Munday, Knox County, Texas, August 24, 1939

Number 9

CENTRAL COTTON OFFICE IS BEING PLANNED

Firemen Will Start Inspection Tours at Once

Department Members Assigned Sectors of Business District

Members of the Munday Fire Department, captained by R. B. Bowden, Deaton Green, Grady Thornton and Ed Johnson will make the first of the usual fall inspections for fire hazards in the near future, according to Chief H. C. Hawes.

"The cooperation of the business men of the city is urgently requested in this matter," said Chief Hawes, "as firemen and members of the State Fire Insurance Commission are of the opinion that these precautions are responsible to a great extent for the good fire records we have had so far. Unsound practices in regard to storage of merchandise, disposal of trash and rubbish and the creation of fire hazards in places of business will be pointed out." Reports of hazards requiring correction will also be made to fire marshal M. J. Franklin, who will aid in the annual inspections.

One of the most common practices creating fire hazards in the business district is the habit of some places of business of burning trash and rubbish from the stores in the late afternoon, the chief pointed out, adding that the trash is burned about closing time, and the unattended fire stands a much greater chance of blowing into or under adjacent buildings or sheds and starting fires.

An additional advantage of these inspection tours is the knowledge of the floor plans, layout of fixtures, ventilating ducts, and exits that might be of great value to firemen at some future time.

Sunset To Have 6-Man Football Team This Year

N. T. Underwood Says Over 25 Boys Out For Practice

A six-man football team, which is gaining much favor among the smaller schools of the state, is being formed in the Sunset consolidated school, it was announced Monday by T. W. Harber, superintendent of the school.

N. T. Underwood, school principal, is coaching the 6-man team. Practice has already started, and Underwood says that around 35 boys are reporting for practice. The football grounds have been put into fine shape, and the Sunset team expects to have some stiff competition in this sport during the fall months. Training has been going on for over a week, but no games have been scheduled for the immediate future.

Approximately six schools in this vicinity are expected to have six-man teams this year. They are: Sunset, Goree, Vera, Truscott, Benjamin and Knox City.

Sargent To See His Granddaughter Receive Degree

W. O. Sargent will leave Saturday for Denton to attend the commencement exercises at T.S.C.W., which his granddaughter, Miss Myrl Lowe will receive her B.A. degree. Mr. and Mrs. E. E. Lowe, her parents, and her sister Elma will also attend the exercises.

Dean E. V. White, dean of Texas State College for Women, is a lifelong friend of Mr. Sargent. Miss Lowe is resigning at Goree to accept a position in the Midland schools. He has had nine successful years of teaching experience.

Mr. and Mrs. Cyril Stone and baby of Artesia, New Mexico, visited Dr. and Mrs. Glenn E. Stone here last Saturday.

Miss Geraldine Bookout visited relatives in Coleman, Texas, over last week end.

Munday Schools To Open On September 4th

Vice-President Garner— Will He Respond to Call As Presidential Candidate?

John Nance Garner presiding over destinies of United States Senate.

Vera School To Open Its 1939-40 Term Sept. 11; To Teach Eleven Grades

The Vera Public School will open its 1939-40 school term on September 11, it was announced Monday by J. G. Thompson, superintendent. The school will not be dismissed for cotton picking, Mr. Thompson said.

Vera will teach eleven grades this year, this being the first time an eleven grade school has been taught there since the 1934-35 term. The school building and school buses are undergoing repairs now in preparation for the opening of school.

A school auditorium will be ready for use this year, having electric lights and folding chairs added. Various entertainments will be held in the auditorium this year, it was stated.

A six-man football team is almost assured, Thompson said, and other sports such as boxing exhibitions, etc., will be participated in shortly after the opening of school.

Vera has eight affiliated units in high school, and an intensive effort will be made this year to make the school fully affiliated with the State Department of Education.

Teachers in the high school are J. G. Thompson, supt., and Roy Tomlinson, principal. Two high school teachers are yet to be hired. Grammar school teachers are: Mrs. Mildred McMurry, Mrs. Maurine McMurry, Mrs. Vera Chapman, Mrs. Helen Randolph, Miss Maudie Coffey. All teachers at Vera have their degrees.

RECREATIONAL ASSOCIATION TO BE ORGANIZED

The Knox County Home Demonstration Council will have an all-day meeting September 1st at Benjamin in the assembly room in the court house.

Each lady will please bring a covered dish and have pot-luck dinner. At this time the women will organize a county recreational association and make plans for the organization.

Members of all home demonstration clubs are invited to attend this meeting even though they are not members of the county council.

Elmer McPherson of Vernon came to Munday last Sunday and was accompanied home by Mrs. McPherson and daughter, who visited relatives here and at Haskell.

Six New Members Added to Faculty

Dr. J. H. Bass Names Faculty For Next School Term

Stating that the Munday Public Schools would begin the 1939-40 term on Monday, September 4th, Dr. J. Horace Bass, superintendent, announced Tuesday that all teachers for the local school have been employed except one. A high school science teacher is yet to be employed to fill the vacancy created when Miss Mary Ethel Darnell resigned several weeks ago. Dr. Bass said several applications have been received for this position, and appointment will be made within the next few days.

New teachers in the schools this year will be the science teacher and Miss Ila Moody, homemaking, in the high school; Mr. and Mrs. Howard Garner of Quanah, Miss Kathleen Burnett of Pittsburg and Miss Flora Belle Sims of Commerce, in the elementary school.

Last year's teachers who are remaining this year are: High school, Dr. J. Horace Bass, superintendent; L. S. Hardegree, principal; Miss Mary Couch, Coach Billy Cooper and Howard Cobb, business administration. Elementary school; L. M. Palmer, principal; Mrs. Howard Cobb, Mrs. Palmer, Miss Mildred Kennedy, Mrs. J. H. Bass, Miss Dorothy Crawford and Miss Mayme Crouch.

A number of teachers have already returned to Munday to be ready for the opening of school. Others will be coming in from time to time. Dr. Bass stated there would be no enlargement in the faculty this year.

Dr. Bass is calling a meeting of teachers for Saturday afternoon, September 2, at two o'clock, at which time they will organize and make plans for opening the schools on the following Monday.

Miss Glispie Is New Librarian

New Books of Fiction Added to Library

Miss Glispie has been named librarian for the Munday Library, it was announced this week by those in charge of the library.

Library hours are from 8 to 1 o'clock each week day, and from 11 to 4 o'clock on Saturdays.

Two new books of fiction have been added to the library. The two, which have been much in demand for the past few months are: "Grapes of Wrath" by John Steinbeck, and "Loving Spirit" by Daphne du Maurier, author of Rebecca. A number of new books for children have also been added to the library shelves.

Patrons of the library are asked to bring money for rent on books and for fines to the librarian at their earliest opportunity.

RETURN FROM VACATION

Mr. and Mrs. Ben Yarbrough have returned from their vacation spent at the San Francisco Fair and other places. Mr. Yarbrough stated that they visited ten states while away and had a wonderful time.

Application For Tenant Purchase of Knox County Farms Being Received

Notices have been previously posted by the Baylor County Farm Security Administration office that it is now accepting applications for all sharecroppers or tenant farmers who are interested in purchasing a farm through the tenant purchase program. These applications for Knox County are now being taken and will close September 2, 1939. After that date no applications will be accepted for the purchase of a farm in 1940.

All those who are interested in making an application for the purchase of a farm should secure application blanks from the Farm Security office, Seymour, Texas, or from the County Clerk, Benjamin, Texas. It is urged that these applications be secured and submitted at once, as September 2 is the last day that applications can be accepted.

All land owners who are interested in selling their farms or land should contact the County Clerk at Benjamin or the Rural Supervisor at Seymour.

NOTICE

The State Board of Education has ruled that under the Equalization Bill passed by the last Legislature that if a child is transferred from a district in which his grade is taught to another district, then he is liable for his own tuition and transportation. Any school which fails to collect tuition and transportation will lose by the fact that this is charged to its budget.

The law states that in the case of transportation on such transferred pupils, they will not be eligible to ride a school bus unless transportation is paid in advance.

MERICK MCGAUGHEY
County Supt. Schools

New Farmalls To Be Demonstrated Here Saturday

Fred Broach To Hold Demonstration At Sunset

Fred Broach, head of the Broach Implement Co., recently returned from a group meeting of International Harvester dealers, gathered together to get first-hand information on the new Farmall family. He has arranged for a Farmall demonstration to be held 1-2 mile west of the Sunset school next Saturday. There farmers will see of the New Farmalls working.

In this community it is scarcely necessary to explain that a Farmall is a popular type of farm tractor, originally introduced more than 15 years ago. Because it enabled tractor farmers to plant and cultivate.

Revival at M.E. Church to Close Sunday Night

The revival meeting now in progress at the First Methodist church will close with the services Sunday night. The entire public is cordially invited to attend each and every remaining service of the revival.

"Attendance at the meeting has been very good, and a deep interest has been shown upon the part of those in attendance," Rev. Longino said Wednesday. The services will be concluded Sunday night.

Rev. J. E. Kirby of Wellington has been bringing fine spiritual messages at each and every service. He is a young man who has had a deep experience in the Christian life, and his messages hold the attention and interest of his listeners. He has given his entire time while in Munday to the revival and to helping those who are in need of spiritual advice and guidance. His services here will be long remembered by those who have come to know him and who have received a blessing through his coming to Munday. Many will want to hear his good sermons during the remainder of the meeting.

Virginia Smith To Get Degree

Tentative lists of candidates for bachelor's degrees to be conferred at the August 28 commencement of Texas University have been announced by the deans of the respective divisions of that institution.

The list of candidates includes Miss Virginia Smith of Munday, who will receive her Bachelor of Arts degree.

Flea Hopper War Is Started

Government To Test Cattle For Bang's Disease

Word has just been received in the county agent's office that the Federal Bureau of Animal Industry, located in Fort Worth, will test herds of dairy cattle in Knox county for Bang's disease. This will be at no cost to the owners.

The owner of cattle agrees to sell any cattle that may have the disease in a public livestock market where federal veterinarians are in charge.

Any farmer who desires to have his cattle tested should contact County Agent Walter Rice for details. Application blanks are being mailed direct from Fort Worth.

Mrs. H. A. Pendleton and her sister, Mrs. Mason of Wichita Falls, are spending a few days this week in Mineral Wells.

Finding lots of cotton flea hoppers in their cotton, farmers are now starting an intensive war on this week starting an intensive war on these destructive insects.

Three dusting machines, for poisoning the flea hopper and other cotton insects, were purchased by the Munday oil mill and have been started to work on cotton fields of the county. One is being operated by H. A. Pendleton, another by Orb Coffman of Goree and the third one is expected to be put into action this week.

This is a machine designed to be placed on tractors, and they will poison about 100 acres in 12 hours time. It uses both the sulphur and calcium arsenate for poisoning the various types of cotton insects.

T. G. Bengel, manager of the oil mill, stated that farmers had been unable to determine what was wrong with their cotton when it failed to bloom as it should because many of them didn't know the flea hopper when they saw it. When shown the insect, many farmers have found them plentiful in their cotton.

A representative of the West Texas Cotton Oil Co., with headquarters in Abilene, is spending the week in Knox county, setting up the machines and getting them in operation.

Mr. Bengel stated that both types of poison, the pure sulphur, and the mixture of 2-3 sulphur and 1-3 calcium arsenate, are available at the oil mill in Munday.

Dr. and Mrs. J. Horace Bass returned home Tuesday from a week's vacation trip to the New York world's fair. They reported a very enjoyable trip.

Mr. and Mrs. M. C. Hallmark and daughters visited relatives in Haskell last Sunday.

Pitzer Baker was a business visitor in Fort Worth the first of this week.

Dove Season To Open in County September 1st

Knox county, along with most of North Texas and all of the Panhandle, will have an open season on mourning and white-winged doves from September 1 to October 31, it has been announced by the game department.

Federal and state laws allow hunting during the period in the counties of Yoakum, Terry, Lynn, Garza, Kent, Throckmorton, Haskell, Stonewall, Young, Jack, Wise, Denton, Collin and Hunt and all counties north of them; also in Parker, Tarrant, Dallas, Rockwall, Kaufman, Johnson, Hopkins, Ellis, Delta and Franklin.

Elsewhere the season is from Sept. 15 to Nov. 15. Prospects for an abundant crop of doves are good in the Wichita Falls area providing that enough fall falls to keep the birds from migrating.

MRS. NEWSOM MOVES TO HOLLYWOOD, CALIF. TO MAKE HER HOME

Mrs. Annie Newsom, who has been a resident of Munday for a number of years, left the first of this week for Hollywood, Calif., where she will make her home. She has rented her home in Munday to Mr. and Mrs. L. E. Owens.

Mrs. Newsom's many friends regret her leaving Munday but wish her lots of happiness in her new home.

Mr. and Mrs. Taft Green of Quanah spent the week end here visiting Mrs. Green's parents, Mr. and Mrs. Will Mabry.

Charlotte Ann Williams is visiting with Mrs. Ruby Kethley and family in Wichita Falls this week.

To Take Place Of Export Program

Four County Group In Meeting Tuesday To Outline Plans

A central cotton marketing office, to be established as a cooperative marketing program for farmers in this territory, has held the attention of Knox, Baylor, Haskell and Stonewall county farmers during the past week.

The idea, as promulgated by government officials, to take the place of the cotton subsidy export program which was practiced in Baylor and Knox counties last year, is to establish an office in charge of a government cotton classifier and to sell cotton produced in this territory cooperatively. Munday has been proposed as the place for this office, in view of the fact that Munday is more centrally located among the one-variety cotton communities.

This method is proposed to encourage the one-variety cotton program in this county. It was thought some would become discouraged in the growing of a better cotton unless a market could be established which would assure them better prices for this cotton.

Under the marketing plan, press box samples of all cotton sold cooperatively would be drawn at the gin—one to be furnished the market manager by which to grade the cotton and "table" it in running groups for marketing, and the other to go to the person buying that cotton. The cotton remains at the gin, cotton yard, or point of ginning until sold.

Particular advantage of this system of marketing have been pointed out this week to various educational meetings held in these four counties.

On Tuesday afternoon, a meeting of representatives of communities in the four counties met at the Munday school auditorium, and plans for forming the organization were made. L. B. Paterson was elected temporary chairman, and Wallace Reid, secretary. Each community selected a committeeman, and these committeemen are to form by-laws or the organization to present to their various communities.

Communities represented at the meeting were Rule and Rochester. (Continued on Page 8)

Church of Christ Open-Air Revival To Close Sunday

Subjects for Revival Remaining Services Announced

The open-air revival which is now in progress at the Church of Christ will continue through next Sunday night, it was announced Wednesday.

"Attendance at the meeting has been far better than expected," Minister Fred McClung, in charge of the meeting, said. "The interest is unusually good. Every day so far we have had an increase in attendance at the 10:30 a.m. service of about 12 to 20 over the preceding day. We had as many Monday night as we had Sunday night. People are in regular attendance from Haskell, Knox City, Goree, Weirnet and other places."

The public is invited to hear the following gospel sermons preached by Evangelist McClung of the Highland Park Church of Christ in Fort Worth:

Thursday morning: "The Prodigal Son"; night, "Heaven and Why I Want to go There."

Friday morning, "God's Picture Gallery"; night, "Why be a Member of the Church, or Does the Church Save?"

Saturday morning, "Prepare to Meet Thy God"; night, "Will Little Babies be Saved in Heaven?"

Sunday morning, "The Greatest Thing in the World"; night, "How God Persuades People to Obey Him."

Services are held at 10:30 a.m. and at 8:15 p.m., and the entire public is cordially invited to the remaining services.

EDITORIAL PAGE

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"—

THE PUBLIC GOES ON RECORD

After a hard battle, out in front and behind the scenes, the Hatch Bill to take politics out of relief has become law.

There will, naturally, be plenty of cynics now to declare that the ideal expressed in this legislation is a contradiction in terms: that it is impossible to take politics out of something controlled by politicians.

Those taking this tack are guilty of missing the real point or significance of the Hatch measure. The real point is that an aroused public has succeeded, in spite of attempts to waylay it, in putting its attitude on record. And it has done so through the democratic processes at its command.

The average American favors adequate work relief for those who need it, but he has grown extremely tired of seeing WPA punted back and forth in an endless game of political football. Reliable polls of public opinion have shown this sentiment becoming steadily more pronounced. In April, 1936, to the question "Does politics influence relief in your locality?" 78 per cent of those responding said that it did. Two years later, the figure had risen to 84 per cent!

The public resentment over the recent WPA "strike against government" serves to indicate that the sentiment is even stronger today. But it is the case of the Hatch Act which finally drives the point home and leaves no room for further doubt. It shows what the American public expects of relief and its administration, nationally and locally, from this time on.

And the politicians know, better than any other group, that when public opinion wants to be heard it speaks with a voice of thunder.

THE COURT REBUKES BUREAUCRATIC RULE

The action of the Federal Circuit Court in Chicago in nullifying an order of Secretary Wallace against a meat packing company is a pointed lesson that there are limits to the authority of Government Administrators. The company was charged with unfair discrimination in extending credit to different classes of customers.

A fair degree of discretion must be allowed managements and stockholders in running their own businesses. Mr. Wallace regarded the packing industry as a public utility, subject to such regulations as is imposed by the Interstate Commerce Commission on railroads.

The court said Mr. Wallace was wrong in supposing that he possessed such powers and must keep within the law. Government by bureaucracy has made great strides in this country during the last few years. When it oversteps its bounds, it is good to know that there are courts to call it to account.

QUIET LESSON IN ECONOMICS

When the Congress of the United States decides to pack its bags and go home, the last few hours are a jumble of confusion and haste, of vacation good wishes and last-minute name calling. The one this year was no exception. And it is just possible that, because of the confusion, one of the most trenchant and accurate statements concerning government spending and pump priming theories was lost to the newspaper-reading public.

The statement, made by Representative Woodrum, Virginia Democrat, is worth reviving here, for it shows what an observer on the scene has actually discovered about the elaborate spend-lead theories until recently in vogue.

The Virginia congressman was attacking heavy government spending in general when he was interrupted by the remark that in these cases the Treasury and the various agencies were merely "making loans."

"Yes, I know," the Representative immediately shot back, "but once you take it out of the Treasury—good bye."

"Those who believe, sincerely and mistakenly, that government projects for lending large sums of money are really self-liquidating, would do well to read those words over again and again until they register. For they are the product both of common sense and a careful observation of past schemes that were supposed to be self-liquidating—schemes which the Representative well knows, have cost the country billions of dollars while yielding little in the way of tangible returns.

That same lesson is, of course, going to be impressed on all of us in the form of heavier taxes, but it will at least lessen the shock and cut down on its intensity if it is remembered clearly in the future that "once you take it out of the Treasury—good bye!"

On August 1, 1938, the Chicago Cubs were nine full games behind the leader, yet they won the National League pennant. They lost the world's series to the Yankees in four straight games.

In 3,521 years of the world's recorded history only 268 years have been without war. Col. R. H. Cushing told an audience at Lancaster, N.Y. He also estimated that during the same period 8,000 treaties were signed and were observed an average of two years each.

THE MUNDAY TIMES

Published Every Thursday at Munday

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly, impartially, and honestly.

Let us have faith that right makes right, and in that faith let us to the end dare to do our duty as we understand it.—French Proverb.

THEY'VE TROUBLES, TOO!

The State Highway Department is having trouble of its own because of drought conditions in various parts of the State. It is necessary to have water to properly compact caliche, iron ore, gravel and base courses, and, with the dry weather prevalent, the amount of water required is in excess of ordinary requirements, causing an additional expense in construction.

The dust hazard on construction work creates additional hazard where material is being hauled, and around stone and caliche crushing plants. When traffic is proceeding over roads under repairs, motorists are urged to reduce speed and proceed carefully as a protection to themselves and to workmen on the road.

"BRACE UP, AMERICA!"

Writing in the Atlantic Monthly some time ago, Wendell L. Willkie, president of the Commonwealth and Southern Corporation, said this: "A revision of the tax program so as to encourage investment; a reduction in government spending; a modification of the unnecessarily restrictive provisions of our economic legislation—these are the measures upon which business expansion awaits . . ."

"This is a campaign of revitalization which looks forward rather than back; which is not political in its nature, and should legitimately command the support of Republicans and Democrats, Conservatives and New Dealers, employers and employees. It is a program for the assertion of one our more neglected liberties—that of free enterprise—with the same vigor as we assert our liberties of speech, of press, and of religious worship."

The title of Mr. Willkie's article was, "Brace Up, America!" And nothing could do so much to brace us up as a program of the sort he outlines. America is ready to go places. We have the men, the money, the machines. We'll start going when some such program as Mr. Willkie suggests is put into effect—and not before.

THE STATE FAIR OF TEXAS

Although for half a century the State Fair of Texas has been held in Dallas, the people of the Southwest, whether their homes are in Arkansas, Oklahoma, or Texas, have come to regard it as their own great institution.

As it enters upon its second half of a century of service, these same people bid it God-speed and continued advance toward its goal, which is to make this a better and bigger world for all classes and the masses.

E. Paul Jones is again handling the publicity for this institution of agriculture, livestock, industry, invention, art and etc.

Paul is widely known and highly esteemed. His stories tell a lot. This time, in recounting some of the features of the next Fair, which extends from October 7 to the 22nd, inclusive, his headlines announce such important facts and interesting items as the following, just taken at random:

- "State Fair Offers Higher Premiums for Livestock."
- "Bargain Day Will Open Fair."
- "Waterfowl Show Planned for Fair."
- "W.O.W. to Celebrate Special Fair Date."
- "Plan Huge Castle of Foods Show."
- "Art Institute to Hold Fair Classes."
- "Plan Second All-Southwestern Newspaper Contest."
- "Name Committee to Arrange C. of C. Heads."
- "Many Phases of Education to be Shown."
- "Plan Many Special Days at the State Fair," and,
- "State Press Will Open 51st Fair."

In a pistol battle over the affections of a 10-year old girl at Guadalupe, Mexico, Enrique Vazquez, 16, shot and seriously wounded his rival, Jesus Ramos, age 11.

Joe Louis will again defend his heavyweight title in a scheduled 20-round bout with Bob Paastor at Detroit September 29. Joe says though that he will decide how many rounds there will be.

THE WATCHMAN ON THE JOB

Gems Of Thought

When we look into the long avenue of the future and see the good there is for each one of us to do, we realize after all what a beautiful thing it is to work, and to live, and be happy.—R. L. Stevenson.

Simplicity is the exact medium between too much and too little.—Sir Joshua Reynolds.

No man can produce great things who is not thoroughly sincere in dealing with himself.—Lowell.

Striving to be good, to do good, and love our neighbor as ourselves, man's soul is safe.—Mary Baker Eddy.

There is no devil but fear, and nobody and nothing can harm you but yourself.—Elbert Hubbard.

CIVIL SERVICE EXAMS FOR PUBLIC HEALTH NURSE TO BE HELD

The United States Civil Service Commission has announced open competitive examination for the position of Junior Public Health Nurse, in the Indian Field Service, Department of the Interior. Applications must be on file in the Commission's Office at Washington, D.C., not later than September 11 if received from states east of Colorado, and not later than September 14 if received from Colorado and states westward. The salary for the position is \$1,800 a year.

High-school education and certain nursing training is required for entrance to the examination. Competitors are to be given a written test covering practical questions. Applicants must not have passed their fortieth birthday. The age limit will not be waived in any case.

Full information may be obtained from the Secretary of the United States Civil Service Board of Examiners at the post office or custom-house in any city which has a post office of the first or second class, or from the United States Civil Service Commission, Washington, D.C.

"ROUND AND 'ROUND" Household washers produced by American manufacturers and in use today (there are thirteen and a half million of them) fill every week with laundry a clothesline that would go around the world ten times with enough left over to stretch from Moscow to Miami.

As a result of industrial research every fourth worker employed today is in an industry nonexistent or just starting 40 years ago.

Since 1920, the average price per pound of automobiles has declined from 74¢ to 26¢.

CAUTIOUS Mr. Smith: "Is this your ball, Johnny?" Johnny: "Any windows broken?" Mr. Smith: "No." Johnny: "Yes, thanks, it's mine"

A preacher prayed the Lord to keep him humble and poor and one of the deacons responded: "Lord, if you will keep him humble, we'll do the rest."

Mrs. Jabber: "When you proposed to me you said you'd rather live in eternal torment with me than in bliss by yourself." Jabber: "Well, I've had my wish."

Safety cuts out worries.

THEY SAY!

"There is nothing wrong with the country which American brains, energy, and good will cannot cure. As we readjust and get back into balance there are going to be greater opportunities than ever before. The boy who assumes otherwise, who is not ready for the opportunities as they come, is going to miss the boat. From my knowledge of American industry, it is my conviction that the development of this country is going to be greater in the next fifty years than it was in the last fifty years."—William S. Knudsen, president, General Motors Corporation.

"The best thing women could do for this country right now would be to keep their minds and suspicions alert while reading news from abroad. Women could do wonders if they would speak up against Communism, Fascism and all other 'isms' that have no place in this country."—Jane P. Orth, lecturer.

Cotton Council Being Organized

County Units Being Added Council

Dallas, Texas.—The county units of the National Cotton Council are being rapidly organized in Texas according to J. R. McCrary of Calvert, chairman of the Texas unit, who visited the state headquarters office in Dallas this week. Several field representatives are now organizing the county committees in the cotton producing counties of Texas. A total of 850 of these National Cotton Council county committees will be organized in the 19 cotton producing states.

The membership in the National Cotton Council is composed of the five primary cotton interests—cotton producers, ginners, merchants, crushers and warehousemen, however, chairman McCrary stated, all citizens indirectly interested in cotton are invited to become associate members. Producers will be asked to pay dues at the rate of one cent per bale of cotton raised, and ginners one cent per bale ginned. Dues

for merchants and warehousemen will be one-half cent per bale handled, and for crushers one cent per ton of seed purchased.

The finance plan has been adopted for the entire nation by the Cotton Council, which gives representation on an equal basis to producers, ginners, merchants, crushers and warehousemen. The first two groups are assessed one cent each bale, because they handle both lint and seed, while each of the last three groups is restricted either to lint or to seed only.

"The small assessments that we are asking," McCrary said, "will give us the nucleus of a powerful organization." "The funds, when collected on the production in 850 cotton producing counties, will finance a concerted campaign in 1940 to halt some of the inroads of competition and push cotton back toward its rightful place in American and world markets."

"At last," McCrary said, "the millions of Americans who look to cotton as the direct or indirect source of their livelihood are organizing for united action in promoting their common interests." "We have at last resolved to pool a small part of our resources to build cotton consumption by scientific research and carefully planned advertising and sales promotion. From coast to coast, in 19 cotton raising states, the cotton people of America are awakening to the great achievements they can make by working together to get rid of the surplus and provide a market for future production."

'39 COTTON PAYMENTS College Station.—First batches of a scheduled \$24,000 in 1939 cotton price adjustment payments were on their way to approximately 30,000 cotton producers in 31 counties this week.

Designed to bolster the income of cotton farmers who have reduced their acreage this year in view of a towering cotton surplus, this series of grants will add to the purchasing power of Texas cotton producers the earning equivalent of around 600,000 bales as current prices.

B. B. Ingle, Grandview farmer and member of the State Agricultural Conservation Committee, pointed out that the price adjustment payment of 1.6 cents a pound on the normal yield of the 1939 cotton acreage allotment is made to the 1939 producer.

Delta county, receiving \$39,102.37, was first in the state to get the 1939 cotton price adjustment checks. Other counties slated for payments within the next ten days are Red River, Titus, Morris, Marion, Rains, Van Zandt, Williamson, Colorado, San Patricio, Brooks, Henderson, Hunt, Garza, Kent, Mitchell, Nolan, San Saba, Travis, Calhoun, Jim Wells, Rockwall, Motley, Fisher, Jackson, Victoria, Bee, Nueces, Willacy and LaSalle.

This is the first year that AAA payments have been current with the program to which they apply. Payments in connection with the 1937 program were made in 1938, and 1938 payments are being distributed this year.

Ingle reported that practically all of a projected \$3,000,000 in 1939 wheat price adjustment payments has been made in Texas, and that Texas farmers and ranchmen have received approximately \$60,000,000 in 1938 conservation payments this year.

Ed Gossett Tries To Get Local Cotton Export Program

Makes Contacts In Washington For Local Groups

AREA EXCLUDED Dickson Explains Why Other Areas Named

Although starting the "battle" too late for the Munday and Seymour one-variety cotton groups to benefit from an export program this year, Congressman Ed Gossett did some valuable work for farmers of this area while in Washington.

Too late to be included in this year's export program, Mr. Gossett's work will probably result in a substitute for the program. This is a proposed central marketing office, where farmers of the one-variety cotton, as well as others, may bring their cotton samples for grading by a government licensed cotton classifier, and for sale.

Mr. Gossett was contacted by both Knox and Baylor county people who were trying to get a government program locally. The following excerpts from Mr. Gossett's letter of August 3 explain his efforts in behalf of local farmers:

"I arranged a conference with Mr. Dickson and others for the purpose of talking over the situation and trying to persuade them to continue and expand their cotton export program in Munday and Seymour. We had a two hour session in the office of Mr. Dickson on Monday morning of this week. There was present at this meeting the following: Mr. P. K. Norris, of the Foreign Agricultural Service; Mr. H. W. Barre, of the Bureau of Plant Industry, cotton improvement work; Mr. C. B. Ingram, assistant to Mr. H. L. Brown; Mr. A. M. Dickson, in charge of cotton marketing work, and Mr. H. W. Spielman, assistant to Mr. Dickson.

"I suggested to them that because of the work done by the Department in Munday and Seymour during the last cotton season that there had been a great expansion of the one variety, better cotton staple, planting program and that you folks were relying upon a con-

insisted that it was too late to rearrange the program for this season, that the program had been reduced from the original quota of 50,000 bales to be bought for export to 30,000 bales . . ."

"I knew nothing of the export program until you gentlemen wrote me. Had we gone to work on it earlier, I think we could have been successful in the inclusion of Munday and Seymour.

"It was suggested to these gentlemen by me that certainly something should be done to retain the ground gained in Knox and Baylor county communities, that the farmers there should be encouraged and assisted rather than be discouraged because of a complete abandonment of the government's staple program there . . ."

In a letter from Mr. Dickson it was explained that this area was not included in the export program for the following reasons:

1. To have selected this area would possibly have meant the elimination of the Mississippi area. This would have caused the exportation of around 25,000 bales of Acala cotton and only 4,000 bales of any other variety. It was not considered advisable to go quite this heavy in a single variety of cotton.
2. The Newton and Altus areas were selected because of their very large volumes of cotton and other facilities they have available for handling the cotton which would enable marketing and classing demonstrations. The Arkansas area was selected because it was the only place where a supply of Rowden cotton could be found. The Victoria area was selected because a market of the type considered desirable is already established there."

The following areas were selected: One at Newton, Miss., which will deliver approximately 10,000 bales of Deltapine cotton; one in Arkansas which will deliver approximately 4,000 bales of Rowden cotton; one at Victoria, which will deliver approximately 6,000 bales of Rogers Acala cotton; and one at Altus, Okla., which will deliver approximately 10,000 bales of Acala-8 cotton. This will use the allotment of 30,000 bales, and therefore, Dickson said, it will not be possible to include this area in the one variety cotton export program this year.

T. G. Bengtson was a business visitor in Goree Monday afternoon.

Sheriff Louis Cartwright of Benjamin was a visitor in town Saturday.

Mr. and Mrs. W. E. Braly returned home the latter part of last week from a week's vacation which they spent at point sin Arkansas.

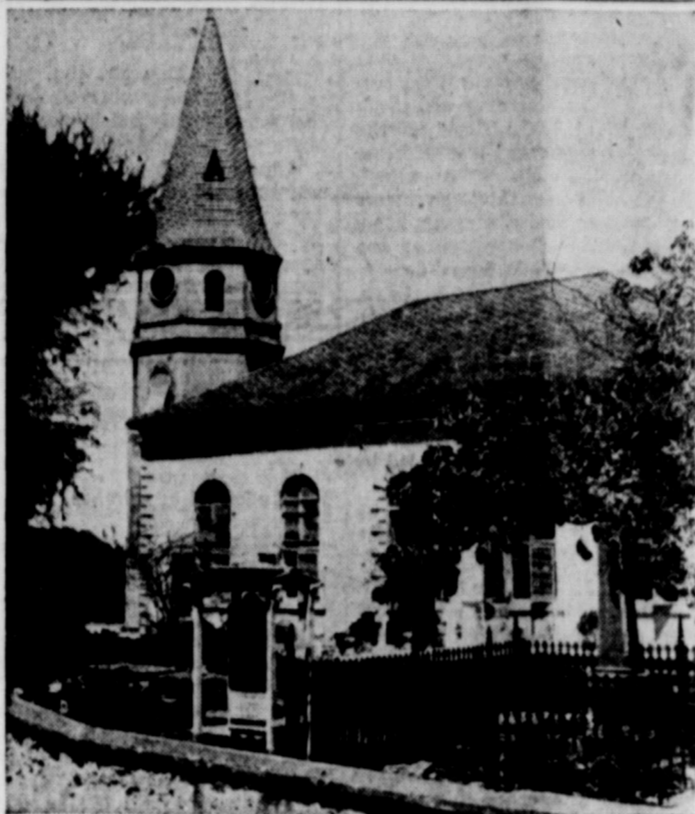

Mr. and Mrs. B. B. Bowden visited in Henrietta last week end.

Mr. and Mrs. E. B. Bowden returned to the Wichita clinic hospital last Saturday, where Mr. Bowden is undergoing medical treatment.

Mr. and Mrs. J. D. McStay of Vernon visited in the home of Mr. McStay's parents, Mr. and Mrs. S. E. McStay, last Friday. They were enroute to their home at Vernon after a short vacation.

Willard Bauman and Hal Pendleton were business visitors in Sherman last Friday.

English Country Scene in Nassau

Oldest church in the Bahamas is this graceful structure in Nassau, St. Matthew's Church, built about 1728. Influence of the English homeland is noted in the small cemetery which surrounds the church.

Trespassing on Railroad Results In Death to 2,300 Persons in Year

Twenty-three hundred persons were killed while trespassing upon the property of American railroads last year, according to the reports of the Interstate Commerce Commission. More than 2400 other persons sustained injuries more or less severe, many of these being permanently crippled, from the same cause. There were 300 fewer fatalities in 1938 because of trespassing upon railroad property than occurred the year previous, and although this is an encouraging fact to the railroads nevertheless far too many persons, many of them of school age or under, are being killed and injured because they needlessly expose themselves to great danger.

Mr. H. F. Barnes, agent, said the Burlington was resolved to carry on without relaxation the intensive campaign his company has been waging to combat the trespass evil. He pointed out that six out of every ten of those persons killed or injured while trespassing upon railroad property are local people; that is, their homes are in or near the community where the casualty occurs. He said that quite naturally the railroad has a great interest in these folks and, therefore, greatly desires to minimize these uncalled for tragedies.

Burlington officers and employees have just concluded a program which carried their anti-trespass message into all of the schools in the territory served by that railroad, and Mr. Barnes said that over 2,000 schools were visited and the message given to nearly one-half million school students, ranging from the primary to the high school grades and their teachers. Great results are expected from the campaign, which so greatly needs

the support of parents and local governing bodies, because children of school age or under are still, either with or without the knowledge and consent of their parents, found trespassing upon railroad tracks and in yards.

To illustrate the hazard of trespassing upon the railroad, Mr. Barnes said: "Recently, an eighteen-months old boy—just a toddler—in company with some other under-school age children, clambered upon a track elevation, was struck by a train, and suffered injuries from which he died. Four little girls returning from a flower picking excursion attempted to cross a railroad bridge, were trapped on the bridge by a train. One of the girls laid down in the middle of the track and miraculously escaped with injuries; two of the other girls suspended themselves from the ends of the bridge ties and thus saved their lives, but the fourth apparently became panic stricken, remained on the track and was struck by the train and killed. A father, carrying a seven-months old baby, was walking along one of our tracks accompanied by his seven-year old daughter. An engine ap-

proached and warning whistle was sounded, but the little girl evidently became confused and ran onto the track in the face of the approaching locomotive; the father in his desperation ran after her. The three were struck by the engine and the father was killed. The girl suffered greatly from shock but the baby escaped injury."

According to the ICC reports more than 6 persons are killed every day while trespassing upon railroad property. We are asked by the Burlington to assist them in their program to conserve life and limb by discouraging the extremely hazardous practice of trespassing upon railroad property. Parents particularly are requested to be continuously on the alert to prevent trespassing by their children and school authorities are again urged to wage a campaign against trespassing when the school term begins this fall.

Pendleton Gin Is Now Ready For Cotton Season

Repair Work At Gin Plant Completed

Undergoing extensive repair work during the "quiet months," the Pendleton Gin has been placed in first-class condition for the 1939 ginning season, H. A. Pendleton, owner, announced this week.

"The gin plant has been gone over thoroughly," Pendleton said, "and every bit of gin machinery is in good condition to begin the season. Repairs have been made, and in cases where new parts were needed they have been installed."

"We are looking forward to serving you this fall," he continued, "and we invite your ginning business. We have had the pleasure of serving many of you through many ginning seasons, and we assure you the same satisfactory service you have always received at this gin."

Pendleton stated that additional connections have been made in the cotton department which will be of advantage to the farmers, and assures them of the highest market prices for their cotton.

RETURN WITH EVIDENCE
L. M. Palmer and Paul Pendleton spent Thursday and Friday at Lake Kemp, returning home at about eleven o'clock Saturday morning. They had fish to exhibit in evidence of their success. Two of the fish were nice bass, and weighed

around five pounds.

Mrs. C. K. Mosby and daughter, Miss Kathrin, and Mr. Everett McConnell, all of Wichita Falls, visited in the home of Mr. and Mrs. Robert Green last Sunday.

Fred (Ted) Sams of Memphis, Tenn., is visiting with relatives in Benjamin this week. Fred is a brother to Earl Sams, tax assessor and collector for Knox county.

Goree Couple Marry Sunday At Seymour Parsonage

Miss Johnnie Patton and J. E. Fritz, both residents of Goree, were married Sunday morning at Seymour by Rev. J. R. Balch, pastor of the First Baptist church, the ceremony being performed at the parsonage.

Mrs. Fritz was educated at Goree, and for the past ten years has taught in the Goree schools. Mr. Fritz has been a resident of Goree for 25 years, and is now engaged in farming and stock raising. The couple left immediately after the ceremony for an extended honeymoon trip to the West coast, after which they will be at home near Goree.

4-H Club Boys And Girls to Have Picnic Saturday

Miss Nina Astin, county home demonstration agent, and county agent W. W. Rice, will entertain the 4-H club boys and girls of Knox county with a picnic and fish fry Saturday afternoon August 26, at the Seymour city park. Girls and boys will be permitted to go in swimming free if they have the permission of their parents and bring their swimming suits and towels. Mr. Lee Coffman is assisting the agents by providing the fish as well as frying them. Each person is asked to bring his plate, glass, knife, fork and spoon and be responsible for them. All 4-H club boys and girls are invited to attend this picnic.

J. W. Hunt And Ella Fay Norville Wed on August 20th

J. W. Hunt and Miss Ella Fay Norville were married on Sunday, August 20, at Wichita Falls, it was announced this week. The bride is the daughter of Mr. and Mrs. R. O. Norville of this city and is well known in Knox county. The couple will make their home in Wichita Falls, where Mr. Hunt is employed by the Pepsi-Cola Bottling Company. Mrs. Agnes Rosser and son, Max, of Kingsville came in last week for several days visit with friends and relatives in Munday. Wade Mahan visited with Mrs. Mahan in Abilene last Sunday. Judge E. L. Covey of Benjamin and Commissioner Ed Jones were business visitors in town Monday morning.

Radiator cleaning and repairing. Munday Plumbing Co

Mrs. Verna Nelson Hostess to Members Of Pioneer Circle

Mrs. Verna Nelson was hostess to members of the Pioneer Circle on August 17th. All enjoyed the evening quilting and meeting their friends.

Refreshments were served to Hettie Rogers, Mary Zeissel, Emily Carden, Annie Russell, Nan Dingus, Lou Simpson, Jessie Beecher, Lila Beaty, Bobbie Layne, Nancy Edwards, N. A. Sweatt, Bertha Sweatt, members, and two visitors. The next meeting will be with Mrs. Minnie Hammack on August 31.

Kethley-Allen Rites Solemnized Saturday At Crane, Texas

Crane, Aug. 22—After a wedding trip to Odessa, Mr. and Mrs. Jerry Kethley are at home here. Before her marriage Saturday night by the Rev. H. L. McAlester, pastor of the Methodist Church, Mrs. Kethley was Miss Billie Marie Allen. For the ceremony she wore a combination blue crepe and pink chignon suit with white accessories. Wedding guests were the bride's mother, Mrs. C. A. Allen, Jack Chaffin, Curly Stice, and Ben Boyd. The bride, a daughter of Mr. and Mrs. Allen, will be a senior in Crane High School this year. She was the band majorette last year. Mr. Kethley, son of Mrs. J. D. Kethley of Abilene, completed high school at Munday and was graduated from McMurry College. He is manager of the T. L. Miller Jewelry Store.

Vera's New Home Demonstration Club Meets on Wednesday

Vera home demonstration club met Wednesday afternoon, August 23, in the home of Mrs. McMurry. Miss Nina Astin gave a demonstration in "Fruits in the Diet," and at this time she prepared fruit drinks and different fruit salads and gave special helps on refreshments for parties. At the close of the demonstration a talk in "Table Service" was given. Four new members were added to the roll, which makes 26 members in this new club. The hostess served chicken salad sandwiches and fruit drinks to the group.

Mr. and Mrs. Don Ferris and Mr. and Mrs. C. E. Binnion visited relatives in Sweetwater over the week end. Mrs. Paul Pendleton had as her guests over the week end, her mother, Mrs. C. S. Spencer, and Mr. and Mrs. Pete Spencer and children of Pittsburg, Texas.

Hefner Home Demonstration Club Met Last Tuesday

The Hefner Home Demonstration Club met on Tuesday, August 22, at 3:00 o'clock in the home of Mrs. Sidney Johnston.

A very interesting demonstration of fruit salads and fruit drinks was given by Miss Astin "For a balanced diet a certain amount of citrus and other fruit must be eaten twice daily, she said, "since vitamin C cannot be stored in the body citrus fruit, such as oranges, lemons and grapefruit, must be eaten twice daily."

Mrs. M. J. Jones gave a report on the organization of the new club at Vera. A refreshment plate of fruit drink, salad and cake was served to the 16 members and one visitor present.

Club Women Sell Pie and Chickens Here Saturday

The pie and chicken sale, which was sponsored here last Saturday by members of the Munday Home Demonstration Club, was very successful, the club women said. By four or five o'clock Saturday afternoon, these ladies had sold all their pies and chickens. Big, thick home made pies were sold for 25 cents and a number of nice dressed chickens were also sold. The club women expressed their appreciation to those in town Saturday who patronized this sale.

Mr. and Mrs. Arthur Lawson visited relatives in Stamford last Sunday.

Boyd Carley spent the week end in Tipton, Okla., visiting his parents, Mr. and Mrs. A. B. Carley, and other relatives and friends.

Mr. and Mrs. T. G. Bengue were business visitors in Wichita Falls last Tuesday.

Mrs. D. C. Eiland and Andy Eiland were business visitors in Abilene last Tuesday.

Mrs. Chas. Haynie returned home Sunday from a visit with relatives in Truscott and Mexia. Mr. Haynie's aunt, Mrs. Charley Haynie of Mexia came home with her and returned home Monday.

Mr. and Mrs. Troy Hoenig were Sunday evening guests of Mr. and Mrs. Leo Fetsch. They left for their home at Gainesville Sunday night.

Mrs. Fred McClung of Fort Worth came in Wednesday to visit here for the remainder of this week with Rev. McClung, who is preaching for the Church of Christ revival. The family will then visit in Haskell, Abilene, and the Carlsbad Caverns before returning home.

M. F. Billingsley attended court in Dickens last Tuesday.

22 Vera Women Meet And Form Women's Club

Twenty-two Vera vicinity women met in the home of Mrs. Della McGuire at Vera Thursday afternoon August 17 at 3:00 o'clock for the purpose of organizing a local home demonstration club. Those assisting with the organization were Mrs. Marion Jones, Hefner home demonstration club member and chairman of county home demonstration council, Mrs. E. J. Jones, member of the Hefner club, Mrs. Orville Burgess, president of the Gilliland home demonstration club and Miss Nina Astin, county home demonstration agent.

For the opening exercise the women sang "Beautiful Texas" led by Miss Nina Astin.

Miss Astin then gave a talk on the "Value of Home Demonstration Clubs to the Rural Communities." Mrs. E. J. Jones and Mrs. Orville Burgess reported on the work being done in individual communities and told the group just how much club work has meant to them. "I put my home demonstration club work next to my church," Mrs. E. J. Jones said. "I believe club work has helped the rural women more than any other thing other than the church," continued Mrs. Jones. Having been a club member for about 12 years Mrs. Jones can speak from experience. Mrs. Jones read a poem entitled "Believe In Yourself," at the close of her talk.

The program was then turned over to Mrs. Marion Jones who gave points on the workings of the county home demonstration council and the duties of officers in home demonstration clubs. The officers of the Vera club were elected as follows: Mrs. Vertie Sullins, president; Mrs. Harry Back, vice president; Mrs. R. N. Smith, secretary-treasurer; Mrs. Buster Tolson, council representative; Mrs. Della McGuire, council representative alternate; Mrs. Sam Shipman, 4-H club sponsor; Mrs. Lola Scott, reporter; Mrs. L. M. Christian, bedroom demonstrator; and Mrs. Della McGuire, home food supply demonstrator.

Dates set for regular meetings are each second and fourth Wednesday of each month. The club closed the meeting by singing "God Bless America," led by Miss Astin.

The next meeting will be held in the home of Mrs. McMurry Wednesday afternoon, August 23. At this time Miss Astin will give a demonstration on "The Place of Fruits in the Diet."

Miss Nina Astin, home demonstration agent of Benjamin, was in town for a while Tuesday afternoon. Mr. and Mrs. Loy Dutton returned to their home near Lubbock last week after a ten days visit with Mrs. Dutton's parents, Mr. and Mrs. E. Beecher of Munday.

D. X. BIBLE TO SPEAK AT VERNON DINNER

Vernon, Tex.—Dana X. Bible, director of athletics at the University of Texas, will be the principal speaker at the annual Vernon Lion football banquet, Sept. 2. Dr. Otto Juhl, chairman of the Junior Chamber of Commerce committee which sponsors the event, announced Monday.

Approximately 175 persons are expected to attend the banquet and give the 1938 district 2-A champions a big send-off for their fall campaign. Other speakers on the program will be Coach Pat Gerald and Supt. C. H. Dillehay.

HEFNER NEWS

Had showers of rain here first of the week. The Methodist revival is in progress this week. Rev. Cockrell is doing the preaching for pastor J. Fisher.

Mr. and Mrs. John Lambeth and daughter Miss Imogene, returned from Canadian on a visit with relatives. Grandma Overton returned with them for an extended visit.

Mr. and Mrs. Jerry Williams and children of Brushy were Sunday guests of her parents, Mr. and Mrs. J. G. Martin.

Mr. and Mrs. E. M. Swain and children returned from a trip to Seagraves where they visited with relatives. Mrs. Sidney Johnston and daughter Helen returned from a visit with her mother at Burkburnett.

Mesdames E. J. and M. J. Jones attended a woman's home demonstration club meeting at Mrs. Della McGuire's home at Vera on 17th of August.

Mrs. Lessie Jackson and family attended a Primitive Baptist association at Knox City Sunday, where her brother Mr. Hodges, and other relatives live.

Rhineland News

Mr. and Mrs. George Wilde of Wichita Falls, Texas, visited relatives and friends in Rhineland over the week end.

The following returned from Stinnett, Texas, during the past week: Albert Kuhler, Herman Herring, Norbert Homer, Mick Birkenfeld, Arnold Koenig, Alvin Herring and Fidelis Loran.

Mr. Joseph Blaschke, Jr., Kenneth Blaschke, and Herman Brown returned from Groom, Texas, Saturday, where they attended the funeral of Mr. Paul Ledwig.

Mr. and Mrs. W. A. Carter and children of St. Louis, Okla., spent the week-end in the home of Mrs. Carter's sister, Mrs. H. Claus. They were accompanied by Miss Georgette Claus, who has been visiting relatives in Oklahoma.

Mr. Albert Loran of Abilene, Texas, is spending the remaining week of his vacation in the home of his parents, Mr. and Mrs. Peter Loran.

Mrs. Lois Reagan and son, Bobbie Gene were visiting last week end at Weimert.

Radiator cleaning and repairing. Munday Plumbing Co

METHODIST CHURCH

The attendance at our "outdoor meeting" has been very good and interest deep. One never knows the full result in spiritual advancement brought about by a meeting. I predict that many will look back to this meeting as the time of new life in Christ and a victory not hitherto known.

The services will be concluded next Sunday night. This leaves us just three more days and the meeting then will become history as to the services but its results will be felt throughout the life of many. There is a rich experience in Christ for all who will meet Him on the terms of the Gospel. We want you to reap benefit from each message until the last service.

The hours are: preaching each day, 10:00 a.m., except on Sunday, when it will be at eleven o'clock, each evening at 8:00. Other services: Bible study, 3:00 p.m.; children's service 9:00 a.m.; young people's meeting 7:00 p.m.; prayer meeting, 7:30 p.m. Bro. Kirby has the following hours for private consultation to any who wish, 8:30 to 10:00 a.m., and any hour that will suit your convenience if arranged personally with him. He is glad to be used while here.

Will you not help make Sunday a "Red Letter Day" by being present and entering fully into our services?

H. A. Longino

FIRST BAPTIST CHURCH

Rev. J. B. Rowan, pastor of the First Baptist Church at Aspermont, will preach Sunday morning. Bro.

Rowan was pastor at Stamford a few years ago, then at Terrel and at Quannah. He was one of the State evangelists for three years. He is a good preacher. Be sure to hear him Sunday morning.

We had a good meeting at Brushy and prospects are good for a meeting here at Aspermont.

There will be no service Sunday night on account of the Methodist meeting. Let's concentrate our efforts on the morning service. Don't fail to hear Bro. Rowan.

THE
Rhineland Register
—Published by Students of the Rhineland Public Schools—
Editor ALMA SCHUMACHER Sponsor JOHN J. HOFFMAN
Senior Dorothy Koenig Junior Genevieve Herring
Sophomore T. J. Hoffman Freshman Elsie Schumacher
Grade School Everett Kuehler

With this writing of the Rhineland Register we begin what we hope will be a continual source of interest to our readers.
We believe that we have a staff of reporters who are really ready, willing and able. They are as follows: Senior, Dorothy Koenig; junior, Genevieve Herring; sophomore, T. J. Hoffman; freshman, Elsie Schumacher; grade school, Everett Kuehler.
Alma Schumacher will be editor-in-chief, and Mr. Hoffman will again sponsor the Register.

SENIOR NEWS
When school started we were very pleased to see that our class had not grown smaller but still contained the seven girls who very proudly took their seats to do their duty as dignified Seniors. We have resolved to try very hard to gain the title of "Seven Smart Seniors."
After a two weeks delay my classmates have elected me as their reporter and in appreciation I am going to do my utmost to please everybody. If by any chance some offense is given, I assure you that it will have been done unintentionally.
Alma, who has faithfully rendered her services to you as reporter for the last two years, has been elected editor-in-chief. I am sure that she will continue her splendid work.
In spite of the hot weather, we

JUNIOR REPORT
First of all we wish to say hello to all the readers of the Rhineland Register. Here are the Juniors back again to work at their best as to earn the reward of promotion to the Senior Class at the end of the year.
We haven't caught on to the catch of geometry, but I guess we will sooner or later. Anyway, we hope so. Don't we, Juniors?
Try your best not to be surprised if some of these days when you talk to the Juniors, they will answer you in German, because they all believe German to be

SOPHOMORE REPORT
The twelve of us in the sophomore class are glad school is open again for the summer season.
We think that our new teacher, Miss McGraw, will be a good teacher.
Algebra is the subject that is giving us the most trouble, but we hope to master some of it before our first test.
Our Friday reports in geography on the material we have covered during the week, are very interesting.
Evidently the snake that was put on Miss McGraw's desk was for the Biology collection!

FRESHMAN REPORT
We are all very happy to be back in school, although it is hot.
We welcome Miss McGraw, and hope she will enjoy teaching us as much as we enjoy being taught by her.
Since school has begun we have learned many new and queer things. From the Freshman science class we learn that "Franklin invented lightning!"
Saying 'ain't got,' can get you into trouble as some of the boys who wrote lines will tell you.
Elsie Schumacher was elected Freshman reporter.

GRADE SCHOOL NEWS
In the sixth grade we have eighteen boys and girls, seventeen of which are new students. Our seventh grade, which is composed of six boys and one girl, is much the smaller of the two classes. So far our new year has been very successful, and we hope that it will continue to be so.
This year we have a new teacher for our sixth and seventh grade. We all hope that we can do satisfactory work for her.

WANT ADS

FOR SALE—Nice equipped lunch room and domino parlor. Good location. Will sacrifice for cash. Also ice cream cabinet, like new, at sacrifice. Inquire at Times Office. 6-4c

NOTICE—We are prepared to finance New Cars Only, at the low interest rate of 5 per cent. Jones & Eiland. 6-fc

FENCE CHARGERS: See the new #339 Electric Fencers on display at our store. Ask for FREE demonstration.—THE REXALL DRUG STORE, "Radio Dept." 9-fc

MAN WANTED—Reliable 70 year old company has wonderful opportunity for capable man with car for sales work in Knox county. Desirable profits from beginning. For information write J. M. DOWELL, c/o Hilton Hotel, Abilene, Texas. 8-2tp

LUMBER BARGAINS—20,000 feet No. 2 1x4, 1x6, 1x12, 2x6, 2x8, shiplap, center-match flooring, \$3.25 per 100 feet. 1x6 Fencing, rough, \$32.50 per 1000. THE REXALL DRUG STORE, The Most Complete Drug Store in Knox County. 3fc

FOR SALE or Trade—20-cottage tourist court, modern, 1 mile west of Henderson, Texas, good thriving oil town on highway 64. Real paying business. Prefer trading for small ranch already stocked. Reason for selling, old couple wanting to retire. Trade direct with owner, Box 609, Henderson, Texas.

"RUPTURED?"—Examinations Free. We examine and fit your truss right in our store, no waiting for correct truss, we carry a complete stock. Examination and advice Free.—THE REXALL DRUG STORE, Drug Dept. 9-fc

their favorite subject. Let's keep up, and we'll make some real Dutchmen.

Something To Talk About
Ethel thinks so much of her mailbox.
Cletus thinks Rose is so pretty. (Rose of Washington Square.)
Richard says he quit smoking during vacation.
Florine seems to be getting letters from Sunset.
Geneva and Catherine both enjoy driving to the store during dinner.
Albert seems to like English. We wonder why.
Genevieve seems to have the new name of the classy third sacker.
Al luf us like to go to see more. (Seymour.)
Our class was disappointed when Wayne didn't show up for the summer session. Wayne, we know we will miss you, but wherever you go or whatever you do, remember us as your good old classmates.
We have a new rule which reads like this: Please keep all spindle-shanks under your desk, and don't wrap them around half a dozen desks.

COUNTY MEN GO TO COTTON MEET IN SEYMOUR
Several farmers and ginners of Knox county attended a meeting in Seymour on Thursday of last week, the purpose of which was to explain the proposed cotton marketing office for this area.
Mr. C. B. Barre, with the Triple-A at Washington; Mr. John Burress, Farm Credit Administration, Washington; Mr. Jackson of the Bureau of Agricultural Economics, Dallas; and Mr. E. A. Miller of the A. and M. Extension Service, were present to explain the cotton marketing office, which is proposed to take the place of cotton export subsidy which was practiced here last year.
Attending the Seymour meeting were: Wallace Reid, Emmett Partridge, C. N. Smith, Omar Reid, Will Patterson, Joe Koenig, Frank Kuhler, Shorty Kuhler, August Loren and County Agent W. W. Rice.
A similar meeting was held in Munday on Thursday night, at which the following were present: W. R. Moore, Aaron Edgar, Judge E. L. Covey, Wallace Reid, H. A. Patterson, J. E. Edwards, E. A. Beck and son, Ernest, of Red Springs and August Schumacher.

LOCALS
SIMPSON CHILDREN ON VISIT HERE
Mr. and Mrs. J. F. Simpson had all their children present for a visit the first of this week, the first time all of the family had been together for several years.
The children are Roy Simpson, of Arizona, Floyd Simpson of Lorenzo, Mrs. S. E. Crawford of Stamford and Otis Simpson of Munday.

Joe Blaschke and son, Kennedy, attended the funeral of Mr. Blaschke's brother-in-law, Paul Ledwig, a former Rhineland citizen, in Claude, Texas, last Saturday. They were accompanied to Claude by Herman Brown.

Coach Billy Cooper returned home last week from the coaches' meeting.

Saying 'ain't got,' can get you into trouble as some of the boys who wrote lines will tell you.
Elsie Schumacher was elected Freshman reporter.

She'll Do Better On A Balanced Ration!

Everyone realizes the fact that Dairy Cattle become better producers when fed a Balanced Ration! And we know, too, that adequate amounts of well-balanced ration is better supplied thru cottonseed meal and hulls. Meal makes milk, and milk makes money!

Improve your herd, and you will improve your earnings. If you have cows capable of high production, get maximum results by feeding Cottonseed Meal and Hulls.

The cotton picking season will soon be here. Resolve NOW to get more for your cottonseed. There is one sure way in which every farmer can get ALL of the value of his cotton seed.

This sure method is to use the Cottonseed Meal and Hulls for livestock feeding. When you bring us your cottonseed and take back to your farm or ranch Cottonseed Meal and Hulls you know that you are getting ALL of the feeding value in your products, in the form of proven livestock feeds that will increase the value of your own grains and roughages in rations.

Last Call for Winter Pastures

By T. C. RICHARDSON, Associate Editor
Farm & Ranch Breeder-Feeder Ass'n.

The Southwest is particularly fortunate in the variety of pasture crops which can be grown for fall, winter, and spring grazing. Of course pasture crops are of little interest to a farm without livestock, but a farm without livestock and poultry is not a complete farm anyway. A way back in 1924, when cotton had been twice to four times the price of recent years, an Oklahoma investigation showed that farmers who depended on cotton for less than forty per cent of their income had accumulated property three to four times as fast as those who depended on cotton for seventy-one per cent or more of their income.

"As the percentage of income from livestock increases the annual saving of wealth increases," and "the farmer who had less than forty per cent of his income in cotton and more than twenty-five per cent of his income in livestock and livestock products made the most money on the average." There are perfectly logical reasons why this was true then and is true now, which have been touched upon in these articles before.

In 1934 and for a long time afterward there were no government "benefits" for doing a good job of farming. Now the government actually pays farmers to do what good farmers were already doing. But the "benefits" from cotton, wheat, etc., will not make prosperity for those who do not follow through and capitalize the land and labor released from cotton growing, by using both in some other profitable manner.

There is nothing wrong with trying some new "cash crops," or looking forward to industrial crops of which we hear so much since the "farm chemistry" idea has been so highly touted. In the meantime it is within the immediate ability of every Southwestern farmer to improve his own condition by practicing the well-known and long-proven principles of balanced farming outlined in the Breeder-Feeder program.

Crops and livestock belong together on the farm, and as shown above, offer greater promise for independence and farm prosperity than any new-fangled theory that has ever yet been invented. Now pastures, winter and summer, are the foundation of a balanced farm program in which man-labor is better distributed and better paid, by turning more of the work over to the animals. And winter grazing depends on planting the right crops at the right time.

It is a common expression among practical farmers that wheat, oats or barley will pay for the seed and labor in the grazing alone, in most years. The grain crop is that much to the good. Says the Texas Experiment Station "for fall and early winter, barley is the best producer; wheat, oats and rye produce most grazing for winter months, while rye grass gives the most grazing for March and April."

Winter legumes offer another good use for the land and labor during the winter months. Crops such as vetch, winter peas, and some of the clovers, grow well in many sections during the winter and early spring, and when plowed under in the spring, improve the soil. Substantial increase in the yields of cotton have consistently

resulted . . . in East and Central Texas when legumes are grown in winter and plowed under in early spring before planting the cotton. This holds true also in Eastern Oklahoma, Louisiana, and Arkansas, as thousands of farmers have proven by their own experience in recent years.

Winter pasture crops may be sown from now until November in the Southwest, but naturally the earlier they get started the more grazing they will provide.

6,000 Expected At Legion Meet Held in Waco

Waco, Texas.—Last minute preparation has been completed here for what promises to be Texas' largest convention of the American Legion. The convention dates are Saturday, August 26 through Tuesday, August 29. The attendance is expected to swell to 6,000.

In spite of the heavy attendance anticipated, the convention housing committee promises adequate hotel facilities for every person. Headquarters for members of the Legion Auxiliary will be at the Hotel Raleigh. Sons of Legion squadrons, expected to attend 1,000 strong, will be encamped, army fashion, on the Cotton Palace grounds.

All Legion organizations are urged to bring their colors in order to participate in the Americanism massing-of-colors program on Monday evening.

One of the outstanding events of the four-day session will be a two-mile Legion parade down Waco's main streets in which 20 bands besides drum and bugle corps, Sons of Legion proper, Legionnaires, Auxiliary members, and a large number of local officials are expected to participate.

Another top feature of the convention will be a "Judge Roy Bean" Court on Saturday morning, sponsored by La Societe des 40 Hommes and 8 Chevaux. The mock trials will be conducted all day Saturday and proceeds will go into the Legion's child welfare fund.

Prominent among distinguished guests of the convention will be U. S. Senator Tom Connally of Marlin, who will speak on the Americanism program Monday evening, and President Pat M. Neff of Baylor university, who is to address a general meeting on Sunday afternoon.

Other prominent persons planning to attend the Waco convention include Dr. Jerome L. Fritschel, national chaplain of the Legion; Col. A. W. Robins, air service, U. S. Army, commandant, Randolph field and James I. Crawley, national vice-chairman.

Highlights of the Auxiliary convention will include a sightseeing tour of Waco and vicinity Sunday afternoon; division luncheon at the Karem park clubhouse on Monday evening; the past president's party luncheon at the Shrine Temple Tuesday noon. Mrs. William A. Wyatt, department president, will be in charge of the Auxiliary.

RIGHT OUT OF THE AIR

By EARLE FERRIS

BEAUTY with an operatic voice is Florence George, pictured here, who is on NBC's Thursday night Music Hall with Bob Burns Sept. 7.

Florence has been with the Chicago Civic Opera Company and was in several movies. She's Mrs. Everett Crosby which makes her Bing's sister-in-law.

Alice Frost, the radio dramatic actress, has a talent which would net her lucrative returns were she to commercialize it. Due to her art of mimicry, Alice is known to her friends as "the girl of a hundred voices."

Brewster Morgan, pictured here, is one of those important gentlemen in radio whom the public seldom hears about—a producer. However, considerable attention is being focused

on Morgan at the present time. He is producing the two sensational CBS hit programs, "The Human Adventure" and "Men At Work." The latter has such a pronounced entertainment value it was recently filmed by the newsreels.

According to a west coast vocal teacher who wrote into "The Musical Playhouse," heard over CBS, Jane Froman's voice alone is so expressive that she could convey the meaning of a song even without singing its lyrics! But Jane is noted in radio circles for her faultless enunciation.

Among other important events of the Legion convention are a contest to be sponsored Monday evening at the municipal stadium for visiting bands and bugle corps, followed by a dance and a floor show at the Shrine Temple and the annual parade on Monday.

Members of the 40 and 8 and the 8 and 40 on Saturday evening, following the mock court and a "wreck," or initiation for 40 and 8 members, will stage a joint banquet and dance. The 8 and 40 group is composed of members of the auxiliary. The 40 and 8 Sunday noon will be guests of Former Mayor O. Jones at a barbecue at his place on Lake Waco.

Department Commander Vincent Chiodo of Houston will be in charge of the Legion convention proper, which gets under way at a joint meeting Sunday afternoon at the high school gymnasium.

Youth (to fair companion): "Have you ever tried listening to a movie with your eyes shut?" Voice (from row behind): "Have you ever tried listening to one with your mouth shut?"

"I Love A Mystery" which is written by Carlton Morse, author of the popular "One Man's Family," becomes a coast-to-coast NBC feature early in October. It's been heard regularly on a Pacific Coast network for the past four months.

Bob Knight, pictured here, whose electric "singing" guitar is featured on "Answers From the Dancers" program, is an unusual figure in the music world. Although Knight's own

orchestra appears in many of New York's swanky night clubs, he himself enjoys playing the role of a solo instrumentalist with a top flight radio orchestra like Horace Heidt's.

If the records compiled by Mort Lewis, producer-emcee of the NBC "If I Had the Chance" programs, can be accepted no one is perfectly satisfied with his present occupation or profession. Lewis has presented hundreds of people on the air and everyone has admitted that "if they had the chance," they would prefer doing something different to earn a living.

Pretty Lillian Greene, pictured here, who is "Betty Carter" in "Meet Miss Julia," will be remembered by movie-goers as the featured come-

dienne in a series of movie shorts. Miss Greene's current radio role is affording her an opportunity to display her excellent dramatic ability.

Weekly Health Letter!

Issued by Dr. Geo. W. Cox, M.D., State Health Officer of Texas

Austin, Texas.—"In spite of increased popular education on the cancer problem during the last decade, many false ideas regarding this disease still persist. Too often such conceptions are the basis of delay in diagnosis and treatment. Obviously, figures cannot be compiled, but it can be stated safely that a fair proportion of the thirty thousand preventable cancer deaths now occurring annually in the United States could be avoided if these mistaken notions were corrected," the State Health Department believes.

"The following facts are pertinent: (1) Cancer is not contagious; the victim cannot give it to any other person. (2) Cancer is not a blood disease. (3) Diet is not a

Farmers' Co-Op Gin To Handle Variety Cotton

One-Variety Cotton to Be Ginned Exclusive At One Plant

The Farmers Co-Operative Gin, which has three gin plants in Munday, will make special arrangements for handling the one-variety Acala cotton which is grown in this community, Wallace Reid, manager, stated early this week.

"We have not decided definitely whether we will use just one plant or two of these gin plants for ginning this cotton," Reid said, "but in event they're needed we will have two gin plants at the disposal of those growing only the one-variety cotton."

Mr. Reid stated that these gin plants have undergone repairs during the summer months, and each plant is in fine shape for the ginning season now upon us. Since farmers have gone in heavily for the one-variety cotton this year, Reid expects the gin which is set aside for this cotton will receive a large volume of business.

A recent card questionnaire sent out of the gin showed that about 90 per cent of those to whom the cards were mailed were growing the one-variety of cotton.

Mr. and Mrs. Rex Holder of Coleman spent the latter part of last week here with Mr. Holder's parents, Mr. and Mrs. D. E. Holder.

S. Hassen and family of Haskell visited in the home of Mr. and Mrs. Jimmie Silman last Sunday.

Mrs. C. A. Eiland and daughters of Lamesa visited relatives and friends here last Friday.

Sebern Jones and Mrs. Jones' mother, Mrs. McCarty, visited relatives in Mineral Wells last Sunday. Sebern's mother, Mrs. C. B. Jones, accompanied them home for a visit.

Mrs. Tom Wood left last Sunday for Lubbock where she will visit for a few days.

TEXAS OUT-OF-DOORS

15,000 to 20,000 acre tract of land in East Texas is being sought by the Texas Game, Fish and Oyster Commission to be used in an effort to preserve the pure strain of eastern wild turkey, of which there are not more than 150 birds remaining in the Lone Star State and probably not that many additional from Texas to the Atlantic seaboard. The game refuge, if obtained, will also be used for projects tending to restore deer, turkey, quail, doves and fur-bearing animals. The game management project is one of those being considered if the use of federal funds made available under the Pittman-Robertson Act is restored to the game department.

Many of the wild turkeys in Texas, as well as in other states have become mixed with the domestic turkey, but game department biologists have found approximately 150 eastern wild turkey of a pure strain in southeast Texas. The unmixed wild turkey is a richer dark brown than the birds which are inbred with domestic turkeys. The bars on the tail are very faint.

Landowners asking too high prices for their land either on sale

or lease basis has kept the department from going ahead with its plan of saving the eastern wild turkey, a truly game bird, which it is believed, could be brought back in large numbers in East Texas.

White quail are extremely rare, although found occasionally in Texas. One was seen recently on the ranch of Mrs. Hal C. Peck, game commission member, south of Odesa.

Damage done to wildlife by motorcars was emphasized recently when State Game Warden Tom T. Waddell of Eagle Lake reported fifteen birds and animals found dead on a highway during a sixty-three mile drive. They included, two doves, an English sparrow, three skunks, two opossums, two cottontail rabbits, one jackrabbit, one female quail, a night hawk and a water moccasin.

Harold Barrow and Ernest Porter of Oak Grove community in northeast Texas, are warning fishermen to wear sneakers, boots or some other form of footwear when wading while fishing. Barrow, while walking in Sulphur River recently, was grabbed by a large turtle. The turtle's lower beak cut a large gash in the bottom of Barrow's foot. The top of his beak went completely over the foot and mashed it. An X-ray examination later revealed a broken bone.

Porter, seeing Barrow being dragged under water, went to his rescue. The turtle turned loose of Barrow's foot and grabbed Porter's foot in exactly the same manner, cutting a large gash in the bottom of it, it is reported by State Game Warden H. R. Morrell of Mount Pleasant, where the men were brought for treatment by Dr. A. Grissom.

How fast can mourning doves fly? Their greatest speed has probably never been clocked, but you hunters will know why those delectable little birds are so hard to

hit when you learn that a pair of mourning doves were clocked at exactly seventy miles an hour for more than 300 yards recently by Charles E. Friley, Jr., regional game manager for the department.

Not all predators of wildlife are bloodhungry creatures of the wild, and with a new crop of game birds in the field, Will J. Tucker, Executive Secretary of the Game Department, this week requested every Texan to look after his so-called domesticated animals which are allowed to run loose.

That you cannot blame a good rabbit or bird dog for hunting when he gets a chance and that the damage done to wildlife might well be charged to owners of the animals is the opinion of game experts. Dogs can do almost as much damage as semi-wild house cats. They can hardly be expected to know when the legal hunting season ends and they naturally will continue the pursuit for which their masters praised and trained them at other times.

The number of loose running dogs can, however, in no way compare with a large number of semi-wild house cats which range the woods and fields, especially near the urban centers, and unless citizens stop dumping unwanted cats and kittens along highways, return of wildlife to Texas fields and woodlands will be appreciably hindered.

GOES TO HOSPITAL

Mrs. L. E. Owens, who has been very ill for the past three or four weeks, was taken to a Wichita Falls hospital last Friday for treatment. Mrs. Owens has received several blood transfusions since being admitted to the hospital.

T. G. Bengt attended a convention of oil mill managers in Abilene on Thursday of last week.

RETURN FROM TRIP

Mr. and Mrs. S. T. Easley returned home last week from Bentonville, Ark., Joplin, Mo., and other points where they had been visiting for about three or four weeks. Mr. Easley led the singing in Church of Christ revival meetings while away. He reported crop conditions very good in many sections where they visited.

Fire Insurance Costs In Texas Cut \$2,500,000 For Next Year

A cut of more than \$2,500,000 a year in fire insurance premiums was announced Monday by Texas Fire Insurance Commissioner Marvin Hall.

The reduction, an overall slash of more than 10 per cent, applies to premiums on residences, on certain stores and stocks of merchandise, and on many types of industrial buildings and plants.

It brought to more than \$6,000,000 a year, reductions in fire insurance premiums put into effect within the last three years. This was the fourth successive reduction, and supplemented an increase in the good fire record savings afforded cities and towns of low fire loss records.

Altogether, fire insurance costs have been cut approximately 40 per cent below those of 1936, Mr. Hall reported.

The overall reduction, effective on policies written on or after September 1, applies to property representing the largest part of the premium volume of fire insurance in Texas. The reduction order covers dwellings, apartment houses and rooming houses, most

mercantile buildings and certain stocks of merchandise, publicly-owned buildings, hospitals, poor farms, churches, orphanages, and schools, public libraries, filling stations, garages, ice factories, breweries and bottling works, creameries, funeral homes, cotton gins, cottonseed oil mills, sawmills, crosscutting works, electric light plants, waterworks, pumping plants, filtration plants, pier and wharf properties, all sprinklered and fire-proof properties and many others.

One of the most important changes announced by the Commissioner was the extension of the 25 per cent maximum good fire record credit to all cities and towns of Texas now eligible for fire record credit or penalty. Formerly, the maximum credit for cities with less than \$20,000 in annual fire insurance premiums was only 15 per cent for good loss records. Maximum penalty for bad fire loss record system remains at 15 per cent. Texas is the only State in the Union which allows credit in the fire insurance rate for cities with low loss records, Commissioner Hall said.

"This is the fourth successive reduction in less than four years," Commissioner Hall said, in announcing the order based on hearings held four months ago. "When these reductions are considered with the increased good fire record credits which the commission has promulgated during my incumbency, it means they will bring a saving of approximately 40 per cent over 1936 to Texas insurance policyholders."

The successive reductions, and increase in the good fire record credit from 15 to 25 per cent, have been in part made possible by the fire prevention campaign which the fire insurance department began pointed out. This program has been that of cooperation with fire marshals and fire chiefs, the introduction and extension of fire-prevention study in the schools, vigorous investigation of suspicious fires, the prosecution and conviction of fire-bugs. A wave of high fire losses starting in the depression was checked and the tendency swung back to a marked decline in Texas fire loss records, Commissioner Hall showed.

Mr. Hall recalled that in 1937 the Board entered an order eliminating many of the charges in the schedules, which meant a saving of \$1,000,000 a year to policyholders in the dwelling classification

alone. On June 15, 1938, another reduction order became effective which reduced insurance costs by approximately 10 per cent, or \$2,500,000 per year.

The new reduction, effective September 1, will bring a saving of between \$2,500,000 and \$3,000,000 a year, the department estimated. "We can keep fire insurance costs to a minimum in Texas," when he took office, Mr. Hall said, "by continued practice of effective fire prevention."

Only two small classifications of property will have their fire insurance rates raised as policies written after September 1, according to Mr. Hall. The high losses experienced by wholesale grocers (not sprinklered or fireproofed) and unprotected frame woodworkers shops (except sawmills and planing mills) justified a 5 per cent increase in their rates after the order's effective date.

MOVE TO HOUSTON

W. S. Smith and family, residents of this county for a number of years, left this week for Houston to make their home. They have a son and a daughter, Geneva Smith, who now reside in Houston. Their many friends wish them success in their new home.

WHY Humble Oil & Refining Co. Reduced the Price of Crude

This statement is published as a paid advertisement by Humble Oil & Refining Company for the benefit of those who are interested and not acquainted with the facts.

On August 11 the Humble Company posted reductions in the prices at which it purchased crude oil in Texas and New Mexico by amounts ranging from 5c to 32c per barrel, and averaging 18.5c per barrel. In view of the fact that this action on our part has been severely criticized before the public, we outline below the facts and reasons on which it was based:

1. On August 1 the quantities of crude oil listed below, aggregating 218,920 barrels daily in Texas, Louisiana and Arkansas, were moving to market at prices substantially below the Humble's postings for similar crudes:

AREA	BARRELS PER DAY
Texas—	
West Central	37,000
Gulf Coast	22,600
Southwest	16,900
East Central	12,800
East Texas Field	6,850
Panhandle	1,500
Total Texas	97,650
South Louisiana	81,920
North Louisiana and Arkansas	39,350
Total	218,920

2. The amount of crude moving below Humble's postings was greatly increased when on August 10 the Sinclair-Prairie Company posted a reduction of 20c per barrel affecting the oil produced and purchased by it in Texas, New Mexico, Oklahoma and Kansas, which action was followed immediately by reductions in the price made by a number of smaller purchasers. These reductions applied to more than 150,000 barrels of oil. This, added to that mentioned in the preceding paragraph, equals 368,000 barrels. In the three States in which Humble operates, Texas, New Mexico, and Louisiana, the aggregate volume of oil moving below Humble's prices approximated 17½% of the total current production in those States.

3. The movement of constantly increasing quantities over the past year or more of crude produced in the new Illinois fields, reaching a total of 300,000 barrels daily on August 1, on a price basis substantially lower than Humble's postings in its territory, exerted a progressively depressing effect on the crude oil market. The effect was felt in Texas; and actually since April 1 Humble has lost 10,000 barrels per day of business absorbed by Illinois crude. This loss of business was in addition to that lost by Humble as a result of the movement of crude at low prices in the territory where we operate.

4. On August 11, therefore, the total volume of oil moving at prices below those of the Humble was approximately 668,000 barrels.

5. The crude oil market has been under pressure for more than a year. The price adjustments made last October did not remove fully the disparity between Humble's prices and those of some oil moving in its markets. Since that time the volumes of crude moving below our prices have increased steadily, with the result that when the reductions of Sinclair-Prairie and others came on August 10, affecting approximately 150,000 barrels of crude per day, conditions were so bad that we were compelled to reduce our prices to meet this competition. In no case are our new postings lower than the Sinclair-Prairie postings for similar crudes.

6. The Humble Company is primarily a producer of oil. Its crude oil properties constitute its principal asset. Its net production averages 133,000 barrels a day. We are also crude oil merchants and purchase, at our posted prices, 251,000 barrels of crude oil daily in Texas and New Mexico. These prices also govern the price at which we sell the oil which we produce. Because of our large production we are vitally interested in the maintenance of fair prices.

Our refineries consume something near the amount of oil which we produce. As a consequence, with respect to our purchases we are in the same position as a merchant dealing in any commodity. To continue in business, we can not over a long period of time pay higher prices than our competitors. We are compelled to meet competition. The price of oil, like that of other commodities, is subject to change with market conditions. These are simple and fundamental business principles. We were reluctant to cut the price of crude, not alone because of its adverse effect on our own earnings, but also because of its effect on our customers and upon the industry and the state at large. Under these circumstances, we could not continue to pay the prices we had been paying.

7. As a matter of policy the Humble Company maintains stocks of crude oil very slightly in excess of the amount required as working stocks to carry on operations. We do not believe in storage of oil above ground but in production of oil currently as required for market. We do not speculate in oil. We have no desire to buy oil at any price to accumulate for storage.

8. We think the price for oil brought about by the competitive conditions above mentioned is lower than should be realized. In our opinion the flood of oil from Illinois and Louisiana, most of which is being produced wastefully, in violation of conservation principles, is primarily responsible for the market conditions which necessitated our price reductions. It is our hope that these conditions will be corrected and that the market will improve.

H. C. WIESS, President
HUMBLE OIL & REFINING CO.

No moving parts in its freezing system—that's the reason behind a record like this. But there are Servel Electrolux refrigerators—plenty of them—in West Texas 10 to 12 years old. Still making ice cubes, keeping the baby's milk safe, saving leftovers, just as efficiently as the first month. And at the same cost. And remember, Servel Electrolux is the only automatic refrigerator with no moving parts to wear, to get noisy, to lose efficiency, and to run up repair and service bills.

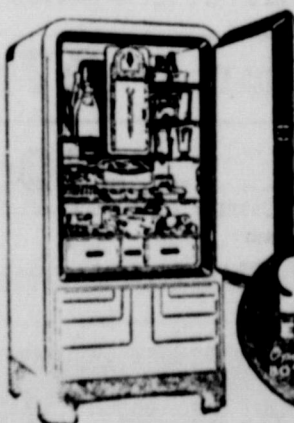

James E. Brewer, jeweler of Ballinger, Texas, has had a Servel Electrolux in the kitchen of his home for more than ten years, and he says, "We never spent one cent for service or repairs. It gives as good service as the day we installed it."

But say . . . a Servel Electrolux will make you the heroine of your home, when the savings begin to pile up. How the food keeps! Says C. Hines, Leuders, Texas, "The food we save, which we wasted before we bought a Servel Electrolux, almost made the payments." Vegetables seem fresher after a little while in the vegetable freshener than they were at the store. Leftovers keep until you can work them off. You can save plenty on Saturday specials. The fact is, you pay for one, anyhow; why not own it? Maybe you don't know what easy payments we can arrange for you. Why not come in and find out—or phone us, and we will come and see you.

- NO MOVING PARTS in its freezing system
- PERMANENT SILENCE
- CONTINUED LOW OPERATING COST
- MORE YEARS OF DEPENDABLE SERVICE
- CONTINUED SAVINGS THAT PAY FOR IT

Yes, one woman was forced to this, as a last resort. Only way she could get friend husband to agree to trade off that old jallopy in the kitchen for a new Servel Electrolux (the silent gas refrigerator). But friend husband led the cheers after that. Like any man, he could eat a quart of ice cream at a time, and in her new Servel Electrolux, this smart little lady kept a tray of ice cream all the time. And how crisp and fresh the green vegetables always were! And when he got the gas bill, and found all this cost only 2 or 3 cents a day, was his face red!

Mrs. W. L. Larche, of Stamford, Texas, says in 4 years' constant use her Servel Electrolux has cost about 75c a month to operate—"and I have gas bills to show that the operating cost has not increased one cent since the first month! . . . I have never had a service bill," she says.

The Rexall Store

"The Most Complete Drug Store in Knox County"

New Farmalls—

(Continued From Page One)

ivate row crops—in addition to doing all other kinds of drawbar and belt work—the Farmall revolutionized agricultural methods in a few short years. Altogether, half a million Farmalls have gone onto the farm.

On this foundation of Farmall experience, Harvester engineers have built an entirely new line of Farmalls in three sizes. Farmall-A, first announced a few weeks ago, is a new small size built to do all of the work on the small farm and to replace the last team on the large farm. It has a brand-new feature, "Culti-Vision," which permits the operator to see his work without the necessity of craning his neck or twisting his body.

Although the Farmall-A is in the \$500 price class, we are told that it is a real rubber-tired Farmall, through and through, embodying in its design many unusual features of interest to farmers. A full line of direct-attachable machines is manufactured for use with this new small tractor.

To round out the new Farmall family, the Harvester factories recently went into production on two larger sizes, Farmall-H and Farmall-M. The first is what is commonly classed as a 2-plow tractor, and the second has ample power to pull three plows. Both feature practical modern styling, with empha-

sis on design that fits in with today's farm power needs. Quick-attachable machines have been designed for the new "H" and "M" to make full use of their power and efficiency in all crop operations.

The two larger Farmalls can be equipped with "Lift-All," an entirely new type of hydraulic power lift. The pump is set into the frame of the tractor, while the actual lifting devices can be attached to the machines to be lifted, in such a way as to assure maximum efficiency. We understand that machines can be lifted in front or at back, or on either side—separately or together—according to the operator's wishes. A light touch on a little lever does the trick. "Lift-All" can also be used to keep certain implements at work at the proper depth.

The new Farmalls are powered by 4-cylinder, overhead-valve engines which operate on gasoline or No. 1 tractor distillate. The Farmall-A has a 4-speed transmission, with three field speeds and a 10-mile road speed. The two larger models have 5-speed transmissions, providing four field speeds and a 16-mile road speed (on rubber). All models have adjustable treads to meet all row-crop requirements.

One of four national offices handling the cotton export subsidy program is located at Houston, with Andrew J. Bohart in charge.

LOCALS

Mr. and Mrs. Henry Michels and Mr. and Mrs. Herman Jungman returned Friday from a two weeks vacation tour which included visits to the New York world's fair, Atlantic City and other points of interest.

Miss Bettie McEachern returned to her home in Centerville last Tuesday after a visit here with Miss Mary Moore.

B. B. Forgy of Chillicothe visited here Sunday and was accompanied home by Mrs. Forgy, who spent the week here with Mr. and Mrs. Grady Roberts.

Mrs. Grady Roberts, Mrs. A. C. Pierson of Haskell, and Mrs. Jack Mayes were visitors in Vernon last Tuesday and Wednesday.

Mrs. Joe L. Bevers of Dallas visited here the first of this week. She was accompanied here by Miss Maurine Bevers, who has been visiting in Dallas.

Men and Women Enjoy Bowling!

As a game and a sport for most people, it's unequalled. You can play by yourself or with any number of people. You can bowl any time of day or evening. It's inexpensive, easy-to-learn. Try it!

Medical Group Meets Tuesday Of Last Week

Educational Film Is Shown By Doctor From Floydada

The Baylor-Knox-Haskell county medical society met in its regular luncheon at the Terry Hotel on Tuesday night, August 15.

Immediately after the luncheon, an educational sound film on syphilis was presented to the society by Dr. John M. Hooper of Floydada, under the auspices of the state health department.

The second part of the program consisted of a paper on "Recent Advances in Treatment of Fractures of the Hip," presented by Dr. Frank Hodtes of Abilene. Dr. Earl Sellars of Abilene was also a guest of the society.

Members present were Dr. T. S. Edwards, Dr. T. P. Frizzell, Knox City; Dr. Ernest Kimbrough, Dr. Temple Williams, Haskell; Dr. Jerome Moch, Rule; Dr. O. J. Emory, Rochester; Dr. J. W. Youngblood, Dr. E. P. Bunkley, Stamford; Dr. John Scott, Haskell; Dr. W. H. Taylor, Goree; and Dr. D. C. Eiland and Dr. R. L. Newsom, Munday.

Cotton Office—

(Continued from Page One)

In Haskell county; Old Glory, in Stonehill; Munday, Rhineland and Knox City, in Knox, and Seymour, Bomarton and Red Springs in Baylor. Other communities wishing to enter the program will have members on the committee.

This committee is to meet at a later date and form the permanent organization, which will possibly consist of a director from each county and one director-at-large.

Upon the completion of the organization, plans will be made for establishing the office and electing a market manager.

It was pointed out that this plan would attract many more cotton buyers, because of the fact that they'd rather buy cotton in 50 to 100 bale lots than by the usual method of one bale at a time.

The marketing center would work somewhat on the order of the one at Victoria which is handling the one-variety cotton in the export program this year.

The organization is being formed primarily for creating a better market for the one-variety cotton, although any farmer may market his cotton through the central office, regardless of the type of cotton grown.

The market manager would handle the cotton on a commission basis, and it was pointed out that there would necessarily be no expense in the establishment of this marketing plan.

Vera Team Wins First Seymour Tournery Game

Seymour, Aug. 22.—The Vera team won the first game of the Seymour softball tournament here last night, when they took out the Goree entry in an 8-inning thriller. Goree apparently had the game on ice at the start of the seventh, but Vera rallied to score eight runs and knot the score, winning in the eighth with three tallies.

Rhineland and the Seymour M-team played last night, and Gilliland and the Seymour B-team play Friday night. Decision was made this week to have tournament games on Friday instead of Saturday. Monday and Wednesday are also tournament nights.

A large crowd was on hand for the opener last night, and attendance records will likely be set during the tourney.

Miss Marie Bingham of Crosbyton visited friends in Munday last Saturday.

Marshall Whitsett of O'Donnell was visiting with old friends here last Monday.

Seymour Downs Rhineland; Third Loss of Season

The Seymour all-stars scored a decisive 13 to 8 triumph over the Rhineland Boomers last Friday night at Seymour. The defeat was the third in 28 decisions for the Boomers.

Albus, a speedy right-hander, started on the mound for Rhineland, but was relieved by Decker in the fifth inning.

The Boomers gestured threateningly in the fourth and fifth stanzas when the Seymour defense bogged down, but they lacked the necessary punch to even up the score.

Last Sunday, George "Lefty" Decker fired a four hit shutout at Donnell Ratliff's boys of Goree to win his twenty-first game of the campaign. The little left hander completely smothered the Goree sluggers for a 7 to 0 victory for the Rhinelanders. He faced only 24 batters during the contest, due to some very brilliant fielding by the smooth-working infield of the Boomers.

Alert base running by the Rhineland boys was an important factor during the game. They notched eight thefts without having a man thrown out.

Ratliff hurled his usual clever game for Goree, but was in trouble almost every inning, due to the wobbling fielding of his teammates.

Next Sunday the Seymour all-stars will meet the Rhineland boys in a 9-inning game at Rhineland. The game will be set at four o'clock.

Score by innings:	R	H	E
Seymour	224	104	0 13 9 5
Rhineland	000	431	0 8 7 6
Rhineland	202	104	0 9 4 0
Goree	000	000	0 0 4 6

Batteries: Thurman and Barker for Seymour; Albus, Decker and Kuhler for Rhineland; Ratliff and Coffman, Fowler for Goree; Decker and Kuhler for Rhineland.

Weekly Auction Holds High Mark For Gross Sales

250 Head of Cattle Go Through Ring

With approximately 250 head of cattle consigned for last Tuesday's livestock auction sale, the weekly auction held up good this week. "We had a good run of fine cattle, and Munday's high prices held up exceptionally well in Tuesday's sale," those in charge of the sale said.

The sale ran in the neighborhood of the same amount of last week, which was approximately \$8,000.

Buyers present for the sale Tuesday were: V. B. Bowman, E. R. Lowe, Ural Wilson, Otis Phillips, Loyd Griffith, C. R. Elliott, C. P. Baker, Bob McGregor, Jessie Hitchcock, and Lester Bowman, all of Munday; W. M. Trimmer, Rochester; Clyde Mayfield, Weinert; John Morris and Clyde Patton, Goree; Fred Dalby, Aspermont; Tommie Jackson, Lamesa; Ira Davis, Morgan Williams and Jess Place, Stamford; Perry Woods, Seymour; Charley Ready, Cordell, Okla.; Lewis McAlpine, Granite, Okla.; B. W. McMahon, Altus, Okla.; J. M. Bradyberry, Knox City and Wichita Packing Co., Wichita Falls.

The list of sellers included: C. P. Baker, J. C. Borden, A. M. Moore, Otis Phillips, C. R. Elliott, A. A. Duesterhaus, Frank Simmons, S. R. Lee, Art Jungman, Levi Bowden, H. L. Bellinghausen, A. Rutledge, Lester Bowman, E. R. Lowe, J. J. James, all of Munday; C. E. Armstrong and C. V. Thomas, Knox City; Clyde Mayfield and Bill Johnson, Weinert; Ira Grinstead and W. M. Trimmer, Rochester; Grady Hudson and J. L. Galloway, Benjamin; Jack Ratliff and L. H. Highnote, Haskell; Dukes and Woods, Ernest Curty and Wade Hamby, Seymour; Charlie Sellers and C. L. Sellers, Hamlin; Billy Robinson, W. J. Tidwell and Cecil Oliver, Goree.

Fred Broach, Jr., of Knox City was a business visitor in town Tuesday morning.

Eddie Cantor To Star in Casa Manana A Week

Fort Worth.—Eddie Cantor, perhaps the greatest entertainer in the world, will be presented at the Fort Worth Casa Manana for one full week, beginning Friday night, August 25.

The pop-eyed comedian, a star of the stage for many years, has been a tremendous success also in motion pictures and over the radio.

That he can still "pack 'em in" was proved a few weeks ago when he made his first Broadway appearance in recent year and the crowds were so huge—many persons waiting for hours to buy tickets—that three sets of police had to be called out. Cantor set a record by playing to 111,038 persons in a week, total receipts exceeding \$50,000.

It is understood that Cantor is receiving an amount in excess of \$10,000 for his week's engagement in Fort Worth.

With him will be his own company, including his stooge, Mister Guffy, and the phenomenal little singer, Leni Lynn, hailed as another Deanna Durbin. On the bill also will be Ray Noble and his orchestra, who have been immensely popular the past week, with Larry Stewart and Elizabeth Tilton as vocalists; the Great Yacopis, the most sensational act in the four year's history of Casa Manana, and Herman Hyde, musical comedian, as well as the 70 Texas Sweethearts in four beautiful scenes.

What of Football?

In breaking the tradition in observance of Thanksgiving, President Roosevelt didn't think of all the trouble it would cause for Turkey Day football games!

Roosevelt announced Monday that this year he will advance the date for observance of Thanksgiving Day to November 23, instead of the traditional last Thursday in November, which is on the 30th this year. Football schedules are already completed, with most important games scheduled for Thanksgiving—and possible full booking prior to that date—which throws the whole thing a week out of kilter!

The change, Roosevelt said, was to meet requests that holidays be spaced more evenly during the last six months of the year. Henceforth, after the coming Thanksgiving, the holiday will be observed on the second Thursday of November.

For the past six years, Roosevelt claimed, he has received a great many requests for such action on the ground that the holiday falls too close of Christmas and with too long an interval after Labor Day.

Who cares about taking Labor Day off, if it's going to mess up all our gridiron battles?
