

Mother of W. V. Tiner Dies At San Antonio

Mrs. J. L. Tiner of San Antonio, mother of W. V. Tiner of Munday, passed away at her San Antonio home at ten o'clock Friday night, January 3. She had been a resident of San Antonio for 17 years.

Mrs. Tiner, who was 78 years old last December 7, had visited in Munday a number of times and was known to many Munday people. Mr. and Mrs. W. V. Tiner left Friday morning for her bedside and arrived there several hours before she passed away. She was a member of the Woodlawn Methodist church in San Antonio.

Surviving her are ten children, who are: C. L. Tiner, Seguin; Mrs. Elnora Cope, Karnes City; Mrs. J. W. Laird and Mrs. T. H. Thomason, Crystal City; W. V. Tiner, Munday; Mrs. S. S. Hall, Austin; A. B. Tiner, Sabin; Mrs. E. G. Sharples, Laguna; Mrs. H. A. Bardwell and W. D. Tiner, San Antonio. She is also survived by 12 grandchildren.

Funeral services were held from the Porter Loring funeral chapel in San Antonio at nine o'clock last Sunday morning, conducted by Rev. C. W. Calhoun, pastor of the Woodlawn Methodist church. Interment was in Rost Lawn Burial Park beside her husband, who passed away eight years ago.

Munday Hotel Under New Management

Mr. and Mrs. W. L. Barber have moved to the Munday Hotel, and Mrs. Barber is now in charge of the hotel operations.

Quite a bit of repairing and remodeling is being done at the hotel, and a number of nice apartments will be available when the work is completed. Work is expected to be completed within a few weeks.

Sharp to Propose Increase Tax On Natural Resources

As the Texas Legislature prepares to convene for the 1941 session, proposals to increase taxes on natural resources are being made as a means of securing additional revenue.

Representative Ben Sharp of Paris has stated he would introduce a bill to boost the tax on crude from 2 3/4 cents a barrel now levied to 5 cents, and would tax natural gas 1 cent per 1,000 cubic feet as it comes from the processing refinery instead of at the well.

Sharp said oil now yielded \$21,000,000 and the larger tax would increase the yield by \$18,000,000. Income from gas taxes would be increased from the current yield of \$500,000 by \$5,000,000.

Founder of Scout Movement Dies

Lord Baden-Powell, 83, who founded the Boy Scout movement in 1910, died Wednesday at his home in Nyeri, Kenya Colony, Africa.

He had visited the United States on numerous occasions, and on his last visit in 1937 he delivered a radio address to the Boy Scouts of the world from San Francisco.

He founded the movement in 1910, following his retirement from the British army.

Legislators To Fight for Higher Loads for Trucks

AUSTIN.—Two East Texas legislators, the veteran Lonnie Alsop of Carthage, and Ottis Lock of Zavalla who is returning for his second term, have taken the lead in what will probably be one of the hottest fights of the coming session of the Texas Legislature. The two solons have announced they will sponsor a "scientific" bill to boost the load-limit of trucks in Texas.

Since its passage in 1931, the 7,000 pound load-limit law has been a bitter bone of contention inside and outside the legislature, and the opposition to it has been growing steadily.

The bill to be sponsored by Alsop and Lock would provide that no truck could carry more than is considered safe under a scientific formula worked out by safety engineers.

Arkansas and Louisiana recently enacted similar laws which already were in effect in a number of states.

Alsop voted for the 7,000 pound law in 1931, but last week he said that "I find it is out of step with progress and has so handicapped agriculture, commerce and industry that it has forced good citizens to violate the law constantly in order to compete in business. That is especially true of the lumber business in East Texas, and I am sure it is equally true in the ranching, oil, dairy, wool and general merchandise business throughout the state."

Limitations of trucks to present sizes and standards; limitation of actual load to 16,000 pounds per axle; retains the present limit of 600 pounds per inch of tire width in contact with the highway; limits the overall length of trucks to 45 feet.

Alsop said his measure had the backing of the Dirt Farmers Congress and numerous farm and transportation organizations. "Simply increasing the present load limit to a net load of 14,000 pounds will do no good, as trucks are now carrying as much or more with impunity and with no regard for the basic factor of safety," Alsop said.

THE NEW YEAR NATIONAL DEFENSE NEEDS

Getting the skilled men needed for national defense jobs continues to be one of the greatest problems of the new year for the Civil Service Commission. Thousands were appointed during 1940 but thousands more are going to be needed during the coming year at the arsenals and navy yards and in the air service. Toolmakers, instrument makers, and machinists are especially in demand, and they are especially necessary to the national defense program. Among others are urgently needed are: Aircraft instrument mechanics; aircraft mechanics; metalsmiths (aviation); coppermiths; lens grinders; leftsmen; ordnancemen (torpedoes); shipfitters, and ironworkers (shipfitting duty). If you are skilled in any of these trades, and want a Government job, write or call for information at the office of the Board of U.S. Civil Service Examiners at any first- or second-class post office. You may also learn about these jobs by consulting the notices posted in the third-class post offices.

Mr. and Mrs. Bob Blackwood of Crosbyton spent the week end here, visiting with Mr. and Mrs. R. H. Lain.

Two Varieties of Air Defense

America relies on airplanes for national defense and soil defense. Heavily armed planes such as the giant four-motored "flying fortress" at top help provide national defense. Planes armed only with cameras help provide soil defense. The two farmers in lower picture are inspecting a typical aerial photo map, taken from an elevation of nearly three miles and used in administering the AAA Farm Program's conservation work. Similar aerial pictures are available showing more than two million square miles of U. S. land area.

Senator Moffett Says Serious Problems Confront Legislature

The Texas Legislature will convene at Austin next Tuesday noon. It will have somewhat more than the average number of knotty problems to solve, and this paper does not envy the members their task.

Senator George Moffett of Chillicothe, who represents this District in the Senate, has sent us the following statement:

"In Texas the State law-making body meets in regular session once every two years. The session ordinarily last between four and five months, and the members receive pay only while the Legislature is in session. The session which will convene in a few days is faced with serious problems. The shadow of war hangs over us, and the cost of National Defense is going up like a skyrocket, which undoubtedly will mean that the National law-making body will increase Federal taxes to a point never known before, thus leaving the State with only limited opportunity to raise revenue to meet the current \$26,000,000 deficit in the general fund. And there is strong sentiment for increased revenue for old age pensions, aid to the blind, aid to dependent children and for teacher retirement.

"This sentiment is shared by a considerable majority of the members of the Legislature, and the Governor. Yet the all-important question is 'Where is the money coming from?' And it is not an easy one to answer.

"There will be more new members in this Legislature than ever known before, and a very large number of them are under 30 years old. There is only a sprinkling of members above 50. Texas is one of the hardest states to legislate for because of its immense area and variety of conditions. In square miles it is larger than Germany was before the current war began. The membership meets in Austin from divergent surroundings; they are strangers to each other and many are strangers to the operation of the Government. This makes it difficult to reach an agreement on important and vital matters. Many compromises have to be made, and sometimes the latter are not altogether for the greatest good of the State, which is indeed regrettable, but sometimes cannot be helped. When it is remembered that twelve men from the same county often sit on a jury and hear the same evidence and fail to agree on a verdict, it is easy to understand that 181 men gathered from the five corners of Texas may have an extremely hard time in agreeing on what should be done for the best interests of this State.

"Furthermore, times are changing very fast, and what looks best now, in six months may seem to have been a mistake. I always welcome sincere expressions of opinion from the folks back home, as they are excellent guides when I am in

Munday Is Tentatively In District 9-A Next Season

Gossett Answers All Roll Calls

Washington, D. C.—Representative Ed Gossett did not miss a record vote during the historic third session of the 76th Congress. This session set an all-time record for length, being rivaled only by the 2nd session of the 65th Congress, which began in 1917 and continued for 354 days.

Representative Ed Gossett was one of the eight members to serve on as many as six committees of the House during this session and was one of a very few members of Congress to answer every roll call and to vote on every question.

Aged Weinert Woman Dies On Last Saturday

Mrs. Sarah Elizabeth Clark, 93, Buried At Weinert Sunday

Mrs. Sarah Elizabeth Clark, a resident of Haskell county for 17 years, died at her home at Weinert at 2:15 o'clock last Sunday afternoon.

Mrs. Clark, who was born in Alabama on March 28, 1847, was 93 years, 2 months and 4 days of age. She was well known in the Weinert community, where she was loved and respected by all who knew her. She was a faithful member of the Methodist church.

Surviving her are two sons and two daughters, who are: R. E. Clark of Webster, Florida; R. F. Clark of Gurdon, Arkansas; Mattie Pearl Swails of Weinert and Carrie Lou Gates of Munday. She is also survived by 12 grandchildren, 16 great grandchildren and one great, great grandchild.

Funeral services were held from the Weinert Methodist church at three o'clock last Sunday afternoon. Services were conducted by Rev. D. A. Ross, Methodist pastor, and interment was in the Weinert cemetery by the Mahan Funeral Home.

Pallbearers were R. P. Hattox, Hoyt Gilbreath, Henry Moore, O. C. Raynes, W. D. Hinson and Vernon Baird.

Schedule For Teams Is Announced

Announcement was made this week that the Munday Moguls would play in another district next year. Munday has withdrawn from District 10-A, the sector in which the team has participated for several years, to line up with District 9-A for the 1941 season.

Munday was invited to join the 9-A sector in a meeting last September and accepted soon afterward, but announcement was not made

Coach Billy Cooper told Lions Club members Wednesday that the switch of the Munday Moguls from District 10-A to District 9-A is, as yet, tentative. The Munday team has been invited into this district and tentative acceptance has been made, although it is not definitely known whether the switch will be made.

Members of the school board have the final decision to make and will consult with school officials and citizens before making final acceptance.

until the executive committee of District 9-A met in Wichita Falls recently to arrange a schedule for the next campaign.

The committee will meet in Seymour on September 16 to check on eligibility requirements of each team. The schedule for 1941 was announced, as follows:

October 10
Chillicothe at Iowa Park.
Holiday at Seymour.
Munday at Crowell.
Archer City at Throckmorton.

October 17
Iowa Park at Seymour.
Crowell at Chillicothe.
Holiday at Archer City.
Throckmorton vs. Munday (place to be decided).

October 24
Iowa Park at Crowell.
Seymour at Archer City.
Throckmorton at Chillicothe.
Munday vs. Holiday (place to be decided).

October 31
Archer City at Iowa Park.
Crowell at Throckmorton.
Seymour at Munday.
Holiday at Chillicothe.

November 7
Throckmorton at Iowa Park.
Munday vs. Archer City (place to be decided).
Crowell at Holliday.
Chillicothe vs. Seymour.

November 14
Iowa Park vs. Munday (place to be decided).
Throckmorton at Holliday.
Archer City at Chillicothe.
Crowell at Seymour.

November 20
Iowa Park at Holliday.
Chillicothe vs. Munday (place to be decided).
Seymour at Throckmorton.
Archer City at Crowell.

County Council Meets January 3

The Knox County Council of women's home demonstration clubs met in regular session January 3 in the assembly room at Benjamin. New officers were in charge of the meetings.

The standing committees of 1940 gave their final reports. The vice chairman, Mrs. Wallace Harbert, resigned and Mrs. J. C. McGee was elected to the place.

The members voted to have an all-day meeting every other month, beginning with the February meeting.

Oneal Heads State Education Board

Ben G. Oneal, Wichita Falls attorney, was elected president of the state board of education which met in Austin the first of this week.

Oneal, who entered public life as a state senator, is a close friend of former Governor James V. Allred. The president said the board transacted routine business at the first session since the appointment of new members by Gov. W. Lee Odaniel.

TO AUSTIN CONFERENCE

Supt. Merick McGaughey of Benjamin and Deputy State Supt. Anthony Hunt of Childress attended the school administrator's conference in Austin the first of this week. More than 600 school administrators were present for the banquet which opened the conference.

Are You On Our Honor Roll?

Knox county citizens continue to add their names to The Munday Times honor roll list of subscribers with many new subscriptions coming in during the past few days.

The Times bargain rate will end on January 31, and those who have not yet renewed their subscriptions are urged to do so before that date and save the 50 cents on the subscription price.

The following subscriptions have been received since the list was published last week:

A. R. Booe, J. L. Ford, Mike Phillips, E. E. Nix, Weldon Floyd, William Escobar, L. O. Graham, W. A. Hobbs, Gene Brazzell, W. E. Braly, Mrs. Lessie Jackson, G. C. Thompson, John Brown, Ernest Ingram, Melvin Thompson, M. J. Gass, Jack Moorman, C. B. Warren, Mrs. J. L. Rutledge, E. B. Bowden, Ira Bowden, W. L. Lansford, J. B. Bowden, J. K. Nelson, F. H. Russell, Mrs. Carl Tyree, I. J. Troy, Mrs. Annie Russell, Fred N. Decker, E. U. Parchman, Peter Albus, T. W. Walker, V. M. Reeves, J. C. Phillips, J. L. Owen, A. W. Griffin, A. D. Irick, Bert Griffin, J. W. Elliott, W. H. Mansfield, R. L. Alexander, A. J. Beatty, Ray Holcomb, H. C. Hawes, Coates Cafe, Mrs. L. D. McElhannon, C. A. Barton, G. D. Jones, C. L. Griffin, Ross Bates, Tom Harlan, H. E. McMahon, George Crouch, Tom Weber, J. N. McGaughey, L. A. Jobe, L. L. Huckabee, Frank Yeager, Woodrow Myers.

Former Teacher In Local Schools Dies on Monday

H. H. Pfarr, 55, a former teacher in the Munday Independent schools, died last Monday in a hospital at Jacksonville, Texas.

Mr. Pfarr taught here about 28 years ago and will be remembered by many Munday citizens. He was superintendent of the Arp, Texas, schools.

Funeral services were held at Troup on Tuesday afternoon, and burial was at Rusk, where he formerly was school superintendent.

SUPT. COLLEY ATTENDS MEETING IN AUSTIN

S. V. Colley, superintendent of the Munday Public Schools, spent the first of this week in Austin, where he attended a school administrators' conference.

The conference was called by State Supt. L. A. Woods for the purpose of conferring with school administrators regarding the school problems of the state.

HOLDS CONFERENCE HERE

Rev. T. M. Johnson of Stamford, presiding elder of Methodist churches of this district, was in Munday last Sunday afternoon and held the first quarterly conference of the year for the local church. Rev. Johnson was scheduled to preach here Sunday morning, but filled the pulpit for the Rule pastor who was ill.

DR. RENEAU HOME

Dr. J. B. Reneau, Jr., of Paducah, who recently underwent an appendectomy in Wichita Falls, was brought home last Sunday. He is reported to be doing nicely and is at the home of his parents, Mr. and Mrs. John Reneau.

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"—

BANK STATEMENT SHOWS STRENGTH

The First National Bank in Munday closed the year 1940 in a strong financial condition. The bank's statement, issued at the close of business on December 31, shows the highest deposits it has ever shown when a call was made.

At one time in November, deposits were higher than on December 31, running almost \$850,000 at one time. Deposits were \$710,257.46 on December 31. W. E. Braly, president, stated deposits are now more than at any time in the bank's history.

Having assets of over \$762,000, the local bank is in sound financial condition. Included in their assets other than banking house, furniture and fixtures, loans and discounts, etc., are \$82,879 in United States bonds, \$29,060 in other bonds, \$21,685 in State of Texas warrants, \$9,104 in county school warrants, \$11,762 in bills of exchange (cotton), and \$289,803 in government cotton and wheat loans.

DOLLARS CANNOT BUY YESTERDAY

A journalist, looking back upon the year that has just closed, finds an infinity of matters about which to write. A great war, which is in essence a titanic struggle between two irreconcilable philosophies of life, has steadily spread. A whole continent has felt the boot of a new conqueror with a plan for world dominion as vast as that of Napoleon. The world's economy has undergone violent change, and stability has been replaced by chaos.

Here in our own country, we have recently gone through the most tradition shattering election in our history. The great issues of that election were threefold. First, whether to elect a president for a third term. Second how to keep America out of war, while aiding Britain with all steps short of war. Third, how to build a military and naval establishment unprecedented in our history.

The second and third issues are the most vital this country faces today. They are not partisan issues.

It is obvious to anyone not blinded by false and baseless optimism that the great plans of last summer for building an impregnable defense at once are not being realized. It is easy to appropriate gigantic sums of money. It is easy to make blueprints of tanks and airplanes and fighting ships. It is easy to have a great defense establishment "on order." But dollars and blueprints do not worry potential invaders. The forces which have again brought the world to Armageddon have respect only for preparedness. The weak are given no quarter. Moral principles, Christian teachings, are scoffed at. That is not pretty, but it is true.

This America we know cannot be sure of existence unless it solves the problem of how to swiftly build our defenses—and to build them in keeping with the democratic tradition which they are designed to protect and save. All the productiveness of this nation is needed now—of capital, of government, of labor. The industrialist who seeks outrageous profits; the official who plays politics in time of danger; the labor leader who foments unjustified strikes in vital defense industries—cannot be tolerated. We must never forget that we can be destroyed from within, no less than without.

The American people cannot accept failure from any man—whether the man who fails holds a great title, or is a lowly worker in a factory. There is no excuse for failure. No nation in the world is potentially so productive as ours. None has a tithe of our riches—riches of manpower no less than riches of wealth and of natural resources. In this crisis, we shall really learn the calibre of our people and our public men.

It is said of France that, in preparing to resist aggression, her government, her industries, and her workers did "to little and did it too late." We, too are doing too little. But let us hope that we can correct our errors before it is too late. When the head of our Navy observed that "dollars cannot buy yesterday" he stated a grim truth that every American must realize.

In this great national effort there can be no failure. The thought cannot be tolerated that democracy here has fallen on such evil days that it cannot compete with the dictators. In England we have a magnificent example of what free men, fighting to retain that freedom, can accomplish against heartbreaking odds.

It was Winston Churchill who said on taking office that he could offer his people nothing save sacrifice and sweat and toil. Here we must absorb an ample measure of that spirit. No one else can make our sacrifices for us. The responsibility for the perpetuation of our way of life falls squarely and irrevocably on the shoulders of us all. No one can avoid it.

To say that we have now entered on the most critical years modern Western civilization has ever known, is to simply state the obvious. We do not know how much time we will have to make ourselves secure to guarantee peace in the only way possible in this disrupted modern world, which is by making ourselves so strong that no aggressor or possible combination of aggressors will dare to try our strength. We do know that time, most precious of all elements, must no longer be lavishly wasted.

To stay at peace—to become strong. Those are our national objectives. We have the great industries—we have the men—we have almost limitless resources. To attain those vital goals demands the full and friendly cooperation of government, of labor, of industry, of agriculture, of all. We must not be tried and found wanting.

YEAR-ROUND COTTON "PUSH"

Some months ago, National Cotton Week was observed. The retailers of America joined together in a great mass effort to stimulate sales of all manner of cotton products.

Now, in the opinion of John P. Nichols, managing director of the Institute of Distribution, an organization which represents America's principal non-grocery chain systems, special effort should be given to "pushing" cotton the year around.

That should be done, he said, in conjunction with a year-round educational program provided by the cotton industry itself. "Through the work of such a program," he added, "a hard-hitting effort should be provided, for example, to educate America to 'call for cotton when you buy'; to encourage the development of worthy new cotton uses; to reemphasize the miracle of cotton in schools, in the public press and elsewhere . . . in short, to 'sell' the story of cotton."

That is the kind of work we need in this country. Cotton underlies the whole economy of a great group of states—cotton is the source of livelihood of millions of people. As foreign markets disappear, the cotton producers and processors must turn to the home market. Cotton can have no more effective ally than the retail stores of this country.

KNOX COUNTY NEEDS MORE PAVING

Word has come to us, via grapevine route, that the next paving work which the Texas Highway Department plans to do in Knox county is on the road to Benjamin through Rhineland.

Of course it is not expected that anything whatever will be done on this road until the project from Munday to Knox City is completed.

The first concern of Munday citizens, then, is the completion of the Knox City road. This will likely be done as soon as funds become available, but we as citizens must not expect to sit quietly on our haunches and get such jobs done.

Then we mustn't lose sight of the Benjamin road. This should be one of our aims for 1941—for the Chamber of Commerce, the Lions Club, county officials and individual citizens.

People who get things done are those who are making trips to Austin and asking highway officials for such projects. Success is not the reward of one trip, or two, or but highway officials do not favor one county merely because it lets them alone and forget those that are continually "on their backs" about needed road work.

It takes effort and lots of it to get these things done.

Albert Nelson of Buffalo Minn., is a "one-man band." He plays 32 instruments, singly and in groups, using his feet, his elbows, wrists knees, lips and lungs.

While Giovanni Evangelisti was waiting for a trolley in Rochester, N. Y., a door handle of a passing car caught his trousers and pulled them off. The auto driver took him home.

Tobe Catlett of Aurora Neb., bought a chest of drawers at a sale for 40 cents. On his way home a drawer fell open and out came an envelope containing \$165.

When a fellow loudly proclaims that he is as good as anybody, it may be suspected that he is beginning to have his doubts about it.

So work that the boss will never discover that he can get along without you.

Some husbands are so timid that they don't even dare to make a minority report.

A Japanese statesman declares that war between his country and the United States would be absurd. So are all wars.

A Colorado junk dealer near a grade crossing displays this sign: "Go ahead; take a chance; we'll buy the wrecked car."

A couple who were married recently in Hartford Connecticut, left for their wedding trip with this sign attached to their car: "This is real love, and not conscription."

A good many big city officials are machine-made and hand-picked.

PLUG THOSE HOLES

Gems Of Thought

LIGHT OF RELIGION

List is sown for the righteous, and gladness is for the upright in heart.—Psalms 97:11.

It is mind, after all, which does the work of the world.—Channing.

Materially minded men and women don't really unite; only with spiritual unity can people progress.—Lady Astor

He who sees clearly and enlightens others minds most readily, is keeping his own lamp trimmed and burning.—Mary Baker Eddy

Let your religion be seen. Lamps do not talk; but they do shine. A lighthouse sounds no drum. It beats no gong. Yet far over the waters its friendly light is seen by the mariner.—Cuyler

Walk in the light, and thou shalt see
Thy path, though thorny, bright;
For God, by grace shall dwell in thee,
And God, Himself is light.—Bernard Barton.

APPLICATIONS RECEIVED FOR 1941 SHELTERBELTS

Wichita Falls.—"Over 425 applicants have been received for shelterbelts to be planted in Northwest Texas beginning next month," reported W. E. Webb, State Director of the Prairie States Forestry Project. Already farms have been examined and found satisfactory. Approximately 135 applications had to be turned down because of unusable soil, or for some similar reason. Only farms with sandy-textured soils are being accepted as this is the best type for tree growth. There is less chance for drought killing trees on this type of soil.

Many of the applicants for the shelterbelts are "repeaters." They are from farm operators who have other older belts and have watched them grow and noted their protective influence on the soil and crops in adjacent fields. R. J. Tucker's statement that his belts saved him a dollar per acre of cultivated land is a common one. Mr. Tucker lives in Cottle County and states that he reckons this saving because he needs to sow his crop but once now, where it formerly took three and sometimes as many as five sowings to get a crop established.

State Director Webb stated that at least half of the applications received were from farm operators who have had belts planted in previous years.

Applications are being received by all County Agents in the Shelterbelt area as well as by Forest Officers located in most of the county seats. Mr. Webb suggested that those interested in shelterbelts turn their applications in to the local news office, the banks, or any of the local stores. A penny post card addressed to the U. S. Forest Service at most of the county seats in the Northwest Texas area will usually get action from the local forester.

Texas Counting Its Traffic Dead

AUSTIN—Though a new year has begun, state police are still counting the traffic dead of 1940.

Not till January 18 will a complete count be available, but already enough fatalities have been tallied to convince Col. Homer C. Garrison, Jr., state police director, that the state's record of perennial decrease in the ratio of deaths to miles traveled, has been shattered.

Early in December the 1939 total of 1,583 traffic deaths was broken. Then more and more deaths piled up during the remainder of the year's most dangerous month, which includes the Christmas and New Year's Eve slaughters. Reports to date indicate that an earlier estimate of 150 deaths for December, bringing the year's toll to approximately 1,733, will stand up. And, if these figures prove correct, the number of deaths per 100,000,000 miles of travel will have increased from the all-time low of 1,041 in 1939, to at least 10.83.

Incomplete figures indicate an increase of approximately nine per cent in traffic deaths and of six per cent in vehicular travel during 1940, bringing the total mileage to approximately 16,200,000,000.

Accidents increased roughly four and one-half per cent, only half the amount in deaths. But records show an increase of 28 per cent in drivers involved in fatal collisions, who were driving at unsafe speeds.

Drinking drivers in fatal accidents increased 25 per cent, and deaths among drinking pedestrians gained more than 35 per cent.

The number of traffic law violations figuring in all type accidents increased more than 20 per cent.

Increases were shown in fatal collisions with pedestrians, between trains and motor vehicles, between bicycles and motor vehicles. Reductions occurred in collisions between vehicles and with fixed objects. Little change was shown in the number of fatalities from overturning, running off the road and other non-collision accidents. Accidents increased in cities, on highways and on roads, decreasing slightly in towns of less than 2,500 population. Deaths, however, increased in all these brackets, and the greatest increases were on the highways and roads.

Colonel Garrison pointed out that the fatality increase was "wide-spread and general, following very closely the ratios of population density and vehicular travel."

"Selective enforcement has eliminated virtually all the state's extreme danger spots, the so-called 'death corridors,' and the problem now is one of preventing accidents under 'normal' conditions," Colonel Garrison said.

MORE SCHOOL AID MADE AVAILABLE

Payment of \$2 per capita from the available school funds to Texas public school districts was announced last week by Supt. L. A. Woods.

The payment, aggregating \$3,075,232 on the basis of 1,537,616 scholastics, raised to \$7 per capita the amount applied on the \$22.50 apportionment for the present school year. Woods said another \$3 per capita would be paid in February.

"SING A PSALM OF SIXTY"

A Colorado minister makes the following suggestion to motorists: "At 25 miles sing, 'I am But A Stranger Here, Heaven is My Real Home.'"

At 45 miles, "Nearer My God To Thee."

At 55 miles, "I'm nearing the Port and Will Soon Be Home."

At 65 miles, "When the Roll is Called Up Yonder, I'll Be There."

At 75 miles, "Lord I'm Coming Home."

Christmas Seal Sale Successful

The Christmas Seal sale before Christmas netted \$9.58, the largest amount ever to be sold here in the elementary school. Ethel Franklin led the list in amount sold with \$3.09. The boys and girls worked to sell the Seals simply because they wanted to have some part in contributing toward the Tuberculosis Prevention Fund. Following is a list of those that had a part in the selling of these stamps, and they take this means of thanking each of you that had a part in the buying of these Seals:

Mary Jo Steele, Ethel Franklin, Marquette Fitzgerald, Peggy Smith, Ruby Dell Franklin, Wayne Rogers, Maxine Yeager, Jean Ratliff, Ray Hamilton, Wanda Henson, Joe Frank Boley, Gloria Strickland, Charlotte Williams, Clifford Killian, Larry Kmssey, Maxine Voyles, Bobby McGraw, Wanda J. West, Joy Guffey, Alfred Hendrix, Darlene Brown, Mozelle Booe, Joe France Harrison, Billie Gene Taylor, Donald Waheed and La Rue Johnson.

ROOM 1A

Our room lost three pupils last week. We were very sorry to see them leave. Joy Guffey moved to Abilene, Bobby Joe Fitzgerald moved to Sunset, and Wanda June West went to Benjamin.

At the beginning of the week we had 100 per cent in attendance.

SECOND GRADE NEWS

Ray Harmon from Weinert entered the 2nd grade this week. We are glad to have him.

Joan Williams has moved to Sunset. All the boys and girls are sorry to have her leave.

An Eskimo Unit

The 2nd grade has started a study of the Eskimos. At present they are reading stories about Eskimos and collecting pictures of the Far North. The blackboard for this month will be a frieze of Eskimoland. The students are very

interested in the study.

4A To Do Experiments

We have a new health book with which we will use our science readers. The first topic we took up was the study of food. Things we are learning in connection with this are: the digestion of food, how food helps to develop bones and muscles, and how food makes us grow. We plan to perform some experiments to find out what the foods that we eat contain. This is an extremely interesting study.

Laura Bess Moylette Celebrates Tenth Birthday

Laura Bess Moylette was honored with a party on her tenth birthday, January 6. Guests were pupils in 4A and Mrs. Cooper. Many lively games were played. Len Ford was the winner of the guessing contest. The girls won in a spelling match. Balloons were given as favors. A lovely cake with ten candles was served with ice cream to everyone present.

Muddy Street Conquered

Some folks think these muddy streets can't be conquered but leave it to the elementary school and the problem will be solved. Someone suggested a portable bridge, one that could be put down and taken up without getting in the mud. Thanks to A. L. Smith, (Smitty to all of us) who donated the lumber, and to Mr. Gray for excellent service in making the portable bridge, we now have a "pick me up and lay me down" bridge and no one has to get in the mud.

Too much credit cannot be given these patrol boys for the fine service they are rendering. These boys are doing this as their contribution toward the American Safety Program. Each day these boys must go out into the cold or mud and perform their duty without a whimper. Our school and town are proud of you boys. An

David-Goliath Stand of Greeks Spurs Drive for Relief Funds

SUPPRESSED by fresh reports of the tiny Greek Army's heroic resistance to Mussolini's forces, the Greek War Relief Association has intensified its nationwide drive for \$10,000,000 to aid distress among the civilian population in the invaded areas.

Appeal for the funds, which will be used for the relief of civilian suffering behind the lines of the fighting Greek army was launched November 20. Already \$614,384.06 has been received for transmission to Athens for distribution by the Administrative Committee for American Relief in Greece.

The funds will go to purchase ambulances, food, clothing and other relief supplies needed to alleviate distress caused by the Italian invasion.

More than 500 local committees have been organized throughout the United States, with the assistance of 2000 Greek clubs and other organizations to aid the mother country.

Harold S. Vanderbilt, American philanthropist and sportsman, heads the list of distinguished men and women who are serving on the National Citizens Committee of which Mr. Vanderbilt is honorary chairman. The Most Rev. Athenagoras, Archbishop of the Greek Orthodox Church of North and South America, is national chairman; and Spyros P. Skouras, head of a national chain of motion picture theatres, is national president.

Also engaged in the appeal are Mrs. Huntington Astor, honorary national chairman of the Women's Auxiliary, and Grand Duchess Marie of Russia, Madame Kimon Diamantopulo is honorary sponsor of the Auxiliary.

Others who have enlisted in the cause for Greece are the Rt. Rev. Fulton J. Sheen of Catholic Univer-

The Most Rev. Athenagoras turns over a check to Harold S. Vanderbilt, honorary chairman, covering the first disbursement to be made for civilian relief in Greece.

sity and the Rt. Rev. Henry St. George Tucker, presiding Bishop of the Protestant Episcopal Church. National headquarters have been established at 730 Fifth Avenue, New York City.

effort has been made to get these boys some caps signifying their position and official duty, but so far the caps have not arrived.

Matron Service A Great Asset

To The Grammar School One of the greatest helps to pupils of the grammar school is the maintenance of the matron service. This service includes first aid in minor injuries, a cot for children who become ill at school, and perfect cleanliness in the rest room. Mrs. Bason has proved a very worthy matron and her services are appreciated by the pupils and faculty.

exposure is required to contract the infection. The communicable stage extends from seven days to three weeks after exposure until development of the characteristic whoop.

Among precautionary measures to be considered by parents as protection of their children against whooping cough are the following:

1. A child with what appears to be an ordinary cold should be kept away from others and a physician consulted to determine the true nature of illness.
2. Whooping cough vaccine of the approved type is of value in preventing or lessening of the severity of the disease. The vaccine is usually administered during the first year of infancy.
3. If whooping cough develops in a community, young children should be kept at home to escape exposure.

Isolation plays a hardship on a child in that it keeps him from seeing relatives and playmates. On the other hand, isolation exerts a two-way, salutary influence on public and individual health. First, isolation of the patient helps to prevent the spread of whooping cough to others who are susceptible. Second, and this is of immediate importance to parents, isolation protects the sick child against possible exposure to severe infection which may be carried by otherwise healthy persons.

The nurse was inquiring of the new patient, a husky looking six-footer from the country, whether he had brought any pajamas with him.

"Pajamas? What are pajamas?"

"Night clothes, didn't you bring any with you?"

"Heck no," answered the patient. "I ain't no social rounder. When night comes, I go to bed."

Weekly Health

M.D., State Health Officer
Issued by Dr. Geo. W. Cox,
of Texas

Austin.—Careful isolation of a child ill with whooping cough is a measure that pays health dividends, according to Dr. Geo. W. Cox, state health officer.

There is no other communicable disease so dangerous as whooping cough to the very young, and there is no other infection to which there is a more universal susceptibility in infancy and childhood. Over 90 per cent of all deaths from whooping cough occur in children under five years of age. Whooping cough is dangerous, moreover, because there is no natural immunity against it during the first six months of life as there is in measles.

Whooping cough is usually transmitted by direct contact with the secretion of the mouth and the nose, or with articles freshly soiled with the secretion. Only a short

Max Terhune Coming to Roxy Theatre As "Alibi" of "The Range Busters"

Max Terhune, whistler, imitator, ventriloquist, magician, comedian and character actor, is coming to the Roxy Theatre for one day. He is versatility plus, perhaps one of the most versatile actors in Hollywood—the man who fools the barnyard animals and fowls and makes a canary ashamed of its song.

Max Terhune has traveled from coast to coast and is known internationally. He is formerly one of the stars of the Three Mesquiteers Westerns—now "Alibi" of the Range Busters. He is an imitator of birds, barnyard animals, musical instruments, a magician, ventriloquist and character actor. His type of act is the sort of talent that comes after years of rehearsing and difficult cultivation.

Years on the Orpheum Circuit, features on radio and in pictures, he combines his talent with dry homespun humor and endears himself to the audience. He is making personal appearances over the country with his dummy, "Elmer."

Lullaby has appeared in 29 of the 22 Three Mesquiteers Westerns, and in such other pictures as "Manhattan Merry-Go-Round," "Man of Conquest" as Deaf Smith, and many others. He was with the National Barn Dance over WLS, Chicago, and many other radio programs.

You have always wanted to see a real movie star in person, so here's your chance. He will be at the Roxy Theatre for one day, January 13, only, so come early, avoid standing, and get the treat of your lifetime.

Mrs. E. W. Harrell and her sister, Mrs. Castles of Anson, spent the week end in Stillwater, Okla., visiting their mother, Mrs. Ida Davis.

HOME FROM VACATION

Mr. and Mrs. Walter Beavers returned home last Thursday from a Christmas vacation which they spent in Wichita Falls, Fort Worth and Dallas visiting relatives. They were gone about two weeks, and Mr. Beavers stated he saw a sister in Fort Worth whom he had not seen in 15 years.

GOES TO VIRGINIA

Mrs. Helen von Baumann left last week for Lexington, Virginia, where she is visiting her brother-in-law and sister, Dr. and Mrs. Wm. Pusey, III.

Miss Margaret Tiner returned to Abilene last Thursday to resume her work in Hardin-Simmons University after spending the holidays with her parents, Mr. and Mrs. W. V. Tiner.

COTTON FARMERS GIVE AAA 88 PER CENT VOTE

Final tabulation of the ballots cast in the AAA's cotton marketing quota referendum December 7 showed 137,052 votes in Texas favoring quotas and 15,588 opposing for a total vote of 152,640 and a favorable percentage of 88.1 per cent.

The total vote dropped about 14,000 from last year's total but the percentage of voters favoring quotas climbed from last year's 82 per cent to 88.1 percent this year, B. F. Vance, Assistant State AAA Administrative Officer, pointed out. Analyzing the returns, Vance said that in the 176 counties out of the 225 in which farmers voted the percentage favoring quotas was larger than last year, while in only 45 counties was the favorable percentage smaller. In 4 counties the percentage was unchanged—100 per cent last year and this year.

Sheriff Louis Cartwright of Benjamin was here Saturday on official business.

W. H. Atkinson, Miss Louise Atkinson, Mrs. Ike Huskinson and Miss Gayle Preston attended the Texas A. and M.-Fordham football game in the Cotton Bowl on New Years Day.

Mrs. R. C. Johnson of Chickasha, Okla., visited relatives and friends here several days last week.

Miss Mary Moore left last week for Denton to resume her studies in T.S.C.W. after spending the holidays here with her parents, Mr. and Mrs. W. R. Moore.

Miss Mary Couch of Haskell visited friends in Munday over the week end.

Mr. and Mrs. W. E. Braly and Harvey Arnold were visitors in Abilene on New Years Day.

Munday Girl And Haskell Boy Are Married Jan. 1st

Miss Zenobia Lewis, daughter of Mr. and Mrs. Jim Lewis of Munday and Mr. James McCoy Wright, son of Mr. and Mrs. J. A. Wright of Haskell were united in marriage on January 1, 1941, at the home of Rev. C. Jones at Haskell.

The bride's maid was Miss Argie Wright, sister of the groom. Best man was Jim McFadden of Haskell.

Mrs. Wright was dressed in navy blue picadilly flannel skirt and a blouse of blue woolen knit. The groom was attired in blue.

Rev. Jones, who married the couple, officiated at the wedding of the bride's parents, Mr. and Mrs. Jim Lewis, 26 years ago.

Bridge Club Has Meeting Friday in Jungman Home

Members of the Tuesday Night Bridge Club met in the home of Mrs. Carl Jungman last Friday night. Mrs. Jungman and Mrs. Lawrence Kimsey were hostesses.

Guests at the meeting were Dore and Mrs. W. M. Taylor of Goree and Mrs. Roy Sanders of Abilene.

Members present were Mr. and Mrs. Fred Broach, Mrs. H. A. Pendleton, Mrs. C. P. Baker, Mr. and Mrs. W. R. Moore, Mr. and Mrs. Carl Jungman, Mrs. Grady Roberts and Mrs. Kimsey.

New Deal Club Meets Thursday With Mrs. Jungman

Members of the New Deal Bridge Club were entertained in the home of Mrs. Carl Jungman last Thursday afternoon. High score at the games went to Mrs. Sebern Jones.

The hostess served a delicious refreshment plate to the following members and guests:

Mesdames Lawrence Kimsey, J. C. Harpham, Wade Mahan, Sebern Jones, Grady Roberts and the hostess, members; Mrs. Fred Broach, Jr., and Mrs. Robert Green, guests.

Mr. and Mrs. A. B. Nime of Shreveport, La., spent the first of this week visiting in the home of Mr. and Mrs. Sied Waheed.

New Officers For Goree Woman's Club Are Named

A meeting of the Goree Woman's Study Club was held recently in the home of Mrs. Orb Coffman. New officers were elected to serve for the next club year.

Newly elected officers include the following:

Mrs. Orb Coffman, president; Mrs. E. F. Heard, first vice president; Mrs. Norman Roberts, second vice president; Mrs. S. F. Farmer, recording and corresponding secretary; Mrs. S. G. Hampton, critic; Mrs. H. D. Arnold, parliamentary; Mrs. W. L. Stewart, reporter, and Miss Sarah Elizabeth Bridges, mascot.

Mullican Family Enjoys Party At Home in Munday

A Christmas party was given Christmas eve at the home of Mr. and Mrs. C. H. Mullican.

Gifts were placed on a large tree, where the family and friends gathered at about nine o'clock to receive their gifts which were distributed by Dee Mullican, Jo Nell Mullican, Betty Carolyn Morrow and Mary Jo Steele.

Present for the occasion were Mr. and Mrs. C. H. Mullican, Mr. and Mrs. Dee Mullican, Mr. and Mrs. E. H. Mullican and children, Dorothy Lee, Louise and Jo Nell; Mr. and Mrs. Red Morrow and children, Betty Carolyn and Dickie; Mr. and Mrs. Boyd Meers and son, Boyd Lynn; Mr. and Mrs. Elmer Cude and son Bobby Gene; Mr. and Mrs. T. C. Blackard of Harlingen, Mr. and Mrs. J. D. Roberts and son, Ronny Lynn of Vera; Mrs. Julia Smith, Mrs. Jim Steele and daughter, Mary Jo, and Mrs. Brownfield.

Wesleyan Service Guild Holds First Meeting of Year

Members of the Wesleyan Service Guild held their first meeting of the year last Monday night, with Mrs. Luther Kirk as hostess. The Guild had not been meeting regularly during the holiday season.

After a business session at which the president, Mrs. Joe B. King presided, Mrs. Kirk reported the "Harvest Day" meeting at Rule.

Mrs. Layne Womble was leader of the program on service, with Mrs. J. B. King and Miss Ruth Baker taking part. The program was climaxed by signing of pledge cards. A social hour was enjoyed, and refreshments of cake, topped with whipped cream, and hot tea were served to the following:

Mmes. Jim J. Roberts, Aaron Edgar, Joe B. King, M. B. Bounds, O. H. Spann, Layne Womble, Luther Kirk, and Misses Ruth Baker and Merle Dingus.

Mr. and Mrs. H. L. Caughran and son of Clovis, New Mexico, spent the first of this week here, visiting relatives and friends, and attending the bedside of Mrs. Caughran's father, J. A. Hendrix, who is seriously ill.

Kamal Waheed of Shreveport, La., spent the first of this week here visiting his brother, Sied Waheed, and other relatives.

Prepared for your newspaper by Betty Crocker Home Service Department

HAVE YOU HAD ENOUGH VITAMIN B. TODAY?

First of all... just what is Vitamin B? Why is it so important to our daily diet? Most everyone, I'm sure, has been made aware that the whole alphabet of vitamins is essential for normal Growth... Health... and Vigor.

Each vitamin contributes something essential. Vitamin B's speciality is to help keep our nerves steady. It helps children grow normally. It stimulates our appetites and helps regulate our bodily functions.

There are many other causes too, of course, that may make us nervous. Eye strain is one of these other causes. There can be other reasons why we suddenly lose our appetites... or our pep.

However, if a member of your family seems nervous and upset and doesn't eat, it would be a good idea to check carefully on his diet to find out if he is getting his full daily quota of this important vitamin. It's easy to do.

Measuring Vitamin B.

First of all... let us explain that Vitamin B, is measured in international units. Each adult should have at least 300 to 400 international units daily. Each child should have at least 100 to 200 international units daily.

Vitamin B is contained in lean pork, milk, whole grain cereals and breads, fruits... especially the orange and banana... vegetables... especially green leafy vegetables such as cabbage, spinach and broccoli.

The amounts of B, in these principal sources are listed below. Add the units of B, foods you eat each day and see whether the total is under or up to the number of units you should have for that day.

1 small serving of lean pork	222 units
1 sauce dish lima beans	115 units
1 orange	71 units
1 sweet potato	70 units
1 sauce dish broccoli	65 units
1 sauce dish spinach	60 units
1 sauce dish cabbage	50 units
1 sauce dish carrots	50 units
1 sauce dish fresh peas	50 units
1 sauce dish canned peas	45 units
1 glass of milk	48 units
1 slice whole grain bread	46 units
1 sauce dish string beans	40 units
1 sauce dish whole grain cereal	38 units
1 banana	30 units

A. R. Floyd And Miss Annie Burns Marry Saturday

Announcement was made this week of the marriage of A. R. Floyd of Muleshoe, Texas, and Miss Annie Burns of Munday. The couple were married last Saturday evening, January 4, 1941, at six o'clock at the Baptist parsonage. Rev. W. H. Albertson read the marriage ceremony.

Mrs. Floyd is the daughter of Mr. and Mrs. John Burns of this county, and is well known in Munday and surrounding territory. Mr. Floyd is a former resident of this county.

The couple will make their home at Muleshoe, where Mr. Floyd is employed.

Leslie Phillips, Miss Nellie Prather Marry Dec. 23rd

Simplicity and dignity were stressed in the wedding ceremony of Miss Nellie Louise Prather, daughter of Mr. and Mrs. O. C. Prather, and Leslie Worth Phillips, son of Mr. and Mrs. Jim Phillips of Munday.

The vows were solemnized Monday evening, December 23 at 7:30 o'clock in the study of Rev. J. E. L. Harrison, pastor of the Church of Christ in Holliday.

The bride was attired in a royal blue crepe, street length dress. Her accessories were harmonizing colors.

The couple were attended by Miss LaVerne Bumpas and Mann McCarty.

Mr. and Mrs. Phillips are making their home in Munday.

Mrs. Roberts Is Named Honoree At Tea Tuesday

Mrs. Grady Roberts, who is leaving this week for Austin, was named honoree at a tea and handkerchief shower given Tuesday afternoon in the home of Mrs. J. C. Harpham. Mrs. Harpham and Mrs. Jack Mayea were hostesses.

Each guest brought a lovely handkerchief, and these were presented the honoree.

Guests included Mmes. Dorse Rogers, Carl Jungman, Wade Mahan, Sebern Jones, Ralph Johnson of Chickasha, Okla., Aaron Edgar and Lawrence Kimsey.

HOME FROM HOSPITAL

Mrs. H. P. Hill, who was taken to a Wichita Falls hospital on Christmas eve for treatment, was brought home the first of last week and is reported to be doing nicely at her home here.

Mr. and Mrs. Jess Burnison were business visitors in Wichita Falls last Saturday.

Mrs. Olive Craft of Knox City was a business visitor in the city last Monday.

Colored P.-T.A. Has New Year Luncheon

Members of the colored P.-T.A. were given a New Year luncheon on Thursday, January 2, in the home of Aline Johnson by Alta Calbert, president.

Colors of white and blue were used, and a star was placed at each plate, with these words from the president: "Let the star of hope be your guiding light to a very happy and prosperous New Year. We as members of the P.-T.A., let us strive to make this one of the best in the state."

Mrs. Kimsey is Hostess to New Deal Club Members

Mrs. Lawrence Kimsey was hostess to members of the New Deal Bridge Club and several guests last Wednesday afternoon.

High score prize went to Mrs. Carl Jungman, and guest prize was awarded Mrs. Arthur Smith. A salad plate was served to the following members and guests:

Mmes. Ike Huskinson, Sebern Jones, Wade Mahan, J. C. Harpham, Carl Jungman, Grady Roberts, and the hostess, members. Guests were Mmes. Fred Broach, Sr., Arthur Smith, S. V. Colley, Dorse Rogers, Aaron Edgar and Fred Broach, Jr.

Bob Roberts of Abilene, former employee of the Banner Ice Co., was a business visitor here the first of this week.

Mrs. Dorse Rogers and son, Bill, returned home last week after a visit with Mrs. Rogers' parents in Cane Hill, Ark., and with a sister in Fort Sill, Okla.

Mrs. S. A. Bowden, Chester Bowden and Mrs. Oscar Spann took Mrs. Levi Bowden to Mineral Wells and visited there last Sunday. Levi Bowden and Oscar Spann are employed in Mineral Wells.

Barton Carl of Goree was a business visitor in the city Friday.

Mr. and Mrs. Jess G. Thompson and little daughter of Vera were visitors here last Tuesday.

Hefner H.D. Club Meets Tuesday in M. J. Jones Home

The Hefner home demonstration club met Tuesday afternoon, January 7, in the home of Mrs. Marion J. Jones with Mrs. Ernest Ingram as co-hostess.

The meeting was opened with the club pledge, and members answered roll call by naming a vegetable. The county council report was given by Mrs. E. J. Jones.

Committees were appointed for the year, and Mrs. C. B. Warren was named on the land use committee. Mrs. Van Zandt gave brief hints on indoor gardens.

The next meeting will be Tuesday afternoon, January 21, at 2 p. m., in the home of Mrs. Howard Barnett.

A delicious salad plate was served with coffee to all present.

State Fair To Give Prizes For Naming Pictures

Dallas, Texas.—A total of \$100 in prizes will be awarded winners in a contest to name the two motion pictures of the 1940 State Fair of Texas, it has been announced by Harry L. Seay, who has begun his third year as President of the "world's largest State Fair."

One prize of \$50 will be awarded for the best title sent in for the eleven minute reel and for the 18 minute picture.

Both pictures are in sound and color and in 16 mm and 35 mm size. They will be shown in schools, theatres and organization meetings throughout the Southwest in 1941. The 1940 picture was shown to more than 3,000,000 people.

The 11 minute picture will be released for showing first, and will be followed later in the year by the longer picture.

The contest to name the two pictures will close on February 1. The Title must be of six words or less. The pictures will be released for showing after February 1.

Den Davis of Knox City was a business visitor in the city last Tuesday.

Rhineland News

Mr. and Mrs. Leo Fetsch and son, Jimmy Lee, accompanied by Mr. Paul Fetsch visited in Muenster, Texas, over the New Year's holidays.

Messrs. Albert Fetsch, Leonard Albus, and Felix Fetsch made a business trip to Wichita Falls last week.

Mr. and Mrs. Edward Stengel and family left for their home at Pep, Texas, after visiting here for several days.

Messrs. Fred Decker, Sr., Fred Decker, Jr., Henry Decker and Mrs. Frank Herring spent several days visiting relatives and friends in San Antonio, Austin and Menard, Texas.

Mr. and Mrs. Joe Redder and family spent Sunday visiting in Scotland, Texas.

Messrs. Martin Kuehler and Carl Striegel made a business trip to Pop, Texas.

Mr. and Mrs. W. A. Jungman and family spent the week end visiting in Pop, Texas.

Messrs. Albin Homer, Reinhard Kuehler, Mr. and Mrs. Louis Kuehler, and Mrs. Tony Kuehler made a business trip to Pop, Texas. Miss Bertha Stengel accompanied them as far as Lubbock where she is attending Draughon's Business College.

County Clerk M. T. Chamberlain of Benjamin was a business visitor in the city last Saturday.

Mr. and Mrs. Roy Sanders and little daughter of Abilene visited in the home of Mrs. Sanders' parents, Mr. and Mrs. H. A. Pendleton, several days last week.

George Salem, Jimmie Silman and Sied Waheed were visitors, in Haskell last Sunday.

Maurice Stapp and D. P. Morgan, Jr., returned to Sherman last week to resume their studies at Austin College after visiting home folks here during the holidays.

Supt. S. Vidal Colley and Coach Billy Cooper were business visitors in Wichita Falls one day last week.

Sheriff Louis Cartwright of Benjamin was a business visitor here Wednesday.

High School Listens to President

Monday, January 6, 1941, the student body of Sunset high school assembled in the study hall, seated themselves before the new radio recently bought by the school, and prepared to listen to the President of the United States address the Seventy-Seventh Congress. As Sam Rayburn of Texas introduced the President, students hurriedly scribbled notes (of the President's speech) for the outline they had to make if they took civics or history. The rest of the students were not so fortunate, for they had to write a theme about the speech for English.

High school enjoys the new radio very much. New Year's day they were permitted to listen to the football game between Texas A. and M. and Fordham, next they were allowed to hear the President speak. They hope to hear many more interesting programs in the future.

Freshmen

The Freshmen enjoyed the President's speech. They heard it Monday afternoon in the study hall, and really did like the idea of writing an English theme on it. (Or did they?)

They are all studying very hard

for mid-term exams and hope to pass them.

Fifth Grade News

What is more jaded and useless looking than Christmas decorations after Christmas? Ours are discarded and our next plans along that line will be for Easter.

Jim Mack Davis, a former student of Sunset Grammar School, is back answering the roll again.

Flu patients in our room include the following: Patsy Nell Campsey, J. Horace Scott, Letrice Stephens, and J. C. Brown.

We are having excellent response from the various chambers of commerce of American cities in our Geography project. Our scrap books are going to be complete and interesting if our plans materialize.

Seventh Grade

The seventh grade is working hard now. They are having diagramming in English and, studying cubic inches in Mathematical Geography. The last half they are going to study civics instead of geography. All of the seventh grade is studying for math in the county meet, and they hope to win county in it.

The seventh grade is glad to have Ruth Walker back, she has been

RIGHT OUT OF THE AIR

By EARLE FERRIS

OLIVIA DeHAVILLAND, pictured here, is one of Hollywood's loveliest ladies. She is being heard over CBS Jan. 19 on the "Screen

Guild Theatre" program. Supporting her will be two famous Hollywood actors, Robert Young and Charles Winninger.

Mary Livingstone may be funny on the radio to millions of listeners, but not to her daughter, Joan Naomi Benny. Now six and one-half, the youngster is a faithful follower of the parental programs, but doesn't laugh at Mary nor will she let anyone else do so. "That's my mother—don't you laugh at her," Joan admonishes. But Jack, that's another story; you may laugh at him all you wish, on or off the air.

Tom Tully, shown here, has left the road company of Saroyan's "Time of Your Life" to take over

the lead in "The Home of the Brave," new serial drama about a group of Americans pioneering in a modern world, which started over CBS Monday, Jan. 6. Pauline and Frederick Gilsdorf, radio's only husband and wife script collaborators, are the writers.

Known as the singer who makes more recordings a year than any other radio personality, Eddy Howard, composer and vocalist, has

absent due to illness; they are also happy to have Grace Scroggins as a new pupil.

Juniors

Mid-term exams and I don't know a thing about gerunds, infinitives, and participles (Sigh several of the Juniors). It really seems as if the Juniors are having a rather difficult time learning their grammar, but after all almost anyone will hit a stump some time, which is pretty hard to cross, however, with a little studying he will finally manage to cross it.

The other day two Junior girls were talking, and the first one said, "You know something came up last night that I just couldn't get over." The second young lady

just been signed to sing on the new Edgar Guest programs heard three times weekly on NBC. He'll offer many of his own compositions.

Helen Hayes doesn't like to drive a car, so whenever her chauffeur is away, the radio actress rides her bicycle to Nyack, a three-mile jaunt, to do the dinner shopping.

Tony Martin, pictured here, is the baritone radio and movie star featured on the new program sup-

planting "Hollywood Playhouse" on Wednesday nights over the NBC-Red network. The program is heard in the east at 8:00 p.m., central area at 7:00 p.m., Pacific Coast at 8:00 p.m. and in the Rocky Mountain states at 9:00 p.m.

When producers of "Crime Doctor," heard over CBS Sunday nights, hire a new actor, they audition not only for acting ability but also for shoes. Explanation is that the entire cast marches like prisoners across a platform before the mike, as an identifying signature at the start of each broadcast.

One of radio's best known vocalists is Connie Haines, pictured here. She is heard every Thursday

night on the "Fame & Fortune" program at 8:30 p.m., e.s.t., with Tommy Dorsey's orchestra.

cried inquisitively: "What was it?" First young Junior: "The moon!" (My, my! What smart chillans!)

Fourth Grade

Several members of the fourth grade class have been absent because of flu and colds, but no one has been seriously ill.

Miss Tate has been ill, but reports are that she is feeling better, and the fourth grade is expecting her back in school soon.

It has been fun doing some good hard work after so much excitement and amusement during the Christmas holidays.

Weekly Health

M.D., State Health Officer
 Issued by Dr. Geo. W. Cox,
 of Texas

Austin Texas—Prevalence of scarlet fever in Texas increased 93.9 per cent during October, according to reports reaching the Texas State Department of Health.

Dr. Geo. W. Cox, State Health Officer points out that this is a characteristic seasonal rise in prevalence, as the number of scarlet fever cases increases simultaneously with the opening of school and remains more or less constant during the school year, and recedes in marked fashion during the summer vacation.

"Scarlet fever continues to be a menace to children," Dr. Cox has said. "Many cases are slight, but they may infect others who will be

SMILE

THE TIMES
 Want Ads

come seriously ill. Even mild cases may be dangerous, as post-disease complications may be severe.

"Children between the ages of five and ten years are most susceptible to scarlet fever—cases are more virulent and more deaths occur in this age group than any other. Therefore, the younger the child is, the more dangerous are the complications and the greater the likelihood that the disease will run a severe course.

"The incubation period (time between exposure to the germs and manifestation of the first symptoms may be from one to seven days, usually from two to four. The first symptoms are headache, sore throat, vomiting, fever. With very young children, the attack may begin with convulsions and a sudden high fever. Twenty-four to forty-eight hours after the original symptoms the rash begins to appear, and in two more days increases in brightness until it becomes a vivid scarlet, and covers the entire body. Symptoms which may indicate scarlet fever demand immediate medical attention and quarantine to prevent the spread of the disease. Appearance of scarlet fever in the home should be followed by a rigid quarantine for at least three weeks.

"The public should be warned against exposing young children to those exhibiting acute catarrhal symptoms of any kind. Take no chances, for scarlet fever is spread by the transfer of the infection in discharges of the nose and the throat, the ears and the abscesses of persons who are ill with the disease, and those who are carriers of the infection."

TEXAS SHELTERBELTS HAVE ANOTHER GOOD SEASON

Wichita Falls, Texas—"Survival figures on 250 miles of shelterbelts planted last year in Northwest Texas is well over 75 per cent," reported State Director W. E. of the Prairie States Forestry Project, recently. "Although the final figures are not in, encourag-

ing reports from the field men indicate that those green protective belts of trees have put in their best year to date."

Mr. Webb further stated that not only he, but his field workers foresters were pleasantly surprised at the results, as they feared that the early summer drought may have caused more than normal losses. "However," said he, "we could have known that having successfully passed through six droughty years, that the trees could take it."

All the trees are picked for the shelterbelt plantings because of their hardiness. Some are even more hardy than others. Honeylocust, bois d'arc, hackberry, flowering willow and many others have survived under the most extreme conditions of soil and lack of any water.

The South High Plains Counties again led all other counties in survival with 83.7 per cent. Last year this area led nearly two hundred counties in six states. The survival in other counties of Texas jumped several points for 1940 plantings, all of which is very encouraging to those interested in the Shelterbelt program.

"Considerable credit for the high survival should be given to the

hard-working farm operators," Mr. Webb stated. "Trees, unlike Yucca, don't just grow. They need annual good cultivations annually and a better job was done this year than has ever been done before." Mr. Webb believed this was due to the fact that the value of the shelterbelts are beginning to show up more as the increasing height of the trees and their dense branches extend their protection farther out into nearby fields.

A tourist, speeding along the highway at 100 miles an hour was stopped by a patrolman. "Was I driving too fast?" asked the tourist apologetically.

"Heck, no," replied the patrolman. "You were flying too low."

"How is Henney getting along with school, Eph?"

"Not so well, Garge. They've learnin' him to spell taters with a 'p'."

Mechanic's prof: "Name a great time saver."
 Soph: "Love at first sight."
 "And then there was the lady who stayed at the cave of echoes for a week, trying to get the last word."

J. E. REEVES

YOUR DODGE-PLYMOUTH DEALER

I GIVE YOU TEXAS

By Boyce House

Visting a great Texas ranch is a grand adventure—and so, when I was invited to Valdina Farms, as the 18,000-acre establishment is modestly known, it brought a thrill.

There was no difficulty in spotting the place at which one turned off the highway, a few miles west of Hondo, down in Southwest Texas, with a house, an old filling station and two gravel pits as guides, but the bump-gate I was told to watch for was so long in showing up, that the feeling came that perhaps it had been passed. However, the first man seen in several miles of driving said:

"You've got a long way to go yet—just watch for that high fence."

The fence proved to be of the type that is known as horse-high, hog-tight and elephant-strong—for it was a full eight feet tall. Several miles of this, and then the long-expected bump-gate.

There is an art in driving through a bump-gate—which is a double-gate with an axis, the purpose being to make it unnecessary for a driver too alight, also making sure that the gate will not be left open so livestock will escape. You ease up to the gate and give it just enough of a shove with the bumper that it swings clear, and at the same time, not too much of a push, or the other half will come swinging around and spank your rear—that is, the rear of your car.

Down a smooth gravel road the auto sped for perhaps a mile and a half; then off to one side loomed a rock-strewn river bed crossed by a concrete dam, which also served as a bridge. On the other side of the bridge stood a splendid array of buildings—anch-house, sheds, barns.

E. F. Woodward, one of the most successful oil men in the history of the Southwest, now retired, is the owner of the ranch, and he came forward to greet me. After a noon-day dinner with Mrs. Woodward as the gracious hostess, at which venison, hot, whole-wheat buns and apple pie were the features, came a tour of the place, with Mr. Woodward as guide.

He piloted an automobile skillfully through grazing land with rocks, tree-limbs and thorn-bushes offering no discouragement whatever, to show his visitor some of his fine Herefords. I soon saw also the first wild turkeys in my life. As the reader will have guessed by this time, I am hardly a woodsman, but not until my host said, "Do you want to see a buck?" did I realize how antlers blend into branches of trees and the dull coat of a deer merges with the brown of faded leaves. Following the pointed finger, I could see nothing at all, until all at once there was a buck, standing as steady as a statue and staring at us.

Valdina Farms has a wonderful collection of thoroughbred horses—in fact, it is one of the greatest breeding farms in the entire United States, even though racing is no longer permitted in Texas. The barns—all designed by Mr. Woodward—are built of steel, D'Hanis tile and concrete. The roofs are of concrete. (That's correct). To give you an idea of the size: the training barn, where horses are that are to race on tracks in distant states are trained, is 330 feet long, with a row of double stalls.

Alongside this huge structure is the track—and beyond that is a range of mountains. It would be hard to imagine a finer scene.

There are 600 acres in cultivation—all in a block. The furrows are a mile long. When plowing, (which is done by machinery) begins, it goes on night and day till finished. Planting is different; a part of the field will be sown and then there is a wait of 20 days and then another portion is planted—otherwise all the crop would mature at the same time, and what a job the harvesting would be!

Did you ever see 4,300 bales of hay in one mound? And corn milled into heaps of 250 bushels each? You notice a concrete rim two-and-one-half feet high, and that is a silo with 23 and one half feet under ground and there are eight of the things, holding 1,500,000 pounds of feed.

What an empire Valdina Farms is! Modern, gravel roads and sturdy bridges built by the owner; game; Texas thorough bred that will win glory on tracks in California, Kentucky, Maryland, and the East; a river (dry by name but, during a rainy season it can become a torrent) and legends—for two of the mountains have their stories. Holy Mountain was so named by the Indians and each traveler who passes over another of the mountains is supposed to leave a rock—a tradition that dates back to Spanish days.

And, above a cordiality and a hospitality that make the heart to glow. Yes, one leaves Valdina Farms with the realization that he has seen Texas and the West at their best.

People, Spots In The News

DEFENSE TEAMWORK . . . Symbols of aircraft builders' drive to meet U. S. rearmament needs were first Ryan S-T training planes completed in San Diego, and growing stacks of aluminum ingot, common sight on west coast now, waiting in southern California to be fabricated into parts for more defense planes.

'SHEER' DESTRUCTION . . . This unusual photo, passed by British censor, shows how whole section of a London flat was sliced off as by a giant cleaver from bomb from Nazi night raiders.

AW, POP! . . . A teaspoon of lemon juice in the gruel produced this reproachful expression, which won a \$5,000 first prize in nation-wide photography contest for Roy Pinney of Brooklyn, N. Y. Not so hard to tease, after all.

trudging through the mud Monday morning to school. Why, I know! Everybody is happy over the results of the basketball tournament held at Knox City this last week end. The Mustangs played a very exciting game with Sunset Friday night and to our disappointment, lost to Sunset by two points, after having played an extra two-minute period. The score was 32-30. However, this morning, the Mustangs met stiff competition in Seymour. At the end of the game, the scores stood 16-8 in favor of the Mustangs. Just one more team now remained between them and consolation. This team proved to be Weinert—the game was played on the part of all the boys, Benjamin came out victorious with a score of 14-10. That means another trophy in our trophy case, boys—keep it up!

One of the Mustangs, seemingly kicked up a little more dust than the others, for when the individual medals were given out, Pete Rutledge was chosen as one of the guards on the "All-Tournament" team. We are all very proud of you, Pete!

The volleyball girls were not so successful last week-end. Neither were the Junior boys basketball boys, for both teams met defeat

at O'Brien last Friday night. Too bad. Perhaps you'll do better Tuesday night when you meet the Knox City Grayhounds at Knox City. All three teams will play there. If you need a little excitement, come out to see the games, and you'll see plenty of it.

Also the Senior boys play in the Seymour tournament this coming week end.

Freshman News
The Fish don't seem to have much to say this week. We are all beginning to study for our mid-term exams. We are all trying to fulfill our New Year's resolutions. Our main one is to study harder.

Sophomore News
Now that we have all made New Year's resolutions, we hope to keep and use them throughout 1941. The Sophs aren't having much fun this week, and we are now writing themes in Literature II. All of us that attended the basketball tournament enjoyed it, and are very proud of the Mustangs. We know all of the other students are, too.

Junior News
The Junior play has been selected. The name of it is "Look Out, Lizzie." The parts were given out

Friday, December 20. We have not yet set the date for the presentation. We will probably start practicing this week.

Senior Personality
Wanda Nunley was born in Benjamin, February 16, 1923. She started to school at the age of seven, and she has hopes of finishing this year, and attending Texas Tech next year. The class is proud of Wanda as a member. She was president of the class last year and also won the loving cup for being the best student last year. Some of her favorites are:
Favorite sport: Football.
Favorite teacher: All of them.

Favorite song: There I Go.

RUPTURE SHIELD EXPERT HERE
H. M. SHEVNAN, widely known expert of Chicago, will personally be at the Kemp Hotel, Wichita Falls, Sunday and Monday, only January 12-13, from 9 a.m. to 6 p.m.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly but increase the circulation, strengthens the weakened parts, thereby closing the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume no matter the size or location. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments.
Mr. Shevnan will be glad to demonstrate without charge. Add. 6411 N. Richmond St., Chicago. Large Inisional Hernia or rupture following surgical operation especially solicited.

TEXAS OUT-OF-DOORS

Trapping Work Prospers
Antelope and deer trapping, the two major projects of their kind carried on by the Texas Game, Fish and Oyster Commission still flourish and are expected to continue to do so for at least two more months, the executive secretary of the Commission has announced. Birds and animals trapped on overstocked areas are planted in sections more suitable for game, but from which they have been shot out.

Latest reports are that nearly 300 antelope have been trapped in West Texas and that 100 more than that number of deer have been taken in the traps set by Game Department workmen on South Texas ranches. Antelope already trapped outnumber the total taken last year and the 400 deer enticed into traps are within three score of the deer distributed last year.

The Game Department is using airplanes with which to round up antelope with horsemen co-operating. Cost of the rounding up of the fleet animals has been reduced to where it is now \$1.70 per animal. That is believed to be the smallest cost of trapping any kind of game animal managed in this country.

This Story Tops 'Em All
A recent report in this column of a grandfather and grandson shooting so simultaneously that neither knew the other had fired brought an even better story from E. M. (Ted) Dealey, president of

the A. H. Belo Corp., publishers of the Dallas Morning News. Whereas grandpa hit and grandson missed, Dealey and a hunting partner not only shot simultaneously, but each hit the javelina at exactly the same spot. Best of all, it was getting along toward dark, and was so quaky that it made for extremely hard shooting.

Mr. Dealey's story, which should pall yarns of its kind: "Recently we were on the way back to our car at about dusk when two javelininas jumped out of a live oak thicket, one of those fellows, a big boar which we estimated weighed 75 pounds, stopped in a little grassy glade about 15 yards the other side of the live oaks. I was ahead of my hunting partners, Donald Bennett and Raymond Foy, by about 25 yards.

"When the javelina stepped into the grassy glade Bennett and I fired simultaneously. I didn't know he had shot and he didn't know I had fired. Each of us thought we had killed the boar. When we got him to camp and the Mexicans started skinning him out, we found there was only one bullet hole in his skin where the bullets had gone in. However, there were two bullet holes right through the carcass, approximately a half inch apart. You could have covered both of them with a silver dollar!"

That from hunters who were standing 25 yards apart and shooting in near dusk!

Why Not Include Girls?
Publicizing of a motto, "Take a Boy Hunting and Fishing," brought an inquiry recently from J. C. Cross of the department of biology of A & I College of Kingsville, Texas which read: "Why not change your motto or a real sportsman to include girls as well as boys. Girls like to hunt and fish." Thanks, Mr. Cross.

Coyote Returns Home
Even coyotes have a homing instinct—provided they have a home to go to, says the Corpus Christi Caller.

Mickey, a 6-months-old coyote raised by E. C. Schenider of Mercedes, recently was given away to a family six miles east of town. Being raised in the city ever since the day he opened his eyes, the young coyote evidently never developed a liking for the wide open spaces and even the farm had no appeal to this civilized convert of the wolf pack. Mickey returned to his home when his new owner turned him loose.

"Eating meat scraps from a plate is probably a lot easier than running down jackrabbits for a daily meal," Schneider says in trying to figure out why the wolf pup returned. "Confidentially though, I believe he likes his old master."

Geese Could Do Damage
Argentine geese are so thick in South America they are killed with

METHODIST
Funny thing about some of these Methodists. Some are very proud of their places of business, some are proud of their farms, other love their cattle. We could go on and on listing the things that Methodists are most interested in. Some love the Church and the principles for which it stands and the Christ it represents. Brother Methodist, where is your interest? The Scripture teaches that "By their fruits ye shall know them." It also says that "Where your treasure is there will your heart be also." Friend, in which bracket do you find yourself? "Lay not up for yourselves treasure upon earth, where moth and rust doth corrupt, and where thieves break through and steal; but lay up for yourselves treasures in heaven, where neither moth nor rust doth corrupt, and where thieves do not break through and steal."

The progress that your church makes depends largely upon the progress that you help it make. If every one was as attentive to its services as you are, how often would we have services?

Come and be with us in the services Sunday, we need YOU. Sincerely,
Your Pastor.

Mr. and Mrs. S. W. Holland of Haskell have moved to Munday to make their home. Mr. Holland is representing the Ideal Security Life Insurance Co., in this territory.

Willard Bauman and Bill Dingus returned to Lubbock last week to resume their studies in Texas Tech after spending the Christmas holidays here with home folks.

Miss Dorothy Campbell was a visitor in Wichita Falls last Thursday afternoon.

Jimmie Ashcroft of Knox City was a business visitor in the city last Saturday.

County Treasurer Bob Burton of Benjamin was a business visitor here last Saturday.

County Agent W. W. Rice of Benjamin was here Saturday, attending to official business.

Lemon Juice Recipe Checks Rheumatic Pain Quickly

If you suffer from rheumatic, arthritis or neuritis pain, try this simple inexpensive home recipe that thousands are using. Get a package of Ru-Ex Compound today. Mix it with a quart of water, add the juice of 4 lemons. It's easy, pleasant and no trouble at all. You need only 2 table-spoonsful two times a day. Often within 48 hours—sometimes overnight—splendid results are obtained. If the pains do not quickly leave and if you do not feel better, Ru-Ex will cost you nothing to try as it is sold by your druggist under an absolute money-back guarantee. Ru-Ex Compound is for sale and recommended by THE REXALL DRUG STORE

ANNOUNCEMENT

I will be at Terry Hotel in Munday, Texas, Tuesday, January 14, from 8:30 a.m. to 11:30 a.m. Next trip Tuesday January 28. If you have any trouble with your Eyes, Ears, Nose and Throat, or need Glasses—consult me there on that date, or call at my office at any convenient time.

DR. FRANK C. SCOTT

Specialist on Disease and Surgery of EYE, EAR, NOSE, THROAT AND FITTING OF GLASSES OFFICE—HASKELL, TEXAS

FIRST BAPTIST CHURCH

Here are some of the promises that we would do well to remember for this, or any other, year:

Deut. 33:27; "The eternal God is thy refuge, and underneath are the everlasting arms."

2 Chron. 7:14; "If my people, who are called by my name, shall humble themselves, and pray, and seek my face, and turn from their wicked ways; then will I hear from heaven, and will forgive their sin, and will heal their land."

Malachi 3:10; "Bring ye all the tithes into the storehouse, that there may be meat in mine house, and prove me now herewith, said the Lord of Hosts, if I will not open you the windows of heaven, and pour you out a blessing, that there shall not be room enough to receive it."

Luke 11:9; "And I say unto you, Ask, and it shall be given you; seek, and ye shall find; knock, and it shall be opened unto you."

May we turn to the word of the Lord for instruction in the way of life and living. Gods word never

fails. It will strengthen us in life, be our comfort in death, and by it we will be guided into the Father's house above. May we honor it for what it is, and for what it will do for us.

To those of you who are "Flinging" we would offer our word of comfort and cheer. We are hoping that all will soon be well again.
W. H. Albertson

"Why do people spend money they haven't got to buy things they don't need to impress people they don't like?"—Rays of Sunshine.

COINCIDENCE

Mike: "That's a queer pair of socks you're wearing. One is red and the other's green. Are they all you own?"
Pat: "Oh, no. I have another pair at home just like these."

The teacher was trying to impress upon the class the advantages of peace and disarmament.

"How many of you boys object to war?" he asked.
Up went several hands.

"Billy, will you tell us why you object to war?"
"Because they make history."

Rhineland Register

Published by Genevieve Herring John J. Hoffman
Students of the Senior Reporter Florine Williamson
Rhineland Public Junior Reporter T. J. Hoffman
Schools Sophomore Reporter Bernard Kuehler
Freshman Reporter Anna Fetsch

Grade School Room III Grade School Room IV
Rose Marie Kuehler Jewel Marie Hoffman

The Seniors are trying to decide what type of invitation cards they want. Genevieve used to be good, according to Mr. Hoffman, but he thinks that since she has been associating with a certain Senior girl she is spoiled. (What do you think about this?)

Some of the favorite songs of the Seniors at the present time are: Genevieve—Time Changes Everything. Genevieve—Only Forever. Albert—Worried Mind. Richard—Times Changes Everything. Cletus—Times Changes Everything. Florine—San Antonio Rose. Mr. Hoffman—Has his song for every occasion.

Seniors on Parade
Miss Genevieve Herring, daughter of Mr. and Mrs. Frank Herring, of this community, was born April 5, 1924, on a farm four miles north-east of Rhineland.

She began school at Rhineland and has attended school here ever since.

Genevieve (known to us as Mutzie) was the star pitcher of the indoor ball team when in the 8th and 9th grades and our team won first place in 1939.

She was also on the volleyball team all through her high school course.

Genevieve has been president of our class for several years, including this year.

A few of her favorites are: Color: Red. Song: Only Forever. Teacher: All. Sport: Volleyball. Hobby: Making a scrapbook. Her plans for the future are to become a beauty operator.

Junior Report
As the first half of the school term comes to a close, the Juniors are beginning their review for mid-term exams.

It seems that the Juniors are increasing their ability in composition writing after they started to write their compositions in pencil first.

Grade School Report—Room III
Now that the Christmas holidays are over, we are all looking forward with much gloom to mid-term exams. Regardless of how the class feels about them, we hope that everyone will do their best.

Our lessons during the past week have taken a great deal of time and study. However, we have enjoyed them very much. In English we are making reports on subjects given us by Miss McGraw. In agriculture we are studying about crops. Of all the subjects, geography has been the most fascinating because recently we began a study of Texas, its vast size, and all of its wonderful natural resources.

We are all very happy to have Howard back in school with us again, after several weeks of absence.

We Wonder Why . . .
Rose Mary was afraid to take her report card home. Madeline is wearing a bracelet. Ruth is always buying candy. Magdalen is always singing. Charles is having so much gum in his mouth. Marvin got his hair pulled. Alvin is always so happy. Harold is always laughing. Cleo is helping get up the report. Rose Marie wants a wrist watch.

Quail Management Area Is Established In Young County
That successful quail management, like successful livestock management, is no accident is asserted by the Northwest Texas regional game manager of the Texas Game, Fish and Oyster Commission, in a discussion of quail management in Young county, Texas, in connection with a cooperative wildlife survey of the area.

Although there is some sentiment for a closed season to increase the number of quail in this region, the game manager stresses the dubious results anticipated from this step, and emphasizes the necessity for rehabilitation of quail habitat through provision of cover, where suitable brushy shelter is lacking, and food plants, where will-adapted native vegetation is not present in sufficient quantity.

The Game Commission field men assert the benefit to wildlife to be derived from good soil conservation measures, especially that produces a good crop of weeds, and the deferring and rotation of pastures, that increase the amount of forage, and so afford superior nesting cover. They point out that in order to answer some of the unknowns in quail environment and restorations the Texas Game, Fish and Oyster Commission has set up an experimental quail management and study area in Young county.

Late August, 1940, the game management and a field biologist

We Wonder Why . . .
Theresa was sick yesterday. Was it because of the night before? Florine got to be at twelve o'clock Sunday night. Miss McGrath changed the Junior boys to different desks. The Junior boys are so glad mid-term is coming. T. J. has so much trouble getting his report up. Cletus spent last Tuesday warning Rose that Leap Year was coming to an end.

Sophomore News
Our reporter must be on a sit-down strike this week or he just decided the girls could hand in a better report.

It seems that Economic Geography is getting more interesting since most of the boys have been moved to the front.

We are progressing in English since Miss McGraw has been answering all the questions on commas.

Is It True That . . .
Frances uses rouge on one side of his face? Weldon likes to paint someone else red? Calvin is too green to burn, so he smokes. Elsie is afraid she will be in the bughouse within a week if the Algebra keeps on. Bernardine knows the most in English. Theresa hates her place in geography class. Urban likes a Junior girl? (Which one?) Mildred always knows what time it is. (On who's watch?) Ben has a wrist watch? (Sure.) Kenneth likes to ride in his high top down the highway about a half-mile north. (Elsie, do you know anything about it?)

Higher Prices Paid for Cattle At Auction Sale

The Munday Livestock Co., reports a good run of cattle and hogs for the sale last Tuesday, with prices fully 50 cents higher than last week. Top prices for hogs was \$6.75, with heavy hogs selling from \$6 to \$6.50, and light hogs from \$5.75 to \$6.25.

Some of the prices paid for cattle were: Beef bulls, \$5.75 to \$6.50; butcher bulls, \$4.75 to \$5.50; one load good fat cows weighing 1,190 brought \$6.95; butcher cows, \$5.25 to \$6.25; canners and cutters, \$3.50 to \$5; fat yearling, \$8.25 to \$9.50; butcher yearlings, \$7.50 to \$8.50; common yearlings, \$6 to \$7.25; fat calves, \$8.25 to \$9.40; common calves, \$6.50 to \$8; Jersey rannies, \$5.25 to \$6; good stocker steer calves, \$7.50 to \$10.10.

Buyers for the sale were: Roscoe Jordan, Vernon; Ebner Packing Co., Wichita Falls; John Ruddy, Wichita Falls; J. H. Bell, Fort Worth; Charlie Brothers, Shamrock; L. W. Brashear, Bowie; Paul Bella, Rule; R. L. Dickey, Rule; John Trimmer, Stamford; T. E. Favors, Newcastle; R. L. Carpenter, Seymour; Rollie Fancher, Seymour; W. M. Trimmer, Rochester; A. W. Weaver, V. B. Bowman, Weinert; Jack Idol, Benjamin; C. A. Hull, Knox City; G. T. Hardberger, Knox City; Roy Steele, Crowell; J. M. Morris, Vera; W. S. Pogue, Clay Kimbrough, Jack Ratliff, Haskell; G. H. Forrester, Seymour; C. H. Darnell, Seymour; A. J. Gilbert, Jr., C. L. Mayes, Munday; Lloyd Griffith, Munday; J. H. Tankersley, Munday; C. L. Patton, Orb Coffman, J. E. Cure, J. T. Murdock, Paul Jones, Van Thornton.

jointed with other specialists in the wildlife survey of Young county, arranged for by the Texas Game, Fish and Oyster Commission in cooperation with the Texas Cooperative Wildlife Research Unit, College Station, results of which are now in preparation.

Recently the Farm Security Administration has broadened its rehabilitation program by making loans to children of its borrower families in order that they may take part in activities of 4-H clubs and Future Farmer organizations.

Recently the Farm Security Administration has broadened its rehabilitation program by making loans to children of its borrower families in order that they may take part in activities of 4-H clubs and Future Farmer organizations.

Crop insurance has a definite collateral value on crop loans.

All of South America lies east of Detroit, Michigan, two-thirds of the continent being in the tropical zone.

Texas Soil Conservation districts are not confined to one section of the state, but are well distributed.

Scientists at the Cornell University (New York) agricultural experiment station are "pasteurizing" soils with electricity to eradicate pests and weed seeds. A soil temperature of 150 degrees Fahrenheit was found sufficient to kill all important disease organisms, and most weed seeds.

Jane: "After all, what is a flirtation?"
Rose: "I suppose you might call it attention without intention."

Rastus was sent to the general store. "My boss," he said to the clerk, wants a pane o' glass nine by leven."

"Haven't got none that size," Rastus," said the joking clerk. "but will a leven by nine pane do?"

"I'll try 'er," replied Rastus. "Maybe if we slip her in sideways, nobody'll notice it."

ROAD TO HEALTH
Bob: "I think her voice has improved, don't you?"
Rob: "Well, maybe, but it's still a long way from cured."

Sweet Young Thing: "Are you lucky at cards?"
Bachelor: "Very. I always win."
Sweet Young Thing: "How about love?"
Bachelor: "Lucky again, I always lose."

THE POCKETBOOK of KNOWLEDGE

INDUSTRY HAS DEVELOPED BRAKES ON THE MODERN CAR THAT ARE 5 TIMES MORE POWERFUL THAN THE AVERAGE AUTO ENGINE

NO SHARKS INHABIT NEW ZEALAND, AND THE IMPORTATION OF THE REPTILES EVEN FOR EXHIBITION PURPOSES IS STRICTLY FORBIDDEN

THE "SCOLD'S BRIDE"—AN IRON FRAME THAT FITTED TIGHTLY OVER THE MOUTH AND PREVENTED TALKING, WAS USED AS A PUNISHING DEVICE IN OLD ENGLAND—WOMEN WHO GOSSED TOO MUCH WERE TIGHTLY "MUTZLED" FOR A WHILE TO "TEACH THE VIRTUES OF SILENCE"

MANY INDUSTRIES CONTRIBUTE TO DEFENSE WORK—BATTLESHIPS ARE 95% STEEL, BUT COPPER, LEAD, ZINC, ALUMINUM, CORK, WOOD, ASBESTOS, CEMENT AND GLASS ARE ALSO NEEDED

RESEARCH BIG FACTOR—ONE U.S. CHEMICAL COMPANY ALONE EMPLOYS MORE THAN 600 TECHNICIANS—SCIENTISTS, CHEMISTS, ETC.

BARGAIN FEAST

OF LATE MODEL BEAUTIES

JANUARY

QUALITY USED CAR CLEARANCE

Fluid Drive Dodge and Brand New Plymouth Have Brought Us "Cream" of the Used Car Crop In Trade!

HERE are the "finest of the fine." And every one of them tagged irresistibly low. Our used car stocks are heavy this month and we're seizing the opportunity to make many new friends through these great money-saving opportunities.

Demand for the new Fluid Drive Dodge and the 1941 Plymouth has loaded us with these low-mileage "beauties" of all popular makes and models. Every one has been reconditioned and guaranteed good for many thousands of miles.

You may never see such a bargain feast again in years! With the possibility that national defense plans may curtail production of new automobiles, a shortage of good used cars may develop before many months. Our advice is to buy now...at these Clearance mark-downs. Drop around today.

DRIVE THE PICK OF THESE VALUES HOME... CASH... TRADE... TERMS
