

# The Munday Times

VOLUME 38

MUNDAY, KNOX COUNTY, TEXAS, THURSDAY, APRIL 22, 1943

NUMBER 43

## County Far Short of War Bonds Quota

There's a familiar American saying that money talks—but if Knox county people tell their government that they have \$245,000 to help tell American men who are fighting on the war fronts a story of victory on the home front, we've got to get busy!

Workers on the second war loan drive report that Knox county is still far short of her goal—and there's only a little over a week remaining in the drive. Workers are meeting with good response, but it takes a lot of \$25, \$50 and \$100 Series E bonds to make a showing on the total of \$245,000.

Today your money invested in War Bonds and other Government securities is heard on every fighting front. It is heard in the sounds of bombs falling on Berlin... in the roar of heavy artillery on the North African front... in the savage whistle of bullets in the New Guinea jungle.

The second war loan drive is on to mobilize your money in the greatest chorus of defiance... defiance to dictators and destroyers of human freedom. Whatever you may have been investing in War Bonds up to now is less than your country needs. This month, put every dollar you've got above the bare coat of living into War Bonds and other Government securities of the second war loan.

In this way you can make your money talk in the only language our enemies understand. It is a small thing we are asked to do... when our sons, brothers and husbands are risking their lives for you and for me. Remember, they give their lives, you lend your money.

Miss Dosca Hale, specialist in Parent Education, was a visitor in Knox county Friday, April 16, 1943. She made a very interesting talk to the women of Rhineland at the Rhineland Hall on the subject "War Challenges the Family."

Miss King also told the women how to remove the varnish and how to refinish the chairs with the linseed oil method, a very economical method being used by the women throughout Knox county.

Miss King displayed a chair 75 years old that she had upholstered and also a footstool that she had made from a box frame. The antique chair attracts the attention of all who see it.

**JIMMY HANEY IS RECRUIT FOR NAVY**

Jimmy Haney of Wichita Falls, a former Munday boy, has enlisted for naval service and is stationed at San Diego, Calif., his grandfather, G. W. Haney, said Wednesday. Jimmy is the son of Mr. and Mrs. Tom Haney of Wichita Falls.

Mrs. Clyde Burnett, Mrs. E. B. Sams, Mrs. Myrtle Bisbee and Mrs. Oran Driver of Benjamin were business visitors here last Tuesday.

## Harvey Gaines Is Improving

### Local Boy Wounded In Action Is Recovering

In a letter to his parents, Mr. and Mrs. John Gaines, the War Department has notified them that their son, Corporal Harvey L. Gaines, is recovering from his wounds which he received in action in the Pacific area on March 27. The following is the contents of the letter his parents received:

"I am pleased to inform you that a report dated April 10, 1943, has been received from the Pacific Area, stating that your son, Corporal Harvey L. Gaines, 38,069,479, is making normal improvement.

"You may rest assured when further information is received concerning your son, you will be notified immediately."

The letter was signed by J. A. Ulio, Major General of the Adjutant General's department.

## Mrs. Mary Hayes Dies Wednesday; Rites Thursday

Mrs. Mary Hayes, well known resident of Munday, passed away at the Knox county hospital at 5:20 Wednesday morning, following a long period of illness. Mrs. Hayes had been in the hospital for treatment for several weeks.

Mrs. Mary Alice Hayes was a native of Texas, being born in Smith county, Texas, on February 26, 1894. She was 49 years, 1 month and 25 days of age, and had resided in Knox county since 1914.

Surviving her are her husband, S. P. Hayes of Munday; her mother, Mrs. J. H. Jacobs of Snyder, and the following brothers and sisters: Chester H. Jacobs, St. Louis, Okla.; W. A. Jacobs, Electra; Johnnie Jacobs, Snyder; Mrs. Lyla Milson, Cotton Center, Texas; Howard Jacobs, Philadelphia; J. N. Jacobs, East Highland, Calif.; and Mrs. Vera Shultz of Snyder.

Funeral services were held from the Free Pentecostal church in Munday at two o'clock Thursday afternoon, conducted by Rve. Earl Brewer. Interment was in the Johnson cemetery by the Mahan Funeral Home.

### FROM MEXICO CITY

Mr. and Mrs. H. W. Harrell and babies of Mexico City came in last Sunday for a visit with Mrs. Harrell's parents, Mr. and Mrs. W. R. Moore. This is the first time Mr. and Mrs. Moore had seen their newest grandchild.

### CAFE CEILINGS IMMINENT

District OPA offices have been granted the authority to fix ceiling prices for food and beverages served by restaurants, cafeterias, hotels and other eating and drinking establishments. The base period for such establishments is April 4-10 and each firm must file its menu or price list with local War Price and Rationing Boards by May 1.

## Keep Up With Rationing

- APRIL 25—Coffee stamp 26 expires.
- APRIL 25—Red food stamp E becomes valid.
- APRIL 29—Tire inspection deadline for T book holders (inspection required every 60 days or every 5,000 miles.)
- APRIL 30—Red food stamps A, B, C, and D expire.
- APRIL 30—Blue food stamps D, E, F expire.
- MAY 21—Gasoline coupon No. 5 in A book expires.
- MAY 31—Deadline for second tire inspection for C book holders.
- MAY 31—Sugar stamp No. 12 good for five pounds, expires.
- JUNE 15—Shoe stamp 17 expires.

## HEY! DON'T CUT THAT ROPE!

## Open House For Rubber Welders Here On Friday

An invitation is being extended to everyone in this trade area to attend the open house to be held at the O. K. Rubber Welders in Munday next Friday night, beginning at eight o'clock.

The purpose of this open house is to acquaint local people of new modern methods of tire repair and recapping, and to see the modern equipment in operation. The "Treadwelder," a new electric recapping machine has been received and installed at the local shop, and it will be in operation during the open house.

James W. McMorries, owner of the shop, extends an invitation to everyone to come and inspect his shop. Some form of refreshments will be served to all who visit the shop, but McMorries said you shouldn't expect a real banquet because of food rationing.

### WEST TEXAS UTILITIES OFFICE TO BE CLOSED AT NOON SATURDAYS

Bud Reynolds announced last week that the local office of West Texas Utilities Co. will be closed at noon Saturday, beginning on Saturday, April 24. This is a practice made by all offices of the company in this area.

Mr. Reynolds stated that a service man will be in the building on Saturday afternoon in case there is need for servicing the town, but the office will not be open for business on Saturday afternoons.

F. F. Wren of Dallas is here this week for a visit with his daughter, Mrs. E. H. Mullican, and with other relatives.

## Goree Revival To Open April 30

### Meeting To Be Held In Goree Park

An old-fashioned revival, to be held in the Goree Park, will begin on Friday night, April 30, it was announced Wednesday. No time has been set for closing the meeting, and leaders urge the people to "just let God lead" during this revival.

Rev. C. H. (Moon) Mullens of Fort Worth will be at Goree with his loud speaker to start the meeting. This is a revival for each and everyone, regardless of denomination. Good singing and good gospel preaching will feature each and every service.

"If you love the Lord and are interested in His work, come and worship with us and help others to find the love of our Lord," is the admonition of the church leaders.

## Weather Report

Weather report for the period of April 15th to April 21st inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	TEMPERATURE	LOW	HIGH
April 15	1943	44	58
April 16	1942	52	57
April 17	1943	51	55
April 18	1942	38	57
April 19	1943	45	57
April 20	1942	42	56
April 21	1943	52	49

Rainfall to date this year 3.60 in. Rainfall to this date last year 6.28 in.

## Men With Sunburned Faces Return From Texas Defense Guard Maneuvers

Many local boys showed up Monday with sunburned faces, colds in the chest and other "signs of battle" upon their return from the 17th battalion maneuvers of the Texas Defense Guard, held Saturday and Sunday on the 4,500 acre ranch of J. N. McKnight, southeast of Throckmorton. After combatting a biting north wind and hedge-hopping showers, as well as carrying out their problems in maneuvers, local boys marveled at the ability of American soldiers to go 35 days and nights in real battle in the southwest Pacific without taking off their clothes.

Companies taking part in maneuvers were Company A, Throckmorton; Company B, Olney; Company C, Munday; Company D, Bryson, and the headquarters detachment of Rule.

Maj. J. N. McKnight Jr., battalion commander, gave several problems for the maneuvers. The problems called for two companies to attack positions held by the other two, as well as night problems and demonstrations on sound and light at night.

The men attended church services at 11 o'clock Sunday morning under the direction of Chaplain Frank Crown of Rule, and another demonstration was held in the afternoon, with the battalion breaking camp at three o'clock Sunday afternoon.

There were 14 officers and 171 enlisted men taking part in the maneuvers.

Demonstrations given by Company C of Munday received favorable comment from Major Bryant of the adjutant general's department at Austin, who was present to observe the activities.

Sgt. Riley B. Harrell gave the Molotov Cocktail, used against tanks, and of the smoke pots and tear gas. The penetration, pattern, etc., of a shotgun, using 00 buckshot, was demonstrated by Sgt. Buell Bowden, and the Thompson sub-machine gun was demonstrated by Corp. Carl Jungman.

Gill Wyatt and Roy Norville went along to do the cooking for Company C. Plenty of good food was well prepared and well served. These men are not members of the guard, but went along to help out.

## Kamal Waheed Purchases Keck's Grocery Here

### Firm Operates Under Name Of Kay's Food Store

A business deal was completed last week whereby Kamal Waheed purchased the stock and fixtures of the C. H. Keck Food Store, which has been operated in Munday for the past five years under the management of Raymond Stapp. Mr. Waheed assumed active management of the firm last week.

Mr. Waheed is by no means a stranger to the people of this trade area. He was associated with his brother, Sied Waheed, in the Piggly-Wiggly store for some time before entering his country's service. He was discharged several weeks ago, and has returned to Munday to make his home.

Mr. Waheed stated it is the purpose of his store, which is now operating under the firm name of Kay's Food Store, to continue to serve its patrons in the best manner possible. "We will handle the largest line of foods possible, and give you every service possible under the government's rationing program," he said, "and we invite the continued patronage of all former patrons of Keck's Food Store. We assure you that your grocery business will be appreciated."

### GOREE MAN BUTCHER AT PIGGLY WIGGLY

Ruby Hamman, formerly of Goree, recently accepted a position as butcher at the Piggly Wiggly store. He succeeds Earl Clayburn, who recently entered his country's service.

Mr. Hamman was engaged in the market business in Goree for a number of years, and he is thoroughly experienced in operating a butcher shop.

## Where Will Money Come From?

People ask: "Where will the money come from?" to reach the thirteen-billion dollar objective of the Second War Loan. The answer is simple. The people HAVE the income. When we produce munitions or peacetime goods, or anything else, we likewise produce income. For every dollar of production, there is a dollar of income.

The problem of war finance boils down to this—if individuals and businesses receive more income after taxes than there are things produced for them to buy, then excess funds arise. The government deficit is matched by the combined surplus of everybody else. This surplus should be put into Government securities to wipe out that deficit.

They give their lives... You lend your money.

## Club Boys Beginning Calf Projects for '44

### Rhineland Is In Bond Drive

#### "Bonds For Bombers" Slogan of Drive

Rhineland is off to a good start in buying "bonds for bombers" in America's Second War Loan Drive. At an enthusiastic and determined committee meeting last Sunday afternoon detailed plans were worked out by which each citizen in the Rhineland territory will be contacted in the next few days. Confidence was expressed that Rhineland will meet its assigned quota.

Members of the 2nd Victory Drive Committee are: Geo. Steinbach, Albert Andrae, Henry Claus, Mrs. C. J. Albus, Mrs. Geo. Petrus, A. B. Wilde, W. C. Hertel, Peter Lorán, J. W. Zeussel, and John J. Hoffman, chairman.

### NEW RULES ON SELECTIVE SERVICE

Chief effect of the recent changes in Selective Service classifications is the elimination of dependency deferment except for:

- (1) Those who maintain bona fide homes with children.
  - (2) Those whose induction would cause extreme hardship to a wife, child or parent, and
  - (3) Those with dependents who are necessary to and regularly engaged in agriculture.
- Men formerly classified in III-A and III-B is eliminated entirely. A child born after September 14, 1942, is not recognized as a "dependent" in classifying a registrant in Class 3-A. The new classification, 3-D, will contain all men whose induction, in the opinion of their local boards, would create extreme hardship or privation for a dependent wife, child, or parent.

## Groves Reports To Air Training At Will Rogers Field

WILL ROGERS FIELD, Okla.—That Technical Sergeant J. P. Groves, formerly of Munday, has recently reported to the Air Depot Training Station at this field, has been announced by Col. Thomas E. Lynch, commanding officer of the A. D. T. S.

T-Sgt. Groves is at present assigned to duty as an airplane mechanic with a service squadron of a service group here.

Before entering service with the Army Air Forces on September 7, 1939, he was engaged in farming. He attended Sunset high school. T-Sgt. Groves' wife resides at 3724 N. W. 24th Street in Oklahoma City.

Prior to his arrival at Will Rogers Field, he was stationed at Randolph Field, Foster Field, and Moore Field, all in Texas.

### DAN BILLINGSLEYS PARENTS OF SON

Mr. and Mrs. M. F. Billingsley were notified Saturday of the arrival of another grandson, who was born to Sgt. and Mrs. Dan Billingsley of Independence, Kans. The son arrived last Saturday. He is the first great grandson of W. W. Coffman of Goree, who is about ready to "take off" for Independence to see the new arrival.

## Over 25,000 Surgical Dressings, Other Garments Made By Red Cross in Co.

Mrs. Oates Golden, production chairman of the Knox County Red Cross chapter, revealed in her report recently that over 25,000 surgical dressings have been made in the county. The community chairman, the number of dressings made and the number of workers engaged in the work are given below:

Goree, Mrs. Orb Coffman, 18 workers made 903 dressings. Benjamin, Mrs. Lee Coffman, 16 workers, 4500 dressings. Knox City, Mrs. E. E. Teaff, 21 workers, 3600 dressings. Munday, Miss Myrtle Munday,

Twelve 4-H Club boys of Knox County have already purchased their club calves for 1943. These calves have been selected from some of the best herds in the county such as the League Ranch, Moorehouse & Dolan, McFaddin and Mr. Westbrook.

The boys who will feed calves for 1943 are: Jerry Westbrook, Charlie Pete Moody, Truscott; Stanley Glover, Sam Bruton, Carol Fred Glover, John Charles McFerrin, Benjamin; Hope Bratcher, Billy Richards, Wesley Traunum, Leroy Davis and Hardy Richard, also Tommie Lee McMurry of Vera; Tommie Montandon, Knox City and Pat Hill of Munday.

## Spooky Tavern To Be Presented

### Junior Class Play Is Slated For Next Monday Night

"Spooky Tavern," a 3-act mystery-comedy, will be presented by the junior class of Munday school on Monday night, April 26, at 8:30 o'clock. This play was chosen by a committee as the best play on record, and with the cast made up of members of the junior class, the play is expected to be a big success.

Members of the all-around cast are as follows: Lon Hacker, cruel owner of Spooky Tavern, Stephen Harrison-Ghost Woman, who haunts the tavern, Sue Barton.

Lucy Hacker, a spiritualistic medium, Jean Reeves.

Joyce Wingate, a resourceful college girl, Bette Morris.

Florabel Wingate, her nervous younger sister, Jerry Chamberlain.

Ralph Channing, a senior in love with Joyce, Aubrey Roden.

Terry Tanner, a junior in the same fix, Buddy Gaffard.

Willie Wargle, a stuttering freshman afraid of ghosts, Bonner Barton.

Bedelia Simms, a notorious crook, Hulen Montgomery.

Farone, known as the creeper, Keith Cartwright.

## Don't Lose Your Ration Coupons

If a person's ration book or coupon sheet (Food Books and all gasoline ration books) has been lost or stolen, he shall fill out a duplicate application form for replacement. The board shall advise the applicant that the duplicate will be sent to the Enforcement Section of the State Office for investigation and shall instruct him to return to the board in ten days.

If the Board finds that the loss or theft of the book or sheet was due to the applicant's carelessness the Board may hold up the replacement for sixty days.

MORAL: Be careful with all ration books and coupons.

Knox County War Price and Ration Board No. 56138, Benjamin, Texas.

Lieut. and Mrs. Hal Pendleton came in Tuesday from San Antonio and spent the night with Hal's parents, Mr. and Mrs. H. A. Pendleton. Hal, who transferred to the air forces, was being transferred and reported to Dallas for assignment.

"What a Man Does For Himself Dies With Him—  
What He Does For His Community Lives On and On"

## HATS OFF TO RETAILERS

The retail merchant has become the man in the middle—in the middle of that no man's land—where a fighting government collides with a fighting, consuming public. Both of these fighting elements are allies, but like most allies they don't get along too well sometimes. A spoiled public which has been in the habit of getting what it wants when it wants it from an incredibly efficient retail distribution system, cannot be expected to don the halter of shortages and be led about by dictatorial decrees without kicking the daylight out of a few regulatory fences. Unfortunately the retailers upon whose shoulders fall the responsibility of explaining and applying the restrictions, are the ones who get kicked most often. For that reason it is only fair to give them a pat on the back occasionally. They deserve it.

Retail distributors, both chain and independent, have shown amazing ability to interpret and put into practical operation literally thousands of new wartime merchandising regulations conceived by lawyers and experts with little or no merchandising experience. Most of the regulations carry heavy jail sentences and fines for violation. Laboring in the shadow of stiff penalties, thousands of merchants throughout the country work out the rules as they understand them, often without benefit of legal advice, and put them in force. They know it has to be done or the distribution system will break down, bringing disaster to the country. They try to explain this to customers, while striving to get the government to simplify and ease inequalities in the rules. Neither the public nor most government experts actually comprehend the heavy responsibility which retail merchants bear in helping to maintain economic stability during the emergency.

Consumers should be slow to criticize the retailer for inconveniences over which he has no control. The government should constantly seek to make burdensome restrictions less onerous. And both the public and the government should be less quick to accuse retailers of evil intent when one of ten thousand rules has been inadvertently violated.

## POSTWAR RESERVES

In its recommendation for the adoption of a national policy to provide "liberal profit margins" for war contractors who create reasonable reserves for postwar conversions purposes, the Senate Truman Committee has pointed out one of the most vital of the period immediately following the war.

This proposal, which was made as part of the Committee's report on renegotiation of war contracts, wisely distinguishes between "excessive or padded" reserves, and those which are essential to the very necessary job of reconversion.

Too many people are prone to forget the fact that these reserves will mean as much to them after the war as they do to the individual companies.

An industry geared to the making of war materials will offer little employment after the war when the need is for peacetime products, unless it can afford to reconvert, and quickly.

As the Committee has rightly stated, "sound national policy requires the encouragement of manufacturers to set up such reserves and that somewhat more liberal allowances of profit margins might properly be made to contractors who create reasonable reserves of this character than are allowed to contractors who spend or distribute all profits as they are earned."

## A GOOD EXAMPLE

Recognizing the many new fire hazards that rapidly expanded war industries have created in the United States, the National Board of Fire Underwriters has been exerting itself to bring the seriousness of the situation to the attention of the citizens and public officials in all parts of the country. Already hundreds of lives have been snuffed out by preventable fires in war congested areas.

That such fire prevention efforts are bearing fruit, is indicated by the action of the commissioner of public works in Portland, Oregon, who has filed a formal protest with the Housing Authority of Portland against fire hazards that have been permitted in the war industry housing projects of that city. The mayor of Portland and the fire marshal have joined with the commissioner in seeking to bring about corrections.

Fire hazards must be removed. The action Portland has taken should be duplicated by every city with war housing and factory conditions which endanger life and property.

## THE MUNDAY TIMES

Published Every Thursday at Munday

J. W. Roberts . . . . . Editor, Owner and Publisher  
Aaron Edgert . . . . . News Editor

Entered at the Postoffice in Munday, Texas, as second class mail matter, under the Act of Congress, March 2, 1879.

**SUBSCRIPTION RATES**  
In first zone, per year \$1.50  
In second zone, per year \$2.00

The Munday Times is Democratic, yet supporting only what it believes to be right, and opposing what it believes to be wrong, regardless of party policies, publishing news fairly, impartially.

**NOTICE TO THE PUBLIC:** Any erroneous reflection upon the character, standing, or reputation of any person, firm or corporation which may appear in the columns of this paper, will be gladly corrected upon due notice being given to the publisher, at the Munday Times office.

## BATTLE OF WORDS

In times like these, when most of the divergent factions within the country are striving for unity, and our armies are united with those of other nations for the common cause, it is difficult to understand the failure, after a conference, of the CIO and the AFL to arrange a "no raiding" pact between them.

Union "raiding" resulting in jurisdictional strikes is an injustice at all times to the public and the employer, both of whom are innocent of provocation and powerless to do anything about it. In wartime, when all strikes are endangering the war effort, the jurisdictional strike is particularly outrageous. It is merely a manifestation of the attitude of "organizing first" which organized labor has promised to abandon for the duration.

Reports of the conference state that "while both sides of the table felt that their proposals were essentially the same, the difference in language was a barrier which could not be overcome. There was no disposition by either side to blame the other for the breakdown in the negotiations and the failure to reach an agreement. It was a matter of mutual regret, it was understood."

It should be a comparatively simple matter in these days of tremendous sacrifice for these two organizations to clarify their language since that, admittedly, is all that holds them from a mutually acceptable basis of cooperation.

## TOTAL MOBILIZATION FOR WAR

When the United States declared war on the Axis powers all America went to war—all industry went to war—in a total, all-out effort to win and to win with the greatest possible speed.

The total mobilization of American industry has been a colossal task but it has been accomplished in an amazingly short time—because American business is geared to the needs of the American people and industry provides what its people need come what may, in peace or in war.

War does not mean guns alone, nor does it require only ships, planes, tanks, shells, and bombs. It means every facility of the American business system including news and information, education, insurance, banking service, electric power, transportation, gas, textiles, pharmaceuticals, and dozens of other services which have been so adequately provided and at such great speed.

The stories of those industries which in addition to carrying on accelerated civilian operations have also played a vital part in the war effort will be told in these columns during the next few weeks. Be sure to follow them carefully so that you may have a full realization of what American industry in its all-out war effort has been doing for the safety of your country and that of your family.

## TIME TO CLEAN HOUSE

In a sweeping denunciation of "unnecessary government agencies," Senator Guy M. Gillette, speaking with a bluntness that stunned seven hundred fellow Democrats at a \$25-a-plate Jackson Day dinner, declared that, "We have to clean house."

"We can't do it," the Senator from Iowa asserted, "by refusing to admit our mistakes, without eliminating some of the hordes of locusts living off the people through agencies that aren't necessary."

In his discussion of the postwar responsibilities of the nation, Senator Gillette said that "charity should begin at home even though it should not stay there. Let us first set our own house in order and prepare first to recover powers and authorities belonging to the people which we have surrendered during the stress and need of war."

A graphic calculator has been devised to measure the food-value adequacy of your diet.

## CRISIS IN MANPOWER

Today's problem of manpower means as much to the farmer with one hired hand, or the merchant with a single clerk, as it does to the industrialist who employs a thousand persons. It is all a matter of proportion.

The war program has reached such a stupendous size that the proper distribution of manpower assumes as much importance as the right use of steel, oil, rubber, or any other essential material or product.

It has been such a short time since there was more manpower than industry and agriculture could absorb that we may be a bit slow in waking up to the fact that today each man and woman who can be used to help in the battle of production is needed, and needed badly.

For the benefit, then, of farmers whose crops and livestock will suffer this year if manpower is not replenished; for the benefit of the armed services which have set their sights at possibly 10 million in uniform before 1944; for the benefit of the factories which must turn out ammunition, shoes, clothing, supplies and processed foods in ever-increasing quantities for fighters, civilians and allied nations, a careful stock-taking of manpower is required.

**Where Manpower Is Wasted**  
Our new Congress must make sure that those in charge of this task, in Washington, cast about to see where able-bodied people are being needlessly employed. And in that city of Washington these authorities are now rubbing elbows with thousands of clerks, auditors, stenographers and others who could be used elsewhere without interfering with the war effort in any measure.

Recent figures showed that there were 2,606,300 persons on the civilian payroll of the federal government. This is not only a million more than were in our armed forces in foreign lands at the time the President made his address at the opening of the present Congress, but it is three times as many as were

on the government's civilian payroll during the first World War. Of course this is a bigger war, but that only furnishes an even greater reason why the government should lead in conserving manpower for our farms and factories.

**The "Renegotiation" Law**  
A single measure, introduced in Congress last year, would require thousands of new payrolls to carry out its provisions. This was the act providing that the Army, Navy and Maritime commission should each check its war contracts so that renegotiation could be demanded in cases of excessive charges.

The purpose of this legislation—to make sure that the government was not paying too much for its materials and supplies—was not questioned. But the proposed method of rechecking all war contracts called for the hiring of such a large number of new federal employees that amendments to the bill were quickly demanded.

Although the bill has been rewritten and amended, it still places upon the Army, Navy and Maritime commission so much of the responsibility for re-examining their contracts that thousands of new auditors and accountants would be needed. This violates the principle that united war effort calls for the placing of every available man and woman in productive work, at the same time helping to keep the taxpayers' federal load as light as possible, consistent with wartime demands.

An acceptable amendment to this law—not yet adopted—would leave it to the Department of Internal Revenue to uncover instances of excess profit. By using this established checking system, the other departments would not have to hire extra people to wade through the 95 per cent or more of war contracts which are honestly and conscientiously executed.

Here is but one example of how manpower can be conserved in these days when the efforts of all must be directed toward winning the war.

smile.—Horace.

Happy are the people whose God is All-in-all, who ask only to be judged according to their works, who live to love.—Mary Baker Eddy.

## Gems Of Thought

### CHEERFULNESS

What sunshine is to flowers, smiles are to humanity. They are but trifles, to be sure; but, scattered along life's pathway, the good they do is inconceivable.—Addison.

The highest wisdom is continued cheerfulness; such a state, like the region above the moon, is always clear and serene.—Montaigne.

The mind that is cheerful at present will have no solicitude for the future, and will meet the bitter occurrences of life with a

Cheerfulness is a friend to grace; it puts the heart in tune to praise God, and so honors religion by proclaiming to the world that we serve a good master.—Be serious, yet cheerful.—Thomas Watson.

Always look out for the sunlight; the Lord sends into your days.—Hope Campbell.

Cabbage is a good source of vitamin C—it can take the place of citrus fruit or tomatoes in your diet for this purpose, University of Texas home economics department points out.

## Legal Notice

Citation by Publication  
THE STATE OF TEXAS

To Robert L. Wilkins, James W. Eddens, C. L. Robinson, F. C. Weinert, C. F. Woods, Walter Bruestedt, D. L. Allen and Lillie Allen, and the unknown heirs of above named persons, and to all persons whose names are unknown, owning or claiming any right title or interest in the lands hereinafter described, by virtue of any instrument of record in the Knox County, Texas, Deed Records, Alfred Eckenroth, and his unknown heirs, GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 3rd day of May, A. D., 1943, at or before 10 o'clock A. M., before the Honorable District Court of Knox County, at the Court House in Benjamin, Texas. Said plaintiff's petition was filed on the 20th day of March, 1943. The file number of said suit being No. 4228.

The names of the parties in said suit are: Billie True Nichols, Earl H. Nichols, Mrs. Ova True Wright, Sim Wright, Mrs. Sallie Burk True, a widow, Mrs. Alice True Wetzel, M. J. Wetzel, Ernest McElreath, Charles C. True, H. P. Hill, Jessie Gertrude True Fuller, Clayton Fuller, Barbara J. True Hillburn, Clayton G. Hillburn and Martin E. True, as Plaintiffs, and Robert L. Wilkins, James W. Eddens, C. L. Robinson, F. C. Weinert, C. F. Woods, Walter Bruestedt, Alfred Eckenroth, D. L. Allen and Lillie Allen, and the unknown heirs of above named persons, and all persons owning or claiming any interest in and to the land hereinafter described, by virtue of any recorded instrument of record in the Knox County, Texas, Deed Records, as Defendant.

The nature of said suit being substantially as follows, to wit: Suit for title and possession of the following described land, to-wit:

Being 40 acres of land out of the Northwest corner of the Robert Wilkins original Survey in Knox County, Texas, described as follows: Beginning at a point in N. B. L. of Robert Wilkins, Original Sur. at a point 169 vrs. S. 86 deg. 30' W. 265 varas to point in W. B. L. of said Robert Wilkins survey; THENCE North along the W. B. L. of said Robert Wilkins survey 936

varas to its N. W. Corner; THENCE in an Easterly direction along N. B. L. of said Robert Wilkins Survey 265 varas to the place of beginning, containing 40 acres of land more or less.

Issued this the 20th day of March, 1943.  
Given under my hand and seal of said Court, at office in Benjamin, Texas, this the 20th day of March A. D., 1943.  
(Seal) LEE COFFMAN, Clerk, District Court, Knox County, Texas. 39-5tc

Special "glow-worm" maps that light up in the dark are now being used to guide American pilots in blacked-out planes.

Cardboard liners for concrete forms have been developed to add resistance to abrasion as well as to freezing and thawing.

## Knox County Hospital Notes

## Women in Canadian Air Force Take Man-Size Jobs

An admiring flyer watches a young lady perform an intricate bit of tooling.

Motor maintenance, control tower work, handling ammunition—all are part of the ground work that has been taken over by the Women's Division of Canada's flying service. The splendid work of these women has released many men for training and combat service.

WITH a greater weight of bombs being dropped on Germany by the Royal Canadian Air Force in combined operations with the R.A.F. and the U.S. Army Air Corps, the flow of air crews to the Allied fighting fronts must be stepped up in Canada. Already deep into her manpower pool, Canada has been faced with the problem of releasing men from necessary but non-combatant duties on the ground so that they can join the fighters of the R.C.A.F. overseas.

Quick to realize the value of woman-power in the solution to her problem she formed the Women's Division of the R.C.A.F.

Girls who once worked in offices, hotels, theatres, beauty parlors and restaurants are now uniformed dental assistants, laboratory workers, clerks, drivers, mechanics, store clerks, instrument checkers, wireless operators, chart room assistants and bombing range checkers. Trained in these specialized duties, living and eating in barracks, the girls work side by side with the men they have released for combat duty.

Through the use of a great reservoir of woman-power Canada has increased the striking force that can be hurled across Germany and Italy.

# AAA NEWS

By MARVIN ALLEN, Administrative Officer  
Knox County Agricultural Conservation Association

## Canada's 2,000,000,000 Bullet Produced

CANADA, during this war, has already turned out enough bullets to wipe out every inhabitant of the globe. Brigadier General D. E. Dewar, Director General of the Arsenals and Small Arms Ammunition Branch, Department of Munitions and Supply, is shown here adding the 2,000,000,000th round of small arms ammunition, a .303-inch bullet to his wide collection. In one working shift, Canada is now producing more small arms ammunition than was turned out in two months with pre-war facilities. The present monthly output exceeds the entire production for the peak year of the

first Great War, and in the latter part of 1943, Canada will be turning out twice as much small arms ammunition in a month as she made in any year from 1914 to 1918. The production for 1943 is expected to reach the record high of 3,000,000,000 rounds. One million dollars a week is being spent on small arms ammunition at the present time. In production are 22 types of 9 different calibres ranging from .22-inch to 1-inch. The Dominion is supplying the ammunition for all types of small arms manufactured in Canada, including Sten, Bren, Lee-Enfield, Boys, Browning, and Vickers guns.

## Pressure Cookers Will Be Rationed

Pressure cookers have been placed under rationing orders and will be distributed through local farm rationing committees which already are rationing farm machinery and supplies, according to the Texas USDA War Board.

County quotas will not be established, according to present plans, but eligible participants must assure county farm rationing committees that cookers can be obtained before purchase certificates are issued.

Plans now are underway to release for immediate use 80 percent of this year's production which will total 150,000 cookers throughout the nation. The remaining 20 percent will be held in reserve to be released later or through appeals to meet special needs of certain areas, if they develop, the board explained.

Under the program, each state will receive a proportionate share of the nation's total production. Allocation to Texas has not been announced.

Purpose of the rationing order, which applies to farm and urban residents, is to distribute a limited supply of steam pressure cookers among all producers to attain the greatest possible pack of home-canned food this year. Increases in Victory gardens and farm gardens throughout the nation have resulted in heavy demand, the board said.

Criteria for determining eligible applicants include (1) individual families, (2) neighborhood pools, consisting of an applicant who has obtained the agreement of several neighbors to share the use of a pressure cooker, and (3) organizations, such as garden clubs, and women's church organizations, members of which have agreed to share the use of a pressure cooker.

Almost all of the new pressure cookers will be war models with enameled steel bottoms and tin-plated steel tops. Nearly all made will be the seven-quart size, holding seven glass jars or 14 No. 2 tin cans. Approximately 15 percent of this year's production will be the 14 quart size, the board estimated.

Workers in a Michigan refinery fixed up a very low, false door leading to the pay office. On it is inscribed, "You will learn to duck lower if you don't buy a Bond."

## LOCALS

Mrs. W. M. Huskinson and little son, Bill, spent the week end in Wichita Falls, visiting with their husband and father, Ike Huskinson.

If we are to meet 1943 food production goals, every bit of conservation work possible must be done. Ten years of soil conservation and farm planning will hit pay dirt in Knox county again this year and continuation of these practices will assure indefinite top speed production. Knox county farmers contribute enormous amounts of food and feed to the Nation's needs and the only way they can continue this job is to keep their soils in condition to produce. Records maintained in the AAA office show that Knox county farms had available \$84,500.00 that could be used by them for the purpose of maintaining and improving the fertility of their soil in 1942—of this amount \$81,369.11 was earned by the producers in this county by carrying out approved soil-building practices in accordance with AAA specifications. Under this year's AAA program, approximately 40 practices are offered for soil and pasture improvement through which a \$90,000.00 production allowance can be earned by Knox county farmers. Information taken from the plan sheets recently signed by the producers shows that definite plans have been made on each farm for investing their maximum soil-building allowance into approved soil-building practices at the same time they produce Food

## Rubber Tires Will Replace Steel Wheels

COLLEGE STATION — Texas farmers who have purchased tractors and other implements with steel wheels since May 1, 1942, now may convert to rubber tires, the Texas USDA War Board has announced.

Purpose of the action which is being taken by the USDA, OPA and Office of the Rubber Director, is to help farmers increase efficiency of their operations at a time when maximum results must be obtained from farm equipment.

County OPA War Price and Rationing Boards will authorize the conversions on the basis of certification of individual farmer's applications by county USDA War Boards.

In making certifications to farmers for converting from steel to rubber, major attention will be given to the increase in food production which will result from the change. Since there is a shortage of rubber, the aim is to obtain the greatest possible farm output from the amount of rubber being made available for this program, the board said.

Standards which the county war boards will use in certifying applications for tires are: (1) that it is necessary for the equipment to be moved from farm to farm for most efficient utilization, and (2) that the soil type or topography on which the tractor or implement is to be used is such that steel wheels are a handicap. Many tractors purchased since May 1, 1942, now are being used to perform custom work and necessarily must be moved from farm to farm as quickly as possible to get the most out of the manpower and equipment involved.

Manufacture of new tires and tubes will not be required under the new program since sufficient supplies already are in stock.

## Poisons Safe If Used Properly

COLLEGE STATION—Protecting Victory gardens this year with poisonous insecticides is entirely practical if suitable precautions are observed, says Paul Gregg, assistant entomologist for the A. and M. College Extension Service.

Use of active poisons may become necessary where gardeners are unable to obtain enough of the so-called non-poisonous materials like rotenone and pyrethrum. Pests which attack practically all vegetable crops can be destroyed by toxic substances without undue danger to humans if properly applied and the vegetables and fruits are thoroughly washed and handled after harvest. These poisons include lead and calcium arsenates, cyrolite, nicotine sulfate and specialty products, and the copper and sulphur fungicides.

On potatoes and other root crops where the tops are not used for food there usually is no danger. But where the tops are eaten, they should be washed thoroughly and not be sprayed or dusted within 15 to 30 days before picking. This period depends upon the type of crop, the ma-

terial used and the weather. Poison remains on the plants longer when it is dry.

Gregg says that peas, sweet corn and other crops protected by their own covering can be treated without special precaution if edible parts are well washed. String beans and similar vegetables should not be treated after pods begin to form. Cauliflower and broccoli should not be treated with poisons when heading or after edible parts begin to form, and Swiss chard and beet tops should not be treated during the 30 days before harvest.

The most important thing to remember, Gregg cautions, is to wash thoroughly after picking all vegetables which have received poison treatment.

Farm Implements for nearly all makes of cars, trucks and tractors. Broach Implement Co. Inc.

## A father is fighting... So his boy may tinker with Electricity

Over 160 of our men (and one woman) are in the U. S. armed forces. Last week one of these men, a good electrician who had been with the company for many years and who is a veteran of World War I, came home on leave. (He's a volunteer in the Navy.)

With him when he dropped around to say "hello" and talk shop with the fellows was his 13-year-old son . . . wearing his Boy Scout uniform.

All the guys were darn glad to see him and know he has a swell Navy rating as an electrical technician. Naturally they asked a lot of questions and learned that Uncle Sam's Navy thinks mighty high of its men who come from America's electrical companies where they got their training and experience. They learned, too, that electric power is behind most of the Navy's great punch . . .

building ships, guns, bombs, torpedoes and the like with which to win the victory.

Finally someone asked: "Well, Don, have you decided—just what are YOU fighting for?" He answered right off, pointing to his son.

"Me—I'm fighting for this kid. He's a Boy Scout, see, and it teaches 'em to be independent and self-reliant. Well, dictators and bureaucrats don't like that—they want regimentation. So I'm fighting so he—and millions like him—will be free.

"Too, the kid's kinda like me. He has a knack for tinkering with electricity . . . likes it, see. Well, the kid may not be another Edison. But I want him to have the same opportunities that Edison had—and a lot of other guys who helped make this country great.

"I want him to be free to tinker all he likes. And if anything comes of it, if his tinkering creates something useful to the world, like Edison's tinkering, I want him to share in the profits."

Out of this freedom of individual opportunity grew America's great industries that today are pouring out the weapons of war . . . as in peacetime they pour out the comforts and conveniences of everyday home life to give us the highest of all standards of living.

This freedom is worth fighting for. Free men and women, working out their own destinies with their own hands and minds . . . building, inventing, improving . . . taking the risks and enjoying the rewards. And bettering the world as they better themselves!

## Fifteen Present At WSCS Meeting Held Last Week

The Women's Society of Christian Service met on Monday afternoon of last week at the Methodist church for a continuation of the study course.

The meeting opened by singing, "Blest Be The Tie," followed by prayer by Mrs. G. R. Eiland. Taking part on the study course were Mrs. G. S. Dowell and Mrs. J. W. Roberts.

Fifteen members were present: Mmes. G. S. Dowell, G. R. Eiland, J. W. Roberts, Lowe, W. R. Moore, J. A. Caughran, M. F. Billingsley, R. L. Ratliff, Luther Kirk, Lee Haynes, S. A. Bowden, J. R. Bateman, G. W. Dingus and Miss Shelly Lee.

## Mrs. Pendleton Is Hostess To Club On Last Saturday

Mrs. H. A. Pendleton entertained members of her bridge club and a few guests in her home last Saturday afternoon.

In passing out the tallies, the hostess presented each guest with a war saving stamp. At the end of the game, a refreshment drink was served to the following:

Mmes. Fred Broach, Sr., C. L. Mayes, W. E. Braly, W. M. Taylor and Orb Coffman of Goree, Grady Roberts, A. G. Rummell and the hostess.

## Hefner 4-H Clubs Have Interesting Meeting Tuesday

The Hefner 4-H Club boys and girls met on Tuesday, April 20. Bobby Trimble, president of the boys' club, had charge of the meeting. Mackey Mardock, secretary, called the roll, revealing eleven members present.

Three boys and three girls reported on their war activities, and Miss Lucille King, home demonstration agent gave a demonstration showing the proper method of setting out tomato plants, the care to be given them, and how to prevent cut worms and lice.

R. O. Dankle, county agent, gave a demonstration of the feeding of three pigs, Tom, Dick and Harry. He told which feeding method proved to be more profitable.

The members decided to continue 4-H club work throughout the summer months, and they greatly enjoyed the demonstrations.

## Wesleyan Service Guild Meets At Local Church

Members of the Wesleyan Service Guild held their regular meeting at the Methodist church last Monday night at 8:15 o'clock.

Mrs. Luther Kirk had charge of the devotional, which was an interesting candle light service. Mrs. Joe Bailey King gave an article on the Wesleyan community house in Honolulu, and Mrs. Layne Womble gave a report on the women's conference which was held recently at Lubbock.

Members present included Mmes. Luther Kirk, Joe Bailey King, Layne Womble, O. H. Spann, M. F. Billingsley, Aaron Edgar, Ellen Bouda, and Misses Ruth Baker, Jeannette Campbell and Merle Dingus.

Miss Dolores Campbell visited relatives and friends in Bonham over the week end.

## Bright Prints for Victory Entertaining

**T**he girl at the U.S.O.—and her soldier beau—set the fashion for 1943 Victory entertaining. For your own volunteer work in service organizations, choose a dress that is as attractive and refreshing-to-look-at as this flower-splashed rayon jersey. Because you'll be wearing your "party dress" often, be practical and choose a rayon that has been tested for stability and strength—like the sturdy lining of your beau's G.I. coat. A label based on laboratory facts is your best way to know the performance qualities of any fabric you buy.

## Conference Report Given Tuesday At W. S. C. S. Meeting

The Women's Society of Christian Service met at the Methodist church last Monday afternoon at three o'clock. The meeting was opened with a hymn, followed by prayer by Mrs. S. A. Bowden.

Mrs. S. E. McStay was in charge of the program, and the devotional was given by Mrs. Worth Gafford. The program proper was a very interesting conference report by Mrs. J. C. Rice, who was the local delegate to the Lubbock conference. An unusually large number attended the meeting to hear this enjoyable report.

## New Deal Club Meets In Home of Mrs. Wade Mahan

Mrs. Wade Mahan was hostess to members and guests of the New Deal Bridge Club on Tuesday evening of last week at the home of her mother, Mrs. W. M. Mayo.

High score at the games went to Mrs. Grady Roberts for members and to Mrs. Paul Pendleton for guests. At the appointed hour a salad course was served to the following:

Mmes. Carl Jungman, J. C. Harpham, Dorse Rogers, Fred Broach, Jr., Sebern Jones, W. M. Huskinson, Grady Roberts, E. M. Roberts of Amarillo, T. L. Stall of Midland, Ray Holcomb, Miss Louise Atkinson of Miami Beach, Fla., and the hostess.

### IT PAYS TO ADVERTISE

Prepared for Your Newspaper by Betty Crocker Home Service Department

### THE FIRST PINK RHUBARB

Rhubarb—the first fresh fruit of the year. How good it looks—and how delicious and spring-like it tastes! It's a harbinger of spring as much as the first robin and the first daffodils. In the old days it meant much to the early settlers in this country whose only source of fruit and vegetables for the winter had been the barrels of apples, dried fruits and such root vegetables and potatoes as they'd been able to keep during the long cold months. The first pink shoots of rhubarb that came up by the south side of the house were a welcome sight, for they meant fresh rhubarb sauce and pie.

#### Rhubarb Pie, 1943 Style

But those pioneer women weren't hampered by a lack of sugar, I hear someone remark. Yes, I know it does look as though rhubarb pies might be something we'd have to forego unless we can find something besides sugar to sweeten them with, because they take such a lot of sugar. Well, we've been doing some experimenting with syrup and honey for the sweetening in rhubarb pie—and we feel we've actually been able to achieve—of all things—a sugarless rhubarb pie! We found that the honey flavor rather masked the rhubarb flavor—but the syrup rhubarb pie was satisfactory, although not as good as the pie made with sugar. If you have sugar enough, by all means use it. If you haven't and still want to make the rhubarb pie, here is the recipe for—

#### SUGARLESS RHUBARB PIE

Make Pastry for Two-Crust Pie. Chill thoroughly. 4 cups unpeeled pink rhubarb, cut in 1-inch pieces (about 2 lb.)  
1/2 cup sifted all-purpose flour (lb.)  
2 cups light corn syrup 2 tbsp. butter

Mix together the syrup, flour and rhubarb and place in the chilled unbaked lower crust in a shallow 9-inch pie pan. Dot with butter. Moisten the edge of this lower crust. Lay the chilled pastry for top crust gently on top of filling, . . . folding the extra rim of pastry under edge of lower crust. Press the two edges together and build up fluted edge. Sprinkle top with sugar.

Bake 15 minutes in a very hot oven (450° F.) . . . then reduce temperature to a moderate oven (350° F.) and bake 45 minutes longer.

#### For Smaller Pies

This recipe makes a large pie that will serve 6 or 7 persons. If you want to make a smaller pie, use 3/4 the recipe—that is, 6 tbsp. flour, 1 1/2 cups syrup and 3 cups rhubarb. Or, for a still smaller pie—use only 4 tbsp. flour, 1 cup of syrup and 2 cups of rhubarb.

#### If You Can Use Sugar

The recipe is—6 tbsp. flour—1 1/2 to 2 cups sugar—4 cups rhubarb and 2 tbsp. butter. Mix together 2 tbsp. of the flour and 2 tbsp. of the sugar. Sprinkle this over the bottom of the chilled unbaked pie shell. Heap the cut-up rhubarb on top of this flour and sugar mixture. Mix together remaining flour and sugar and sprinkle over the rhubarb. Dot with butter.

## I GIVE YOU TEXAS

by BOYCE HOUSE

"God give us men! A time like this demands Strong minds, great hearts, true faith and ready hands; Men whom the lust of office does not kill, Men whom the spoils of office cannot buy, Men who possess opinions and a will, Men who have honor; men who will not lie, Men who can stand before a demagogue And damn his treacherous flatteries with winking. Tall men, sun-crowned, who live above the fog In public duty and in private thinking."

A terrific blow to loan sharks, who extort \$40,000,000 a year from war workers, men in the armed forces and the general public, will be dealt by the injunction bill which the legislature has passed.

As a small boy, I used to shudder when the lightning crackled. Then one day I read in a paper that lightning kills only 26 people out of a million in a year, or maybe it was only six. And since then, I haven't worried a great deal about thunderstorms.

Favorite seasons: Fall. Favorite writers: Mark Twain, Dickens, O. Henry. Favorite historical figures: Lincoln and Lee.

And favorite people: Those who have traveled and adventured, and those who have thought and studied though they may never have been more than 40 miles from the village in which they were born.

Nomination in the oldest joke contest: "Will it stop raining?" "It always has."

The thousands of women engaged in the beauty shop profession pay taxes on their property just as any other citizen does; and in addition, these ladies pay a

special State fund to be used in the interest of the public for regulation and efficiency in connection with that profession. A surplus of \$300,000 has accumulated and a bill (which opponents say would confiscate this amount) is pending in the House of Representatives. This money should be used for the purpose for which it was paid or else it should be refunded to those who paid it. Just because the State General Fund is overdrawn by some \$25,000,000, why should these ladies—who, through skill and hard work, earn a living—be singled out for any such discrimination as this?

There is also an effort being made to take the current special assessments paid by the barbers and put this money into the General Fund, the warrants of which are discounted whereas their warrants are bringing par, and in the

General Fund, it would no doubt be mixed and mingled with other revenues and much of it could be used for other purposes than that for which it is paid.

Paul Pendleton, who is stationed at Sheppard Field, visited relatives and friends here over the week end.

Sgt. and Mrs. Chas. Haynie, Jr., came in last Saturday from Salina, Kans., where Sgt. Haynie is stationed, for a visit with his parents, Mr. and Mrs. Chas. Haynie, Sr., and with other relatives and friends.

Mr. and Mrs. T. G. Bengel returned home last Saturday from Wichita Falls, where Mr. Bengel had been taking medical treatment for several days. Mr. Bengel is reported to be improved and will likely be about his duties at the oil mill again soon.

Mrs. O. F. Greer of Seymour visited with friends here last Monday.

### IT PAYS TO ADVERTISE

We have added the J. I. Case parts line. We are receiving parts almost daily. Broach Implement Company. 42-tfe.

### What Is Inflation?

Do you have excess cash? You will answer, "No." But the fact remains that you do. For almost every wage earner these days has an income, in checkbook or pocketbook, well above the cost of his living, taxes, insurance and debt repayments.

You never actually "bid" against anybody for a porterhouse steak, but when you take the spending of all average Americans as a group, it's a different story. So it is important that excess money be saved rather than used collectively to bid up prices. If it is spent, instead of saved, prices soar. . . . That's inflation. Ideally, it should be invested in Government securities during the Second War Loan.

"They give their lives . . . You lend your money."

## FIRST BAPTIST CHURCH

There will be a very interesting program next Sunday morning. Beginning promptly at eleven o'clock the First and Second grades from the Grammar school, under the direction of Mrs. Cunningham and Mrs. Thompson, will give a fifteen minute program of songs and readings in keeping with Easter. We want to be sure and let them begin on time, as they are going on to the Methodist church for a program there. Let's not interrupt their schedule. Miss Gayle Reynolds will sing, "The Holy City," and Miss Charlene Nelson will sing, "Calvary." There will be other songs in keeping with the day. You will want to be in this service.

Sunday evening there are some candidates to be baptized at the close of the preaching service. You are always welcome at any, and all times.

W. H. Albertson.

Mr. and Mrs. A. M. Searcey are in Dallas on business and visiting this week.

Several men from this community attended a Home Guard meeting at Throckmorton last week end.

Margie Reid of Munday visited Maggie Searcey last Tuesday night.

Mrs. J. R. King has as her guest her brother, Caz Langsford and family, and her mother, Mrs. Pink Langsford of Tulsa, Okla.

Mrs. J. M. Smith and daughter Jeanette visited Mrs. Ezel Reynolds of Munday last Tuesday.

Mr. and Mrs. Don Reynolds of Munday visited in the Yates home last Sunday afternoon.

Mr. and Mrs. Joe Patterson were in Stamford on business last week.

Miss LaVerne Bumpas of Dallas visited her parents, Mr. and Mrs. M. A. Bumpas last Tuesday and Wednesday. She is employed at the North American Aviation at Dallas.

## AT THE METHODIST CHURCH

**Luther Kirk**

The story of the baby in the manger is most beautiful to think of. The story of Christ's work on earth among men is challenging. But there is no act of His that gives us more hope and assurance than His resurrection from the dead. Easter is the great day in the mind of the Christian thinking individual. It is the resurrection of Christ that gives to us that nothing else could give. Then worship the risen Lord, Sunday. Be in your place at each service through out the day and give thanks unto the Lord.

You will want to hear Rev. S. H. Young of Stamford at 11:00 a. m. and the Rev. Kenneth Copeland of Haskell at 7:15 p. m.

## WASHBURN NEWS

**Mrs. C. N. SMITH, Correspondent**

C. O. Scott was in Haskell visiting last week.

Mr. and Mrs. C. N. Smith were in Haskell last Friday on business.

Mr. and Mrs. Revel King visited relatives near Weinert last Friday night.

Mr. and Mrs. J. W. Kemp of near Merkel, Texas visited relatives in the community last week.

# People, Spots In The News

**HEY FELLERS!**  
The circus is on the road! Nicholas, kingpin entertainer, licks his chops after finishing lunch.

**LIFE SAVERS**—Fred Seng, night shift worker at war alcohol plant of Schenley Distillers corporation, presents 9 iron lungs purchased by company employees, to Rear Admiral Edward J. Marquart, Brig. Gen. Hugh J. Morgan, and Senior Surgeon William Y. Hollingsworth, for Navy, Army, and Merchant Marine.

**OBJECT LESSON**—That shower of earth behind this Royal Armored Corps soldier will make him wary of booby-trapped mines from now on. Traps are laid for men training for desert warfare in Egypt, and small gelignite charge warns men they're not handling mines correctly.

### SENIOR NEWS

As the monkey said when he got his tail cut off in the lawn mower, "It won't be long now!" No sir, it won't be long until the Junior play will be over and then they will start preparing that delicious food for the Seniors to eat at the Junior-Senior banquet.

The Senior class thoroughly enjoyed the assembly program given by the colored school Friday. We only wish there could have been more of it.

The Seniors are proud to state that they bought the most bonds and stamps last week. They had a total of \$97.50. Retta Jo White bought a \$100 bond that helped a lot in reaching that total. The Seniors are also glad that the school students have bought enough stamps and bonds to pay for a jeep.

### JUNIOR NEWS

Quite a few Juniors made resolutions to do their best the last six weeks of school after a look at their cards. After all, they do want to be Seniors next year. Some of the teachers have given their warnings about "get to work or else—"

The Juniors are really getting to work on the play. Those that are not in it are going to advertise it to the best of their ability. They will try to make it one of the best plays to be put on by a Junior class.

In history, the class is starting to study about World War I. This will make them understand this war better and why it is being fought.

### Could It Be?

... just play practice that gets certain Juniors so sleepy?  
... that particularly funny incident that made Hulen laugh so he nearly fell down the stairs?  
... the fresh air that Buddy enjoys when he spends a week end in the country?  
... that Miss King's black eye is getting back to normal? Those hay rides!  
... that somebody kept talking so much that the English III class had to be rearranged? Some prefer it this way.  
... just spring that makes Jerry have those dreamy looks? She isn't the only one.  
... gossip that makes two certain Juniors write notes in the study hall?

### FRESHMAN NEWS

The Freshmen are practically

### THIRD GRADE NEWS

George Sumner Spann reported back to school Monday, after several days of illness.

We made a freeze of Easter bunnies.

Mrs. Waheed brought us some bridal wreath Monday.

Kenneth Hendrick and Tommy West bought bonds last week and we bought \$44.10 in defense stamps.

Our report cards were slightly improved this six weeks.

### FOURTH YEAR NEWS

We have some new art pictures in our room. The boys drew pictures of fish and sea weeds. The girls mounted bouquets of flowers on construction paper. Our room looks much prettier now.

Reading and spelling are two of our most important subjects. The following children made 100 every day in reading last week: Thomas Franklin, Peggy Harrison, Robert Jones, Annie Mae Robinson and Betty Carolyn Morrow. Those that made 100 in spelling every day last week were: Peggy Harrison, Thomas Franklin, Thelma Boose, Betty Carolyn Morrow, Kenneth Stubblefield and Ralph Hicks.

Everyone is going to try to do better this week.

### FIFTH GRADE NEWS

We finished our health book this last week and also began review on our geography book.

In arithmetic we are building gliders and learning to find perimeters.

Our best citizen this week is Mildred Lovell.

### SEVENTH GRADE NEWS

The seventh grade girls are playing baseball. The girls have chosen bases.

Tuesday we gave reports in geography. We have been studying letter writing in English.

We put our play on Friday. We believed we made a hit with it. It is a play of the Texas Revolution. Jo Nell and Marilyn have brought flowers to school.

Some of the boys put some red ants in a jar. We enjoy watching them do different things.

Rev. and Mrs. H. A. Longino and family of Crowell were here Monday, visiting with friends. Ted, who is in the air forces and stationed at Stamford, visited his parents in Crowell over the week end, and they brought him as far as Munday on his return. Ted expects to be transferred this week.

Mrs. Grady Thornton of Amarillo visited with relatives and friends here over the week end.

W. M. Mayo of Goree was in

town Tuesday for his first visit with friends here since undergoing a major operation at Wichita Falls several weeks ago. Mr. Mayo is rapidly improving and is glad to be out and meeting his friends again.

Miss Florene Pippin was a visitor in Dallas over the week end.

Mr. and Mrs. A. P. Barker of Lockney visited in the home of Mr. and Mrs. C. P. Baker last Tuesday. They were returning to their home from a trip to San Antonio.

## Warning Issued On Anti-Freeze

Automotive supply dealers who will be stocking up during the coming weeks on anti-freeze solutions for next winter were warned today by the Office of Defense Transportation to purchase only approved alcohol or ethyleneglycol solutions.

Although the manufacture of harmful anti-freezes containing inorganic salts or petroleum distillates was prohibited last year by the War Production Board, the reports indicate that many of the deleterious products are still in the hands of manufacturers or jobbers.

Retail dealers were cautioned to buy only solutions free from harmful sodium or calcium chlorides, fuel oil, naphtha or kerosene. They also were urged not to sell old supplies or harmful mixtures to consumers.

Many truck and car motors were damaged last winter, some beyond repair, by anti-freezes containing the harmful materials, according to reports received by ODT.

Safe anti-freezes are permanent solutions containing ethyleneglycol and the more common semi-permanent types containing methyl or ethyl alcohol. The chemical division of the WPB has assured the ODT, officials said, that there will be sufficient stocks of acceptable anti-freezes available for civilian use.

Mr. and Mrs. Hal Fairman of Knickerbocker, Texas, came in last Tuesday for a few days visit with Mrs. Fairman's son-in-law and daughter, Mr. and Mrs. Arthur Smith, Jr., and with other relatives and friends.

County Treasurer R. V. Burton of Benjamin was a business visitor here Wednesday.

An organization of technical researchers now offers a loose-leaf service on substitutes for hundreds of scarce materials.

Thirteen billion dollars—the sum the Treasury must raise in the Second War Loan drive, is only one sixth of the estimated cost of the war for the fiscal year of 1943.

If you don't find the repair you need ask us, we have some parts for all Tractor plows, cars, etc. Broach Implement Co. 42-tfc.

## News From Goree

Ranson Camp has accepted a position with the United Electric Company at Wichita Falls, and Mr. and Mrs. Camp will make their home in that city.

Mr. and Mrs. E. N. Miller and daughters were visitors with relatives in Woodson last Sunday.

*Fragrance in a new form!*

**CREAM COLOGNE**

Welcome with a glad heart this new Cologne that soothes and softens as it caresses the skin with fragrance. Cream Cologne's emollient base is one of beauty's miracles... as gratifying to the skin as to the senses!

Five famous fragrances: Sirocco, Tullipin, Balalaska, Opening Night, and Indiscrete.

### SENIOR REPORT

The Juniors entertained the Seniors Friday night April 9, with a banquet. They carried out the theme of a Fairy Festival. We all enjoyed it very much; later we will return our thanks in full by giving them a return party or some other entertainment.

The Senior Prophecy Ten Years From Now, which was read at the banquet, is as follows:

After being parted from the senior class of 1943 for ten years, I decided to visit my old school mates. I visited each in turn, except Bobbie Floyd, who had left New York City an hour before I reached there.

Since there were so many in my class '43 I had to take notes to be able to let you know of my visits.

Chris Marlow and Ruth Littlepage are happily married; they are living about four miles north of Benjamin, Texas on a ranch. There are several children running about the place doing most of the work since Chris decided to bring his children up as he was. Billie Ben Benson is an old bachelor; he has been going with Elaine Galloway for four years; but he can't make up his mind to marry her, since she used to go with his best pal, Bill Spikes.

Bonnie Parker is the head nurse on the "Ben James," the best and greatest American owned ship,

which makes an annual trip from the United States to Europe each year. She has been on this ship on six of the great trips. On her second trip to Europe she met with one of her old school friends, Eugene Hamilton, who had just been made captain of the ship. They had several happy trips together, and became more than good friends. And on June 10, 1933, they were married on the deck of the "Ben James."

Imagine my surprise the other day, when I picked up the newspaper and saw this headline glaring at me: "Dorothy Dix has resigned her position as writer of her famous column "Marriage Problems for Young and Old," and Bobbie Floyd has been given the position.

And I, Elda Purl Laird am leaving for Hollywood to compete with Ginger Rogers as star for Warner Brothers new picture, "The City Girl in the Country."

The Senior Class will also read; it is as follows:

Elda Purl Laird will her flunking grades to the industrious Charles Hertle, and Ruth Littlepage.

Billie Ben Benson will his ability to be on time to Eugene Hamilton and Bill Spikes.

Bonnie Parker will her place of High Honor in Plane Geometry class to Marjorie Ray, Elaine Galloway, and Peggy Trainham.

Bobbie Floyd will her beaten path to the Post Office at noon to Irene Polster, Martina Escobar, and Nadene Holt (who is always expecting a letter.)

And Mrs. Anderson will her Board of Education to Miss Cash.

And I, James Marlow will my high honor of attendance, conduct and ways with the women to Calvin Brown, Keith Cartwright, and Billy Joe Snailum.

The Senior Class of 1943 will the back desks in the study hall to the Senior Class of 1944.

### JUNIOR REPORT

The Juniors have been studying hard for the past few weeks. We have to study to make up for the week during the Junior-Senior banquet. We hope the Seniors enjoyed the banquet as much as we did giving it. Ha, what a job. The table was "T" shaped, and flowers were our center-piece. The banquet was formal, and afterwards there was a dance. Besides the Juniors, Seniors, and teachers, the trustees and their wives were present. Mrs. Cartwright and Keith, from Munday, were also guests. The Home Ec. girls served and the Junior room mothers and sponsor helped.

### SOPHOMORE REPORT

We had a picnic Friday night. Everyone present had a good time.

This week we have the personality of Claudia Meinzer. She was born at Benjamin, Texas, in 1928. Claudia has gone to school here all her life. She is a member of the volley ball team. Some of her favorites are:

Sport—Volley ball.  
 Song—"God Bless My Darling Somewhere."  
 Subject—Biology.  
 Teacher—Mrs. Lane.  
 Actor—Victor Mature.  
 Actress—Carol Landes.

### Stunning Style

Trimly tailored is this pastel blue slack suit of cotton whipcord, worn by Universal's Gloria Jean. The cowboy-styled shirt with its convertible collar and side slot pockets, carries a decorative embroidered trim in red and white. Buttoned pockets, piped in white, and a jewel-studded white kid belt add interest to the slim-lined ensembles.

Color—Navy blue (sailors are tops in her favorites.)

### FRESHMAN NEWS

Jean Galloway was born April 19, 1929 at Benjamin, Texas. She entered school at Benjamin at the age of 6 and has been with us since. Some of her favorites are:

Teacher—All.  
 Song—"Three Dreams."  
 Subject—Math and English.  
 Sport—Horesback ridng.  
 Color—Blue.  
 Eyes—Blue.  
 Hair—Black.  
 Complexion—Light, slightly freckled.

When she finishes school she plans to be a woman lawyer.  
 —Good luck Jean.

### We Wonder Why

Why Wanda wouldn't go riding Sunday afternoon.

Carl made so good in algebra this six weeks.

Frances writes so many letters then tears them up. Can't you make up your mind?

Margaret likes to go rabbit hunting so well?

Joe Ben never has up his English? Model airplanes don't have anything to do with it. Do they Chug?

Claudia is so blue here lately. Couldn't be because of a certain little sailor, could it?

### LOCALS

Ensign Donald Hobert left last Tuesday for Little Creek, Virginia, where he is to be stationed in the future. Donald spent three weeks furlough here with his parents, Mr. and Mrs. L. W. Hobert, and with other relatives.

Cpl. Maurice Stapp, who is stationed at Columbus, Ohio, came in last Monday morning for a visit with his parents, Mr. and Mrs. Raymond Stapp. He is on a 15-day furlough.

Mrs. Tom Morton visited with relatives in Seymour over the week end.

Mrs. Sam Salem and daughter, Mrs. Edward Lake, visited with relatives and friends in Morton, Levealand and other points over the week end.

FOR SALE—6-room house with bath, close in. Also brick building 50x110 feet. Priced right. See J. L. Stodghill. Itc

Mr. and Mrs. R. W. Hightower and little daughter, Charla Ruth, of Dallas spent the week end here with Mrs. Hightower's mother, Mrs. A. E. Womble, and with other relatives.

Mrs. Wade Mahan left last Friday for Amarillo for several days visit with her sister, Mrs. Agnes Mayes, and with friends.

## Goree News Items

Mrs. Jack Carter of Cincinnati, Ohio, is here for a visit with her parents, Mr. and Mrs. A. J. Stratton, and other relatives. Mrs. Carter has recently returned from Miami, Fla., where she visited her husband, who is serving in the marines. Jack has been shipped with his division to overseas service.

Alyne Ward returned Friday from Dallas, where she visited her sister and family, Mr. and Mrs. C. C. Draper.

Corp. Ben B. Hunt, Jr., left last Thursday for his post of duty at Charleston, S. C., after a 10-day furlough with his parents, Mr. and Mrs. Ben B. Hunt, Sr.

Eldridge Pain left Monday for Camp Hood, where he is stationed, after a 10-day furlough with relatives here.

Mrs. J. W. Laningham visited her mother, Mrs. W. J. Calloway of Wichita Falls last week. Mrs. Leon Solomon of Corpus Christi was also a visitor with her mother, Mrs. Calloway, and her sister, Mrs. Lannigham, at this time.

Mrs. Ben Williams left Saturday morning for Decatur, where

she is visiting her children who reside there.

Floyd Kirk of Wichita Falls was a business visitor here last Monday.

Mrs. Royce Johnson and son, Royce, Jr., left last Monday for Winters, Texas, where they are visiting relatives.

Mrs. L. W. Mattern and son, Thomas James, left Saturday for their home in Columbus, Texas. They will visit relatives and friends on their way home.

Mr. and Mrs. Eldridge Payne visited with relatives at Henrietta several days last week.

Mr. and Mrs. Norman Frey and daughter, Ann, and little son, Donald Stratton, of Littlefield, were visitors here with Mrs. Frey's parents, Mr. and Mrs. A. J. Stratton, and other relatives. Norman has been serving with the armed forces, but was released for agricultural work.

Mr. and Mrs. J. E. Bicknell, Mr. and Mrs. J. W. Laningham and Mrs. Walter Price visited in the home of Mr. and Mrs. Floyd Kirk of Wichita Falls last week. George Hunt of Norman, Okla.,

was here last week on a furlough to visit his wife and daughter, his parents, and other relatives. The Hunt boys were fortunate in securing furloughs so they could be home at the same time.

Mr. and Mrs. Ed Jones visited in Wichita Falls one day last week.

Mrs. Joe Lee Stratton and Mrs. Jack Carter visited Joe Lee Stratton at Camp Barkeley last Sunday. Joe Lee is with the air force there.

W. M. Mayo, who has been a patient in the hospital at Wichita Falls, is at home and is improving.

Donald Vaughn came in from New Jersey last Monday morning. Donald is serving with the naval forces and secured a furlough to visit relatives here.

Mrs. L. D. Bosman and Mrs. Don Alexander, both of Silverton, and Mrs. Wayne Crawford, also of Silverton, visited their parents, Mr. and Mrs. J. C. Morton last week. Mrs. Crawford had recently returned from Madison, Wis., where she visited her husband who is in training there.

Mrs. Georgia Maples and Mrs. Elizabeth Cowsar visited in the home of Mrs. Jennie Horton of Knox City last Sunday.

## You Are Invited to Our OPEN HOUSE

TO SEE OUR NEW EQUIPMENT

Friday Night, April 23  
 8:30 O'clock

We've added new tire re-capping equipment that we want to introduce to the people of this territory, so we're staging an "Open House" to acquaint you with how your tires are handled in our shop.

## The O. K. "Treadwelder"

This is our new precision-built tire re-capping machine that we got in last week. It's the very latest machine, that has no superior on the market.

## See It In Operation . . .

See this new recapper and other equipment in operation during our Open House. See the tires repaired, buffed for the new tread and actually recapped on our modern electric machinery. We'll explain how the various operations take place, the shape your tire should be in for best results in recapping. . . and why we can give you recapping jobs with A Money-Back Guarantee.

Our equipment has been re-arranged, tire racks built and everything put in order for this Open House. We're expecting you and your friends.

## Refreshments For All

We hope to be able to serve light refreshments to all who come. . . to show you all a good time, and send you away with a better knowledge of the tire service we are rendering our customers.

### SENIOR NEWS

We've given you a few facts about five of the Seniors and this week we have the sixth, Urban Bellinghausen. Urban is five feet and eleven inches tall, has blonde hair, blue eyes and weighs 160 pounds. He says he'll be glad when school is out. (Won't all of us!) Urban's favorite pastime is studying business law, and he can't keep his mind off Fort Worth. "One subject is about the same as another," says he. "But bookkeeping seems to be always hard." Now you know who Urban is, and a few characteristics of this Senior boy.

### Humor

"Say, waiter, this coffee is nothing but mud."  
"Yes, it was ground this morning."  
Did you hear about the little morone who took the street car home? (His mother made him take it back.)  
Jones: "I've had this car for years and never had a wreck."  
Smith: "You mean you've had this wreck for years and never had a car."

### JUNIOR REPORT

We are reviewing for state exams. We (will) hope to pass them, and will be glad when they are over.  
**We Wonder Why**  
Everett had a spoon in school Monday. (We all know that he's a baby.)  
Alvin doesn't like to be called a sissy.  
The Senior boys all had pipes Monday morning. (You all are not that old, or is it a toy?)  
Anna was happy last Friday.  
Alvin and Everett look sad when it rains. (The roof is fixed now.)

### SOPHOMORE REPORT

State tests are drawing near and everyone is studying hard to pass them.  
We have finished essays in our prose and poetry and are having tests over them. In Algebra we

have taken up square root. Everyone seems to think it is easier than anything else in the book.  
Easter will soon be here. Then we'll be seeing the girls parading around in their new Easter bonnets.  
The Sophomores wish to take their opportunity in wishing each and everyone a very happy Easter.

### We Wonder

If Magdalen is coming back to school.  
Why "Pete" (Rosemary) is always gazing out of the window at a green car.  
If the plans for the banquet will ever be made.

### FRESHMAN NEWS

Gosh! exams are really approaching quickly. It won't be long now and we won't have to worry about them anymore during this term of school.  
We are all beginning to wonder whether we are going to have summer or winter. From all appearances we are going to have winter the year round.  
Here is a joke we thought you would enjoy reading:  
The superintendent of an insane asylum noticed an inmate pushing a wheel barrow upside down.  
"Why do you have it upside down?" he asked.  
"You don't think I'm crazy, do you?"  
"No, the reply. "I pushed it right side up yesterday and they kept filling it with gravel."

### REPORT OF ROOM III

Our border designs are almost completed. Far our front board we have chosen tulips. The side boards we have rabbits.  
We are anxious for Easter to arrive for two reasons: so we will be finished with exams once more and so we can enjoy the Easter holiday.  
**We Wonder Why**  
Carl Franklin likes to go to Knox City? Who lives there Carl?  
Betty Lou was so happy this week.  
John Ed has so many punishments to due for room II.

A large war map, showing daily changes in battle fronts, has been placed in the Texas Union at the University of Texas by the Campus War Council as a means of keeping students informed on the progress of the war.

**Demonstration Is Given On Monday At Goree School**  
An upholstery demonstration was given by Lucille King, county home demonstration agent at Goree school auditorium on Monday, April 13, 1943, to the women of Goree and Miss Barton's Homemaking class.  
A sunken seat chair was used for the demonstration. Springs from an old car seat were used and put in the chair. The springs were tied and the chair was padded with moss and cotton. The girls were especially interested in learning to do the upholstery. They plan to do some similar work on their homemaking equipment.  
An antique chair was displayed by the agent, which attracted the attention of the women and girls. A footstool was also displayed which was made by agent from a box frame.

## On The Home Front

O.E.M. Division of Information

As of now, here's a pretty good look at the food picture for 1943: Compared with 1942 and roughly estimated on the basis of prospective 1943 output, civilians this year will receive about 11 percent less meat; 27 percent less canned and shell fish; 21 percent less butter; 11 percent less cheese; 15 percent less canned milk; 51 percent less canned fruits; from 3 to 25 percent less of various fresh vegetables; 27 percent less canned vegetables; 6 percent less dry beans; 22 percent less sugar; 21 percent less rice; 29 percent less coffee; 60 percent less tea; and 12 percent less cocoa.

Civilians will have about the same amount of fresh and frozen fish, eggs, turkeys, fluid milk and cream, lard and other cooking fats, fresh citrus fruits, canned fruit juices, dried fruits, tomatoes, potatoes and sweet potatoes, corn, oats and barley for human consumption.

Civilians will have 30 percent more chickens; 57 percent more margarine; 9 percent more apples; 13 percent more frozen fruits; 7 percent more wheat; and 13 percent more rye.

Three-quarters of the total 1943 output will go to civilians, the rest to our own fighting men and allies. Assuming average weather, 1943 food production will probably be at least 3 percent greater and maybe 8 or 10 percent greater than in 1942.

Barring widespread crop disaster, the kinds of food troubles that will affect most American civilians in 1943 will not menace life

or health.  
To many civilians, the tire situation remains confusing today, but to the people who are familiar with the widespread ramifications of the serious rubber situation, it remains a familiar story—a story which had its beginning in the Jap attack on the United States at Pearl Harbor.

There is absolutely no cause for optimism. It is no secret that thousands upon thousands of certificates are in the hands of motorists now with no tires available for purchase.

In a summary of the situation this week, the Office of War Information flatly stated: "The great bulk of the nation's 27,000,000 civilian passenger car owners are not going to get any new synthetic tires before at least the last half of 1944."

It is expected that some synthetic tires will be available for essential civilian driving by September, 1944, but how many is still an open question. The answer will depend upon progress in manufacture, in which there are still many uncertainties.

Civilians will not get any newly-manufactured crude rubber tires even then, and probably not until after the war ends, when military requirements for the natural product will have abated.

Supply of tires now on hand is limited to those manufactured prior to Pearl Harbor and still in stock, a small supply of "victory" or war tires, and about 5,000,000 tires collected through the life tire purchase plan, most of which require repairs or recapping. All of these tires together represent about one-half a tire for every car now in operation.

The five tires now in the possession of the average owner, multiplied by 27,000,000 car owners, in general constitutes the nation's priceless civilian automobile rubber reserve.

The 150,000 pressure cookers which will be produced in 1943 will be rationed by county farm rationing committees or by sub-committees established for urban areas. The Agriculture Department is urging families to use cookers jointly.

The Agriculture Department also announced this week that peanut pickers and farm fencing have been removed from the rationed list.

## Advice Is Given To Vacationists

AUSTIN — Some timely advice to vacationists and picnickers was released from the State Health Department today by Dr. Geo. W. Cox, State Health Officer.

It was pointed out that, in view of wartime restrictions, vacation pleasures are apt to be limited to excursions and picnics at nearby lakes, rivers, and ponds of unfamiliar depths and currents, and without the usual lifeguard supervision associated with bathing beaches and commercial swimming pools.

"Swimming and water sports are beneficial to good health provided one's physical condition justifies this type of exercise," Dr. Cox asserted, "nevertheless, they possess dangerous possibilities if the rules of safety are disregarded."

The following simple rules for bathing and swimming in safety were suggested: at least one hour should elapse after a meal before entering the water; never dive into unfamiliar waters; upon the first indication of fatigue, come ashore and don't re-enter the water; leave the water immediately, if chilled; do not enter the water when overheated; learn to float; never attempt to rock a boat in a spirit of fun; never swim in water that may be polluted. Swimming close to or even a few miles below sewage outlets is inviting the possibility of acquiring diseases.

"Excursions, picnics, and swimming parties contribute much to a healthy, happy, normal life, which is especially desirable at this particular time when the whole nation is under the strain of war," Dr. Cox said. "It is by no means advisable to eliminate

these excursions from our summer program, but it is important that they prove beneficial and not disastrous.

Mr. and Mrs. I. L. West and Lennie had as their guests last Sunday, Mr. and Mrs. Elzie Jackson and baby daughter, Judy Carolyn, of San Diego, Calif.; Mr. and Mrs. A. A. Clark of Dallas, Mr. and Mrs. L. H. West of Weatherford, Mr. and Mrs. O. A. West and family of Munday and Mr. and Mrs. W. D. West and family of Benjamin.

Mrs. R. J. Modlin of Jackson, Tenn., is here this week for a visit with her sister, Mrs. E. H. Mullican, and with other relatives.

Mrs. Don Phillips and little daughter, Donnell, visited with relatives in Seymour last Saturday.

Mr. and Mrs. L. W. Hobert went to Dallas last Tuesday to take their son, Donald, that far on his way to Little Creek, Virginia, where he is stationed. Donald spent some two weeks here with his parents.

## EXEMPT SALES BY FARMERS

A farmer who sells not more than \$75 worth of foods per month to country shippers or to consumers is exempt from price control recently established for seven fresh vegetables. If the farmer is a country shipper, he is subject to the price regulations.

Mrs. E. M. Roberts and children returned to their home in Amarillo last Friday after several days visit here with Mrs. Roberts' father, W. H. Atkinson, and other relatives.

Mrs. T. P. Frizzell of Knox City was a business visitor here last Saturday. Mr. Frizzell is chairman of the war bond committee for Knox county.

Mr. and Mrs. Leland Hannah and Mrs. G. R. Eiland were business visitors in Wichita Falls last Thursday.

Mr. and Mrs. C. R. Elliott returned home last Friday from Eddy, Texas, where they spent several days with Mr. Elliott's mother. They also visited relatives at other points while away.

## For Sale

6-room house with bath, close in, together with lot. Will sell worth the money.

Also brick building, 50x110 feet. Priced right!

## Harry Holt Is Guest of Company C At Maneuvers of Texas Defense Guard

The following article taken from the Abilene Reporter-News was written by Harry Holt, staff writer, who was a guest of Company C, Munday, during maneuvers at Throckmorton last week end:

**THROCKMORTON, April 18.**—With an early morning start after breakfast at the 4,500-acre ranch of Major J. N. Knight, about 15 miles southeast of here, and attending church services under the direction of Chaplain Frank Crown of Rule, the Texas Defense Guard continued the second day of problem maneuvers Sunday.

Saturday's problems included attack-defense maneuvers with Companies A, B, C and D, from Throckmorton, Olney, Munday and Bryan respectively, and night problems relating to sound and light.

One of the truly veteran warriors on maneuvers is Lt. R. F. Horan of Company C, one of three survivors of the famous "Lost Battalion" of World War I. Unable to pass the physical test to get in this scrap, Horan, an infantry sergeant in the last war, joined the Defense Guard instead.

He spent five days in a fox hole during the time his battalion was cut off by the Germans and saw

42 of the 98 men trapped picked off by snipers, mainly because they became impatient and peeped out of the holes.

**Overseas 18 Months**  
Horan was overseas 18 months with the 42nd Division, better known to Americans as the famous Rainbow Division—a southern outfit that always went into battle stripped to the waist. Horan says few of the stories concerning the Rainbow have been exaggerated, as it was truly a colorful outfit. He was living at Sweetwater, working as engineer for a light company, at the time he went into the war.

In reading newspaper accounts of the present-day battle, Horan knows full-well the meaning of dispatches telling of difficulty in moving artillery because of mud. It was mud and rain that prevented artillery from being brought up to rescue the "Lost Battalion," and finally the artillery that did come to the rescue.

Horan is a tractor mechanic at Munday and carries the mail from the postoffice to the depot, a job he has had seven years.

Another officer in the Munday outfit, Lt. C. C. Jones, likewise is a World War I veteran. He was overseas with the 36th Division, a Texas-Oklahoma outfit, 10 1-2 months. He now is engaged in farming.

Munday really supports its Home Guard company. The city furnishes a major portion of the expense incurred on maneuvers, and the county provides transportation and pays \$25 monthly toward expense.

**Ration Points**  
The Knex county rationing board also has been good to the company, allotting it 5,000 points for purchase of food during the year. You never saw as much

### HAD OPERATION

Miss Maud Isbell submitted to a minor operation at the Wichita Falls clinic hospital last Friday. She is reported to be doing nicely and hopes to be recovered to the extent that she can come home soon.

"grub" in your life as Company C unloaded when it pitched camp just east of headquarters, on Bush Knob.

The company is not lacking from cooks, either. Otis Simpson is the capable mess sergeant, and lending a helping hand was G. S. Wyatt, a company mess sergeant in the last war. He is not a member of the guard, however, but goes along to help out.

When Major McKnight brought along one of his fine saddle horses for Major Bryan, guest observer, to ride, Bryan was a little hesitant to accept. He confided to a few that it had been 20 years since he had been on a horse. Being a good soldier, however, he never let on and mounted the horse just as though he was getting into his car.

Dr. I. W. Fires of Throckmorton battalion physician, came prepared for the most deadly enemy of the outfit—rattlesnakes. He carries a pocket full of serum. However, due to the cool weather, few snakes were on the move. Fires made the trip in his 1929 model A Ford which he uses for rural calls when the roads are in bad condition.

An officer in Company A, Throckmorton, is the brother of Lt. Governor Lee Smith. He is Lt. Henry L. Smith, operator of a store here.

The problem map was not prepared by an amateur. Lt. C. G. Bailey, who did the work, is a geologist for a major oil company and experienced in that work. He also was prepared for rattlesnakes, carrying a couple of first-aid kits.

## Texas Quota Of Bonds Given At \$400,000,000.00

AUSTIN.—Frank Scofield, War Bond Administrator for Texas announced today that he had received notification from President Gilbert of the Federal Reserve Bank for the Eleventh Federal Reserve District stating that our quota for the Second War Loan Drive, April 12 to 30, inclusive, for the Eleventh District would be \$400,204,000 as a minimum.

Scofield expressed the hope that the total subscriptions by individuals, corporations, and banks in Texas alone will exceed this amount by quite a good deal, and he urged every one of his 254 County Chairmen and their committees of the War Bond organization to put forth every effort to see that Texas exceeds by far its proportionate amount of the \$13,000,000,000.00 allotted to the nation.

Scofield further states that he is very proud of the wonderful record that the War Bond Chairmen of Texas have made in the past twelve months in the sale of bonds and stamps throughout the State. A wire has just been received from the Secretary of the Treasury, Mr. Morgenthau, congratulating Texas on being one of the top states in the Union in exceeding their quota for the month of March in the heaviest income taxpaying period in the history of Texas. Mr. Scofield releases Series E

## On Second Part Of Training For Double-Threat Man

Taking a further step in the Army Air Forces specialized training program, Second Lieutenant Willie C. Cooper, son of Mr. and Mrs. J. F. Cooper of Route 3, Haskell, Texas, has reported to the navigation school at the Carlsbad Army Air Field, Carlsbad, New Mexico.

Awarded his bombardier wings at the Victorville, California Advanced Flying School, Lieutenant Cooper begins the second part of his intensive training to become a "double-threat" man—a highly skilled air crew officer able to direct a plane to its objectives and also drop the bombs in the right place at the right time.

### HOME ON FURLOUGH

John R. Rayburn, who is stationed at Camp Shelby, Miss., left Thursday of this week for his post after spending about a week with relatives and friends here. Mrs. Rayburn accompanied him back to Mississippi, and will make her home near Camp Shelby.

War Bond Sales of \$27,014,554.25 for the month of March against a quota of \$24,500,000.00 for Texas. This represents an increase of 10.2 per cent over the quota despite the impact of Income Tax payments. March sales rank with December 1942 and January 1943 among the top three months in E War Bond sales history. The people of Texas are responding to the appeal "It takes both—Taxes and Bonds."

### CARD OF THANKS

In sincere appreciation for every kindness, we attempt to express our thanks to each and everyone who administered to our relief and comfort during the illness and in the death of our loved one, Mrs. Mary Alice Hayes. We deeply appreciate every act of kindness, every word of comfort, and we pray God's richest blessings on you all.

Mrs. Alice Jacobs, Snyder, Chester H. Jacobs, St. Louis, Ok. W. A. Jacobs, Electra, Mrs. Lyla Milson, Cotton Center, Johnnie Jacobs, Snyder.

Mrs. Freida Jones of Wichita Falls was a business visitor here last Saturday.

### RETURNS TO POST

Miss Louise Atkeison, who is in the WAAC and stationed at Miami Beach, Fla., left last Friday on her return to her post of duty after spending her first furlough here with her father, W. H. Atkeison, and with other relatives and friends.

Mr. and Mrs. Burt Stapp and family of Leuders visited in the home of Mr. and Mrs. Raymond Stapp last Sunday.

Sgt. Harvey D. Arnold, who is stationed at Camp Berkeley, visited with friends here and with his parents, Supt. and Mrs. H. D. Arnold of Goree, over the week end.
