

The Munday Times

KEEP ON... Backing the Attack! WITH WAR BONDS

VOLUME 39

MUNDAY, KNOX COUNTY, TEXAS, THURSDAY, APRIL 13, 1944

NUMBER 42

Sunset Seniors To Present Play On April 21st

The Senior class of Sunset is presenting a three-act comedy, "The Antics of Andrew," on April 21, at the Sunset auditorium. They promise you many laughs and thrills, so don't miss it! It's going to be a hilarious success. A brief sketch of the characters, in the order of their first appearance, follows:

Petunia, a typical southern mammy cook whose chief worry is Jacques, the French butler who seems to be always getting in her way. Sue Partridge portrays Petunia very nicely.

Andrew Brown, a clever, good-looking young college boy, who is always getting in hot water because he leaps before he looks or thinks. Keith Burnison aptly fills this characterization.

Jacque, a combination butler and valet who is quick, alert and highly emotional, is played by Dwaine Russell.

Willie Waldo and Harold Hadley, two jolly collegians who never let school work interfere with their social activities. These parts could not be played by anyone other than Glenn Myers and Bill Burton.

Althea Thorne, Andrew's girlfriend, who is a charming girl of quiet nature, dominated by her aunt, Miss Prunella Thorne. This part is played by Nelda Matthews. Uncle Isaac Zimmerman, a wholesome hearty fellow who is a trifle simple. Andrew's millionaire uncle is portrayed by Wendell Partridge.

Betty and Julia Boynton, two pretty college flappers who are well-versed in modern slang. These parts are played by Bonnie Ely and Wynell Cluck.

Dean Boynton of Cameron College, who has gloomy dignity well seasoned with prudishness and timidity—as for Miss Prunella is concerned. This is played by Junior Reddell.

Miss Prunella who is secretly in love with the Dean is a stiff dictatorial woman, always ready with a catty remark. Rosemary Hertel plays this part.

Molly O'Flarity, a female detective from Headquarters, who is good at looking into things. Portrayed by Mildred Screws.

Royle, her shadow and counterpart, is played by Kenneth Whittemore.

Reverend Doolittle, a tall distinguished looking gentleman of about fifty, is a man of mystery; characterized by Buster Lowrey.

Be sure and be on hand for this performance. It's going to be a roaring success.

Jack Pippin Receives Wings And Commission

Additional vital units of aerial combat crews of the Army Air Forces became available last week when Class 44-5 of the Advanced Navigation Group at Ellington Field received their commissions as second lieutenants and their silver wings as celestial observers.

Among the group was Flight Officer George M. (Jack) Pippin, son of Mr. and Mrs. Claude C. Pippin, formerly of Munday who now reside at Miles, Texas.

Young Pippin graduated from Munday high school in 1940, and he was a valuable member of the Munday Moguls during the year Munday boasted one of the strongest teams in history of the school. He attended the University of Texas as a pre-medical student before volunteering for the Army Air Forces. He entered the service March 17, 1943.

Jack received his pre-flight training at Santa Ana, Calif., gunnery school at Las Vegas, Nev., and his advanced navigation training at Ellington Field.

After a short leave, which he is spending in Miles and Munday, Jack will report to Lincoln, Neb., for further training in combat crew tactics before being assigned to active duty.

HAS OPERATION

Evelyn Reeves, daughter of Mr. and Mrs. M. H. Reeves suffered an acute attack of appendicitis last Tuesday night and submitted to an operation at the Knox county hospital on Wednesday morning. Latest reports are that she is doing nicely.

Red Cross News From Two Boys In The Front Line

CECIL BURTON PRAISES RED CROSS

This is a message from Cpl. Cecil J. Burton, Company A, 2nd amphibious tractor battalion, 2nd marine division, San Francisco, Calif., written to his parents, Mr. and Mrs. Cecil Burton of route one, Knox City. Cecil Joe finished his high school work at Sunset before he entered the service:

"Wish I had written you about the Red Cross drive earlier," he wrote. "The Red Cross is a very good organization. They really helped me out when I got back from Tarawa. A lot of us had nothing but what we wore, and the Red Cross gave us a change of clothes, cigarettes, toilet articles and candy. They're O. K."

CAPT. JOHN C. RICE THANKS RED CROSS

Mr. and Mrs. J. C. Rice of Munday have just heard from their son, Capt. John C. Rice, who is located in the New Guinea area. He was about two months crossing the ocean, and states the trip was uneventful.

"We were furnished with books, playing cards, sewing kits, magazines, cigarettes and other things by the Red Cross," he said. "Other organizations are all right, but the Red Cross gets my vote as being head over heels above them all in helping the men in the army. They really do things for the men overseas."

Knox County Hospital Notes

Patients in Knox County Hospital Tuesday, April 11, 1944

Elton Robertson, Knox City. Earl Claburn, Knox City. E. L. Carr, Rochester. Mrs. W. O. Welch, Gilliland. Clarence Allen Eiland, Munday. A. M. Reeves, Rochester. W. E. Ballard, Spur. Mrs. N. B. Gillentine, Benjamin. Mrs. Floyd Hutchens, Rochester. Mrs. Bob Walker and baby daughter, Rochester. Gladys Valencia, and baby son, Knox City. Mrs. W. H. Everett, Throckmorton.

Patients Dismissed Since Tuesday, April 4, 1944

Mrs. W. A. Smith, Munday. Mrs. J. C. Walker, Weinert. A. E. Taylor, Rochester. Mrs. W. B. Thompson and baby daughter, Knox City. John Walter Massey, Munday. Dick Brannin, Knox City. Mrs. Boyd Meers and baby son, Goree.

Births

Mr. and Mrs. Boyd Meers, Goree, a son. Mr. and Mrs. Bob Walker, Rochester, a daughter. Mr. and Mrs. Jose Valencia, Knox City, a son.

New Trustees Of Knox County Are Announced

The following trustees were elected in the county in the recent school election:

Trustees for County at Large, W. E. Braly, for commissioner's Precinct No. 3, Olie Iseng and for Commissioner's Precinct No. 4, J. E. Cure.

For independent School Districts as follows: Munday—John Ed Jones, J. E. Reeves; Knox City—F. F. McBeth, A. M. Armstrong, B. M. Farmer; Truscott—Carl Haynie, John Black; Goree—Parks Norris and Homer Howard.

For Common School Districts as follows: Benjamin—J. P. Tolson; Hefner—Joe Koenig; Lake Creek—T. H. Jones; Rhineland—Louis Homer; Union Grove—F. D. Reeves; Brock—M. R. Moon, G. W. Montandon, Calvin Stone; Washburn—Glenn Elliott; Sunset—C. L. McAfee, Clyde Yost, John P. Jones; Vera—Alton Robinson, Bill Townsend, S. E. Albright; Gilliland—E. A. Burgess, Joe Cade.

The term of office for each new board member commences as soon as he qualifies and is for the next three years.

E. C. Hardin of Vera was here Tuesday visiting friends and attending to business matters.

AMERICAN HEROES

BY LEFF

When war broke out, Marine Sgt. Maier J. Rothschild of New York City was studying journalism at night, selling stocks in Wall Street day-times. On December 31, 1941, 24 days after Pearl Harbor, he enlisted. He's been awarded the Purple Heart for fighting off and killing 95 out of 150 of the enemy storming a machine-gun emplacement. He's not giving up until we win. And you? Are you still buying that extra War Bond?

U. S. Treasury Department

FOR ATTORNEY GENERAL

State Senator Jesse E. Martin, former District Attorney of Fort Worth, has stated definitely that he will be a candidate for Attorney General in the coming July Primary. He expects to conduct a vigorous and active campaign.

GOREE RED CROSS IS MAKING DRESSINGS

The Red Cross rooms at Goree are open each Wednesday afternoon at two o'clock. Surgical dressings, for which there is an urgent need at this time, are being made. Mrs. Orb Coffman, chairman of the Goree and Hefner communities, urges workers to come each Wednesday and help out with this important work.

TRAINS IN MARYLAND

Raymond Tidwell, former Munday boy who was recently taken into service, has been sent to the ordnance replacement training center, Aberdeen Proving Ground, Maryland, where he will receive his basic training as an ordnance soldier. His present address is Company E, 1st Regiment, O. R. T. Co., Aberdeen Proving Ground, Md.

Keep Up With Rationing

RATION REMINDER

MEATS, FATS—Red stamp A8 through M8, are good indefinitely. PROCESSED FOODS—Blue stamps A8 through K8, good indefinitely. GASOLINE—In 17 East Coast States, A-9 coupons are good through May 8. In other states, A-11 coupons are good through June 21.

INCOME TAX—Declaration of estimated 1944 tax and first quarterly payments are due by April 15.

SUGAR—Sugar stamp 30 and 31, each good for five pounds indefinitely. Sugar stamp 40, good for five pounds of canning sugar through February, next year.

SHOES—Stamp No. 18 in Book One is good through April 30. Airplane stamp No. 1 in Book Three is good indefinitely. Another ration stamp good for one pair of shoes beginning May 1 will be announced soon.

TIRE INSPECTION—Regular inspections not required after April 30.

War Pictures Will Be Shown At Rotary Meeting

Military talks and the showing of war action pictures will prove an interesting program for Friday night's meeting of the Munday Rotary Club.

Lt. Col. L. V. Lyng of Camp Barkeley will be here and will bring films, projector and a projectionist for the meeting. In addition, Maj. Olney H. Bryant, inspector from the Adjutant General's Department, Austin and Maj. John Alvis, commanding officer of the 11 battalion, Texas State Guard, Abilene, will be here. These men will probably make short talks regarding activities of the State Guard.

Col. Lyng will show the pictures at the elementary school auditorium following the Rotary meeting, and all members of Company C, Texas State Guard, are asked to be present. It is hoped to have pictures of the allied landings at Salerno for this meeting.

Edwin Johnson In Hospital At Oakland, Calif.

Mrs. Edwin Johnson received a telegram from her husband, Edwin K. Johnson, machinist mate first class in the Navy, last Monday stating that he has returned from foreign service and is in the naval hospital at Oakland, Calif.

In a letter that followed, Johnson said he came by plane from Port Moresby, New Guinea, to Australia, where he boarded a ship for his return to the United States. Johnson, who served on Guadalcanal for eight months, then in New Guinea, has been in foreign duty for over a year.

Although he received hospitalization in Australia, he did not state the nature of his illness in his letter. No word has been received of Edwin being wounded, and it is believed he is suffering from either asthma or a tropical fever. He stated he expects to come home on furlough within a short time.

Munday C. of C. Meets Wednesday

Members of the Munday Chamber of Commerce held their regular meeting at noon Wednesday at the Easley Cafe. Twenty members were present.

Reports from various committees were called for, after which the meeting was turned over to County Agent R. O. Dunkle of Benjamin, who discussed the labor situation as it applies to this county. Dunkle said there would be a greater scarcity of labor this year than farmers saw in 1943, and this situation would become more acute during harvest time unless some means of relief is given.

Mr. Dunkle also explained the different varieties of grain sorghums that are adapted to this particular area.

Study Course Is Held At Benjamin Methodist Church

Rev. J. P. Patterson, pastor of the Benjamin Methodist church has recently taught a ten hour course on the Psalms. The course was started Sunday, March 12th and was finished Sunday, April 9.

Rev. Patterson, used the eleven o'clock hour for his lectures. The first lecture March 12th was on the inspiration of the scriptures with especial reference to Psalms. His second lecture March 26th was on the subject, "The Psalmists Definition of A Good Citizen" and his closing subject April 9th was "How We Got Our Easter and the Meaning of Easter" with reference to the prophetic inference to Easter in the old testament, especially in Psalms.

Besides the three eleven o'clock lectures Rev. Patterson devoted two or two and a half hours in the afternoon to teaching a course on the Psalms just as he taught the course in college.

Each one who was able to take the course will no doubt profit greatly educationally and spiritually by the knowledge gained through studying the course.

Chick Brooding Demonstration Held At Lions' Meeting

Thirteen 4-H Club boys and girls of the Union Grove community demonstrated the proper way of brooding baby chicks at last Thursday's meeting of the Knox City Lions Club, when 26 members were present.

Each of the 13 club members demonstrated, with live baby chicks, the proper methods of brooding, sanitation and feeding that will give best results. Many of the club members who helped with the demonstration have baby chickens as their club demonstrations, and in giving the demonstration they were speaking from actual experience.

Mrs. E. F. Branton, 4-H Club sponsor, worked up the demonstration and was responsible for its grand success. Club members who presented the demonstration are Kenneth Griffith, Bill Cummings, Rastus Pack, Joe Bailey, Fennis Arlen Oliver, Burton Denton, June Corley, Anna Lois Benton, Jean Tallant, Bobby Joe Turner, Mary Centeras, Bertha Mae Bailey and Imogene Burjeson.

23 Registrants Are Re-Classified On April 11th

Twenty-three registrants were re-classified by the Knox County Local Board at its regular meeting on April 11th. They are as follows:

Class 1-A (L): Robert H. Lain, Arthur A. Smith, William F. Jackson, Edmond C. Jones, Henry L. McNulty, Carl T. Cochran, and Vernon O. Benson.

Class 2-C: Loy R. Booe and Edmund A. Tomanek.

Class 4-F: Jesus C. Delgads, Jessie E. Sorrels, Delbert C. Adams, John E. Pace, Harvey N. Funderburk, Thomas O. McMinn, John W. R. Reynolds, John D. Roberts, Earl C. Struck, Joe W. Warren, Edmond E. Smith, Jack T. Varnell, James W. Fuller and T. W. Struck.

STATE TEACHERS EXAMINATIONS GIVEN

State teachers examinations were given at the Knox County court house last Friday and Saturday, April 7th and 8th.

Those applying for certificates and taking the examinations were Mrs. F. L. Wilson, Munday and Mrs. Chas. Hackney, Goree. They both made application for second grade elementary certificates.

The state examinations are offered in April, June, July, August, and December. However they are not out to the county seat unless applicants register with the county superintendent by the 20th of the month preceding the date of the examination.

HOME ON FURLOUGH

E. B. Littlefield, who is in naval training at Farragut, Idaho, came in Tuesday for a visit with friends here and his wife and daughter at Stamford. E. B. has completed his boat training, at the end of which he received a 15-day furlough.

5-OUNCE EASTER EGG LAID BY HEN SUNDAY

A. P. Moore, who resides northeast of Goree, was in town Monday exhibiting a large egg laid by one of his flock of hens. The egg was unusually large, weighing five ounces.

Mr. Moore called it his Easter egg, since it was laid on Easter Sunday, and he feels it will meet the government's requirements for weight. Moore's flock consists mostly of Rhode Island Reds.

Weather Report

Weather report for the period of April 6th to April 12th, inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature	
	LOW	HIGH
1944 1943	1944 1943	
April 6th	45 58	86 84
April 7th	45 59	79 76
April 8th	58 52	87 74
April 9th	52 48	89 83
April 10th	50 61	84 80
April 11th	41 55	72 79
April 12th	38 48	70 74

Rainfall to date this year 5.81 inches; rainfall to this date last year 3.89 inches; rainfall since Nov. 1, 1943, to date 10.04.

Funeral For Dal E. Martin Is Held At Goree

Dal Eed Martin, well known former Goree resident, died after a second major operation at the Santa Fe hospital, Albuquerque, New Mexico, April 1, 1944.

"Rusty" as he was better known by his many friends, was born April 14, 1902 north of Goree and passed away at the age of 41 years, 11 months and 17 days. He united with the Baptist church at the age of 23 years and has since that time been a faithful member. At the time of his death, he was employed as Fireman by the Santa Fe Railway Co., of Albuquerque, New Mexico. He was well known and loved throughout this section.

He is survived by his parents, Mr. and Mrs. A. L. Martin of Goree; two brothers, Ray Martin of Goree, and Ralph Martin of Monahan, Texas; three sisters, Mrs. Stella Harmon of Duncan, Okla., Mrs. Grace Perkinson, Little-rock, Arkansas and Mrs. Minnie Layne of Pecos, Texas. He is also survived by a host of other relatives who were present at his funeral.

Funeral services were held from the First Baptist church in Goree Monday afternoon, April 3, conducted by Rev. S. E. Stevenson, pastor. Burial was in the Goree cemetery with the Lanningham Funeral Home in charge of arrangements.

Pallbearers were Bob Sadler, Virgil Peek, Erwin Blankenship, Homen McMahon, Grady Thornton, and F. G. Daniels.

In charge of the flowers were Mmes. Will Lanningham, George Hunt, Homen McMahon, Melvin Cooksey, Odis Rhodes and Helen Leflar.

Hog Phenomenon Is Observed By Local F. F. A.

The Agriculture Department of Munday high school is studying a peculiar hog situation at Bomarton and will make an official report to Iowa A. and M. College, Texas A. and M. and Texas Technological College.

Mr. Newman, who lives 1-2 miles northeast of Bomarton, bought seven registered Duroc gilts and a registered boar. One of the gilts farrowed nine pigs, but one was born blind. Another gilt farrowed eight pigs, one of which has normal sight, two are blind, three did not have any eyeballs, and two had only one eyeball each but were blind. Another of the gilts which had a normal litter of pigs the first time had one pig farrowed without any eyeballs in her second litter.

This condition is believed to be a record. Science has known for some time that a lack of vitamin in the feed of sows before and during the gestation period would cause pigs to be farrowed blind or even without eyeballs. However, it would seem that this is not the reason in this case, since all the gilts were on good sudan pasture six weeks before they were bred and about the first ten weeks of the gestation period, and were fed wheat, maize, cottonseed meal, soy bean meal and a little tankage during the same period of time.

"I know of nothing in agriculture literature anywhere that would explain this phenomenon," G. S. Dowell, agriculture teacher said. Four local F. F. A. boys accompanied Mr. Dowell on a visit to the Newman farm to prepare an official report. They are Bobby Broach, Lyndell Smith, Cecil Rives and Joe Sparr.

The local department may be able to add something to the world's knowledge of swine breeding.

Anne Atkeison To Begin Training As Ferry Pilot

Miss Anne Atkeison, daughter of Mr. and Mrs. R. D. Atkeison, has received her call to begin training as an army ferry pilot. She will report for duty at Avenger Field, Sweetwater, on April 18th.

Miss Atkeison completed a course in flying at Fort Worth several months ago, and while awaiting her call to training as a ferry pilot, she has been teaching in the Munday schools.

EDITORIAL PAGE

"What a Man Does For Himself Dies With Him— What He Does For His Community Lives On and On"

KEEP BREAD WAGON ROLLING

Our legislators can pass laws providing subsidies, farm relief, price ceilings, production control, etc., etc., to hold down food costs. They can provide rationing, red, white and blue food stamps, and plastic tokens. But what makes them all work? The grocery store.

Only so long as the grocery store can make enough profit to stay in business, will the farmers and the food processors be able to keep their wheels turning smoothly. When some bright boy in Washington law factory cracks down on the grocer, he cracks down hardest on the producer and the consumer.

Retail distribution has been brought to a high state of perfection under the mass distribution technique of the chain stores, and that technique has been adopted almost bodily by the independents. The result is that before the war the consumer could get virtually anything in the food line in practically every town and village in the United States.

Modern mass retailers of food might well be called the ball bearings in the nation's bread wagon. Regulators can easily ruin the bearings with faulty lubricants (rules and regulations), thereby causing a wastage of food on farms and in warehouses, by preventing retail distribution to consumers.

LEARNING THE HARD WAY

The American worker and the American taxpayer, who in the majority of cases are one and the same person but perform two separate and distinct functions, are learning by dear experience that government ownership of industry does not produce the millennium.

Taxpayers find that the minute government goes into business, it puts taxpaying enterprise out of business, to the detriment of remaining taxpayers.

The worker finds that the "heartless corporation" is a job sister compared to a stony-hearted government enterprise which recognizes no local regulatory measures that are applied to private corporations for the protection of workmen and the public.

Labor is finding that public officials in charge of public plants, which are exempt from public regulation applying to private industry, grow accustomed to being a law unto themselves, and deem it their right to fix wages and salaries to suit themselves. Officials appointed for political reasons generally know little or nothing about the businesses they operate at public expense. Hence, they are unfamiliar with labor's problems.

Labor organizations are having their eyes opened to the restrictions on liberty that immediately follow public ownership of any industry. All citizens are becoming aware of the lost taxes and increased debts that follow destruction of private business.

PULLING TOGETHER

No industry is proceeding more scientifically to readjust from a war to a peace basis than is aviation. Level heads are seeking to coordinate its activities so that it can render the greatest possible service in its field of transportation.

While the public generally thinks of passengers and mail as the principal airline load, the Railway Express Agency has been conducting exhaustive customer surveys in order to keep ahead of the demands for increased air express service. The agency became interested in the possibilities of commercial air transport as early as 1919. In 1927, it inaugurated its Air Express Division, giving scheduled air service across the nation. From 1933 to 1943, inclusive, the weight of its air express shipments increased from 404,540 pounds to 31,066,414 pounds.

Thus again do we see American enterprise increasing its field of activity and preparing in advance to meet service demands that arise almost overnight.

ON CHARITY TAX ROLL

The Bonneville Power Administrator has recently announced a rate reduction to public agencies "dependent" on the Federal agency for their supplies of power. On the same day, an "independent" private utility showed payment of \$13,109,155 in taxes for 1943—or 23 per cent of its gross income.

If the private company were tax exempt like Bonneville, it would probably outstrip the Federal project on rate reductions because of much greater economy in management. Reduced rates that the comparatively few customers of a Federal power plant enjoy, are made possible in increased taxes on the general public.

Tax exemption puts Federal power projects in the same tax classification as charitable institutions.

A SURPRISE FOR ADOLPH AND TOJO

"One hundred octane" is the commonly accepted name for an aviation super-fuel now available in large quantities only to the United Nations. The production of "100 octane" gasoline on the enormous scale demanded for today's air war, is possible only because the scientists, engineers, construction men and process workers of the oil industry and the contractors serving it have labored mightily in the last three years.

To gain some idea of how the American oil industry has done the "impossible" in fueling tens of thousands of Allied planes, facts recently released by a single United States oil company, the Standard of Indiana, are enlightening. Since Pearl Harbor, this one company, with its thousands of workers, has turned blue grints into operating units which today are bringing its production up to a point where its plants alone will soon be making enough 100 octane gasoline to fuel a thousand-plane raid on Berlin every other day.

That is an example of how American initiative and enterprise throughout our country have set a speed and production record that Adolph and Tojo will never be able to match.

GETTING RESULTS

One man who went into government war service and isn't afraid to tell the public his department got results, is William M. Jeffers, president of the Union Pacific Railroad, and former director of the synthetic rubber program.

In a recent statement, Mr. Jeffers said synthetic rubber is now about on schedule; absolutely essential civilian needs are being met; by early autumn more rubber should be going into tires; we can produce enough synthetic rubber for any needs, and will be in the position in the future to dictate to producers of natural rubber what the price shall be.

This is good news for Americans who have become used to a prediction of "shortage" the moment bureaucratic planners take control of any of our basic industries. But that is the bureaucrats' way—they want to keep the people under their thumbs. Jeffers is not a bureaucrat—he is a plain American business man who is used to getting results. He says: "We don't want the government in business. We want business in government."

And that is the only spirit that will get this nation tires or any other commodity that the people have always enjoyed and which built up the American standard of living.

FAMINES FOLLOW WARS

The Department of Agriculture's tabulations on what farmers intend to plant in 1944, indicate that the so-called guaranteed support prices failed to coax them into seeding more oil crops such as soy beans, peanuts, flaxseed or dietary standbys such as peas, beans and potatoes. Flax plantings for linseed oil are down sharply. Apparently increased acreage will go into feed grains because of shortage of livestock feed last year.

"Failure of farmers to go along on some of the War Food's programs," says Business Week, "is due to fear that there will be too few hands and new machines. Dairy product needs cannot be met; milk output for months has consistently been behind year-ago levels."

Farming has long been the professional "fixer's" playground. Let us hope that it is not thrown too far off center by the theories of the parlor cowhands.

ELECTRICITY STILL CHEAP

"Maybe the nickel has lost a lot of its purchasing punch...but electrically it still buys as much as during pre-war days and twice as much as during World War I.

... And the electricity it buys is the same high quality, made just as dependable as well kept modern equipment and skilled manpower can make it."—Oklahoma Gas & Electric Co.

FERRY PILOTS

While waiting for a flight call these civilian fliers, known as WASPs, relax over a friendly game of cards. At right: Marjorie Logan, of Billings, Mont., gets into warm clothes as she prepares for a northern trip.

Mrs. Elizabeth A. McKinley, of Arlington, Va. (above), is getting final instructions just before starting off to deliver this training ship. Doris Manual, Bronx, N. Y. (circle, center) and Mrs. Virginia Disbrow, Schenectady, N. Y. (at right) are two of the WASPs. (Below) Janice C. Christensen, of Waukegan, Ill., charts a course.

FROM Fleet Aircraft's big plant at Fort Erie, New York, keen-eyed, tanned American girls are pilot training to Royal Canadian Air Force bases from the Atlantic to the Pacific. These expert fliers are the "Wasps"—Women's Airforce Service Pilots—who, although they have civilian status, form a mighty important branch of the U. S. Army Air Forces with the air transport and other A.A.F. commands. All of the girls are veterans of hundreds of hours' flying time, are extremely efficient, and according to their commander, are more careful about detail than the average man. Most of them have taken the regular air cadet course with the exception of gunnery and combat tactics. Among the Wasps helping to deliver training ships into the hands of the Dominion's fledgling fliers are girls who come from families wealthy and poor, from all parts of the United States. However they have this in common: They are on this job because they are crazy about flying, and because they are seriously patriotic.

Gems Of Thought

DIGNITY

True dignity is never gained by place, and never lost when honors are withdrawn.—Massinger.

Never esteem anything as of advantage to thee that shall make thee break thy word or lose thy self-respect.—Marcus Aurelius.

Dignity consists not in possessing honors, but in the consciousness that we deserve them.—Aristotle.

Moses advanced a nation to the worship of God in Spirit instead of matter, and illustrated the grand human capacities of being bestowed by immortal Mind.—Mary Baker Eddy.

True dignity abides with him alone who, in the silent hour of inward thought, can still suspect, and still revere himself, in lowliness of heart.—Wordsworth.

Sometimes words followed by deeds bespeak of the simple grandeur of man.—Harry E. Burroughs.

Mrs. Sam Bird Jr., and daughter, Janet, of Lampasas visited relatives and friends here last week end.

Mrs. Floyd Nunley and Mrs. Lee Snailum of Benjamin were business visitors here last Tuesday.

PLANT A VICTORY GARDEN

COLLEGE STATION—A record number of Victory gardens is imperative this year because there is a very real need for all of the food Texans can grow, says J. F. Rosborough, horticulturist for the A. and M. College Extension Service.

Governor Prentice Cooper of Tennessee recently telegraphed Governor Coke R. Stephenson of Texas that a survey by the National Garden Advisory Committee, of which he is chairman, indicated lagging interest in planting gardens. He explained that maximum production of gardens will ease a series of critical wartime emergencies. For example, nearly 50 per cent of the 1944 commercially canned vegetables and 70 per cent of processed fruits have been reserved for government requirements. Moreover, the food needs for our allies have, in some cases, doubled. Home grown food, Governor Cooper adds, helps to hold down living costs, and saves transportation, manpower and scarce packing materials.

In the south half of Texas, Rosborough says, cold, wet weather has delayed or prevented planting cool weather vegetables such as English peas, spinach, cabbage, carrots and head lettuce. But these still can be planted in the northern half, with the possible exception of English peas. In areas where late April and May are likely to be hot the peas may mildew, but application of dusting sulphur will hold this disease in check.

In all areas sweet corn and white potatoes still may be planted, and in central, east and south Texas green beans, squash, cucumber, swiss chard seed and tomato plants

should go into the ground now. But he suggests waiting until the soil has warmed thoroughly before planting butter beans and okra or setting pepper and eggplants. Gardeners also should wait until both days and night are warm before planting blackeyed peas, cantaloupes and watermelons. Inoculation of green and butter beans and blackeyed peas before planting will stimulate early growth and greater production.

"With a little effort and management most Texas families can produce an abundant supply of fresh vegetables for home use during the summer and fall," Rosborough says. "It's economical and patriotic to have a garden."

Protect Your Equipment

WEAPONS for victory! Every piece of farm equipment is just that—a weapon for victory. These tools must be protected as carefully as any military equipment on the field of battle, for they are in the battle—the battle of production. Now, more than ever, it is bad business for the farmer to leave good equipment to rot and rust outdoors.

To protect your equipment, you can build a machine shed similar to the one illustrated with a minimum use of hard-to-get materials. Asbestos cement products, well suited for the purpose, are non-critical and usually available.

This shed may be constructed as shown, using an existing building for one side in order to reduce expense, or built as a separate structure. If new lumber is not available, salvaged lumber can be used to provide a framework on which asbestos sidings or asbestos board can be applied.

Make it big enough to house all your equipment and locate it so that additions can be made if necessary. To reduce wind resistance, build your shed low, but high enough for such tools as hay loaders.

In mild climates, doors can be eliminated by extending the roof to provide adequate protection against rain. If doors are used, they should be of the multiple sliding type to permit storage or removal of one machine without having to move the others around.

A machine shed built with asbestos sidings or shingles, observing these principles of construction, is protected against weather and fire, and will give a lifetime of service with little or no maintenance costs.

Political Announcements

The Munday Times is authorized to announce the following candidates for office in Knox County, subject to the action of the Democratic Primaries:

For County Treasurer:

TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

Need For Manpower Continues
Although the United States army has reached its planned peak strength of 7,700,000 persons, it will need 75,000 to 100,000 men monthly to maintain that strength, according to the War Department, and the Navy Department said it would need 400,000 additional personnel by September 1 to get the Navy, Marine Corps and Coast Guard up to peak strength of 3,500,000. Meanwhile, the National Selective Service System has abandoned the War Unit Plan for determining agricultural deferments. Provisions concerning a registrant's agricultural occupation or endeavor that will govern are whether he is necessary, whether he is regularly engaged in it, whether that occupation or endeavor is necessary to the war effort and whether a replacement can be obtained.

Jobs For Discharged Veterans
For men discharged from any of the United States Armed Services, a summary of job opportunities in 114 major industrial centers will be placed in nearly every local U. S. Employment Service office, the War Manpower Commission announces. These job summaries give information on types of jobs, scheduled hours of work, hourly wage rates, availability of housing, cost of living, and the adequacy of community facilities such as schools, hospitals, and transportation. The summary will be revised bi-monthly and will indicate the expected labor demand six months in advance.

Special Gasoline Rations
Full-time paid employees of farm

organizations operating to increase food production are eligible for preferred mileage under gasoline rationing, the OPA announced. Their organizations must be chartered by the United States, or by a State, and have a membership of at least 100 persons, the majority of whom are farmers. Also, qualified victory gardeners again will be granted special gasoline rations for up to 300 miles of travel to and from their plots this summer.

Test Motor Fuel "Dopes"
Shortage of gasoline, says the Department of Commerce, has led motorists to use fuel "dopes," reputed to increase mileage and otherwise improve the automobile operation. The Bureau of Standards has tested hundreds of them without finding beneficial results in any case.

Merchant Marine Calls Radiomen
At least 500 first and second class commercial radio telegraphers, licensed by the Federal Communications Commission are needed for Merchant Marine service within the next three months, the War Shipping Administration announces. Qualified men should telegraph collect, at once to U. S. Merchant Marine, Washington, D. C. Registrants will be placed on active pay status as soon as accepted and must attend a Navy school on wartime procedure for one to three weeks.

Maritime Commission Reports
Maritime Commission shipyards delivered 410 ships of 4,115,951 dead-weight tons during the first quarter of 1944, the Commission announced. Liberty ships continued to dominate production, but there was a growing tonnage of military and other fast type vessels, including the new victory ship. In March, 152 merchant ships were built.

Round-Up
The War Food Administration says—the public should consume more eggs, at least through mid-May, to take care of an anticipated record production amounting to at least 350 eggs for each civilian during 1944. . . . About 70 per cent of the 1944-45 supply of dehydrated vegetables will be allocated to U. S. war uses, 23 per cent to Great Britain and Russia, 5 per cent to U. S. civilians, 1 per cent

People, Spots In The News

ANTI-SUB PATTERN—U. S. Naval patrol craft weave designs as they go through maneuvers in anti-submarine drill off Atlantic coast.

DOCILE JAP PRISONERS—Japanese prisoners captured in recent Central Pacific look clean and docile, as they arrive at a Pacific base under cover of a Marine guard.

WIN BLOOD BANK AWARD—Red Cross leaders in Portland, Ore., present employees of the American Can Company plant there with the first honor award ever made for blood donations. Seventy-five percent of the plant's employees eligible as donors have contributed to the blood bank. Many have given five or six times.

to liberated areas and 1 per cent for other exports.
WPA says that—a "farm" is a property used primarily for the raising of crops, livestock, dairy products, poultry, etc., for market, and on such property \$1,000 or less may be spent for construction, including the farm house, without approval. . . . In view of the continued critical shortage of pulpwood for paper and paperboard, farmers, as well as every full-time woodcutter, should continue to cut as much pulpwood as possible. . . . Some electric alarm clocks and 1,200,000 war alarm clocks (many for military needs) will be produced and distributed during the second quarter of 1944. . . . A cut of 10 per cent in civilian leather for shoe repairs and 13 per cent for new shoes has been made for 1944. . . . Production of cutlery made of stainless steel has been permitted and products should be available at retail counters in three to four months.
OPA says that—consumers buying meat directly from farmers may continue to use the red stamps AS through MS, plus the next 18 stamps in Book Four. . . . The overall 1944 retail prices of early on-

ions will be somewhat above those of 1943, but below the current "going" prices. . . . The retail ceiling price for book matches with non-commercial designs on the cover is 14 cents per box of 50 at independent stores, and 13 cents, or 2 boxes for 25 cents, at chain stores and super-markets. . . . Retail prices of fresh dressed halibut were recently reduced for consumers in Eastern states, and for the first time in almost a year adequate supplies of this fish will be available for consumers living west of the Rocky Mountains. . . . Prices for used automotive parts usable without rebuilding must not exceed 75 per cent of list price for the parts when new, and for parts which must be rebuilt before being usable, must not exceed 30 per cent of the original list price.
The War Shipping Administration says—arrangements are being made to enable America's 125,000 merchant seamen to vote in wartime elections. . . . Manufacturers have been granted licenses to produce authorized service flags and lapel buttons which soon will be on sale to accredited families of American merchant marine officers and men.

GEN. ELECTRIC PUTS RETURNED SOLDIERS TO WORK
More than 2000 General Electric employees, who entered the armed forces since Pearl Harbor and have been honorably discharged from active duty, have been placed back into the working forces of the company. On March 15 of this year there were still more than 40,000 employees in the services and 236 have lost their lives or been reported missing in action.

HEFNER NEWS

(Mrs. E. J. Jones, Correspondent)
Jupiter Pluvius was around again the first of this week with strong winds, colder weather, and some rain, too.
Those who attended quarterly conference at Union Chapel last Sunday were Mr. and Mrs. John Cure, Mr. and Mrs. Clyde Warren, Miss Mary Standlee, representing the Methodist church.
Mrs. Roy Jones of Wichita Falls and Goree visited with the Ed Jones family the first of this week.
Several from here attended the funeral of Bud Coffman at Goree on April 5. Mr. Coffman lived on his farm and ranch here for 32 years, and reared his family here. He moved to Goree in 1924 to make his home. His many friends regret his passing, for he will be greatly missed. His farm, which has been greatly improved, lies between Hefner and the Brazos river.
Mr. and Mrs. Billie Lytle and two daughters of Plainview were here to attend the funeral of their grandfather, Bud Coffman.
Earl Sams of Benjamin, tax assessor-collector, was in this community on business recently.

I GIVE YOU TEXAS by BOYCE HOUSE

A passenger on the famous "slow train through Arkansas" said to the conductor, "You ought to put the cow-catcher on the back end of the train because there is absolutely no chance that we will overtake a cow but a cow might overtake us and wander in."

Around over Texas:
In the southeast corner of Montague county are the ruins of a cabin, near a stream in a heavily wooded area, which was a hideout for Sam Bass, the famous outlaw, according to Joe Benton of Nocona, who has made a life study of the history of that section.

Dr. N. W. Crain, who has been practicing medicine since 1886, recalls that, when he went to Spanish Fort (on Red River) in 1880 that there were no ruins remaining of the old fort (of Spanish, French and Indian days) but that there were large pits, which apparently had been dug to enable some 20 men to lie in them, their feet in the center and facing outward in a circle, making it possible to oppose enemies attacking from any or all directions.

Candidates are proverbially optimistic. It is related that an aspirant for office approached a voter who grew red in the face and belittled:
"I think you are a contemptible reprobate and I wouldn't vote for you if you were the only man in the race; do I make myself clear?"
The candidate replied, "You surely do—and I'll put you on my doubtful list."

An English reviewer many years ago wrote a rhymed review of a book that had mainly been plagiarized from another book:
"The part you stole I like the best; Take courage, man, and steal the rest."

See THE PHANTOM

Sgt. Newton Riley In Combat Flying

Sgt. Newton E. Riley, 3rd career gunner, of Munday, will soon complete an intensive course in combat flying at the Alexandria Army Air Field, Alexandria, La., and in the near future he will go overseas to a combat area.

He is the member of a Flying Fortress crew trained by the Second Air Force, which has the task of readying four-engine bomber crews for overseas duty.
Listed among the instructors at the Alexandria Army Air Field are more than 250 officers and enlisted men who have seen action in every theatre of war. These veterans direct crews through training conditions that simulate actual combat.

Sgt. Riley is the son of Mr. and Mrs. S. O. Riley, of Munday, Texas. His wife, Betty Brown Riley, lives at 427-A Dehal St., Borger, Texas. He graduated from the Sidney high school in Sidney, Texas.

Miss Juanita Golden, who is attending S. M. U. at Dallas, and Miss Jo Ann McKenzie of Fort Worth spent the Easter holidays in the home of Mr. and Mrs. Oates Golden.

Fewer Checks Go For Aged People

Fewer checks—
AUSTIN—The state Department of Public Welfare is distributing this week 176,685 Old Age Assistance warrants totaling \$3,751,736.40. This is 783 fewer checks than were distributed last month.
Blind aid is being distributed to 4,683 persons, which is 4 less than the previous month, at a total cost of \$114,014.

The welfare department added 114 families with 236 children to the Aid to Dependent Children rolls during the past month. A total of \$211,198 is being distributed this week to 9,963 dependent children families.

Miss Pauline McAfee of Wichita Falls spent the week end in the home of her parents, Mr. and Mrs. C. L. McAfee.

CARD OF THANKS

We take this means of expressing our thanks to every one who contributed to the shower given me on Easter Sunday. Your kindness and thoughtfulness will be gratefully remembered by me, always.

THE OLD JUDGE SAYS . . .

"Quite a stack of newspapers I left you yesterday, Judge. Aren't you in the newspaper business, are you?"
"No, I just enjoy reading different papers so my nephew George sends them to me whenever he takes a business trip. I got a big kick out of some he sent me from several counties where they still have prohibition. Particularly from some headlines that read 'Drunk Driving Arrests Rise',

'Bootleggers must post Ceiling Prices', 'Federal Agents seize 'Trick' Liquor Truck'. Doesn't that go to prove, Joe, that prohibition does not prohibit?"
"I watched conditions pretty carefully during our 13 years of prohibition in this country. The only thing I could see we got out of it was bootleg liquor instead of legal liquor. . . plus the worst crime and corruption this country has ever known."

Verhalen Home Is Scene of Gay Easter Festival

On Sunday, April 9, Mr. and Mrs. M. A. Verhalen and daughter entertained a large number of relatives and friends in their home. Everyone enjoyed the festive occasion, playing various interesting games and participating in the traditional Easter egg hunts. Refreshments were served buffet style to the following guests:

Mr. and Mrs. W. R. Hertel and children, Mrs. Theo Hertel, Mr. and Mrs. Johnnie Hertel and children, Mrs. Harvey Duke and son, Benjamin; Mr. and Mrs. Alfred Hertel and children, Gilliland; Mr. and Mrs. W. E. Brown and children, Mr. and Mrs. H. F. Jungman, Mr. and Mrs. T. B. Hertel and children, Mrs. Carl Jungman and daughter, Mr. and Mrs. John Michels and children, Mr. and Mrs. William Hertel and children, Urban and Alvin Bellinghausen and Miss Bernardino Homer, Munday; Mrs. T. L. Hudson, Mrs. E. J. Martin and children and Mr. and Mrs. M. L. Verhalen, Knox City.

Easter Picnic Is Held Sunday At City Park

On Easter Sunday a group met at the city park for a picnic and egg hunt. Dinner was served picnic style at the noon hour. Those attending were as follows:

Mr. and Mrs. A. M. Searcey and Maggie, Richard, Fred, Clarence and L. C.; Mr. and Mrs. Claude Hill and Pat, Maxine, Emogene, Claude Larry and Richard, Sunset; Mr. and Mrs. Delmar Hill and sons, Leo and Donald, Sunset; Mr. and Mrs. Lawrence Kegley and son, Don; Mr. and Mrs. Raymond Hargrove and Ralph and Virginia Raye, Mr. and Mrs. Ralph Weeks, Mrs. Emma Hill, Mr. and Mrs. Lamar Searcey and Wynne and Marilyn, Mr. and Mrs. J. A. Hill and Billy, Joe Nell, Jane and Margie, Mr. and Mrs. Thaxton Searcey and Nancy, Pauline, Kenneth and Monty; Mr. and Mrs. Aubrey Smith and Norma Lee, Howard Neal and Sue; Mrs. D. S. Wardlow, Mrs. Annie Coley and daughter, Judy and Miss Dora Followill, all of Munday; Mr. and Mrs. A. H. Hargrove and Christine, Mrs. Mary Fair, Leon Hargrove, Mr. and Mrs. Jess Hargrove and daughter, Frankie; Mr. and Mrs. Marion Strickland and Doyle, Doris, Iris and Derryll, all of Goree.

Bridge Club Has Meeting Monday In Baker Home

Members of the Munday Night Bridge Club held their regular meeting last Monday night, when Mr. and Mrs. C. P. Baker entertained in their home. High score was held by H. A. Pendleton and Mrs. J. C. Harpham.

After the usual six games of bridge, the hostess served ice cream and cake to the following:

Mr. and Mrs. W. R. Moore, Mr. and Mrs. W. E. Braly, Mr. and Mrs. H. A. Pendleton, Mr. and Mrs. J. C. Harpham, Mr. and Mrs. Aaron Edgar as guests, Mrs. A. H. Mitchell and the host and hostess.

Methodist WSCS Meets Monday For Bible Study

Members of the Methodist Women's Society of Christian Service met last Monday afternoon in the home of Mrs. S. E. McStay for the first of a series of Bible studies.

Mrs. John Rice was leader of the study, and the first three chapters of St. John were discussed. The following members were present:

Mmes. E. E. Lowe, G. M. Roden, W. R. Moore, M. F. Billingsley, G. R. Eiland, W. W. McCarty, Joe B. Roberts, S. A. Bowden, C. H. Giddings, John Rice, G. W. Dings, J. D. Crockett, W. L. Ford, P. V. Williams, Luther Kirk and the hostess.

Pendletons Hosts To Bridge Club On Thursday Night

Mr. and Mrs. H. A. Pendleton entertained members and guests of the Munday Night Bridge Club in their home last Thursday night. High score went to Mr. and Mrs. W. E. Braly.

At the close of the games, the hostess served a delicious refreshment course to the following:

Mr. and Mrs. W. R. Moore, Mr. and Mrs. C. P. Baker, Mr. and Mrs. W. E. Braly, Mr. and Mrs. A. H. Mitchell, Mr. and Mrs. Aaron Edgar, Mrs. Louise Ingram and the host and hostess.

Birthday Dinner Given On Sunday In Routon Home

Mr. and Mrs. L. W. Routon entertained last Sunday with a birthday dinner honoring J. H. McAfee and the hostess. The following were present:

Mrs. T. L. Rhineheart and daughter, Patricia, of San Antonio; Miss Pauline McAfee, Wichita Falls, Mr. and Mrs. Coy Tuggle and daughter, Mr. and Mrs. Cecil Gulley, J. H. McAfee, Mr. and Mrs. C. L. McAfee and family, Mrs. Lillian Brown, and Mr. and Mrs. L. W. Routon and family.

The afternoon was spent in playing games.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Boyd Meers are the parents of a baby son who was born on Thursday, April 6, at the Knox county hospital. The child has been named Jerry Wayne, and both mother and son are doing nicely.

Mr. and Mrs. Ben Forman and family of Hobbs, New Mexico, spent the week end here with Mrs. Forman's mother, Mrs. Emily Carden, and with Mr. Forman's parents, Mr. and Mrs. C. A. Forman.

Pvt. Eulice E. Booe has recently been moved from Camp Phillips, Kans., to New York, where he is awaiting further orders. Pvt. Booe is the son of Mr. and Mrs. A. R. Booe of Munday.

Women Who Suffer from SIMPLE ANEMIA

Here's One of the Best Home Ways To Help Build Up Red Blood!

You girls who suffer from simple anemia or who lose so much during monthly periods that you feel tired, weak, "dragged out"—due to low blood iron—start today—try Lydia Pinkham's TABLETS—one of the greatest blood-iron tonics you can buy to help build up red blood to get more strength and energy—in such cases.

Taken as directed—Pinkham's Tablets is one of the very best home ways to get precious iron into the blood. Just try them for 30 days—then see if you, too, don't remarkably benefit. Follow label directions. Worth trying!

Lydia Pinkham's TABLETS

MAKE THIS JUMPER FOR SPRING AND ALL-YEAR-ROUND WEAR

Wearable is the word for jumpers. For work and play, for school and Sundays in the park, nothing takes the place of a versatile jumper. This easy to make design is styled in crisp spun rayon that launders perfectly. It is trimmed with a spray of cotton flower appliques that are bought ready to sew on, and embroidered with fast-color embroidery floss. Besides making your own clothes this season, try to find time to sew at least one of the million home-sewn garments needed by the Red Cross for distribution here and abroad.

Watch...

THE EXPIRATION DATE ON YOUR PAPER!

Due to restrictions on production of newsprint, we are forced to cut down on the numbers of papers being printed whenever possible.

It is not our desire to stop the Munday Times now going to our regular subscribers, so you are urged to renew your paper ahead of the expiration date in order to keep it coming to you. Should your name be removed from our mailing list, it might not be possible to place it back on in the future.

If the date 2-15-44 appears opposite your name, your paper expired on February 15, 1944. Your cooperation in renewing before that date will be appreciated.

FARMERS CHECK VARIETIES

COLLEGE STATION — Dawson county farmers have found that Martin's Milo matures a little earlier than other combine-type grain sorghums, but the production of Plainsman surpasses other varieties in their vicinity.

Lee R. Pool, Dawson county agricultural agent, says these combine-type feeds average about 1,500 pounds of grain per acre, and farmers like the ease with which they can be harvested and produced. On the basis of farm tests, the big reddish-orange colored Plainsman seems to be first choice, Martin's Milo, second, and Wheatland third in Dawson county.

Cotton bag fabrics lend themselves smartly and economically to limitless decorative schemes in the home. Dainty, easily laundered curtains, slip covers, dresser covers, doilies, luncheon sets, draperies, and many other items can be made readily and inexpensively from bags in which you buy your

sugar, flour, meal, feeds. Even wearing apparel can be made from the sturdy cloth from cotton bags—cloth which looks like linen if a bit of starch is added during laundering.

Scores of ways in which the soft, white, long-wearing material from cotton bags can be utilized are explained in the new, illustrated 32-page booklet, "Bag of Tricks for Home Sewing." For your free copy, write National Cotton Council, Box 18, Memphis 1, Tennessee.

Mrs. Marvin Lunstang of Fort Worth and Mrs. H. L. Ragsdale of Lakeland, Fla., have been visiting in the home of their uncle, Frank Nance, and family.

SCHOOL GARDEN SUCCESSFUL
COLLEGE STATION—A 30 by 40 foot plot has been transformed into a flourishing Victory garden by 4-H Club members who are students of the Stephen F. Austin school in Montgomery county.

Three of the club boys did the plowing, providing the horse and the plow themselves, while the wire to enclose the garden was furnished by the father of the girl 4-H president. The entire student body helped remove the grass, build the fence, fertilize, and plant the seed, says Margaret Giles (Murphy), the assistant county home demonstration agent. Total cost of the garden was 50 cents.

Following Miss Murphy's demonstration on making a seed box, the club member made one and are raising tomato plants for the school garden. Miss Amy Hoke is the school's 4-H sponsor.

LOCALS

Mr. and Mrs. E. W. Harrell spent the week end in Oklahoma City, visiting with Mr. and Mrs. Gene W. Harrell and little daughter, Natalie.

Dr. and Mrs. James N. Walker of Dallas visited Mrs. Walker's parents, Mr. and Mrs. G. R. Eiland and other relatives here last Sunday.

Miss Toby Baird visited her sister in Avoca over the week end.

Miss Lucille Petrus of Vernon visited with friends here over the week end.

Mr. and Mrs. Travis Lee and children visited relatives in Wichita Falls over the week end.

Mrs. Lavel Bilbrey and son of Denver City visited relatives at Munday and Goree several days last week.

Mrs. Barton Carl visited with friends in Abilene over the week end.

Mrs. B. W. Pope of Knox City and Mr. and Mrs. Bob Jarvis and Howard visited with relatives and friends in New Castle over the week end.

Mrs. G. A. Huddleston of El Cajon, Calif., is here for a visit with her daughter, Mrs. Edwin Booe, who has recently undergone an operation at the Knox county hospital.

Mrs. Mann McCarty has returned home from Big Spring, where she has been visiting in the home of Mr. and Mrs. Grady Weaver.

Mrs. Othella Steel and daughters, Mary and Sandra Kay, left last Tuesday for Sullivan, Mo., to make their home with Mrs. Steel's father, J. R. Roberts. They were accompanied by Mrs. Steel's sister, Mrs. Dee Mullican, who will visit there for several days.

Rev. and Mrs. Farley and little daughter of Vera were business visitors here last Tuesday.

The Texas State Historical Association will hold its annual meeting at the University of Texas April 28-29.

It's "Churchill Tailored"

Mrs. Opal Johnson spent the week end visiting in Winters and San Angelo, and buying merchandise for her shop here.

Miss Chloe Dell Stalcup, who is attending W. T. S. T. C. at Denton, spent the Easter holidays with relatives here.

Miss Virginia Goode, teacher in the Seymour schools, and Charles Goode of Denton spent the Easter holidays with their parents, Mr. and Mrs. Charles Goode, who left last Monday to make their home in Colorado.

Mr. and Mrs. Bryan Lawson spent Easter with their parents, Mrs. Lawson and Mr. Jeff Roberts, and with other relatives.

Odus Rhoades, who has been operated in an Amarillo hospital while on his way home on leave, is able to be up and is spending a convalescent furlough with his

wife at Seymour and with relatives here.

Wallace Roberts of Camp Berkeley spent the week end with his parents, Mr. and Mrs. S. C. Roberts, and with friends.

George Hunt has a medical discharge from the Navy and is now home.

Mr. and Mrs. Cherry Moore and daughter of Fort Worth are visiting relatives here this week.

Mrs. Weldon Warren and children of Plainview are visiting Mrs. Warren's parents, Mr. and Mrs. J. C. Morton.

Mrs. C. C. Caloway of Alvin, Texas, is here for a visit with Mr. and Mrs. Charles Johnston.

Mr. and Mrs. Ben B. Hunt were Sunday visitors in the home of Mrs. Wilbur Hunt of Olney.

Mrs. Kate Glasgow and Mrs. Lucy Coursey left Tuesday for Faxon, Okla., for a visit with rel-

CERVENY HEN IS DOING DOUBLE DUTY

Frank Cerveney exhibited evidence that his hens have started producing eggs large enough to meet government requirements. Wednesday he brought The Times an egg that measured 8 1-2 inches around the long way, and 7 inches the other way. The egg weighed almost five ounces. It was contributed toward the editor's breakfast!

225,000,000 MAN-HOURS WITHOUT FATAL ACCIDENT

General Electric's big manufacturing plant in Schenectady, N. Y. has established a safety record of more than 225,000,000 man-hours of work without a fatality, believed to be unequalled in any heavy apparatus manufacturing factory in the country. "If this record were applied to an average plant of 250 employees, this would mean 350 years without a fatality," George E. Sanford, in charge of safety program, explained.

See THE PHANTOM

Mr. and Mrs. Bud Vaughn and little daughter of San Diego, Calif., are here for a visit with Mr. and Mrs. Bud Vaughn, Sr., and with other relatives in this section. Mrs. Austin Jones and baby and Mrs. Mildred Humphrey of Stamford were here last week for a visit with their parents, Mr. and Mrs. B. B. King.

P. J. Camp, who has resided here for a long time, left last week for Seymour to make his home.

Mr. and Mrs. Melvin Cooksey were Sunday visitors with Mr. and Mrs. Menyard Smith of Hefner.

J. M. Rister left Tuesday for Stamford to visit his daughters and families, Mr. and Mrs. W. C. Barley and Mr. and Mrs. Pete Cook.

Mrs. J. W. Fowler has returned from a visit with her son and family, Mr. and Mrs. Leon D. Fowler of Odessa, and with relatives and friends at Colorado City.

A large crowd of sorrowing relatives and friends were here last week to attend the funeral of Uncle Bud Coffman. Many friends from out of town, and many in and near Goree, gathered to show the esteem that was held for this beloved pioneer.

Mrs. Sarah Coffman is spending some time with her daughter and family, Mr. and Mrs. J. Harlan of Littlefield.

Mrs. Roy Jones is home after spending the winter months with relatives at Wichita Falls and other points.

Mrs. Wallace Roberts was a visitor in Oklahoma last week, making the trip there with friends.

At The Churches

PREBYTERIAN CHURCH

Dr. William N. Sholl of Haskell preaches here each Sunday morning at 9:30 a. m.

Our church is located on the Main street of Munday and has an attractive auditorium with added Sunday school facilities. The Auxiliary meets on Mondays and is accomplishing a good work. All Presbyterians living in Munday and surrounding country are urged to attend our services. A very hearty invitation is extended to all visitors, especially those who have no regular church home.

FIRST BAPTIST CHURCH

Nearly every one in the church last Sunday morning voted to read three chapters of the Bible each day beginning with last Sunday begin with Mark and read the 16

and reading through the New Testament by the Fourth of July. This plan of reading was agitated by the boys in the service, and is sponsored by them and the American Bible Society. They asked that we chapters of Mark, then turn back to Matthew, read it, then Luke and right on through the N. T., then on Independence Day we will read the great independence which God gives to those who know Him. Let's keep our pledges to read, remembering the boys in the lonely, rain-soaked fox holes on the battle fields of the world. Let's keep faith with them.

Last Sunday was a good day, 155 in Sunday school. Rather out of the ordinary, but we have had four good Sundays since Christmas, and three of those days we have had 155 in S. S. and the other one we had 153.

As you read this make up your

mind that you are going to church next Sunday. As a rule we do whatever we want to if we begin planning in time.

Some one left an overcoat at the church during the recent Crimm meeting. You may need it next winter.

W. H. Albertson.

BENJAMIN METHODIST CHURCH

J. P. Patterson, Pastor
CALENDAR
Preaching Second and Fourth Sundays at 11:30 a. m.
Church School, 10:30 a. m. each Sunday.

4-H Contests Are Announced

COLLEGE STATION—National contests, sponsored by individuals and business concerns in different parts of the country which are open to members of Texas boys' 4-H clubs in 1944, are announced by L. I. Johnson, Texas state boys' club agent. They include National 4-H Leadership, Achievement, Dairy Production, and Rural Electrification. Each offers \$200 scholarship awards to winners along with all-expense educational trips to the 23rd National 4-H Club Congress at Chicago, December 3-6, next. Texas club boys placed first in three of these contests in 1943.

Other contests are: National Food for Victory, with awards of an all-expense trip to the National Congress to the highest scorer and \$25 war bonds to the three next highest; 4-H Victory Garden, with all-expense trips to the National Congress plus a \$100 war bond to the highest scorer and \$25 war bonds to the eight next highest; 4-H Meat Animal, with county and state awards, and an all-expense trip to the National Congress to the boy having the best record in the South; and Horse and Mule, with an all-expense trip to the National Congress as the award. The Leadership contest, designed

to develop through 4-H Club work qualities of leadership which are essential to a progressive and wholesome rural life, offers a silver trophy to the winner in addition to the scholarship award. The President of the United States sponsors a trophy to the winner of the achievement contest. In 1943 this took the form of a chest of silver.

According to Johnson, the purpose of the Food for Victory contest is to stimulate enrollment, interest and achievement in food production. Selection of the winner will be based upon the number of service men the food he produces would take care of for one year, together with his leadership and other wartime activities. The food to be produced under this program may be any kind of combination of livestock, poultry, vegetables, fruit or field crops, including cotton.

ULTRA-VIOLET TESTS CASTINGS

Defects, such as cracks, in aluminum castings that are invisibly under ordinary inspection, are shown up in a new fluorescent test with ultra-violet radiation now being used at General Electric's Schenectady plant. The test can be applied to the inspection of parts for planes, searchlights, and other war products.

CARD OF THANKS

We wish to express our deepest thanks to our friends for their many acts of kindness and sympathy during the illness and death of our husband, father and grandfather. May God's blessings be with you all.

Mrs. Bud Coffman,
Mr. and Mrs. Orb Coffman and family,
Mr. and Mrs. J. J. Harlan and family,
Mr. and Mrs. Cortie Coffman and family,
Mr. and Mrs. Buster Coffman and family,
Mr. and Mrs. Kevil Coffman and family.

Are You "REALLY DEAF"?

Few people are actually "deaf". Most people who are called "deaf" are really only hard of hearing, and could enjoy conversation with family and friends, music and other normal activities with the New Symphonic Acousticon.

FREE PRIVATE DEMONSTRATION
WEDNESDAY, APRIL 19th; 1:00 TO 5:00 P. M.
TERRY HOTEL, Munday, Texas

Whether you are now very hard of hearing or if you are just losing your hearing—don't miss this opportunity to learn how you can be helped to HEAR BETTER—thanks to new discoveries of the U.S. Government Deafness Survey. No obligation. Ask for Acousticon.

Senior News
 Those six weeks exams are over, and if one hears the Seniors breathing easily and naturally again, he will know its merely the sigh of relief.

Our English class has been reading the drama of three acts, "Strife," by John Galsworthy. The class has been assigned different characters, and we are reading the drama in class. It is a rather humorous as well as interesting.

This week we are working in the Chemistry lab, and we have been making experiments with compounds of Calcium and other metals.

Friday night, members of the Junior and Senior class had a picnic at the Munday park. After a period of fun and frolic, all enjoyed the delicious roasted weiners and all the trimmings. Everyone who went reported a very enjoyable time. Especially when Wayne turn a flip unexpectedly on the see-saw. How about it Wayne?

Junior News
 The Juniors are looking forward with eagerness to April 21st. Why? You guessed it, that's the date of the Junior-Senior banquet. We'll spend this week preparing invitations etc.

Our Junior-Senior play, "The Home Front" is progressing nicely and most everyone knows his part by now. We're going to practice every night this week.

Sophomore News
 After a hectic week-end I guess

the Sophs are ready to begin another week of school.

Friday afternoon after school we all went to the river for a weiner roast. We all came through the ordeal very fine except for scratches, falling down mole hills, etc. We missed all of you who didn't go.

In English we are studying poetry and the different types of poems. Our ten-page short story is due May 1st and nearly all of us can be seen scribbling away at it.

The Homemaking girls have put the last efforts on their dresses and they all seem to be very proud of them.

"Fresh-Water Biology" is the main subject in Biology this week and will continue to be the same through all the summers as the ole swimming hole and fishing will give a call to all of us.

Freshman News
 We have just finished our six weeks test. We all made pretty good grades. But we hope to do some better the next time.

In Algebra we are now studying Monomials and Factors. Some of us find these pretty hard while the other find them easy. We are not going to tell anyone just what we made on our exams in Algebra because we are afraid they would be disgraceful. We know one thing, Mr. Arnold isn't very proud of us. But since this is the last six weeks maybe we will improve. Here is hoping we do.

See THE PHANTOM

RAIN OR SHINE—

THERE'S a slim, dark-haired girl working at a desk in Naval Service Headquarters, in a clean white shirt and a Navy blue uniform. Her name is Helen Rosemary Partridge, and she is working with colored crayons and ink over swirling, circling designs on pastel shaded sheets of paper.

They're not the usual artistic designs seen on drawing boards, however, and Sub. Lieutenant Partridge is not doing a usual job. For she is the only woman meteorologist in the Navy, Army or Air Forces, and the patterns of weather she is drawing daily affect not yards of material for gowns, but ships, men and millions of dollars in cargo carried by the Royal Canadian Navy.

Her job, as Assistant to the Staff Officer, Meteorology, at Naval Service Headquarters, is to correlate station weather reports received from airports, observers and other posts, and to prepare a comprehensive picture of weather conditions at all times. This information is vital to the Navy. It is a job which requires skilled training and ability.

The weather at sea can be the Navy's friend or foe; rough weather discourages submarines, but also helps separate ships in convoy. The intricate weather maps which Sub. Lieutenant Partridge prepares daily with their areas of high and low pressure, cold fronts and weather conditions at all points of interest, are discussed by her with officers in naval headquarters and the benefit of that knowledge is applied in operations rooms.

Sub. Lieut. Helen Partridge, W.R.C.N.S., only woman meteorologist in the Canadian armed services. At top: two members of her staff prepare weather reports for the Navy.

Some Factors Leading To Egg Price Situation Explained By County Agent

Some of the factors leading to the perplexing egg price situation are summarized by County Agent R. O. Dunkle, as follows:

1. Production is at an all-time high peak. It is 79 per cent above the 10-year average.
2. Egg drying establishments are unable to use fresh eggs now because they have stored eggs on hand.
3. Much of cold storage space normally available to use for eggs has been requisitioned by the Army for other purposes.
4. There is a shortage of egg cases and dealers are reluctant to release cases to be used for storage because they can't get them replaced.
5. Bad weather, high prices of feed, low price for eggs are having a depressing effect on poultry growers. The movement of baby chicks is slow.
6. The fall will find us with fewer pullets than normally grown.
7. A fall egg shortage of fresh eggs, and of commercially stored eggs is in prospect.

What can be done about the surplus egg situation? The poultry specialists and the food and nutrition specialists have two things to suggest:

1. Increased use of eggs by consumers.
 2. Home storage of eggs by producers and consumers.
- If every person in Texas used 1-2 dozen more eggs in April, about 3,000,000 additional dozen eggs would be taken off the market.
- If 1-4 of the farm and ranch families of the state each preserved 10 dozen eggs, 1,000,000 dozen low priced eggs would be taken off

the market and be saved for consumption in the fall when eggs will be scarce and prices will be higher.

Preserving eggs in the spring for use in the fall and early winter is recommended only for families who cannot have a sufficient year around production and for families who have a surplus that cannot be disposed of except at a loss. It may also be recommended for families who do not have poultry and who want to buy eggs while they are plentiful and cheap to use when few are available. As a rule, the Extension Service would recommend a well planned program to have year around production of eggs rather than preserving them. If eggs are to be preserved, emphasis should be given on proper selection and care.

In selection of eggs to preserve, use only fresh, sound, infertile eggs that are not soiled or cracked. Eggs should first be cooled and candled. Then, within twenty-four hours after they are laid, preserved according to the method given below. Those laid during March, April and May usually keep better than eggs laid later in the season.

boiled and cooled.
 12 to 15 dozen eggs.

Measure the water into a five-gallon crock or galvanized can which has been thoroughly cleaned and scalded. Add water-glass and stir thoroughly. Place eggs into the water-glass mixture. Have one inch or more of the solution covering the eggs at all times. If there are not enough eggs on hand when the solution is made, more eggs may be added from time to time.

Care of Eggs Until Ready for Use

Keep in a cool dry place—preferably less than 70 degrees F. The container should be tightly covered to prevent evaporation. If necessary, more solution of the original strength may be added. The water-glass seals the pores of the eggs so that no spoilage organisms can enter.

Use of Eggs Preserved By Water-Glass

Eggs keep in this manner six to nine months. When ready to use, wash the eggs to remove the coating which covers the shell. They should be cooked immediately after being removed from solution. They may be cooked in any way as fresh eggs. When they are to be boiled, prick a small hole in the large end of the shell to allow air to escape.

Pfc. and Mrs. Travis Gore left last Thursday for Columbia, S. C. Pfc. Gore was on furlough here to visit his parents, Mr. and Mrs. H. H. Gore of Seymour, and his wife of Munday. Mrs. Gore is the former Avanel Green.

CARD OF THANKS

Just a word of thanks and appreciation to those who plowed our lot on last Friday. Raymond Suggs, B. B. Bowden and the colored boy who works for B. B. came with three tractors and did a nice job of plowing. Others lent a helping hand taking down a cross fence. Many thanks to all. May God's blessings be on each of you, and the very best of health.

Mr. and Mrs. I. L. West and Lennie.

Fred Gilliland of Haskell was a business visitor here last Monday.

Mr. and Mrs. Wallace Moorhouse of Seymour were business visitors here last Monday.

Sgt. and Mrs. James Carden of Camp Forrest, Tenn., spent five days here recently with his mother, Mrs. Emily Carden, and with other relatives. Sgt. Carden had just been on maneuvers.

Dr. R. L. Newsom spent the latter part of last week at Ellington Field, Texas, where he attended the graduation exercises in which Jack Pippin received his wings and commission.

Miss Juarcy Jones, a student in Hardin-Simmons University, Abilene, visited her mother, Mrs. Rose Jones, during the Easter holidays.

Mr. and Mrs. Vance Favors of Quanah and their son, Lieut. Favors, of Quanah visited with friends here last Monday.

Miss Ann Atkeison spent the week end in Austin, visiting her sister, Dixie Atkeison, who is a student in Texas University.

Mrs. T. L. Rhinehart and daughter, Patricia Ann, of San Antonio are visiting Mrs. Rhinehart's mother, Mrs. Lillie Brown, and her sister, Mrs. Loyd Routon, this week.

Electric Power!
 is
 Fighting Power!

WHEN our soldiers go into battle they carry with them little packages of food—each one a square meal. Those packages contain very special foods—dehydrated and concentrated—calories and vitamins carefully counted, but complete from soup to coffee. It gives fighting men reserve power they need to keep going when other supplies are cut off.

who manage America's Electric Power Companies, such as the West Texas Utilities Company. The reserves are more than enough to meet every essential need. Because of carefully planned inter-connected systems large quantities of electric power are available almost anywhere.

Reserve power is just as vital in war production as it is in military operations. Tank factories, plane plants, and ordnance works are eating up more and more electricity every day, and the "reserve rations" to keep them going have been ready. Why? Because those reserves were built up in advance by the trained men

Electric power is able to do its job promptly, efficiently, and economically. Electric power is the reserve power that keeps our fighting power going.

Senior Report

Well, six weeks exams are over and it isn't long until school is dismissed. I think everyone of the seniors will be glad to get out for good.

We have begun practicing our play in the gym now, and everyone is doing much better. The play promises great success, so don't miss "The Antics of Andrew."

The Seniors wish to thank the Juniors for the lovely banquet they gave us last Friday night. Everything was just perfect. Good food and very beautiful decorations. All of us enjoyed it immensely and thanks a million, Juniors. You worked hard to make it a success and we believe it is the best one ever staged at Sunset. Our greatest appreciation to you and thanks again.

Our last days at Sunset are filled with activity. Seems like work simply piles up on us. We're working hard; however, and intend to emerge victorious.

Junior Report

The Junior and Senior boys have organized a ball club. We have our first game with Munday.

Well, our banquet seemed to have gone off fine. Everyone had a very enjoyable time. We Juniors enjoyed making ready for it but we can't help feeling relieved that it is over and that it was successful.

Our rings came in a few weeks ago and we Juniors think they are very beautiful. In fact, the most beautiful ever at Sunset. Ahem!

Our pictures came in the earlier part of the week. Some of them will be nice to place in the garden to frighten the birds away.

Sophomore Report

We Soph girls thought we were really someone last Friday night. We served at the Junior-Senior banquet. We enjoyed eating the leftovers.

Our pictures came in Monday. There was a flurry all day Tuesday exchanging pictures. Most of

us are going to reorder. Our class had a party three weeks ago at Barbara Almanrode's. Everyone reported a nice time. All of us were sleepy the next morning. However, it was worth it.

Seventh Grade

Last Monday, Mildred Michels gave a slumber party for her classmates. Everyone reported a very good time.

Several days ago we played Munday's Junior team in volley ball and beat them three of four games. Munday is coming over this week and we hope we beat them again.

We received our pictures Tuesday and have exchanged with our classmates.

We are all glad exams are over again. That means we won't have to cram again until the finals roll around.

Last Friday we had an Easter picnic and stayed all afternoon at Jarvis' pasture where there was a haystack and all of us had a very delightful time jumping off it. We also played baseball and then refreshments were served afterward.

In music we are learning new songs and having requests.

The boys are running track while the girls are playing baseball this week.

Best citizens this week were Patsy and Audrey.

Sixth Grade

We all enjoyed an Easter picnic last Friday afternoon. We all left at noon and went to Walling's pasture where we played games and hunted Easter eggs. June Lowry found the prize egg and Royce Reddell found the greatest number of eggs among the boys.

We voted on the best Easter pictures. They were drawn by Tommy Francis, Betty Matthews, and Lois Reddell.

Our class presented our sponsor, Mrs. Shannon, with two nice pyrex pie plates for an Easter present. She was very proud of them.

Fourth and Fifth Grades

We had a grand Easter egg hunt and picnic combined last Friday. Doris Walling found the prize egg and Madge Hardin found the most eggs. She got a prize. Donald Mincey and Roy Dykes tied in the boys race and each got a prize.

Madge's sister, Edna Dame, and her husband from Littlefield spent Easter with the Hardins.

Doris Walling's Aunt Francis, is here from T. S. C. W., Denton. Gladys Simmons had an Easter egg hunt at her home Sunday. They reported a good time.

Gloria Michel went to an Easter egg hunt at Mr. M. A. Verhallen's and found a prize egg.

Second and Third Grades

Faye's little cousin, Linda Kay, visited her Sunday.

Barbara Jo and her little brother, Jerry, had a fine time at Gladys Nell's Easter party.

Mildred's brother, Pfc. Weldon Gideon, is home on a furlough from San Diego.

Jimmy Burl's cousins, Lloyd Alene and Marybeth Waldrep, visited in his home Friday night.

Sunday, Charles Everett's grand-

AMERICAN HEROES

BY LEFF

Torpedoed at night, men of the Merchant Marine abandoned their fast-sinking ship. Frederick R. Zito, Cadet-Midshipman, left his lifeboat, climbed hand over hand up the falls to free a 250-pound fireman. Unable to loosen the ropes, he cut them free, then towed the entangled man until they were picked up by a lifeboat. His is heroism beyond the line of duty. That extra War Bond you buy may save a life!

U. S. Treasury Department

Touch of Texas

Scientists of the Lone Star State contributed to the development of phenothiazine (pronounced fen-o-thigh-azeen) for controlling certain internal parasites in sheep and other livestock. Above, a sheepman injects the chemical with a drenching gun. Texas stock raisers alone administer more than one-third of the total national consumption. Production of this versatile derivative of sulfur and coal tar will be increased when the projected Du Pont plant on the Houston ship channel at La Porte, Texas, is built and gets in operation.

father and Grandmother Beecher and all his cousins visited him.

Kay Leon spent the Easter holidays with his grandparents in Rochester.

The second and third had a fine time hunting Easter eggs Friday. Jimmy Burl and Louise found the prize eggs.

Larry Don went to Seymour to hunt Easter eggs in the park with his cousins, Martha Jane and Leita Lane Gentry.

Emogene went to the Munday park for an Easter egg hunt.

Lois Ann went to an Easter party at Mr. Matt Verhallen's home. The rain and hail almost broke up the hunt.

First Grade

Loretta's Uncle Leland and Doris Floye spent Sunday night in Loretta's home.

Ruth's sister, Jane Burton and her roommate, Ruth Fisher of Lubbock, spent the Easter holidays visiting relatives and friends here. They all took dinner with the Burtons in Benjamin on Sunday. In the afternoon they went out "kodiking" in the river breaks. After which Jane Burton and Ruth Fisher returned to Lubbock to resume their studies.

Everyone enjoyed the Easter egg hunt immensely the past Friday. We never saw the like of pretty hen eggs.

Grace Evelyn Posey is absent because of the chicken pox. We are thankful there are only a few children in our room who have not already had this disease.

Little Sue Voss and Larry Walling visited in our room the past Friday and hunted Easter eggs with us. Also little Rexine Howell hunted eggs with us.

We are now learning to solve stated problems in our number work and find it a lot of fun.

NEW ENTERPRISE PLANNED

COLLEGE STATION—Growing papayas for quick freezing is planned by an enterprising Cameron county resident who has been consulting county agricultural agent F. C. Brunnenman for assistance with his project. The Cameron county man plans to plant 10 to 20 acres with seed recently obtained in Florida.

LOCALS

Mr. and Mrs. Levi Bowden and children of Fort Worth visited relatives and friends here over the week end.

Bud Collins of Floydada visited in the home of Mr. and Mrs. W. A. Baker last Saturday.

Mr. and Mrs. A. V. Kemletz of Fort Stockton spent the week end here with Mrs. Kemletz's mother, Mrs. Louise B. Ingram.

Mrs. E. H. Nelson and daughter, Miss Imogene, left last week for California, where they will visit with relatives for several weeks.

Misses Flora Alice Haymes and Louise Speigelmier, both of McMurry College, Abilene, spent the week end with Flora Alice's parents, Mr. and Mrs. Lee Haymes.

Mr. and Mrs. Marvin Peck of Paint Rock, Texas, spent the Easter week end here with Mrs. Peck's parents, Rev. and Mrs. W. H. Albertson.

Mrs. W. M. Huskinson and son, Bill, of Wichita Falls visited with Mrs. Huskinson's father, W. H. Atkison, and other relatives here over the week end.

Rev. and Mrs. O. A. McBrayer of Abilene visited with Mrs. McBrayer's parents, Mr. and Mrs. W. E. Sherrod, last Sunday.

Miss Quintna Wiggins, who is teaching in the Sundown schools, spent the week end with her parents, Mr. and Mrs. J. A. Wiggins.

Miss Patsy Ruth Kirk, a student

in McMurry College, Abilene, visited her parents, Rev. and Mrs. Luther Kirk, during the Easter holidays.

Mrs. Ernie Mae Lee of Wichita Falls visited her mother, Mrs. A. F. Huskinson, and other relatives here over the week end.

Sgt. and Mrs. Paul Pendleton of Wichita Falls spent the week end with Paul's parents, Mr. and Mrs. H. A. Pendleton.

Miss Mazelle Tuggle, who is employed in Fort Worth, visited in the home of Mrs. Sebern Jones over the week end.

Miss Helen Homer of Wichita Falls visited over the week end with her parent, Mr. and Mrs. K. G. Homer of Rhineland.

Miss Mary Lois Beaty and Sgt. Zexer of Abilene visited in the home of Mr. and Mrs. G. H. Beaty last Sunday.

We're Ready To Serve You With . . .

BANNER ICE

The Record:

Lone Star Gas Rates were reduced in a period of advancing prices.

Now, this service

is one of the few items of household expense which costs you less today than at beginning of the war.

Largely responsible for this record is the teamwork which the Lone Star Organization, working together over a period of years, has developed.

And you, the customers, by using approved appliances and taking good care of them, work hand-in-hand with this team to keep the service functioning smoothly and economically. This is important in these days when our full energies and abilities are dedicated to the job of providing dependable fuel service to war plants as well as to business and the home.

Right now is the time to clean, check, cover and store for summer all heating appliances. Storing them clean and ready for another winter of satisfactory service is one means of making sure the gas you use is used wisely. Remember, just because the cost of Lone Star Gas Service is less today than at beginning of the war is no reason why it should be wasted.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

AUSTIN—In a statement issued today by Dr. Geo. W. Cox, State Health Officer, it was disclosed that 93,672 mattresses, pillows, and other articles of bedding had been sterilized under state supervision during the calendar year 1943.

This figure represents the number of articles of secondhand bedding sold in the State of Texas during 1943. The state Sanitary Bedding Law requires that every used article of bedding which is offered for sale must first be sterilized by a process approved by the State Board of Health. The law further requires that after an article of used bedding has been sterilized, a law tag be attached showing that the sterilization has been applied. In the purchase of secondhand bedding this tag is the purchaser's guarantee of health protection. Dr. Cox urged that all purchasers of used bedding demand to see that the sterilization tag has been attached.

"Before buying any article of bedding, whether new or secondhand, the purchaser should demand to see the law tag since all bedding is required to show some sort of tag," Dr. Cox said.

New bedding is required to have a tag attached showing that all new materials were used in its manufacture, and also the type and grade of filling materials used. Bedding manufactured from second materials is required to have tags attached showing that the article is made of second-hand filling materials and that sterilization has been applied.

Class 3-C (H): John A. Smith.
Class 4-A: Carl Haynie, Marshall L. Woolley and Walter A. Polster.

Sunsuits are a "must" for children. They are inexpensive, too, if made from the sturdy, washable material that comes to you free every week in feed, flour, and sugar bags.

Laundried cotton bags give you an easy-to-handle material, naturally white but easily tinted or dyed

to suit your taste. It is serviceable, comfortable to wear. An embroidered monogram and any one of dozens of ideas may be employed if trimming is desired.

Sunsuits and numerous other money-saving ideas are contained in a new booklet, "Bag of Tricks for Home Sewing," which brings you many profitable sewing tricks with cotton bags. For your free copy, write National Cotton Council, Box 18, Memphis 1, Tennessee.

EIGHTEEN-YEAR OLD HERO NOW DOING WAR WORK

Estel Dunn, 18-year-old war hero of Fort Wayne, Ind., has seen nearly two years service with the Marines, has been awarded the Distinguished Service Cross, the Silver Star, the Purple Heart and 15 minor infantry medals. Honorably discharged because of injuries, he is now working in General Electric's war plant at Fort Wayne.

ROBOTS READ INSTRUMENTS IN WIND TUNNEL TESTS

Electronic robots that read instruments more accurately than a man can, and which automatically print their readings on a strip of paper, are used to measure the speed of motors used in airplane wind tunnel tests in the General Electric Engineering Laboratory of General Electric.

See THE PHANTOM

"LOST WAX PROCESS" AIDING WAR EFFORT

The "lost wax process," used for centuries by sculptors, is being used by General Electric to cast turbine buckets for complicated parts of turbosuperchargers that make possible high altitude bombing over Germany.

Storing Combustible Liquids FIRE! FIRE!

That's a dreaded cry on any farm. It often means buildings lost, equipment gone, crops destroyed or homes burned. And all too frequently it means misery and suffering for the family.

Records show the most common cause of fatal burns on farms is the improper use and storage of combustible liquids. Fires thus caused cost over \$9,000,000 last year. So, it's clear that more care is needed in handling such liquids as gasoline, kerosene, oil and naphtha.

Every farmer has almost daily use for these liquids. To protect your property, you can build simple, inexpensive storage facilities, which require little or no critical materials, by using asbestos cement board and asbestos shingles.

The best plan is to store your combustible liquids in an outside shed, such as the one shown. This is the only safe way if you store considerable quantities.

If you keep less than 30 gallons on hand, it may be stored inside in a suitable cabinet.

A good cabinet consists of a frame constructed of 2 x 2's with double walls of asbestos board. The door or lid should also be of double construction, with at least a 1 1/2-inch air space. The door sill should be raised about two inches above the bottom of the cabinet.

All storage space and individual containers should be clearly marked: "Combustible — Keep Fire Away," and every member of the family should be instructed in the use of dangerous liquids.

True Talk from Reeves Motor Co.

No matter what kind of tires are on your car today, our job now is to help keep them rolling. Come often to TIRE HEADQUARTERS for tire service that stretches tire life.

ONLY THE BEST IS "GOOD ENOUGH" NOW!

GOODYEAR

SYNTHETIC RUBBER TIRE

- * Drive under 35 miles per hour.
- * Drive only when necessary.
- * Keep 4-ply tires inflated to 30 pounds and 6-ply tires to 35.
- * Avoid sudden stops and starts.
- * Avoid bruising your tires.
- * Share your car with your neighbor.
- * Have your tires inspected regularly.

REMEMBER — Goodyear quality brings you a definite PLUS in tire performance, measured in miles or months or dollars — whether crude or synthetic rubber is used.

REMEMBER — The body of this tire has the same low-stretch Supertwist cord and high-carbon steel bead wire used in Goodyear's pre-war De Luxe Tire.

REMEMBER — In a Goodyear Tire you get extra service and extra value — due to special designs and skills developed by Goodyear Research in 29 years of tire leadership.
