

The Munday Times

KEEP ON... Backing the Attack! WITH WAR BONDS

VOLUME 39

MUNDAY, KNOX COUNTY, TEXAS, THURSDAY, JUNE 1, 1944

NUMBER 49

Glen Dobbs Is O. C. S. Graduate; Sets Record

Glen Dobbs Jr., All-American college football player at the University of Tulsa, Okla., and chosen on the Associated Press all American service team when he played for Randolph Field last fall, made history at the Army Air Forces officer candidate school at Miami Beach, Fla., Saturday by winning both the military and athletic awards upon graduation.

Two County Men Fighter Pilots

Randolph Field—Texas led all states of the nation in the number of her native sons who became Army Air Forces pilots as the latest class of pilots was graduated at simultaneous graduation exercises at the eleven advanced flying schools of the Central Flying Training Command this week.

Vacation Church School Slated For Church At Goree

A vacation church school will open at the Goree Methodist church on Monday, June 5, and will continue through Friday, June 16. The school will be held each week day afternoon from 3:30 to 5 o'clock.

Weather Report

Weather report for the period of May 25th to May 31st, inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

ATTENDING SHORT COURSE FOR FIREMEN

Ed Y. Johnson left the first of this week for College Station. He is spending the week there, representing the Munday Volunteer Fire Department at the annual firemen's short course held at Texas A. and M. College.

Knox County Hospital Notes

Patients in Knox County Hospital May 30, 1944
Earl Claburn, Munday.
Baby Lambeth, Goree.
Elton Robertson, Knox City.
Anita Anderson, Rule.
Mrs. Louise Brown, Knox City.
Mrs. T. C. Posey, Knox City.
Mrs. W. W. Moorhouse, Seymour.
Baby Chas. Haynie, III, Rochester.
E. F. Branton, Knox City.
Mrs. N. D. Lewis, Haskell.
Mrs. McWilliams, Benjamin.
Marilyn Moore, Munday.
Don Wood, Rochester.
Sandra Wood, Rochester.
Mrs. O. L. Howell, Abilene.

Hereford Breeders To Meet June 10th

Directors of the Texas Hereford Association representing the 42 districts of the state will consider means of speeding up a comprehensive program for the improvement of the cattle industry when they meet June 10. Charles Pettit, breeder of registered Herefords, will be host to the stockmen at his Flat Top Ranch near Walnut Springs in Bosque county.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Moody Johnson announce the arrival of another daughter, Alta Maribeth, who weighed six pounds and six ounces upon her arrival at the Haskell hospital on Tuesday, May 23. Mother and daughter are reported doing nicely.

Names His Jeep Mayor of Munday

Tech. Sgt. J. P. Groves, who is crew chief in a service squadron and has been in England for nine months, thinks enough of his home town to name his jeep "Mayor of Munday."
Lieut. Stanley Hill Jr., grandson of Mrs. W. C. Hill, wrote home that while he was walking around in England he came upon a jeep with "Mayor of Munday" written on the side. He immediately inquired as to whom the owner of the vehicle was, and was told that the owner was from Munday, but Hill failed to learn the owner's name.
Lieut. Hill said he was going to look all over England for the owner of "Mayor of Munday." Sgt. Groves' wife and parents feel certain that the jeep belongs to J. P., as his jeep bears that name.
Besides being owner of a jeep, J. P. also has a seeing eye dog. His family suppose it is because of the heavy fogs.
J. P.'s one desire is to be back in Texas, and, preferably, Knox county. He has been told of the many sand storms, but says they would be a pleasure compared to what he is enduring.
His wife is visiting relatives in Kerrville.

28 Registrants Re-Classified By County Board

Twenty-eight registrants were reclassified by the Knox County Local Board at its regular meeting on Tuesday, May 30. They are as follows:
Class 1-A: George H. Hudson, and Fred W. Crenshaw.
Class 1-A (L): Lloyd B. Huntsman and Barton R. Carl.
Class 1-C: Robert L. Green, James Travis Lee, Joe Richards, Burnice E. Akins, Arthur A. Smith, Wayne C. Apple, Henry A. Patterson Jr., Thomas D. Cypert, Alton E. Bowley and Hugh A. Beaty.
Class 2-A: Olin E. Karr.
Class 2-B: Devorn T. Mahan and Forrest B. Carter.
Class 2-C: Willie B. Neighbors.
Class 4-F: Claude E. Paul, John N. Nelson, Askelon J. Stogner, Desmond C. Nasos, Barnabe T. Garcia, Herschel V. Crain, Carmie A. Struck, Charles L. Belcher, Luther A. Scarber and Farris W. Thompson.

Demonstration On Re-caning Chairs to Be Held On Monday

Miss Lucile King, county home demonstration agent, will give a demonstration on re-caning chairs at the home of Mrs. Riley B. Harrell of Munday on Monday, June 5, at 2:30 p. m.
Hongkong grass will be used for the demonstration to rebottom the chairs. Two other chairs will be exhibited, one of which hickory bark was used, and rush on the other.
Those who are interested in seeing the demonstration are invited to attend.

This Little Wac Can Move Mountains

Corporal Margaret R. Wilson of Asheville, North Carolina, puts the finishing touches on a giant diorama at the Air Base in Orlando, Florida. Such dioramas, with their mountains, hangars, runways and villages reduced to scale, are used to train Aviation Cadets.

Lieut. A. D. Richmond Winner Of Bombing Meet Held At Pyote Field

U. S. Coast Guard Photo
Here are some of the boys who took Tarawa and the Marshalls. You equipped them with your War Bond purchases. Some of them may never come back, but we can do our best to bring them back... Buy War Bonds and Hold 'em!

Blasting the charmed circle with deadly accuracy, a Section III training crew last Saturday smashed the bombing record for Pyote Field and hung up a new mark that won each of the ten men in the crew watches for prizes.
The winning team had a converted circular error of 127.5, which is just twelve and a half feet better than the old mark of 140 feet. This team was composed of Lieut. D. N. Ellison as pilot, and Lieut. A. E. Richmond, who was over the bomb sight.
Lieut. Richmond, a Seymour youth, married the former Peggy Haynie, who is now with her husband at Pyote Field.
Quite a bit of inter-section rivalry was evident before the bombing runs were made, with personnel of each section making bold remarks as to the prowess of their entrants, and subsequently being forced to back their predictions "with something more than talk."

Revival To Begin On Saturday, June 3 At Church of God

A revival meeting will begin on Saturday night, June 3, at the Church of God in Munday, and will feature old time preaching and singing. Rev. H. H. Webb, pastor, has announced.
Rev. and Mrs. Harve J. Mathis of Post, Texas, are the evangelists who will conduct the revival.
A cordial invitation is extended to everyone to attend the meeting, regardless of denomination.

FARM AGENT CONFERS WITH LABOR OFFICIALS

J. A. Scofield, Extension Service district agent who supervises agricultural work in District three and Knox county, spent April 11-17 in Lincoln, Nebraska, conferring with farm labor officials from other states regarding their cooperation in handling grain harvesting equipment as the harvest moves north from Texas to Canada.

Graves Of 21 War Veterans Are Decorated

Graves of 21 war veterans who are buried in Knox county were decorated on Memorial Day, last Tuesday, by members of Lowry Post No. 44 of American Legion.
Members of the committee found splendid response from ladies of Munday, Rhineland and Goree who contributed flowers for the Memorial Day sprays to be placed on graves of veterans. All Legionnaires express their sincere appreciation to these ladies for their cooperation, as well as those who helped to prepare the flowers.
The committee was composed of J. L. Stodghill, Jim Brasher, Lee Haymes, Jim Reeves, Ardelle Spelce, Clay Grove, John Klug, C. J. Stengel, Tom Webber and Oscar Lewis.
Lowry post decorated graves of veterans in the following cemeteries: Johnson cemetery at Munday, Goree, Rhineland, Hefner and Gillespie.

Funeral For T. B. Masterson Held Thursday

Tom B. Masterson, 60, well known Truscott banker and rancher, passed away on Wednesday, May 24, at the Quannah Memorial Hospital of a heart ailment. His death marked the passing of a member of an early-day West Texas ranching family who grew up in the saddle and came to own the largest herd of Aberdeen Angus cattle in the United States.
Funeral services were held Thursday at his home in Truscott, near where his 6,000 black cattle roamed over a ranch of 101,000 acres in Knox and King counties. A part of his funeral service, at his request, was the playing of his favorite song, "Listen to the Mocking Bird," and a recital of his favorite poem, "The Cowboy's Prayer."
Father Started Herd
The Aberdeen Angus herd owned by Mr. Masterson was started in 1914 by his father, the late R. B. Masterson Sr., and was the first in that section. Its only rival at present on this continent as to size is a herd in Canada.
Mr. Masterson was born at Round Rock on Sept. 3, 1883, but as an infant was taken to the free range grass lands of the Texas Panhandle, where his father had established a ranch in Wheeler county after driving his cattle herd overland from Central Texas.
The elder Masterson sold his Wheeler county holdings and bought a ranch in King county in 1898, while the son was in high school in Fort Worth. The son worked in the First National Bank in Fort Worth for two years before moving to the King county ranch to resume riding the range as a cowboy.

Club Boys Are Planting Early Hegari Variety

Sixty-four 4-H Club boys in ten communities of Knox county are planting 8 pounds each of Early Hegari. This new variety of Hegari was originally developed by the New Mexico Experiment Station and later improved by the Chillicothe Experiment Station, where it has proven superior to common Hegari in field tests and as a livestock feed.
The improved features of this new variety of Hegari is that it is much more drought resisting, two weeks earlier and a heavier grain yielder than the common Hegari.
Knox county farmers are in need of this improved variety of Hegari for the reason of additional roughage for livestock. Livestock numbers have increased during the past several years and with the labor problem farmers are planting large acreages of combine grain sorghums. This change in farming operations has greatly reduced the roughage supply of feed for livestock. This improved variety of Hegari will, it is thought, meet the increased demand for livestock roughage and it can either be harvested as a bundle feed or harvested as a grain with a combine.

Added Knox Acreage

He later added 18,000 acres in Knox county to the original ranch holdings and operated in partnership with his brother, R. B. Masterson of Amarillo, until 1928. The two brothers also had ranch properties in Potter and Carson counties which passed to R. B. Masterson when the partnership was dissolved.
Mr. Masterson was owner and president of the First Bank of Truscott, near his JY ranch, and was a director of the Texas and Southwestern Cattle Raisers Association.
In July, 1910, Mr. Masterson married Miss Myrtle Guynn, daughter of a pioneer ranchman and farmer of Knox county. They moved a year later to a ranch on the Canadian river, north of Amarillo, which was acquired by the senior Masterson in 1911, and remained there 13 months before returning to the ranch in King and Knox counties.
The widow survives, as do three children, Mrs. Dudley Ellis of Truscott; Tom Masterson Jr., now manager of the JY ranch, and Robert B. Masterson III, who is serving in the armed forces. Also surviving is his stepmother, Mrs. Anna E. Masterson of Amarillo.

Food Preservation And Spoilage Clinic Held At Benjamin May 29th

A Food Preservation training meeting was held May 29, 1944 in the assembly room of the Benjamin courthouse with Lucile King, county home demonstration agent, as leader.
The meeting opened by G. S. Dowell, vocational agricultural teacher of Munday, and chairman of War Food Committee. He talked to the group about setting up the canning centers throughout the county. He then introduced Mr. King, area supervisor of Lubbock who talked to the group about a new device for testing pressure cookers. He also demonstrated this device.
The meeting was turned over to Lucile King and she began the demonstrations on "Food Preservation." Two methods were demonstrated, the water bath method for fruits and the pressure cooker method for vegetables. The foods canned by water bath method were tomatoes, berries and pineapple kraut. The foods canned by the pressure cooker method were carrots, green beans, English peas, chicken, peans, and greens.
After the food preservation demonstration a Spoilage Clinic was given by the agent. From this clinic the women learned the advantage of the proper selection of the food, the correct type of jar and lid. This being very essential to prevent food spoilage. Miss King says after 24 hours remove the rings from the jars and test the seal.
Those attending the meeting were as follows:
G. S. Dowell, chairman of War Food Committee; R. O. Dunkle, county agent; Bill King, area supervisor; M. D. McGaughey, county superintendent; Doyle Thomas, AAA; Mrs. E. F. Branton, principal Union Grove; Miss Lela Jones, principal Truscott; Mrs. Keys, visitor; Mrs. Marion Ryder and Cora Ann Ryder, Gilliland; Mrs. Clara C. Berg, Truscott; Mrs. Clarence Allen, Vera; Mrs. Doyle Pyatt, Benjamin; Mrs. F. L. Montandon, Knox City; Mrs. Clyde Kennamer, Gilliland; Mrs. O. R. Miller, Gilliland; Mrs. J. Hoag, Knox City; Mrs. Logan, O'Brien; Miss Lennie West, Munday.
The purpose of this training meeting was to train supervisors for canning centers that are to be set up throughout Knox county. The supervisors are as follows:
Benjamin—Mrs. Doyle Pyatt; Gilliland—Mrs. Clyde Kennamer and Mrs. O. R. Miller; Truscott—Mrs. Clara Berg; Knox City—Mrs. Hoag; Munday—Miss Lennie West; Union Grove—Mrs. F. L. Montandon; Sunset—Mrs. R. M. Almanrode; Vera—Mrs. Clarence Allen.
These canning centers will be opened in the near future.

Harvey Morris To Manage Repair Shop In Lamesa, Texas

H. J. Morris, who operated the Morris Tractor and Auto Service here for the past year, left Wednesday for Lamesa where he will assume management of the International Harvester Company's shop.
Louis Jungman, who has been with Morris for several months, is also going to Lamesa and will be associated with Mr. Morris there.
Joel Massey, local mechanic, has purchased most of the equipment at Morris' place, and has moved this equipment to the Massey Motor Service.

AMERICAN HEROES BY LEFF

George Sylvester Cronk, Second Assistant Engineer, Merchant Marine, was the sole surviving officer of a shattered ship. In the only lifeboat that could be launched he succeeded in rescuing 19 survivors in the stormy seas. Cronk brought his boat safely to land after 31 days. Are you buying more War Bonds than ever before? U. S. Treasury Department

Keep Up With Rationing

RATION REMINDER
MEATS, FATS—Red stamps A8 through T8, good indefinitely. US, V8 and W8 become valid June 4 and remain good indefinitely.
PROCESSED FOODS—Blue stamps A8 through V8, good indefinitely.
MOST PLENTIFUL FOODS—Onions, and eggs over most of the country.
GASOLINE—In 17 East Coast states, A-9 coupon, good through May 8. A-10 coupon becomes good May 9 and remains good through August 8. In states outside the East Coast area, A-11 coupon, good through June 21.
SUGAR—Sugar stamp 30 and 31, each good for five pounds indefinitely. Sugar stamp 40, good for five pounds of canning sugar through February, next year.
FUEL OIL—Periods 4 and 5 coupons, good through August 31.
SHOES—Airplane stamps 1 and 2 good indefinitely.

Society

Birthday Party Given To Honor Ralph Hargrove

Ralph Hargrove celebrated his eighth birthday with a party on Thursday afternoon, May 25. Many games were enjoyed by his little friends, after which they gathered around the table while Ralph blew out the candles on his birthday cake.

The cake was baked by his great grandmother, Mrs. Emma Hill. The gifts were opened, and refreshments were served to the following:

Leon and Janie Johnson, Claude Larry and Emogene Hill, Jackie Bilderback, Wayne and Marilyn Searcey, Gerald Reynolds, William Allred, Donald Hill, Lois Gray, Farmer Kempsey, Gloria Sue and Glenda Guffey, and Gene Ann and Sue Carolyn Guinn.

Those sending gifts were Linda Lee Suggs, Jerry Guinn and David Koenig.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Orville Strickland of Alvarado announce the birth of a son, Ronnie Orville, who was born on May 24 at the Knox hospital in Cleburne. Mother and son are reported doing fine.

Mrs. D. E. Holder, Jr., and her sister, Miss Phillips, of Denton visited in the home of Mr. and Mrs. D. E. Holder Sr. over the week end.

Mrs. Lizzie Quicksall of Dale, Texas, visited her mother, Mrs. A. J. Smith, several days last week.

Eighty-Four Party Is Held Thursday In Jungman Home

Mr. and Mrs. H. F. Jungman entertained on Thursday evening for members and guests of the Eighty-Four Club. This entertainment was in the form of a lovely dinner.

The attractive dinner table was laid in sparkling silver and chrysal and was centered with cut roses. Immediately following the dinner, guests retired to the living room, where games of eighty-four were enjoyed by the following:

Mr. and Mrs. T. G. Bengé, Mr. and Mrs. D. E. Holder, Mr. and Mrs. J. D. Crockett, Mr. and Mrs. S. E. McStay, and the host and hostess, members, and Mr. and Mrs. W. T. Hertel of Rhineland, guests.

Gilliland Club Meets Recently With Mrs. Cure

The Gilliland Home Demonstration Club met in the home of Mrs. Omar Cure on Tuesday, May 23.

Miss King gave an instructive discussion on the control of garden insects, and also gave a demonstration on making lawn chairs.

During the business session, plans were made for the preparation of the canning center which will be held at the school building. Mrs. O. R. Miller will supervise the canning project.

One new member was enrolled at this meeting.

The next meeting will be held in the home of Mrs. Pete Mayberry on June 7, at which time a food preservation demonstration will be held.

Thursday Luncheon Club Entertained By Mrs. Jungman

Mrs. Herman Jungman was hostess to members and guests of the Thursday luncheon club on Wednesday evening in her home. She gave a lovely dinner, the guests arriving at 7:30 p. m.

The table of white linen, sparkling silver and chrysal was made attractive with a centerpiece of cut roses.

Immediately following the dinner, guests retired to the living room where games of forty-two were enjoyed. Present were the following:

Mmes. S. E. McStay, T. G. Bengé, A. A. Smith, Effie Alexander, W. E. Braly, H. A. Pendleton, C. R. Elliott, C. P. Baker, and John Ed Jones, members; Mmes. A. H. Mitchell, A. G. Rummell and Miss Maud Isbell, guests.

ENTERS MARINES

James L. Sowell, son of Mr. and Mrs. M. L. Sowell, who reside east of Goree, was recently accepted in the U. S. Marines. He will be stationed at San Diego, Calif., for about three months.

John Doyle of Hico, a brother of Mrs. A. J. Smith, came in last week for several days visit in the Smith home.

Miss Patsy Ruth Kirk, a student in McMurry College, visited her parents, Rev. and Mrs. Luther Kirk, over the week end.

Mr. and Mrs. H. L. Chamberlain and daughter of Stephenville visited in the home of Mrs. A. J. Smith last week end.

E. S. Allen of Gilliland was here Tuesday, visiting with friends and attending to business matters.

Young Opera Star Leans to Pinafores and War Bonds

The young American concert-opera star, Marjory Hess, has her victory garden rambling over this colorful pinafore apron. It is a life saver for your party dresses, and fun to make, even for a beginner. Miss Hess suggests making several aprons because then, with a minimum of time and effort, you will save enough money to buy extra War Bonds and stamps. Suitable patterns may be obtained at your local pattern store.

U. S. Treasury Department

George Salem spent the first of this week in San Antonio, where he was purchasing merchandise for his store here.

Miss Doris Wadlington of Stephenville is visiting her grandmother, Mrs. A. J. Smith, and other relatives here.

At The Churches

BENJAMIN METHODIST CHURCH

J. P. Patterson, Pastor

CALENDAR

Preaching Second and Fourth Sundays at 11:00 a. m. Church school 10:00 a. m. each Sunday.

PRESBYTERIAN CHURCH

Dr. William N. Sholl of Haskell preaches here each Sunday morning at 9:30 a. m.

Our church is located on the Main street of Munday and has an attractive auditorium with added Sunday school facilities. The Auxiliary meets on Mondays and is accomplishing a good work.

FIRST BAPTIST CHURCH

Rev. J. Henry Littleton, district missionary, will preach next Sunday, both morning and evening. Bro. Littleton is doing a great work in this district. He has been here several times, and you will enjoy hearing him. Make your plans now to be in the services.

This announcement is being written Sunday night, May 28th. The pastor and family are leaving in the morning. We will spend two days in Fort Worth attending the State Evangelistic Conference, then to Harrison, Arkansas, to be at the Home Coming and the dedication of the First Baptist Church next Sunday. We plan to be back in Munday by the 13th or 14th of June. With every good wish, and blessings upon all.

W. H. Albertson.

The greatest inspiration for subject matter in the arts is conceded to be religion.

CHURCH OF GOD REVIVAL

Welcome to the Church of God revival, starting Saturday night, June 3. Old time preaching and singing. Rev. and Mrs. Harve J. Mathis of Post, Texas, will be the evangelists.

Come and be with us. Everybody welcome. All denominations are invited.

H. H. Webb, pastor

FOURSQUARE CHURCH

Regular services Saturday night at 8:30, Sunday school at 10:45 and services Sunday night at 8:30.

Mid-week prayer meeting will be at 8:30 Tuesday night, with special prayer for the service men.

The daily vacation Bible school started Wednesday, May 31, and will close June 16th. Classes begin at 10 a. m. and end at noon. Experienced teachers for the children, and there will be something new and thrilling every day. Send your children; they will be taught only the Bible, with no doctrinal points taught. There'll be a grand time for all. Parents are invited to attend.

Stromboli, the continuously active volcano on an island off the coast of Sicily, is known as the "Lighthouse of the Mediterranean."

News From The A.A.A. Office

Emphasizing the urgent wartime need for maximum production of vegetable oils, C. D. Walker, director of the Southern Region, Agricultural Agency, recently announced the results of a survey which showed greater production of oil per acre from peanuts than from cotton on Texas farms producing both crops in 1942.

"The results of the survey back up the judgment of the State groups who set a 1944 goal of 1,315,000 acres in peanuts grown alone in Texas. This goal is 10 per cent more than the 1943 acreage for this crop," Mr. Walker said.

He explained that total requirements for fats and oils from the United States have increased tremendously to meet the needs of American armed forces, civilians, and lend-lease. These needs are sure to grow still greater when our armies invade the Continent of Europe and liberated undernourished people from Axis tyranny.

The study of Texas farms was made by the War Food Administration to determine which of the two crops will produce more oil per acre under Texas conditions. The survey covered 4,196 Texas farms in representative areas of the state growing both crops in 1942.

Peanuts led in the production of oil per acre on 92 percent of the survey farms, and on the average, produced nearly six times as much oil per acre as did cottonseed. The average oil yield of cotton seed ranged from a high of 70 pounds per acre for Wilbarger county to a low of 14 pounds for each of the three counties studied in the Rio Grande plain. Oil yields of peanuts ranged from a high average of 258 pounds per acre in Lamb county to a low of 47 pounds in Starr county.

In the High Plains, where the average oil yield per acre from cottonseed was the highest in the survey, peanuts produced 1.8 times as much oil per acre. However, in Lamb county, within this area, 98 percent of the survey farms produced more oil per acre from peanuts, and peanuts yielded six times as much oil per acre as did cottonseed.

Peanuts showed up best on a percentage basis in the Rio Grande plain in the production of oil per acre, outstripping cottonseed 10 to 1. In Atascosa county, the peanut oil yield per acre was 11 times

The Men and Women of the U. S. Army Air Forces Work Together

A new sort of "combined operations" is shown above, as men and women of the U. S. Army Air Forces, on duty in the control tower of one of our large Army airfields, direct incoming and outgoing air traffic.

that for cottonseed, peanuts out-producing cottonseed in oil yields per acre on every survey farm.

On the Edwards Plateau, where cottonseed oil yields were relatively low, peanuts produced over 7 times as much oil per acre as did cottonseed, and peanut oil yields were 7 percent above the state average for the survey farms. In Gillespie county, the peanut oil yields per acre averaged 7.4 times the cottonseed yields. Ninety-eight percent of the survey farms in this area produced more oil per acre from peanuts.

In the Rolling Plains, 92 percent of the survey farms produced more oil per acre from peanuts. On the average for this area, peanuts produced 3.8 times as much oil per acre as did cottonseed. In Wilbarger county, cottonseed oil yields per acre the highest for that crop in any of the counties studied. However, peanuts produced 2.2 times as much oil per acre even here.

In the Cross Timbers area, oil yield per acre from peanuts was 7 times that from cottonseed. Oil yields per acre from cottonseed were relatively low in this area, while the oil yields per acre from peanuts were 8.5 percent above the state average of the survey farms. In Comanche county, peanuts produced more oil per acre on every survey farm.

In Bosque county, the only Grand Prairie county included in the survey, peanuts produced 4.2 times as much oil per acre as did cottonseed. Ninety-two percent of the survey farms produced more oil per acre from peanuts than from cottonseed.

In the Coastal Plain, cottonseed made its best showing with 11 percent of the survey farms producing more oil per acre from this crop. But even then, peanuts produced 4.4 times as much oil per acre on the average as did cottonseed.

In Grayson county the oil yield per acre from peanuts was 5.7 times that from cottonseed and all of the survey farms in this county produced more oil per acre from peanuts.

In only 8 of the 29 counties studied did the peanut oil yield fall below 100 pounds per acre; the average for all the counties included in the survey was 141 pounds. The average oil yield from cottonseed was 24 pounds per acre.

The counties included in the survey were Bailey, Dawson, Lamb and Lubbock in the High Plains; Atascosa, Duval and Starr in the Rio Grande Plain; Gillespie and San Saba in the Edwards Plateau; Callahan, Cottle, Garza, Mitchell, Stonewall, Wichita, and Wilbarger

in the Rolling Plains; Comanche, Jack and Wise in the Cross Timbers area; Bosque in the Grand Prairie; and Anderson, Brazos, Franklin, Gonzales, Grayson, Harrison, Lamar, Montgomery and Nacogdoches in the Coastal Plain.

LOCALS

Mrs. Lewis Williams of Benjamin was a business visitor here last Tuesday.

Mr. and Mrs. Jack Anderson of California are here for a visit with Mrs. Anderson's parents, Mr. and Mrs. Jess Burnison. Mr. Anderson expects to enter the navy in the near future.

Mr. and Mrs. Lynn Waldrip and children of Abilene visited in the home of Mr. and Mrs. Walter Harris over the week end.

G. L. Hunter, well known Knox county resident, left Tuesday for Lubbock, where he is undergoing treatment at a hospital.

Miss Maryon Huskinson left last week for a few days visit with her parents at Bomarton. She went on to Wichita Falls, where she has accepted a position in a bank, beginning her duties on June 1. She has been employed at the First National Bank here for about two years.

Earl Owens of Fort Worth visited his son, Dick Owens, and other relatives here over the week end.

American Boys And Girls Work Side By Side

Working side by side with the men of the U. S. Army Air Forces, members of the Women's Army Corps are now filling scores of non-combatant assignments of great trust and importance. It is not yet generally realized in how great a variety of ways women are working to keep our great air forces functioning with telling and ever increasing effect against our enemies.

For example, an Aviation Cadet, just embarking on his flying career, may be helped along that road in the following ways, to mention only a few: The laboratory tests of his physical examination may be done by a Wac; his various records may be kept by a Wac; his code instructor may be a Wac; his Link trainer instructor, and the repairman who keeps that trainer in A-1 condition, may be Wacs. When he actually flies, his motor, instruments, and radio may have been inspected and checked—and repaired, if necessary—by Wacs. He may take off and land under the guidance of a Wac in the control tower. And if by some chance he has to bail out, he will be grateful that his parachute was carefully checked and correctly and skillfully packed by a Wac who understood that a man's life might

depend on her job.

The prospective Wac is now permitted to choose her own job, and the branch of service she'd like to be attached to: Air Forces, Ground Forces, or Service Forces.

Furthermore, she may, if she wishes, specify the Army post, camp, or airfield, within the service command in which she enlists, at which she'd like to be stationed, first. This arrangement, though subject to the needs of the Army, permits in most cases an assignment reasonably near home.

Your Waste Fat Used in 37 Ways

There are 37 announced uses for waste fats collected by Texas housewives.

These are mighty important to the war effort. There are some more uses to which waste fats are put which are secret.

There is no substitute for fats, hence the importance of the slow, painstaking and troublesome job of saving every drop of grease.

It is a job that everyone can do and it isn't the kind of job that is glamorized in Hollywood or heralded on Broadway. It is common work with a substance that is messy and hard to handle. It has to be done a little at a time. It would be easier to forget it all and let it go but out on the other end of the waste fat line are the boys and men who mean so much to America. They need it. It would be nothing short of murderous neglect and foolishness if we, the everyday people back home, didn't do our share of a commonplace and nasty job.

Take a look at the uses which are admitted of waste fats. They fall under four general heads.

For Explosives—37mm anti-aircraft guns, 37mm anti-tank guns, 75mm pack howitzers, 60mm and 81mm trench mortars, 37mm airplane cannon, 4.2-inch chemical mortars, dynamite for demolition, and glycerine for our allies.

For Military Medicines—Salva ointments, acriflavine, proflavine, smallpox vaccines, insulin, opiates to ease pain, surgical jellies, nico-

tine acid.

For Other Military Uses—Synthetic rubber, airplane lubricants, depth-charge releases, incendiaries, de-icing fluids for airplanes, nylon for parachutes, powder bags, etc., high-resistant paints, fabrics of all kinds, marine rope, military and naval soaps, hydraulic fluids.

For Industrial Purposes—Metal working, mining, industrial soaps, textiles, food products, railroad lubricants, civilian soaps, tanning and processing leather, insecticides and fungicides, rubber processing.

Hundreds of items known to those who use them could be added to the above list. The wide variety of uses of waste fats, their importance to the war effort, and, in fact, to the community welfare, come as a shocking revelation to man.

Mrs. Ralph Loran of Weatherford is visiting relatives and friends here this week.

J. C. Harpham was a visitor in Brownwood over the week end. He was accompanied home this week by Mrs. Harpham, who had been visiting relatives in Brownwood for several days.

Mrs. A. V. Kenletz, who has been teaching at Fort Stockton, came in last week to spend some time with her mother, Mrs. Louise B. Ingram. Her husband, Pvt. Kenletz, who is stationed at Sheppard Field, spent the week end here.

Mrs. M. F. Billingsley left one day last week for Dallas, where she is visiting her mother, Mrs. Bounds, and other relatives for several days.

LEAVE ON VACATION
Rev. and Mrs. W. H. Albertson and family left the first of this week for points in Arkansas, where they are spending a two-weeks vacation. They were accompanied by their daughter, Mrs. Marvin Peek of Paint Rock.

Doyle Jones of Camp Maxey visited his parents, Mr. and Mrs. C. C. Jones, three days last week.

Mrs. Fulton C. Baker has received word from her husband, Cpl. Baker, that he is stationed in South Carolina. He was home recently on a 17-day furlough.

Quarter Horse Show To Feature Cowboy Reunion

Stamford—More than 400 quarter horse owners in Texas, New Mexico, Arizona, Colorado, and Oklahoma have received entry blanks and prize lists for the official American Quarter Horse show to be held here July 3 and 4 in connection with the Texas Cowboy Reunion, according to R. W. Arledge, chairman for the Stamford show.

Approximately \$600 will be given in prizes, with five winning places being named in each class. Other than the grand champion stallion and grand champion mare, there are six other classes, with cash awards given first to fifth places in most classes. Entry fee is \$5 per horse and \$4 per horse for stall fee.

R. L. Underwood, Wichita Falls, is president of the American Quarter Horse Association, and Dan Casement of Manhattan, Kansas, is vice-president. Helen Michaelis, Eagle Pass, is secretary. The association had a total of 248 members in 1942. This membership has grown during the past two years until Texas alone now has 230 registered members. The complete list now represents 16 states other than Texas, and includes four owners in foreign countries.

Official judging will be on the morning of July 3, with all entries to be kept on exhibit the two days of the show. Entries are not limited to Association members, but are open to any quarter horse owner.

Activities of Colored People

Services were held last Sunday at West Beulah Baptist church, conducted by the pastor, Rev. D. H. Meadows.

On last Thursday night the Charity Club met in the home of Mrs. Annie Mae Thomas.

Leroy Atkins and wife have returned from Fort Worth, where they visited for several days.

Mrs. Effie Lewis is on the sick list at the present time.

Our teacher, Mrs. M. E. Wellington, is visiting her husband, Mr. Wellington, who is in the naval

Film Of Million Dangers To Show At Roxy Theatre

"Tunisian Victory," opening Saturday at the Roxy theatre, can well be called "the film of a million dangers."

For this joint British-American record of the North Africa campaign brought a million dangers, and more, to the 300 film technicians of the British and American Armies, Navies, Air Forces, and Coast Guard who filmed the authentic action shown while the individual battles were raging.

Lt. Col. Hugh Stewart was the British co-producer of the picture, with Col. Frank Capra, American.

In his own words, Lt. Col. Stewart, who commanded the Northwest Africa Film unit of the British army, describes one incident of thousands.

"Sergeant J. Huggett of my boys came to me one morning and with shame written all over his face, apologized for having lost a camera. As cameras were scarce, I dug for the story. Seems the Germans scored a direct hit on a Bren gun carrier in which Huggett was riding. Both men on each side of him were killed instantly. The shrapnel smashed Huggett's camera, but he was able to salvage the 30mm lens. Needless to say... his 'apology' was accepted!"

Former Extension Service Editor In Race For Governor

Entry of Mrs. Minnie Fisher Cunningham, well known Texas farm woman, into the Texas governor's race has injected a strong new interest into the state primary in July.

Mrs. Cunningham, who filed May 19 for a place on the primary ballot, declared: "In seeking the governor's office, I have but one purpose, and that is to mobilize the strength and resources of the great state of Texas behind the men and women who are doing the fighting in this war."

Mrs. Cunningham farms 1200 acres in Walker county. Her family is distinguished in Texas history, and she became an outstanding leader in women's fight to win the ballot in 1918. For several years she was editor of the Extension Service.

service and stationed at Miami, Fla.

841 Persons Are Drawing Benefits Of Social Security

The Wichita Falls Field Office of the Social Security Board includes Archer, Baylor, Clay, Foard, Hardeman, Knox, Montague, Throckmorton, Wichita, Wilbarger and Young counties. R. L. Surles, manager of the office, states that there are now 841 persons who are drawing monthly benefits under the Old-Age and Survivors Insurance Program in the eleven counties serviced by the Wichita Falls office.

There are 274 retired workers who are now drawing benefits totaling \$5596.66 per month; 68 wives of retired wage earners are drawing a total of \$746.95 per month; 144 widows with minor children in their care are now drawing \$2718.39 per month; 327 children of wage earners are drawing \$3834.76 per month; 2 parents over 65 years of age and who were dependent on deceased wage earners are now drawing \$21.67 per month. Total monthly payments now being made in the service area of the Wichita Falls office amount to \$13,398.46 per month.

You are invited to call in person or write the local office of the Social Security Board, Room 412 of

the Post Office Building, Wichita Falls, Texas, if you have any question or desire any information or assistance relative to claims under the provisions of the Old-Age and Survivors Insurance program.

Higher Prices Paid For Cattle Last Tuesday

The Munday Livestock Commission Co. reports another good run of cattle and hogs for last Tuesday's sale. All classes of cattle sold from 25 cents to 75 cents higher than a week ago.

Canner and cutter cows sold from \$5.25 to \$7.25; butcher cows, \$7.50 to \$9; fat cows, \$9.50 to \$11; butcher bulls, \$7 to \$8.75; beef bulls, \$9 to \$10.25; butcher yearlings, \$8.50 to \$11; fat yearlings, \$12 to \$15; rannie calves, \$7 to \$8.25; butcher calves, \$8.50 to \$11; and fat calves, \$12 to \$15.

Aaron Edgar spent Sunday afternoon in Quanah, visiting with Mrs. Edgar, who is at the bedside of his father in the Quanah hospital.

A Want Ad in the Times Pays

Denison Dam To Be Dedicated On July 1st

Denison — Coincidentally with the announcement of July 1 as the dedication date of the \$54,000,000 Denison Dam, water in the lake which it impounds rose four feet this week as a result of recent heavy rains, bringing the water level to approximately 584 feet.

Tentative program plans for the dedication, under supervision of the United States Army Corps Engineers, Denison District, include Honorable Sam Rayburn and Senator Elmer Thomas as principal speakers and the presence of high government and military personnel. The business interests of Denison have formed a committee to assist in the entertainment of the guests.

Denison Dam, largest earthen rolled-filled structure of its kind in the nation, forms the fifth largest man-made lake, with a surface area of 140 square miles and a 1,250 mile shoreline.

Extensive plans for postwar recreational facilities include an impressive resort at Preston Bend on the Texas side and several smaller park developments. Boating, fishing, swimming and hunting promise to make it the playground of the Southwest.

BIRTH OF THE BAZOOKA

Bridgeport, Conn.—How General Electric produced the first bazooka, "one of the most important ordinance developments of the war," is an amazing story which reveals two of the so-called secrets of America's industrial might—brilliant engineers and hard-laboring men.

According to information now released, the Army gave the company an order to design, develop and produce a large quantity of what was officially known as "Launcher, Rocket, AT, M-1" within 30 days. Normally the whole job would have required 6 months.

The task of designing the bazooka as the public recognizes it today fell on the shoulders of G-E engineer Jim Powers, who in peacetime worked on the disposal, a device which disposes of kitchen waste. It took Powers twenty-four hours to do the job. In four days the first sample gun was turned out and, at the end of three weeks the development of the gun was completed. Seven days were left to turn out thousands.

The assembly line G-E set up was one of the oddest in industrial history. Basically the bazookas

were produced in two plants a half-mile apart. But within each department the work was scattered over widely separated sections. As the bazookas came off the production line they were hustled into waiting Army trucks and, literally, were on their way overseas before the stain on the gunstocks was dry. The last bazooka of this big order came off the line—with 89 minutes to go. The story is told in the June 3 issue of Liberty magazine.

Today General Electric is still manufacturing the bazooka—a more completely developed and advanced model.

Mrs. Sam Beaver left last Friday for Sentinel, Okla., where she is attending the bedside of her sister, who is seriously ill.

Two courses in retail merchandising—one for experienced sales persons, the other for owners and executives—are available without charge to retailers of any city or community in Texas through the University of Texas Bureau of Industrial Teacher-Training. Itinerant teachers from the University of Texas bureau will set up courses or clinics to help retailers solve their problems, including those centering around wartime tax matters.
