint Norman and M. L. Wiggins, chairman of the local Airport Advisory Board.

Dedication ceremonies will be opened at 11 a. m., with U. S. Congressman Omar Burleson, representative of the Federal Aviation Administration, Texas Aeronautics Commission, State Senator Ray Farabee and State Rep. W. S. "Bill" Healy on hand to participate in the program. Congressman Burleson will give the dedication address.

"We invite local civic groups to help with the event," Mayor Norman said, "by volunteering to serve coffee and doughnuts to early arrivals; then to help in serving a barbecue dinner

at the noon hour." Working with city officials will be members of the airport advisory board in

making this event a successful one, since it is an important step forward in improving transportation

facilities to and from Munday.

"We commend the local advisory board for their work in securing an airport for Munday," Norman continued. "They were commissioned to secure the airport for Munday at a joint meeting of the City Council and City Planning Commission in October, 1974.

Through their efforts, the Federal Aviation Administration approved and paid \$148,580.92 to the airport fund, with the Texas Aeronautics Commission contributing \$29,806.82. Munday citizens contributed \$8,450.00, and city funds in the amount of \$25,468.05 were used.

"We are very fortunate to have such marvelous support from the Federal Aviation Administration, who readily recognized the need for an airport in Munday," Mayor Norman concluded.

....

Method of Sales Tax Rebates Get Approval

Knox County Gets Total Of \$11,792

Comptroller Bob Bullock said Wednesday that an analysis shows that his procedure of rebating city sales taxes monthly rather than quarterly has turned out to be a real help to Texas city governments.

Since the monthly rebates began in April, 1975, the Comptroller's Office has turned back to the cities 19 percent of their allocation 60 days sooner and 41 percent 30 days sooner than they would have gotten it under a quarterly system, Bullock said.

"This means these cities can put their money to work

faster, earning interest or providing services," the Comptroller said. "The city sales tax money belongs to the cities in the first place and never should have been held in Austin until the end of a quarter."

Bullock mailed checks totaling \$56.6 million Wednesday to the 855 cities and towns collecting the one-cent tax as their September rebate.

He noted that city sales tax rebates have totaled \$230 million so far this year, nearly 18 percent ahead of the \$195 million rebated during the same period in 1975.

Bullock reported that the sales tax for Knox County amounted to \$11,792.74 with distribution to the four towns in the county as follows:

Benjamin, \$376.21; Goree, \$410.53; Knox City, \$5,395.58; and Munday, \$5,610.42.

....

COMING EVENT

The American Heart Association will meet at 7 p. m. Thursday, September 23, at the Community Center.

Cookbook Order Address Changed

The resignation of Nancy Fuhrken, County Extension Agent, has necessitated a change of address for anyone wishing to order a Knox County Home Demonstration Club Cookbook. All orders should be sent to Mr. Kenneth Carroll, Star Route, Truscott, Texas 79260. She will then mail the cookbooks to you.

Cookbook sales have gone well, and there are still approximately 80 books on hand. The books, selling for \$3.50, can also be obtained from local members of the Home Demonstration Clubs throughout the county.

These will make excellent Christmas gifts, but you'd better get yours now. These last few will go fast.

Weather

For seven days ending at 7 a. m. September 21, 1976 as compiled by Goodson Observers, U. S. Weather Observer.

Mogul Power Overcomes Rule Bobcats 33 to 7

The goal stripe beckoned to Munday's Moguls last Friday night at Rule, and five times they "answered

the call" to defeat the Rule Bobcats by a score of 33 to 7. The local boys tallied six points in the first period, 20

in the second, and seven in the final stanza.

The Bobcats drew first blood, taking a short-lived lead in the first period by recovering a Mogul fumble in the end zone with 4:15 left in the period. The PAT was also good.

Munday came back undaunted in the final minutes of the period with a payoff performance when Andy Haney connected with David Kuehler for a 35-yard TD pass. The conversion went wild, and the host team was ahead by one point as the period ended.

The Moguls exploded their fireworks in the second period to prove "they didn't go visiting to fool around." Mike Urbanczyk took a seven-yard touchdown toss, and Kuehler kicked the extra point. Rudy Esquivel, running back, and Haney scored two more six-pointers, and Kuehler kicked another extra point to end the half with Munday ahead 26 to 7.

Robert Spells came in for his share of the glory in the final period when he spurted 10 yards for the final counter, with Kuehler adding the extra point.

The stats gave the Moguls a big lead, with 294 yards on the ground and 66 by the air-route. The Bobcats managed only 70 on the ground and 21 in the airways.

The hard-pressing Moguls drew 15 penalties for 130 yards, while Rule was penalized five times for 35 yards.

KNOX COUNTY Farm Bureau president, Omar Cure, right, presents Volunteer Fireman Bill Longan and certificate upon his completion of the 47th annual Firemen's Training School, held on the Texas A&M University campus in July. A check to cover Longan's expenses was presented Ray Lynn Hardin, fire chief. The Farm Bureau sponsors a local fireman to the school each year.

Munday To Ask For Improvement Funds

Notice is being given this week that the City of Munday plans to make application for "federal discretionary" funds for various improvement projects.

Two public hearings, the first of which is set for Tuesday, September 28, at 8 p. m., will be held so citizens may help in determining needs for these funds. The pre-application will be for the amount of \$100,000.

Among the needs to be listed in the application will be: replacing of water valves that were installed prior to 1952, replacing fire plugs of

the same age, and paving of Fir Avenue from Highway 277 north.

Application will be made to the Department of Housing and Urban Development (HUD) for a community development block grant for the above amount. W. M. Hertel, city administrator, stated Munday made a similar application last year, and Sweetwater was the only town in the area to receive such a grant.

Citizens are asked to attend the hearing and present their views on needed projects.

....

Five Accidents Reported For Knox County

The Texas Highway Patrol investigated five accidents on rural highways in Knox County during the month of August, 1976 according to Sergeant Frank Jirick, Highway Patrol supervisor of this area.

These crashes resulted in no persons killed and two persons injured.

The rural traffic accident summary for this county during the first eight months of 1976 shows a total of 35 accidents resulting in one person killed and 22 persons injured.

The rural traffic accident summary for the 60 counties of the Lubbock Department of Public Safety Region for August 1976, shows a total of 566 accidents resulting in 16 persons killed and 319 injured, as compared to 1975, with 596 accidents resulting in 16 persons killed and 292 persons injured. This was 30 less accidents, the same number killed, and 27 more injured in 1976 at the same period of time.

The 16 traffic deaths for the month August, 1976, occurred in the following counties: three each in Parker, Hansford; two each in Donley, Motley; one each in Deaf Smith, Foard, Lubbock, Lynn, Montague, Palo Pinto.

Herbert Stodghill of Torrance, Calif., Bill Lemasters of Padgett Sound, Wash., and Mrs. Don Sparkman of Eugene, Oregon were recent visitors in the home of Mr. and Mrs. J. L. Stodghill.

STP Program Is Funded For Another Year

Farmers Union Community Development Assoc., Inc. announced the signing of a new contract with the Governor's Committee on Aging to fund the Senior Texans Employment Program for fiscal year September, 1976 through August of 1977.

Jay I. Naman, president of Farmers Union Community Development Assoc., Inc. made the announcement in conjunction with Vernon McDaniel, Executive Director, Governor's Committee on Aging August 26 in Austin.

Senior Texans Employment Program (S.T.E.P.) is a work-training program for low income persons 55 years of age and older to work on projects providing recreation, beautification, conservation, restoration services or public service employment positions for state, county, city, regional government or school districts. S.T.E.P., created by the Texas Legislature in 1973, is funded through the Governor's Committee on Aging and administered by Farmers Union Community Development Assoc., Inc.

Funding, as provided by the new contract, will allow renewal of the 56 projects in 35 Texas counties, employing 180 senior Texans, who's services provide lasting benefits to their communities. S.T.E.P. is directed statewide by Bob Girard at the state office of Texas Farmers Union in Waco.

Local S.T.E.P. projects are sponsored by The City of Munday.

....

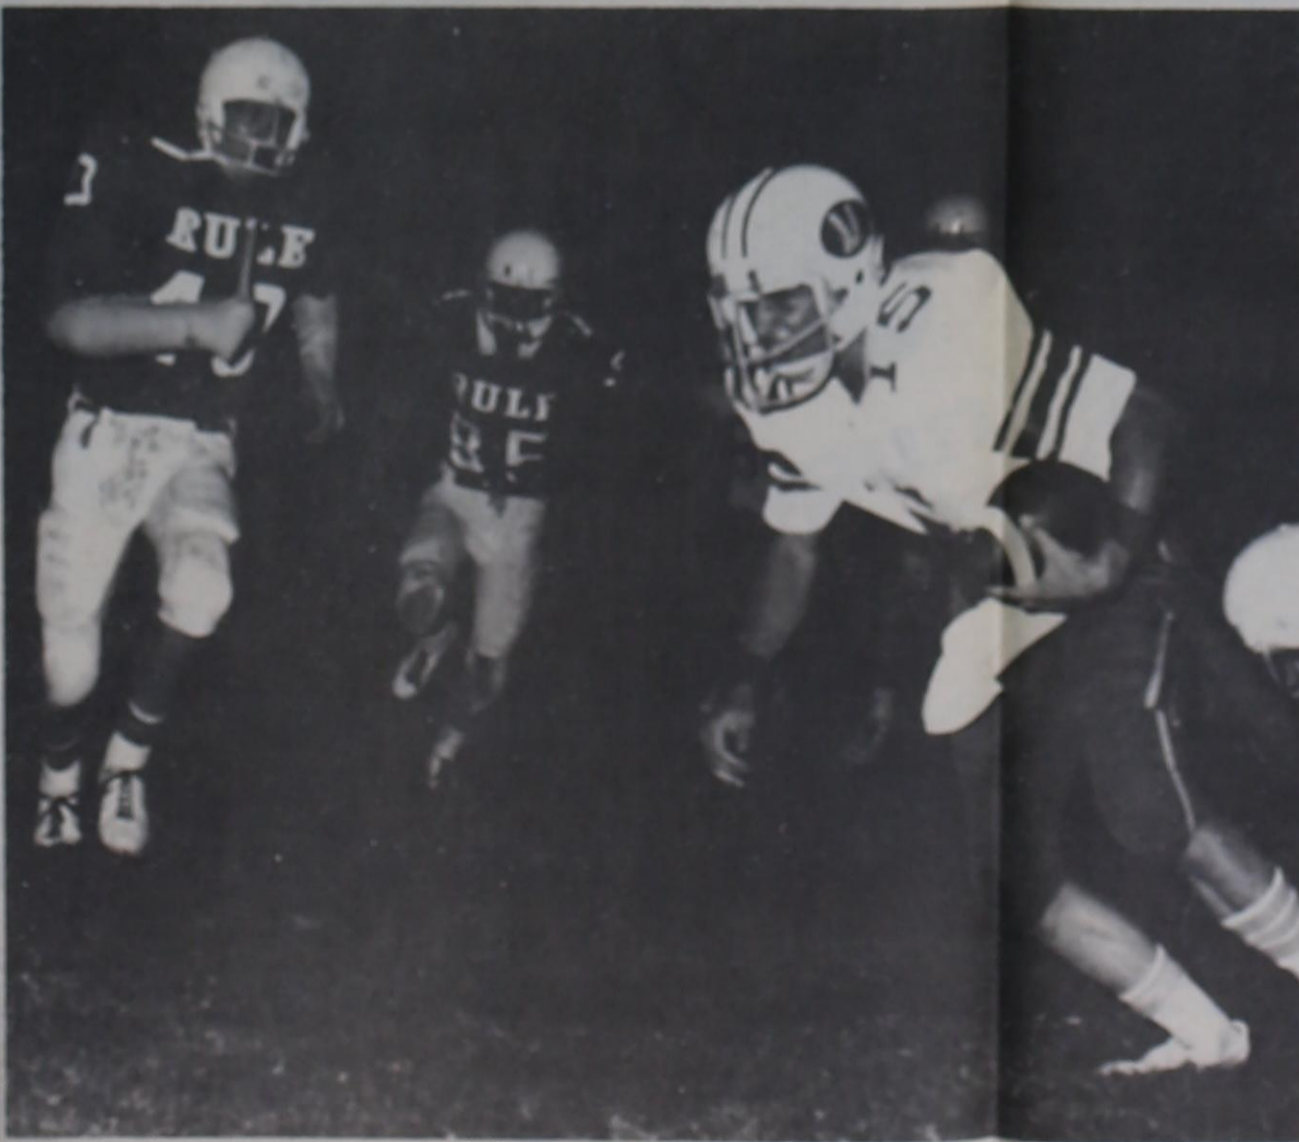

Good Rain; No Runoff!

The rain fell slowly and steadily during the weekend, giving the Munday area and much of West Texas a good soaking rain, but practically no runoff. Runoff, you know, is essential for adding water to the Millers Creek Reservoir.

Rain gauges in Munday registered up to 1.25 inches and better. The official rainfall, as reported by Goodson Sellers, local U. S. weather observer, was 1.15 inches.

....

CALL IN YOUR LOCALS

ANDY HAYNIE, in white helmet and jersey, is attempting to elude two Rule players as he heads toward the goal stripe in last Friday night's game. Haynie

accounted for two TDs and passed to David Kuehler for another to add spice to the Mogul victory over the Bobcats.

**Richie Smith Heads West
Texas Funeral Directors**

At a recent meeting of the West Texas Funeral Directors Association in Odessa, Richie W. Smith, co-owner of the McCauley-Smith Funeral Home in Munday, was elected president of that association.

There are seven regional groups in the state, and the West Texas Association is the largest and most active. This region embraces 64

**J. B. Cornett
Of Hale Center
Dies Sept. 14**

A former Knox County resident, J. B. Cornett, 77, of Hale Center, passed away on Sunday, September 12, in West Texas Hospital in Lubbock after a brief illness.

He was born in Eastland County and married Elma Maxine McAfee on April 11, 1920, in Haskell. The moved to Hale Center from Benjamin in 1944. He was a retired farmer and member of Happy Union Baptist Church.

Funeral services were held at 2 p. m. Tuesday from the First Baptist Church in Hale Center with burial in Hale Center Cemetery.

Survivors include a son, George Cornett of Hale Center; nine daughters, Mrs. Marie Lewis of Frisco, Mrs. Willa Dean Brasher of Petersburg, Mrs. Jean Curry of Tahoka, Mrs. Sylvia Shackelford of Cotton Center, Mrs. Mary Ruth White of Wichita Falls, Mrs. Estelle King of Euleus, Mrs. Opal Bowen of Plainview and Mrs. Jeanette Steen and Mrs. Tresa Rogers, both of Hale Center; a brother, E. V. Cornett of Lamesa; three sisters, Mrs. Inez Wren of Weinert, Mrs. Mae Howell of Ranger and Mrs. Virginia Plummer of Odessa; 30 grandchildren and 21 great-grandchildren.

He was a brother-in-law of C. L. McAfee, Mrs. Coy Tuggle and Mrs. Cecil Gulley, all of Munday.

counties in the western part of the state—from El Paso County on the west to Erath County on the east and from Wilbarger County south to Kerr County. This includes membership of 112 funeral homes and an associate membership of 74 service-related suppliers.

In addition to governing the areas, the seven regional associations are responsible for electing state officers to dictate constitutional bylaws of the Texas Funeral Directors Association.

Smith was also nominated as a director to the state association, but he declined to accept this position. He was elected to the board of directors in 1973, was secretary-treasurer in 1974, and served as vice president in 1975.

He is a 1962 graduate of the Dallas Institute, Gupton-Jones College of Mortuary Science in Dallas. He moved to Munday in 1965. He and his wife, Mary Janelle, have three children: Kevin, age 13; Kristi, 10, and Kelli, 8. He is presently vice president of the Munday school board and secretary of the Knox County Hospital board.

**Field Day Is Slated At
Plant Materials Center**

Announcement was made Monday of the annual field day tours at the Plant Materials Center near Knox City, which have been set for Thursday, September 23. An invitation is being extended to all interested persons to attend this annual event.

Registration will be at 8:30 a. m., to be followed by tours of the area from 8:30 to 11 a. m., so visitors may view the various plants, grasses, etc., being grown at the center.

A program is slated for 11 to 12 a. m. at the west equipment building. George Marks, state conservationist for Texas, will introduce Roland Willis, state conservationist for Oklahoma, who will talk on plant materials activities in his state.

Edward Thomas, assistant administrator of soil conservation in Washington, D. C., will introduce the guest speaker, Leonard

AFTER THE APPLES: David Walker, son of Dr. and Mrs. H. Wayne Walker of Munday, is shown picking the Mollies Delicious type of apples from a five-year-old tree at Texas Tech. Seventy different types are being examined by the plant and soil science department at the university to determine the type that will best survive West Texas climate.

Solomon, executive director of the Oklahoma Conservation Commission, who will have a message of interest to all.

A boxed chicken lunch will be served from 12-noon until 1 p. m. This is a "Dutch treat" affair, and visitors who wish to eat at the center will sign up and pay for their lunches when they register.

Additional tours are slated from 1 to 3 p. m. for

**Father Of
Local Woman
Dies Sept. 12**

Earl Hurst, 68, of Aspermont, passed away at 6:30 a. m. Sunday, September 12, 1976, at Stamford Memorial Hospital following a lengthy illness.

He was born June 24, 1908, in Fort Sumner, N. M., and married Inez Pinson in February, 1934, in Anson. He had lived in Aspermont for 62 years and was a retired employee of Stone-wall County.

Funeral services were held at 3 p. m. Monday, September 13, from the First Baptist Church in Aspermont with the pastor, Rev. Tom Riddle, officiating. Burial was in Aspermont Cemetery, directed by McCoy Funeral Home.

Serving as pallbearers were Lowell Robertson, Pete Sherrod, Jake Clay, Cecil Norris, Olen Godfried and J. Q. Craft.

Survivors include his wife; three sons, Lynn Hurst of Abilene, Robert Hurst of Clifton and Ronnie Hurst of Odessa; two daughters, Mrs. Adele Smith of Aston, Pa., and Mrs. Joyce Melton of Munday; a sister, Mrs. Mira Peacock of Rule; 14 grandchildren and three great-grandchildren.

**Voter Registration
Deadline Sept 30**

If you are 18 years of age and have never registered, or have changed your residence since registration, you will need to register before October 1 in order to be eligible to vote in the General Election.

You will need to see your tax assessor-collector prior to the above date to be enrolled on the list of qualified voters.

Mr. and Mrs. J. M. Simpson of Buckeye, Ariz. are visiting in the home of Mr. and Mrs. Otis Simpson.

**Mogul Band
Has Fun By
Planning Show**

The "Big Purple Cloud" members managed to have fun last week while preparing their 1976 UIL marching contest show, which they presented at the Munday-Rule game.

The contest show is a balanced combination of precision drills, march music and showmanship. The band will be working toward the perfection of this show, as well as other halftime routines for the enjoyment of football fans.

Last Tuesday's after school practice was marked by the celebration of Mr. Frazier's birthday; with not one, but two birthday cakes decorated in purple and gold, of course. On Wednesday, band members surprised Mr. Frazier by presenting him a purple and gold T-shirt. According to Mrs. Frazier, he showed his appreciation by wearing the garment for the remainder of the week.

The "Big Purple Cloud" is busy working on secret plans for the half-time performance during the Munday-Hamlin game. All they have to say is: "Fans, be prepared for anything when the Big Purple Cloud rolls onto the field!"

Mr. and Mrs. Gene Floyd of Guthrie spent Monday with Mr. and Mrs. Gordon Smith and sons.

**M. D. McGaughey, Longtime
County School Man, Dies**

Merick Davis McGaughey, 84, 77-year resident of Knox County and former County School Superintendent, was pronounced dead on arrival at the Knox County Hospital at 9:34 a. m. Saturday. He suffered an apparent heart attack.

He was born April 26, 1892, in Baylor County and moved to the Vera community in 1899. He married Alice Ruth Ford on April 27, 1926.

He retired in 1967 after having served as superintendent of the Knox County schools, for 28 years. He was a member of the Methodist Church, Seymour Masonic Lodge, the Eastern Star, and the Scottish Rite.

Funeral services were held at 2:30 p. m. Monday from the First Christian Church in Benjamin with Rev. James Patterson, pastor of the First United Methodist Churches in Knox City and Benjamin, officiating. Burial was in Vera

Cemetery under direction of Smith Funeral Home.

Survivors include his wife; two sons, John N. McGaughey of Knox City and Stephen M. McGaughey of Englewood, Colo.; a daughter, Mrs. Vera Vines of Peculiar, Mo.; five brothers, James and Arthur McGaughey, both of Vera, Bob McGaughey of Lubbock, Joe McGaughey of Duncan, Ariz., and Dan McGaughey of Reno, Nev.; three sisters, Mrs. Helen Smith of Lubbock, Mrs. Nanie Trainham of Southgate, Calif., and Mrs. Margaret Macksum of San Bernadino, Calif.; and eight grandchildren.

Mr. and Mrs. Hank Matthews visited their son, Dowell Matthews, and family in Anson last Sunday and helped their granddaughter, Brandi, celebrate her 7th birthday.

PHOTO SHOWS Water impounded from back toe to front toe on level parallel terraces constructed around hill. Note stake marking front toe.

Terraces Control Erosion

Although we have had a few drops of rain over the past few weeks, this area of Texas is very dry. During this time of the year we give little thought to water erosion, terrace construction or terrace maintenance. All we want is that good rain. What should happen to your land right now if we got that big rain?

Building terraces can help control erosion, at least for a while. But how terraces do their job depends on how they are farmed.

Unfortunately, too many farmers plow across their terraces or fail to maintain them properly. Gradually, the terraces lose their capacity to intercept runoff water. Then when heavy rain strikes, many terraces are broken.

The Soil Conservation Service, has published a booklet entitled, "Farming Terraced Land," which describes ways to farm such land. The booklet covers

maintenance of terraces, and how to maintain the capacity needed to handle the big rain. The illustrations in the booklet will show you a step-by-step method for plowing terraced land with a minimum number of trips through the field.

Free copies of this booklet and many more are available for the asking at the SCS office in Knox City.

When You Call An Ambulance

Those in charge of Munday's ambulance service request that persons calling for an ambulance give specific directions on how to reach a patient.

Many times, those manning the ambulance are not familiar with the town, and delay is caused in trying to locate the home of one needing their services.

Area Grid Results Brush Control Field Day At Texas Ranches

Paducah 12
Spur 31

The Spur team stunned the Paducah Dragons with a 17-point first quarter, then added two more counters for a 31 to 12 victory Friday night at Spur.

The 17-point lead kept the Spur team alive, while Paducah struggled for six points in the second and third quarters. This was a non-conference game.

Abilene 24
Goree 15

The Abilene Christian high school Panthers journeyed to Goree Friday night and handed the Wildcats a 24 to 15 defeat.

The visitors allowed the Wildcats a touchdown in the first quarter, then garnered 24 straight points in the second and third periods before Goree scored again in the last minutes of the third stanza.

Goree now has one win and two losses.

Haskell 42
Seymour 0

The Haskell Indians of District 7-A proved their power Friday night by hosting the Seymour Panthers, Dist. 2-AA, and overpowering the visitors to the tune of 42 to 0.

The Indians tallied in each quarter, 14, 15, 7 and 6, gaining 333 yards rushing to Seymour's 122. They also led in passing 134 to 20.

Anson 20
Hamlin 19

The Anson Tigers staved off an apparent defeat in the last minutes Friday night to down the Hamlin Pied Pipers of Dist. 7-A by a one-point margin, 20 to 19.

Anson scored 12 in the first period, after which Hamlin added 13 in the third and six in the final stanza for an apparent victory. But the Tigers added eight points late in the third for their first victory of the season.

Knox City 12
Archer City 0

Knox City hosted the Archer City Wildcats Friday night, and Tommy Mangas crossed over twice to lead the Greyhounds to a 12 to 0 victory.

Amassing a total of 217 yards, the Greyhounds controlled the game all the way. The Wildcats gained a total of 90 yards.

Rochester 41
Rotan 0

The Rochester Steers continued their bid for Class B championship Friday night by downing the Rotan Yellowhammers by a one-sided score of 41 to 0.

The Steers held their hosts to only 24 total yards, while they racked up 278 on the ground and 116 in aerials

to completely dominate the game.

Benjamin 60
McCaulley 14

The Benjamin Mustangs made a race track out of the gridiron at McCaulley Friday night by defeating their hosts to the tune of 60 to 14.

Johnny Pierce scored four counters to lead the Mustangs, while others adding to the final count were Keith Pierce, Marshall Reed, Billy Benson, Jess Estrade and Joe Pierce, with one each. Keith Pierce kicked three conversions for six points.

Harrold 64
Weinert 41

If you liked scoring, the Weiner-Harrold game Friday night was the one to see—a total of 105 points.

Clifton Gilmore scored seven touchdowns for the hosting Hornets to defeat Weinert 64 to 41 in a Class 4-B game. This was the first conference game for the Hornets.

Memphis 13
Crowell 0

Another cyclone hit Crowell Friday night—the Memphis Cyclones—and the Wildcats went down to a 13-0 defeat. Memphis scored in the first and final quarters to shut out the Wildcats.

Crowell gained 240 yards rushing, but the goal stripe evaded their efforts.

Aspermont 21
Jayton 12

Aspermont's Domingo Castenda, with three touchdowns, was too much for the Jayton Jaybirds in Friday night's contest at Jayton.

The host Jaybirds scored first in the second quarter on a TD by quarterback Boyd Dees, and a pass for a double conversion failed.

The Hornets added three seven-pointers, one each in three quarters, while the Jaybirds gained another six in the fourth. Castenada gained 98 yards in 25 plays and caught two passes for 18 yards.

WHERE THEY PLAY

Most 7-A teams have open dates this week for a period of rest before opening conference play on October 1.

The two games scheduled this week are: Spur at Aspermont, and Haskell at Stamford.

Presnall To Chair Goree CF Campaign

Bob Presnall of Goree has accepted chairmanship of the 1976 drive for funds to combat cystic fibrosis for the Goree area.

Cystic fibrosis, the number one genetic killer of children, affects one out of every 1,500 babies born each year and occurs when a child inherits two genes for the disease, one from each parent.

A door to door campaign will be conducted Monday evening, February 27, by the Boy Scout Troop 75 and Explorer Post 75. People are asked to give generously when contacted by this group.

Two famous Texas ranches and the Texas Agricultural Experiment Station will show the public next month some results of eight years in extensive brush control studies.

The annual Statewide Brush Control and Range Improvement Field Day is Oct. 7 this year at the Four Sixes Ranch near Guthrie in King County and at the Pitchfork Ranch 13 miles to the west in Dickens County.

The morning part of the Oct. 7 program is one of tours in air-conditioned buses that will depart the Pitchfork headquarters from 8:30 until 11:30. A Dutch-treat lunch at the Pitchfork Hay Barn will precede the afternoon program that ends at 3 o'clock.

"Those persons touring the ranches," said Harold T. Wiedemann, "can see and hear about the latest developments in the Experiment Station's eight-year program of expanded research into chemical and mechanical means of brush control. They can also inspect what the Four Sixes and the Pitchfork have done in 25 years of extensive brush control."

Wiedemann, of the Texas A&M University Agricultural Research and Extension Center between Chillicothe and Vernon, is coordinating the field day for the numerous sponsors, among them the Texas Agricultural Extension Service and the Rolling Plains Economic Program (R-PEP).

Speakers after lunch will discuss, among other topics, the Experiment Station's brush research plan for the future, the effects of broomweed on livestock, and some current accomplishments in brush control research. Other sponsors are the Texas Section of the Society for Range Management, the Texas A&M University Department of Range Science, the Brush Control and Range Improvement Association, private industry and the U. S. Soil Conservation Service.

COMING EVENT

Plans are being made for the Seymour Rural High School District Homecoming to be held October 15, 16, and 17, 1976. The committee is seeking addresses of each graduating class member and hopes you can help by sending names and addresses to Mrs. Patsy Hanna, secretary, Ex-Students Association, Star Route, Seymour, Texas 76380.

Geraldine Peterson has returned home from Rupert, Idaho where she visited her daughter and family, Mr. and Mrs. John Ammon, Darryl and Michelle. While there she attended the Minadoka Fair where her grandson, Darryl, showed his horse and sheep and won several ribbons and a trophy. She had a wonderful trip and also enjoyed the cool Idaho weather.

Home Demonstration Clubs Meet Needs of Women

Home demonstration clubs have the largest membership of any other women's club in the world. What do these women have in common that interest young and old, rural and urban, and highly educated to average educational level women all over the world?

Over 29,000 women belong to the Texas Home Demonstration Clubs and EHE Study Groups. They are interested in their home, their family, their community and their country—also in self-growth. Each home demonstration club meeting offers its members an opportunity to receive an educational program that is planned around the family, home, community or county need request.

Education is an important part of the organization, but there are many other opportunities offered besides education and the immeasurable social aspect. It is also hard to measure self-growth. Leadership growth and self-confidence often happen without realizing when or where it was happening.

Because of the desire to satisfy the needs and interests of all members, home demonstration clubs and family living committees in each county sponsor many varied programs, where all women have an opportunity to enjoy and improve themselves.

Home Demonstration Clubs and EHE Study Groups have open membership. Anyone interested in joining an active club or organizing a new club of eight to ten persons should contact the County Extension Agent who will see that individual interests are met.

The state organization of home demonstration clubs, the Texas Home Demonstration Association, is celebrating its 50th anniversary this year. Special activities have been planned to recognize 50-year members and past presidents of the organization during the annual state convention to be held at College Station from September 21-23.

Among those to be honored will be Knox County's own Mrs. R. M. Almanrode of Munday, a 50-year member of THDA and a past president. Other 50-year members who will not be attending the state meeting are Mrs. L. A. Parker of Benjamin and Mrs. W. T. Cook of Gilliland.

Knox County Home Demonstration Club members congratulate these women for their accomplishments and contributions.

Mr. and Mrs. Dwayne Mauldin and Neely of Lubbock spent the weekend with her parents, Mr. and Mrs. Don Combs.

Fate: Something we believe in when things aren't going well

Food Leaders To Be Trained

It seems as though we're always moving up dates, and it may be true in some cases. The 4-H Foods and Nutrition project is now caught in this shuffle.

In order to allow more time for projects in the Spring the 4-H Food Show, the end result of the project work, has to be held before January 8. To do this, the project must begin now.

Thursday, September 23 at 4:00 p. m. is the date and time that Foods project leaders will be trained. Since the county will be without an agent for the next couple of months, leaders must attend this meeting to obtain all the necessary materials and information.

The meeting on Thursday will be at the Vegetable Research Station at Munday. Anyone who is interested in having a foods group and cannot attend should call Nancy Fuhrken at 454-2651 before this date.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages, regardless of socio-economic levels, race, color, sex, religion or national origin.

Slow Driver May Also Be Contributor To Accidents

Is the slow driver a safe driver? Not necessarily, according to a landmark study recently conducted for the Texas Office of Traffic Safety (OTS).

According to Ken Nevil, OTS administrator, the study on the causes of fatal traffic accidents reveals that while lives can be saved by controlling the average speed of motorists, an even more effective way of reducing fatalities may be to control the "speed differential."

"In basic terms," Nevil said, speed differential is the difference in speeds between two vehicles traveling in the same direction on the same highway.

"Think of the highway as a river whose current is constant. If you threw two blocks of wood into the river a few seconds apart, the chances are very unlikely that the second one would ever catch the first," Nevil explained.

"So, if all vehicles were to travel at approximately the same speed, there would be fewer conflicts, and thus, fewer possibilities of an accident."

According to the study, when one vehicle catches or passes another traveling at a slower rate of speed, the chances of an accident rise as the difference in the speeds of the two vehicles increase. And the higher the speed at the time of an accident, the greater the probability of serious injury or death. This result, of course, could be reduced by proper use of safety belts.

The study indicated that reaction time and other factors make the ten MPH speed differential between two cars traveling 50 and 60 miles per hour much more dangerous than the same ten mph difference between vehicles traveling 30 and 50 mph.

"The study explodes the myth that you can play it safe on the highway by traveling slowly," Nevil emphasized. "Slow drivers are safe only if there are no faster cars on the highway with them. And driving too

slowly causes a potentially serious hazard to all."

It is safer, according to Nevil, to move with the flow of traffic at the speed limit rather than forcing other drivers to pass because of a low rate of speed.

Three factors influencing the rate of traffic fatalities were recognized in the study: the average speed, variation in speed, and vehicle miles driven each year in Texas.

Researchers concluded that of the three factors only the average speed driven by Texans and the variation in speed of vehicles on the highway offered any possible alternative programs for control.

"While reducing the average speed was shown to be an effective way of reducing fatalities, reducing the

GRAY REUNION

On the first Sunday in September the descendants of the late Mr. and Mrs. A. M. Gray met at the community center in Munday for their first annual family reunion.

All of the surviving daughters and sons of Mr. and Mrs. Gray were present. They were: Vivian Hudson, Mary Foshee, George, Connie, Eva, and Orveta. One son, Eli, is deceased; also one son-in-law Doc Foshee, is deceased.

Before the day was over, 35 direct descendants of Mr. and Mrs. Gray and 15 husbands and wives, of the direct descendants, had gathered together for a dinner and fellowship. There was also a visitor, Dianne Carroll, guest of Lee Gray; making a total of 51 present.

There were cousins who had not seen each other since they were small children, and other cousins who had never met each other. A Sunday morning devotional was given by Muse, husband of Orveta. Gospel hymns were sung by some of the ladies, then the talented musicians of the family provided music all afternoon, guitars, fiddles, banjo, mandolin, bass, and piano.

This is the first time the brothers had been together since 1954.

Many pictures were taken of the family and of their families. One picture had 7 people in it all of whom were named "Bill."

As each family left they expressed what a joyous time they had and plans are already in the making for the reunion next year, with each one hoping those who weren't able to attend this year would be able to come next year.

The total number of direct descendants is 52, with 2 more expected in the near future.

The Grays lived in both Knox and Haskell counties, and when he retired they moved to Weinert.

Relatives came from Tulsa, Okla., Lubbock, Ft. Worth, Crowley, Garland, Morton, Amarillo, Knox City, Hico, Munday, Dinnitt, Goree, and Weinert.

speed differential could hold more promise," says Nevil.

"The figures in the study show that small reductions in either the average speed or the speed differential will produce reasonably large reductions in fatalities.

"For example, a one mile per hour reduction in either of these factors can be expected to save 40 to 50 lives annually in Texas. But of the two, variation in speed has the greater impact," he said.

Nevil pointed out that a reduction of one mph in the variation of vehicle speeds would save about ten more lives than a one mph reduction in the average speed.

"If the cost and ease of controlling the two factors are the same, controlling the variation of speed will save about 20 per cent more lives than controlling the average speed," said Nevil.

While the cost and effectiveness of controlling variations in speed have not been determined, public awareness of the facts could have significant results.

"We've got to get our message across to the slow-poke holding up the normal flow of traffic that he may be the most dangerous person on the road," Nevil warned.

"On the other side of the coin is the driver who is always passing, always changing lanes, always pushing. His chances of making it to his destination in one piece are not as good as the fellow who travels at the speed limit and moves with the flow of traffic."

Russia Opens Trial Test of U. S. Sorghum

The Soviet Union announced this week that it has begun an experimental poultry feeding project using U. S. grain sorghum.

Soviet agricultural researchers are comparing feeding efficiency and nutritive value of U. S. number two yellow sorghum to corn and to grain components conventionally used in broiler diets in the USSR.

The poultry demonstration, jointly sponsored by the U. S. Feed Grains Council and the Soviet government, is a result of the sales expansion program of Grain Sorghum Producers Association.

Dr. J. H. Quisenberry, retired poultry specialist from Texas A&M University will go to the Soviet Union on Oct. 10 to oversee the project. He will be joined later by officials of the USFGC, including President Darwin Stolte of Washington, D.C.

Sorghum to be used in the experiment was shipped in early July by Soviet vessel to the All-Union Research and Technological Poultry Institute experimental farm near Moscow.

FHA OFFICERS FOR THIS YEAR

by Gala Myers

The Munday FHA Chapter met on the thirteenth of September in the school auditorium. At this meeting the chapter mothers and the FHA beau were elected. Chapter mothers elected were Mrs. Marvin Zeissel and Mrs. Albert Schumacher. FHA beau is David Kuehler.

The FHA officers for this year are as follows: president, Cathy Schumacher; 1st vice president, Phillis Hutchinson; 2nd vice president, Dee Ann Hertel; 3rd vice president, Kerri Baker; 4th vice president, Brenda Bruggeman; 5th vice president, Gala Myers; secretary-treasurer, Teresa Thewanger; historian, Liz Andrade; parliamentarian, Lezlie Gass; sergeant-at-arms, Diana Redder; pianist, Kimberly Guesz.

We thank you, Mrs. Winchester, for the meeting and the refreshments. We thoroughly enjoyed both. **MOGULS GO UNDEFEATED**

by Tim Hendrix

The Moguls go undefeated through one more game as they beat Rule 33-7 Friday night.

Although Rule scored first on a fumble by Munday in the end zone and Munday didn't come alive until the second quarter, it was still a Munday all the way ball game.

To start off the scoring David Kuehler caught a pass

from Andy Haynie in the end zone, then Bubbie Urbanczyk made another fine catch from Andy a few minutes later for a TD. From then on it was a running game with Rudy Esquivel, Andy Haynie and Robert Spells each scoring a TD. David Kuehler had 3 extra point conversions.

TOM TOM NEWS CHOIR TO PERFORM AT TSTA CONVENTION

by Danny Brown

The Munday Mogul choir has been invited to perform at the annual district Texas State Teachers Association convention which is to be held in Vernon on September 29, 1976.

The choir accepted this invitation and feels very honored to be asked to perform. In past years only schools of very large size have been asked to perform and Munday is the first Class A school to be invited.

There are forty-five members in the choir this year. The choir president is Kay Ussery, daughter of Mr. and Mrs. E. D. Ussery; vice president is Larry Welch,

VETS, AUXILIARY MEET SEPT. 16

The Veterans of World War I and the Auxiliary to Barracks #1029 of Munday held their monthly meeting September 16 at 6 p. m. in the Community Center.

Invocation was given by Buddy Frank Hendrix. All enjoyed a bountiful covered dish dinner.

son of Mr. and Mrs. Don Welch. Director is Jerry Frazier, who is also Mogul Band director.

Enforcement Program Pays Off!

Comptroller Bob Bullock said Thursday that audit detections and field collections by the enforcement officers of his Wichita Falls district office provided a return of \$7.56 for every dollar invested in the office during the state fiscal year that just ended.

"It's as clear as icewater," said Bullock, "that the enforcement program of the Comptroller's Office is an investment that pays big dividends for the people of this state."

The Wichita Falls office audit detections and field collections totaled \$1,331, 892 during fiscal 1976, which ended August 31, while the state invested \$176,159 to operate the office during the year, the Comptroller said.

The Wichita Falls office, headed by Ronald Watkins, is located at 111 Fre-Mar Valley, telephone 723-0811, and is open from 8 a. m. to 5 p. m.

The Wichita Falls office serves Wichita, Archer, Baylor, Clay, Foard, Hardeman, Jack, Knox, Montague, Throckmorton, Wilbarger and Young Counties.

CHARLES BAKER

INSURANCE MUNDAY, TEXAS 76371

Emergency Livestock Loans Available Until Dec. 31st

The last chance is approaching for livestock producers facing financial problems to take advantage of the Emergency Livestock Credit Act of 1974, a temporary Farmers Home Administration program.

Now two years old, the Act provides for emergency financial help to the producer whose business has a good chance of success if it can survive the current liquidity crisis.

"The revised Act now in effect has changes to make it more palatable to both the borrower and lender," points out Dr. Wayne Hayenga, project leader in farm management for the Texas Agricultural Extension Service.

Some of the conditions are as follows:

1. A "line of credit" is permitted, whereas the original Act permitted only a single loan.
2. Anyone with a "substantial operation" in breeding, raising, fattening or marketing is eligible. (This includes one who devotes at least 25 per cent of his time to, derives at least 25 per cent of his income from, or has at least 25 per cent of his capital invested in livestock operations).
3. The Act terminates on Dec. 31, 1976.
4. The loan period can be up to seven years, with possible renewal for three years.
5. The guarantee by the Farmers Home Administration is increased from 80 per cent of the loss to 90 per cent of the loan principal and interest.
6. The line of credit has been increased from the

previous \$250,000 to \$350,000 per loan.

7. Secondary financing of the guaranteed portion of loans may now be made by the Federal Financing Bank, thus increasing the marketability of the securities to the lender.

8. The total authorization under the Act was reduced from \$2 billion to \$1.5 billion.

Many cattlemen can use this type of financing due to present economic conditions, contends the economist. Therefore, the Emergency Livestock Credit Act should help them protect their operations from financial disaster in the coming months.

Hayenga advises stockmen to contact their local Farmers Home Administration office or their lender for particular details. This must be done before the Act expires on Dec. 31.

ALINE JOHNSON ON SICK LIST

We are very sorry that there will be no "Activities of Colored People" in this week's paper as Aline Johnson, who usually writes the column, is ill in bed. When we talked to her on the phone she sounded in good spirits and asked us to report that they had a wonderful church meeting last week with lots of out of town visitors. Aline was able to attend the meetings on Monday and Tuesday nights. We all wish her a speedy recovery.

READ THE CLASSIFIEDS

BIRTHDAYS IN SEPTEMBER

Four residents of Leisure Lodge had birthdays in September and were honored with a party, hosted by the young ladies of the First Baptist Church.

Honored were Mary Hunter who was born September 29, 1884; Elsie Eiland, September 16, 1889;

Bill's Blabbin'

Mary Collier was in Monday morning to get her Munday Courier address changed to Groesbeck, where she and Herman are moving. The moving van was in front of their house when we went home at noon so guess by the time this paper comes out they will be long gone.

Now Mary is extra special to us as we worked with her for quite a spell and she was a very wonderful person to work with, in fact, just knowing her is very nice and although we haven't seen her as much of late, we are still going to miss her, but then the people in Groesbeck are getting a fine couple.

Things do happen to us, eery things too, like when we bought this said slack suit...wasn't one of the most expensive, around \$40.00 but it was pretty. We didn't try it on until we got home at 5 o'clock so that Ole Boy could pass his judgement.

Well the pants were too short so we looked to see if there was enough hem to let out and that was when we found out they had been hemmed up...and for someone else. That sure tore us up and when we reported it to the store, it tore the salesperson up about as much as it did us as it had just come in that morning and was supposed to have been "brand new." Of course the store replaced the suit with apologies.

Then we had just been "dying" for a ladies' electric razor so Ole Boy got us one for our birthday. Being rather green about working the contraption, we gets out the directions as how to remove the head for cleaning. When we lifted off the head out fell very fine hair. Someone had the nerve to have used it and returned it without telling the store about it.

Just the thought of it made us sick on our "stummick" and we reported it at once. Yep of course the store was appalled that such a thing could happen and gave us a new razor, making sure it had not been used.

And we were going to have fried oysters for supper one night. We buy the frozen breaded, ready to fry kind, and buy two packages at the time. We got our grease hot, got the oysters out of the deep freeze and opened the box only to find all twelve of them in one big ball. They evidently had been thawed enroute somewhere and frozen again. Luckily the other box was a-okay and we had our fried oysters anyway.

We got another package for that one, but then what we want to know is, do things like that happen to you or just to us?

News From Vera

BY THELMA LEE COULSTON

Weekend guests of Mr. and Mrs. Weston Parris were Mr. and Mrs. Grady Kirkpatrick of Lubbock, Mr. and Mrs. Leslie Wood of Whitesboro, Mr. and Mrs. Ted Davidson and Mr. and Mrs. Charles Stovall of Arlington.

Mr. and Mrs. George McKinney accompanied his nephew, Mr. and Mrs. Donald McKinney of Plainview, to Camsen, Missouri, where they enjoyed a day of trout fishing. Their trip was cut short when Donald received word of the death of his grandfather, J. B. Cornett of Hale Center.

A birthday luncheon honoring Mrs. Willis Peddy on her 81st birthday was given at Mitchell's restaurant in Seymour last Sunday. Children, grandchildren and relatives celebrating with her were Mr. and Mrs. Hyder Peddy and son, Mr. and Mrs. Gerald Peddy and two children, Mrs. John Murphree and son, Tracy, of Midland, Mr. and Mrs. A. L. Peddy and grandson, Tod, Mr. and Mrs. Buryl Redwine, Mrs. J. C. Shipman and Jack Peddy of Lubbock.

Rev. and Mrs. Douglas Crow are inviting the public to attend "Open House" at the Vera Baptist church parsonage Sunday afternoon, September 27th, from 2:00 to 4:00 p. m. The interior of the parsonage has been re-done with panelling on the walls and a complete new look which the family would like for everyone to see and enjoy with them.

Mr. and Mrs. Claudell Bratcher visited Saturday and Sunday with a son, Mr. and Mrs. Larry Bratcher, Rob, Elizabeth and Heather, in Temple.

Mr. and Mrs. H. R. Zinke of Hermeleigh and Mrs. Martha Rannefeld of Roscoe visited last Wednesday in the home of Mr. and Mrs. Paul Weiss. Mrs. Rannefeld remained for a few weeks visit with her daughter.

Mrs. Doris Hardin, Mrs. Loyd Clark, Mrs. Glenn Feemster and Mrs. Frances Coffman attended a cancer meeting at the community center in Munday last Tuesday evening.

Mr. and Mrs. Charles Malear and children of Carrollton and Kent Beck of Texas Tech in Lubbock were weekend visitors in the Harold Beck home.

Mrs. George McKinney, accompanied by Sandy Gore, were in Abilene last Saturday where they visited in

the home of Mrs. McKinney's daughter, Mr. and Mrs. Wayne Herrington and family.

Mr. and Mrs. Duward Richard and their crew returned home from Montana where they had been engaged in grain harvest. Duward left his machinery in Colorado and they will return in a few weeks to work in the maize harvest.

Sunday visitors in the Barne Welch home were Mr. and Mrs. Hope Bratcher of Childress and Mr. and Mrs. L. D. Welch of Gilliland.

Mr. and Mrs. Gerald Kee and children returned home Saturday from near Wolf Point, Montana, where he had been working in grain harvest. After a few days at home Gerald plans to be near Tokio, Texas and do custom harvest in the maize crop.

Mr. and Mrs. George McKinney left for Plainview, Monday where George will work in the corn harvest.

Mrs. Tom King of Seymour is spending a few weeks in the Loran Patterson home while Violet recovers from her recent foot surgery.

Mr. and Mrs. Duward Richard visited during the weekend with his mother, Mrs. Blondie Richard and family in Springtown.

Mr. and Mrs. Robert Nix of Munday were Sunday visitors with her mother,

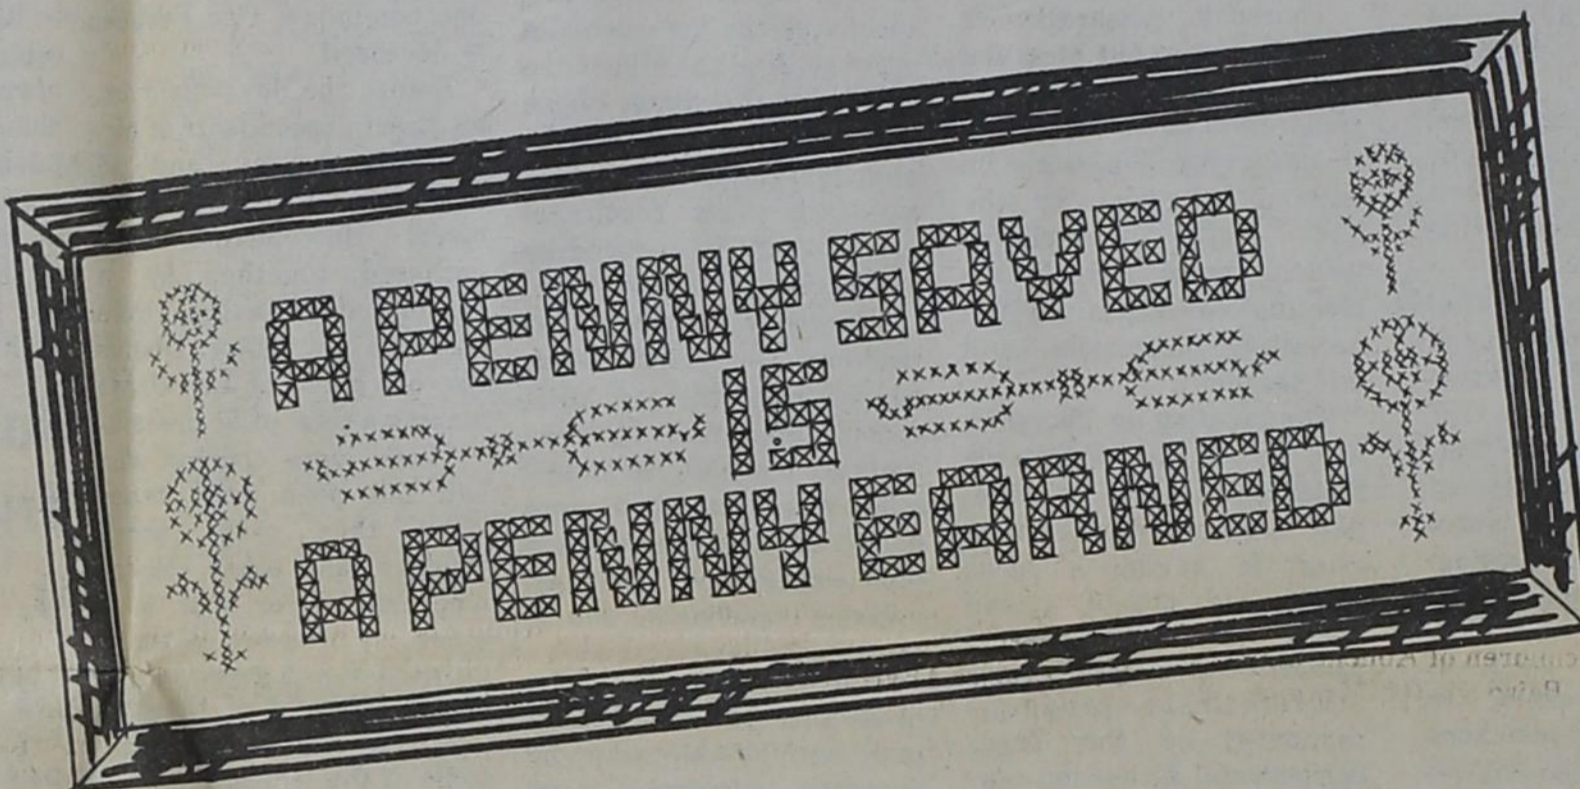

Mrs. Henry Patterson. Mr. and Mrs. Keith Hardin and boys of Graham visited Saturday in the home of his parents, Mr. and Mrs. Tom Hardin.

CELEBRATE BIRTHDAYS

Visitors here over the weekend to help celebrate the birthdays of Mrs. Janie Richards, Mrs. Maxine Welch, Kathy Hodges and Keri Hodges were Mr. and Mrs. L. H. Richards of Dickens; Mrs. Lee Richards and Mr. and Mrs. Huelon Richards of Odessa; Mr. and Mrs. Earl Richards, Mr. and Mrs. Wayne Richards, Rhonda, Tom and Jeannie, Mr. and Mrs. Roger Richards, Larry, Barbars and Wayne, Mr. and Mrs. Johnny Richards, Michael and James, Mrs. Bud Bishop, Wesley, Kim and Honey, all of Fort Worth; Mr. and Mrs. G. T. Mason, Michelle, Michael and Julie of Lubbock; Mr. and Mrs. Chuck Mayfield of Jacksboro; Mr. and Mrs. Boyd Hodges, Keri and Heather of Anson; Rodney Richards and Mr. and Mrs. Wayne Richards of Andrews; and Mr. and Mrs. Don Welch, Larry and Cherie and Mr. and Mrs. Cecil Welch of Munday.

Mr. and Mrs. Otis Simpson returned home recently from a visit with their daughter, Mr. and Mrs. W. H. Jones, in Garland.

MUNDAY COURIER

IT PAYS TO SHOP AT HOME

Remember Reddy Supplies the energy—but only YOU can use it wisely!

Helpful Tips For your Dishwasher

- ★ A dishwasher will usually hold a whole day's dishes. It takes as much hot water and energy to wash one dish as it does a full load. Stack your dishes out of sight in your dishwasher and wait until you have a full load to turn it on.
- ★ Use only detergents manufactured specifically for dishwashers. A wetting agent helps prevent water spots on glasses and silverware.
- ★ Clean the filter screen often. A clogged filter can reduce the efficiency of your dishwasher.

Water Heater Tips

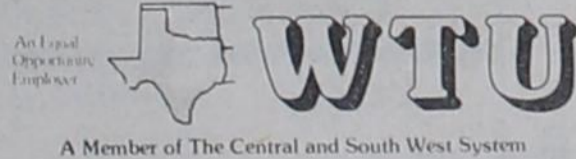

- ★ To assure long life and efficiency, the water heater tank should have a small amount of water drained periodically. Once a month should be adequate. The purpose of draining water from the tank is to prevent sediment build-up in the tank bottom.
- ★ A water heater that's old, or too small for your family needs, can be wasteful, because it's working too hard and using too much energy to keep up with your hot water demands.
