

MUNDAY TO GET VOCATIONAL AGRICULTURE

State Farmers Union To Meet Here On July 15th

Plans Completed For Entertaining Many Delegates

Plans are being completed here this week for entertaining a large number of delegates of the Texas Farmers Union in their annual convention which will be held in Munday on July 15.

Plans for the program and for other entertainment for visiting are being completed. Representatives in the state are expected to this annual meeting, and an interesting and informative program is being worked out.

Peter Loran of Rhineland is president of the organization and John Rice of Munday is state secretary. The meeting will be held in the Munday school auditorium.

Jim Patton of Colorado, national Farmers Union president, will attend this meeting, it was announced this week. Judge Cowen of Amarillo, who is with the F.S.A., will be one of the principal speakers, and Tom Howard, with the A.A.A., will also appear on the program.

Munday people are urged to cooperate with Farmers Union members in making all delegates feel at home during their stay here.

Canning Plant Is In Operation

Foods Being Canned For Lunch Rooms Of The County

The Munday canning plant, which is a WPA project for the lunch rooms of Knox county, was opened on Monday, June 30, and is canning vegetables from the Munday garden project.

The plant is employing 15 women and 5 men who are assigned to the project, according to Mrs. Jewel Lea, supervisor.

Knox county feels fortunate in having this project, since the recent reduction in the WPA quota has forced similar plants over this area to close.

Foods being canned at the plant will be used in the Knox county lunch rooms during the next school year. The plant is operated for school lunch rooms only, Mrs. Lea explained, and canning of vegetables, etc., for the public is not permitted by the WPA.

School lunch rooms of the county to be supplied the canned foods are located at Knox City, Sunset, Goree, Union Grove and Munday. Both the Munday public school and the Munday colored school operate lunch rooms.

Anyone having a surplus of vegetables and fruits and will donate these to the lunch rooms are asked to notify the sponsors and they will be glad to get these things and can them for the school children next year. Anyone wishing to donate either fruits or vegetables should notify S. Vidal Colley, superintendent of Munday schools, Mrs. M. H. Reeves, lunch room supervisor, or Mrs. Jewel F. Lea, county supervisor.

Dan Billingsley Taking Course In Airplane Mechanics

Private Dan O. Billingsley, son of Mr. and Mrs. Milton F. Billingsley of Munday, Texas, has been sent by special order of Lieutenant Colonel George M. Palmer, Post Commander of the Air Corps Basic Flying School at San Angelo, Texas, to the Army Air Corps School at Chanute Field, Rantoul, Ill., where he will pursue a course in Airplane mechanics.

Private Billingsley won this appointment in an open competitive examination given to all men at this station. Upon completion of his course Private Billingsley will be assigned to a key position in Uncle Sam's rapidly expanding defense program.

Main Differences Between the New State Aid Bill and the Old Law

The following are the main differences in the new state aid bill and the old law, as explained by Merick McGaughey, county superintendent:

1941-42	1940-41
Salary Aid—\$4,350,000	\$3,735,357
Difference—\$ 614,643	
Trans. Aid—\$3,039,020	\$2,160,373
Difference—\$ 878,647	

Transfers
In case there are transfers into a district whose grades are taught at home they must make an average of 65 per cent in attendance for the first 60 school days in the school to which they transfer in order to be counted on the pupil teacher load. (This is head off

transfers being counted who do not actually attend after they are transferred.)

Transportation
A. Transportation aid is to be granted at the rate of \$2.00 on high school pupils and \$1.50 per month on grade pupils transported.

B. County Superintendent is to designate a point on bus routes which are 2 1-2 miles from school the nearest travelled highway.

Contract Schools
All money collected by tax collector and by the depository bank except for bonded indebtedness shall be deposited directly to the receiving school instead of to the account of the sending school.

Keck's Announces Anniversary Sale

Celebrating their third anniversary in Munday, Raymond Stapp, manager of the C. H. Keck Food Store, announces the store's third anniversary sale for Friday and Saturday of this week. Many specials are listed for this anniversary sale, specials that will mean savings to the patrons of this store.

"We sincerely appreciate your patronage during the past three years," Mr. Stapp said, "and we hope you'll come to see us during our anniversary sale. We have been pleased with your patronage and we want to continue serving you in a manner that will merit your patronage throughout the coming months and years."

Special events will be held Saturday that will be of interest to all of the store's customers, and Mr. Stapp invites the public to be on hand for these events.

Two New Typhoid Cases Are Reported

Two new cases of typhoid fever were reported this week by Dr. D. C. Elland, county and city health officer. One of the patients resides north of Goree, and the other west of Munday.

The disease threatened to become epidemic for a while, but it is believed it can be pretty well controlled. A great number of Knox county citizens have been taking the typhoid serum since the recent floods and this will, in a large measure, prevent the spread of typhoid in the country.

Soil District For This Area Is Under Way

A group from Knox county attended a meeting in Guthrie on Monday, July 7, at 10 a.m., for the purpose of formulating plans to get a soil conservation district organized.

The Knox county group met with a King county group and a thorough discussion was held. It was decided to include the northern half of Haskell county, all of Knox county and all of King county in the proposed district. It was the general opinion that a large district would get more recognition that a small group.

Those attending the meeting from Knox county were J. A. Caughran, O. L. Jamison, Charlie Hamilton, O. L. Paterson, August Schumacher and County Agent Walter Rice.

Levi Cowser Is Goree Postmaster

Levi Cowser, well known Knox county citizen, has been appointed postmaster at Goree, it was announced here recently. Mr. Cowser took over his duties at the Goree post office several weeks ago and has been dispensing the mail to his many "customers."

Mr. and Mrs. W. B. Payne of Stamford spent last Sunday here, visiting with Mrs. Payne's parents, Mr. and Mrs. J. M. Terry.

Stewart Family Hurt When Car Hits Trailer

Accident Occurs On Saturday Night

Three members of the W. D. (Dave) Stewart family are in the Knox City hospital for treatment of injuries received last Saturday night when their trailer-wagon, drawn by a team of mules, was struck by an automobile on the highway south of town.

The car was driven by D. O. Light, laundryman of Lubbock. Mr. Light stated that lights from a stream of cars, presumably returning from the cowboy reunion at Stamford, partially blinded him and he did not see the wagon in time to prevent the accident. He had dimmed his lights because of oncoming traffic, and when he again raised the light beams the mule-drawn vehicle was directly in front of his car.

Mr. and Mrs. Stewart each received broken limbs—each a broken bone in a lower limb, and their daughter received severe cuts and bruises. All three were taken to a Knox City hospital, where they are reported to be doing nicely.

Mr. Stewart's car burned several weeks ago, and he had been using the mule-drawn trailer to come into Munday for supplies. He worked his crops all day Saturday, coming to town for supplies that night and was returning home when the accident occurred. One of the mules was so badly injured it had to be shot.

Officers investigated the accident, but no charges were filed, as the accident under the circumstances was termed unavoidable.

Teacher To Be Employed Soon

New Subject Will Be Started in Sept.

At a meeting of the Munday board of education Tuesday night it was decided to include Vocational Agriculture in the curriculum of the high school next year.

The program calls for a full-time Vocational Agriculture man who will be here in Munday on a 12-months basis. Wednesday morning the board was still interviewing applicants for the position, according to Supt. Colley.

A teacher on 100 per cent basis devotes his entire time to the development of an agricultural program in the school and community including two or three 90-minute period classes devoted to all-day vocational agriculture and part-time class and one evening school for adults. He reaches not less than 36 all-day school pupils and 60 part-time boys and adults.

Every teacher of vocational agriculture organizes and maintains an active chapter of Future Farmers of America. This organization has proved helpful for developing the boys for a vision to see the beauties and possibilities of a progressive farm business.

Within a few days a Vocational Agriculture teacher will be on the job in Munday, a department equipped and established for the beginning of school in September. The Vocational Agriculture will be open to all boys in high school and those on the outside who wish to attend regular classes.

Munday, a strong farming and agricultural section, has needed Vocational Agriculture vitally and it is hoped that the program will be of great benefit to all boys and farmers of this section.

Interest Growing At Local Revival

Boll Weevils In Cotton Crop

A small infestation of cotton boll weevils was found in cotton fields about seven miles northwest of Knox City this week, stated County Agent Walter Rice.

A good many squares had been punctured by weevils, and farmers should examine their cotton very carefully for weevils.

The weevils puncture fairly large squares, and these squares soon fall off the stalk. Knox county had a fairly heavy infestation of cotton boll weevils in sections of the county in 1938.

Mr. and Mrs. Winston Blacklock of Clarendon spent the week end here with Winston's parents, Mr. and Mrs. B. L. Blacklock.

Attendance and interest continue to grow in the revival meeting which opened last Sunday at the Munday Methodist church, and crowds are increasing with every service.

Rev. Luther Kirk, local pastor who is doing the preaching, is bringing interesting messages at both morning and evening services. Increasing numbers are hearing him at both these services.

Rev. Wallace Rosenberg of Knox City is conducting the song services which are adding zeal to the revival. He is also bringing some splendid messages in song that inspire the audiences.

Prayer groups continue to meet each evening. Services are being held at ten o'clock each morning and at eight-thirty each evening.

The revival will continue through all next week, and everyone is extended a cordial invitation to attend all of the remaining services.

Two Teachers Are Selected In High School

At a meeting of the board of education Tuesday night two teachers were selected to teach in the Munday schools the coming session, Miss Dorothy O'Donnell, homemaking and Miss Violet Beville in the English department.

Miss O'Donnell, for two years instructor in Homemaking in the Clyde Public Schools comes to Munday September first in a ten-month Homemaking program that last through June next year, highly recommended as an all-round community worker and homemaking teacher. She has had three years experience, the last two years at Clyde and one year in New Mexico. Miss O'Donnell is a graduate of Texas State Teachers College at Denton, and has seven hours of graduate work from State College, New Mexico. She holds a high school certificate, a Special Permanent Certificate and a Smith-Hughes Vocational Certificate. Her home is in Ranger.

Miss Beville is a graduate of the Texas State College for Women also, holds both the B.A. and B.S. degrees and has six hours on her graduate work in Speech and English. She is especially trained in choral speaking, a new extra-curricular activity recently developed, and has participated in Dramatics and speech work extensively in her college work. Miss Beville's home is in Belton.

City Lake Stocked With Finny Tribe

A representative of the State Game, Fish and Oyster Commission was here last Monday, bringing a number of fish to be placed in the city lake southeast of town. Twenty-one hundred small bass were brought here last Monday and were placed in the lake. The state fish hatcheries expect to place still other fish in the lake during the next few weeks.

These bass will furnish anglers lots of sport when the season opens at the city lake about May 15, 1943. City officials have declared a closed season at the lake for a period of two years.

J. C. Gray, prominent farmer of the Vera community, was a business visitor in the city last Tuesday.

Mower to Cut Weeds on Street Rights-of-Way

A team and mower was employed by the City of Munday this week to cut weeds along the streets in an effort to help keep down the rank growth within the city. The mower was started Thursday morning, and the work will be continued until all weeds along the street right-of-way have been cut.

Many alleys and vacant lots have also become unsightly places as a result of wet weather this year, and much could be done by everyone to give their city property a cleaner appearance.

It is hoped that citizens will follow the example of the city in mowing the streets and have weeds cut on their property.

Five Men Go To Fort Bliss On July 14th

Five Knox county men will report to the Knox County Selective Service Board on July 14 at 7:30 a.m., at which time they shall be sent to an induction station of the United States Army at Fort Bliss, Texas.

Names and order numbers of the five men from Knox county to answer the July 14 call were announced this week by the local board. They are as follows:

Bob Houston Elliott 143; Charlie Timberlake, Jr., 167; Archie Elvie Struck 184; Judson Manahan Farmer 194; Budley Bob Myers 228.

No replacements were named by the local board.

HILLBILLIES TO PLAY AT VERA THURSDAY

Miss Billie Walker and the Hillbillies will play at the Vera High School Building on Thursday night July 10, sponsored by the home demonstration club.

There will be six people in the show, and the program will last one and one-half hours. The public is invited to this entertainment.

Mrs. J. H. Russell of Wichita Falls spent the week end here with her cousin, Mrs. Louise B. Ingram.

Seventy-one Serial Numbers Issued To County Youths In Second Registration

Serial numbers have been assigned to 71 young men who registered in the second registration in Knox County on Tuesday, July 1.

The following men who registered and their serial numbers were announced this week by John Wilson, clerk of the Knox County Board:

- S-1 James A. Bright, Munday.
- S-2 Clifton R. Vaughan, Munday.
- S-3 Tom Compton, Truscott.
- S-4 Carl V. Wallace, Knox City.
- S-5 Noble K. Bookout, Munday.
- S-6 Charles Haynie, Jr., Munday.
- S-7 Jack C. Brooks, Munday.
- S-8 Weldon Cash, Truscott.
- S-9 Hollis H. Gore, Vera.
- S-10 Oather C. Poe, O'Brien.
- S-11 Clifford H. Nicholson, Knox City.
- S-12 Eurvin C. Bohanan, Vera.
- S-13 Elmer W. Dean, Knox City.
- S-14 William F. Headrick, Benjamin.
- S-15 Santiago L. Enriquez, Munday.
- S-16 William G. Welborn, Munday.
- S-17 Charlie Napper, Munday.
- S-18 Melvin E. Mayfield, Benjamin.
- S-19 Philip F. Homer, Munday.
- S-20 Doyle B. Bowen, Munday.
- S-21 William D. Elam, Knox City.

- S-22 James L. Henderson, Munday.
- S-23 Steve W. Fesperman, Benjamin.
- S-24 Arnold E. Langford, Munday.
- S-25 Denny W. Davis, Jr., Knox City.
- S-26 Hamilton H. Coates, Knox City.
- S-27 Allen P. Fitzgerald, Goree.
- S-28 Travis H. Thompson, Knox City.
- S-29 F. L. Haymes, Jr., Munday.
- S-30 Cecil E. Flores, Munday.
- S-31 Randall H. Butler, Goree.
- S-32 Floyd E. Denham, Munday.
- S-33 Cletus E. Tapp, Truscott.
- S-34 W. B. Thompson, Munday.
- S-35 John B. White, Knox City.
- S-36 Tramel L. Stockton, Munday.
- S-37 Julius M. Moore, Munday.
- S-38 John C. Vickery, Jr., Goree.
- S-39 Boyd Meers, Goree.
- S-40 J. C. Langston, Gilliland.
- S-41 Floyd A. Nunley, Benjamin.
- S-42 Darwin J. West, Goree.
- S-43 James P. Rice, Goree.
- S-44 Ben B. Hunt, Jr., Goree.
- S-45 John L. Phillips, Munday.
- S-46 J. O. McMahon, Munday.
- S-47 Ervin A. Booe, Munday.

- S-48 James W. Walker, Gilliland.
- S-49 Daniel Casillas, Knox City.
- S-50 Manuel E. Davilla, Jr., Munday.
- S-51 Selo R. Hernandez, Knox City.
- S-52 Bob Compton, Gilliland.
- S-53 Eugene L. Thompson, Munday.
- S-54 Francis E. Moorhouse, Benjamin.
- S-55 Clarence T. Cypert, Knox City.
- S-56 Harvey D. Arnold, Jr., Munday.
- S-57 James C. Hendrix, Knox City.
- S-58 Lewis E. Groves, Benjamin.
- S-59 Roy L. Howrey, Goree.
- S-60 Clifford P. Boone, Vera.
- S-61 George E. Turner, Goree.
- S-62 Claud C. Brown, Goree.
- S-63 Cecil R. Suggs, Benjamin.
- S-64 Joe P. Bullion, Truscott.
- S-65 James C. Sanders, Knox City.
- S-66 James M. Young, Jr., Truscott.
- S-67 Norman L. Funderburk, Vera.
- S-68 Willard E. Bauman, Munday.
- S-69 Robert J. Trainham, Vera.
- S-70 James R. Bisbee, Benjamin.
- S-71 Donald K. Hobert, Munday.

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"—

HEALTH IS PART OF DEFENSE

In the present defense program, individual stamina is required not alone of the man in uniform, but also of the man back of the lines who provides him with the equipment he needs. And American industry is safeguarding the health of its millions through steadily expanding plant health programs. As a survey of industrial health practices conducted by the National Association of Manufacturers discloses.

More than 2,000 companies replied to the survey, directed by the noted author and medical consultant, Dr. Victor G. Heiser. The following are the most salient facts established by the returns.

1. Industrial health programs—long effective in one form or another in most large American companies, — are being increasingly developed in the smaller plants of the nation.

These programs have not only brought about reductions in accidents, occupational disease, absences, etc., in an overwhelming majority of cases they have effected net savings for the companies concerned.

The health programs have brought about improved labor relations—partly, perhaps, because the physical examinations have put "round pegs in round holes"—placed men in jobs to which they are physically geared.

This comprehensive survey on industrial health practices yields a fund of valuable new information that will aid all industry and the nation as a whole. Americans can take comfort in the fact that, just at this time when extraordinary physical demands are being made upon industry in connection with defense, industry has reached its highest pitch in the field of health practices and gives every evidence of continuing to move ahead to new highs.

BY THE ROCKET'S RED GLARE

Independence Day is a serious affair this year. Not in a long time have we Americans been brought to so keen a realization of the unique quality of the life that this country is privileged to enjoy. So "Fourth of July Celebrations" and the traditional "shootin' off firecrackers" are likely to yield first place to measured consideration of the real meaning of American Independence.

It's interesting to notice in this connection that the actual material needs of our defense program are making it necessary for all of us to "fall in step" with this new approach. For the United States is "keeping its powder dry"—not shooting it off indiscriminately to advertise a national holiday.

In New York City, for example, the reporters discovered that all but a tiny portion of the pyrotechnical output of companies in the field is now being devoted to the nation's defense program. Fireworks companies are making signal lights, smoke bombs, hand grenades, trench mortar shells and various other flare and explosive devices for our armed forces. Further than that, we are reminded that most of the rest of the world is on fire we learn that imports of firecrackers from China, our main foreign source have been virtually cut off.

"No time and few materials for fireworks—we are working 24 hours a day for the Army and Navy" says one big company. Like many other companies and industries who have turned away from peacetime products to go "all out" in the national emergency, the fireworks folk are putting the welfare of the whole country first.

And that's the best possible insurance that there will be a real Fourth of July to celebrate when the present emergency has passed.

A bolt of lightning knocked tea cups from the hands of three women guests of Mrs. Robert Selden of Detroit, but none were hurt.

In the first four months of 1941 used rubber reclaimed in the United States amounted to 83,500 long tons, or nearly 13,000 tons more than in the similar period of 1940. Several firms are now manufacturing synthetic rubber in considerable quantities.

Nearly 4,000 high school seniors took part in this year's American essay contest under the auspices of the Detroit Civitan Club. Winner of first place and beautiful prize cup was Lucile Dlugoszewski, an American-born girl of Polish parentage.

The first 7,000 British youths to be trained annually in the United States as combat pilots arrived this month and have been assigned to Army and civilian flying schools. An additional 1,000 will be specially trained in aerial navigation.

Industrial research has developed a new synthetic rubber compound which "welds" fibers together. This greatly adds to the life of the resulting fabrics.

The growth of the aircraft industry in the United States has been tenfold in the past 30 months compared with a sevenfold increase in the shipbuilding industry during the entire World War.

It is not a merit to tolerate, but rather a crime to be intolerant.—Shelley.

KILLING BREEDING STOCK IN EUROPE

A recent news item told of the slaughter of dairy cows and other livestock in unoccupied France, due, it was said, to the shortage of feed. The same thing has been going on in Denmark, Holland, Norway, Germany and other countries. What has happened on the Isle of Jersey and the Isle of Guernsey since they were occupied by the Germans, no one knows, but it is almost a foregone conclusion that the Nazi soldiers are not doing any breeding work.

With this situation existing in the countries, formerly the source of well-bred animals, it behooves American breeders to look into the future and be prepared to aid in restocking Europe. While South America may furnish frozen beef to feed Europe, the United States and Canada will furnish the seed stock.

Southwestern dairymen and dairy farmers who are now breeding their dairy cows to beef bulls are mortgaging their future. It will be profitable to improve their breeding and be ready to sell good bulls and good heifers at fancy prices at the close of the war. This holds true no matter which way the tide of battle swings. Breeders of beef cattle and of hogs have the same opportunity coming to them. Europe must be, and will be, restocked.—Karm and Ranch.

POOR FIRE DEFENSE COSTLY

One of the commonest methods used by communities to determine just how adequate their fire protection and fighting facilities are, is to compare their per capita losses with those of other towns. And that is also one of the poorest methods. As a recent bulletin of the National Board of Fire Underwriters said, "Per capita fire losses, to those who have analyzed the subject, are a meaningless compilation of figures and prove nothing."

The reason for that is clear enough. There is a certain amount of luck involved when it comes to any community's fire experience. If it gets the break it may go for years with very low losses, even though its fire protection is far from adequate, and its building code obsolete. And conversely, a town with good fire protection, because of a series of misfortunes may experience extremely high losses for a considerable length of time.

There is also grave danger in using capital fire loss figures as an arbiter of a community's fire defense. If losses are low for a length of time, some will urge that fire department expenditures be very sharply curtailed. And thus the groundwork for disaster is laid.

The only true measure of any town's fire protection is whether or not it has the best that can be obtained, irrespective of losses. A fire department, like anything else, must be periodically studied by unprejudiced experts and revised in the light of modern conditions. The alarm system or the water supply or the mechanical equipment that was adequate yesterday may be out of date today. And a poor fire defense is about the most costly thing a town of any sort can have.

One automobile company, which is making Army trucks and other defense equipment, purchases its parts and materials from some 200 communities located in 21 states.

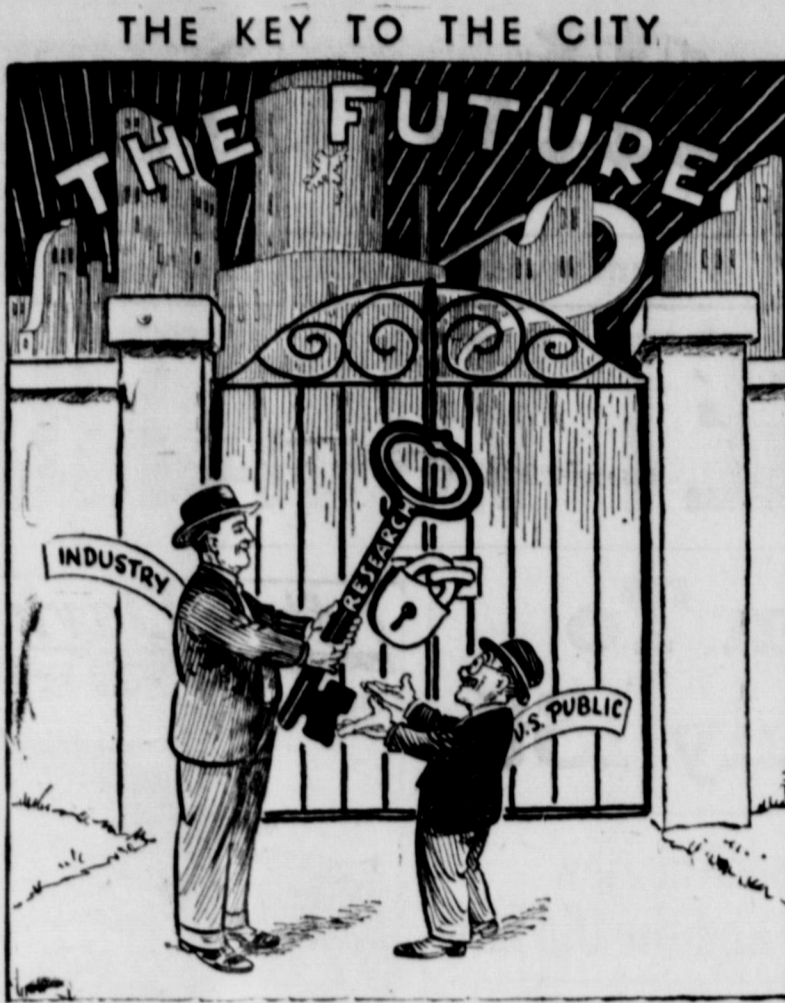

90 per cent of all workers employed by one large American rubber company in the assembly of barrage balloons and dirigibles are women—who are especially skilled in this kind of "fine" work.

Enough aluminum for 60,000 coffee percolators is needed in making a modern bombing plane.

All incomes of \$10,000 and over, if taken entirely for taxes, would pay all the costs of government in this country for only about two months.

A refrigerator manufacturer is now turning out howitzers that will hurl 33-pound shells for 12,000 yards and will lob them over hills.

A ring lost by his wife in 1918 was found when Conrad Schwartz of Hessville, Ind., plowed his orchard.

Gems Of Thought

TOLERANCE

The responsibility of tolerance lies with those who have the wider vision.—George Eliot.

We should endeavor to be long-suffering, faithful, and charitable with all. To this small effort let us add one more privilege, namely silence whenever it can substitute censure.—Mary Baker Eddy.

I have learned silence from the talkative, toleration from the intolerant, and kindness from the unkind; yet strange, I am ungrateful to those teachers.—Kahlil Gibran.

Tolerance is good for all or it is good for none.—Burke.

The more we know, the better we forgive; Whoe'er feels deeply, feels for all who live

Mme. de Stael

Few Changes In Range Program

College Station—Except for additional grazing practices and more local adaptation of practices designed to eradicate undesirable plants, recommendations drafted by delegates to the national AAA range conference and tour indicate no major changes in the 1942 range conservation program of the AAA.

That's the word Howard T. Kingsbery, state A A A committeeman and ranchman from Santa Anna, brought back from the conference, which was held in Idaho, June 23-27. The conference last year was held in West Texas.

Recommendations of the conference included proposals for many detailed changes, a great number of which are aimed at giving assistance to small ranchmen and farmers. Kingsbery said. Two important changes recommended were the revision of the present deferred grazing practice to include limited and rotational grazing on the basis of range management plans and approved by the county AAA committee and the broadening of eradication practices for undesirable plants to make possible more local adaptation of such measures.

In the interest of the national welfare, the conference pledged itself "to marshal the range agricultural resources of the country to best meet the needs of national defense," the Texas ranchman stated. The conference also went on record as advising ranchmen against speculative expansion during the present period of more favorable prices, and urged that a balance be kept between livestock prices and industrial prices to keep the livestock industry in a sound condition.

The group advocated that measures be taken to avoid inflation and that the defense program be supported by higher taxes on excess profits, incomes, and luxury items, along with increased promotion of defense bond and stamp sales. Greater emphasis on better nutrition also was recommended.

Ira Williams of Sageron, Texas, was visiting friends here last Sunday. Mr. Williams is a former resident of Munday, having operated a barber shop here and was also employed at the depot here before being transferred to Sageron.

Preston Ingram was a visitor in Abilene the first of this week.

THEY SAY!

"There can no longer be any doubt that this war will be determined by two things—no, only one—a successful combination of sea and air power."—Navy Secretary Knox.

"My recollection is that I voted for adjournment twelve times this session. In fact, I voted for it each time it came up, as I really did want to get back home."—Senator George Moffett after adjournment of the Texas Legislature on June 3rd.

"Believe me, every man has his secret sorrow, which the world knows not, and oftentimes we call a man cold when he is only sad."—Longfellow.

Joe Carrol Hopkins of Stamford is visiting in the home of Mr. and Mrs. Lee Haynes this week.

Auto-Suggestions

Harry the Headlight is a bright fellow and a great many accidents might be averted if more drivers listened to his words of wisdom. Harry says that as long as he is treated right he'll show you the way and point out night dangers for you. The minute he's neglected, however, he'll blind you and make night driving a back-breaking, head-aching task. His pet hate, he says, is the driver who refuses to put on his dimmers when another vehicle approaches. Harry often gets his face bashed in by such drivers. Quoting statistics from The Travelers Insurance Company, he calls attention to the fact that 560 vehicles in fatal accidents and 12,480 cars in non-fatal accidents last year were guilty of having glaring headlights or of having one or both headlights out.

BUY UNITED STATES Defense Bonds Help Your Country.. Help Yourself!

You have an opportunity to serve both your country and yourself by purchasing U. S. Defense Bonds. The money will be put to work now, building our defense, making America strong and safe.

Ten years from now you will receive the full face value of the bond. The earnings on your money will amount to approximately 2.9% a year.

Our bank is glad to cooperate with the government—without compensation or profit—in making these new bonds available. The new Series E Bonds, maturing in ten years, available at this bank.

BRIEF ITEMS

Found

... IN OUR EXCHANGES

Rugged, Lincolnlike Coke Robert Stevenson, 53-year old hill country rancher and lawyer, emerged today from the semi-obscurity of the Lieutenant Governorship as the prospective thirty-third governor of Texas. The veteran lawmaker, who as a youth taught himself bookkeeping by campfire light as he was running his own two-wagon freight line in sparsely populated Central Texas, would bring a wealth of governmental and business experience to the governor's office. —The Menard Messenger.

The Livestock Sanitary Commission of Texas has declared that Dickens county is a tuberculous free area in regard to livestock. This ruling is good for three years. Tuberculosis tests are always a safe proposition, and cost so little. They will keep the county on the free list, too.—Dickens County Times.

The three young men defeated by the governor have lots of time yet to serve the people of Texas. None of them need be downhearted. All of them have jobs on hand to do. Mr. Mann asked for and was given a state job that lasts 18 months yet. So did the governor, but his seat will be filled by a native born, highly capable man, Lt. Gov. Coke Stevenson. Mr. Dies was not turned down. He was just "let alone." He still has a job to do. There is plenty of "Unamericanism" even down here in Texas to sniff at yet. Now as for Mr. Johnson, he too has a job, and what a job! He has lost no glory in the campaign. The thing that beat him was too much harangue about being the president's pet.—Hamlin Herald.

Two banks in Memphis, Tenn., are giving curb service for busy motorists. They recently announced plans for "outdoor" windows so customers may hand their deposits to a teller.—Eldorado Success.

The privilege of driving was taken away from 190 persons from April 2 to June 5, it was announced today by Col. Homer Garrison, Jr., stated police director. Driving while intoxicated was the offense responsible for suspension, revocation or cancellation of 115 drivers' licenses, Garrison said.—The Richardson Echo.

Be grateful for the things you have. Do not worry about the things you do not have and cannot afford. If you must worry about something, worry about how you can improve your abilities and training so that you can have more of the things you would like to have.—Ford County News.

The Brazos Valley of Texas, long noted for its cotton fields, may soon be better known for the production of alfalfa. Last year 5,000 acres in the valley was planted in alfalfa and it brought the growers \$100,000 according to a report from Hearne. Next year there will be double that acreage and eventually the Brazos valley will become one of the largest alfalfa-producing areas in the country.—Farm and Ranch.

Dale Moore and Ernest Martin Sprabery inflated a balloon and turned it loose in a strong wind on May 30. On Saturday they received a note from Emmett Lameford of Stantonville, Tenn., saying that he had found the balloon there. To make it an even more "believe-it-or-not" story Emmett Lameford moved from Anson to Tennessee over two months ago and was a personal friend of Dale's while living here.—The Anson Enterprise.

Mr. and Mrs. R. L. Burton and little daughter of Haskell were visitors here last Sunday.

Mrs. P. B. Baker is in Dallas this week, visiting with her son, Wilbur D. Baker.

Dr. E. M. Roberts of Amarillo visited relatives here over the week end. He was accompanied home Sunday by Mrs. Roberts and children, who had been visiting Mrs. Roberts father, W. H. Atkinson, and other relatives here several weeks.

Dr. W. M. Taylor of Gooee was a business visitor in the city Monday morning.

Mr. and Mrs. U. R. Houser and family of Waco spent last Thursday and Friday here, visiting with relatives and friends. They are former residents of Munday.

Mr. and Mrs. Don Ferris and Mr. and Mrs. Aaron Edgar were visitors in Sweetwater over the Fourth of July holiday.

Fifth Avenue Goes To The Country

"Cherry," a local lamb, is tethered on the lawn in front under a huge apple tree. . . . John Robert Powers, arbiter of hundreds of pretty girls' dreams says, "A natural girl is always in style" . . . hobby-horses proudly toss their colorful heads and endlessly gallop along with their beautiful burdens.

A NEW version of an old experiment is the branch store established by Lord & Taylor, of New York, in nearby Manhasset, Long Island. The recently opened building was designed and decorated with the idea of merging into its suburban surroundings and at the same time preserving the completely modern note of Fifth Avenue. Catering exclusively to women and children, the shop has introduced such novelties to the

average department store as bagpipes for hat stands; dress racks in the shape of huge pictures hanging from ribbon bows; mannequins, exquisitely dressed, side-saddle on merry-go-round hobby horses in the windows; and luxuriously upholstered park benches instead of conventional lounges. In one corner of the boys' department is the Champ Shop; pictures of local athletic heroes hang on the wall and . . . such a guest

book. In the tiny youngsters' section, racks are low enough for the tots to thumb their way through and make their own choices; the beauty shop, long a problem for decorators, wavering between a laboratory and overdressed boudoir, emerges as a gay atmosphere enlivened by the colloquies of famous men-about-town on the subject of women, their immortal comments on the subject are inlaid in white on the rubber tiled floor.

News From Goree

Mr. and Mrs. Ira Stalcup and children, Mrs. R. D. Stalcup and Mr. and Mrs. Burl Meers of Seymour were visitors in the home of Mr. and Mrs. Edward Goode of Abilene. Mr. and Mrs. Goode are entertaining a new son, born June 29th.

Mr. and Mrs. Oscar Lewis of this city attended the Bell County reunion at Buffalo Gap Sunday.

Mr. and Mrs. Ben Garrett of Olney were visiting in the home of Mrs. Garrett's parents Sunday.

Mr. and Mrs. Clarence Bayles and Mr. and Mrs. Clyde Boyles, Mrs. B. R. Boyles and Mr. and Mrs. Lester Bowman are visiting relatives in East Texas this week.

Mrs. Janie Jones of East Texas has been visiting her father, J. D. Luttrell of this city.

Mmes. Esther Killingsworth and J. W. Fowler were Haskell visitors Thursday.

Mrs. J. Baker of Mineral Wells visited Mr. Baker's parents over the week end.

Mr. and Mrs. R. D. Harrell of Houston visited Mrs. Harrell's par-

ents, Mr. and Mrs. Tom Baker, recently.

Mr. and Mrs. George Beatty were Fourth of July visitors in the home of Mrs. Beatty's grandparents.

Mr. and Mrs. John Fritz were Monday visitors in Goree.

HERE FROM FORT BLISS

Lieut. and Mrs. John B. Reneau of Fort Bliss, El Paso, Texas, spent the Fourth of July holidays here with Lieut. Reneau's parents, Mr. and Mrs. John B. Reneau. Lieut. Reneau is serving in the cavalry at Fort Bliss.

Mrs. R. W. Hightower and little daughter, Sharla Ruthe, of Dallas are visiting with Mrs. Hightower's mother, Mrs. A. E. Womble, and other relatives here this week.

G. R. Eiland, Jr., who is in army training at Denver, Colo., came in last week for several days visit with his parents, Mr. and Ms. G. R. Eiland.

M. L. Wiggins, who spent a ten-day furlough here with his parents, Mr. and Mrs. J. A. Wiggins and other relatives and friends, returned to training at Camp Bowie the first of this week.

New Patrolmen To Be Added To Present Force

Austin.—State Police officials moved quickly to employ and train more than 100 highway patrolmen and drivers license examiners provided for in the new departmental appropriation bill signed recently by Governor O'Daniel.

"Our forces are far overtaxed by internal security investigations and the enormous increase in traffic due to defense activities," said State Police Director Homer Garrison, Jr. "These new men are desperately needed, and they will be placed in training immediately after the appropriation becomes effective September 1."

Garrison set July 28 as the deadline for mailing of form applications to the department. He said examinations will be given at highway patrol district offices around the middle of August, allowing only a few weeks for investigation of successful applicants before the 7-week training school begins at Camp Mabry.

"These appointments are decided strictly upon the individual's merit," Garrison said. "All applications will be handled in the same way, and it will be a waste of time for anyone to come to Austin until

he may be called." To be eligible for appointment an applicant must be a citizen of the United States and a resident of Texas for at least one year. He must be of good moral character and in perfect physical condition, not less than five feet, eight inches in height without shoes, and must weigh not less than two nor more than three and one-half pounds for each inch of height. He must not be less than 23 nor more than 35 years old at the time of appointment.

The applicant must have at least a 10th grade education, and is required to furnish 10 letters of recommendation, a letter certifying that his credit rating is satisfactory, and a physician's certificate of sound physical condition.

Examinations are given in the headquarters office of each Patrol district. A personal interview and oral examination follows the written examination, which includes a multitude of subjects ranging from geography, mathematics and spelling to tests of general intelligence and aptitude.

When the applicant appears for examination, he is given a card bearing his assigned number, and his thumbprint is placed on the card. When successful applicants appear for appointment, their thumbprints are compared with the prints on their cards to guard against any switching of identity.

In addition to his physician's certificate, each successful applicant is given a thorough physical examination by doctors appointed by the Department of Public Safety. The applicant's character and background are checked by departmental investigators.

At the training school the cadets learn traffic and criminal law, public speaking, motorcycle riding, first aid, ju-jitsu, and a host of other subjects. After graduation the rookies are placed on six-month probation and assigned to work with experienced officers.

HERE FROM ARIZONA

Clarence A. Brown and son, Lavorne, of Phoenix, Ariz., spent several days here last week visiting in the home of Mr. Brown's mother, Mrs. A. J. Smith. Mrs. Smith has been ill but is reported improving. Mr. Brown subscribed for The Munday Times while here.

Mrs. Jamie Wray, who has been visiting her parents, Mr. and Mrs. U. S. Roges, for some time, left last week for San Angelo for a visit.

Mr. and Mrs. Chester Borden and son, Joseph, returned home last week from a two weeks vacation which they spent in California, visiting with relatives.

R. C. Henry of Camp Bowie, Brownwood; Kenneth Henry and Miss Lou Singleton of Dallas spent last Saturday night in the home of Mr. and Mrs. C. P. Baker. Mrs. Baker accompanied them to Floydada where she visited relatives until Sunday.

Robert Albus, Philip Homer and Misses Wilma, Sophie and Alice Michalik of the Rhineland community were visitors in Wichita Falls last Sunday.

Peggy Ann and Glenda Coffman of Goree were guests of their aunt, Mrs. M. L. Barnard, several days last week.

Mrs. Levi Bowden and son, Lee Ancil, spent last Friday in Sanatorium, Texas, visiting with Mr. Bowden, who is undergoing treatment there.

Munday Downs Needmore Team On Last Sunday

Munday's hard-hitting ball club beat the Needmore team to the tune of 10 to 5 last Sunday. It was a good game until Don L. Ratliff, Hobert, Carver and Nichols began swatting the ball from here to yonder.

Ratliff and Nichols got three hits for four trips to the bat; Hobert got two for three and Carver got two for four.

Munday is out to win the last half of the softball schedule and the team believes it can be easily won with a little support from the fans. Munday is urged to have a good turnout for the home games.

Munday goes to Vera next Sunday. This will be a good game, and fans are urgently requested to go with them and help them win this ball game.

Summary of Sunday's game—Two base hits: Ratliff 2; Hobert, 2, and Day: 1; Three base hits: B. King, 1, Ratliff 1, Carver 2, Myrfield 1, and Williams 1; home runs: Ratliff and Strickland, 1; Burleson, 1; Bases on balls: off Strickland 5; off Ratliff 5; off Burleson 1; Left on Base: Munday 6, Needmore 10.

Munday C. of C. Holds Meeting

The Munday Chamber of Commerce held its regular meeting last Wednesday at 12:15 o'clock in the Terry Hotel. Around 25 members were present.

C. R. Elliott, president of the organization, called on chairmen of the various committees for reports of committee activities.

Most accomplishment is being made by the agricultural committee, which is cooperating with farmers in poisoning cotton for the flea hoppers and other cotton insects. H. A. Pendleton reported that several dusting machines are now in operation in Knox county, and farmers are urged to make every effort to save the first crop of cotton. It was pointed out that cotton is already late, and if farmers allow the first cotton fruitage to be destroyed by insects it would greatly cut down cotton production.

This committee is also working with farmers and ginners in an effort to continue the one-variety cotton program in this area. Around 750 farmers were reported interested in this cotton program.

Munnay's drainage situation was also discussed briefly, but lack of time prevented taking this up in detail.

David Chase Eiland visited relatives in Galveston the first of this week.

Joe Bevers of Dallas spent last Tuesday night here with his parents, Mr. and Mrs. Walter Bevers.

Mr. and Mrs. L. F. Birkenfeld, Munday, a daughter.

5,047 NEW NAMES ON PENSION ROLLS

An increase of 5,047 in the number of old age pension recipients for July, with an average check to each pensioner of \$18.54, was announced by the Department of Public Welfare last week.

Mr. and Mrs. Norman Koenig of Wichita Falls are visiting with Mrs. Koenig's parents, Mr. and Mrs. Walter Bevers, this week.

F. N. Hassan, Jr., of Moran, Texas, is visiting in the Sied Waheed home this week.

Measuring For AAA Compliance Is Begun Here

The measurement of farms for compliance with the AAA program was started in Knox county this week. Twelve crews are working now in the county.

Farmers are urged to give these men their full cooperation in the measurement and correct identification of their crops.

The state AAA office has recently announced a new ruling where any rechecking is required on farms, due to slowups, the farmer will be required to pay \$1.00 for each checkup. It seems that it would be well if each farmer would measure his crop before the measurement crew gets to it to determine that the farm has not overlapped in any of the allotments, Walter Rice, county agent, announced.

Father of Local Resident Is Buried At Rule Friday

Funeral services were held from the First Baptist church of Rule last Friday for J. M. Cluck, 80, who died in Waco Wednesday at the home of his daughter, Mrs. G. T. Calloway.

Mr. Cluck had lived in Rule for the past 30 years and was well known in that section. He was the father of Tom Cluck of Munday.

Other children include Mrs. Calloway, Mrs. Roy Self, Mrs. Clarence Ashley, John and Earl Cluck, all of Rule, and Bud Cluck of Madill, Okla. He is also survived by a number of grandchildren and great-grandchildren.

West Texas Press Meeting To Be Held At Odessa, Texas

The 1941 convention of the West Texas Press Association will be held in Odessa on August 8 and 9, it was announced Sunday by Cedric Harrison of the Baylor County Banner, who is president of the association. Dates of the meeting were decided at a directors' meeting recently at Big Spring.

The program and details were also worked out and will be announced in the near future. An unusually fine lineup of topics and entertainment is promised those who attend.

Reduction of home-building costs through the use of native Texas building materials is being investigated by University of Texas engineers.

Enrollment in the University of Texas law school moved to a new high this summer with 341 students registered for the first term—one more than in 1939 and 42 more than last year.

Rev. T. M. Johnston of Stamford, district superintendent of Methodist churches, was a business visitor here last Tuesday afternoon.

G. B. Hammett, G. W. Dingus and Aaron Edgar attended a Masonic Lodge meeting in Knox City last Tuesday night. Two Master Mason's degrees were conferred at this meeting.

Mrs. W. P. Farrington and Mrs. Arthur Smith, Jr., spent Thursday in Vernon, visiting with their sister and mother, Mrs. Hal Fairman. Mrs. Fairman is the former Mrs. Bess C. Neff of Munday.

DR. AND MRS. BASS VISIT FRIENDS HERE

Dr. and Mrs. J. Horace Bass of College Station came in the first of this week for a visit with friends in Munday. Dr. Bass, who is former superintendent of the Munday schools, is an instructor in A. and M. College.

Mr. and Mrs. Homer A. Gentry and daughters, Leita Lane and Martha Jane, spent last Sunday in Fort Worth with relatives. They were also accompanied by Billy J. and Larry Don Lain, sons of Mr. and Mrs. Fred Lain.

Mr. and Mrs. Basil Reynolds are on vacation this week. They are visiting relatives at Seagraves and other points on the plains.

County Supt. Merick McGaughey of Benjamin was a business visitor in the city last Tuesday afternoon.

COMPLICATED INDUSTRIAL JOB—

New Equipment Is Acquired By Marine Corps

During recent months, the United States Marine Corps has acquired much additional new equipment such as tanks, new types of aeroplanes, motor boats, weapons of all kinds, and many others on which publicity is prohibited.

With the acquirement of all this new equipment and stations, many more men are required to man them and as a result the Marine Corps has opened the gates for enlistments at the present time.

Young men between the ages of 17 and 30 years, who are single, and who would like to serve their country in the U. S. Marines, will be given an opportunity if they will apply to the recruiting officer.

Men who have registered for Selective Service Training and are awaiting a call for induction may serve their training period in the Marines. Those who do not wish to serve a full four years of active duty, may enlist in the Marine Corps Reserve, with active duty, for the duration of the national

emergency only, after which they will be immediately discharged.

MEN OVER 28 DEFERRED

Texas local draft boards have been instructed to defer men who have reached the age of 28, Selective Service Director J. Watt Page announced last week.

Page said that the National Selective Service Headquarters has "been assured by congressional leaders that the age provisions of the bill to defer men who had attained the age of 28 years on or before July 1, 1941, will be passed."

As the bill is now written, Page said, such men will be subject to discharge if inducted on or after July 1.

BONNER BAKER NOW IN OFFICERS TRAINING

Bonner Baker, son of Mr. and Mrs. W. A. Baker, is now taking an officers training course in New Jersey, according to word received from him by his parents some two weeks ago.

Bonner was among the first to enter the service from Knox county, and until his transfer to New Jersey was stationed at Fort Sam Houston, Texas.

Betty Crocker KITCHEN CLWIG

Prepared for
Your Newspaper by Betty Crocker Home Service Department

FROM DOWN MEXICO WAY

Mexican parties seem to be the style. I think it's partly due to a mere lively interest in our neighbors south of the border . . . and also to the fascinating displays of Mexican fabrics, pottery and glassware we're seeing so much of these days. Once a woman acquires some colorful Mexican pottery, she immediately wants to give a Mexican luncheon.

But just what kind of food should one serve at a Mexican luncheon?

In Keeping With American Tastes
Americans, as a rule, do not particularly enjoy real Mexican food. But here is a menu that is sufficiently Mexican and at the same time in keeping with American tastes. It was served at a supper party given by a friend of mine who'd just returned from Mexico.

- Watermelon Cubes
- Chili Con Carne
- Mexican Salad
- Coconut Cheese Custard
- Platter of Fresh Fruit
- Black Coffee

The watermelon cubes on little wooden picks were served as soon as we arrived and had been invited out on the terrace overlooking the garden.

When we went in to supper we found the table covered with a colorful gay Mexican table cloth. A big pottery tray in the center held a variety of fruits . . . oranges, peaches, plums and cherries. Colorful Mexican pottery dishes were used and there was a blue Mexican glass filled with water at each place. Here are recipes for some Mexican foods this hostess served.

CHILI CON CARNE
Brown 1 lb. of ground beef and 1 large onion, chopped (1 1/4 cups) in 3 tbsp. butter or drippings in a heavy frying pan. Add 2 1/2 cups cooked kidney beans (No. 2 can) and 1 1/2 cups tomato soup (1 can). Cook 10 minutes. Make a paste of 3 tbsp. chili powder, 1 tbsp. flour and 3 tbsp. water. Blend this paste into the meat mixture. Season with 1 tsp. salt. Cook over low heat for 45 minutes, stirring frequently to avoid scorching. This makes from 6 to 8 servings.

MEXICAN SALAD
Dice 2 avocados and 2 hard cooked eggs. Slice 6 stuffed olives and 1 small tomato. Mince 1 small onion very fine. Mix together with a little salt, chili powder and French dressing. Serve on lettuce . . . and if you wish, garnish with slices of crisp bacon. 6 to 8 servings.

BUNELOS
Sift 1 cup all-purpose flour before measuring and then sift it again with 1/2 tsp. baking powder and 1/2 tsp. salt directly into the mixing bowl and gradually add 6 tbsp. cold water (enough to make the dough stay together). Sprinkle the water lightly, a little at a time over the flour. At first blend it in lightly with a fork. Then gather the dough together lightly with the finger tips. As soon as you can make the dough stay together, you have plenty of water in it.

Round up the dough on a cloth-covered board with flour rubbed onto it. Roll very thin. Cut in 2-inch squares. Place in refrigerator to chill an hour. Drop squares into hot fat (about 4 inches deep in kettle) brown on each side. Drain well and serve warm with salad or soup). Fat should be at 400° to 425° F. (when a cube of bread browns in 30 to 35 seconds). About 36.

COCONUT CHEESE CUSTARD
Take 2 cups milk and scald 1/2 cup of it. Remove scalded milk from heat and gradually add 1/2 cup grated cheese. Stir until well blended and cheese melts. Add remaining 1 1/2 cups milk, 3 slightly beaten eggs and 1/2 cup shredded coconut, 1/4 cup sugar and 1/2 tsp. salt. Mix well. Pour into buttered custard cups and put on rack (or several thicknesses of newspaper) in a pan of hot water. Bake in slow oven, 300° F., for about 40 minutes . . . or until the custard is set and slightly brown on top. Serve in custard cups or unmold on dessert plates. Garnish with whipped cream and toasted coconut.

Harvey Reid, who is in the airplane mechanics school at San Antonio, spent the Fourth of July holidays with relatives and friends here.

Mr. and Mrs. Wade Mahan attended the cowboy reunion in Stamford last Saturday afternoon.

Miss Maxie Dingus returned to Fort Worth last Sunday to resume her work there, after a visit here with her parents, Mr. and Mrs. G. W. Dingus.

Mr. and Mrs. A. C. Bailiff of Merkel spent last Sunday here visiting in the home of Mr. and Mrs. M. C. Hallmark. They are Mrs. Hallmark's parents.

Mrs. Nash and daughter, Abbie Louise, of Dallas came in last week for a visit with Mrs. Nash's sister, Mrs. Emmett Branch, and Mr. Branch.

Mrs. G. R. Eiland and son, G. R. Jr., and Mrs. Dave Eiland visited with relatives in Galveston during the first of this week.

Herbert Sams of Benjamin, county attorney of Knox County, was a

business visitor here Tuesday morning.

Ralph Layne was up last week end from Camp Bowie to visit Mrs. Layne, who was visiting relatives here from Deport, Texas.

Mrs. Erna Mae Lee of Wichita Falls has been visiting in the home of her mother, Mrs. A. F. Hunkinson, and attending her son Billy Arthur Lee, who was injured in a car accident Saturday night.

Dickie Owens, who has been visiting his father, Earl Owens, in Fort Worth returned home last Wednesday.

Secretary of Agriculture Claude R. Wickard says that if war is continued for a long time the issue may finally be: "Who can feed the world—the democracies or the dictators?"

It is estimated that the increase in the government rate of commodity loans to 85 per cent of parity this year will add about \$224,000,000 to the income of producers of cotton and about the same amount to wheat growers.

I GIVE YOU TEXAS

By Boyce House

Someone has said, "Advertising begins when the crying child advertises he wants his mother and ends only with the epitaph on the headstone in the village cemetery."

One of the highlights of a visit to Grama's was a visit to town on Saturday. Sometimes, Grandpa hitched up the horses and we rode to the store in the wagon—but, otherwise, the young grandson walked. It was three miles but it was broken up in such easy stages that it didn't seem very long. First, you strolled from the farmhouse to the hill and down the hill and across the bridge and up another hill and down it, and there you were on the big road. A half mile down the road and you came to the railroad track and then you strolled down the track, looking back once in a while to make sure that a train didn't catch you unawares. Past fields and through thick, dark woods that came right down to the right-of-way and then to the long trestle (a look down would make you dizzy) and then the mill with its mound of fresh sawdust and the whine of a saw biting into a log, the drive being broken by a snarl as the teeth hit a knot—and there was the town with its plank walks and its streets with white dust.

The first order of business was a milk-shake. Yes, strawberry—how did you guess? The man behind the counter poured the milk and the pink flavor into a glass, added a few chunks of ice, then carefully placed a metal shaker over the glass, inverted it and began the shaking. The ice made a rhythmic sound and then, after a minute of violent agitation, the contents of the shaker were poured into the chilled glass. My hearties, there

was a drink! Not one of the insipid milk-shakes of these latter days when the shaking is done, not by hand, but by an insensate machine that whips the contents in a deceptive froth.

Then came a tour of the business section—all four blocks; a pause in front of the printer's ink and peer through the cob-webbed and dusty window at the editor; a visit to the home of Uncle Tom who had a wonderful workshop in which he actually made bicycles, and dinner (at noon, of course) with his family, then another stop at the confectioner's for a second of those heavenly milk-shakes, and then the walk back to the farm—a walk, which for some reason, was always somewhat longer than the morning one into town.

More Mexican wisdom: Wit without discretion is a sword in the hands of a fool.

Lock your doors so that you may keep your neighbors honest.

What is well said is said quickly. At the foot of the lighthouse, one finds darkness.

Beware of silent men and dogs that don't bark.

The rich man's babble passes as maxims in this world.

Your columnist remembers hearing William Jennings Bryan say, "The speaker who needs an introduction doesn't deserve it and the one who deserves an introduction doesn't need it." Bryan liked to tell about the quiet little business man who always contributed generously to the Democratic Party and so he was nominated for mayor. There happened to be a Democratic landslide that year and he was elected. When Bryan came to town the mayor was scheduled to introduce him and somebody wrote out a speech which "his honor" memorized but when he saw the big crowd he forgot it and blurted out:

"I have been asked to introduce William Jennings Bryan, who is to speak to you. I have now done so

and he will now do so."

Byron Utecht, Fort Worth Star-Telegram correspondent in Austin, was a war correspondent in Mexico, riding side by side with Pancho Villa. There is a tradition that the newspaper correspondent in the motion picture, "Viva Villa," who was such a friend of the Mexican hero, actually was based on Utecht. . . . Former Secretary of War Harry Woodring said, "The Army horse breeding plan utilizes 95 per cent registered thoroughbreds. By far the greater number of these stallions are obtained from race tracks. The discontinuance or serious curtailment of racing would have an extremely harmful effect on the operation of the Army horse breeding plan." Therefore, officials of the Texas Thoroughbred Horse Association, contend the return of racing to Texas would aid national defense.

An old-time tramp printer was given two pieces of copy—an account of a wedding and an auction of a farmer's property. In the absence of the editor from the office, the typesetter partook freely of a bottle of whisky, with the following results:

"William Smith and Lucy Jones were disposed of at public action in my farm one mile east of a beautiful cluster of roses and two white calves before a background

of farm implements too numerous to mention in the presence of about sixty guests including two milch cows, six mules and one wagon. Rev. Jackson tied the nuptial knot, with about 200 feet of hay rope and the bridal party left on one good John Deere gang plow for an extended trip with terms to suit purchasers."

BIRTH ANNOUNCEMENT
Mr. and Mrs. Travis Martin of Seymour are the parents of a 7½ pound daughter, born on Tuesday, July 1, at a Seymour hospital. Her name is Alyce Ann. Mrs. Martin is the daughter of Mr. and Mrs. M. H. Reeves of Munday.

Mr. and Mrs. Clyde Longbotham and daughter of Guyton, Okla., spent several days here last week with Mrs. Longbotham's parents, Mr. and Mrs. G. W. Dingus.

County Agent Walter Rice of Benjamin was a business visitor here Saturday afternoon.

Mrs. Lewis Williams and Mrs. Oran Driver of Benjamin were here last Monday morning, shopping.

HOME FROM CAMP BOWIE
Lemuel Clarke of Camp Bowie, came in last Thursday to spend his ten-day furlough with his parents, Mr. and Mrs. Tom Clarke of the Sunset community.

VACATION

at the least cost

GO IN YOUR CAR

When Vacationland Calls...whether it is beach or mountain...a spot of scenic beauty off the beaten path...or ground hallowed by historical association...why let rails and timetables cramp your vacation-style!

You go *where* you please, *when* you please...you see more and do more, for less...when you and your family travel in your own "private car."

Get off to a good start and insure a trouble-free trip by asking your Phillips Service Station for these four things:

1. Phillips 1941 Road Maps with latest complete touring information are FREE, yours for the asking.

2. Phillips Master-Chart Lubrication Service guarantees against missed fittings, conditions your car for high speeds and extra miles.

3. Phillips 66 Motor Oil is Our Finest Quality. Start the trip with this fresh, clear, clean oil. It's good for your engine!

4. Phillips 66 Poly Gas, at regular price, gives anti-knock quality unsurpassed in its price class.

While you're heading for fun, find out how much more fun it is to drive with a motor that is really doing its best. See if you don't feel that difference when you fill the tank with Phillips 66 Poly Gas...at the Orange and Black 66 Shield.

Phill-up with Phillips for Greater Mileage

Grady Roberts Returns Home

Representative and Mrs. Grady Roberts returned home last Saturday night from Austin, where Mr. Roberts represented District 114 in the Forty-Seventh Legislature, which adjourned sine die last Thursday.

Mr. Roberts, who served as chairman of the conservation and reclamation committee and a member of the agriculture, appropriations, game and fisheries, and public printing committees, again held the distinction of being the only member of the House of Representatives to be present for every roll call and every record vote during the entire session.

As a member of the appropriations committee and the free conference committee, Roberts helped in providing new wards to take all insane persons out of local jails. It was his pleasure to help write the final version of this bill, which made it possible to solve this old-aged problem. On this and on the other committees he did much work in committee rooms while the legislature had adjourned for week ends. He pointed out that this was the time when committees did their work and it enabled him to be present while the house was in session.

The Forty-Seventh Legislature was the longest in the state's history, lasting 171 days. The Forty-Sixth was in session 163 days which was the longest session at that time. Roberts said in speaking of the session that the House of Representatives did a good work this year, but its members should have come home six weeks ago, as their work had been completed at that time.

Roberts voted for adjournment every time the question came up in the house. He stated he always voted for sine die adjournment, and not for recess, as he believed their work accomplished and he wanted to come home.

Weekly Health

Issued by Dr. Geo. W. Cox, M.D., State Health Officer of Texas

Austin, Texas—Dr. Geo. W. Cox, State Health Officer, states that infantile paralysis is largely a summer disease. Although cases may occur any time during the year, over half the total number of cases occur from July to October. During June, thirty-one cases of poliomyelitis (infantile paralysis) have been reported to the State Health Department from city and county health officers over the state.

Direct contact between persons form the chief factor in the spread of infantile paralysis. Because of the seasonal prevalence of the disease, flies and other insects have been suspected of conveying the

virus or germ. Insect transmission, however, has not been scientifically demonstrated. Although animals are subject to paralysis, they are seemingly not susceptible to the human type of this paralytic disease. Carriers are difficult to determine and this fact makes it advisable to reduce to a minimum all human contacts during any outbreak of the disease.

Early symptoms of infantile paralysis are headache, fever, vomiting, drowsiness and irritability followed by stiffness in the neck and back. Prompt medical care, early recognition of the disease and reporting of cases to local health authorities make possible the use of preventive and control measures.

After the acute stage of the disease has passed, and the patient is permitted to walk, it is most important that the affected part of the body not be fatigued. The secret of rehabilitation lies in the continuance of professional medical care and large doses of patience.

Children under five years are most susceptible to the disease and all children under twelve should be watched for suspicious symptoms. Your family physician should be called immediately if infantile paralysis is indicated. Local health authorities should be contacted immediately and patients isolated for at least twenty-one days.

Children should not visit homes where the disease or symptoms of the disease exist. Promptness in diagnosis of poliomyelitis is one of the most important factors in its control measures.

TEXAS OUT-OF-DOORS

Plant Minnows and Bullfrogs

Austin, Texas.—Not only will the Texas Game Fish, and Cyster Commission restock the lakes and streams of the state with millions of fish this summer, but also in the form of tadpoles, crayfish and minnows, which are being raised in the ten hatcheries of the Department, will be planted in rivers and lakes to provide additional food for members of the finny tribe.

All three species of food are highly desirable to many types of fish. It has been found that all three species can be raised in large numbers in hatchery ponds without slowing down the production of fish. When the bass, crappie, bream and other types of fingerling fish are taken from the hatchery ponds for restocking, the minnows, crayfish and tadpoles which are in the ponds will also be taken along.

Since lack of food and improper habitat, along with over-fishing and too long an open season, are the main contributing factors in the scarcity of fish, it is believed by the executive secretary and the chief aquatic biologist of the Game Department that the food supply being planted will aid in producing more of those big 'uns for anglers to catch.

Present indications are that the Game Department will increase its production of fish in the ten hatcheries by 5,000,000 this year. Last season there was an increase in production of more than a million and a half. A total of 7,464,962 fish were distributed. Barring ill luck, the crop this year will probably exceed 12,000,000. New methods of fish production, many of them worked out by the Texas Department's aquatic biologists, are responsible for the vast increase.

Fish Ate Peanuts

In these days of advancement in the use of peanuts for many different foods and other products, the sportsmen might add to the consumption of the goober, believe Alfred Habe, a concessionaire on Medina Lake. Mr. Habe reported to the Game Department biologists that he recently caught a pound and a half catfish which had an extra big stomach. Upon cutting open the fish Mr. Habe discovered it had swallowed a half

sack of salted peanuts. Mr. Habe wondered if fish would bite peanuts on a hook and finally succeeded in baiting hooks by tying halves of peanuts around the shanks of hooks. It worked only fair, one fish being caught on a half dozen hooks the first night.

The Medina Lake concessionaire is one of the true conservationists in Texas. A bass spawned on the steps of his dock this spring and until the eggs hatched and the little bass swam away he would not allow any kind of fishing off that section of his dock.

Lightning Kills 199 Birds

A big oak tree was a treacherous shelter during the height of a cloud burst in Austin recently. A total of 198 sparrows and one blackbird were found dead under the tree after it had been struck by lightning. The birds had sought shelter from the storm in the big tree.

Bird Kills 43-Inch Snake

Details of the efficient manner in which road runners or chapparals go about killing snakes was contained in a report of a game warden to the Game Department recently. The warden got in on the start of the fight and remained until the close, exactly an hour and 21 minutes later.

The roadrunner was jogging down a small path through the brush when it stopped suddenly and started circling a bunch of cord grass. The warden approached to within twenty yards of the bird and remained there while the chapparal proceeded to trim a 43-inch rattlesnake down to its size and then to dispatch it. Darting in and out, the road runner dug viciously at the rattler time and again and each time managed to evade the fangs of the six-button reptile. After 81 minutes the rattler was lifeless. The chapparal took two more vicious stabs at it, cocked his eye at the warden and nonchalantly strolled off into the brush.

Upon examining the reptile the warden found a hole completely through the center of its head, three lacerations on its belly, and the rattler was missing both of its eyes.

Why not take a boy or a girl fishing? You'll get a lot more enjoyment out of your trip.

SMALL FARMERS CASH MOST AAA CHECKS

College Station, Tex.—So-called "small" farmers are cashing the bulk of the AAA's conservation and parity payments checks. B. F. Vance, administrative officer in charge of the AAA in Texas, declared here this week.

Studying a report made to Congress by the United States Department of Agriculture on the distribution of payments under the 1939 farm program, Vance said that 92 per cent of the agricultural conservation payments and 98 per cent of the price adjustment, or parity, payments were for less than \$200. The report to Congress, listing the names of cooperators who earned payments of \$1,000 or more showed approximately eight-tenths of one per cent of the total number of payees under the program were in that classification, he said.

"Increasing attention has been given the small farmer in the development of the AAA program," Vance declared. "As provided in the Act, automatic increases are made in conservation payments to farmers when the amounts earned are less than \$200, the smaller payments being increased proportionately more than the larger ones. Also, any cooperator may earn a minimum of \$20, with an additional allowance of \$15 for forest tree practices, making a total of \$35 which may be earned on any farm. This \$35 payment would be increased to \$46 under the provisions for increasing small payments."

The Act also provides that no individual can earn more than \$10,000 in agricultural conservation payments, but this provision does not apply to parity payments, the AAA official said.

Mr. and Mrs. A. V. Kemletz of Stamford spent last Thursday night and Friday here with Mrs. Kemletz's mother, Mrs. Louise B. Ingram.

Mr. and Mrs. R. L. Ratliff and family and Mrs. Don L. Ratliff and son were visitors in Fort Worth the first of this week.

Mr. and Mrs. C. W. McCarty and family of Carlsbad, New Mexico, spent the week end here with Mr. McCarty's parents, Mr. and Mrs. W. W. McCarty.

Joe Herring, who is in training at Camp Bowie, Brownwood, spent the week end here with his parents, Mr. and Mrs. Henry Herring of Rhineland.

Joe Bailey King was a business visitor in Abilene on Wednesday of last week.

NO. 1 CADET . . . Alfred J. F. Moody of Hamden, Conn., has been designated No. 1 cadet of this year's class at West Point. He received 2,853.52 out of a possible 3054 points during his four years, and captained the fencing team, was first class cadet instructor and class historian.

POSTPONED were wedding bells Billy Conn would ring shortly after 15th-round bell of his close-but-losing fight with Joe Louis. James L. Smith of Pittsburgh, father of 18-year-old Mary Louise, and former big league ball player, said he'd punch the challenger if he insisted on marriage. Conn acquiesced.

DRIVE-IN SERVICE . . . Appropriately-named Miss Gertrude Drinker, Dairy Council Queen of Richmond, Va., aided by C. S. Collins, representing chain stores co-operating in drive, makes symbolic initial delivery of National Dairy Month campaign to help producers move large supplies, as a "perfect example of producer-to-consumer distribution."

Legal Notices

NOTICE OF SHERIFF'S SALE OF REAL ESTATE

Notice is hereby given that by virtue of an order of sale issued by the Clerk of the District Courts of Dallas County, Texas, on the 19th day of June, 1941, in a certain cause wherein Bankers Life Company, a corporation, is plaintiff, and Joseph Blaschke, Faustina Blaschke, Joseph Blaschke, Sr., Bryant-Link Company, a corporation, John Ed Jones and G. R. Elland are defendants, No. 55605-B, plaintiff recovered judgment against the defendant Joseph Blaschke for the sum of \$3,514.65, with interest thereon from May 10, 1941, at the rate of 10 per cent per annum and costs of suit, which judgment was rendered on May 10, 1941, in the District Court of Dallas county, Texas, for the 44th Judicial District of Texas, I have levied up and will, on the first Tuesday in August, 1941, same being the 5th day of said month, at the court house door in the City of Benjamin, Knox county, Texas, between the hours of ten o'clock, a. m., and four o'clock, p. m., proceed to sell to the highest bidder for cash all the right, title and interest of said defendants, or any of them, in and to the following described real estate, levied upon on June 25, 1941, as the property of said defendants, to wit:

Situated in the county of Knox, State of Texas, about 8 miles north of Munday, known as the Joseph Blaschke Farm and being 79.375 acres of land a part of sub-survey No. 7 of original survey No. 21, in the name of David G. Burnett, Patent No. 850, Volume 11, Abstract No. 10 and fully described in deed of trust from Joseph Blaschke and wife, to G. W. Fowler, Trustee, dated January 15, 1928, and recorded in Volume 17, Page 617, of the Deed of Trust Records of Knox County, Texas.

The above sale will be made by me to satisfy the above described judgment and the proceeds thereof will be applied to the satisfaction of said judgment.

Seymour Plans For Her Annual Cowboy Reunion

Seymour, July 9.—With the 1941 Seymour Cowboy Reunion and Rodeo, July 24-25, still more than two weeks in the offing, finishing touches are being put on what promises to be the fastest rodeo program and most varied list of attractions ever seen in Seymour.

The program of rodeo events finds calf roping, saddle bronc riding and steer riding the same as in 1940. The ribbon roping contest of last year has been replaced with a faster bell roping contest; and bareback bronc riding is a brand-new event. The cutting horse contest will again be held the morning of the second day.

An innovation is that all contestants in roping events will rope during the day, ten in both calf and bell roping at the afternoon show and the balance between shows. At the night performance the ten fastest ropers in both events during the day will compete for special added purses.

An increased prize list is found in all events, with special added prizes in addition. The handsome purses are expected to attract a record number of contestants.

Several special attractions are being arranged for the rodeo shows which will be held at 2:30 and 8:00 p. m. both days on the dustless turf arena on Fair Park hill.

The Baylor County Old Settlers' Association will have its annual meeting the morning of July 24, according to President I. O. Newton. Secretary R. O. Tolson states

that more than 700 invitations have been mailed to pioneer residents of this section, and that most of them are expected to attend.

Downtown parades each day, dances each night, sponsors' contests, chuck wagons, and many other features will round out the full program in Seymour July 24-25.

Mr. and Mrs. Lee Haymes and children visited with relatives in Stamford last Friday.

Rev. J. W. Baughman, Methodist pastor at Goree, attended the revival services at the Munday Methodist church last Monday morning.

Mr. and Mrs. Homer Hediger and little daughters, Paula and Mary Sue, of Fort Worth visited Mrs. Hediger's parents, Mr. and Mrs. L. C. Floyd and other relatives and friends here over the week end.

Dome of Texas Capitol Building Came From Belgium

Austin, Texas.—While the Texas capitol building was constructed of native Texas granite, the dome for the 311-foot-high structure actually came from Belgium!

This piece of information recently came to light in the University of Texas archives here, in an account of the construction of the State capitol, completed in 1888.

It cost more, University library officials found, to ship the dome from Galveston to Austin than it did from Belgium to Galveston, because of the problems of transporting the huge "package" inland.

American forests occupy one-third of the national area, exceeding home lands of 230,000,000 people in Europe.

"Here's What I Expect An Advertisement To Tell Me"

"Where Can I Buy It? Naturally, one of the first things I want to know about something I see in an ad is—where can I buy it? It isn't simply a matter of convenience and of saving time in planning my shopping, either! No, the name of the merchant, itself, often decides whether I buy or not. Invariably, you see, I give preference to stores whose ads I see regularly and often—I know these stores must have good value or they couldn't go on advertising year after year!

"What Will It Do For Me? I find it so much easier to make up my mind when the ad tells me facts about the merchandise! What is it? What will it do? How will it help me? Why do I need it? I want to know about color, weight, texture, material, style—I enjoy reading those things and I usually buy from the merchant who tells them to me.

"How Much Is The Price? Of course nearly every ad mentions the price, but if an item has been marked down I want to know from how much. So many sale ads say 'Was Higher' . . . how much higher? I want to know how much I am saving and I want the chance of deciding for myself if the item is a real value or not. I have more confidence in the store that is consistently truthful and buy from such a store regularly—and my husband says an old customer is worth three new ones because new ones cost money to get!"

READ THE ADS IN THE MUNDAY TIMES—ALL OF THEM HELP YOU TO WISE SPENDING—MOST OF THEM HELP YOU TO MAKE WISE SAVINGS, TOO!

More for your MONEY!

Cattle Prices Are Steady At Auction Sale

The Munday livestock auction sale reports a big run of cattle and hogs for the sale last Tuesday. All classes of cattle sold fully steady with last week's market.

Top hogs sold from \$10.25 to \$10.60; lights and heavies, \$10 to \$10.20; sows, \$9 to \$9.75.

Some of the prices paid for cattle were: Beef bulls, \$7 to \$7.50; butcher bulls, \$6.50 to \$7; fat cows, \$7 to \$7.60; butcher cows, \$6 to \$7; sows and cutters, \$3.75 to \$4.75; fat yearlings, \$9.25 to \$10.75; butcher yearlings, \$7.75 to \$9; fat calves, \$9.50 to \$11.55; butcher calves, \$7.50 to \$9; rannies, \$6.50 to \$7.25.

Some common stocker steer and heifer yearlings and calves sold from \$29 to \$36 per head.

Buyers here for Tuesday's sale were Elmer Packing Co., Wichita Falls; E. L. Johnson, Evansville, Ind.; M. L. Cottingham, Crowell; J. H. Bell, Fort Worth; L. W. Brashear, Bowie; C. Forrester, Perry Woods and G. C. Woods, Seymour; Fred Keaton, Hollis, Okla.; P. W. Laird, Benjamin; J. I. Welch, Truscott; L. H. Highnote, and B. Melton, Haskell; J. M. Bradberry, J. C. Allison, C. A. Harold and George Hardberger, Knox City; L. C. Vance and Clarence Peck, Gore; V. B. Bowman, Weimert; C. R. Elliott, C. L. Mayes, G. C. Conwell, E. Morrow, E. Lowe and Kelton Kemp, Munday.

Mr. and Mrs. Sam Marsh and family of Ponca City, Okla., were here this week, visiting in the home of Mr. and Mrs. J. A. Wiggins.

Mrs. W. H. Sheedy and her grandson, William Summers, of Trenton, Texas, were business visitors in the city last Wednesday. Mrs. Sheedy is a former resident of this county and still has property holdings here.

Miss Legna Keel spent the Fourth of July in Electra visiting in the home of Dr. and Mrs. E. M. Ammons.

Thorp Methodists Enjoying Study Of "Methodist Church"

Much interest is being shown in the study of the book, "The Methodist Church" by the members at Thorp. The study is under the direction of T. W. Harber.

The primary and junior departments are studying "Our Church" under the direction of Mrs. E. E. Nix and Mrs. Herbert Partridge.

Sunday evening, July 13, at 7:45, chapter five will be given by E. E. Nix, and the people are invited to attend. Following the study, Rev. Hawkins will deliver his sermon.

Religious publications in eight languages have been made available to University of Texas students on the campus and throughout the state—in a bloc of 98 new items recently acquired by the University library. Covering all important phases of religion and the world crisis today, the books include ones written in English, Latin, Spanish, French, Italian, Czech, German and Danish.

Legion Calls Special Meeting To Elect Officers

A special meeting of Lowry Post No. 44 of American Legion will be held next Tuesday night at the Legion Hall for the purpose of electing new officers for the ensuing year.

Officers were not elected last Tuesday night because a representative membership was not present to the meeting. It is desired to have as many Legionnaires as possible present for this important business.

Members of Lowry Post are urged to keep the date—next Tuesday night—in mind and come out and have a part in naming their new officers.

Forty defense-minded men and women completed a two-weeks' American Red Cross First Aid Course for instructors' certificates at the University of Texas this summer.

Texas Baptist Board to Meet On July 15th

The Baptist Executive Board will meet in the new Baptist building at the corner of Pacific and Ervay streets Tuesday morning, July 15, at 10:00 o'clock. This will be the first state meeting to have a session in the new auditorium on the first floor of the new Baptist building. When the Board convenes Dr. Harlan J. Matthews of Marshall, president, will preside, while Dr. W. W. Melton, general secretary of the Baptist General Convention of Texas, will present important matters to the Board.

One of the important matters the Board will be the religious work among the soldiers. He will explain to the Board that Southern Baptists will undertake to raise \$300,000.00 on Sunday, July 27th, and that Texas' part of this is \$35,000.00.

Dr. Melton will report that during the first six months of this convention year Texas Baptists have raised more than \$500,000.00 on the \$1,100,000.00 that they set out to raise this year. This is an increase of \$81,000.00 over the same period of time last year.

There are 86 members of this board. All of them are expected to attend this session. Including the visitors who are expected to come to inspect the new Baptist building, more than three hundred Baptist leaders of Texas are expected to attend this session.

FIRST BAPTIST CHURCH

Sunday school at ten and preaching service at eleven. Training Service Sunday evening at 7:30. No preaching service Sunday evening on account of the meeting at the Methodist church.

One week from next Sunday our meeting begins. We should do much planning, praying and working. There is no saved person but that needs a revival, and surely we should be deeply concerned about the salvation of the lost. We should look into our own lives and ask the Lord to help us make them what they should be. Jesus said, "As the Father hath sent me, even so I send you." Are we willing that he may send us? The fields are white unto the harvest. The laborers are few. The perils are great. The storms of life are approaching. The end of the harvest draweth nigh. What will our answer be when the machinery is all put under the shed, and we meet the Divine Adjuster?

W. H. Albertson

To make electricity available to all Texas farmers, University of Texas engineers are cooperating with the federal government in a research program on rural electrification problems—such as the improvement of power transmission to reduce cost.

Publication of Legal Notices Now Required

In the future "publication of legal notices" will mean printed in a qualified newspaper, not tacked on a bulletin board, due to the new law recently passed by the Texas Legislature and signed by Gov. W. Lee O'Daniel. This announcement was made recently from Austin.

Principal purpose of the new statute is to regulate the publication of legal notices, many of which have heretofore been posted on the courthouse bulletin board. Such notices, henceforth, must be printed in a newspaper of general circulation and otherwise qualified, at a fair price, thus giving much greater publicity to legal actions.

A qualified newspaper is one which has been published for 52 consecutive issues next preceding the date of publishing said notice. The law is reported to be quite strict on this qualification.

In the past, many notices have been tacked up on the courthouse door or bulletin board, a practice began years ago. The new practice, many observers believe, will prove fairer both to those concerned by the legal notice, and to the public in general.

Billy Arthur Lee Is Injured in Car Accident Saturday

Billy Arthur Lee, well known in Munday, was injured last Saturday night in a car accident near Haskell.

Lights of car he was meeting prevented Billy Arthur's seeing a car just ahead of him, which had no tail light. Upon discovering the car ahead, he swerved his machine to one side to prevent hitting the other car, and the Lee car overturned.

Billy Arthur was taken to a Haskell hospital for treatment, suffering from cuts and bruises. He was released Monday afternoon, and is reported to be doing nicely. Three other occupants of the car were not injured.

The car, belonging to J. C. Spann of Munday, was badly damaged in the accident.

Weather Report

Weather report for period June 26 to July 9, 1941, as recorded and compiled by H. P. Hill, Munday, U.S. Co-operative Weather Observer.
