Number 16

## Good Neighbor Policy Of Farmers Union Is Started

### Peter Loran To Give Crop To Needy As Local Move

A move toward putting the "Good Neighbor Policy" into effect was started recently by Peter Loran, state president of the Farmers Union of Texas.

At the San Antonio meeting which was held a few months ago, Mr. Loran advocated giving land patches to needy families as a means of letting them provide a garden spot, etc., to help them make a livelihood. This policy, though sponsored by the Farmers Union, has been termed a worthy project, and the West Texas Chamber of Commerce has been asked to cooperate in putting the plan into effect.

Going still further in practicing the good neighbor policy, Mr. Loran has offered eight rows on his farm which may be planted in either sudan, sorghum, or feterita, which are soil conserving crops. "Since the needy family will not have teams," Loran said, "I will go in there and work his eight rows along with my crop, planting and plowing it but the neighbor will

have to hoe it if needed. I in turn will give him everything these eight rows produce." Loran pointed out that he and other farmers could afford to do this, because they would get their soil conservation payments on the land so long as the requirements were met by not planting soil depleting crops. In this way, he said, farmers would be helping "their neighbors" and at the same time it wouldn't be costing them anything except the time it takes to plow these rows along with their other crops.

All those who wish to follow the example set by Mr. Loran are requested to leave their names with Judge G. M. Bryan at the city hall. Those desiring to secure rows of crops also register with Judge Bryan and at a later date a meeting will be held to determine just how the land will be given. Judge Bryan will keep a list of those donating land as well as one of those needing the crops from such land.

This is in line with the Farmers Union slogan for their good neighbor policy, which is: "Move over, neighbor, and give some room for your fellow man."

## Harrell To Go To Waterworks Meet in Dallas

City Secretary Riley B. Harrell will leave next Sunday for Dallas, where he will attend the 26th annual convention, southwest section of the American Waterworks Association.

Mr. Harrell will represent the City of Munday at this convention, which will be held October 16 through the 19th, at the Adolphus Hotel in Dallas.

Mrs. Harrell and little daughter will accompany him to Fort Worth where they will visit with Mrs. Harrell's mother.

## Rev. Bowen Has Pastors As His Guests at Lunch

All Methodist pastors of the Stamford district were guests of Rev. and Mrs. E. B. Bowen last Tuesday for lunch at the district parsonage in Stamford. Since the churches are nearing the close of another conference year, the pastors are invited for a friendship meeting and talk over plans for closing the church year.

It is likely that this will be the last year in which Rev. Bowen will serve as presiding elder, since he is completing his fourth year in the Stamford district.

Coming as a surprise to the presiding elder and his wife, the pastors and their wives presented them with very beautiful gifts. Mrs. Bowen received a quilt bearing the names of all pastors of the district, and Rev. Bowen was presented a beautiful wrist watch. These were in token of the esteem which the pastors and their wives hold for the presiding elder and his companion.

## Mrs. W. E. Braly On Trip to New York And Cincinnati

Mrs. W. E. Braly left on Tuesday of last week for New York where she will attend the world's fair.

She accompanied her brother-in-law and sister, Mr. and Mrs. T. L. Fore and family of Happy, Texas, and her brother, Albert Collier of Graham. When they left Tuesday they had planned to go by way of Cincinnati to see the world's series baseball games, then on the New York. They plan to be gone about ten days.

## BIRTH ANNOUNCEMENT

Mr. and Mrs. Cline Patterson of Hamlin are the parents of a 7-pound girl, born on Wednesday, October 4th. Mrs. Patterson is the daughter of Mr. and Mrs. Otis Simpson. Mrs. Simpson has been with her daughter for the past ten days and will return home the latter part of this week. Both mother and daughter are reported doing nicely.

## Goes To Abilene

Boyd Carley, above, agent of the Texas Life Insurance Co., in this territory, has been transferred to the district office in Abilene. He will leave Saturday to take up his official duties there.

## Standard Rural Loans to be Made In Knox County

Applications are now being taken for Standard Rural Rehabilitation loans for 1940 according to Howard M. Williamson, Rural Supervisor, Knox County, Texas.

Applications may be made at the County Clerk's office in the courthouse at Benjamin, Texas. Mr. M. T. Chamberlain will take their applications on Wednesday of each week.

To be eligible an applicant must have satisfactory land arrangements and be able to work out a sound farm and home plan for his farm. It will be necessary for the Rural Supervisor to inspect the farm of each applicant and the application approved by the Local County Advisory Committee before a loan can be made.

It is anticipated that a large number of applications for loans will be received this year, according to Mr. Williamson, and that they will be handled as fast as possible.

## Dr. Turner To Preach Sunday At Local Church

Dr. Turner, president of McMurry College in Abilene, will be here next Sunday night and preach at the evening services at the First Methodist Church.

Dr. Turner is trying to make all churches throughout this part of the country once each year. This is his annual visit to Munday, and since many of the town have not heard him preach, a large crowd is expected for this service.

The entire public is cordially invited to attend the services and hear Dr. Turner.

W. D. Hinson, Jr., of Weinert was here Tuesday afternoon attending to business matters.

## City of Munday Making Move For More Paving

### Paving Would Join Street With Road To Knox City

Riley B. Harrell, city secretary, announced last Monday that the city council of the City of Munday has started work of securing paving to connect Ernest Street in Munday with the paving to Knox City.

The City of Munday is actively engaged in an attempt to secure ten feet of right of way on each side of Ernest street, which is the street running east and west through the business district. This street is 80 feet wide, but an additional 10 feet is needed on each side to make it 100 feet wide.

Mr. Harrell stated an effort would be made to get this street paved to the city limits, thereby connecting with the paving which is now under way on the Knox City road.

### CLASSIFIED AD GETS RESULTS

W. A. Baker took up a stray calf at his place. He couldn't find the owner.

He decided to run a classified ad, notifying the owner to come for his calf. A short time after The Times was in the mail, Mr. Baker got results from his ad. Three persons had notified him as to who the calf belonged to.

Classified ads are powerful little things—two bits invested in a "want ad" gets results!

## Texans Take To 6-Man Football

Texas still leads the nation in the development of six-man football, according to R. J. Kidd, athletic director of the Texas Interscholastic League.

Kidd said that 112 "half-pint" squads would play in 17 separate district conferences this year in Texas.

The official League books have been closed, but reports to Kidd indicate at least fifty other teams playing the six-man team version on a free-lance basis.

The six-man game came to Texas in 1927. In North Dakota, the next largest state for the sport, there are 120 teams.

## No Hunting—

### City Forbids Hunting Of Any Nature In City Park

An ordinance forbidding hunting of any nature on the land recently purchased by the City of Munday for a city park was passed this week by members of the council.

The ordinance states: It shall be unlawful for any person or persons to carry an air gun, sling shot, or any other weapon capable of being used in the killing of birds and other wild or tame animals in said City Park.

It shall hereafter in any manner be unlawful for any person or persons to kill any birds or any wild or tame animals within the limits of said City Park.

Penalty is a fine of not more than \$50. Details of the ordinance will be found in this issue of The Times.

## Brock Home Is Being Erected On Old Location

The foundation has been laid for the new home of Mr. and Mrs. A. C. Brock, which is being constructed on the site where their home burned some ten months ago.

The new home, which will be a frame structure, will have five rooms and a bath. Workmen are expected to complete the building just as rapidly as possible—after which the Brocks will begin to feel at home in Munday once more.

Mr. and Mrs. Roy Maples of Goree and Miss Jean Williams spent the week end in Abilene visiting with Mrs. Ruby Kethley and family.

## Moguls Being Groomed For Battle Against Anson Next Friday Night

### Texas Mines "Steppers"

Drum majors of the Texas Mines band and Gold Diggers are Ernestine Grant (left) of Ysleta, Texas, and Donivee Purkey of Odessa, Texas.

## Joe Roberson Is Injured In Football Game

### Sunset Blanks Vera In Game Tuesday Night

Joe Roberson, son of Mr. and Mrs. Ed Roberson of Vera, received a painful injury while playing football in the Sunset-Vera game here last Tuesday night.

The accident occurred in the second quarter. Joe's arm was fractured while playing. He was taken to the office of Dr. R. L. Naxson, where an X-ray was made of the injury and the broken member was set. Joe is one of the star players on the Vera 6-man team, and his going out of the game was a heavy blow to his teammates.

Featuring a brand of football far different from the 11-man game, Sunset showed her superiority over the Vera team by defeating them by a 66 to 0 score. Many who had never witnessed a 6-man game were present to see these teams play under the lights.

## Class of Adult Education To Be Taught Here

The Works Projects Administration has recently assigned Mrs. Joanna V. Lewis to work in Munday on a program of adult education.

Mrs. Lewis is located in the northwest room, second floor of the old school building during these hours: 8:30 to 11:30 a.m., and 3:30 to 5:00 p.m. She will teach a class from 7 to 9 p.m. if and when she finds students wanting to do evening class work. Those who are interested in adult education are requested to see Mrs. Lewis.

She is also arranging for a class meeting in the east part of town from 1:00 to 2:30 p.m.

"Surely this is a project worth while," Mrs. Lewis said, "for the Works Progress Administration would not have gone to the trouble and expense of locating such a project here. Other towns are fostering and putting over this program. We are never too old to learn, so let's work together on this program of adult education."

"Our entrance to the old school building is the west door at present, but we hope to have the east door to the second floor open soon."

Mrs. Pearl Marler, who has been visiting her father, W. B. Tomlinson, returned to her home in Abilene last Sunday.

### BLIND WORKERS GET JOBS IN U.S. INDUSTRY

Morristown, N. J.—Even the handicapped are provided for in the countless millions of jobs produced by an American system of private enterprise, a survey here shows.

The survey was made of 400 blind men and women. It showed that 75 per cent of them are either in full-time jobs, running a household, or otherwise gainfully occupied.

Twenty per cent were found to be salesmen; 18 per cent stand operators; 8 per cent hand industry workers; 7 per cent home teachers, 5 per cent proprietors and 13 per cent students.

## Work on Schools Is Progressing

Construction work on the two new school buildings going up in the county is progressing nicely, according to a report from Merick McGaughy, county superintendent.

Mr. McGaughy stated that the Gilliland school is further along than the one at Benjamin. Brick work is up to the window level, and about 55 men are employed on construction of the building. It is expected that the building will be completed by early spring. All necessary materials are on the ground.

The Benjamin school is a much larger project. The concrete foundation has been poured on this project, and brick work is expected to begin soon. Seventy-five men are employed on the Benjamin building at the present time. This building will be completed by late summer, Mr. McGaughy said.

## Faculty to Meet

Dr. J. Horace Bass has announced a meeting of the school faculty for Thursday night for the purpose of discussing student rating and student report cards.

Each member of the faculty has been asked to study the situation and offer some constructive ideas as to the type of report and items to be considered in reports which are made to parents. The meeting will be in the music room of the elementary school building.

All parents interested are cordially invited to attend the meeting.

Winston Blacklock, who is attending John Tarleton College in Stephenville, visited his parents, Mr. and Mrs. B. L. Blacklock, over the week end. This is Winston's first year at Tarleton.

## Behaved Nicely

### Munday Football Fans Complimented By Haskell Police

Munday's football fans behaved so nicely at the Haskell game last Friday night that they were complimented by Haskell police.

Sebo Britton, city marshal of Haskell, was very complimentary on the manner in which football fans conducted themselves. "The Munday crowd was the easiest to handle of any football crowd we have had this year," he said.

Police like to see the game, too, and when fans conduct themselves in an orderly fashion the officers like to spread on the compliments.

So it's three cheers for the Munday delegation!

## Boyd Carley Transferred To Abilene Office

Announcement was made Tuesday that Boyd Carley, agent for the Texas Life Insurance Co., in Munday and surrounding territory, is being transferred to the Abilene office. Carley will leave Saturday to take up his duties in Abilene.

His transfer comes as a distinct promotion to him, since he will be in the district office, in the Mims Building, and directly under Mr. Douglas H. Jarrell, district supervisor. Carley also believes this connection will afford him an opportunity for further advancement with the company, since it has been expanding its territory recently.

Mr. Carley came to Munday in 1937, and for a year he served as news editor of the Munday Times. In August 1938 he resigned to take the agency for the Southwestern Life Insurance Co., later becoming connected with the company he now represents.

Carley stated he would work all the way from Abilene to Munday, and would be in Munday about twice each month representing his company here. He expressed his appreciation for all favors and courtesies shown him by Knox county people and expressed the hope of meeting his many friends here upon his return visits to Munday.

## C. of C. Meets For Early Breakfast

### Plans For Christmas Program Being Worked Out

Members of the Munday Chamber of Commerce met Thursday morning for the regular monthly breakfast at the Terry Hotel. Ira Bowden of Baltimore, Maryland, was a guest at this meeting.

Plans for the community Christmas tree were discussed, and it was the opinion of everyone present that plans be made to hold a different form of Christmas program than have been followed in the past. Committees from the Chamber of Commerce, the Munday Lions Club and the various church organizations will work out plans for bringing Christmas to the needy people of this territory.

Reports were that the weekly trades day has been very satisfactory, and the crowd present last Tuesday was permitted to vote on how this trades day should be handled. Prizes hereafter will be smaller and will be distributed among more people, it was announced. Trades day continues to bring larger crowds to Munday, and will continue to be held each Tuesday.

The November meeting of the Chamber of Commerce will also be in the form of a breakfast.

### Home From Hospital

Jackie Mayes, son of Mr. and Mrs. Jack Mayes, was brought home from a Wichita Falls hospital last week. He is reported to be recovering nicely at the family home in Munday.

Sebern Jones visited his parents in Mineral Wells last Sunday.

## Support Given Munday Moguls

### SEATS PROVIDED Munday-Hamlin Move To Top Positions In District

Elated over their 32-7 victory over Haskell last Friday night, the Munday Moguls started grooming for their battle next Friday night with the Anson Tigers. This game will be on the local Scruggs Field and is one of the two remaining home games for the Moguls.

Coaches Cooper and Garner, as well as the entire Mogul squad, are expecting a tough team in the invading Tigers. This game is expected to draw a large crowd from over the district.

In preparing to take care of the crowd, officials are having the old baseball stand moved to the gridiron sidelines this week, and this is being transformed into additional seats for the coming games. Dr. J. H. Bass, superintendent, reported that these seats will be ready for the game Friday night.

Giving their support and boosting for a winning team, merchants of Munday are urging a large attendance at the game Friday night. A page ad in this issue of The Times signifies the interest which local merchants and football fans are taking in the success of the Moguls this year.

The Moguls and Spec Smith's Pied Pipers of Hamlin are moving up from the bottom in this year's district 10A campaign. Followers of the Moguls have seen them win two conference games to establish themselves at the top of the conference.

Hamlin, with all conference games ahead of them, is also rated at top position by virtue of the sensational start which the green-clad eleven has made with outside foes. Hamlin opened with a two-touchdown win against Lueders, then took Abilene's reserves for a 26-7 cleaning and downed Jayton to the tune of 40 to 8 last week.

Anson trimmed Rule in the other league skirmish, 20-0.

Games last week:

Munday	2	0	0	1.000
Anson	1	0	0	1.000
Haskell	1	0	0	.500
Rule	0	3	0	.500
Albany	0	0	0	.000
Stamford	0	0	0	.000
Hamlin	0	0	0	.000

Games this week:

Rule at Hamlin.
Stamford at Albany.
Anson at Munday.

## Four Local Boys At John Tarleton In Stephenville

Winston Blacklock, Leroy Henderson, Donald Hobert, and Fuller Shannon, students from Munday, were among the 1244 boys and girls who entered John Tarleton College September 12. They attended the first general assembly last week to hear Dean J. Thomas Davis, head of the institution, stress the importance of education in maintaining peace during the present crisis. "Education is seriously needed in distinguishing propaganda from truth," the educator told the assembly.

John Tarleton is a co-educational branch of Texas A. and M. College and one of the largest junior colleges in the country. With almost a hundred faculty members and a well equipped plant she offers a large field of subjects to her students.

### TO GO TO AUSTIN

Miss Mildred Gray has been visiting her aunt, Mrs. R. H. Holland, in Austin, Texas, for the past two weeks. She has accepted a position in a dry goods store there.

Jimmie Ashcroft and W. L. Garner of Knox City were visitors here Tuesday afternoon.

Earl Sams of Benjamin was a business visitor here Tuesday.

"What a Man Does For Himself Dies With Him—  
What He Does For His Community Lives On and On"—

HE IS AN AMERICAN  
(From the New York Sun)

He is an American.  
He hears an airplane overhead, and if he looks up at all does so in curiosity, neither in fear nor in the hope of seeing a protector.  
His wife goes marketing, and her purchases are limited by her needs, her tastes, her budget, and not by decree.  
He comes home of an evening through streets which are well lighted, not dimly in blue.  
He reads his newspaper, and knows that what it says is not concocted by a bureau, but an honest, untrammelled effort to present the truth.  
He has never had a gas mask on.  
He has never been in a bombproof shelter.  
His military training, an R.O.T.C. course in college, he took because it excused him from the gym course, and it was not compulsory.  
He belongs to such fraternal organizations and clubs as he wishes.

He adheres to a political party to the extent that he desires—the dominant one, if that be his choice, but with the distinct reservation that he may criticize any of its policies with all the vigor which to him seems proper—any other, as his convictions dictate, even, if it be his decision, one which holds that the theory of government of the country is wrong and should be scrapped.

He does not believe, if his party be out of power, that the only way in which it can come into power is through a bloody revolution.

He converses with friends, even with chance acquaintances, expressing freely his opinion on any subject, without fear.

He does not expect his mail to be opened between posting and receipt, nor his telephone to be tapped.

He has not registered with the police.  
He changes his place of dwelling, and does not report so doing to the police.

He carries an identification card only in case he should be the victim of a traffic accident.

He thinks of his neighbors across international borders—of those to the north as though they were across a State line, rather than as foreigners—and of those to the south more as strangers since they speak a language different from his, and with the knowledge that there are now matters of difference between his government and theirs, but of neither with an expectancy of war.

He worships GOD in the fashion of his choice, without let.

His children are with him in his home, neither removed to a place of greater safety, if young, nor, if older, ordered ready to serve the State with sacrifice of limb or life.

He has his problems, his troubles, his uncertainties, but all others are not overshadowed by the imminence of battle and sudden death.

He should struggle to preserve his Americanism with its priceless privileges.

He is a fortunate man.  
He is an American.

## A GREAT TEXAN

Wednesday, October 4th, was "Clara Driscoll Day," and was observed by a Reception Tea and Unveiling of her portrait at the Texas Federation headquarters in Austin.

Texas and the Democracy of the nation owe a debt of gratitude to Mrs. Clara Driscoll of Corpus Christi for her active and intelligent support of Democratic ideals. As National Democratic Committee-woman for Texas, Mrs. Driscoll has devoted much of her time to unselfish work for her party. She is a believer in the sturdy Democratic principles of Jefferson and Jackson and continuously strives to keep the Democracy of Texas and the nation traveling the road of statesmanship toward which these founding fathers pointed.

Through all this she has never lost sight of her great state, Texas, always interested in all matters that help causes that make for things of high ideals.

Since her generosity saved the cradle of Texas liberty, the Alamo, so sacred to all Texans, from becoming a commercial property and being lost as a symbol to future generations, also, recently when the Club women of the state were about to lose their Home in the Capitol City, her purse again was open and the home saved. Her many contributions to schools, such as the one at Robstown, have endeared her to the youth of the state, and there is no one group that does not owe her something, for she is just one that loves to do for the love of doing it.

Texas have a right to be proud of the National Committee-woman. Her achievements for Democracy entitle her to hold the office she has so successfully and gracefully filled.

Texas Democracy should gather and keep this Great Texan as National Committee-woman, not because she would desire this honor, but because the Democracy of Texas needs such a person in this exalted position.

Dr. George W. Truett has served as pastor of the First Baptist church in Dallas for forty-two years, and recently started work on his forty-third year. A great work this great divine has accomplished during this many years.

### "TEXAS SAFETY DAY"

State Fair of Texas, October 17th  
Notwithstanding all the educational campaigns that have been waged, there has been an alarming increase in automobile accidents during the current year.

In an effort to reach the greatest number of people as quickly as possible, the Texas Safety Council has arranged a "Texas Safety Day," at the State Fair of Texas. The date is October 17th.

Pierce Brooks, president of the Council, Capt. J. C. Tappe, field man, and others of the Directors will present Safety Programs during the day. Motion pictures will be displayed. Accident scenes, true to life will be staged.

This demonstration is being made by the Safety Council at considerable individual expense to its members, who are working without profit, in the hope that it will be a substantial contribution to the saving of life hereafter.

"We are hopeful that school heads, civic leaders, and all others will do their utmost to attend the Fair on this date and witness one or more of our programs," officials said. "We are hopeful the announcement will be made in the various public schools of the State in ample time."

"Prominent Texans will participate in the program. The program will not be a bore. We hope to greet many thousands on this date. Tell your neighbors."

### SEVEN RULES FOR SAFETY

The outstanding fire prevention authority of the nation has issued a set of seven fire prevention rules which, intelligently observed, would go a long way toward keeping the fire demon under control.

1. Use electricity safely. That means that all electric wiring and equipment should be installed in accordance with the National Electrical Code, and that repairing and installation should be done by an expert workman. Amateur electrical work is one of fire's best friends.

2. Smoke in safe places only. That goes for your home, your office, the factory in which you work, for the outdoors and everywhere else. Carelessness with matches and smoking materials destroy untold millions of dollars worth of property yearly.

3. Remember that great fires were small fires to start with. Proper building construction, plus good fire protection, would make it possible to prevent almost any fire from seriously spreading.

4. Fire breeds in oily waste—keep all such waste in a closed metal container.

5. Carelessness and ignorance are often the cause of explosive fires. Here is a rule especially applicable to workmen in industry, who should thoroughly understand the possible fire dangers involved in their particular jobs.

6. In many factories and places of business special fire hazards exist, which require unusual precaution and vigilance.

7. Cleanliness is a great aid to fire prevention. Keep your basement, garage, attic and closets clear of litter.

Every one of these rules is simple—all can be easily observed. Observing them may save your home or business—and, infinitely more important, human lives.

Research becomes progressively more powerful as an agent for human welfare because each new discovery may be useful not only by itself, but also in various combinations with all which have gone before. All logic and experience indicate that we are still only at the beginning of possibilities of using science to solve many of our pressing problems, and to achieve better living conditions for everyone. How much happier the human race will be when people come more generally to depend on science to treat the good things of life from nature instead of spending most of their efforts in trying to take them away from other people!—Karl T. Compton, president, Massachusetts Institute of Technology.

In Benton City, Wash., the rural electric association dismissed their meter reader and sent a postcard to each customer asking that they read their own meter and send a money order for the amount of the bill. It is said collections increased 50 per cent the first month.

## THEY SAY!

"The miracle-makers may continue to build up the hopes of the multitude, but the miracles will continue to lack enduring substance."—Arthur E. Morgan.

"The government has tried every scheme except the right one to revive business. Business does not want to go further in debt; it looks forward to the day when there will be renewed confidence in the future and particularly the government's fiscal policy, and freedom from persecution. Any other attempts to appease business are superficial aids which only prolong the day of reckoning."—Estherville, Iowa, News.

"There is no product, system or process which can long be held as permanent. Sooner or later they all encounter substitutes and replacement by something either better or cheaper. Frequently the newer replacement extends to wider fields of greater usefulness. This is becoming increasingly evident in practically all lines of industry."—C. K. Koos, director of research, United States Gypsum Co.

### OBITUARY OF JAMES REUBEN MANLY

James Reuben Manly was born on April 14, 1864, in Boone county, Arkansas. He was 75 years, 2 months and 20 days of age, and was reared to manhood in the state of Arkansas.

He was married to Miss Martha Jane Orr on March 20, 1884. He and his family moved to Knox county, Texas, in October of 1907, where Mr. Manly lived until his death on July 4, 1939.

Seven children were born to this union, three of whom preceded him in death—two boys, Walden and Grover Cleveland, 7 months and 2 years of age, respectively, and one daughter, Mrs. Bill Taylor.

Surviving him are his widow and three daughters, Mrs. Ross Bates, Mrs. Bryan Walton, Mrs. W. O. James, and one son, Larkin L. Manly of Artesia, New Mexico. Fourteen grand children and 5 great grandchildren also survive.

Funeral services were held July 5, conducted by Rev. S. E. Stevenson, of Goree, at Friendship Baptist church. All of his family and a large concourse of sorrowing relatives and friends paid their last respects. The beautiful floral offerings attested the love all held for him.

He was one among our best citizens, always standing for the right. Mr. Manly gave his life to the Savior in early life and united with the Friendship Baptist church in 1908. He remained a faithful and devoted member until his death. He read the Bible and depended on its holy guidance and truths, always abounding in a Savior's saving grace.

The church offers a tribute of respect to the life of this noble man and brother.

Done by act of Church in conference, July 22, 1939.

Church Committee:  
Mrs. E. J. Jones  
Mrs. Jim Jackson  
Mrs. W. A. Harris.

## Gems Of Thought

But I will write of him who fights  
And vanquishes his sins,  
Who struggles on through weary years  
Against himself and wins.  
—Caroline LeRow

If you wish your neighbor to see  
What God is like, let them see what  
He can make you like.—Charles Kingsley.

You can never be ruined by others  
if your riches consist of righteous works.—Ditman Larsen.

Goodness never fails to receive  
its reward, for goodness makes life  
a blessing.—Mary Baker Eddy.

The world is a looking-glass, it  
gives back to every man the reflection  
of his own face.—Thackeray.

### A.A.A. SHORTS

Deadline for making application for 1939 cotton price adjustment payments is March 1, 1940, the State Agricultural Conservation Committee has announced. For signing applications for agricultural conservation payments, the deadline is July 1, 1940.

Use of fertilizer in Texas increased two and one-half times from 1932 to 1938, climbing while farmer income climbed. In 1932, 33,571 tons of fertilizer were used, while in 1938, 84,276 tons were used.

Wheat consumption in warring nations declined from that of 1914 for the duration of the war.

Sales and deliveries of cotton and cotton products for export under the Federal cotton export program totaled over 1,180,000 bales from July 27 through August 31.

"I believe that in this emergency, as in others, Southern farmers will look beyond the horizon to the long-time path that leads to peace and plenty."—R. M. Evans, AAA administrator.

The national wheat acreage allotment of 62,000,000 for 1940 is larger than the acreage harvested during any year of the war.

## BUY HAPPINESS On the Installment Plan

A bank account provides the necessary happiness that permits uninterrupted study essential to acquiring a college degree. It makes possible a complete growth by affording some indulgences in social activities. Happiness—is based on combined essentials backed by an intimate knowledge of money value. ## Good Prices At Livestock Sale Held in Vernon

Vernon, Texas, Oct. 5.—Supplies of both stockers and butchers were plentiful Thursday at the weekly auction of the Vernon Livestock Sales Commission. Rates on all good quality stock held fully steady to unevenly stronger, while medium good and plain cattle moved from level to somewhat lower. Well-finished, long-fed steers and heifers of the stocker sorts found immediate outlets to shippers at \$1.75 to \$2.50 per head upward. Medium good cows, both killers and stockers, moved just about steady, and culls took a sharp trend of \$3.50 to \$5 per head downward. Inbetween grades of calves and yearlings were down 1.75 to \$3.59 per head. Total receipts for the 538 head of stock sold amounted to \$14,875.

Choice, long-fed heifers scaling 510 to 620 pounds sold at \$45.50 to \$54.25 each, and the heavies of the same good sorts at weights of 670 to 845 pounds drew \$38.25 to \$73.50 each. Fair and middling good kinds realized from \$35 to \$41.25 per head, and a few small lots of culls brought \$27.25 to \$35 each.

Best quality cows weighing around 925 to 1,015 pounds cashed at \$61.50 to \$82.75 per head. In-between grades were very active at \$49 to \$58.25 per head. Cutters and canners dragged and realized from \$14.50 to \$23 per head, with a few heavies cashing at \$30.

Select calves fed on diets of cake and ensilage scaling 255 to 315 pounds were bid in immediately at \$23.25 to \$29.50, and a few small lots of the same sorts at weights around 400 pounds drew \$38.25 to \$40 per head. Plain calves were slow at \$13.25 to \$18, and rannies and culls also dragged at \$5.50 to \$10.75 per head.

Choice fed yearlings weighing 495 to 620 pounds brought \$48.25 to \$56.75 each, and one 12-head lot of heavies scaling about 850 pounds drew \$72.50 per head. Plain kinds cashed at \$32.75 to \$41 each, with throwouts dropping to \$15 and \$17.50 per head.

Heavyweight killing steers scaling 1,025 to 1,230 pounds met a broad outlet at \$77.50 to \$90.50 per head, and lightweights of the same quality at \$70 to \$91 pounds also found an active outlet at \$56.50 to \$72.25 per head. Fairly good stockers and killers drew \$45 to \$53.25 each, and throwouts moved at \$33 to \$41.50 each.

SO BUSY  
Jessie: "My dear, I haven't seen you for ages."  
Tessie: "Oh, I know. I've been so busy with one thing and another. I've just had my teeth taken out and a gas stove put in—"

Diner: "Bring me a plate of hash."  
Waiter (yelling to the kitchen): "Gentleman wants to take a chance."

Another Diner: "I'll have some hash, too."  
Waiter: "Another sport?"

County Attorney Carl Patterson of Benjamin was here Friday on official business.

# Moguls Romp Over Haskell Indians, 32 to 7

## Yancy Carries Oval For Four Of Munday's Scores

### Cheering Fans Place Moguls Favorites For District

A rampaging bunch of Moguls opened up against Haskell last Friday night on the Haskell field to chalk up three touchdowns in the first quarter and to win easily over the Haskell Indians, district champions of 1938, to the tune of 32 to 7.

An enthusiastic crowd of approximately 1,800 fans were on hand to see the Moguls clear one of their toughest hurdles in their battle for District 10-A championship for 1939.

The charges of Coaches Billy Cooper and Howard Garner scored before the game was four minutes old and scarcely eased up during the first quarter. Munday recovered a Haskell fumble early in the game. A few plays later and behind excellent blocking, Forrest Yancy, high stepping halfback, cut back over his own right tackle for 28 yards and the first touchdown. Jack Pippin, quarterback, missed the try from placement.

Yancy, who personally accounted for 158 yards for the Moguls, repeated the same play for two more touchdowns in the first quarter and one in the second, accounting for four touchdowns during the game. Munday's fans went wild as the Mogul blockers opened up for Yancy and he clipped off these counters.

Yancy's second touchdown jaunt was good for 20 yards, while the third and fourth were for 35 and 5 yards. In addition there were sprints of 16, 18 and 21 yards.

Jiggs Thompson was the hardest hitter for the Moguls, and his superb blocking, along with that of his teammates, was responsible for many yards gained by the ball totter.

Coach Cooper pulled the Mogul punches after the first quarter, substituting frequently and using practically every man on the Mogul squad.

The Haskell Indians put on a spirited 80 yard drive late in the fourth period to make their only score. Otis Henshaw reeled off a gain of 26 chucks and then passed to Captain Bob Cousins for 35 more. Munday then took a penalty for holding which placed the pigskin on the five yard line. From

here Henshaw rammed across the goal line on the second play. Cousins added the point after touchdown.

Munday's final marker came in the third quarter, and was made by Jack Pippin, who split the middle of the line for a final 11 yards to climax a long drive. Pippin, who was in almost every play, kicked both of Munday's extra points.

It was a surprised bunch of fans who watched the murderous defeat of Haskell. Many of them knew nothing of the Mogul power this year and were pleasantly surprised by the type of football played by a team that was underdogs throughout all of last year. Many commented on the Mogul machine, and stamped the Munday eleven as leading contenders for the District 10-A laurels this year.

The lineups:  
Munday: ends, Broach and Blacklock; tackles, C. Stephens and Walton; guards, Denham and Higginbotham; center, Kitchens; quarter, J. Pippin; halves, Yancy and Thompson; full, C. Pippin.

Haskell: ends, Jordan and Thompson; tackles, Paterson and Marjion; guards, Gholson and Griffin; center, Buford; quarter, Henshaw; halves Cousins and Holcomb; full, Laird.

Officials: Referee—Ligon, North Texas State; Umpire—Murphy, Hardin-Simmons; head linesman—Pool, McMurry.

## Library Takes Knowledge Into Towns of Texas

Austin, Texas.—Carrying knowledge to 1,161 towns and rural communities where library facilities are limited, the Package Loan Library Bureau, a University of Texas extension agency, last year served 33,823 Texas individuals or organizations.

This traveling library fills requests with "package libraries" from its shelves or makes up packages from the hundreds of thousands of items in its files, kept up to date by constant addition of current magazine and newspaper clippings.

Last year 1,813 books, 18,157 plays, 3,820 club outlines and 322-33 pamphlets and periodicals clippings composed the packages circulated.

The 1938-39 circulation of the bureau surpassed that of the preceding year by 735 packages, going to 54 more towns and rural communities than in 1937-38.

American research workers have now developed a waterproof and non-inflammable film from clay. In appearance it is like celluloid, and it may possibly prove to be a substitute for mica.

Teacher: "George, define the word puncture."  
George: "A puncture is a little hole in a tire usually found a great distance from a garage."

## THOSE FASCINATING SPOTS

by Mae Pace Killingsworth

One is aware of the captivating attractiveness, from the very moment he steps over the threshold of that pleasant, yellow frame-house in Concord, Massachusetts. It has stood on that quiet street through many a year, and though many winds have whistled around the corners and despondent rains have fallen on the roof, it tranquilly dreams on. Dreams, perhaps, of the days when Louisa May Alcott and her family lived there. A more important requisite is, that there was indeed "A Heap O' Livin'" within that domain. That is, if all those handed-down stories are authentic, and I'm inclined to think they are.

My! How I revel in adventuring in old, historic places. So I considered it real luck to have the opportunity of seeing this one. Probably the unusual interest dates back to girlhood days, when I laughed and wept with the Alcott girls in their role of "Little Women." I never even guessed at the time, however, it was the real life story of this delightful, happy family—with but few exceptions. One being, for instance, in real life Jo (Louisa) never married. In the book, she did.

Though it was early September, a crackling wood fire burned in the grate as I entered the house. It looked so cheery and seemed to radiate some of the homey coziness of another day. A most gracious attendant was on hand to lead the way in this exciting excursion through Alcottland. Amid Oh's and Ah's, a fragile lace cap of Mrs. Alcott's or a bit of handwork Louisa's nimble fingers had fashioned were carefully examined. All the beloved trinkets and furniture the family lived with, are immaculately kept for the inspection of interested folk from everywhere.

Each of the four Alcott daughters rated a peculiar talent all her own. The one who was the artist of the family left signs of her cleverness throughout the house. On the back of some of the doors are sketches of rare feminine charm. These girlish pictures are now under glass and are still in an excellent state of preservation. On the outer wall of little Beth's room is a lovely bunch of painted calla-

lilies that the same Amy placed there for her sister who was ill. She said she had no money with which to buy fresh flowers (it being the time of year the garden was bare) and she knew these would never wither or die.

All the young Alcotts were fond of acting and dressing up. The little Emersons and Hawthornes who lived in the neighborhood came over to help out in their plays. Sometimes their performance was in the large barn, which they were allowed to use. Other times in the comfortable parlor when an enthusiastic audience of the entire community came to applaud most generously. Many of the intriguing costumes with their quaint poke-bonnets are still in evidence and exclaimed over.

But it was not all play for the girls in the old-yellow house. They had their lessons in their father's study. There besides lessons there was a share of the housework for each little one to do with plenty of needlework thrown in. And running about the hills and woods in the sunshine was also a delight. It was one of the "must" essentials, in fact, Mother Alcott required it of the daughters.

Right now, I'm remembering one of the many experiences of the Alcott girls in their "Little Women" episodes. Though it has been quite some time since I've read the

story the incident still stands out very clearly in my mind. It was when "Marmee" bustled in, in her lace cap and told the girls of a family, who couldn't have any breakfast on Christmas morning unless someone took it to them. That was enough! They unanimously agreed to do with only a scant one themselves and give the beautiful popovers, etc., to the family. This insured their not being forgotten and what joy the Alcotts derived. What an unselfish thing to do and now that I've seen where they lived and heard their stories, I feel the happening was indeed a real one.

It was not always easy going for the Alcott family. Their struggles were varied and many. With sometimes very little money to do with. Yet the thought occurred not once, but many times, "How rich they were! Rich in the real things money could not buy." For whether drinking make-believe tea out of acorn cups, painting a bouquet of flowers for a sick one, or writing a story they found joy and happiness in it all.

Yes, Louisa Alcott and her sisters loved the sunshine, the blue sky, the trees and the flowers. And best of all, the old yellow house that still dreams, loved Louisa and the other members of her family!

### GETTING IN PRACTICE

The newlyweds had just gotten off the train.

"John, dear," said the bride, "let us try to make the people think we have been married a long time."

"All right, honey," was the answer, "you carry the suitcases."

## HEFNER NEWS

Had our first rain in two months, and it gladdened everyone.

Several local boys are leaving this week for CCC camps in state of Colorado.

Mr. and Mrs. Ed Jones, daughter Eva and Edwin Ewin Jones made a flying trip to Lubbock Sunday.

Mrs. John Labeth has returned from Canadian, where she visited her mother, who is ill.

Mr. and Mrs. Melin Hendrix and daughter of Plainview spent Sunday with his uncle, J. A. Hendrix, and family. He was accompanied to Amarillo by his parents, Mr. and Mrs. Billy Hendrix, who had been visiting in the home of the elder Mr. Hendrix brother, J. A. Hendrix.

Rev. J. L. Gray delivered a good sermon to a large congregation here both Saturday night and Sun-

day.  
Mrs. J. Ney Thomas and two daughters of Wichita Falls and Grandmother Bell Thomas of Bonarton were in attendance at the Baptist church Sunday.

## Heacock-Kendall Wedding Performed At Austin, Texas

Miss Florene Kendall, daughter of Mr. and Mrs. J. S. Kendall of Munday, became the bride of Charles S. Heacock, Jr., of Austin, Friday at 4:00 p. m., at the First Methodist Church in Austin. Rev. C. M. Roby, pastor of the First Methodist Church, read the marriage lines. Members of both families attended the ceremony.

The bride wore a Caroline model suit of sheer wool in Viking blue color with fox fur trim, and champagne accessories. Her corsage was of orchids.

Mrs. Heacock is a senior in the University of Texas, and she plans to continue her work toward a degree. She is a member of Alpha Delta Pi sorority.

Mr. Heacock is a former student of the University of Texas and a member of Phi Kappa Psi fraternity. He is associated with his father in the florist and real estate business in Austin.

The couple left immediately after the ceremony for a wedding trip to Mexico. After October 15 they will be at home at 605 West 10th Street, Austin, Texas.

## Recent Bride Is Complimented With Lovely Shower

Complimenting Mrs. Bill King, the former Miss Margerite Bumpas, Mrs. Eli Williamson, Mrs. Clifford Williamson and Mrs. J. A. White entertained Friday with a miscellaneous shower in the home of Mrs. White.

Miss Cleta Jones presided over the bride's book. Miss LaVerne Bumpas greeted the guests and accepted the gifts where they were placed in the room forming a lovely display.

Those presenting gifts were Mrs. Geneva Graham, M. A. Bumpas, J. C. Angle, C. C. Coates, Mary Lain, Jim Driggers, Odie Taylor, J. A. Coates, Lois Owens, Clyde Taylor, Annie Taylor, Jim Alexander, Elmo Flenniken, Richard Freedy, Tolbert Beason, J. W. Lane, Bill Bettis, Ford Waldrip, Tom Webb, D. H. Henry, D. H. Craddock, D. C. Hulsey, Scott Cogins, Glen Caddell, Fred Aycock, Claud Reed, J. B. Roberson, John B. White, Eli Williamson, J. P. Jones, Willie Lee McBeth, Clifford Williamson, Ben Redwine, J. A. White, J. R. King, T. W. Harber, R. C. Partridge, Roe Myers, Jennie Reddell, Lonnie Crouch, Abe Watson, Ruth Moore, Lee Turnbow, R. L. Newberry, J. F. Cadenhead, Ted Campbell, Elma Aycock, Ot Campbell, E. A. McBeth, Cecil Gulley, Chas. McAfee, Misses Nina Newberry, Clara Sue Mitchell, Nell Nix, Eula Florence Newsom, Juanita Forehand, Cleta Jones, Louise Taylor, LaVerne Bumpas and Alma Alexander.

## Birthday Dinner On Sunday Honors Mrs. Moorehouse

A birthday dinner was given in Benjamin last Sunday, honoring Mrs. Charles Moorehouse on her birthday. Mrs. Moorehouse, who has been ill for some time, was brought into the dining room in her wheel chair and was able to enjoy the dinner with her children and friends.

All of her children, and a number of friends, were present for the dinner and to wish Mrs. Moorehouse many happy returns.

Attending from Munday were Mrs. D. C. Eiland son, David Chase, and Mrs. Dave Eiland.

## Monday Night Bridge Club Meets In Roberts Home

Members of the Monday Night Bridge Club met in the home of Mr. and Mrs. Grady Roberts on Tuesday evening of this week. After several games a delicious refreshment plate was served.

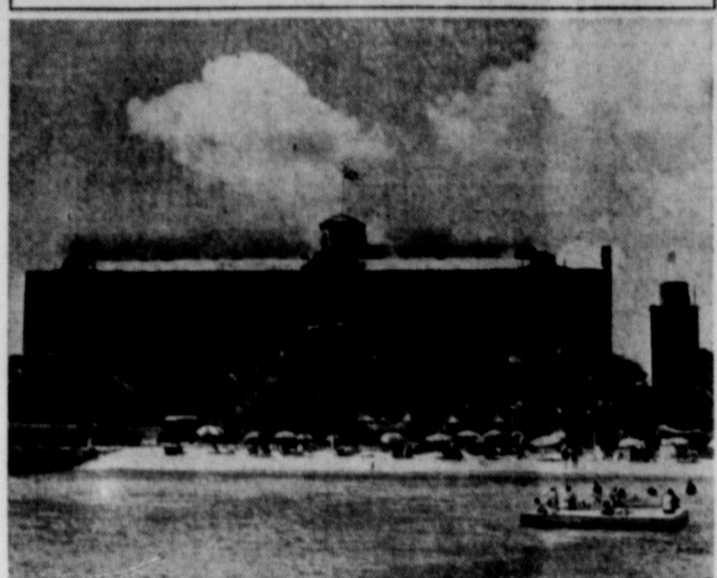

Members present were Mr. and Mrs. W. R. Moore, Dr. and Mrs. J. Horace Bass, Mr. and Mrs. Fred Broach, Mrs. Pitzer Baker, W. E. Braly and the host and hostess.

Guests were Mr. and Mrs. Aaron Edgar and Mrs. Don Ferris.

Mr. and Mrs. Zack McWhorter, Mr. and Mrs. John Davis, Jr., and A. O. Lilly, all of Throckmorton, spent last Sunday here in the home of Mr. and Mrs. Sebern Jones.

Hal Dyer of Seymour was here Monday, attending to business matters.

## VACATION LUXURY

Typical of the morning hours in Nassau is this scene at the Fort Montagu Beach Hotel, where swimmers and bathers loiter about on the private beach and enjoy the fine waters of the Bahamas and the healthful rays of the early sun.

## Frank Garrett And Miss Fauna Brazzell Wed Here Monday

Frank Garrett and Miss Fauna Brazzell were married last Monday evening, October 9th, in Munday, with G. M. Bryan, justice of the peace, reading the marriage vows.

Mr. Garrett is the son of Mr. Cleveland Garrett of Weinert. Mrs. Garrett is the daughter of Mr. and Mrs. E. J. Brazzell of the Lake Creek community.

Mr. and Mrs. O. O. Shue and daughter, Loretta, of Ellaville and Mr. and Mrs. Clifton Vaughn of Munday were present for the ceremony. Mrs. Shue and Mrs. Vaughn are sisters of the bride.

The many friends of this couple wish them much success and happiness. They will make their home near Weinert.

## Corrine Wardlaw And Edwin L. Jetton Wed Saturday Night

Announcement has been made of the marriage of Miss Corrine Wardlaw of Munday to Mr. Edwin L. Jetton of Goree. The wedding was performed last Saturday night at nine o'clock at the Baptist parsonage in Munday, with Rev. W. H. Albertson, pastor, reading the ceremony.

The bride is the daughter of Mr. and Mrs. Stanley Wardlaw of Munday. The groom is the son of Mr. and Mrs. Clarence Jetton of the Hefner community.

The couple will make their home at Hefner for the present. Mr. Jetton is employed at the McNeill Gin there.

## Mystic Weavers Club Meets With Mrs. Chester Borden

The Mystic Weavers Club met in the home of Mrs. Chester Borden on Wednesday, October 11, from three until five o'clock. The entertaining rooms were tastefully decorated with fall flowers.

The afternoon was spent in needlework and conversation. A salad course was served to Mrs. R. B. Bowden, Mrs. H. B. Douglas, Mrs. M. L. Barnard, Mrs. R. B. Harrell, Mrs. L. S. Hardegree, Mrs. Chester Bowden, Mrs. Deaton Green, Mrs. Aaron Edgar, Mrs. W. A. Baker and Mrs. Borden.

## Munday P.-T.A. To Hold Meeting On October 18

The regular P.-T. A. meeting will be held at the Grammar School auditorium Wednesday, October 18, at four o'clock. The theme of the program is "Today's Youth in the School," directed by Mrs. Lee Haymes. Other numbers on the program will be as follows:

Talk on Peace—Mrs. H. A. Longino.

Solo—Gail Reynolds.  
"Sing a Song of Sixpence"—Mrs. J. O. Bowden.

The Girl Scouts, under the direction of their captain, Miss Dorothy Crawford, will conduct a nursery at the school building during P.-T. A. meetings. All parents are asked to leave their children with the Girl Scouts. Aside from being a help to the parents, the girls will earn badges for their work. Bernice Douglas, Sue Barton and Latrece Johnson will have charge of the nursery this month.

While visiting friends at Rhine-land, Mr. Leonard Albus of Pep, Texas, and Mr. Francis Albus made a business trip to Wichita Falls.

## Legal Notices

AN ORDINANCE Prohibiting the Carrying in and Upon the City Park of the City of Munday, Texas, Any Firearms, or Other Weapons, and Prohibiting the Shooting Thereof, and the Killing or Any Birds, or Other Wild or Tame Animals upon said Area; Providing for Punishment of Any Person or Persons Violating the Provisions Hereof, and Making Certain Exceptions.

It costs \$45.00 per year to educate a child. If this sum is multiplied by the repeaters the loss is \$13,000,000. Not all of this could be chargeable to health conditions, but at least two-thirds, or \$9,750,000 could be so charged. By spending one million dollars per year, in promoting an adequate health program, enough money now wasted on the repeaters in the elementary grades would be saved in three years to retire the present deficit in the general fund.

1. BE IT ORDAINED by the City Council of the City of Munday, Texas, that hereafter it shall be unlawful for any person or persons to carry any firearms upon any or the area embraced in the City Park as heretofore defined and described by the ordinances of said City.

2. It shall be unlawful for any person or persons to carry an air gun, sling shot, or any other weapon capable of being used in the killing of birds and other wild or tame animals in said City Park.

3. That it shall hereafter in any manner be unlawful for any person or persons to kill any birds, or any wild or tame animals within the limits of said City Park of the City of Munday, Texas.

4. There shall be excepted from the provisions of Section 1 hereof only peace and police officers, who shall be permitted to carry firearms upon said area embraced within said park.

5. That any violation of this ordinance shall be punishable by a fine of not more than \$50.00, upon conviction thereof.

Passed and approved this 9th day of October, 1939.

H. P. HILL, Mayor  
RILEY B. HARRELL, City Secretary

## Weekly Health Letter!

Issued by Dr. Geo. W. Cox, M.D., State Health Officer of Texas

Austin, Texas.—The State could appropriate and spend one million dollars annually on a health program without cost to the State, declares the Texas State Department of Health. This can be demonstrated in connection with our schools alone, without regard to the saving effected in the general economic life of the State.

If the State Department of Health had such a sum for the maintenance of a comprehensive health program in all public schools, more than that amount could be shifted back to the general fund by the schools, through savings to their fund effected by the elimination of repeaters and other costs incident to health conditions.

At least 25 per cent of the pupils in our public schools do not make a grade per year and have to be taught a second year in the same grade. With a total enrollment in the elementary schools of 1,071,000 pupils there are approximately 289,232 repeaters. The cost of instruction for this group is thereby doubled.

It costs \$45.00 per year to educate a child. If this sum is multiplied by the repeaters the loss is \$13,000,000. Not all of this could be chargeable to health conditions, but at least two-thirds, or \$9,750,000 could be so charged. By spending one million dollars per year, in promoting an adequate health program, enough money now wasted on the repeaters in the elementary grades would be saved in three years to retire the present deficit in the general fund.

### METHODIST CHURCH

Sunday, October 15th, has been designated as "Go To Church Sunday," throughout our nation. Since it is being asked of all our churches and it a move in a mighty fine direction: Why not now?

Dr. Frank L. Turner, President of McMurry College, Abilene, Texas, will preach at the evening services. Dr. Turner is in keeping with the Bishop and his cabinet when making these tours in the field in the interest of McMurry College. This is our Methodist institution in this vicinity and we should give it our hearty support in cooperating with its president and sponsors. Dr. Turner's message will be worth your while giving the time and interest in hearing. He is a forceful and well informed speaker. Hear him Sunday, 7:30 p.m.

Our new heating unit will be in action for the services Sunday. We have promised you a comfortable house in days gone by and disappointed you in some instances; now we guarantee you a warm auditorium "rain or shine, sleet or snow."

You will be delighted with this new addition to our church property. Other improvements soon will supply much needed room in housing the Church School.

This has been a pleasant and profitable year. We will close it out on Nov. 12th, completing the last years work as a separate church. At Conference, Nov. 15th, to 19th, the merging of the three churches in the Northwest Texas Conference will be consummated. Will you not help close out with victories all along the line?

H. A. Longino

## Find 5 White Quail

The second covey of quail in Texas containing rare white quail discovered during the last two years has been reported to the Game Warden at Roby, who found five of the Bobwhites, one pure white and four streaked with brown, near Abilene recently. One other white quail was reported in Northwest Texas recently and a covey was found in East Texas nearly two years ago.

White quail are the result of the lack of pigments in the feathers of the birds, but white quail, or any other species of birds or animals is not considered albino, the term most commonly applied to them, unless they have pink eyes.

Mrs. Roy Jones returned from a visit with her sister, Rosa Williams, at Wichita Falls.

Boyd Carley spent last Sunday in Frederick, Okla., visiting his father, A. B. Carley, who is in a Frederick hospital. The elder Mr. Carley is steadily recovering from a recent operation.

Miss Frankie Sanders visited her sister in Crowell last Sunday.

Miss Wardell Sweatt, who is attending Texas Tech at Lubbock, spent the week end with her home folks in the Sunset community.

Mrs. Frank Herring and Mrs. Alvin Herring went to Wichita Falls last Saturday for a few days visit.

Sheriff Louis Cartwright of Benjamin was a business visitor here last Saturday.

W. L. Garner of Knox City was a business visitor here Monday afternoon.

Mr. and Mrs. J. I. Hughes of Gil-land were shopping in Munday last Friday.

Arnold Langford, who lives three miles west of Munday, is suffering an attack of pneumonia. He is getting along nicely, according to his physician.

Dr. O. J. Emory and little daughter of Rochester were visitors here last Sunday.

Judge E. L. Covey of Benjamin was a business visitor here Tuesday afternoon.

## Ever-Ready Prestone

The SUPERIOR ANTI-FREEZE PER GALLON \$2.65

NO SHORTAGE THIS YEAR . . . WE WILL HAVE PLENTY AT ALL TIMES.

Don't wait until freezing weather to put anti-freeze in your car! We will check your radiator, hose connections carefully. By having your radiator ready, you will be prepared for the first cold snap—and save time and worry.

**Sunset Beats Vera 66-0**  
 Tuesday night the Sunset Eagles won a victory over the Vera Pilots in a football game at the Seruggs Field at Munday. Sunset's lineup consisted of Joe Burton, quarterback, Howard Myers, halfback, (captain), James (Punk) Cude,

fullback, H. P. Shannon, left end, (co-captain), Victor Thomas, center, Jim Waldron, right end.  
 The Eagles won the toss, and chose to receive on the east end.  
 On the first play the Eagles made a touchdown by Cude. At the end of the first period the Eagles were leading by a score of 7-0.

At the end of the first half the score stood at 20-0 in favor of the Sunset Eagles. When the third quarter started, each team came out with blood in their eyes. After a long, tough scramble the third period ended with a score of 47-0.

At the end of the fourth quarter every substitute had played. And at the end of the fourth quarter the score was 66-0 in favor of the Sunset Eagles.

Located in Throckmorton county, near Woodson. Priced \$15 per acre. Has Federal loan. A bargain if sold at once. George Labell. 15-2tc

haps ninety per cent of the parents in America want their children to acquire education to the extent that they will sacrifice inconceivably to carry their desires out. But many children are foolish enough to take the attitude that they do not want education. Can it be that the student who intends to quit school cares nothing for himself, or does he never look into the dark and distant future?

Most students are taught, and desire, to be good, A-1 citizens. To be an A-1 American, one must at least be partly educated.

If those children who want to quit school before graduating would debate the question open-mindedly, it is probable that most of them would decide to remain in school. They would do so to show gratitude for their parents' sacrifice, but most of all, they would create and attempt to attain that goal which would shine afar into the future.

**Seniors Resume Work Where They Left Off One Month Ago**  
 Since cotton-picking days are over, the Seniors have taken up their studies where they left off a month ago, and are again progressing rapidly.

In English they have begun study of the Shakespearean drama, "Macbeth." Each student has been assigned a character to portray, and the play will be read in class.

In Civics the powers of government are being studied, and the classification of the expressed and implied powers of Congress are proving to be a source of worry to the Seniors.

The rings are expected to arrive any day now, and the Seniors are eagerly awaiting their arrival.

**Advanced Science Taught**  
 Science or physics is a new subject which is being taught in Sunset High this year. The students who are taking it are finding it to be very interesting. Mr. Harber is teaching the subject, and the class is making much progress in this study of our environment and its scientific characterizations.

For the past few days the class has been experimenting with electricity. This is found to be interesting since it has many amazing and odd characteristics.

—Glendon Matthews

**My Own Opinion**  
 Yes, folks, you put your man in the Governor's office. Yes, he told you that he would work for the benefit of the common citizen. Why hasn't he? Well, I'll tell you why. A mole can't move a mountain by himself; he needs help. The other moles are sitting down on the job. He needs men in office with him who will help him move the mountains of depression. He did not fail you. You failed him.

—Louis J. Herring

**Did Ye Know ... Did Ye??**  
 Neil buys "Peacemaker" Flar?  
 When Cleta hears "Mexico" she has a "rocky" feeling.  
 Laverne often sees "Double."  
 Donnie, one of the largest boys in school, plays the part of water boy for the football team.  
 When Juanita Hunter writes a letter, she never mails it.  
 Jane McLeroy studies more than anyone else in school.

**Story With Last Names**  
 A tall Hunter came over the Hill carrying a Wren, a Partridge, and a Herring fish. I noticed the beauty of his Gray hair and side Burns are he approached me. He is a blacksmith by trade, and I say a Walker! Why, he caught the Herring in the Wren he probably slew in some Mansfield.

The Hunter wore a White Suit, and his Brown features furnished a distinct background. Sweatt poured down his forehead. Trying vain to ward off the flow of sweat, presently I noted him "Walling" his eyes about trying to Pearce the blur before him to see who the Jungman was who approached.

**Pep Girls Advertise Sunset vs. Vera Game**  
 The Sunset Pep Squad met at noon, October 9th, in the school auditorium and practiced some of the yells and songs that they used at the Sunset vs. Vera game. After practicing a while, they went to Munday on a school bus. On arriving there they went around the square and stopped in front of Guinn Hardware Store and waited the arrival of the fire truck. On

# HE MILKS BESS — FORGETS POLITICS

Far from the maddening throng, Pierce Brooks, who polled nearly a half million votes last year for Lieutenant Governor, serenely milks "Old Bess" and helps with the family chores. Brooks, Dallas Real Estate Broker, in a recent interview, stated that he is "not Talking Politics at this time."

The fire truck they drove around town advertising the game. Nellie Prather and LaVerne Bumpas shouted the prices, and led the singing. After about thirty minutes the Pep Squad returned to Sunset. The girls lined up in two rows and singing the school song, walked to the entrance door and finished the song with shouts.

—Jane McLeroy

**Personals**  
 Miss Phillips, the new homemaking teacher, has taken Miss Gray's place. Miss Gray is now in Bangs, Texas.  
 Mrs. Savage, one of the new grade school teachers, has taken Mrs. Ingram's place.  
 Mrs. McLeroy, the new primary teacher, has taken the place of Mrs. Walling.

**Grade School News**  
 The 28 youngsters in the first grade have made a divan for their library. The boys built it from orange crates, and the girls made the cushions. Each child had a part in the painting. They are now working on a unit of the alphabet.

The fourth grade is studying about the Indians. They study about the fur trappers and draw pictures of Indians.

The students of the fifth grade are still studying nature. They have been making a study of plant life.

 Raymond Phillips Senior Class Reporter  
 Bonnie Jones Junior Class Reporter  
 Jozelle Tidwell Sophomore Class Reporter  
 Mildred Jones Freshman Class Reporter

Well, another victory will have to be set down for the Moguls. We knocked the Haskell Indians down just a few notches—32-7. Although the kickoff was a little bad, the next few plays made up for it.

This ball game was one of the best which we have had in a number of years, and this is saying a lot, because several goods ones have been played previously.

I believe that the pep rally that was given in the auditorium the night before the game was played had a lot to do with the Moguls' winning the game. Inspiring talks were given by members of the faculty, loud yells given by the pep squad, and marches were played by the band. It seemed that everyone was determined that Munday should win the game; just as they will be when the Moguls play Anson Friday night.

### Fire Waste: A Social Problem

Fire: the agent of purification; one of the so-called four elements which burns, inflames, warms or heats.

Within one hour—some one will be burned to death. About 10,000 human beings meet their death in this way. This frightful loss of life is unnecessary and preventable. How? Simply by being careful. Fire prevention deals with the avoidance of fires. It is important that the origin of all fires should be carefully investigated. Where dishonesty is detected a full record of the causes of fires will

furnish much valuable information as to the relative importance of the various factors which make up the fire hazard. The fire loss of the nation in 1930, as compiled annually since 1879 by the New York Journal of Commerce, was \$465,000,000. This is outrageous and a world of civilized men and women should feel ashamed of such fire waste.

Much has been done to eliminate dishonest and easily preventable fires by the National Board of Fire Underwriters. This board has established the Underwriters' Laboratories, Inc., which has made human lives safer by giving rigid tests for electrical devices, building materials, and explosive cleaning fluids.

Co-operation with this board and our local police and fire marshals will do much in solving these many "fire mysteries" which are sweeping our nation today.

One of the duties of a good citizen is to follow the fire safety rules, do's and don'ts. The Munday schools are doing everything possible to make our men and women of tomorrow fire conscious. Let's all enter into the spirit and make this one of the most outstanding fire prevention weeks of the time.

### The Sure Way of Growing Up

Try each day to do a good turn, but don't get found out, for if you do it is not a full count.

Do two things you don't have to

do, just for the exercise of your soul, such as the writing of a letter, making a telephone call, saying good morning to someone to whom you don't want to speak.

Don't have hurt feelings, and don't hurt the feelings of someone else.

Do these and you will find that you have put away childish things and have grown to man's estate.

In your efforts in life a law of averages is at work. If you succeed more than half the time, that is enough. Do not expect a perfect score and do not ruin your progress by brooding upon your failures.

Would you punish anyone for the ignorant mistakes, the unhappy confusions, the natural mischief and the inherited traits you exhibited in childhood? Would you condemn and blame anyone for the things you feel guilty about? Then cancel your expectancy of punishment and you will take another step forward.

One thing is certain: if "a man's enemies shall be they of his own household," as Jesus taught, there is no hope, no health, no strength left for those who try to satisfy the overbearing demands and critical standards of these omnipresent intimates. Cease to try to meet the requirements of all "enemies" or you will never be free of fatigue.

### Junior Report

How time does fly! Juniors, just stop and think! This is exam week. Let's try to make a good grade since our football team has played good games this year.

We Juniors are still looking forward to the Halloween Carnival and our "Strip-Tease." Of course, no "miners" will be allowed.

President Lowe called a class meeting the other day, and the plans were completed—so don't miss this booth sponsored by the Junior class.

Mentally most of us are doing our best. No one has overtaxed his brain yet, but Sargent almost did in Chemistry class. Mr. Benson said that ignorance was bliss, and Sargent said, "If that is so, Cherry must be a solid blaster."

We Juniors of Munday High invite the public to join us as we back to Moguls at our pep rallies and football games.

By next Tuesday we may have something to report, since this week is the end of the first six weeks period, Fire Prevention Week, and the week for a social!

### Senior News

The Seniors have just finished reading "The Tragedy of Macbeth," and we are planning to act the trial out before the students of high school. Characters have been assigned to students in the Senior Class. We will select our jury from students out of the various classes who know nothing of

## TEXAS OUT-OF-DOORS

Austin, Texas.—Whether the cutting of large trees is detrimental to the squirrel crop of Texas will be determined by Regional Game Biologists who have started a squirrel and squirrel nest count in Robinson and Leon counties, where considerable logging is being started.

The total squirrel populations of these counties will be determined before a large amount of timber is taken and another count will be made when the woods have been considerably thinned by the felling of large trees to be made into ties, crates and boxes.

It is not definitely known whether the cutting is detrimental or is an aid. It is possible that the thinning of timber will increase the available food supply for the little nut-eaters, or again it may be that too many suitable nesting sites are removed and the squirrel population will be hard hit.

When a train conductor stops his string of freight cars almost daily and uses the hoboes riding the train to sweep out grain so that wild turkeys may be fed, the Game Department feels that it is getting cooperation of the highest calibre. That is exactly what is happening in Archer county. The State Game Warden at Wichita Falls recently noticed the train halted near a river and dust flying out of the doors of several cars. Upon investigation he found that the conductor had about half a dozen hoboes sweeping out grain from grain cars to feed a bunch of wild turkeys that use that area. Questioned, the conductor said that he had heard the warden's plea, last winter when snow was on the ground, about feeding wildlife and he decided that every time he had any empty grain cars on his train he would make use of the hobs riding by having them sweep out the cars at a place where he knew turkeys were ranging.

There are approximately 40 turkeys in this bunch which are being fed in this unusual way.

Several ring-necked pheasants released in Colorado county recently

ly have nested and brought on 41 young birds, it is reported to the Game Department. It appears Colorado county may be one of the few places in Texas where pheasants will survive.

The State Game Department has issued a warning to hunters that erroneous information concerning the bag limits on ducks and geese has been printed on the backs of the State hunting licenses. Between November 15 and December 29, the season on ducks and geese in Texas, sportsmen will be allowed 10 ducks in one day or 20 in possession. However, canvasbacks, red-heads, buffleheads and ruddy ducks have special limits. Only 3 of any one of these kinds or an aggregate of 3 of them may be taken in one day and 6 is the possession limit.

Nineteen restoration areas have been set up by the State Game Department in the last three months for the purpose of increasing the quail, duck, beaver, and muskrat population in Texas, it is reported by the director of wildlife restoration. Funds obtained under the Pittman-Robertson Act are being used. Projects which will be introduced soon include deer, turkey, geese, and antelope restoration.

Persons bothered with bats inhabiting attics, barns, or sheds can get rid of them by lighting the places these erie little animals inhabit, it has been found by game managers of the State Game Department.

## LOCALS

Miss Wanda June Williams, daughter of Mr. and Mrs. P. V. Williams, is recovering from a tonsilectomy which she underwent at the Knox City hospital recently.

Mrs. D. C. Green and Mrs. G. R. Eiland were visitors in Lubbock, Lamesa and O'Donnell the first of last week.

Grady Roberts was a business

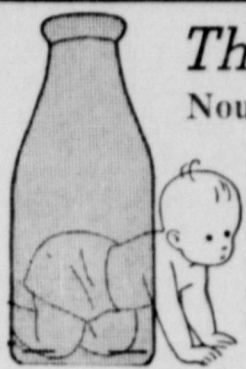

visitor in Wichita Falls last Monday.

To Dallas Market J. C. Campbell, who operates Campbell's Variety Store, and daughter, Dorothy, were in Dallas the first of last week attending market and purchasing merchandise for the local store.

Mr. and Mrs. Jesse Owens and Mrs. W. J. Owens of Vernon spent last Sunday here visiting in the home of Mr. and Mrs. L. E. Owens

Miss Frances Mayfield of Bain visited Miss Dorothy Campbell and Mrs. Howard Garner here recently.

Mr. and Mrs. Zack McWhorter, Mr. and Mrs. John Davis, Jr., and A. O. Lilly, all of Throckmorton, spent last Sunday here in the home

 MUNDAY, TEXAS

Frank J. Drouin, a woodworker of Andover, Mass., the first person in the United States to receive a present of \$1000 from the sponsor of Horace Heidt's nationwide network radio program, went to New York the next Tuesday and said the air audience how it felt to be called up and told he had been presented with \$1000.

the story. Then we'll find who really did the murdering.

We are also working on our booth which we will have at the Halloween Carnival. We might even go so far as to have three booths.

We seniors don't know whether to feel dignified this year or not. After getting some of our test papers back, we found that one boy (?) had spelled paper "pappar." After spelling words like this we couldn't be dignified.

### Sophomore Report

The most important business event of the past week was the sophomore class meeting. After some uncertainty we decided on a class party next Tuesday night. As this will be our first social event we are planning in a big way.

We are very grateful to Miss Moody for giving us free access to the cottage that night.

Six weeks' exams have been staring the sophs in the face for the past week.

### Freshman News

We had a class meeting Thursday, October the fifth. We decided to go on a skating party. We went Monday night, and we had a very nice time.

We had two exams today, one in English and one in Math. We also had a small test in history.

The class has changed officers. Jimmy Silman resigned. Theresa Hanning is now our president, and Maggie Seary was appointed vice-president.

**IT PAYS TO ADVERTISE IN THE TIMES**

"Advertising in the Munday Times sells the goods," writes the Commission Company, makers of Creomulsion, one of the largest selling cough medicines on the market today, in releasing a new series of ads on their product.

Creomulsion, acknowledged by thousands of satisfied customers as a superior prescription for the relief of stubborn Colds, heavy Chest Colds, and Bronchial Irritations, is sold by all drug stores on the basis that if the desired results are not obtained the entire purchase price is refunded.

**Stocker Cattle Of Auction Sale Go On Pasture Here**

**400 Head Cattle Sell Tuesday, Bringing \$10,000.00**

Several light stocker cattle which were sold by the Munday Livestock Commission Co. in the weekly auction sale last Tuesday went on pasture in this territory, according to reports from the sale. The light rain in this area caused these cattle to be bought for pasture, it was reported.

Operators of the sales barn report another lively sale, with 400 head of cattle on hand and selling in line with prices at market centers. The sale ran a total of approximately \$10,000.

**Bangs' Disease**

The following is a letter to Mrs. Lillian M. Speice from H. Schmidt, chief veterinarian of the Texas Agricultural Experiment Station, in reply to her inquiry regarding Bangs' disease:

Mrs. Lillian M. Speice Munday, Texas.

Dear Madam:

I have your letter under date of September 22 on Bangs' disease. I am sending you a bulletin on this matter as published by the Bureau of Animal Industry which will answer practically all the questions you have asked. I would suggest that you read it carefully. I made a note in the bulletin on the live culture vaccine to the effect that its sale is no longer permitted by the Government by reason of the fact that the organism causing Bangs' disease is sometimes eliminated with the milk and there is danger of the people contracting it in that way. Please note that I said "there is danger." It is very difficult to estimate how dangerous it really is, because it is known that much milk containing the Bangs' disease organism has been consumed by people without contracting the disease. This does not mean however, that it is impossible to contract the disease that way and we must say it is dangerous even though only one out of 100,000 may contract it in that manner. As a rule the handling of diseased stock is more dangerous than drinking this milk.

We do not run the Bangs' disease tests at the college. The Livestock Sanitary Commission of Texas, 304 W. T. Waggoner Building, Ft. Worth, Texas, has charge of this and I would suggest that you write them about it.

Yours very truly,  
H. Schmidt, Chief.

"Wizard of Oz" Returns To His Hollywood Home

The Wizard of Oz, a wanderer for 38 years, has returned to his home in Hollywood.

There in 1900, Lyman Frank Baum, a newspaper man, created the various people of Oz who now return to star in the motion picture "The Wizard of Oz," coming to the RKO Theatre next Tuesday and Wednesday, October 17-18. Baum wrote more than 50 books and plays, continuing the Wizard tales until his death there in May, 1919.

Fred Stone and Dave Montgomery made "The Wizard of Oz" famous in 1903 when they appeared in the play at the old Majestic Theatre on Columbus Circle in New York. Stone and Montgomery began six years of stardom in the stage musical. The show continued for seven more years after they left the cast.

Stone, starring on Frank Bacon's role in "Lightnin'" on Broadway, was an interested long distance observer as Mervyn Leroy brought the spectacular screen version to life at Metro-Goldwyn-Mayer. Paula Stone, a Hollywood actress, was a frequent visitor on the set where Victor Fleming was directing.

Judy Garland is Dorothy, the Kansas farm girl who is carried to the land of Oz on the breath of a cyclone, accompanied by her dog, Toto. Frank Morgan plays the Wizard.

Ray Bolger, the "rubber-legged" dancing comedian, is the remembered Scarecrow, Stone's original stage role, and Jack Haley is the

Legion Meeting Is Postponed; To Be Next Tuesday

Because the date of their meeting conflicted with the 6-man football game between Sunset and Vera, local Legionnaires postponed the meeting until next Tuesday night.

At this time the annual installation of officers and the regular birthday feed will be held. All ex-service men are extended a cordial invitation to attend this meeting.

Mr. and Mrs. A. C. Brock spent last week end with relatives and friends at Olton, Texas.

**Opposition of U. S. Business to War Put on Record by Industrial Leader**

New York, N.Y.—All groups in this country must work together in the interests of genuine peace, C. M. Chester, chairman of General Foods Corporation of New York, declared here recently.

"Let's work for American peace," Mr. Chester advised, "if only because war is bad business."

"War is the greatest menace to industry. War destroys what industry builds," he said. "The last war cost 337 billions of dollars. It cost nine million dollars an hour—216 million dollars a day—millions and billions irretrievably lost later on in pay rolls and dividends, in farmers' earnings and household needs! No! Business does not want war!"

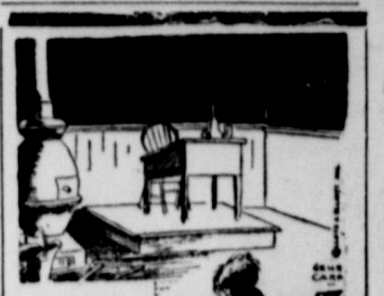

To the contention that business intends to cash in on the war, eager to acquire exorbitant profits, Mr. Chester replied that while business was anxious for sales activity to meet pay rolls and yield investors a fair profit, war was not the answer.

"Enlightened business knows today that high prices and excessive profits are a boomerang," he asserted. "Profiteering is an evil bird that eventually comes home to roost on the doorstep of the profiteer... and not only that! It hurts all industry."

"The trend has been the other way, toward lower prices to the consumer, while improving quality through research."

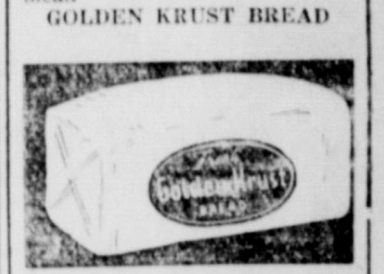

"In other words, the ambition of modern business is to increase its efficiency and lower costs so that more and more people are also our customers, and we are self-interested in striving for an ever higher
