Volume 34

Munday, Knox County, Texas, April 20, 1939

Number 43

D. C. Osborne, Mayor Of Munday, Dies Here Friday

HERE SINCE 1906
Funeral Services Are Held On Saturday Morning

D. C. Osborne, one of Munday's best beloved pioneer citizens, passed away at his home here last Friday morning at 4:20 o'clock, following an illness of several weeks. He succumbed to a heart ailment.

Familiarly known as "Judge Osborne," he was always seen greeting his friends on the streets of Munday up until his illness confined him to his home. He was serving as mayor of Munday which was his only activity in public life, having retired several years ago. He was a director in the First National Bank of Munday.

Judge Osborne was born at Pleasant Creek, West Virginia, on November 23, 1860, and was 78 years, 4 months and 21 days of age when death came. He came to Texas in 1880, first settling in Denton county. He resided for the last 32 years at Munday except for residence several years at Goree.

He was a member of the Methodist church for 25 years, and served as a steward for several years. For fourteen years he was commissioner of this precinct, and the record of carrying out his belief in working and saving was an enviable one.

As mayor of Munday, Judge Osborne has had the city's welfare close to his heart and has taken great pride in its upbuilding.

For many years he has been a stockholder and director in the First National Bank and has enjoyed the fellowship of the "boys" as he called the officials and clerks.

Surviving him are two daughters, Mrs. S. E. McStay of Munday, with whom he made his home, and Mrs. Cynthia Newton of Happy; one sister, Mrs. Cora Black, Los Gatos, Calif., and five grandchildren. His wife died eight years ago.

Funeral services were held from the First Methodist Church in Munday at ten o'clock last Saturday morning. Services were conducted by Rev. H. A. Longino, pastor, who was assisted by Rev. W. H. Albertson of Munday and Rev. F. T. Johnson of Goree.

Burial was in the Johnson cemetery, with the Mahan Funeral Home in charge of arrangements.

A large host of friends came from all parts of the county and adjoining counties to pay their tribute of respect to this good man, among whom were the county officials from Benjamin with whom he was associated for so many years.

Pallbearers were Homer Lee, W. E. Braly, Charlie Mayes, W. H. Atkinson, Jim McDonald, C. H. Smith, M. L. Wiggins, and Riley B. Harrell. Flower bearers were Miss Dolores Campbell, Miss Louise Atkinson, Mrs. P. V. Williams, Mrs. Carl Jungman, Miss Maud Isbell and Mrs. W. E. Braly.

Commissioner Ed Jones was a business visitor in the city Tuesday of this week.

New York Banker To Honor Adams

Frank K. Houston, President of the Chemical Bank and Trust Company of New York and one of the nation's leading financial figures, will speak at a banquet in Dallas April 20th honoring Nathan Adams, President of the First National Bank in Dallas. The occasion is the fiftieth anniversary of Nathan Adams' connection with the bank as official and employee. Bankers from all parts of the United States will be present for the occasion. On the speakers' program also is Jesse H. Jones, Houston, R. F. C. Chairman.

Eiland's Drug Is Dealer For Westinghouse

New Line Appliances Is Received Here This Week

Leland Hannah, manager of the Eiland Drug Store in Munday, announces this week that this firm has just been appointed local dealer for the Westinghouse line of electrical appliances. Mr. Hannah made a trip to Fort Worth recently to select the line for the local store.

Included in the line are electric refrigerators, washing machines, stoves, water heaters, electric irons, and other appliances.

Mr. Hannah invites the public to come in and see this line. "The beautiful Westinghouse refrigerator is powered by a totally enclosed unit that requires no oiling or servicing," he said, "and it carries a 5-year guarantee. Its new exclusive method of door arrangement permits greater shelf area than other refrigerators of the same size. The true temperature control on all deluxe models maintains the same temperature as set on the dial at all times."

Mr. Hannah believes the Westinghouse line will be accorded a wonderful reception by citizens of this area.

Principals Are Re-Elected For Local School

Board Re-Organized; Sebern Jones Is New Member

Dr. J. Horace Bass, superintendent of the Munday Public Schools, announced Tuesday that both Munday school principals had been re-elected for the coming school year. The school board met Thursday afternoon of last week in the superintendent's office.

L. S. Hardigree was re-elected principal of the high school, and L. M. Palmer will continue next year as principal of the elementary school. These are the only teachers who were named at this time.

Dr. Bass was elected superintendent last year for a two year term and has another year to serve. Sebern Jones was appointed as a member of the board, to succeed Jim Reeves, and was installed at this meeting. The board was re-organized with the following officers:

Dick Atkinson, re-elected president; Leland Hannah, vice president; John Ed Jones, secretary.

The board voted to renew transfer contracts with both the Hood and Washburn common schools. A committee was appointed to arrange for the school tax equalization board for this year.

Olney Wins 5 Of 9 Bouts Here Monday Night

By the route of four decisions and one technical knockout, Olney boxers win four of the nine bouts staged here last Monday night at the weekly boxing events. The judges' decision was questioned in the first bout, as evidenced by the "boos" coming from the fans.

Although the crowd was smaller than usual, boxing remained on par with many held here, with a number of first-class bouts being staged.

To open the action, Jerry Norred won the decision over R. T. Lewis, and this turned out to be the "most hoode decision of the year."

Jack Hayes of Olney was awarded the decision over Eddie Atkins in a very close bout.

Munday's Raymond Carden continued his "winning ways" to take the decision over E. Dell Vaughn.

Billy McDavid of Olney won over Melton Thompson by a technical knockout at the end of the first round. Thompson hurt his thumb and failed to answer the bell to start off the second round.

Tot Mahan of Olney won favor from the judges over Jerry Phillips.

Jim Neil, Olney, lost of Douglas Spencer in a bloody battle which went to a decision.

Troy Caldwell lost to Munday's Welton Leflar by decision of the judges.

Birgin Roe, Olney, won favor from the judges over James Carden.

Jack Roach, Olney, lost the decision to J. B. Pollack, Munday, in the final bout of the evening.

Directors For Farmers Union Named Saturday

The Munday organization of Farmers Union elected directors for the coming year at their annual meeting held last Saturday afternoon in the Farmers Union hall, over Moore Chevrolet. Only about 85 members out of the membership of over 300 were present to participate in the election.

Directors named to serve for the new year are: J. F. Draper, J. K. Johnson, C. N. Smith, Omar Reid, and E. C. Lowe. Mr. Draper and Mr. Johnson were re-elected to the board.

Retiring board members are John B. Reneau, A. J. Bunts and L. B. Patterson.

County Agent W. W. Rice of Benjamin was in the city attending to official matters last Monday.

Visitors from Benjamin Sunday evening included Mr. and Mrs. Leroy Melton and son and Mr. and Mrs. "Red" Waldron and son.

Nothing New—

The role of royalty is nothing new to charming Miss Ayune Mackey, junior from Denton at the North Texas State Teachers College, who has been selected to represent North Texas at the annual Cotton Style Show, pageant, and Ball to be held at College Station on April 21. Miss Mackey will act as one of several duchesses to the Cotton King, Beal Hargrove, who will select the style show queen.

Last year Miss Mackey was a Teachers College duchess at the Gilmer sweet potato festival. Now she's thinking of establishing an official order of collegiate royalty for fair duchesses and queens of goodwill who travel about the country representing their colleges at various functions.

"At least it's an idea," she says.

Trustees For Common Schools Are Announced

April Election Names Board Members For County Schools

Trustees for the various common school districts, who were elected in the elections held recently, were announced this week by Merick McLaughy, county superintendent. "In many instances," McLaughy stated, "the old trustees were re-elected, and there have been few changes in any of the school boards of the county." Those who were elected in the recent elections are as follows:

County trustee at large, Mrs. J. W. Melton.

County trustee, Precinct One, B. M. Farmer.

County trustee, Precinct Two, E. A. Beck.

Benjamin, Dist. One, Mrs. Marie Gibson.

Cottonwood, Dist. Four, A. D. Hammett.

Truscott, Jack Whitaker and Lester Hickman.

Vera, No. 28, J. A. Kinniburgh, J. M. Roberson and R. F. Richards.

Hefner, No. 5, Henry Stewart.

Hood, No. 22, I. B. Gresham.

Gilliland, No. 8, W. T. Cook.

Knox City, L. L. Davis and J. C. Haymes.

Washburn, No. 22, C. N. Smith.

Dixon, No. 23, Joe Cade.

Rhineland, No. 11, Frank Kuhler.

Union Grove, No. 13, Bud Reeves.

Sunset, C. W. Hill and G. H. Offutt.

Revival at Methodist Church to Begin Sunday

Song Leader—

Rev. O. B. Herring of Lockney, Texas, will be here next week, working with the local pastor and Rev. Finis A. Crutchfield of Vernon in the Methodist revival. Rev. Herring will have charge of young people's work and will direct the singing during the revival.

BLUEBONNET FIESTA

Photographers, amateur and professional, from all over the state are expected to gather in Marlin this week end, April 22 and 23, when that city holds its annual Texas Bluebonnet Photo Fiesta.

The State Highway Department will hold its Division 9 wild flower show there at that time.

REA Lines Are Being Extended

According to reports received here this week, extension of the Rural Electrification line now serving the Vera and Rhineland communities is expected to begin soon.

The extension will be made so as to serve the Sunset and Thorp communities and a portion of the territory south of Munday, it was stated.

An extension of approximately 200 miles will likely be made, making a total of 350 miles under this project.

A total of 540 farm homes have signed up to receive electric service, it was reported.

Evelyn Jones Now Employed By Rexall Store

Miss Evelyn Jones, well known in Munday, has accepted a position with the Rexall Drug Store, A. L. Smith, manager, announced Tuesday.

Miss Jones will have charge of cosmetic sales, and was busy Tuesday arranging an attractive cosmetic display. She will also assist the boys behind the fountain.

She plans to spend some two weeks in Dallas in the near future, taking a training course in this line of work.

Style Show Is Being Sponsored By Local P.-T.A.

On Tuesday, April 25, at four o'clock the P.-T.A. will have a style show presented by the Homemaking Department of the High School. The meeting will be in the elementary school auditorium.

The first, second and third year girls will exhibit their dresses made in class, and as home projects. The classes have done excellent work in clothing construction and in selecting designs and accessories.

The P.-T.A. and the Homemaking Department invite the public to attend this program. It will be the last regular meeting of the P.-T.A. this year.

Remember the date—April 25th.

Mr. and Mrs. Tom O'Steen, of Vernon, Texas, visited Mr. and Mrs. G. W. Dingus and family here, last Sunday.

Mr. O. L. Jamison of Knox City and Miss Elizabeth Bryant of Memphis were visitors here last Monday.

Services To Continue Through All Week

A week's revival meeting will begin at the First Methodist Church in Munday on next Sunday night, continuing through the following Sunday, H. A. Longino, pastor, has announced.

The services of two splendid church leaders have been secured for this revival, and large crowds are expected to attend each and every service of the revival. Both morning and evening services will be held, the morning services being at ten o'clock and the evening services at seven-thirty.

Rev. Finis A. Crutchfield of Vernon, Texas, is the evangelist in charge of the revival. He is one of the best evangelists in the Northwest Texas Conference, Rev. Longino said, and one who brings soul-stirring messages at every service. He is just the common, ordinary type of preacher, but one whom you'll love and whose messages will be uplifting. Rev. Crutchfield is on the evangelistic committee for district conferences, and much of his time is taken up in this work. The local church membership feels fortunate in securing his services during this short revival period.

Assisting him will be Rev. O. B. Herring of Lockney, Texas, who will have charge of the choir and young people's work during the revival.

A cordial invitation is extended to everyone to attend each and every service of this revival.

Munday And Rhineland To Play Softball

Softball fans of this section are promised a hustling, bustling ball game next Sunday, when the Munday team clashes with the powerhouse softballers of Rhineland. The game will be played at Rhineland at 3:30 on the school diamond.

Munday's official lineup is not known as yet, but such outstanding softballers as Bob Couch, Sheehey Rayburn and Donnell Rattliff are sure to be in the lineup.

Rhineland's batting order which packs loads of power all the way through the lineup will probably be something on the following order:

Bunce Albus, right field; Shorty Kuehler, center field; Rhine Kuehler, left field; Clem Wilde, first base; Luechie Wilde, short stop; Ab Kuehler, second base; Carl Striegel or Phil Homer, short field; Dan Loran or Hal Herring, third base; Dutch Kuehler, catcher, and George "Lefty" Decker, the sensational speedball artist, will toe the rubber for Rhineland. Should Decker find it difficult to control his blazing fast ball and fail to finish, Albus, a very capable cotton-topped righthanded rookie, is likely to follow him on the mound. However, it is unlikely that Decker will need much help, for he seems to have all the super stuff he had the day he whipped 18 of 24 batters who faced him in a regular game last season.

Admission to the game will be five and ten cents.

Revision Of Express Rates Is Announced

Becoming effective on April 15, a revision of Railway Express rates has been announced by H. F. Barnes, local express agent.

"You can send packages right from your door by convenient Railway Express for as little as 25 cents," Mr. Barnes said. "New low rates apply to packages weighing 21 pounds or less regardless of distance shipped, and to heavier packages for shorter distances."

Mr. and Mrs. W. E. Braly went to Dallas Thursday where Mr. Braly attended the banquet on Thursday night honoring Nathan Adams, president of the First National Bank there, upon completion of 50 years connection with the bank.

Mr. and Mrs. E. C. Ford and daughters, Joyce and Martha, and Clark Ford of Sweetwater visited in the home of Mr. and Mrs. W. R. Cabaness last Sunday.

West Texas Chamber of Commerce Convention To Be Held May 15 to 17

Ablene.—Group conferences on two of the most vital subjects being studied in West Texas today will be held during the 21st annual convention of the West Texas Chamber of Commerce in Abilene May 15-17.

The first conference will be on transportation and will be held at 2:00 p.m. Monday, May 15. Dr. W. M. W. Splawn, chairman of the Interstate Commerce Commission, will be principal speaker. B. Reagan, Big Spring, chairman of the WTCC Traffic Board, will preside.

This will be one of the most important sessions of the entire convention as it will include discussion of the regional organization's freight rate equality campaign. Several hundred delegates named by organizations affiliated with the WTCC-sponsored Freight Rate Equality Federation will be given special invitations to attend. The WTCC in its freight rate campaign is seeking to secure equalization of rates as between zones, charging that West Texas pays 85 per cent higher freight rates than Northeastern states.

The second conference, to be held at 2:00 p.m., Tuesday, May 16, will be on Agriculture, and will in-

clude discussion of soil and water conservation. M. L. Wilson, under-secretary in the U.S. Department of Agriculture, will speak. Clifford B. Jones, president of Texas Technological College, Lubbock, and chairman of the WTCC Agricultural Board, will preside.

Results of the first annual WTCC Soil and Water Utilization Contest will be studied at the session. Winning counties in the contest will be announced during the convention. First place county will receive \$500 cash prize, second place county will be awarded \$300, and third place county will receive \$200. Representatives of each of the 101 counties participating in the contest are expected to attend the agricultural session.

BIRTH ANNOUNCEMENT

A six-pound daughter was born to Mr. and Mrs. Ernest Ingram at the Knox City hospital on Thursday last week. The infant has been named Sara Ann. Both mother and daughter are doing nicely.

Lloyd Bowden of McCamey is here this week visiting his parents, Mr. and Mrs. J. B. Bowden.

No. 1 Boy Meets No. 1 Glamour Girl

Karl F. McCready, 13-year-old Louisville schoolboy who was named The Typical American Boy met a lot of celebrities while he was in New York winning \$1500 in prizes and a place in the "Buck Rogers" air show. He met and got an autograph from many stars, including Hildegarde, the girl who sings like Garbo talks, and who is heard on the radio Wednesday nights over CBS.

What He Does For His Community Lives On and On"—

KING COTTON WINS WAR OVER RAYON

Announcement that license has been issued to an English cotton textile manufacturer to produce the patented Bibb Heast Resistant Cotton Cord for consumption in the British Isles marks a milestone in the victory of cotton over rayon for use throughout the world in automobile and truck tires. The information given out by W. D. Anderson, president of Bibb Manufacturing Company, at the annual banquet for the salesmen in Macon, Georgia, is of vital interest to cotton farmers and others concerned with the welfare of the fleecy staple.

Cotton interests have been greatly disturbed recently by reports that the use of rayon would cut heavily into the 300,000,000 pound market previously supplied by cotton for use in the manufacture of tires. This figure represents roughly 10 per cent of domestic consumption.

The new method of processing cotton has been given extensive actual service tests over a period of more than three years. Reports of these tests by prominent tire manufacturers are that the cord outlasted any rubber tread tire makers have been able to produce.

The new process is described as not depending entirely upon twist to give strength to cord, as has been the case since the beginning of time, but bonds together the cotton fibers by first softening the waxes inherent in all cotton fiber and finishing the cord while these waxes are soft, meanwhile compressing them and permitting them to harden, resulting in a cord of revolutionary characteristics.

It is claimed that the lower and better performance will protect cotton from the possibility which previously existed that rayon might take away the important tire cord market.

ILLINOIS FARMERS SUFFER

Eight hundred farm families in the Crab Orchard Lake district of Southern Illinois are wondering where they go from there.

For more than a century their people have lived in this section without feeling sorry for themselves. But planners came from Washington to tell these folks that their land was submarginal. The Government was taking it over and would resettle the residents. They didn't want to be resettled. A reforestation plan was next. It gave way to flood control, and finally to a fish preserve and pleasure resort scheme. A dam was constructed and the whole area will be submerged. Williamson county will lose one-fourth of its taxable farm acreage.

Oh yes, the Illinoisans will be paid for their lands. Government appraisers are telling them how much. Walter Ghent of Carversville told a reporter he had set out 8,500 apple and peach trees and spent \$45,000 in developing his place. Secretary Wallace's young men set a price of \$17,800 on it. Alonzo Bowyer is to get \$39 an acre for land which he claims has yielded 72 bushels of corn to the acre.—Nation's Business.

OPINION VS. AN EXPERIMENT

An 11-man Senate committee begins study this week of one of the administration's "noble experiments." The Senators will hear, during their study, just what the public thinks of the experiment. And from all indications, the public doesn't think much of it.

The experiment in question is the National Labor Relations Act, which, for more than three years, has been the monkey wrench in the wheels of industrial peace. It has been condemned by labor, management and the public alike. Its only defender has been the administration and a minority group of labor.

What the Senate Committee has under consideration are several proposals to amend the act. The proposals have been lying around Congress for several months, but pressure from the act's defenders have kept the question closed to consideration.

Now it has been brought out into the open by start of public hearings on the amendments by the Senate committee.

Everyone—or almost everyone—hopes the hearings will result in correction of this poorly drafted device of business-labor regulation at this session of Congress.

But whatever hopes may have been raised by start of hearings, they are not helped by the apparent attitude of some Federal officials who still think the act should be left alone. These officials have expressed this contrary attitude by leaving labor act amendments off the "must" list of legislation for this session.

In the face of almost unanimous labor, management and public demand for correction of the labor law, the blocking of amendment by these Federal officials is tantamount to saying: "The public be damned."

For each \$100 of value of motor vehicles in the United States, owners of the vehicles paid \$26.43 in special taxes in 1937, according to compilations made by the American Automobile Association. The total value of all motor vehicles was estimated to be \$5,997,000,000, and taxes based on them reached a total last year of more than a billion and a half dollars.

We can better help another by fanning a glimmer of goodness than by censuring his faults.—Elizabeth Gibson.

THE CLUB IN THE CLOSET

Included among the almost innumerable provisions of the original AAA was an item giving the President of the United States power to issue \$3,000,000,000 in "printing press money." In other words, the Chief Executive had authority to inflate the nation's money structure by simply ordering the government printing presses to start turning out more greenbacks.

Now the Congress is beginning to realize this is too broad a power to be left lying around Washington and wants to strip the President of this authority. The president refers to it as his "club in the closet." The Senate has called it a club that could be used to club economy to death.

Certainly this "emergency power" should be withdrawn. It is one cause (among many) for business uneasiness and economic insecurity for the nation.

It has been a long time since America burned its fingers in irredeemable greenbacks. The fiat money of the Civil War days is a good reminder, however. And so is the experience of the German people with its printing press money that followed the war. Remember? It took a bushel basket of marks to buy a loaf of bread.

HERE IT IS IN ONE SENTENCE

(from the Cincinnati (O.) Times-Star)
Here's a one-sentence formula, from Chairman Sloan of the General Motors Corporation, for an "economy of abundance":

"More investment in better tools to make new and useful things at lower cost for sale at lower prices."

That is the dream of American industry, substantially translated into fact in the fabrication of automobiles and in a fair number of other lines. American industry pays the highest wages in the world because it has the best machine tools to work with. It has the best tools because of enterprise in management and native inventive skill.

Whoever makes a good article at a lower price or a better article at the same price benefits everybody. Whoever merely raises wages benefits a limited number; and even if every industry did so, less than a majority of Americans would benefit if increased prices.

THE REAL EMERGENCY

No less than 29 national "emergencies" have been proclaimed in Washington the last six years, according to the research findings of one of the Congressmen. That is at the rate of one new "emergency" every six weeks.

Some of these emergencies doubtless did exist, but most of them, apparently, were simply a springboard for some new fangled experimenting or planning. The record shows that for almost every reform or regulation proposal advanced in those six years was accompanied by a proclamation that an emergency existed, and that more reform or regulation was the only way to meet the situation.

But the emergency "glowers-with-alarm" have overlooked the real emergency. That one is the really alarming and speedy rise of the National debt. It has more than doubled in the six year period of those 29 other emergencies, despite higher taxes imposed in that period to meet increasing expenses of the Federal government.

Certainly it is about time the planners recognize this emergency. And if it is more reform and regulation they want, that will apply here very well. No more important reform could be effected than a reform of the Washington habit of spending more than it takes in.

A Russian today must work almost ten times as long as an American to earn enough to buy a pack of cigarettes.

The standard outdoor advertising industry annually spends more than \$11,000,000 for equipment and materials, such as lumber, steel, paint, and glue.

According to veteran trail drivers, the old Chisholm trail, over which Texas cattle were driven to market, was nearly a quarter of a mile wide and was deeply embedded in the prairies.

GET THOSE FEET OUT OF HIS FACE

THEY SAY!

"It would take a courageous soul today to back up such an idea as the telephone, the motion picture, the radio or the automobile with knowledge in advance that there is hardly a sporting chance for a fair return. I believe it will be difficult to alleviate present unemployment until restrictions are wiped off the law books and private initiative is restored to the favorable consideration it deserves."—Edgar M. Queeny.

"A determined soul will do more with a rusty monkey wrench than a loafer will accomplish with all the tools in a machine shop."—Rupert Hughes.

DISCRIMINATORY FREIGHT RATES

Texas, as well as many Southern States, are constantly suffering losses sustained by virtue of discriminatory freight rates that apply on certain products. This fact is largely the cause of Main Street in Texas being dominated by Wall Street in New York. Properly, the Southern and Northern slaves were given their freedom, but while the negro of the South were placed under the bondage of unfair tariffs and unfriendly freight rates. At this late date, something may be done about it.

The following resolution of interest to all Texas was recently passed by the Legislature of the State of Georgia:

"Whereas on February 27, 1939, Commissioner William E. Lee and Examiner Michael T. Corcoran reported to the Interstate Commerce Commission that rates on 13 commodity groups were 'unduly prejudicial' to southern producing points to the extent that such rates are beyond levels higher than at present in effect on like articles within the North; and

Whereas the said report further stated that there was no substantial argument while the rate level for a given commodity shipped from a Southern to a Northern point should be higher than the level of rates between two northern points of equal distance, and

Whereas, it is fitting and proper that the Interstate Commerce Commission immediately equalize the rate structures so as to have uniform rates on like articles which are, or may be produced in different sections of the country from such sections to common markets in conformity with the aforesaid report;

Resolved by the Senate (the House of Representatives concurring), that the Interstate Commerce Commission be memorialized and petitioned by the general assembly of this State to immediately effectuate the said uniform rate structures in conformity with the said report of February 27, 1939.

Speaking recently in Dallas, Pierce Brooks, well known Texas businessman, had this to say, "The North and South must join hands in adjusting the present unfair freight rates applying in many southern states. Rate structures must be adjusted to meet increased agricultural production in Texas. Conditions which did not exist 50 years ago must be faced today."

It might be well for Texas to follow other Southern States, to the end that the Interstate Commerce Commission may be aroused to the importance of taking a hand in this unfair discrimination of Freight Rates.

Gems Of Thought

Do the truth you know and you will learn the truth you need to know.—George McDonald.

The character and lives of men determine the peace, prosperity and life of nations.—Mary Baker Eddy.

Keep an open mind and profit by criticism.—S. W. Hoffman.

Lord: Thou hast given so much to us, give one thing more, a grateful heart.—George Herbert.

Let a man live now in the light of the knowledge that he is to live forever.—Henry Van Dyke.

RED SPENDING HERE REVEALED IN REPORT

New York—The Communist Party in America last year collected \$199,150 in dues, special levies and gifts from abroad, according to a financial statement issued by the Daily Worker, official party newspaper. The figure represents only a fraction of the total amount devoted to furtherance of the Soviet cause in this country, since it fails to take into account the many "innocent" clubs—Communist-inspired or Communist-controlled organizations existing under harmless-sounding names.

The party, according to the Daily Worker, at present has a surplus of \$72,347.

Among the largest expenses listed were sums for "international solidarity" and for "industrial work," both of which classifications are self-explanatory.

The figures revealed by the Communist organization recalled to the minds of observers the recent statement of Stanley High, magazine authority, that "it is undeniable that the Communist party, in proportion to the size of its membership, has a more elaborate setup than any organization, political, economic or religious, in the country."

Jiggs: "After all, fools help to make life interesting. When all the fools are bumped off I don't want to be here."
Jiggs: "Don't worry, you won't."

EDUCATIONAL TOUR OVER TEXAS

An all-expense educational tour of Texas for forty-eight pupils and \$100 to six teachers will be the awards for The Dallas Morning News' first Know Your Texas contest, opening May 1 and closing March 1, 1940.

The contest, which has been approved by the State Department of Education, will be based on the 1939-40 Texas Almanac and State Industrial Guide, and upon a Guide Booklet of 130 questions prepared by Dr. Carter Alexander, Teachers College, Columbia University, New York City, and Arthur Maberry, state supervisor at Tyler. Pupil awards will be divided equally between salary aid and nonsalary aid schools, with two awards being given in each of the twenty-four supervisory districts. Three teacher awards will be given in salary aid schools, three in nonsalary aid schools.

The Guide Booklet, prepared for teachers and pupils from the fourth grade through high school, in the white public, parochial and private schools, can be obtained shortly from The News and later from teachers and principals. All booklets and essays will be judged at The News.

Dr. and Mrs. Alexander, Mr. and Mrs. Arthur Maberry and the WFAA sound equipment will accompany the children on the tour of Texas' principal regions, including sites of both historical and industrial interest. Each of the four leading cities and the capital will be visited, and the schoolboy and girl given an opportunity to visit the Tost Texas pines and oil fields, the beach at Galveston, the Rio Grande Valley and the Texas plains.

In announcing the contest, G. B. Dealey, president of the News, said, that it is the hope of sponsors of the contest that "the contest will not only furnish teachers with an interesting classroom project, but that it will have the further constructive results of stimulating interest of the public in the school system of the state."

Broken In
Coach: "You're doing well, son. The way you hit that line and the way you dodge and tackle and worm through them is marvelous."
Player: "It comes easy to me. I used to go with my mother to the bargain sales."

Home Sweet Home
Mrs. Newlywed: "Darling, will you lend me twenty dollars, and only give me ten of them? Then you'll owe me ten, and I'll owe you ten, and we'll be straight."

Why Men Get Gay
She waited on the corner joyously, then pensively, then expectantly, then casually, then anxiously; and two hours passed.
"Man," she said, "is a perfidious animal, faithless and untrue, incapable of consummating a promise," and so she became a cynic. Two hundred yards down the street he said the same thing about women; she was on the wrong corner.

Men aren't so smart, after all. Thousands of years before cars were manufactured the turtle had a streamlined body, a turret top, retractable landing gear and a portable house.

A Disappointment
Radio Dealer: "So you want to return the radio set, Mrs. O'Hara? What's the matter with it? Can't you get the programs?"
Mrs. O'Hara: "Ay, it brings in the programs all right, but Sandy finds the wee light too hard to read by."

Couldn't Even Lean On It
Friend: "Bill told me you found a good gold watch yesterday."
WPA Worker: "Yes, but I threw it away."
Friend: "Threw it away!"
WPA Worker: "Yes—I found it wasn't wound up."

Mrs. Wade T. Mahan, who has been attending business college in Fort Worth, returned home last Friday.

Hoenig-Fetsch Marriage Rites Read At Muenster

Solemn vows of matrimony were recited Monday morning at 8 o'clock at Muenster, Texas, to unite Miss Emma Hoenig, daughter of the late Mr. and Mrs. Al Hoenig of Muenster, and Leo Fetsch, son of Mr. and Mrs. Ferd Fetsch of the Rhineland community. The rites were performed in the Sacred Heart Church with the bride's brother, Rev. Alfred Hoenig, of Subiaco, Ark., officiating.

Preceding the ceremony, Antony Luke, organist, gave the traditional wedding march, and, for the nuptial high mass that followed, assisted the church choir in rendering the Joan of Arc Mass. Church decorations placed emphasis on Easter lilies and spiraea.

The bride wore a lovely floor-length frock of white satin fashioned with a moulded waist and princess skirt which fell into soft folds. Long sleeves were ornamented with self-covered buttons. The bride's costume was completed with a full-length veil of illusion encircled with orange blossoms and valley lilies. She wore a gold cross and chain, a gift from the bridegroom, and carried an arm bouquet of Easter lilies and carnations among fern.

As maid of honor for her sister, Miss Mathilda Hoenig of Ft. Smith, Ark., was attired in a frock of aqua blue chiffon made with a fitted bodice, bouffant skirt, and full, puffed sleeves. A short veil topped with a tiny cluster of blossoms completed her costume.

Paul Fetsch, brother of the bridegroom, was the best man.

A reception at the bride's home Muenster followed the services. The Hoenig home was attractively decorated carrying out the bride's chosen colors. Baskets of tulips and bridal wreath helped decorate the dining room. The dining table was centered with a three-tiered wedding cake topped with a bridal figurine.

Mrs. Fetsch is a popular member of the Muenster community's young crowd and took active part in work of the Blessed Virgin Sodality, of which she has been secretary for the past year.

Mr. and Mrs. Fetsch are to make their home five miles northwest of Munday. He is a former student of St. Joseph's school at Rhineland.

Out-of-town guests at the wedding were three priests, Miss Clara Hoenig of Wichita Falls, Mrs. Ferd Fetsch, Misses Mary and Angela and Paul Fetsch, and Mr. and Mrs. Tony Hoenig of Gainesville and Mr. Leonard Albus of Pop, Texas.

Vera 4-H Club Is Formed At Meet Last Week

Miss Nina Astin met with the Vera girls last week and organized a 4-H club. Officers are: Leota Patterson, president; Evelyn Rabe, vice president; Ophelia Ann Evans, secretary; Mary Ann McGuire, reporter, and Mrs. Alma Boyd, sponsor.

Second year bedroom demonstrator will be Leota Patterson while the first year demonstrator will be Jasie Faye Boyd.

Poultry raising is to be the work for this year. Plans are to have an entertainment on the 28th of April to raise money to take a trip this summer.

The next meeting will be April 26, at which time scarfs will be made, and all club members are expected to have their aprons finished.

Mrs. E. J. Jones Hostess To Hefner Demonstration Club

On Tuesday, April 18, the Hefner Home Demonstration Club met with Mrs. E. J. Jones. A program on "Art Appreciation" was given by Mesdames S. Johnston, C. Oliver and J. T. Murdock.

A report of the last count council meeting was given, and a discussion was held in regard to the third district meeting on May 14.

The five members who attended the one day short course at Denton, Texas, on April 14 gave a report of their interesting and instructive trip. They were Mesdames Marion Jones, C. E. Jones, Cecil Oliver, J. T. Murdock, W. H. Barnett.

Cake and hot tea were served to fourteen members and two visitors.

Mr. and Mrs. E. W. Harrell spent the week-end with their son, Gene Harrell of Oklahoma City, who met them in Lawton, Okla.

Paul Bowden was a visitor in Wichita Falls Sunday.

Goree Club Meets April 18th With Mrs. Jack Fowler

The Goree Home Demonstration Club met on April 18th in the home of Mrs. Jack Fowler with eleven members present.

A council report was given, a business discussion was held concerning the district meet, and a birthday dinner was planned.

Miss Astin, the agent, gave an interesting talk about her trip to Louisiana and other important places, showing pictures of the scenery in many of the places visited on the trip.

Sewing Club Meets Tuesday With Mrs. Borden

Mrs. Chester Borden was hostess to members of the Sewing Club at her home last Tuesday evening from 3:30 until 6 o'clock. Strawberry shortcake and coffee were served.

Members present were Mesdames Don Ferris, Chester Bowden, Deaton Green, H. B. Douglas, Riley B. Harrell, M. L. Barnard, Aaron Edgar and the hostess.

HEFNER NEWS

This community has REA lighting in a number of homes, with conveniences equal to our city people. The lights were turned on April 8th.

"Bound to Marry" is a play to be given at the Hefner school building on Friday night, April 21, by

Prospector's Sudden 'Hunch' Prevents Mountain Tragedy

A sudden suspicion and a handy flashlight probably saved the life of Byron Berge, of Ely, Nev. when he reached for a length of rope outside his camp in the Snake Range foothills.

Engaged in sampling some placer ground near Mt. Wheeler, Berge had finished his day's work and got back to camp. It was after sundown and a storm was coming up, with early darkness. Berge remembered that he had left his tools outside his shack. He hurried out to get them under cover.

The first raindrops were falling and Berge put on speed gathering up his tools. He reached down to pick up what appeared to be a short length of rope similar to the end from a block-and-tackle set.

"Something stopped me in the middle of that reach," Berge said. "What I saw was a rope, all right. But I just had a hunch I'd do well to take a look at it."

"I pulled out my flashlight and switched on the beam. Instantly

Another Sure Sign of Spring

Babe, a mere girl of some 50 winters, insists on her spring manicure before hitting the trail of sawdust and spangles for the circus season with Cole Brothers' elephant troupe. Incidentally, she provides a front-axle test for her mistress' new Chevrolet. Miss Malee Harding wields the reins.

Hefner young people. Everyone is invited to come.

Mr. and Mrs. D. B. Jones and family attended Mrs. Major Jones' 90th birthday celebration on April 15 at Crowell.

Mr. and Mrs. Lanny Bartlett of Southland and the former Frankie Hefner of Calif., were recent visitors here. Frankie hadn't been here in 20 years so she realized quite a change. She and Mrs. L. Bartlett are daughters of the late Mr. and Mrs. Sam Hefner.

Mann McCarty was a business visitor to Wichita Falls last Friday.

Monday Night Bridge Club Meets In Baker Home

The Monday Nite Bridge Club met in the home of Mr. and Mrs. C. P. Baker on Tuesday night of this week.

Following an evening of enjoyable games, strawberry shortcake and coffee were served.

Members present were Mr. and Mrs. Fred roach, Mr. and Mrs. H. A. Pendleton, Dr. and Mrs. J. Horace Bass, Mrs. W. R. Moore, and Mr. and Mrs. Baker. Guests were Mr. and Mrs. W. E. Braly and Miss Mary Couch.

METHODIST CHURCH

We have long looked forward to the coming of Rev. Finis A. Crutchfield to be with us in revival services. He will be here this coming Sunday for the 7:30 p.m. service. Bro. Crutchfield's time is much in demand and we are beginning for a one week's meeting. Of necessity, we have to begin in "high" if the work that should be done is accomplished in this brief time. Be with us for the Sunday 11 a.m. service and get the message, "Ye shall receive power after that the Holy Ghost is come upon you." Let this service prepare you for the evening message.

Rev. O. B. Herring, of Lockney, Texas, will be in charge of the song services and will organize the young people for special services. The group with whom he will work will range from twelve to twenty-four years of age. This is not a rigid rule but is in general those who would be interested in the type of service he will bring. He will want to see the young people Sunday evening at our regular hour of meeting and in your separate rooms.

A cordial invitation is extended to the young people of Munday to take part in the uplift and enjoyment of this meeting. We are not given to making other denominations feel unwelcome, or out of place in our services. Other churches have their place in the great program of Christian economy and we appreciate this fact, but that is no reason that all should not enjoy Gospel messages in this meeting and return to their respective churches with an enriched Christ.

ian experience and a deeper purpose to serve God and our fellow man.

We invite you to all our services and to take an active part. —The Pastor

Gas Range Added To Home Economics Girls' Cottage

The Homemaking Department of the Munday High School is the proud possessor of a new, modern gas range. The stove was made obtainable through the courtesy of the Community Natural Gas Company and the Board of Trustees.

The homemaking girls and Mrs. Dillon are indeed grateful for the new addition to the cottage and wish to express their appreciation to the agencies who made the stove available.

WASHBURN NEWS

Health is very good in the community this week.

The recent rains which fell last week were very much needed, and farmers are now beginning to plant feed. Corn is looking nice.

Mr. and Mrs. Otis Simpson visited relatives at Stamford recently.

Mr. and Mrs. Vernon Donaldson of Throckmorton visited relatives in the community last week end. Bonnie Jean Milstead of Munday visited Mildred Smith last week-end.

Mr. and Mrs. C. Y. Morris of Rule visited C. N. Smith and family last week.

Mr. and Mrs. J. A. Hill were in Wichita Falls last Monday, where Mrs. Hill is taking medical treatment.

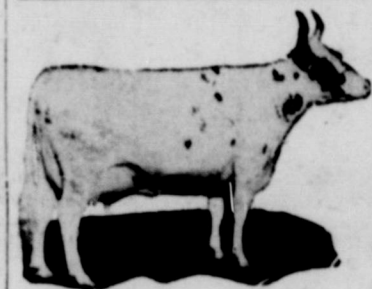

Mr. and Mrs. J. M. Smith visited Mr. and Mrs. Cleo Pierce of Sunset last Thursday evening.

A. D. Wallace and J. A. Hill were in Oklahoma on business last week.

Mr. and Mrs. J. W. Kemp are at Weatherford, Texas, at the bedside of Mrs. Jack Kemp, who is ill.

June Park spent last Tuesday with Mrs. J. M. Smith.

Queens for the Fair

When the World's Fair opens in New York in the spring of 1939, the dairy industry will be well represented. Five breeds of dairy cattle—Aryshire, Brown-Swiss, Holstein, Guernsey and Jersey—will each have thirty outstanding cows in the "Dairy World of Tomorrow." These 150 cows will be milked in the Borden Building on the Central Mall, using a rotolator equipped with magnetic milkers to do the job. Calves and bulls representative of each breed will also be on exhibit.

The animals are chosen by a special committee from each Breed Association, and will come from all parts of the United States and Canada as representatives of the best that the breed can produce. The Aryshire cow shown above is one of the animals chosen.

In this exhibit not only the production of milk will be demonstrated, but the handling, bottling and sale of it will go forward under the eyes of the public. About one-third of the milk produced by the cows of this country is used as fluid milk. The rest is sold as butter, cheese, ice-cream, casein for paint, billiard balls, paper sizing, milk sugar for medicines, and in literally hundreds of other forms. The Borden exhibit will tell much of this story and give a better understanding of the place the dairy cow, as exemplified by these pure-breeds, and the milk distributor play in the scheme of things.

Red Cross To Hold Convention

From Constitution Hall, on Monday, April 24, 9:30 to 10 a.m., CST, both the National Broadcasting Company Blue and the Mutual Broadcasting Company networks will broadcast Chairman Norman H. Davis' opening address before approximately 3,000 delegates attending the 18th annual convention of the American Red Cross in Washington, D.C.

Secretary of State Cordell Hull's talk at the convention dinner at the Mayflower Hotel on Tuesday, April 25, will be carried from coast to coast by the Mutual Broadcasting System and to Europe and South America by short wave. Hull, whose subject as yet has not been announced, will speak from 8:30 to 9 p.m., CST.

To P.T.A. Meeting

Mrs. W. R. Cabaness, newly elected president of the Munday Parent-Teachers Association, Mrs. Bess Porter and Miss Dallas Smith spent last Tuesday in Electra, where they attended a district P.T.A. meeting.

Mrs. W. R. Cabaness and Mrs. Aaron Edgar were visitors in Adilene last Monday afternoon.

A survey of 150 leading corporations showed 6,490,000 investors, or twice the total number of employees.

ROAD JOB UNDER WAY

Dickens, April 16.—Topping on Highway 24 from Dickens 18.2 miles to the King County line is under way and should be completed within the next few days. Base work was completed several days ago and the oil base has been put down on the 18-mile stretch. Work between the Dickens-King County line to Guthrie, a distance of about 12 miles, is also nearing completion. Within the next few days motorists will be able to ride from Dickens to Guthrie and on to Fort Worth on a completely paved highway.

Rex Holder Moves Store To New Location

Perry Bros. 5-10 and 25 cent store, announce this week that they will open Saturday in their new location in the Gray building, formerly occupied by Sturgess & Gibbs. They have been busy all week moving in and arranging their big stock in the new and modernized shelves.

Roy Spears, general manager of Perry Bros. stores, and I. S. Sowell, West Texas division manager, have been here with the local store manager, Rex Holder, assisting in arranging fixtures and stock to present to the public Saturday.

Mr. Holder, young man with evident business ability, has been managing the store during the past two years. He was joined last week by Bill Dean, of Frederick, Okla., who will be assistant manager. The Coleman store has shown rapid progress since coming here about eleven years ago, it is stated, and in their new location will have still more room for development.—Coleman Chronicle.

FIRST BAPTIST CHURCH

Our Training School is going over in a good way this week. This is very necessary to the proper working of our Sunday School plans.

Sermon subject next Sunday, Comfort for the Soul in Distress. We will not have any service Sunday night, on account of the meeting at the Methodist Church. Let's concentrate our efforts on the Sunday morning service. Make a special effort to come. We are expecting to have 250 in Sunday School. Don't be a piker. Put your best into the church life. You will enjoy it, and at the same time help someone else to get a blessing. "No man liveth unto himself."

W. H. Albertson

Sunshine Circle Meets On Monday Night At Church

The Sunshine Circle of Methodist W.M.S. met at the church on Monday night, April 17, in a short program. Mrs. Levi Bowden was program leader.

Miss Merle Dingus, delegate to the conference at Pampa last week, gave a report of the conference.

Members present were Mrs. Joe B. King, Miss Ruth Baker, Mrs. E. Clayborn, Mrs. Glenn Stone, Mrs. Ralph Burrow, Mrs. L. Womble, Miss Dingus, Mrs. Bess Porter, Mrs. Levi Bowden and Mrs. Cecil Cooper.

Clayton Bridge of Dickens was here Tuesday attending the livestock auction sale, and while here visited with his sister, Mrs. Aaron Edgar. A former employee of the Matador Ranch, Bridge complimented the local sale very highly.

Mr. and Mrs. Grady Thornton went to Plainview last Tuesday, where they attended the Panhandle-Plains Dairy Show and visited relatives.

NEW CYMBRIA SINK ON CABINET

The new low-priced Kohler Cymbria now brings within reach of every housewife the joy of working at a cabinet sink. Spacious basin with Duo-drained stopper... depressed drainboard... extra-long swing-spout mixing faucet... low back to fit under windows... these are only a few of its work-saving, time-saving features. The enameled steel cabinet underneath the Cymbria has spacious drawers and compartments for pots and pans, cutlery, linen, and waste containers. Ample toe-space.

Read 'em and weep—that's what Mr. Cooper does. Monday morning I noticed Lewis was busy writing something and that he was very careful about who saw it; but he was not careful enough, because Mr. Cooper noticed his carelessness too. On examining it he found it to be a love letter. To whom? Some girl named Dottie, who lives in Abilene!!

The Junior class went on a very enjoyable picnic last Tuesday. It was a sort of welcome for our sponsor, Miss Darnell. We had dozens of apples, weiners, cookies, and the goodies that you would take on a weiner roast. We all got a fine start, and afterwards we got long sticks and roasted marshmallows.

I may say in these words, "We all were full as ticks and happy as a schoolboy fishing."

Then last Saturday we had a bake sale. There were many goodies and I understand that some of the girls that stayed at the City Hall were rather sick when they went home. We made \$5.35 on it, and we were very happy because 5 dollars is 5 dollars in anybody's money, and besides we are going to have the Junior-Senior banquet before long. If you see a sign up saying bake sale or some sort of sale, you may be assured that it is the juniors working their heads off to make those Seniors a nice banquet.

I understand that Lamoine Blacklock went to Abilene Saturday. Someone said he had the time of his life. Did he? I wonder!

Songs to remind you of certain people—

Leslie: "The Funny Old Hills."
 Lewis: "I Ain't Got Nobody."
 Maxine: "Happy Days Are Here Again."

Jimmie: "I Get Along Very Well Without You."
 J.B.: "Sleepy Time Down South"
 W.L.: "I Promise You."
 Ann: "Just Forget."
 Jean: "I Cried For You."
 Peggy Jo: "Cantcha, Wontcha Hurry Home."
 Lamoine: "Get Out of Town."
 Mann: "I Don't Worry 'Cause It Makes No Difference Now."
 Maurice: "Whistle While You Work."
 Orville: "My Heart Is Taking Lessons."
 Eliza Francis: "Paintin' The Clouds With Sunshine."

If I Had One Wish!!

If Marie had one wish she would wish school were out.

If Dorothy had one wish, she would wish she could think of a wish. (Dorothy, you're getting nowhere fast.)

If Mr. Cooper had one wish, he'd have a good football team next year.

Representative Roberts Hasn't Missed Vote In House During All This Session

Austin, April 6—One of the ideas of the "founding fathers" was that the legislature should be composed of men from all walks of life. The Texas legislature—a body of lawyers, farmers, business men and professional people—includes also several members of the powerful Fourth Estate—newspaper men.

One of the few newspaper men in the house of representatives is hardworking, conscientious Rep. Grady Roberts of Munday, who is serving his first term. Always on the job, Roberts takes all phases of his legislative duties seriously. So far he hasn't missed a single day of the session. He hasn't missed a single vote while the house has been transacting business. And he hasn't missed a single committee meeting.

Born Jan. 23, 1895, on a farm north of Decatur in Wise county, Rep. Roberts received his education in Byers and Petrolia high schools. He put in his first work on a newspaper as a printer's devil in the backshop of the Petrolia Roundup, which was owned by his brother

GRADY ROBERTS

Sam. Later he worked for his brother on the Burk Burnett Star. During the World War he served

in the U.S. Navy. Returning to Texas he went to work for his brother on the Haskell Free Press. In 1922 he married Elsie Killingsworth of Haskell, three weeks later moved to Chillicothe where he purchased the Valley News. He operated the News until June 9, 1937, when he leased it out to give his time to publishing the Munday Times. Since then he has devoted his main interest to the Times while retaining his ownership of the Valley News.

Rep. Roberts is a confirmed believer in compromise in government. He voted for the proposed constitutional amendment to finance the social security program although he preferred doing the job by passing a tax bill. He favors natural resources taxes and is opposed to levying a sales tax "unless it is absolutely necessary." One of his chief legislative interests is to promote the establishment of a cotton laboratory in Texas to develop new uses for the state's number one crop.—Abilene Reporter-News.

Maxine wishes that her new dog, Mr. Yang, could speak the "Yang Latin."

Wilma June wishes it weren't a sin to tell a lie.

Mac wishes he didn't have so much competition.

Winston wishes he were a little older. "The girls of my age are so silly."

Ann wishes she hadn't drawn Rule at district.

Jean wishes so much that she couldn't decide on one.

Leslie wishes he could walk straight in study hall and not skin his shins when he goes to sharpen his pencils.

Jimie wishes that out-of-town girls would stay out of town, and town boys would stay in town.

Wayne Patterson wishes he didn't have to take English.

Orville and Leslie wish that dates were easier to find in Haskell.

J. B. wishes that they would install beds in M.H.S. or else get some cushions for the desks.

Orin Joe wishes that he had a record of Wilma's new talk. She doesn't talk enough to suit him.

Maurice wishes he could live in Abilene. Just ask him what the attraction is.

Floy wishes she were a litterbug. LaVerne wishes that shorthand weren't so easy. She just won

third place in district. Not bad, eh what?

Lenore wishes she couldn't find so much to do.

This week the Seniors are playing questions and answers with Professor Quiz again. The Professor informs us that all of the questions can be answered in one sentence. We do not! The following questions were presented to the professor and he gave the same answer to all of them.

Do we always get our memory work in time?

Do we know where the Seniors will go on their trip?

Do we get out early this spring?

Do we know where Maxine and Wilma went Sunday night?

Do we write notes in study hall?

Do we know how many people were at the football workout last Friday night?

Do we know why we don't have entertainments often?

Do we have a Student Day in M.H.S.?

This is the last week in next to the last six weeks of this term. Everybody knows that means exams!

LaVerne Darter got third place at district in shorthand. She had ninety-eight per cent accuracy!

The student body seemed to enjoy the play that we gave last

week in chapel, and the seniors will enjoy the proceeds!

Judging by the rumor—plans for the Junior-Senior banquet are well under way.

A Fish said he didn't like Professor Quiz because he is too inquisitive.

What two junior girls spent Sunday riding with someone else's boy friend? Just because you were out of town you didn't have to take advantage of the situation, girl.

Although several students from Munday competed in the district meet, only one of them came through with flying colors. This student was LaVerne Darter, an entry for shorthand. LaVerne took eighty words per minute with 98 per cent accuracy, and thus won third place. She will be permitted to enter the regional meet to be held at Abilene April 22, next week-end. Congratulations to you, LaVerne, and may good luck be with you.

"I've got a friend I'd like you to meet . . ."

Athletic girl: "What can he do?"

Chorus girl: "How much has he?"

Literary girl: "What does he read?"

Society girl: "Who is his fam-

ily?"
 Religious girl: "What church does he belong to?"
 College girl: "Where is he?"
 —Coyote Journal

What we Seniors wouldn't give for all the money we've spent on rings, invitations, etc! We'd go to the World's Fair, believe me, for the sum adds up to well over \$300.

"Classmates"
 As we are called to our classroom To take up our studies there, And meet all the cheery faces Of our classmates who care.

As our teachers' stern voice arises, To start our day off right; We are content through our classes Our faces shining bright.

Our school is only normal, But the teachers are so grand. I love all my classmates, They always fill my hand.
 —Vera Bell

Home Ec Report
 The shrubs which Mrs. Dillon set out a few weeks ago are doing nicely. Even the flag fight didn't phase them.

At last all of the home projects are in, and next week the points will be counted and the three lucky winners will be announced in order that they may begin to plan for their trip to Galveston.

As you know, the students were rewarded points for any outstanding work which they might have done during the year. Grades, attitude in class, posters, bulletins, home projects, helping with the banquet, and the dresses which the girls made all counted points. Anything done to improve the cottage by any of the girls received points and helping with banquets also counted.

The winners on home projects are as follows:
 First place, 15 points, Sue Stodghill.
 Second place, 10 points, Evelyn McGraw.
 Third place, 5 points, Johnnie Maud Hendrix.

These winners are in the second year division.

GRAMMAR SCHOOL NEWS
 All aboard the bus for the round trip to Rhineland Saturday morning leaving at 8 o'clock. The games will be over by noon so no lunch or money is needed. Just get on the old bus and go out and help us win the Precinct Championship. The girls' team is composed of the following: Zenobia Lewis, Era

Faye Morrow, Bonnie Jean Hestead, Theresta Hannig, Madeline, Alta Prince, Mildred King, Geraldine Stevens, Inez Proffitt, Pauline Hancock, Louise Mullins, Vonne Rea Morrow, Lois Wandlow, Melba Yarbrough, Maggie Seaucy, and Maxine West.

The boys' team is composed of the following: John Gaines, Joseph McGraw, Bill Brown, G. C. Cowell, Edwin Lowrance, Billie Frank Armstrong, Alva Prince, Otis Harry, Clyde Wallace, Milton Thompson, Wallace Hood, Allard Manise.

Fire prevention posters were judged this week and the following won 1st place: 5th grade, Latranea Johnson, 6th grade, Frankie Mae Trammell, and 7th grade, Dorman Sipes. These students will make new posters on cardboard and get them ready for mailing next week to Austin to be judged in the state contest.

6B News
 In Health we are reading supplementary textbooks and find them quite interesting. In language Monday we had some very lovely poems. In math we are studying circles and parts of circles.

We are still wanting our class to go to Sunday School. We had a nice per cent last time but not enough to get the flower. We want 100 per cent.

This week finds us getting the fire prevention posters ready for mailing to Austin to enter the state contest. Frankie Mae Trammell won first place in the 6th grade and her poster will be sent to Austin for judging. Congratulations, Frankie Mae, and may you win first place in the state contest.

Leland Hannah was a business visitor in Fort Worth the first of this week.

Tom Harlan of Goree was a business visitor in the city Thursday.

MY MOTHER-IN-LAW
 The seniors report their play, "My Mother-in-Law," is practically ready for the big night. The characters have already been identified by such characteristic lines as the following:

Art Armstrong (E. G. Parkhill): "Yeah, love is blind, all right, but a mother-in-law is an eye-opener."
 Peggy Armstrong (Wardell Sweet): "Little Peggy's going to cook something nice for Shookums for lunch."

Alan Armstrong (J. E. Hunter): "Getting rid of Lolly is as easy as selling heaters in Africa."
 Mrs. Stover, the mother-in-law (Dorothy Garrett): "Remember that Peggy is a human being even if she is your wife. Things are going to be different around here from now on, make no mistake about that."

Fred Webb (H. D. Matthews): "We have talked it over, and you're through, Alan Armstrong. I want more than words. I want action! I'm a business man, not a philanthropist."

Shelia Stover (Traphene Wren): "Now, Mama, you shouldn't put such ideas into Peggy's husband."

Bernard Ledbetter (Orville Strickland): "Do you mean, Art, that Mrs. Stover is responsible for all the court plasters on your face?"

Laura Bradley (Hallie Phine Clarke): "If we only lived in olden times he would be standing in front of my window serenading me. Did they serenade in the morning or only in the evening?"

Rose Caldwell (Mary Herring): "You haven't forgot our appointment for this evening, have you, Alan?"

Beulah Hamtree (Winters Groves): "Oh me, oh my. How I wish dat mah sweet Oleander was here."

The seniors have been very fortunate in that they have secured the Knox City High School orchestra, directed by Mrs. E. Q. Warren, to play for them at their performance.

senior who has lettered in some event has been given a sweater by the school. The first year there were four seniors to receive sweaters. Five will receive sweaters this year. Those to receive letters this year were Orville Strickland, H. D. Matthews, J. E. Hunter, Louise Gray and Nettie Griffith.

Since each one to receive sweaters had his choice as to the color four of the seniors got white sweaters with a black chenille "S" on the left side and black rings on the left sleeve and one got a black sweater with a white letter and white rings.

Orville Strickland has four rings and a star on his sweater thus showing that he has lettered four years in basketball and was captain for one year. Nettie Griffith received the next highest number of stripes. She received two stripes and each of the other three, Louise Gray, H. D. Matthews, and J. E. Hunter, received one ring. Louise Gary received her letter by lettering in volleyball this year.

The high school had enjoyable time for a few minutes, laughing at the poor seniors as they, each in turn, stammered out his thanks for having received such beautiful gifts. (We may not be so good at speech making but anyway we hope that everyone understands that we are extremely proud of these sweaters.)

Each of the seniors receiving letters wish to express their thanks to the Sunset School for these nice sweaters and wish to urge each and everyone of the underclassmen to begin work at once so that they may have the joy of receiving a sweater in their senior year.

Sunset School Broadcasts

Over Radio Station KRBC
 A group of Sunset students and teachers motored to Abilene Saturday April 15, to broadcast over station KRBC at 4:00 p.m.

Those included in the broadcast were Victor Thomas, Wanda Sue Partridge, Francis Walling, June Stekton, Edna Hardin, Gena Beth Griffith, Virginia Parkhill, Vaudine Steokton, Clea Jones, Katie Bell Sweet, Madolyn Henderson, Virginia Tankersley, and E. G. Parkhill, Jr.

Others along in the group were Mr. and Mrs. E. G. Parkhill, Sr., and neice Aveline Shelton of Clyde, Texas, Mr. R. C. Partridge, Miss Eva Faye Hutton, Mr. and Mrs. L. W. Walling and Mrs. N. T. Underwood. Mr. Walling and Mrs. Underwood were the ones responsible for and who helped make possible this broadcast. Miss Faye Marie Partridge of Hardin-Simmons University was also among the listeners at the studio.

The group arrived in Abilene about 3:00 o'clock and all went up to the Studio in the Hilton Hotel to practice a little before they went on the air. Everyone almost held his breath as the clock on the wall reached 10 seconds until 4:00. Then they were "one the air." No one seemed to get miked fright and everyone reported to very enjoyable time.

Grade School Honor Roll
 First Grade—Weldon Mansfield, 96; Druella Frost, 95; Hollas Gid-eon, 93; June Scott, 90.
 Second Grade—Doris Wayne Phillips, 96; Teresa Harber, 95; Robna Moore, 96; Maxine Hill, 96; Carlyne Jones, 96; Carrie Bell Smith, 95; Billy J. Lain, 94; Wynell Stephens, 94; Bobby Joe Fitzgerald, 93; Louise Bales, 93; Joyce Conway, 92; Ina Ruth Hardin, 92.

 Juniors—Glendon Matthews, 95; Virginia Parkhill, 94; Margaret Hardin, 94; E. G. Parkhill, 93; Wardell Sweet, 90.

Seniors Receive Sweaters
 Last Monday afternoon five seniors became supremely happy—they received their sweaters. For the past two years each

RIGHT OUT OF THE AIR

By EARLE FERRIS

ROBERT "Believe It Or Not" Ripley, who is again being heard via the CBS network Friday nights at 10:30, will be honored with a Doctor of Letters degree on May 29. The degree will be bestowed by Dr. T. W. Bibb, President of Mis-

Ripley

souri Valley College, during the ceremonies commemorating the university's 50th anniversary.

You hear Tom Howard and George Shelton arguing every Monday night over CBS, when they're starred as the "Model Minstrels," but in their spare time they amuse themselves—you guessed it—by arguing. Their off-the-air debates are chiefly about the merits of their hobbies: Tom collects pipes, and George, old songs.

Selena Royle, famed Broadway actress, is playing a small but important part in "The Life and Love of Dr. Susan," heard over CBS Monday through Friday. Her father wrote "The Squam Man," the sensational hit play of a few decades ago.

The latest audience participation show to intrigue listeners' fancy is the Friday night MBS program "Where Are We?" Questions deal with outstanding news and historical events. Johnny Green's orchestra, heard on the "Johnny Presents" shows, provides the musical background.

Erskine

Marilyn Erskine, 12-year-old Broadway actress, is now playing regular roles in "Jane Arden," heard weekdays over the NBC-Blue network. She made her stage debut when she was three.

One of the prize souvenirs which Ezra Stone, star of Kate Smith's "Aldrich Family," has kept since childhood is a coat button. It is torn from the coat of a park policeman who "captured" Ezra during one of his early attempts to run away and go on the stage.

Harry "Bottle" McNaughton, heard with Phil Baker over CBS every Saturday night, is strutting around issuing challenges these days. Since "Bottle" married the golf champ, Marion Turpie, some ten months ago, he has lowered his own handicap at pasture pool from twelve to seven—which is good golf in a man's language.

McNaughton

Sixth Grade News
 The sixth grade pupils are studying how to write poems in English. Here is the best one.

On the banks of the Brazos river
 Where the coyotes run and howl
 Where I've sat time after time
 And listened to the water growl.

It runs through towns and hills
 Of Texas' fair great land
 Where the cattle roam in thousands
 Of many a mark and brand.

On the banks of the Brazos
 Many animals have run and played
 Many years without trouble
 Till they molded and decayed.

In the Brazos may fish have been
 And on its banks many deer run
 Many wolves on it have prowled
 Many people have had fun.

—By Wallace Jennings

Seventh Grade News
 The seventh grade has been studying how to write poems in English. Here are the two best ones:

Washing Dishes
 With a splash and a merry clatter
 Into the pan they go
 The plates, the knives, the forks

Are washed as white as snow.
 I just hate washing dishes
 But its my daily work
 Its each night after supper
 I never get to shirk.

I don't suppose I should complain
 But it does seem kinda tough
 To do the same thing every night
 They're never washed enough.

—By Glynadalin Frost

Dust
 Dust, is that what you said?
 "Yes," cried the tiny daffodil,
 As she dropped her head
 This wind, to stop blowing,
 Never will.

It blows for hours and hours
 Across land and sea,
 It smoothes all my friends
 And almost covers me.

Just the lightning flashed
 And how the thunder did roar
 "It's raining," the daffodil shouted
 "I won't be covered with dust
 and more."

Then the daffodil was happy
 In the cool breeze she sways
 She wishes to than kthe rain
 For chasing the dust away!
 —Bertha Faye Jennings

The electric fixtures are installed in our school now. We are certainly thankful for this modern convenience. We are all very glad to have the precinct playground ball playoff here Saturday, April 22.

Senior Class News
Exams are over and the Seniors are extremely proud of their grades because they were so good. We do believe that we surprised our teachers by making such perfect grades, but we would like to stress the fact that we are not so ignorant after all, even though we do put on a wall-eyed horse act once in a while.

During the past week the Seniors selected and ordered their invitation cards. We expect them to be in within a few days.

Somehow or other a message came to us Monday morning that Alma's car caught fire Sunday night. What could have been wrong with the battery, Alma?

South's History To Be Published

Publication of the first definitive history devoted entirely to the South is being undertaken jointly by The University of Texas and Louisiana State University, it was disclosed here today.

The ten volume series, to cover the period from 1607 to 1940, will be the University of Texas' first major venture into the historical publishing field, Donald Coney, University librarian and secretary to the Board of Trustees of the Littlefield Fund for Southern History, declared.

Editors of the history will be Drs. Charles W. Ramsdell and Wendell H. Stephenson, professors of history at the University and Louisiana State.

Each of the ten volumes will be written by one of America's best-known historians, according to Dr. Ramsdell. Manuscript contracts, signed this week, call for "immediate work" and early volumes should appear within two years.

The series is to be financed by the Littlefield fund, from which \$125,000 can be taken and by Louisiana State funds.

"The series will furnish the only complete and authoritative picture of Southern history in existence," declared Dr. Ramsdell, who will also prepare one of the volumes. "I believe it will be one of the most important historical works ever compiled in America."

Donor of the University's historical fund, Dr. George W. Littlefield was one of the University's greatest benefactors, giving the institution about \$1,650,000 during his lifetime. In 1914 he created the Fund for Southern History with \$25,000, which his will expanded in 1920 by another \$100,000.

Danger Spots On Highways Are Shown In Survey

Alarmed by the great increase of highway accidents during the past few years, the State Highway Department, in co-operation with the U. S. Bureau of Public Roads, has completed recently a survey of hazardous conditions on all the highways of the State. This survey found a total of 42,863 danger spots on the 20,000 miles of State highways, an average of two per mile. These facts were revealed today by Julian Montgomery, State Highway Engineer at Austin.

Danger points on the highways take the form of curves that are too sharp, grades that are too steep, and places where there is insufficient view of intersecting road or of the roadway ahead. The Highway Department's survey disclosed 9,255 excessive curves, 3,363 excessive grades, 2,357 intersections with inadequate view of the intersecting road, and 27,948 points with insufficient clear view of the roadway ahead.

Mr. Montgomery explained that these factors were not regarded as hazardous at the time the roads were built. Driving at higher speeds has turned them into danger points. Highway building has failed to keep pace with the motor car industry, Montgomery admitted.

"While the danger points are being provided with warning signs, reflector buttons visible at night, scientifically designed center stripes, and other protective devices, it is obvious," stated Mr. Montgomery, "that greatly increased expenditure for highway construction is needed to eliminate permanently these hazards to the driving public."

Even Comedians Take Spring Tonics

In the spring a comedian's fancy turns to anything but a spring tonic. But George Shelton insists on giving a large dose of sulphur and molasses to his Model Minstrel partner, Tom Howard. The pair is heard Monday nights over CBS.

Typhoid Fever Control Rated As Achievement

"The control of typhoid fever in the United States represents an outstanding achievement in preventive medicine. In 1900 the national death rate from this disease was 31.3 per 100,000 population. Today the rate is 2.1 nationally, but 6.5 in Texas. This marked decrease in typhoid's killing power is based on knowledge of its cause, how it is spread, and the application of scientific control measures," states Dr. W. Cox, State Health Officer.

Today no other disease is more vulnerable to scientific attack than typhoid. Indeed, it is no exaggeration to say that, from a public health viewpoint, there should be no typhoid fever.

"Typhoid fever is caused by a germ. The organisms are found only in the excreta of persons suffering from it, or in those of carriers, the latter being persons who harbor the germ but are not ill. If it were possible to prevent people from becoming infected with germs coming from these sources, typhoid would cease to be a problem.

"In cities and towns, thanks to safe water and milk supplies, adequate sewage facilities, and environmental sanitation, typhoid has been almost eliminated. Unfortunately, sanitary and environmental protection on a community basis cannot be offered to those living in rural areas. While control methods are the same for both city and country, in rural districts it is essential that not only public health officials but the householder become personally interested in them if they are to be effective," Dr. Cox warned.

"If every rural dweller in Texas realized his personal obligation in the anti-typhoid campaign and conscientiously took the necessary precautions, the typhoid rate in Texas would eventually come close to the vanishing point. It is an attainable objective. Personal cooperation in eliminating typhoid hazards and wide-spread typhoid immunizations are the key.

IT PAYS TO ADVERTISE

New Award To Be Given "Home Town" Speakers

A scholarship in the Central Texas School of Oratory at Brownwood was announced today as an additional award in the My Home Town speaking contest at the 21st annual West Texas Chamber of Commerce Convention in Abilene, May 15-17. The new award was announced by Judge C. M. Caldwell, Abilene, contest chairman.

Offers of scholarships from seven West Texas colleges and universities already had been announced. Cash prizes in the con-

test will be \$25 for first, \$15 for second and \$10 each for fourth, fifth and sixth places. The contestants to come the greatest distances will receive \$10 for first prize and \$5 each for the next three prizes.

Entries in the contest already have been filed by forty towns.

STEVENSON BREAKS TIE ON GAME-FISH BILL

To the lot of tall, rangy Lt.-Gov. Coke Stevenson, whose ranch near Junction is a hunter's paradise, fell the chance last week to save a bill imposing universal hunting and fishing licenses on Texas sportsmen.

With the vote 14-to-14 on the bill, Stevenson broke the tie, sent the measure to the House. Main features of the measure were:

A \$2 hunting permit required of all hunters except when hunting on their own land.

A \$2 annual fishing license except when fishing in the county of residence or on property owned by the fisherman in another county.

Fishermen may obtain a three-day permit for fifty cents if they do not want a season license.

Another important provision of the bill repeals all local game laws now on the statute books, giving the Game, Fish & Oyster Commission the right to promulgate rules and regulations applicable to the various communities.

The game-fish bill has the backing of sportsmen and the Game, Fish & Oyster Commission which would have greatly increased authority.

Visiting Hours Are Announced At Observatory

"Intense public interest" has caused a regular schedule of four visiting hours per week to be set up at McDonald Observatory near Ft. Davis, beginning May 8, University of Texas officials announced here recently.

In addition to the regular visiting hours, public observation through the telescope will be sched-

uled for the last Wednesday of each month.

Visiting hours as announced by the Observatory director, will be from 1 to 1:30 p.m., Central Standard Time on week days, and from 2 to 3 p.m., on Sundays.

During these hours, an experienced operator will demonstrate the telescope and describe the work of the Observatory, Dr. Struve declared.

Public "star-gazing" from 8:30 to 10 p.m. on the last Wednesday of each month, is to be limited to visitors who have written and secured from Observatory officials, a time-schedule for their particular observation, Dr. Struve said.

Cotton Lab Would Bring New Era, Moffett Says

Should Texas establish a cotton research laboratory?
Just ask Senator George Moffett of Chilton. He has said that he will do his best to persuade you that a research laboratory to develop new uses for cotton is one of the most vital needs of the state.

While a member of the House of Representatives, Moffett sponsored bills on several occasions to establish a cotton laboratory in Texas. The seventh time his bill passed the Legislature, but it was vetoed by Gov. James V. Allred because no revenue was provided for that purpose.

Newly-elected to the Senate after four terms in the House, Moffett is still fighting to set up a Texas cotton laboratory in spite of the fact that the Federal government last year decided to locate such a research agency for the South in New Orleans. Hardly a week passes but that he will find some way to push his proposal.

"A little more than one-half of the people of Texas are dependent upon agriculture," he points out. "Over 70 per cent of these people live on cotton farms."

"For the ten-year period, 1922-31, Texas planted annually an average of 16,212,000 acres in cotton from which 4,500,000 bales were harvested each year. This cotton, together with the seed, brought the farmers of this state \$438,000,000 annually."

"The bill to create a cotton research laboratory should pass. It's true that the Federal government plans to establish a research laboratory at New Orleans to work on cotton, peanuts and sweet potatoes, but the establishment of a Federal laboratory doesn't close the field of possibilities for a state laboratory," Moffett said.

G. T. Hardberger of Knox City attended the livestock sale here Tuesday.

Bert Hellums of Haskell, former Goree resident, was a business visitor in the city Tuesday.

Holcolm May Be Candidate For U.S. Senate

Dallas, Tex., April 17.—Rumors were thick here during the week to the effect that the first opponent to announce his candidacy against the Senator, Tom Connally of Waco, would be Hick Holcolm, who successfully managed the campaign which elected Jerry Sadler to the Texas railroad commission last summer.

Holcolm, a former representative from Gregg County was in Dallas over the week-end, passing through here from Amarillo where he was the banquet speaker at the annual meeting of the Panhandle Press Association. He admitted when questioned that several of his newspaper friends in attendance at Amarillo had urged his candidacy against the Junior Senator.

Holcolm who has been a figure in Texas politics for the past several years would neither deny nor confirm the rumors. He did admit however, that he was being urged to announce and to make the race.

CARD OF THANKS

As our hearts are heavy with sorrow, we turn with thankfulness to the many kinds of friends for their loving kindness shown on every hand.

For the many acts of kindness, the beautiful floral offering and the thoughtfulness shown by our friends and the words of consolation we shall ever feel grateful to a degree that is beyond words to express.

Mr. and Mrs. S. E. McStay
Dee McStay of Vernon
Mrs. Cynthia Newton and
Children of Happy, Texas.

H. A. Pendleton was a business visitor in Sweetwater last Tuesday.

Mr. and Mrs. M. L. Barnard visited friends and relatives in Goree Sunday.

County Superintendent Merick McGaughey of Benjamin was a business visitor here last Tuesday.

Hitler on Defensive Says Karl von Wiegand

ROOSEVELT'S recent speech to Congress has put Adolf Hitler on the defensive for the first time, according to Karl H. von Wiegand, celebrated correspondent in an article in the May issue of Cosmopolitan magazine, entitled: "Hitler at the Cross Roads." Hitler has always been convinced that the United States would never inject itself into another European conflict and has given little thought to the attitude

The Duke and Duchess of Windsor Visit the Führer

of this country, persistently ignoring the warnings of his Washington Ambassador, Mr. von Wiegand says. Now he is suddenly faced with the problem of the Administration's attitude and this attitude will undoubtedly have an effect on his future plans. Hitler has the greatest contempt for our democracy but he is aware of the human and material resources of America and the blows that these can strike.

Hitler is not a physical menace to the United States unless he makes an alliance with Great Britain; unless England should become Fascist, or unless Nazi Germany should conquer England. All of these possibilities seem remote. To Mr. von Wiegand, with whom Hitler has always been unusually frank, he has persistently ridiculed the idea that he has designs on America. "How can I get there?" he inquires sarcastically. He admits that it would be necessary for him to have command of the British fleet to accomplish this. There have been many wild reports about the strength of the German air force, most of them flattering. Mr. von Wiegand says, Hitler

himself takes a common sense view of aerial power. He says, "Air power can destroy, demoralize and intimidate. It cannot take an objective, occupy it or hold it."

The inner conviction of Hitler that his own days are numbered is also a contributing factor to the course he will pursue in the immediate future. In the circle immediately around him there is a nervous dread of angering the Führer. He is surrounded by yes men, afraid to bring him bad news, fearful to insinuate that things are not as he conceives them to be.

Hitler is a mystic with strong psychic perceptions. He does not commune with spirits, he communes with himself and in his meditations, inspiration comes to him. He is convinced that he was given a mission by Providence. The fact that many of his conclusions have been borne out by events has given rise to the idea that he has second sight—an idea encouraged by German cultural leaders who wish to inculcate in German youth a belief that Hitler is a superman.

Gas Head Says Austin Court Ruling Conflicts With U. S. Supreme Court

The ruling of the Austin Court of Civil Appeals in the Lone Star Gas Company Gate Rate Case is in direct conflict with the judgment of the United States Supreme Court, according to a statement issued by L. B. Denning, president of the company. Mr. Denning indicated that the case which had been pending for more than six years would again be carried through the Appellate Courts. His statement follows:

"It seems clear to us that the latest ruling of the Court of Civil Appeals is in direct conflict with the opinion and judgment of the Supreme Court of the United States. The company was of the opinion that the decision of the United States Supreme Court finally settled the case, but it now appears that the Court of Civil Appeals has repeated the ruling which was reversed by the Supreme Court, hence it becomes necessary for the company to again prosecute the case through the appellate courts.

"The decision of the Court of Civil Appeals is primarily based upon its opinion that the company's evidence was legally insufficient to prove that the rate fixed by the Railroad Commission was unjust, unreasonable, and confiscatory. It accordingly reversed the judgment of the trial court and findings of the jury, which held that the rate fixed by the Railroad Commission was unjust, unreasonable, and confiscatory. This is the same ruling which the company appealed to the United States Supreme Court. Upon a full review of the case and the company's evidence, the Supreme Court reversed the ruling of the Court of Civil Appeals and held that the District Court had properly submitted the company's evidence to the jury, which found in its favor. It further held that the determination of the District Court and jury as the tryer of the facts that the Commission's rate was confiscatory could not properly be set aside by the application

of an untenable standard of proof and in disregard of the evidence which had been appropriately addressed to the commission's findings and had been properly submitted to the jury."

Weather Report

Weather report for week ending April 19, as recorded and compiled by H. P. Hill, Munday, U. S. Co-Operative Weather Observer.

	LOW	HIGH
1939 1938		
April 13-57	59	79

Regular Meet Medical Group Held Tuesday

The Knox-Baylor-Haskell County Medical Society met Tuesday night in its regular monthly session at the Home Economics cottage, in this city. The dinner was served at 7:30, after which a film was shown by a representative of John Wyeth Company. The scientific portion of the meeting consisted of a symposium on pneumonia.

Dr. T. C. Terrell, district counselor of this district, and A. B. Pumphrey of Ft. Worth were present. Dr. Fred Hudson, district counselor of Stamford district was also present.

The following members were present: Dr. J. W. Foy, Dr. R. K. Lowry, Seymour; Dr. W. M. Taylor, Goree; Dr. T. P. Frizzell, Dr. T. S. Edwards, Knox City; Dr. O. J. Emery, Rochester; Dr. Ernest Kimbrough, Dr. T. W. Williams, Haskell; Dr. Ike Hudson, Dr. E. P. Bunkley, Stamford; Dr. D. C. Eiland, Dr. A. A. Smith, and Dr. R. L. Newsom, Munday.

STATEMENT OF SENATOR TOM CONNALLY OF TEXAS

Washington, D.C., April 13.—Senator Tom Connally of Texas introduced an amendment to the Agricultural Appropriation Bill to provide an additional appropriation of \$60,000,000 for use of the Secretary of Agriculture under Section 32 of an Act to Amend the AAA, approved August 24, 1935. Section 32 was originally adopted through an amendment offered by Senator Connally in 1935.

"To secure provision toward parity payments I strongly favor the adoption of an amendment in the Senate for \$250,000,000 for such parity payments.

"I have also offered an amend-

ment to increase the funds available under Section 32 in the amount of \$60,000,000. Section 32 is that provision which allows the Secretary of Agriculture to employ 50 per cent of all customs revenues for farm benefits and for handling surplus agricultural products.

"It is believed that with the adoption of the \$250,000,000 parity payments and the \$60,000,000 increase under Section 32, substantial provision will be made for carrying out the agricultural program for 1939."

Sheriff Louis Cartwright was a business visitor in the city Tuesday.

Mrs. A. E. Womble is visiting her son, J. E. Womble, and wife, of Moorland, Okla., this week.

Mrs. E. C. Henry of Floydada visited her daughter, Mrs. C. P. Baker, here several days last week.
