Knox School Program Is In 'Big Business' Category

Building Includes An \$85,000 Plant At Benjamin

Benjamin, May 1.—With a total yearly expenditure of approximately \$175,000, the school system of Knox county is in the "big business" category.

The head man for this business is Merick D. McLaughy, who took over duties as county school superintendent, January 1. Prior to his successful campaign for the four-year job, he served as superintendent at Vera for two years and before that was at Amherst.

A building program—the first in three years—is in the making for Knox county. Plans have already been approved for an \$85,000 school building here and construction will start immediately. It will replace the stone structure erected in 1910.

Seeking \$35,000

Gilliland, in the northeast part of the county, is seeking a \$35,000 WPA-sponsored project to erect a school, replacing the one which was destroyed by fire in February. The state office already has approved the project and plans have been forwarded to Washington.

Prior to these projects, the gymnasium-auditorium at Sunset, east of Knox City, was the last building.

Knox county common school districts are Benjamin, Cottonwood, Hefner, Gilliland, Rhineland, Union Grove, Brook, Dixon, Sunset, Vera; and the independent schools are Knox City, Munday, Truscott, and Goree.

With an enrollment of 550 scholars and a faculty of 21, headed by Dr. J. Horace Bass, Munday is the largest school in Knox county. Knox City, with an enrollment of 340 and a faculty of 13, A. M. Whittis, superintendent ranks second.

Goree School

H. D. Arnold is superintendent at Goree, a school with 270 scholars and 10 faculty members. A number of high school students from surrounding rural schools attend Goree.

Located in the north portion of Knox county is the fourth independent school, Truscott, which has an enrollment of 160 and faculty of seven. A. F. McMinn is superintendent.

Of the common schools, Benjamin and Sunset are fully affiliated.

W. C. Cunningham is superintendent of the Benjamin school of 245 students. Other members of the faculty are Wendell Watson, Francis Basye, Francis Dierking, Voyal Vaughan, Mrs. R. C. Ferguson, Bliss Miller, and Oleta Thompson and Mrs. W. C. Cunningham.

Edward Adams is principal of the Cottonwood school, located east of Vera. Eighty students attend the three-teacher school. High school pupils go to Vera and Benjamin. Other members of the faculty are Mrs. Edward Adams and Mrs. R. L. McMahon.

101 At Hefner

Eva Jones and Mrs. Lucille Marlow are teachers in the Hefner school, seven miles northeast of Goree, which has an attendance of 101. High school students attend Goree.

There are 138 scholastics at Gilliland, in the southeast part of the county, where nine grades are taught. Sam H. Thompson is superintendent of the following faculty: Forrest B. Carter, Mary Strothers, Mrs. Sibyl C. Thompson, Elizabeth Parris. Classes have been held in temporary buildings since the school was destroyed by fire. (Continued on Page 8)

Hudson Runs Into Half Munday At Ruidoso

"It was like a dream when I met all these folks from Munday," I. L. Hudson, Sr., well-known resident of Knox county, said when he returned last week from a visit to Ruidoso, N.M.

Mrs. E. M. Clark and son of Ruidoso visited Mrs. Clark's parents, Mr. and Mrs. I. L. Hudson, and they took them home recently. Their daughter, Miss Edna, remained in Ruidoso for a visit.

Mr. Hudson went to town one day, and declared he saw half of Munday there. Among them were Tom Rigsby and family, Phil Lowry, Roy Chamberlain, and Roy Davis of Knox City. He said they were all having a wonderful time, and they can't see why people stay down here in these sandstorms!

On their return home, the Hudsons visited Mrs. Hudson's sister in Littlefield and her brother in Lubbock. Miss Nell Nix accompanied them on the trip, and "since Edna is gone, I'll say that Nell is the best driver in Texas," Mr. Hudson concluded.

Tuesday's Sale Runs Near To The \$10,000 Mark

375 Head Cattle Are Sold At Auction

TUESDAY SALE

With approximately 375 cattle being sold in the auction ring, the livestock auction sale last Tuesday ran near the \$10,000 mark, falling just a little below the mark set the week before.

Cattle sold swiftly, with bidding being done on several groups ranging from 8 to 23 head to the group. This sale by groups is particularly advantageous to buyers who wish to secure a load of cattle quickly. Still other cattle were sold singly, with bidding being rapid on each sale. Plenty of buyers were on hand to bid on cattle as they entered the auction ring.

Due to the briskness of the sale, the auction was completed earlier than usual. The last sale was made at four o'clock Tuesday afternoon.

Quite a nice bunch of hogs were also brought in to the sale, it was reported.

Roy Samsill of Burkburnett visited Miss Loveda Cheek here last Saturday and Saturday night.

RETURN TO RELIGION SOUGHT BY GOVERNOR

A return to religion last week was advocated by Governor W. Lee O'Daniel in his Sunday radio chat.

"What we need in this world today more than anything else is a big revival. I would like to see a lot of them going on all over Texas," he said.

He asked churches to send him the record of how many new members joined on the day he asked them to.

Ho, Hum ... Women Out-Talk Men

HELEN E. POWELL

FAY COOPER

DENTON, Texas.—When Bulock Hyder, debate coach at North Texas State Teachers College, closed his books on forensics this spring he found that women debaters had far outstripped his men in having the last word.

Hyder's number one women's debate team composed of Fay Cooper of Petrolia and Helen E. Powell of Vernon came home with two meet championships in the women's division—the Pi Kappa Delta regional at Louisiana College, Pineville, and the Trinity University tournament at Waxahachie. The best of the Denton boys' team could do was to reach the semi-finals in every meet attended.

In addition, Fay Cooper, a blonde

little gal with a real gift of gab, has placed as an individual or a team member in every meet which she has entered. In women's extempore she won first place at the Savage Forensics at Durant, Okla., at the Trinity tournament, and at the Louisiana Forensics at Natchitoches. She also won second at the Baylor tournament.

The North Texas debaters are especially proud of their Pi Kappa Delta championship, since Pi Kappa Delta is the largest forensic fraternity in the United States, and the province tournament in which they competed includes 18 chapters in schools in three states—Texas, Arkansas, and Louisiana.

Contest Will Select Most Popular Child In Munday

Citizens Urged To Use Library

Those in charge of the Munday Library have expressed a desire to serve more people of Munday with literature, and all are urged to make use of the library. In it will be found many interesting books and magazines, and the library is being maintained for your convenience. Use it!

The following is the library report for the month of April:

No. days to issue books, 24	26
No. books loaned girls	56
No. books loaned boys	182
No. books loaned adults	264
Total	264
Average daily circulation	12
Smallest daily circulation	3
Largest daily circulation	22
Fiction loaned adults	161
Non-fiction loaned adults	21
Magazines donated	22
Magazines loaned	23
Books donated	3
Fines collected	\$1.33
Rents collected	\$2.98
Total	\$4.31

1939 Football Squad To Play Exes Monday

Next Monday night at 8 o'clock the 1939 Moguls will play the ex-football stars of Munday high school in an interesting spring training game. This game will be played on the local gridiron.

This game will conclude eight weeks of intensive spring training, drilling on T.C.U.'s intricate double wingback system.

Those who want to see a prospective winning Mogul team in action are cordially invited to see this game. Coach Cooper's boys are closing spring training in fine condition, and prospects are for an A-1 football squad next fall.

Mrs. A. P. Barker and son, Arthur, Jr., of Lockney visited in the home of Mr. and Mrs. C. P. Baker last Saturday.

Honor Graduates Are Named

Miss Longino Makes Highest Grade Of 1939 Seniors

Honor graduates for Munday High School were announced this week, after compiling the grades of members of the senior class. Miss Lenore Longino, daughter

Masons Elect Officers Monday

Members of the Munday Masonic Lodge held their regular meeting last Monday night at which time officers were elected for the ensuing year.

L. M. Palmer was elected worshipful master of the lodge, succeeding John Spann, who has served for the past three years. Other officers elected are:

M. F. Biffingsley, S.W.; R. C. Partridge, J.W.; J. A. Caughran, secretary; Lee Haynes, treasurer, and R. B. Bowden, Tyler.

The new officers will be installed at the regular meeting in June. In addition to the above, there are several appointive offices yet to be filled.

Deed To Grant Of Land Signed By Sam Houston In 1841, Property Of Mrs. Bess Porter, Displayed Here

Other Old Articles On Display Friday At Revival Service

Among old articles of value which were displayed at the Methodist church last Friday morning at the services honoring the older people was a deed to a grant of land which bore the signature of Sam Houston.

This deed is the property of Mrs. Bess Porter and has been in the family since 1841, the date of its issuance. This deed was to a tract of land purchased from the Indians, and bore the signature of Sam Houston as president of the Republic of Texas.

Mrs. Porter also brought to the service a receipt for \$2.00, which was in payment for the Christian Advocate and was dated November 22, 1861. It was issued to Dr. E. A. Martin, and Mrs. Porter stated that some member of the family had been taking the Advocate since that time. "The Christian Advocate circle has not been broken in four generations," she said.

Also on display at the service was a copy of the smallest New Testament in print. It was owned by Mrs. Massey, contained 224 pages, and the print was so small it could not be read by the naked eye.

An old Bible, property of Miss Shelley Lee, which had been used by three generations was also shown.

Shown also were minutes of the Association of Primitive Baptists. The oldest copy was of the association in 1874 in Marshall county, Kentucky. Others bore the dates of 1879 and 1881.

Miss Shelley Lee also brought a Bible which her father and mother owned when they first started housekeeping.

Rev. Longino had a copy of the Methodist Hymnal, which had been presented to him.

The oldest man present at the service was Uncle Bud Morgan, 84 years of age. The oldest lady was Mrs. Ida Simkins, 82, mother of Mrs. Longino. Each were given presents at the service.

Masons Elect Officers Monday

L. M. Palmer Elected Master To Succeed John Spann

Members of the Munday Masonic Lodge held their regular meeting last Monday night at which time officers were elected for the ensuing year.

L. M. Palmer was elected worshipful master of the lodge, succeeding John Spann, who has served for the past three years. Other officers elected are:

M. F. Biffingsley, S.W.; R. C. Partridge, J.W.; J. A. Caughran, secretary; Lee Haynes, treasurer, and R. B. Bowden, Tyler.

The new officers will be installed at the regular meeting in June. In addition to the above, there are several appointive offices yet to be filled.

Visitors were present from Benjamin, Rochester, Goree, O'Brien and Knox City. Activity in the local lodge is expected to be revived during the next few months.

The entered apprentice degree was conferred on Howard Cobb at the meeting Monday night.

"Mystery at Midnight" To Be Presented in Munday

Portrait of Connally To Be Unveiled

On May 5th, in the senate chamber will be unveiled a painting of Senator Tom Connally.

Presentation will be officially made by former Governor Dan Moody, acceptance by State Senator Clint Small, and behind it all is seen the "fine Italian hand" of former Attorney General Walter Keeling.

Friends of the Junior Senator assert they believe in breaking the alabaster box of love before the recipient of their affection passed on. The painting is a gift of many privates in the Texas ranks.

Mrs. T. R. White and daughter and Miss Ollie Clack of Kingman, Ariz., and Miss Thelma Warren of Los Angeles, Calif., visited in the home of Mr. and Mrs. Ben Guinn on Wednesday.

American Legion Post Sponsoring Comedy May 11 and 12

"Mystery at Midnight," a thrilling comedy drama, using local talent as members of its cast, is to be presented at the school auditorium next Thursday and Friday, May 11 and 12.

Miss Karla Hayton, who is directing the show, comes to this city highly recommended. She has had many years of professional stage experience and has appeared with many radio and screen stars of today.

"Mystery at Midnight" has been produced throughout the country and is a play of outstanding merit. The casting committee has announced the complete cast, and they are working every night in an endeavor to give Munday the best production that has ever been staged here.

"Mystery at Midnight" is being sponsored by the American Legion Post No. 44, and the Study Club. The proceeds of this play are to go toward buying post colors and also toward the upkeep of the American Legion room. The study club is planning to use their money for the betterment of the library and the upkeep of the building.

Be sure to see "Mystery at Midnight," for a truly enjoyable evening, and also remember that while you are being entertained you are doing your part to help the community.

Carley-Mahan Burial Ass'n Is Organized Here

Burial Protection Is Offered Those Of Modest Incomes

Announcement was made this week of the organization of the Carley-Mahan Burial Association, organized by Boyde Carley, Southwestern Life Insurance representative and Wade Mahan of Mahan Funeral Home.

Mr. Carley pointed out that in his contact with the public in an effort to insure the people of this section, he is only too often impressed with the fact that there are many people who are unprotected because either the cost of \$1000 insurance policies—the smallest written by old line legal reserve companies—is prohibitive, or many who would otherwise have this protection are too old to be accepted.

In connection with Mr. Mahan he has worked out the plan of the burial association to provide a modest yet impressive burial for members of the association at a cost within the reach of every person in this area, regardless of financial circumstances.

"This burial plan should practically eliminate financial difficulties often experienced by bereaved families," Mr. Mahan stated, "and we believe that we can materially aid at least 1000 families in this territory who are at present, due to circumstances beyond control, unable to aid themselves when an emergency arises."

Any white person living in this section between the age of 1 month and 75 years at the date of application will be considered for membership in the Carley-Mahan Burial Association. Such members presents at the service.

Atkison Named President Of Golf Club; Activity Is Planned

Committees Named To Plan Activity For Summer Months

About twenty Munday people who've been bitten by the "Golf bug" gathered at the First National Bank on Thursday afternoon of last week, at which time the Munday Golf Club was organized for another year.

"Now listen, fellows, I'm going to play out some of these days," W. H. Atkison said when golfers began to agitate his name for president. But they decided he'd make the best president they could have, and overruled his objections and elected him for another year. Dr. J. Horace Bass was elected vice

president, and M. L. Wiggins, secretary.

Various committees were named as follows:

Tournament: H. F. Barnes, Dr. E. M. Roberts and E. H. Bauman, finance, W. E. Braly, E. W. Harrell and T. G. Bengo.

Greens: H. A. Pendleton, W. H. Atkison and Jim McDonald.

Membership: Oates Golden, W. R. Cabaness and T. G. Bengo.

All members present agreed to authorize the secretary to draw on their accounts each month for dues, and other golfers who were not present will be seen for membership.

Golf tournaments will likely be planned during the summer months.

Moffett Bill Would Award Prize For Finding New Use For Cotton

Foreign Consumers Can Buy This Cotton Cheaper Than U.S. Consumers

Senator George Moffett of Chillicothe, on last Monday introduced a bill which will provide as much as a \$10,000.00 award for any resident Texas chemist, or other person who discovers a new use for cotton by which consumption is increased as much as 300,000 bales annually. The Governor of Texas and the Presidents of A. & M. College and the Texas Technological College are designated as judges of whether the actual increase in consumption has taken place, and the payment of the money is authorized to the person designated by them.

Senator Moffett said: "The Federal Government is subsidizing the exportation of cotton to the tune of approximately \$10.00 per bale, which means that

foreign consumers can buy this cotton cheaper than U.S. consumers. This bill provides an award of approximately 3c per bale to anyone who can discover a new use for cotton whereby consumption is increased as much as 300,000 bales annually. We have been spending too much effort on production control and not enough on expanding consumption of cotton. Furthermore, patents and copyrights are constantly granted by the U.S. to those who discover a new machine or write a new book. These patents and copyrights are frequently very valuable. At present we offer nothing to an individual who finds a new use for cotton. It is certainly a justifiable step for Texas to offer

"What a Man Does For Himself Dies With Him— What He Does For His Community Lives On and On"—

AVOID ACCIDENTS! YOU CAN'T WIN!

It's a serious business to be involved in an accident with your automobile!

If you are involved in a fatal motor vehicle collision the odds are 2 to 3 that you will be killed.

If your car strikes a pedestrian, the odds are 1 to 5 that you will kill him.

If your automobile is involved in a train collision, the odds are 2 to 7 that someone will be killed, and if the accident is fatal, the odds are 3 to 4 that you the driver, will be killed.

If you lose control of your car and overturn, you invite death 1 out of 7 times.

Observe no-passing stripes, warning signs and signals and stay in your lane, clear of stripe, except when passing. Collisions between motor vehicles account for 32.6 per cent of all fatal accidents.

Drive with caution at all times. Reduce speed when adverse conditions prevail. Help make Texas road and streets the safest in the nation.

COTTON AT THE GROCERY

Sugar is sweet to the South both for the customer and the merchant when it's packed in cotton sacks, according to the National Cotton Council of America and the Cotton Textile Institute, the organizations jointly sponsoring National Cotton Week.

The statisticians of these organizations have proved that every time a carload of sugar is packed in cotton bags, no less than 16,800 cotton containers are used. And what does this mean?

It means a day's work for 43 cotton farmers, 32 cotton mill employees and eight cotton-bag employees—a total of a day's work for 83 persons!

Last year, American retail merchants sold to you and me and other consumers more than four and one-half million tons of sugar, amounting to 120 thousand carloads. If every bit of that sugar had been packed in cotton bags, it would have meant a day's work for 9,960,000 people, or a third of a year's work for 100 thousand people.

This is for sugar alone. Flour, salt, feed and other staples packed in cotton bags would add tremendously to the total. These staples, too, regardless of their flavor, would be as sweet as sugar—in an economic way—to cotton farmers.

In the battle for increased markets, King Cotton has the right to ask that the southern seller and purchaser demand cotton wrapping, cotton bagging and cotton containers wherever the use of such articles is feasible and practicable.

Without going into dry detail, it may be pointed out that staples are easier to handle in cotton bags, with less loss through tearing; that cotton bags and their contents do not deteriorate easily, the cotton allowing "natural breathing," prevent caking, minimizing heating and sweating.

If consumers and merchants would voice a vigorous "No!" to staples packed in substitutes, King Cotton would not totter so noticeably on his throne.

A UNIFIED WELFARE PROGRAM

Many responsibilities have been placed upon the District Judges of the state in matters of child welfare, but no adequate facilities have been provided to enable them to discharge these duties in a satisfactory manner. As a consequence, private individuals and agencies have had to be called upon for gratuitous service. Such a situation has made pertinent the question as to the place of the Division of Child Welfare should have in the total welfare program of Texas.

Discussing the subjects, Judge Wayne R. Howell of Corsicana recently said: "My own viewpoint is primarily that of a Judge who must deal with matters affecting the welfare of children; for instance, adoptions, juvenile delinquents, and dependent and neglected children, with no probation facilities to aid me. With the exception of a few of the larger counties of the State, the same situation confronts all District Judges."

The need of social welfare services to Texas children, particularly in predominantly rural areas, is unlimited and pressing.

While other groups are calling upon the state, the youth of the land, the hope of Texas hereafter, should not be forgotten. Other meritorious groups are properly calling for needed assistance, but Texas children, the dependent and helpless little ones, cannot organize themselves, but must rely upon their friends to claim for them that equality in state rendered social services which is essential to impartial dealing by a great people.

Texas faces a need now for a unified and consolidated agency, under one state department, devoted to the administration of the State's entire public welfare program, the dependent children included.

Contrary to popular belief, there is a greater proportion of workers over 40 years of age in industry today than before the depression.

A farmer earning \$500 a year pays about \$60, or 12 per cent of his income, to Federal, State and local tax collectors.

The first Congress of the Republic of Texas met at Columbia on October 3rd, 1836. On October 22nd, Sam Houston was inaugurated as the first President of the Republic.

PREVENT TOMORROW'S FIRES

Prevent tomorrow's fires by building today's buildings safely.

There's a motto that should never be out of the mind of anyone planning to erect a structure of any kind—or civic authorities responsible for local building codes.

The National Board of Fire Underwriters has made a new study of building fires. This study shows that there are "several outstanding factors which not only in themselves increase the probability of losses because of inherent conditions, but also prevent effective fire fighting." These factors make up a lengthy list. Some of the major ones are: Excessive areas, open stairways, uninsulated steelwork, lack of fire doors, and weak floors and structural members which fail swiftly when fire breaks out. Another danger, found in many buildings, is the existence of inaccessible places where fires can grow without discovery until they are beyond immediate control.

The solution to bad building, naturally, lies in the passage and rigorous enforcement of up-to-date building codes. It is true that a sound code may increase costs of construction to some extent. But it is also true in the words of the National Board, that "each day examples arise in which some cheapening of construction has caused the loss of a life or the destruction of property values which may influence the economic well-being of the entire community." Certainly saving a few dollars in the initial cost of a building, isn't worth the risk entailed.

The National Board has also issued a new bulletin on building codes as an instrument of fire prevention, which will be sent free upon application to its offices at 85 John Street, New York City. There isn't a town in America, no matter how small, that can afford to be without a sound building code—or to continue to enforce a code that is obsolete and out of accord with the conditions of today.

LABOR PEACE DEMANDED

(From the Berkeley, Calif., Daily Gazette)

When State legislatures and municipal councils, scattered throughout the Nation, adopt legislation and ordinances designed to protect property rights and the right to work, it is strongly evident that elected representatives of the people sense a trend of popular sentiment that has been aroused by labor disturbances that have followed adoption of the Wagner Act.

Everywhere the people the coming to demand peaceful labor relations and are urging their lawmakers to find solutions of this great and menacing problem.

These and other signs point to a public awakening to the fact that the Wagner Labor Relations Act has not brought about the promised millennium for labor. Far from it.

William F. Green, president of the American Federation of Labor, who once saw in this measure a "New Bill of Rights for Labor," now charges that "it has been used to nullify the rights of unions established through a half century . . . labor has found itself coerced by a new and powerful bureaucracy."

Until this Act is repealed or amended to rectify its flagrant injustices, worker and employer alike will suffer and there will be no real revival of industry.

"FARM RELIEF" FAILS AGAIN

According to Washington reports, the current government farm relief plan comes nearer and nearer to a breakdown. Carried on at colossal expense to all taxpayers, it has likewise failed to satisfy a large segment of American agriculture. Most government farm relief programs have had a similar sad history in the post-war years.

Such non-political tools of progress as the producer-owned and controlled farm marketing cooperatives have probably done more to permanently advance the interest of agriculture than have all the government panaceas ever devised.

Thirty-six days were required for Stephen F. Austin to travel the 1,200 mile journey from San Antonio to Mexico City on his first trip to the Mexican capital.

Gems Of Thought

What we ought to do, we should not even think of doing.—Epictetus.

Practice in life whatever you pray for, and God will give it to you more abundantly.—Dr. Pusey.

Let every dawn of the morning be to you as the beginning of life.—Ruskin.

The thing most important is what we do, not what we say.—Mary Baker Eddy.

It is impossible to reason without arriving at a Supreme Being.—Washington.

HIGHEST ON RECORD
More than 75,000,000 gross tons of raw steel can now be produced annually by companies in the steel industry. The industry's annual capacity was raised by nearly 1,500,000 tons during 1938 as a result of expansion and modernization programs, and is now the highest on record.

It took 105 minutes' work for the average man to earn an electric light bulb in 1914. Today, it takes but 12 minutes and the bulbs are far better.

Oddities Will Delight Folks At World's Fair

New York, N.Y.—The New York World's Fair 1939 will be liberally sprinkled with touches of the bizarre and here are a few of them:

A parachute tower, 250 feet high, from which patrons may "bail out" and be sure of landing safely.

The worlds most costly wheat field in full growth, with eventual harvesting of the crop, and conversion of it, after milling, into bread.

A \$5,000,000 display of precious gems and, as a separate exhibit, the largest opal in the world.

"Steve Brodie" jumping six times a day from a reproduction of the Brooklyn Bridge.

A "Rocket Gun" which will shoot passengers to the "moon," also a separate flight to "Venus."

An oil well operated by bona fide drillers.

Puppets fourteen feet tall dramatizing the family medicine cabinet as man's first defense against disease.

Orchids flown by the thousands every three days from Venezuela.

Man-made lightning—10,000,000 volts of it—in a spectacular discharge.

A floor made of cotton.

A trumpet sounding the Polish "heynal" from a tower every noon to commemorate the slain bugler who warned Cracow against the approach of Genghis Khan 700 years ago.

A waterfall cascading from the roof of a high building.

Fireworks set to music; also a singing fountain.
A city entirely populated by mid-gets.

County Attorney Carl Patterson of Benamin was in the city Monday attending to official matters.

THEY SAY!

"The time has come when we must face our problems as citizens of our whole country and not as members of minorities. As citizens of our country we shall not be guilty of pulling strings or log rolling which result in a literally endless amount of legislation and schemes in favor of small minorities but to the disadvantage of the country as a whole." A. W. Robertson.

"It would seem that the economic system will right itself when business is let alone and confidence again arouses courage." Col. Benjamin A. Franklin.

COTTON CLASSING

Around 200 Texas cotton improvement groups are expected to take advantage of the free classing and market news service of the USDA Bureau of Agricultural Economics in 1939.

This number will be almost four times that of 1938, when 55 Texas one-variety associations and similar groups used the service, according to E. A. Miller, agronomist of the Texas A. and M. College Extension Service. Altogether 311 groups in the cotton states were served in 1938, but the BAE expects the total number to be in excess of 900 this season.

The service includes free classification of the samples plus a news service informing farmers as to the current price of cotton of the various grades and staples, Miller said.

Applications may be made as soon as members of the groups have completed planting, and requests for application forms should be addressed to the Officer in Charge, Division of Cotton Marketing, BAE, at either P.O. Box 1140, Austin; 509 U.S. Courthouse, El Paso; or P.O. Box 1366, Dallas. These forms can also be secured through county agricultural agents.

"This free service offers our

cotton farmers who are part of organized improvement associations and groups a chance to find out just what their cotton is worth, as well as other valuable information, and I hope all eligible groups in the state will take advantage of it," the agronomist stated.

746 FARMERS CO-OPS

There were 149 new farmers' cooperative associations set up in Texas during 1938 to bring the total for the state to 740, according to C. E. Bowles, cooperative marketing specialist for the Texas A. & M. College Extension Service.

Cooperative gins led with 80 new associations and rural electrification cooperatives were second with 37 new organizations, Bowles said.

Active cooperatives are located in 193 counties and handle, to some extent, every important crop produced in the state. In addition to the increase in number many well established associations have expanded their activities to include extra services for their members. The total membership in the Texas cooperatives is in excess of 150,000. The farm families who hold co-op membership make up the largest group of organized farm folks in the state.

The large centralized cooperatives of the past that attempted to cover an entire state or group of states have largely given way to small local associations of neighbors who control, as well as own, their organizations. Bowles believes local control is responsible for the smaller percentage of failure among farmer co-ops than in private businesses. He looks for an eventual federation of the associations, but thinks ownership and control will remain in local hands.

"Our organization, through its staff and field forces, is attempting to help the cooperatives by keeping cooperative education in step with, or in advance of the increase in cooperative organizations," the specialist stated.

Super-Efficiency

Lady of the House (interviewing a new maid): "And now, Nora, are you efficient?"
Nora: "Indeed I am that mum. In me last place ivery mornin' I got up at four, made me fires, put me kettle on to bile, prepared the breakfast, an' made up all the beds before inyone waş up in the house."

The Hold-up

Mrs. Cobb: "What do you know about Atlas?"
Bobby: "He was the world's greatest gangster."
Mrs. Cobb: "Gangster?" Where did you get that idea?"
Bobby: "The history book says he held up the world."

Mr. Ingram: "Buddy, what was the most exciting ball game you ever went to?"
Buddy: "When the game blew up."

Mr. Ingram: "What made it do that?"
Buddy: "The bases were loaded."

Not Pat?
"Does this package belong to you? The name is obliterated."
"No. My name is O'Brien."

THE RHINELAND REGISTER

Published by Students of Rhineland Public Schools
EDITOR: BERTHA STENDEL
SPONSOR: JOHN J. HOFFMAN
STAFF REPORTERS: Lucille Petrus Junior, Alma Schumacher, Ethel Stengel Freshman, Teresia Andrae, Elsie Schumacher

The Seniors are busy preparing for the commencement exercises which will be held on May 12. A hearty welcome is extended to all. Final examinations are not very far off, but we are, as usual, prepared for them. We think of them with a feeling of regret as they are our last examinations as students of the good and dear old R.H.S. We also came to the conclusion that we have enjoyed this year of school better than any other, although it was considered very difficult.

Since Mother's Day is on the 8 of this month, everyone should show kind devotion to the best mother in the world—our own. M—is for the many things she gave me.

O—is only that she's growing old. T—is for the tears she shed to save me. H—is for her heart of purest gold. E—is for her eyes of moonlight shining. R—is for the right she's always done. Put them all together, they spell MOTHER, the word that means all the world to us.

RIGHT OUT OF THE AIR

By EARLE FERRIS

GING CROSSBY, the master of unique phraseology on the Thursday Night Music Hall, is about the most casual radio rehearser in Hollywood. While going over numbers with John Scott Trotter's orchestra, Bing sings with a pipe into

Crosby

his mouth. The pipe has always remained unlit until recently when Crosby acquired the technique of lighting up in the middle of a song.

That novachord used on the CBS daytime serial, "The Life and Love of Dr. Susan," can simulate so many instruments that a regular orchestrator is required to do its arrangements. The musician who plays it is constantly uncovering new effects.

Baker

Mark Warnow, "We, the People" maestro, is one of few child prodigies to mature into a practical musician. Noted now for his versatility in handling different types of music, he was once celebrated for being the youngest maestro ever to conduct for opera in New York.

Phil Baker's supporting cast on "Honolulu Bound" is an exceptionally busy one. Jonnie Pineapple has his own Hawaiian band at a swans night spot. Harry Salter's orchestra doubles on "Hobby Lobby". Harry von Zeil announces for Fred Allen, Ben Bernie and "We the People" and Ward Wilson is heard in cinema travelogues. Phil, himself, claims that his extra job is keeping track of the cast.

Jude Freeland, above, has deep sympathy for anyone who experiences stage fright. Jude, who is heard on the "Johnny Presents" programs with the "Three Harmonics," was so frightened when he made her first public appearance that she obtained permission to sing behind a curtain.

Edward MacFlug, the Gospel Singer heard on NBC five days a week at 9:45 a. m., once corrected the great Caruso on the phrasing of an English song. As a result, the celebrated tenor destroyed several thousands of dollars' worth of records and re-made them!

E. R. Hobert and Chas. Hobert left Friday for Kincaid, Kansas, to be with their brother, John Hobert, who is ill. Miss Bonnie Jean Roberts of Goree accompanied Mr. and Mrs. L. W. Hobert to Stephenville last Sunday. Chancey Hobert, who is attending A. & M. College, met them in Stephenville and visited them while there.

DID YOU KNOW THAT—

We can do anything we want to do if we stick to it long enough? "Laugh" is the cheapest luxury that man enjoys. Girls are like newspapers, because they have many type faces, are worth looking over, they try hard to be up-to-date, they aren't afraid to speak their minds, they carry news wherever they go, if they know anything they tell it, and every guy should have one and leave his neighbor's alone. Bertha was roaming in the pasture over the week-end and got into some poison ivy. (Bertha, we always told you not to stick your fingers where they don't belong, because they usually get burned.)

Juniors This week we are anticipating with much pleasure the banquet which will be held on Thursday night. At last the great day has come. We have completed studying our geometry book and are now ready for our final test of what we have learned. Since the Juniors have been making such dreadful mistakes in English III lately, and also in German I, decided to publish the following: MISTAKES... When a plumber makes a mistake he charges twice for it. When a lawyer makes a mistake he has a chance to try the case all over again. When a carpenter makes a mistake it's just what he expected. When a doctor makes a mistake he buries it. When a judge makes a mistake it becomes the law of the land. When a preacher makes a mistake nobody knows the difference. But when an EDITOR makes a mistake... GOOD NIGHT!!

We are very proud of our perfect attendance record. Three-fourths of our class have attended school every day for the past year. Sophomore Report The day is coming closer every minute. Tomorrow we will try our luck at playing ball. The boys' team gave the girls' team a weiner roast for winning over Munday. Mr. and Mrs. Hoffman and daughter, Gladys Ann, were invited to the party. The rest of the teachers were also invited. Everyone reported an enjoyable time. Economic geography seems to be an interesting subject. We were studying what a car is made of, and the places where cars are made. One bright student said, "Didn't you see the tag on the back windshield that the car was made in Texas?" Since when does a car have a back windshield? We will have to keep all the scissors away from Florida, because she will have the boys and girls bald-headed. She enjoys cutting off their hair. Freshman Report We enjoyed our weiner roast a great deal. The boys gave it on Thursday as a reward for playing ball so well.

In English we are now reading Ivanhoe, but since no one seems to understand what it is about, we started grammar again. With only one week of school left, about sixty-two per cent of the eighth grade have a perfect attendance record. Our science class has been very interesting since we have seen different leaves, flies and other things through a microscope. We have been working very hard on our notebooks, so they will be ready to hand in Friday.

Grade School News

School is drawing to a close and many of us are glad of this, but many of us dread those awful final examinations. The only one who doesn't is Bernardian Homer. Our spelling and reading notebooks were judged Friday. In the seventh grade Mildred Stengel, seventh grade Mildred Stengel was first, Bernard Kuehler, second and Elsie Schumacher third. In the sixth grade, Everett Kuehler was first, Anna Fetsch, second.

Beauty Spots In Munday

Editor's Note: This is the second of a series of articles on "Beauty Spots In Munday," written by students in the Home Economics Department of the high school, in connection with the Lions Club's beautification and improvement contest.

This morning as I started to school I hesitated for a moment at the fragrant smell of honeysuckle at my own doorstep. It amazed me, and a queer feeling came over me. It is Spring! I hadn't noticed it before. I stood there and looked at the neatly trimmed hedges in Mrs. Charity Chamberlain's yard, the perfectly kept lawns, and the beautiful rose garden signifying that Spring is really here.

In a trance I slowly walked on and again I stopped to gaze at more beautiful roses in Mrs. Charlie Mayes' yards and an unusual bed of red lilies with a green background in the yard of Mrs. A. F. Huskinson. My glance passed the lilies and stopped at a fishpond which was surrounded with dainty little beds of various types of flowers.

I turned to find a very breath-taking sight in the yard of Mrs. U. R. Houser. A very fragrant garden of roses was surrounded by beautiful red poppies and lavender petunias. A velvety stretch of lawn extended from a little path and trellis which separated them.

Again I paused in astonishment at the improvements that had been made to Mrs. Pitzer Baker's home. The big white fences, the long rows of whitewashed trees, and the big green roof gave a peculiar charm to this lovely rambling house. I was assured that the newly planted lawn would soon be as green as that in Mrs. Bill Moore's yard.

Other mornings while walking to school I had noticed Mr. Warren working in the yard of H. D. Warren. This morning the little white house which had so recently been built held a new charm. The tiny heads of the seeds which had so patiently been inserted in the warm earth by Mrs. Warren were slowly peeping above the soil. I am looking forward to the morning when I can pass and see this yard filled with those flowers that are on their way.

As it was early and I had plenty of time before school I walked up other streets that I didn't pass on my way to school. I just had to gaze again at very neatly trimmed hedges surrounding a very graceful fishpond in the yard of Mrs. Louise Ingram. I wanted so badly to sit beneath the wisteria covered arch and dream that those little fish were my teachers, but as I was feeling so well I walked on with a whistle.

As I found myself in Mrs. Keel's flower gardens I ceased my whistling and gazed at the various kinds of flowers that will have to be seen with your own eyes to seem believable. As I slowly walked along I could smell the fragrant scent of honeysuckle, and I stopped to look at the perfectly landscaped yard of Misses Maude and Fannie Isbell.

As time was growing very short, I rushed on toward school, but on my way I hesitated again at the beauty of Mrs. Fred Broach's yard the unusual surroundings. As I walked upon the high school campus I saw a sight that added the finishing touches to my adventures. The shrubs which were put in front of the high school building by the Home Economics Department were so beautiful and doing so nicely that I could hardly believe my eyes. I walked around the building and the roses in front of the Home Economics cottage had such a lovely odor that I pinched myself to see if I was dreaming. No, it was real.

I was so surprised at the improvements that have been made and I was very sorry I had been so careless in not having noticed the beauty spots of Munday. You know, if you will just notice, there are a great many. So from now on—notice the beauty of your own home town.

Jim McDonald was among Munday's fishermen who spent the first of the week at Lake Kemp, and he came back with a nice string of fish. He was with the Homer Lee party of Wichita Falls.

Chalmer Hobert returned late Monday afternoon from Lake Kemp with quite a string of fish to prove his ability as a member of the Isaac Walton league.

Mr. and Mrs. L. W. Hobert spent last Sunday in Stephenville, visiting their son, Donald, who is a student in John Tarleton. Sunday was the annual parents' day at the college.

Mrs. Wade T. Mahan was a visitor in Abilene last Monday afternoon. Mrs. W. H. Chapman of Texas City came in last Saturday for a visit with relatives and friends in Munday.

Edgar Bergen, Charlie McCarthy Are At Peak Of Their Popularity

Bergen Rated As Ace Of Entertainers

Edgar Bergen found the gates to Fame one night in a Chicago night club.

The next night he kicked those gates wide open. Then, accompanied by his side kick and principal annoyance, Charlie McCarthy, he began his triumphant march to the capital of that elusive land known as Fame.

The rise of Bergen and McCarthy has been swift and true. When they seemed to have reached the top, they have started onlookers by soaring still higher. This is especially true of their film careers in which they reach new heights with W. C. Fields in Universal's "You Can't Cheat An Honest Man," which opens at the Roxy Theatre on Sunday, May 7.

Star Is Born
McCarthy, as everyone knows, has been an important factor in Bergen's success story. However, the story began while Charlie was still a stalwart pine tree in a Michigan forest. He really was "born" to get Bergen out of a tough spot. And he has been getting him in and out of hot water ever since.

It all happened at a school party in Bergen's home town, Chicago, when he was still known as Eddie Bergen. Only a few weeks before he had learned the trick of "throwing his voice." He thought it would be a good idea to see if he could fool the gang at the party. One the boys had just finished playing a new tune when an unexpected finale came from the inside of the piano. "That may sound good to you guys out there, but it's terrible in here."

Everyone was stunned into absolute silence for a moment. Then came a scramble to find out where the voice was coming from. The piano was demolished. Eddie's trick was discovered and an irate mother informed him he would have to pay the repair bill.

Sheriff Louis Cartwright was a visitor in the city Monday.

Girl Scout News

We met at Elland's Drug Store last Monday night. After all the girls were there we went to the show to see the "Little Princess." After the show we went back to the drug store and had the serving. We enjoyed it very much.

We are proud to have Mrs. Estine Opal Barnes for our Scout leader this summer while Miss Crawford is away. We think that we will like her for a Scout leader.

Before school is out we want to go on an overnight hike with Miss Crawford and Mrs. Barnes.

We plan to finish our puppets before school is out, and then we are going to give a play.

We met on Tuesday of this week and worked on our puppets. The members who went to the show were Miss Crawford, Scout Leader, Sue Harton, Ruthie Hickman, Helen Haymes, Joyce Spelce, Betty Lou Boone, Lola Jones, Billie Lou Spelce and Lois Wardlow. The other girls went Sunday afternoon.

Those present Tuesday were: Miss Crawford, Sue Harton, Ruthie Hickman, Jozelle Allison, Helen Haymes, Janie Haynie, Joyce Spelce, Betty Lou Boone, Marion Roberts, Lola Jones, LaVerne Haney, Betty Golden, Latrace Johnson, Billie Lou Spelce, and Lois Wardlow.

Boyd Carley visited friends in Hollis, Okla., last Sunday.

Otis Burnett visited in Cleburne, Texas, over the week-end and was accompanied home by Mrs. Burnett, who visited relatives there last week.

Teething
Elderly dude rancher, to a tough cowboy: "My, my, do those notches on your gun mean you've shot that many men?"
"Tough Cowboy": "Naw, lady, I ain't no tough guy. That's just where I was chewin' on it kind of absent-minded-like the other day."

Pioneer Circle Meets April 27 With Mrs. Beecher

The Pioneer Circle met on Thursday, April 27, at 2:00 p. m., at the home of Mrs. Jessie Beecher. Eighteen members were present.

Visitors were Mrs. Minnie Whittemore, Mrs. Mattie Bowley, Mrs. Ida Morrow and Mrs. Willie Reid, a sister of the hostess.

Members present were Mesdames Allie Campbell, Hettie Rogers, Minnie Hammack, Annie Russell, Emily Carden, Nan Dingus, Lou Simpson, Kitty Redwine, Bobbie Layne, Hattie Sessions, Verna Nelson, Mary Zeissel, Marian Pruitt, Aunt Phoebe Bessire, Edith Russell, Algie Huddleston, Eva Martin, and the hostess, Mrs. Jessie Beecher.

The circle will meet at the home of Mrs. Marian Pruitt, on May 30, at 3:00 p. m.

Mr. and Mrs. Sebern Jones visited friends in Throckmorton last Sunday.

PERFECTION STOVES may be purchased on the Monthly Payment Plan. Mansell Hdw. Co.

Mr. and Mrs. Ralph Blanton of O'Donnell are visiting in the home of Mr. and Mrs. A. U. Hathaway.

I Have Moved . . .

This is to notify the public that I am now located at the Warren Welding Shop, across the street west of Terry Hotel.

We are building listing, planting and cultivator attachments for all makes of tractors. We are also doing all kinds of Blacksmithing and Welding, and we guarantee all of our work.

WE WILL APPRECIATE YOUR BUSINESS

Choral Club To Have Social Meet Monday Evening

Mrs. W. R. Moore and Miss Dallas Smith will be hostesses in the Moore home on Monday evening at eight o'clock for a social meeting of the Choral Club.

All members are invited to attend. An interesting evening is being planned for the club.

Sunset H.D. Club To Meet May 9th At Sunset School

The Sunset Home Demonstration Club will meet at the Sunset school in the home economics room on Tuesday, May 9, at 2:30 p. m.

Miss Astin will give a demonstration of "Fruit Desserts." Mrs. Almarode will give a discussion of a series on art appreciation.

Each lady who had not turned in a report of her work should certainly do so just as soon as possible, so a report can be compiled by the council secretary for the district meeting on May 12.

Each member is especially requested to be present at this meeting, as plans for the district meeting at Benjamin on May 12 will be outlined.

Mrs. Kimsey In Charge of Program For Study Club

The Study Club met at the club house on Friday, April 22, at which time Mrs. L. Kimsey was director of the program.

After the roll call, the program was turned over to Mrs. Kimsey. "Critic's Viewpoint of Anderson's Play," was given by Mrs. Sebern Jones. Mrs. Kimsey reviewed the play, "The Wingless Victory." Dickie Owens sang "The Wheel of the Wagon is Broken" and "Mexicali Rose," accompanied by Mrs. McDonald.

Mrs. J. C. Harpham was hostess for the afternoon.

Members attending were Mesdames W. L. Barber, H. F. Barnes,

R. B. Bowden, F. S. Broach, F. S. Broach, Jr., D. C. Eiland, L. A. Jobe, J. C. Harpham, R. B. Harrell, Chan Hughes, Sebern Jones Lawrence Kimsey, Jack Mayes, Jim McDonald, Paul Pendleton, W. H. Reeves, J. L. Stodghill, T. G. Bengel, W. E. Braly, H. A. Pendleton, and Miss Maude Isbell.

Munday Study Club Meets April 21 For Interesting Program

The Munday Study Club held its regular meeting on April 21, with Mrs. W. R. Cabaness as director.

The program included a very interesting talk by Dr. D. C. Eiland, and two songs by Mrs. Orb Coffman of Goree. Mrs. Coffman was accompanied by Mrs. Jim McDonald.

Hostesses for the afternoon was Mrs. Fred Broach, Jr.

Members attending this meeting were Mesdames W. L. Barber, H. F. Barnes, J. C. Borden, F. S. Broach, F. S. Broach, Jr., J. R. Burnison, W. R. Cabaness, J. C. Harpham, R. B. Harrell, Chan Hughes, Sebern Jones, Lawrence Kimsey, Jack Mayes, Jim McDonald, Paul Pendleton, M. H. Reeves, J. L. Stodghill, P. V. Williams R. D. Atkinson, T. G. Bengel and A. L. Smith.

Guests present included Mesdames Carl Jungman, L. S. Hedgegree, Deaton Green and G. R. Eiland.

Sunshine Circle Meets Monday With Mrs. Aaron Edgar

Members of the Sunshine Circle of the Methodist Missionary Society met in the home of Mrs. Aaron Edgar on Monday night, May 1, with Mrs. Glenn Stone as assistant hostess.

A very interesting program was given, after which refreshments of angel food cake and punch were served.

Members present were Mrs. Cecil Cooper, Mrs. E. Clayborn, Mrs. Joe B. King, Mrs. Bess Porter, Mrs. Ralph Burrow, Mrs. Howard Cobb, Mrs. L. Bowden, Mrs. L. Womble, Miss Merle Dings, Miss Ruth Baker and the hostesses.

Mr. and Mrs. Jack Mayes Entertain With Breakfast

Mr. and Mrs. Jack Mayes entertained a group of friends last Sunday morning at nine o'clock with

a breakfast honoring Mr. and Mrs. Joe Mayes of Corpus Christi.

Present were Mr. and Mrs. Sebern Jones, Mr. and Mrs. Cecil Cooper, Dr. and Mrs. D. C. Eiland, Misses Cloe Mayo, Louise Atkinson, and Dolores Campbell and the host and hostess.

Following the breakfast the group attended church services.

Missionary Society Studies Program On Broadening Horizons

The Methodist Missionary Society met Monday, May 1, in the home of Mrs. S. A. Bowden. The subject for the afternoon was "Broadening Horizons." Business discussed included a report from the delegates to the Missionary Conference.

Those present were: Mrs. C. H. Giddings, Mrs. M. F. Billingsley, Mrs. J. C. Borden, Mrs. G. R. Eiland, Mrs. H. A. Pendleton, Mrs. J. A. Caughran, Mrs. F. H. Russell, Mrs. D. E. Holder, Mrs. Chamberlain, Miss Shelley Lee, Mrs. G. W. Dings, Mrs. W. H. Chapman, Mrs. R. D. Atkinson, Mrs. Rutledge, Mrs. Burroughs, Mrs. Simkins, Mrs. Gafford, Miss Merle Dings, Mrs. P. V. Williams, and the hostesses, Mrs. S. A. Bowden and Mrs. Oscar Spann.

After the business was attended to, refreshments served consisted of angel food cake and fruited tea.

Cloe Mayo Hostess To New Deal Club On Wednesday

Miss Cloe Mayo was hostess to members of the New Deal Bridge Club on Wednesday of last week. High score went to Mrs. Merle Kincaide of Crowell and second high to Mrs. E. M. Roberts.

A salad plate was served to the following guests and members: Mrs. Gordon Bell and Mrs. Merle Kincaide of Crowell, Mrs. Sebern Jones, Mrs. Earl Owens, Mrs. E. M. Roberts, Mrs. Ralph Johnson, Mrs. Carl Jungman, Mrs. Lawrence Kimsey, Mrs. Jack Mayes, Mrs. J. C. Harpham and Mrs. Wade Mahan. Mrs. Joe Mayes of Corpus Christi was a tea guest.

Munday Music Club Meets With Mrs. M. H. Reeves As Hostess

The Munday Music Club met on Thursday, April 27, in the club house, with Mrs. M. H. Reeves as hostess and Mrs. John Ingram di-

rector of the program on Shades of Blue. The following program was rendered:

Rhapsody in Blue, Gershwin, by Mrs. Jim McDonald.

Alice Blue Gown, Tierney, Mrs. Elizabeth Dillon.

Three Shades of Blue, Grofe, Miss Mildred Kennedy.

The Beautiful Blue Danube, Strauss, Mrs. Orb Coffman.

Guests present included Mrs. J. M. Erwin, Mrs. G. W. Eagle of Wichita Falls, and Mrs. Joe Mayes of Corpus Christi.

Mrs. L. Kimsey Compliments Guests With Informal Dinner

Mrs. Lawrence Kimsey complimented Mrs. Gordon Bell and Mrs. Merle Kincaide of Crowell with an informal uncheon last Wednesday at 12:30 o'clock.

Guests present included Mrs. Carl Jungman, Miss Cloe Mayo, Mrs. Jack Mayes, Mrs. Kincaide, Mrs. Bell and the hostess.

SHERWIN - WILLIAMS Paints sold on the Monthly Payment Plan. Mansell Hdw. Co.

Sewing Club Has Meeting Wednesday With Mrs. Bowden

Mrs. Chester Bowden was hostess to members of the Sewing Club on Wednesday afternoon. An enjoyable afternoon was spent at sewing and visiting.

A dessert plate of ice cream and cake was served to Mesdames H. B. Douglas, Riley B. Harrell, M. L. Barnard, Tom Haney, Chester Bowden, Aaron Edgar, W. R. Cabaness, R. B. Bowden and L. Bowden.

Weinert Nosed Out Sunday By Rhineland, 2-1

Rhineland, in one of the closest games local fans have witnessed in recent years, nosed out Weinert, 2-1 in a hotly contested softball game at Rhineland last Sunday afternoon.

Decker allowed only 5 well scattered hits, while Wyatt gave up 7 to Rhineland. Weinert's only tally came in the second inning when Owens singled through short and Reed brought him in with a double to left field. The only other time

Decker was in trouble was in the first when two errors and a walk filled the bases with two out. The third man was retired, however, by a pop-up to the third baseman.

Rhineland scored first in the second, when L. Wilde singled to right, coming in on Alphonse Kuhl-ler's double to left center. They scored again in the fifth when Louis Kuhl-ler stretched a pop-up back of third for a two-bagger. Leo Kuhl-ler then stepped up and singled to left, Louis coming in with the winning run.

"Georgie" Decker, sensational lefthanded spin-ball artist, after the second inning had perfect control of his undescribable spinning ball. Being young and ambitious, and with the capable coaching of "Dutch" Kuhl-ler, his catcher, he should develop into one of the best softball hurlers in this vicinity.

Rhineland will play a return en-

Mrs. E. C. Henry returned to her home in Floydada last Saturday after three weeks visit here with her daughter, Mrs. C. P. Baker.

agement with Weinert on Sunday, May 7, at Weinert.

3 Pair for \$2.19

This Week Is Designated For Child Health

Progress depends upon the health of little children and to be progressive a commonwealth must be certain that the legs of its children are straight and sturdy and prepared to assume the work of the world.

With such a theme in mind, Dosca Hale, specialist in child development of Texas A. & M. College Extension Service, urged Texas people—especially farmers—to observe Child Health Week, beginning May 1, by checking up on the health of their children.

Observing that 60 per cent of Texas' boys and girls grow up on farms, Miss Hale defined children as "the most important crop of all" and called attention of farmers to the responsibility of seeing that this block of future citizens is equipped with sound bodies and habits that will tend to preserve their health.

"Health is our No. 1 asset," Miss Hale commented. "It comes before wealth or fame. It is the basis of happiness and the key to a peaceful, pleasant and alert condition of the mind. If we neglect the health of our children—though we may grow the finest crops, build the best houses, preach the greatest sermons, create the finest music or write the most just laws—we sin against our children and fail miserably, as citizens of a civilized world."

"I know," she added, "that good health is dependent upon favorable economic conditions. And first we must stem the forces and eliminate the economic and social maladjustments of our world and nation which have afflicted the soil and driven some rural families to a miserable state of poverty."

WASHBURN NEWS

Mr. and Mrs. Otis Simpkins visited relatives near Lubbock recently.

Mr. and Mrs. J. R. King have returned from Muleshoe where they spent several days with Mrs. King's parents, Mr. and Mrs. Pink Lansford.

Several from this community are at the Lake fishing.

Mrs. Clarence Booe visited her parents near Weinert last Monday.

Mr. and Mrs. V. C. Snyder and little daughter and Mr. and Mrs. A.

One Out of Twenty

Next time your club meets, or you have a family reunion, list the names of 20 of those present. Let them be members of your family, relatives, close friends.

Look well upon their happy faces, for at the present rate one out of that 20 will be killed or injured in an automobile accident within the next five years.

It may be you, or your daughter, or your mother, or perhaps your sweetheart.

It may be a minor injury; it may be a crippling, disfiguring casualty; it may be death.

These figures are based on the

C. Womble of Dalas visited in the home of Mrs. Snyder's and Mrs. Womble's parents, Mr. and Mrs. A. M. Searcey, recently.

Mr. and Mrs. Claud Hill and Mr. and Mrs. Elsie Cude of Sunset visited J. A. Hill and family last Sunday.

Marie Hendrix of Hood visited Anna Bell Simpson last week.

Daphne Snelson of Munday visited friends here last Sunday.

Miss West of Munday visited Maggie Searcey last Saturday.

J. R. King and C. N. Smith were in Benjamin on business last Monday.

Mr. and Mrs. Cecil Gulley visited relatives here last Sunday.

law of averages, assuming that the annual total of traffic deaths and injuries reported by The Travelers Insurance Company for 1938 will not increase in any of the next five years.

Fortunately, you and your relatives and friends can evade the law of averages. You can beat it by being above the average in your walking and driving habits. If you and your group of 20 will walk and drive safely, the average injury probably will not strike in the next five years; it may not strike in the next 20 years; it may, in fact, never strike.

Weinert Wins Prize In Denton School Day Trip

Weinert High School won a first prize of \$25 offered by the Denton Chamber of Commerce at the annual High School Day held April 29 on the campuses of the North Texas State Teachers College and the Texas State College for Women.

The prize went to the group with the largest student mileage—the number of students times the dis-

ance traveled. Weinert's group of 34 students traveled 190 miles for a total of 6,460; Olney High, with 49 students, was second with 6,321 miles, and Kingsbury, with 20 students, was third with 6,201.

Presentation of the prize money was made at the auditorium meeting on the Teachers College campus Saturday afternoon by Otis Fowler, secretary of the Denton Chamber of Commerce. The Weinert delegation was accompanied by its senior class sponsor, J. V. Perrin.

More than 800 students from 57 schools came to Denton for the annual tour of the campuses of the two colleges. Entertainment programs were offered the visiting seniors by both colleges.

A railway director rebuked a ticket collector who allowed him to go through the gate without producing his pass.

"No matter if you do know who I am," he said in reply to the collector's excuse. "I am entitled to ride free only when I am traveling with that pass. You don't know whether I have it or not."

The collector, nettled into action, demanded to see the pass.

"That's right," exclaimed the director.

"Here, why, where, well I declare, I must have left it at the office."

"Then you'll have to pay your fare," responded the collector grimly.

Salute South's "King Cotton"

Peter Loran Is Nat'l Committeeman For Cotton Week

Navasota, Texas.—Merchants throughout the nation—independent and chain stores alike—are giving Texas and the cotton-growing Old South a "lift" with a Cotton Week opening May 22, John D. Rogers, chairman of the Texas National Cotton Week Committee, said here today.

The "Fiber of American Prosperity" badges for employees and displays for windows, display cards and newspaper advertising will be in evidence throughout the nation in this annual spring period that is climax to year-round cotton promotional campaigns. Miniature bales and bolts also will be used in novelty advertising of the event.

Mr. Rogers said he had been notified by the Institute of Distribution, Inc., and the Limited Price Variety Stores Association, that 109 chain store companies already have sent in their plans for cooperation, and food stores will feature cottonseed foodstuffs. This is 25 more companies than took part in last year's cotton promotion, in interest of eighteen states in which

cotton is the backbone of prosperity. These stores employ about 550,000 persons, operate 15,000 stores throughout the country and have annual sales of about three billion dollars. Of this amount, some \$800,000,000 business is done in cotton and cotton products. Countless independent stores also are arranging to feature cotton goods during the period May 22 to 27.

Regional sub-chairmen of the Texas National Cotton Week Committee are J. S. Sharp, Paris; L. L. Mackey, Longview; Ralph Moore, Granger; Senator L. J. Sulak, La Grange; and Peter Loran, Munday.

HEFNER NEWS

Elder J. I. Gray attended 5th Sunday meeting at Ennis Creek church in Scurry county over the week-end. The church is in the North Colorado Baptist Association.

John Martin returned from Floydada, where he has been looking after his farming interests.

Cordie Coffman and family of Ropesville were Hefner guests over the week-end.

Mrs. Iva Courtney of Pittsburg, Penn., is visiting her uncle, C. E. Haskins this week.

Volly and Alonzo Chandler attended the funeral of their brother, Dee Chandler, near Paris, Texas, last week. Mr. Chandler was one of the victims in the multiple kill-

ing of members of Snow family near Emberson, on April 25.

Mrs. Charlie Railback is a patient in the Seymour hospital this week.

Mrs. Marion Jones gave her Sunday School class an entertainment Monday night. After a social hour a delicious plate and iced drinks were served to Mesdames Haskins, Harris, Brogden, Jackson, Thurman, Smith, Murdock, Trimble Jones, Oliver and the hostess.

FIRST BAPTIST CHURCH

Mrs. Donath, a returned missionary from Brazil, will speak for us in the service next Sunday night. Service begins at eight o'clock. We are always delighted to have those returned missionaries with us. Their reports and observations are more than interesting. Don't miss this service.

Every Sunday School teacher is putting forth special effort this week. We are expecting it to tell in the attendance next Sunday. Let's all be in our places by ten o'clock and get a good start. The Junior Department is ordering some new song books. They are planning some worth-while things in the song line. You will be hearing from them some of these Sundays.

Sermon subject for Sunday morning, Thy Sins Are Forgiven. You are always welcome at any or all of our services.

CARLEY & MAHAN BURIAL ASSOCIATION

This Burial Association is organized for the sole purpose of furnishing modest, yet impressive burial for its membership at a cost within the reach of every citizen in this area regardless of financial circumstances.

WHY...

avoid the Question of Funeral COSTS?

COSTS?

That's the one thing you can remove from your shoulders . . . through the

CARLEY & MAHAN

Burial Association

Phone 201 for a Representative

We are aware of the fact that many people, due to circumstances, such as age, income, etc., are prohibited from owning Old Line Legal Reserve Insurance. It is especially to this group of people that we are trying to bring help at the time when it is most needed. If you have Legal Reserve Insurance, KEEP IT. If you do not have it, you cannot afford to be without this burial protection.

A representative will call on you as soon as possible. In the meantime contact Boyde Carley of Southwestern Life Insurance Company, or Wade Mahan, at Mahan Funeral Home, at once and have the entire plan explained to you.

Your burial certificate under this plan can be used on any price funeral service that you wish to provide for your loved ones. You automatically become entitled to all of the features of the Mahan Funeral Service, many of which are exclusive in this territory, when you become a member of this Association. Some of these exclusive features are listed below:

1. Only Licensed Embalmer in Knox County.
2. Licensed Lady Attendant.
3. Cemetery Tent used in ALL Grayeside Services regardless of the weather.
4. Two sets of grave grass used in all services . . . creating a more beautiful memory picture that will be a consolation to your throughout your lifetime.
5. Sedan Type Ambulance Service when preferred, in addition to use of regular ambulance.
6. A most complete selection of Funeral Merchandise obtainable from our show rooms.
7. Memorial Portrait Plan EXCLUSIVE with us. (This plan is designed to give to members of the bereaved families perhaps the most valued gift it is possible to bestow—a portrait in oil of the beloved relative. You are cordially invited to inspect samples of these beautiful oil paintings on display at the Mahan Funeral Home.)

It is our sincere belief that once you have the many features and benefits of Membership in this Association explained to you that you will readily realize that we are bringing to you a new service, the many features of which you cannot afford to be without.

May we explain it to you at once?

BOYDE CARLEY
PRESIDENT

Home Economics Report
 Have you noticed the beauty spots of Munday? With spring comes the enticing odor of roses, honeysuckle and lilacs. No beauty can surpass that a lawn, green and selvelly smooth. I don't think there is a single home in Munday that has not been improved this year. New hedges, spreading corner plantings, rose gardens, and leaf gardens.

You may be sure that we too are doing our part here at school. The lawn at the elementary school is green now and has been freshly mowed. The shrubs are green and many of the flowers are blooming. The roses at the Home Economics Cottage have never been more beautiful. Take a drive around your city this evening to observe the beauty spots.

Do You Remember?
 Friday nights at band practice? Jury duty.
 Friday night after the chorus finished singing? Bobby and Florence do.
 The good times we've had with Frances? The class does, and we are really going to miss her after she's gone.

The sad look on Mary Lois' face since the hay ride? Jury duty does.
 The look on Newton's face when Miss Dornell told him of her plans to get him a pillow? The English class does.

Sophomore Report
 We were very glad to have one of our old friends, Clara Faye Bryan of Seymour, visit us.
 Doctor Bass just made a new discovery while teaching the algebra I class last Monday, in the place of Mr. Ransdreege.

He discovered the dumbest, to his amazement, to be Sargent Lowe.
 We want to congratulate Sue Stadghill for putting forth her efforts toward the trip to Galveston. We hope she enjoys her trip very much.

The final scores were added last

week and out of a group of figures the valedictorian and the salutatorian of Munday High School were decided. When the final averages were attained, it was found that Lenore Longino was valedictorian, having the second highest average ever made in Munday High School. Her average was 95.28. LaVerne Darter was salutatorian with an average of 94.79. This was a very close race and both have averages to be proud of.

Orville Matlock has high ranking boy with an average of 83.04. Only five more weeks remain of this scholastic year—one which we seniors will never forget.

May 28 has been decided on as the date for the baccalaureate ceremony. The ceremony will be in the evening, and is to be conducted by the Reverend Dick O'Brien of Stamford, formerly of this city. The commencement exercises are scheduled for Friday night, June 2. As yet no speaker for this occasion has been definitely decided upon.

We Wonder Why . . .
 William Walton threatens people's lives when he gets his mouth pushed down on water fountains.
 Why Bennie was all smiles Monday . . . Yes, a certain Seymour girl visited us, too.

What boy in M.H.S. is saying:
 I took her to a football game,
 I took her to the show,
 I took her to a dance, I took her to a tea,
 I took her every place that school kids ought to go.
 Now I find that she's been taking me.

We Are Wondering . . . And Somebody Knows
 Why Leola Foytik was so happy Monday morning.
 Why Evelyn objected to Ned's going to Seymour.
 Why Wilma June misspelled her name in law.

What is so interesting about Haskell.
 Who is it that can't resist untying neatly tied shoestrings.
 Why the seniors don't get a few more breaks.

What two blonde-haired, blue-eyed girls are seemingly rivals.
 What girl goes to the postoffice so often and from whom does she expect a letter. (After some investigation we found that the person who goes to the post office so often is expecting some material for her term theme from the Extension Loan Library at Austin.)

What boy in the senior class (whose name is "Red") began a romance on the picnic last week.
 What person in M.H.S. holds the world's record on note writing? I've heard that if all of the paper which has been used to write notes this year was piled up you would have a pretty good bonfire.

Where was Joe Dean Sunday night, whom was he with, and what did he do?
 For Suckers Only
 Sucker a are you why know you do now? (If you are smart you'll read it backwards.)

They Made You Love Them—
 Maxine—Sixteen cows ate nine cane stalks . . . my stars!
 Marie—F'll slap your paper heads off!
 Wilma June—Well, lawdy, you all.
 Darnell . . . so to speak . . .
 Leslie—F'll swan . . .
 Orville—F'll swan likewise!
 Ozzin Joe—Knock!

Saturday, which was annual senior day at Hardin Simmons university, proved to be quite successful. We seniors managed to get an early start. The morning's entertainment consisted of a pantomime of "Wild Nell," music played by the famous cowboy band and the newly organized girls' band. An archery exhibition and some tumb-

ling stunts were fun, too.
 At noon we helped to eat a number of barbecued yearlings, several tubs of potato salad, Mexican style beans, pickles, and doughnuts. The meal was topped off by lemonade. We were terribly hungry, and the food was excellent.
 The evening was spent in various ways. We visited with old friends, made new friends, and went through various departments. The boys ended their day by visiting the zoo and the insane asylum. It's still a mystery how they ever got out!

A friendly contest between several ambitious students for about two years. All the students were eliminated except Jimmie Boone, Lenore Longino, and LaVerne Darter. This week those three students' grades were averaged and were found to be as follows: Lenore Longino, 95.28. LaVerne Darter, 94.79, and Jimmie Boone, 94.42. Of course we all wish that all three of them could have been honored by giving the Valedictorian's address, but we also are very proud of the two who did win. Orville Matlock deserves recognition also since he made the highest grade among the senior boys.

What is that that makes a student want to carve his name on anything that he looks at? Most of the high school students have a mania for carving their initials on desks, writing them on walls, and putting them on tables and in the library. Even the statue in the library is covered with names; at least they have found a use for it. When I was a freshman and sat back by the seniors, I saw several names of ex-seniors carved on my desk. The names were familiar, but most of the owners of the names were away at college or in business. I thought that it would be nice to add my name to that list—when I was a senior. I've waited a long time, and now that I'm supposed to know better I find myself still wanting to write my name somewhere—funny what's in a name that makes you feel important when you see it somewhere. So far I've refrained from doing so—at least not very big in any conspicuous place. I've come to the conclusion that if one is so proud of graduating, it shows that he is a shade dumb or he would consider it "all in the day's work." Anyway, most of this year's crop of seniors have decided to make themselves so outstanding that someone else will write their names in a place of honor and to be proud to have them graduate from M.H.S. At least that is the least egotistical thing to do. We do hope that the faculty won't think we are too ill-bred and our family won't be ashamed of us if they find a "teensy-weensy" initial in some secluded place because "we've come a long way together."

Junior Report
 "Who started memory work and what good does it do you?" Is just about the most used question in the Junior class at this time. For one thing, it gives plenty of concentration. We were assigned to memorize Alan Seeger's "I Have A Rendezvous With Death," but I think most of the class had a rendezvous with Miss Couch at four o'clock.
 Several nice poems were written by the students of the Junior class, of which two will be published. The first was written by Beth Haynie

BRANDING CATTLE BEGAN 3,500 YEARS AGO IN EGYPT!

and the second was written by Marion Phillips.

JUST DON
 Some folks think he's bad,
 But I think they just don't understand
 All the fun he's had
 In "wartin'" people; he thinks that's part of a man.
 Sometimes mother becomes distressed
 In the little childish things he tries.
 Little does she know he's doing his best
 To be good, but really he's what keeps the family humor alive.
 When mother's most beautiful flowers are in their prime,
 Don picks them and gives them to her with affection.
 Daddy says children didn't do such outrageous things in his time.
 Don bows his head and slowly walks away and finds in his kittens' prosecution.
 But I know he is just a boy Always full of mischief,
 But to me, he is just a big bundle of joy.
 He's just Don.

WEST TEXAS RAIN
 Way out in old West Texas,
 The best place in the land,
 We have more peculiarities,
 One of which our rain is sand.

All thru the windy month of March,
 The wind blows strong and cold
 Bringing with all kinds of sand,
 That God Almighty knows.

The farmer goes out to plant his corn,
 At the early break of dawn,
 But when the windy day is done,
 His deep, straight rows are gone.

Time after time the farmer plants
 Without any possible success.
 But finally when he does succeed
 Who is responsible, you guess?

But still there is something about this state,
 That I sincerely love,
 I guess it only the sun that shines
 On us from the sky above.

6B News
 We are still wanting our class to go to Sunday School. It seems that we can get so close, yet fail to win the flower. These days are all pretty new, so no one can have an excuse for not going.

We are looking forward to our picnic to be held in the near future. It has not yet been decided just when but it can't be long. This is real picnic weather and we are going to have a big time.

The boys and girls played baseball the other day with the boys' winner. But the girls don't care so much since they were the underdog to start with. The boys thought they had done something great and did they throw out their cheat.

Grade School News
 This week finds us on the second week of the last six weeks period. Only four more weeks to go after this one, but this is not said with a sad heart for after all, school is hard to beat. We can enjoy the first few days of vacation but soon we tire of not doing anything and long for the good old school days again. It is time we put forth that last sprinting effort in order to qualify for the next grade. The teachers are co-operating in every way possible in order to assist students that are doubtful, and to encourage them not to give up but work hard 'til the last day. All gym periods have been left off and library books

"Twilight Trail" To Feature West Texas Chamber Of Commerce Meet

Ablene.—Plenty of entertainment will be provided for West Texans attending the 21 annual convention of the West Texas Chamber of Commerce here May 15-16-17.

"Twilight Trail" is the title of the WTCC revues to be staged Monday and Tuesday nights under the direction of Mrs. Hila Weathers, Crockett.

Mrs. Weathers directed the highly successful shows held at the Sweetwater, Big Spring and San Angelo conventions.

West Texas' prettiest girls, selected by their home towns, will take part in the revue. They will compete for the title, "Miss West Texas."

North Texas State Teachers College stage band, the "Aces of Collegians," directed by Floyd Graham, will furnish music for the shows. This is the eighth consecutive year that this band has been selected for this honor.

To the theme music of "Twilight on the Trail," the shows will present a brilliant, glorified Western setting. In this setting the town sponsors will be presented on the first night's program for selection of "Miss West Texas" by popular ballot. The girl selected will be crowned at the second night's show by a prominent West Texan.

Presentation of the sponsors at each show will be followed by a colorful program of entertainment which the best vaudeville talent in West Texas will appear. Many entertaining acts already have been signed for this program and others will be secured.

Miss Marjorie Munger, daughter of Mr. and Mrs. L. S. Munger of Abilene, has been named "Miss Abilene" and will be official hostess at the convention. She will be presented at the night shows.

Miss Barbara Crissey of Burkburnett who was selected as "Miss West Texas" at the Wichita Falls convention last year will be honored at the first night's program.

An outdoor entertainment program at 4 p.m. Monday on the Federal lawn adjoining the WTCC headquarters building. More than 100 entertainers already have been scheduled on this program and other acts will be added.

Each night following the "Twilight Trail" revue, dances will be held at two local hotels.

Among sponsors named to date are Miss Munger, Miss Crissey, Sweetwater, Miss Joyce Whaley; Albany, Miss Virginia Craighead; Wichita Falls, Miss Peggy Gene Kimbrough; Colorado City, Miss Henrietta Ann Pritchett; DeLeon, Miss June Terrill; Anson, Miss Lora Spurling, and Mineral Wells, Miss Opal Hill.

To The Police—

Vacationists Urged To Begin Trips By Way Of Police Station

Austin, May 3.—State police today advised summer vacationists to start their trips by way of their local police stations.

There an obliging officer will record their fingerprints and give them an identification card valuable in case of accident, amnesia or other serious illness.

"Your card will be a sort of inter-state passport, showing who you are and where you're from—a might handy thing to have along with your driver's license," Colonel Homer Garrison, Jr., state police head, commented.

Boyd Carley was a business visitor in Abilene last Monday.

Homecoming

Mother was bigger and she could see
When Daddy was down by the poplar tree
And that was the moment when, tender-eyed,
She opened the door and propped it wide
And started the baby on eager feet—
Daddy was coming up the street.

Daddy was weary and shabby too,
But oh, the print of her little shoe
And the welcoming of her tiny hands
Made him monarch of richer lands
Than ever were—and night by night
The little game was their dear delight.

Night by night—till the one when Death
Snatched her up on a laughing breath.
A staggering car that rocked and reared
Free of a lad's light hand that steered
And crushed her lifeless before their eyes,
So little, so eager, so sweet and wise.

Three souls cry out in the little town
When darkness hovers and settles
A man who plods from his day's work home
Remembering how he need to come,
A woman who listens with straining ears
And fights the silence with bitter tears,
And a lad with a haggard brow
A baby's ghost in the poplar trees.

Anne Sutherland Brooks.
Travelers Safety Service

Causes Of Death On Tex. Highways

Observance Of Rules Lessen Casualty Of Motorists

The greatest number of people were killed in motor traffic accidents in Texas in March under these conditions:
The weather was clear.
The road, concrete or asphalt, was straight and level and had no physical defects.
Most of the drivers of cars involved in fatalities had been driving more than 10 years.
Only four more fatal accidents occurred in darkness than in daylight.
Most of the drivers were traveling "straight ahead."

But, the Texas department of public safety's March compilation of 1,203 accidents shows, the drivers of 147 vehicles involved in fatalities were doing these things:
Thirty-eight were driving too fast for conditions.
Twenty-four were driving too near the center or on the wrong side.
Four did not have the right of way.
Two were passing on hills.
One failed to signal or gave

'Maid of Cotton' Talks Shop With Fashion Editor

BLONDE Alice Louise Hall (left), designated "Maid of Cotton" by the Memphis Cotton Carnival and the National Cotton Council of America, is shown discussing the latest fashion trends with Camed Snow, editor of Harper's Bazaar, in New York City. Miss Hall is on an 8000-mile good-will tour of the country to dramatize cotton and its many uses. It will be recalled that Mrs. Snow, broadcasting from Paris last February on fashion previews, was the first to predict that cotton would be the keynote of summer apparel.

strong signal.
One disregarded a stop sign, another disregarded the traffic control signal.

Ten were guilty of other types of improper driving.
Seven were hit-and-run. There were 11 cases of undescended or driverless cars in fatal crashes.

Of those same drivers of 347 death cars, 75 were reported apparently normal, while 27 had been drinking, four had physical defects, two were fatigued or asleep, four had their attention diverted, two were inattentive, four were blinded by glaring lights, five were con-

cluded by traffic.
The state police summary for March shows 120 fatalities, including 40 pedestrians killed, but the figure includes 14 persons injured earlier months and succumbing in March or whose deaths were unreported from previous months. Actually there were 106 persons killed in March traffic.

Ideal Prof—Sense of Humor Given By T.C.U. Students As Prerequisite

Fort Worth.—"The ideal college professor should have the respect of his students, but not their awe." Thus a student at Texas Christian University summed up campus opinion on the qualifications of a good teacher for The Skiff, student newspaper.

Knowledge of the subject, a good personality, and, above all, a sense of humor, are important qualifications, for a good teacher in the opinion of the students.

One girl put it: "The ideal professor has a pleasing voice, a pleasing disposition, a sense of humor, gives interesting lectures, and has an interest in each individual student."

EQUAL RIGHTS

Fort Worth.—"Equal rights for women" is more than a phrase in the campus politics of Texas Christian University. It is a statistical fact.

Fifty of the 103 offices in 35 student organizations are held by women. Fourteen of the 35 groups have girls as presidents.

Champion campus officer holder is Miss Miriam Glaze, Fort Worth senior, who has three elective positions. She is president of Alpha Chi, national scholastic honor society; vice-president of the Student Christian Association; and Vice-president of Parabola, mathematics club.

Miss Clara Pycett, teacher in the Megargel schools, spent the weekend in the home of Mr. and Mrs. Aaron Edgar. Mrs. Edgar met her in Seymour last Saturday.

Miss Virginia Reid visited her sister, Miss Juanita Reid, in San Angelo over the week-end.

Many Deaths Due To Tuberculosis

Austin, Texas.—"Tuberculosis no longer ranks first among the major killing diseases—a position it formerly occupied not only in Texas but throughout the entire country. However, despite its now being seventh on the list in 1939, it continues to kill more persons between the ages of fifteen and forty-five than does any other single disease. And this is in the face of definitive evidence that the majority of tuberculosis patients can be cured if the condition is detected early and proper treatment and living rules maintained," States Dr. Geo. W. Cox, State Health Officer.

"While the treatment of the individual early case is of great importance, it is of equal moment, from a public health point of view, that the spread of infection to others be prevented. Such prevention is possible. A more concerted attack on this front would mean the saving of thousands of lives.

"In every case, when a diagnosis of active tuberculosis has been made, an investigation of the physical condition of the other members of the family should follow. It cannot be too emphatically stated that tuberculosis runs in families solely because it is communicable, the disease usually being transmitted through intimate and prolonged exposure to the 'open' case.

"It has been estimated that forty per cent of the tuberculosis cases that will develop within the next decade will be the result of close contact with others already infected.

Routine examinations of all high school children, isolation or hospitalization of the active case, discovery of the sources of infection, application of hygienic living principles, periodic examination for all adults, and a careful check-up by physicians and trained workers of all known active cases and con-

tacts represent an invaluable defense against the spread of tuberculosis."

ALL GIRL BAND
Fort Worth.—An all-girl edition of the famous Horned Frog Band of Texas Christian University is being planned by Director Don Gillis.

"We will have a uniformed organization for public appearances," Director Gillis reports.

He adds that he knows of no other coeducational school with an all-girl band.

MINIATURE CITY
A model city will be constructed from actual working drawings by students in architectural drawing at Texas Technological College, for display at the eleventh annual engineers show April 14 and 15. Clay modeling laboratories will be operating for visitors to see, and several forms or sculpture and bas-relief will be exhibited.

Exhibits at the show also include those electrical, civil, mechanical, textile, geological, and chemical engineering.

A man on leave from a post of Africa, generally held to be unhealthful, was recounting his experience: "There's nothing the matter with the country," he said, "all it requires is a better type of settlers and a decent water supply."

"If you come to think of it," remarked Mr. Smith, who had been listening quietly, "those are the drawbacks to Hell."

The United States has one telephone to every seven persons. The four other leading nations average but one telephone to every 35 persons.

Andy Elland and John Nesbitt spent the first of the week at Lake Kemp, fishing.

Mr. and Mrs. O. L. Jamison of Knox City were business visitors here Tuesday.

Knox Schools—

(Continued From Page One)

two months ago. One of the county's largest rural schools is located at Rhineland. There are 159 pupils in the four-teacher school. John J. Hoffman is principal and Jean Walsh, Mary Ruddy and Genevieve Albus are faculty members. Eleven grades are taught at the Rhineland school.

Sunset System

There are 343 scholars in the Sunset school of which T. W. Harber is superintendent. The school has 21 affiliated units; boasts four school buses and there are 84 square miles in the district. A new gymnasium-auditorium was added two years ago. Faculty members are W. C. Kimbrough, Shirley Gray, home economics, Mrs. Otis Cash, J. T. Sykes, Jr., N. T. Underwood, Mrs. N. T. Underwood, Mrs. Claude Reed, Mrs. I. W. Walling, I. W. Walling, and Exa Faye Hutton.

High school students from Union Grove, west of Knox City, are transferred to Knox City and only a grammar school is conducted. Mrs. E. F. Branton, and Mrs. Eric Lea are teachers.

Mrs. C. D. Tanner is the only teacher at Brock, northwest of Knox City and across the Brazos river.

Forty-two students attend Dixon, northeast of Gilliland. Nine grades are taught. Ernest Wright and Mrs. Neal A. Brown are teachers.

Not Connected With Fights Held At Knox City

Those who have been in charge of fight cards at Munday announced this week that they are no longer connected with the fights at Knox City.

Last week a fight card was staged at Knox City under auspices of the Munday school, but it was announced that the Knox City fights are now being run independently of those at Munday.

Dr. and Mrs. E. M. Roberts and son, Edwin, spent the week-end in Sulphur Springs visiting in the home of Dr. Roberts' parents, Dr. and Mrs. E. M. Roberts, Sr.

Artist Enriches World's Fair

Two massive murals, each 15 x 65 feet, portraying the progressive steps in the manufacture of a motor car body, have been executed by Dean Cornwell, one of America's leading mural artists, for the New York's World Fair. Cornwell, with Edward Fisher (left), general manager of Fisher Body, and William S. McLean, director of advertising, are shown examining the sketch of the mammoth project. The murals, in gold and aluminum leaf against a jet black background, are part of the Fisher Body Exhibit of the General Motors Building at the Fair.

Utilities Company Offers Aid In Soil-Water Conservation Program

Farm and ranch leaders have been invited to call on the West Texas Utilities Company for any cooperation and assistance the concern can render to make the soil and water conservation program more effective, it was announced by W. R. Cabaness, local manager.

Price Campbell, president of the company, called attention to the value of the soil and water utilization work last week and said that the organization's manpower in 166 communities served by WTU would be "happy to join in this movement."

"The thought is inspiring that a program of this character will have the result of passing on the land to the next generation in actually better condition than it is in this generation," he said. "That surely constitutes a due regard for posterity."

The program will be climaxed by a "March of Conservation" during the West Texas Chamber of Commerce convention in Abilene on May 15-16-17 at which time prizes totaling \$1,000 will be awarded to counties entered in the soil and water conservation contest.

Mr. Campbell announced that the West Texas Utilities Company will provide the prize money in addition to joining forces with agricultural leaders to continue the work.

"Anything that benefits the communities in the areas we serve and increases the purchasing power of the citizenship, also benefits our company as well as every other type of business," he stated. "This contest should do much to guarantee the permanency of our West Texas region, supporting firmly and enhancing its claims to being the 'Raw Materials Capital of the World' by increasing the spendable income and in furthering the wel-

fare of agricultural and livestock producers." He praised the 50,000 linear miles of terraces constructed last year and the earthen dams, impounding two and one-half billion gallons of water, as a method of catching the water where it falls and "where it belongs."

"Terracing work alone, done at practically no tax cost, has been of greater value than the \$25,000,000 of taxpayers' money spent on one of the Colorado rivers," he said. He cited a (Fort Worth Star-Telegram) newspaper editorial as saying:

"... by terracing, West Texas farmers have impounded 554,000 acre-feet of water, the same amount as that held by the \$25,000,000 Marshall Ford dam. In the farmer case, rainfall has been stored in the soil to provide moisture for crops, at the same time contributing to flood control. A lesson is thereby offered that the only effective curb on devastating floods must begin at the point where the rain falls."

Among those commending Mr. Campbell and his organization for its cooperation in the soil and water program was Clifford B. Jones, chairman of the West Texas Chamber of Commerce agricultural committee.

"We are grateful beyond expression," Jones said, "but even surpassing our appreciation of your extreme generosity is the gratification we have that the conservation program is deemed worthy by you of such outstanding support. It is but another evidence of the constructive attitude of the West Texas Utilities Company toward all that affects the public welfare of

this territory."

W. R. Cabaness, manager of the local WTU office, said he had been advised that the company's engineering staff and statistical department "gladly will cooperate in solving technical problems and in gathering data concerning soil and water conservation."

A good three-round battle which was acclaimed a draw.

Troy Denham, 139, lost the judges' decision to Floyd Nunley. Elmo Roberts, 142, won over Welton Leflar, 142, by a technical knockout. Roberts took lots of punishment in the first two rounds and Leflar threw his shoulder out of place which awarded the fight to Roberts.

In the heavyweight division, Joe Smith, 198, won over Reginald Bauman, 188, by a knockout.

A battle royal between Joe Dean Clough, Ray Moore, Jack Pippin and Forest Yancy furnished plenty of action and entertainment.

Mr. and Mrs. Garnet McGraw and baby of Sherman visited over the week-end in the home of Mrs. J. F. Nesbitt and other relatives. Joe Nesbitt returned with them to Sherman, where he has accepted a position with a market there.

Bill Mitchell and daughter, Clara Sue, left last Monday for Austin, where Clara Sue will enter business school. Mr. Mitchell will return to Munday the latter part of the week.

The teacher sent a note home with the boy. "Your son, Charles, shows signs of astigmatism. Will you please investigate and take steps to correct it?"

The next morning she received a note from the father who wrote: "I don't exactly understand what Charlie has done, but I've walloped him, and you can wallop him tomorrow. That ought to help some."
