Munday, Knox County, Texas, July 6, 1939

Number 2

GOLF TOURNAMENT TO BE OPENED SUNDAY

Lion Committees Are Named

Munday Man Is Officer Of Texas Cowboys

Officers, Directors Of Reunion Are Named At Stamford

Many Knox county people witnessed the opening parade of the Texas Cowboys Reunion at Stamford last Monday, and Knox county contributed liberally to the record-breaking crowds in attendance at the three-day celebration.

Officers and directors of the reunion were named at the business session on the opening day. These included a Munday man, Charles L. Mayes, who was re-elected wagon cook.

Lewis Ackers of Abilene was re-elected president of the reunion association. G. F. Ratliff of Midland was elected first vice president; E. W. Cowden, Midland, second vice president; C. E. Coombes, Stamford, secretary-treasurer; B. J. Glover, Crowell, range boss; and Sam Fide, Albany, horse wrangler.

Directors are Walt Cousins, Dallas; John M. Gist, Odessa; Clyde Burnett, Benjamin; Charles H. Featherston, Truscott; Caesar Kleberg, Kingsville; Clifford B. Jones, Lubbock; G. W. Jackson, Bonham; A. J. Swenson, Stamford; John Turbeville, Archer City; J. V. Hudson, Haskell; John Bryant, Abilene; Frank Rhoades, Throckmorton; Bob Weatherly, Clarendon; H. G. Bedford, Midland; Frank M. King, Los Angeles; Frank Norfleet, Hale Center; E. P. Taylor, Paris, Tenn.; J. Ellison Carroll, Big Lake; M. T. Clements, Wichita Falls; Thos. H. Ellison, El Reno, Okla.; Furd Halsell, Fort Worth; F. G. Alexander, Haskell; Glenn Coffee, Amarillo; T. J. Hendrick, Abilene; Grover Carothers, Stamford.

The bunkhouse and the new roundup building were named by resolution the Will Rogers bunkhouse and the Coombes Roundup hall.

Income For Texas Farmers High In May

Austin, Texas.—Nearly four million dollars more in cash income came to Texas farmers from their produce during May than during the average May from 1928 to 1932, a University of Texas business statistician estimated today.

Computed by Dr. F. A. Buechel, assistant director of the University Bureau of Business Research, cash agricultural income for May was \$28,518,000, compared with a five-year average of \$24,822,000.

A million and a half dollars more was picked up by farmers than during April, but slightly over a million less than during May of last year.

Most of the decline from May, 1938, was caused by the drop in cattle and sheep marketings, only slightly offset by increased movement of calves and hogs.

Total farm cash income during the first five months of 1939 was \$106,474,000, or 2.7 per cent higher than the \$103,617,000 for the corresponding period last year.

BIRTH ANNOUNCEMENT

A daughter was born to Mr. and Mrs. Ralph Burrow at the Knox City hospital last Friday night. Both mother and daughter are reported doing nicely.

Mr. and Mrs. Arthur Lawson and family returned home the latter part of last week from their vacation. They visited in Merkel, Abilene and other points while away.

Mr. and Mrs. Deaton Green and family visited relatives in Wichita Falls on the Fourth.

New President Names Committees For Year's Work

Wednesday noon was the first session of the Munday Lions Club under its new officers for 1939-40. President Lee Haymes was in charge of the meeting.

Lion Haymes named the various working committees to serve during the new year. In some instances he combined two committees, the work of which were somewhat similar. He expressed the hope that all committees would cooperate throughout the year so that this year could be pointed to as a successful one.

Various committees named by Lion Haymes are as follows:

Membership: Boyde Carley, chairman; Sebern Jones and W. E. Braly.

Program: W. R. Moore, chairman; A. H. Mitchell, and W. V. Tiner.

Extension work: Dr. J. Horace Bass, chairman, W. E. Braly and C. P. Baker.

Finance: J. A. Caughran, chairman; Sebern Jones and P. V. Williams.

Lions Education: L. M. Palmer, chairman; Grady Roberts and Cecil Cooper.

Attendance: Wade Mahan, chairman; Tom Haney and Paul Pendleton.

Publicity: Aaron Edgar, chairman; Boyde Carley and Curtis Coates.

Health and Welfare, Sight Conservation and Blind Work: Dr. D. C. Eiland, chairman; Dr. R. L. Newsum and L. M. Palmer.

Safety: George Hammett, chairman; A. H. Lawson.

CALLS PUMP-PRIMING 10-YEAR-LONG FAILURE

Atlantic City.—The ten-year effort to raise consumer purchasing power through heavy spending for pump-priming purposes and through artificial restrictions on business has definitely failed, Dr. Leo Wolman, professor of economics at Columbia University, New York City, declared here recently.

Excessive regulation by law and boards, Prof. Wolman said, does not seem to provide the permanent answer to either labor or business problems.

No. Auction—

Commission Co., Like Other Firms, Takes Fourth Off

Tuesday was the regular day for Munday's livestock auction sale. It was also the Fourth of July! Result... No Sale!

Due to the conflict—the auction and the Fourth—Ratliff Bros., operators of the sales barn, decided there would be no weekly auction sale.

They couldn't call off the Fourth, but they could postpone the auction. And Auctioneer Bill White was among the several thousand who attended the celebration at Stamford.

The regular auction sale will be held next Tuesday, it was announced, and each Tuesday thereafter—unless another big holiday conflicts! They're expecting a big sale Tuesday.

Former Citizen Of Gilliland Dies At Fort Worth

Mrs. Joe Farris, former citizen of Gilliland, passed away at Fort Worth, Texas, the first of last week, according to word received here. She was buried at Fort Worth on Tuesday of last week.

Mr. and Mrs. Farris are well known in the county, especially at Gilliland, where Mr. Farris operated a gin for several years.

To Hold Meeting—

Rev. John B. Wilder of Harlingen, Texas, will conduct a revival meeting at the Friendship church, north of Goree, beginning Friday night, July 16. The meeting will continue for ten days, both morning and evening services being held.

Rev. Wilder is a widely known preacher and evangelist, and Knox county citizens are cordially invited to hear him during these services at the Friendship church.

Legion Members To Have Birthday Supper Tuesday

The regular monthly meeting of the local post of American Legion will be held at the Legion hall on Tuesday night of next week.

Those in charge of the meeting state that the regular monthly birthday feed will be held, those whose birthdays fall during this month to entertain. This has been the practice of the local post for several months.

All Legionnaires are urgently requested to attend this meeting Tuesday night.

School Band To Give Concert On Friday Evening

Members of the Munday High School Band will give a free concert on Friday evening at seven o'clock on the city hall lawn, it was announced Wednesday.

The school band made a reputable showing at the opening parade of the Texas Cowboy Reunion at Stamford last Monday. Each member has shown rapid progress and much interest in the band work.

This is the first of what is likely to be a series of summer band concerts which will be presented for the approval of Munday citizens. The public is cordially invited to attend this concert.

Palmer Brought Home From Knox City Hospital

L. M. Palmer, principal of the Munday elementary school, was brought home from the Knox City hospital last Tuesday morning. An ambulance from the Mhan Funeral Home went after him and returned him to his home in Munday.

Mr. Palmer underwent an operation at the hospital on Monday, June 26. He is reported to be improving rapidly and is expected to be "up and about" within the near future.

Mr. and Mrs. Bernard Stodghill and children of Lovington, New Mexico spent the week end here with Mrs. Stodghill's parents, M. and Mrs. U. S. Rogers, and other relatives.

Mr. and Mrs. Earl Owens were visitors in Vernon over the week end.

It's Done With Mirrors

This beautiful reflection of Dorothy Farrington is one of many alluring views at the California World's Fair. You aren't gazing at Miss Farrington in the glass bathroom of the Libby-Owens-Ford exhibit, however, but at her mirrored loveliness. The bathroom—which you can't peer into because it isn't that kind of glass—is a feature of the display in the Palace of Homes and Gardens, and visitors say it is a perfectly appointed room.

Her Purse, \$223 Lost And Found in 30 Minutes

Treasure Island—Mrs. Peter Souze, Grants Pass, Ore., acclaims Treasure Island police as the most efficient in the nation.

Mrs. Souze, visiting the California World's Fair, left her purse containing \$223.50 on an "Elephant Train." Thirty minutes after she reported the loss to police, the purse, with contents in tact, was back in her hands. It was found where she left it on the seat of one of the intra-mural trains.

Best Wishes—

Always keeping up with Munday and his friends here, Walter Cousins, above, last week wrote the Times a nice letter of congratulation upon the passing of our 34th milestone. "Cuz" recalls that he became a citizen of Munday 37 years ago, and he expressed the hope that we here in Munday still consider him a citizen. His letter is being published in this week's issue of the Times.

Thank you, Cuz. There's vanity enough in each of us that we just naturally "eat up" the nice things that are said about us.

E. B. BOWDEN IN TOWN

E. B. Bowden, well known resident who has been confined to his home for several months because of illness, was greeting friends in town Wednesday. Mr. Bowden says he is still improving and is able to take more exercise each week.

Funeral For Mrs. Bessire Is Held On Friday

Mrs. Phoebe Bessire, well known resident of Munday, passed away at her home here last Friday morning at 5:25 o'clock, following an illness of only two days.

Miss Bessire, who was lovingly known as "Aunt Phoebe," was a native Texan, having been born on April 16, 1859. She was 80 years, 2 months and 14 days of age when death came. Aunt Phoebe joined the Methodist church at an early age and was active in church work for many years. During recent years she was unable to attend regularly because of her age. She had resided here since 1906.

Aunt Phoebe was a great lover of flowers and always had her own flower garden which she tended daily. On the same day she was stricken, relatives said Aunt Phoebe spent some time with her flowers, drawing water from a well to water them, and carefully tending each plant.

Rev. H. A. Longino, Methodist pastor, who conducted the services, spoke tenderly of his visits to Aunt Phoebe's home. "She didn't have time to talk of what other people were doing," he said, "she didn't have time for gossip—she only had time to talk of Jesus and the work the church was doing."

Mrs. Bessire is survived by a daughter, Mrs. Lenora Forman of Munday; a son, Frank McCulloch of Stanton, Texas; two sisters, Mrs. Alice Wiswell of Munday and Mrs. Ida Patterson of Chattanooga, Okla. Surviving also are 14 grandchildren, 21 great grandchildren and two great great grandchildren.

Funeral services were held from the Methodist church at six o'clock last Friday afternoon. Interment was in the Johnson cemetery by the Mahan Funeral Home.

Out-of-town relatives to attend the funeral included two grandchildren, Mrs. Clarence Moon of Cisco and W. R. Forman and wife of Albany.

Palbearers were E. W. Harrell, J. C. Borden, Ardell Speice, J. A. Caughran, Tom Haney and Sebern Jones.

O'Daniel Vetoes Fair Trade Act

Exercising his veto power once again, Governor W. Lee O'Daniel last Wednesday swung his "veto axe" on the controversial "fair trade" bill.

His disapproval of this measure was based on an opinion of Attorney General Gerald C. Mann, who held the proposal contravened the state's anti-trust laws. Veto of the bill was expected since Mann's ruling about two weeks ago.

The proposal would have permitted merchants and manufacturers by contract to establish minimum retail prices for trademarked and nationally known articles and commodities.

It was approved by big majorities in the house and senate at the recent general session of the legislature. In the senate, foes threw up a lengthy filibuster in an effort to prevent its passing.

O'Daniel asked Mann's ruling shortly after it was sent to his desk. The governor has consistently vetoed bills which have received "unfavorable" ruling by the attorney general.

Weather Report

Weather report for week ending July 5th, 1939, as recorded and compiled by H. P. Hill, Munday, U. S. Co-Operative Weather Observer.

	LOW	HIGH
1939 1938		
June 29	81	92
June 30	69	72
July 1	72	94
July 2	70	93
July 3	77	74
July 4	76	102
July 5	78	104

Rainfall to date this year, 10.14 inches.

Rainfall same period last year, 17.70 inches.

Tri-County Golf Meet To Be Held On Local Course

Various Prizes Being Offered Winners of Tournament

The Tri-County Golf association, composed of golfers of Seymour, Olney, Haskell and Munday, will hold its next annual golf tournament at the Munday Country Club next week end, the qualifying play being on July 13, 14 and 16, W. H. Atkinson, president of the local club announced.

Qualifying rounds will begin Sunday, July 9, and will close on Wednesday evening at six-thirty. All players in the tournament must play 18 holes on the Munday course to qualify. Qualifying score from other association courses will not be considered.

Immediately after the close of qualifying rounds, the visiting golfers will be entertained by the local club with a "stag" feed at the golf course. The Colcutta pool will be held immediately after the feed.

The first two rounds of tournament play will be run Thursday morning and afternoon, July 13. Semi-finals will be played Friday, and finals on Sunday afternoon, July 16. Dr. E. M. Roberts and Boyde Carley will be in charge of bracketing qualifying players and will start the tournament matches.

Gerald Davis of Seymour is last year's defending champion, and he is expected to be here to defend his title. The championship flight, first and second flights will be run. A third flight will be run if necessary. Consolation rounds will be held in all flights.

A prize list is being contributed by Munday merchants and golfers. Some of the prizes are as follows:

Medalist, 1-2 dozen golf balls. Driving contest, 1-2 dozen balls. This contest will be held immediately after the close of qualifying rounds. Other prizes are: championship flight, 3 Jimmy Thompson wood clubs; runner up, 2 clubs; first flight winner, leather golf bag; runner up, Jimmy Thompson driver; second flight winner, Bobby Jones driver; runner up, "Calamity Jane" putter. Other nice prizes are offered in championship and runner-up positions in the consolation flights.

The Munday course is in excellent condition for the tourney, with new sand being added to the greens and all fairways being plainly marked with painted markers.

LaVerne Darter Receives Medal In Stenography

Miss La Verne Darter, a student of secretarial training in Munday High School, has been awarded a gold medal for accuracy in this course, according to word received here from Howard Cobb on Thursday. Mr. Cobb said:

"I have received today a gold medal, which is in the form of a stenographer's notebook, from the Gregg Publishing Company to present to La Verne Darter, who was a student of Secretarial Training in Munday High School, for taking dictation at 120 words a minute for five minutes. The dictation was new congressional matter and was transcribed on the typewriter with 97.7 per cent accuracy.

"The shorthand notes and transcriptions were graded by Gregg shorthand experts."

La Verne worked very diligently in this high school class, and she is to be congratulated upon having attained this distinction.

Mr. and Mrs. B. M. Haymes and children of O'Donnell and Mrs. Clem Calhoun of Amarillo were visitors in the home of Mr. and Mrs. Lee Haymes last week end.

EDITORIAL PAGE

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"—

SUDDEN DEATH

A curly-haired innocent little girl of 8 years was crossing a street in a Texas metropolis. She was skipping along with a bottle of milk for her breakfast and came to a dangerous intersection. The city's traffic police had placed a warning sign there. Autoists were supposed to look each way before coming into this street.

But a young motorist, intent upon reaching an unimportant objective further down the street, thoughtlessly entered this intersection—at the wrong moment—and without looking.

His automobile felled the innocent little girl. A tragic death ensued, a family was thrown into mourning—and all because a young motorist was not safety conscious.

In public school he had not received an auxiliary course in safe driving—and the golden rule of conduct had not been properly impressed upon him. His own life was blighted by the dreadful memory of his thoughtless accident.

"Driver's license laws must be strengthened," Pierce Brooks of Dallas, President of the Texas Safety Council, said in discussing this tragedy. "Responsibility of drivers must be impressed upon the young man and woman of high school age. The great responsibility that is theirs when they are behind the wheel of the modern powerful automobile must be impressed vividly upon them. This year 2,000 Texans will die from automobile accidents. All these could be averted. A large proportion of them will be innocent children."

Driver's license laws should be uniform in all the States and revocation should be for thoughtless driving, speeding, drinking or operating cars without adequate brakes, tires and lights.

FUTURE FARMERS OF TEXAS

There is no group of young citizens in this section to whom the entire citizenship look with greater comfort and pride than to the Future Farmers of America. They are our fondest hope. They are the leaders of our great tomorrow, and if there is one quality above all other that characterizes the Future Farmers of America, it is the quality of leadership.

Where in this country could we find so many young men so well qualified for leadership as among the 200,000 students of vocational agriculture, who are the members of the 6,000 local chapters of the Future Farmers? Where in this State could we find so many young men so well prepared for leadership as among the splendid groups who call this their home?

"Texas needs more organizations of young people with the same major objectives as the Future Farmers," commented the Hon. Pierce Brooks, speaking recently before the 4-H clubs. "The development of leadership, cooperation and citizenship are the attributes most needed for the prosperity and progress of our community, State and Nation."

In pioneer days individuals largely determined their own destiny. They had to rely almost entirely on their own energy and initiative and the cultivation of the land. As long as there was a frontier, they could move to new land when erosion and over-cropping had taken too great toll of soil and fertility. Their needs were few, and they asked little of society and return contributed little to society.

Texas became a Republic more than 100 years ago, but Texas still had frontier land for many decades after it was first settled. The disappearance of the greater portion of the land frontier has resulted in the necessity for a new kind of farm living. Your farm production will have to be continued largely on the land now under cultivation. Modern agriculture demands that farmers work and plan together in the spirit of cooperation.

Future Farmers are learning how to cooperate and to stand on their own feet.

THE HOT CHECK LAW

Among the controversial measures which enlivened the 46th session of the Texas Legislature was the so-called "Hot-Check bill." Both the Senate and the House finally agreed upon its passage. It is now on the desk of Governor O'Daniel.

The measure is said to have "Teeth in it." Now the question is "Who will the teeth bite?" Will it bite the State of Texas? The answer is "No."

This latter question is suggested by virtue of the fact that Texas is the greatest writer of "hot-checks" known in the State today. For Texas has overdrawn many of its accounts and hardworking men and women on the payroll of the government, who draw reasonably low salaries, as well as the more favored who get the biggest pay, are given "hot-checks," which they have to discount or wait an indefinite period for them to be accepted at face value.

The lawyers will quote the law to the effect that anyone going into a court of equity should go with clean hands.

This is no defense of the man or woman who may write a check impelled by criminal intentions. But after all, should not a man be allowed to use his own judgment as to whose check he cashes and let him be the one to "beware"?

He: "I hear Hitler is starting a campaign against malaria."
She: "Good heavens! What have the Malarians done now?"

WHY WORK IS SCARCE

From Motor Wheel News, Lansing, Mich
If we're looking for reasons why industry is not expanding and providing more jobs for unemployed, here's one that speaks for itself in tones loud enough to be heard by even the most indifferent observer.

The Standard Statistics Company has just released a report showing that last year 80 representative corporations paid a tax bill of \$293,682,751, and that after paying this tax bill, these companies had an aggregate net income of but \$133,685,202.

Reduced to more comprehensible figures, this means that the various governmental taxing agencies took \$20 out of every \$13 paid to stockholders. Nor does that tell the whole story. Some of these taxes must be paid whether the corporations are operating or not.

Now, it is a well-known fact and a sound theory that employers do not work for fun. And it is just as sound a theory that investors do not put their money into industrial concerns just for the fun of the thing.

And that just about completes the circle. People will not invest money in a corporation whose enormous tax bill prevents the payment of dividends, and without such investments, industry is certainly not able to expand and provide more jobs for the unemployed.

COTTON RESEARCH ON THE MARCH

The union of the Cotton Research Foundation with the National Cotton Council will bring applause from all sides. The move is a symbol of the unity with which cotton men are preparing for an attack on reduced consumption in this eleventh hour of their sad plight.

The Cotton Council gains a topnotch research division, ably staffed and already rich in experience and achievements. The Research Foundation gains a place in an organization which will represent its cause throughout the nation and tell the world of the new cotton uses that it develops. Seldom do two organizations, both alert, dynamic and successful, pool their resources in this manner for the common good.

The Cotton Research Foundation summarizes its purposes thus: "(1) To originate basic new uses for the cotton plant, (2) to stop the trend away from cotton to substitutes." These brief words lay a finger on one of the nation's most desperate needs.

The per capita consumption of cotton in this country has undergone a notable decline in the past 20 years. Since industrial uses of cotton increased tremendously in this period, the reduced per capita consumption indicates a still larger loss of cotton usage in the home and on the person.

The fall in consumption has been accompanied by widespread substitution of artificial and imported fabrics. The competition from these sources has been repeatedly spurred by new scientific discoveries.

Cotton must save itself with an aggressive research program of its own. The coordination of the Cotton Research Foundation with the National Cotton Council augurs accelerated progress in this direction.

MONEY AND TIME

"The most useless things Robinson Crusoe salvaged were gold coins," said an economist recently. "Money has a time utility. When it buys the things we need when we need them most, as life insurance does, its value to us is greatest."

There, in different words, is the old, sad, familiar story to the effect that dollars are needed most when they are hardest to earn—and that the money wasted by the young man, secure at the height of his earning power, is usually beyond the frail reach of the old. No one knows how many old people life insurance has saved from a dependent old age, but their name is legion. They are the happy ones of this earth, who thought ahead.

A bill which would compel the wealthy to lend money to the government in the event of war has been unanimously approved by the Senate military affairs committee. All persons worth over \$10,000 would have to invest 5 per cent of it in government bonds.

WHAT DOES IT GET ME?

Gems Of Thought

CHARACTER
Character is the governing of life, and is above genius.—Frederick Saunders.

Character must be kept bright as well as clean.—Lord Chesterfield.

Few blemishes can be found in a true character, for it is always a diamond of the first water.—Mary Baker Eddy.

Happiness is not the end of life, character is.—Henry Ward Beecher.

Talent is nurtured eye in solitude, but character 'mid the tempests of the world.—Goethe.

Character is higher than intellect—A great soul will be strong to live, as well as to think.—Emerson.

"THE HORSE"

by Daniel Hartnett
(in That Reminds Me)

Old horse, you are a wondrous thing;
No horns to honk, no bells to ring.
No license buying every year
No plates to stick on front and rear.
No sparks to miss, no gears to strip,
You start yourself, no clutch to slip,
No gas bills mounting every day
To steal the joys of life away.
Your inner tubes are all O.K.
And thank the Lord they stay that way.
Your spark plugs never miss or fuss!
Your motor never makes us cuss,
Your frame is good for many a mile,
Your body never changes style.
Your wants are few and easy met,
You've got something on the auto yet!

Texans Eating More Ice Cream

Austin, Texas.—Approach of summer days boosted production of Texas-made ice cream to 1,075,000 gallons of ice cream, an increase of 34.2 per cent over April and 19.6 per cent above May of last year, University of Texas business statisticians said today.

Other dairy products, butter and cheese, boomed in quantity produced over April, but dropped sharply below May, 1938, figures.

Creameries reported to the University Bureau of Business Research butter production of 3,193,000 pounds, a gain of 29.4 per cent over April but a decline of 19.1 per cent from May a year ago, while production of American cheese was estimated at 1,731,000 pounds, up 17.1 per cent above April but down 29 per cent from May last year.

HIGH RATING
Caller: "Did your nephew make a fortune in America as he expected?"
Fond Aunt: "Oh, ja, I guess he must be rich, because I heard the State of New York was offering \$10,000 for information about him."

"There are two kinds of men. Those who remain bachelors, and those who don't care what happens to them."

"A Scotchman once bought an Airedale for a pet because he thought it lived on air."

stitution.
In addition to these No. 1 legislative subjects, the Attorney General held several lesser measures unconstitutional; and also in the field of legislation, he invalidated an Austin city ordinance which attempted to require all advertising and soliciting agents to be licensed by the city.—The State Observer.

Three Cotton Schools To Be Held in Area

Lubbock, Texas.—Three cotton schools will be held in West Texas this summer under the direction of M. E. Heard, head of the textile engineering department of Texas Technological College, as follows: Abilene, July 3-14; Quanah, July 17-23; Lubbock, July 31-August 11. H. J. Matejowsky, federal supervisor of cotton classing, United States Department of Agriculture, Abilene, will assist in all schools.

In Lubbock Professor Heard will be assisted by the following local cotton men: Bob Stephenson of the Japan Cotton company, William Ryan, Frank Bass, and others. In Abilene: Jed Acton of the Anderson-Clayton company, George Wall of the Southern Cotton company, and J. O. Green of the Goshu Cotton company. In Quanah: T. H. Duneagan of the Anderson-Clayton company, and others.

Anyone interested in cotton, especially ginners, cotton farmers, and cotton buyers, are invited to attend these schools. The fee is \$10. Professor Heard said, "We have felt for a long time any cotton improvement program would not get very far unless farmers and ginners know what quality actually means in a bale of cotton." Those who attend will learn to class cotton according to government standards.

The following agencies co-operate with Texas Technological College in putting on these cotton schools:

- The U.S. Department of Agriculture.
- Texas Cotton Association.
- Texas Cotton and Ginners Association.
- American Cotton Cooperative association.
- Texas Cotton Growers Association.
- West Texas Cotton Growers Association.
- Statewide Cotton Committee of Texas.

"SWISS NAVY"

Washington.—A sense of humor is richly rewarded when you hold political office, a Wisconsin congressman informed a luncheon club here.

"I consider myself an expert on banking," he ruefully remarked, "so they put me on the merchant marine committee. The merchant marine in Wisconsin is like the Swiss Navy."

INTEREST CHARGES LARGE
Interest charges which the government must meet in the coming fiscal year will be nearly 50 per cent greater than the annual cost of running the entire government before the World War.

SOUND REASONING
Jane: "I broke off my engagement with George because my feelings were no longer the same as when I accepted him."
Kate: "Yes? Then why do you keep his engagement ring?"
Jane: "Because my feelings toward the ring are unchanged."

The motorcycle cop drove up beside the car that was holding up the line.
"Can't yer go any faster?" he roared.
"Sure, but I don't wanna leave the car."

"Can you tell by your husband's face if he is lying?" asked one wife of another. The other snorted: "Yes, if his lips are moving he is."

OUTSTANDING LEADERS ACTIVELY ENGAGED IN THE CONSTRUCTIVE DEVELOPMENT AND BUILDING OF "THE LONE STAR STATE"

John Nance Garner

JOHN NANCE GARNER WAS BORN NOV. 22, 1869 - EDUCATED IN PUBLIC SCHOOL, LAW EDUCATION IN PRIVATE OFFICE. ADMITTED BAR, 1890. EDITED DALLAS LEADER, PUBLIC LIFE, DIGN, 1894-95. COUNTY JUDGE, TWO TERMS, TEXAS LEGISLATURE, MARRIED MISS MARINETTE RHEINER, NOV. 25, '95 - ONE SON.

ELECTED 58th CONGRESS, 1905 - SERVING TO '35 - BECAME VICE-PRESIDENT SINCE START OF CAREER, MR. GARNER HAS BEEN HIS SECRETARY IN WASHINGTON'S MOST REMARKABLE POLITICAL PARTNERSHIP. HE HAS BROAD COMPREHENSION OF NATION'S POLITICAL, SOCIAL AND ECONOMIC PROBLEMS, GAINED FROM SERVICE ON MOST IMPORTANT WAYS AND MEANS COMMITTEE UNDER WOODROW WILSON. SOUND JUDGMENT AND UNEQUALLED LEADERSHIP.

JOHN NANCE GARNER HAS ALWAYS BEEN CONSISTENT IN HIS EVERY ATTITUDE TOWARD NATIONAL POLITICS - AND THE INALIENABLE RIGHTS OF THE PEOPLE. HIS PHILOSOPHY OF GOVERNMENT IS SIMPLE. HE EXPRESSED IT IN HIS ACCEPTANCE SPEECH IN 1932: "THERE ARE JUST TWO THINGS TO THIS GOVERNMENT AS I SEE IT. THE FIRST IS TO SAFEGUARD THE LIVES AND PROPERTIES OF OUR PEOPLE. THE SECOND IS TO INSURE THAT EACH OF US HAS A CHANCE TO WORK OUT HIS DESTINY ACCORDING TO HIS TALENTS. THIS INVOLVES PROTECTING HIM FROM BEING INJURED OR OPPRESSED BY THOSE OF SUPERIOR ACQUISITIVENESS AND PERHAPS LESS CONSCIENCE."

CARRIES OWN DEER TO CAMP 1938; OUTDOOR ENTHUSIAST, FEARLESS CHAMPION OF THE RIGHT. ALWAYS ON THE JOB, IN COW CAMP OR CAPITOL. "CACTUS JACK" GARNER CAN BE DEPENDED UPON ONLY LIVING MAN WHO HAS BEEN PRESIDING OFFICER BOTH HOUSES OF CONGRESS.

AT DEMOCRATIC NATIONAL CONVENTION IN 1932 - GARNER HEID MORE THAN 90 VOTES FOR PRESIDENT - BUT RELEASED TEXAS AND CALIFORNIA DELEGATIONS TO FRANKLIN D. ROOSEVELT, SHATTERING PRECEDENTS A GARNER TRADITION. TODAY RANKS AS FOREMOST PARLIAMENTARY AUTHORITY OF THE NATION.

American Legion to Hold its Annual Convention This Year at Waco, Texas

Waco.—To encourage Americanism, law and order, and national defense are the three big objectives of 27,000 American Legion members, who are planning for the twenty-first annual Texas-wide convention to be held in Waco, August 26-29. The Waco convention is expected to be the largest in the history of Texas Legion.

Officers of the convention city corporation, an organization which is responsible for convention arrangements, emphasized in recent statements that they are putting every effort possible to center the program of events and speeches for the present day problems of the legion and the public in general.

The program is expected to be released to the Waco offices within the next week. Inserts will be made to include local arrangements. Present plans are being made by the department commander, Vincent Chiodo, of Houston, and his associates. Chiodo will also invite a number of distinguished guests from out of the state to the meeting.

Chairmen of the convention constitutional committees are as follows:

Child welfare: Dr. T. J. McElhenney, Austin; rehabilitation: H. Miller Ainsworth, Luling; community service: Tom Cheatham, Cuero; publications, Van W. Stewart, Perryton; Americanism: Tom Owens, Dallas; disaster and preparedness: Bolton Hyde, McAllen;

junior baseball: H. K. Deason, Port Arthur; legislative: George Moffett, Chillicothe; law and order: Judge Clarence McGaw, Longview; musical organization: W. H. Davis, Port Arthur; Sons of the American Legion: Dr. J. G. Britain, Harlingen; membership: Ernest S. Gons, Tyler; foreign relations: Tom Connally, Marlin; graves registration: A. D. Farrior, Houston; convention city: Gene Ebersole, Galveston; national defense: Col. Gaston Howard, Austin.

Non-constitutional committees: Boy Scout: Ralph D. Holman, Henderson; liaison, Clark Thompson, Galveston; safety: Ross R. Cole, Houston; uniforms: Craig Laine, Fort Worth; aeronautics: William McCraw, Austin; highway beautification: M. J. Benefield, Brady; veterans employment, C. D. Bennett, Weslaco; distinguished guests: Roy Hatch, Waco; public health: J. W. E. H. Bock, Austin; boys' state, Carl Nesbitt, Austin; "On to Chicago" committee: Neil D. Armstrong, Kilgore; publicity: Walter Buckner, San Marcos.

Mrs. A. F. Cypert of Wichita Falls visited her sister, Mrs. Dave Eiland, the first of the week.

Mr. and Mrs. Sebern Jones and children of Benjamin visited relatives in Mineral Wells last Sunday.

Mr. and Mrs. Fred Glover of Benjamin were visitors here last Monday.

West Texas Chamber of Commerce Names Area Committees for 1939-40

Abilene.—West Texas Chamber of Commerce committees recently were named for 1939-40. Announcement of the appointments was made by President E. K. Fawcett of Del Rio.

Each committee has the duty of carrying out specific planks in this year's work program adopted

Weekly Health Letter!

Issued by Dr. Geo. W. Cox, M.D., State Health Officer of Texas

Austin, Tex.—As the thermometer shows signs of climbing higher and higher some of the ways in which babies may be kept well and comfortable during the hot weather and may be safeguarded against "summer complaint" are outlined by the Texas State Department of Health.

"The best way to keep your baby well," advises the department, "is to take your well baby to your doctor regularly for advice and supervision, and to follow the doctor's instructions carefully and faithfully. If your baby develops any digestive trouble, call your family doctor at once. He'll tell you what to do."

"Summer complaint, or cholera infantum as it is sometimes called, and other digestive diseases that are dangerous for babies, are germ diseases. The germs that cause the disease get into the baby's food or in the water given the baby to drink. Babies who are nursed by their mothers and who are given cooled, boiled water to drink are protected from these sources of danger. Care should be taken not to wean a baby in hot weather except under a doctor's orders.

"If mother's milk is not available, the best substitute for it is fresh cow's milk or unsweetened evaporated milk mixed with an equal quantity of water. If sugar or additional water is needed, it should be mixed with the milk according to your doctor's directions. All milk or milk mixtures given to children up to two years of age should be boiled. The feedings should be kept in individual bottles and kept on ice until used.

Fatal Accidents Increase in May

Austin.—Multi-fatal accidents showed a marked increase in May, seven of them claiming 22 lives, a state police compilation showed today.

The May death toll included 97 persons killed in May traffic, one more succumbing from a February accident, four more from March injuries and 12 more from April crashes.

In one crash, five lives were lost, in two crashes four died in each, in another three were fatally hurt, and in three accidents, two persons were killed in each.

The May figures also revealed an abrupt increase in the number of crashes on county roads, an increase which state police said may have resulted from defective vehicles foraging the highways for less-traveled roads. Twenty fatalities occurred on county roads as compared with 31 on city streets and 63 on designated highways.

There were fatalities in 28 pedestrian accidents, 29 motor vehicle crashes and 27 non-collision crashes, while there were only three fatal accidents involving trains, two involving bicycles, one involving a horse-drawn vehicle, nine involving fixed objects and none involving livestock or electric cars.

M. A. Bratcher of the Vera community was a business visitor here last Monday. While in town he visited the Times office and had his name added to our list of subscribers. Thank you, Mr. Bratcher.

Main Objectives For Legion Members Are Named

Each feeding should be warmed as needed.

"Always wash the hands thoroughly before preparing the baby's food, and before handling the baby's bottle. All dishes, pots, pans, bottles and nipples should be sterilized by boiling.

"Throw out any milk left in the bottle after feeding. Don't leave the bottle in the baby's crib or carriage. It will attract dirt and flies. Rinse out the bottle, put the nipple aside, and see that both are sterilized by boiling before using again.

"Be very careful to protect the baby and the baby's food against flies. Flies are potent disease carriers. Keep a supply of clean mosquito netting on hand to throw over the baby's crib or carriage while the baby sleeps.

"Some of the diarrheal diseases that grownups have are catching. Keep the baby away from people—both children and grownups—who are suffering from such diseases.

"If your baby develops diarrheal trouble, don't let it run on. Call your family physician at once."

Mr. and Mrs. Robert Green and Mrs. Green's sister, Miss Mary Lane Masby of Wichita Falls, left the first of this week for New Orleans, La., to spend their vacation.

HIS HARD LUCK
"Mandy, I've just heard about your hard luck, I'm terribly sorry."
"Deed, ma'am, Ah ain't had no hard luck."
"But, your husband; wasn't he killed in an accident yesterday?"
"Yes, ma'am, but dat's his hard luck, not mine."

CALCULATED
"And upon what income do you propose to support my daughter?"
"Five thousand a year."
"Oh, I see. Then, with her private income of five thousand a—"
"I've counted that in."

He: "I shall devote my life to meeting your smallest desires."
She: "I was not aware that I had any small desires."

Butcher: "And how much mince meat do you want, ma'am?"
June Bride: "About a half pound. And please cut it off a nice tender mince."

Marriage of Miss Ita Prince and J. R. Hill Announced

Announcement was made last week of the marriage of Miss Ita Prince to Mr. J. R. Hill. The wedding solemnized Friday evening, June 16, the Baptist parsonage, Rev. W. H. Albertson officiating.

The bride was attractive in a cope blue dress with navy accessories. She is a daughter of Mr. and Mrs. J. C. Prince of Munday.

The bridegroom is a son of Mr. and Mrs. C. W. Hill of Sunset.

Shortly after the ceremony, the young couple moved into their new home which is in the Sunset community.

CARD OF THANKS

We take this method of thanking our many friends and neighbors for their kind words of sympathy during the last illness and in the death of our dear mother, sister and grandmother, Mrs. P. E. Besire. We also thank each one for the beautiful flowers.

Electric Lights in Farmyard Lessen Accidents and Thefts

One of the most valuable and convenient uses of electricity on the farm.

By IRA MILLER
Rural Electrification Bureau

SUMMER or winter, spring or fall—in all seasons darkness sooner or later falls on the countryside. And its coming also increases the likelihood of two of the principal hazards of farming—accidents and thefts.

Although better than none at all, a single kerosene lantern or battery flashlight does not provide sufficient illumination to permit several persons simultaneously to see and avoid obstacles into which they might walk or over which they might trip with possible injury. Even when used by a single individual, there is always the danger—especially in stormy weather—that the lantern may be extinguished or the flashlight dropped.

With the passing of the horse, the various anti-horse thief associations found their work at an end. But the automobile and modern roads brought an even greater danger from thievery to the farm, with fast, light trucks, it is a relatively simple matter for a gang—under cover of darkness—to run off with several head of livestock, large quantities of produce or expensive machinery and equipment.

Electric lighting of the farmyard will greatly decrease—if not entirely eliminate—the dangers of night-time injuries and thefts. It also will permit of many necessary chores being done

after dark or before dawn which otherwise would have to wait for daylight. Finally, yard lighting will make the farm more attractive and hospitable to friends who drop in for an evening's visit.

Only three lighting units—one each at the house, barn and garage—are necessary for the proper lighting of the average farmyard. They should be at least 15 feet above the ground and equipped with proper reflectors. Inside-frosted bulbs of 100 or 150 watts should be used, and the holders should be of the weatherproof type.

For greatest convenience, yard lights should be controlled by three or four-way switches. With the former, it is possible to turn the lights on and off from both the house and another point, either the barn or garage. With the latter, they also can be controlled from an upstairs bedroom—an advantage particularly appreciated if there are prowlers around.

A yard lighting installation of three lamps—including all materials and an electrician's services, but not the poles—will run from \$45 to \$60, with the average nearer the lower figure. If poles are used, and they are installed by the utility company, they will cost about \$10 each. However, this expense can be avoided if the farmer cuts and sets his own poles or if the lights can be mounted sufficiently high from the ground on the various buildings.

Mr. and Mrs. Grady Roberts were visitors in Chillicothe over the week end.

Mr. and Mrs. Leo Fetsch were visitors in Munster, Texas, over the Fourth of July.

County Treasurer Bob Burton of Benjamin was in the city on business Thursday morning.

Miss Mary Couch of Haskell, a member of the faculty of the Munday High School, was a visitor in the city Thursday.

John Spann and sons attended the reunion at Stamford last Tuesday.

Mr. and Mrs. Carl Jungman were in Stamford Tuesday attending the reunion.

HEATED GOLFING!

Brocton, Mass.—Fore . . . fireworks on the fairway!

Roy Drew was strolling casually along after a nifty mashie pitch on Independence Day when a sliced ball by another golfer struck him in the seat of the trousers.

The impact lighted a box of matches.

The matches ignited his trousers.

Drew's friends rolled him in the dirt to extinguish the blaze.

Boyd Carley, Miss Frankie Sanders and Mr. and Mrs. Aaron Edgar attended the Texas Cowboy Reunion in Stamford last Tuesday afternoon.

Answers To The Moth Question

By Katharine Fisher

Director of Good Housekeeping Institute

Here are our answers to the questions thousands of women have asked us about moths, and how to defeat them. They are answers which have been thoroughly checked for accuracy.

Q. Do flying moths eat holes in wools?

A. No, it is the larvae or little white worms that hatch out of the eggs laid by the flying moths that do the damage. The eggs hatch in a few days in comfortably warm places, so wools left undisturbed where moths can get at them may soon be damaged.

Q. How can winter clothing be protected from moth damage during the summer?

A. It can be mothproofed, or fumigated or sprayed with an insect spray, and stored where moths cannot possibly reach it. Or it may be stored in a cedar chest. Good laundering and dry cleaning leave wools free from moths. If they are stored at once where moths cannot reach them, they will be protected against damage.

Q. How is clothing mothproofed?

A. By spraying it with a mothproofing solution which makes it distasteful and inedible to moths. First brush the clothing well, then spray it very thoroughly. Do not overlook a spot, and don't forget seams and in pockets. Every thread must be covered. Blankets, sweaters and other easily washable wools can be immersed (or rinsed) in a solution of a mothproofing compound available for that purpose. Mothproofed clothing need not be stored out of the reach of moths. It may hang in a closet or lie in a drawer or on a shelf.

Q. How are wools fumigated?

A. By the use of a fumigant. Fumigants are usually either paradichlorobenzene or naphthalene, and are sold as such or under brand names. They give off fumes that kill moths at all stages, provided the fumes are strong enough and the moths are exposed to the fumes long enough. This can only be done well if plenty of fumigant is used and if the fumes are inclosed in a space that is comfortably warm and practically air-tight.

Q. Can wools be protected well by fumigating them in dresser drawers?

A. Not unless they are sprinkled liberally with the fumigant and at once wrapped closely and sealed in strong paper to keep the fumes from escaping. Wrapped in this way they may also be laid on shelves.

Q. Can wools be fumigated in closets?

A. Yes, if the closet adjoins a room that is comfortably warm. Clean the closet, then sprinkle the fumigant on shelves and floor, using a pound of fumigant for a small closet 2 x 2 x 7 (28 cubic ft.) or 2 1/2 lbs. for a closet 3 x 3 x 7 (63 cubic ft.) and so on. Now hang up the clothing to be fumigated and seal the closet door with gummed paper or the tape used by fumigators. Leave the clothes there until they are needed again.

Q. Can clothes be fumigated by hanging a fumigant in a closet that is in use?

A. No, as the fumes escape when the door is opened and so become too weak to kill the moths.

Q. Will moths attack clothing and other wools that have been thoroughly fumigated?

A. Yes, fumigation does not mothproof wools. In fumigating any wools, therefore, they must be left stored where moths cannot get at them until they are going to be used again.

Q. How can insect sprays protect wools from moth damage?

A. These sprays kill the moths, or their eggs or larvae when they come in contact with them. The spraying, like the fumigation, must be done very thoroughly. They do not mothproof the wool; therefore the spraying must be repeated regularly if moths are about, or the wools, after being sprayed, must be stored at once where moths can't get at them.

Ideal Security Reviews Growth In Territory

To the People of Munday Territory:

We submit through The Munday Times a large ad, giving you some information regarding the protection we give the people of this section.

We have had a splendid growth, and our Cash Reserve is bigger than ever before. This means greater safety to our Policy-Holders. This Reserve has been created because we have tried to be careful in the selection of risks. We are trying harder than ever now to issue policies only to those who are insurable risks. We have no unpaid claims, and the service we render our policy-holders for their convenience is as good as you will find.

Our salesmen will call on you soon, and if you don't already have the feeling of safety our Protection gives, we shall be glad for you to ask any questions you may desire to know regarding our Insurance.

We are glad to refer you to the Banks named where you can make your payments. These Banks accept your money and save you postage and trouble of remitting direct. Bankers and Undertakers know when insurance companies pay promptly, and we are proud to refer you to those you know.

We thank you in advance for every courtesy shown them, and assure you that these favors may be the means of satisfaction to you and those dependent upon you, perhaps, much earlier than you may now feel.

We will be glad for you to fill out the coupon and mail to us, that our salesmen may not miss you, and you may mail to us or to any of them you may know, and if you are an insurable risk you may soon have the satisfaction our Protection gives.

CIVIL SERVICE EXAMS ARE ANNOUNCED

The United States Civil Service Commission has announced open competitive examinations for the positions named below. Applications must be on file in the Commission's office, Washington, D.C., not later than the dates indicated. The first date given applies if applications are received from States east of Colorado; the second date applies if applications are received from Colorado and States westward.

The closing dates for the first three examinations are July 31 and August 3, 1939.

Senior inspector, \$2,600 a year, (optional branches are ship construction, and engineering materials), also junior inspector, aircraft, \$1,620 a year. Employment is in the Navy Department, for duty in the field. Applicants for the junior grade must not have passed their 35th, and for the other grades they must not have passed their 53rd birthday.

Farm agent, \$1,800 a year, Indian Field Service, Department of the Interior. Applicants must not have passed their 48th birthday.

Meteorologist, \$3,800 a year, associate meteorologist, \$3,200 a year, Weather Bureau Department of Agriculture. Applicants for the assistant grade must not have passed their 45th, and for the other grades they must not have passed their 53rd birthday.

Junior bank examiner, \$2,000 a year, Federal Deposit Insurance Corporation. Certain education or banking experience is required. Applicants must have reached their 23rd but must not have passed their 35th birthday. The closing dates are July 24 and July 27, 1939.

Full information may be obtained from the Secretary of United States Civil Service Board of Ex-

THE CHURCH OF CHRIST

People and Spots in the Late News

TAXES ON FUN . . . A survey of summer vacation costs made by the National Consumers Tax Commission shows that hidden taxes even follow play-minded Americans on their annual outings, accounting, for example, for 55 cents—about 11 per cent—of the consumer price on even such a simple playstay as that worn here by pretty Lois Fox of Chicago.

FAST FARMING . . . Symbolic of the labor-saving speed of modern rubber-shod farm mobile equipment is the way this "self rubber-track-laying" Marmon-Herrington tractor takes a high-banked turn at 45 miles an hour in a "farmyard derby" on the same World's Fair track where Jimmie Lynch's auto-bouncing death dodgers hold forth.

ARMED TO THE TOOTH . . . Caught by the camera in appropriate "fighting" pose is 18-day-old Raymond Dean Kimbrell of Chattanooga, Ga., Tenn., who came into the world equipped with a fully-energized lower front incisor. "And don't say I didn't," he seems to be warning skeptics here.

COAL RUNS AUTO . . . "Liquid coal" was tried out as an auto fuel in experiments by Dr. Francis Godwin of Armour Institute, shown here filling temporary tank under hood of a stock car whose only adjustment was removal of fine screen from carburetor. It is a colloid fuel, 40 per cent coal and 60 per cent range fuel oil.

BRITAIN ARMS THE AIR . . . A glimpse into one of the "shadow factories" of England reveals this array of super-speed (257 miles an hour) bombers, part of the reported 1,000-warplanes-a-month with which Britain is arming for air defense. Odd construction of fuselage framework of these ships is termed "geoplastic," designed to give extra strength.

STARS OVER TOLEDO . . . The golfing team of Johnny Revolta (left) and Henry Picard captured top honors in the Inverness four-ball tourney which is focusing national golf attention on Toledo. They won in a play-off with two other pairs—Sam Sneed-Vic Ghezzi and Byron Nelson-Jug McSpaden—which also survived from the hand-picked, 16-star field.

Highway Work In Stonewall And King Co. Planned

Paducah, Tex.—Funds have been appropriated and bids will be called for this month for paving 21 miles of U.S. highway 83 in King county from Guthrie south to the county line, the Texas Highway commission told representatives from Abilene, Hamlin, Anson, Aspermont, Guthrie, Paducah and Childress at a hearing in Austin Friday afternoon.

Contract probably will be awarded and work begun on the project within the next 45 days.

The delegation, representing the U.S. 83 Highway Gap Closing association, an organization recently formed to seek completion of all unpaved gaps in this road in King and Stonewall counties, urged the commission to pave the 44-mile strip from the King-Cottle county line south to Aspermont.

The commission agreed the important highway should be completed as soon as possible and promised to rush plans for paving the strip.

Commissioners expressed belief they would be able to call for bids on paving the 10-mile gap from Guthrie north to the WPA paving project now under way within six months, and said the unpaved strip in Stonewall county already was scheduled for completion under the state's 1940 program.

The commission said all gaps in the highway in King and Stonewall counties would be closed within the next two years.

Jack Parnell represented Paducah at the session and presented the request to the commission.

PARTY GIRL

Social life begins at five and it begins auspiciously according to the July issue of Good Housekeeping Magazine, if the young lady wears this party dress made of rows and rows of lace posed over a rayon satin slip. The slip comes in pink, blue or white and the dress is tied with a big bow to match the slip. The bow in her hair also matches. Underneath the dress are fine party undies, panties trimmed with lace and satin ribbons.

Leonard King, chamber of commerce secretary, and County Judge Clements represented Childress. County Judge Ross K. Wildman and Commissioner Virgil Morris represented King county. County judges, commissioners and chamber of commerce officials from other towns along the highway completed the delegation.

Texans To Go To World's Poultry Congress, Ohio

Texas will be represented on the scientific program of the World's Poultry Congress by R. M. Sherwood, chief of the division of poultry husbandry of the Texas Agricultural Experiment station.

The Congress will be held in Cleveland, Ohio, July 28 to August 7. Sherwood's paper will deal with vitamin A requirements of poultry.

Geo. P. McCarthy, poultry husbandman of the Texas A. & M. College Extension Service, has estimated that more than 300 Texas poultrymen will attend the Congress, which is being held for the first time in the United States.

Members of the Texas poultry industry who are considering the trip should get in touch with A. H. Demko, executive secretary of the Texas Baby Chick Association, Stephenville, McCarthy said. Demko is in a position to give full details about the Congress, plans for group attendance, expenses, and so on.

Sied Waheed and family visited with relatives in Seagraves, Texas, over the Fourth.

James Allen Boynton and Robert Boynton, of Springtown, Texas, visited in the G. W. Dingus home last week-end. They are spending the first few days of this week visiting Harry Lynn Cowan of Haskell county.

C. P. Baker attended the Cowboy Reunion at Stamford last Tuesday night.

C. H. Keck of Knox City was a business visitor here on Wednesday.

Mrs. C. P. Baker and sons, Charles and Kenneth, visited relatives in Floydada over the Fourth, returning home Wednesday. While in Floydada they saw the Gainesville Circus, which showed there for two days.

Mr. and Mrs. W. W. McCarty attended the cowboy reunion in Stamford on the Fourth.

Hal Dyer of Seymour, newly appointed deputy district governor of District 2-E Lions Clubs, was a business visitor here Wednesday afternoon.

'Ag' Workers To Organize at A. & M. Short Course

The Texas Agricultural Workers Association will hold its annual summer meeting in connection with the Farmers' Short Course at Texas A. & M. College July 12, 13 and 14.

The Board of Directors will meet July 12 to set the date of the next annual meeting and to consider routine business, Maurine Hearn, district agent of the Texas A. & M. College Extension Service and secretary of the association, said.

The meeting will be followed by a luncheon for the entire membership and visitors and Dr. Alice Sowers, Prof. Family Life Education, University of Oklahoma, Norman, Oklahoma, has been invited to speak.

All persons interested in agriculture are eligible for membership. Louis P. Merrill of the U. S. Soil Conservation Service is president, and Fred Hale of the Texas Agricultural Experiment Station, E. R. Eudaly, extension dairyman, and Miss Hearn make up the committee on local arrangements.

E. M. Connell, superintendent of the Anson schools, delivered the laymen's address at the Methodist church last Sunday morning. While here, Mr. Connell and family visited in the home of Mr. and Mrs. E. W. Harrell.

Miss Maxie Dingus of Fort Worth visited her parents, Mr. and Mrs. G. W. Dingus, over the week end.

Mac Haymes and Lamoine Blacklock visited relatives and friends in Big Spring a few days

last week. The oil industry, spending \$2,000,000 annually in research, has reduced the price of gasoline from an average of 30 cents a gallon, without tax, in 1920 to approximately 14 1-2 cents today.

A GOOD CUP OF COFFEE EVERY TIME YOU TRY

By Katharine Fisher

Director of Good Housekeeping Institute

Michael Angelo said that trifles make perfection—but perfection is no trifle! So it is with coffee making. A good cup of coffee can be made every time you try—but only if you will remember a number of seemingly small but vastly important things which enter into the process. Should you forget about them, it will only be luck if your coffee isn't too weak or too strong, cloudy or bitter. Here are the rules of good coffee making, rules that have been carefully checked and rechecked by months and months of research by coffee experts in our own Good Housekeeping Institute laboratories.

Be sure your coffee is fresh. The coffee you use, whether in the bean or ground, must be fresh. Be sure you know when the coffee you buy was roasted, or that it is vacuum-packed. In the case of coffee which is not vacuum-packed, if there is a date on the container it should be within a few days of the date of purchase.

Select coffee with flavor you like. The price of coffee varies according to the cost of the different coffees that make up a particular blend. The flavor also varies with the blend, so you may find it necessary to try several brands before you find one that appeals to your particular taste. So, buy a brand with a flavor you like and no more than you can use in a week.

A universal grind makes good coffee. Usually it isn't necessary to ask your grocer to grind or regrind coffee to suit the coffee-making device you use. If a universal grind is available, it will be satisfactory for any type of coffee maker. If the brand you prefer does not have a universal grind, buy a percolator grind for a percolator, and a drip grind for a drip-coffee maker.

Don't mix fresh coffee with stale. It isn't necessary to transfer coffee, after you bring it home, to another container. In doing this you may jeopardize the flavor of the fresh coffee by mixing it with coffee left in the container.

Keep coffee maker clean. Your coffee-making utensil should be scrupulously clean. Coffee oils have a habit of clinging to the inner surfaces of utensils and eventually give off an unpleasant musty flavor to the coffee made in them. Thorough washing in warm soapsuds and thorough rinsing in clear hot water after each use will remove traces of the coffee oil. You can buy a small brush to clean spouts and the tubes of percolators.

At least twice a month give your coffee maker a more thorough cleaning. Porcelain, enamelware or glass utensils should be cleaned by boiling in a solution of one tablespoon of washing soda or borax to each quart of water. If you wish, you can fill such a coffee maker with the solution and let it boil. If the appliance cannot stand such heat, let it soak in a dishpan full of this hot solution. Bases of coffee makers in which there is an electric heating element must never be immersed in water. Percolators can be filled with either of the foregoing solutions; the application of heat will cleanse the tube. Be sure to rinse thoroughly after cleaning with any solution. And when the coffee maker is set aside, keep the cover off so it can "air."

Use standard measures in making coffee. Now we come to the actual making of the coffee. For a brew which suits many people, use two level standard measuring tablespoons of coffee for each half-pint standard measuring cupful of water. These proportions hold good for all methods of coffee making. If you prefer come other strength, determine your own proportions and stick to them. If you do not measure carefully, you will have coffee that may taste very grand sometimes and pretty bad at other times.

KATHARINE FISHER Director of Good Housekeeping Institute

Baseball's Birthplace Dedicated

Celebration of baseball's centennial—which began officially this week—will focus attention of tourists in the East on Cooperstown, N. Y., where America's national sport was originated by Abner Doubleday. A new Baseball Hall of Fame, housing mementos of the sport's greatest figures, is open to tourists in Cooperstown. In the photo, William Beattie, curator, is showing a bat with which Babe Ruth made 27 home runs to two town boys and Miss Bernice King, of Detroit, who stopped en route to the World's Fair. The boys are Joseph Sapienta (left) and Eugene Meyer.

Thirty Years of Public Service Gas Company Passes It's 30th Milestone

Thirty years ago at Austin, the Secretary of State authorized incorporation of Lone Star Gas Company for the purpose of producing and transporting natural gas from distant fields to towns and cities miles away. At that time this was considered a hazardous undertaking. Fortunes, business reputations, and even lives were staked on that bet against failure.

The charter for this company was obtained by L. B. Denning, now president of the company, and his associates. They built the first long distance pipeline in Texas, from Petrolia in Clay County to Fort Worth and Dallas, and despite the misgivings of many people the first delivery of gas through this pipeline became an established fact when natural gas was turned into the mains of Fort Worth in February, 1910, and in Dallas two months later.

That was the origin of the Lone Star Gas System which today serves 299 towns in Texas and Oklahoma and this year celebrates its thirtieth anniversary. The 126 mile pipeline has increased to 4,700 miles of pipe, and where once there were only 15 to 25 employees, today there are more than 3,000 watching over the gas service.

Mr. Denning, however, can still recall the struggles of the little company during its early years. He remembers particularly the dark days of the World War, when new sources of supply were unobtainable and customers complained each winter of the lack of pressure in their stoves. With pride he recalls the days in 1924 when experiments conducted by company engineers developed a successful method of utilizing gas from oil wells. This, with the company's ceaseless prospecting for new fields, has increased supplies from the single petrolia field to 46 fields located in the Panhandle, Southern Oklahoma, West Texas and East Texas. Twenty-one compressor stations keep constant watch over the pressures which insure dependable gas service in more than a quarter million Texas and Oklahoma homes.

Pre-Historic Mastodon Skull Is Unearthed

Austin, Texas.—A nine-foot skull of a pre-historic shovel-jawed mastodon—the second unearthed in the same site—has been discovered in a Bee County water hole, Dr. E. H. Sellards, director of Texas Memorial Museum, disclosed here today.

University of Texas and WPA field men have been working the Bee County quarry for several months.

The shovel-jawed mastodon, an early form of the elephant, was about the same size as his descendant of today, Dr. Sellards stated. The newly discovered skull will prove the largest found, he believed.

He credited the right geologic "strike," which has already yielded the fossilized bones of one 20,000 year-old mastodon, to the presence of an ancient water hole where the beasts must have bogged in clay.

Work Program For West Texas CC Announced

Ablene.—Copies of the work program of the West Texas Chamber of Commerce for 1939-40, listing many constructive, far-reaching activities, have been mailed to directors of the regional organization in 180 affiliated cities and towns.

The program is made up of resolutions adopted at the 21st annual convention held in Abilene last month and includes the following planks:

- Establish bureau for overcoming discriminatory freight rates and permanently organize Freight Rate Equality Federation.
- Seek state appropriation to prosecute case against discriminatory freight rates.
- Seek cotton ginning and fibre laboratory.
- Seek tariffs to protect West Texas raw materials.
- Seek state school apportionment on attendance basis.
- Seek re-districting of state to give West Texas equitable representation in legislative bodies.
- Seek organization of soil and water conservation districts on a county basis.
- Seek fair and equitable cotton and wheat allotments for West Texas.
- Establish cotton rehabilitation committee.
- Organize central and local public expenditure and taxation committees.
- Seek governmental purchase of American beef.
- Cooperate with All State Council.
- Seek increased truck load limit.
- Seek oil conservation and support Connally Hot Oil Act.

Several planks in this work program already are being carried out and all are being studied and plans are being mapped to execute the mandates of the WTCC directorate, officials say.

All of the activities are designed

Women Win Again, As Usual

For months they called the radio program "For Men Only." But when Comedian George Jessel became master of ceremonies on it, women began to send in petitions asking that the title be changed so that they wouldn't feel like trespassers when they listened to it. As a result, the program now heard on Wednesdays at 9:30 p. m., E. D. S. T., over NBC's Red network, is called "George Jessel's Celebrity Program." Pictured above are Peter Van Steeden, maestro of the program; Ariane Francis, one of the stars of the program that precedes it; and George Jessel, star of the show.

to aid in the prosperity, growth and development of the entire West Texas region and the program will mean much to the welfare of this part of the state, it was pointed out.

Police Teach Traffic Safety In Colleges

Austin.—Now is the time of year when stalwart highway patrolmen climb off their motorcycles and do classroom duty.

They are there as teachers detailed to instruction in traffic safety.

Ten colleges and universities in Texas this summer are offering studies in safety education, and the state police are frequently called on for materials and teaching personnel in traffic safety.

The material—booklets, charts, and surveys—goes out from state headquarters but the men are picked as instructors by their district patrol captains. Of the 60 per cent of the patrol who are college-trained, at least 44 studied teaching courses and a number of the patrolmen are former school teachers.

In several instances, schools asking for patrolmen as traffic instructors have requested their own graduates who are now on the patrol.

Fund Shortage For Schools For Year Predicted

A shortage of \$6,568,000 in this year's state aid to Texas public schools was predicted in Austin last week on the basis of payments to date.

A reliable source said that collections to the available school fund indicated a shortage of \$4.20 in this year's per capita payment of \$22. On the basis of 1,564,000 scholars, this would amount to \$6,568,800.

Probable amount of the shortage at the end of the present fiscal year—unless additional funds are diverted to the available school fund—was predicted with the payment of \$2 in the current per capita, a total of \$3,128,046. So far \$14 has been paid and the payments are lagging behind the payments at the comparable date a year ago.

Western Civilization

A tourist journeying from Cairo to the great pyramid thought he had at last found a place where nothing savored of Western civilization. The "Arabian Nights" atmosphere of ancient days made him sigh with relief.

Reaching the pyramids, he was hoisted to the back of a camel by a picturesque Arab.

"Tell me, my good man," he said to his guide, "what is the name of your camel?"

"Great Garbo, sir," came the answer.

Commuter

At a certain college in the north of New England the male students were not permitted to visit the resident lady boarders. One day a student was caught in the act of doing so and was called on the carpet.

Said the Dean: "Sir, the penalty for the first offense is 50 cents, for the second, \$2.50, for the third, \$5, and so on up to \$15."

In solemn tones the trespasser inquired: "How much would a season ticket cost?"

Highway History . . .

Ten years ago there were 18034 miles of State highways being maintained by the State. Today there are 21,870 miles and in maintenance our highways are second to none. A high standard of maintenance is demanded by the traveling public and furnished by the State Highway Department. Where formerly maintenance consisted of keeping drainage ditches open and a satisfactory riding surface many kinds of traffic service are furnished.

There are over 130,000 signs and markers on state highways, and of these 65,000 show the U. S. and State route number; 32,810 are yellow caution signs of various types and the balance is made up of signs indicating the distance to cities and towns; city limit markers; county line markers; speed limit signs, and others. Many signs have been reflectorized for night driving, and soon 75 per cent of all the caution signs will have been reflectorized.

In the past 12 months, 6,608 miles of highways have been center striped and 875 miles of shoulders stabilized in 1938. The money available for construction will not permit replacement of all narrow bridges at one time, so reflector buttons will be installed in the end posts of all bridges having less than 4 feet greater width than the paved approach. Steel plate guard fence or a row of guard posts have been installed at these bridge ends to help channel traffic.

A recently adopted practice is to install reflector buttons in the guard posts around the outside of sharp curves, and at night these buttons show up like a row of lights, indicating the curve.

One of the most noticeable improvements was the providing by the Department of standard type rural mail box supports, replacing the thousand and one old, ragged looking supports; and the graveling of shoulders at mailbox locations. The cost of this work has been more than offset by reduction in maintenance work since the supports are now easily moveable and shoulder maintenance at these points has been reduced to a minimum.

ROUNDER GOES ROUND

A man, somewhat under the influence of good fellowship, attempted to pass through a revolving door of a restaurant. Each time he entered he made a complete round and found himself on the street again. After several unsuccessful attempts, he sat down on the pavement to work things out. A moment later a young man walked rapidly up the street and went in. The door went around and a young woman came. The inebriate was puzzled.

"What gets me," he remarked, "it what the heck he did with his clothes!"

LETTERS FROM THE PEOPLE

WALT COUSINS SENDS CONGRATULATIONS

June 30, 1939.
 Munday Times,
 Munday, Texas.
 Gentlemen:

Today I note that you are passing the 34th milestone on the long trail that ends its winding miles at the rimrock of the Great Divide. I cannot refrain from congratulating you on your faithfulness, and your loyalty to Munday and to Knox county. That is a great country and better people are not to be found in any county. I first knew Munday 40 years ago, I became a citizen of Munday 37 years ago, and I hope you of this generation will consider me a citizen now.

A newspaper worthy of the name is the very life of progress in any town, it is the keystone of the arch and if eliminated the structure falls in a jumbled mass. The Times had a humble beginning, Tom Durham and a Washington handpress, but it endured through the years, it has not missed an issue so far as I know and it is the only newspaper Munday ever had. The town and the paper have grown up together, and both are, and have always been in the forefront of

progress. Gentlemen may you grow and progress with the passing years. This is my earnest wish.

Sincerely yours,
 W. H. COUSINS,
 Publisher Southern
 Pharmaceutical
 Journal.

Civil Service To Employ Men At Denison Dam

The engineer department of the U.S. Civil Service has announced open competitive examinations for positions in filling existing vacancies at the site of the proposed Denison Dam in Texas and Oklahoma, at Denison, Texas.

Examinations are for positions of drillrunner (cable tool rig), salary of \$1.00 per hour; and helper drillrunner, 60 cents per hour. Applications must be filed with the secretary, Board of U.S. Civil Service Examiners, U.S. Engineer Office, Denison, Texas. Nearest place to Munday for obtaining forms is Wichita Falls or Vernon.

Applicants for drillrunner must have had at least one year of experience in the operation and maintenance of gasoline or steam-driven cable tool drilling rigs. Applicants for helpers must have had six months of experience.

Dr. A. J. Bezner, chiropractor of Seymour, was a visitor in the city a while Sunday night.

Mrs. Nesbitt and son, Johnnie, left Tuesday for Sherman, Texas, where they will make their home.

Beauty Plus Efficiency

Ach! VOT A VOR - RLD

People of all ages—young, middle aged, old—regularly read The Times, not to keep informed of what's happening in Europe, the Orient, or elsewhere, but to learn what is happening among Knox county people.

The Times carries stories, personals, society news, of people whom The Times readers have known for many years. And that's why they like The Times . . . it gives them news of their home people instead of sordid news of world affairs, world dictators, etc. News of these they can get by means of the daily papers, or the radio—but news of their home people, their friends, is not available in this manner.

And so Local News is The Times main reason for existence, and to adequately provide you with news of local importance is the purpose of The Times. Let The Times become a habit with you and your family . . . enjoy its news, its interesting features, its personal mention of people you know.

'Come Into the Kitchen', Invites Modern Woman

The kitchen today can be the loveliest room in the average home! "This is possible because time and labor saving electric servants keep it clean, cool and cozy," says Miss Eudora Hawkins (inset), home economist for the West Texas Utilities, who frequently visits in the numerous homes here which now are equipped with the electric range. "Come into the kitchen' is a standing invitation in thousands of homes where women are proud to show the beauty of cooking equipment and the ease with which they cook," Miss Hawkins declares. She insists that the electric range is the foundation for an all-electric kitchen, supplemented by electric refrigerator, dishwasher, hot-water heater and the many smaller appliances designed to "take drudgery out of the home."

who is an instructor in Longview High School, as a demonstration project for his classes and will be released in a section suitable for the raising of quail when they are grown.

The old idea that armadillos destroy many quail is being rapidly disproved. Several were captured by South Texans recently and attempts were made to feed them eggs. Each of the armoured animals refused the eggs, but did eat heartily of moths, bugs, earthworms and cornbread. Occasionally an armadillo will root a quail nest, but it is believed that is because the animal has extremely poor vision. They more than make up for any damage they do by destroying ants, one of their main foods. Ants destroy thousands of quail eggs by piercing them just before they hatch and eating them.

AAA To Take Bird's Eye Views Of Farms Again

College Station.—When the AAA gets through with its new aerial mapping program this summer it will have obtained bird's eye views of two counties which haven't had their pictures taken yet and 30 others which have developed surface changes requiring new photographs to be made.

Recent contracts call for 1,571 square miles of virgin aerial photography and 25,356 square miles of reflight in counties where additional terraces have been built, new roads constructed, timber cleared, farm boundaries moved or other changes made in the face of the earth which might enter into checking of compliance with the farm program.

Romeo Korth, Ebleto stock farmer and member of the Texas Agricultural Conservation Committee, said the negatives will be retained by the AAA and that farmers will be able to purchase copies of new maps at relatively small cost and use them in planning their farming operations.

Hood and Clay counties will be photographed for the first time, under the current contracts. Counties to be re-flown are Austin, Angelina, Caldwell, Cameron, Cherokee, Crosby, Dawson, DeWitt, Fayette, Freestone, Gonzales, Gregg, Harrison, Haskell, Hidalgo, Houston, Howard, Knox, Limestone,

Madison, Marion, Martin, Nacogdoches, Panola, Rusk, San Patricio, Titus, Shelby, Upshur, and Washington.

The photography will cost \$58,155 and is to be done by Edgar Tobin Aerial Surveys of San Antonio; C. S. Robinson Aerial Surveys of Ithaca, N.Y., and Aero Service Corporation of Philadelphia, Pa.

The AAA is checking compliance by means of aerial maps this year in 158 counties, 50 of which are having it done that way this year for the first time.

Korth estimated that gathering and preparing aerial maps in Texas has cost around \$326,000, but that the economics and accuracy effected through use of the photos have amounted to many times the cost.

FIRST BAPTIST CHURCH

Indifference and ingratitude are casting a shadow over us that will increase to midnight darkness if we do not turn our faces back to the Lord. We are taking the blessings of our Christian land, our homes, our schools, and our churches for granted. We in our generation have not smelled fire and seen the blood. Every privilege and blessing we enjoy today our forefathers fought, bled and many of them died to secure for us. They didn't cost us anything, therefore we accept them as a matter of fact until through our indifference to them we let them slip away from us. God give us the sense of appreciation and Christian courage and activity!

Ingratitude is the product of laziness, ignorance, and egotism. It breeds the spirit that would accept something for nothing, and mother's destruction. It eats up the fruits of former generations and destroys the foundations and bulwarks of civilization's achievements. Ingratitude is to the growth of men and women with nobility of character as the bollworm is to the production of a cotton crop. Ingratitude waterlogs ambition and deadens hope; it destroys faith and makes possible the fruition of noble purpose. Let us arise tomorrow with the first glow of the morning light and dig up the weeds of ingratitude from the gar-

dens of our lives, and plant in their places the beautiful flowers of appreciation.

Mr. Harrell, our Sunday School superintendent, is urging us to be in Sunday School next Sunday 250 strong. It will be easily done if you and I do our best.

One more week until our meeting begins. Are you ready for it? "Lord, send a REVIVAL, and let it begin in me."

W. H. Albertson

SANTA FE CARLOADINGS

The Santa Fe System carloadings for the week ending July 1, 1939 were 27,644 as compared with 25,543 for the same week in 1938. Received from connections were 5,409 as compared with 4,749 for the same week in 1938. Total cars moved were 33,053 as compared with 30,292 for the same week in 1938. Santa Fe handled a total of 33,985 cars during the preceding week this year.

State Fair To Hold Newspaper Contest Again

Dallas, Texas.—The Second Annual All-Southwestern Newspaper Contest will be held as one of the features of the 51st Press Day at the State Fair of Texas, and newspapers of Texas, New Mexico, Oklahoma, Arkansas and Louisiana, will again be invited to participate in this contest.

Instead of cash prizes, silver loving cups will be awarded the winners of this year's contest. This change was made upon the request of a majority of the winners of the 1938 contests, and many other newspapermen who contemplate entering their papers in the 1939 competition.

The Southwestern Newspaper contest is held as a feature of the press day at the State Fair of Texas, which will be observed this year on Saturday, Oct. 7. All newspapermen of the Southwestern States are invited annually to help celebrate Press Day at the State Fair of Texas.

Willard Hanman visited in Lubbock and Littlefield on Thursday and Friday of last week.

Weekly Game Column
From the Game, Fish and Oyster Commission

Austin, Tex.—It has been many, many years since there have been bears in most sections of Texas, but a few, probably less than 200, remain in the Trans-Pecos and the largest killed in a score of years was reported recently by State Game Warden T. S. Redford. The bruin, slain by a party of ranchers, under the supervision of the game warden, weighed 463 pounds. It was tracked down after having killed twenty-five sheep in the Davis mountains. The open season on bears is from November 16 to December 31, but special permission was obtained from the Texas Game, Fish and Oyster Commission to slay this sheep-killing bruin.

Fish often get the last laugh on the careless angler, in fact far too

often, Will J. Tucker, Executive Secretary of the Game Department, sighed the other day.

"The very same chap who is the most careful hunter in the world will do the most utterly absurd things while in a boat," Tucker said. "A bill to enforce safety rules upon the fresh waters of Texas failed to squeeze through during the closing days of the forty-sixth legislature, but if fishermen will observe a few commonsense rules there will be fewer casualties."

Tucker's safety suggestions: Don't permit a boat to become overcrowded; don't venture on a big lake in a small craft without any thought of perils of weather (State Game Wardens recently rescued four boatloads of fishermen on Lake Buchanan in a single day). Don't stand in the boat when another person is casting; don't stand up in a tight-wire act to change seats; don't lash around without regard to harm to others from a plug with many hooks; don't land a canoe improperly; don't use Bottle Bait while in a boat; don't race large boats too closely to small craft.

were startled when a bass they estimated weighed every bit of four pounds leaped high in the air and landed in their boat. George shouted "string him up," but before either of them could reach the fish it had flipped them a goodbye and was back in the water. The anglers went home with the old fish stringer empty.

Reports of excellent prospects for big quail and dove crops in Texas continue to pour into the Game Department's office from many sections of the State.

Some rather interesting data on the food habits of alligators were obtained recently when State Game Warden H. A. Ellis killed a 12-foot alligator in Caddo Lake. The alligator had defied several boatloads of fishermen.

It was found when the 400-pounder was opened that his stomach contained grass, leaves, feathers and turtles, but no fish. There were six turtles, ranging in size from four to nine inches in diameter.

A mother quail was able to lure a cat away from her nest near the garage of Welton Wilson in Longview, Texas, recently, but it cost her her life. However, her seventeen offspring are being taken care of by Mr. Wilson. They are being raised by the Longview man,

RIGHT OUT OF THE AIR

By EARLE FERRIS

ROBIN BURNS, below, the Sage of Van Buren, has once more taken over duties as "Summer Keeper of the Music Hall." Bob conducts the

Thursday night NBC program while Bing Crosby vacations at his Del Mar race track. Bing will be back in September when Bob will have his turn at taking things easy.

The Swing Fourteen, harmony group heard on the "Johnny Presents" shows, will soon participate in special television programs, making one of the largest singing organizations yet to appear before the iconoscope.

The Andrews Sisters, heard with Phil Baker on "Honolulu Bound," are known in radio as the ideal combination. This does not apply to their

harmonious singing alone. Patty, above, originates the novelty arrangements; Maxene creates the intricate counter melody and trick wordage, while LaVerne, the only one who can read music, interprets the passages for the others.

Bess Johnson, star of "Hilltop House," may turn radio editor. A new magazine, soon to debut, is desirous of securing her services in that capacity. Bess knows the field, having been employed in most phases of it.

Ezra Stone, star of the "Aldrich Family" dramas, has never gone to military school, but he has an honorary certificate from Virginia Military Institute due to his participation in "Brother Rat," the scene of which was the southern institution.

Elsbeth Eric, pictured below, who plays the title role in the serial, "Joyce Jordan: Girl Intern," over

CBS, Mondays through Fridays at 12 noon, E. D. S. T., is one of radio's most talented dramatic actresses.

A prankster has been toying with the sign on the dressing room used by Edgar Bergen and Charlie McCarthy. So far, Bergen hasn't received any billing on his dressing room door. The original sign read "Charlie McCarthy & Friend." Later it was changed to read: "Charlie McCarthy & Stogie." Last Sunday, Bergen found the following: "McCarthy & One."

Carlton Brickert, below, is rarely called by his given name. Even mail addressed to him at the NBC studios carries the name "David." This has

existed since Brickert was cast as David Post in the daily serial, "Mary Marlin," heard over the NBC-Blue network at 11 a. m. E. D. & T.

"Guess Again"

More than 5,300 homes served by this Company now are enjoying the many benefits of ELECTRIC COOKERY

"I FOUND OUT THAT ELECTRIC COOKING COSTS ONLY 1/2 AS MUCH AS I THOUGHT"

THE MANCHESTER Hotpoint's big value, built-to-the-floor electric range at a popular price. Full porcelain enamel. All Select-A-Heat Control units; oversize 6-quart Thrift Cooker; Directional Heat Oven with Duo-Speed Broiler; three large utility drawers.

Hotpoint ELECTRIC RANGE

fast clean low-cost cooking

West Texas Utilities Company

"I am saying 'Good-bye,' once and for all, to the crummy old notion that electric cooking is costly. I am saying 'hello and welcome' to savings, cleanliness, freedom from the kitchen, and better tasting foods!"

THIS is a sample of the letters women write after trying out Electric Cookery. They learn that it costs only one-half what they thought. And they are delighted with the coolness, cleanliness, and spare time it gives them. One of your neighbors is among the 5,300 of our customers now using Electric Ranges. Ask to see her electric bill to learn about the economy of Electric Cookery. Then let us demonstrate one of the new ranges for you and tell you about the low down payment, easy terms and trade-in allowance on your old range.

"I simply must go down today and see those new Electric Ranges."

Carlton Brickert, below, is rarely called by his given name. Even mail addressed to him at the NBC studios carries the name "David." This has

Automobile Wrecks Laid To Drivers

"I am fully convinced," writes Isabel Dean in the July issue of Good Housekeeping Magazine, "that the biggest accident cause to see the car or the highway or even the demon run—it is a loose screw in the mind of the driver." Miss Dean's article, "I've Had an Accident" is one of an aggressive series in a campaign for greater motor safety and the reduction of highway accidents now in progress.

"Getting behind the wheel of a car has a curious effect on human nature and normally decent people become unpleasantly transformed and discourteous when they drive. In addition to danger to life incurred, bad motoring manners hold up traffic and waste time and fuel. Of all traffic delays, 25% grow out of common discourtesy. Psychoanalysts have been uncovering reasons for some kinds of childish misbehavior in an automobile. A car is something that the small boy wanted and it seems to bring out

the small boy in men," says Miss Dean.

Most people admit they drive too fast when there is no need for it. The human eye makes a deceptive accommodation to the sensation of speed, so that high speeds seem slow when the eye has accustomed itself to higher ones. Most people are convinced that accidents happen only to other people and not to themselves. As a veteran of an accident, Miss Dean says they can happen to anybody.

Vera Scores Upset, Defeats Rhineland 4-3

Boomers Win 3 And Drop 1 in Last Week's Play

The Rhineland "Boomers" motored to Seymour and increased their winning streak to fifteen straight games last Wednesday night by defeating the Seymour All-Stars 12-5. Ratliff, the winning pitcher, gained his third victory of the season with a smartly pitched six-hit job that had the All-Stars helpless after the third inning. Seymour scored five times off him in the third inning when his support faltered. Len Kuhler and C. Wilde put the stamp of "Boomer" authenticity on the affair by collecting three hits apiece. Sanders, opposing Ratliff, went the route for Seymour, allowing three

teen hits, many of which were bunched in the fifth and sixth innings for the victory.

The heart-breaker of the season came when the Rhineland "Boomers" met their first defeat of the season in a thrilling upset Sunday afternoon at Vera. After defeating Benjamin 16-3, the squad motored to Vera and received the surprise of the year when Preston hurled air-tight ball in the pinches for the full seven innings. Rhineland scored their three runs in the third, when, with two men retired, Lou Kuhler drew a pass, C. Wilde and Len Kuhler each singled and all came in on a smashing triple to left field by Smith. Preston was in trouble in two other innings. In the first and again in the seventh. In the first with one out the bases were filled with singles by Albus and Len Kuhler and a walk by C. Wilde. The side was retired, however, with two successive pop-ups.

The seventh frame proved to be the high spot of the game. With one man out, Dutch Kuhler, Shorty Kuhler and Couch each singled, again filling the bases. Albus popped to the third baseman and Len

Kuhler few out to left field, retiring the side and leaving Rhineland with a defeat marked against themselves.

Vera jumped on Rein Kuhler in the second and third innings. In the second, with two out, Spinks drove a slashing triple to right, scoring on Trainham's single. Trainham reached third by virtue of a stolen base and a wild pitch and scored on a slow roller by Paterson. In the third G. Hardin tripled to right-center and scored on a long homer by E. Hardin.

Highlights of the game were the long and hard blows to right and right-center by the powerful Vera crew. Brilliant and almost unbelievable catches in center and right-center by Lennie Kuhler, which robbed Vera of many extra bases, is also worthy of high praise.

Before a Fourth of July crowd estimated at nearly 500, fans, the Boomers hung up their seventeenth victory by defeating the All-Stars of Knox county, 14-7. "George" Decker, sensational young south-paw of the powerful Boomers, allowed seven well-scattered hits and gained his fourteenth straight victory against no defeats.

Following the game, the girls' team of Rhineland defeated a team from Seymour 28-19.

Craving bigger and better games, the Boomers will go to Vernon Friday night at 8:15 and attempt their eighteenth victory against Noah Mead's Phillips 66 team under the lights. The following day Seymour will play a return game at Rhineland.

Score by Innings	R	H	E
Seymour	005	000	0 5 6 5
Rhineland	000	156	0 12 13 6
Benjamin	110	001	0 3 8 5
Rhineland	035	611	0 16 15 1
Vera	022	000	0 4 5 0
Rhineland	003	000	0 3 6 2
All-Stars	300	100	3 7 7 3
Rhineland	400	0010	14 8 3

New Group For Lions Clubs Of Area Formed

Five Clubs Including Munday Comprise New Group

At a meeting of Lions Clubs at Seymour on Thursday night of last week, the occasion being the annual installation of officers for Seymour, a new group or zone was formed. Clubs from Olney, Seymour, Munday, Haskell and Knox City comprise this new group.

Lions at Seymour elected Rev. C. E. Cogswell, pastor of the First Christian Church of Knox City, as zone chairman and set the latter part of August for the first zone meeting. This will be held at Seymour on a date to be set later by the new chairman. Munday was represented at the meeting by Lee Haymes and E. W. Harrell.

Lion Cogswell was here Wednesday and met with the local club.

Washable House Lends Itself to Decoration

NO longer is the thrifty housewife limited in her choice of home furnishings to those that "won't show the dirt easily." Modern science has created the washable house.

This house is now on display in the International Building at Rockefeller Center, New York. For the first time, a series of rooms has been built around the washable idea. In the house, which includes a living room, dining room, bedroom, kitchen, laundry space and numerous closets, all wall coverings, draperies, curtains and fabrics are washable.

It is called the House Beautiful Ivory Washable House, the research facilities of the Proctor and Gamble laboratories having been used to test the furnishings. All materials included were tubbed, scrubbed, checked and tested for wearability, color-proof standards, fade-proof qualities and general appearance after washing.

In the development of this functional idea of easy cleaning with pure soap and water, decoration improved rather than suffered. It is now possible to use light and formerly fragile colors freely, with the assurance that they will stay fresh indefinitely and can be easily renewed. The colors in the house are especially arresting.

A convenience room is House Beautiful's special contribution to the housewife's peace of mind. The small room with its snowy white walls and blue flowered draperies is the homemaker's office. It houses her sewing machine in an attractive mahogany cabinet and has shelves for cookbooks, account books and other paraphernalia, as well as a large, subdivided, departmentalized closet with a place for all the awkward equipment requisite to home management, including garden tools.

The washable idea in decoration is certain to find immediate favor with all progressive homemakers and particularly in homes where there are children who are apt to take heavy toll of less practical decoration.

Decorators and housewives alike who have feared that washability would impart a clinical atmosphere to a home will be impressed by the beauty and livability of all furnishings in the display. The House Beautiful Ivory Washable House is a functional working model, adaptable to any part of the country, all climates and geographical conditions and to a large range of incomes. The display will be open to the public until the close of September.

been increased. Competition has again been taken from county exhibits and instead each county with a creditable exhibit will receive \$125.

In addition to the regular premium list which shows every award offered by the State Fair of Texas, the fair has for distribution supplementary lists for special shows, as the poultry show, the 4-H Club Shows, Culinary and Textile, the school exhibits and contests and others.

New Merchant Law In Iowa To Affect Truckers

Austin.—Homer Garrison, Jr., state police director, today called the attention of Texas truckers to a new itinerant merchant law now in effect in Iowa.

The new measure requires all itinerant merchants to secure a license, file an integrity bond and liability insurance with the Iowa department of public safety, and also file a bond with the Iowa tax commission guaranteeing payment of the sales tax whenever the itinerant merchant sells anything subject to the Iowa sales tax law.

Iowa officials requested Texas authorities to acquaint Texas truckers with the law so that truckers will not be unavoidably detained or delayed. Truckers may obtain copies of the act by writing Earl G. Miller, Iowa secretary of state, or James Allen, superintendent of motor vehicle registration, Iowa department of public safety, at Des Moines.

Mrs. Bess Porter returned home last week from a visit in Houston, Goose Creek, and other points.

Mr. and Mrs. Grady Roberts were visitors in Haskell and Stamford the first of this week.

Rev. C. E. Cogswell of Knox City was a business visitor here last Wednesday.

Ridicule of the poetical fancies of youth was stilled recently when an anthology of poetry contributed by collegians of the past and present at Texas State College for Women won praise from critics and reviewers over the state. TSCW students are now turning to their sonnets and verses with renewed enthusiasm.

Bird Respected

Sparrow And 3 Young Ones, Cause Coeds To Shun Bath

Lubbock, Texas.—Tender-hearted coeds residing in the Texas Tech women's dormitory, respect the privacy of a mother sparrow and her three little ones, who have taken up summer quarters in the window of a second-floor shower room.

Early bathers tiptoe about their morning ablutions, in order not to frighten the feathered tenants, and wait their turn at the other showers rather than use the one on which the window opens. Not until the mother bird flies out in quest of food for her family does anyone venture near.

Nothing will ever cheer you up, Buddy, if you're disappointed in love.

Oh yeah! Well, Pinkie, there ain't a dame in the world I couldn't forget when mom starts spreadin' strawberry jam on a big slice of GOLDEN KRUST BREAD.
