89 TEACHERS ARE LISTED IN KNOX SCHOOLS

Legion Post to Install Officers Tuesday Night

Birthday Feed To Be Served At Meet

An important meeting of the Lowry post of American Legion will be held on Tuesday night, October 10, at which time officers for the new year will be installed. The Legionnaires will also carry out their usual custom of having the birthday feed, those whose birthday come during this month to entertain. Ardelle Spelce, who keeps tab on birthdays, served notice on these members at the last meeting, and a good feed is expected of them.

All ex-service men, regardless of whether your membership is with the local post, are cordially invited to attend and take part in this meeting.

Newly elected officers who will be installed Tuesday night are:

Don Ferris, post commander; Louis Cartwright, first vice commander; Omar Reid, second vice commander; Ardelle Spelce, adjutant; Clay Grove, chaplain; George Hammock, service officer; Lee Haymes, finance officer; Robert Horan, sergeant-at-arms, and Dr. J. Horace Bass, child welfare chairman.

Discounts On Tax Payments Are Announced

Tax Collector Gives Information on Tax Discounts

Earl Sams, tax assessor and collector, was in town last Monday and announced discounts on tax payments if paid during October, November and December.

Mr. Sams has mailed out tax notices to citizens of the county, giving the discounts as they apply to payments made during the remainder of this year. These discounts are on state, county and common school taxes.

Full payments may be made as follows:

Payments 90 days before January 31, 1940 are entitled to 3 per cent discount on ad valorem taxes. Payments of ad valorem taxes 60 days before January 31, 1940, receive a 2 per cent discount.

Ad valorem tax payments 30 days before January 31, 1940, get a 1 per cent discount.

Discounts do not apply to poll taxes. All poll taxes must be paid with or before payment of ad valorem taxes.

Half payments may be made as follows:

First half October 1st, 1939, to November 30, 1939.

Second half by June 30th, 1940, without penalty or interest.

All poll taxes must be paid with first half.

Time for assessing property is January 1, 1940, to May 1, 1940, inclusive.

Property must be assessed and homestead exemption must be claimed before it can be allowed. Be sure to assess your property and claim your homestead exemption. The law makes this provision mandatory.

Time to register automobiles is February 1st to April 1st, 1940.

Poll taxes must be paid and exemption certificate obtained by January 31st, 1940.

Poll taxes may be paid without paying property tax.

Be sure and fill out poll tax application and swear to the same before a notary public, if remittance is made by mail.

Subsidy Checks—

Two hundred and seventy-four of the 1939 cotton subsidy checks have been received in Knox county during the past week, County Agent W. W. Rice said Wednesday.

To date 1,524 checks have been received in the county. These are for a total of \$146,677.02.

STARS OF STATE FAIR SHOWS

Among the attractions which will be seen at the 51st annual state fair of Texas, Oct. 7 to 22, are the Holy Land exhibit, Folies Bergere, the Southern Select Circus, and Veronica, one of the stars of the Folies Berger, auditorium attraction at the State Fair.

In the lower photo are the famous stars of "Tiny Town Topics," midget show on the Rabin and Cherry midway.

In the center photos are Leo, the lion, which grows at moving picture patrons, which will be one of the features of the Southern Select Circus, and Veronica, one of the stars of the Folies Berger, auditorium attraction at the State Fair.

In the lower photo are the famous stars of "Tiny Town Topics," midget show on the Rabin and Cherry midway.

Funeral For Mrs. Stubblefield Is Held Friday

Funeral services for Mrs. Amanda Stubblefield, who passed away on Thursday, September 28, at 3:00 p.m. at the home of her son, H. B. Stubblefield, were held last Friday afternoon at the Methodist church in Munday.

Mrs. Stubblefield had been in poor health for some time. She was born in Stephen, Alabama, on May 24, 1879, and died at the age of 60 years, 4 months and 4 days. She had been a resident of the county for nineteen years, and was well known to many residents here.

Mrs. Stubblefield was a member of the Methodist church, but because of her poor health she was unable to attend services here for a number of years.

Surviving are a daughter, Willie Stubblefield, and her son, H. B. Stubblefield, and his family.

Funeral services were conducted by Rev. H. A. Longino, pastor of the Methodist church, who was assisted by Rev. W. H. Albertson, Baptist pastor. Burial was in the Johnson cemetery, with the Mahan Funeral Home in charge of arrangements.

pallbearers were Mr. Cox, Fred Broach, Charles Aycock, Eugene Michels, Cecil Fitzgerald and Mr. Beecher.

Bang's Disease Tests To Be Made In This County

Government Man Will Likely Give Tests

Dr. R. L. Noyes met with a group of 35 farmers Thursday night, September 28 at the Rhineland school to explain the community plan of testing cattle for Bang's Disease. A representative group of farmers from all sections of the county were present and plans are being made to start testing areas in the near future. The testing will be started in the Rhineland Community where the majority of the farmers have already signed up requesting the testing.

Dr. Noyes explained to the group that one test was not adequate and to thoroughly clean up a badly infested herd, Bang's tests must be made every 60 days for a year, to absolutely eradicate the herd of the infection. Cows can be tested negative and another test made in 60 days will show the cow to be a bad reactor.

Similar cases are now being reported to County Agent Rice who has been assisting with the work. Anyone desirous of testing their cattle should submit their names to the County Agent's office, and if enough farmers sign up in each community, the testing will be made possible. The Department will test all the cattle in a community or the cattle in fairly large herds, stated Rice.

Farmers Should Take Insurance On 1940 Wheat

Farmers should take out wheat insurance before October 15, according to County Agent Walter Rice. Wheat insurance has taken the risk out of wheat farming, and it seems that every farmer should take out wheat insurance this year. Wheat insurance is figured in terms of bushels of wheat taking on the average of 1 1/2 bushels of wheat to insure for approximately 9 bushels of wheat of 75 per cent of the crop. If the farm has an adjusted yield of 12 bushels per acre, 75 per cent of the crop will guarantee 9 bushels. This type of insurance covers all general farm hazards, as failure due to drought, hail, fire, or any other uncontrollable cause of failure.

Miss Maxie Dingus Is Transferred

Miss Maxie Dingus, daughter of Mr. and Mrs. G. W. Dingus, who has been employed with the Texas State Employment Service in Fort Worth, was recently transferred to the Wichita Falls office. Miss Dingus visited her parents here Sunday and went from here to the Wichita Falls office, where she began her duties on Monday morning.

WATCH THE DATE!

Look at the date after your name on this week's Times. Has your subscription expired?

Our bargain rate was announced earlier than usual in order to save you 50 cents on your subscription when it expired. Today would be a mighty good time to take care of it!

Many subscribers, both new ones and old ones, are coming in and paying up for another year. Then, there's also a saving for you on your favorite daily, if you take your daily and The Times together. Better hurry!

Wins Prize

J. H. Hughes, Abilene architect, has won a \$1,000 prize for designing one of the most completely gas equipped homes in the country. He entered the American Gas Association's All-Gas Home competition conducted among architects and builders of the United States and Canada and took one of the five first prizes. The design which won the award was that of the home of M. L. Bird of Abilene, which is equipped throughout with modern gas appliances—gas range, gas refrigerator, gas water heater, gas heating equipment. Automatic gas appliances generate heat, the warm air circulating throughout the house by means of a system of ducts. While not a refrigerating system, this same plant may be used in the summer to provide a continuous circulation of air.

Fair Boosters From Haskell To Visit in Munday

A large delegation of business men from Haskell will visit here Thursday, October 12 to extend an invitation to visit the Central West Texas Fair which will be held October 18-21. The party expects to arrive about 9:30 a.m.

Accompanying the group will be Haskell Municipal Band and other entertainment features. Chesley E. Phelps will be in charge, assisted by County Judge J. C. Davis, Jr., and Walter Murchison as speakers.

The group will give a thirty minute program while in Munday.

LEGION MEMBERS GO TO FT. WORTH REUNION OF 36th DIVISION

Omar Reid, Norman Fry and R. F. Horan, all members of the local post of American Legion, left Saturday for Fort Worth where they are attending a reunion of the 36th Division, veterans of the World War.

The reunion is being held on Saturday and Sunday in Fort Worth. Reports of the reunion will probably be given at the Legionnaires' meeting Tuesday night.

2,919 Bales Are Ginned in County

The recent census report of cotton ginning in Knox county shows that 2,919 bales of cotton were ginned in Knox county from the crop of 1939 prior to September 16.

This report shows 793 short of ginnings for the same period last year, there being 3,712 bales ginned from the crop of 1938 up until the same time.

This report was sent The Times by Hoyle H. Sullins, special agent for this county.

6-Man Football Game Slated For Tuesday Night

Sunset and Vera Will Stage Battle On Scruggs Field

A 6-man football game which is expected to be a thriller for this season will be played on Scruggs Field in Munday next Tuesday night, it was announced here by N. T. Underwood, coach of the Sunset team.

Sunset will meet the Vera team on Scruggs Field, with the opening whistle sounding at eight o'clock. Admission to the game will be ten and twenty-five cents. This is a regular conference game, the teams are well matched, are new at the game, and both will put up a real fight for the victory.

Through the efforts of the Munday Lions Club this game, which was scheduled for Friday at Sunset, has been changed to Scruggs Field on Tuesday night in order that local fans may see a 6-man game. The club is bearing the expense of the lights for this game.

Mr. Underwood stated that practice for the Sunset team has been very irregular since the Sunset school dismissed for cotton picking. He expects to start regular workouts next Monday, when school opens again.

Coach Underwood will select his starting lineup Tuesday night from the following players: Shannon, H. Myers, K. Myers, Burton, Johnson, Cude, Thomas, Frost, Simmons, Jim Waldron, Joe Waldron, R. Griffith, J. Griffith, Hardin, Screws, and D. Partridge, team manager.

Novel Program Given at School On Thursday

Program is Brought to School By Munday Lions Club

A novel program of entertainment was brought to students of the Munday Public Schools Thursday of this week through the efforts of the Munday Lions Club. This program was given free of charge to all students and citizens who cared to attend.

Mr. Batten, who is with the Harley Sadler show, was presented in difficult musical oddities. He played two slide trombones at the same time, alto and tenor horns together, song whistle and mandolin together, and did many other unusual feats.

Because of the fact that many school children were unable to pay an admission price, the Lions Club voted to bear all expense of having this program presented.

The program was interspersed with tap dancing, comic songs, comedy magic and many laughable situations. It was presented at one o'clock Thursday, with all classes for this period being dismissed for the program.

Munday Library

The new public library hours are from 12 noon, until 5 p.m., instead of from 1 to 5, as was stated last week.

Also, merchants, don't forget the jars for the new books on your counters.

Five new books for boys and girls from 10 to 14 were purchased this week and will be on the shelves tomorrow. The new books are: "Teddy and the Mystery Parrot," by Goris; "Heidi Grows Up," "The Mystery of the Crooked Tree" and "Stories of Swiss Children" by Spyri.

Miss Margaret Tiner, who is attending Hardin-Simmons University in Abilene, visited her parents, Mr. and Mrs. W. V. Tiner, over the week end.

County Agent W. W. Rice of Benjamin was in Munday attending to official business Wednesday afternoon.

Supt. McGaughey Lists Teachers For Each Of the Schools

County Supt. Merick McGaughey, here from Benjamin last Tuesday, listed all of the teachers employed in the various common schools and independent schools of Knox county.

There are 89 teachers employed in Knox county, which represents all of the fourteen schools in the county. "There was a time when the schools employed more teachers," McGaughey said, "but the creation of consolidated districts, etc., has cut down the number of teachers."

Teachers listed by Mr. McGaughey are as follows:

Benjamin: W. C. Cunningham, supt.; Frances Diersen, Mrs. Corene Greer, Wendell Watson, Willie Faye Wells, Vera Evans, Mrs. Ruth Cunningham, W. D. Greer, Toby Baird and Voyle Vaughn.

Cottonwood: Edward Adams, principal; Mrs. Bessie Adams and Mrs. L. R. McMahon.

Hefner: Ernest R. Ingram, principal; Eva Jones and Mrs. Lucille Marlow.

Gilliland: S. H. Thompson, supt.; Forrest Carter, Mary Strother, Elizabeth Parris, and Mrs. S. H. Thompson.

Rhineland: John J. Hoffman, supt.; Genevieve Albus, Dorothy McGrath and Billy Fay McGraw.

Union Grove: Mrs. E. F. Branton, principal, and Lott Tanner.

Brook: Mrs. C. D. Tanner.

Dixon: Ernest R. Wright, principal; Mrs. Noel A. Brown.

Sunset: T. W. Harber, supt.; Mrs. Claude E. Reed, Mrs. J. S. Shannon, Mrs. I. W. Walling, N. T. Underwood, R. L. McLeroy, Exa Faye Hutton, John B. Ingram, Mrs. N. T. Underwood, Shirley Gray, Austin Varner and Mrs. J. B. Ingram.

Vera: Jesse G. Thompson, supt.; Roy Tomlinson, Vera Chapman, Mrs. Maurine McMurry, Mrs. Mildred McMurry, Maudie Coffee, Alice Palmer and Mrs. Helen Randolph.

Truscott: A. F. McMinn, supt.; Eileen Motley, A. D. Jameson, Warren Morton, Mrs. Fannie Mae Acker, Leah Jones and Mrs. Alice Johnston.

Munday: J. Horace Bass, supt.; L. S. Hardegree, L. M. Palmer, Howard Cobb, Kathleen Burnett, Mildred Kennedy, Mrs. J. Horace Bass, Mrs. L. M. Palmer, Mrs. Howard Garner, Dorothy Crawford, Mayne Crouch, Flora Bell Sims, Mabel Wilson is teaching in the colored school.

Gore: H. D. Arnold, supt.; J. H. Hardwell, Annette Beeman, Minta McAninch, Mrs. J. H. Bardwell, Mrs. H. L. Moore, Mrs. Aurel Shahan, Naldene Branch, Vida Nichol and Lillian Tiller.

Knox City: A. M. Whitis, supt.; L. G. Cook, Patricia Reagan, Marjorie Baker, J. Bud Farrer, Pauline Cherry, Jack Wetzell, Opal Lambright and Ruth Rice.

Mansell Bros. Has "True Value" Sale Under Way

A semi-annual event which comes to the Mansell Bros. Hardware is the National True Value Week Sale, which opened at the Munday store on Thursday. The sale will continue through Saturday, October 14.

"This is a national sales event made possible by joining forces with the best hardware retail stores from coast to coast," E. W. Harrell, manager, said, "the world's largest wholesale distributor of hardware and houseware."

"Items listed during this sale are both timely and packed with value. We invite you to check items needed for household, yard, farm and workshop. You'll save by visiting our store during National True Value Week."

Mrs. F. H. Newsom of Wichita Falls spent the week end here with her daughters, Mrs. Deaton Green and Miss Lorene Newsom. She returned home Monday afternoon.

Misses Maxine Eiland and Wilma June Burnison, who are attending Texas Tech at Lubbock, spent the week end here with home folks. Mr. and Mrs. Jess Burnison went to Lubbock after them.

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"—

WAR AND U.S. NEUTRALITY

Senator William Borah, Colonel Charles Lindbergh, and Henry Ford believe the continuation of the present "neutrality" policy of the United States is the best assurance against becoming involved in the European war. They are "isolationists" and oppose modification or repeal of the embargo provisions of the Neutrality Act of 1935. In addressing the special Congress which he summoned for the sole purpose of amending the neutrality law, President Roosevelt said, "I ask it (repeal of the embargo provisions of the Neutrality Act) because they are, in my opinion, most vitally dangerous to American neutrality, American security, and American peace." Both groups wish to avoid war.

If the leading and informed diplomatists and students of international law disagree entirely on a policy that both sides admit is of grave importance, it becomes indeed a puzzler for the common citizens of the country. Fortunately, we are able, if we have the time and inclination, to examine the essential facts and form opinions. With a view of contributing to public interest and enlightenment on the subject, I am giving a simple, brief statement of the Neutrality Act of 1935, which is the basis of our present policy, and the proposed changes.

The embargo provisions of the Neutrality Act forbid sale to any belligerent (nation at war) by American industrial concerns processed and ready-to-use implements of war. I take it that war implements are arms and ammunition and other machines which have no peacetime use. But the law permits shipments and materials which may be adapted to use in war. Other nations may carry these products and materials of industry and agriculture in their own bottoms, or American-owned and manned ships may transport them for sale to any belligerent.

President Roosevelt contends for amendments which will permit nations, including belligerents, to buy and sell to the United States such implements and materials as they wish on a cash-and-carry basis. He proposes to require foreign buyers to take transfer of title to all commodities purchased in the United States within the country and that credits no be extended, suggesting that the government make it known to American sellers that all credits are made at the seller's risk and that the government will take no steps to relieve the risk and loss.

President Roosevelt stated that the provisions of the law which now permits American merchantmen to transport commodities abroad for sale constitutes a definite danger to neutrality and peace, and we are bound to agree with this view. Once making export commodities on a cash and carry basis for nations that can take cargoes at American ports, he proposes that the government assume no risk for American ships and passengers who take passage in known war zone. He pointed out further that uncompleted implements of war may as well be finished in the United States, giving us the advantage of the additional employment.

However, the crux of the debate will probably rage around the point of whether or not the neutrality Act of 1935 is in reality a neutrality act. It is pointed out that an embargo such as now exists is contrary to age-old practice and to international law. The traditional policy of the United States and international law permit unrestricted trade. Now, in time of war, to reverse that policy is an unneutral act. It has the effect of putting land powers on the same footing with seagoing and naval powers. To put it pointedly, the system of embargoes is favorable to Germany, a great land power, as against England, a great naval power. To revert to the traditional policy and remove the embargo is sound international practice and would be to pursue ordinary trade policies in time of war as well as in peace.

The President finally made the statement that the attitude one assumes about repealing the embargo provisions as he advocates will depend upon his attitude toward the present conflict, implying: I think, that those who oppose his proposals are favorable to Germany and that those who favor them may be favorable to England and France.

Most people accept without thought or thanks the benefits they receive daily from technical progress. But let there be the slightest interruption to cause temporary inconvenience and the benefits are quickly forgotten.

Efficient machinery is quiet and unobtrusive. It does not advertise itself to the public. The "clang, clang, clang" of the anvil chorus is associated with hard work, not with mechanization.

Because of its modest, unobtrusive working methods the improved machine has been susceptible to misinterpretation, particularly by the lay public. And the more remote from the daily lives of laymen the machine happens to be, the more liable it is to be misunderstood or deliberately misinterpreted. If John Q. Public does not appreciate the day in and day out service of mechanized modern transportation, how much less does he realize his economic relation to lathes and continuous mills and broaching machines that he has never seen or heard of?—John H. Van Deventer in The Iron Age.

In the past ten years, Americans have bought six billion electric light bulbs.

A WELCOME SIGN

One possibility that has been the concern of thoughtful citizens of this republic of ours is that, in the excitement and uncertainty caused by the European war, we will neglect keeping our domestic house in order.

A cheering example pointing in the opposite direction is the news that the Smith Congressional Committee in Washington plans to go right ahead with its investigation of the National Labor Relations Board, which administers the so-called Wagner Act.

The first step is being taken now as approximately 50,000 questionnaires are being sent to business men, employees and union officials. The purpose of the questionnaire is to learn from all parties concerned their experiences with the National Labor Relations Board.

It is not certain when hearings before the five-man House Committee will get under way. Chairman Smith hopes to be able to start hearings in October but it is reported hearings may be delayed until investigators can get more deeply into the problem. There is some consideration being given to holding preliminary hearings in cities outside of Washington.

Many at the capitol who feared the turn of European events would bog down interest in the Labor Board investigation now see the emergency as making the probe more important and generating interest. In that connection, witness the wider interest in the Dies Committee probe of un-American activities since the committee related the inquiry to national defense.

Chairman Smith of the Labor committee recognized this when he told reporters: "The committee intends to speed its work in view of the European situation in order to make recommendations for correction of present labor disturbances in order that our productive capacity may not suffer in case of future emergency."

And this attitude on the part of a group which is the chosen representative of Congress is a welcome sign to the country as a whole, an evidence of a sane approach during a time of great international stress and strain.

"STAY OUT OF WAR"

American industry hates war. Its leaders and the rank and file of its membership have again and again reiterated the truth that wartime profits are largely fictitious, and do not repay the subsequent wreckage of a nation's entire economy. But with the big guns actually roaring over in Europe, it is exceedingly timely and important to have industry's attitude made plain again.

Recently the National Association of Manufacturers went on record on this subject. We can do no better than to quote highlights from its statement, merely pointing out that the N.A.M. is the largest organization of industrial leaders in this country:

"American industry wants peace," the statement declares. "Peace is the life blood of progress. Peace must be the national objective."

"Industry's position on this matter has been stated repeatedly and there is no misunderstanding about it."

"The United States can stay out of war."

"Emotionalism can betray us into war."

"A public will to peace, coupled with wise public policies and affirmative action to this end by our government will keep us out of war. A fatalistic attitude that war is inevitable is absurd. It presupposes that America cannot conduct herself intelligently to preserve peace and its own interests."

"Europe's problems do not affect us, but our domestic problems still must come first."

"If yesterday industry was the only source of prosperity and reemployment, today it is as well the keystone of preparedness and peace. Under any conditions, America must depend on a smoothly functioning, efficient industrial system."

"Manufacturers will not relax their efforts to achieve and maintain sound improvement in our domestic economy."

At any rate, in a war-torn world where so many values are being lost or obscured, industry's position is plain. And it can be summed up in four forceful words that all Americans would do well to heed: "Stay out of war!"

BUSINESS AS USUAL

NEWS ITEM: AMERICA PROCLAIMS ITS NEUTRALITY.

THEY SAY!

"Unlike geographical frontiers, the frontier of science grows wider and more vast as we push beyond it. I am confident that we are on the threshold of more and greater scientific discoveries today than at any other time in history."—Dr. Charles Allen Thomas, Director of Research, Monsanto Chemical Company.

"I have been interested from childhood in American history. I do not believe that the early American patriots had wings; but I do believe that they worked out in the Constitution of the United States the proper boundaries within which governmental activity should be kept."—O. M. Brees, Editor.

"When the income tax base, require every citizen no matter how small his income to sweat blood every March in making out a return, take something, no matter how little, directly from the income earner, and you soon will have a large proportion of the people understanding in no uncertain way that they are taxpayers."—The News, Enid, Oklahoma.

RURAL FIRE PREVENTION

The Insurance Department of the United States Chamber of Commerce recently pointed out the need for active, year-round fire prevention in all rural communities.

In urban areas, the work of fire prevention is adequately carried on by fire departments, and other civic bureaus. In many rural sections, which have not established fire departments, work of this character is almost entirely lacking. And that is largely responsible for our disgraceful total of rural fires, which take a gigantic toll of life and property each year.

A good rural fire prevention committee should include members from each township; representing all rural interests. And the committee members must realize in advance that theirs is a vital and continuous work, in which there can be no let-down. Rural areas present special and highly dangerous fire hazards. Farm buildings are usually of an extremely flammable nature. Many farmers, because of ignorance, are careless in such matters as storing supplies and keeping dry fields cut. And in the average community adequate fire fighting facilities either do not exist, or must be summoned from so great a distance that the damage is done before they can arrive.

There can be no more worthwhile work than fire prevention, whether in a little town or a great city. In this country, the direct loss by fire runs into the hundreds of millions each year, and the indirect loss undoubtedly brings the total up to the billion mark. Organized fire prevention has many great accomplishments to its credit, but it never can achieve the greatest results until there is concerted public interest and support. Now is the time to get together in the name of fire prevention—with deeds as well as words.

HEAVY LOSSES
A small boy came hurriedly down the street, halted breathlessly in front of a stranger who was walking the same direction.
"Have you lost a half a dollar?" he asked.
"Yes, yes, I believe I have!" said the stranger, feeling in his pocket.
"Have you found one?"
"Oh, no," replied the boy. "I just wanted to find out how many have been lost today. You make 55."

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACT OF CONGRESS OF AUGUST 24, 1912.

Of The Munday Times, published weekly at Munday, Texas, for October 1, 1939.
State of Texas
County of Knox, ss.

Before me, a Notary Public in and for the State and County aforesaid, personally appeared Grady G. Roberts, who, having been duly sworn according to law, deposes and says that he is the owner of The Munday Times and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, embodied in section 443, Postal Laws and Regulations, printed on the reverse of this form, to wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: Grady G. Roberts, Munday, Texas.
2. That the owner is Grady G. Roberts, Munday, Texas.
3. That the known bondholders and mortgagees, and other security holders owning or holding 1 per cent or more of total amount of bonds, mortgages, or other securities are: Mergenthaler Linotype Co., Brooklyn, N.Y.

G. GRADY G. ROBERTS, Owner
Sworn to and subscribed before me this 3rd day of October, 1939.
Harvey Lee,
(My commission expires June 1st, 1939.)

DON'T LET IT HAPPEN AGAIN!

Texas farmers and ranchmen who last year let \$3,447,310 slip through their fingers by not earning their maximum soil-building and range-building allowances are not going to make the same mistake twice.

With only three months to go before the deadline for earning 1939 allowances under the Agricultural Conservation Program, a maximum of \$12,694,000 is available as payment for soil-building and range-building work in the state. E. N. Holmgren, state AAA administrator, has announced.

Farmers in the state last year let the ranchmen run rings around them when it came to taking advantage of the assistance offered by the government in soil-building work.

In 1938 the maximum soil-building allowance for all farms in the state was \$6,617,706, but the farmers earned only \$3,675,271, or 55 per cent. The maximum for 1939 is \$6,205,000 and a much larger percentage is expected to be earned.

For range-building in 1938 the maximum which could be earned in the state was \$6,155,748, of which \$5,659,873 was earned, the ranchmen thus collecting more than 91 per cent of the maximum allowance. During the current year a maximum of \$6,489,000 is available with earnings expected to pass 95 per cent of that amount.

Soil-building allowances for farms are figured on the difference between the total cultivated acreage and the acreage devoted to cotton, wheat, and general crops with each acre worth 50 cents in the allowance. In addition, 2 cents per acre of non-crop open pasture land

Moguls Trim Rule By 38 to 7 Count

Home Fighters Win With Ease

Mogul Offense Proves Too Much for Rule

Playing the brand of football that thrilled even the most skeptic fans, the Moguls of Coaches Cooper and Garner served notice on Haskell last Friday night when they smeared the visiting Rule Bobcats to the tune of 38 to 7 on Scruggs Field. The Moguls will journey to Haskell next Friday night.

Munday sported the most powerful team ever to come out of the cotton country of Knox County. After playing a scoreless first quarter, the Moguls took things in their own hands from the opening of the second frame and kept them there during the remainder of the game.

Yancy, left half, did opening honors for the Moguls, running 20 yards for a score after the ball had been worked down in position by power plays. Thompson soon followed the example set by Yancy, and carried the ball over the goal line for a second counting, then Yancy repeated making three touchdowns in the second quarter. All advances were made on power plays.

The Bobcats rallied briefly in the third frame, a pass hurled in desperation finding its mark 30 yards down the field and resulting in a 30-yard run which chalked up a touchdown. A good extra point attempt ended the visitors' scoring.

Two pass plays hung up 12 more points to the Moguls' score, coming in the fourth quarter. One from Pippin to Thompson being good for five yards and a touchdown and

another, Patterson to Blacklock, accounted for 30 yards and a marker. Various passes were hurled by the Moguls which fell from the arms of the receivers.

Only two of the extra point attempts by the Moguls were good, one being by the aerial route.

Coaches Cooper and Garner had their first-string men in the game for only a short period, this being when the three touchdowns were scored in the second quarter. During the remainder of the game substitutes were used frequently, with practically every Mogul reserve seeing action in the game.

Thus, the Moguls scored another victory for 1939, and avenged their 26 to 7 defeat at the hands of Rule on last Thanksgiving.

Mattson Downs Vera in 6-Man Game on Friday

The Mattson Mustangs made their debut in the ranks of six-man football Friday afternoon by plastering a 45-6 score on a squad from Vera in a Brazos Valley conference game. Several hundred fans witnessed the game which was the principal afternoon feature of the dedication program of the Mattson school building.

The Mustangs took command at the outset of the game and scored in each period. A Mattson fumble paved the way for Vera's score, Robertson passing Frazier for the counter.

The lineups: Vera—Trainham and Woods, ends; Patterson, center; Frazier, Christian and Robertson, backs. Mattson—Mapes and Massey, ends, Chamberlain, center; Robertson, Newton and Couch, backs.

Mr. and Mrs. Clyde Longbotham of Guyton, Okla., visited briefly with Mrs. Longbotham's parents, Mr. and Mrs. G. W. Dingus, last Tuesday. They were enroute home from a visit in Llano, Texas.

Miss Charlene Nelson and Miss Marie Swain, who are attending business college in Wichita Falls, visited their home folks over the week end.

Sunset Wins 6-Man Game From Truscott Team

Sunset added another victory to her side of the ledger last Friday night when Coach N. T. Underwood's 6-man football team journeyed to Truscott for their first conference game. Sunset took the laurels to the tune of 19 to 0.

This was the first game of the season for Truscott, and their boys showed up good. Truscott has a promising football squad, and will show their rivals some real competition during the remainder of the season.

Sunset's starting lineup was as follows: Shannon, left end; Thomas, center; Johnson, right end; Myers, halfback; Cude, fullback, and Burton, quarter.

"Politically Speaking"

(By Jeanette Conyers)

With the war lords on rampage in Europe, we are all tense with anxiety lest they lead us into another war. I, myself, am a nurse and am subject to call as a nurse if war is forced on the U.S.A. I would not gladly go to the foreign country, but if called I'd fill that duty.

But it would be far different from nursing here in our own country. We would be in wartorn Europe, where shells and bombs would be likely to be dropped on the hospital as on any other place. We would be stripped of the glamor some folks think go with being a nurse. Oh, yes, the white uniform and cap is a badge of service, and we women would be called as were nurses in the war only twenty years ago.

I answered the call when the New London school was destroyed. I saw what had only a short time before been the bloom of young girls and boys, picked up in pieces. Into one basket went a lovely form and the breast of a young girl with the small brassiere still clinging to it. Where the rest of that young body went no one knows except to mass burial. And that is just a small thing to what our boys would face we they sent away to fall crushed and mangled by the enemy's war guns and bombs.

Our veterans hospitals here in America show how many are spending the rest of their days in wheel chairs. If there must be war, let it be on our own soil. It's the American nurse's duty to answer that call, to slip noiselessly among the dead and dying and brave the darkest halls to answer some patient's call. But let us not be forced into some far off country to watch our youths bleeding their life's blood out for some ungrateful war lord where the sod is now soaked and packed down with blood. Why send thousands more of our sons away to fall as they did before?

The world war cost us 130,000 men; it has placed 470,000 persons on national pensions; it cost us 40 billion and that represents more than just dollars. Yes, if we must go to war again let it be in our own hemisphere where we nurses can

follow up and render the aid these boys deserve and we could willingly give in our own country where they could march to the strains of "The Star Spangled Banner" . . . sweet land of liberty, for these we trained!

From seven 'till seven we tramped the halls, answering bells of the patients' calls. Morning, evening, noon and night, we did over and over, hoping it was fight.

The first three months we learned to mop; trays and stretchers we learned to glide with burning face and crushed pride.

Then our caps were handed out—that gave us courage without a doubt—We were told to smile the long days through; said the superintendent, "Juniors, Seniors, I mean

all of you." Wearing a smile with a heart that rebels, as we listen to some dying yell. Blessing the new-born babe's first breath, then closing the eyes that are stilled in death.

But when we lay down our caps to cross that bar, Oh, God won't you give us just one little star to wear with that uniform new, in that city above, where the head nurse is You!

LOCALS

Editor and Mrs. R. E. Hughes of Knox City, accompanied by Mr. Hughes' parents from Ryan, Okla., were business visitors here last Friday afternoon.

County Clerk Marvin Chamberlain and family of Benjamin attended the Munday-Rule football game here Friday night.

E. H. Gauman went to Dallas last Friday where he attended the preview of the new Ford cars for 1940. He expects to have a new Ford on display at his place next Friday.

Mr. and Mrs. E. M. Edgar and granddaughter, Tommie Jean McCarver, and Mr. and Mrs. J. L. Warrick and daughter, Evelyn Joyce, all of Wellington, spent last Sunday in the home of Mr. and Mrs. Aaron Edgar.

Boyd Carley was a business visitor in Haskell last Monday.

Mr. and Mrs. D. T. Mauldin and family of Abilene visited in the home of Mr. and Mrs. Lyle Stodghill last Sunday.

Counties Asked To Place Warning Signs On Roads

Austin, Tex.—The Texas Safety Association this week asked county commissioner courts to earmark a small portion of their forthcoming bond redemption funds for the erection of warning signs, similar to those on state maintained highways, at recognized danger spots on lateral roads.

"A statewide survey covering the first six months of this year reveals the alarming fact that fatal accidents increased 121 per cent on secondary unmarked roads over the same period in 1938, while a 9.5 per cent reduction was recorded on properly marked highways," according to George Clarke, executive secretary of the Association, who pointed these facts out in his letter to each county judge in the state.

"Obviously the county commissioners' courts are anxious to apply their pro rata share of this approximately nine million dollars to the most urgent and beneficial purposes. Expenditure of a small part of the fund for the preservation of lives and property of local motorists would return unestimable dividends to each community. This conviction of the Association is based on previous experience.

"Proof that warning signs of sharp curves, narrow bridges, intersections and other traffic hazards mean a big difference in the vehicle death rate is shown in a statistical study showing that in Texas the secondary road has a ratio of one death for each four

persons injured while the ratio on properly marked roads is only one to eight and in cities where maximum protection is provided, the death ratio drops one to thirteen," he concluded.

Mrs. L. B. Lee and son, Billy Arthur, of Wichita Falls visited Mrs. A. F. Huskinson and other relatives here last Sunday.

Mr. and Mrs. Don Ferris and Mr. and Mrs. C. E. Binnion spent last Saturday night with relatives in Sweetwater.

Mrs. Marvin Chamberlain and daughter of Benjamin were business visitors here Monday morning.

Mr. and Mrs. Arthur Lawson and children visited with relatives in Stamford last Sunday.

Miss Maxie Dingus of Fort Worth spent the week end here with her parents, Mr. and Mrs. Geo. Dingus.

Mrs. Allie Moorehouse of Benjamin was a business visitor in town Monday morning.

Coach at Truscott New Mexico Girl Marry Last Friday

Miss Alice Jeanette Sanders, daughter of Mr. and Mrs. D. H. McGuire of Tularosa, New Mexico, and Warren Morton, son of Rev. and Mrs. W. B. Morton of Millsap were married last Friday night at the home of Mr. and Mrs. Frank Cockrell of Abilene, with Rev. John W. Price, Methodist minister, reading the service.

The bride wore a dragon-fly blue sport dress with black accessories. Her corsage was of white carnations. Her sister, Edith Sanders, was her only attendant. Serving Mr. Morton as best man was Cloy Lyles.

Mrs. Morton is a sophomore student in McMurry college. She has taken active part in the Chanters, Student Council of Religious Activities, and the Art club. Mr. Morton was graduated from McMurry last spring when he majored in business administration. He was a member of the Chanters, boys' quartet, and the Ministerial Forum. He is now football coach and mathematics teacher in Truscott, where they will live.

Following the ceremony, the wedding party and guests were served dinner at the Tower. Present were Mr. and Mrs. F. V. Gates, Mr. and Mrs. Cahrell, Mr. and Mrs. A. D. Jameson, Mr. and Mrs. P. H. Marshall, Miss Sanders, Mr. Lyles, Stanley Coppage and J. C. Wilson.

Mrs. Carl Mahan of Abilene visited her mother, Mrs. E. M. Wilson, over the week end.

Mr. and Mrs. Sam Roberts of Haskell spent Sunday in the home of Mr. and Mrs. Grady Roberts.

County Supt. Merick McLaughlin of Benjamin was a business visitor here Monday.

Orivle Strickland And Miss Clarke Wed. on Sept. 27

Orivle Strickland and Miss Hallie Phine Clarke were married on Wednesday, September 27, with the bridegroom's father, Rev. O. Strickland, reading the marriage vows.

Mrs. Strickland is the daughter of Mr. and Mrs. Tom Clarke of Sunset. She is a graduate of the class of 1939 at Sunset.

Mr. Strickland is the son of Rev. and Mrs. O. Strickland of Graham. He is also a member of the 1939 graduating class at Sunset school. Both Mr. and Mrs. Strickland were popular young people during their school days at Sunset, and they have many friends who wish them lots of happiness.

They will make their home near Graham, Texas.

Hefner H.D. Club Meets Tuesday With Mrs. J. T. Murdock

The Hefner Home Demonstration Club met on Tuesday, October 3, with Mrs. J. T. Murdock. The meeting was called to order by the president, and the club prayer was said in unison.

In the business meeting, the achievement event was discussed and a committee was named to work out plans. Miss Astin made arrangements to demonstrate mattress making in the near future. All members are urged to send jars of fruits and vegetables to Benjamin to be put on display soon. Mrs. E. J. Jones reported on her trip to the Lubbock meeting of home demonstration clubs. Refreshments were served to 12 members.

Senior League Names Officers For Another Year

Last Sunday evening the Senior League of the Munday Methodist Church met for its regular meeting. After a brief devotional we had an election of officers for the following year. Lenore Longino was re-elected president, Patsy Ruth Mitchell was elected vice president, Ida Belle Sherrod was elected secretary-treasurer, Hugh Longino was elected publicity superintendent, and Evelyn McGraw elected chairman of the social committee. She chose Flora Bell Ratliff and Louise Gafford to complete the committee.

Our new sponsor, Miss Burnett, was also present. The officers met for council meeting in Miss Burnett's home last Monday night and decided to have a wiener roast Thursday.

Women's Christian Service Society Meets Monday

The Women's Christian Service Society of the Methodist church met in the parsonage last Monday afternoon in a business and social meeting. The subject for study was "Lifting Our Horizons in Fields Afar." Mrs. J. A. Caughran, Miss Shelly Lee, Mrs. F. L. Haymes and Mrs. C. H. Giddings had parts on the program.

Hostesses were Mrs. Lowe and Mrs. Longino. Cake and coffee were served.

Present were Mesdames S. A. Bowden, W. A. Baker, John Lane, Oscar Spann, C. H. Giddings, S. E. McStay, J. A. Caughran, G. W. Dingus, M. F. Billingsley, A. H. Mitchell, J. C. Borden, P. V. Williams, Lee Haymes, H. A. Pendleton, D. E. Holder, Ida Simkins, T. G. Renge and Miss Shelly Lee.

Munday Music Club Studies Folk Tunes At First Meeting

The Munday Music Club took up an interesting study of folk music at their first meeting of the year which was held last week. Miss Fannie Iabell was hostess to the club, and Mrs. John Ingram was program director.

A piano medley of Scotch, Russian and English tunes was played by Miss Mildred Kennedy, and American Indian music was illustrated by Mrs. Travis Lee, violinist. Negro and Irish folk tunes were the vocal offerings of Mrs. Don Ferris.

O. L. Jameson of Knox City was a business visitor in town on Thursday of last week.

E. W. Harrell was a business visitor in Knox City last Monday afternoon.

RIGHT OUT OF THE AIR

By EARLE FERRIS

GLAMOROUS LORETTA YOUNG below, will ring up the curtain on the new "Silver Theater" series on Sunday, Oct. 8, over CBS. As before.

This series will feature Hollywood stars in original half-hour dramas.

Chalk up another hit for Bob Ripley, the "Believe It or Not" man. This time it is through his exhibits of oddities at the San Francisco Fair and on Broadway in New York City. So appropriate is the word that several publications have taken to using "Odditorium" to describe any exhibit of oddities, in violation of a Federal Court injunction that prohibits anyone but Ripley from using the word.

Bud Abbott, pictured here, and his partner in comedy, Lou Costello, will be back on the air again with Kate Smith when the songstress returns to the CBS airwaves on Friday, Oct. 6, a new broadcast night for the Songbird of the South, who has been a Thursday standby for years.

Erno Rapee, maestro of the "Musical Playhouse," will give Oscar Bradley, music director of the "Screen Guild Theater," a baton signature in miniature by the stars of his show when the latter production replaces it on Sept. 24.

Dave Elman of "Hobby Lobby" is working on a series of lectures on improvement of spare time through intelligent use of hobbies. The material may later be incorporated into a book.

Carlton E. Morse, below, one of the most prolific writers in radio today, will be the author of two coast-to-coast programs when the serial "I Love a Mystery" becomes an NBC

red network feature on Oct. 2. His other show is "One Man's Family," which he directs as well as writes.

Jerry Mason, who plays Mr. Bodney in the radio serial "The Life and Love of Dr. Susan," will stick to walking for awhile. His car, which is a 1930 model, broke down for the first time in 85,000 miles and had to be towed into a garage. "And they said I wouldn't have any trouble with it!" moaned Jerry.

May McKim, pictured here, of the Stardusters quartet on "George Jessel's Celebrity Program," was soloist with an orchestra when she

met Curtis Furnell, married him, and settled down to a non-professional home life. But Curt, a member of the Stardusters trio, brought his group home to rehearse one night. May joined them in a number just for fun, and was at once elected a permanent member.

morton, the Capital of the Cow Country."

Complete State Fair is Assured

Dallas, Tex.—A complete State Fair—more than that—a complete Southwestern Exposition, will greet the million visitors expected by the State Fair of Texas Oct. 7 to 22.

As the opening date drew near officials announced that all exhibits were in place, livestock barns were overflowing, agricultural showings had been set, the free acts had arrived, the star production of Follies Bergere was set up, the Holy Land was in place, and the 55-car Rubin—Cherry midway was ready for the opening gong.

The State Fair this year will present more of an educational nature than ever before, and yet it has in no sense overlooked the amusement feature.

For the first time it presents the National Hereford Show. For the first time it presents a complete chemurgy exhibit, and a showing of soil-less cultivation of vegetables and plants.

It has the best shows in its history—and more free ones, including aerial acts, performing lions and elephants, Ferdinand, the educated bull, and others.

More than 140 special days have been arranged, including a day devoted to Safety, sponsored by the Texas Safety Council on October 17. Opening Day is Press Day, Future Farmers Day, Texas Chamber of Commerce Managers Day and many others.

An attendance of more than 100,000 is indicated opening day. Fifty thousand opening day keys have been sold.

FSA Blocks War Speculation In More Cash Crops

The Farm Security Administration will discourage its farmers in Knox County from speculative expansion of cash crop enterprises because of the European war, county supervisor Howard M. Williamson, said today.

"Every effort will be made, in cooperation with other representatives of the U.S. Department of Agriculture, to retain the gains which have been made during the past few years in sound land use practices," he said, reminding that uncontrolled speculation and expansion in agriculture during the last war resulted in many current agricultural evils.

The supervisor said he had been advised from Washington that there would be no change in present policies of FSA until further developments justify. "However, if the time ever comes when our needs to increase its food and feed production, FSA is ready to get into immediate action," he said. "We have the machinery already set up."

"The Farm Security Administration's system of rural credit is on a plan which is as sound in times of emergency as in normal times," he continued. "FSA loans are made on the basis of improved farm and home management plans, which include diversified farming and provide a job for every member of the family every day in the year. This is accomplished by the farm family's growing as nearly as possible all their food, all their livestock feed, and by having more than one substantial source of cash income."

Mr. and Mrs. Roy Sanders of Abilene spent the week end here with Mrs. Sanders' parents, Mr. and Mrs. H. A. Pendleton.

What a Difference A Few Fairs Make!

SAN FRANCISCO.—Bathing styles of 46 years ago (a subject reserved for whispered conversation then) are laughable when compared to today's conveniences—a fact brought out sharply by contrasting photos of the time of Chicago's Columbian Exposition in 1893, and those taken at this year's Golden Gate Exposition in San Francisco.

In the Gay Nineties, bathing was a treacherous and tedious (and weekly) process. First, a young lady had to find her way out of half a dozen assorted petticoats and chemises, and then had to grasp the sides of the cast-iron tub firmly with both hands as she cautiously eased herself into the suds. The coy maid above has no privacy—even from photographers.

One of her petticoats hangs from a convenient lamp, for the bathroom of that era had small windows—darkening the room. Neither lack of privacy, fear of the slippery soap cake or dark-

Publisher Sam Roberts of the Haskell Free Press and Ralph E. Duncan of the Haskell Chamber of Commerce were business visitors in the city Thursday morning.

Mr. and Mrs. A. L. Smith were business visitors in Hobbs, New Mexico, last Wednesday.

ness bothers today's bathers. The modern miss, pictured on the right in the Libbey-Owens-Ford glass exhibit at the 1939 Golden Gate Exposition, has the privacy and light provided by a fluted-enclosed shower, and the fixtures are so arranged that she can step under the cascading water without risk to neck or limb.

Of course, there are still more than 13,000,000 American homes that don't have bathtubs, but more than 10,500,000 of these are in rural areas where running water is not available.

In spite of its apparent deficiency, the United States has more bathtubs than any other country.

Mr. and Mrs. Jack Whitaker of Truscott were business visitors in town Tuesday. While here they were pleasant callers at The Times office.

Sheriff Louis Cartwright of Benjamin was here Tuesday on official business.

Herbert Barnes, Jr., Is Honored On His Fifth Birthday

A birthday party given by his aunt, Miss Paralee Clowdis of Wichita Falls, last Saturday afternoon honored Herbert Marshall Barnes, Jr., on his fifth birthday.

The home was decorated with big orange and black balloons. Each guest was presented with balloons and horns upon arrival. Ice cream and cookies were served.

Those present were Ruthie and Betty Lyle Stodghill, Wayne Bradford, Patricia Ann Clowdis, Sue Halmark, Julie Massey, Mary Charles Mahan, Jo Ann Harrell, Patsy Counts, Bobbie Jones, Billie Broach, Lynn Reynolds and Doyle Purifoy. Assisting the hostess were Francis Halmark, and Eliza Frances Moore.

County Judge E. L. Covey of Benjamin was a business visitor here Wednesday afternoon.

J. L. Bevers of Dallas spent Wednesday night with his parents, Mr. and Mrs. W. C. Bevers.

Mr. and Mrs. J. M. Erwin of Wichita Falls spent Wednesday here in the home of Mr. and Mrs. Jim McDonald.

Give The Cows A Real Chance

By T. C. RICHARDSON, Associate Editor
Farm & Ranch Breeder-Feeder Ass'n.

Most of the four-gallon cows are found in the classified "For Sale" columns of the daily and weekly newspapers. There's many a potential four-gallon cow growing up on Southwestern farms but a four-gallon cow is only a two-gallon cow when she is given the feed material from which to manufacture only two gallons. We have wonderful sunshine and a balmy climate in the Southwest as compared with, say New York, Michigan or Wisconsin. But sunshine doesn't fill the milk pail, any more than moonshine does. It takes food and water, plenty of it at the right time, to bring out all the milk-making faculties of the cow, here or in the north.

Once a year on July 1 the Department of Agriculture asks its thousands of volunteer crop reporters—mostly farmers—throughout the country to report the average daily production of their cows. This date in the Southwest is in the heat of midsummer, and after the flush milk flow of early summer has declined, while in the northern states the season corresponds more nearly to our May. The figures therefore, are somewhat weighted in favor of the northern states.

The sad fact remains, however, that (with the sole exception of Mississippi) Texas and Arkansas stand at the foot of the class in daily production per cow, with 10.7 pounds. Even South Carolina beats this by a fraction. Oklahoma heads the class in the Southwest with 14.1 pounds daily per cow, or about six and one-half quarts. The most significant point is that Oklahoma has raised her average about a quart per cow during the past few years, while Texas and Arkansas have raised their average daily production only half a pound, or less and a pint per cow, during the same period.

Maybe we shouldn't expect to stand up by the side of Minnesota, (23.0 pounds) Wisconsin (22.5 pounds), New York (21.4 pounds), or Oregon (20.3 pounds), but there is something radically wrong when we fall so far below North Dakota (19.7 pounds), South Dakota (16.9 pounds) and Kansas (15.7 pounds).

Don't blame it on Old Bossy until you give her a chance to "do her stuff." We have some pretty poor cows in the Southwest, but we also have a high percentage with good Jersey blood, and we have some as good as the best anywhere in the United States. But we have been much more negligent in feeding than in breeding. The majority of our cows have never had a fair chance to prove themselves, because we have not furnished them enough of the right kind of feed and water for an entire lactation period to test their capacity for production. We have condemned many a cow as a poor producer without giving her the materials with which to produce.

There are a number of dairy cow testing associations in the Southwest, and ought to be a great many more. The average herd under test in Texas produced last year about 26 pounds of butterfat per cow in May and less than 22 pounds in September, October and November, averaging about 23 pounds per month for the year. One association (Central Plains) averaged 33 pounds in May and never fell below 24 pounds in the

fall months, averaging 30 pounds for the year. It raised the average annual production per cow 16 pounds in one year, mostly by better feeding, though a few 'culls' were sold after the first year's test proved that they did not have the manufacturing capacity, even when supplied with the essential raw materials for milk and butterfat production.

This same association produced butterfat last year at an average feed cost of 13.4 cents per pound. Since home-grown feed constituted most of the feed cost, the feed was really "sold" to the cows on the farm, and hauled to town in cans. It brought two profits—one for the growing and harvesting, and one for the feeding and milking.

It does not pay to keep a five-quart cow; but it is worse to hold a ten or twelve-quart cow down to five quarts by refusing to give her the raw materials for her full capacity.

Many Farmers Sell Cotton At Local Market

A comparatively large number of bales continue to be handled thru the one-variety cotton pool. Sales are made daily and range from 190 to 250 bales, according to Ray Kelly, manager of the market. Practically all farmers selling cotton through the pool appear to be well satisfied with the operations of their market. The large number of buyers at the sales and the prices being obtained indicate a good demand for the Acala cotton.

Some of the farmers selling cotton through the Munday pool include: T. R. Busby, Robert M. Myers, J. R. King, H. M. Michel, L. B. Patterson, J. T. Voss, Mrs. Nell Hardin, Eugene Michel, R. C. Partidge, Roe Myers, Otis Simpson, John Reneau, Omar Reid, W. A. Floyd, Steve Pribla, R. J. Walling, August Schumacher, Mrs. W. S. Ledbetter, S. J. Warren, J. A. Hill, Joe Koenig, Wallace Reid, Clyde Nelson, Johnnie Michel, A. J. Bunts, Emmett Partridge, W. A. Jungman, R. L. Gaines, Clay Grove, John Schumacher, C. W. Lee, Johnnie Morris, G. C. Finley, J. C. Seaton, Alvin Reid, Mrs. J. A. T. Parks, Earl McNeill, Joe Motl, Emil Marik, Mrs. J. W. Davis, A. W. Griffin, J. F. L. Lindsey, Weldon Floyd, Fred Stengel, Bob McGreggor, B. C. Lawrence, B. R. Holders, C. R. Hendrix, Mrs. Effic Guley, Manse McElroy, Loyd M. Patterson, J. S. Shannon, P. F. Fin-cannon, Walter Herring, Vernal Burnison, Fayette Hardin and G. T. Floyd.

Some of the cotton shippers and exporters having buyers at the cotton sales are: McFadden Cotton Co., Houston; H. Kempner, Galveston; R. L. Dixon, Dallas; Anderson Clayton, Houston; E. M. Wilson Cotton Co., Houston; Bartz and Co., Dallas; Rogers Cotton Co., Houston; Cook and Co., Memphis, Tenn.; A. Lasberg and Co., Austin; J. Kahn, Dallas; M. Hohenberg, Galveston, and Helmbrecht, Galveston.

Mrs. Wes Marr of Knox City was a business visitor in town last Friday.

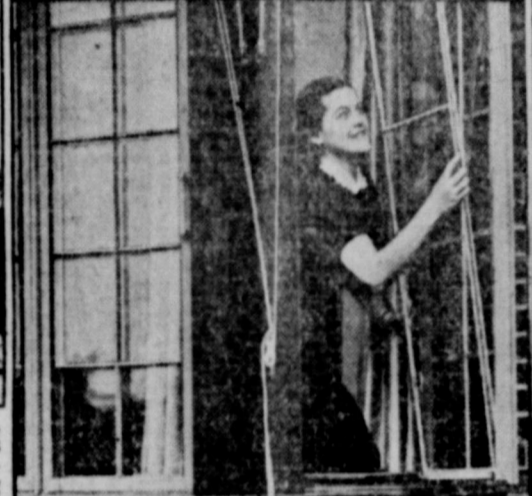

People and Spots in the Late News

UNMISTAKABLE . . . With Stars and Stripes as well as huge name identification painted on sides, Liner Manhattan took no chances on being mistaken for belligerent's ship as she left New York harbor to cross sea and help evacuate American citizens from war-torn Europe.

HALF-TONNA TUNA . . . New world record was claimed by J. Frank Johnson of Whitestone, Long Island, when he captured this 866-pound bluefin after 2-hour, 27-minute battle off Nova Scotia. It was 10 feet 6 inches long, had a girth of 6 feet 10, and was four pounds heavier than previous record catch, by Alfred Kenny.

SET FOR WINTER . . . With Uncle Sam's citizens spending half-billion dollars on winter preparedness for homes and cars, this young lady is doing her share to balance family budget by "conditioning" windows with modern storm sash which, according to national survey by heating experts, cuts fuel bills 20 to 30 per cent by forming cap-tive air wall of insulation.

LITTLE WAIST HERE . . . Strikingly typical, if not extreme example, of new fall wasp-waist mode in evening gowns is this number combining "stuffed-brown" taffeta and black velvet. The lady is wearing a matching snood and carrying a small black velvet jacket.

SUGAR-COATED LES-SON . . . Dramatizing National Consumers Tax Commission's message, at first national conference in New York, that 56.2 per cent of all local, state and national taxes are "indirect" burdens on consumer was huge cake, on which Estelle Williams of Chicago helps chef put some finishing touches.

TWO-WAR BABY . . . Two-year-old Judith Ann Acker is shown arriving in United States from France, a fugitive from two wars. The daughter of Lieut. Frank C. Acker, U. S. N., she was born in Tsingtao, China, scene of Sino-Jap hostilities, and was with her parents at Tours, France, at outbreak of current war.

SANTA FE CARLOADINGS

The Santa Fe System carloadings for the week ending Sept. 30, 1939 were 23,434 as compared with 21,409 for the same week in 1938. Received from connections were 6,569 as compared with 6,131 for the same week in 1938. Total cars moved with 30,003 as compared with 27,540 for the same week in 1938. The Santa Fe handled a total of 29,992 cars during the preceding week of this year.

Mr. and Mrs. Ira Bowden of Baltimore, Maryland, came in Wednesday for a visit with Mr. Bowden's parents, Mr. and Mrs. E. B. Bowden, and other relatives.

Mr. and Mrs. Deaton Green and Mrs. F. H. Newsum attended the funeral of Mr. Goode in Goree last Monday.

Mrs. Sebern Jones, Mrs. D. C. Eiland, Mrs. A. L. Smith and Mrs. Jim McDonald were visitors in Wichita Falls last Friday.

Weekly Health Letter!

Issued by Dr. Geo. W. Cox,
M.D., State Health Officer
of Texas

Austin, Texas.—On September 1, 1939 statistics from the State Health Department showed that 34 per cent of the population of Texas, or 2,144,536 persons, were being protected against communicable diseases through the functions of full-time county and city health departments in 23 counties and 2 cities independent of the counties. These local health units carry out a well-balanced public health program to keep the well person well, and to further safeguard the health of individuals by reducing to a minimum the various communicable diseases rendered combatable by modern public health methods.

Public health, over a score of years, has rendered combatable such diseases as typhoid, diphtheria, smallpox, malaria, undulant fever, tularemia, yellow fever, trichinosis, hookworm, the dysenteries, and the venereal diseases. The health of any geographically defined area, i.e., city or county, is in direct proportion to the amount of energy and money judiciously and scientifically expended for the protection of the health of the people of that area.

Twenty-six additional counties, with a population of 476,300, are protecting the health of their respective communities by a partial full-time health service wherein nurses, trained in public health, work in collaboration with the local part-time health officials and the medical profession under the guidance of the State Health Department.

Thus, through full-time county health units and nursing services 42 per cent of the population of the State in 49 densely populated counties, and 2 cities exclusive of counties, are protecting the health of their commonwealth with the most up-to-date public health practices available. There remains 58 per cent of the total Texas population, scattered over 205 counties, unprotected against diseases through any function of local health departments.

It has also been demonstrated in other states that in such counties, due, both to relative uncongenial population, and for economic reasons, cooperative health departments set up for two or more counties

will give the benefits of health work commensurate with other counties, at a relatively cheaper cost.

Establishment of local health departments in Texas' counties and cities, in collaboration with the State Health Department, the United States Public Health Service, and the Children's Bureau of the Department of Labor, has expanded over 300 per cent since 1936.

The standard personnel of a local health department includes a director, a nurse, and a sanitary engineer, all trained in public health, and a clerical force, to adequately supervise in the county the public health activities comprising communicable disease control, maternal hygiene, infant hygiene, pre-school hygiene, school hygiene, sanitation of water, sewage, food, milk, and school systems, special programs adapted to the health problems of the locale, and work in tuberculosis and venereal disease control.

Persons and groups interested in securing such health protection for their counties are requested to write the State Health Department for further information on the county health unit plan as operative in Texas.

HEFNER NEWS

Hefner school opened Monday morning with 51 pupils enrolled. Teachers are Mr. Ernest Ingram, Mrs. J. Marlow and Mrs. Elkin Warren.

The McNeill gin is kept busy ginning cotton.

There has been a singsong started here for the singers of this community, on Sunday nights.

Mrs. John Lambeth was called to Canadian to the bedside of her mother, Mrs. Overton. She went to Canadian last week.

Mr. and Mrs. E. J. Jones have as guests Mr. and Mrs. Leon E. Eubank of Breckenridge, their old schoolmates of the '80's, during their childhood in Newton, Mass.

ON SELFISHNESS

Of all the vices which degrade the human character, selfishness is the most odious and contemptible. An undue love of self leads to the most monstrous crimes and occasions the greatest misfortunes in both States and Families. As a selfish man will impoverish his family and often bring them to ruin; so a selfish king brings ruin on his people and often plunges them into war.

Example: The selfishness of Achilles, as remarked by the poet Homer, occasioned a thousand woes to the Greeks. The selfishness of the late Napoleon Bonaparte occasioned innumerable wars in Europe, and caused him to perish himself, on a miserable island—that of Saint Helena in the Atlantic Ocean.

We see by these examples that we are not to consult our own interest and ambition, but we are to consider the interests of others as well.

A warning: When you slave and sacrifice for your children, denying them no whim, you call it unselfishness. But your unselfishness is developing its exact opposite in them—selfishness. They'll ride you with a whip hand all your life because you permit it.

Selfishness may be added to the list of anti-social characteristics. No matter where he goes this person is bound to be unpopular. He is always and forever thinking of his own wishes and desires. The thought, what can I do to make some one else happy, to make things easier for the other fellow, never enters his mind. The person who looks for self advantage before jumping is never sought after.

The ability to feel for and with others is an extremely important social trait. In the case of older and younger children there are always opportunities for the development of this trait. The older child is constantly told to give in to the younger one, is urged to be unselfish, to appreciate that the younger one does not "know any better." While this policy develops in the older one certain altruistic tenden-

cies, we must be very much concerned about what happens to the younger child. He must not acquire selfishness by demanding attention in order to develop generosity in his brother.

The other fellow's pasture is always greener—and his social and personality faults are always a little more inexcusable than our own. Perhaps you have decided that the subject of this writing is not one of your had characteristics. Very well, so much the better for you. However, it will do no harm to ask yourself the question, "What do my neighbors and friends think of me?" Do a little self-analysis if you can make up your mind to be self-observant and patient.

It is my opinion that the best way of all is simply to sit down quietly at a time when you know you will not be disturbed, and think of yourself as another person, criticizing your various acts and habitual motions and attitudes.

Watch yourself at all times, when you meet and are with another person. Then re-live each act and motion. In other words, you will come to recognize yourself as you really are, which is the first step toward self-improvement.

Do not be surprised if at the end of this analysis you have reached the conclusion that you do need a little self-improvement.

Why not make a strong resolution to do this and strengthen it by as many sound reasons as you can think of? Do not permit any exception until the new habit is firmly fixed. Reaffirm your resolution from time to time, marshaling new reasons in support of it. Make yourself a sticker for all the world loves a sticker.

SOPHOMORE REPORT

For the second time since the beginning of school, the sophomores had a class meeting this past week. Among the topics discussed, the most promising one was the decision of our Halloween booth.

We are all eagerly looking forward to this.

The melancholy happenings of

Falls Mile Through 'Pea Soup' Fog Into River—Fishermen Save Him

Penacosta, Fla., Air Field Where Flight Began and (Inset) Aviation Cadet C. W. Harbert.

OUT of gasoline 5,000 feet up in a pea soup fog, C. W. Harbert, aviation cadet, of Bristol, West Virginia, bailed out blind in his parachute and plunged down into the ocean of a wide river. Marooned on deep water on all sides, with the shoreline lost in darkness and fog, Harbert managed to keep himself afloat until passing fishermen spotted the beam of his flashlight and rescued him.

Harbert had taken off from Penacosta, Florida, on a night training flight in a single-seater fighting plane. Although flying conditions were good when he started, on the return trip a heavy fog rolled in from the ocean, completely blocking out the flying field.

Under such conditions, Harbert explained, it was too dangerous to attempt a landing. "There was only one thing to do," he said, "I had to bail out in that fog without knowing where I'd come down!"

"Heading for open country, I circled at 5,000 feet until the gasoline was gone. I couldn't tell what was below me, but I jammed the stick

forward and jumped. It was then or never.

"Instead of landing safely on the ground I came down in water. I got a thorough dunking, but managed to stay free of the parachute and was able to keep floating. I didn't know exactly where I was and couldn't tell which way the shore lay.

"The only thing I had with me was a flashlight. Though it was soaked, it still worked. I didn't know how long I'd have to use it, but at least the batteries were fresh, and I knew they'd last. Believe me, that was about the only comforting thought I had at the time.

"I had no idea how long I was out there in that water, but it seemed like hours. I kept the light burning all the time, though it didn't seem likely that anyone could spot it through that fog."

When he had almost given up, Harbert said, two fishermen happened to see his signal light. Coming to him, they pulled him into their boat. After being treated for exposure, he returned to his flight base.

the past week were a few quizzes daily. But despite the burdens of this, the sophomores have succeeded in doing some impressive work.

JUNIOR REPORT

Class is here again, and as usual busy. We are planning our booth for the Halloween Carnival and is it good? Come one, come all, and see the "Junior Striptease" artists perform.

Perhaps by the time Red, William, Ray and a few others get to be Juniors, they will know better than to go courtin', at least where Mr. Benson can see them.

Dr. Bass was absent one and one-half days because of a case of "flu," but he is back in school again, we are glad to report.

Goodbye—we'll be seeing you in Haskell Friday night when the Moguls fight the Indians.

FRESHMAN NEWS

We are rather crestfallen, as we had a test today in math and one yesterday in English.

The girls in homemaking have started sewing. We have been studying personalities.

On every collar you can now see a football. The pep squad has been selling them. The freshman class has increased lately. We have three new pupils. Our low grades are all on account of that band practicing every day right below the study hall.

All our problems are solved this time. We don't wonder about a single thing.

NEW TEACHERS IN MUNDAY HIGH

Introducing: Mr. Billy Benson, of Fort Worth, Texas.

Mr. Benson is the science and general math teacher of high school. He is short, brunette, nicely built, and deserving of the title someone gave him of "Little Napoleon."

He attended A. and M. College and N.T.S.T.C. at Denton, where he received his degree. His scholastic rating was high enough that he was laboratory instructor in the science department at Denton. Other than that this is his first teaching experience, but we we feel sure that Mr. Benson will be a success as a teacher. He has a very nice personality and a good knowledge of science.

This is all the information we could get from Mr. Benson, but we feel certain that, should you ask

Mr. Benson, she might be able to tell more about his past.

SPORTS NEWS

What did I tell you? The Moguls did defeat Rule. Hard fighting, team work, and some excellent coaching was revealed in that game.

We hope to see the same, or better qualifications for winning a game this coming Friday night when we play the Haskell Indians. We know that the boys are going to do their best and that they are going to make Haskell think they have had hold of something when the game is over next Friday night.

The band and pep squad have been working and practicing hard on formations, and after several attempts, they finally learned how it is done. They are doing fine with the formations at the football games and with the band playing and pep squad cheering, we find that this pep the boys up immensely. Maybe that's why we're winning all these games. Anyway, if it is, or if it isn't, we know they are going to keep on doing their best at all times.

Miss Couch may expel some some of the English students for saying this little rhyme but anyway it expresses our idea:

My love has flew,
 He done me dirt,
 How were me to know
 Him was a fiert?
 To those in love let I forbid
 Lett they be dead like I
 been did.

BILL WHITE, Auctioneer

TEXAS OUT-OF-DOORS

Austin, Tex.—(Special).—White-winged doves, apparently headed for destruction a few years ago, have beat back to such an extent that it is estimated 4,000 hunters took more than 50,000 in one county the first week of the open season, according to reports received by the Texas Game, Fish and Oyster Commission's executive secretary.

White winged doves are in excellent shape throughout the South and Southwest Texas and Willacy county's report of 50,000 birds being killed in two days is an excellent example of the sport in Texas this year. White wings provide more difficult shooting than mourning doves. Airplanes, motor cars, and trains are carrying large parties to Southwest and South Texas. The season remains open there until November 15.

Grand juries throughout the State, conscious of the increasing interest in the preservation and propagation of Texas' game and fish, are cooperating with the Game Department to a higher degree than ever before. The latest action taken was by a grand jury at Groesbeck, which instructed officers in that area to cooperate with the Department in preventing the dynamiting of fish. Constable J.

C. Clayton has all his forces assisting in game and fish law enforcement.

Judges, too, realizing that game law enforcement, as well as propagation work, is vitally important if Texas is to continue to be one of the leading hunting and fishing States in the Union, are handing out stiff fines for violations. Ten non-resident hunters recently paid \$50 each in Cass county. Two Bexar county men were each fined \$75 for illegally importing game into Texas. A Knox county man found it cost him \$100 to serve elk meat out of season.

It is not definitely known how fast doves can fly, but one killed near Dalhart recently while traveling at an amazing rate that when it catapulted to the ground its breast was split wide open.

A mother quail has been trying for weeks in McMullen county to regain a banty chick it hatched along with several bobwhites.

The quail nested three yards from the front porch of a house on the Byrne ranch. She hatched a bantam chick and nine quail and then left the nest with her brood of five eggs unhatched.

When the owner of the ranch found the bantam chick would not follow its foster parent he took it to the house to raise. Every day since then the mother quail has come up to the edge of the porch, calling and fussing, trying to regain what she considered her chick.

Texas is leading the entire nation in game restoration work through use of Pittman-Robertson federal funds. J. Paul Miller of Washington, D.C., biologist in charge of research for P.R. projects, said while in Texas recently.

Five states, Missouri, Oklahoma, Oregon, Virginia, and Mississippi, are following the Texas plan of operation in some form or another and indications are a dozen more will be using the Texas program within a few months, the executive secretary of the Game Department said.

"The entire nation is watching Texas' game restoration program," Mr. Miller said. "It has grown rapidly along the right lines and has produced such good results that we can expect many other states to adopt the Lone Star State's program soon."

A Beaumont woman recently found killing birds with a 22 rifle for the purpose of feeding her cat rather expensive. Apprehended by the game warden stationed at Beaumont on a county road, the woman admitted she was shooting birds to provide food for her cat. She also admitted that the \$36 in fine and costs she paid would have bought a lot of cat food from the proper butcher. She was violating three laws at one time, i.e., shooting from a motor car, shooting from a public road, and killing birds protected by State law.

Teacher: "What do you know about Atlas?"
 Student: "He was the world's greatest gangster."
 Teacher: "Gangster? Where did you get that idea?"
 Student: "The history book says he held up the world."

A farmer ran in to tell a neighbor that his wife had suddenly gone insane. "I don't know where she could have caught that insanity germ," he added. "She ain't been outside our kitchen for 25 years."

A man was fumbling at his keyhole in the wee hours of the morning. A policeman saw the difficulty and came to the rescue.

"Can I help you find the keyhole, sir?" he asked.

"Thash all right, old man," said the other cheerily. "you just hold the housh and I can manage."

FASHION PREVIEW

THIS very young career woman of the future, marches to classes in a tapestry-twined, checked wool suit, with a boxy jacket and an eight-gored skirt. The Peter Pan velvet collar sets off the suit smartly. Good Housekeeping features this charming youthful fashion in the September issue.

Dr. Bass says: "The girl that is easy to woo isn't worth courting and wooing. Cheap things are always bought at a low price."

CARD OF THANKS

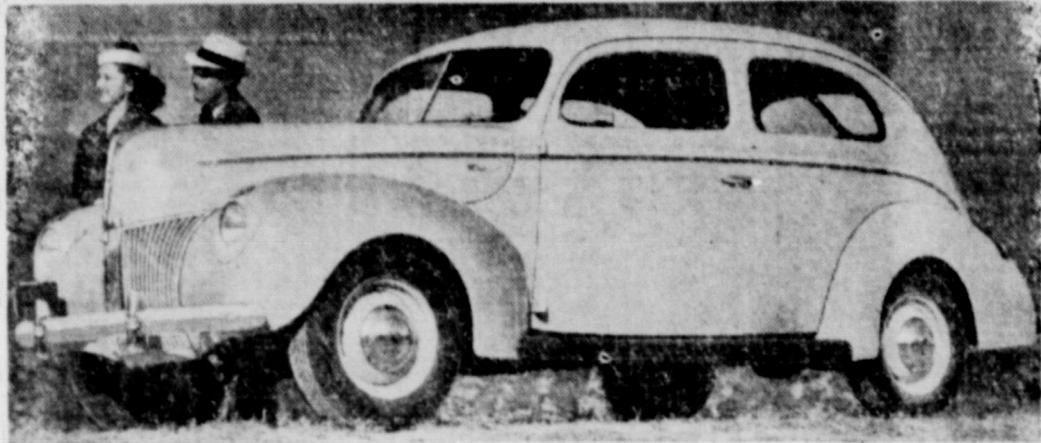

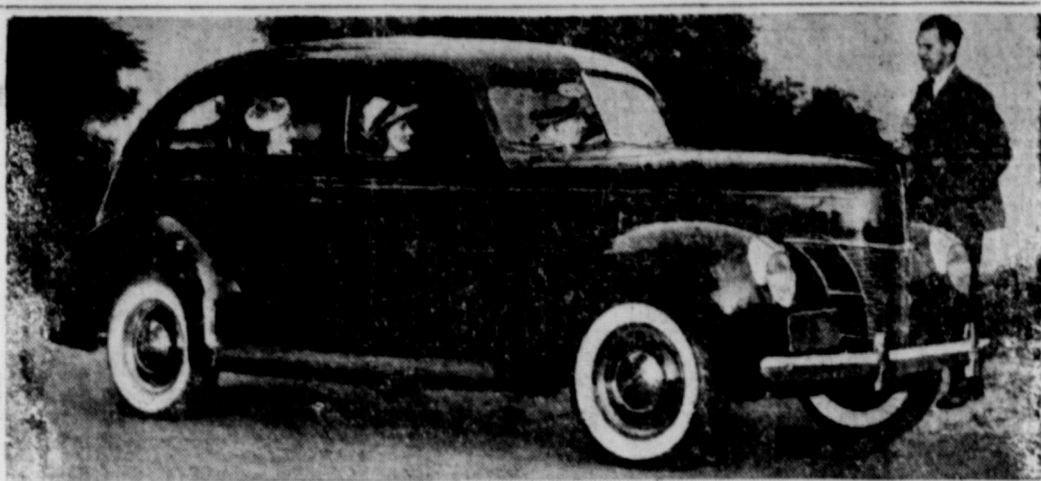

We take this means of expressing our sincerest thanks to those who were so kind and thoughtful during the illness and in the death of our beloved mother, Mrs. Amanda Stubblefield.

Our hope is that when sorrow comes your way, you will be blessed with such true and loyal friends as has been our privilege in our time of deepest sorrow.

H. B. Stubblefield and family
Willie Stubblefield.

Boyd Carley was a business visitor in Abilene last Tuesday.

Two Ford V-8 Cars for 1940 Presented

HERE are the two Ford V-8 cars presented for 1940. One is a Ford V-8 and the other a deluxe Ford V-8. Top, the deluxe Ford V-8 Fordor sedan; below, the Ford V-8 Tudor sedan. Both are big cars with graceful lines. Emphasis in interior styling is on fine appointments. Among numerous important features

are a finger-tip gearshift on the steering column, a new controlled ventilation system and Sealed-Beam headlights for safer night driving. Two V-8 engines are available, at 85 horsepower in the deluxe, the 85 horsepower or a 60 horsepower engine in the Ford V-8 models. Cars with 85 horsepower

engine have improved spring suspension and a torsion bar ride-stabilizer. Four Ford V-8 and five deluxe body types comprise the two lines. A new business coupe as well as a coupe, Tudor sedan and Fordor sedan are available in both. There is also a deluxe convertible club coupe with automatic top standard equipment.

Lions Of Area To Meet Here On November 14th

Local Club to be Host At Zone Meeting

Members of the Munday Lions Club, in regular meeting Wednesday at noon, voted to entertain Lions of this zone in their second zone meeting, which will be held on November 14th.

Lion Lee Haymes, president of the club, invited the next meeting to Munday when the Seymour Club entertained several weeks ago. An entertaining program will be arranged between now and the date for this meeting.

Clubs in the zone are: Seymour, Olney, Haskell, Knox City and Munday.

November 14th was set by the local club upon request of Lion C. E. Cogswell of Knox City, zone chairman, who asked that the meeting be held not earlier than November 14 because he would be busy in a revival meeting.

Some 75 or more Lions are expected to come to Munday on the evening of November 14 for this meeting.

Mrs. Grady Roberts and Mrs. Carl Jungman were visitors in Haskell last Monday afternoon.

Grover Jones, "the Mayor of Rouston City" was a visitor in the city Thursday. While here he called at the Times office and renewed his subscription to The Times.

Haskell Fair To Open Wednesday, October 18th

Haskell, Texas.—With \$1,200 in cash awards posted for exhibits of agricultural products, livestock entries at the Central West Texas Fair here October 18-21, exhibits in these departments are expected to surpass any previous showing.

The fair will officially open Wednesday, Oct. 18 at 1 o'clock, with a mammoth parade of decorated floats and cars, merchants' entries, school bands, and pep squads, and young women sponsors from a score of West Texas towns and cities.

Entertainment features booked for the four-days exposition include carnival shows and attractions, automobile and horse races, football, dances and a gigantic fireworks display, said to be the biggest ever staged in West Texas.

Highlighting the first days of the fair will be the coronation of "Miss Central West Texas" who will reign as Queen of the 1939 Fair. Music for the colorful pageant will be furnished by Jack Am-lung and his Crazy Hotel Orchestra. Climaxing the coronation ceremony will be an old-fashioned "Barn Dance."

Spotlight on Thursday will be turned to Fair Park race track for an afternoon race program, followed with the fireworks display Tuesday night.

Races will again be staged Friday and Saturday afternoons. On Friday night, the Haskell Indians and Anson Tigers will meet in District 10-A conference play.

Jerry Kane Is Named President Of Tech Class

Jerry Kane, arts and sciences student at Texas Technological College, has been elected president of the freshman class, according to an announcement which came from the college Wednesday.

Jerry is the son of Mr. and Mrs. Jerome K. Kane of Weinert. For some time after his graduation from high school, he was employed at Baker McCarty Dry Goods. He has part time employment at Hemphill-Wells in Lubbock while he is attending school.

Miss Edna Leubetter received a message Sunday night informing her of the death of her fiance, Mr. Gordon B. Grimes, 1016 Ridgley Avenue, Fairmont, West Virginia. Mr. Grimes died on September 28.

The following is an account of Mr. Grimes' death, and is a clipping which was sent to Miss Leubetter by his brother:

Funeral services for Gordon B. Grimes, 51, who died at noon Saturday in the home of his brother, Glenn H. Grimes, in 1016 Ripley avenue, will be held at 7:30 o'clock tonight in the residence. Tomorrow morning the body will be taken to Pierceton, Ind., for burial.

Mrs. Ben Farmer of Knox City was a business visitor here last Friday.

Girl Scout News

We re-organized Girl Scouts last Tuesday. We have a lot of new members, and hope they will enjoy the work as much as we do. The new girls scouts are:

Noralene Moylette, Joan Chamberlain, Martha Ann Reynolds, Din-zle Davis and Elma Lowe. If there were any left out, we will try to get you in next time.

Those who were in Girl Scouts last year are: Marian Roberts, Latreace Johnson, Janie Sue Haynie, Sue Batron, Joyce Spelce and Bernice Douglas.

We gave the new scouts a play last Tuesday and gave them the rules, motto and what they had to learn. Mrs. Lowe and Mrs. Davis came to the meeting.

Miss Crawford is scout leader. Latreace Johnson is leader of the Irish patrol and Sue Barton the Yucca patrol. Treasurer is Latreace Johnson and Bernice Douglas is scribe.

Professor: "Oxygen is essential to all animal existence. There can be no life without it. Yet, strange to say, it was discovered only a little more than a century ago."

Student: "What did they do before it was discovered, Professor?"

SANTA FE CARLOADINGS

The Santa Fe System carloadings for the week ending Sept. 23, 1939 were 23,157 as compared with 21,122 for the same week in 1938. Received from connections were 6,835 as compared with 5,514 for the same week in 1938. The total cars moved were 29,992 as compared with 26,636 for the same week in 1938. Santa Fe handled a total of 29,958 cars during the preceding week of this year.

Charlie Moorehouse of Benjamin and Mr. Farmere of Megargel were visitors in town last Sunday.

Connally Will Make Radio Talk Friday Night

United States Senator Tom Connally of Texas, one of the three members of the Senate Foreign Relations Committee who drafted proposed strengthening of neutrality legislation pending before the special session of Congress, will speak on this subject over a National Broadcasting Company radio hook-up from Washington at 9:15 Texas time, Friday night, October 6th.

Senator Connally has been closely identified with suggested changes in present legislation on the subject from its inception, having been called to the White House for a conference with President Roosevelt soon after reaching the capital from Texas. Several days following were devoted by Senator Connally, with Senator Key Pittman, Committee chairman, and Senator Elbert Thomas of Utah, to preparation of the measure reported out by the committee.

Senator Connally's views on the bill have been eagerly followed in view of the leading part he is playing in its sponsorship in the debates on the floor of the Senate.

Senator Connally was one of the several Senators participating in the opening program of the American Forum over the Mutual Broadcasting System's coast-to-coast network Sunday night, October 1, the subject being "The Neutrality Bill."

Mrs. Lawrence Kimsey was a visitor in Fort Worth over the week end.

Mrs. D. E. Holder and son, D. E., Jr., visited relatives in Abilene last Wednesday.

Otis Burnett was a business visitor in Hobbs, New Mexico the first of this week.

Millions Paid Farmers In The Parity Checks

Texas cotton farmers, who are getting their 1939 price adjustment checks at an exceptionally fast clip, are reaping the fruit of simplicity.

B. F. Vance, assistant state administrator, said more than \$7,521,454 in 1939 cotton payments has been certified for payment in the last 3 weeks, and that most of the remaining 13 million dollars due of this series of checks in the state probably will be paid by the middle of October if the present rate of disbursement keeps up.

More than 12 million dollars has been paid out to date in the 1939 cotton price adjustment program. Main factor in the speedy service, Vance explained, is the use of an exceptionally simple application-for-payment form. It records what the farmer has done to qualify for payment.

As many as 8,500 of these forms have been audited and certified here in a single day, and rarely has an application spent more than 3 days in the state office before going to the disbursing agency in Dallas, Vance said.

"The accuracy which has characterized the work in county offices has been very helpful," Vance said. "And of course the simple application form would not have been possible had there been any fundamental changes in the farm program, from 1937 to '39, as there had been from year to year during the program's previous history."

Baptists Hold Association Meet

The Haskell Association of Baptists churches held its annual meeting Wednesday and Thursday of this week, with the First Baptist Church of Munday being host

to the group. Seventeen of the 23 churches in the association were represented. Good attendance was had at each service of the two days. A more complete story of the meeting will be carried in next week's issue of The Times.

Miss Elizabeth Shannon of the Sunset community is teaching at Van Horn, Texas, this year.

I could do that too, if I was as little as that little shrimp. He'd grow up to be man-sized if he'd start eating
