

Knox City To Be Headquarters Of Soil District

The Knox-Haskell county, Wichita Brazos Soil Conservation District will establish headquarters at Knox City. The Board of Supervisors of the district met at Knox City Friday, Sept. 10th and made final arrangements for the establishment of office and garage space in the Frizzell building.

A committee of business men of Knox City had also made previous plans for housing accommodations to take care of the four families who are employed by the soil conservation service.

H. B. Boswell, district conservationist of Seymour, states that work within the district will start by October 1st.

Three priority areas were approved by the Board of Supervisors Friday. Work on Area No. 1 will be near Rhineland where the first work will be started. Area No. 2 will be near Brock on the Jamison & Rogers ranch. Area No. 3 will be in the Union Grove community. Work in all three areas will start within the next two months.

County Agent Gets Service Award Recently

R. O. Dunkle, county agent of Knox county, was honored at a recent meeting of county agents at Amarillo. The twenty county agents of Extension Service District No. 3 elected Mr. Dunkle to receive the Distinguished Service award of the district. To be eligible to receive the award of merit a county agent must have had ten years' service with the State Extension Service.

The awards of Distinguished Service will be presented by Mr. M. L. Wilson, National Extension Director, in Chicago, sometime during the month of December. County agricultural agents throughout the nation who have been chosen by their respective districts to receive the award will also attend the meeting.

\$10,000 Bonds Goes To Credit Of This County

Knox county's quota of \$32,400 in bonds during the Third War Loan Drive was boosted considerably this week by the purchase of \$10,000 in bonds by the Southwestern Life Insurance Co., with home office in Dallas.

Announcement of this purchase, which goes to the credit of the county's quota, was made Wednesday by W. E. Braly, county war bond chairman, and J. C. Borden, local agent for the company.

This is evidence of the company's willingness to help in those communities in which it operates. A substantial purchase was also made for this county during the Second War Loan Drive.

Schools Close For Harvest Of Cotton Crops

Five of Knox county's schools were closed last Friday so students can assist farmers of this county in gathering the 1943 cotton crops, according to Merrick McGaughey, county superintendent.

They will remain closed for a period of three or four weeks, or until the cotton is gathered, before resuming the regular class activities. Schools which have closed are Sunset, Vera, Rhineland, Goree and Hefner.

It is likely that some of the other schools of the county will close in the near future.

JOINS U. S. MARINES

Harmon Sessions, who has been attending Texas A. and M. College, came in Thursday for a few days visit with his mother, Mrs. Prudence Sessions, and with other relatives. Harmon has enlisted in the U. S. Marines and will report at Fort Worth next Monday for training assignment.

Funeral For Mrs. C. R. Haymes Held Saturday

Pioneer Mother Of This Area Dies At Stamford

Mrs. C. R. Haymes, pioneer mother of this section, passed away at Stamford at 10:30 last Friday night. Mrs. Haymes had been ill since Sunday, and all of her children were at her bedside when death came.

The former Nancy Alice McFadin, Mrs. Haymes was born in Webster county, Missouri on June 3, 1860, and died at the age of 83 years, 3 months and 7 days. Mr. and Mrs. Haymes were married in Missouri in 1880 and moved to Clay county, Texas, in 1899. Two years later they moved to Knox county.

Mr. and Mrs. Haymes resided at Munday until Mr. Haymes' death on December 12, 1926. Mrs. Haymes lived here for some five years afterwards, then went to Stamford to make her home with her daughter, Mrs. C. D. Hopkins.

Mrs. Haymes was a true Christian mother who reared her seven children in a Christian home. She was loved by many people who had come to know her during her 40 years of residence in this section.

Surviving are three sons, the Rev. J. O. Haymes, pastor of the St. Paul Methodist church in Abilene; Lee Haymes, postmaster of Munday, and B. M. Haymes of O'Donnell; four daughters, Mrs. Otis Hardin of Levelland, Mrs. C. M. Wyatt of San Angelo, Mrs. Blanche Calhoun of Amarillo and Mrs. C. D. Hopkins of Stamford. She is also survived by 20 grandchildren and four great-grandchildren.

Funeral services were held from the First Methodist church in Munday at four o'clock last Saturday afternoon, conducted by Rev. Cal C. Wright, pastor of St. John's Methodist church in Stamford, assisted by Rev. C. B. Meador of Abilene, Rev. Luther Kirk, local pastor, and Rev. S. H. Young of Stamford, district superintendent.

Burial was beside her husband in the Johnson cemetery.

HERE FROM SAN DIEGO

Mr. and Mrs. D. E. Holder, Jr., who have been making their home in San Diego, Calif., came in the first of last week for a visit with their parents, Mr. and Mrs. D. E. Holder, Sr. Mrs. Holder met them in Abilene. D. E. has volunteered for service in the air forces and expects to be inducted next Friday.

Keep Up With Rationing

RATION REMINDER

GASOLINE—In 17 states of eastern shortage area A-6 coupons are now valid. In states outside the eastern shortage area A-7 coupons are valid through September 21. All gasoline coupons in the possession of car owners must be endorsed with the owner's license number and state of registration.

SUGAR—Stamp No. 14, good for 5 lbs., is valid through October. Stamps Nos. 15 and 16 are good through October 31 for 5 lbs. each for home canning purposes.

STOVES—Consumer purchases of rationed stoves must be made with a certificate obtained at local war price and rationing boards.

FUEL OIL—Period 5 coupons in old rations remain valid through September 30. Period 1 coupons in new rations are valid now. Occupants of oil heated homes are urged to return their applications for next year's fuel oil to their ration boards promptly and when issued new rations to place orders with their dealers for summer fill-ups.

SHOES—Stamp No. 18 (1 pair) is valid through October 31.

MEATS, FATS—Red stamps X, Y and Z good through October 2. Brown stamp—becomes good September 12 and remains good through October 2.

PROCESSED FOODS—Blue stamps R, S and T, expire September 20. U, V, and W, now good, expire October 20.

A Substitute for Hell

Somewhere in New Guinea these wounded soldiers await evacuation. Flat on their backs, in the steaming heat of the jungle, where mosquitoes plague the air and ants and mosquitoes torment weary bodies, they dream of home . . . of clean white sheets and the touch of cool, comforting hands. You can help provide modern hospitals and the medicines they need for their recuperation by putting every dollar you can into War Bonds during the Third War Loan.

U. S. Treasury Department

Local Girl To Soon Complete Flight School

Ann Atkeison To Be W. A. F. S. Member

Having recently taken a number of solo flights, Anne Atkeison, daughter of Mr. and Mrs. R. D. Atkeison of Munday, will soon complete her pilot's training at the Richie Flying School in Fort Worth.

Last Sunday, Anne made a solo flight to Mineral Wells and Denton, and in a letter to her parents she stated that she had just taken lessons on "spins" and "stalls" with her plane and remarked about what a thrill she got out of this.

Ann will have about 40 hours of actual flying within the next few days and is up for graduation. Upon completion of her course, she expects to enter the Women's Air Ferrying Service, to be stationed at Sweetwater.

To Test Pressure Cookers Tuesday

Miss Lucile King, home demonstration agent, will test pressure cookers for Munday ladies at the home making cottage on Tuesday, September 21, it was announced this week. Testing will begin at 9 a. m. and will close at 6 p. m. Anyone desiring to have pressure cookers tested are requested to have them there on that day. There will be no charges for this service.

R. C. Goree Dies In California

Word has been received here of the death of R. C. (Campbell) Goree, who passed away in Riverside, Calif., on September 8, 1943.

Mr. Goree came to Knox county as a young man in 1884, was county clerk of Knox county, later purchased a farm near Knox City and lived there until he moved to California a number of years ago.

His many old time friends regret to have the sad news of his death, although Mr. Goree lived his allotted years and reached a mature old age.

Mr. Goree is survived by his wife, three sons and two daughters. His oldest son, Rogers Goree, lost his life in World War I; another son, John D. Goree, is a captain in the army air forces and now in India. He is also survived by two brothers, Hon. B. K. Goree, an attorney-at-law, living in Fort Worth, and Robert G. Goree, retired, lives in North Hollywood, Calif., although his home has been in San Diego for the past 20 years.

The town of Goree was named for R. C. Goree's father, Captain R. D. Goree, who lived at Seymour and helped promote the Wichita Valley railroad from Seymour to Abilene.

Maj. Chas. Giddings Home From Pacific War Theater

A telephone call at four o'clock Tuesday morning aroused members of a Wichita Falls family, and Mrs. Charles H. Giddings, Jr., answered to hear the voice of her husband, Major Chas. H. Giddings on the other end of the line. He was calling from San Francisco, Calif., having landed a few hours earlier from the New Guinea war zone.

Six hours after he landed, Major Giddings was able to get his call through to inform his wife that he was on his way home. Mrs. Giddings immediately notified his parents, Mr. and Mrs. C. H. Giddings of Munday, and soon the news was spread that Munday's hero pilot of a Flying Fortress was on his way home after almost two years in combat duty against the Japs.

In a telegram to his parents Tuesday, Giddings said he was meeting his wife in Fort Worth "in a few days." They suppose, from the wording of the telegram, that it will be the latter part of this week before he reaches Munday.

Parents Opening Home To Friends

Realizing that their son will likely be here only a few days, and that he will desire to spend as much time with his family as possible, Mr. and Mrs. Giddings are opening their home to their many friends here during their son's visit.

There are many who will want to visit Major Giddings and who would not otherwise have the opportunity. His parents have extended a cordial invitation to every one of Charles' friends, as well as friends of the family, to call at their home at any time during Charles' visit.

"We are just happy that he is home," they said, "and although we haven't seen him in so long, we don't want to be selfish and we want to share him with his friends, those whom we know Charles wants to see."

Major Giddings was ordered to the Philippines no December 1, 1942, and was on the West Coast when Pearl Harbor was attacked by the Japanese. In January, 1942, he was sent to Hickam Field, Honolulu, and was there only a short time before being ordered to the Southwest Pacific.

During his activities in the Southwest Pacific, he has been promoted from second lieutenant to major, these promotions coming rapidly. He has been awarded the Silver Star for gallantry in the Bismarck sea battle, the Oak Leaf Cluster for his part in carrying out attacks on Japanese convoys, and his most recent decoration was the Distinguished Flying Cross for meritorious achievement in an aerial flight over Huon gulf.

Giddings was relieved from active combat several weeks ago and was assigned to operational duty.

Bully Ratliff Gets Promotion

Headquarters Ninth U. S. Air Force announces the promotion of William O. Ratliff to the grade of 1st lieutenant. Lt. Ratliff has been on duty with an Air Forces Service group in the Middle East since March of this year.

Born on January 15, 1919 at Goree, Texas, Lt. Ratliff is a graduate of the Goree high school, class of 1936. Prior to his entry into the Army, he was associated with the Munday Livestock Commission Co. as a livestock dealer. On Nov. 26, 1940, he enlisted in the Army and was commissioned as 2nd lieutenant in the Air Corps on Sept. 15, 1942 following a course of instruction at the Officers Candidate School at Miami Beach, Fla.

His parents, Mr. and Mrs. R. L. Ratliff, reside in Munday, Texas.

Miss Katie Sweatt and Miss Erma Lee Pierce of Lubbock visited in the home of Katie's parents, Mr. and Mrs. L. C. Sweatt, Sunday. They returned to Lubbock Sunday afternoon.

MAJOR GIDDINGS

Moguls Prepare For 1943 Grid Schedule

Munday Boy Is Now Pilot Of B-17 Bomber

HENDRICKS FIELD, Schriber, Fla.—Among the Flying Fortress pilots graduated recently from this Army Air Forces school was Second Lt. Ernest M. Billingsley, son of Mr. and Mrs. M. F. Billingsley, Munday, Texas.

The lieutenant, a graduate of

LIEUT. BILLINGSLEY

Munday high school, won his commission and silver wings at Blytheville, Ark., May 28, 1942. He received primary training at Americus, Ga., and basic at Greenville, Miss. He entered the service at Houston, Texas, in January 1941.

Schedule For Moguls Given

Coach H. H. (Hoss) Bledsoe announced Wednesday the schedule for the Munday Moguls for the 1943 football season. It is as follows:

- Sept. 24, Seymour, there.
- October 1, Haskell, here.
- October 8, Hamlin, here.
- October 15, Anson, there.
- October, open.
- October 29, Stamford, there.
- November 5, open.
- November 12, Seymour, here.
- November 19, open.

Munday plays in District 11-A this year, and all the above are conference games except the ones with Seymour.

The Moguls have as their co-captains, Owens at guard, and Gafford in the backfield. "When all the wrinkles of this light and inexperienced team are ironed out, they will be able to play any team in the district a good brand of football," Coach Bledsoe said.

COMPLETES COURSE IN AIRPLANE MECHANICS

Word has been received here that Pfc. Bobbie B. Reese has completed the course for airplane mechanics from the Air Forces Technical School in Lincoln, Nebraska. He is still stationed at the Lincoln air base for further training.

Pfc. Reese is the son of Sgt. and Mrs. C. J. Reese of Pecos.

Bond Rally Is Slated For 3:00 p. m. Friday

Movie stars and army personnel and equipment will be here for the huge bond rally which will be held in the business district of Munday on Friday afternoon of this week, beginning at three o'clock.

Members of the local committee were informed Thursday that a 30-piece band from Camp Barkeley Medical Replacement Training center will be here for the show, and in addition they will have quite a bit of army equipment. This will probably include such equipment as light tanks, scout cars, amphibious jeeps and other equipment.

The show will start promptly at three o'clock, and indications are

Henry H. Bledsoe Is Mogul Coach

The 1943 edition of Munday's Moguls were being whipped into shape this week for the opening of the fall football schedule, and prospects are that the Munday school will have a fighting bunch of gridsters.

Twenty-three boys reported for practice the first of last week, and they are taking on the form of a good team. Although many of them are light, those who have witnessed the daily workouts say that they are a fighting bunch of little warriors.

Henry H. Bledsoe, new Mogul mentor, believes he will have a team that will bring honor to Munday high school this season. If ideals of the new coach are instilled into the team, these boys will play hard-fought football for the sheer love of the game.

Rearred in Seymour, Bledsoe is a graduate of that school and a former star of the Seymour team. After completing high school, he attended Hardin-Simmons University, where he was again active in that sport.

Bledsoe entered his country's service but received his medical discharge prior to accepting the position as coach of Munday high school.

The 1943 football schedule for the local team has been completed and will be announced in the near future.

Supervisors Of Soil District To Be Elected

Jack Idol, chairman of the Haskell-Knox County Soil Conservation District, announces that:

On October 5, 1943, at 8:00 p. m. elections are to be held in each soil conservation district subdivision within the state of Texas to elect a supervisor to serve as follows:

- Supervisor for subdivision No. 1 to serve 1 year; for subdivision No. 2 to serve 2 years; subdivision No. 3 to serve 3 years; subdivision No. 4 to serve 4 years, and of subdivision No. 5 to serve 5 years.
- Elections of supervisors in the Haskell-Knox Soil Conservation District will be held within each subdivision at the following places on October 5, 8:00 p. m.:
 - Subdivision No. 1 at Mattson.
 - Subdivision No. 2 at Rochester.
 - Subdivision No. 3 at Munday Grammar School.
 - Subdivision No. 4 at Benjamin Court House.
 - Subdivision No. 5 at Trusecott school.

MAKING PLANS TO OPEN HATCHERY HERE

D. H. Davis of Lamesa came in the first of this week and is completing plans for the opening of his hatchery and feed store. The business will be located in the Jones building.

Mr. Davis had planned to be open by September 15, but delays in getting his equipment and materials here has made it necessary to postpone the opening. He expects to be open within the next week or ten days.

that practically all business houses will be closed for the rally. Hundreds of people from this trade area are expected to be here.

One of Hollywood's most famous teams of Western stars will appear when Dave (Tex) O'Brien, Jim Newell and Guy Wilkerson, known as "The Texas Rangers" entertain the crowd with their special program. This trio is appearing in bond rallies of this area in cooperation with the motion picture industries in the big bond drive now under way.

An invitation is extended to all persons in this section to be present and see the show.

**"What a Man Does For Himself Dies With Him—
What He Does For His Community Lives On and On"**

IMAGINATION AND CAUTION

Out of the maze of postwar plans that have been given wide publicity during the past year have come many impractical as well as many practical suggestions. Viewed from the standpoint of a business man who knows what it takes to develop and produce new products, many of these are stimulating and some have a reverse effect.

Commenting on the postwar situation, Mr. Wilfred Skyes, president of the Inland Steel Co., says: "Men of imagination have turned to postwar planning in groups that now number about 200. They stimulate me. And they sometimes make me mad."

"They stimulate me because they also see what can be done eventually with the new postwar products. And they make me mad because they don't seem to realize that it can't all be done right away—immediately—as soon as the Japs are licked—if not sooner.

"I can't go along with them because the men I represent are not planning for someone else. What disguises their planning from all others is that they are the men who must make some plan work.

"If the men who launch the goods are wrong, they go broke. And then everybody is out of a job. They have a responsibility for the successful application of men, materials, and money."

Mr. Skyes goes on to say that while experimentation and research never cease, and that while industry will place new products on the market the minute they are practicable, it is nevertheless true that when the war ends and people will need to replace their worn-out radios, refrigerators, and washing machines, they will be able to get the 1942 models with improvements.

INDUSTRY AND EDUCATION

Almost daily comes the news of the far-reaching effect that American industry has on other phases of national life.

Typical is the news that some seventy faculty members of midwestern high schools have begun an eight-week training course at the Apprentice Training School of a large Detroit war plant. All of these educators are working for Master's or Doctor's degrees at nearby universities, and they will receive full college credit for their work at the training school.

Their course at the plant will include forty hours a week of actual machinework work, and daily conferences on various phases of industrial management and operation, including problems of personnel, social service, employment, labor relations, and others.

These educators are the ones who will train the nation's youth, a far larger percentage of whom are going into industrial work than ever before. It is an excellent idea that these so-called dwellers of the "ivory tower" meet with industry, and understand its problems so that industry's future recruits may be better prepared for their work.

DANGERS IN TAX SYSTEM

In a recent address before five thousand members of the American National Retail Jewelers' Association, Willard Chevalier, publisher of Business Week, called for a reform of the nation's present tax system on a comprehensive basis of encouragement to enterprise.

Speaking on postwar planning at the second wartime conference of the Association, Col. Chevalier, who is chairman of the International Relations Sub-Committee of the National Association of Manufacturers Postwar Committee, said:

"Taxation should and can be handled so as not to discourage either investment in small business or the assumption of risk in new industry. But this requires reform of our present tax system, not on a patchwork basis of political expediency but on a comprehensive basis of encouragement to enterprise.

"When all has been said and done and planned for, war-government debt and taxation still must be chafed. A large debt and high taxes, as such, need not be a cause for worry. But what about fears is that our present system of taxation may stunt the growth of, rather than promote, new enterprise and expansion."

As we begin to feel the pinch of heavily increased taxes, we tend to become more interested in the cost of the war and the methods that are being employed to meet this cost. As Col. Chevalier has indicated, "a large debt and high taxes, as such, need not be a cause of worry," but if our present method of meeting the mounting war debt is prohibitive the postwar recovery of business will be in grave danger.

POSTWAR BUYING BACKLOG

A sign of the times is the new, unadvertised shortage which the U. S. public will soon find in safety deposit boxes. White-collar workers and wage earners clutching War Bonds in their hands have swarmed into banks and trust companies in recent months and rented safety deposit boxes for the first time in their lives.

Safety deposit box occupancy is at an all-time high; rentals since January 1, are up 31 per cent over the same period a year ago. Yet there is no tendency to hoard currency. The total of money in circulation is rising steadily.

This is most significant. People's valuables today consist largely of war bonds and other long range savings. That means, in terms of postwar planning, an accumulated buying power to back up the great demand which will exist when the war ends. It means that people will be able to pay for the things industry will produce. It means greater employment if industry, unhampered by unnecessary governmental restrictions, is given a chance to satisfy the demand.

DEBT THAT CAN'T BE PAID

A characteristic of the jungle fighting in the Southwest Pacific is the high proportion of non-fatal wounds. Japanese snipers fortunately are poor shots. Equally fortunately for our men in that area, there are plenty of highly trained medical men to care for wounds immediately. If it were not for this on-the-spot medical service, the horror of infection and death would become almost unbearable. Reporting on the heroism of the Army doctors, a news dispatch from Munda states: "It is a heart-warming experience to watch the young surgeons working night and day, ministering to the wounded Americans in the gloomy depths of the New Georgia jungle. The main responsibility for saving lives rests with them. . . . It has been the aim of the medical corps in this campaign to give every wounded man preliminary treatment within a few minutes after he has been hit. . . . The Corps does its job with the bullets and shrapnel still flying."

These are the same doctors that a year or so ago were striving to build careers for themselves at home. Most of them have families and all of them spent long years of study and privation preparing to practice medicine. They carry with them into battle a wealth of knowledge and the best traditions of the American medical profession.

The parents, wives and sweethearts of the men in service owe the military doctors a debt of gratitude they can never hope to repay.

TO REWARD EFFICIENCY

For excellence in the production of war materials the Army-Navy "E" has been awarded to 1,910 plants and projects since this method of recognizing outstanding performance was adopted.

The "E" pennants went to a total of 1,598 companies, 1,042 manufacturing primarily for the Army and 556 for the Navy.

In awarding these pennants, attention was centered on excellence in production and quality and not on the size of the plant, as establishments receiving the "E" range in size from some having but one employee to one with more than 126,000 workers employed in a group of plants under the same management.

America's production standards have always been high. The extraordinarily long life of the equipment we are using today (as few peacetime replacements are being produced) stand out as examples of our manufacturing efficiency.

Now, in wartime, with every rivet, every bolt, and every part of every piece of war equipment that goes to our fighting forces under the most severe strain, the American standard of efficiency and perfection is higher than ever.

Movie Stars Coming Here

One of Hollywood's most famous teams of Western stars will appear in Munday, when Dave (Tex) O'Brien, Jim Newill, and Guy Wilkerson, known on the screen as the "Texas Rangers," for Producers Releasing Corporation's pictures, for the "Stars Over Texas" bond rally to be staged here on Sept. 17 at 3:00 p. m.

O'Brien and Newill play the leading men in the Western series which have caught the public fancy by storm. Wilkerson, their buddy in the picture, plays the

eccentric cowboy comic who has caused so many laughs, with his funny screen characterizations. He is a native, by the way, of Katy, Texas, where his sister still operates a 5,200 acre rice plantation.

Newill and O'Brien have just finished making a series of radio shows for the Special Services Division of the U. S. Army, for short-wave broadcast to our armed forces throughout the far reaches of our every fighting fronts.

Some of the pictures the trio

have recently made as "The Texas Rangers" are "The Fighting Valley," "The Border Buckaroos," "The Rangers Take Over," and "West of Texas." They will start on a new production upon their return to Hollywood, immediately after their tour of Texas selling bonds.

Preparations for their appearance in Munday were announced today by C. R. Elliott, local chairman of the War Activities Committee.

Gems Of Thought

BUILDING

Let not him who is houseless pull down the house of another, but let him work diligently and build on for himself.—Abraham Lincoln.

We build our ideals and they in turn build us.—Le Conte.

Happy is he the palace of whose affection is founded upon virtue, walled with riches, glazed with beauty, and roofed with honour.—Francis Quarles.

What we do upon some great occasion will probably depend on what we already are; and what we are will be the result of previous years of self-discipline.—H. P. Liddon.

We should strive to reach the Horeb height where God is revealed; and the corner-stone of all

spiritual building is purity.—Mary Baker Eddy.

Build your church within your heart and take it with you everywhere.—Anon.

WILL PROVIDE THE WAY

COLLEGE STATION—Although an Archer county home demonstration club woman was not able to have a Victory garden this spring, this did not prevent her from filling her pantry shelves and for helping her neighbors do likewise. Sharing her canning equipment and canning on the halves enabled her to provide a surplus of home-canned food.

This club woman, Mrs. J. M. Stine of Archer City, has a thousand and containers of food on hand. About 800 of these were canned on the halves this year, and the remaining 200, mostly fruit, remained in her pantry from last year.

Within the last few months, Mrs. Stine has helped six families can 1,600 containers of food. This assistance and the loan of her equipment have enabled her to stock her pantry with string beans, corn, peas, soup mixtures, pickles and relishes, shelled pinto beans, jellies

and jams, peaches, pears, tomatoes, figs, strawberries, blackberries, plums and grapes.

Emma Lou Blocker, Archer County home demonstration agent, reports that along with her canning Mrs. Stine recently found time to make two wool comforts and to restore an old chair about 50 years of age. She wove a seat of Hong Kong grass in repairing the rocker.

Legal Notice

Citation By Publication
THE STATE OF TEXAS

TO ROBERT LEE PENERY
GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 4 day of October, A. D., 1943, at or before 10 o'clock A. M., before the Honorable District Court of Knox County, at the Court House in Benjamin, Texas.

Said plaintiff's petition was filed on the 9th day of August, 1943. The file number of said suit being No. 4300. The names of the parties in said suit are: Opal Penery as Plaintiff, and Robert Lee Penery as Defendant. The nature of said suit being substantially as follows, to-wit:

That she is and has been for a period of twelve months a bona fide inhabitant of the State of Texas and has resided in the County of Knox for at least six months next preceding the filing of this petition; that on or about the 18th day of June 1939, plaintiff was lawfully married to the defendant; that they continued to live together as man and wife until on or about the 6th day of February 1940, when the defendant voluntarily abandoned the plaintiff without fault on her part, since which time they have not lived together as man and wife. That one child was born to this union, to wit, Donald Ray Penery. That said child has been with plaintiff all its life and the defendant has never supported said child or this plaintiff. That plaintiff is a suitable person to have the care and custody of said minor child. Plaintiff says that there is no community property to be adjudicated. That the marriage relations still exist, but the defendant's actions and conduct toward her generally are of such a nature as to render their further living together insupportable the premises considered. Plaintiff prays for judgment dissolving said marriage relations and for custody of said minor child.

Issued this the 9th day of August, 1943.

Given under my hand and seal of said Court, at office in Benjamin, Texas, this the 9th day of August A. D., 1943.

LETTERS FROM THE PEOPLE

What Are You Doing to Help Win The War? To All of Us On The Home Front

Do you remember your school days, your high-school days, those good old golden rule days—readin' and writin' and 'rithmetic? When you were a member of a team, or just a part of the cheering section? Really, it doesn't matter which you were, on the team, or in the bleachers; because the important thing was that you were a part of it, that you belonged to it. And the thing that you belonged to and were a part of was something you loved, something you wanted to cheer for, even fight for, and that is what counts.

Is happiness the thing a man has all alone by himself, with nobody to share it? Or is it something that he works at, hopes for and dreams over with a lot of other people? Is it owning something or sharing something? For instance if a disaster should befall us—we would all pitch in and work together to rescue the survivors. Remember Crowell and the cyclone. In those few hours in the dark, and in the rain, a spirit of friendliness and helpfulness warmed the hearts of all the men and women in the country, even those who were able to do only a little. Private quarrels were forgotten, and each one saw in his neighbor not a rival or an antagonist, but a part of his own team, part of his own side. They were all in there to do their little something.

That is their real happiness, to share in the experience of others, to know in your own heart that

Back the attack by upping your payroll savings your very next payday. Measure your savings by your new higher income.

you are a part of a community, doing your part. Who is the rich man—the man with a lot put away, or the man with a lot to give. We must all do our part, by giving either money or service to the community and government, to help win the war. You don't have to be a Senator, Representative or Government clerk to be part of this country. We need more than an effort of the mind, or an effort of the heart, and in the effort of the heart everyone can share. You can be a member of the team. Too many of us are spending too much of our time in the bleachers watching the show go on. True, it is better to be in the cheering section encouraging the team, than not to be present at all, but why not get on the team.

There are many things that we can do; the boys who are actually doing the hard work, that is doing the fighting, are expecting us to keep the faith. They expect us to protect and defend that little cotage with the wife and kiddies. Are we keeping the home fires burning? Are we seeing to it that supplies are continually moving to the front to sustain them in their work, and that the vital installations are defended from fifth columnists and saboteurs? Friends, we can do plenty, there are a lot of things to do. We can join the TEXAS STATE GUARD unit of which Munday has the privilege of being affiliated with the 17th Battalion. But you don't have to go to Australia, Africa, Sicily or Europe to help America make a better world, now and hereafter. You can stay at home and from your own fireside you can go into the prison camps of the Axis, with food and clothes and cigarettes for the American boys. You can fight with the English, march with the Chinese, comfort the shipwrecked, right in your own homes. BUY WAR BONDS!

That's what happiness is; try it and see. Be a part of what this nation has to do. We must realize NOW that we are at war and each

Home Front Volunteers Start Today To Put Over Third War Loan Campaign For World's Greatest Financing Drive

With the Slogan "Back the Attack—With War Bonds," Every American Citizen Is Asked to Buy at Least One Additional \$100 Bond in September

WASHINGTON, D. C., September 9.—America's Third Army marched forth today to capture the most important immediate objective on the home front.

As 2,000,000 volunteers swung into line to put over the Third War Loan campaign, they were met with helping hands from millions of workers in the home front production battle, and cheers of encouragement from men on the fighting fronts—to whom the success of the Third War Loan is literally a matter of life and death.

To "Back the attack—with War Bonds"—every American who can do so will be asked to buy at least an extra \$100 War Bond. The quota for those who are able to invest more from income or accumulated funds will be much higher.

Speaking of the great drive to raise \$15 billion—a major portion to come from individuals—Secretary of the Treasury Henry Morgenthau, Jr., said:

"The United Nations are on the march. The first rumblings of the big offensive are being heard in all the Axis nations. Thousands of our men have stormed Sicily. Tons upon tons of bombs are dropping on Germany. We are attacking Jap-held territory as never before. This is a great day for us. But it means that the time has come for us to really tighten our belts here on the home front. We have come to a most crucial period in the war, and the success that we will have on the fighting fronts, will depend to a considerable extent upon the degree to which we here at home are willing to work and sacrifice

for ultimate victory.

"It's going to be a costly victory. We have said that before, but we must repeat it again and again. The real war has only now begun. Billions of dollars more must be spent to keep the material of war going to our men at the fronts. Your Government must call upon you, the American people, for that money.

"Remember! It is up to all of us here at home to 'Back the Attack'—and to do it more enthusiastically, more thoroughly and with greater sacrifice than any attack has ever been backed by any home front in all history. Everything is at stake. Everyone must help to the very limit of his ability."

The drive, continuing through-out September, will offer to investors in addition to Series E, F and G United States Savings Bonds the following securities: Treasury Savings Notes, Series C; 2 1/2 percent Treasury Bonds of 1944-69; 2 percent Treasury Bonds of 1951-53; 1/2 percent Certificates of Indebtedness.

one of us must make a personal sacrifice and more sacrifice in order to win this war. BUY MORE WAR BONDS!

MAJOR J. C. HARPAM, Comdg. 17th Bn. TSG., Munday, Texas.

Letters From People—

To The Editor of The Munday Times:

I have just received word from my husband, Pfc. S. J. Wallace, and he now gets his mail in care of Postmaster, Los Angeles, Calif. S. J. is the son of Mr. and Mrs. A. D. Wallace. He was inducted and sent to the reception center at Camp Wolters in March, 1942. From there he was sent to Camp Berkeley, where he was stationed for 18 months except while in Louisiana on maneuvers.

Last week he was sent to California. He asked that as soon as I read my Munday Times I send it to him so he can keep up with the home folks. He is in the medical corps.

I have bought a small home and plan to make my home here at Seymour for the duration.

Mrs. S. J. Wallace, Box 152, Seymour, Texas.

First doctor's degree in mechanical engineering ever conferred by the University of Texas went this summer to a staff member—Luis Bartlett, since 1936 a test engineer in the University's Bureau of Business Research and inventor of a new flash-freezing process and machine for quick-freezing foods.

LOCALS

Mrs. G. W. Dingus left last Friday for Fort Worth where she is visiting her daughter, Miss Maxie Dingus, and her sister, Mrs. L. W. Boynton, this week.

Miss Patsy Ruth Kirk, a 1943 graduate of Munday high school, left last Saturday for Abilene where she enrolled in McMurry College for the school term.

Mrs. George Lake and daughter, Miss Elsie, returned to their home in New York last week after spending some two weeks here with Mrs. Edward Lake and with Mr. and Mrs. Sam Salem.

Miss Flora Alice Haymes left last Sunday for Abilene where she enrolled in McMurry College for her sophomore year.

Mr. and Mrs. J. W. Roberts visited with relatives in Haskell over the week end.

Wade T. Mahan was a business visitor in Seymour last Saturday.

Mr. and Mrs. Barton Carl visited with relatives in Baird over the week end.

Mr. and Mrs. B. L. Blacklock spent several days last week visiting with relatives in Ranger and Cisco.

IT PAYS TO ADVERTISE

I GIVE YOU TEXAS

by BOYCE HOUSE

John Randolph of Roanoke (Virginia, of course) was the master of biting wit. A constituent, who was quite a bore, said, "I passed your house the other day." Randolph replied, "I hope you always will."

However, Randolph lost one bout. In his day, Washington was unpaved and, in crossing a muddy street on a plank, he found himself face to face with his enemy, Henry Clay. Randolph, a little man drew himself up to his full height and said, "Sir, I never give the way to a scoundrel." The tall and stately Clay stepped into the mud, bowed and said, "Sir, I always do."

Texas public schools are facing a shortage of teachers. Some of the little rural schools may not be able to open. While Texas soldiers and sailors are shedding their blood and giving their lives to preserve freedom, what are the statesmen at Austin doing to meet this crisis on the State's own front—a situation that threatens the opportunity in life for thousands of future citizens? Our proud State should give its own boys and girls an equal chance with those of the "politically potent East"—(I've heard those words somewhere before.) I submit that this is even more important than whether an "A" coupon is worth four gallons or only three gallons of gasoline!

Nomination for the world's worst joke: Merchant—What are you scratching your head for, Rastus? Darkey—I see got 'rithmetic bugs in mah hair, sah. What are arithmetic bugs? Dey's cooties an' I calls dem dat 'cause dey add to mah misery, subtract from mah pleasure, divide mah attention an' dey multiplies like de dickens.

One of the most interesting men I ever met had been a Confederate soldier who refused to take the oath of allegiance after Appomattox but fled to Mexico, where he joined Emperor Maximilian's army. With the fall of Maximilian, the veteran sailed for Europe.

fought in a Balkan war, the Franco-Prussian war and the Spanish-American war. After all these adventures, he took a job as a printer with the Baird Star. A bachelor, the hero of many wars was a favorite with little children for he regaled them with candy and stories of battles—a serene old age after a life filled with action.

VISITS PARENTS

Cpl. Randall T. Stogner has been visiting his parents, Mr. and Mrs. T. A. Stogner of Knox City. After a 10-day furlough, he returned to duty at Fort Reno, where he has been stationed since he was inducted into the service on March 5th.

Miss Maxine Elland returned to Dallas last Monday after spending several days here with her parents, Mr. and Mrs. G. R. Elland, and with other relatives.

Alvin Hollar, who is serving in the U. S. Navy and stationed at San Diego, Calif., spent the first of this week here with his parents, Mr. and Mrs. E. A. Hollar. This was his first visit home since being inducted into the service.

Mrs. Agnes Mayes of Amarillo visited with relatives and friends here over the week end. She was accompanied home by her son, Jackie Mayes, who will make his home with his mother in Amarillo.

R. T. Morrow and son, Dickie, were business visitors in Seymour last Tuesday.

BONDS OVER AMERICA

Deep within San Francisco's Chinatown lies St. Mary's Park, a mere speck on the city map, but it is here that a new landmark greets the eye of the visitor. It is an heroic statue of Dr. Sun-Yat-Sen, first president of China.

Years ago the French erected a statue to Dr. Benjamin Franklin, economist, scientist, humanitarian. One of the first acts of the Nazi conquerors of France was to remove this memorial to this American statesman.

NO, NO, Lady THAT'S WRONG

Lots of people make mistakes when they figure the cost of painting their property. Too often they figure the cost of the paint in the can. The proper way is to figure its cost on the property. It costs as much to apply inferior quality paint as to apply high quality Minnesota paint.

With Minnesota Paint you get maximum coverage and uniform spread. Highest quality linseed oil gives it elasticity and durability. For surface protection, beauty, longer life and economy use Minnesota Brand Paint. We will paint your property on easy payments.

Why You Should Use Minnesota Paint

- Because there has been no advance in price. There has been no drop in its high quality. You get pre-war quality at pre-war price.
- Because it is made of the finest materials and pure linseed oil. Minnesota paint gives maximum coverage per gallon.
- Because it actually provides a protective film over the surface it covers. It gives added years of beauty and protection to your home.

We Supply the Paint and Pay Your Painter... Easy Payments

Bobbie Waldron And Eugene L. Leonard Are Wed Recently

Miss Bobbie Waldron, daughter of Mr. and Mrs. A. J. Waldron of Munday, became the bride of Sgt. Eugene L. Leonard, son of Mr. and Mrs. W. E. Leonard of Hutchinson, Kans., in a double ring ceremony on Wednesday evening, September 7, at 7 o'clock. Rev. R. E. Shanks read the marriage vows, the wedding being in the First Baptist church of Chula Vista, Calif.

Mrs. Betty Navret was bridesmaid and Staff Sgt. Warren Newel was best man. Miss Freva Payne and Sgt. Woodford Moore also attended the wedding.

The bride wore a light blue suit with navy accessories and a corsage of white orchids.

Mrs. Leonard was employed in the AAA office at Benjamin for over three years, and for the past two years she has been employed in California.

The groom has been in the U. S. Marines for four years, having served two years in overseas duty. He is now stationed at Kearney Field, Calif.

After a short wedding trip to Lake Arrowhead and Los Angeles, the couple are making their home in San Diego.

BIRTH ANNOUNCEMENT

Mr. and Mrs. E. L. Pierce are the proud parents of a baby boy, William Leo, who was born on September 3, 1943. The baby and mother are both getting along nicely.

Mrs. J. D. Crockett Entertains With Luncheon Sunday

Mrs. J. D. Crockett was hostess to an announcement luncheon at high noon Sunday, September 12, in her home. This happy occasion was to announce the approaching marriage of her attractive and popular daughter, Helen, to Jack Benton of Corpus Christi.

The luncheon table was centered with a lovely crystal bowl of carnations. Guests found their seats at the table by means of place cards in the form of miniature brides. An attractive three-course luncheon was served.

The dessert plates held announcement cards, which were tied with silver wedding bells. The guest list included the following:

Mmes. James Waggoner, Roger Barton, W. B. Harrison, Robert Reeves, Don Davis and Miss Tommie Joe Miltstead, all of Rule; Mmes. Chas. Haynie, Jr., and Baddy Bumpas, Munday, and Mrs. D. B. Crockett of Rochester.

Wesleyan Service Guild Has Bible Study On Monday

Members of the Wesleyan Service Guild met last Monday night at 8:45 at the Methodist church for Bible study. Mrs. M. F. Billingsley led the interesting Bible lesson.

Mrs. Joe Bailey King gave the devotional, followed by prayer by Mrs. Layne Womble. Two songs were sung by the members.

Members present included Mrs. M. F. Billingsley, Mrs. Joe Bailey King, Mrs. Layne Womble, Mrs. Oscar Spann, Mrs. Luther Kirk, Miss Merle Dingus and Miss Ruth Baker.

Mrs. Oscar Spann will be leader when the guild meets next Monday night at the church. All members are urged to be present.

Mrs. Johnnie Cunningham of Brewton, Ala., spent the past five weeks with J. G. Hawkins and family. She returned to her home last Friday.

Instead of "temptations downward," the University of Texas offers its students "temptations upward." University President Homer P. Rainey told freshmen at their fall orientation convocation: "Our major objective is to create an atmosphere in which your highest aspirations will be challenged and developed," he said. "The opportunity is here if you will but take advantage of it."

LITTLE girls have a way of growing so fast that they often have L dresses that are very good, and very pretty—but too small. In times like these, such dresses should not be discarded. Why not open them at the seams, and insert bands of crocheted to make them bigger? The tops may be cut down, too, and the result will be an attractive pinafore style.

Hefner Club Meets Tuesday In Mobley Home

Members of the Hefner home demonstration club met with Mrs. Farris Mobley on Sept. 14, with 12 members and several visitors present.

Miss Lucile King, home demonstration agent, gave a demonstration on canning chicken without the bones, and separating the white and dark meat in taking out all bones.

The president opened the meeting with the club pledge, after which "God Bless America" was sung. A report of the county council meeting at Benjamin was given by Mrs. R. L. Lambeth.

CARD OF THANKS

In deep appreciation of everything that was done in our behalf, we attempt to express our thanks to everyone for the kindness shown us in the death of our husband and father, W. W. Wilson.

We appreciate each floral offering, each deed of kindness and each word of sympathy. We pray God's blessings on you all. Mrs. W. W. Wilson and children.

Crockett-Benton Marriage Vows Read In Rule

RULE — The marriage of Helen Crockett, daughter of Mr. and Mrs. J. D. Crockett of Munday, and C. A. Benton of Corpus Christi, son of Mr. and Mrs. B. B. Benton of Knox City, took place here Tuesday evening.

The Rev. Shan Hull, pastor of the First Methodist church, read the single ring service in the home now occupied by Mr. and Mrs. H. C. Oliver which was the Crockett family home for many years.

Mrs. David Crockett of Rochester served as her sister-in-law's only attendant, and Leo Parks of Knox City was best man.

The bride wore a two-piece blue moire taffeta dress and carried white blossoms on a prayer book. Her accessories were in brown.

Mrs. Roger Benton of Rule gave the wedding music and also played the accompaniment for Mrs. Don Davis to sing "Ah, Sweet Mystery of Life and I Love You Truly."

Mrs. Harry Butler of Weinert presided at the bride's table and was assisted in the refreshment service by Mrs. James Waggoner, Mrs. W. D. Harrison and Mrs. C. H. Oliver.

The bridal couple left Rule Tuesday night for Corpus Christi, the bride traveling in a two-piece green wool suit. Her accessories were in black and she wore a corsage of white carnations.

Mrs. Benton was graduated from the Rule high school with the class of 1942. Benton is manager of a food store in Corpus Christi.

The bride was honored with a gift tea Monday afternoon at the Methodist parsonage with Mrs. Shan Hull, Mrs. Oswald Cole, Mrs. T. A. Teague, Mrs. T. E. Sollock, Mrs. James Waggoner, Mrs. Robert Turner, Mrs. E. O. Morgan and Mrs. Ora McCollough as hostesses.

Mrs. Hull, the honoree and her mother, Mrs. J. D. Crockett, the bridegroom's mother, Mrs. B. B. Benton of Knox City, and Mrs. David Crockett of Rochester were in the receiving line.

Assisting in serving were Mrs. Waggoner and Mrs. W. B. Harrison. Mrs. T. A. Teague presided at the registry.

Mrs. Agnes Nesbitt and son, Lynn Royce of Dallas, are visiting her parents, Mr. and Mrs. Emmett Branch, this week.

Activities of Colored People

Good services were held Sunday night at the Church of God in Christ. Elder Brown of Vernon, Texas, preached, and other visitors were here from Vernon to attend the services.

A high day was held at West Beulah Baptist church Sunday with the pastor, Bro. Meadors in charge. The offering amounted to \$40.00. Services were held until Thursday night, conducted by the pastor.

The club met on Thursday evening with Mrs. Aline Ross. Refreshments were served.

Mrs. Helen Sheron is on the sick list, but is reported to be some better.

Housekeeping Hints Worth Remembering

Scorched Cottons

If cottons scorch while ironing, this is what Westinghouse home economists recommend: Plunge into cold water immediately and allow to stand for 24 hours. By that time the marks will have disappeared.

Stale Bread

Rather than waste stale bread in these days when we're pledged to "waste nothing," Westinghouse home economists do this: Wrap loaf in a clean, damp towel for about a minute. Then place in 350-degree oven for about 20 to 25 minutes. Serve warm.

Practically Foolproof

To prevent white sauce from lumping, Mrs. Julia Kiene, director of Westinghouse Home Economics Institute, finds this practically foolproof: Don't allow flour and fat to become too hot before adding the milk. Stir about 1-2 cup of milk in very slowly as sauce thickens, then gradually add the balance of the milk and stir until it all thickens.

Wasteful

As much as 50 per cent of the light is wasted when dirt and dust are allowed to accumulate on reflector bowls of floor and table lamps and on glass globes of ceiling fixtures, says Miss Myrtle Fahsbender, director of home lighting for Westinghouse. To clean, remove glass parts and wash in warm soapy water, rinse and dry thoroughly inside and out.

As A First Course

A trick that turns tomato juice into consommé comes from the Westinghouse Home Economics Institute: Take the bones from any meat, add a little water (emphasis on a "little"), a bay leaf, salt and pepper and cook slowly for about an hour. Strain broth, add tomato juice and serve hot as a first course.

Starch Sticks?

When starch sticks to the bottom of an iron, Mrs. Julia Kiene, director of Westinghouse Home Economics Institute, does either one of these two things: Adds an extra pinch of salt to the starch, or sprinkle some salt on a newspaper and runs the iron over it.

Understudy For Bacon

As an excellent alternate for bacon, Westinghouse Home Economists recommend bacon squares, cut from the jowl of the hog instead of the side. They are similar in taste to bacon, much less expensive and, best of all, usually

For Successful Coffee

Good coffee starts in a clean pot. Westinghouse home economists recommend washing pot in rich sudsy water after each use, and if stains are very stubborn, tackle them with a long-handled scrub brush. If coffee maker has a cloth filter, rinse cloth thoroughly after each use and keep in a glass of cold water.

Hands Off

Hands off the cushiony strip of rubber, known as the gasket, on the inside of the refrigerator door. Westinghouse home economists explain that strong cleansing agents and grease and oil from human hands are equally ruinous to rubber. Each time the refrigerator is cleaned, wipe gasket with a mild solution of baking soda and warm water, using a damp, not wet, cloth.

Mrs. John Robert Moore of Tuscaloosa, Ala., came in last week for a visit with her mother, Mrs. J. R. Smith, and with other relatives.

Mrs. W. M. Mayo left last Monday for Amarillo, where she is visiting her daughter, Mrs. Agnes Mayes, for a month.

FORTUNATE BABY HAS MANY GRANDPARENTS

Genghis Carl Ballard, son of Mr. and Mrs. J. C. Ballard, Jr., has a good supply of grandparents, according to his great grandmother, Mrs. Jennie Ballard of Munday.

The child's grandparents are J. C. and Myrt Ballard and Clyde and Edith Fultz. For great grandparents he has Mr. and Mrs. J. T. Fultz, Mr. and Mrs. J. M. Barton and Mrs. Jennie Ballard, and his great great grandfather is Wade Brockett of Knox City.

The child's father is in the service and stationed at Del Rio.

"I'm Not Dreamin' of a Utopia!"

"Indeed, I'm not!" the soldier said, as he lifted his head high and looked into the future.

"I'm dreaming of something much more real and much more American than that! I'm dreamin' of an OPPORTUNITY" he continued, "of the chance to make a living the American way—working till I'm tired, but very happy, the way my Dad always has."

"That's what all of us soldiers are dreaming about. Honest, we don't want dole or charity. We just want to be back in our own home towns in the little yellow houses on Main Street making a living down at Joe's garage, while we're saving money to buy one of our own."

"This American way of living, this system of free enterprise, has certainly done a

wonderful thing for the war—take the electric industry for example—90% of all the electric power supplying the munitions is being produced by companies like the one in my home town. That same company serves lots of home towns, and it's doing a big job for all of us soldiers by perpetuating freedom of enterprise.

"That's the opportunity we soldiers are dreaming about. It's bred into the very soul of American life. It means that any man or woman is free to create a business that fills a particular need in my town or any other community, just so long as they give the best possible service at the lowest possible cost to the most people.

"That's what I'm fighting for!"
"That's what I'm dreamin' about!"

Munday, Texas

At The Churches

PRESBYTERIAN CHURCH

Dr. William N. Sholl of Haskell preaches here each Sunday morning at 9:30 a. m.

Our church is located on the Main street of Munday and has an attractive auditorium with added Sunday school facilities. The Auxiliary meets on Mondays and is accomplishing a good work. All Presbyterians living in Munday and surrounding country are urged to attend our services. A very hearty invitation is extended to all visitors, especially those who have no regular church home.

FIRST BAPTIST CHURCH

We urge you to come to the services next Sunday. Sunday school at 10:00 o'clock and preaching at 11:00. Evening services; Training service at 7:30; preaching at 8:15.

On Mr. Riley B. Harrell's resignation as Sunday school superintendent we elected Mr. J. L. Brasher to fill that office. We bespeak for him your, and our, hearty and best cooperation. Come Sunday morning and let's get a good start, and keep it going.

David says in Ps. 78:41, speaking of the Children of Israel turning back at Kadesh-barnea, "Yea, they turned back and tempted God, and limited the Holy one of Israel." Any time we fail in a known duty we to that extent limit God. The opportunities are many, the privileges are glorious, the obligation and responsibilities are tremendous; the promise of help, if accepted, will lead us triumphantly to joyous victory over all obstacles.

Sunday week is Promotion Day in the Sunday school.

W. H. Albertson.

LEAVES FOR DENTON

Miss Jane McLeroy, daughter of Supt. and Mrs. R. I. McLeroy of Sunset community, left Monday for Denton, Texas, where she will enter NTSTC for her junior year. Miss McLeroy is majoring in Home Economics.

FOR SALE—Good wagon. Mrs. John Moore. 1tp.

Goree News Items

Rev. and Mrs. Edward Goode and children have been visiting Mrs. Goode's mother and other relatives here for the past two weeks. Rev. Goode assisted in a 19-days revival meeting at Childress during this time.

Chloe Dell Stalcup returned to Denton recently, where she entered N. T. S. T. C. for the fall term. Miss Virginia Goode has accepted a position in the Seymour high school as science instructor.

Charles Goode has returned to Denton where he again enrolled in N. T. S. T. C. for the fall term.

Sgt. and Mrs. Bud Milford and little daughter of Great Falls, Montana, are here for a visit with Mrs. Milford's parents, Mr. and Mrs. J. W. Turner, and with other relatives.

Mr. and Mrs. Ray Holt and Mrs. Clara Wilde, all of Stalon, have been here for a visit with their

brother and family, Mr. and Mrs. Tom Harlan. They were on their way to Chico to visit with other relatives.

Dorothy Lee Howard, who is employed at Fort Worth, spent two weeks here with her parents, Mr. and Mrs. Homer Howard.

Miss Mary Jo Simmons of Olney has been visiting her uncle and aunt, Mr. and Mrs. Ben B. Hunt, and her cousin, Mrs. James W. Letlar.

Lernie Heard was a visitor in Seymour last Friday.

C. L. and Mrs. Norris Fitzgerald of Camp Swift, near Austin, were here for several days visit with Norris' parents and other relatives. Norris underwent surgery some time ago, but is improving and able to continue with his training.

Mr. and Mrs. Earl Claburn of Knox City were visitors here recently with Mr. Claburn's parents, Mr. and Mrs. S. M. Claburn.

A number of our men in service have been here on furloughs, and it is good to see them looking so well cared for. Several have served overseas, and it was very interesting to have them tell first hand how everything is carried on after they land and are on combat duty. Staff Sgt. Boyd Moore, who is stationed at Lincoln, Neb., was a recent visitor here with his mother, Mrs. John Moore of Munday, and with other relatives at Goree. Ray Moore, a younger brother, who is serving with the marines and has been in service overseas is here on furlough and will soon return to his post of duty.

You bet I am! I don't know what this bacon is the boys in the front lines have been bringing home, but I furnish a good brand myself. Uncle Sam's asked for 13,806,000,000 pounds of pork in '43 for his fighting men and war plant workers and the rest of the people. We're eating like pigs to be sure he gets it and then some!

Any excuse you can give for not using your payroll savings will please Hitler, Hirohito and puppet Mussolini.

You Want More Than Looks... And You Get It Here!

Tires that are recapped by our all-steam method look good, but there's more than looks to our work. There's quantity workmanship that will stand the test in miles and miles of driving.

We do "spot" repairing as well as recapping. Bring us your tire work. You'll get a job that is backed by our guarantee.

U. S. E. M. Division of Information

Victory Gardeners Set Record

Twenty million Victory Gardens—two million more than the goal set last spring—were grown this year, Claude R. Wickard, Secretary of Agriculture, said in a recent radio address. The Secretary said the Victory Gardens total about four million acres and will produce eight million tons of food. In speaking of the goal of 22 million gardens for next year, Wickard said, "Last year at this time we were concerned over the possibility that we would not have enough garden seed and fertilizer for all who wanted to grow gardens—our best information is that we shall have an ample supply of both next year. We are expecting a better supply of garden tools and equipment for spraying and dusting—Victory Garden production should set another new record in 1944."

Farm Labor Placements

Through the Government Farm Labor program 1,600,000 placements of workers were made on farms in the past four months. Among the workers placed were 700,000 local U. S. Crop Corps workers, comprising 250,000 men, 150,000 women, and 300,000 boys and girls. War Food Administration officials, in making this announcement, stressed the need for additional emergency volunteer workers in the next few months. Recruitment and placement of farm labor are handled by county agricultural extension agents in most areas. In others, the activity is carried on by the U. S. Employment Service.

Points For Home-Canned Foods

The point value of home-canned foods shall be the same as that of the corresponding commercial product, except that no home-canned food shall have a point value of more than eight points per quart or four points per pound. This was announced in a recent OPA amendment.

Synthetic Tire Prices

Maximum prices for synthetic rubber tires and tubes have been established by OPA. In the main, they are the same as ceiling prices for corresponding tires and tubes made from natural rubber.

More Goods For Civilians

Civilians will soon get more cooking utensils, lamps, lanterns, bed springs, innerspring mattresses, non-electric razors, razor blades, plated silverware, brushes, nails, tacks, boilers, radiators, furnaces, screen cloth, and other kitchen and household articles as a result of a recent WPB directive, which reserved a portion of the production of approximately 30 types of products for civilian use. The directive prohibits government agencies from buying goods set

"Many Hundreds" of Warplanes in First Year of Production

Left—Avenger torpedo bombers in the final assembly bay in the Trenton, N. J., plant of the General Motors Eastern Aircraft Division. Upper right—At the Linden plant the final assembly line is alive with Wildcat fighters; lower right—the same view a year ago showing the company's first plane.

WASHINGTON—NAVY CONGRATULATIONS TO GENERAL MOTORS are voiced by Rear Admiral Ralph E. Davison, Acting Chief of the Bureau of Aeronautics, for the company's "splendid record of achievement" during the last year in turning out "many hundreds" of warplanes which have contributed much to Naval aviation's victories.

General Motors, which on Feb. 24,

1942, began conversion of five former automotive plants, produced its first plane in September just a year ago. Now the Eastern Aircraft Division is turning out in a single day as many Wildcats and Avengers—

the latter described by the Navy as the finest torpedo bombers in the world—as it produced in a week only a few months ago. Production in the last six months is nearly 1,000 per cent greater than it was during the previous six months, while its original contract has been boosted 130 per cent. In a message to the workers and management of the division, Ad-

miral Davison said: "In the twelve months which have passed, the Eastern Aircraft Division has built and had accepted by the Navy many hundreds of Wildcat fighter and Avenger torpedo planes. This is a splendid record of achievement and is the finest way of backing the attack and making it possible for the Navy's flyers to bring a quick end to the war."

Consumer Coal Piles Smaller

The amount of coal held in storage by consumers diminished 312,000 tons during July, Harold L. Leake, Solid Fuels Administrator, reported recently. "We have less coal in storage now than we had a month ago," the Administrator said. "The limitations on production make it uncertain to what extent output can be increased. Consequently it would be wise to conserve coal by all possible means so that there will be enough of it to carry on all essential activities and to keep the public warm."

Army Rebuilds Shoes

Approximately six and a half million pairs of army shoes will be rebuilt during the present fiscal year at plants under supervision of the Quartermaster Corps, Army Service Forces, in Buford, Ga., and Hannibal, Mo. The rebuilding operation in one year will save the government approximately seven million dollars, and will conserve nearly 20 million square feet of leather. Army shoes usually are resoled twice, then sent to Buford or Hannibal for rebuilding. The rebuilt shoes look and wear like the original article and usually are more comfortable because they have been broken in.

Discharged Men Return Uniforms

Many honorably discharged enlisted men of the army are voluntarily returning their issued cloth-

ing to the army, thereby saving clothing stocks, according to the War Department. Former soldiers desiring to return their uniforms should address a package to the Commanding Officer of the army installation nearest their homes. The box should be marked "Attention: Quartermaster, Clothing and Equipment Classification Officer." Those who do not desire to pay the cost of transportation may return the clothing by turning over any properly addressed package, not over 30 pounds, to the nearest Railway Express Agency office for collect shipment at government expense.

Druggists Contribute Quinine

With the compliments of the nation's druggists, more than 11 million five-grain doses of quinine are now on their way to join the war against malaria. Because seizure of the Netherlands East Indies cut off 90 percent of the source of quinine supply, the army called upon the nation's druggists to make contributions. An appreciable quantity of the quinine donated was produced by Germany and Japan, and it now will assist in the war to defeat those nations.

Blimps Help Fishermen

Navy blimps, on the lookout for enemy submarines and surface craft in northwestern waters, also are helping the war food program. Under an agreement worked out between the office of the Coordinator of Fisheries and Vice Admiral Frank Jack Fletcher, Navy Commandant in the Seattle area, blimps which sight schools of fish will communicate the news by short wave to fishing vessels. The patrolling blimps can easily locate schools of fish which might take fishermen hours to locate.

Home-Canning of Fish

Surplus fish can be canned at home just as vegetables from the Victory Garden are canned. The following bulletins on cooking and canning of fish may be obtained from the Publications Office, Fish and Wildlife Service, Merchandise Mart, Chicago, Ill.; "Home Preservation of Fishery Products," Fishery leaflet 18; "Cooking Carp," Fishery leaflet 19; and "How to Cook the Bourbot," Fishery leaflet 21. "Wartime Fish Cookery," Conservation Bulletin 27, may be obtained from the Superintendent of Documents, Government Printing Office, Washington, D. C.

Gun Covers Protect Bibles

Bibles which are placed on every life raft and life boat on army transport vessels are being protected from the effects of salt water by the same type of cover that protects pistols, rifles, and machine guns in landing operations. Curiously enough, the covers used for pistols are of exactly the right size for copies of the Bible, and have been adopted by the Chaplains Corps as a standard protective covering for them. The covers were developed by the Quartermaster Corps from a pliable, transparent, waterproof film known as vinyl. They are buoyant enough to float the Bibles if they are accidentally dropped overboard or washed out of the rafts in heavy seas.

Public May Get Copper Wire

The public may purchase copper wire without restriction from retailers, electricians, radio repair men and others who sell it. Under a new War Production Board regulation any retailer or repair man may order up to \$100 worth of

copper wire for delivery during calendar quarter. Civilians must use this with care, WPB officials pointed out, as it will be needed to cover all essential repairs for general public use.

HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)

The McNeill gin is quite busy now, ginning the 1943 cotton crop. Cotton is being gathered rapidly in this community.

The Hefner school closed last Friday, so the school children might help out in gathering cotton during the labor shortage.

Miss Mildred Hubbard of Knox City is visiting her aunt, Mrs. L. Jackson, and also in the J. T. Murdock home this week.

Mrs. Jimmie Haskin of Pittsburgh, Penn., was a visitor in the home of Mr. and Mrs. Charlie Haskin the first of this week.

Cooper Haskin, son of Mr. and Mrs. A. L. Haskin left last Tuesday for Lubbock, where he enrolled in Texas Tech for the fall term.

Mrs. E. E. Trimble returned home recently from a trip to Slaton where she visited her parents, Mr. and Mrs. J. I. Bartlett, and to Plainview to see her daughter and son-in-law, Mr. and Mrs. Billy Lythe.

Mr. and Mrs. T. H. Lambeth recently visited with their brother at Canadian and with other relatives at Overton.

Mrs. Lee Norwood is a patient in a Oklahoma City hospital, where she underwent a major operation. We hope for her a speedy recovery.

We are glad to report that Ed Jones is doing quite well. He has been suffering from a heart ailment for several weeks.

Mr. and Mrs. C. W. Railsback made a trip to New Mexico last week.

Mr. and Mrs. W. A. Harris and son, John, have returned from Norman, Okla., where their son and brother, Wayne, is serving in the army.

S. R. Hudson came in last Friday from North Carolina, where

Survey Reveals Manufacturing Wages Rise More Rapidly Than Living Costs

Average Wage Increased 82.4 Per Cent While Living Costs Rose Only 27 Per Cent in Four Years

NEW YORK, N. Y. (IPS)—Wages paid by manufacturers continue to rise more rapidly than living costs, and the average 82.4 per cent increase in the weekly pay envelope since the war started four years ago represents a gain of more than 44 per cent in "real wages" of factory workers, according to a study released today by the National Association of Manufacturers.

The study, "Wages, Prices, and Inflation," as reported in the current issue of the N. A. M. publication "Industry's View," points out that the main agitation for pay boosts comes from organized groups concentrated in manufacturing industries. It emphasizes, however, that the wage figures for factory workers do not tell the story of employees in other lines of work.

Although nearly 14 million persons work in factories, this number represents less than 40 per cent of the persons engaged in non-agricultural pursuits, the study

said. Wages of several large groups of workers have increased only slightly in recent years, and the real earnings of these groups have dropped.

Scores Wage Increase Omission
Explaining "real wages" as "wages which have been adjusted to allow for changes in living costs," the report commented:

"While price increases have been given much publicity, the sharp gains in wages usually have been ignored in published reports. Failure to consider wage increases along with increases in living costs has distorted the truth, has created confusion, and has led to erroneous conclusions and to unreasonable demands."

The report summarizes its conclusions as follows:

"1. Weekly wages of manufacturing workers have gone up more than 81 per cent since August 1939. Living costs in this period (August 1939-June 1943) have increased only 27 per cent.

"2. The appearance of a cost-of-living increase of more than 27 per cent arises from the fact that the prices of certain foods have advanced much more sharply than this. These increases, however, have been offset by comparatively small gains in other cost-of-living items, such as rent and utilities, which are overlooked entirely by those who insist that the government figures do not reflect the true rise in living costs.

"3. If there are present wage injustices, they are to be found in the white collar groups; certainly not among the manufacturing workers.

"4. Average annual earnings of workers in manufacturing industries are now 40 per cent above the standard 'maintenance' level.

"5. The increase in income from salaries and wages in 1942 as compared with 1939 was twice as great as the increase in all other types of income.

"6. Manufacturers' profit expressed as a percentage of gross receipts in 1942 was 34 per cent smaller than in 1929 and 24 per cent smaller than in 1941.

"7. The supply of goods for consumers is beginning to diminish and the effect of shortages will assume increasing importance in the near future.

"8. Conditions which essentially constitute inflation—larger in-

Would you take a free ride on a wounded soldier's back? That's exactly what you would be doing if you did not do your duty in the Third War Loan.

3rd WAR LOAN
Your idle weight would be felt by him on the battlefield. Every civilian counts in this kind of war. Every civilian must make his energy and his dollars work for victory.

Keep in mind that while our national goal in this drive is 15 billions of dollars, this money is being borrowed from you and you. You are, as an individual, the deciding factor as to whether we reach this goal. An extra \$100 War Bond becomes an extra rifle, extra bullets and extra fighting power of every type.

THE EDITOR

comes, scarcity of consumer goods and a vast increase in money instruments resulting from government borrowing from commercial banks—are here now, even though price ceilings may partially conceal the existing inflation.

"9. Any further increase in salaries and wages will boost the inflationary spiral by increasing prices, which in turn will be used as the basis for demanding still larger wage raises."

Bill Shipman of Vera was here Monday, visiting with friends and attending to business matters.

Wayne Delan of Benjamin was a business visitor here last Monday.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox, M. D., State Health Officer of Texas

AUSTIN — "The conquest of typhus fever in Texas is far from complete and the mere fact that typhus is on a slight decline during the past few weeks should not for one moment lull us into a false sense of security," Dr. Geo. W. Cox, State Health Officer, declared in Austin today. "There is still entirely too much of this disabling

and sometimes fatal disease." "Concentrated effort and close cooperation from every citizen of Texas is urgently needed if typhus fever is to be brought definitely under control," Dr. Cox continued, "and this certainly must be done if our civilian health and that of our armed forces in Texas is to be protected."

Inasmuch as typhus is spread by the flea which feeds on typhus infected rats, control measures, according to Dr. Cox, depend on rat extermination through means of starving out and building out rats as well as trapping and poisoning them. He stated that regardless of what a fine garbage collection and disposal system a community maintains, it is practically worthless in rodent control unless garbage is put into (and not beside) a garbage pail and the pail kept covered at all times.

Rat-proofing of all homes and business houses should be undertaken as quickly as possible and the local health departments are usually able to assist in overcoming the obstacles of obtaining materials and labor. They can also assist in trapping and poisoning campaigns and will gladly do so upon request.

Mrs. Fred Glover of Benjamin was here Monday, visiting with friends and attending to business matters.

Aaron Edgar spent the week end in Wellington with his parents, Mr. and Mrs. E. M. Edgar.

Mrs. Sam Salem is back on the job as saleslady at the Econmoy Store. She invites her friends to visit her at this store.

Miss Margaret Jean Womble, who is employed in Fort Worth, visited her parents, Mr. and Mrs. Lane Womble, over the week end.

WHAT'S FREEDOM WORTH

It cannot be valued in mere dollars. This we know. But the length of our war for freedom can be shortened with extra dollars. In this extremely crucial period, needs for all kinds of materials, equipment and food are increasing with expanding attacks on the enemy. One of our important responsibilities is to supply the extra dollars for these extra needs.

Lone Star folks are backing their more than 900 fellow-employees who are serving in the Armed Forces with extra dollars invested in extra war bonds. War Bonds pay a dividend of priceless value—freedom. So, back the attack.

It's the EXTRA bond that counts!

Officials For "Getting Tough" With Crime Now

FORT WORTH—The suggestion by Boyce House, Texas columnist, that juries "get tough" with criminals lest that element "take over" on the home front has met with enthusiastic approval of law enforcement officials.

District Attorney Fred Erisman of Longview, president of the State District and County Attorneys' Association, recommends use of the "repetition of offense" and "habitual criminal" statutes, which have proved so effective that Gregg county's indictments have been reduced 65 per cent in the past few years because the word is out that "Gregg county is hot on ex-cons."

"Our country is threatened today by two enemies, one from without our borders, known as the Axis power, and the other from the criminal element within our borders; these two classes of criminals must be dealt with in somewhat the same manner," thinks County attorney W. K. McClain of Georgetown.

"Personally I believe that our system of automatic eligibility for paroles when one-third of the time has been served works to the disadvantage of society more often than it does to the advantage of society," comments District Attorney Tom L. Hartley of Edinburg.

District Attorney Marvin H. Brown Jr., of Fort Worth states, "It is high time that petting and pampering these gangsters, thugs and law violators stop and the public should begin to go after them in a whole-hearted manner with a view of discouraging at least, if not stopping completely, their nefarious activities."

Transportation Of Athletic Teams In Buses Prohibited

Knox county school authorities were advised recently that the transportation of athletic teams in school buses during the ensuing school term is prohibited. This information comes from the Office of Defense Transportation, who explained: "Section 501.40 paragraph A.5 limits the use of school buses to

the transportation of students, teachers and other school employees from their homes to their schools for the purpose of permitting such persons to attend a regular daily session of school, or from such schools to their homes after attendance; provided that no such persons shall be so transported in excess of one round-trip on any one calendar day."

It was stated also that regular certificated passenger carrying operators are prohibited from chartering their units from this service unless they have received a special permit from the Office of Defense Transportation.

Redder Is Expert Rifle Marksman

CAMP FANNIN, Texas—Pvt. Francis B. Redder, son of Mr. and Mrs. Victor Redder, Route 2, Munday, Texas scored 186 to make a rating of "Expert" in rifle marksmanship during his basic training at the Infantry Replacement Training Center, Camp Fannin, Texas, it was learned here today. The "Expert" rating is awarded to those men who score 180 or better out of a possible 210 points.

Pvt. Redder, who was inducted at Abilene, Texas on June 29, 1943 has been at Camp Fannin since August 2, 1943.

Prior to his induction Pvt. Redder was engaged in farming.

The Third War Loan is your loan.
The securities on sale fit your purse. Check the one which is applicable to you and buy it to the point of personal temporary sacrifice. Always keep in mind your sacrifice is only temporary because you do not give your money away when you "buy" War Bonds; you lend your money at interest. Your money is not even frozen. In the event of an emergency—and the record shows that Americans are not redeeming their Bonds except in the event of true emergencies—your Bonds are redeemable.

The United States Government has never in its history repudiated a Government Bond. As further evidence of the strength of this country to guarantee repayment of your money, United States potential wealth amounts to \$89,000 per capita. Even with the heavy current war expenses, our national debt is only \$1100 per capita.

Only a country like ours could make such a deal with its citizens: repay you with interest for a loan of your money to protect you and your family against enemies which would murder, rob, or enslave you.

The number one "buy" for you is the familiar Series E War Bond. Twenty-seven million American workers are buying Series E Bonds at the rate of \$420,000,000 a month. Your Third War Loan duty is to buy at least one extra \$100 Series E Bond above your regular buying. Buy more if you can.

Keep these facts in mind about the Series E Bonds:
They come in \$25, \$50, \$100, \$500 and \$1,000 denominations. They sell for 75 per cent of their maturity value. They pay you \$4 for every \$3 invested if held until maturity, which is 10 years from issuing date. You may redeem them at any time 60 days after issue without notice at stated redemption values. Every Bond carries this redemption table.

Battlefront of Sacrifice Is Urged For Women In Third War Loan Drive

WASHINGTON, D. C.—The women of America are going all-out to make a success of the Third War Loan Drive—to "Back the Attack" to the limit. For weeks they have been organizing to do their share toward raising the Treasury's unprecedented goal of 15 billion dollars in War Bond sales to non-banking investors.

In order to lay the groundwork for this intensive organization far enough in advance of the drive, Miss Harriet Elliott, associate field director of the War Finance Division, in charge of women's activities, made a swing around the country during July. Regional conferences were held in Atlanta, Dallas, San Francisco, Denver, Cleveland and Boston.

"Women have been called to the battlefronts of sacrifice at a time when their brains, energies and money are most needed," says Miss Elliott. "Buy Bonds—by sacrifice, is the order of the day. If every woman in America would pledge herself to do without everything she possibly can, she would make a genuine contribution to victory."

All groups of women are active in the drive. Many cities and

countries are conducting Door-knocker canvasses and carrying out other promotional campaigns to see that every individual in these United States is reached to buy an extra \$100 Bond in September. "It takes bench-to-bench, desk-to-desk, house-to-house, person-to-person contact to put over the job," Miss Elliott believes.

United in this tremendous effort are women belonging to foreign origin groups of every nationality, Negro women, college girls, farm women, war workers, club women—professional, religious, industrial, cultural, educational, patriotic and social groups—in fact, women of every age, from every walk of life.

A young "city" within itself—that's the University of Texas. It has its own electric power and steam generating plant, its own student newspaper, four theaters, two swimming pools, a telephone exchange, a branch post-office, a radio studio, and its own system of government—with student-elected legislative, judicial and executive branches.

From 1929 to 1940 labor cost per man-hour in manufacturing increased 20 per cent.

Busby Infant Is Buried on Thursday At Brownfield

Tom Allen Busby, 18-month-old son of Mr. and Mrs. Elton Busby of Brownfield, died at the family home in Brownfield last Thursday night at 9:30 o'clock. Funeral services were held at Brownfield at five o'clock last Friday afternoon.

The child's grandparents, Mr. and Mrs. Tom Busby, and an aunt, Mrs. A. U. Hathaway, attended the funeral services.

Both Mr. and Mrs. Elton Busby were reared in Munday and are well known to many local residents.

George Rector of Goldthwaite and his brother, M. K. Rector of Sudan, visited with friends here the first of this week.

Lon Moore, son of Mr. and Mrs. H. E. Moore, who has been serving in the army, recently received his medical discharge and has returned home.

Miss Jeanelle Partridge, daughter of Mr. and Mrs. R. C. Partridge, left last Monday for Abilene where she enrolled in Hardin-Simmons University for the fall term.
