Gene S. Porter of Bell county, a candidate for Governor of Texas, was here on Thursday afternoon of last week and addressed a small group of voters in the interest of his candidacy.

Evangelist

Rev. H. H. Hollowell, pastor at O'Donnell, Texas, will come here Sunday to do the preaching during the Methodist revival meeting.

Tires Stolen From Local Car At Stamford

It was an expensive cowboy reunion for the Ed Thompson family of Goree last Saturday night, but it wasn't the fault of reunion officials.

Revival to Open Sunday Morning At Lake Creek Church

"Beginning Sunday morning, July 12, a series of revival services will be held at the Lake Creek church," Rev. Chas. Sargent said.

An Urgent Appeal To The Citizens of Knox County

As the drive for collection of scrap rubber comes to a close, members of the Knox County Salvage Committee and the Munday Chamber of Commerce have issued a final appeal to all patriotic citizens to bring in all available rubber without delay.

Raymond Butler Completes School at Chanute Field

Chanute Field, Ill.—Pvt. Raymond L. Butler, son of H. L. Butler, Route 1, Goree, Texas, was recently graduated from the Chanute Field school of the Army Air Forces Technical Training Command.

43 Men To Leave For Training Friday

The following registrants will report at Benjamin, Texas, Friday afternoon, July 10, 1942, for transportation to Abilene, Texas, where they will be examined and inducted July 11th:

Egg Sales Are High for May

Egg sales in Knox county during the month of May were more than 16,000 dozen or a cash return of \$4,150 to Knox county farmers.

Keck's Food Store Having Anniversary Sale on Week End

Special prices prevail this week end at the Keck Food Store in observance of the fourth anniversary of this store's operation in Munday.

CORP. RALPH LORAN UNDERGOES OPERATION

Word has been received here that Corp. Ralph Loran, who is in training at Camp Barkley, underwent an appendectomy at a station hospital there on Monday of last week.

- List of registrants for training: Everett R. Sprague, No. 188; Charles C. Moorhouse, No. 272; John H. Kener, No. 288; Boyd D. Moore, No. 348; William E. Pack, No. 415; J. B. Adams, No. 464; Dalton R. Sorrels, No. 544; Doris Dickerson, No. 555; Frank T. Jarvis, Jr., No. 579; Floyd P. Hutchens, No. 619; J. N. Reynolds, No. 640; Jesse W. Walton, No. 644; James B. Barnicoat, No. 658; Shelton Phillips, No. 697; Ben M. Browning, No. 769; J. W. Feemster, No. 865; Odie T. Smith, No. 868; Martin W. Brown, No. 875; Edwin K. Johnson, No. 884; Hershel H. Moulder, No. 1188-A; Billy M. Struck, No. 1348.

EDITORIAL PAGE

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"—

THE BREAKING POINT

You remember the fable about killing the goose that laid the golden egg.

According to Donald Nelson, chairman of the War Production Board, American seems to be in grave danger of committing the same mistake. In a letter to the House Ways and Means Committee on the new tax bill, he opposed putting the tax on the excess profits of corporations as high as 94 per cent.

"The 94 per cent tax must be paid in cash," he wrote, "but the profits are not cash. They are 'book' profits, including inventory, price rises and other items which may never materialize. A 94 per cent tax rate without a post-war credit will cause corporations to die like flies when the post-war depression begins."

But M. Nelson objects to the tax on other grounds as well. "Such a tax," he wrote, "is likely to result in a reduction of efficiency in the conduct of business and may even endanger the full success of our war production program."

Industry was on the first groups in the country to insist that taxes be placed at rate so high that only enough money would be left over for survival. It has vigorously opposed profiteering in any form. But companies must be able to retain enough money to continue operations after the war is ended. They must be able to build up sufficient reserves so that they can finance the conversion of their plants from war production back to peacetime manufacturing.

If they can do that, if they can use their enormous wartime plant capacity for making peacetime goods, chances are that instead of a prolonged post-war depression, America can go forward to the highest standard of living that we have ever known.

PROTECTING OUR BRAIN-CHILDREN

"America has had great admirals and generals, like Washington, Sam Houston, Pershing, Admiral Dewey and MacArthur, but equally important have been its inventors and industrial geniuses—heroes like Edison, Bell, and Eli Whitney. The country has become great through science and invention, and the production of goods for a high standard of living. Now we turn that same ingenuity to war to save our civilization. After the war we will need this spirit of invention of give us jobs, incomes and new goods and services to help stave off a postwar depression." That's the opinion of James D. Cunningham, vice chairman of the committee on patents and research of the National Association of Manufacturers.

According to Mr. Cunningham, we would not have the great industrial system we have today if it were not for patent protection which provides a stimulus for inventions.

Now when industrial research is more needed than ever, patent legislation is pending in the U.S. Senate which would curb it and perhaps even jeopardize the American war effort. This legislation would not only reduce the incentive to invention and research, but would make it easier, instead of more difficult, for an inventor's idea to be pirated.

In the words of Mr. Cunningham, "today we can see the frontiers of the post-war period only through the smoke of war, but we may be sure that Yankee ingenuity which has played such an important role in this country's development will be equally important in the future. We must encourage it. From our inventors and our scientists, stimulated and protected by the patent system, will come the progress and prosperity of tomorrow."

RUBBER CHALLENGE ACCEPTED

Private industry is attacking the rubber problem with full vigor today. And, according to authorities, production in 1943 may be greater than we expected even a short time ago.

The Standard Oil Company of New Jersey alone is building 34 plants with a total capacity of 578,000 tons, and they will be in operation in less than a year. Other oil companies are pursuing similar programs. On top of that, great progress is being made in the development of other kinds of synthetic rubbers, such as that which are produced from coal and coke.

American industry regards the rubber problem as a challenge. It is determined to produce a rubber substitute which, in time, will be as good and perhaps better than the natural product. It is determined to produce such a substitute in sufficient quantity to meet essential civilian no less than military needs. It is likely that some day we may regard the loss of our sources of natural rubber as a blessing in disguise. American invention, American ingenuity and American capital are starting to build a great new synthetic rubber industry which will play a vital role in peace as well as in war.

That which is striking and beautiful is not always good; but that which is good is always beautiful.
—Ninon de L'Enclos.

INVENTIONS FOR VICTORY

"Never say anything can't be done. Say instead that as yet no way has been found to do it."

That's the advice of a man who knows what he's talking about—a famous inventor and engineer who has given us things like the self-starter and octane gasoline, to mention two of many. According to him, mechanical advances are being made even faster than usual today because of the pressure of war needs. Already we have new devices on our planes and tanks that enable them in many instances to outperform those made by our enemies.

We haven't stopped improving them and our other weapons, either. New war inventions are being produced all the time. More than 45,000 suggestions were sent in to the Patent Office last year by America's inventors, and 3,000 of them have been adopted to date. Some of these inventions have to do with new machines, like the outrigger tank that is really a rolling fortress, and the ground strafing airplane, with guns in the belly of the plane. Others concern such things as emergency food rations and lightweight armored clothing.

The last was hastened the development of several new products—the radio, stainless steel, and dozens of new alloys and metals. There's no telling yet what things may come out of today's shortages and needs. (Necessity is the mother of invention, all right, and she gets in some good licks in a country where inventors are encouraged by industry and by our traditional patent system that has been protecting their rights for more than 100 years.

PAYING FOR VICTORY

No matter how much the war costs, no price is too great to pay for victory. Patriotic Americans are willing to do whatever must be done to beat the Axis. But what is the best way to raise money for carrying on the fight? That is one of the big questions in Washington now as Congress gets ready to work on a new tax bill.

Although in some quarters there is opposition to a national sales tax, many Congressmen continue to believe that it offers the best way of raising the needed funds and putting a check on inflation at the same time.

Statistics indicate that taxes on corporations are already so high that any further increase might seriously threaten their ability to manufacture war supplies with all possible speed and at the same time make adequate provision for the expanded post-war production that will be needed to provide jobs for the returning soldiers. A recent study of 100 large manufacturing companies shows that under existing rates 54 per cent of their 1941 income was taken in Federal income and excess profits taxes, compared with 34 per cent in 1940. Even without the new high taxes that have been proposed, these companies were able to retain only 2 per cent of their 1941 sales to provide necessary working capital, expand their plants and keep their equipment in order.

So far as higher income taxes are concerned, they, too, fail to furnish all the money that is needed now. At least 75 per cent of the entire national income goes to people who make less than \$5,000 a year. A general sales tax offers an easier way of enabling them to help pay for the war than heavier income taxes would, for in millions of instances income taxes are falling due when taxpayers have not saved enough money to pay them.

Probably no method of taxation is perfect. But in view of the existing high taxes on individual and corporation incomes, many tax experts maintain that a sales tax offers an easy way for every American to help pay for winning the war.

An airplane manufacturer has substituted "attack plant" for "defense plant" in all factory signs.

TO THE RESCUE

By W. H. Miller

Gems Of Thought

The Beautiful
In all ranks of life the human heart yearns for the beautiful; and the beautiful things that God makes are His gift to all alike.—H. B. Stowe.

By cultivating the beautiful we scatter the seeds of heavenly flowers, as by doing good we cultivate those that belong to humanity.—Howard.

Life and goodness are immortal. Let us then shape our views of existence into loveliness, freshness, and continuity, rather than into age and blight.—Mary Baker Eddy.

The beauty of holiness has done more, and will do more, to regenerate the world and bring in everlasting righteousness than all the other agencies put together.—Chalmers.

Needs not the aid of foreign ornament
But is when unadorned, adorned the most.
—James Thomson.

MARKETING QUOTA PENALTY SET ON COTTON

College Station.—Cotton marketing quota penalty rate is 8 cents per pound for the 1942-43 marketing year.

Under term of amendments to the AAA Act, loans will be made by the Commodity Credit Corporation at 85 per cent of parity price on August 1, the beginning of the marketing year, and will be approximately 16 cents per pound.

While the cotton loan rate will not be set until August 1, early harvest in some sections of the state necessitates immediate announcement of penalty rate for cotton marketed in excess of the farm marketing quota, Fred Renels, assistant administrative officer of AAA in Texas, said.

PENALTY RATE ON WHEAT ANNOUNCED

College Station.—Penalty rate for wheat raised in excess of farm marketing quotas is 57 cents per bushel this year.

National loan rate previously has been announced at \$1.14, according to P. C. Colgin, state AAA commodity loan specialist.

Mr. and Mrs. J. W. Roberts returned to their home in Merced, Calif., the first of this week after spending their vacation with Mr. Roberts' brothers, Grady Roberts of Munday and Sam A Roberts of Haskell, and with his mother, Mrs. A. Roberts, at Byers.

Mrs. Aaron Edgar was a business visitor in Abilene last Monday.

Jimmie Lee Haney of Wichita Falls spent the week end here with her grandparents, Mr. and Mrs. G. W. Haney, and with friends.

DAN MOODY

UNDEFEATED — Dan Moody has set his sights on winning the U. S. Senate seat and his supporters point out that the red-headed, hard-campaigning attorney has yet to lose a race.

As governor, Moody gave outstanding aid to the State's public schools. The textbook law was amended and the expense of free textbooks was materially reduced. Rural schools qualifying for rural aid were for the first time given full six-month terms, and money was appropriated for vocational training of under-privileged children.

In 1935 at the personal request of President Roosevelt, Moody went to New Orleans and successfully prosecuted a member of the Louisiana political ring for income tax evasion.

Born in Taylor, Moody was educated in the public schools of that county and the University of Texas. He enlisted in the Army during the first World War and was commissioned a second lieutenant of infantry.

"If elected to the U. S. Senate," Moody declares, "I will support all measures which will contribute to our winning the war. I will oppose any influence which will imperil our chances of winning the war or delay victory."

INTERESTING FACTS

Army trucks made by one manufacturer are built to negotiate a 65 per cent grade. Such a grade is so steep a man on foot has to crawl up it.

"Talking towels," are a new novel product for a paper company. Each towel carries a brief illustrated message designed to help the war effort. Sample: "The guy with a big yap is helping out some Jap."

One steel plant has devised a reflecting system that results in better light and better sight for employees. Reflectors, not unlike the ones used in the movie studios, are arranged to pick up the light rays from windows and lamps, and direct them on machines and other points where light is most needed.

A "victory" safety razor (no copper or brass is used) will soon be introduced. The new razor will have a plastic handle, a zinc cap and guard.

Under an employee-suggestion plan now in operation in one company a worker can earn as much as a \$1,000 defense bond for an idea that increases production on his own job, improves quality, saves material, reduces waste or improves working conditions.

Insulated pads for tanks, mattresses for soldiers, and rope for the Navy will soon be made from fiber of California's yucca, growing wild on desertland and mountainside.

A Week Of The War

O.E.M. Division of Information

Autos Available to Eligibles

Army Chief of Ordnance Campbell, speaking at Salisbury, N.C., said, "Our tanks are superior to anything the enemy has. Type by type, our tanks have heavier guns, heavier armament and greater speed... Our high-velocity 75-millimeter guns in our M-3 tanks far and away outrange the best the Germans have... and we can fire that high-velocity 75 when the tank is in motion, which is more than any enemy tank, whatever its size, can do."

Gen. Campbell said the so-called "new German 88-mm gun" is "about as secret as a daisy water pistol. It has been known to us and our Allies for at least 10 years. We outmatch this gun with several of our field and anti-tank guns." He said the German 88 is effective as an antitank weapon only within its limited range.

U.S. machine guns, Gen. Campbell said, will "outfunction any enemy gun under the most adverse circumstances—in other words, they will keep firing when enemy guns have to shut down to change barrels." The United States "can build a better automobile, a better typewriter, a better icebox and we can build—and are building—better machine weapons," Gen. Campbell said. "The enemy cannot outdo American design and production and spirit."

The WPB reported the dollar value of war shipments from 430 automotive industry plants totaled \$350 million during April, an increase of 46 per cent over February. Army Services of Supply Commander Somervell instructed civilian guards at 11,000 war plants to organize an auxiliary to the Army's Corps of Military Police as a further protection against enemy saboteurs.

The War Front

The "Flying Tigers" of the American Volunteer Group were placed under the Army Air Corps command in China and opened

their operations with heavy raids on three key Japanese bases at Hankow, Nanchang and Canton. Six Japanese planes were destroyed without loss.

A Navy communique reported Army bombers scored hits on an enemy cruiser and sank a transport in the Aleutian Islands. In addition, Navy submarines sank three destroyers. The situation in the Islands "has not changed materially," however, in the past two weeks, the Navy report said. The Office of Indian Affairs announced all of the Aleutian Islands west of Dutch Harbor as well as the Pribilof Islands, have been classified as parts of a total evacuation zone. The Office said nearly 1,000 civilians have been removed from these areas by the Navy and transferred to the American mainland.

The first communique from U. S. headquarters of the European theatre reported six U.S. Douglas light bombers manned by U.S. pilots successfully attacked targets by daylight in German-occupied territory in a joint operation with RAF bombers. Two American planes were reported missing. The navy said U.S. bombers carried out a second attack on Japanese-held Wake Island. The Navy also announced the U.S. aircraft carrier Wasp carried aerial reinforcements to the British island of Malta in the Mediterranean. Gen. MacArthur's Australian headquarters reported repeated air raids on Japanese-held territory in that area. The sinking of 17 more United Nations merchant vessels by enemy submarine action was announced.

Scrap Salvage

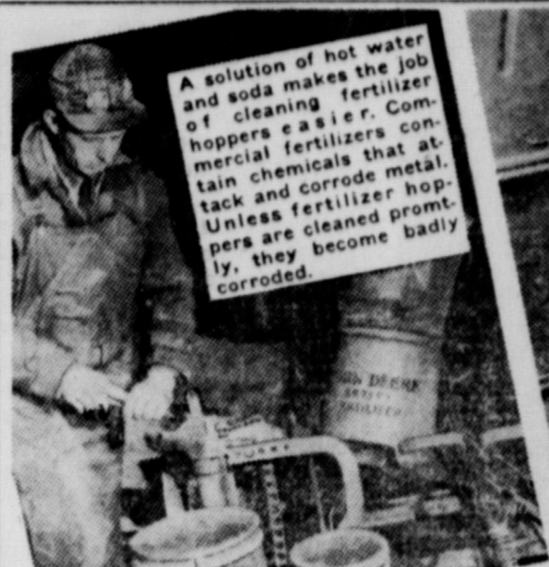

The WPB said a new and greatly intensified campaign to salvage vital scrap materials will be formally opened July 13, because the only way the U.S. can meet material requirements of war production is "to collect every last bit of scrap from every farm and home, and from every commercial enterprise and industry in the country." The iron and steel industry has raised about \$1,500,000 and the glycerine industry about \$500,000 to finance national advertising to stimulate scrap collection, the Board said. The farm implement industry has offered to assist the country's 12,000 State and local salvage committees in the collection of rural scrap. Materials to be sought in particular are iron and steel, rubber and waste fats.

The rubber scrap salvage campaign will close at midnight July 10. The Public Buildings Administration reported 15,000 pounds of scrap rubber were salvaged from Federal buildings during the first two weeks of the campaign. The War Department said the Army faces a 250,000-ton rubber shortage by the end of 1943, but present plans do not include military requisitioning of civilian tires.

Rationing

Price Administrator Henderson said consumers may purchase an extra two pounds of sugar between July 10 and August 22, in addition to the basic half-pound-a-week ration. He said the new East Coast coupon system for gasoline rationing will grant a fraction of a gallon more per week than tempor-

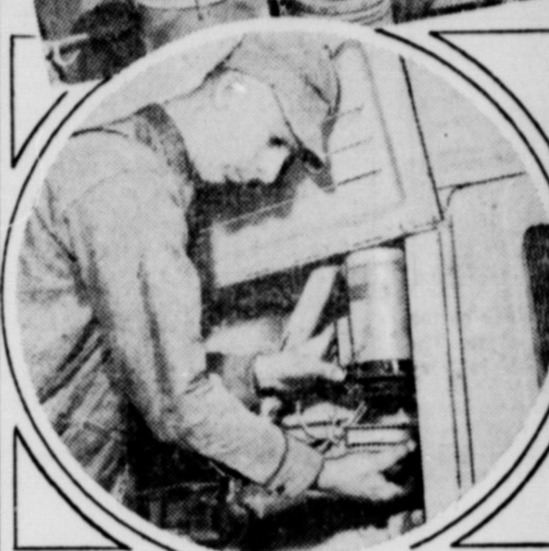

How You Can Help Win The War On Wear And Save Money And Needed Metal

A solution of hot water and soda makes the job of cleaning fertilizer hoppers easier. Commercial fertilizers contain chemicals that attack and corrode metal. Unless fertilizer hoppers are cleaned promptly, they become badly corroded.

Lime sowers, also used for spreading calcium chloride on roads to keep the dust down, soon corrode and rust unless cleaned promptly and thoroughly. Turn fertilizer box upside down. Wash inside and out with hose. Leave in sun to dry. When laying up machine, coat with light oil. Don't use old crankcase oil. It may contain impurities and give no protection against rust.

Examine the oil in air cleaner on your tractor daily. If impurities are present, change oil. Dust entering a tractor working under very dusty conditions without an efficient air cleaner may cause damage to such an extent that in 10 to 15 days new parts will have to be supplied.

Lubricate bearings at each end of Lime Sower twice daily with a good quality lubricant that will resist wash-out, squeeze-out, or jar-out. Frequent lubrication will keep fertilizer or calcium chloride from getting into the bearings and causing them to seize. Lubricate wheel bearings once daily.

(Pictures by courtesy of The Texas Company)

By Eric Patterson, Farm Supt., N. Y. State Institute of Agriculture

LIME sowers and other fertilizer dispensing machines can be a constant source of repair trouble and expense unless they are promptly and thoroughly cleaned and lu-

bricated after they have been used. A survey by the New York College of Agriculture showed that the average lime sower did only 43 ten-hour days' work during its life. In other words, the machine didn't wear out, it rusted out.

One of the large Farm Equipment manufacturers reports that up to 47% of the total repair costs of farm machinery have been traceable to depreciation from weather. In a word: rust.

The farmer can save himself this needless purchase of repair metal by the consistent and thorough use of quality oils and lubricants. By winning the war on wear, he saves for our armed forces metal for the material they need so badly.

AUTHOR'S NOTE: It is not the policy of the N. Y. State Institute of Agriculture to recommend any specific products, and nothing in this article should be so construed.

Cotton Beach Frock

Handblocked cotton in shades of dull rose is used to make this beach frock worn by Gene Tierney, lovely film star. The skirt ties on, and underneath are matching shorts to form a play suit when the skirt is removed.

ary A cards, but the conditions that must be met to obtain supplemental rations under the permanent system are so strict that most motorists will have to get along on the minimum. Motorists will register for A books July 9, 10 and 11. Small boat owners will be issued E and R gasoline ration books and will receive a basic six months ration of four gallons for each horsepower for inboard and five gallons for outboard motors.

The OPA set the quota of passenger automobiles for rationing during July at 25,000, excluding State and National reserves, which will reduce the original inventory of about 402,000 cars to about 260,000. Between July 9 and August 31, the Office will release 230,000 bicycles for rationing—180,000 to the States, 20,000 to State reserves, and 30,000 for a National reserve.

County Tax Assessor-Collector Earl B. Sams of Benjamin was a business visitor in the city Monday.

E. L. Covey and son Elmer, of Benjamin were business visitors in the city Monday.

Veterans of Foreign Wars Helping Youths in Becoming Flying Cadets

A nation-wide move to assist American youngsters in becoming flying cadets has been launched by the Veterans of Foreign Wars of the United States; and the Wichita Falls chapter, under the guidance of Chairman W. R. Duke, has set machinery in motion to lend all possible assistance to Northwest Texas young men who desire to become pilots in the army air forces.

Action of the VFW follows designation by Lieut. Gen. Henry H. Arnold, chief of army air forces, according to R. W. Thompson, commander of the Wichita Falls post.

It has been found that a startlingly high percentage of applicants in this branch of service fail to pass either the physical or mental examinations, and it is with the expectation that this percentage will be substantially lowered that General Arnold has enlisted the aid of the veterans' organization.

Arrangements have been made to furnish prospective aviation recruits with physical examinations in order that slight defects might be corrected, and to supply a list of 62 questions paralleling those given in the regular entrance examinations, according to Chairman Duke. The questions have been prepared by the air forces command, and Wichita Falls public school teachers have been recruited to coach students in the particular subjects in which they are found to be weak.

"Prospective cadets will be aided in every way possible," Duke said, "and they will find the preliminary examinations will provide an accurate gauge of their ability to enter the flying service. Every effort will be made to help them overcome any weaknesses shown, and we are confident we will soon lower substantially the prevailing

70 per cent of failures." Young men between the ages of 18 and 26 are eligible to become flying cadets.

Prospective enlistees may receive all necessary information from W. R. Duke, 717 Staley Building, Wichita Falls, Texas.

Other members of the VFW committee here are Al Flack, R. W. Oakey and W. A. Ritter.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Ernest Cribbs of Goree are the parents of a holiday baby, a little girl born on Saturday, July 4th, at the Knox county hospital. Mother and daughter are doing nicely.

Mr. and Mrs. Jimmie Harpham returned home last Monday afternoon from Brownwood, where they had been visiting with relatives and friends for about ten days.

Frank Tomsu Jr., and Mrs. Frank Tomsu, Sr., of Vernon are visiting in the home of Mr. and Mrs. Geo. Petrus and family.

Mr. and Mrs. Sebern Jones spent the week end in Wichita Falls, visiting in the home of Mr. and Mrs. Jim McDonald.

Bascom Giles Asks Return As Land Official

Bascom Giles, Commissioner of the General Land Office, made his formal announcement today for reelection. In reporting on his conduct of that important constitutional state office, he pledges continued honest, efficient, and faithful service to the people.

Soon after becoming Commissioner of the General Land Office, Mr. Giles submitted a number of recommendations to the Legislature that he had advocated in his campaign, which body put his recommendations into law. His outstanding accomplishments are the passage and administration of a law which ended vacancy racketeering and title clouding and gave the good-faith claimant or home owner a prior right to purchase the land when a vacancy is discovered; and the creating of the School Land Board to administer the public school lands of Texas. Commissioner Giles is chairman of this board and a member of the Board for Lease of University Lands; throughout his service there has not been a dissenting vote on either board. He has served on the School Land Board with two Texas governors and one attorney general.

Commissioner Giles secured the passage of a law to increase the down payment on new purchases of school lands from 1-40 to 1-5. Another law he advocated was the extension until 1951, of the payment of principal on lands that had been previously sold, thus assuring the school fund of a long-time steady income. The laws passed on his recommendations have made it possible for Commissioner Giles to increase the Public School Fund to more than \$75,000,000.

Commissioner Giles has compiled new state abstract volumes for publication, the first time since 1878; and instead of 62 cumbersome volumes, the 406,000 titles are compiled into eight compact volumes, each one complete for a district of the state.

Commissioner Giles said that he had received hundreds of highly complimentary letters commending him for the prompt and efficient service being rendered by the General Land Office which, he said, is due in a large measure to the efforts and ability of his employees. "I invite you who have not done business with the Land Office during my administration to ask any of the 200,000 who have as to the character of the service we are rendering," Commissioner Giles said.

Mrs. Ruby Kethley of Abilene and daughter, Mrs. Frank Robertson of San Diego, Calif., spent several days here visiting in the home of Mr. and Mrs. P. V. Williams. They accompanied Mr. Williams to Dallas last Wednesday, and went to Sherman where they visited with Cadet Jerry Kethley, who is stationed there for his basic training.

Mr. and Mrs. Gene Harrell attended the Texas Cowboy Reunion and Rodeo in Stamford last Saturday night.

Mr. and Mrs. J. C. Rice have received word from their son, Lieut. J. C. Rice, Jr., that he has been sent to Fort Benning, Ga., to attend officer's training school. Lieut. Rice was here recently to visit his parents.

Misses Gamille Silman and Winnie Fae Hassan of Hamlin are visiting with Misses Lorene and Polly Silman this week.

Mr. and Mrs. A. W. Hunter and daughter, Sandra Kay, of Fort Worth visited with Mr. and Mrs. G. L. Hunter over the week end.

Joe Lynn Kethley Married to Salt Lake City Girl

The marriage of Lieut. Joe Lynn Kethley, former Munday resident, is announced in the following article which was taken from the Salt Lake City Telegram, issue of June 24th:

Of interest to Salt Lake City society is the announcement of the marriage of Dorothy Sims and Lieut. Joe Lynn Kethley, United States army air corps, by her parents, Mr. and Mrs. M. K. Sims.

The couple were married Sunday afternoon in the post chapel at Davis Monthan field, Tucson, Ariz., by Lieut. Homer B. Reynolds, post chaplain.

The bride wore a smart white frock of crisp pique, with all-white accessories, her only note of color being her corsage of American Beauty roses.

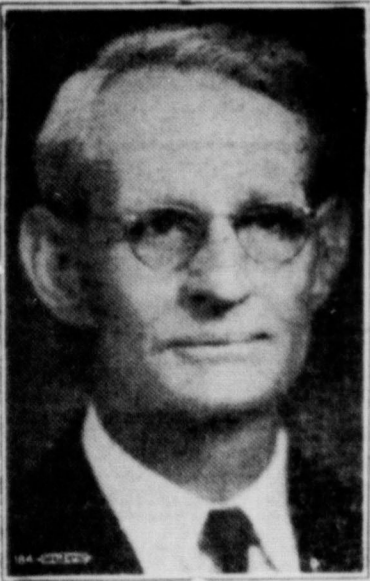

A wedding dinner followed at the Santa Rita hotel, in Tucson. Present at the ceremony and dinner were Ruth Sims, sister of the bride, and Mary Jane Hansen, both of Salt Lake City.

Lieutenant Kethley is the son of Mrs. Ruby Kethley, of Abilene, Texas. He was educated in McMurry college, Abilene. Commissioned at Brooks Field, San Antonio, in January, 1942, Lieutenant Kethley is stationed at Davis Monthan field.

Mrs. Kethley is a graduate of the University of Utah and a member of Pi Beta Phi. She is a popular member of the Salt Lake younger set.

Mr. and Mrs. Billie Henry of Floydada visited in the home of Mr. and Mrs. C. P. Baker last Sunday.

County Supt. Merick McLaughney of Benjamin was a business visitor here last Wednesday and was a guest at the regular luncheon of the Munday Chamber of Commerce.

Judge Harry N. Graves was elected four years ago to fill the unexpired term of the late Judge O. S. Lattimore as a member of the Court of Criminal Appeals of Texas. He has actively participated in the work of the Court since that time, and has written his share of their opinions.

The Court has disposed of the cases submitted to it, and is up with its docket, and he requests a second term at the hands of the voters.

Would it be wise to change the personnel of this Court at the present time?

Wesleyan Service Guild Meets At Church Monday

Mrs. M. F. Billingsley was leader of the study of Exodus last Monday evening when the Wesleyan Service Guild met at the Methodist church. A short business meeting was conducted, after which Mrs. Joe Bailey King gave the devotional: "Who Is My Neighbor?"

Several songs were sung by the guild, accompanied by Mrs. C. H. Giddings at the piano, and this was followed by prayer by Mrs. Kirk.

The guild will conduct a prayer meeting Thursday evening at 8:30 at the church. All members are urged to be present.

No more meetings will be held during July but a business and social meeting is scheduled for the first Monday night in August.

Members present included Mrs. Luther Kirk, C. H. Giddings, M. F. Billingsley, Layne Womble, Bill Billingsley, and Misses Merle Dingus and Ruth Baker.

Reunion is Held At Hutchens Home In Goree Sunday

Mr. and Mrs. E. W. Hutchens of Goree had a reunion at their home last Sunday. The following were present: Pvt. Demmit Hutchins of Sheppard Field, Mr. and Mrs. A. E. Sedberry and family of Abilene, Mr. and Mrs. W. C. Waters and family of Waco, Mildred Hutchins of Goree, and Mr. Hutchins' daughter, Mrs. P. A. Weaver, and little daughter, Leone of Waco. Mr. Hutchens had not seen his daughter in 15 years, and it was the first time the family had been together in 15 years.

Hefner H.D. Club Meets on Tuesday With Mrs. Jones

The Hefner home demonstration club met on Tuesday, July 7, in the home of Mrs. Dibriel Jones. The meeting opened by members repeating the club pledge.

The regular order of business was dispensed with. The blue penny jar had more pennies than the red penny jar, so the reds will entertain the blues soon.

The county agent being absent, the program was postponed until the next meeting. The Red Cross first aid lesson was taught by Mrs. Barton Carl of Goree.

Refreshments were served to 11 members and 3 visitors.

Mr. and Mrs. Johnny Tidwell, Mr. and Mrs. Charlie Woods and Mr. and Mrs. Windell Walsh spent the week end in Sheppard Field, visiting with Johnny's brother, Willard Tidwell.

Mrs. Walter Harris and her father, Mr. T. W. Collier, left Wednesday to visit relatives in Salina, Oklahoma.

CARD OF THANKS

Our sincere thanks and appreciation are extended to the many friends who were so kind during the illness and death of our father and brother. May God's richest blessings be with you all.

Pique Flowers On Her Hat

The flowers crowning this summer straw are made of white cotton pique to match the crown, which is also made of cotton pique. The pretty model wears it with a two-piece cotton suit which is very popular this season.

Open House On Sunday Honor To Mrs. H. T. Dulaney

Open house was held Sunday evening, July 5, from 6 to 8 o'clock, at the home of Mrs. H. T. Dulaney of Goree. Mrs. Dulaney was the wife of the late H. T. Dulaney, pioneer Baptist Missionary minister of this section. This occasion was in honor of the long life of service of this couple in this part of the state.

The house was decorated with gladioli and shasta daisies. In the center of the dining table, covered with a linen and lace cloth, was a crystal bowl, from which punch was served by Mrs. W. M. Taylor, Mrs. J. W. Fowler, Mrs. J. T. Lawson and Mrs. George Weber. Scarlet nasturtiums in crystal bowls were also used on the dining table. The refreshment plate carried out the colors.

Guests were greeted by Mrs. Jack Fowler, granddaughter of Mrs. Dulaney, and presented to Mrs. Dulaney, Mr. and Mrs. Oliver Lee of Munday, Mrs. W. F. McCauley, Rev. and Mrs. S. E. Stevenson, Rev. and Mrs. S. M. Clayburn, Mrs. E. Goode and Dr. W. M. Taylor.

The guest book, which was decorated by Mary Jo Arnold, was presided over by Mrs. Kate Glasgow and Miss Bernice Goode. Beside those named above, other guests who registered were: Mrs. R. D. Stacup, Ira Stalcup, W. L. Stewart, E. P. Crites, Ben B. Hunt, W. R. Crouch, W. A. Parmley, Roy Jones, Patricia McCauley, Doug Goode.

Mr. and Mrs. M. H. Reeves, Mr. and Mrs. J. E. Reeves and Mrs. M. L. Barnard, all of Munday; Mrs. John Fritz of Seymour. Mr. and Mrs. J. B. Justice, Mrs. J. H. Billrey, Mr. and Mrs. W. O. Lewis, Mrs. C. A. Barton, Mrs. H. D. Arnold, Mary Jo Arnold, Mrs. Sam Hampton, Naomi Hampton, Mrs. J. E. Patton, J. E. Crouch and J. W. Fowler.

New Deal Club Meets Wednesday With Mrs. Harpham

Blacells and mixed summer flowers were used throughout the house of Mrs. J. C. Harpham when she was hostess to the members of the New Deal Bridge Club last Wednesday afternoon. Defense Stamps for high score honors, were presented to Mrs. Alice Wray, guest, and Mrs. W. M. Huskinson, member.

A salad plate was served to Mrs. E. M. Roberts of Amarillo, Miss Thelma Atkinson of Albuquerque, New Mex., Mrs. Travis Lee, Mrs. Alice Wray, guest, Mrs. Agnes Mayes, Mrs. Wade T. Mahan, Mrs. W. M. Huskinson, Mrs. Lawrence Kinsey, Mrs. Sebern Jones, Mrs. Carl Jungman, Mrs. Gardy Roberts, Mrs. Dorse Rogers, members.

Dr. E. M. Roberts of Amarillo visited with relatives and friends in Munday over the week end. He returned home Sunday, and Mrs. Roberts and the children, who have been visiting in the home of her father, W. H. Atkinson, and with other relatives, returned to Amarillo Wednesday.

Mr. and Mrs. Wesley Russell and little son were week end visitors in Munday with Mrs. T. C. Lowry and with Mr. and Mrs. J. C. Campbell. They left Tuesday for Ruidosa, New Mexico, where they will visit with Mrs. Russell's parents, Mr. and Mrs. Tom Rigby.

TIRE RATIONING THREAT TO SCHOOLS

Austin, Texas.—A serious threat to the public schools is seen as a result of tire rationing, by a University of Texas tax expert.

Albro Jenkins, acting director of the University Bureau of Municipal Research, points out that at present one-fourth of the state school fund, which now supplies state aid of \$22.50 per student, comes from the gasoline tax. "Obviously, that 25 per cent is now going to have to come from some other source," he explained.

The Legislature will be faced with the problem of reducing the school appropriation or finding another source for it, Jenks said. Many public schools are dependent on state aid, and reduction of that assistance would necessitate serious curtailment of school programs, he declared.

Commissioner of the General Land Office

HEAR HIM

Friday 8:30 P. M.

Texas Quality Network

WFAA-WBAP-WOAI-KPRC

belt another jerk. And, by heck, I'm ready for another year's work.

Yes sir, that keeps a fellow almost as busy as running for Lieutenant Governor in a state as big as Texas.

An emperor of ancient Rome said that the wise man does not worry about that which he cannot help.

And someone remarked that not even the czar of all the Russias (in the old days) could stop a sneeze, once it was started.

There are times when everyone feels as Lord Byron did: "There is a pleasure in the pathless woods; There is a rapture on the lonely shore; There is a society, where none intrudes, By the deep sea, and music in its

roof; I love not man the less, but Nature more."

And here's a thought from the Kaufman Herald: "I am a little thing with a big meaning. I help everybody. I unlock doors, open hearts, dispel prejudice. I create friendships and admiration. Everbody loves me. I bore nobody. I violate no law. I cost nothing. Many have praised me, none have condemned me. I am pleasing to those of high and low degree. I am useful every moment of the day. I Am Courtesy."

Glendon K. Matthews, who is employed in the utilities division of the war department in San Antonio, spent the week end here with his parents, Mr. and Mrs. Henry Matthews. Glendon is a former employee of the local office of the Stamford Production Credit Association.

War Letters for Agriculture

Office of Price Administration extended price ceilings last month to cover 75 per cent of the cost of American living—putting ceilings on prices at wholesale and retail of most of the commodities that consumers buy. Authority is the Emergency Price Control Act of 1942. Object is to stop the spiraling of prices against national interest in this time of war emergency—to stop the spiraling of prices against the common interests of producers, processors, distributors, consumers. . . . The price ceilings are part of a 7-point program of national economy—a program of "equality of privilege" to stabilize for the individual and common welfare, as outlined by President Roosevelt in messages to Congress, to the nation: "Tax heavily and keep personal and corporate profits at a reasonable rate . . . fix ceilings on prices and rents . . . stabilize wages . . . stabilize farm prices . . . put more billions into war bonds . . . ration essential commodities . . . discourage installment buying and pay off debts." Both the legislative and ad-

ministrative branches of Government are working now to put the coordinate parts of this 7-point program into effect.

Pig Count—June
Farmers' reports on this year's spring pig crop were beginning to flow in to the BAE in early June. About 600,000 "pig cards" had been distributed by rural mail carriers, and the flow of early returns indicated a bigger sampling of the "crop" than ever before. Results of the survey will be made known on June 26.

Meanwhile, the best available line on the crop is the pig survey of last December, when producers indicated that sows would farrow about 62 million pigs this spring. This compares with 50 million pigs in each of the last 2 years. A spring crop of this size will tax marketing facilities to the utmost next winter, so that special arrangements may have to be made by the government to handle it.

Wheat—Harvest
The big winter wheat crop now being harvested in taxing beyond

capacity our grain storage and transportation facilities. The crop is much larger than had been expected earlier in the season, and a good deal of it must be stored on farms. It looks now as though the total supply for 1942-43 (carryover plus 1942 production of winter and spring wheat) will be close to 1.5 billion bushels. This compares with 1.3 billion bushels in 1941-42. Transportation is our most serious bottleneck at the present time. The motortrucks on hand are no better than their tires, and when the tires wear out the trucks are through. This will throw an additional burden on the railroads, which have already been pinching hitting for the ships lost to submarines. The railroads have been doing a magnificent job, but they may require the cooperation of all of us before long. This cooperation may take the form of the rationing of nonessentials, which would allow the railroads to haul more war materials and food products.

County Clerk and Mrs. M. T. Chamberlain and little granddaughter of Benjamin were business visitors here last Tuesday.

THE POCKETBOOK of KNOWLEDGE

ONE CROSS-COUNTRY BUS LINE HAS HAD 300,000 MILES OF WEAR FROM A SET OF TIRES THAT HAVE BEEN RETREADED SEVEN TIMES!

56 County Men Are Classified

Below are listed the registrants of Knox county who were classified by the selective service board on Tuesday, July 7, as announced by John Wilson, clerk:

- Vol. Jual J. Trepanier, 1-C.
- 577 Alfred R. Hubbard, 4-F.
- 646 Samuel M. D. Rucker, 1-B.
- 723 Piez I. Hart, 1-B.
- 8-914 William D. Elam, 1-A.
- 627 O. D. Lampkins, 1-B.
- 1275 Jack H. Collins, 1-C.
- 10014 Jess R. Peck, 1-C.
- 10021 H. D. Matthews, Jr., 4-F.
- 10186 Raymond F. Suggs, 3-A.
- 10209 Otto A. Lawson, 3-A.
- 10341 Lige B. Baty, 4-F.
- 10462 Willard Kilgore, 3-A.
- 10495 Bryan Adams, 3-A.
- 10525 Doss E. Holder, Jr., 2-B.
- 10501 E. Lafayette Hardin, 3-A.
- 10504 J. H. Bellinghausen, 3-A.
- 10505 Martin E. Baty, 3-A.
- 10506 James P. Cadwell, 3-A.
- 10508 Jose D. Valencia, 3-A.
- 10510 James R. Hammons, 3-A.
- 10512 Semer E. Williamson, 3-A.
- 10515 James Frank Nance, 3-A.
- 10518 Mariano Lemones, 3-A.
- 10519 Oscar J. Witte, 3-A.
- 10521 William A. Moore, 3-A.
- 10522 Manuel Davilla, 3-A.
- 10523 Jess A. Cumba, 3-A.
- 10524 C. J. Smajstria, 3-A.
- 10526 Amos M. Duncan, 3-A.
- 10527 Everett L. Tidwell, 3-A.
- 10528 Domingo Franco, 3-A.
- 10529 Charlie W. Railsback, 3-A.
- 10532 Benito C. Espinosa, 3-A.
- 10534 Oates W. Golden, 3-A.
- 10538 Henry L. Lewis, 3-A.
- 10539 Elmer L. Horn, 3-A.
- 10540 Wiley W. Walker, 3-A.
- 10541 J. J. Simmons, 3-A.
- 10543 Orman E. Moore, 3-A.
- 10544 Burton Thomas, 3-A.
- 10545 William Tucker, 3-A.
- 10547 Eddie Watson, 3-A.
- 10550 Raymond R. Havins, 3-A.
- 10552 W. A. Ryder, 3-A.
- 10555 Criss H. Moody, 3-A.
- 10556 Robert L. Smith, 3-A.
- 10558 Robert D. Gray, 3-A.
- 10559 Clarence L. Burt, 3-A.
- 10560 Gordon B. Shipman, 3-A.
- 10561 Sexton B. Hord, 3-A.
- 10563 James Wolf, 3-A.
- 10569 Ray Baty, 3-A.
- 10572 Charlie R. Day, 3-A.
- 10574 Irey L. Belcher, 3-A.
- 10575 Jesus Valdez, 3-A.

Navy Records Broken as Men Join in Service

All navy recruiting records for the north half of Texas were broken during the month of June when a total of 2,064 men were sworn in at the U.S. Navy Recruiting Station in Dallas. Of the total 100 made application and were accepted for enlistment at the Navy Recruiting Station at Wichita Falls in whose district this county is located. Previous Navy enlistment record for the north half of Texas district was established last January when 1,520 men were enlisted.

"Texas has always been a leading state in furnishing men for the Navy and the fine record of this district during the past few months has clearly shown the patriotism of its citizens as all Navy enlistments are strictly on a volunteer basis," Lieutenant L. H. Ridout, Jr., officer in charge of Navy recruiting for north half of Texas, said today. Navy recruiting stations in Lieutenant Ridout's district are located at Abilene, Amarillo, Big Spring, Dallas, Fort Worth, Longview, Lubbock, Paris, San Angelo, Sherman, Tyler, Waco and Wichita Falls.

Navy enlistment ages are now from 17 to 50 years. Unskilled men may be enlisted for immediate training with opportunities to attend Navy technical school with beginning pay of \$50 per month. Special inducements to voluntarily enlist in the Naval Reserve are offered skilled men. Those qualified are enlisted as petty officers with beginning monthly pay ranging from \$78 to \$126 with extra allowance for those having dependents. Construction and oil field workers are especially in demand. Students enrolled in accredited colleges may enlist in Class V-1 for the Naval Reserve and be deferred from active service while completing their education in preparation to become Naval Reserve officers. Application for enlistment in any branch of the naval service should be made in person at the nearest Navy recruiting station and must be made before receipt of orders to report for Selective Service induction, Lieutenant Ridout said.

Charles Haynie, Jr., and three guests of Sheppard Field spent last week end in the home of Mr. and Mrs. Charlie Haynie and family. They were Lester Heginston, Earl Kifer, and Francis Barnett.

Drey and Ray Lowe, who are attending John Tarleton College, visited their parents, Mr. and Mrs. E. R. Lowe, and with friends last week end.

Audit is Made

(Continued From Page One)

from April 1, 1942, to April 1, 1943, will amount to \$10,160.

The average yearly receipts will be about as follows:

Current tax, delinquent tax, franchise tax	\$12,400.00
Annual sewer receipts	4,000.00
Annual water receipts	5,000.00
Annual park receipts	800.00
Annual fines	200.00
Annual rentals from city sewer farm, etc.	225.00
All other various receipts, annual average	225.00
Average annual receipts	\$22,850.00

The average yearly disbursements will be about as follows:

Annual payment of bonds and interest	\$10,000.00
Annual salary of all employees	6,000.00
Annual light and power bill	2,350.00
Annual telephone and gas bill	200.00
Annual repair to machinery and equipment	500.00
Average material and supplies for all purposes	1,500.00
Gasoline and oil for trucks, maintainer, etc.	500.00
Office supplies	150.00
Insurance to all property	500.00
Fire department	350.00
Office supplies and printing	150.00
All other expenses	650.00
Total average expense	\$22,850.00

The audit reveals the amount of money in the First National Bank on March 31, 1942, to be \$10,761.74.

The above constitutes a very brief summary of the business of the City of Munday, but anyone desiring to become better informed as to the itemized receipts, disbursements, or other matters of the town, is invited to come by and examine the complete audit on file at the city hall.

Sheriff Louis Cartwright of Benjamin was here last Saturday on official business.

Knox County Hospital Notes

Patients in the Knox County hospital at Knox City, July 7, 1942, included:

- Mrs. Esker New, Truscott.
 - Miss Stella Cowser, Munday.
 - Mrs. T. M. Hall, Rochester.
 - Orval Mannings, O'Brien.
 - Mrs. Ernest Cribbs and baby daughter, Goree.
 - Doyle M. Baugh, Rochester.
 - Mrs. John Davis, Jr., Throckmorton.
 - F. E. Jordan, Munday.
- Dismissed since Tuesday, June 30, were:
- Bill Camp, Knox City.
 - Mrs. Willard Kilgore and baby daughter, Benjamin.
 - Roy Giddens, Rochester.
 - W. H. Clonts, Knox City.
 - Mrs. W. H. Clonts, Knox City.
 - Wanda McCullough, Knox City.
 - Mrs. Bob Hicks, Munday.
 - Bobby Jack Sims, Throckmorton.
 - Mrs. Sam Hodges, Knox City.

BIRTHS
Mr. and Mrs. Willard Kilgore, Benjamin, a daughter.
Mr. and Mrs. Ernest Cribbs, Goree, a daughter.

ALSTON M. MORROW IS MOVED TO WASHINGTON

Corporal Alston M. Morrow, who was stationed at MacDill Field, Tampa, Florida, has been transferred to Walla Walla airbase at Walla Walla, Wash., according to word received here. He was inducted into the air corps at Sheppard Field in March. He is the son of Mr. and Mrs. A. N. Morrow of Munday.

Miss Bonnie Dell Lytle of Weatherford visited with relatives and friends in Munday over the week end.

Mr. and Mrs. Raymond Stapp visited relatives in Anson last Sunday and Monday. They were accompanied by their niece, Miss Nola Westmoreland, who is visiting in their home this week.

ATTENTION FARMERS!

We learn that many cotton-fields in Baylor county are badly infested with cotton fleas, and we suggest that you examine your cotton and if necessary enlist the services of the County Agent, as they will do a lot of damage before you know they are here.
