Truscott Dam

inflatable dam came in. "We threw up a dam downstream. You take a high concentration of salt water and collect it in the lake. The bad water comes here and everything else is diverted downstream."

The inflatable dam has a bag that stretches across the river, five feet high and 60 feet across.

Construction started in 1979 and wasn't completed until 1986. In 1987, the project was in full operation--after discovering in the 1950's the water was a problem.

During construction of the base that stretches 750 feet across, the engineering crew went in 70 feet underground and washed out and pressure tested the ground every ten feet. They pumped the pores full of grout to further prevent leaks six inches at a time.

"We couldn't force the water into it," said Duke. "We cleaned, swept, shoveled, blew stuff off because leaks travel between existing rock. The cleaner the rock, the better the bond."

The dam, located near the South Wichita River, is not always inflated. When there is enough rainfall, the concentration of salt in the water is lessened, resulting in safe water and a deflated dam, regulated by monitors.

"There are six flow meters in three segments. They are constantly looking at each other and telling you how much water you've got going by you," said Duke.

There is one significant drawback to the system--it won't last forever.

"We're buying time--we're hoping someone will be able to take salt out of the water," said Duke, explaining that the 1,000 foot spillway was built to last 100 years.

Alternatives such as the solar pond power plant have been put to use in Israel, but the funding is not available for a large scale project yet in the United States.

In addition, the system is pres-

ently operating better than expected, and the five million gallons pumped in each day evaporates--it's at equilibrium, Duke said.

"It takes some time to pump water out of Lake Kemp. The numbers say it has improved at a faster rate than we thought--several landowners said the livestock have started drinking the water," Duke said.

He would like to see more people taking advantage of the lapping waters and added area farmers and ranchers already have been aided by the new county roads.

"We're trying to increase the habitat to increase the quail and pheasant so that the public can hunt, fish and swim. We're working on getting salt water fish," said Duke.

Focus Of Field Day At Halfway Is On Research

Survival of agriculture in the 21st century is a challenge being met through the continued efforts of scientists at the Texas Agricultural Experiment Station.

Their efforts to improve and strengthen the nation's food and fiber supply will be put on display Tuesday, September 14 at the 84th annual field day at the High Plains Research Facility in Halfway. It is on U. S. Highway 70, 14 miles west of Plainview. Tours will be conducted from 1 to 4 p.m.

This year's tour will have four featured stops, a walking tour, a youth tour, an open house at the computer training center and several exhibits. The featured stops will be insect management, cropping systems and weed control, cotton breeding, and irrigation scheduling with PET.

The latest research equipment and experiments, such as a high speed chemigation pivot, advanced strains of glandless cotton and peanut research will be on exhibit.

Lifetime Rhineland Resident Passes Away August 30

Mary Bertha Moore, 82, of Rhineland, died Monday August 30, 1993, in an Abilene hospital.

Rosary was held at 8 p.m. Tuesday, August 31, at McCauley-Smith Funeral Home in Munday. Services were at 10 p.m. Wednesday at St. Joseph Catholic Church in Rhineland with Father George Foley officiating. Burial was in St. Joseph Catholic Cemetery.

Mrs. Moore was born August 26, 1911, in Rhineland, where she was a lifetime resident. She was a homemaker, a member of St. Joseph Catholic Church, and St. Ann's Mothers Society.

Survivors include two daughters, Arleda Decker and Lois Beaty of Munday; five sons, Lyndon of Abilene, Maynard (Sonny) and Ray, both of Munday, and Kenneth and Bob, both of Rhineland; a sister, Theresa Albus of Rhineland; three brothers, A.J. Kuehler of Rhineland, Leo Kuehler of Waco, and C.A. Kuehler of Brownfield; 13 grandchildren; 6 great-grandchildren; and 2 step-great-grandchildren.

Serving as pallbearers were Jeff Decker, James Beaty, Chris Moore, Cory Moore, Kendall Moore and Danny Wainscott.

FmHA Accepting Emergency Farm Loan Applications

Applications for emergency farm loans for losses caused by hail, high winds and a tornado are being accepted at the Farmers Home Administration (FmHA) office located in Knox City, FmHA County Supervisor Bobby G. Cude said today.

Knox County is one of 12 in Texas recently named by Secretary of Agriculture Mike Espy as eligible for loans to cover part of actual production losses resulting from the hail, high winds and the tornado.

Cude said farmers may be eligible for loans of up to 80 percent of their actual losses or the operating loan needed to continue in business or \$500,000, whichever is less. For farmers unable to obtain credit from private commercial lenders, the interest is 4.5 percent.

"As a general rule, a farmer must have suffered at least a 30 percent loss of production to be eligible for an FmHA emergency loan," Cude said. Farmers participating in the PIK or Federal Crop Insurance program will have to figure in proceeds from those programs in determining their loss.

"Applications for loans under this emergency designation will be accepted until April 11, 1994, but farmers should apply as soon as possible. Delays in applying could create backlogs in processing and possible over into the new farming season," Cude said.

FmHA is a credit agency of the U. S. Department of Agriculture. It is authorized to provide disaster emergency loans to recognized farmers who work at and rely on farming for a substantial part of their living. Eligibility is extended to individual farmers who are U.S. citizens and to farming partnerships, corporations or cooperatives in which U.S. citizens hold a majority interest.

The FmHA office in Knox City is open from 8 a.m. to 5 p.m. Monday through Friday.

NOTICE OF MEETING

Noah Project-North advisory committee will meet at noon Friday, September 10, at East Side Baptist Church in Haskell. All members are asked to bring a covered dish for pot-luck.

4-H'ers Receive Honors At Achievement Program

Approximately 140 4-H members, parents, leaders and guests from throughout Knox County gathered Saturday, August 28, for the annual 4-H Achievement Program.

Amanda Baker of Knox City served as Mistress of Ceremonies for the evening. Pledge to the American flag and the 4-H Motto and Pledge were led by Jarred and Alishia Crownover. Special guests and 4-H Club Managers were introduced by Mica Lamed.

Project completion pins were presented by County Extension Agent Paul Weiser and County Commissioner Philip Homer. Receiving completion pins were: Briana Alexander, foods & nutrition; Amanda Baker, photography, horse, dog care, citizenship, beef, leadership, child care, rabbits, foods & nutrition; Ryan Baker, horse, dog care, beef, rabbits; and Jennifer Carden, foods & nutrition.

Also, Alishia Crownover, clothing & textiles, foods & nutrition; Jarred Crownover, foods & nutrition; Alicia Herring, foods & nutrition; Juli Lamed, foods & nutrition; Mica Lamed, foods & nutrition; Jeremy Lowe, foods & nutrition; Amanda Myers, foods & nutrition; Jennifer Pharr, leadership, foods & nutrition; Chere

RICK MOELLER

Pierce, foods & nutrition; Lila Jo Rector, horse, field crops; Amber Reed, foods & nutrition; and Jessica West, foods & nutrition.

Jeremy Lowe, assisted by Commissioner Philip Homer, presented Certificates of Participation to Jennifer Carden, Alishia Crownover and Amber Reed who comprised the 1993 Consumer Skills Judging team. Amanda and Ryan Baker were recognized for completing 4-H Beef Record Books and Ryan Baker was also recipient of the 1993 Superior Livestock Award.

New awards for 1993 included the "Spirit of 4-H" and the "Green Clover". Pam Reed, Chairman of the County 4-H & Youth Committee presented the "Spirit of 4-H" to Edward Roberson for his dedication, determination and initiative he puts into his 4-H projects. Amber Reed was presented the "Green Clover" award by Mary Ann Boone for raising the most money during the primary fund raising activity for the year.

Amber Reed recognized two individuals that were very special to the 4-H program with the "Friend

of 4-H" award.

Receiving the awards were Romain Stubbs of Knox City and Rick Moeller of Munday. These two individuals supported the program in various ways this past year.

The grand finale for the evening was presentation of the "Jr. 4-H Gold Star Award" by County Extension Agent Jane Rowan. The

gold star award is the highest award a 4-H member can receive. Applying for the award were Juli and Mica Lamed of Knox City.

Recipient of the honor was Mica Lamed, a first year member who has completed projects in foods & nutrition, rabbits and citizenship. She has held the office of club secretary and president for two project clubs. A sixth grader at Knox City-O'Brien, Mica is the eleven year old daughter of Jim and Brenda Lamed.

The evening's activities also included dancing and bingo.

Funeral Services Held For Former Munday Resident
 Angeline Ellen Slaughter, a homemaker, died Tuesday, August 31, 1993, at an Irving hospital. She was 68.

Funeral services were held at 9:30 a.m. Thursday, September 2, at Lucas Funeral Home in Hurst. Burial was in Bluebonnet Hills Memorial Park in Colleyville.

Mrs. Slaughter was born in Munday and lived in Hurst for 40 years. She was a member of the Hurst Park and Recreation Board, Hurst Holly Garden Club and the Hurst Baptist Church, and was a life member of the Parent Teacher Association.

Survivors include her husband, Bob Slaughter of Hurst; one son, Bobby Slaughter of Wichita Falls; three sisters, Dorothy Pearce of O'Donnell, and Mary Reynolds and Virginia Burnison, both of Munday; two brothers, Bud Yates of Wichita Falls and Toby Yates of Weinert; and three grandchildren.

Pathways
 by Randy White, pastor
 First Baptist Church

Have you ever spoken a word you wish you had never spoken? All of us have. These foolish words come back to haunt us, sometimes immediately, sometimes after many years. "The tongue of a man is a twisty thing," says Homer's Iliad. Sometimes its twist is wise and beneficial, sometimes foolish and destructive.

Foolish words hurt others. Foolish words hurt the one who speaks them. Foolish words come from foolish people!

It's easy to speak foolishly because to do so we don't really have to think. Nor do we have to put ourselves in the other person's shoes, or feel another person's feelings, or see from another person's perspective. Foolish words are cheap words. Cheap to speak, that is, but expensive is the harvest they reap!

How can you cut down on the amount of foolishness that comes out of your mouth? It's really not that hard—just stop, think, and shut up! Work on speaking words that are well thought out, wise, based on the right facts, beneficial.

"Lord, help me to think through my words before I speak them today. Take control of my mind, where my words are born, and my tongue, where my words are spoken. Amen."

It's A Boy!

Howard and Helen Scheffler of Hurst joyfully announce the birth of Hunter's new little brother, Harrison John-Douglas, born at 8:46 a.m. Friday, August 6, 1993, at Arlington Memorial Hospital. He tipped the scales to 7 lbs. 13

ozs. and measured 21 inches long. Mr. and Mrs. Douglas Myers of Munday and Mr. and Mrs. John Scheffler of Floresville are the proud grandparents. He also has a great-grandmother, Mrs. Melvin Myers of Dickinson. His aunts, uncles and little cousins are ready to spoil him on his visits to Munday!
