MUNDAY, KNOX COUNTY, TEXAS, THURSDAY, FEBRUARY 11, 1943

NUMBER 33

4-H CALF SHOW DRAWS LARGE ATTENDANCE

Assistance To Be Rendered On Income Taxes

The Revenue Act of 1942 reduces the personal exemption allowed a single person to \$500.00, and a married person to \$1,200.00, on individual income tax returns filed for 1942. In addition, increased surtaxes have been levied upon all net income exceeding personal exemptions in addition to the regular normal tax. This reduction in personal exemption will require many thousands in this district to file income tax returns who have never been required to file before. This office is anxious to aid all taxpayers who desire assistance in preparing their returns.

For this reason, a Deputy Collector of Internal Revenue will visit your city to assist your citizens with their income tax problems. Existing laws do not impose this duty upon us or our employees, but we feel obliged to assist wherever possible. The Deputy's advice and assistance is extended purely as a courtesy and without cost to your citizens.

It is respectfully requested that you give the Deputy Collector's visit to your city as much publicity as possible since your citizens will benefit in direct ratio to the number who have knowledge of his visit.

Deputy Collector E. W. Presson will be at the First National Bank in Munday, Texas, on Feb. 26, 1943, from 8:30 A. M. to 5:00 P. M. to render assistance with income tax problems to only who desire it. This will be the only visit that can be made to your city before the end of the current filing period on March 15, 1943.

Respectfully,
W. A. Thomas,
Collector of Internal Revenue.

Fire Destroys Home At Sunset

Fire which broke out about one o'clock last Sunday afternoon completely destroyed the home of Mrs. R. L. Travis of the Sunset community.

Mrs. Travis and children were at home when the fire started, and stated that it started from the hot water heater in the bath room. The entire home was soon a mass of flames.

The home and all household goods and clothing were completely destroyed. Mrs. Travis and children escaping the flames with only what clothes they were wearing. Everything was a complete loss, as no insurance was carried on the residence or the furnishings.

Graham Infant Buried Thursday

On February 4, 1943, Donald Lewis Graham, infant son of Mr. and Mrs. J. B. Graham of Munday, was laid to rest in the Gillespie cemetery. The burial service was conducted by Rev. J. S. Tierce, pastor of the First Baptist church of Knox City.

Mrs. Graham will soon return home from the Knox county hospital. The many friends of Mr. and Mrs. Graham sympathize with them in the loss of Donald Lewis.

AMMUNITION IS MADE AVAILABLE TO FARMERS

The Munday Hardware and Furniture Co. announced Tuesday that ammunition for the purpose of eradicating the premises of rodents, and other predatory animals is now available to farmers. They must make application for the ammunition, stating the purpose for which it is to be used, before it is granted.

Applications are made at the local store and sent to government warehouses to be passed on and filled. Each order, when granted, will be shipped to the local store with each individual's order marked. Farmers are asked to make applications as early as possible.

Virginia Smith, who is teaching at Olney, spent the week end here with her mother, Mrs. J. R. Smith, and with other relatives.

Keep Up With Rationing

SHOES—Purchase limited to three pairs annually per person. Sale suspended last Monday and resumed on Tuesday.

CANNED GOODS—Retail sale stops at midnight February 20. Registration for ration book No. 2 starts February 22.

SUGAR—Stamp No. 11 good for three pounds until March 15.

COFFEE—Stamp No. 25 good for one pound through March 21.

GASOLINE—No. 4 coupons in "A" books good through March 21. A, B and C coupons are worth 4 gallons.

TIRES—February 28 last day for B and C motorists to have inspections, March 31 for A book holders. Failure to meet these deadlines makes a motorist ineligible for gasoline or tires.

Barton Carl Is Closing Goree Store This Week

Barton Carl, owner of the Carl Dry Goods Co. in Goree for a number of years, announced this week that he is closing out his store. An ad announcing the sale of dry goods and shoes at cost appears in this week's issue of the Munday Times.

Mr. Carl is going into the army, and stated that it is necessary that he close out his store in Goree. "My entire stock of dry goods and shoes go during this week at absolute cost," he said, "and everything must be sold by Saturday, February 13.

Mr. Carl has some exceptional values during this closing out sale, and he urges the public to take advantage of them.

ASKS FOR FLAG TO PLACE IN WINDOW

The Munday Times received a letter last week from Mrs. H. M. Baird of Gilliland, requesting a 1-star service flag to place in her window in honor of a loved one who is in the service. "Please send it as soon as possible," Mrs. Baird wrote.

Many people of Knox county are securing one of the little flags to show how many loved ones they have in the armed forces. Each star in the flag designates a loved one in the service, and a supply of the flags are on hand at the Munday Times office, ranging from one to five stars.

Now In San Antonio

Jerry Kane, who reported in Dallas on February 5 for induction to the U. S. Air Force, notified relatives this week that he has been sent to San Antonio for training.

For Excellence in Investment

THE MOST YOU CAN BUY IS THE LEAST YOU CAN DO

Ration Sign-Up Is Set for February 24

No. 2 Ration Book To Be Necessary For Many Foods

Definite dates for registration for ration book No. 2 in Texas will be February 24, after the hour the schools close, and through all of February 25, 26 and 27, the office of Mark McGee state director of the office of Price Administration has announced.

The dates were selected so as to cause as little inconvenience and loss of time for the schools as possible, and was announced after conference between McGee and A. L. Woods, state superintendent of education. Suggestions had been made that the registration period be a full week, but it was thought the 6,000,000 Texans who will apply for the books can do so in three days. Teachers and volunteer workers will handle the registration work.

Registrants must declare all processed canned vegetables and fruits, except home canned, as of Feb. 22, and for all on hand in quantities of more than five cans per person in the household, a coupon will be taken from the ration book.

With the armed forces and lend-lease taking, in some categories, half of the canned goods put up, the government has ordered rationing to assure everyone a fair share.

Fresh fruits and vegetables will not be rationed, and one of the goals of the program will be to compel people to do more real cooking and its can-opening. Home canning will also be encouraged because such goods will not be counted against ration coupons.

Rationing by Points

Rationing will be by points, 48 points per person in the month of March, regardless of age or occupation. Because there still will be so many unrationed foods—especially fresh fruits and vegetables—there will be no distinction, as there is in Europe, between persons who do light work and heavy work. Since canned baby foods are also on the list, babies will get the same ration points as their elders. All persons requiring special diets will be able to get them on medical certificates.

Restaurants and other public eating places will be limited on canned goods but under present plans, will not collect ration coupons from their customers—leaving all ration books to be spent for home cooking.

Planning Big Problem

To housewives, one big problem will be that of planning a month ahead. For instance, at 48 points per person, a family of three will have 144 points to spend in March.

Each can, bottle or package on the new ration list will have a "point value"—perhaps 10 points for a medium size can of peas, seven points for a can of spinach, eight points for a half-pound package of raisins, etc. These figures are only examples. The real list of values won't be made public until after Feb. 20, to prevent anyone from hoarding the items which will be most expensive in point values.

Inventories Feb. 20

The first task of all householders will be to inventory their pantries as of midnight Feb. 20.

OPA advised this procedure: Empty the cupboards onto a table. Put away the unrationed foods, such as macaroni, olives, canned milk, chili, home-canned goods, etc.

Then put away the rationed cans or packages which contain (Continued on Page 8)

TO MAYO CLINIC

Mr. and Mrs. A. H. Mitchell left today (Thursday) for Rochester, Minn., where Mr. Mitchell is to enter the Mayo Clinic for treatment. At the time they left they did not know just how long they would be away.

County Asked For \$2,350 For Red Cross Fund

Chairmen For Each Community Of The County Named

This year the American Red Cross is conducting its annual Roll Call, including a special war fund offering, in March. Rev. J. S. Tierce of Knox City, county chairman of the drive, announced that the national goal is \$125,000,000 to meet the needs of the work among our soldiers and the peoples of a war-torn world.

The goal for Knox county is \$2,350. The community chairmen for the Red Cross roll call and war fund work have been appointed for each community. They are as follows:

Mrs. E. B. Sams, Benjamin; Mrs. T. B. Masterson, Truscott; Mrs. D. R. Sullivan, Vera; Miss Georgene Claus, Rhineland; Mrs. R. C. Partridge, Sunset; Mrs. J. T. Murdock, Hefner; Mrs. H. A. Penleton, Munday; Mrs. Marion Ryder, Gilliland; Mrs. Roy Maples, Goree; Mrs. F. E. Walker, Brock; and Mrs. A. J. Malouf, Knox City.

These workers, with members of the committees who will serve with them, are happy that they can render some service for the boys in service and the thousands of starving people needing help. "The people of Knox county have always done their part, and there is every reason to believe they will do it again," Rev. Tierce said.

"Gone With The Wind" To Show Here Next Week

The nation's most popular picture, "Gone With The Wind," will run at the Roxy Theatre in Munday for its third showing on Monday and Tuesday of next week.

This picture has shown to record crowds in Munday, and all over the nation. It will probably be taken off the market soon and will probably not be released again until the fall of 1945. This will be the last chance to see this picture for some time to come.

The Roxy Theatre will have three showings of this film: Monday night at 8 p. m., Tuesday afternoon at 2 p. m., and Tuesday night at 8 p. m. Due to the length of the film, it will be shown only once at each showing. To enjoy it most, you should be in the theatre at the beginning of the show.

Admission for the night shows will be 17 cents for children and 50 cents for adults. The Tuesday matinee admission is 17 cents for children and 40 cents for adults. Prices quoted include the tax.

Rev. J. S. Tierce, Baptist pastor at Knox City, was a business visitor here last Tuesday.

THERE'S NO OTHER ALTERNATIVE

Talk of rationing of newspapers is not just talk. Over the radio came news this week that another 10 per cent cut in newspaper was ordered.

This means that newspapers all over the nation will have to get by on about 20 per cent less paper than in the past. While some plants have stocks that will be ample for several months, it is apparent that the sooner they cut their output the longer they can continue in operation.

Friends, this leaves no other alternative. In most instances the reduction in the amount of news, if you haven't paid your subscription yet, do so before your name is taken from the list. Subscribers who are paid in advance are assured of getting their Munday Times—the reduction will mean taking off those who are not in good standing. Renew today.

Chairman For WAAC Volunteers Are Announced

Women for Knox County, do you want to serve your country in some definite way, during this time of great distress and need? Have you been wondering just how you might render the greatest possible service? Well, right now our government is calling for 500,000 women to enter training, for the purpose of releasing that many men for the fighting front.

If you are between the ages of 21 and 45, physically fit and have no dependents, you may volunteer in the WAAC, thereby secure valuable training for many post-war jobs, and at the same time serve your country in a valiant way, in a time of great need.

During the week beginning Feb. 14, a special drive will be made in Wichita Falls sub-division, which comprises 9 counties in the Wichita area. Out of which is Knox county.

Women enlisting during that week will be organized into one group, known as the Oil Belt Platoon. They will be sworn in at the same time, and sent together to the same training center.

A list of the county local chairmen are given below. If you are interested contact your local chairman. She has the information you want, and will assist you in any way she can.

The following local chairmen, were announced by Mrs. B. B. Campbell of Knox City, the county chairman:

Benjamin, Mrs. LeRoy Melton. Knox City, Mrs. E. R. Carpenter, Miss Willie Alexander (colored). Truscott, Mrs. George W. Brown. Gilliland, Mrs. J. O. Cure. Vera, Mrs. B. Sanders. Munday, Mrs. C. P. Baker, Mrs. Aline Johnson (colored). Goree, Mrs. J. W. Fowler.

Knox County Hospital Notes

Patients in the Knox County Hospital, February 9, 1943:

Mrs. Mary Hayes, Munday. W. J. Mayo, Benjamin. Baby Day, Knox City. Baby Jennings, Knox City. Mrs. J. B. Jones, Benjamin. Baby Barbara Tallent, Vera. Mrs. Rosa Oliver, O'Brien. Mr. J. H. McGee, Knox City. Mrs. Mae Weldon, Knox City. Mr. Eugene Michel, Munday. Mrs. S. R. Howell and baby son, Munday.

Mrs. Ernest Cribbs, Goree. Domiana Ledesa, Knox City. Patients dismissed since February 2, 1943:

Mrs. W. T. Bradley, Rochester. Mrs. J. B. Graham, Munday. Mrs. W. F. Shannan, Knox City. Floyd Hester, Weibert. Mrs. W. H. Walling, Munday. Mrs. Roy Morris and baby son, Rising Star. George Betha London, Throckmorton. Cecil Higginbotham, Vera. Ven Williams, Throckmorton. Jerry Wayne Teaff, Goree. Mrs. O. A. Cox and baby son, Haskell.

Mrs. J. F. Middlebrook and baby son, O'Brien. Baby Sonja Sorrels, Rule.

BIRTHS: Mr. and Mrs. Roy Morris, Rising Star, a son.

Mr. and Mrs. J. B. Graham, Munday, a son.

Mr. and Mrs. O. A. Cox, Haskell, a son.

Mr. and Mrs. J. F. Middlebrook, O'Brien, a son.

Mr. and Mrs. S. R. Howell, Munday, a son.

DEATHS: Baby Donald Louis Graham, Munday.

BACK TO HOSPITAL

Eugene Michels, who is suffering from accidental gun shot wounds in his leg, was taken back to the Knox county hospital this week for further treatment. Gene spent some time in the hospital, but was brought home for a week before other complications set in which necessitated another stay in the hospital.

Grand Champion Calf Shown By Stanley Glover

Club Boys To Exhibit Ten Calves At The District Show

Fourteen Knox county 4-H Club members staged one of the most successful calf shows in the history of the county last Saturday at Knox City. It is estimated that over three hundred farmers and ranchmen attended the show. Many visitors were present from Haskell, Throckmorton, Baylor and King counties.

Mr. J. A. Seofield of the A. & M. Extension Service, the judge, declared that the finish and quality of the calves were even better than in 1942, when the Knox county boys won practically all of the high honors at Wichita Falls.

Indications are that the Knox county boys will make a good accounting of themselves at Wichita Falls show again this year.

Stanley Glover of Benjamin won the Grand Championship of the show with a 825 pound Hereford steer that was just one year old. Carroll Fred Glover, brother of Stanley Glover, won the Reserve Championship with a 955 pound calf that was a wonderful specimen of quality and finish.

Jerry Westbrook of Truscott won first place in the junior with a calf that weighed 745 pounds. This calf also showed lots of quality type and finish.

The ten calves that will represent Knox county at Wichita Falls on March 10-11-12 are as follows: Stanley Glover of Benjamin, calf bred by League Ranch; Hope Bratcher of Vera, calf bred by League Ranch; Jerry Westbrook of Truscott, bred by Tom Westbrook; Pat Hill of Munday, two calves bred by the League Ranch; Clyde Hendrix of Hefner, calf bred by the League Ranch; Billy Richards of Vera, calf bred by Lee Smith of Knox City; Hardy Richards of Vera calf bred by League Ranch, and Carroll Fred Glover of Benjamin, calf bred by the League Ranch. Other boys who showed calves at the county show were Harold Jones of Goree, Marshall Wooley, of Knox City and Charles Pete Moody of Truscott.

Nutrition Class To Meet On Friday

The nutrition class will meet on Friday night of this week for organization. The nutrition manuals have arrived and will be given to the members at this initial meeting.

The meeting will be held at 8 p. m. in the Red Cross room, upstairs over the Rexall Drug Store.

This nutrition course is open to every housewife, and those who are interested should enroll by the time of Friday night's meeting. Miss Annie Mae King, Teacher, Mrs. Louise Ingram, Sponsor.

Fire Does Damage To Cleaning Plant

Fire which blew from a trash fire to the building set fire to the cleaning plant of the Spann Tailor Shop last Tuesday afternoon, and firemen were called to extinguish the flames.

All the cleaning machinery in the building was badly damaged in the blaze, and it can not be operated until repairs and replacements are made. The damage included every part of the cleaning plant.

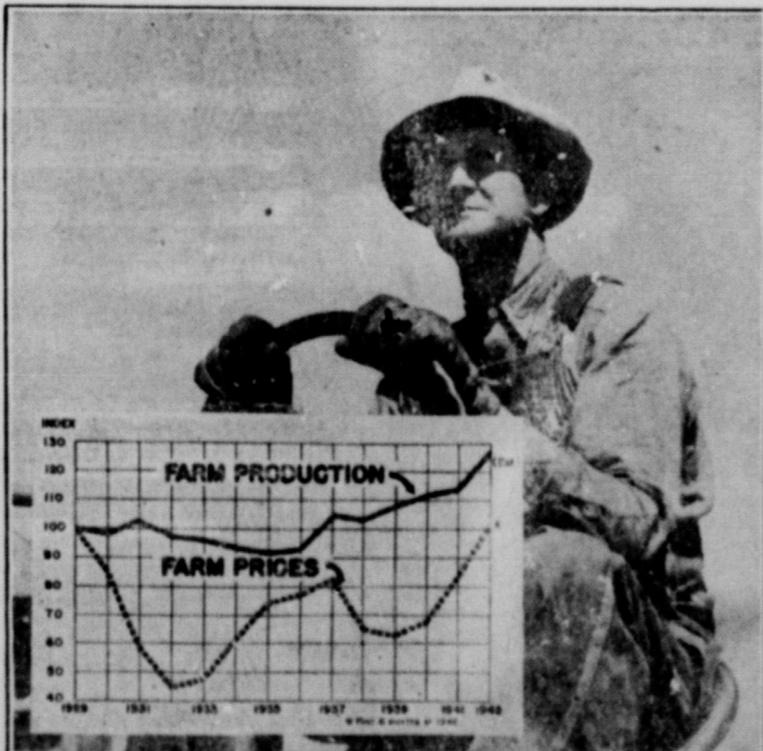

John Spann, owner of the shop, expects to have the plant back in operation the latter part of this week.

SINGS IN QUARTET

Betty Sue Stevenson of Goree, who is attending radio school at Ranger, sang in a quartet with the Bullock sisters for the Lions Club of Ranger last Thursday evening, relatives have been informed.

Miss Cora Jean Martin of Fort Worth visited with relatives and friends here last Saturday.

He's A Production Patriot

In hard times and good, in peace and war, American farmers are real production patriots, declares the U. S. Department of Agriculture. Prices haven't always been good during the past 12 years, but farmers have kept the nation's pantries full. Today farm prices are 2 percent above those of 1929—but farmers are producing more than 25 percent more than in 1929, an all-time record harvest.

EDITORIAL PAGE

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"

NO ABSENTEES IN FOX HOLES.

An ace of World War I, a man of unquestioned loyalty, a man who almost lost his life recently while performing a service for his country, a man who knows what war is all about from the pilot's seat—Captain Edward V. Rickenbacker—recently made the following comments on the war production situation to a group of war workers in Detroit.

"There are no absentees in the fox holes," Cap. Rickenbacker said. "This is a destructive war. We need more planes, more tanks. Our pilots and our planes are the best in the world, but we need all we can get."

"If you could understand what our boys are doing in these hell holes throughout the Pacific and the burning sands of Africa, in order that your way of life may be preserved and that character that has made this nation great may be carried on, you would not worry about eight hours a day or double time for Saturday's holidays."

"You should not worry about whether you are producing too much per man per day. No, you would be and should be grateful for the privilege of offering everything you know how. For none of us are doing so much that we cannot do more. This is a life and death struggle for the welfare of this nation."

"You have no conception of what your fellowmen are going through. You on the home front are the force that will bring defeat or victory. I beg of you to put forth every effort. God knows our boys need it."

STATES SCORE BUREAUCRACY

From two of the largest states in the Union come warnings of a growing tendency toward centralization on the part of the Federal government.

Recently, a report made public by the New York State Chamber of Commerce urged the establishment of a joint Congressional committee to determine any excessive use of the authority granted to Federal boards and commissions.

"These those who seek to centralize, permanently, all power in the Federal government and would use alleged war necessity to this end," the report said.

"But when it comes to pass that a Federal board can control wages, salaries, and working conditions of some 3,770,000 employees of state, county, and city governments, democracy and the American way of life will soon be succeeded by a dictatorship."

Advocating all-out for the war and outlining a list of state economies and improvements, John W. Bricker, third-term Ohio Governor, concluded his inaugural address with a blistering indictment of those he termed the greedy self seekers of power who aim to destroy constitutional government.

"The autocracy of bureaucracy," the Governor said, "is as reprehensible as autocracy under any other guise. The apprehension of human rights is the first move toward autocratic government. The great need in America is a renewed faith in representative government."

SEED MONEY

This war has brought home to the American people the realization that without our great industries and their ability to produce the weapons that are required to overcome the Axis hordes the civilized people of the world would be in a desperate spot.

In this emergency, American industry has been called upon to do two major jobs. The first is to supply whatever weapons are needed to win the war. The second is to pay a very substantial proportion of the nation's colossal war debt.

Corporate taxation has been pushed to the limit. Surpluses or "rainy day" money has been seriously jeopardized. The severity of the present tax program assessed against the producers of our war weapons has already put postwar reserves under a terrific strain and further assessments may cripple not only readjustment but the war effort itself.

Because of the vital importance of our industries to all the American people in the recovery period, as well as during this war, it is essential that "seed money" be available for the planting of the prosperity crop when the smoke of battle rolls away and we return to our normal constructive way of living.

A new anti-aircraft director machined to a fineness of 1-10,000 of an inch is capable of performing mathematical calculations within 5 seconds which would take 15 of the world's most eminent mathematicians 5 hours!

SALVATION OF THE MERCHANT

Nineteen forty-three will be a tough year for the retail distributor. Supplies will be short, clerks harder to obtain, margins will be fixed that take into consideration few of the rising costs of doing business. The United States News observes that, "It will be a year of many casualties in this field of enterprise. There have been other prophecies of doom for the retailer, spoken as if the retail merchant was a being whose welfare was irrelevant to the welfare of consumers. As a matter of fact, the merchant is a war worker. The retail industry must be kept operating on a sound basis. And that goes for the whipping boy of the distribution system, the chain stores, no less than the corner grocery."

Before price ceilings were adopted the chains were one of the strongest deterrents to inflation because of the economies they effected through mass buying and mass distribution. They were instrumental in developing operating methods which lowered consumer costs all along the line. They aided producers of many commodities by broadening and stabilizing markets. In times of abundance, they aided materially in the movement of surpluses. In short, they did much to put retail distribution on a scientific basis. And in the days to come an efficient retail industry will prove to be the consumers' best hope.

BIG MONEY

The world's largest war budget, recently presented to the new Congress, represents about three times the amount of money spent by this country during the first World War and a greater amount than the total all the other belligerents are spending.

The only reason the war budget is not bigger, according to Washington officials, is because it represents the largest sum which the experts believe can be spent in a year in spite of the three hundred per cent increase in our war production capacity since the bombing of Pearl Harbor.

American industry, having already enabled the armed forces to turn the tables on the aggressor nations, now undertakes a tremendously increased schedule of production—a program that staggers the imagination of the Axis powers and will strain every fibre of our manufacturing facilities.

Under such conditions, industry must be free to use all its immense resources unhampered—free of all unnecessary red tape, free of restrictive legislation, free of labor complications—free to exercise all the initiative and ingenuity that have enabled this nation to become a dominant factor in a global war in the short period of twelve months.

PRIVATE ENTERPRISE ESSENTIAL

"We can have full employment in this country without destroying private initiative, private capital, or private enterprise," Vice President Henry Wallace declared in a recent interview.

"The spirit of competition will and must continue to be one of our main driving forces," Mr. Wallace, who is also chairman of the Board of Economic Warfare, declared. "Government can and must accept the major responsibilities for filling in what ever gaps business leaves."

"The more private enterprise succeeds in maintaining full employment, the less government spending will be required. Individual initiative and enterprise and government responsibility for the general welfare will continue to pull in double harness for a better life for our people. We need the driving force of self interest to get most of the work of the world done," Mr. Wallace said.

Rubber is now being produced from soybeans commercially at the rate of 250,000 pounds a month. No substitute for tire rubber, soybean rubber makes good gaskets, belting, insulating mats, etc.

Gems Of Thought

CHRISTIANITY

Verily, verily, I say unto you, He that believeth on me, the works that I do shall he do also; and greater works than these shall he do; because I go unto my Father.
—Christ Jesus: John 14:12

The Church of Christ is the world's only social hope and the sole promise of Peace.
—General Sis Douglas Haig.

As Christians, we must conquer hate with love.
—Benjamin Franklin.

While respecting all that is good in the Church or out of it, one's consecration to Christ is more on the ground of demonstration than of profession.
—Mary Baker Eddy.

The best advertisement of a workshop is first class work. The strongest attraction to Christianity is a well-made Christian character.

LOCALS

Mrs. Travis Martin and little daughter, Alice Ann, of Seymour visited with Mrs. Martin's parents Mr. and Mrs. M. H. Reeves, several days last week.

Mr. and Mrs. A. H. Mitchell visited relatives and friends in Baird over the week end. They were met there by their daughter, Patsy Ruth of Spur, and also had a nice visit with her.

Sgt. Lewis Warren of the Waco Air Base came in the first of the week for a visit with his mother, Mrs. A. B. Warren, and with other relatives and friends.

Hoyt Gilbreath of Seymour was a business visitor here the first of this week.

Carl Mahan of Abilene was a business visitor in town one day last week.

LETTERS FROM THE PEOPLE

Note: The Times is in receipt of the following letter, which we are publishing for whatever news or patriotic value it may have:

To Whom it May CONCERN:

It seems to me there are a certain few ignorant, unpatriotic busybodies who seem to mind other people's business more than they do their own. They seem to know more about winning this war than does the war department itself.

These certain busybodies don't seem to realize that this war isn't being fought here in the United States of America, by men wandering along the streets with a bottle in their pocket, but by our brave American men and their allies. And by no means are they fighting it with clubs or their bare fists.

No, they are fighting it with planes, ships, tanks, etc. Now, where are these materials coming from? Well, I'll tell you. These so called draft dodging defense workers, are making them. Just stop and think where we would be without these ships, planes, tanks, guns, etc. Now then, why try to tear down the morale of these vitally needed defense workers? Instead, let's show them that we appreciate what they are doing and encourage them to stay on the job.

A war isn't fought with men alone.

Sincerely,
A Full Blooded American.

PREPARING SOIL FOR THE GARDEN

COLLEGE STATION—If home gardens are ready, especially in the south half of the state, there are a number of vegetables which can be planted now, says J. F. Rosborough, horticulturist for the A. and M. College Extension Service.

Select a plot for the garden away from trees and shrubs where roots will not deprive growing vegetables of moisture and plant food. Remove soil and grass after spading or plowing, leaving the earth well pulverized.

Make sure of good drainage in areas of heavy rainfall and plant on ridges six to ten inches high. In dry sections plant at surrounding ground level. For a garden 10 by 20 feet about 200 pounds of rotted stable manure should be spotted or plowed into the soil. For a half acre two or three wagon loads should be used. In areas of ample rainfall and sandy soil a 4-12-4 commercial mixture gives good results when mixed with the soil at the time the rows are prepared at the rate of three to five pounds per hundred row feet. Do this five to seven days before planting seed. February plantings should include English peas, cabbage and

onion plants, Rosborough says. The peas should be planted 2 to 2 1/2 inches deep in the richest soil available. Good varieties include Little Marvel, Knott's Excelsior and Thomas Laxton. Set cabbage plants a foot apart in the row and onions three inches apart. Charleston Wakefield and Copenhagen are good spring cabbage varieties. Beets and carrots also may be planted now. Chauntenay and Danver's Half Long are quick maturing carrot varieties of the best quality. Early planted beets make this iron rich vegetable available in April. White potatoes and sweet corn can be planted late in February or early in March.

Warm season vegetables come later, but right now, Rosborough suggests, plant the early ones and keep 'em growing.

Of 270 ex-students mentioned in the latest news letter of the department of petroleum engineering at the University of Texas, 108 were serving in the armed forces, most of them as commissioned officers in the Navy.

Mr. and Mrs. A. L. Smith and son, Lyndal, were in Dallas the first of this week, visiting and attending to business matters.

Relief At Last For Your Cough

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

WMC To Set Up Hiring Controls

When critical labor shortages develop in the Southwest region, hiring controls and labor stabilization will be established by voluntary agreements between labor and management, Henry Deblane, acting deputy region director of the War Manpower Commission announced. The only current critical shortage in the region which includes Texas, Louisiana and New Mexico, is in the Beaumont-Port Arthur-Orange section, Mr. Deblane said. An acting WMC area director has been named there and an area labor management committee has been set up, with equal representation of labor and management to advise with the director on local manpower problems.

Inspection Saves Passenger Car Tires

OPA tire inspectors, required under the mileage rationing regulations, already have rescued on estimated 400,000 passenger car casings which were so worn or damaged that they needed immediate repair to save them for further use, officials said. The estimate is based on a sample survey of the experience of inspectors so far.

Censorship Rules Put Into Effect

Consolidated regulations governing all communications entering or leaving the United States have been put into effect by the U. S. Office of Censorship. They replace separate sets of regulations for postal, cable and telephone censorship, and parallel the voluntary code of war time practices for the American Press. Prohibited subjects include troop movements, weather forecasts and rumors that might give aid and comfort to the enemy.

Waste Fats Reported

Housewives in Texas, Oklahoma and Louisiana sent 355,124 pounds of waste fats from their kitchens to the firing lines during November, according to a report released by General John A. Hulien, WPB region salvage manager. The Southwest region ranked less than one per cent behind the leading region in the nation, General Hulien said. The November collections amounted

to 35.9 per cent of the monthly quota set by WPB. Texas collected 40.9 per cent of its monthly quota; Louisiana, 32.7 per cent, and Oklahoma, 16.8 per cent of its quota.

OCN Needs New Volunteers

Issuance of a new pamphlet, "You and the War", was announced by the office of Civilian Defense, as a part of its drive to recruit new volunteers for civilian defense and citizens' service groups. The 32 page illustrated booklet lists more than a hundred occupations and skills of particular value to OCN organizations. It will be available through state and local defense councils, and more than 300 magazines.

WMC Set Up Youth Policy

Safeguards for the health, welfare and education of the American youth whose services are being demanded by the war program have been set out in a statement of policy approved by the War Manpower Commission and signed by Chairman Paul V. McNutt. The statement declares in most cases youth under 18 can best contribute to the war program by continuing in school, and, when their services are required, accepting vacation and part-time employment. School attendance laws and child-labor standards embodied in state and federal laws should be preserved and enforced, and no one under 14 years of age should be employed full-time as a part of the hired labor force, according to the WMC policy.

Willard Bauman In Advanced Training At Yale University

New Haven, Conn.—Aviation Cadet Willard E. Bauman son of E. H. Bauman, has entered Cadet Advanced Training Center 1, at Yale University, where he will undergo intensive training pointed toward his becoming a technical officer in airplane maintenance engineering with the rank of second Lieutenant.

While all schools of the Army Air Forces Technical Training Command have stepped up their training program to a new high, the policy of training technical officers as distinguished from administrative officers has its inception at Yale.

A graduate of the Texas Technological College 1941, Cadet Bauman entered the Army July 13, 1942 at Scott Field. While at Texas Technological he was active in extra-curricular work. During his senior year he served as president of the student branch of the American society of Mechanical Engineers and at present is a junior member of A. S. M. E. Cadet Bauman married Nell Nix of Munday, Texas.

During his course here, Cadet Bauman will be trained in principles of aircraft construction and operation. He will learn how to repair, maintain and inspect air planes at advanced flying fields from which planes set off on their combat missions and where the only facilities available may be hand tools with possibly a few portable machine tools. When he graduates he will be expected also to know how to administer and supervise air force engineering sections. His instruction will cover shop functions and operation, electrical systems, power plants, propellers, instruments and the principles of loading and balancing aircraft. These courses are continually revised in the light of vital lessons learned in today's war.

Upon his graduation, Cadet Bauman will join other graduates of the Army Air Forces Technical Training Command schools who are on all the world battlefronts helping Uncle Sam to "Keep 'Em Flying".

Canada's Miniature War Ships Jolt Nazi U-Boats

The Navy relies upon Canadian shipyards to complete enough subchasers to make up flotilla numbers. Production of Fairmiles has been stepped up to the point that deliveries now keep pace with training of 12-man crews to operate them.

BIG brothers of Canada's speedy torpedo boats are the Fairmiles, fast patrol vessels which carry disaster to Nazi subs. Dozens of these swift craft are being built by famed Canadian fishing boat builders who in peace-time turned out graceful fishing vessels and sleek schooners like the Blue Nose. More than 100 feet in length, the Fairmile subchasers are manned by 12 man crews. They are of wood construction and cost in the neighborhood of \$125,000.

In 1939, there was practically no shipbuilding industry to speak of in Canada, but now the Dominion employs many thousands of men in boat construction. In addition to Fairmiles, cargo ships, corvettes and minesweepers are being turned out in large numbers, as well as an infinite variety of small craft such as crash boats, tenders, rescue launches, Tribal class destroyers too are being built in Canada and cargo vessels are being launched at the rate of two a week.

Almost ready to take to the water, this Fairmile makes a graceful photo with its long, racy lines against a bank of clouds. "Give us more Fairmiles," says Chief of Naval Staff. "The Nazis will learn to respect them."

Mom

"Sausages for breakfast! Sausages for breakfast! I can smell 'em!" Small Joe came tumbling downstairs fastening the belt of his shorts as he came. He made a beeline for the kitchen. Pop was already sitting at the table, reading the paper, while Mom held the handle of the frying-pan over the stove. Small Joe came close and sniffed the delicious smoke, wriggling all over with early-morning joy.

"Better be thankful for them while you can still get them." One glance at Mom's face told small Joe this was one of her tight-lipped days. "Not a drop of coffee in the house, and no sugar left to put in it if there was. Some war!" Small Joe kept still.

"Letter for you, son," Pop said in his quiet voice. Small Joe made a leap for his place at table. There it was, a private personal letter for him alone, propped against his milk glass.

"Hey, Pop! It's from brother!" Small Joe was pulling the envelope apart and diving into the contents.

"Hey, look what he sent me." He passed over an oblong of thick, crinkly paper while he leaned over the sheet of writing-paper.

"A twenty-five dollar War Bond," Pop said slowly. Mom turned and looked at it over Pop's shoulder, with the frying-pan in her hand.

"Listen what he says. 'How are you doing, kid? Hurry and grow up so you can help me slap the Japs. Aren't you most big enough to get into the Army? Here's something for you in your name. Let's the whole family gang up and help to win this war.'"

Pop and Mom were silent. But small Joe didn't notice that. He was full of his letter and his War Bond.

"Gee, Pop, in six years I could get into the Army, couldn't I, Pop? Gee, Pop, I want to be a soldier like brother and fight in this war. Gee, isn't that bond nifty? Look, it was issued in Honolulu. It's mine."

But Pop was looking at Mom and Mom was looking at Pop. There were tears in Mom's eyes. She shook her head sharply. Pop reached out and patted her hand gently.

"Well, can't let our soldier boy beat us to buying War Bonds, can we, old lady?" was all he said. She shook her head again. "I guess if he can give up his job and go off to war I can do some fighting back at home," she said in a queer voice. Small Joe looked up at her in surprise. She saw him looking at her and spoke sharply.

"Well, Joe. We're about ready to eat. Say grace."

Small Joe folded his hands and bent his head as he had been taught. "Oh Lord, We thank thee for this food and all thy bountiful gifts..." "Amen," Pop said.

"Amen," Mom said. "Now eat your good sausages."

(Story from an actual report in the files of the Treasury Department.)

Amen: Say yes. Take your change in War Stamps. The least you can do is the most you can buy in War Bonds.

Colored Charity Association Now Doing Good Work

The Charly Association club, composed of the colored women of the town, is doing nicely under the leadership of Mrs. Millie Hill, it was reported this week by Fannie Mae Johnson, reporter for the club.

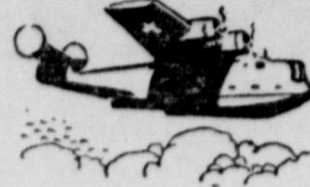

"After donating to all the sick,

we still have \$24.65 in the treasury," the reporter stated, "and we are having some wonderful bible lessons, also."

Misses Louise and Mary Lois Beaty spent Sunday in Wichita Falls, visiting with their brother, Hugh Beaty, who is stationed at Sheppard Field.

Frank Fetsch left Tuesday for his home in Marion, Kansas,

JOIN THE ATTACK ON TOKYO, ...YOURSELF!

Every person in America may not fly over Tokyo, but every one's dollars can help produce the bombing planes that do!

You, you, you, can join the attacks on Tokyo by saving at least 10% of your pay in War Bonds—by joining your company's pay-roll savings plan today or going to your local bank or post office and buying War Savings Bonds—at least 10% of your pay—every pay day.

Remember you can start buying War Bonds by buying War Stamps for as little as 10c and that you get a \$25 War Bond (maturity value) for only \$18.75.

U. S. Treasury Department

after a visit here with his brother, Ferd Fetsch. Mr. Fetsch is a former resident of this county, leaving here in 1915.

Mr. and Mrs. J. Arthur Smith and daughter, Peggy, of Lorenzo were here over the week end, visiting friends and relatives and attending to business matters.

Paul Pendleton of Sheppard Field spent the week end here with Mrs.

Pendleton and with his parents, Mr. and Mrs. H. A. Pendleton.

Mrs. Curtis Coates and little daughter, Belinda, of Amarillo visited relatives and friends here the first of the week.

Mrs. H. Ollie and daughter, Dorothy, returned to their home in Levelland after a week's visit here in the home of Mr. and Mrs. Sam Salem.

Seymour Girl And Goree Boy Wed On January 23rd

Miss Leah Nicholson of Seymour became the bride of William J. Goode of Goree on Saturday, January 23. The ceremony was performed by Rev. J. H. Patterson, minister of the Presbyterian church of Arlington, at the manse.

The bride wore a turquoise blue suit, accented by a white hat and contrasting black veil. She carried white gloves, and her other accessories were black, except for a white gardenia corsage.

Mrs. Goode is the very attractive daughter of Mrs. H. A. Nicholson, Baylor county treasurer. She was born and reared at Seymour and attended school there, graduating with the class of 1942. She was baton twirler in the S. H. S. band her two last years in school and became quite an expert with the baton. This display of skill added much color to the band especially during football season. Mrs. Goode also sang for many school and outside functions and was soloist for the school orchestra her senior year. She attended Texas Tech the past semester, where she is quite popular.

Mr. Goode is the son of Mr. and Mrs. John W. Goode of Goree, where he has lived the most of his life. He is a graduate of Goree high school and attended Texas Tech for two years, studying engineering. He has been farming near Goree for the past few years.

After a short honeymoon trip to Dallas, the couple are making their home on the farm, eleven miles south of Goree.

James A. Rayburn, who is stationed at Camp Young, Indio, Calif., came in the latter part of last week for a visit with his wife and other relatives and friends.

Doris Dickerson who is stationed in Florida, is here on a furlough to visit Mrs. Dickerson and other relatives and friends. Mrs. Dickerson will accompany him on his return to Florida.

Entertain Group From Abilene On Last Week End

Mr. and Mrs. Clyde Kennamer were host and hostess to Bobby, Judy and Violet Simpson, Harold and Jean Frazier, Jo Ann and Bryan Akin and Hollis Cooley of Abilene during the week end. They were students of Mrs. Kennamer at the Midway school, where she taught prior to taking her present position in the Munday schools.

The hostess entertained the guests with a social Saturday evening. Various musical numbers were featured, and after several games were played, a dainty refreshment plate was served to thirty guests.

The guests and their acquaintances were honored at a dinner on the following day.

Bridge Club Has Meeting Monday In Moore Home

Members of the Monday Night Bridge Club were entertained last Monday night in the home of Mr. and Mrs. W. R. Moore. High score at the games went to Mrs. Dorsey Rogers and H. A. Pendleton.

After several games were played, the hostess served a nice refreshment plate to the following members and guests:

Mr. and Mrs. H. A. Pendleton, Mr. and Mrs. Grady Roberts, Mr. and Mrs. Fred Broach, Mr. and Mrs. J. C. Harpham, Mr. and Mrs. Dorsey Rogers, Mr. and Mrs. A. H. Mitchell and the host and hostess.

Methodist WSCS Meets In Home Of Mrs. G. R. Eiland

The senior circle of the Methodist W. S. C. S., and the Shelly Lee Circle met in a joint business and social meeting recently in the home of Mrs. G. R. Eiland, with Mrs. S. E. McStay as co-hostess.

The program for the evening was under the leadership of Mrs. D. E. Holder. Refreshments were served to 23 members.

On Monday, February 7, the W. S. C. S. met in bible study at the church. Mrs. Rice had charge of the lesson, which was enjoyed by all. Eleven members and one visitor were present.

Hefner H. D. Club Meets Tuesday In E. A. Jones Home

The Hefner Home Demonstration club met on Tuesday, February 2, in the home of Mrs. E. A. Jones. Members opened the meeting with singing.

After the minutes were read and adopted, regular order of business was transacted. Red Cross sewing was also discussed.

The next meeting will be on March 2, in the home of Mrs. R. L. Lambeth. Members will meet at 3 p. m., and all are urged to be present.

Wesleyan Service Guild Meets With Miss Merle Dingus

Members of the Wesleyan Service Guild met last Monday night in the home of Miss Merle Dingus in the regular Bible study, with Mrs. M. F. Billingsley as leader and teacher.

Miss Jeanette Campbell gave the devotional. Other members present were Mmes. M. B. Bounds, George Dingus, O. H. Spann, Layne Wombie and Ruth Baker.

The Guild will meet Monday night at 8 o'clock at the church for the third chapter of the study "The Latent American."

Rhineland News

Misses Helen Tschoepe and Juanita Hemmiels spent the week end in the homes at Wichita Falls and Windthorst, Texas.

Sgt. Philip Homer, who is stationed at Amarillo, returned to his station this week after visiting in the home of his parents, Mr. and Mrs. K. G. Homer.

Mr. and Mrs. Joe Albus and Mr. and Mrs. Leonard Albus and daughter, of Pep, Texas visited here for a few days.

Sgt. Clarence Albus, who is stationed at Fort Benning, Ga., visited relatives and friends here for a week.

Mrs. E. C. Ferrel of Waco, Texas, visited relatives and friends here last Sunday.

A MESSAGE FROM DR. WILLIAM BEEBE

New York Zoological Society

DEPARTMENT OF TROPICAL RESEARCH

WILLIAM BEEBE, D. D., Director

Ants and Bees give one hundred percent of their time, income, activity, instinct, to the sustaining of optimum conditions of existence and the actual betterment of their fellow Ants and Bees. The parents of almost all Wild Animals hold back nothing which will aid the health and successful attainment of the freedom of life of their families and young. Even an Amoeba divides itself in half now and then to help the race of Amoebas.

We are asked for a minimum of only ten percent of our income to purchase War Bonds. Who wants to be less than an Amoeba or an Ant?

William Beebe

Director, Tropical Research of the N.Y. Zoological Society.

U. S. Treasury Dept.

Mr. and Mrs. T. I. Phillips Observe Their Golden Wedding Anniversary

On the date of their anniversary, Friday, January 29, 1943, Mr. and Mrs. T. I. Phillips, beloved pioneers of this county, observed their golden wedding anniversary at their home, four miles southwest of Munday.

Hostesses for the occasion were Mrs. Coy Phillips, Mrs. Nell Hardin, and the following daughters of the couple: Mrs. Wilbur Morrison of Faxon, Oklahoma, Mrs. Gene Horn of Okla., City, Mrs. Ross Johnson of Walters, Okla., and Miss Billie Clark of Harrah, Okla.

Guests were invited between the hours of 2 and 5 p. m., and 160 relatives and friends who had known the couple for many years called to extend congratulations and wish them every future happiness. When guests arrived, they were taken through the rooms and shown the many lovely gifts which Mr. and Mrs. Phillips had received; then were shown to the dining room where they were served refreshments. The lovely anniversary cake formed a beautiful picture as the centerpiece to the dining table.

Mr. and Mrs. Phillips were united in marriage on January 29, 1893, in Arkansas. They came to Texas a few years later, and settled in Knox county about 40 years ago. They have made their home on the same farm since that time, rearing their family here. Mr. Phillips is still active in his farm work.

Mr. and Mrs. Phillips have 6 living children, all of whom except one, Otis Phillips of Phoenix, Arizona, were present for the anniversary. Mrs. Otis Phillips was here, however. The children who were present with their families are: Coy Phillips of Munday, Mrs. Gene Horn of Oklahoma City, Mrs. Wilbur Morrison of Faxon, Okla., Mrs. Ross Johnson of Walters, Okla., and Miss Billie Clark of Harrah, Okla. Present also were 16 grandchildren and one great grandchild.

Other relatives from out of town were: Mr. and Mrs. Tom

Huttel and son, brother of Mrs. Phillips; a niece, Mrs. Arkie Glasgow and her son, Roy Glasgow and wife, and Miss Betty Clark, all of Lawton, Okla.; Mr. and Mrs. Fred Roden, a grandson, of Burk Burnett; Mr. and Mrs. Duane Johnson of Fort Worth, and M. O. Morrison of Faxon, Okla.

Mr. and Mrs. F. E. Jetton returned home last Sunday from a two weeks visit in Fort Worth with their son and daughter-in-law, Mr. and Mrs. Floyd Jetton, and their new grandson, Edwin Lee, also with Mrs. Jetton's sister, Mrs. M. K. Brown. On their return they also visited relatives at Bellvue.

Mr. and Mrs. M. C. Hallmark and daughters of Fort Worth spent the week end with relatives and friends here.

Louis Boznik and Francis Sigman of Sheppard Field spent last Sunday here, visiting in the home of Mrs. A. B. Warren.

Sied Waheed and Sam Salem were business visitors in Wichita last Friday.

Lieut. and Mrs. Joe Bill Pierce, who have been at Fort Knox, Ky., arrived last Monday for a visit with Mrs. Pierce's parents, Mr. and Mrs. P. V. Williams, and with other relatives.

Aristel Thompson, who has been stationed at St. Joseph, Mo., came in last week on a fourteen-day furlough. He is visiting with Mrs. Thompson, who is teaching in the local schools, and with her parents, Mr. and Mrs. Jess Burnison. At the termination of his furlough he will report to Camp Bowie.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox, M.D., State Health Officer of Texas

Austin, Texas.—According to an announcement issued this week by Dr. George W. Cox, State Health Officer, some type of treatment for venereal diseases is now available to every citizen in Texas.

In view of the startling number of selective service draftees who were found unfit for military service because of venereal diseases, increased effort is being exerted by health authorities all over the nation to control the spread of these diseases.

"War time conditions favor the increase of prostitution, which leads immediately to an alarming increase in the incidence of syphilis and gonorrhea," Dr. Cox said.

According to figures compiled by the State Health Department in a six month's comparative report, public clinics in Texas between July 1 and December 31, 1942, treated a total of 15,870 new cases of syphilis in addition to a patient load of 156,924. New cases of gonorrhea treated numbered 6,996. At the present rate of new cases admitted, plus the regular patient load, approximately 465,621 treatments are being administered in a six month's period. During the last year, over one-half million tests for syphilis were made by the State Department of Health.

Mr. and Mrs. J. F. Albus and daughter, Georgene, and Mr. and Mrs. Leonard Albus and daughter, Georgia Marie, of Pep, Texas, spent the week end in Rhineland visiting relatives and friends.

FOR YOUR FEBRUARY PARTY IN WAR TIME

Hot Chicken Loaf garnished with Parsley or Watercress and Pickled Peach Halves
Filled with Red Jelly
Hot Mushroom Sauce
Buttered Green Peas Heated Potato Chiff
Small Rolls Or Heart-Shaped Biscuits
Cherry Tarts
Coffee

Red and White is usually the color motif for February parties—and this lunch—or supper—will fit in well to such a plan either for a Valentine party or for one celebrating Washington's birthday. It's a menu planned with an eye on war-time restrictions. If you find that some of the foods mentioned are not available in your neighborhood—you may have to make substitutions. For instance, you can use tuna fish instead of chicken—or veal or pork. But chicken is an unrestricted meat and thus far there seems to be plenty of tuna. If mushrooms are not available, add your peas to the creamed sauce for the chicken loaf—or add cut-up olives and slices of hard cooked eggs—or sliced tart pickles.

Plums might be used in place of cherries for the tarts. The cherry tarts call for only a half cup of sugar, so they should be welcome for that reason, as well as the fact that they are delightful to look at and even more delightful to eat.

HOT CHICKEN LOAF

1/4 lb. fresh mushrooms (or one 4-oz. can)	2 eggs
1 tbsp. butter	1/2 tsp. salt
1 cup soft bread crumbs	1/4 tsp. paprika
1 cup milk	1/4 cup pimiento (cut fine)
1 cup chicken broth (well seasoned with celery, salt, pepper, etc.)	3 cups cooked chicken (cut fine)

Method

Wash fresh mushrooms, remove stems, and peel. (Caps do not need to be peeled.) Cut stems and caps into pieces. If canned mushrooms are used, drain well and slice thin. Cook gently in butter for 20 minutes. Mix soft bread crumbs with milk and broth. Add well beaten eggs, salt, paprika, pimiento, chicken and cooked mushrooms. Mix well. Pour into buttered bread loaf pan which has been lined with paper. Steam-bake (that is, set pan of chicken loaf in another pan containing a little hot water, in oven) for 1 1/2 hours in a moderate oven (350° F.). When baked, turn out on platter and serve with Hot Mushroom Sauce. Amount: 6 servings.

CHERRY TARTS

Filling

Drain juice from contents of one No. 2 can of sour cherries. Pit cherries if they are not already pitted. Combine 1 cup of the cherry juice with 1/2 cup sugar. Bring to a boil and strain. Blend to a paste 2 1/2 tsp. cornstarch and a little cold water. Stir into the hot juice. Cook over moderate heat until it thickens, stirring the while. Remove from heat and beat with a rotary beater to remove scum. While hot, pour over the cherries. If the cherries have lost their bright red color, add a few drops of red vegetable coloring. When cool, fill freshly baked tart shells. Garnish each with a puff of whipped cream or with a little hard sauce.

To Whip "Coffee" Cream

"Coffee cream", which has a butter content of about 20 per cent, can be whipped if it is kept in the refrigerator and until very cold. Place the desired amount in an ice cold bowl and add 1/2 tsp. lemon juice for each cup of cream. Whip immediately with an ice cold beater.

At The Churches

FIRST BAPTIST CHURCH

Tune on WFAA next Sunday morning at 7:30 and hear Dr. Clyde Turner, Pastor First Baptist church, Greensboro, North Carolina; subject, **THE INSPIRED WORD**. He is a very forceful speaker. You will enjoy his message. The Bible is the Inspired Word of God, and we should accept it as the guide of our conduct or else discard it to the junk heap.

We give you a cordial invitation to the services next Sunday, both morning and evening. There are several candidates to be baptized at the close of the service Sunday evening.

W. H. Albertson.

HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)

We are having varying weather here. After very cold spells, it changes to spring like days, beautiful sunshiny with birds singing and the hens telling the world they are complying with our president's request to produce more and more eggs to help win the victory for democracy and freedom.

Next Sunday is preaching services at the Baptist church. Elder Jess Gray will preach.

School is progressing nicely here, with good attendance at the daily classes.

Mr. and Mrs. L. L. Hendrix were visitors in Lubbock the first of this week.

Quite a few from this community attended the calf show at Knox City last Saturday.

Mr. and Mrs. Locke Atkinson and daughter have returned from a visit with relatives at Floydada.

Mrs. Carl E. Jones of Artesia, New Mexico, is visiting her mother, Mrs. L. Boggs, and other relatives this week.

Mr. and Mrs. Ed Jones and Mrs. Roy Jones are staying at Wichita Falls, attending the bedside of Roy Jones, who is a patient in the clinic hospital.

Mrs. Zack Walton and Mrs. Lee Norwood have been visiting at O'Donnell.

C. E. Haskin was on the sick list the first of this week.

Mr. and Mrs. M. J. Jones visited Robert Worlidy and mother at Hamarton last Sunday.

FOR SALE—Used windmill complete with tower and eyelinder. C. J. Yost 1tp.

Sermon—8:15.
Benediction—9:00.

Week-Day Services
Ladies' Bible Class, Monday Afternoon, 3:00.
Prayer meeting and Bible Study, Wednesday night, 8:00.

"God is the creator of the universe and all of his creations are one great harmonious unity with the exception of man, but man has been left free to be a part of this great unity or rebel against God. Men, for the most part, have chosen to rebel and go their own way. Therefore, they are out of unity with God and many times with their fellowmen.

As long as this condition continues, and perhaps it always will, we shall have wars and rumors of wars, troubles and even religious differences, for all of these are caused from being out of harmony with God's plan, because God's plan is a unity.

It follows then, that since the Bible reveals to us that part of God's great plan which concerns man, if we will study this book, heed it and follow its teachings we shall find ourselves in harmony with God and with all others who will conform their lives to its teachings. Sustained peace and harmony can never come to the human family in any other way.

The Bible without addition or subtraction is preached at all services of the church. You are urged to attend the services next Sunday. Minister Collins will have as his theme Sunday morning, "The Manner of God's Love." His sermon next Sunday night will be, "Ye have an unction from the Holy One." 1. John 2:20.

Over the top by 150 per cent was the record of University of Texas students in a recent bond-and-stamp selling drive. More than \$5,000 worth of war bonds and stamps were sold, although goal for the two-day effort had been set at only \$2,000.

Miss Gail Reynolds, who is teaching in Rotan, visited her parents, Mr. and Mrs. W. E. Reynolds over the week end.

Mrs. Ferd J. Fetsch and daughter, Rose, and Mr. and Mrs. Albert Fetsch spent a few days in Schulenburg, visiting their brother and sister. Ferd Fetsch returned home with them after a two weeks visit there. Frank Fetsch of Marinethal, Kans., accompanied them home and stayed a few days.

INVEST IN AMERICA!

REDDY KILOWATT

Buy War Bonds and Stamps!

TRAINING, EXPERIENCE, POWER... these will put him in Hitler's backyard!

Without training and experience, you'd hardly expect American paratroopers to drop in on Hitler. Without the proper weapons and equipment, you'd hardly expect them to survive such a visit.

So when the BIG day arrives, we'll all feel that we had a hand in their triumph—fighters, farmers, war bond buyers, industry... all who are helping them get the training and experience they need.

It is the training and experience of the men and women in this organization which has enabled us to help prepare our soldiers for the trip to Berlin. West Texas' ample supply of electric power didn't just happen.

No Aladdin simply pulled it out of a hat. No bureaucrat said "Let there be power!"

Electric power is basic and essential in abundance in America's wartime plants because trained and experienced business men and women are back of it, making it their business to see that Uncle Sam has plenty of power wherever and whenever needed.

This they've succeeded in doing. Electric power is driving the machines that make planes, guns, ships, tanks, and bullets... lighting the plants that work around the clock.

They've succeeded without rationing your usage. Or increasing the cost.

You still merely flick a switch. And the average West Texas home today gets twice—or three times—as much electric service for about the same money as 10 or 15 years ago!

Senior Report

We know that we will have a good time at the Valentine party. With our usual social, we will carry out a defense stamp party. We are enjoying prose and poetry.

Things We Like

The attention you have been giving in keeping the school yard clean and free of rubbish.

That you are all trying to study harder and improve your grades.

That you are still buying defense stamps constantly to help Uncle Sam and also help finish this war.

Sophomore News

Wanted—All idle baby rattlers. See seniors at Rhineland high school.

Freshman News

By the time this appears in print our Valentine party will be over, and everyone, we hope, will have reported a very enjoyable time.

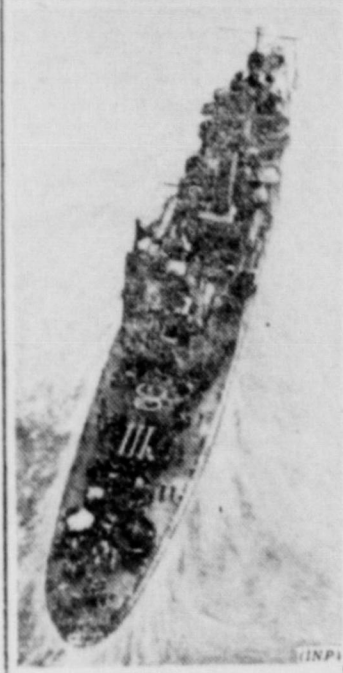

The Timid Soul

Oh, folks, I'm in an awful predicament. Last night I sneaked into the kitchen to fix up an egg-nog. I heard my wife coming and endeavored to hide the egg. I could think of no place to deposit the fragile thing except in my mouth. My wife spoke to me. I could not answer. She slapped me playfully on the back, and I swallowed the blamed thing. Now I'm scared to move about for fear of breaking the egg and having its shell scratch my tummy. On the

People, Spots In The News

ONLY HUMAN—Fellow Navy men grinned as little "Doggie" Gray, daughter of Lt. James S. Gray, sprinted on the parade ground at Brunswick Field, Fla., and hugged her daddy's knees as he was about to receive gold star. He already holds Distinguished Flying Cross.

SOLOMON QUEEN—U. S. cruiser San Francisco pulls into port of same name on return from South Pacific, where she played conspicuous part in great victory over Japanese in Solomons.

CHAMPION GARDENERS—Arthur Doust, 19, Huron, O., grand prize winner in \$5,000 garden-marketing contest sponsored by A & P Tea Company, finds no state barriers in talking with Kathryn Cox, 17, Scooby, Miss., sectional prize winner, at Pittsburgh convention of National Junior Vegetable Growers Association.

other hand, if it doesn't break, that darn egg's liable to hatch out a Shanghai rooster!

Report Of Room III

We are planning for our Valentine party, which will be on Friday. We hope that we will have an enjoyable time.

We Wonder Why

Herbert missed school so much last week. Were you resting after your exams?

John Ed had such a bad cold. Where have you been?

Herman had been so quiet these last week.

Eddie never looks over his paper before classes.

Carl doesn't like to wash the boards.

Donald wants Herbert to sit by him.

Betty Lou missed school Thursday. Playing hookie?

Adelaide didn't want us to see one of her pictures.

Report Of Room IV

Nothing exciting ever seems to happen in this room. We are now taking our last tests before mid-term, and every one is doing fairly well. In arithmetic, which we think is the hardest subject we have, we are making progress. We also have to have a drawing colored. We think this very interesting, since we all like to color. The best one colored is put on our bulletin board. We are also

making maps of Czechoslovakia in geography class.

We want you to meet the boys and girls in room IV:

Best manners—Eugene Kuhler.

Sport—Larry Kuehler.

Most studious—Geraldine Blaskie.

Neatest—Vernal Zeissel.

Most charitable—Bernard Brown.

Most generous—Bernardine.

Best singer—Jeanette Loran.

Best walker round—Louis Redder.

Best natured—Tommy.

Smallest—Betty Lou.

Happiest—Allen Decker.

Lover of play—Charles Redder.

Most patriotic—Dennis Wilde.

Improving—Belmont Parks.

Most cooperative—Velma.

All around member—Marion.

Perfect lessons—Chester.

Always smiling—Johnny.

Daintiest—Dorothy.

Texas is the greatest food raw materials producing state in the union, Dr. A. B. Cox, director of the University of Texas Bureau of Business Research, has discovered, but it lags far behind in food manufacturing, ranking only 15th among the states in this field.

IT PAYS TO ADVERTISE

Loan Program Is Announced On '43 Cotton

COLLEGE STATION—Cotton farmers will receive loans at 90 per cent of parity on this year's crop.

Based on a 15-16 middling, loans will be made on all growths of Upland cotton during the 1943-44 growing season which begins on August 1, 1943.

Purpose of announcing the program at this early date is to give cotton farmers an opportunity well ahead of planting time to secure sufficient seed of varieties that will produce the longer staples needed in wartime, and thus take advantage of the increased rates offered for the longer staples.

In addition to receiving increased rates for longer staples, grading middling or better, farmers also will be given special consideration on essential farming materials, labor and consideration from draft in proportion to their production of the type of food and fibre needed in the war program.

In urging Texas farmers to plant larger acreages (within their allotments) to intermediate and longer varieties, AAA officials pointed out that serious shortages of the longer staples may develop unless producers maintain or increase production of such cotton.

According to present estimates, the carryover, as of August 1, 1943, of cotton stapling one to 1-3/32 will be about 60 per cent of the amount which was needed to supply domestic, lend-lease and export requirements for the 1942-43 marketing year while the carryover of 1-1/8 inch and over will be about 62 per cent of the requirements.

The carryover of all grades and staples of Upland cotton will be about 85 per cent of total needs, while the carryover of cotton stapling less than one inch will exceed requirements by 23 per cent.

Farmers who shift from shorter to longer staples and maintain their grade will profit under the new program but premiums will be discounted sharply if there is a decrease in grade.

Middling 1-1/4 inch and longer will be 1,035 points above the base for middling 15-16 inch cotton but the same staple length cotton grading strict low middling to good or-

inary will vary from 665 points to 460 points, respectively. A table of premiums and discounts for all qualities of Upland cotton is being mailed to county AAA offices this week for distribution to cotton farmers.

Mr. and Mrs. G. R. Eiland and Mrs. C. H. Giddings were visitors in Wichita Falls last Friday. While there, Mrs. Giddings had a brief visit with her daughter-in-law, Mrs. Charles H. Giddings, Jr.

Mr. and Mrs. Rupert Williams of Oklahoma City, Oklahoma came in last Saturday to spend a few

days with Rupert's parents, Mr. and Mrs. P. V. Williams and with other relatives. Rupert is in training at Oklahoma City, and recently made his first solo flight.

Mr. and Mrs. W. A. Baker and sons, Charles and Kenneth, visited with relatives and friends in Floydada over the week end.

District Judge Lewis M. Williams of Benjamin was a business visitor here last Monday.

Mr. and Mrs. Jimmie Silman left last Friday for Lubbock to make their home.

Ammunition

Available To Farmers!

If your crops are bothered by rodents, wolves, crows, hawks, or other predatory animals, you may obtain your choice of any one of the following ammunition:

- 100 only, 22-cal. long rifle shells
- 40 only, 30-30 cal. cartridge
- 40 only, 30-06 cal. cartridge
- 50 only, 12-ga. 3 1-4 drop-shot shotgun shells.

This ammunition is not carried in stock. You must make application for it at our store. It's then sent to government warehouses where orders are filled, if passed on.

Your individual order will come wrapped separately to the others.

Drop by our store and file your application for ammunition.

Picture Your Tires In YOUR OWN MIND!

There's a difference to be known in re-capping. At the present re-capping is a problem requiring much thought. And proper machinery and workmanship, not just mere thinking, is required for every job.

There is a difference in every type of mold. There's the electrically heated mold and there's the steam mold.

The steam mold used for re-capping has the matrix, or tread design, set solid against back of mold; therefore, the problem is to figure a way to get pressure so the new tread will stick and not come off.

Picture your tire mounted on a regular type wheel, inflated with a regular type tube to a pressure that will exceed 125 pounds, with heat varying from 265 to 300 degrees Fahrenheit. In pressuring the tire on this type mold, should the tire be a little undersize, it has to be pushed against the matrix for the tread design as well as to make stick. The result on this type mold will cause a break between the new rubber and your fibre against the new rubber which you won't notice immediately.

On the electrical heated mold, we do not use that type of pressure or heat. We use mechanical pressure with pressure only on the tread; where, if we have in undersize tire, as it is already in normal position when placed in the mold, and it being undersize, the sidewall will flex to allow the required pressure which is 1800 pounds, with no heat on the sidewalls of the tire. Also no pressure on the tire sidewall. Our heat is thermostatically controlled, with temperature, as all rubber manufacturers prescribe, set for 287 degrees Fahrenheit, directed only on the new rubber applied, this making with our pressure system, a tread that will give from 3000 to 5000 more miles than a tire capped by any other system.

At any time, whether or not you have work to be done, come by our shop and let us explain our new, modern system of re-capping. . . We are expecting this week a part of our new capper, which will be the new tread design. We can use this new matrix on the capper we now have until our other capper comes in.

Call us for a date when you want tires capped—then you can wait while we cap your tires the same day they are brought in. And remember, when we do a job on your tire, it is guaranteed to your satisfaction, or your money back.

The Freshmen News

Everyone has settled down to the old routine. We are very pleased to be taking Home Ec. again after so long a time. We are also pleased with our Home Ec. teacher, Miss Sheppard.

Most of us take our algebra book home with us most every night in order to be ready for a surprise test the next day. Mr. Wilson is really going to see that we learn it.

We are beginning to have a few experiments in Science now (just five at a time, isn't much is it???)

The Home Ec. Club

The freshmen and sophomore class met Friday morning and organized our Victory Home Makers Club. The officers are as follows:

President, Margie Lowery.
 Vice President, Wanda Sue Nelson.

Secretary, Loyce Milford.
 Treasurer, Joyce Milford.
 Reporter, Barbara Almanrode.
 Chairman of program committee, Leita L. Gentry.
 Chairman of Entertainment, Shirley Scott.
 Chairman of the Refreshment committee, Betty Nell Walker.
 Our flower is the rose.

We haven't as yet selected our motto, but plan to in the near future.

Fourth Grade News

Royce and Ivena Harber are visiting us this morning. They go to school at Wichita Falls. We are very glad to have them.

Travis is back in school after being absent a week.

We are making valentines for our mother.

Ann Nelson's brother Joe Tom, who has been home on a furlough has gone back to Camp Barkley.

Weinert Aviation Cadet Is Making Excellent Grades

Athens, Ga.—Naval Aviation Cadet Stanley Milan Jones of Weinert Texas, made a record at the U. S. Navy Pre-Flight School here last week of 95 or better in every subject—military, academic and athletic.

Jones' score of 3.8 in the Navy's scoring system based on 4.0 as perfect was achieved by only 17 of the 2,000 cadets enrolled here, for the stiff 12 weeks physical conditioning and the pre-flight training. Name of every cadet making this record is carried weekly in school bulletin, "Gaining Altitude," which is posted in Battalion headquarters in each barracks.

Jones, son of C. T. Jones, Weinert graduate from L. S. U., Baton Rouge, La., in August, 1942, with a B. S. degree in geology. He completed CAA Primary Training at Abilene.

On completion of his course in the pre-flight school, Jones will be ordered to Naval Air Stations for progressively intensive flight training preparatory to joining a combat unit.

LOCALS

J. W. Roberts returned to his home in Merced, California, last Saturday after a week's visit with relatives and friends in this section.

Bill Billingsley was transferred several weeks ago to Greenville, Miss., where he is taking his basic training in the U. S. Air Force. Mrs. Billingsley has been with him at Greenville for the past three weeks.

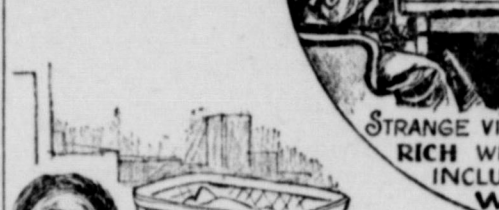

Mrs. Dave Elland left last Sunday for Galveston, where she is visiting with her daughter, Mrs. B. F. Hood, and her son, Andy Elland.

Grady Shytles Jr., of Sweetwater was called into service last week and is now stationed at Sheppard Field. Mrs. Shytles came in last week for a visit with her parents, Mr. and Mrs. M. H. Reeves, and will remain here for some time.

and if I don't hear from you, I will wire Uncle Sam about you and him both.

Traffic Fatalities Are Now Declining

Austin, Feb.—Traffic fatalities in Texas were slashed more than one third in 1942, State Police Director Homer Garrison announced today.

There were 1,316 fatalities reported in 1942, as against 1,981 in 1941, a decrease of 33.6 per cent.

Garrison contributed the decreasing fatality rate to slower speeds, reduced mileage, and a general improvement in the public's "safety consciousness."

Vehicle mileage, however, did not decrease nearly so much as might have been expected. Because reduction in civilian traffic was offset considerably by the state's rapid growth as a military and industrial center, vehicular mileage decreased only 9.9 per cent under the 1941 figure.

The calculation is based upon gasoline consumption figures obtained from the State Comptroller's Department. Gasoline consumption in 1941 was 1,322,074,830 gallons. In 1942, it was 1,191,685,985 gallons. Vehicular mileage based upon these figures, was 17,848,010,205 miles in 1941 and 16,087,769,798 miles in 1942.

Maybe they weren't G. I. but orange and white earmuffs were popular additions to uniforms of Del Valle Air Base soldiers during a recent cold snap. Enterprising University of Texas students did a brisk business in downtown Austin, selling the earmuffs.

TWO COUNTY BOYS ARE ACCEPTED FOR SERVICE

Raymond Lafayette Hardin, son of Mr. and Mrs. E. L. Hardin, who live on route one, Munday, and Lee G. Paterson, son of Mr. and Mrs. L. B. Patterson, who have accepted for military service in the Army of the United States and have been sent to the reception center at Camp Wolters for processing.

Patterson was an outstanding end on the Mogul team in 1940 and 1941, and he makes the fifth of the Patterson family who are in the service; two sons, a son-in-law and their daughter Johnnie, having entered the service earlier.

Mrs. M. B. Bounds returned home the latter part of last week from Odessa, where she had been visiting with relatives for the past three months.

Word was received here last week that Lieut. Dan Billingsley, who has been stationed at Sherman, Texas, has been transferred to Independence, Kansas.

A radiant sunset, beautiful as blessings when they take their flight, dilates and kindles into rest. Thus will a life corrected illumine its own atmosphere with spiritual glow and understanding—Mary Baker Eddy.

Senior News

As soon as one exam is over there is always another waiting around the corner. Last week the bookkeeping class had a three weeks exam and I am sorry to say that there were few passing grades. Before the test was given everyone was very sure they knew about all there was to know about bookkeeping. But as it always is when we become too self-confident, three-fourths of the class failed. That means plenty of study and work so that we can raise those failing grades up and over that passing mark.

In English we had three weeks exams also. It was over grammar and from the pale faces seen coming out of the English room Tuesday morning, it wasn't one of those easy ones.

Monday morning in English the seniors gave Miss DeLoach the most precious paper that has been handed in to her this year. Those papers contained the autobiography of each and ever senior. Who knows, maybe some day several of those autobiographies will be published.

Junior News

After a class meeting last Monday and quite a bit of debating, the juniors decided to have a party Friday night at the gym. For weeks the class has been discussing a class social. Now, everyone feels happy.

The Homemaking III girls and the Ag boys have been improving the Homemaking cottage grounds. Of course, the boys did the digging while the girls planted.

Sophomore News

Speaking of cakes—they're out for the duration. At least as far as the sophomores girls are concerned. Last Thursday and Friday they cooked cakes and ate them—five "whopping" big cakes. They were delicious when each started eating her five pieces, but when they were finished

SYNTHETIC RUBBER tires may help "keep the tractors rolling" in battle for food. Ameripol tractor tire was unveiled at Wichita by J. J. Newman, vice-president of B. F. Goodrich, who said they'd be available "after synthetic production has met military needs."

draw a flower. We haven't been taking art long, and we surely enjoy it.

Seventh Grade News
 The seventh grade had a good time developing pictures this week. Delbert thought so, anyway. He had his picture taken with Geraldine.

It is now time for the seventh grade to think about Valentine. Florene, Billie Jo and Ruth made the Valentine box. It is very pretty and is in colors of red, white and blue. We are glad to have Billy Bouldin back after a few days illness.

8-B News
 The 8-B students are anxiously looking forward to Fri. when we are to have our Valentine party. We are to have it with the 8-A group.

The narcissus bulbs are blooming now. They make the room look very attractive.

Last week the 8-B group took the lead in buying stamps and bonds. They bought \$55 worth.

8-A News
 Last Thursday our Junior basketball team played Goree and beat them 18 to 9. We are very proud of them.

In civics last Thursday we began studying courts of law, and on Friday we had a court. We enjoyed the study very much.

In science we are studying kinds of diseases. It is a very interesting study.

Miss Maxine Eiland of Dallas spent the week end here with her parents, Mr. and Mrs. G. R. Eiland.

Mr. and Mrs. Louis Cartwright have moved from Benjamin to Munday to make their home. They are occupying the C. B. Goodwin house, and Mr. Cartwright is looking after his farm east of town.

Mrs. Sam Bird Jr. and little daughter, Janice, of Weimert were visitors here last Sunday.

Weather Report

Weather report for the period of January 28th to February 10, 1943, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature	
	LOW	HIGH
1942 1941		
Jan. 28	35 32	49 71
Jan. 29	28 45	63 72
Jan. 30	26 40	75 64
Jan. 31	42 25	60 52
Feb. 1	32 30	51 59
Feb. 2	43 35	63 64
Feb. 3	49 32	73 70
Feb. 4	33 49	64 79
Feb. 5	43 43	70 82
Feb. 6	28 43	64 73
Feb. 7	35 35	79 61
Feb. 8	41 46	82 78
Feb. 9	44 34	86 68
Feb. 10	25 26	71 48
Rainfall to date this year, .10 inches.		
Rainfall to this date last year, .07 inches.		

Ration Sign Up

(Continued From Page One)
 less than eight ounces each. These are mostly small cans of baby food. Then put away five cans or packages for every member of the family, paying no attention to the size or contents of the food. The number of cans or packages left on the table must be reported to the clerk who will issue the ration books during the six days beginning Feb. 22.

The clerk will tear out one eight-point stamp for each one left on the table.

The books will contain both red and blue stamps. The blue ones are for canned goods, the red ones will be used about a month later for meat rationing.

Each stamp will bear both a letter and a number. The letter will indicate when the stamp can be used—A, B and C will be for March. The figures represent point values, and will be in denominations of 1, 2, 5 and 8.

Douglas Doshier and little son of Benjamin and Mr. West of Paducah were business visitors here on Thursday morning.

Sophia
 Mrs. Kimball and Mrs. Worthington, dressed soberly and wearing their best black gloves, walked along the stony country road back toward Sophia Hardy's farm, to pay their visit of condolence.

"How do you reckon she'll be bearing up?" Mrs. Kimball asked Mrs. Worthington. Both ladies wore their most solemn, funeral expressions.

"A mighty severe blow," Mrs. Worthington said. "Mighty severe. To lose your only son, the mainstay of your declining years. And such a dreadful death, too—to go down with a ship. Mercy!"

"The first of our boys from Hand County to go, too," Mrs. Kimball said, mournfully.

"I wouldn't blame Sophia Hardy for feeling right bitter."

They stood on the simple stone doorstep, with their hands on their eyes, getting themselves into the proper commiserative mood.

"Come in!"
 The voice was brisk and cordial. They looked up in surprise. Sophia herself had come to the door. As they followed her into the parlor they exchanged glances, with eyebrows lifted. Sophia was not even in mourning. The parlor shades were not even drawn.

"It's nice of you to come," Sophia said. "Do sit down."

"We came," Mrs. Kimball said almost reprovingly. "to tell you that our hearts are bleeding for you in your great loss."

"We know how lonely you must be out here," Mrs. Worthington said. "With nothing to take your mind off of . . ."

"Oh, I keep busy," Sophia said. "I've just finished applying for the Government insurance on Tom's life."

The visiting ladies could not resist a shocked glance at one another.

"I want to get it right away," Sophia said. "So I can put it into War Bonds. My boy hasn't finished fighting yet, not by a long shot."

The ladies were so occupied with feeling horrified, so titillated by this callous behaviour in a bereaved mother—that neither of them noticed Sophia's hands. Under the folds of her clean print dress, against the seat of her chair, they were tightly clenched.

(Story from an actual report in the files of the Treasury Department.)

Carry on for mothers like Sophia. Buy War Bonds till it hurts.

ADMISSION PRICES
 Night shows—children 17 cents. Adults 50 cents.

Tuesday Matinee—children 17 cents, Adults, 40 cents
 (Prices Include Tax)

THE JAPS MADE . . .

"SHORTENING" SHORTER

On, December 7, 1941, the Japanese cut the United Nations off from large supplies of oils that are essential for food and industrial uses—fats and oils that help to win wars.

Fortunately, America is a great fats and oils producing nation. Our animal fats, such as butter and lard, and our vegetable oils, such as cottonseed oil, peanut oil and others, are great national assets. We are producing more fats and oils at home—and we can produce much more.

Cottonseed is one of our major oilseeds—because of climate, experience and other factors, many local farmers can produce needed vegetable oil more efficiently in the form of cottonseed than in any other way. For this reason, we all owe a debt of gratitude to our cotton farmers who are keeping shortening, salad oil and margarine from being too 'short.'

By growing more cotton per acre in '43, and planting every acre we can, we'll help supply fats to meet war needs.
