KEEP ON... Backing the Attack! WITH WAR BONDS

VOLUME 40

MUNDAY, KNOX COUNTY, TEXAS, THURSDAY, SEPTEMBER 28, 1944

NUMBER 14

Munday Moguls Lost First Game To Panthers

Chillicothe Will Be Next Foes Facing Local Team

Seymour ran wild over the inexperienced Munday Moguls on Panther Field last Friday night to win the opening game of the season by a score of 37-0.

Seymour counted twice in the first period when Sims, quarterback, ran 35 yards and Owen plunged through tackle for the point.

Rogers, Panther halfback, in the third period, skirted his own right end for another counter. A pass, Sims to Owen, was good for the extra point.

Sims scored all three markers in the last stanza for Seymour. Two running plays and an interception provided the scoring plays.

The lineup:
Munday (37) Pos. Seymour (37)
Spann L. E. Golden
Lane L. T. Smith
Cadwell L. G. Stout
Green C. E. Tuck
J. Spann R. G. Porter
Gray R. T. Parks
Tidwell R. E. Meads
Roden Q. B. Sims
Haynie L. H. Rogers
Stodghill R. H. Owen
Swain F. B. Starkey

Bronze Star Medal Awarded To Cpl. Zeissel

Mr. and Mrs. G. J. Zeissel of Munday received a letter last week from their son, Cpl. Burnett Zeissel, stating that he had been awarded the Bronze Star medal for his operations against the Japs in the Pacific area.

Zeissel operated his radio successfully under heavy machine gun fire from the enemy. During the attack, his radio was hit twice by Jap bullets.

Knox Lodge To Confer Degrees

The regular meeting of Knox Lodge No. 851, A. F. and A. M., will be held at the Masonic hall next Monday evening.

Work will be done in various degrees, and a large attendance is expected. Officers extend a cordial invitation to all members and visiting Masons. Refreshments will be served.

Study Made Of Wage Ceiling On Cotton Picking

The committee of five farmers from Knox county attended the hearing at Paducah on Thursday, September 21st, for the purpose of determining the establishment of wage ceilings on cotton picking.

Twenty-two counties were represented at the Paducah hearing and two hundred and twenty-five farmers represented their respective counties.

The state committee composed of seven members held the hearing and each county selected a spokesman who testified as to the desire of the farmers in their respective counties toward placing a ceiling price on cotton picking.

If ceiling prices on cotton pulling go into effect, it will affect an area of approximately seventy counties, beginning with the Abilene area extending north to Wichita and west to Lubbock.

The forty-one petitions which were circulated last week through Knox county did not contain enough signatures, and further effort is being made this week to obtain at least 51 per cent of the cotton producers before Knox county can be included in the area as having established ceiling price on cotton pulling.

The results of the hearing will not be known until hearings have been held throughout the whole area.

The results of obtaining sufficient number of signatures of cotton producers favoring ceiling price on cotton pulling must be known by Tuesday night, Sept. 26th, at which time each county will notify the state board as to their desire both for and against ceiling price on cotton picking.

The committee who represented Knox county at the hearing at Paducah on September 21, were as follows:

- E. H. Nelson, Munday; J. O. Cure, Gilliland; Olie Iseng, Gilliland; Louis Parker, Benjamin; J. C. McGee, Knox City.

Club Boys Will Present Program At Rotary Meet

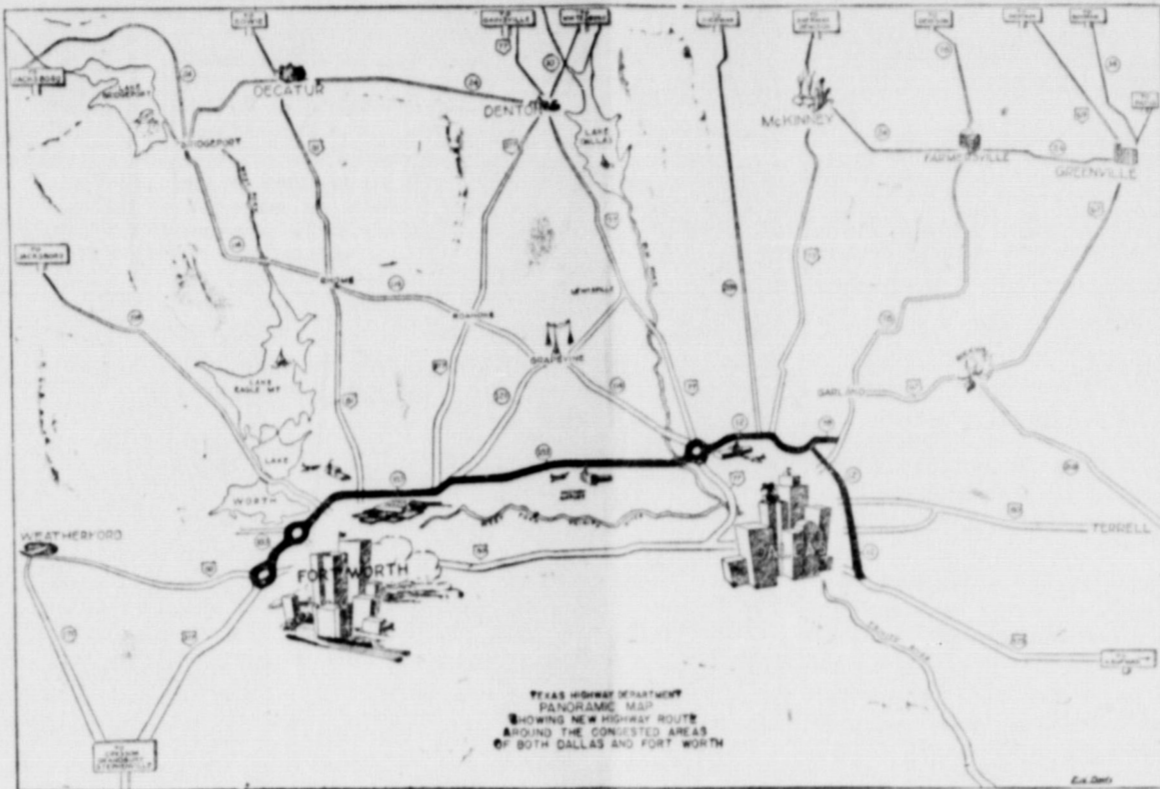

4-H Club members Joe Ed Sweatt and Charles Hardin of the Sunset community, will present a program before the Rotary Club tonight, Thursday, September 28th.

These two club members have developed a demonstration in which they tell and illustrate the important facts of grain sorghum production by the proper selection of planting dates according to average rainfall for Knox county.

TO NAME SUPERVISOR

Notice is hereby given of an election at Mattson on October 3, 1944, at 8:00 o'clock p. m. Election of Supervisor of Wichita-Brazos Soil Conservation District, for a 5 year term. Land owners in Commissioners Precinct 2 of Haskell county are eligible to vote.

New Highway Route To By-Pass Fort Worth and Dallas

Opening of new route by state highway department enables West Texans to by-pass around the heavy congested traffic area of Fort Worth and Dallas. Map shows how

motorists may reach State Highway 183 at Fort Worth and follow it to Traffic Circle northwest of Dallas. Here he may choose U. S.

77 to downtown Dallas, or follow "Loop 12" to its intersection with other highways beyond Dallas leading to north and east Texas points.

Knox County Hospital Notes

Patients in Knox County Hospital, Tuesday, Sept. 26, 1944:

- Mrs. W. H. Walling, Munday. Dorothy Webb, Rochester. Mrs. J. C. Chandler, Weinert. Mrs. Elwood Hackney, Knox City. C. O. Scott, Munday. Mrs. Coy Tuggle, Munday. Mrs. Alton Shaw, Seymour. J. R. White, Knox City. Mrs. John Albus, Munday. Baby Bohannon, Benjamin. T. C. Posey, Knox City. E. W. Hutchens, Goree. G. W. Carter, O'Brien. J. H. Johnson, Vera. Mrs. C. A. Cozby, Weinert. Mrs. O. L. Cude, Munday.

Patients Dismissed Since Tuesday, Sept. 19, 1944:

- Mrs. L. V. Foster, Benjamin. Mrs. H. M. Harris and baby daughter, Rochester. Mrs. Orland Robertson and baby son, Seymour. Mrs. J. W. Sherman, Goree. Mrs. Morris Jacobson, San Angelo. C. E. Hobert, Munday. Mrs. Raul English, Spur. Mrs. Raymond Lane, Goree. Mrs. Norman Webb and baby daughter, Rochester. J. H. Lanier, Jr., O'Brien. Mrs. J. J. Williams and baby daughter, Goree. Mrs. D. V. Gilbert, Benjamin. Donnie Hodgins, Haskell. Mrs. O. C. Poe, O'Brien. Mrs. H. A. Jungman, Lamesa. Mrs. J. C. Shipman and baby daughter, Vera. Donald McAda, O'Brien. Biterba Salinas and baby son, O'Brien. Juana Alvarado, and baby son, O'Brien. Mrs. W. T. Ward, Benjamin. Mrs. H. S. Hickox, Knox City.

- Births:
Mr. and Mrs. J. C. Shipman, a daughter, Vera.
Biterba Salinas, O'Brien, a son.
Juana Alvarado, O'Brien, a son.

J. E. Frosts Have Visit With Son, Now Back From Pacific

Mr. and Mrs. J. E. Frost and family drove to Sweetwater last Sunday, where they had a 25-minute visit with their son and brother, Cpl. Floyd Frost, who returned to the states about two weeks ago from the New Caledonia area.

Cpl. Frost, who is serving with the U. S. Marines, was enroute to North Carolina, where he will be stationed for about 30 days, then plans to enter officers' training. He was on board a troop train which stopped in Sweetwater for about 30 minutes, and Cpl. Frost had his first visit with his parents in 23 months.

ALLEN LOVING HOME FROM FOREIGN SERVICE

Allen Loving, who is serving in the navy, is here to spend a 30-day furlough with his parents, Mr. and Mrs. I. E. Loving, and with other relatives.

Allen spent some 15 months in foreign service, serving in Alaska and in the Aleutian Islands. He said it got "pretty chilly" in that area.

FARM MACHINERY IS RELEASED

According to information received by Doyle G. Thomas of the AAA Office in Benjamin, all farm machinery has been released from the rationing list, effective on Thursday of this week.

"The only restrictions," Mr. Thomas said, "is on corn pickers, and since there are none in Knox county this will not affect local farmers."

Brother Of Local Woman Killed In Action In France

Mr. and Mrs. Calvin Call received word at noon Wednesday that Mrs. Call's brother, Wayne Neece, had been killed in action, somewhere in France. He is the son of Mr. and Mrs. L. A. Neece, former residents of Munday, who now reside at Peaster, Texas.

Wayne volunteered for service early in 1943, at Peaster. The Neeces lived west of Munday until a few years ago, when they moved to Peaster.

New Shoe Stamp Coming

A new shoe stamp to become good November 1 was announced by the Office of Price Administration. The number of the shoe stamp will be announced later.

HAS OPERATION

Chalmer Hobert, who underwent an operation at the Knox county hospital last week, is rapidly improving and is now at the home of his parents, Mr. and Mrs. L. W. Hobert.

Keep Up With Rationing

RATION REMINDERS

- MEATS, FATS—Red stamps A5 through Z8 and A5 through G5, good indefinitely.
- PROCESSED FOODS—Blue stamps A5 through Z8 and A5 through L5, good indefinitely. Blue tokens, good only through September 30. Pool tokens with your neighbors.
- SHOES—Airplane stamps 1 and 2 good indefinitely.
- GASOLINE—In 17 East Coast States, A-11 coupons, good through November 8. In states outside the East Coast area, A-13 coupons in new "A" book, good through December 21.
- SUGAR—Sugar stamps 30, 31, 32, and 33 each good for five pounds indefinitely. Sugar stamp 40 good for five pounds of canned sugar through February, next year.
- FUEL OIL—Period 4 and 5 coupons and new period 1 coupons good throughout coming heating year.
- INCOME TAX—Quarterly payments due September 15.

Bronze Star Award Given To Ivy R. Cypert

Somewhere in the Southwest Pacific—Supplies are an essential part of any combat operation, and the men who handle them are important, too. Take Pfc. Ivy R. Cypert of Munday, Texas, who helped to handle supplies at Humboldt Bay, Dutch New Guinea, despite the intense heat and often with no drinking water available.

For doing more than his share of the work, Cypert was awarded the Bronze Star. "On several occasions the work continued until midnight," reads the citation accompanying the award. "Pfc. Cypert never missed a working hour and was always on hand where the work was hardest and always seemed able to do more than his share. In his quiet, unassuming way, Pfc. Cypert did much toward making the task before the men more pleasant."

Although assigned to the supply detail, Cypert is a member of an anti-tank company of the Fighting Forty-First Infantry Division, with which he has been overseas since April, 1942. The "Sunset" division is commanded by Major John A. Doe.

Cypert, who was a motor mechanic with the Ford Motor Co. in Munday before he came into the army on November 1, 1941, is authorized to wear, in addition to the Bronze Star, the Asiatic-Pacific ribbon with two campaign stars, and the Good Conduct medal.

Two brothers, Robert and Thomas, also are serving in the armed forces.

Rhineland Takes Part In Drive For Relief Garments

A clothes drive for war relief is in progress in the Rhineland community. At least one garment from each parishioner, is the goal set in this campaign.

Any garment for men, women and children, including infants, are solicited. They are to be deposited at the store of H. N. Claus.

"This is a community drive and is not confined to members of the parish. Anyone wishing to donate to this drive is urged to gather up wearing apparel, and, if possible, to deposit same at collection center.

Mrs. Giddings Goes To Elkhart, Kans. To Father's Funeral

Mrs. C. H. Giddings left last Sunday afternoon for Elkhart, Kansas, upon receipt of a message that her father, J. D. Rippey, passed away on Saturday night.

Mr. Rippey, whose home was in Denver, Colo., passed away at a Pueblo hospital where he had been taken for treatment. He was 84 years of age and had been in poor health for several months.

Funeral services were held at Elkhart, Kans.

Munday Library Gets New Books

Two new books for adults have recently been added to the Munday Public Library.

"The Valley of Decision" by Marcia Davenport, is a highly entertaining book with its setting around the great iron and steel center of Pittsburgh. It is a story of Mary Rafferty, of her love and devotion and unswerving loyalty; a girl who became the very conscience of a family, the true representative of their integrity, both in the home and the roaring tumult of the steel mills.

The other book, "Crescent Carnival," is by Frances Parkinton Keys. This book is comparable to "Gone With The Wind" in entertainment, so say the readers. The story is laid in Louisiana, particularly in New Orleans, the supreme carnival city, sparkling, prideful, glorying in the past, jealous in its prestige, disdainful of its critics and romantic to the core. These highly entertaining books should both be on your reading list.

The library also has a good list of books for children from 6 to 12 years of age, including: "Friends To Make," "The Treasure Box," "Scouting On The Old Frontier," the second book of "Blue Ribbon Stories," "Lulu's Library," "My Garden of Stories," and "Father Takes Us To New York."

The library will be open on Saturday afternoons only, it was announced.

Paul Jones In Broadcast For "Radio Hour"

Major Paul A. Jones, son of Mr. and Mrs. Ed Jones of Goree, was heard in a radio broadcast on the "Army Hour" program on August 20, which brought news of further advances of the 7th army in Southern France.

Jones was among three men who participated in the invasion who were heard on the broadcast. He said: "Yeah, my job was pretty easy, too."

"You're Major Paul Jones of Goree, Texas,—right?" asked the announcer.

"Yes," Jones said, "and I'm a pilot—really a chauffeur for the gliders. I led a formation of glider towing transports over Southern France. And, frankly, it was very smooth flying. When we reached our landing zone I could see it was a small field of vineyards with creeks and fair-sized irrigation ditches. I felt kinda badly leaving the glider boys there on that little landing field. It didn't look so good to me."

Paul wrote his parents on Sept. 17 that he had received the Distinguished Flying Cross, and that he was really proud of it. He was feeling fine, and was still inquiring about that fishing trip.

Cotton Ginnings

The cotton ginning report from the Department of Commerce, bureau of the census, Washington, shows that 1,054 bales of cotton were ginned in Knox county from the crop of 1944, prior to September 16, as compared with 2,153 bales for the same period last year.

This report was received Thursday from Hoyle A. Sullins, special agent for the department.

A check of the local gins at 9:30 Thursday morning revealed that 1,473 bales have been ginned at Munday.

UNDERGOES TREATMENT FOR EYE INJURY

Buell Bowden went to a Wichita Falls hospital last week for treatment for an eye injury which he received Thursday when a shell from a small pistol he was firing exploded, and a fragment penetrated the eye. It was believed for a while he would lose sight of the eye. Latest reports are that he is improving, and physicians believe sight will be restored to the injured eye.

HOME FROM PACIFIC

Bud Harrison, first class petty officer in the navy, who has been in the Pacific theater of war for 15 months, visited his brother, Terry Harrison, recently. He is the son of Mr. and Mrs. J. E. L. Harrison of Holiday, former residents of Munday, and is home on 30-day leave.

Local Women To Send Clothing To War Sufferers

Liberated Areas In Dire Need of All Type Clothes

Members of the Women's Society of Christian Service are sponsoring a drive to send needed clothing to women and children of liberated Europe, and plans are being made to send bundles on their way this week.

Any new clothes, or old clothes that are in good serviceable condition will be accepted.

Among the heroic peoples soon to be liberated are Belgium, Czechoslovakia, France, Greece, Luxembourg, Netherlands, Norway, Poland, Yugoslavia and others, in addition to those already liberated.

Following liberation, the United Nations have the great task of relief. Part of this will be carried on by the authorities of the allied armies, part by the governments of the liberated lands, part by an international agency set up by the 44 United Nations—the United Nations Relief and Rehabilitation Administration.

With the approach of winter, the need for clothing for victims of war becomes one of the most pressing problems of the U. N. R. R. A. Throughout war-torn areas clothing is very scarce or threadbare and worn out. Because of the demands of the armed forces and civilian needs, manufacture of clothing in the United States and other countries to relieve these distressed people will not get under way for some time. This means the needy men, women and children in liberated countries must greatly depend on the help of the American people. While some collections of clothing have already been made by private organizations for particular countries, the UNRRA must have a supply of clothing which can be sent to any liberated country where the need is great.

Those of the Munday area who wish to give new clothing, or good old clothing are requested to bring this week. If you have no way to bring them, call Mrs. M. F. Billingsley or see Mrs. Joe B. Roberts.

Ernest F. Patton Commended For His Air Service Work

An Air Service Command Depot (Somewhere In England)—Sgt. Ernest F. Patton, son of Mr. and Mrs. Walter Patton, has won high commendation for helping to shatter world's records overhauling aircraft engines at this Air Service Command depot.

He and his fellow mechanics overhauled engines last month totaling two and a half million horsepower, the highest figure recorded since Air Service Command began operations in England.

"A knockout blow against Germany" was the way his commanding general, Brigadier General Isaac W. Ott, described the contribution of Sgt. Patton, whose extra effort makes it possible to maintain a constant air cover over allied armies rolling through Germany.

Before entering the air forces in November, 1942, he was employed as a farmer-stockman. Sgt. Patton attended National School of Aeronautics in Kansas City, Mo.

Work To Be Done On Surgical Dressings

More surgical dressings have arrived, and work will start at the Red Cross work rooms, over the First National Bank, next Tuesday afternoon at two o'clock.

All who can assist in this work are urged to report for work next Tuesday.

TRAINS ON LIBERATOR

Lt. Hal Pendleton, son of Mr. and Mrs. H. A. Pendleton, of Munday, is completing his training on a Liberator bomber at Pueblo Army Air Base. He is the navigator of his crew, and is being fitted to be a valuable member of a "team" that will carry the fight into enemy territory. Lt. Pendleton entered the service in 1942. His wife, Frances Gower Pendleton, lives in Dallas, Texas.

Mr. and Mrs. E. Duval of Abilene, former residents of Munday, visited with friends here last Monday.

12,000,000th Member

The twelve millionth member of the Boy Scouts of America since it started nearly 35 years ago is 12-year-old Preston Ellsworth Koontz (above) who is doing a man-sized job, handling tractors and other farm machinery on his father's 151-acre farm at Brandon Wis. His dad was a Boy Scout in the same town just 30 years ago. Typifying the average American boy, the twelve millionth member was the guest of national rural and Boy Scout leaders at a luncheon in Chicago and spoke on a coast-to-coast book-up with Burrage D. Butler, Editor and Publisher of "Prairie Farmer", Wheeler McMillen, Editor of "Farm Journal and Farmer's Wife", both members of the National Committee on Rural Scouting, Walter W. Head of St. Louis, President of the Boy Scouts of America and Dr. Elbert K. Fretwell, Chief Scout Executive and Editor of "Boys' Life."

 What He Does For His Community Lives On and On

FIRE PREVENTION WEEK

The President has proclaimed October 8-14 as Fire Prevention Week. Once again the signal has been given for a renewed offensive against our remorseless enemy, uncontrolled fire. Despite the ceaseless efforts of fire prevention authorities, fire losses have doubled in nine years, reaching a total for the past year of more than \$400,000,000.

In an appeal to the American people in commemoration of Fire Prevention Week, W. E. Mallieu, General Manager of the National Board of Fire Underwriters, says: "If America's wartime fire waste is to be reduced it will be necessary for every interested person to cooperate in a campaign to spread information about fire dangers. Fire losses increase because most people are not sufficiently interested, and they are not interested because they have not been informed adequately as to the seriousness of losses and hazards. Citizens who do appreciate, can perform a patriotic job by transmitting information to others and convincing them of the need for special efforts to reduce fire waste. To be specific, begin in your own home by locating all fire dangers there and eliminating them. Branching out from there, tell your neighbors about fire safety and get them to clear all fire dangers from their premises. Then contact fire prevention headquarters in your community and offer your services. Finally, make an effort to promote fire safety in your business. If nothing is being done there, be the one to initiate a safety campaign, for it is patriotic to save materials."

Let's all include fire prevention with our daily work, not just for a week or a month, but throughout the year—and let's start now.

THEIR JOBS ARE WAITING

That industry is well aware of its obligations to men and women returned from the armed services, is illustrated by a recent announcement of the Texas Company. Not only is that company laying plans for the re-employment of its able bodied employes, but it will go the limit in finding positions in which physically handicapped veterans "can work and feel a sense of worth while accomplishment."

"Many of our employes," said Colonel Klein, president of the company, "will return with newly acquired skills and with greater educational accomplishments." Such employes, he said, "should be offered an opportunity to use their education and skill to the fullest."

To help department heads in placement work, the company is setting up an Employee Counselor plan to acquaint the employe with the opportunities and educational and vocational training available to him through Federal and other agencies, and generally assist him in making a "smooth and constructive transition from military to civilian life."

As never before in the history of this nation, industry in all fields is preparing scientific programs for the re-employment of the returning veterans.

AN OPPORTUNITY FOR PROGRESS

The United States Public Health Service has been given authority to make grants-in-aid for medical research in public or private institutions, increase appropriations to states engaged in general public health work, establish a national tuberculosis program and foster preventative medicine.

It would seem that such cooperation by the government with both public and private agencies is one of its legislative functions in carrying out any public health program. It is not compulsory, but it does provide a basis for coordinating the medical facilities of this nation, and making the results of medical education, research and practice available to individuals, doctors and hospitals in every city and rural community.

If the hand of politics can be kept out of the United States Public Health Service, it can be the focal point for encouraging rapid strides in progressive American medicine.

Coordinating public and private health activities for the benefit of all the people, without destroying the initiative of American medicine by creating a national medical monopoly and compulsory medical practices, is the goal that must be kept in sight.

If there is any agency of government that should cooperate with all health agencies, it is the United States Public Health Service. Let us hope that will be its policy and that private medicine may work with it with a feeling of security rather than fear.

THIS IS NOT AMERICA

Because a national election is soon to be held while the country is engaged in a war, a lot of people assume that this event in itself proves that American freedom is secure. Such an idea is hot air, pure and simple. American political liberty is based upon economic liberty—the right of a man to create and run a business or hold a job unhindered by coercion or dictation from any source, in a free competitive market. The experiences of war have banned the free market. Unless it is restored, our economic liberty and our political liberty are in deadly danger of destruction.

The completeness of the extinction of the free market is eloquently emphasized in the current bulletin of the National Association of Food Chains. Practically the entire contents under fifty or sixty headings is devoted to informing food retailers on the latest government decrees affecting the bread and butter existence of the American people. A few of them read as follows: New Point Value Charts, Rubber Order Eased, Used Commercial Vehicle Prices, Stapler Control Revoked, Ration Bank Deposits, New Trade Point Values, Agricultural Container Prices, Soy Bean and Cucumber Prices, Storage Restrictions Tightened, OPA Boards of Review OPA Procedure Regulations, Fresh Vegetable Pricing, Potato Prices Raised, New Red Stamps Valid. And so on, ad infinitum.

This is not the American way of doing business. It is not a free market. If continued indefinitely into the future, it will result in the destruction of freedom. As the magazine Life points out in discussing the problem of reconversion: "The only proper objective of government economic policy is to strengthen the free market. For the free market is the only economic system on which Americans can safely count to increase their standard of living, release their own creative energy, use their resources efficiently, govern the infinitely complex jungle of their daily trading and protect their political democracy, all at the same time."

WHAT ARE WE FIGHTING FOR?

Some labor representatives claim that a majority of the armed forces are union members, so the question of whether returning service men will be forced to join unions or go without jobs is irrelevant. Assuming that a majority of service men do support unions wholeheartedly, does the United States, whose young men are now dying in battle all over the world to protect the rights of minorities in foreign lands, propose to disregard the rights of minorities within its own borders after the war?

Anyone should be free to join or not join a union, whether or not a majority of workers favor it. Unless freedom of choice is preserved for minorities, we have neither liberty nor constitutional government in the United States.

POSTWAR EMPLOYMENT DEPENDS ON RETAILING

A few short years ago it was good political fun to propose and to pass punitive tax laws with the avowed purpose of restricting or actually destroying the competition of chain stores, on the theory that this would encourage the independent store.

If such methods had gone unchecked, the field for growth of the ambitious independent would have been destroyed, and the stabilizing effect of progressive competition would have been retarded, and rural customers would still be dependent on large trading centers.

All postwar employment plans will depend on the widest retail distribution of products on minimum profit margins, in order to encourage maximum production.

Gems Of Thought

ELEMENTS OF SUCCESS

Man cannot be satisfied with mere success. He is concerned with the terms upon which success comes to him.—Charles A. Bennett.

The most important thing for a young man is to establish a credit—a reputation, character.—John D. Rockefeller.

A man's true estate of power and riches, is to be in himself; not in his dwelling, or position, or external relations, but in his own essential character.—H. W. Beecher.

I believe the true road to pre-eminent success in any line is to make yourself master of that line.—Andrew Carnegie.

The devotion of thought to an honest achievement makes the achievement possible.—Mary Baker Eddy.

What men want is not talent, it is purpose; in other words, not the power to achieve, but will to labor.—Bulwer-Lytton.

I GIVE YOU TEXAS by BOYCE HOUSE

Ran into my old friend, Tom Bryant of Cross Plains recently and the sight of the veteran oil operator brought to mind the story of the biggest high gravity well in the history of the oil industry near Pioneer, in southwestern Eastland county.

Bryant had drilled in a well on the Bryson in May, 1922, (one of six wells he was putting down for Tom Slick, "king of the wildcat-ers;") for 7,200 barrels of 47 gravity oil a day and all the tanks that Bryant could find he bought and had them rushed to the new gusher. Then a week later just across the road, the Eakin No. 4 (another of the Slick Wells that Bryant was drilling) came roaring in for 20,000 barrels a day.

This monster hurled a six-inch stream to the side through the con-

trol head and still had enough oil that another stream went through the top of the derrick. He dared not pinch it in as he had used second-hand pipe in order to stretch the limited money available as much as possible.

The road between the two big wells was closed to traffic at once as the weather was damp and the gas clung close to the earth, creating a great hazard. The backfire of a car could have produced a catastrophe.

Though the railroad was half a mile from the well, the passenger train halted at Pioneer and remained there for several hours, then with considerable trepidation it went past the area on its run.

An army of 200 men swung into action—teamsters, rough-necks, tank-builders and pipelayers. Holes were gouged in the ground and dams were thrown up to create earthen storage. Steel tanks were put up and "lead" lines installed to them. Crews of sweating, cursing men rushed the construction of a large pipeline. Workers wore slickers to protect themselves from the rain of crude oil; and the pipelayers, in hip boots, waded in petroleum that was sometimes knee-deep. Twelve, fourteen, even eighteen hours a day, the workers toiled at top speed, pausing only long enough to gulp down a little food and coffee, brought from nearby Pioneer, the coffee in huge pots and the sandwiches in wash tubs.

When the pipeline and adequate steel tankage had been completed and the fight had been won, 15 acres of the 50-acre lease had been converted into a temporary lake of crude oil.

Such is the story of the record-breaking well that Tom Bryant drilled at Pioneer.

Texas' famous Fort Alamo at San Antonio, was originally a mission church. It was converted into a fort during the War of Independence, in 1836.

THRIFT IS A DUTY OF EVERY AMERICAN . . .

In this time of stress, each of us owes it to his country to be thrifty. We must conserve materials on the one hand so they will be available for defense purposes. We must conserve money, on the other hand, to help our country and to help ourselves in the post-war period.

By being thrifty, and by accumulating money in your bank account, you are contributing to your country's welfare, while at the same time helping yourself.

DISTRICT AGENT GOES TO IOWA

College Station—Mrs. Isla Mae Chapman, district agent in charge of home demonstration work for 20 counties in North and Northwest Texas, left late this month for Ames, Iowa, where she will do advanced work in home economics leading to a master's degree at Iowa State College.

She will major in the field of home management and household equipment. Mrs. Chapman obtained her bachelors degree in home economics at the State Texas Teachers College, Denton, and has done graduate work there and at Colorado State College at Fort Collins.

First Extension assignment given to Mrs. Chapman was in Pecos, county home demonstration agent. She entered the service in 1929 and also served as county home demonstration agent for Lubbock county in the early thirties.

Mrs. Chapman joined the headquarters staff of the Extension Service in 1936 serving as home industries specialist. She became district agent for Extension District 3 in February, 1940.

A successor has not been announced by Maurine Hearn, vice-director for women's work and state home demonstration agent.

CORN GOES HUNTING

What's corn got to do with your hunting trip? Think once and you'll say the corn stubble from which you may flush a covey of quail. Think twice and you'll say corn syrup for the flapjacks. Not one hunter in ten knows that such varied and important equipment as his shells, cracker boots, canvas coat and trousers, his pipe tobacco and cigarettes, all contain corn starch in one or more of its many modifications, or used it in their manufacture. That's only a partial list, a glimpse into the vast field of little known uses of the familiar American grain.

TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

Butter Supply Down, Demand Up

Americans will not have as much butter as they want this year, primarily for two reasons: The supply is down and the demand is great, the War Food Administration says. Average per capita supply before the war was 16.7 pounds and this year it is about 11.9 pounds. More people are eager to buy butter today than ever before, and in the face of increased demand, production has declined while five per cent of the American supply is going to Russia, mostly for use in hospitals. While milk production is higher than before the war, a greater proportion of milk is going into fluid milk, cheese, evaporated milk and milk powder. No manufacturer will be required to set aside any butter for government purchase in October or any succeeding month until spring, when production will rise seasonally.

Stares and Questions Worry Vets

While modern surgery and medical care are skillfully restoring soldiers' bodies and morale is being strengthened by reconditioning programs in Medical Department Hospitals, "All this effort is being seriously interfered with when disabled soldiers are singled out by stares and prying questions of the public," warns Major General Norman T. Kirk, Surgeon General of the army.

Oil Stockpile Is Getting Lower

The nation's stockpile of crude oil in storage tanks has been depleted at the average rate of 2,500,000 barrels a month this year, and now is only slightly above the minimum required to keep refineries in uninterrupted operation, the Petroleum Administrator for war reports. Although gasoline stocks are at pre-war levels, only about half is for civilian use, compared to 90 per cent available for civilian use in 1941.

Chinese Farmer Outwits 22 Japs

Before Hengyang, China, fell into Japanese hands, 22 Japanese soldiers got lost, and as the story is told in the official Chinese magazine, China At War, the Japs "shanghaied" a Chinese farmer and ordered him to guide them in the direction of Changsha, a city that had already fallen into Japanese hands. The Chinese farmer, knowing his countryside, deliberately led the Japs on a winding course that finally landed all 22 of them into the Hancheinese troops—as prisoners of war.

New Storm Warning Service

The newly organized Severe Storm Warning Service, now operating in the plains states and the southwest where twisters are most prevalent, is expected to spread to other parts of the country next year and to become permanent service. The warning service—a joint operation of the Army Air Forces Weather Service, the Government Weather Bureau and the Office of Civilian Defense—has networks for reporting tornadoes, heavy thunderstorms, hail, strong winds and cloudbursts. If warnings come soon enough, emergency measures will avoid much damage. The OCD is now recruiting spotters to man observation posts in the area served by the warning service.

Pressure Canners Now "Freed"

Distribution of pressure canners was released from all controls by the War Food Administration September 21. Production of canners for the first nine months of 1944 is estimated at 400,000, compared to 65,000 in 1942. WFA expects manufacturers to continue production into 1945, thus having canners on the market for spring and summer vegetables.

Be Careful—And Patriotic

Because home accidents that killed 6,000 workers last year seriously impeded the war effort, the Federal Security Agency endorses safety suggestions: Walk—don't run, especially on stairways; don't carry heavy loads on stairways; don't let children play on unprotected stairways; don't let floors become slippery or cluttered; never leave soap in bathtub and use non-skid mat to prevent slipping; keep utensil handles turned away from edge of stove; never touch an electric fixture and a grounded metal object at the same time; disconnect electrical appliances when not in use; don't smoke in bed; keep pillows out of babies' beds; keep pins, needles and sharp tools away from children; keep garage doors open when starting car; and use short ladders instead of stools, chairs or boxes in reaching for high places.

Asks For Netherlands Harvest

In an appeal to the farmers of occupied Holland, Radio Orange, the Netherlands broadcasting station in London, pleaded: "The authorities advise the Netherlands farmers most emphatically to avoid any destruction of threshing machines. That destruction would be detrimental to the cause of the fatherland. The country wants the farmers to gather and deliver their harvest and report the results to the authorities in charge of distribution of agricultural products."

A Bit of Home in Foxhole or PX

American fighting men in this war "are getting every food nutritionist says is necessary to keep them in top physical strength," declared Lee Marshall, director of Distribution, War Food Administration. "In addition to this," he said, "they get a share of the ice cream, the turkey, the soft drinks the candy bars—in fact the biggest amount of home we can crowd into a barracks, a foxhole or a PX." To make this possible, American agricultural production has been increased roughly 40 per cent over pre-war levels, he pointed out.

Plan Living War Memorial

A living war memorial—a community in which invalid and disabled soldiers may live with their families—has been proposed for Scotland by an ex-servicemen's organization and will be built as soon as the endowment is complete and a building site is found, the British information services report. Blocks of homes will be grouped around a cloister in which will be a clinic staffed and equipped to give hospital treatment and medical aid. Covered corridors will lead to each group of apartments so that patients can be taken for treatment in any weather. The community will be complete in itself but will be built probably near Edinburgh—near shops, schools, churches, places of entertainment and centers of employment. Each tenant will pay whatever rent he can afford from his disability pension.

Saves Trainload of Prisoners

When the Nazis recently tried to ship back to Germany a trainload of persons of various nationalities who had been imprisoned in Belgium for underground activities, they were thwarted by the delaying tactics of the Belgian railroad engineer, who acted upon instructions from the Belgian underground. With prisoners packed in cattle cars so thickly it was impossible for anyone to sit down, the train started. Using various ruses, the engineer managed to go only 15 miles in 24 hours, despite threats of Gestapo men with machine guns who stood at his side. Finally the

Rubber from Dandelions

(Above) Ken Stevens, student assistant in the botany department, University of Toronto, hoses the kok-sagyz dandelion patch planted by researchers in the grounds of the Flavelle Mansion. Although most lawn-weeders might disagree, this dandelion is difficult to grow. (At right) Warrant Officer Roy Longard wears an oxygen mask made from natural rubber produced from the Russian kok-sagyz dandelion. This rubber, like the rubber tree product, is superior to synthetics which lack snap and "nerve."

VERY few crew members of the huge air armadas flying over Europe realize that the rubber of which vital parts of their oxygen masks are made once nestled in the tiny, slim stem of a dandelion. That fact means a great deal to a nation at war dealing with a scarcity of rubber. Experiments now under way at the University of Toronto with the hardy but temperamental Russian dandelion indicate an amazing future for this source of natural rubber. When the Japanese took the Malay and East Indian rubber plantations Canada's shortage was sharpened and in the spring of 1942 work began in earnest to develop a new source of the precious material. A Russian dandelion, the teraxacum kok-sagyz, was found to be an astonishing producer and, in addition, was hardy enough to survive cold winters and hot summers. As a result it has been successfully grown in many parts of Canada and produces rubber which compares favorably with rubber from trees. Unfortunately, raising Russian

dandelions for rubber is not easy. A lot of improving is still to be done and, too, the plant has its moods. The seeds are very small and when they are planted and the tiny seedlings grow even the mildest weed looms over them like a giant murderer. This means expensive weed control. Then, too, the seeds are erratic in germination and elaborate precautions have to be taken in treating them before planting. Some of the plants have roots almost a quarter solid rubber while others produce roots with less than one per cent rubber. Canadian botanists are trying to develop exclusively high-grade strains.

Every member of the University of Toronto botany department has contributed towards developing the rubber-producing dandelion, which the Russians called "ordinary grass" and chewed like gum.

train stopped and the German authorities decided it was better to let everyone go free rather than trouble with them any further.

"Like Chased Animals"

With the beginning of the Nazi collapse in France, the Germans, busy trying to save their own necks, turned their Dutch laborers loose, according to a correspondent for Aneta, official Netherlands news agency. He said that these men "like chased animals, afraid that the hunt is not over...introduce themselves often under assumed names, and as they recount their experiences under the Nazis, they look around, shifty-eyed, as if to make sure that no Gestapo agent is listening." All are hungry for news of their relatives. "They are eager for someone, anyone, to point out a destination in life for them after their years of being tossed about Europe."

Round-Up

OPA says: Apricots at retail will sell for approximately five cents a pound less than they did last season...The retail price of smoked, mild-cured salmon will be increased four or five cents a pound. Non-leather shoes with rubber soles have now been freed from rationing...Because of a short crop and big demand by the armed forces, cranberries will soon be brought under control for the first time, and highest retail ceilings are expected to be approximately 40 cents a pound, high enough to compensate growers for their short crop...So few bicycles on hand, they have been removed from rationing.

The Department of Agriculture says: Twenty-eight Liberty ships have been named by state 4-H club groups...Tractors and horses now divide the pulling job on American farms just about "50-50."

To alleviate losses to apple growers caused by the recent hurricane, the War Food Administration will buy 500 cars of apples in North Atlantic seaboard states to be used in institutions and for school lunch programs...WFA is offering to sell feed millers and grain merch-

ants 1,498 bags of pea flour for livestock and poultry feed.

Mrs. Lillie Carnahan and son, Harold, and Mr. and Mrs. Rudolph Wratislaw and son, Dempsey, all of Palacios, Texas, visited friends and relatives here last week. Mrs. Carnahan left word for the Munday Times to be sent to her address for another year.

J. E. Reeves was a business visitor in Gainesville, Texas, the first of this week.

Mrs. Etta Webb has returned home after spending several days with relatives in Spur.

Jimmie Lynn McDonald of Tahoka is visiting his grandparents, Mr. and Mrs. J. J. Keel, this week.

Mr. and Mrs. Fuqua of Haskell visited in the home of Rev. and Mrs. Luther Kirk last Monday and Tuesday.

Harold Jones And Cleta Arvella Jordan Marry On Friday

Harold T. Jones and Miss Cleta Arvella Jordan, both of Goree, were united in marriage last Friday night. The wedding ceremony was at the Methodist parsonage in Goree, with Rev. J. Waid Griffin, reading the marriage vows.

Mrs. Jones is the daughter of Mr. and Mrs. Grover Jordan, residents of Goree for the past several years. She is a popular member of the younger set.

Mr. Jones is the son of Mr. and Mrs. Dibriel Jones, pioneers of this section. He was reared at Goree, and both he and Mrs. Jones were members of last year's graduating class of Goree high school.

They will make their home in this county, and Mr. Jones will be associated with his father in farming.

Munday Study Club To Begin Year's Work On Friday

Members of the Munday Study Club will begin their year's work next Friday afternoon at 1 o'clock, opening with a covered dish luncheon. Mrs. J. R. Burnison is president of the club this year.

Hostesses for the luncheon will be Mrs. Leland Hannah, Mrs. T. G. Bengt, Mrs. J. C. Harpham and Mrs. H. A. Pendleton.

Mrs. Chan Hughes will be director of the program, giving a survey of the year's work. Mrs. Burnison will bring the presidents greeting.

All members are urged to attend this initial meeting.

Wesleyan Service Guild Meets At Church Parsonage

Members of the Wesleyan Service Guild met last Monday night at the Methodist parsonage, with Mrs. Joe Bailey King as leader of the program.

The program opened with singing of several hymns, and Mrs. M. F. Billingsley led the devotional. Mrs. Layne Womble read a poem, "By Faith," and Mrs. King read the poem, "A Plea," by Edgar A. Guest.

At eight o'clock next Monday night a study and business program will be held at the home of Mrs. M. F. Billingsley. All members are urged to attend.

Present were Meses. R. L. Kirk, Jas. H. Bardwell, M. F. Billingsley, Layne Womble, Joe Bailey King, and Meses Ruth Baker and Merle Dingus.

For quick results, use a Munday Times classified ad.

Mrs. Geo. White Jr. Honored At Shower On Last Thursday

Mrs. George White Jr. was named honoree at a gift shower on Thursday, September 21, in the home of Mrs. E. N. Miller of Goree. Hostesses were Meses Naomi Jean Miller, Peggy Norris and Jonell Fitzgerald.

Miss Morris ladeled punch, assisted by Miss Miller in serving the guests. Miss Fitzgerald was in charge of the bride's book where the guests registered, while Mrs. Miller showed the gifts. Those attending were:

Mmes. W. E. Blankenship, G. A. White, Retta Jo Cunningham, P. H. Routen, Floyd King, E. W. Hutchens, Hubert Blankenship, Milford Peek, J. C. Watson, Earl Howery, Henry Griffin, W. R. Couch, Louis Blankenship, L. C. Vance, Opal Johnson, Sam Hampton, H. D. Arnold, J. W. Griffin, S. E. Stevenson and Elbridge Coffman.

Misses Melba Blankenship, Irene Vaughn, Mildred Hutchens, Barbara Barger, Tommye Coffman, Verna Lee Rawlins, Dorothy Mae Moore, Mildred Coffman, Naomi Hampton, Doris Ruth Stevenson, Mary Jo Arnold and Trudy Jane Coffman.

Those sending gifts included: Houston Smith, W. E. Blankenship, and Meses. A. J. Smith, Jack Carter, Nell Stratton, H. L. Moore, Ruby Hammons, E. W. Norris, Orb Coffman, Harold Jones, J. C. Morton, Vernon Routen, Jack Moore, George Hunt, W. O. Barnett, E. P. Norris, A. P. Fitzgerald, W. R. Caldwell, Dude Coffman, Frank Hill, W. M. Taylor, Ike Troy, Jack Blankenship, Ira Stalcup, Jess Rawlins, J. W. Lanningham, E. F. Heard, S. R. Hudson, Les Jamison and J. W. Fowler; Meses Mozelle Vandever, Bonnie Jordan, Alice Thornton, Ester Hill and Alyne Ward.

Bridge Club Has Regular Meeting On Monday Night

Mr. and Mrs. C. P. Baker entertained members of the Monday Night Bridge Club and several guests in their home last Monday night.

Bridge was enjoyed at three tables, and after the games the hostess served apricot ice and cookies to the following members and guests:

Mrs. A. H. Mitchell, Mr. and Mrs. W. R. Moore, Mr. and Mrs. Fred Broach, Mr. and Mrs. J. C. Harpham, Mr. and Mrs. Dorise Rogers, Miss Thelma Atkinson, Miss Toby Baird, and the host and hostess.

Brushy Sunday School Class Has Quarterly Social

The young people's class of the Brushy Baptist church had their quarterly social and business meeting on Friday, September 8, in the home of Mr. and Mrs. Edgar Lowe.

With the class president, Martha Ann West, presiding, a very interesting business session opened with a sing-song, followed by short prayers by each one present. A social hour was enjoyed by the following members:

Mr. and Mrs. Earl Routen, Raymond Martin, John Cooper and Billie Frank Rutherford, Martha Ann West, C. A. Ellen and Johnson Williams, and one visitor, Lyndal Yandell.

People, Spots In The News

TIN FISH—A Mark 15 torpedo off the assembly line at Amertorp, the American Can Company plant at Forest Park, Illinois. This Amertorp plant and one at St. Louis are said to be the country's largest industrial producers of torpedoes.

HEADS DOWN—MP's study their maps and ignore the pretty French girls in their home near Brest, France.

Local Ladies Attend Seminar Held At Haskell

An important Seminar for the Northwest Texas Conference was held at Haskell last Thursday. The theme of the meeting was "Ways of Life and the Christian Way."

A very interesting morning program opened with morning meditations, and included the president's message. Lunch was served at the church at noon.

The evening program consisted of a conference hour, presentation of new studies, prayers for consecration and dedication, and various discussions.

Attending from Munday were Meses. M. F. Billingsley, R. L. Kirk, J. W. Roberts, J. C. Harpham, Dorise Rogers and Lane Womble.

WOMAN'S AUXILIARY TO MEET ON MONDAY

Announcement was made this week that the regular meeting of the Presbyterian Woman's Auxiliary will be held at the local church at five o'clock next Monday afternoon.

All members are urged to be present and have their Bibles and guide books with them.

For the very young child, there is nothing more practical and safe than soft, non-breakable stuffed animals, or old fashioned stuffed dolls. A variety of such toys can be made inexpensively from a few small cotton bags, such as those in which you purchase sugar, meal, flour. These toys are easily grasped by the young tot, and may be laundered easily when they become soiled.

Features of the stuffed animals and dolls can be attractively em-

broided in colored thread. The variations which may be achieved in style and type are virtually limitless. Soft, fluffy cotton forms an ideal stuffing for these toys.

"Bag of Tricks for Home Sewing," a new illustrated booklet offered free to American housewives, will intrigue you with its many novel ideas for conserving the serviceable material from cotton bags. For your free copy, write National Cotton Council, Box 18, Memphis 1, Tennessee.

Billy Snowdy Gets Infantryman Badge

Somewhere in the Southwest Pacific—Cpl. Billy Snowdy, son of Mr. and Mrs. W. D. Snowdy, route 1, Munday, Texas, has been awarded the Combat Infantryman's Badge for exemplary performance in action with the First Cavalry Division during the campaign for the Admiralty Islands, where he took part in many patrols deep into Japanese-held territory.

Snowdy, who entered the service in May, 1943, received his basic training at Camp Roberts, Calif. Before he came into the army, he attended the Benjamin high school at Benjamin, Texas. His wife, Mrs. B. Snowdy, and his son, Billy Jr., are living at 402 Mississippi Street, Amarillo, Texas.

BREAK SOUP BONES

College Station—Studies made at the Oregon Experiment Station indicate that a homemaker should break her soup bone into small pieces before cooking it, or get the butcher to do this for her.

Further, it is important that her soup contain tomatoes or some acid like vinegar to draw calcium from the bones during the long slow cooking process. Calcium is the mineral most likely to be short in American diets, according to the Agricultural Research Administration's advice to the A. and M. College Extension Service.

F. E. JETTONS HAVE A NEW GRANDSON

Mr. and Mrs. Floyd Jetton of Fort Worth are the proud parents of a son, who has been named Roger Dean. Mother and little son are reported doing fine. The child is the grandson of Mr. and Mrs. F. E. Jetton.

J. L. Brasher spent Tuesday night and Wednesday in Abilene, attending the bedside of Mrs. Brasher, who is very ill in an Abilene hospital.

Nervous, Restless

On "CERTAIN DAYS" of the Month? If functional periodic disturbances make you feel nervous, tired, restless, "dragged out"—at such times—try famous Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. It helps nature! Pinkham's Compound is also a grand stomachic tonic. Follow label directions. Worth trying!

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

Mrs. Joe Roberts Entertains Sunday School Class

Mrs. Joe B. Roberts entertained her Sunday school class of boys and their mothers last Friday afternoon in her home.

The children spent the afternoon playing various kinds of games. At the appointed hour, ice cream and cake were served to the following:

Mrs. Lane Womble, Mrs. Boo Morris, Mrs. Dorise Rogers, Mrs. J. W. Roberts, Bill Rogers, Dor Roberts, Bobbie Ford, Howard Morris and the hostess.

DANCE AT RHINELAND

A dance will be held at the Rhineland community hall on Tuesday night, October 3. Music will be furnished by the Brown Derbies of Stamford. Everyone is cordially invited to attend.

They Should Be Here By SATURDAY

Come in and see us about getting a certificate.

Blacklock Home and Auto Supply

POST-WAR Magic

STORYBOOK automobiles—light metals—plastics—100-octane gasoline—television—electronics... Postwar America is in for an incredible and marvelous homelife.

With the coming of electronics, all-electric kitchens, washers that do everything but laundry-mark, let's not lose sight of why we so avidly yearn for these coming tools to make our leisure hours longer. Time was when the thought of purchasing additional electrical appliances had to be carefully considered, lest we exceed our budget—our cost for electric service was about as much as we felt we could afford. Now, after many years of increased use of electric current, we find the cost of service very little greater!

More and more West Texans are telling their neighbors that there is one household item that has stayed down in price... that they are using twice as much electricity as they did fifteen years ago at the same monthly cost!

WHY? You don't have to get a crystal ball to figure this out—steady reduction in cost of electric service has been attained by strict business management... and because company employees consider it their personal responsibility to see to it that all additional costs are eliminated in rendering such service.

West Texas Utilities Company

Munday, Texas

At The Churches

BENJAMIN METHODIST CHURCH
J. P. Patterson, Pastor
CALENDAR
 Preaching Second and Fourth Sundays at 11:00 a. m.
 Church school 10:00 a. m. each Sunday.

PRESEYTERIAN CHURCH
 Dr. William N. Sholl of Haskell preaches here each Sunday morning at 9:30 a. m.
 Our church is located on the Main street of Munday and has an attractive auditorium with added Sunday school facilities. The Auxiliary meets on Mondays and is accomplishing a good work.

GOREE FUNDAMENTAL BAPTIST CHURCH
 There will be a service at the church for children on Saturday afternoon at 4:30. Bro. Gemeny leading. Let all the children come, as it will be well worth their time. Then Saturday night, he will preach.
 There will be Sunday School at ten o'clock Sunday, and preaching at eleven and Sunday night.
 We urge all the members who possibly can to be present, and all others who do not attend services at other churches.
 Miss Florence L. Gaines, who entered a Wichita Falls hospital a few days ago for treatment, is reported doing very nicely and showing rapid improvement.

Room Mothers For School Year Are Announced

Room mothers for each room in the Munday schools for the year, 1944-45, were announced Wednesday by Mrs. A. L. Smith, president of the P. T. A. They are as follows:

Room 1-A, Mrs. Cunningham, sponsor; Mmes. A. L. Smith, chairman; Eugene Michels, Clint Hawes, Troy Lindsey and Coy Phillips.

1-B, Miss Atkeison; Mmes. James Gaither, chairman; Earl Nichols, Chalmers Hobert, C. L. Conwell and James Jetton.

2-A, Miss Stogner; Mmes. Dorae Rogers, chairman; Sebern Jones, Earl McNeill, L. C. Guinn Jr. and R. A. Guffey.

2-B, Mrs. Winston Blacklock; Mmes. A. H. Lawson, chairman; O. V. Milstead, R. H. Morris, Buck Tidwell, C. O. Swope and Ezell Reynolds.

Third grade, Mrs. Chan Hughes; Mmes. Joe Patterson, chairman; Fay Killian, Cecil Fitzgerald, J. C. Elliott and Fred Lane.

Fourth grade, Mrs. Mauryce Blacklock; Mmes. Joel Massey, chairman; D. C. Eiland, Don Phillips, Lucile Stodghill, Bill Lemley, Coy Taggle, Maye Spelce and Leroy Elliott.

Fifth grade, Mrs. Owens; Mmes. Sied Waheed, chairman; John Ed Jones, Ernie Reynolds, Oscar Spann, Joe Roberts.

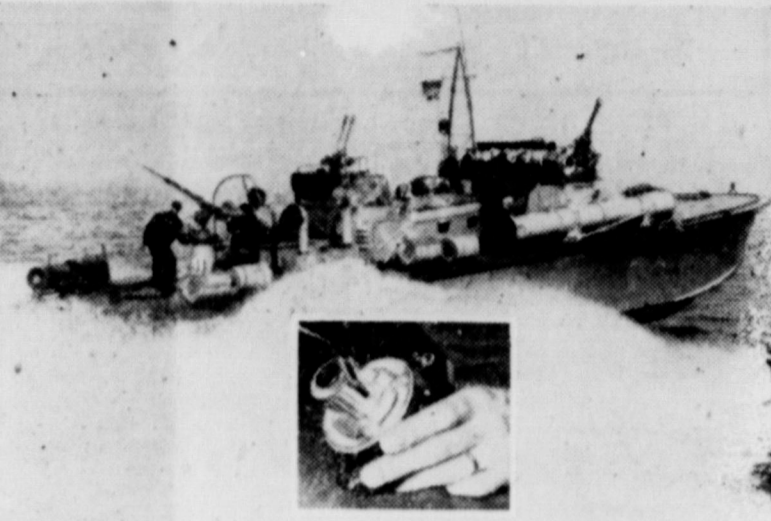

Sixth grade, Miss Gail Reynolds; Mmes. Jim Reeves, chairman; Horace Stubbelfield, R. T. Morrow, Otis Simpson and Ilseing.

Seventh grade, Mrs. Bardwell; Mmes. Brooks Campsey, chairman; Layne Womble, Prudence Sessions, C. F. Suggs and Joe McGraw.

Tiny Gadget Checks 6,000 "Horses"

Device small enough to be held in one hand (inset) prevents PT boat motors from "running away."

It's a small gadget, about the size of a coffee mug, yet it keeps the 6,000 "horses" that power each of America's deadly PT boats from running away and perhaps racing themselves to death.

Each of the four 1,500-horsepower engines in a PT boat is under the "checkrein" of one of these cutout controls, which will stop its particular motor if the usual load is removed, perhaps when a propeller has been sheared by a submerged object, a shaft broken or a transmission unexpectedly disengaged.

Need for such a control was recognized early in the history of the PT boats, but much trouble

Twenty-four cars to choose from. Brown and Pearcy Motor Co., Haskell, Texas. Ross Peacy, Elmer Turner. 13-2tp.

Base Metals Aid Allies

CANADA ranks first as an exporter of base metals. During the war the exports of non-ferrous metals and minerals and their products, excepting gold, rose in value from less than \$215,000,000 in 1939 to nearly \$395,000,000 in 1943.

The last two years have ranked as Canada's greatest in mining and metallurgy.

This has resulted from the expansion of the aluminum industry to a peak more than six times greater than that of pre-war days; development of facilities for producing magnesium from dolomite; extension of operations at the large base metal mines; revival of old mines; expansion of existing mines, and exploitation of new properties, including marginal and sub-marginal deposits.

An average of about 65,000 non-ferrous mine, smelter and refinery workers, including those employed in gold production, were working in 1943, compared to an average of 58,043 in 1939.

Definite records of the annual value of metal and mineral production began in 1886. In that year the value of all mineral products was \$10,221,255 or \$223 per capita. In 1939 the total value of mineral production was \$474,602,059, or \$41.94 per capita. Despite the sharp drop in gold production, the 1943 total was an estimated \$524,426,850 or \$44.40 per capita.

Canada has been able to fulfill its obligations in metals and minerals to both the United Kingdom and the United States and to provide for its own essential needs. Because ocean losses dropped during 1943 and because of the success of efforts to provide new sources of production and increased production from known sources, the supply of certain strategic metals and minerals—aluminum, nickel, chrome ore, magnesium, graphite, cobalt, mica, mercury, copper, tungsten and molybdenum—is keeping up with essential demands.

A toll has been taken of known ore reserves, but prospecting is being encouraged and marginal and sub-economic properties have been tapped.

CANADA'S PLACE IN WORLD PRODUCTION

1st in..... NICKEL
 ASBESTOS
 PLATINUM
 RADIUM

2nd in..... GOLD
 ALUMINUM
 MERCURY
 MOLYBDENUM

3rd in..... COPPER
 ZINC
 LEAD
 SILVER
 ARSENIC

4th in..... MAGNESIUM

Achievements in the production of the light metals, magnesium and aluminum, have been outstanding. The output of aluminum in Canada is not new, but its rapid expansion has rivaled that of any industry anywhere in the world. Canada's production is now roughly equivalent to the total world output in 1927.

Until the summer of 1942 not one pound of commercial magnesium was available in Canada that had not been imported. In that year a \$3,000,000 government-owned project at Haley, Ontario, produced its first crown of magnesium, and at the end of 1943 Canada was producing more than 10 tons of magnesium a day. After supplying all its own needs it was able to export the major part of this tonnage to the allied nations.

Seniors, Miss Silman, Mr. Owens; Mmes. Fred Broach, chairman; Mann Broach, Jo Mae Davis, Ed Johnson, Lee Haynes, John Ed

LOCALS

Lieut. and Mrs. G. L. Roberts stopped over Sunday and Monday for a visit with their uncle and aunt, Mr. and Mrs. J. W. Roberts. Lieut. Roberts was on his way to Palm Beach, Fla. where he will be stationed with the Army Signal Corps. After a brief visit at Wichita Falls with relatives and friends Mrs. Roberts will return to her home in Alameda, Calif.

Pvt. Troy Yeager has returned to his post of duty at Fort Warren, Wyoming, after a 15-day visit here with his parents, Mr. and Mrs. E. F. Yeager.

Sgt. and Mrs. E. C. Zeckser of Abilene spent the week end here with Mrs. Zeckser's parents, Mr. and Mrs. G. H. Beaty, and with other relatives.

Mrs. D. Loda of Camden, Arkansas, is here for a 10-days visit in the home of Mr. and Mrs. T. G. Benge. She has been visiting in Colorado Springs, Colo., during the summer.

Mrs. G. L. Hunter and Mrs. Lela Hunter and two daughters left Wednesday for Dallas and Denton to visit relatives for several days.

S/Sgt. Wilson Hunter, who is stationed at Frederick, Okla., visited relatives and friends here over the week end.

Mrs. Togo Moorhouse of Benjamin spent the week end with relatives and friends here.

Billy Gene Burns, who has been taking treatment from a bone specialist in Fort Worth, returned home this week with her mother, Mrs. Lois Burns.

Mr. and Mrs. Vernis Lambeth and daughter, Linda Joyce, and S. B. and Myrtle Jetton, all of Goree, were in Fort Worth last week end to visit their new nephew and sister-in-law, Jean, who has been very ill but is reported some better at this time.

ENTERS SCHOOL

Miss Lola Jones left Monday for Denton, where she enrolled in North Texas State Teachers College. She attended school there during the summer term.

Weather Report

Weather report for the period of Sept. 21st to Sept. 27th, inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature

Society News

Starting last Monday, coming to school seems to be a pleasure for the students. Could it be those "nifty" new buses that have changed their minds about an education? The contest for F. F. A. Sweetheart comes to an end Monday with Jean Davis, Leta Frances Hallmark, Florene Mitchell, and Helen Haynes as candidates it's pretty hard to decide, but the campaign managers are helping us decide on whom to place our pennies.

The band has enlarged considerably this year. We now have thirty six members with the addition of a "Twirlers Corp" which will precede the band. With Jean Davis as Drum Major and Bobbie Boggs, Jozelle Proffitt, Charlot Williams, Florene Mitchell, Reba Vene Norvell, Jean Rummell, and Bobbie Price as twirlers we could march into anything.

Everybody is looking forward to the football game with Chillicothe tomorrow night.

There will be a "pep rally" Thursday night at eight o'clock starting in front of the Methodist church. Everybody be there and lend your voices for a good cause.

Sports News

Though defeated by the Seymour Panthers last Friday night we, Moguls learned much. September 29 we will journey to Chillicothe for our second conference game. Again we will take with us some good ole' M. H. S. Spirit, and at the end of the game there will be a different story than there was at the end of the Seymour game. This week, our football training will give us what we need for victory. Coach Morrow will work us on our weak spots and we will try to work with him to the best of our ability. If we follow his instructions we are sure to win over Chillicothe.

We are proud of the backing our town folks are giving us this year. It means a lot to us to know our home folks are behind us to the limit. And also we are really proud of our pep squad and band. They gave us a swell Pep Rally Thursday

night and also many were at the game and were behind us.

We would like to extend thanks to Mr. P. V. Williams for the grand steak supper after the game. It was well. So thanks, Mr. Williams. Also we wish to thank Mr. Sied Waheed for this week's supper at Chillicothe. Thanks a million. We appreciate the fellows who took us to Seymour Friday night. I guess that's about all for this time. So ya Moguls lets go....

Senior News

Maybe our football boys did get off to a foul start, but that doesn't mean we can't climb above it. We know they had tough luck and we also know they will do better next time.

The Speech Class under Miss Silman is to present our assembly program next Friday and the entire class is entering in whole heartedly. So far the plot has remained a deep dark secret, strange things will probably happen, don't be surprised at anything that might come....

Many of the old senior classmates are not with us this year. Most of them have been with us since we began our school career. Berniece is in Wichita Falls attending Hardin-Jr. She has been a class member since the second grade. Patsy Ruth has been in our class since our seventh year and is now living in Oklahoma. She is the first of our class to be married. I guess that's a grand life??? Dick came to us in the fourth grade and plans to attend N. T. A. C. in Arlington. Eunice is in Seymour and Rosemary is in Kansas attending Mt. St. Scholastica College. These last two girls were with us when we were Juniors. Several members of the class have received mail from Rosemary and she seems to be enjoying school life very much. I believe this about all from the '45 Seniors. So Adios.

Junior News

Well, here it is, the 3rd week of school, and Juniors are starting it off with a bang. (as usual). We Juniors want to give three cheers to our football team for

The Farmer and War Bond Purchases

by Charles W. Holman, Secretary

The National Cooperative Milk Producers' Federation

AMERICAN farmers have a great deal more at stake in purchasing War Bonds than simply a patriotic urge to assist in financing the war so that it may be prosecuted to an early and victorious conclusion. Modern war demands governmental expenditures far in excess of those which may be met by current revenue receipts. This means Government borrowing. If a large part of this borrowing is through commercial banks a additional inflationary spending power is created through the expansion of credit. On the other hand, if the borrowing is largely from individuals much of their excess funds are drained off. Hence, the pressure on prices resulting from unusually large funds bidding for limited amounts of goods and services is relieved, and thus inflation retarded.

A tremendously increased agricultural production and some increase in average prices received above those paid by farmers have raised the net income of all United States farmers from the 1935-39 average of \$1.7 billion to \$6.3 billion in 1941, \$9.4 billion in 1942, and an estimated \$12.5 billion in 1943. With available supplies of farm machinery replacements and building materials limited, Agriculture has a fund available for either debt retirement, savings readily liquidated for future purchases of machinery, buildings, etc., or for present investment in land.

A marked decrease in farm mortgages in recent years indicates that much of this fund has been properly applied to debt retirement. However, activity in land sales and a very marked increase in land values demon-

strate that farmers are probably diverting a large part of this fund into land purchases. From March 1, 1943, to March 1, 1944, average land values per acre rose 15 per cent, with the larger part of the rise taking place in the last four months of the period. The increase during this four-month period was the highest on record, being 20 per cent greater than the average monthly rate of increase for the 1919-20 boom year. Average values per acre have increased more than one-third in the past 3 years. In the 1916-19 period the rise was about the same.

It appears that an overcapitalization of probably temporarily high farm commodity prices is in process just as in World War I. Large mortgage debts incurred now, at high levels of income, will prove disastrous when both total agricultural production and prices fall. Land values are based on the net return to land. With the end of the war in sight and with the prospect that farm labor and other costs will require a relatively larger return leaving the return to land less, the logical course for land values at present would appear to be downward rather than upward.

Therefore, it appears that farmers would do well to invest every available dollar, beyond that needed for debt retirement, in Government Bonds. These can be held against the day when necessary farm replacements will be available and when farm land values will have become more stable. In this way the individual farmer may assist in hastening the day of return of his son, and also have capital available to help finance him in ventures of his own choice. U. S. Treasury Department

playing such a swell game of ball Friday night. We know that the victory wasn't ours then, but it is going to be ours next Friday nite. So come on boys, we're backing you up!

The Juniors are coming up with an exciting, daring, and funniest chapel program you ever saw. An invitation is extended to all the parents to attend it at 10:30 Friday morning.

The Juniors are nearly frantic because we have heard rumors to the effect that the new buses won't be used to transport the football team, pep squad, and band to Chillicothe Friday night. You wouldn't do that to us, Mr. Owens, would you? (Please) Or should we ask someone else? Everyone agrees that it would help the football boys' morale. Wouldn't it, boys?

Sophomore News

The first thing that ran through those mechanical brains of the sophomore class was a party. Words are flying and plans in the making of something great, good and entertaining. The President and his staff have let out the words "Party," but that's all. Due to the limited supply of information on the subject, everyone is in suspense.

Everyone is still dazed at the way high school started, without changing the schedule at all. Last year we changed around so much that the wrong teacher was in the wrong room a time or two. The faculty is thought of and loved by everyone.

Part of us still haven't got all the summertime out of us yet, but we're learning to herd our voices back down to school size again.

The sophomores hold the honor of having one of the nominees for the F. F. A. Sweetheart race come from our room. Leta Francis Hallmark, the nominee, is not entirely new around here to us. While she was in Fort Worth she attended D. P. Elders School. The well known Lloyd Haynie, a sophomore, is captain of the football team this year. Carolyn Hannah is one of the Pep Leaders for the pep squad. The sophomore class has contributed boys to the football team, girls to the pep squad, members to the band, and is represented in nearly all school activities.

Freshman News

Freshman news this week is very small. All we can say is we have a freshman boy who played a mighty good game last Friday nite. Also the other boys did some swell playing.

Florine Mitchell, candidate for F. F. A. Sweetheart, is doing very good and we hope she wins.

Agriculture boys are learning the creed, and I'm telling you it is not so easy. May I say also that the Freshman Class has gotten acquainted with the high school very nicely.

Mrs. J. Weldon Smith visited with relatives in Grapevine, Texas, over the week end.

Sgt. John R. Rayburn of Fort McClellan, Ala., visited relatives and friends here the first of the week.

Miss Maxie Dingus of Fort Worth is here this week for a visit with her parents, Mr. and Mrs. G. W. Dingus, and other relatives.

nice and quiet, and very few of the boys got seasick.

It was when we reached North Africa that most of the boys were willing to return home. I being one of them, but we knew we had a job to finish first, so we didn't complain.

I really don't see how they make a living in North Africa, as most of the work is done by hand, and I saw very few horses. They raise mostly fruits and vegetables.

Later we were sent to Italy, and when we reached this country we knew our job had begun. The docks and railroad yards lay in ruins caused by allied bombing raids. The factories in Naples and the farms nearby were also destroyed.

As for the farming here, it is done with oxen, which was really a sight for us to see. I have seen only two tractors since I have been across, and they were here in Italy. The farming consists mostly of what we raise at home, although I haven't seen any cotton or maize. They also raise lots of fruits and vegetables.

The battle of Cassino was plain to see; but it made us shudder for fear, as we thought of the destruction that was being done and of the boys' lives that it was taking. We could see the large bombers unload their bombs on Cassino, and later there was a loud roar, and the black smoke would rise into the sky. You can imagine what was left—just a ruined town, as lots of others are in Italy.

When the big push broke the Gustava line at Cassino, there were so many guns roaring and the flashes of fire were so bright, we could have almost read a newspaper. That was really nice to see, as our side was gaining and it wasn't long until we broke through the line. As we traveled on the roads, both sides were lined with wrecked German trucks and equipment of all kinds, including tanks and guns of all sizes, which were mostly wrecked by the air forces.

Rome is a very nice place, as some of its buildings were built hundreds of years ago. It was really some education to us boys.

The religion in both Italy and North Africa consists mostly of Catholic.

We are trying to put the finishing touch to this over here, so we can all come back to the place we call "Home, Sweet Home."

With all my love,
Roy.

LETTERS FROM THE PEOPLE

ROY L. NORWOOD TELLS OF EXPERIENCES IN AFRICA, ITALY

The following letter was written by Pvt. Roy L. Norwood to his parents, Mr. and Mrs. James Norwood of Goree. Roy has been overseas approximately 13 months, and is with the field artillery forces in Italy.

Dearest Mother, Father and All: Upon request I am writing to you a letter which consists of the sights I have seen and some of my past experiences, in both Italy and North Africa. Here's hoping the censor doesn't use it for clipping..

Back in the states, we were eager to start overseas, and get our chance at whipping the Germans. At last, the day came and not a one seemed to regret getting into the boat, but deep within our hearts we hated to leave the good old U. S. A.

The ride coming over here was

"I GOT IT 'FOR FREE.' WOULD'NT SELL IT FOR \$1.00"

GET YOUR FREE COPY OF THIS WONDERFUL BOOK

Every woman who has the responsibility of keeping a home should have this handsome, illustrated book. Its 58 pages are filled with ideas, suggestions, and pictures that will help you make your home more attractive, comfortable and convenient.

Prepared and written by Cameron men, this book presents sensible, practical information; the kind that is useful in fixing up your home. You can obtain a copy of this valuable book, absolutely free, by asking for it at any Wm. Cameron & Company store.

Planning the KITCHEN

The pride of every woman is her kitchen. In this book you will find illustrations and plans for the kitchen of your heart's desire. And, best of all, those shown can be installed now. Turn your present kitchen into a brighter, more cheerful, more convenient one, now.

How to Select WALLPAPER

Nothing else adds so much to the home, per dollar spent, as well selected wallpaper. In this book, "How To Modernize Your Home," you will find authoritative information, and many hints, about how to choose wallpaper for each room. For wallpaper that will "do something" for your rooms, read this book.

Doing Tricks With COLOR

Dull, dark rooms can be changed into bright, inviting ones with the proper use of color. The color on the walls and woodwork can make a room seem smaller, larger, higher or lower. You will be delighted with the many tricks that can be worked with color. Cameron's free book tells all about them.

48 Items for Home BEAUTY

Of special interest to the women is the list of 48 items, pictured and explained, that can be added to the home for greater beauty and convenience. Mostly they are inexpensive things; those items that add little touches of hominess and convenience so desirable in every home. Be sure to read this list.

Ask At Any Cameron Store For A Free Copy Of "How To Modernize Your Home" If there is no Wm. Cameron & Company store in your town and you want this book sent to your home by mail, send 25c in coin or stamps to Wm. Cameron & Company, Advertising Dept., General Offices, Waco, Texas.

Mrs. J. W. Fowler has returned from a visit with her daughter and husband, Mr. and Mrs. Thomas Mattern of Columbus. She also visited at other points while away.

Mr. and Mrs. I. J. Troy have had word from their son, Morris, who is somewhere in the Pacific, that he is well.

Mrs. Opal Johnson spent several days in Dallas last week, shopping for merchandise for the fall trade.

Arnold Haskin has returned from the Rio Grande valley, where he visited several points and transacted business.

Mrs. George Nix, who has been a patient in the Wichita Falls clinic hospital, is improved some and is at home now.

Mr. and Mrs. F. G. Daniell have had word from their son, Forrest Jr., who is stationed in the Southwest Pacific, that he is well.

D. A. Bowles of Bomarton was a business visitor in Goree last Tuesday.

Mr. and Mrs. Vic Reeves have had word from their sons, Heard and Jim, who are in the service on foreign soil, that they are well.

Mary Jean Stevenson entered Hardin-Simmons University at Abilene for the fall term. Mrs. S. E. Stevenson accompanied her daughter to Abilene last week.

Dorothy Lee Howard of Fort Worth was a recent visitor with her parents, Mr. and Mrs. Homer Howard, and with other relatives.

Mrs. Olive Dulaney, who has been spending the past year with her family, Mr. and Mrs. Felix Harlin, is well and wished to be remembered to her old friends. Mrs. Dulaney is one of the early pioneers of this section. She says that Goree has always been home to her.

LOCALS

Mr. and Mrs. E. W. Harrell spent the first of this week in Fort Worth, attending the markets and purchasing merchandise for the Munday Hardware and Furniture Co.

Mrs. Bayse Baker, teacher in the local schools, visited relatives in Grapevine over the week end.

Mr. and Mrs. R. C. Couch of Haskell spent last Sunday with relatives and friends here.

Mr. and Mrs. J. P. (Buster) Tolson of Colorado visited relatives and friends at Benjamin and Munday several days during the week end.

Miss Merle Dingus, Miss Christine Buton, Mrs. Earl Nichols and Mrs. H. P. Hill were business visitors in Wichita Falls one day last week.

Glenn D. Rayburn, who is serving in the navy and stationed at San Diego, Calif., spent the week end with relatives and friends here.

T/Sgt. and Mrs. Troy Warren of Camp Bowie spent the week end here with their parents, Mr. and Mrs. S. A. Warren, and Mr. and Mrs. U. S. Rogers.

Mrs. Alene Collier has returned to Munday to stay for a while. Her husband, S/Sgt. Dick Collier has been sent overseas.

Deadly New Canadian Weapon Revealed

LONG on the secret list, a powerful new weapon, the "Sexton," a 25-pounder full-tracked, self-propelled mount, has just been revealed. Designed by Canadians and built only in that country, it has already been made in sufficient quantities to supply the Canadian Army, and is now being made for the British Army. A modification of the Canadian-designed Ram tank, the Sexton is already in action in France. The gun for the new mount is virtually the same as the 25-pounder which stopped Rommel at El Alamein. It is shown being installed into the mount in the lower photo, while above a line of the completed mounts lumbers out to the test ranges.

for the "big push" which will start on October 10 in every county of the Lone Star state. They are the "war fund commanders"—leaders and workers who will take part in the state-wide campaign on behalf of the National War Fund.

The war fund drive will open with a 30-minute radio program over all Texas networks and independent stations at 9:30 p. m., Monday, October 9. The following morning, a home-front army of hundreds of patriotic Texans will take the field to raise almost \$5,000,000 for the agencies of the National War Fund.

In every county of the state, local and civic leaders will head the drive, which will be publicized through newspapers, radio, billboards, and practically every other media. Texas merchants have been asked to do their bit toward success of the campaign through war fund displays in their store windows.

County campaign chairmen and publicity chairmen have supplies of a special window display instruction book, and posters, cards and other materials to be used in the displays. Merchants who have not received the materials have been asked to communicate with their local county chairmen at once.

A clean-cut, determined Texan is leading the famed Ninth U. S. Army in France. He is Lt. Gen. William H. Simpson, who hails from Weatherford.

Another Texan, Col. Bob Warren of Big Spring, recently led a horde of Flying Fortresses and Mustang fighters on a shuttle raid of central Germany, taking off from Italy and landing in England, after pasting military objectives in the Reich.

But leave it to a sergeant to have the most unusual experience of the week. In Southern France, Sgt. Bob Blair of Plainview heard enemy cannon firing and dove for a fox-hole. A German shell beat him to it, landing squarely in the hole just before Bob got there. His life saved by his slowness, Bob is determined to spend the rest of the war above ground, and leave the fox-holes for someone else.

Sharing a fox-hole with a Nazi shell isn't healthy.

Rev. Howard Hollowell of Spur spent a while last Sunday in the home of Rev. and Mrs. Luther Kirk. He has been in a meeting at Benjamin, closing out on Sunday night.

COTTON QUIZ

HOW DOES COTTON CONTROL MODERN METAL AEROPLANES?

COTTON "AIRPLANE CLOTH" COVERS THE CONTROL SURFACES—RUDDER AND ALERONS—OF ALL MILITARY PLANES.

THE OLD JUDGE SAYS...

"That's really a great editorial you just read to us, Judge. Where did you say it appeared?"
 "In 'The Stars and Stripes'... the newspaper of the U.S. Armed Forces in Europe. Kind of gives us folks back home something to think about, doesn't it, Bill?"
 "It certainly does, Judge. Particularly the last paragraph. Would you mind reading that again?"
 "Glad to, Bill. It says, 'We can remember

the days of prohibition, when moonshine whiskey made quick fortunes for bootleggers, crooked politicians and dishonest police officials. As a result, we claim we know what we want in the way of liquor legislation and feel those at home should wait until we return before initiating further legislation on liquor control."
 "Out of fairness to our boys over there fighting, Judge, how could we disobey such a wish?"

This advertisement sponsored by Conference of Alcoholic Beverage Industries, Inc.

U. S. May Send Bred Cattle To Allied Nations

Government agencies on which rest the various phases of rehabilitation of Europe maintain a tomb-like silence on the subject but there is much unofficial talk around the capital of a plan for sending up to 750,000 head of bred heifers to replace the millions of cattle consumed by the Nazi hordes in the conquered countries.

Informed sources say there is undoubtedly something to the rumors. The Allies will be compelled to feed the war-torn populations until they can be self-sustaining, it is pointed out, and no world prosperity is possible until economic stability is restored.

With seed and implements, agriculture can be re-established in less than a year but it is going to take a longer term to restore the herds of fine cattle which have been an important source of food and income, especially in northern Europe.

By having the heifers bred before they start on their ocean voyage it will be necessary to draw too heavily on the supply of registered bulls in the country and shipping space will also be saved.

Depletion of feed and compulsory slaughtering has reduced the livestock population of occupied territory in Europe by 8,000,000. L. A. H. Peters, agricultural attache, Netherlands embassy at Washington, reports.

Within two years after peace from 750,000 to 2,000,000 head must be sent to restore economic stability to those countries, Peters said.

Miss King Gives Hints On Canning For Men Overseas

"Canning in tin cans seems the most practical solution to the problem of shipping home-made goodies to men overseas," advises Miss Lucile King, county home demonstration agent.

"This also applies to fruit cake which GI's give top priority among delicacies families are now preparing for shipment prior to the deadline date of October 15 for overseas gifts," Miss King asserted.

And here is the procedure to follow, Miss King reports: "Since a homemaker can use her own favorite recipe for fruit cake, plum pudding, or Boston Brown bread, place the batter after the ingredients have been mixed well, in to greased or paper-lined R-enamel or plain tin cans. Numbers one or two cans prove more satisfactory than larger ones, and leave one to one and one-half inches for head space. The first roll on the can should be sealed before steaming the fruit cake; then the second roll should be processed in a pressure cooker.

"If the pressure cooker is used for steaming, the pot rack should be left open during the steaming time; and if a water bath is used, the hot water level should be at about two inches below the can. Steaming time for a number one can is 60 minutes; and for a number two can, 75 minutes. After the steaming seal is completed, then cans should be placed in a pressure cooker and processed at ten pounds pressure for 30 minutes."

Strangely enough, Miss King also recommends canning cookies for better shipment. And for this she suggests honey cookies, butter-

START OF AN OCEAN HOP

From Dorval airport, near Montreal, a steady stream of huge U. S.-built bombers flows out every day to the battle fronts where the United Nations are carrying the fight to the enemy. Under the direction of Air Chief Marshal Sir Frederick Bowhill the pilots of the R.A.F. Ferry Command take the flying giants over the uncharted skyways across oceans and continents. Silhouetted against the setting sun this bomber passes over the St. Lawrence River on its way out to sea. Below: Bombers, recently arrived at Dorval airport, stand on the runway.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox
M. D., State Health Officer
of Texas

Austin—Urging the importance of early diagnosis as the surest avenue of recovering from tuberculosis, Dr. Geo. W. Cox, State Health Officer, asserts that the danger of this disease lies not so much in its virulence as in its insidious attack.

"If a tuberculosis patient realized his plight in the earliest stages of the disease, immediate treatment could very likely save his life," Dr. Cox said.

The victim usually has sufficient warning of the onset of the disease, but all too frequently ignores them. "The warning signs are usually noticeable enough to attract attention," Dr. Cox said. "A cough that persists, loss of weight, easy tiring—if any of these symptoms are present, delay in seeking proper medical attention only lessens the chance of arresting the disease."

"It is the better part of valor, in the presence of such symptoms, to seek the advice of the family physician without delay," Dr. Cox stated. "Early diagnosis and early treatment are the real foes of tuberculosis. To deprive oneself of their immeasurable advantages results

scotch, or those made with dried fruit or molasses. Candies may be packed in a can easily with layers of waxed paper between each piece of the layers and the extra space filled with popped corn or nuts.

"Send that man his favorite dish—fried chicken, or send barbecued meat, chili, or tamales," Miss King challenges homemakers.

Preserves packed in tin are usually acceptable, and relishes and pickles are fine for a short period of time, provided they are canned in R-enamel cans.

ATTENTION: FARMERS AND ALL GRAIN GROWERS!

I have just recently installed a new large size Scow Rotary disc roller machine, equipped with all the very latest devices, including the new screw feed drive, same as on a turning lathe, for sharpening disc of all sizes. This machine does not destroy any temper.

No Grinding, No Cutting.. Just Simply Cold Rolling!

My machine is also very highly recommended by all the larger equipment manufacturers, for sharpening, their electric heat treated disc.

Bring your disc in and have them sharpened the correct way.

We also do electric and acetylene cutting and welding.

375 Boys And Girls Attend All Club Meetings

Three hundred and seventy-five boys and girls attended the I-H Club meetings held throughout Anox county during the third and fourth weeks of September.

A demonstration was given by the agents on "Producing Clean Milk and Milk in the Daily Diet," in the form of a skit. An easel containing a number of drawings on "Production of Clean Milk and Milk in the Daily Diet" were prepared by Lucile King. These were used throughout the skit.

R. O. Dunkle, county agent, talked first on the "Production of Clean Milk." He showed the correct type milk pail, strainer, rubber pad, brush and disinfectant to use. He showed them how to make the disinfectant. He told them about the proper care of the cow, the care of the milk, and the milk.

During the club meetings, Mrs. Jones and Mrs. Smith attended the demonstration. They were having some trouble with their cows givingropy milk. Mrs. Smith said when she washed her milk buckets with hot water and soap they always got slick. She said Mr. W. C. Canningham said that her cow probably had the hollow horn or hollow tail. He said his cows milk got that way one time and that was his trouble. Mrs. Smith and Mrs. Jones seemed very interested in the demonstration from the number of questions they asked.

Miss King, county home demonstration agent, talked on the "Nutritional Value of Milk in the Daily Diet." She demonstrated making three milk drinks. They were as follows: Cocomalt, Chocolate milk and orange-nog. These drinks were served to the boys and girls.

Two chickens that had been used in an experiment on Milk Made the Difference were also used in the demonstration. One was fed a regular diet and the other was fed a regular diet plus milk. These chickens were weighed and there was 1 1/2 pounds difference in three months time.

The parents of Delmar Cadwell have received a letter from him, requesting The Munday Times to be sent to his address. Delmar is serving with the U. S. forces somewhere in Italy.
