

## 4-H CALF SHOW IS SLATED FOR SATURDAY

### Groundhog Saw Shadow—Maybe

If Mr. Groundhog wasn't too persistent in looking for his shadow, spring is probably just around the corner. If he came out just before sun-up, and if he's a member of the C. I. O. or A. F. L. and put in his eight hours and knocked off for the day—then we'll have spring pretty soon.

We've heard the groundhog contends anyone is a fool to predict Texas weather, so we'd be afraid to say for sure just what his predictions were.

But if Mr. Groundhog realized the importance of putting in all the hours possible in this war emergency, he attempted to stick on the job for the full day. In this case, he did see his shadow along about four o'clock Tuesday afternoon and hibernated for another six weeks. Which means more winter for us!

We don't know whether you have any confidence in the predictions of the nation's leading weather prognosticator or not—it really doesn't matter, either with us or the groundhog. So you just go ahead and predict your own weather—we'll likely have weather of some kind, anyhow!

### Nutrition Course To Be Sponsored By Red Cross

The Munday Red Cross chapter will offer a course in nutrition and foods in relation to the improvement of health next week. These meetings, to be held by Miss Anna Mae King, will be held at night in the local Red Cross room, above the Rexall Drug Store.

This will be a short course pertaining to what foods to eat, why we should eat them, and how best to provide them at reasonable cost.

"We urge housewives to take advantage of this course," the sponsors said. "Please enroll during the coming week end with Miss Anna Mae King or Mrs. Louise Ingram."

### Auction Sale Has Heavy Run

The Munday Livestock Commission Co. reports another big run of cattle and hogs for last Tuesday's sale. The weekly sales have been steadily growing in volume during the past few months.

All classes of cattle sold fully steady with last week's sale. Prices at the Munday sales are maintained as steadily as any held throughout this section.

Top hogs sold from \$14.40 to \$14.60; canner and cutter cows, \$5.50 to \$8; butcher cows, \$8.50 to \$10; beef cows, \$10 to \$11.25; butcher bulls, \$8.75 to \$10.50; beef bulls, \$10.75 to \$11.80; butcher yearlings, \$9.50 to \$11; beef yearlings, \$10.50 to \$13.50; rannier calves, \$8.50 to \$9.50; butcher calves, \$10 to \$12, and fat calves, \$12.50 to \$13.80.

### Nealie W. Moore In Aviation Mechanics

Amarillo Army Air Field—Nealie W. Moore, husband of Many Emma Moore of Goree, has begun an intensive course of study in aviation mechanics at this Army Air Field, one of the newest schools in the Army Air Forces Technical Command.

He will spend several months at this great mechanics' school, and upon graduation will be sent to one of Uncle Sam's air bases, there to do his part in keeping America's "Flying Fortresses" harassing the Axis. In addition to mechanical training, his course here will include army discipline and courtesy, military drill and physical exercise to put him in the peak of condition.

### HAS PNEUMONIA

P. V. Williams, owner of the Roxy Theatre, became ill last Sunday and developed pneumonia the first of this week. Latest reports from his bedside are that he is slightly improved, although still a very sick man.

### License Tabs For Auto Tags

License tabs will take the place of license plates on Texas motor vehicles for 1943, it was announced last week, and it is understood that the "miniature license plates" have arrived in this county.

These tabs are made of tin and measure approximately an inch in height and three inches in length. The old 1942 license plates are to be retained on the cars, with the new tabs to be bolted onto the 1942 plates and thus carried on the car or truck throughout the year, it was announced.

Sale of the license tabs will begin sometime in the next several weeks. They cannot be placed on the car until after March 1, but must be in place by April 1, 1943.

Each person who applies for a set of 1943 tabs must bring with him his certificate of title to the vehicle, as well as his 1942 license receipt.

### Collections Of Taxes For City Best In Years

City and school tax collections to the delinquent date of February 1, 1943, were the best in years. In fact, it is doubtful if there have been better. For the first time also, the city collected a larger percentage of the current roll than the school.

The total city roll for 1942 taxes was \$11,047.79 of which amount 96.88% was collected before Feb. 1st.

The total school roll for 1942 was \$12,391.69 of which amount 96.36% was collected before Feb. 1st.

### "It Takes Both"

It takes an Isbell and a Hutson... a Sammy Baugh and a Dick Todd to form a forward pass combination. It takes both... War Bonds and Taxes to provide the necessary finances to win this war—a war for freedom and humanity. Are you doing your part?

U. S. Treasury Department

### RADIO PROGRAM OF TEXAS DEFENSE GUARD TO BE HEARD SUNDAY

It has been announced that a radio program will be given on Sunday, February 7, from 2 to 2:15 p. m., which will be devoted to the Texas Defense Guard.

The program will include a dramatic enactment of the mission of the Defense Guard, the protection of lives and property here at home and the preservation of internal security against sabotage and invasion.

### Clothes Hangers Are Not Available

John C. Spann, owner of the Spann Tailor Shop, announced this week that a recent order prohibits the manufacture of clothes hangers for the duration of the war.

Effective February 15, no more hangers, not even the pasteboard hangers, will be available. Customers of the shop are asked to bring hangers along with their clothes after this date if they want to take their clothes out on hangers.

"This is one of the small sacrifices we must make to the war effort," he said. "We urge you to take care of your present hangers, as your need for them will now be greater than ever."

### 18-Year-Olds To Register Here

Postmaster Lee Haymes announced Wednesday that local youths will register at the post office in Munday when they attain their 18th birthdays. Heretofore, the youths had to go to Benjamin for registration.

J. A. Wilson, clerk of the county Selective Service Board, sent Mr. Haymes the necessary forms and requested that he handle the registration of youths in and around Munday.

Mr. Wilson pointed out that the young men are requested to register on the day they attain their 18th birthday.

In asking that the registration be held at the local post office, Mr. Wilson stated that this would be a convenient place for the registration and would save the young men expense of a trip to Benjamin.

### Kit Bags Shipped To Armed Forces

The Knox County chapter of American Red Cross shipped 400 kit bags for men in the armed forces during the past week.

These kits were requested by the commanding officers, and are given to the boys at the port of embarkation. The list of contents was furnished by the war department.

Knox county ladies made the bags, and contents were paid for by money from the scrap iron drive and by donations. The money remaining from the kit fund will be used for hospital supplies, it was stated.

### Named Agent For Fuller Brush Co.

Announcement was made this week that the Munday Hardware and Furniture Co. has been selected as local agent for Fuller brushes. All salesmen have been taken off the road for the duration, and the company is placing agencies in each town.

The local store has a complete line of all types of brushes; also the Fuller mops and Fuller fiber brooms. The scarcity of brush materials has also made it necessary to discontinue the practice of distributing free brushes to customers.

The public is invited to come in and see this line of merchandise.

### BOYCE HOUSE TO SPEAK ON ECONOMY IN STATE DEPTS.

Boyce House, whose column, "I Give You Texas," appears in over 200 weeklies, will plead for economy in state departments as a means of helping the war effort in a speech over Stations KGKO, Fort Worth, and KGNC, Amarillo, on Monday night, February 8, at 9:30 o'clock.

House promises to point out how to save several million dollars to the Texas taxpayers.

### PREACHING AT GOREE

Rev. J. T. McKissick will preach at the First Christian church at Goree next Sunday, February 7, at 3 p. m. The public is cordially invited to attend these services.

## Memorial Service Held for Paschal Peysen Monday

Paying a final tribute to the first Knox county service man to lose his life in actual combat, memorial services for Paschal A. Peysen of Munday were held last Monday morning at St. Joseph's Catholic church at Rhineland.

A full military service was held, being sponsored by Lowry Post of American Legion with Frank Cerveny in charge. Members of the Texas Defense Guard also had a part in performing the military duties, being dressed in their khaki uniforms.

Passing between military lines formed by the uniformed men, the

## Urge Planting Of Victory Gardens

At a recent meeting of the City Council of Munday, it was urged that all citizens of Munday plant Victory Gardens again this year, this was practiced to some extent last year, but it is urged that it be done on a larger scale this year.

A move has been started to have all possible vacant lots planted to some kind of garden products. The City Council will aid to the extent that non-resident lots and lots with unknown owners may be planted by those desiring to have gardens. The council will make arrangements to secure, or will give, permission for planting these lots.

The rationing of practically all types of canned vegetables makes it imperative that we grow all the home grown foods possible, and the council went on record as willing to aid this move every way possible. Those having small garden plots on their premises are urged to plant them, also, and it is expected that home gardens will be in abundance this year.

For further information, citizens are asked to contact Riley B. Harrell, city secretary.

### CARLOAD OF NEW COTTONSEED COMING

T. G. Bengt, manager of the Munday Cottonseed Mill, announced Thursday that a carload of certified D. P. L. 12 cotton seed will arrive at the mill soon. These seed are one year from the breeding block, certified, ceresan treated and with 95 per cent germination. They come in 3-bushel sacks.

Mr. Bengt stated that these seed will be traded for seed saved for planting this year's crop and urges those interested to arrange for them at once.

## Memorial Service Held for Paschal Peysen Monday

procession to the church was led by Niek Peysen, father, and Miss Dorothy Peysen, sister of the one who gave his life for his country.

Inside the church, the usual Catholic service was held with Father Herman Laux, O. S. B. in charge. Following the ritual, Father Laux delivered an eloquent eulogy of the life of the deceased.

Mr. Peysen was presented with the American Flag which was used in the service.

Again the military lines were formed as the crowd left the church at the close of the service. With the firing squad and color

guards performing, the three military salutes were then fired, and the service was closed with the sounding of "Taps" and "Echo."

A large crowd was present to pay tribute to the memory of this beloved Knox county youth. The services had been planned for one day last week, but was postponed at the request of relatives until receipt of the letter from the War Department confirming the telegram which announced his death.

### Former Citizen Of County Dies At Houston

John M. Loe, former resident of Knox County died on January 27, 1943, in a Houston hospital and was buried at Corpus Christi on the following day.

Mr. Loe was born in DeWitt County, Texas, on September 5, 1871, and was 71 years, 4 months and 22 days of age. He was married in 1901 to Miss Julia Reams and the couple lived in the vicinity of Goree that year and lived on their farm in this county for a number of years, later purchasing a farm near Bomarton.

He is survived by two children, Mrs. J. W. Langley of Houston, and Sam Loe of Corpus Christi, who is now stationed in New Caledonia, near Australia. He is also survived by two brothers, Joe Loe of Phoenix, Ariz., and Walter Loe of Marshal Ford Dam; two sisters, Mrs. Mary Williams of Llano and Mrs. Sallie A. Farris of Goree.

### Red Cross Plans Annual Roll Call

The executive committee of the Knox county Red Cross chapter met February 1st at Benjamin, with representatives from Knox City, Benjamin, Truscott, Goree, Rhineland and Munday being present.

Plans were made for the annual Red Cross Roll Call and the war relief drive to begin on March 1st.

Rev. J. S. Tierce of Knox City is roll call chairman for the county. He will appoint local chairmen to assist in this work.

### E. A. Squyres Is New Manager Of Perry Bros. Store

E. A. Squyres, formerly of Shamrock, has assumed his duties as manager of the local Perry Bros. store. Mr. and Mrs. Squyres and six-month-old daughter moved to Munday last week.

Mr. Squyres served as manager of the Shamrock store for two years before coming to Munday. He has been with the company for a number of years and comes to this place highly recommended.

He succeeds C. W. Selman, who has been transferred to Littlefield, Texas. Mr. and Mrs. Selman and two sons moved to Littlefield last week to make their home.

### Peanuts Pay Good Incomes

Several farmers who produced peanuts in 1942 have reported an income of \$40 to \$50 per acre from the crop with the promise of a better price for the 1943 peanut crop and a payment to the growers who exceed 90 per cent of their war crop goal that might be established for their farm. A number of farmers with loose-sandy soil in the low cotton yielding areas should be more interested in growing peanuts in 1943. Peanuts will yield a higher net income in such areas than cotton. It is suggested that growers form centralized peanut growing areas in order to eliminate harvesting and threshing problems.

Government crop insurance is available on wheat and cotton. Cotton producers who desire government insurance on the 1943 crop must sign applications for insurance before the crop is seeded. Insurance does not assure the production of a cotton crop, but it does provide an income, should the crop fail or partially fail. Applications cannot be accepted after April 15. More farmers should avail themselves of this protection.

### IN NORTH AFRICA

A. H. Sams, Jr., writes his parents, Mr. and Mrs. A. H. Sams of Benjamin, that he is now on duty in North Africa and to tell all his friends. His address is T-Sgt. A. H. Sams, Jr., Base Hq., G-4 Section, A. P. O. 609, c-o Postmaster, New York, N. Y.

### Knox City Is Ready For Show

Youths To Compete For Over \$100 In Prizes

One of the biggest events of Knox County will be staged by the 4-H Club members, Saturday, when they exhibit their fat Hereford steers. The fourteen club members, who will have their calves at the show, have already started grooming the calves and giving them a daily bath. The calves heads and tails have been clipped, which adds considerably to their appearance.

Word has been received by R. O. Dunkle that farmers and ranchmen will be here from the following counties: Haskell, Throckmorton, Stonewall, King, Baylor, Ford and Hardeman. Most of these counties will have calves at the district show in Wichita Falls on March 10-11-12, and owners of the neighboring county calves will be here to compare the Knox County calves with the ones they have in their home counties.

The arrangement committee of Knox City report that everything is in readiness for the show, regardless of weather. The club boys and their parents will be served a free lunch at the school cafeteria.

Mr. J. A. Scofield, district agent of the A. & M. College Extension Service will be the official judge and will select the ten best calves, to represent Knox County at Wichita Falls.

### County Youths Take Training In Aviation Mechanics

SHEPPARD FIELD, Texas.—Two Knox county men have graduated from an intensive course in aviation mechanics and are now prepared to blast the Axis. They are Pvt. Wallace C. Hood, son of Horace M. Hood of Munday, and Pvt. Jack W. Barger, son of Carl E. Barger of Goree.

Sheppard Field, near Wichita Falls, is one of the many schools in the Army Air Forces technical training command which trains the specialist technicians who maintain our bombers and fighter planes in perfect combat condition. These men are now eligible to become crew chiefs on a bomber and to win ratings as corporals or sergeants.

Before entering the school, they were trained at one of the basic training centers of the Air Forces Technical Training Command and learned to fight the Axis with other things besides the tools of their trade. Men trained by the command are adept in the art of protection and offense as well as repair.

### Flora Bell Ratliff Chosen Assistant T. W. C. Instructor

Miss Flora Bell Ratliff, who is attending the Texas Wesleyan College in Fort Worth, was recently selected as an assistant instructor in the home economics department of the college for the last semester.

Miss Ratliff is also sweetheart of the Ellen H. Richards Club, one of the popular clubs of the college.

Selection as an assistant instructor comes as quite an honor to Miss Ratliff, as she is only a sophomore, and the assistants are usually selected from the senior class. This also attests of her ability in her chosen subject of home economics.

She is the daughter of Mr. and Mrs. R. L. Ratliff of Munday.

### NOW IN SERVICE

Pfc. Horton (Corky) Ward, formerly of Benjamin is now in the U. S. Air Corps and is stationed in the Hawaiian Islands. He has recently been transferred from the "Crash Boat," that picked up the killed and wounded from the planes that fell in the ocean, to the supply room.

Mrs. C. W. Blacklock of Ranger came in last Monday to visit with relatives and friends here for several days.

# EDITORIAL PAGE

"What a Man Does For Himself Dies With Him—  
What He Does For His Community Lives On and On"

## THERE IS A DIFFERENCE

Captain Eddie Rickenbacker, after returning from his gruelling experience in the South Seas and his inspection of fighting fronts, is the only man who has said what the American people needed to hear in connection with production problems. In the newspapers and in the news reels he said that if the soldiers could be transferred from the hell holes they occupy on the battlefronts, to our factories, and if the employees in the factories could be transferred to the battlefronts, production in this country would double in thirty days.

By the tone of his voice and his expression, you could see that he was disgusted with the Pollyanna talk about workers at home being classed as filling "battle stations."

Captain Rickenbacker emphasized that nothing the people in his country can do will in any measure equal what the boys on the battle lines are doing. They don't get overtime pay and they work day and night if necessary.

The people agree with Captain Rickenbacker. Just because some of us wear "tin hats" at home, we don't want to become swelled up with the idea that we are filling "battle stations"—we are not. Battle stations are where the bullets fly and men are dying; where men work as long as there is something to do; where orders are obeyed; where overtime pay and profits are not an issue; and where the perpetuation of liberty and freedom for the individual are the guiding stars.

## WERE THEY READY

American doctors have been criticized for bungling the medical manpower problem. The incongruity of the criticism is apparent when it is realized that it comes from the same sources that have at least helped to bungle manpower in every activity. The food problem is becoming critical, due largely to lack of manpower; transportation, mining, manufacturing, processing and distribution are all seriously handicapped by the manpower jumble. And in none of these undertakings have the needs of the military drawn as heavily on manpower as in the field of medicine.

It is a dead certainty that if the medical men had been no better prepared for war than those who now criticize them so loudly, the medical situation would indeed be serious. Long before there was much thought of war coming to this country, the doctors were mobilizing their resources. When war came they knew almost to a man the number of doctors available to the home and military fronts. They met the requirements of the military front. They are now in the process of meeting the requirements of the home front.

Admittedly, there has been hardship in some areas. Emergencies have arisen. Tempers have been frayed. But the background of American medicine has given it the tools to do the job. That background is freedom; the tools are the same tools that enabled American industry to outproduce the world in twelve months. They are the tools of competence, integrity and faith—faith in the ideals of individual opportunity that have made this the greatest nation on earth.

## "DON'T WASTE OUR MONEY"

An open letter that appeared in a metropolitan newspaper addressed to "Dear Senator" and signed by John and Jane Smith, Middleville, U. S. A., points out two very important aspects of the peoples' war effort.

"We know you have to think in big sums and spend a lot of money for the war," the letter reads, "but, try and remember how hard Mother and I worked to buy \$200 worth of bonds."

"Don't let them throw our money away on waste even a little. A wasted million dollars won't save any soldiers' lives. And it will hurt five thousand families like ours who sweated it out in bonds and taxes."

"And listen, Senator, don't worry about whether we're going to cooperate or not. We've given Uncle Sam our boys, our businesses, our money, and all our confidence, and if you think anybody that will give this much is going to quibble about a gallon of gasoline or a can of beans, when you took the train to Washington you left all your common sense on the platform back here."

A new water-conditioned paper, developed by industrial scientists, is amazingly strong when wet—a property which makes it suitable for use in place of burlap and cloth.

Dehydrated rice pudding is industry's latest space-saving food shipped to the AEF.

## THE MUNDAY TIMES

Published Every Thursday at Munday

Tracy G. Roberts Editor, Owner and Publisher  
Aaron Edgar News Editor

Entered at the Postoffice in Munday, Texas, as second class mail matter, under the Act of Congress, March 2, 1879.

**SUBSCRIPTION RATES**

In second zone, per year \$2.00

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly, impartially.

**NOTICE TO THE PUBLIC:** Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

## INDUSTRIAL "KNOW ALL"

A great deal has been said about secret weapon of American industry described as "know-how." We know that industry has it because in a year's time we have seen the whole industrial picture change from peacetime to war-time operation. But, exactly what is this "know-how"? How does it work? Who has it? How is it used?

A recent advertisement of one of our war plants has furnished a specific answer. "Know-how" starts at the head of the business and runs all the way down the line, into the shop, and out onto the boat. It affects everything from the design of equipment to the purchase of materials and delivery to the point of use. Here is what "know-how" has accomplished in one plant and on one product—a machine gun.

Through "know-how" many new processes, new tools, and design changes have made possible double the output in the same number of man-hours. Manufacturing capacity and manpower were released for additional war tasks.

Production short-cuts, material savings, and expanding output have reduced the original cost by half, with consequent important savings in the nation's expenditures for war material.

Design changes for quantity production have likewise raised quality. Many of the more than 200 changes have helped to make possible superior performance, added availability.

Many thousands of pounds of vital materials were conserved through better processing and the substitution of critical materials. The number of special steels was cut from 44 to 15.

"Know-how," one of our secret weapons, and industry's stock-in-trade, is definitely helping to win the war more quickly and at less cost in lives, money, and time.

If American industry had not developed its "know-how" through years of highly competitive striving for perfection in all its processes and operations, our armed forces would not now be on the offensive with the finest fighting tools the world has ever seen.

## CURRENT "INTOLERABLE" STOPPAGE

In a world war and in the face of a desperate fuel shortage, 25,000 anthracite coal miners have laid down their tools and gone out on strike. The issues?

The miners want a wage increase of two dollars a day and they are protesting an increase of fifty cents a month in the dues of the United Mine Workers.

Secretary Ickes, as solid-fuel administrator, has denounced the wartime stoppage as "intolerable."

Labor union leaders have declared against strikes for the duration of the war. Machinery has been set up to deal with disputes. Yet these strikes go on and on.

## DIVIDED THEY FALL

Surrounded by big government, big business and big labor organizations, the farmer who tries to struggle along by himself today is rather helpless. He finds agencies on every side telling him what to do, what not to do, when he can do it, and when he can't do it.

Planting a crop, milking a cow, raising a hog or selling a steer have all become acts which virtually require a lawyer's advice.

So today more than ever, a farmer needs the help of cooperative marketing organizations. He needs the advice of experts. Acting individually, he is sunk. Acting collectively, he can compete with the power and the influence arrayed against him.

It is up to the farmer to solve his own problems by intelligent action through his own farm organization speaking for him.

Foul-weather masks have been made for sailors on duty in the far north, covering all the face except for slits at the eyes, nose and mouth.

## Joseph C. Grew Warns Half-Effort Will Not Defeat Japan

By JOSEPH C. GREW

United States Ambassador to Japan until the outbreak of war, and author of "Report From Tokyo."

(Written for the Treasury Department in connection with the Retailers' "SAY YES" campaign to complete the nation's 100,000,000 partially filled War Stamp albums.)

WASHINGTON, D. C.—In describing one of the big air battles over Guadalcanal a recent newspaper account tells of an American flyer who parachuted from his crippled plane to the waters of Lunga Bay. The Navy craft which picked him up next went to the rescue of a Japanese pilot seen struggling in the water nearby. As the rescue boat reached the Japanese flyer he suddenly pulled out his revolver, aimed it at the drenched American pilot and pulled the trigger. The cartridge failed to explode. Then the Japanese officer turned the gun on himself with suicidal intent. Again he pulled the trigger and again his revolver failed him. At this point an American sailor knocked him out with a boat hook and pulled him aboard the American craft a prisoner.

Almost daily one reads eye-witness stories such as this one, and all of them clearly demonstrate that war with our enemy in the Pacific cannot end in compromise.

For ten years I lived in Japan. The truth as I know it from close observation is this: Nothing less than the exertion of our maximum capacities, individually and collectively, in a war of offense will bring our beloved country safely to the longed-for haven of victorious peace.

The Japanese are pawns of a senseless but mighty militarism—

JOSEPH C. GREW

Says It's Clear to Finish

ally we can continue to lead our normal lives, leaving the spirit of self-sacrifice to our soldiers and sailors, we shall unquestionably run the risk of a stalemate with Japan. I do not have the slightest doubt of our eventual victory. But I do not wish to see the period of our blood, sweat and tears indefinitely and unnecessarily prolonged. We must not fail to realize that we are up against a powerful fighting machine, a people whose morale cannot be broken even by successive defeats and untold economic hardship, a people who gladly sacrifice their lives for their Emperor and their nation. We must also remember that Japan did not start this war without carefully laid military plans for victory over the United States and a peace dictated by their war lords at the White House.

This is a total war, the only answer to which is a total American victory. It is a war in which half-measures of any kind mean incredible waste of material, energy and human life. In this sense a half-filled War Savings Stamp album is symbolic of a half effort. There are, I am told, roughly 100 million partially complete War Stamp albums now in circulation. These uncompleted Stamp albums are, in a measure, like a 100 million threats to a speedy and victorious peace. On the other hand, for every War Savings album completed and cashed in for a Bond, you the owner have helped some soldier or sailor take a forward step on the uphill road to total victory. U. S. Treasury Department

## Gems Of Thought

And God said, Let there be light; and there was light.—Genesis 1:3.

Light is the symbol of truth.—James Russell Lowell.

The light of nature, the light of science, and the light of reason, are but as darkness, compared with the divine light which shines only from the word of God.—John R. Lord.

Lamps make oil spots, and candles need snuffing; it is only the light of heaven that shines pure and leaves no stain.—Goethe.

God is the fountain of light, and He illuminates one's way when one is obedient.—Mary Baker Eddy.

Walk in the light, and thou shalt see Thy path, though thorny, bright; For God by grace shall dwell with thee, And God Himself is Light.—Bernard Barton.

## FARMERS AND RANCHMEN READY FOR SIGN-UP

COLLEGE STATION.—Texas' approximate one-half million farmers and ranchmen were poised this week to undertake the biggest production job of their lives.

Called upon to produce more pork, beef, eggs, milk, poultry, soybeans and peanuts, they were waiting to itemize on war production plan sheets the amount they could be depended on to produce this year.

The war production plan sheets are expected in the state USDA War Board office this week and will be distributed to county volunteer leaders immediately. Individual sign-up in the 254 counties will get underway about February 1 and is expected to be complete in about three weeks.

When returned to county USDA War Boards, the information incorporated on farm plan sheets will form the basis for action or recommendations on selective service deferment, needs for farm machinery, equipment, fencing, and credit.

In what the Texas USDA War Board termed one of the most significant tributes ever paid to agriculture, farmers and ranchmen gathered in county-wide and community meetings on Farm Mobilization Day, January 12, to hear local leaders discuss the 1943 Food

for Freedom program and its importance in America's total war program.

Primary motive of Farm Mobilization is to give maximum help to farmers and ranchmen in developing and carrying out most effective plans for 1943 war production.

## MORE NEW MACHINERY BECOMES AVAILABLE

COLLEGE STATION.—More new farm machinery and equipment became available to Texas farmers this week when the "freeze" order was lifted from wholesaler and distributor stocks.

Under the new order, stocks which distributors or mail order houses had on hand October 31, 1942, and stocks of new farm machinery and equipment owned by any manufacturer and located anywhere except in a factory or plant on the deadline date, are released for further distribution or sale through the rationing program.

The equipment will be sold to dealers in about the same territory proportion as during the period November 1, 1940 through October 31, 1941, except where stocks are excessive as compared with stocks in other areas of comparable need.

The Texas USDA War Board

emphasized that although stocks at wholesale and distributor levels automatically were released that the order did not apply to farm machinery manufactured on or after November 1, 1942. Machinery manufactured after this date will be distributed by manufacturers through distribution orders.

Manufacturers operating under the rationing program will tag new machinery and equipment by county and state in routing machinery to its proper destination.

Under the rationing program, farmers need purchase certificates from County Farm Rationing committees in order to obtain about 75 types of farm machinery and equipment.

To make sure that the diet contains the proper pellagra-preventive elements, it should include plenty of milk daily, some fresh, lean meat, and as many fresh vegetables, especially green vegetables, as possible. Tomatoes and whole wheat bread are also very valuable. Eggs contribute their share to pellagra prevention as do all varieties of fresh fruits.

## Be Quick To Treat Bronchitis

Chronic bronchitis may develop if your cough, chest cold, or acute bronchitis is not treated and you cannot afford to take a chance with any medicine less potent than Creomulsion which goes right to the seat of the trouble to help loosen and expel germ laden phlegm and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Creomulsion blends beechwood creosote by special process with other time tested medicines for coughs. It contains no narcotics.

No matter how many medicines you have tried, tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough, permitting rest and sleep, or you are to have your money back. (Adv.)

**I GIVE YOU TEXAS**  
by BOYCE HOUSE

When I was a little fellow, my father and I were in El Paso, away back in 1908. He died the next year. It was not until a long time afterward that I revisited the Pass of the North; in fact, here were three visits in fairly close succession but each was only for a day. Recently, it was my good fortune to spend three days there and at last to walk along the very streets of yesteryear and to pick out the old buildings that were there when a man and a little boy strolled past.

One landmark was a Chinese cafe. I was told it has been in that location for 40 years. I had a cup of coffee for *saad lang syne*.

There are unusual signs in El Paso—Pronto Plumbers and "Correct Time" Marin. By the way, the time is an hour slower there in the rest of Texas.

A highway cafe says it is not a certain number of miles from the center of town but "seven pints of gas", out. And a movie house advertises, "No screen ads."

The city is modern and bustling but with touches of the quaint and colorful—sario shops with silver work, and shawls and ties woven by hand by Indians; other shops with turquoise, topaz and semi-precious stones—El Paso is the center of a mineral empire, a fact that makes it the logical location for the beautiful Texas College of Mines.

In the plaza is a pool with alligators. It seems to me that I can remember reptiles being there in 1908—perhaps the very same ones, for they live a long time.

And looking down upon the busy city is lordly Mount Franklin.

The Cortez, they told me, is the hotel of tourists; the Hilton, of business travelers—but the Paso del Norte is the rendezvous of the cattle kings. You see more leather jackets, white hats and cowboy boots there than you do in Cowtown's Hotel Texas lobby. In fact, you're conspicuous if you aren't dressed that way. These monarchs of the range are not all from Texas, by any means; many are from New Mexico and Arizona; no doubt, some have holdings in Old Mexico.

Streets run at angles and sometimes a building is shaped like a wedge of pie. At an intersection of streets that slant in from all directions, right out in the middle of traffic is the stump of a cottonwood tree. There is a bronze tablet that proclaims the first "newspaper" in El Paso was on that spot—a cottonwood where notices were posted. One such notice, in 1860, denounced three citizens as "willful and malicious scoundrels" for calling the signer of the notice an Abolitionist.

In the United States Courthouse is a mural which conveys some idea of the romantic history of El Paso. In the painting are Spanish priests and soldiers, Indians in war paint, hunters, a pioneer couple, a cowman in the saddle and a gentleman with a sweeping mustache and on his long black coat is pinned a star.

The inscription of the painting reads: "O, Pass of the North, now the old giants are gone. We little men live where heroes once walked the inviolate earth."

IT PAYS TO ADVERTISE

**Gas Company Is Re-organized**

Reorganization of the Lone Star Gas System has been announced by D. A. Hulcy, president. The five operating companies and the holding company which formerly composed the system have been re-organized into two companies, and the holding corporation is to be discontinued.

Since 1940 Mr. Hulcy has been president of the Lone Star Gas Company, which, until the reorganization, operated as the pipe line or wholesale division of the business. With the reorganization he became president of the entire system. He is a native Texan and has been with the company for 23 years.

The names of the Dallas Gas

D. A. HULCY

Company, Community Natural Gas Company, Texas Cities Gas Company and Lone Star Gasoline Company have been dropped and all the transportation and distribution operations of these companies have been taken over by the Lone Star Gas Company.

The gas field producing operations have been placed in the Lone Star Producing Company. Both of these companies are Texas corporations.

Mr. Hulcy explained that the reorganization does not change the basic policies of the personnel but does simplify operations and creates a tightly knit organization which is even more sensitive and responsive to the customer's fuel service needs and to war-time demands.

The Lone Star built the first long-distance gas pipe line in Texas, the pioneer line running from Petrolia to Fort Worth and Dallas. Since the time that it began operations in 1909 it has grown into a system with 4,800 miles of inter-connected pipe line transporting natural gas from 75 fields and serving almost 300 towns and cities in north-central Texas and southern Oklahoma.

Mr. Hulcy pointed out that with a general rate reduction last May and the simplification of the system now completed, the year 1942 had been a notable one in the development of the Lone Star for the benefit of the Southwest.

Dick Harrell, who is attending Texas Tech at Lubbock, spent several days here last week, visiting with his parents, Mr. and Mrs. E. W. Harrell. He returned to school last Sunday.

Mr. and Mrs. Deane Johnson of Fort Worth spent the week end here with Mrs. Johnson's sisters, Misses Jeanette and Jane Campbell, and with other relatives.

Willard Reeves, who is a student in Texas Tech at Lubbock, spent

the latter part of last week here with his parents, Mr. and Mrs. J. E. Reeves.

were visitors in Wichita Falls last Sunday.

Hugh Beaty, who is stationed at Sheppard Field, Wichita Falls, and Mrs. Beaty, who is employed

at a bank in Seymour, spent the week end with relatives and friends in Munday.

Miss Eva Ruth Thompson of Wichita Falls visited with her par-

ents, Mr. and Mrs. Luther Thompson, over the week end.

Mrs. Joe Duke and little daughter, Jo Ann, of Haskell visited with Mrs. Duke's mother, Mrs. A.

B. Warren, the first of this week.

Jim Gaines returned home last week after spending some two weeks with relatives and friends in California.

**QUICK WEATHER CHANGES**

Must be met when they occur with the teamwork of an organization like Lone Star's 4,500 Employees

Above chart shows the abrupt temperature changes during the period between Saturday, January 16, and Monday, January 25, inclusive. Period contains a record January day for HEAT and a near record day for COLD—88 degrees and 5 degrees. Dallas Weather Bureau Temperatures.

**Recent reorganization of Lone Star transportation and distribution properties into one company makes for additional coordination of effort in meeting peak demands!**

A drop of 74° almost overnight!—where else but in the Southwest could that happen?

As the temperature drops, the need for gas service mounts until, for example, on Tuesday, January 19, the demand was over 100% greater than it was on Saturday, January 16.

Such sudden and peak demands must be met when they occur. They cannot be prorated over the next few days or weeks. Few industries face the same situation Natural Gas does when a blue Norther suddenly

strikes the Southwest with all its wintry fury.

Keeping Natural Gas flowing from 75 different fields through a pipeline network of 4,800 miles in step with such abrupt temperature changes to supply the wartime fuel needs of the Southwest is a task that requires the special skill and experience of 4,500 men and women working together as a team. The work of each is important in maintaining the dependable, high-quality, low-cost gas service you know as Lone Star.

**PART OF COMPRESSOR STATION** which keeps gas moving at high pressure through transportation lines. There are eighteen of these stations with 136 engines developing a total horsepower of over 30,000, located at strategic points over the interconnected system. During summer months most of these engines are idle. But they must be maintained to meet the peak day.

**"CHRISTMAS TREE" VALVE** which regulates flow of gas from well. Wells are opened into pipeline as dispatcher directs, according to the expected temperatures and demands. Each of over 1,000 wells is carefully maintained for maximum life.

# Society

## Wesleyan Service Guild Meets In C. P. Baker Home

Members of the Wesleyan Service Guild held their regular monthly business and social meeting last Monday night, meeting in the home of Mrs. C. P. Baker. Mrs. Baker and Mrs. Bogard were hostesses.

Following the regular business meeting, a short program was enjoyed, after which a delicious refreshment plate was served.

Members present included Meses Aaron Edgar, Layne Womble, Luther Kirk, Swindall, Oscar Spann, M. F. Billingsley; Meses Merle Dinges and Ruth Baker, and the hostesses.

## Bridge Club Has Meeting Monday in Pendleton Home

Mr. and Mrs. H. A. Pendleton were hosts to members of the Monday Night Bridge Club and several guests at the club's regular meeting last Monday night. Mr. and Mrs. Dorse Rogers received high score in the games.

At the close of the games, the hostess served a refreshment plate to the following members and guests:

Mr. and Mrs. Fred Broach, Mr. and Mrs. J. C. Harpham, Mr. and Mrs. Dorse Rogers, Mr. and Mrs. Orb Coffman of Goree, Mrs. W. R. Moore, Mrs. A. H. Mitchell, Mrs. Paul Pendleton and the host and hostess.

## FIVE OUNCE EGG IS EXHIBITED HERE

E. C. Neece, who resides near Munday, has some chickens that are more than doubling their efforts in this emergency. Mr. Neece has found some two or three large eggs which were laid by his hens.

One which A. C. Neece exhibited in town Saturday weighed five ounces, about three times as much as an ordinary egg. Mr. Neece said they had broken eggs similar to the one he was showing, and another well formed egg was contained inside the larger one.

Mrs. Ulic Len and Mrs. E. F. Barton of Knox City were business visitors here one day last week.

## Local Couple Is Married Here On Saturday Night

Announcement was made the first of this week of the marriage of Curtis Offutt and Miss Mildred Louise Davis. They were united in marriage at the Baptist parsonage in Munday at 8 p. m. last Saturday, with Rev. W. H. Albertson reading the marriage ceremony.

Mrs. Offutt is the daughter of Mrs. H. M. Hood, who resides near Munday, and Mr. Offutt is the son of Mr. and Mrs. F. G. Offutt, well known residents of this county. These young people were reared in the county and have a large number of friends in this vicinity.

They will continue to make their home near Munday.

## Johnnie Patterson Begins Training

Fort Des Moines.—Auxiliary Johnnie Maurice Patterson of Rt. 1 Munday, Texas has begun training in the Women's Army Auxiliary Corps.

She was immediately assigned to a Receiving Center company for a weeks elementary military training. Here she is issued clothing and equipment, instructed in rudiments of drill, and given Army classification tests. These tests will help determine the job she will fill in the WAAC.

For the following four weeks, she will be assigned to a basic company for more detailed training preparing her to replace a man in a non-combat Army job.

She is the daughter of Mr. and Mrs. L. B. Patterson of Route 1, Munday, Texas.

## HOME FROM HOSPITAL

Mrs. Wade Mahan and little son, Wade Tanner, were brought home from the Haskell hospital last Tuesday morning. They are both still doing nicely, and the father seems to think "Mike" isn't such a bad looking boy after all.

Mr. and Mrs. Douglas Doshier and little son of Benjamin were visitors here last Saturday.

Mrs. Allen Seale returned to her home in Dallas on Wednesday of last week after a visit here with her parents, Mr. and Mrs. C. R. Parker.

## People, Spots In The News

**ON THE RUN**—American pursuit pilots at field "somewhere in China" streak for their P-40's as air raid sirens signal approach of Jap planes.

**NEW CAREER**—Expansion for war production at Brown Instrument division of Minneapolis-Honeywell Regulator Company, Philadelphia, has opened careers for women in new field—laboratory research. Mrs. Marie Ritchie, one of the women being trained by Brown, is shown testing pen of flow meter.

**BRRRR**—New England wintertime industry gets into full swing as abnormally cold temperatures move ice-cutting schedule ahead by almost a month. Ice shown here is 14 inches thick and is cut into blocks weighing 400 pounds apiece preparatory to being floated down canal to ice house for storage.

## TEXAS FOODS PURCHASED FOR LEND-LEASE PURPOSE

Substantial purchases of Texas farm products for Lend-Lease and other wartime purposes were made by the Food Distribution Administration, U. S. Department of Agriculture, during December, E. L. Upshaw, acting FDA member of the state USDA War Board, said today.

Largest purchases during the month were 4,500 bundles of hog casings and 1,210,000 pounds of other meat products; 8,250,000 pounds of milled rice; and 2,400,000 pounds of colored oleomargarine.

Coarse cracked corn in the amount of 1,000,000 pounds; 800,000 pounds of milled rice screenings; 603,000 pounds of vegetable salad oil; 400,000 pounds of citrus pulp; 120,000 pounds of dried whole eggs; 23,400 barrels of wheat flour and 22,100 barrels of yellow corn meal also were bought within the state.

Many Texas products which are

shipped to terminal markets outside the state are purchased at these concentration points by the Food Distribution Administration, Upshaw said.

## LOCAL WAAC TO GET ADVANCED TRAINING

FORT DES MOINES, Ia.—Advanced training in the Specialist School of the Women's Army Auxiliary Corps was recently completed by Auxiliary Cammie O. Beatty of Munday, Texas.

Upon reporting for duty this Auxiliary was assigned to a four week basic training in Army courses and infantry drill. She then entered the Baker's and Cooks' School to learn about the buying and preparation of food, the cutting of meats, and the planning of menus.

Graduates from this specialized course are now ready for assignments to serve with the Army for non-combat service.

## CHURCH OF CHRIST (Announcements)

Carl A. Collins, Minister

Sunday Morning Services  
Bible School—10:00.  
Worship Hour Song Service—11:00.  
Sermon—11:15.  
Communion—11:45.  
Benediction—12:00.

Sunday Evening Services  
Young People's Service—7:00  
Worship Hour Song Service—8:00.  
Sermon—8:15.  
Benediction—9:00.

## Week-Day Services

Ladies' Bible Class, Monday Afternoon, 3:00.  
Prayer meeting and Bible Study, Wednesday night, 8:00.

Themes for both morning and evening sermons next Lord's Day will be found in I John, chapter 2. Minister Collins will have as his theme Sunday morning: "Evidence of Salvation." Sunday night at eight o'clock his sermon theme will be: "Antichrists." The subject matter of these sermons is vital to the salvation of every soul. Many souls will be eternally lost because they overlook or fail to study the truths written by the Apostle John in this chapter. We urge you to come to the services. Let us study these truths together next Lord's Day.

## HOME FROM ARMY

Kamal Waheed, who has been serving in the armed forces in North Carolina, came in Sunday to visit his brother, Sied Waheed, and other relatives. Kamal was injured while on maneuvers and spent several months in an army hospital. He was given a medical discharge.

W. M. Rowan and C. E. Reed of Knox City were visitors here last Monday night.

Mr. and Mrs. Press Phillips and family and Mr. and Mrs. Nolan Phillips spent Sunday afternoon at Sheppard Field with their brother and son, Marion, who is in training there.

Pvt. Clyde Hendrix, Jr., of Sheppard Field, came in Monday

to spend three days visiting with his parents, Mr. and Mrs. C. R. Hendrix.

W. R. Moore was a business visitor in Dallas the first of this week.

Miss Dorothy Campbell spent the week end here with her parents, Mr. and Mrs. J. C. Campbell.

Mr. and Mrs. G. R. Eiland spent several days last week in Lamesa, visiting in the home of Mr. and Mrs. C. A. Eiland. They returned home Sunday.

## Has Operation

Mrs. Ernest Cribbs underwent a major operation at the Knox county hospital last Saturday. Latest reports from the hospital are that she is doing nicely, and her many friends wish her a speedy recovery.

## LISTEN, FOLKS!

Once upon a time we could repair shoes while you wait. Now we have to ask you to please come back tomorrow. Once upon a time we could attach brown rubber heels and sole, but today we can only give you black ones.

Once upon a time, we could get all the leather and rubber we wanted. Now our wholesalers have their hands full getting goods for us. Once upon a time we could make deliveries. Today you know what gas and rubber tires are.

So cheer up and bear with us. We've got a war to win. Our armed forces come first. We know our customers and friends will understand.

Buy War Bonds and Stamps!

## BEAVER'S SHOE SHOP

The United Nations have cornered the world's diamond production—just about every diamond recovered from the earth now finds its way to American, British, or Russian purchasers.

## EILAND'S OWN COLUMN

Have you visited our store lately? You will be surprised at the attractive merchandise here.

We were fortunate in securing a small shipment of vacuum cleaners last week. No advance in prices.

Radios are getting scarce now. Still a few models left. Better hurry!

Jeris 1-cent sale combination has been one of our best sellers. We have a good stock of this.

Just received Service Emblems to use in our monogramming machine. Let us fix a box of gift stationery for you. Over 1,000 boxes in stock.

Plenty of air rifle shot here.

Filling doctor's prescriptions is the most important part of our business. Two registered pharmacists on duty to give you sudden service. We can fill your prescriptions, no matter by what doctor they are written.

HOT POPCORN—Buy a sack of our fresh hot corn today—and every day.

Production of kodak film has been drastically reduced. We have at present some of all sizes.

Our store is headquarters for gifts for men in the service. You will be surprised at the wide variety we offer.

Five cents each for old phonograph records when traded in on new ones, or we pay two cents each in cash.

IN MUNDAY IT'S

## EILAND'S DRUG STORE

## A PERSONAL MESSAGE TO YOU

It may seem to some of the people of this territory that I have been doing lots of unnecessary driving during the past ten days. I have learned enough in this time to help all of my customers at least 25 per cent, as to service and knowledge of tire repairing and recapping.

It is our job to be up-to-the minute on all changes made in repairing and recapping so we will be able to hand them on down to our customers in better workmanship.

Also in the very near future, we will have some 75 government inspected tires that the customer will be able to purchase upon receipt of the rationing board's certificate. (All these tires mentioned will be government inspected and passed on.) It is my pledge to you that at any time, whether night or day, I am ready to serve you to the best of my knowledge.

Thanking you for your patronage and patience, I am

Yours very truly,  
JAMES W. McMORRIES.

## O. K. RUBBER WELDERS

— Located In —  
H. D. Warren Service Station Bldg.

Prepared for Your Newspaper by Betty Crocker Home Service Department

## MID-WINTER PARTY — 1943 STYLE

Old Dobbin is coming back into his own in more ways than one these days. For instance, there's a group of girls living at a club house in a mid-western city. They invited some service men to an old-time bob-sled ride not long ago. Guests and hostesses assembled at the club house on a Saturday afternoon, then boarded a trolley car and rode to the end of the line.

**At The End Of The Line**  
There a farmer met them with a bob-sled well covered with straw. They rode for about two hours—until the sun had set and the stars had come out. They sang and they ran beside the sled. Now and then someone would tumble off into a snow bank—much to the merriment of the others. At last they arrived at a farm house, where the wife of the farmer who drove the sled had a hot supper ready for them. It was warm and cozy inside, and they were ravenously hungry—so you can just imagine how they enjoyed the supper which the girls, who were giving the party, had planned—and which the farmer's wife had prepared.

**A Good Time Was Had By All**  
After supper there was more singing—some games—and then a drive back—more directly and quickly this time,—to the street car. The girls who told about the party said it was twice as much fun as getting into someone's car and going off to the usual road-side eating places. In fact, I think some of those girls thought that perhaps grandmother didn't have such a dull time when she was a girl, after all, even though there were no radios and automobiles.

Here is the supper that was served that night—

- Hamburger Balls with Chili Beans
- Mashed Potatoes
- Cabbage and Apple Salad
- Enriched Bread and Butter
- Old-Fashioned Marble Cake
- Cocoa

**HAMBURGER BALLS WITH CHILI BEANS**  
Combine the following ingredients together and form them into 16 balls: 1 lb. ground beef— $\frac{1}{4}$  cup fresh bread crumbs (packed in cup)—1 tsp. salt— $\frac{1}{2}$  tsp. pepper—1 egg (well beaten)—2 tsp. milk. Sauté  $\frac{1}{2}$  cup diced bacon (4 slices) in a heavy frying pan over low heat. Add  $\frac{1}{2}$  cup diced onion (1 large onion) and cook until yellow. Take out the onion and bacon and brown the meat balls in the fat.

**Make A Paste**  
Make a paste with 2 tsp. flour and 2 tsp. cold water. Stir this paste into  $3\frac{1}{2}$  cups cooked tomatoes (1 No. 2 $\frac{1}{2}$  can). Add  $\frac{1}{2}$  tsp. salt, 2 tsp. chili powder (or less)—2 bay leaves— $\frac{1}{2}$  tsp. ground cloves—and the cooked bacon and onion.  
Cook uncovered for 25 minutes, stirring occasionally. Now remove the bay leaves and add  $2\frac{1}{2}$  cups red kidney beans—or  $\frac{1}{2}$  lb. dried kidney beans soaked in water overnight and cooked until tender (about 2 hours). When adding the kidney beans add all the liquor which is with them and cook another 15 minutes. This makes 6 to 8 servings. The girls doubled the recipe for their party of ten.

**INTERESTING FACTS**

A new plaster material for fire-proofing a room against incendiary bombs is said to withstand direct exposure to a blow-torch flame at 2,500 degrees Fahrenheit for 20 minutes when applied to wood, concrete, metal, glass, and standard plaster.

A new method of extracting alcohol economically from waste liquors of paper mills and other industrial plants has been developed, through the use of fusel oil which dissolves alcohol, but will not mix with water.

A new, cheaper way to make suits, gloves, curtains, and other fire-resistant articles from asbestos yarn has been developed. By wetting yarn with soap solution, the threads are softened and lubricated sufficiently to permit use of knitting machines.

The job of printing 150 million copies of War Ration Book Two requires 96 carloads of special safety paper and the full production capacity of 18 printing plants throughout the nation. Each of the books contains 192 ration stamps—a total of nearly 29 billion.

Fuselage bullet holes in airplanes can be quickly repaired by using new explosive rivets.

**War Needs Money—YOURS!**

This war calls for every ounce of energy, every dime and dollar we can muster for ships—and planes—and guns.

Hit the enemy with a \$25 Bond. Hurt him with a \$50 Bond. Help to blow him sky-high with a \$100 or \$1,000 Bond. Don't delay—every hour counts. Buy United States Defense Bonds and Stamps TODAY.

**RUPTURE**

SHIELD EXPERT HERE

H. M. SHEVNAN, widely known expert of Chicago, will personally be at Kemp Hotel, Wichita Falls, Monday, only, February 8, from 9 A. M. to 5 P. M.

Mr. Shevnan says: The Zoetic Shield is a tremendous improvement over all former methods, effecting immediate results. It will not only hold the rupture perfectly but increase the circulation, strengthen the weakened parts, thereby closing the opening in ten days on the average case, regardless of heavy lifting, straining or any position the body may assume no matter the size or location. A nationally known scientific method. No under straps or cumbersome arrangements and absolutely no medicines or medical treatments.

Mr. Shevnan will be glad to demonstrate without charge.

Address 6509 N. Artesian Ave., Chicago. Large incisional Hernia or rupture following surgical operation especially solicited.

**Dr. Turner To Speak On Radio Church Hour**

Dr. J. Clyde Turner, pastor of First Baptist Church, Greensboro, North Carolina, will be the speaker on the Baptist Hour for the first three Sundays in February, the general theme of his messages being, "Christian Resources in the Crisis," as announced by S. F. Lowe, chairman of the Radio Committee of the Southern Baptist

DR. J. CLYDE TURNER

convention. These programs are carried by an independent network of 35 stations at 7:30 CWT Sunday mornings. Beautiful printed copies of each message can be had by writing each time to The Baptist Hour in care of the station over which you hear the programs.

Mr. Lowe further states that Dr. Turner is one of the most popular speakers among Southern Baptists, being in constant demand as a speaker for assemblies, college and church meetings throughout the South. This is a return engagement of Dr. Turner on The Baptist Hour, the first engagement being in the 1941 series.

The Radio Committee reports that fan mail responses to The Baptist Hour programs over the 35 stations on the network indicate that the audience is tremendous. The programs are heard in Texas over Stations WFPA; KPRC and KFRO.

**LOCAL FIREMEN MAKE TWO CALLS WEDNESDAY**

Responding to first alarms for the first time in several weeks, Munday firemen made two calls in a short time Wednesday afternoon. The first call was to the home of W. C. Cunningham, where the servant's house was ablaze. The fire was extinguished before any considerable damage was done.

Soon after, firemen were called to the Henry Michels home, where a grass fire had set afire some posts which were piled in the back of the premises. Only small damage was reported here, also.

Rev. Luther Kirk spent the first of this week in Roff, Okla., attending the bedside of his uncle who was seriously ill.

**It Takes Both, War Bonds and Taxes, to Win—Victory Tax Special Direct Levy Asked to Help Meet Heavy War Costs**

WASHINGTON, D. C.—Approximately 50,000,000 American workers began to make an added contribution to the War cost this month in the form of a 5% Victory tax.

For many millions of Americans the Victory tax and the 1943 income tax are the first direct levies to be made by the Government to meet the staggering War costs. And it will take both . . . taxes and War Bonds . . . to provide the supplies and materials to win the War and the peace afterwards.

The Treasury Department estimates that the Victory tax will raise approximately \$2,000,000,000. Every person receiving more than \$12 per week must pay the Victory tax upon that part of his income over and above the \$12. For example, a married man with a salary of \$50 per week, with two dependents, would make only a net payment of \$1.00 per week after allowance for post-war credit.

The Government has made every effort to make the impact of the new tax as light as possible. The law, in effect, provides that in the case of married persons whose sole income is from wages or salary, 40 percent of the Victory tax paid (up to a maximum of \$1,000) plus 2 percent for each dependent up to a maximum of \$100 may be used as a credit against whatever Federal income taxes the individual may owe at the end of the year—provided he

has purchased certain War Bonds, or paid old debts or paid life insurance premiums equal to the amount of this credit. In the case of single persons this credit will be 25 percent of the Victory tax paid (up to a maximum of \$500). Should the Victory tax credit exceed the individual's Federal income tax, the unused portion of the credit may be refundable to the taxpayer.

Even with the Victory tax, the 1943 income tax, and all other taxes paid by individuals, the average American will have more money with which to buy War Bonds than he has ever had before. Here are the statistics which explain that statement:

In 1940 the total income payments made to the American people amounted to about 76 billion dollars. In that same year the total personal taxes paid, Federal, State and local,

**Small Farmers Have Advantage**

The operator of the small or medium-sized farm is better able to increase the production of food than the large-scale operator, Thomas G. Foster Knox County supervisor for the Farm Security Administration, said today.

Most of the larger farms have been running on the basis of capacity production and now, with labor hard to get, output is more likely to fall off than to increase.

On the other hand, there is room on most small and medium-sized farms for a few more head of livestock, more poultry, more milk cows, a larger vegetable garden and perhaps an acre or two more for cultivation without the need of additional labor.

Most of the families on these farms, with the aid of the children and perhaps grandma and grandpa, can take care of the added production, responsibilities. They are

not faced with the problem of obtaining hired labor, because all the labor they need for a limited expansion is found right there within the family.

There are exceptions to this, of course, where sons and daughters and a few husbands, have been drafted or have gone into defense industries.

Mr. Foster pointed out that farmers can obtain loans for producing food for freedom from the Farm Security Administration provided credit is not available through the usual channels.

Most any farmer with the desire to produce food can now borrow enough to add a few dairy or beef cattle, pigs or brood sows to his farm, to provide feed for the added stock, and to increase the production of cultivated war crops.

"I keep six honest serving-men (They taught me all I knew); Their names are What and Why and When and How and Where and Who." Let the Farm Security Administration, Baylor County Courthouse, at Seymour, Texas answer your What's and Why's and When's, or provide information on your How's and Where's and Who's of your farming operations problems for 1943.

Mr. and Mrs. Jimmie Silman are moving to Lubbock this week to make their home and to be near their daughters who are attending Texas Tech. Jimmie has pur-

chased a small farm near Lubbock, as well as a home in the city, and states that he is "learning to become a framer."

Mr. and Mrs. Wesley Russell of Albertville, Ala., were here last Wednesday, visiting with Mr. and Mrs. A. B. Russell and with Mrs. T. C. Lowry and the J. C. Campbell family. They were on their way to Houston.

**COTTON QUIZ**

WANTED—By middle aged lady, position as companion to elderly couple or semi-invalid in home where housekeeping work is not too heavy. Experienced in practical nursing. References. Box 233, Munday, Texas. 1tp.

GULF ETHYL gasoline will give you from three to four miles per gallon more than any regular gasoline on hte market. R. B. Bowden Gulf Station. 23-tfc.

RADIO REPAIRS—Repairman at our place every Tuesday. Bring us your radio repair work. Western Auto Store 29-tfc.

WANT TO RENT—Or lease, 80 to 160 acres of farm land. G. S. Dowell. 1tc.

FOR RENT—5-room modern house, one block south of Munday high school. G. S. Dowell. 1tc.

**The Physically Disabled-To Be Given War Work**

Mr. Roy Whisenhunt, Supervisor of Vocational Rehabilitation of the Department of Education out of Fort Worth is asking that all the hard of hearing, the deaf, the physically disabled, those that have a 4-F classification to either come or write him at 419 U. S. Courthouse, Fort Worth, Texas.

There are a few things that you must have before you can get into the War Effort: A birth certificate, you must have ways and means of getting into Fort Worth, you must be physically fit to do eight hours of work, you must be able to pass a physical examination, and you must have means to live until the first pay-day.

Many War Industries are calling for those that have physical disabilities, such as hard of hearing, deafness, a short limb, a disabled arm, to the extent that it prevents you from getting into the service, yet you have enough use of it to do assembly line work.

The age limit is ordinarily 18 to 40 for women and 18 to 55 for men. You must bear in mind that you have to be able to get around and be able to do close and exact work. If you know you can do eight hours of hard work, come or write him at once. However, bear in mind that an interview might determine that you cannot do the work. Hernia cases will not be accepted at present.

Never before in our time has the call been so strong for those that have physical disabilities. Your country needs you; we can help place you in the right job. This is a service that your State Department of Education is giving to you, only for the asking. If you are young, we will try and work out a training program for you that will equip you to do your part, just so you are above sixteen years old.

Mr. Whisenhunt urged all that read this to pass it on to those that are hard of hearing, the deaf, and those that have physical disabilities. Have them to see or write him at 419 U. S. Courthouse, Fort Worth, Texas.

A new gadget for U. S. bombing planes automatically operates the built-in fire extinguishing system aboard the plane in case of a crash landing. A carefully balanced electrical trigger discharges carbon dioxide into the engine compartments and prevents the fires which usually follow a crash.

Sheriff L. C. Floyd of Benjamin was in town last Tuesday on business pertaining to his office.

J. Arthur Smith of Lorenzo spent the first of this week here, visiting with friends and attending to business matters. Mr. Smith said they were comfortably situated on their farm near Lorenzo and liked it there fine.

W. E. Braly returned home the first of last week from Saint Louis, Mo., where he underwent treatment at the Barnes hospital for several days.

"Gone With the Wind"

**DO YOU NEED 400 POUNDS OF Cottonseed Meal?**

About 400 pounds of cottonseed meal, or cake, plus about 240 pounds of cottonseed hulls, are produced from the seed from a 500-pound bale of lint cotton.

Although few people realize it, cotton produces more pounds of feed per acre than pounds of lint.

Because not enough cotton was produced in 1942, many livestock producers have not had as much cottonseed meal and hulls as they needed. Although our oil mill—and other mills—have produced every pound of feed we could from every pound of seed we could get—it hasn't been enough. There just isn't enough seed available.

**IN ORDER TO FEED MORE WE'LL HAVE TO GROW MORE**

The only way to get more cottonseed meal and hulls to meet our future needs is to **Grow More Cotton**—by producing one more bale, you produce 640 pounds more feed. For the sake of our livestock, we need to plant every acre we can—and produce every pound of cotton we can in 1943.

**Rosebud**

Rosebud is eight, and the most beautiful shade of caramel fudge. To her loving Mammy and Pappy she is known, on approximately alternate days, as "Angel" and "You devil child". It was on her devil-child days that Rosebud tied the knots in the shirts that Mammy had taken in for washing, and poured the whole of the vanilla bottle into the lamb stew, just, she said later through bitter tears, to "flavor it up some".

On her angel days Rosebud is equally imaginative even if a more restful occupant of the little shack down on Vinegar Hill. Once when Mammy was out doing day work, Rosebud got a wave of cleaning fever and scoured every pot and pan in the kitchen so that they literally glistened. Another day, left alone, she tidied up Mammy's and Pappy's room to such a point of apple-pie order that it was a week before Pappy could find an undershirt.

Rosebud is a great reader of the newspapers. Mammy and Pappy don't take one, but there are plenty of perfectly good newspapers blowing round Vinegar Hill. It was out of one of them that Rosebud got her idea for spending the ten cents the Bunny had put under her pillow the night her tooth came out. After breakfast Rosebud disappeared down the Hill and reappeared soon after with a beautiful ten-cent War Stamp pasted firmly into a brand-new book with neat little squares for more stamps. She displayed her investment to Mammy. "I declare you're an angel child," Mammy said. Rosebud went on sitting on the kitchen floor staring with large brown eyes at the empty squares in her book. From time to time she took hold of one of another of her teeth and wiggled it gently.

Mammy was engrossed in a particularly big washing. Rosebud was as quiet as a mouse and Mammy forgot about her until, coming in from the yard with her arms full of dry sheets, she encountered her child with a large hammer in her hand. Scouting the devil in her angel child, Mammy shouted at her, "Rosebud! Come yere with that hammer! What you planning on doing?"

But what was done was done. In Rosebud's other hand was another tooth. Her mouth was stretched in a broad if slightly bloody smile. "I ain't doing nothing, Mammy," she said. "I'm just filling up my stamp book."

(Story from an actual report in the files of the Treasury Department.)

Say yes. Take your change in War Stamps. Your investment in War Bonds today will save a payday for tomorrow. U. S. Treasury Department

### SENIOR NEWS

If you happened to be passing the high school any time last week and saw some of the students stiffly walking around the campus, you need not have gotten alarmed. The way in which to describe their condition is "the result of Calisthenics." But after several days work out everyone is getting use to it and liking it. At first they were required to take only two days of it, but after much urging Mr. Turner agreed to let them have three days.

In English the Seniors are learning how to speak and write correct sentences. This is getting to be quite difficult for some, because they are so use to using the wrong way they can't seem to realize that there is a right way. But time will tell and so will Miss DeLoach.

### Junior News

One would be surprised to see the Juniors now. All of them are busy at getting their work in on time.

Since it has been decided that a race would be held each week between the four high school classes on stamps sales, let show what we can do. Last year, the Junior Class was outstanding in stamp and bond sales. This year the class has a good start. Don't let our boys in service down, class. They are fighting for us so lets help them.

The English III class has found that Literature is not so bad after all. In fact, the class seems to enjoy having Literature instead of Grammar.

Monday afternoon the Juniors were floating around in the air instead of walking. After quite a bit of debating, the class picked the ring of their choice. The class rings for their Senior year had been decided on!

### Sophomore News

Friday was regular test day and many of the students are still as blank as ever. Algebra included three types of factoring and some students didn't even know one. We'll all have to take time out and study for awhile.

"Will" and "shall" and "passive" and "active" voice has not yet registered on the brains. We'll have to make room pretty soon for them or the boat will leave us behind again.

Calisthenics is comparatively hard on us mollycoddles. We're not used to it and after three days of it some of us are still sore and aching.

### Freshman News

We are very glad to have the new pupil Jessie Fae Johnston and Margaret Pamzie. We hope they will like our school and will make progress this year.

The algebra test last Friday was not so successful for some of the freshmen. They hope to do better next Friday.

Most of the Freshmen are feeling better after the Calisthenics

last week. Some of them are still sore but practically everyone agrees they like it.

### High School Honor Roll

Six week "A" honor roll: Lillian Cerveny, Bette Morris, Betty Golden, Patsy Ruth Kirk, Helen Williams, Raymond Mitchell.

Six week "B" honor roll: Jerry Chamberlain, Neva Gray, Martha Hanning, Lola Jones, Geneva King, Jean Reeves, Jo Ann Rummell, Wayne Blacklock, Jimmie Silman, Benton Snelson, McCelvey Jones, Lloyd Gray, Latreace Johnson, Mary Alice Beck, Bobby Boggs, Mary Tom Kirk, Patsy Massey.

Semester "A" honor roll: Betty Golden, Helen Williams, Raymond Mitchell.

Semester "B" honor roll: Jerry Chamberlain, Neva Gray, Martha Hanning, Lola Jones, Wayne Blacklock, Jimmie Silman, Benton Snelson, McCelvey Jones, Lloyd Gray, Latreace Johnson, Mary Alice Beck, Bobby Boggs, Mary Tom Kirk, Patsy Massey, Lillian Cerveny, Bette Morris, Patsy Kirk.

This is the Gossip Boy of Station M. H. S. reporting to you folks that are interested in the basketball boys of Munday High School.

The boys went to Weimert to play the Bulldogs and got beat by a considerable score although the Munday boys fought their heart out the Weimert boys were just to tall for some of the boys like Wayne Blacklock, Hulon Montgomery, Delmar Cadwell, Glen Lowrance, Joe Spann and some of the rest of the boys. Although the Moguls took a licking old Red Stodgill and Joe Spann sparked the Mogulets to a win by a good margin. Red got his bottom lip stepped on a few times but he played a good game just the same. Glen Dean Lowrance was high point man for the Mogulets though Joe and Herbert (Red) beat him in the most hustling

branch of kids in Munday. The Moguls are working out pretty good this week and hope to take the O'Brien team next Tuesday night. Good luck to you boys. The statistics show that the Mogulets have won three straight games while the Moguls have won about three games all year. But if you want to see some fighting spirit just come to see the Moguls play some home game.

I'm sorry folks but that is all the gossip that I have on the basketball boys for this week. So I will see you soon in the next issue. Guess who is giving the low down boys?

### Organization of the Texas Rangers

The boys in Munday High School are being organized into a body called "The Texas Rangers." This program is sponsored by the State Board of Education and is to be operated in a military fashion. The boys will be picked according to their ability and enthusiasm they show to become officers. As yet the system has not been completed, but will be in about a week. This week the organization has been led by Harmon Sessions and Judge Stevens under the direction of Supt. Cunningham.

Architecture is a good field for women, though few co-eds are now registered in that study. Walter T. Rolfe, University of Texas professor of architecture, asserts. In the post-war building era, there will be a greater demand for architects than ever, and women getting their training now would have no employment worries after graduation.

### Merchant Marine Instructor Named

Assignment of Lieutenant John R. Sanders, USNR, as U. S. Merchant Marine Cadet Instructor in Houston, Texas, with offices at 212 Cotton Exchange Bldg., was announced by the War Shipping Administration. Lieutenant Sanders will assign merchant marine cadets to vessels leaving Texas ports and will check on the progress of cadets on vessels arriving at these ports. His office will supply information on the cadet corps and will receive applications for the corps, which is charged with the training of young men as future officers in the U. S. Merchant Marine.

### Region War Labor Board Organizes

Under a decentralization program announced recently by WLB, a regional War Labor Board will be set up shortly at Dallas, with Floyd McGowan, WLB region director, as chairman. Organization of a disputes section, a part of the regional board, already is under way. Under the decentralization program, WLB will have two chief functions: to settle disputes where U. S. conciliators have failed to obtain an agreement, and to make final decisions on wage stabilization questions. The

region WLB office has been functioning as a wage stabilization agency for two months.

### ODT Urges Capacity Loading Of Trucks

Warning that ODT regulations require capacity loading of trucks by all overroad carriers, John C. Massenburg, regional manager, ODT motor transport division, urged operators to make every effort to cut waste mileage, such as empty trips. ODT joint information offices have already been set up by the carriers themselves in Dallas, Fort Worth, Houston, San Antonio, Lubbock, Amarillo, Muskogee, Okla., and New Orleans, La. Common carriers register empty or partially loaded trucks in the joint information offices and report property awaiting shipment for which transportation is desired. Where information offices have not been set up, carriers must

inquire among other carriers before continuing a trip with an empty or partially loaded truck.

Mrs. W. M. Huskinson and son, Billy Marvin; Mrs. Dorse Rogers and Mrs. J. C. Harpham visited with Mr. Huskinson in Wichita Falls over the week end.

Lynn Fore of Holliday, a student in Hardin-Simmons University in Abilene, visited his uncle and aunt, Mr. and Mrs. W. E. Braly over the week end.

Lanham and Jasper Beavers of Dallas spent the week end here, visiting with their parents, Mr. and Mrs. Walter Beavers.

Bobby Haymes and Dickie Owens spent the week end in Fort Worth, visiting with Dickie's father, L. E. Owens, and other relatives.

### What You Buy With WAR BONDS

The ordinary machine gun is too cumbersome for our Marines, especially for parachute troops. So the Marines have adopted new models of the Reising sub-machine gun, a .45-caliber weapon.

The new gun used by the paratroops is a compact model with a pistol grip and a steel-frame stock which folds out of the way when not in use. You can help buy these for our Boys in the Solomons and elsewhere with your purchase of War Bonds. Join the Payroll Savings Plan and let's "Top that ten percent." U. S. Treasury Department

## On The Home Front

O.E.M. Division of Information

### Ration Banking Begins

Some 3,000 commercial banks in Texas, Oklahoma, Louisiana, Missouri, Kansas and Arkansas undertook a new war job last week, when OPA's national plan for ration banking went into operation in the Southwest OPA region. Ration banking is designed to take a great burden off the shoulders of local war price and ration boards and to simplify the handling of ration stamps for retailers and wholesalers of sugar and coffee. Coffee roasters, primary distributors of sugar, wholesalers of coffee and sugar, retailers of coffee and sugar who own more than one store, and retailers whose gross food sales in December, 1942, were \$5000 or over, are required to open ration bank accounts. Other food retailers may open accounts for their own convenience.

### Theft of Ration Stamps Is Federal Offense

Prompted by reports from the north and east of thefts of food and gasoline ration books, OPA enforcement officials in the Southwest region office at Dallas warning that theft of or possession of stolen ration stamps or paper is a federal offense. Such an offense is punishable by 10 years in a federal penitentiary or a \$10,000 fine.

## Rationing At A Glance

### Ration Books

War Ration Book No. 1—Used for sugar and coffee, will be required to obtain Book No. 2.

War Ration Book No. 2—To be issued soon, will provide for rationing on a "point system."

Mileage Ration Books—Books A, B, and C used for passenger car gasoline; E and R books for non-highway uses; D, for motorcycles; T for trucks and commercial vehicles.

### Rationed Food Commodities

SUGAR—Stamp No. 11 in Book No. 1 good for 3 pounds until midnight March 15, 1943.

COFFEE—Stamp No. 28 in Book No. 1 (for those 15 or older on the date the book issued) good for 1 pound until midnight Feb. 7, 1943.

MEAT—Voluntary share-the-meat program sets limit at 2 1/2 pounds per person per week. Meat will be rationed under the "point system" after Book No. 2 is distributed.

### Mileage Rationing

GASOLINE—Value of each coupon in A, B, and C books is 4 gallons. Second 8 coupons in A book are good until midnight March 21, 1943. Those who think they are eligible for supplemental rations should see their local ration board.

TIRE INSPECTION—All "A" book holders must have first official tire inspections by March 21, 1943. Subsequent inspections for A book holders will be once every six months. "B" and "C" book holders and owners of bulk coupons for fleets must have first official tire inspection by February 28, 1943. Subsequent inspections for B book holders will be once every four months. Subsequent inspections for C book holders will be once in every three months. "T" ration book holders must have first official tire inspections by February 28, 1943. Subsequent inspections for T book holders will be once every 60 days, or every 5,000 miles, whichever comes first.

TIRES—If official tire inspection recommends a tire replacement or recap, apply to local ration board for tire or recap ration certificate. Tires and recaps will be rationed to all on the basis of tire inspections and county quotas available with most essential mileage to come first.

### Other Rationing

Eligible purchasers needing new automobiles, bicycles, typewriters, rubber foot wear, and other commodities on which sales might be restricted should see their local ration board.

A new-type airplane hanger is made entirely of laminated wood, and can be prefabricated to save erection time.

Rags and resin have been combined into a war emergency building material and used as a substitute for critical materials.

## Canada's "Quacks" Get In Their Wacks To Lick The Axis

Payday is welcomed by the members of the C.W.A.C. in a regular military "pay parade." Here, Lieut. Eileen Richards is shown passing out the pay cheques to C.W.A.C. volunteers. These girls all live at Trinity House Barracks in Toronto.

HEADS turn when a C.W.A.C. swings along the street. Trimly garbed in sleekly fitted suits, smart caps topping up-to-the-minute hairdos, recruits of the Canadian Women's Army Corps now total 6,500 and expect to number 14,000 by March, 1943.

A major part of Canada's streamlined war machine, C.W.A.C.'s have to be past-masters in the art of makeup, for regulations specify that rouge, lipstick, powder, and other cosmetics be applied inconspicuously. Nail polish is allowed, but must be a natural tone.

Neat haversacks, giving an added air of smartness to the uniform, hang from the girls' shoulders to hold the miscellany of articles every woman carries.

Service issue includes four uniforms, three shirts, two pairs of shoes, stockings, gloves, rubbers—everything but under garments. For these \$15 is allotted when a girl enlists, and \$3 is allotted every three months for replacing underclothing and cosmetics. All army issued articles are replaced when everything but under garments.

over coffee, can make excellent use of it provided they store it in the refrigerator. It can be used as a flavoring, especially in desserts.

The specialist also suggests beverages which fill in the gaps where coffee formerly was served. At lunch or dinner a cup of steaming meat or vegetable broth is good. "The fragrance of that hot cup should give your appetite a lift," Miss Phipps says. With desserts, try a hot spiced fruit juice. Hot grape juice spiced with cloves or stick cinnamon, or hot spiced cider go well with many sugar saving desserts.

**Betsy**  
The little girl tugged gently at her mother's sleeve.  
"Now, Mother?" she asked.  
"Now can't we write my letter?"  
"Why of course, Betsy," Mrs. Carson grinned. "Are you going to write it or am I?"  
"Well," Betsy said. "Maybe you'd better kind of say it to me. Only I'd love to write it."  
"All right, then, Miss Carson, take a letter," her mother said, walking slowly up and down the room. "Ready? Dear Mr. Morgenstau: The way I save money for War Stamp buying is to steer all the small household jobs to ward my daughter, who is eight years old. She is so keen about buying War Stamps that I know all the money I might have paid to someone else for doing the jobs will go toward Victory when paid to her."  
"Now make a list, Betsy. Windows washed, 60 cents. Apples picked from under the tree, 25 cents. Empty trash cans, 4 cents. Sold string beans from the garden, 15 cents. Sold strips of spoiled film to children for sun-gazing, at one cent a yard, 20 cents. Total, \$1.24. Yours helpfully, I hope,—and then I'll sign it at the bottom."  
Betsy was puffing like a grampus from her labors. The tall, painstaking letters tottered bravely across the sheet of paper. Gravely Mrs. Carson took the pen to sign.  
"Mother, would it be the proper etiquette if I signed it too?"  
"Perfectly proper, I think," Mrs. Carson said without a smile, and handed the pen back to Betsy.  
(Letter from an actual communication in the files of the Treasury Department.)

Every member of the family should invest in America's future. Make certain at least 10 percent of the family's total income is pledged to victory no later than New Year's Day.

U. S. Treasury Department

## Counties To Get More Machinery

COLLEGE STATION — Many Texas counties this week were receiving higher farm machinery and equipment quotas.

Upward revision was occasioned by inventory stocks being released for rationing. B. F. Vance, chairman, Texas USDA War Board, said in announcing the increase.

Machinery in the hands of dealers, distributors, wholesalers and mail order houses formerly were frozen and not included in original allotments but now are added to quotas of new machinery scheduled for manufacture during 1943.

Biggest increases were in listers, tractors, and tractor drawn cultivators, he said. New state quota for tractors was increased from 2,294 to 2,962, while listers were increased from 1,661 to 3,831. The cultivator quota which originally was established at 3,265 was increased to 4,870.

Other increases were shown in dairy equipment, feed grinders, planters, moldboard and disc plows. Increases also showed up in the total mowers, one ways and grain drills.

Most types of machinery being increased now are needed for spring farming, the chairman said, and added that revisions on other types would be increased as occasion demands. Increases are possible through allocation of the state reserve, established to correct any inequitable distribution of machinery among counties, and additional steel from the War Production Board.

Heaviest purchases of machinery and equipment during the past two months have been in hammer mills, tractors and listers. County

farm machinery and rationing committees have issued 879 purchase certificates out of an inventory stock of 1,092 and 679 tractor certificates were issued from 1,132 shown in dealer stocks. From an inventory stock of 2,734 listers, 561 purchase certificates have been issued.

## LOCALS

Mr. and Mrs. Levi Bowden and son, Lee Ancil, of Fort Worth visited with relatives and friends here over the week end.

Mr. and Mrs. James Dyke of Walters, Okla., spent last week end here, visiting with Mrs. Dyke's parents, Mr. and Mrs. W. V. Tiner.

Mr. and Mrs. Jerry Kane spent the week end in Waco, visiting with Jerry's father, J. K. Kane, and with other relatives.

Mrs. Roy Maples, Mrs. Elizabeth Cowser and Mrs. Bill Coffman of Goree were business visitors here last Saturday.

Mrs. Togo Moorhouse of Benjamin visited relatives and friends here last Thursday.

Mrs. R. L. Ratliff and son, Charles, visited with relatives in Bowie several days last week.

## NOTICE

Being unable to secure boxes, baskets or papers to take care of wet wash in our usual manner, we ask all those having wet wash done at our laundry to bring something to put their clothes in, as well as papers to place them on.

### League Estate Honors Tenants

Jack Idol, manager, and the owners of the League Estate were hosts to tenants of the lands owned and controlled by the estate at a fellowship meeting and feed last Wednesday. The meeting was held at the grove on the Brazos river near Rhineland.

A large crowd was present, representing principally tenants and employees of the estate, and after visiting for some time a splendid meal was served. This was the second meeting of its kind to be held, and it was voted to make this an annual affair.

Mr. Davis and his sister, Mrs. Gause, owners of the estate, were present and made interesting talks. Meetings such as these tend to create a spirit of greater cooperation between the owners and managers and the tenants.

Attending the affair from Monday were W. E. Braly, J. A. Wiggins, H. A. Pendleton and C. R. Elliott.

### Cecil Cooper In Advanced Training

Aviation Cadet W. C. (Cecil) Cooper, son of Mr. and Mrs. J. F. Cooper of Haskell, formerly of Munday, is now stationed in Victorville, Calif., where he is training at the Air Forces Advanced Flying school.

Cecil went there from Santa Ana where he had been for some time. In a letter to his parents, he tells of the town near his field being about the size of Weinert. The country is beautiful with snow capped mountains. The barracks are all new, and the food is excellent.

Schooling and inspections are to be very strict and rugged, Cecil wrote, and the course will equal a 1-2 year course in college, so the instructors have informed the students.

Cecil has made a very excellent record since he has been in the service. His aim now is to make the grade, receive his wings and be a good bombardier, as they are called if they make the grade.

Out of each \$1.00 of total life insurance income of all companies in the United States, operating expenses and taxes took only 15.7 cents last year. 48.4 cents was paid to policyholders and beneficiaries, an additional 29.9 cents used for increases in policy reserve, and the remaining 6.0 cents for other items.

chinery already on hand, then the committee would not authorize his purchase of new machinery.

"Since the amount of new machinery available is so much smaller than usual, the War Board asks that farmers repair old machinery, if possible, rather than apply for new equipment," he said. "The supply of repair parts is larger than usual and should help to offset the decrease in the supply of new machines."

County farm rationing committee, operating under the direction of the USDA War Board, will issue purchase certificates to purchasers whose applications for new machinery are approved. The chairman of the county USDA War Board is chairman of the committee.

### WALTER BEAVERS IS REPORTED IMPROVED

Latest reports from the bedside of Walter Beavers are that he is somewhat improved, and his recovery is expected in the due course of time.

Mr. Beavers is suffering from complications resulting from taking the rabies vaccine, after being bitten by a dog, which has resulted in partial paralysis. This occurs, physicians state, in one out of several thousand cases, and the patient practically always gets well in time.

Walter's many friends wish for him a speedy and complete recovery.

Mr. and Mrs. Ike Griffith of Rocky Ford, Colo., visited in the home of Rev. and Mrs. Luther Kirk for several days last week.

Frank Silman of Rochester visited with relatives and friends here the first of this week.

Mrs. Dan Groves and son, Utah, have returned from MeAllen, Texas, where they visited with Tech. Sgt. and Mrs. J. P. Groves.

Louis Fischer, noted foreign correspondent, will lecture at the University of Texas in April under the sponsorship of a student speakers forum committee. Fischer lived in Berlin and Russia from 1921 until the outbreak of the war.

### Janey

Janey closed the bedroom door and locked it. Alone at last! She threw back her head and heaved a deep sigh. Then she pecked out of the corner of her eye at the mirror to see whether she really did look like Hedy LaMarr. Quite a lot, she decided.

And now to business. She drew forth from the bottom of her top bureau drawer the sheet of pink writing paper and the envelope that she had been saving for this day. She sat down at the table by the window and dipped the pen into the bottle of green ink.

That her sister Rose was such a pig about. She wrote, with beautiful arabesques, "Dear Mr. Morgenthau," and held her head back to admire this penmanship class.

"Here are my stamps for a bond, \$12.75. I started last Christmas when I got \$3.00. Not counting 50 cents, I have earned all the rest, working one or more days a week at a local grocery store, and I'm quite proud to say I worked hard to get it."

Janey stared out of the window at Peterson's house and beyond at the big yard where the kids were playing football. She held her pen elegantly in air.

"Sitting here looking out the window, I see a peaceful little town, and I wonder how the world can be in such a turmoil and the people of this world can have such hate for their fellow men. So I'm proud to send these stamps because I know I'm helping to make the whole world peaceful again like our little town."

She signed her name with an important flourish, not forgetting a conspicuous "Miss" in front of the "Janey." After she had sealed the letter she went on staring out of the window. It really was awfully peaceful. Overhead she heard a plane go humming by through the sunny afternoon air.

Then the voice of her best friend, Betty, called from outside—"Janey!" In an instant Janey was on her feet and tearing downstairs and out. She was not Hedy LaMarr nor a deep philosopher any more, but exactly twelve years old.

Grown-ups and children alike should all help the "breadwinner" of the family to budget for War Bonds. Let's all join a payroll savings plan and "top that 10% by New Year's."

Non-agricultural payrolls in Texas during 1942 soared 60 per cent above those for the boom year of 1929, the University of Texas Bureau of Business Research has announced. Since the cost of living rose only about 20 per cent, the plane of living must have been higher than ever before in history.

### NOTICE IS ISSUED TO AUTOMOBILE DEALERS

Automotive dealers and service station managers were reminded today that the Certificate of War Necessity number must be listed on a receipt when any sale is made or service rendered which involves transfer of any part, to a commercial vehicle operator.

Richard E. Wood, Lubbock district manager, Office of Defense Transportation, division of motor transport, explained such sales for commercial vehicle use are lawful only to holders of valid Certificates of War Necessity and the seller should keep a receipt with the certificate number for his own protection.

The purchaser should sign two receipts, endorsing the number on his certificate on both, giving the original to the seller and keeping the copy. Mr. Wood explained. Such receipts should be available for examination at all reasonable times by accredited representatives of ODT.

If any order for parts or unrationed fuel is placed by mail, telephone or telegraph, the operator may simply furnish his name, address and certificate number to the seller for his records, Mr. Wood said.

### Weekly Health LETTER

Issued by Dr. Geo. W. Cox, M.D., State Health Officer of Texas

Austin, Texas, Emphasizing the urgent need for parental supervision of all phases of child health, Dr. George W. Cox, State Health Officer said today, "Much of the impaired eyesight of advanced years could be prevented if sufficient interest in early life were applied and a temporary correction by means of glasses made when required."

Parents, Dr. Cox asserted, should be watchful for conditions in the child such as frowning, squinting, persistent headache, eyestrain, and watery eyes. If the youngster reads to closely or too far away from the face, that situation may also be significant of the trouble.

"No child fancies wearing glasses, nevertheless, it is the obligation of those responsible for the future of young folks to have their eyes examined by a reputable specialist if any doubt arises that normal vision does not exist. It is much better for a child to wear glasses for a few years during early school life than to have permanently defective vision in later life," he declared.

According to the State Health Officer, any acute condition of a child's eyes calls for immediate treatment either by the family doctor or by a physician who specializes in diseases of the eyes.

Dr. Cox said that neglect of the eyes by no means is limited to children. Many older persons, some through vanity, indifference, or carelessness, fail to give proper attention to the care of their eyes.

Penalties, he warned, are bound to occur for such inexcusable negligence.

"The eyes of the young, middle aged and older represent perhaps one of the most priceless of bodily possessions," the State Health Officer asserted. "To take care of them promptly and properly is a responsibility which never should be sidestepped."

Miss Jeanette Campbell visited with relatives in Fort Worth last Sunday and Monday.

Attention CAR OWNERS YOU MUST HAVE YOUR TIRES INSPECTED TO PROTECT YOUR RIGHT TO DRIVE

DON'T WAIT Avoid the Rush SEE US AT ONCE

Are YOU risking your right to drive—to get tires, even gasoline? Many local car owners are—by delaying having their tires inspected.

Don't wait until the last minute deadline rush. Now ALL car owners can apply for tires, whether you have an A, B, or C book. But you must take care of your tires—and inspection guards against abuse and neglect. IMMEDIATE INSPECTION will show whether you should have repairs, or if you need recapping, or NEW TIRES. It's your duty to get inspection early and to get the recaps or new tires you need, while service facilities are not crowded to the limit. Protect your right to drive. Get our inspection NOW!

EXTRA! If you are eligible for new tires or recapping, we'll gladly help you prepare the application to your Ration Board. No charge.

GOOD YEAR TIRES OFFICIAL TIRE INSPECTION STATION—BATTERIES FOR ALL CARS

### Proper Foods Needed In Diet

AUSTIN, Texas.—That the inclusion of proper foods in the daily diet plays a very important part in the maintenance of good health was stressed in a statement issued this week by Dr. Geo. W. Cox, State Health Officer.

"One of the most dreaded of all diseases, pellagra, is caused entirely by not eating the kinds of food which would insure a properly balanced diet," Dr. Cox said. "The public is prone to overlook the serious nature of pellagra. At best it is an uncomfortable and unpleasant disease, but aside from this, there is one possible result that can be very tragic. All too frequently pellagra leads to serious mental disturbances," Dr. Cox warned, "and in some cases, actual insanity."

According to the State Health Officer, pellagra is known as a disease which is no respecter of persons. There is danger of pellagra striking at any age and either sex when the diet is consistently faulty.

"It is not the amount of food you prepare for your table, but the kind of food included in their daily diet which will protect your family from the appearance of pellagra," Dr. Cox declared.

### THREE VERA BOYS ARE AT CAMP BOWIE

Pvt. Travis Gore, Co. A, 822 Tank Destroyer Bn., Pvt. Wilburn Henson, Hq. Co., 822 T. D. Bn., and Pfc. John H. Cole, Co. A, 823 T. D. Bn., Camp Bowie, Texas, are all three from Vera. Their mothers each have two sons in the service of the United States.

Pvt. Gore writes that these boys want to get the Munday Times to know what is going on in dear old Knox county, and the paper is starting to them this week.

### FARM MACHINERY QUOTAS

College Station—County farm machinery quotas were in the hands of farm rationing committees this week as actual rationing got underway, according to B. F. Vance, chairman, Texas USDA War Board.

Vance urged farmers not to burden the rationing committees with unnecessary applications for new machinery. He pointed out that if it were possible for a producer to get his farming job done with ma-
