

The Munday Times

VOLUME 39

MUNDAY, KNOX COUNTY, TEXAS, THURSDAY, AUGUST 12, 1943

NUMBER 7

Local Canning Centers Have Been Very Busy

Knox county canning centers have already passed their proportionate part of the 4 million cans of food the government asked the War Production Training Program in Texas to be responsible for. The eight canning centers in the county have reported more than 22,000 cans of food processed by 363 families. Part of these centers will also put on a fall program.

More than 600 of these canning centers have been run under the direction of vocational agriculture teachers of Texas, and more than 5 million cans of food have already been processed in these plants. With the fall program ahead, vocational authorities believe that the state will double its quota before January 1.

Munday, Sunset, Knox City, O'Brien, Union Grove, Benjamin, Truscott, Vera and Rhineland have operated canning centers to date. Other communities interested in centers for fall canning should make application to G. S. Dowell, vocational agriculture teacher at Munday, during the month of August, as the new program will be ready to start operation by September 1.

Revival Opens Wednesday At Church of Christ

The summer revival meeting opened on Wednesday night of this week at the local Church of Christ. A good crowd was present for the opening service.

Minister Floyd J. Spivey of Greggton, Texas, is doing the preaching during the revival. This is Minister Spivey's fifth meeting at the Munday church, and local people have always shown an interest in his splendid messages. A good revival is expected under his leadership.

Nolan Phillips is in charge of the song services. Services are being held at ten-thirty each morning and at nine o'clock each evening. The public is extended a cordial invitation to attend these services.

Knox County Hospital Notes

Patients in Knox county hospital Monday, August 9, 1943:

- Mrs. John L. Snow, Munday.
- Mrs. Ernest Barnett, Knox City.
- Mrs. Glen Caddell, Weinert.
- W. M. Bledsoe, Weinert.
- Mrs. Dearl Edge, and baby daughter, O'Brien.
- Mrs. J. S. Walton, Rochester.
- Mrs. Nora Hinton, Rochester.
- Mrs. Andrew Hendley, Munday.
- C. P. Benedict, Graham.
- Mrs. Loyd Lemley, Munday.
- J. P. Saunders, Knox City.
- Mrs. Palo Sueck, Rochester.
- Chester Bowden, Munday.
- Mrs. W. R. Sanderson, Knox City.

- Mrs. R. L. Myers, Munday.
- Mrs. Henry Thompson, Munday.
- Mrs. Joe Smith, Rule.
- Mrs. Frank Glover, Benjamin.
- Mrs. J. L. Armstrong, Knox City.

- Mrs. C. B. Whitis, Elbert.
- Ernest Kinnibrough, Vera.
- A. C. Nichols, Vera.
- Births**
- Mr. and Mrs. Dearl Edge, O'Brien, a daughter.
- Mr. and Mrs. F. F. McBeth, Knox City, a son.
- Mr. and Mrs. E. E. Spicer, O'Brien, a daughter.
- Mr. and Mrs. A. D. Hodges, Knox City, a daughter.

Revival To Begin At Union Chapel

Announcement was made Thursday that a revival meeting will open at the Union Chapel Methodist church, located in the edge of Haskell county, next Monday night. Services will be held at 9:45 o'clock.

Rev. Luther Kirk, pastor of the Munday Methodist church, will do the preaching for this meeting, which will run throughout all of next week. The public is cordially invited to attend all of the services.

Joe Albertson Named Coach of Munday Moguls

Joe Albertson, son of Rev. and Mrs. W. H. Albertson of Munday, was elected as principal of the Munday elementary school at a recent meeting of the school board. Albertson will also serve as coach of the Munday Moguls in their athletic activities during the school term.

Albertson is a graduate of Munday high school and of Howard Payne College at Brownwood. He taught in the Sagerton schools last year.

Albertson joined the armed forces after completing his school year, but was discharged several weeks ago because of injuries received in an accident.

School Opening Dates Are Given

With two schools of the county already in progress, opening dates of the remaining schools were announced Wednesday by Merick McGaughey, county superintendent.

The 1943-44 term of school opened last Monday at Sunset and Rhineland. The schools will run for a while and then be dismissed for cotton gathering.

Opening on September 6th will be Benjamin, Union Grove, Brock, Knox City, Munday and Truscott. August 23 is the date set for opening the Hefner, Vera and Goree schools, while Gilliland will begin its school year on August 30.

Degree Awarded To G. S. Dowell

G. S. Dowell, vocational agricultural teacher in the Munday public schools, has received the highest award of vocational agriculture and Future Farmers of America by being named a Lone Star Farmer. Dowell was one of five men to receive the degree at a regional meeting at Lubbock on July 26.

He is also a member of Alpha Tau Alpha, the Agriculture Greek Letter Society of America, an organization which admits to membership only men of high scholastic attainment and outstanding service to the Science of Agriculture.

BILDBERBACK CHILD IS BITTEN BY DOG

The five-year-old son of Mr. and Mrs. Jack Bildberback, who reside near Goree, was bitten by a dog while playing on Thursday of last week. The child received a painful wound on the upper lip, and he received medical treatment at a local physician's office.

The dog was killed and his head was sent to Wichita Falls for examination. No indication of rabies was found.

Will Ratliff left Tuesday morning for Dallas, where he is undergoing medical treatment.

Before leaving for Hollywood and a probable movie career, pretty Elsie Roberts, National Bond Queen and University of Houston coed, did her part for the Texas Deposit Bottle Round-Up. Dressed in typical Texas costume, Elsie loaded into a basket all the milk, carbonated beverage and beer bottles in her home, mounted the beautiful Palomino horse, on which she is pictured, and rode to her beverage dealer. "Keeping deposit bottles working is not only a patriotic duty," Miss Roberts said, "but I'll get my deposits back which can be invested in War Stamps."

BONDS OVER AMERICA

In San Antonio, Texas, stands a mission fort of which is written: "Thermopylae had her messenger of defeat, the Alamo had none." 182 men gave their lives here in 1836.

Alamo Chapel

How many relics, dear to the hearts of millions of Europeans, Hitler has wantonly destroyed? Thousands of shrines linking the present with past glory have been smashed to rubble.

Be Ever Alert Buy War Bonds

NOTICE TO PARENTS

All children entering the Munday Public Schools for the first time this year must have small pox vaccination and tests for diphtheria before registering for the school year.

School authorities stated it would be necessary for all new students to have a negative Schick test for diphtheria, as well as proof of a successful vaccination for small pox.

This rule, which has been practiced by the local school for several years, has been successful in preventing a spread of these diseases among school children.

Brother Of R. B. Davy Dies In Tennessee

R. B. Davy, local druggist, was notified last week of the death of his brother, R. D. Davy, at his home in Jackson, Tenn.

Mr. Davy, who was 70 years of age, died at eight o'clock last Friday evening. He had been in poor health for about two years. He had never married and made his home with a nephew and niece, Mr. and Mrs. R. W. Parker.

R. B. Davy is the only survivor of the original Davy family. Due to his health and also due to travel conditions, Mr. Davy was unable to attend the funeral of his brother.

Cassidy Cafe Is Opened Saturday

The Cassidy Cafe opened last Saturday in the Broach building, which was formerly occupied by Coates Cafe.

The building has been thoroughly gone over and all equipment was installed, being completed just before the opening on Saturday.

Mr. and Mrs. Cassidy reported Monday that they had been called back into government work, and that the newly opened cafe is for sale. The cafe has been enjoying a good business during the few days it has been open.

Pvt. and Mrs. G. W. Hawkins of Lubbock spent the week end here with Mrs. Hawkins' mother, Mrs. J. B. Bowden, and other relatives.

Keep Up With Rationing

RATION REMINDER

GASOLINE—In 17 states of eastern shortage area A-6 coupons are now valid. In states outside the eastern shortage area A-7 coupons are valid through September 21. All gasoline coupons in the possession of car owners must be endorsed with the owner's license number and state of registration.

SUGAR—Stamp No. 13 good for 5 lbs. through August 15. Stamp No. 14, good for 5 lbs., becomes valid August 16 and remains good through October. Stamps Nos. 15 and 16 are good through October 31 for 5 lbs., each for home canning purposes. Housewives may apply to their local ration boards for more if necessary.

COFFEE—Ration stamps no longer required.

STOVES—Purchase certificates now issued and normally valid for 30 days from date of issuance, will be invalid after August 23, by which time it is expected the new nation-wide stove rationing plan will be in effect.

FUEL OIL—Period 5 coupons valid in all zones through September 30. Period 1 coupons in new fuel oil rations became valid July 1 and are good for ten gallons each.

SHOES—Stamp No. 18 (1 pair) is valid through October 31.

MEAT, ETC.—Red stamps T, U and V, now valid, expire Aug. 31. W is valid August 15, expires August 31.

PROCESSED FOODS—Blue Stamps, R, S, and T became valid August 1 and remain valid through September 30.

Munday Boy Is Missing In Sicily Battle

Mr. and Mrs. Mike Rogers of Munday received word last Friday from the adjutant general's department that their son, Mike Dean Rogers, was reported missing in the battle on the island of Sicily.

The telegram informing them that their son was missing read as follows:

"I regret to inform you report received states your son, Tech. Sgt. Mike Dean Rogers, missing in action in Sicily since July 10. If further details or other information of his status are received you will be promptly notified."

Meeting Will Close Sunday at Baptist Church

The revival meeting which is now in progress at the First Baptist church in Munday will be brought to a close with the services next Sunday.

Increasing crowds and good interest have been reported in the services this week. There have been a number of conversions and a number of additions to the church, and all indications are that this will be one of the most successful revival campaigns held at this church in recent years.

Rev. H. R. Whatley of Haskell is holding the interest of all who attend the services through his clear interpretations of the Bible. Many say that he is one of the best Bible preachers they have ever heard, and many are receiving blessings through the services.

"Only a few services remain in the revival, and we urge everyone to be much in prayer during the remaining days of the meeting," Rev. Albertson, the pastor, said. "Although our crowds are increasing daily, there are a number whom we have not seen at the services, and we extend you a cordial invitation to attend the remaining services."

Permanent School Fund Distributed

A total of \$670 was distributed to schools of the county from county available school fund. This was distributed to each and all schools of the county upon the basis of 25 cents per student, as shown by the 1942-43 census.

County available fund is derived from interest on investment of the county's permanent school funds. This fund is invested as follows: \$2,400 in Truscott school district bonds; \$6,900 in Rhineland school district bonds; \$5,200 in Everman school district bonds; \$2,800 in U. S. savings bonds. There remains \$412 in cash in this fund.

Mr. and Mrs. C. R. Hendrix returned home last week from Boise, Idaho, where they visited Sgt. Clyde R. Hendrix. Since returning home Sgt. Hendrix has telegraphed his parents that he is now at the Sioux City, Iowa, army air base.

12 County Men Go Into Armed Service

Mrs. Mark Allen Dies Wednesday At Goree Home

Mrs. Mark Allen, one of the oldest pioneers of this section, died Wednesday afternoon at her home in Goree. Mrs. Allen had been in good health until about a week ago, when she was injured in a fall.

Born on August 21, 1847, Mrs. Allen was 95 years, 11 months and 20 days of age. She had resided in Throckmorton and Knox counties for the past 60 years. Her husband died in 1904.

Mrs. Allen had been a member of the Baptist church for about 80 years and was a faithful member until her death.

Surviving are four sons and four daughters, who are: C. B. Allen of Sweetwater; J. E. Allen of Wichita Falls; Frank and Hill Allen, who reside on their ranches south of Goree; Mrs. A. H. King of Throckmorton, Mrs. E. B. Crites of Paris, Mrs. Elmo Parks of Dimmitt, and Mrs. Lloyd Stewart of Goree.

Funeral services were held from the First Baptist church in Goree at two o'clock Thursday afternoon, conducted by Rev. S. E. Stevenson, pastor. Burial was beside her husband in the Throckmorton cemetery.

Munday C. of C. Meets Wednesday

Seventeen members and guests were present at the regular monthly meeting of the Munday Chamber of Commerce at noon Wednesday. The organization has been meeting at the Easley Cafe for the past several months.

Committees which had been appointed made reports on work being sponsored or discussed by the organization. Among these are: repairing Munday's paving, proposed hard surfaced road from Munday to Throckmorton, re-organization of the local Boy Scout troop, and erecting an honor roll on the city hall lawn listing the boys now in the armed services from Knox county. Some progress is being made on these projects, according to the committee reports.

Guests at the meeting were Rev. H. R. Whatley of Haskell, Rev. W. H. Albertson, and Peter Fast of Wichita Falls. Rev. Whatley made a very interesting talk, and in closing Mr. Fast led the group in singing "God Bless America."

WIFE SUFFERS PAINFUL BURN

Mrs. W. M. Mayo suffered a very painful burn on her right hand Wednesday, caused by hot grease. She was given first aid treatment by a local physician and latest reports state she is doing nicely.

Twelve men from Knox county entered the armed services on Thursday, July 23. The men and their branch of the service are as follows:

Into the Army: Richard W. Blake and Jerry Becker Moorhouse.

Into the Navy: John Granville Lewis, Charlie H. Keck, Benjamin Leo Taylor, Reuben Edd White, James W. Melton, Jr., Manuel Holgin, Grady Scott Tomlinson, Robert Leon Tuggle and Clyde Glenn Wallace.

Into Marine Corps: William Lloyd Feemster.

Area Pledge Is Made to McMurry College Fund

Local Man Is Named Dist. Chairman

Rev. Sam Young, district superintendent of the Stamford district of the Methodist Church, together with a number of pastors and laymen from over the district, met in a called session last Friday evening at the Haskell Methodist church, with Dr. Harold G. Cooke, president of McMurry College and Mr. Alfred T. Snoke, campaign executive secretary, for the purpose of perfecting the District Organization for the McMurry College \$1,750,000.00 building and endowment fund campaign.

From this meeting, pastors and laymen went back to their own churches to build a complete working organization within each church of the district.

District officials elected at this meeting were: Mr. Lee Haymes, of Munday, district chairman with Rev. Young as co-chairman. Zone chairmen were elected as follows: Northeastern zone: Mr. Austin Caughran of Munday, chairman, Rev. Kenneth Copeland of Haskell, co-chairman; Central zone: Mr. G. W. Coates of Knox City, chairman, Rev. Hugh H. Hunt of Rochester, co-chairman; Northwestern zone: Mr. J. M. Robertson of Aspermont, chairman, Rev. H. L. Thurston of Spur, co-chairman, Mr. O. E. Patterson of Haskell was elected Special Gifts chairman for the district.

Dr. Cooke and Mr. Snoke are covering the entire area of the Northwest Texas Conference, and each district will be organized on a similar basis.

When Dr. Cooke came into the presidency of McMurry College last January, he, with executive Board of Trustees of the College began to study the advantages of undertaking a campaign that would challenge the Methodists and all other people of West Texas and New Mexico who are interested in McMurry College.

At the time of the spring commencement, the board unanimously voted to adopt the campaign recommendation, and appointed a committee to make a study of and lay the basic plans. The idea met with enthusiastic response through out the area and many have expressed the belief that the time is ripe to provide for an adequate endowment and to take care of the building and equipment needs of an enlarged program at McMurry following the war.

Spann Tailor Shop To Close Saturday To Make Repairs

John C. Spann, owner of the Spann Tailor Shop, announced Tuesday that his shop will close on Saturday, August 14, for a period of two weeks. During this time the shop will be gone over and many repairs made to the machinery.

"We find it necessary to make needed repairs in order to operate our machinery during the fall and winter months," Mr. Spann said, "and this can be accomplished only by shutting down until everything is completed."

"We ask everyone having clothes in our shop to get them by Saturday night. We hope our closing won't inconvenience you too much, and we'll be better able to do your work when we open again on August 29."

"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"

THE SHANGRI-LA

The United States Navy, instigated and abetted by that lover of naval lore, Franklin D. Roosevelt, is about to break a tradition. There are fairly strict rules for labeling ships of war: a battleship is called after a State, a heavy cruiser rates a big city, a light cruiser a small city, a destroyer honors some naval hero or some distinguished friend of the navy, and a submarine takes the name of a fish or some animal that is at home in the water. Aircraft carriers enjoy more freedom, for they can be named after early fighting ships of our Navy or after battles. Thus the Saratoga, the Bonhomme Richard, the Kearsarge. But until now no ship has been named after an imaginary place, the creation of a story-teller's dream.

One is going to be so entitled. It is, of course, the Shangri-La. In a moment of inspiration President Roosevelt told the reporters that the planes which bombed Tokyo took off from this never-never land of James Hilton's invention. Actually their starting point was the rolling deck of the Hornet, later lost in the Midway fight. So the new aircraft carrier, for which we are all being asked to buy an extra dollar's worth of war savings stamps this month, will bestow a triple honor: on Mr. Hilton's bold imagination, on the lost Hornet and on the men who carried out what was probably the most spectacular air raid of history.

Subscriptions for the Shangri-La are now well past the half-way mark. We are promised that her planes will take part in another attack on Tokyo—exact date withheld for reasons of security. Those who haven't contributed their dollars should do so at once. We don't wish to keep the Japanese waiting.—The New York Times.

OUR RESERVOIR OF BRAINS

One small army of war workers, of whose existence we are more or less vaguely aware, is the group of American scientists who have worked tirelessly to overcome shortages of critical and strategic materials.

So successfully have they executed their tasks that the War Production Board is able to announce, as it has recently, that supplies of such materials had been increased to such an extent that no matter how long the war lasted, the United Nations generally would have enough to meet military needs.

Metallurgists and mineral experts are winning the Battle of Materials and proving that American technologists are more versatile and more comprehensive than German scientists. "These men of science" the WPB said in an announcement, "have broken such potential bottlenecks as the shortage of quartz crystals... they have stepped up aluminum production... they have made possible enormous quantities of magnesium... Other similar and related activities have resulted in desperately needed increases in other critical materials and metals, including copper, chrome, manganese, and rubber."

These men have had the facilities and training of industry's largest research departments behind them. For American industry, always searching for new ideas, realizes the stark necessity for inventiveness now. It is that spirit of scientific pioneering which gave us the world's highest standard of living that now backs up our scientists in the nation's interests.

THE KING CAN DO NO WRONG

During the past spring, this country has witnessed some of the worst floods in years—some of the worst on record—through Midwest states.

Some of the very worst floods were in territories served by government-owned dams, the excuse for building which was given as flood control, when in reality the primary purpose of the dam was for government-owned hydro-electric plants.

Any child who has built a dam in a roadside drainage ditch knows that it will hold back water until it is full. After that, the amount of water flowing below the dam is exactly the same as the amount flowing into it.

A hundred-million-dollar flood control dam "for power development" works on the same principle as the dam built of mud and sticks by a five-year old child. The only difference is that the hundred-million-dollar dam can ruin the property of innocent people for miles around when it is kept full for electric development instead of empty for flood control.

There would be redress against a private corporation that deliberately deceived the public, but as the king (the government) can do no wrong, a private citizen is helpless in seeking redress.

THE WIDER VIEWPOINT

One thing of which we may be proud is the attitude of our businessmen and industrialists towards industrialization in the other nations of the world.

To counter any possible charges of nationalistic industrial monopoly or short-sighted selfishness we have a statement from the National Association of Manufacturers pamphlet, "Jobs, Freedom, Opportunity."

"These changes which have so notably shrunk the size of the world as far as economic and social relations are concerned, have made it very clear that sustained prosperity and well-being in most parts of the world must depend on the maintenance of world-wide peace and order.

"No country can long be prosperous if the peoples of other nations are unable either to buy its products or to supply it with the materials needed for its own development. Nor can any people achieve its greatest prosperity if there is economic stagnation in other countries."

POSTWAR PLANNING NOW

The more a company looks into postwar planning the more it uncovers the danger of letting postwar planning slide. After its first duty toward winning the war, the second duty of enterprise is toward securing the peace.

With this in mind, a large section of American management is devoting its overtime to postwar thinking and planning. It will be as big a job to get enterprise out of the war as it has been to get it in.

Fortunately, management recognizes this and knows that the only way to get planning done in time is to start right now. The larger firms are leading the way, with small companies not far behind. Whether large or small, they want to know where they are going and they feel that their employees too, have a right to know about the future.

They don't want the inexperienced, impractical blueprints of the future to plan them right out of the picture, leaving jobs and materials on paper and nowhere else. Theirs are the plans of men successful in peacetime production, in wartime production, and in every likelihood, in postwar production.

REAL CONSERVATION

Americans are learning the meaning of conservation. They are learning from an exacting teacher—war. War has in a matter of months switched this country from a nation of abundance to a nation of scarcity, as far as civilians are concerned. And where there is scarcity, there must be conservation. Automobile owners cannot burn up their cars with speed as they were wont to do a few years ago. Housewives cannot carelessly demolish household appliances, or toss out surplus food.

The new effort to conserve must reach farther than slow driving and eating the last crust of bread. It must reach into one of the most important existing fields of conservation—fire prevention. Several hundred millions of dollars worth of property is destroyed each year by fire. The bulk of that loss is sheer criminal waste, brought about by indifference and carelessness on the part of individuals. This carelessness can be eradicated by education; by learning that preventing a property-destroying fire is as great a step toward conservation as driving your auto slowly to save tires. Fire prevention authorities have emphasized that: "The development of a safety awareness that will control the daily actions of the individual is necessary if preventable fires and conflagrations are to be reduced to a minimum."

Until our individual conservation efforts are effectively directed toward curbing fire hazards in the home, in the factory, on the farm and every place where life and property are involved, we have not learned the lesson of conservation.

NO COTTON MARKETING QUOTAS FOR 1943 CROP

Based on recommendations of the Agricultural Adjustment Agency, the War Food Administration today announced termination of cotton marketing quotas for the 1943 crop and indicated that no quotas would be in effect for the 1944 crop.

The action followed announcement of the July 8 cotton crop estimate by the Bureau of Agricultural Economics, which indicated farmers had in cultivation on July 1 only 21,995,000 acres, about 8 million acres under the 1943 permitted acreage.

More than half of the underplanting of permitted acreage occurred in Texas, Georgia, and Oklahoma.

The 1943 national AAA cotton allotment was about 27,200,000 acres. A later provision permitting ten per cent additional planting increased this year's permitted acreage to about 30 million acres. In only one state, Mississippi, is the cotton acreage in 1943 larger than in 1942.

The cotton acreage estimate for this year not only is 8 million below the permitted acreage but is also nearly a million and a half acres under the acreage in cultivation on July 1, 1942.

Officials said the cotton loan program will remain in effect without change for the 1943-44 marketing season. Also termination of marketing quota will not affect the basis on which payments will be made to farmers under the 1943 Agricultural Conservation program.

The WFA said prospects are that the carry over of American cotton in the United States on August 1 this year will be about the same as the 10,500,000 bales carried over August 1 last year.

A new electrical device has been developed which will fence off sections of a stream or lake so that fish cannot pass, yet logs, sticks, leaves, and other debris will flow downstream.

Gems Of Thought

BREVITY

Have something to say; say it and stop when you've done.—Tyron Edwards.

Genuine good taste consists in saying much in few words, in choosing among our thoughts, in having order and arrangement in what we say, and in speaking with composure.—Fenelon.

When one has no deign but to speak plain truth, he may say a great deal in a very narrow compass.—Sir Richard Steele.

Our Master taught his disciples one brief prayer, which we name after him the Lord's Prayer.—Mary Baker Eddy.

Brevity is the best recommendation of speech, whether in a senator or an orator.—Cicero.

If you would be pungent, be brief; for it is with words as with sunbeams—the more they are condensed, the deeper they burn.—Robert Southey.

One American steel company alone has more steel capacity than all of Germany.

I GIVE YOU TEXAS

by BOYCE HOUSE

Michael Angelo said, "Genius is the capacity for taking infinite pains." But the paradox-loving Bernard Shaw said, "Genius is the infinite capacity for giving pain." And Edison declared, "Genius is 10 per cent inspiration and 90 per cent perspiration."

Found this in a Texas home town weekly:

"Do you think the radio will ever take the place of newspapers?"

"No; for one thing, you can't swat flies with a radio."

San Angelo is not surprised by any Texas city in its pronounced personality. Your columnist has visited San Angelo nearly 50 times but I am always thrilled anew by the sight of the big, white hats, the sound of the boot heels on the concrete and the feel of the brisk breeze sweeping across the wide main street. The city and its environs are richly endowed with scenery—two mountains, three rivers and Blondy Cross, the sports writer.

If you are an old-time Texas League fan, you remember "Bad News" Jim Galloway, who used to bust fences when he was starring with Dallas and Wichita Falls. I see him every once in a while—he has an important position with one of the state departments. Everybody thinks he got his nickname from the fact that when he came to bat, it was "bad news" for the pitcher. But a friend says it really started before Galloway

GET YOUR COMBINES ready for the maize crop. Don't wait 'till you are ready to run. Broach Implement Co. 1-tfc.

ever began playing baseball. He had a job away from home (according to the story) and, being homesick; he had a friend to send him a telegram that one of the folks back home was sick. His employer let him off; so, later, Jim decided to try it again—and again it worked. But he tried it so many times that, no matter why he went into the office, the "boss" would look up and say, "What's the bad news, Jim, this time?"

Which was your favorite kind of candy when you were a lad: a "wine-ball" or a "jaw-breaker"? Let me hasten to add for the benefit of the uninitiate that there was no wine in the former (it derived its name from the transparent red color) and that the latter actually broke no jaws but would have if you had tried to chew it instead of letting it dissolve in your mouth—a process which took only about two hours.

LOCALS

Mrs. O. H. Hutchins of Rotan visited with relatives and friends here the first of this week.

Mr. and Mrs. Chas. Moorhouse of Benjamin were business visitors here last Monday.

Mrs. W. M. Huskinson was a business visitor in Wichita Falls last Friday.

NEW PRICE SUPPORT FOR COTTONSEED ANNOUNCED

COLLEGE STATION — A new support price of \$55 per ton for cottonseed to Texas farmers was announced this week by the War Food Administration through the State AAA office.

The new price, which went into effect August 1, and will continue through July 31, 1944, is \$6 per ton over last year's minimum price for basis grade seed, f. o. b., shipping points.

Commenting on the program, AAA officials pointed out there will be no contracts with processors on the 1943 crop. The price will be effectuated through an offer by Commodity Credit Corporation to purchase cottonseed products from oil mill operators who agree to purchase cottonseed in lots of not less than 10 tons at the support price.

Since the majority of Texas cotton producers will not be able to dispose of their seed in the minimum quantity, they are being encouraged to pool seed cooperatively or accumulate seed in lots of 10 tons or more for direct sale to oil mills in order to receive the higher price.

According to present regulations, the support price of \$55 per ton, f. o. b., shipping point, basis "U. S. Standard grades," will apply in Texas, Oklahoma and New Mexico, while other cotton producing states will receive \$56 per ton on the same basis.

AAA officials added that in areas where oil mills have accepted the offer and desire to purchase cottonseed at a "flat" or "as is" price, these prices shall average not less than the average price which would have been paid if each lot of cottonseed had been purchased on a "U. S. Standard Grades" basis.

Mr. and Mrs. Oates Golden, Mr. and Mrs. W. R. Moore, M. F. Billingsley, Mr. and Mrs. J. A. Wiggins, Mrs. D. E. Holder and Mr. and Mrs. Wade Mahan were among local people who attended church services at the Gorse Methodist church last Sunday evening. Rev. Luther Kirk, local pastor, is preaching for the revival.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox, M.D., State Health Officer of Texas

AUSTIN — According to morbidity reports compiled by the State Health Department a sharp increase in the incidence of dengue and malaria fever has been noted in Texas in the past four weeks. Inasmuch as both of these diseases are disabling and sometimes fatal, Dr. Geo. W. Cox, state health officer, is urging every citizen of Texas to cooperate in eliminating the mosquito which is responsible for transmitting both dengue and malaria.

"Malaria will continue to be one of our major public health problems just as long as breeding places are accessible to the female Anopheles," Dr. Cox stated. "It is vitally important to public health in this state that every home and business house cooperate in controlling this menace to good health by freeing their premises from tin cans or broken bottles or any type of rubbish in which water may stand so that the propagation of the Anopheles mosquito can be checked."

Dengue is characterized by its sudden onset and accompanying headache and pain in the back and limbs which has caused the disease to be commonly known as "break-bone" fever. The fever is usually of short duration, but inasmuch as convalescence is extremely slow, the loss of time in recovery would constitute a hindrance to our total war effort.

Malaria, like dengue, is a very debilitating disease and one from which recovery may require weeks or even months of time.

Dr. Cox stressed the importance of conserving the nation's manpower and urged that every Texan cooperate in an effort to destroy the mosquito which is responsible for the transmission of malaria and dengue fever.

TO FOREIGN SERVICE

Mrs. Lois Burns, who is making her home with her parents, Mr. and Mrs. D. B. Bowen, for the duration, received a telegram from her husband, who sailed recently for the Pacific war theater, stating that he landed safely somewhere in Australia. Burns has been in the service a little more than two years, most of which time was spent at Fort Bliss, Texas.

Sgt. Detroy Trammell of the Lubbock Army Flying School spent last Sunday and Monday here with his parents, Mr. and Mrs. Frank Trammell, and with friends.

Mr. and Mrs. Carl Sexton and little daughter of Palacios are visiting relatives and friends here this week.

LOCALS

Wayne Blacklock who is attending Texas Tech at Lubbock, visited his parents, Mr. and Mrs. B. L. Blacklock, over the week end.

Mrs. Etta Webb is visiting with relatives and friends in Spur, Texas, this week.

Jimmie Silman, Jr., of Lubbock visited with relatives and friends here the first of this week.

Mrs. E. W. Harrell returned home the latter part of last week from Oklahoma City, where she visited with Mr. and Mrs. Gene Harrell and little daughter for several days.

Al Cousins and Mrs. R. H. Maxwell, both of Huntsville, visited in the home of Mr. and Mrs. A. B. Warren several days last week.

Mr. and Mrs. Aaron Edgar visited with Mrs. Edgar's parents, Mr. and Mrs. W. J. Bridge, and with other relatives near Quanah last Saturday night and Sunday.

Douglas Doshier, who is with the Texas Highway Department at Childress, was here last Friday, visiting with friends and attending to business matters.

Mr. and Mrs. Zack Gray spent a few days this week visiting their daughter, Miss Mildred Gray, at Sanatorium, Texas.

Miss Betty Simpson, who is employed in Fort Worth, visited her parents, Mr. and Mrs. Otis Simpson, over the week end.

Sgt. and Mrs. Jack Newman of Hobbs, New Mexico, spent the week end here with Mrs. Newman's parents, Mr. and Mrs. W. W. McCarty.

TO CHECK MALARIA IN 7 DAYS take 666 Liquid for Malarial Symptoms

Mr. and Mrs. J. A. Williams returned to their home in Chanute, Tenn., after visiting their son and family, Mr. and Mrs. P. V. Williams, for several weeks. Mr. and Mrs. P. V. Williams took them as far as Dallas last Monday on their return trip.

Miss Helen Williams, who is employed in Fort Worth, spent the week end here with her parents, Mr. and Mrs. J. E. Williams.

Mrs. Harriet Kay Smith of San Francisco, Calif., arrived Saturday night for an extended visit with her daughter, Mrs. J. W. Roberts.

Miss Patsy Ruth Mitchell, who is employed with the West Texas Utilities Co. at Spur, came in last Monday for a week's visit with her parents, Mr. and Mrs. A. H. Mitchell.

Miss Dorothy Campbell of Abilene visited with her parents, Mr. and Mrs. J. C. Campbell, over the week end.

Miss Merle Dingus is spending this week in Guyton, Okla., visiting with her sister and husband, Mr. and Mrs. Clyde Longbotham.

Herbert Stodghill left last Sunday for Chula Vista, Calif., for a visit with his mother and other relatives.

TO FOREIGN SERVICE Mrs. Doris Dickerson came in last Friday night from Florida for a visit with relatives and friends here. Sgt. Dickerson, who has been stationed in Florida, recently sailed for foreign service.

HOME ON VISIT Mr. and Mrs. Silas Redwine came in last week from Fort Worth to spend several days with Mr. Redwine's parents, Mr. and Mrs. G. W. Redwine. Silas, who is serving in the merchant marines, is on a 30-days leave.

Mrs. R. A. Clements left last Tuesday for Brady, where she is visiting her son, J. L. Lawlis, and his family for several weeks.

Mrs. H. B. Leathers and little daughter, Brenda Kay, of Paducah visited with friends here last Sunday.

Miss Kate McCullough of Plainview is visiting with Miss Helen Haynes this week.

Mrs. Fred Glover of Benjamin was a business visitor in the city last Monday.

YOU KNOW the weak parts on your combine better now than you will this Fall. Get those parts now and be ready for the maize run. Broach Implement Co. 1-tfc.

Society

Four Demonstrator Meetings Held At 4-H Girls Clubs

Four demonstrator meetings were held last week in Knox county. The home demonstration agent met in the demonstrators homes and they worked on old trunks converting them into treasure chests.

Some trunks were brought out of the basement while others were gotten from the attic. The girls worked very diligently cleaning and repairing their trunks. Soon they were ready to begin working on them. First, the trunks were lined with old worn out sheets and then papered with white ceiling paper. A starch paste was used for pasting the material and paper on the inside of the trunk. The inside of the trunk was finished with a narrow border around the top of the trunk and also the lid. A design was placed in the center of the lid. Some of the designs were geometric designs made with the border, while others cut some design from wall paper or from the material used on the outside of the trunk.

Next came the finish for the outside of the trunk. Two of the girls chose gold and rose for their color schemes, another chose gold and blue and still another chose to fix her trunk in two tone blue. Various colors and designs of materials were chosen for covering the outside. The material is glued on the trunk by using the starch paste. Two girls chose to enamel their trunks instead of covering them with material. The ones that are to be enameled are embossed.

Quick drying enamel was used on the woodwork and gold lacquer was used on all locks and hinges and other raised parts of metal.

These demonstrations were given at the following girls homes:

Marquita Fitzgerald, Munday; Louisella Westbrook, Truscott; Paula Jean Allen, Vera; and Barbara Jane Almonrode, Sunset.

RELATIVES VISIT IN THOMPSON HOME

Mr. and Mrs. T. L. Thompson had all their children home for a visit last Sunday. Among them were Staff Sgt. Aristel Thompson of Indiantown Gap, Pa.; Pfc. Wayne Thompson of Sheppard Field; Eva Ruth Thompson of Wichita Falls; Mr. and Mrs. J. C. Mills and children of Abernathy, Mr. and Mrs. H. E. Thompson, Mr. and Mrs. W. B. Thompson and son, Mavoureen and Billie Fern Thompson, all of Munday, and a niece, Ella Doyce Thompson of Wichita Falls.

Sunday afternoon visitors were Mr. and Mrs. G. C. Thopson, Mr. and Mrs. Melvin Thompson and children of Munday, and Mr. and Mrs. Woodrough Thompson and daughter, of Rome, New York.

Mrs. Earl Sams and Mrs. Homer T. Melton and daughter, Mary, of Benjamin were business visitors here last Saturday.

Mr. and Mrs. Buck Tidwell spent Sunday visiting with their son, Pfc. Ralph Tidwell, who will be stationed at Camp Wolters for 13 weeks.

Leland Hannah left Wednesday for Dallas, where he is attending market and purchasing merchandise for the Eiland Drug Store.

Benjamin Club Women Hear Mrs. Hale Saturday

Miss Dosca Hale, specialist in Parent Education, gave a very interesting talk to the Benjamin Club Women Saturday, August 7, at 3:00 p. m. on the subject "War Challenges Farm People." Following Miss Hale's talk there was a round table discussion.

Miss Hale also displayed some play equipment that could very easily be made from scrap lumber in the various homes. The games were directed by Miss Hale. The women and children each took part in the games and all seemed to enjoy them very much.

After the games refreshments of orange cookies and fruit punch were served by Mrs. Lee Coffman and Lucile King, county home demonstration agent to the following guests and club members:

Miss Margaret Wilkerson, county home demonstration agent of Baylor county, Mrs. W. A. Barnett, Mrs. Walter Snody, Mrs. W. C. Taylor, Mrs. Carl Patterson, Carl Gene Darwin, Mrs. Carrie Pults Ruth Pults, Mrs. McGaughey, Mrs. Lee Coffman and Lucile King, county home demonstration agent.

Mrs. Lee Coffman, Benjamin, president, had charge of the meeting.

Wesleyan Service Guild Meets With Mrs. Edgar Monday

Members of the Wesleyan Service Guild met with Mrs. Aaron Edgar last Monday evening in a business and social meeting which was held on the lawn.

Two songs were sung by the members, after which Mrs. M. F. Billingsley led the devotional. Mrs. Joe Bailey King gave a part from the "Outlook" program, followed by prayer by Mrs. O. H. Spann.

Refreshments were served to Mrs. M. F. Billingsley, Mrs. O. H. Spann, Mrs. Layne Womble, Mrs. Joe Bailey King, Miss Ruth Baker and the hostess.

The guild will meet on the first Monday in September with Mrs. Joe Bailey King. A business and social meeting will be held at this time.

Louise Atkeison Is Third Officer

FORT DES MOINES, Iowa—Clara L. Atkeison of Munday has been commissioned a Third Officer in the Women's Army Auxiliary Corps.

She was selected for Officer training on the basis of her ability and record of work as an Auxiliary in the WAAC. Third Officer is the WAAC equivalent of Second Lieutenant.

She will be assigned to an executive position in the WAAC Corps immediately taking over a non-combatant Army job releasing a soldier for combat duty, or participating in the expanded WAAC training program which eventually will replace a full field Army with trained womanpower in behind-the-lines Army job.

FOR SALE—Good CC Case Tractor with motor lift, good rubber, and two-row equipment. J. L. Stodghill. 3tc

Make a Suit for Duration Smartness

A GOOD suit is a good investment which triples in value if you make it yourself. Here is a classic box-jacket suit with simple tailoring, designed for duration smartness. Make it in plain colored wool, or a wool and rayon blend, and, for added usefulness, make an extra skirt in plaid or check. Beginners and experienced sewers alike will find some helpful sewing suggestions in the new free leaflet "Tailoring Tips".

Cull Old Hens To Save Feed

You can cull 20 per cent or more of your hens now if they have not already been culled. A reduction of 20 per cent of cull in all flocks in Texas would mean a saving of approximately 72,000,000 lbs. of feed during the next two months.

Feed Is Scarce—So Help Save It By Culling Now

Confine hens to the house during the night—next morning use a catching hook and work quietly among them. Take out all that look like this:

1. Shrivelled combs
2. Yellow legs and beaks.
3. Molters.
4. Weak and emaciated.
5. Grey eyes.
6. Saggy abdomen.
7. Coarse, masculine heads.
8. All Roosters.

Weed the Culls—Feed the Layers

When you cull your flocks now you accomplish four important things:

1. Saves feed.
2. Meat for table—saves ration points.
3. Canned chicken—for year-round use.
4. Cash for loafers.

Cull today—you can feed tomorrow!

Activities of Colored People

Pvt. R. S. Nappers is here visiting his mother, Mrs. Mary Doune. A chicken dinner was given in his honor last Tuesday night in his mother's home. Seventy-five guests were present, and ice cream and punch were served.

John Wood, Jr., was a guest from Wichita Falls; also Mrs. Lizzy Veals of Albany, and Mrs. Alice Nappers, who had been visiting relatives in Dallas. Everyone enjoyed the lovely dinner. R. S. Nappers left Wednesday night for Camp Gruber, Okla.

High service was held Sunday at the West Beulah Baptist church, with Pastor Meadows in charge. Offerings for the week amounted to \$31.00, and \$5 from the church fund was donated to the sick. Mrs. Ida Dean, last week.

Mrs. Endy Beals has returned from Clarksville, where she visited with her mother and friends.

Mrs. W. L. Roberts of Yuma, Ariz., is visiting her mother, Mrs. J. B. Bowden, and other relatives here this week.

R. R. (Rip) Davenport of Dallas visited with friends here last Wednesday.

STRAIGHT-FROM-THE-SHOULDER TOP COAT

At The Churches

PRESBYTERIAN CHURCH

Dr. William N. Sholl of Haskell preaches here each Sunday morning at 9:30 a. m.

Our church is located on the Main street of Munday and has an attractive auditorium with added Sunday school facilities. The Auxiliary meets on Mondays and is accomplishing a good work. All Presbyterians living in Munday and surrounding country are urged to attend our services. A very hearty invitation is extended to all visitors, especially those who have no regular church home.

Cody West Is Back In Hospital

Cody West, who was brought home from the Knox county hospital last Thursday, re-entered the hospital Monday for further treatment.

West is receiving treatment for a broken limb which he received in a freak accident. His truck, which was loaded with cattle, was run upon a sand bar and became stuck. Cody opened the door of the truck just as the cattle shifted to the lower side, overturning the truck. His right leg became caught in the truck door, breaking the limb just above the ankle.

After he was returned home from the hospital, the broken member became abscessed and it was necessary for him to return to the hospital for further treatment.

Mrs. Myrtle Bisbee and Misses Gertrude Laird and Grace Bisbee of Benjamin were business visitors here last Saturday.

LAKE CREEK REVIVAL

Beginning Wednesday night, Aug. 18, a series of services will be conducted, in which Rev. Daniel Lewis of Ft. Worth will do the preaching and Rev. Earl Brewer, pastor of the Holiness Church of Munday, will lead us in the singing.

Rev. Lewis has at one time pastored a small Congregational Church here. He needs no introduction. Come and hear him.

The pastor will preach Sunday morning and Sunday night.

METHODIST CHURCH

Calling all Methodists! Meet me at the Methodist church Sunday morning at 10:00 a. m. We will go to Sunday school, and from there to the worship service at 11:00 a. m.

There will be no service at the evening hour, so we will just go over to the Baptist church to the revival services. Don't disappoint us, as we will be looking for you.

"Bomb bottles" have been developed for filling practice bombs five at a time with ninety pounds of hot, dry sand. The machine does the work of ten three-man teams of soldiers, releasing them for other duty.

Mineral-free water has recently been made available for such industrial purposes as boiler feed water, and manufacturing and chemical processes through a newly developed "demeralizing" method.

ONE NEW FEED MILL left. Act quick. Broach Implement Co. 1-fc

Patriotic Cotton

Summer chic for 1943 is best expressed by patriotic cottons, such as the suspender skirt and shirt costume Anita Colby models. Miss Colby, technical advisor and fashion authority for Columbia Pictures, likes cottons for their practicability as well as their appearance. Her leather pocket book belt is bright red, accenting the blue and white chequer.

visit old friends, Mr. and Mrs. Elmer Truman.

Everett Gene Murdock of Wichita Falls was a visitor with his uncle and aunt, Mr. and Mrs. J. T. Murdock of the Hefner community last week end.

Mrs. L. P. Brooks of Graham has been visiting her daughter, Mrs. S. F. Farmer, for some time. Mrs. Brooks is one of the earliest pioneers of this section of the state. Mr. and Mrs. Brooks were married at Atlanta, Ga., in 1872, and came to Texas soon afterwards. They have made Graham their home since that date. Mrs. Brooks is 92 years of age and is quite active for that age.

Mrs. Ruby Hammons was a visitor in Munday last Tuesday.

Mrs. L. E. Jones has returned from Gainesville, where she visited relatives for about a week.

Mrs. A. L. Hoard left last Sunday in response to a call that her sister, Mrs. Roy Waggoner of Dallas, was to undergo surgery. Mrs. Hoard is attending her sister's bedside.

Mrs. Vernon Lusk of Haskell passed away last Monday and was buried at Haskell last Tuesday afternoon. She was a cousin of Mrs. Hoard.

Mr. and Mrs. Bud Coffman attended a family gathering at the home of their daughter and family, Mr. and Mrs. J. Harlan of Littlefield. They went at this time to be present while their grandson, Reginald Harlan, was at home on a furlough. Reginald received his silver wings just before coming home. His father and mother were present for the graduation.

Mr. and Mrs. Lloyd Bowden left Wednesday for their home in McCarney after a week's visit here with Mr. Bowden's mother, Mrs. J. B. Bowden, and other relatives.

Robert Layne In Glider Training

SHEPPARD FIELD—A double claim to a part in glider maintenance pioneering exists for Sgt. Robert Layne, son of Mrs. Bobbie Layne, formerly of Munday, and now living in Burkburnett. Currently he is serving as a crew chief of picked mechanics flown from Sheppard Field to Laurinburg-Maxton Army Air Base, Maxton, N. C., for field training in glider maintenance and repair during test maneuvers of the transport craft at this base.

Sergeant Layne also flew as crewman on one of two cargo gliders, carrying equipment to the

North Carolina base, which set a new distance record of 1193 miles for non-stop towed flight. The test repair program in which Sergeant Layne is taking part is expected to point out new solutions for A. A. F. aircraft maintenance problems in theatres of operations, using mobile, compact repair units in glider bodies, such as made the record-breaking flight.

Mrs. A. V. Kemnitz of Fort Stockton came in the latter part of last week for several days visit with her mother, Mrs. Louise Ingram.

Mr. and Mrs. Bud Coffman have returned from Littlefield, where they visited their daughter and family, Mr. and Mrs. J. Harlan.

B. A. Williams of New York was a visitor here last Sunday and Monday. Mr. Williams was a cook on a government supervised boat from Orange, Texas, to New York. He said that several times during the year they were not far away from some of the ships that have been sunk.

Mr. and Mrs. Buster Latham of Bomarton were Sunday visitors in the home of Mrs. Latham's parents, Mr. and Mrs. George Crouch.

Mr. and Mrs. Cherry Moore and Mrs. Levi Bowden and Miss Zoe Moore, all of Fort Worth, were week end visitors with relatives here.

Mr. and Mrs. Ira Stalcup were visitors in the home of Mr. and Mrs. J. M. Edwards of Seymour last Sunday.

Mr. and Mrs. Everett Jones of Fort Worth spent the week end with relatives and friends here.

Capt. and Mrs. James Cunningham of Abilene were week end visitors with Mrs. Cunningham's parents, Mr. and Mrs. W. C. Ratliff. Mr. and Mrs. Buster Coffman and children have returned from a visit in Ruidoso, New Mexico.

Mrs. Clyde Rogers of Bomarton was a visitor here last Monday.

Corp. Troy Moore, who is stationed at Leesville, La., is here to spend a 14-day furlough with relatives.

R. L. Anderson, pioneer resident of this section, was a visitor here recently with his sister, Mrs. R. D.

McElhan. Mr. Anderson had attended a family gathering with a son, Ira Anderson of McKinney. Mr. and Mrs. Dewey Anderson of New Orleans were present in the home of a sister and family, Mr. and Mrs. Worth Buck of Megargel. Mr. and Mrs. O. G. Mitchell of Paducah were also present.

Staff Sgt. Charles Kueberly of Dalhart was a visitor here last week with his wife and her parents, Mr. and Mrs. George Crouch. Sgt. Kueberly left Saturday for his post of duty, his wife accompanying him as far as Wichita Falls.

Rosa Lee Pippin of Munday was a visitor in the home of Mr. and Mrs. Ernest Robinson last week. Ethel Robinson of Hondo is here for a visit with her parents, Mr. and Mrs. Ernest Robinson, and her grandparents, Mr. and Mrs. W. S. Heard.

Lieut. Col. and Mrs. Pat Heard and children of Abilene were visitors in the home of Mr. and Mrs. W. S. Heard last week.

Mrs. R. D. Stalcup left last Saturday for Whitesboro, where she is visiting a daughter. She will go on to Dallas to visit her children and grandchildren, then on to Houston for a visit with relatives who reside there.

Mrs. W. R. Couch left Friday morning for Waco, where she is visiting her son, John Wayne, who is in service there. She will also

THE TIMES

Want Ads

THIS is part of an actual letter from a soldier overseas:

"It's not the big things that you miss out here. It's the little things. Like street noises. Or an electric lamp. Where we are there ain't no such. Since I'm on duty all day, I write letters in the nearly-dark. Funny, how you can miss a common, ordinary light bulb."

Here in West Texas, folks take electric service for granted. We take for granted that, when our fingers flip the switch, the lights will blaze—instantly!

The fact that we do take electricity for granted is a tribute to the men and women who supply it.

They've made it dependable—and they've made it cheap.

Today the average West Texas family gets twice or three times as much electricity for its money as just fifteen years ago.

We're sorry, soldier, we can't do much about sending you electricity over there. But our power is helping train more men... helping build the weapons of war with which you will win the victory.

This we are doing the American way... under business management and free enterprise. We're in the war, as you are, fighting to dispel the darkness of state slavery—the Nazified system of centralized bureaucratic socialism that threatens all free people.

DON'T WASTE ELECTRICITY JUST BECAUSE IT'S CHEAP—and isn't rationed! Don't waste anything. Get thrifty again! Insist that the money you pay in taxes not be wasted on unnecessary bureaucratic agencies.

What Is The STATE GUARD?

The Texas State Guard is the internal security for the State of Texas.

It is in reality a new type of force with a new and unique mission. Norway didn't have it and went down to defeat; Poland didn't have it and went down to defeat; Holland didn't have it; nor did Belgium or France. These all went down to defeat. England had it and still stands. We have it and are ready to meet and oppose the enemy wherever and whenever he comes. We must not remain unprotected. America has proclaimed itself the Arsenal of Democracy, and Texas stands first in the nation in the number of camps training soldiers for overseas duty; the number of officers in the military forces, and has quite a substantial number of vital installations producing war material. We cannot therefore freely expose our countryside to the enemy. It is a fair assumption that the most tempting target for the enemy is the destruction of our productive facilities. This can be done in several ways; Fifth Column activities, by the landing of parachute troops in isolated places, by commandoes landing on isolated shores, by sabotage in our factories, by strikes, by riots. These methods may be used to either destroy or seriously slow down our production. Ours is a big country with important targets widely dispersed. We must be and remain prepared to protect them. The Army is engaged in offensive operations for the defeat of the enemy overseas. It cannot be broken down into small units to do the work of the various Guard units scattered over the nation. Call them Minute Men, Militia, State Guards, call them what ever you will; but by whatever name you call them they are the Security troops for the state.

Joe America, part time soldier, composes the State Guards. You know Joe, the boy who has knots where his muscles ought to be, whose chest has been misplaced and is where his stomach ought to be. The cosmopolitan army composed of fellows who sold you your last car, who sell gasoline, lumber, cold drinks, dry goods, etc.; fellows who work on the farm, in the banks, cobblers, and even some cotton buyers.

Do you think you don't have time to belong to an organization like this? Do you think these fellows who belong to this patriotic organization don't have work to do? They don't have any more spare time than most of you who do not belong, but they are making a sacrifice, they find time. I do not mean to say that the ones who do not belong are not patriotic, and I know there are men who do not really have the time. Think it over, and see if you are really doing your part to help win this war. What is your priority? Are you griping because you have to do without a little sugar, gasoline, meat? What about the boys—your boys who are in the army—are they griping because they do not eat on time, have to go without sleep for days at a time, stand up and fight the enemy hand to hand or in any way to destroy him? Certainly not, they are doing a grand job and they are taking it like men, just the way you would want your boy or your friend to act. Until we come to the point where we are willing to make a personal sacrifice, yes until the time when we actually are making personal sacrifices this war will continue, but if we are willing to act as a team and get some real team work done, we can bring this terrible orgy to an end.

These boys who belong to the State Guards are giving their time and even their money. They have bought most of their uniforms with their own money. They serve without pay.

Belonging to the Guard will in no way hasten the time for your induction into the army. It will however give you valuable training and information which will be of inestimable value to you if you should ever be inducted into the army, and will in most cases give you rapid advancement in the ranks.

One of the enemy is down: The boys on the front are not pulling their punches. Lets not pull ours. Lets all fight together!

Make arrangements today to join Company C 17th Bn. Munday. Lets make it the best organization in the state.

CAPTAIN J. C. HARPHAM,

Commanding 17th. Bn. TSG.

Thanks, Fellows!

O.E.M. Division of Information

Fathers to Be Drafted

Fathers 18 to 37 years old, with children born before September 15, 1942, will be reclassified to make them available for induction into the armed forces after October 1. Fathers will be drafted only when it is necessary to fill a local board's quota, they will be called without distinction regarding the number or ages of their dependent children. Those who are "key men" in agriculture or essential industry will be deferred, and those whose induction would cause "extreme hardship and privation to their families" will be deferred.

Honorable Discharge Buttons

An honorable discharge from the army during the present war will be signified by a lapel button, the War Department has announced. Both men and women, whether officers or enlisted personnel, will be eligible to wear the button if they hold an honorable discharge.

Rule For Poultry Truckers

Truckers hauling poultry must post within their trucks the name and address of the persons to whom it is being shipped, the place

from which the items were shipped and their quantities, types, grades and weight classes, and the number of head of each, the OPA has ruled.

To Get Application Blanks
Members of the Armed Services of the U. S., and of the United Nations who are eligible to use War Ration Book Three, will receive application blanks from their Commanding Officers beginning about August 15. Processing of these military applications and issuance of War Ration Book three will be completed between August 15 and September 10. The book will not be needed for buying rationed commodities until after that time. It is estimated that approximately 700,000 men and women in the military services will be entitled to receive War Ration Book Three.

Need Big Peanut Crop
Large increases in the production of peanut butter and peanut oil from the 1943 crop of farmers' stock peanuts, expected to approximate 1,425,000 tons—375,000 tons more than last year—are urgently needed to meet wartime requirements, says WFA. Approximately 413,000 tons will be made into peanut butter—375,000 tons for civilian consumption and the remainder for the army and navy.

Federal Expenditures
Ninety-five cents out of every dollar of Federal expenditures goes directly into the war effort, says Secretary of the Treasury Morgenthau. This means that \$36.8 billion of the approximately \$38.7 billion which President Roosevelt estimated would be received in the present fiscal year will go to purchase guns, tanks, ships, planes, etc.

To Save Paper
Between 250,000 and 300,000 tons of paper will be saved by amended WPB conservation order M-241-A which affects all use of paper and is far more inclusive in its scope than any other paper conservation order. The paper saved, according to the WPB pulp and paper division, will be utilized to better advantage in meeting war requirements and certain civilian needs. Although the General Public may have fewer fancy articles made from paper, the real needs of the average citizen will not be seriously affected because plenty of utilitarian paper articles will still be available.

Mr. and Mrs. F. E. Jetton had as guests Sunday all of their children and grand children except two grand sons. The following children were present: Mr. and Mrs. Dave Jetton and children, Mr. and Mrs. Vernice Lambeth and family, Mr. and Mrs. Floyd Jetton, Mrs. Affie Jetton; little grandson Jerry Edwin Jetton; Edwin Lee Jetton and wife of Ft. Worth and Bobby Lambeth were unable to be present.

Pitzer Baker and son, Kenneth, are spending this week at Nara Visa, New Mexico, visiting with Mr. and Mrs. Houston McCarty and attending to business matters.

THE POCKETBOOK OF KNOWLEDGE

"Piece Meal Approach" And Bungling Of Inflation Danger Is Charged

Publication Proposes Increased Taxes, Sale of Bonds to Private Investors and Stabilized Wages

NEW YORK, N. Y.—(I.P.S.)—Charges that the inflation danger has been bungled seriously, that the problem has not been faced frankly, and that the public has not been given the facts of the situation, were made by the National Association of Manufacturers in the current issue of its publication, "Industry's View."

Reviewing the "piece-meal approach" to the control of prices and wages for the last two years, the N.A.M. declared that "price controls and regulations are merely an attempt to sit on the safety valve" and that "they do not reduce the explosive forces that are being generated through steady increase in the money supply."

Emphasizing that a war prosperity is a "phony" prosperity, and that the most serious results of inflation usually come in the post-war period, the publication offered the following preventative measures:

Three Major Proposals
"1. Greatly increased taxes, especially sales taxes, should be adopted immediately. The rates of corporate income and on the upper brackets of personal income have already been pushed to the maximum limits."

"2. The banks should be relieved as far as possible of the necessity of financing war deficits because such financing tends to fan the flame of inflation... the sale of bonds to private investors must be increased by voluntary methods as far as possible—by compulsion if necessary."

"3. Wages must be stabilized because increases in wages start an upward spiral of rising prices. Increased wages tend to increase costs and increased costs lead to higher prices which in turn creates a demand for further wage increases."

According to "Industry's View," our standard of living falls despite the full employment and increased money income of a war prosperity.

Close Inflationary Gap
"The difference between spendable income going to individuals and the supply of goods and services available is commonly referred to as the 'inflationary gap,'" the pamphlet declares. This inflationary gap has been constantly widening since 1940 and, according to a recent estimate of the Department of Commerce, will be over 40 billion dollars in 1943.

"All along, there has been practically unanimous agreement among economists, both liberal and conservative, as to the need for 'drawing off' the excess purchasing power of individuals, which results from our distorted wartime economy... If the workers of the country fully realize that a runaway inflation would wipe out any gains in purchasing power through increased money wages and would endanger their life savings as well, they might forego wage increases, accept higher taxes, and buy more war bonds."

"But the government has failed to bring home to the people the necessity for 'drawing off' the excess purchasing power, both in its dealing with labor and in its cam-

posed. "On the other hand, when the government sells a bond to a private individual or to a non-banking institution, the purchaser either reduces his current income or past savings and no inflationary money is created."

HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)

Crops and gardens have been injured by the recent hot weather, and a good many hens died in this community from the heat on the 4th of August.

The Hefner school will open on Monday, August 23. School will likely be dismissed later for cotton harvest.

Miss Morse of Vickery, near Dallas, returned home the first of this week after a visit here with her brother, Melborn Morse, and his family.

Henry Steward is visiting his sister at Waco this week. His sister has been very ill.

Grandmother Manly has been on the sick list for the past few days. We hope her a speedy recovery.

Mrs. Lee Norwood has returned from a few days stay in the Knox county hospital, where she received medical treatment.

Mr. and Mrs. Everett Jones of Fort Worth were here over the week-end for a visit with his parents, Mr. and Mrs. D. G. Jones. Mr. Jones has been ill for several days.

Mr. and Mrs. Clem Wilde are announcing the arrival of a girl on August 6th. Mother and little daughter are reported doing nicely.

Mr. and Mrs. Marion Jones and family visited their sister, Mrs. D. A. Ward, and Mr. Ward in Electra the first of this week.

Leland, son of Mr. and Mrs. Amon Thurmon, has a medical discharge from the army and is home for a while.

Mr. and Mrs. Ed Jones had a letter from their son, Capt. Paul A. Jones, who is serving overseas, saying that he was recently awarded an air medal for his aerial work in the combat zones.

Japanese Prisoner
Mrs. Roy Jones had a letter from her nephew, Harding Cartwright, stating that he was in prison but getting pay for his work. He was in Corregidor under Gen. McArthur on December 7.

MUFFLERS, Tail Pipe, any make car or truck. Broach Implement Co. 1-1fc

1941. All of his friends will be glad he is still alive. He sailed in the summer of 1941 to the Philippine Islands and was serving as a seaman with the anti-aircraft forces. Harding was reared in the Hefner community and he has many relatives and friends here. Mr. and Mrs. Wallace Moorhouse of Seymour were business visitors here last Saturday.

Don L. Ratliff, Owner
Magnolia Service Station

AVERAGE retail price of food in Texas for the month of June, according to report of State Labor Commissioner, was nearly 34 per cent above that of April, 1941.

No increase has occurred in the price of Lone Star Gas Service even though we, too, labor under increased operating costs. Our customers know that we have always operated under a "price ceiling" with rates stabilized and fixed by regulatory bodies. Actually, rates have been reduced substantially since 1941, saving our customers about two million dollars a year.

Over 900 of our employees are fighting in the Armed Forces. Those of us remaining are carrying on the best we can with less material and equipment. Our full energies and abilities are dedicated to the job of providing dependable fuel service to war plants, business and the home, and pledge the utmost economy and conservation in the performance of this task.

LONE STAR GAS COMPANY

83 Registrants Are Classified Last Tuesday

Eighty-three registrants of Knox county were reclassified by the local Selective Service Board at its regular meeting on Tuesday, August 10. They are as follows:

Class P: Robert L. Humphreys, Roy L. White, Hubert J. Homer, John W. Moore, Doss E. Holder, Raymond L. Butler, Joseph A. Jungman, J. M. Turner, Jr., J. A. Ward, Jr., Lewis W. Washburn, Francisco E. Benavides, Lawrence R. Paul, Elwin G. Darter, James P. Nelson and Freddie Epps.

Soil District Soon Will Begin Its Operations

The Wichita Brazos Soil Conservation District will start operations October 1, according to an announcement made this week by the Board of Supervisors.

Jack Idol, chairman of the Board of Supervisors states that one purpose of a Soil Conservation District is to give interested farmers and ranchers a better opportunity to work together in doing soil and water conservation on farm and ranch land. Also, a district is in position to request and receive assistance that cannot be made available to individual landowners.

The soil conservation district is a legal subdivision of the State but without power to vote bonds or levy taxes. It was voted by the resident landowners and is administered by them, operating through their elected Board of Supervisors, who are farmers or ranchers living within the district.

The soil conservation service will furnish to the district the service of four men trained in engineering and in farm and ranch conservation work. The work of these technical men will be free to farmers or ranchers who request and receive assistance of the district. Requests for district assistance should be made to the Board of Supervisors who state that all district work is on a voluntary basis.

In doing district work the Supervisors state that it is their plan to work with groups of farmers or ranchers rather than working on individual units scattered throughout the district.

Five farmers, regardless of their small number of acres, may form such a group. Fewer than five farmers may qualify as a group if they total at least two thousand acres of land. Groups usually will include more than one farm or ranch, totalling more than 2,000 acres. By working with groups time and travel is reduced and there is a better opportunity to handle water problems that affect adjoining farms.

The program and plan of work of this district was largely developed by farmers and ranchers living within the district. These people realize that this district has some of the best land to be found anywhere but they also know that washing and blowing can and does cause our soil to be less productive. The Supervisors appreciate assistance given the district by these interested farmers and ranchers and hope that they, with others, will continue their good work in this voluntary program of soil and water conservation.

Supervisors of the district are Jack Idol, Benjamin; Clay Grove, Munday; C. C. Browning, Truscott; Henry Smith, Weiner; and D. R. Brown, Rochester.

Forms for making application for district assistance can be secured from the Supervisors, or from County Agents, or AAA and F. S. A. offices.

Andy Eiland returned to his home in Galveston last Wednesday night after a week's visit with his mother, Mrs. Dave Eiland, and other relatives.

Mr. and Mrs. Ralph Blanton and little son of Corpus Christi visited in the home of Mr. and Mrs. A. U. Hathaway one day last week.

FIGHTING EQUIPMENT DEMANDS HIGH GRADE COTTON

Automatic Mechanical Device Removes All Guesswork From Aerial Gunnery

(IPS)—A new device which can make an untrained young man an aerial sharpshooter in three weeks is now one of the nation's most carefully guarded military secrets.

Standard equipment for all Flying Fortresses, the device, a mechanical brain which takes the guesswork out of aerial gunnery, is being produced in quantity by a large Eastern company. It is known technically as the automatic computing sight and is largely responsible for the top-sided scores our planes have been running up in recent engagements with the enemy.

Aerial gunnery has been reduced almost to the point of simple arithmetic by the sight, which automatically figures the "fall" of a bullet because of gravity, and accounts for the ballistic deflection caused by the wind.

Eases Gunner's Task
 Although the gunner seems to aim directly at his target, it is the device which makes the necessary corrections and points the gun automatically and continuously at the spot where the enemy plane will be by the time the bullets arrive.

The gunner makes few mental calculations, an important consideration especially in high altitudes that sap a man's strength and slow his mental reactions. He is trained to recognize the various types of enemy pursuit planes, and all he has to do to set the mechanical Albert Einstein to work is adjust the sight control to correspond to the dimensions of the attacker.

And as for their accuracy, just ask some of the pilots of those Japanese Zeros that have met our Fortresses recently—if you can find any of them alive!

Special Features
 About the only way an enemy fighter plane can remain safe from the gunners of a Flying Fortress

is to maintain a respectable—or respectful—distance. The effectiveness of the automatic sight is

from 100 to 1,000 yards. The mechanical brain is enclosed in a compact device like a little black box, the weight of which is a military secret. It is an integral part of the upper local and lower ball turrets designed by the company, and makes the .50 caliber machine guns now carried by the Flying Fortresses effective at ranges considerably greater than that of enemy fighter planes.

Because of the turret feature, the gunner cannot riddle his own plane. When any portion of the bomber is in line with a burst of fire from its own guns, the fire is automatically interrupted. The turret also makes it possible to use more than one gun with an automatic sight.

Mrs. Cora Jean Martin, who is employed in Fort Worth, visited relatives and friends here over the week end.

Milk is now turned into a plastic material that can be used as a substitute for ivory.

Treatment For Leukosis Among Poultry Given

Leukosis, or range paralysis, has been more prevalent during recent months than other poultry diseases according to R. O. Dunkle, county agent.

Its cause, thought to be a virus, has not been isolated. Infestation causes an abnormal growth of blood cells. Occasionally it takes the form of what is called the big liver disease, and at other times appears as a tumor. On rarer occasions it takes the form of enlargement of the bones, especially the shanks which become greatly distorted in size. The disease is transmissible through the egg from adult to off spring, and from infected to non-infected birds by bites of external parasites such as blue bugs, fleas, mites and mosquitoes.

Mr. Dunkle says that the disease manifests itself wherever it strikes. For example, if infection

appears in the eye, the gray eye form of range paralysis is present. The pigment of the iris immediately around the pupil fades to a jagged gray, and the pupil also becomes jagged. Mr. Dunkle, however, cautions care in culling young birds because their eyes normally are of a gray color before they come into production.

Although no medical treatment has been found for the disease, Mr. Dunkle recommends as a preventative the control of external parasites through a good program of sanitation and spraying. For the house and roosts he suggests carbolineum one part and kerosene four or five parts.

As a further precaution keep young pullets from sharing poultry houses with older birds. If this is not possible, a thorough culling of older birds should be made before the pullets are allowed to house with them. All lightweights, emaciated, crippled and gray-eyed birds should be removed.

What You Buy With WAR BONDS

Down in the Solomons and on the African coasts the Crocodile Boat or tank lighter played a most important role in landing our invasion armies. These self-propelled, light... fast boats haul tanks, artillery and other equipment from the big ships off-shore to the beach heads.

We need more and more of them, for they are essential to the successful operation of the war. They are made in several sizes from small fifty-footers, costing about \$2,400 to the big 500-tonners costing around \$37,000. Your purchase of War Bonds every payday will help pay for them. U. S. Treasury Department

Scarcely bigger than a wooden match, a newly developed mercury lamp can be used for one million photographic exposures.

 Also good short subjects

What Do You Say . . . FARMERS UNION MEMBERS?

A "serial" always repeats the last line of the week before, so remember this, please: The FEDERAL LAND BANK TAKES FARMERS UNION FIRE INSURANCE POLICIES. Now for the NEWS.

You save by being a member of the Farmers Union, not only by ginning your own cotton, and having your own Fire Insurance Company, but by having your own COOPERATIVE LIFE INSURANCE. Instead of paying agents for writing COUNTY GROUP INSURANCE, for members of the Farmers Union, the Farmers Union is GOING TO PAY SIX MONTHS PREMIUM on a \$1,000 policy for each FARMER'S UNION MEMBER, and it will not cost the member one cent. THIS IS FOR EVERY MEMBER, and this will cost the Farmers Union nothing extra. The difference is the member gets the benefit because you are helping to build a total FARMERS UNION PROGRAM. Watch for next week to get the instructions on just how to get your \$1,000. Legal Reserve and Cooperative Life Policy. No mystery, it's just an example of what ORGANIZATION can do.
