

Moguls To Play Anson On Home Field Friday

Game Is Expected To Attract Many Of Local Fans

Munday's Moguls will see action on their home field for the first time this season when they meet Anson in a conference game next Friday night.

Coach Morrow has his charges working daily for the tilt, and they are expected to make a good showing against Anson, who is just now entering the conference play. Anson warmed up for the conference schedule last Friday night by beating the Class B Aspermont Hornets, 26-0.

Plenty of action will be seen on the local gridiron at the opening whistle, and many Mogul fans who have not followed the team to other towns are expected to be on hand. The game is called for eight o'clock.

In the conference standing, Haskell carries a slightly better record into the top rated contest. Haskell, Stamford and Seymour are holding top position. The Indians are unbeaten and once tied, while Stamford Bulldogs dropped a 25-7 decision to Roby in a non-conference opener and last week bounced back to take Albany Lions, 12-6.

Seymour, unbeaten and untied in four games, is rated the edge over Albany. The teams will play Friday night at Seymour.

Conference games this week are: Stamford at Haskell, Anson at Munday and Albany at Seymour.

Earl M. Forrest Awarded Citation

Mr. and Mrs. A. B. Forrest of Munday last week received a citation which was awarded to their son, Earl M. Forrest, coxswain in the U. S. Coast Guard, for courageous performance in landing his barge during the assault on Eniwetok Atoll, Marshall Islands. Forrest is serving on an assault transport, and has taken part in a number of invasion landings. The citation is as follows:

The Commander in Chief, United States Pacific Fleet, takes pleasure in commending:

Earl M. Forrest, coxswain, United States Coast Guard, for services as set forth in the following

CITATION:

For highly courageous and outstanding performance of duty as coxswain of a landing barge during the assault on Eniwetok Atoll, Marshall Island Group, February 17 to 22, 1944. He operated a landing barge from his ship in three separate attacks upon the island of Eniwetok. The skillful handling of his boat under heavy rifle and machine-gun fire, his unceasing efforts in the transportation of troops and supplies to the beaches, and his efficiency in the continuous operation of his boat throughout the operation, contributed materially to the successful participation of his ship in this assault. His splendid performance and devotion to duty on this occasion were in keeping with the highest traditions of the naval service.

C. W. NIMITZ,
Admiral U. S. Navy.

Two Students From Munday Enrolled At McMurry College

McMurry College, Abilene—Students from Munday who have enrolled in McMurry College this year include James Carver, son of Mr. and Mrs. C. C. Carver and Patsy Kirk, daughter of the Reverend and Mrs. Luther Kirk. Mr. Carver is a sophomore student whose major is in history.

Miss Kirk, whose parents are both former students of McMurry, is outstanding in the Mission Band, Wawassa Club, Kappa Phi social club, Student Council of Religious Activities, Chanters and Alpha Theta Nu literary society. She is a member of the sophomore class.

GOREE BOY GETS HIS PROMOTION TO CAPTAIN

Gene M. Heard, son of Mr. and Mrs. W. S. Heard of Goree, was recently promoted from first lieutenant to captain, his parents have been advised. Capt. Heard is training with the Army Air Forces at Great Falls, Montana.

Dick Wardlow Is Back In States

Mrs. Dick Wardlow of Munday received word from her husband, S/Sgt. Dick Wardlow, that he is back in the states, arriving in New York last Tuesday.

Sgt. Wardlow participated in the invasion of France and was wounded in the arm during the battle of Normandy. It is likely he will receive a furlough to visit his people here soon.

Knox County Hospital Notes

Patients in Knox County Hospital October 10, 1944:

T. C. Posey, Knox City.
Mrs. U. L. Bennie, Knox City.
Billy Lewis, Knox City.
J. R. White, Knox City.
Mrs. Merle Lambeth, Goree.
Mrs. Grady Horey and baby son, Goree.
Mrs. Geo. Nix, and baby son, Goree.
Mrs. T. Q. McMinn, Benjamin.

Patients Dismissed Since Tuesday, October 3, 1944:

Mrs. B. L. Lawson, Munday.
Royce Stephens, O'Brien.
Carl Marshall, O'Brien.
Mrs. Erwin Booe, and baby girl, Munday.
Florence Diaz, O'Brien.
Maggie Silas, O'Brien.
Mrs. J. T. Newkirk and baby son, Munday.
Mrs. R. L. Headrick, Benjamin.
Marion Hicks, Rochester.
Vernice Lee Best, Rochester.
Lavon Best, Rochester.
Mrs. Ira Hester, O'Brien.
Mrs. Don Estes, and baby son, Seymour.
Mrs. G. L. Neeley, Haskell.
Mrs. D. V. Gilbert and baby daughter, Benjamin.
Mrs. Kenneth Strickland and baby son, Rochester.
Mrs. Coy Tuggle, Munday.
Mrs. Allon Shaw, Seymour.
Mrs. S. B. Spurlin, Rule.
G. W. Carter, O'Brien.
E. J. Johnson, Vera.
E. W. Hutchens, Goree.

Births

Mr. and Mrs. Geo. Nix, Goree, a son.
Mr. and Mrs. Grady Howrey, a son, Goree.
Mr. and Mrs. Erwin Booe, Munday, a daughter.
Mr. and Mrs. J. T. Newkirk, a son, Munday.

A Wac Prepares a Weather Map for Army Flyers

Sergeant Gwendolyn Eymers of the Women's Army Corps works on a weather map for the guidance of pilots of the Air Transport Command at Grand Field, New Hampshire. Sergeant Eymers, whose home is in Ellendale, North Dakota, is a dress designer in civilian life.

KAISER WARNS AGAINST MINORITY RULE; URGES RECORD TURNOUT FOR REGISTRATION AND VOTING

NEW YORK—Less than half the nation's 88,000,000 eligible voters may determine the outcome of the November election unless more people register and vote, warns Henry J. Kaiser, noted ship and plane builder and chairman of the Non-partisan Association for Franchise Education.

Pointing out that dwindling election returns in the past six years represent a threat to majority rule, Kaiser told association members "prospects for a healthy turnout for registration now and at the polls in November are fairly grim." A nationwide campaign to urge citizens to exercise their franchise is now under way.

In his report Kaiser said women voters could increase the number of ballots cast by at least 5,000,000 by going to the polls in greater numbers than heretofore. He predicted the vote this year would be 10,000,000 less than in 1940 unless the public acts to remedy the situation.

Kaiser also urged families which have moved to new districts to register at once, or, lacking residential voting qualifications, to communicate with election authorities in their home towns to cast absentee ballots. He said migrant workers represent a potential voting force of 15,000,000.

The famous production wizard, who has tossed his hat into the political ring for the first time, is rigidly nonpartisan in his new role. "We're simply trying to get people to register and vote," he told reporters. "We're not plumping for

Henry J. Kaiser

any particular party or candidate. He has written President Roosevelt and Governor Dewey, as well as Governor Bricker and Senator Truman, asking their endorsement of a record popular vote.

170,509 Aged People On Pension Rolls

Austin—Old Age Assistance totaling \$3,697,017.75 is being paid in September to 170,509 aged persons in an average grant of \$21.58. In August the average grant was \$21.59 with rolls of 170,850. Payments are \$1.25 below the authorized grant.

Aid to the Blind is being paid to 4,623 persons in an average grant of \$24.10, totalling \$111,401. In August the rolls were 4,611 with \$24.09 as the average grant.

Aid to Dependent Children is being paid to 10,697 families with 23,262 children. The average grant is \$20.88.

Knox City Man Now Lieutenant

Camp Lejeune, N. C.—Marine Second Lieutenant Henry Jean Jones, son of Mr. and Mrs. H. M. Jones of Knox City, Texas, was appointed to that rank today in the first class of officer candidates ever commissioned at this Marine base.

Lieutenant Jones, a graduate of Knox City high school, attended Abilene Christian College in Abilene, Texas, and Southwestern University in Georgetown, Texas.

Ready for assignment to reserve officer classes, the newly commissioned officers have completed 15 months of combined college V-12 and Marine Corps preparation. In March, the men went to Parris Island, S. C., for regular Marine recruit training, following which they transferred to Camp Lejeune as Officer Candidate applicants.

Posthumous Award Of Purple Heart Is Given Local Boy

Mrs. Alice Allen of Munday received a citation for the award of the Purple Heart, awarded posthumously to her son, First Lieut. Reuben F. Allen.

Lieut. Allen, serving in the U. S. Army, was reported missing in action in the North African area on July 19, 1943. The award, accompanied by a memorial citation from President Roosevelt, was authorized a year after he was reported missing.

The citation read: "For military merit and wounds received in action, resulting in his death, July 20, 1944." It was dated October 10, 1944.

HASKELL ASSOCIATION TRAINING UNION WILL MEET NEXT SUNDAY

The Haskell Association Training Union will meet next Sunday afternoon at three o'clock with the Haskell East Side Baptist church. Rev. Miles B. Hayes, district director, will deliver the principal address.

Officers for the year are to be elected and installed, following a song service led by Leonard Foree and a devotional period in charge of Rev. Walter L. Copeland of Welnett.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Erwin Booe are proudly announcing the arrival of a daughter, who was born at the Knox county hospital on Friday, October 6. She has been named Shirley Nell. Mother and little daughter are doing nicely.

Keep Up With Rationing

RATION REMINDERS

MEATS, FATS—Red stamps A8 through Z8 and A5 through K5, good indefinitely. No new stamps until October 29.

PROCESSED FOODS—Blue stamps A8 through Z8 and A5 through K5, good indefinitely. No new stamps until November 1.

SHOES—Airplane stamps 1 and 2, good indefinitely. New stamp good November 1.

GASOLINE—In 17 East Coast States, A-11 coupons, good through November 8. In states outside the East Coast area, A-13 coupons in new "A" book, good through December 21.

SUGAR—Sugar stamps 30, 31, 32, and 33 each good for five pounds indefinitely. Sugar stamp 40 good for five pounds of canning sugar through February, next year.

FUEL OIL—Period 4 and 5 coupons and new period 1 coupons, good throughout coming heating year.

OVERSEAS CHRISTMAS PACKAGE MAILING—October 15 last day.

PLENTIFUL FOOD—Onions.

Goree First In County To Pass War Chest Quota

Cecil J. Burton Back Home From Pacific Area

A Munday boy has traveled approximately 7,500 miles for his first visit with his parents in almost three years. He is Sgt. Cecil J. Burton of the U. S. Marine Corps.

Sgt. Burton is home on a 30-day furlough to visit his parents, Mr. and Mrs. Cecil Burton of Munday; his grandparents, Mr. and Mrs. R. V. Burton of Benjamin, and other relatives.

He was reared in Knox county and attended the Sunset schools, and for 27 months has been avenging the attack on Pearl Harbor, fighting the Japs out of foxholes and clearing Pacific Island jungles of Jap snipers.

Sgt. Burton enlisted in the Marine Corps on December 17, 1941, and this is his first furlough home. After training in the states for about six months, he sailed for the Jap infested area and was in the early fighting on Guadalcanal.

Burton wears the overseas service badge, signifying 27 months of service overseas, and the stars of four major engagements against the Japanese. These battles were Guadalcanal, Tarawa, Saipan and Tinian. He was slightly wounded by a Jap sniper on Tarawa, but soon recovered from his wounds and joined his unit for the invasion of Saipan.

"Nothing looked better to me than the old home town when I landed here last Friday night," Sgt. Burton said. "It's great to be home among those I love. The town hasn't changed much except that those boys I grew up with are in the service, and the streets seem kinda vacant."

At the end of his furlough, Sgt. Burton will report for duty at Quantico, Virginia.

Rhineland To Repeat Feed On Thanksgiving

The annual Thanksgiving celebration will be held again this year, Rev. Herman Laux, O. S. B., pastor of St. Joseph's church, announced this week.

The annual Thanksgiving dinner and supper will be served at the community hall, the supper to be followed by a dance.

Plenty of good eats and amusement is promised for everyone, and the public is asked to keep the date, Thanksgiving Day, in mind.

New Shoe Stamp To Become Valid On November First

Another shoe ration stamp will become valid November 1, the rationing division of the Office of Price Administration has announced. In addition, both of the currently valid shoe coupons—airplane stamps 1 and 2, in War Ration Book III—will overlap the new stamp and will continue to be good indefinitely.

Early assurance that another stamp will be validated is being given so the shoe trader can prepare his stocks, and to let consumers know they can count on a new ration before winter.

Weather Report

Weather report for the period of Oct. 5th to Oct. 11th, inclusive, as recorded and compiled by H. P. Hill, Munday U. S. Cooperative Weather Observer:

	Temperature	
	LOW	HIGH
Oct. 5	55 45	87 76
Oct. 6	63 49	88 71
Oct. 7	63 39	79 74
Oct. 8	58 41	76 79
Oct. 9	51 56	80 85
Oct. 10	56 50	81 78
Oct. 11	55 56	69 72

Rainfall to date this year 16.72 inches; rainfall to this date last year 10.18 inches; rainfall since Nov. 1, 1943, 20.95 inches.

Bricker to Speak In Texas Cities

Governor John W. Bricker of Ohio, candidate for Vice President of the United States, will speak in Dallas and Fort Worth on Wednesday, Oct. 25.

Poultry Culling Demonstration To Be Given By Agents

The Extension agents, Lucile King, county home demonstration agent, and R. O. Dunkle, county agent, will visit all 4-H Clubs next week and will give a demonstration on Culling of Hens and Food Wastes. Since there is so much interest throughout the county in the culling of poultry, the agents are asking all farmers and farm women within the community to attend the demonstration with the 4-H Club boys and girls, according to the following schedule:

Every person engaged in poultry production, regardless of the size of the enterprise, should have a working knowledge of culling. The owner of the flock should cull the flock and not depend upon someone else. It should be born in mind that profitable egg production depends upon the efficient use of feed by the hen in the manufacture of eggs.

It is the object of culling to remove from the flock those hens that do not make efficient use of their feed.

Two hens will be used in the demonstration to illustrate the difference in molt, difference in color of shank, difference in head and the difference in body.

The schedule of meetings is as follows:

Hefner—October 16, 9:15 a. m.
Munday—October 16, 11 a. m.
Truscott—October 17, 9:15 a. m.
Benjamin—October 17, 2:00 p. m.
Union Grove—Oct. 19, 1:00 p. m.
Knox City—Oct. 19, 3:00 p. m.

Good Market For Cattle At Auction Sale

The Munday Livestock Commission Co. reports a big run of cattle and hogs for last Tuesday's sale with a good, active market on all classes of cattle.

Canner and cutter cows sold from \$4 to \$7 butcher cows \$7.25 to \$8.50; beef cows, \$9 to \$10.50; butcher bulls, \$6.50 to \$7.50; beef yearlings, \$7.75 to \$9; butcher yearlings, \$8.50 to \$10.50; fat yearlings, \$11 to \$13; rannie calves, \$6 to \$7.50; butcher calves, \$8 to \$10.75; fat calves, \$11 to \$12.80.

Several bunches of light stocker calves sold by the head from \$22.00 to \$34.50.

JIM ISBELL RESIGNS AS HASKELL DEPUTY

Jim Isbell, a former resident of Munday who has served as deputy sheriff in Haskell for the last five years, has resigned his position with the sheriff's department.

Isbell has moved to New Mexico, where he has taken another position.

Mrs. L. B. Lee of Wichita Falls is here this week for a visit with her mother, Mrs. A. F. Huskinson.

Effort Being Made To Raise Quota For Knox County

Wats off to Goree—the first community to top its quota in the United War Fund drive—thus setting the example for all of Knox county to follow!

In less than two days' time, Goree has topped her quota by over \$200.00. Forrest Daniell was in charge of the drive, and he reported splendid response upon the part of Goree citizens.

The drive started Monday, and Tuesday afternoon deposits in the local bank had reached \$1,103.00. Goree's quota is \$758.00.

W. R. Moore, county chairman, is very proud of the patriotic spirit of Goree citizens in making their town the first in the county to report such splendid results.

In Munday, the drive got off to a slower start than last year. Munday committees are doing splendid work, but many people have not yet been contacted. The drive is expected to reach a successful climax in the next few days. If you have not been contacted, see any one of the committee in your community, who will be glad to report your contribution.

Let's all push this worthy cause. "You give to your own—and to our allies!"

Other communities of the county are also reporting good results, and it is believed the Knox county quota will be raised within the week.

Stamford To Hold Dist. Meet Of Legionnaires

The 17th District War Conference of the American Legion will be held in Stamford October 21 and 22. A. L. Stell, district commander, made arrangements while in Austin for A. O. Willmon, director of the Veterans' State Service office, to be in Stamford for this conference.

Bert Geisecke from Austin will also appear on the program, and Lee Smith, newly elected field secretary of the Legion, will be the guest speaker.

Registration will begin at 2:00 p. m. Saturday, October 21 and the joint session will convene at 9:30 a. m. Sunday. Other features of the Saturday session will be a Post Commanders and Adjutants dinner at 7 o'clock and a dance at 9:00 p. m.

Mrs. Wilmoth Hudgins, department president of the Auxiliary, will address the joint session Sunday morning.

Vernon Hart Post 100 of Stamford and the Auxiliary will be hosts Sunday morning to a breakfast for all visiting Legionnaires and their wives at the Legion Hall.

By arrangements being made by the planning committee of the Stamford Legionnaires, Commander Stell predicts that this will be the finest war conference held in the 17th district.

Per Capita School Money Received By Common Schools

A payment of \$3.00 per capita for the common schools of Knox county was received from the state this week, County Supt. Merick McGaughey announced Tuesday.

A payment of \$4.00 per capita was made in August, coming from a left-over fund from last year's school operations, and the additional payment this week makes a total of \$7.00 per capita to be applied on this year's school operations.

Mr. McGaughey stated the money has been apportioned to the schools of Knox county.

GOREE MAN IS NAMED SAGERTON DEPOT AGENT

Gene Shackelford of Goree was recently appointed to serve as depot agent for the Orient Railway at Sagerton, Texas, and has gone to that place to assume his duties.

Shackelford is the son of Mr. and Mrs. E. V. Shackelford, and served as agent at Goree for several months while his father was doing extra work on the railroad company's main line.

What a Man Does For Himself Dies With Him—
 What He Does For His Community Lives On and On

V-DAY PRECAUTIONS

News of the end of the war in Europe will affect people in many different ways. To most it will be a day of thanksgiving, but with the reservation that many long months of fighting are still before our armed forces in the Pacific.

Whether fires and other damage to property will result from observance of victory in Europe will be largely in the hands of individual citizens. Municipal officials therefore are urged to stress measures which will minimize the likelihood of such damage. Following are suggestions to consider in connection with such prevention efforts:

1. Urge that conditions in offices, stores, factories and homes which might cause fire be properly cared for before leaving. Fire guards in office and mercantile buildings should be charged with the duty of maintaining fire watch after other employes have left.

2. Try to prevent false fire alarms. Some cities plan to assign off-duty firemen or auxiliary firemen, or other civilian defense workers, as watchers at fire alarm boxes.

3. Try to prevent bonfires. This duty could be assigned to local civilian defense fire wardens and fire watchers.

4. Auxiliary police can be used to point out to drivers that cars parked to watch parades could obstruct fire department apparatus which might be responding to an alarm.

5. Urge that children be kept out of crowds. Panic may easily occur under the condition of excitement which probably will exist.

V-Day will be a time for universal thanksgiving, but the observance of European victory should not carry with it any element that may endanger life and property.

ASK THE NEWSBOY

The success of any enterprise in a free country is in direct proportion to the service rendered. Anyone who has done a day's work should realize this basic truth. Ask the newsboy how he gets and keeps his customers. If he is a successful newsboy, his answer will be the same as that of the president of the largest corporation. He tries to do a good job.

New industries are the result of someone figuring out a way to supply something the public wants. A hundred years ago a train conductor saw the need of speedy transportation of certain types of perishable or valuable commodities. Out of his idea, the Railway Express Agency developed. While it carries the name of railroads, it does not confine its activities to moving goods by rail. As in the beginning, its primary objectives is to render a special fast shipping service to the public, regardless of the means of conveyance.

When the potentialities of air transport were recognized, air express and combined rail-air express were established. Packages can now be shipped by air from thousands of off-airline points. Every railway express office is an air express office. Parcels marked for air express travel by rail to the nearest airline and are transhipped.

Without stopping to consider the newness of air transport, some so-called "experts" occasionally point to the volume of air express shipments as compared to rail express, and infer that the railroads are being favored. Thus, they show their ignorance. Air express will expand as rapidly as demand and facilities permit, because express, like the airlines, the railroads, or the corner grocery, must give the public the service it wants, if it is to survive. It lives by the same rules as the newsboy.

PERFORMANCE WITHOUT PLAUDITS

A year ago a nationwide survey revealed that the public held harsh views on the wages, working and living conditions, and employ treatment by employers in the coal mining industry. Public opinion was biased because coal had been made a political football.

Instead of trying to dodge an unpleasant issue, coal mine operators determined to demonstrate that theirs was a modern, progressive industry capable of meeting any needs of the nation. They pushed coal production to record levels, in spite of manpower and machinery shortages. They continued the development of safer, drudgery eliminating methods in mines. They redoubled research activities in the hunt for post war coal markets. Whenever and wherever possible, they presented the story of coal to the people.

Not long ago, British authorities, after studying the American coal industry, strongly urged that England adopt the methods and practices of our coal producers. That is a heartening tribute to an industry that has probably done more for the war effort, with less encouragement, than practically any other industry in our country.

THEY HAVEN'T FORGOTTEN HOW

The Atlantic Coast has witnessed another demonstration of the value of efficient mass retail distribution. The recent hurricane, according to reliable reports, blew five million bushels of apples to the ground in the states of Maryland, Delaware, New Jersey, New York, Rhode Island, Connecticut, Massachusetts and New Hampshire. Only one thing could save the apples—prompt marketing. Apple growers requested the help of food chain stores in the emergency. And as once before in the hurricane of 1936 when the apple crop was "harvested" prematurely by the wind, the chains responded wholeheartedly.

Indications are that as a result of the speedy action of these food distributors, millions of bushels of apples that would otherwise have gone to waste will find their way onto the dinner tables and canning shelves of consumers.

This effort to save the apple crop is reminiscent of the days when the chain stores carried on producer-consumer campaigns to move surplus crops. In those days, farmers faced with ruin because of the lack of a market, discovered a powerful ally in the chain stores. They took crops and made markets for them where none existed, through intensive promotional publicity. People who had never eaten some foods were taught to eat them. The producer-consumer campaigns were a benefit to the whole country.

It is cheering to note that the chains have not forgotten how to stimulate the sale of surplus crops. Someday their skill in this direction may again be needed.

A DRAMATIC RECORD

War is a stern teacher but a great teacher, in the opinion of Robert R. Henry, assistant to the president, Association of American Railroads. "Five years ago," he said, "there were persons whose information was more extensive than exact, who had proved to their own satisfaction that this country could safely neglect its railroads and should direct its future energies and expenditures toward expansion of other means of transportation. The crucial test of war has taught even the blindest that this nation, builded upon railroads as it is, depends upon them today for its essential transportation needs."

"...In this war, railroads are carrying virtually double the load of the last war. They are doing it with one-fourth fewer cars, one-third fewer locomotives, and nearly one-third fewer employees. They are doing it with none of the chronic congestion and prolonged delays of that time. In that war, when the government took over operations of the railroads, they found it necessary to make substantial increases in freight rates. In this war... no freight rates are higher than at the beginning of the war, and many rates are lower. In the first world war, the operation of the railroads cost the government two million dollars a day, appropriated from the public treasury to meet deficits of the operation. In this war, the railroads since Pearl Harbor have paid in Federal, state and local taxes more than four billion dollars, and are paying taxes at the rate of five million dollars a day—ten times as much as they are paying their owners in dividends."

The railroads have been able to work this miracle because of their technological advances; the faith of their investors who made possible the expenditure of \$10,000,000,000 for railroad improvement in the past twenty years; and because of cooperation between railroads and shippers. But, as Mr. Henry concludes, underlying these three factors and making them possible, is one other and far greater fact—the freedom of a free America.

A Swede walked into a saloon and asked for a drink of squirrel whiskey. The bartender said: "I haven't any squirrel whiskey, but have some Old Crow." The Swede said: "I don't want to fly, I just wanted to yump round a little."—Wichita (Kans.) Democrat.

Gems Of Thought

INDEPENDENCE
 The word independence is united to the ideas of dignity and virtue; the word dependence, to the ideas of inferiority and corruption.—J. Bentham.

Let all your views in life be directed to a solid, however moderate, independence; without it no man can be happy, nor even honest.—Junius.

Right motives give pinions to thought, and strength and freedom to speech and action.—Mary Baker Eddy.

Independent thought is the only true preparation for a proper study of the thought of others.—Calderwood.

It is easy in the world to live after the world's opinion; it is easy in solitude to live after our own; but the great man is he who in the midst of the crowd keeps with perfect sweetness the independence of solitude.—Emerson.

There is often as much independence in not being led, as in not being driven.—Tyron Edwards.

I GIVE YOU TEXAS
 by BOYCE HOUSE

Here's a million-to-one shot: J. A. Gooch, prominent Fort Worth lawyer, is known as "Tiny," a nickname that the giant acquired during his football days at the University of Texas. The other day, your columnist ran into him and as we stood waiting for a traffic signal to change, I asked: "What is your sure-enough name, Tiny?" He reddened a little and said, "That's a secret." Just then a man turned the corner in an automobile and yelled, "Hello, Aubrey." I looked at Gooch and Gooch looked at me and then he said, with a weak smile, "You got me, sheriff!"

A little-known natural wonder is to be found in Montgomery county—a magnolia forest. Not a clump or cluster of magnolias but a forest that is three miles long and from a quarter to a half mile in width. Magnolia Ridge is eight miles southeast of Conroe—and when the war ends and the tourist crop is again one of the nation's biggest "industries," the forest of towering magnolias should prove an attraction drawing many visitors annually.

The trouble with an "authority" is that he can't be simple about anything. Ask him, for example, what a cat is. The first word I learned to spell was C-A-T. Everybody knows what a cat is. A cat is a cat (as Gertrude Stein of "a rose is a rose is a rose" fame put it.) But that's too simple, too obvious for an "authority." What does the learned man allow? Why he says: "Cat, the general name for all quadrupeds of the family Felidae of the carnivorous order." I bet you didn't know that a cat had a last name and belonged to a family named Felidae, did you? Neither did I, and I doubt if the cat knows it, either.

CHILDREN BUY 33,100 'JEEPS' WITH SAVINGS
 Toledo — America's 30 million school children, investing only 50 cents a week in war savings stamps during the school year, have "paid for" 33,100 of the 200,000 "jeeps" that have rolled off the Willys-Overland assembly lines, the War Finance Division of the Treasury Department informed officials of the auto concern here today.

Summing up the results of a campaign in which the children were allowed to designate their purchase, the Treasury reported that the versatile scout cars were favored over all other types of military equipment. Each jeep, completely fitted for combat, "cost" the pupils \$1,165. Many of the vehicles were outfitted with special metal plaques designating the school which purchased it with war stamps.

THRIFT IS A DUTY OF EVERY AMERICAN . . .

In this time of stress, each of us owes it to his country to be thrifty. We must conserve materials on the one hand so they will be available for defense purposes. We must conserve money, on the other hand, to help our country and to help ourselves in the post-war period.

By being thrifty, and by accumulating money in your bank account, you are contributing to your country's welfare, while at the same time helping yourself.

Fire Protection for Farm

THE observance of National Fire Prevention Week, October 8-14, should be of special interest to every farmer. For farm fires have increased substantially, destroying thousands of barns, farm buildings, and large quantities of farm machinery difficult to replace.

Proceeding to the National Board of Fire Underwriters, next to rodding butts and locking to chimney construction, the most important thing the wise farmer can do to protect his property is to cover every structure with a fireproof material. Sparks may find their way to a combustible roof from many sources; they may drop from the chimney, they may be whirled aloft from a grass or brush fire, or blown from a neighboring building.

To guard against the danger of combustible roofs, one of the best fireproof roofing materials available today is asbestos cement shingles. These can be applied over the present roofing on most buildings and will give years of service. A similar product, asbestos cement siding, can be obtained for protecting the sidewalls of buildings.

WFA ADVISES CONSUMER TO BUY STORE ONIONS NOW

Storage at home now to insure plenty later—is the policy recommended today by the War Food Administration in designating onions a Victory Food Selection from September 21 through October 7, and in advising consumers to store a few pounds.

Onions actually are not a surplus commodity but are in dire need of home storage to supplement rapidly filling warehouses, WFA officials explained. Civilian consumers who help to absorb the crest of the current harvest through greater consumption and home storage also will be taking out insurance against a time when onions, like other agricultural products, become seasonally scarce in the vegetable bins of the grocery store. Unless storage in trade and in consumer's homes—is found for a large part of this year's harvest, there will be no place for the extra supply to go, and an important part of the crop may be left in the fields and lost.

The current onion supply from an estimated production this year of well over 17,000,000 100-pound sacks, 52 percent greater than last year's production, is the opposite picture from the onion-less days of only a few months ago.

In his designation of onions as a Victory Food Selection, Lee Marshall, director of WFA's office of distribution, stated: "The onion crop this year bids fair to be the largest in our history. Those of us who remember last year's shortage will appreciate all the more the contribution that American farmers have made to our lunch pails and dinner tables in making available to us once again a plentiful supply of this flavorful and appetizing farm commodity. Farmers have worked long and hard under difficult conditions of labor and material shortages to accomplish this. We are sincerely grateful to them for their efforts."

"Storage problems resulting from this crop make it necessary that growers, the food trade, the consumer, and the government cooperate in doing everything possible to move onions through trade channels to consumers at fair prices."

"During the period September 21 through October 7, all food merchants, eating places, distributors and channels of public information all over the nation are urged to feature onions as the Victory Food Selection. In food sales promotion and in consumer food services, attention should be focused on the seasonal abundance of this desirable food, with an appeal to buy and store more onions. This is one way in which every consumer can do his part in helping make the fullest use of our food supply and in repaying the American farmer for his magnificent performance."

For satisfactory home storage over a period of several months: 1. Select good fully dried onions. 2. Keep in a dry place. This is most important. Humidity may cause onions to rot. 3. Keep at temperatures as near to freezing as possible, but do not permit to freeze. Onions store satisfactorily at from 32 to 55 degrees for they may tend to sprout if storage space is too warm. 4. Provide free circulation

of air. Never pack closely in a container. Spreading out helps. The pantry or attic is usually superior to the cellar for storing, as cellars are often damp. Spreading on a screen placed overhead in the garage, back porch, etc., is a good idea if temperatures remain above freezing.

BIRTH ANNOUNCEMENT
Mr. and Mrs. Don Estes are announcing the arrival of a new son, Don Jr., who was born at the Knox county hospital on Tuesday, Oct. 3. Mother and son are doing nicely.

Legal Notice

STATEMENT OF THE OWNERSHIP, MANAGEMENT, CIRCULATION, ETC., REQUIRED BY THE ACTS OF CONGRESS OF AUGUST 24, 1912, AND MARCH 3, 1933.

of The Munday Times, published weekly at Munday, Texas, for October 1st, 1944.

State of Texas
County of Knox, ss
Before me, a Notary Public in and for the State and county aforesaid, personally appeared J. W. Roberts, who, having been duly sworn according to law, deposes and says that he is the Owner of The Munday Times, and that the following is, to the best of his knowledge and belief, a true statement of the ownership, management (and if a daily paper, the circulation), etc., of the aforesaid publication for the date shown in the above caption, required by the Act of August 24, 1912, as amended by the Act of March 3, 1933, embodied in section 537, Postal Laws and Regulations, printed on the reverse of this form, to-wit:

1. That the names and addresses of the publisher, editor, managing editor, and business managers are: J. W. Roberts, Munday, Texas.

Goree Study Club Begins Work of Year October 4th

Members of the Goree Women's Study Club opened their year's work on Wednesday, October 4, meeting in the home of Mrs. Georgia Maples.

Mrs. Maples greeted her guests at the door. For diversion, the members played forty-two. One guest, Mrs. James K. McConnell of New York, was present.

A delicious salad plate was served, after which each member was presented with a year book.

Present were Mrs. W. M. Taylor, Homer Moore, Sam Hampton, Forrest Daniell, S. E. Stevenson, John Goode, Will Ratliff, Orb Coffman, Ernest Robinson, H. D. Arnold, James K. McConnell, E. F. Heard, Miss Berniece Goode, and the hostess.

Busby Family Holds Reunion On Last Sunday

It was a joyous occasion for Mr. and Mrs. Tom Busby of Munday when all of their children gathered in their home last Sunday for a family reunion. This was the first time the group had been together in some time.

Mother Busby prepared a delicious dinner for the children, and they gathered around a heavily-laden table at the noon hour to enjoy the meal. The family spent a very enjoyable day, visiting and talking over old times.

Children present were H. C. Busby and family of Abilene, Elton Busby and family of Brownfield, Mr. and Mrs. T. R. Busby of Toykie, Pvt. Douglas Busby, who is stationed at Fort Jackson, S. C., and his wife and little son of R. C.

Others present for the dinner were Mr. and Mrs. A. Y. Barnes of Haskell, Pvt. and Mrs. Jack Land and daughter of Camp Walters, and George Hammack.

Calling during the afternoon were Mr. and Mrs. Weldon Floyd and family of Sunset and Mrs. A. U. Hathaway of Munday.

DANCE AT RHINELAND

A dance will be held at the Rhineland community hall on Tuesday night, October 17. Music will be furnished by the Brown Debies of Stamford. The public is cordially invited to attend.

BIRTH ANNOUNCEMENT

A new son has been welcomed to the home of Mr. and Mrs. J. T. Newkirk. The child was born at the Knox county hospital on Thursday, October 5, and mother and son are reported doing nicely.

Tea Given On Tuesday Honoring Helen Albertson

Mrs. Helen Albertson was honored at a lovely gift tea from 7 to 9 p. m. Tuesday, October 10, in the home of Mrs. B. L. Blacklock. Miss Albertson is to be married to Aviation Cadet T. R. Havins, who is in training at Pensacola, Fla., on October 24.

Hostesses for the occasion were Misses Blacklock, Leland Hannah, J. B. Bowden, Nell Hardin, M. L. Joyce, Rose Jones and Miss Juarcy Jones.

As the guests entered, they were greeted at the door by Mrs. Blacklock. Miss Juarcy Jones presided at the bride's book, where guests registered, and Mrs. Joyce served punch.

The lovely lace-covered dining table was centered by a huge bouquet of carnations and dahlias.

Music was furnished by Mrs. Louise Ingram, pianist, and Miss Gail Reynolds, vocalist.

Guests calling during the evening included Mrs. D. D. Clough, Paul Pruitt, J. E. Reeves, Sam Salem, A. L. Smith, C. P. Baker, M. H. Reeves, Travis Martin of Seymour, Effie Alexander, A. A. Smith, Madge Ballinger, Maurysse Blacklock, J. B. Bowden, S. A. Bowden, Lee Haynes, A. B. Warren, W. L. Reynolds, Ida Bryan, Kegley, Honcutt, R. O. McLeroy, Oscar Spang, J. O. Bowden, A. J. A Wac at Work in a Photographic Laboratory

Such terms as depth of focus, film sensitivity, and contact prints are no mystery to Corporal Frances Blackburn of McAndrew, Kentucky, shown as she makes a projection print in a U. S. Army photographic laboratory. This member of the Women's Army Corps, like many other Wacs, was trained for an interesting assignment in an Army school.

WSCS Meets In Roberts Home On Monday Afternoon

The Methodist W. S. C. S. met last Monday afternoon at four o'clock in the home of Mrs. J. W. Roberts. At this time, "West of the Date Line," the new mission study was conducted by Mrs. Roberts.

This was followed by a social hour, during which orange crush and cake were served to the following:

Mrs. W. T. Ford, Roden, Joe B. Roberts, S. E. McStay, Layne Womble, John Smith, Oscar Spang, Eb Lowe, C. H. Giddings, M. F. Billingsley, D. E. Holder, G. R. Eiland, H. A. Pendleton, Lee Haynes, Doris Rogers, J. C. Harpham, Gill Wyatt, Griffith and the hostess, members. Guests were Mrs. T. G. Bengel and H. F. Jungman. The members will meet next Monday in the home of Mrs. Layne Womble.

Legal Notice

Citation by Publication THE STATE OF TEXAS TO: FRANK ELDRIDGE, GREETING:

You are commanded to appear and answer the plaintiff's petition at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this Citation, the same being Monday the 27th day of November, A. D. 1944, at or before 10 o'clock A. M., before the Honorable District Court of Knox County, at the Court House in Benjamin, Texas. Said plaintiff's petition was filed on the 10th day of October, 1944.

The file number of said suit being No. 4356.

The names of the parties in said suit are: Mrs. Ada Eldridge as Plaintiff, and Frank Eldridge as Defendant.

The nature of said suit being substantially as follows, to-wit: Suit for divorce and restoration of maiden name.

Issued this 10th day of October, 1944. Given under my hand and seal of said Court, at office in Benjamin, Texas, this 10th day of October, A. D. 1944.

(Seal) LEE COFFMAN, Clerk District Court, Knox County, Texas.

Miss Ida Mae Spann of Abilene visited relatives and friends here over the week end.

REMEMBER WHEN
 —the family clustered around the organ to sing while mother played? Sister's beau contributed the tenor, and father carried an uncertain bass. Home-keeping hearts were happiest way back then. Remember?

County Council Meets On Friday At Benjamin

Knox County Council met in the Assembly Room, Benjamin, Friday October 6th, with the nine clubs of the county represented.

The Achievement Day was set for Nov. 3 at the Assembly Room, Benjamin. On this day the club women will have on exhibit the phases of work, foods, clothing, and Home Improvement, carried on this year.

The women are anxious that the public see the many things on display, and cordially invite one and all to come to Benjamin on Nov. 3.

The clubs of the county will fill boxes to send to Sheppard Field for Thanksgiving.

The Yearbook committee is to meet Oct. 23, to get the 1945 yearbook ready for printing.

The new Council officers for 1945 were elected as follows:

Chairman, Mrs. T. B. Masterson, Jr., Truscott.
 Vice Chairman, Mrs. Wesley Traniham, Vera.
 Secretary-Treasurer, Mrs. Doyle Pyatt, Benjamin.
 Parliamentarian, Mrs. J. C. Patterson, Benjamin.
 Reporter, Mrs. Frank Bowley, Munday.
 The Gold Star Girl will be selected by the club women on Achievement Day.
 Reporter.

HAVE YOUR DOCTOR LOOK AT YOU EVERY SIX MONTHS...
 By having your physician look you over periodically, you will gain the assurance either that you are in good health, or some latent illness may be discovered before it becomes aggravated and advanced. Cancer and tuberculosis are among the more serious diseases which are curable when treated in their early or incipient stages. "See your physician every six months" is more than a well turned slogan. It is a vitally important health rule, a rule which is of super importance in days like these.

BASIC HISTORY OF THE UNITED STATES
 by CHARLES A. and MARY R. BEARD
 A BOOK OF THE MONTH CLUB DIVISION

AMERICA'S FOREMOST HISTORIANS RUN A DAIRY FARM IN CONNECTICUT...

Mrs. Wm. Gardner, former Munday resident, who now resides in Dallas, is here for a two weeks visit with relatives and friends. Mrs. Gardner will be remembered as Mrs. James Owen. She moved to Dallas in 1918.

Red Leathers, who is serving in the navy and stationed in New York, and his wife and daughter of Paducah visited with friends here Wednesday. Leathers is a former employee of the Roxy Theater.

The wives of two of Texas most famous fighting men have called on the people of the Lone Star state to support the National War Fund campaign which opened in every Texas county and community this week.

They were Mrs. Dwight D. Eisenhower, wife of the supreme Allied commander in Europe, and Mrs. Chester W. Nimitz, wife of the Texas Naval commander whose fleets are blasting the Japs in the Pacific.

There is little doubt that the people of Texas will respond to the call, for this state has sent more than its share of soldiers and sailors to war, and Texans everywhere are anxious to give them possible home-front support.

But more than wishes will be required if the Texas campaign for approximately \$6,000,000 is to go over the top. Thousands of volunteer leaders and campaign workers are giving their time to the drive, and every man, woman and child in Texas must join in the effort if it is to succeed.

War fund dollars go to the support of our own fighting men and their allies, and to alleviate suffering among war victims throughout the world.

War fund dollars provide USO centers for our troops in training camps at home, and send USO-Camp Show troupers abroad to entertain our fighting men near every battlefield—often within sound of the guns.

War fund dollars provide rest and recuperation camps for our merchant sailors, through United Seamen's Service, serving the many men injured while sailing their ships to assault beaches or through war zones.

War fund dollars send games, books, study courses, athletic equipment, musical instruments and many other supplies to our men in enemy prison camps, to help combat the dread "barbed wire sick-

ness" that threatens their morale. War fund dollars send food to the helpless orphans of China, whose parents have been killed and whose land has been ravished by the Japanese.

War fund dollars help bring earlier victory, through services to our fighting men and their allies.

War fund dollars give new hope to the entire war-stricken world, and carry the message of Freedom to every remote section of the globe.

Texans, always generous, always in the forefront of every fight for freedom and decency among nations, are responding enthusiastically to the call on behalf of Humanity. There is little doubt that in every county and every community, the National War Fund drive will go over the top.

For Texans everywhere are voicing the words of the war fund campaign slogan: "Sure, I'll Give a Texan's Share!"

Mrs. C. A. Young of Wichita Falls came in last Tuesday for a week's visit with her son and family. Mr. and Mrs. G. A. White of Goree.

Gene Floyd, F. 1/c in the Navy, has returned to his base in New York after a 7-day visit with his wife and with his parents, Mr. and Mrs. G. T. Floyd.

J. L. Brasher spent the first of this week in Abilene, visiting with his family and attending to business matters.

Misses Grace Bisbee and Johnnie Jackson of Benjamin were visitors here last Saturday.

Mrs. Curtis Coates and daughter, Belinda, of Knox City visited with friends here a while Tuesday afternoon.

Mrs. J. E. Reeves visited with relatives in Fort Worth, Dallas and Denton over the week end. At Denton she visited with her daughter, Jean, who is attending school there.

SOLDIER'S TRIBUTE TO ROOSEVELT

Editor's Note: The following poem was written by Corporal Hedjuk from the firing line in France and sent to his grandfather, Harry C. Bailey, Lewisville, Texas, with the request that it be published in The Dallas News.

Our Great Commander (F. D. R.)
 Champion of all who groan beneath
 The tyrant's iron hand,
 In view of hate and war and death,
 We see him calm stand—
 Still bearing up his noble brow
 In steadfast strength of truth,
 In manhood sealing well the vow
 And promises of youth.

They tell us he is rash and vain—
 A searcher after fame—
 That he is striving but to gain
 A long enduring name;
 That he would nerve the lowly hand,
 And steel the lowly heart,
 To shake aloft the vengeful brand,
 And rend all chains apart.

Have we not known him well and read
 His mighty purpose long,
 And watched the trials that have made
 His dauntless spirit strong?
 And never shall the slanderer's breath
 Our constant faith bedim,
 But loyal, even unto death,
 Our steadfast faith in him.

We love him with a comrade's love
 That makes the pulses thrill,
 And garks the spirit soar above
 The clouds of human ill;
 Our hearts have leaped at his brave call
 And echoed back his words,
 As leaped a warrior at a shrine,
 And flash of kindred swords.

Lead on, Brave Chief, in our great fight
 To usher in a better day;
 "The Blessed Kingdom of the Right—"
 We follow in your starlit way.

Industry points the way for Conservation today

"THERE ARE SEVERAL, AMONG WHOM I MAY CLASS MYSELF, WHO ARE ENDEAVORING TO GET INTO YOUR REGULAR AND SYSTEMATIC COURSE OF CROPPING."
 —George Washington.

Today, not several but thousands of farmers follow regular systems of conservation crop rotation that maintain and rebuild soil fertility. Rotations, carefully planned to meet the needs of each individual farm, are essential for profitable, permanent farming.

Conservation crop rotations in the Cotton Belt logically center around Cotton, the most dependable and valuable cash crop. Combined with legumes, cover crops, grains and other crops, Cotton in the rotation gives larger returns per acre and provides needed cash income, livestock feed and other products.

Sports News

Last Friday the Moguls played their second conference game with Haskell. The final score was Haskell 25 and Munday 0. The Moguls didn't show up as good as they had been in the preceding games.

We really have had some rough work-outs this week. The way all the boys talk, they say, its rough, but that's the way they like it. Also in the game Friday night the Moguls found out that the pass defense had improved a lot.

Coach Morrow says that there will be eleven dead men on the field Friday night or there will be eleven new ones. Anyway, I believe they have all learned their lesson.

The Moguls will play Anson Friday night, October 13, on their own home field. This is the first home game of the season, so we all are looking forward to it.

If you hang around the boys like I do, well, they are talking like they will be in there fighting for victory. So lets go boys!!

We wish to thank the Band and Pep Squad for their cheering Friday night. It helped a lot. So thanks a lot. We will be waiting next Friday night for those cheers.

Society News

We're wondering why the Seniors have been going around all week with their heads in the "clouds." Could it be, the visitor we had Tuesday was a ring man? Could be...

Congratulations Juniors on such a swell chapel program. You certainly do have what it takes.

The Band and Pep Squad surely did enjoy the football game Friday night. So if you say "hello" to these loyal members don't be offended if they can't return your friendliness. No kidding, the band and pep squad did a grand job Friday night. So thanks a lot.

Senior News

Today the Seniors have accomplished a great thing. They have selected a standard ring for the school. The chosen ring is one they think everyone that is to be a future Senior will be extremely proud to wear. The invitations were also chosen and all are satisfied once more.

The Seniors have chosen their Halloween Carnival ideas and are making big plans with them in mind. The queens have not been selected as yet but you know the Seniors will make their candidate queen of M. H. S. It is the usual custom and who are we to break the precedent?

The English class has had a very enjoyable week. "Macbeth" on records was presented to us and the dramatics and unusual expressions were quite a novelty to all. Members of the class have been assigned to certain parts to be read from the book and they learned a lot from listening to the recordings. It is different from anything we have ever read or heard and so far has proved extremely interesting.

Party plans have been laid and we are just patiently waiting for the coveted day to roll around. It

will be our first party for us as Seniors and everyone is very expectant.

Junior News

We Juniors are a very happy bunch this week, since our chapel program turned out successful. We want to thank everyone for their wonderful cooperation in making this a success, and our swell sponsor, Mrs. Baker. Although we didn't get to practice all of it we "sweated it through."

We Juniors are very proud of our football boys for the good game they played Friday night. Although we didn't get the victory, we feel sure that we will next Friday night. Come on boys!!! Lets go!!

If you would ask some of the Juniors "What's Buzzing Cuzzin;" they would tell you Senior Rings. Oh! boy! The Juniors can't wait until they get theirs!!!

Sophomore News

The Sophomore class enjoyed the party at Mrs. Pitzer Baker's home last Saturday night. There were twenty students present. The evening was spent in playing many hilarious outdoor games. When everybody was played completely to his last ounce of energy, the sponsors and room mothers served Coney Islands and bottled drinks.

A few of the class tried to overwork their digestive systems by going down town afterwards and ordering ice cream. Poor kids! They never know when to stop.

The room mothers present were Mrs. Pitzer Baker, Mrs. Leland Hannah, Mrs. Andrew Hill, Mrs. Hallmark, Mrs. Campsey, Mrs. Thompson, and Mrs. Raymond Ratliff. While the kids played they planned the entertainment for the rest of the year:

November: Skating party.
 December: Christmas party.
 February: Valentine party.
 March: Indoor party.
 April: Hay ride and chuckwagon supper.

The class has decided to finance its parties and incidental expenses by collecting monthly class dues of twenty-five cents from each student. We felt we could lighten the burden of class party expenses for our room mothers.

The sophomores have charge of the assembly program this week. For the entertainment as well as edification of the student body, the class has prepared a playlet with the purpose of inspiring every student in Munday to attend the football game to be played on the Mogul field Friday night. "Lets go to the game," is a short play featuring members of the sophomore class, the coach, and the members of the Mogul football team. We enjoyed the talk given by one of the ex-Seniors of Munday High, in our Assembly last week. Jimmie Silman was with us once again with a word of pep and backing the Moguls with his all. We were very glad to have Jimmie with us and we welcome him any time he can come.

Buddy Gafford who is in the Navy, also honored us with several

BIG REFINERY TOWER MAKES TRIPLE LOAD

The Santa Fe used three flat cars to move this 500,000-pound fractionating tower from Tulsa, Okla., to an undisclosed out-of-state plant, where it will be used in the manufacture of butadiene for synthetic rubber. The huge pressure tank was the largest ever built in Tulsa, and the largest ever shipped in a single piece on any railroad. The load was 150 feet long, 13 feet, 6 inches wide, and 20 feet, 6 inches high. These dimensions called for a special routing in order to clear bridges, viaducts and other structures along the way, and at one point it was necessary to lower the track a few inches to get the shipment through. The two end cars which bore the brunt of the 250 tons, were fitted with pivoted cradles to allow the load to take curves. Movement of this unusual war-time cargo was in daylight only, and at restricted speed.

inspiring talks and visits. Martha Hannig and Bernice Douglas who are in college also visited with us a while last week. We were very proud of them, and we do hope they will come back to visit us soon.

Freshmen News

We are looking forward to the best chapel program of the year. It will be directed by Donald Waheed, Delbert Montgomery, Joy Guffey, and Mrs. Bowden. We have not completely decided on our program yet, but we are making good progress. It is scheduled for Friday week.

Munday High has decided to pick a different graduation ring every four years, instead of every year. We believe the ring will have a picture of a Mogul on it, with M. H. S. on the sides.

The pep-squad girls are going to have a picnic Friday afternoon before the football game.

Last week the weather did not permit the Freshmen class to have a party, so we will have it Saturday afternoon at the home of Mrs. Sied Waheed.

Eighth Grade News

We all are studying very hard for the sixth week which is just around the corner.

In English we are writing themes and making fire prevention posters. Since this is fire week also we are having fire drills. In history we are studying how the colonies won their independence and we have made some very interesting posters.

Friday night the children in our room in hand went to Haskell. They have their suits and two new footballs.

We elected officers of the class as follows:
 President, Roy Bouldin.
 Vice President, Howard Gray.
 Secretary-Treasurer, Gwyna Lee Smith.
 Reporter, Bobby McGraw.

Fifth Grade
 The fifth grade is glad to have everybody at school again, as several have been ill. We are studying maps and the continents and having quite a time learning to pronounce and spell the difficult names.

Lynnwood reported a nice trip to Weatherford and Terrell over the week end. Patsy spent Sunday in Wichita Falls. Sue attended a funeral at Gilliland Sunday. Guy Paul spent Sunday in O'Brien visiting with his grandparents. Glynn spent the week end in Stamford. So we close this for this week.

Fourth Grade News

We have started a new unit in geography. We are studying about animals that give us food. We have made two booklets, one of corn and the other of wheat. Now we are making a booklet of animals that give us food.

Hallowe'en will soon be here. All the room is very happy and busy preparing for it.

In the front of the room on our library table we have a little wooden wheel-barrow in which we have a pumpkin, corn, gourds, and pine cone.

First Grade News

There are twenty-four children in our room. Each one seems to be enjoying his new experiences.

We have had some interesting discussions about pets. Robert Lynn Bowden brought one of his pet rabbits to school and Bobby James Melton brought his kitten.

James Hawes and Robert Lynn Bowden have helped to make our room more attractive by bringing us flowers.

Carl Jr. has been absent several days. We miss him very much.

In our study about fire prevention we are making charts, drawing pictures and listening to stories such as: "The Little Fireman" and "Fire On The Farm."

Governor Asks Support of War Chest In Texas

Austin—Gov. Coke Stevenson today called on all Texans to give full support to the National War Fund through "generous contributions to their county and community war fund campaigns."

"Every Texan should exhibit on the home-front the same determination and spirit of sacrifice that our fighting men are showing on the firing lines," the governor declared in a letter to Judge Ben H. Powell, president of the United War Chest of Texas. "It is our duty to give them every support at our command."

"During the next few weeks we will have the opportunity to help our Texas fighting men by contributing to the great war-related agencies which serve them and their allies," Governor Stevenson continued. "Through the state-wide campaign conducted on behalf of the National War Fund by the United War Chest of Texas, every Texan can help bring earlier victory and peace."

"The National War Fund deserves and should have the full

support of all patriotic Americans. "I call upon all Texans to support this great effort through generous contributions to their county war fund campaigns. I am confident that the response will be typical of the people of this state: "Sure, I'll Give a Texan's Share."

Through county and community campaigns to be conducted in every county, Texas is scheduled to raise almost \$5,000,000 for the National War Fund, which provides funds for more than 20 agencies serving American troops, troops of Allied nations and war-victims throughout the world.

BIRTH ANNOUNCEMENT

Mr. and Mrs. Grady Howry are the proud parents of a baby son, who was born at the Knox county hospital on Monday, October 9. Mother and little son are reported doing nicely.

Miss Evelyn McGraw spent the week end in Fort Worth, visiting in the home of Mr. and Mrs. Levi Bowden.

Mr. and Mrs. Dick Ford of Lawton, Okla., and Mrs. Dick Ford, Jr., of Denver, Colo., visited with Mr. and Mrs. Oscar Spann, Mr. and Mrs. John Spann and other relatives here over the week end.

TOWN and FARM in WARTIME

Prepared by OFFICE OF WAR INFORMATION

Dust Bowl Lesson Learned

With the lesson of "dust bowls" fresh in their minds, American farmers during this war are using their land much more wisely today than they did in the last war, the Office of War Information reports on the basis of data from the Departments of Agriculture, Interior and War. Farmers plowed up 30 million acres of land unsuitable for row-crop cultivation during the last war. During this war they have plowed up less than 1,170,000 acres of such land, and much of this has been put in victory gardens where it can be kept fairly well under control. Airfields have caused one of the worst recent soil erosion problems. Spinning propellers caused miniature dust storms—resulting in damage to planes and injury to the men. Soil conservation experts and army engineers, however, have worked out methods of protecting the runways and preventing these miniature "dust bowls" from getting started.

This Is Fire Prevention Week

This is fire prevention week, by proclamation of President Franklin D. Roosevelt. One out of every three persons who lost their lives as a result of fires in the United States last year was a farm person, the Department of Agriculture reports. Fire is more hazardous on the farm than in the city because few farms can call on a trained fire department for assistance, most farms are not equipped with a ready water supply for fire-fighting, farm buildings usually are not as fire resistant as city buildings and farmers usually carry less fire insurance than city people do. Farm fire prevention suggestions have a readily available ladder that will reach to the top of the highest building, see that there is a water supply for fire fighting in the farm yard, and establish firebreaks around haystacks, farm buildings and maturing farm crops of high fire hazard.

May Ease Dads Fuel Bill

Coal shortages this year have prompted the solid Fuels Administration for War to offer householders the following fuel-savings suggestion: "Winterize" with insulation, storm sash and weather-stripping; clean and repair heating

plant; install temperature control devices; keep room temperatures as low as health and reasonable comfort will permit; clean furnace regularly during heating season; keep windows closed as much as possible; and close off unused room space. To assist in fuel-saving, 111 weather bureau stations in 25 states east of the Mississippi river and in Minnesota are determining a date in each community after which continuous central heating should be necessary.

Outlook For Livestock Prices

With fewer hogs to be marketed this fall and winter and with large non-civilian pork purchases, the hog price outlook is more promising than a year ago, the Department of Agriculture says. Total calf slaughter this year will reach an all-time high. The large slaughter has resulted from high butterfat prices in relation to dairy cow prices, a weak demand for calves by cattle feeders, relatively high prices for veal calves for slaughter and record numbers of cows on farms. Prices for lambs are likely to average higher this fall and winter than a year ago, and ewe prices, now lowest since the fall of 1941, are expected to continue lower than a year ago.

Aid For War Victims

Since Poland was invaded in 1939, Americans have given more than \$175,000,000 to war victims of more than 20 countries, the Presidents War Relief Control Board reported in calling attention to the second National War fund drive to be conducted during October. Before the War Relief Control Board was established, 700 agencies were appealing to the public separately for support. Now only 110 agencies are authorized to engage in foreign and domestic war charity—including United Service Organizations, United Seamen Service, War Prisoners Aid, and local Community Chest services. The \$250,000,000 fund sought this year is expected to bring aid to 60 million persons.

Safety Rules For Paper Saving

When salvage paper is collected to avoid fire hazard, the Department of Agriculture recommends that it be stacked neatly and tied in bundles. Paper boxes should be flattened, then tied in tight bundles.

A metal trunk or bin with a tight cover is the safest place to store paper. Next best is to stack paper bundles on a cement floor away from furnace, stove or hot pipes. Soiled or oily paper is useless for salvage and is also a fire hazard and should be destroyed.

Tobacco Consumption Near Record

While domestic tobacco consumption has declined in recent months, this decline has been offset by shipments to armed forces abroad, so that overall consumption is at or near the highest in the history of the industry, the Department of Agriculture reports.

New Ration Book For Canadians

Between October 14 and 21, each of Canada's 11,500,000 consumers is expected to get his fifth new ration book. Sugar, butter and preserves are the only foodstuffs now rationed. Rationing of tea, coffee and meat has been suspended for some time.

Not A Man In The Plant

The women have it all their own way in one Melbourne, Australia, war plant. Now entering its fourth year of operation, this plant is run entirely by women, ages 25 to 40. Most of the women had never worked outside their homes before they took their present jobs. Among other things the women turn out steering gears for Bren gun carriers and telescope holders for 25-pounders. Miss Irene Searles, general manager, is now in the U. S. studying latest production methods.

Rabbit Comes Into His Own

When early English settlers moved to Australia, they took rabbits with them, according to the Australian News and Information Bureau. Australia then spent millions of dollars trying to get rid of the offspring of these rabbits. The Australians hunted them with guns, traps, poison bait, ferrets and gas. In western Australia they even built a supposedly rabbit-proof fence from north to south. Still the rabbits increased. Then came the war. Other meat grew scarce. Rabbit meat was coupon-free. Recently, the Indian Government asked for Australian rabbits to breed for food for her services, and export of rabbit pelts to the United States is increasing. Today, Australia's one-time pest is practically a national hero.

To Help Veterans With Housing

To provide living quarters for war veterans, honorably discharged since December 31, 1940, who are unable to find them, the WPB and the National Housing Agency offer immediate priorities assistance for construction, alteration or betterment of houses. Veterans should apply on form WPPP-2886 at the nearest Federal Housing Agency office. If the veteran does not know where the nearest FHA office is situated, his local banker should be able to tell him.

Round-Up

OFA says—More than 88 million persons live in rent-controlled areas in the U. S. Farmers will pay about 40 cents a hundred pounds more for dried beet pulp and dried molasses pulp as a result of new ceiling prices. Highest retail prices for cherries is expected to be about 41 cents a pound, since ceilings have been revised due to weather damage to the crop.

The Department of Agriculture says—Total feed grain supplies for the 1944-45 feeding year are estimated to be third largest on re-

Good Range for Better Stock

Better management of grazing land means better forage for livestock and increased protection of soil on the range and on adjacent cropland, according to the War Food Administration. Under a war emergency these contribute to increased food production.

Range in the 17 Western States covers more than three-quarters of a billion acres, some 40 percent of the total land area of the United States. These uncultivated and unfertilized regions, on which grow native grasses and other forage plants, support about 75 percent of the sheep and goats raised in this country and 23 percent of the beef cattle, plus other livestock. If the range is to continue efficient livestock production, it cannot be grazed beyond the ability of the plants to survive.

Many factors are involved in proper utilization of range land—rotation of grazing, natural reseeding through deferred grazing, artificial reseeding by drilling, broadcasting, or harrowing in suitable locations, development of properly spaced, adequate, and dependable water supplies, eradication of destructive plants, proper fencing to facilitate uniform distribution of stock, and water-spreading measures to divert run-off water and prevent crocodile action.

Employment of these and other range practices is dependent upon the character of the land and its problems.

Some range-management plans may require only a few practices, while others will need many in order to return the range soil to its original fertility and stability. While natural reseeding is the most practical means of obtaining range recovery, in cases where sufficient remnants of desirable forage plants do not remain, artificial reseeding has been found highly successful. Late autumn is considered the best time for reseeding except on high mountains where summer rains make July or August the favored period. The best conditions for reseeding are ample soil moisture, level or gently sloping topography, deep, fertile soil, and a sparse vegetation cover.

A direct benefit of reseeding is the increased production of palatable forage, due partly to a heavier total yield and partly to the substitution of palatable grasses for weeds and other less valuable plants. Management of reseeded range should not differ greatly from that of native grass ranges, says WFA.

Assistance in carrying out a grazing-land management plan is available to ranchers under the conservation program administered by the Agricultural Adjustment Agency. As an example of results being obtained, 19,376,000 acres of range land were reseeded by deferred grazing in 1942, under this program, compared with only 36,847 acres in 1935 when it began, a fifty-two-fold increase.

cord...The Airose Bomb method of combating mosquitoes, which in 10 seconds can release enough poison to kill mosquitoes in a large room, shows postwar promise for household use against flies and mosquitoes and for protection of certain truck crops.

The WFA announces a support price of \$12.50 a hundredweight, Chicago basis, for good and choice butcher hogs, 200 to 240 pounds, and a cotton loan rate on the 1944 crop of an average of 20.03 cents a pound, gross weight for 7-8 inch middling-cotton.

West coast shipbuilders and repair yards need 25,000 more workers in October, and 2,000 workers are needed for naval repair work at Pearl Harbor. Workers will be

recruited through United States Employment Service offices in all parts of the country. Sale of second hand school buses and other local passenger transportation equipment is now unrestricted, but purchasers to obtain gasoline must qualify for certificates of war necessity, the ODT says. For the first time in the country's history, births exceeded the three million mark, in 1943, the Department of Commerce reports.

G. A. White was a business visitor in Wichita Falls last Tuesday.

Mrs. R. L. Kirk was called to Princeton on Thursday last week to attend the bedside of her sister, who is ill.

Weekly Health LETTER

Issued by Dr. Geo. W. Cox M. D., State Health Officer of Texas

Austin — Diabetes, a disease for which modern medicine can do so much, took a toll of several hundred lives in Texas during the past year, according to Dr. Geo. W. Cox, State Health Officer.

"While the communicable diseases such as typhoid fever, malaria, diphtheria, and smallpox are causing a decreasing number of deaths each year in this country, diabetes which was unknown in the early pioneer days is now taking an appalling number of human lives," Dr. Cox said.

"Until recent years diabetes was not recognized as a major health problem but it became noticeable in direct ratio to the development of medical laboratory procedures."

Dr. Cox said that diabetes is generally recognized as a class disease. It seems to attack the white-collar class of indoor men and women much more frequently than it does the outdoor person whose work is more vigorous and calls for more exercise. Whatever the actual cause of the disease may be, vocational and economic conditions are factors, since it seems a fact that those who do not indulge in luxurious living and whose occupation calls for manual labor are not frequently effected. Dr. Cox said that simple living, wholesome diets, sufficient exercise, and sleep are factors in the prevention of diabetes, and an annual physical examination

is important to determine whether or not diabetes is present in the middle-aged group.

LOCALS

Mr. and Mrs. V. M. Lee of Denton, are here visiting Mrs. Lee's mother, Mrs. S. E. Robertson, and sister, Mrs. Roy Bullington and family.

Mrs. W. F. Hardin and Mrs. Hugh Stodghill of Silverton and Otis Hardin of Levelland visited relatives and friends here over the week end.

Buddy Gafford, who is in the navy and stationed at San Diego, Calif., came in last week to spend a furlough with his parents, Mr. and Mrs. Worth Gafford.

Mrs. Rose Jones and daughter, Juaney, spent the week end in Denton, visiting their daughter and sister, Lola Jones, who is in school there.

Mr. and Mrs. Worth Gafford and family were visitors in Denton last Sunday.

Mr. and Mrs. George Spann of Dallas visited with relatives and friends here over the week end.

Ardele Spelec took his daughter, Billye Lou, to Wichita Falls one day last week for medical treatment.

Mrs. J. W. Roberts, Mrs. H. F. Jungman, Mrs. D. E. Holder, Mrs. S. E. McStay and Mrs. J. D. Crockett were business visitors in Haskell last Friday.

THE OLD JUDGE SAYS...

"We can't argue with the Judge on that point, can we Mabel? It's not fair to penalize the many for the actions of the few."
"That, folks, is exactly what we would be doing in this country if we ever voted for prohibition again. Authorities who have made a careful study of the problem, report that only about 5% of those who drink abuse the privilege occasionally... 95% drink sensibly. Probably doesn't compare with the number of folks who overeat and do other things to excess. Prohibition certainly

isn't the answer. It's not that simple. We had nearly 14 years proof of that, didn't we?"
"The real answer is education and better control. In fact, the responsible members of the distilling industry are working constantly toward that end. They don't want anybody to abuse the use of their product any more than the three of us do."
"If everybody would take that sensible attitude, Judge, and cooperate as more and more are now doing, we'd be a lot better off a lot quicker."

WHAT LANGUAGE IS THAT?

Prof. Tsk is a philologist. Words are his meat: Chinese, Sanskrit or Aztec. He can even understand his freshman daughter and soldier son!
But the talk he's hearing now has him baffled.
You, too? ... Well, it's simply the everyday speech of the line crews who keep your home and community supplied with electricity—come what may.
A "shoo-fly," for example, is a temporary line built around a tree fall, washout or construction job.*

These men don't coin curious words just for the fun of it. They use them, as a kind of oral shorthand—to speed their work and help bring you better electric service.

Lots of folks take the linemen's work for granted. But they are an essential part of the industry which—under experienced business management—has met every war demand for electricity—without shortage or rationing—at low prewar prices.
That's an accomplishment in any man's language.

*A "dumbsome" is an apprentice lineman. A "gandidancer" is a laborer. A "how eye" is a dead-end tye. "Snoble goble" is anything you can't remember by its name.

Moguls Take Whipping Friday From Indians

Still showing the need of experience, the Munday Moguls dropped their third game of the season last Friday night, losing 25 to 0 to the Haskell Indians on Indian Field.

Getting off to a bad start, when their kickoff went for only 10 yards, the Moguls never seemed to hit their stride.

Quarterback Dodson contributed three of the touchdowns for the Indians. He scored twice in the first period, running 21 yards around end for one and plunging 5 for the other. Both tries for conversion failed.

On a 10-yard drive, Dodson scored again in the second quarter, and again the Indians failed at conversion.

Welch, fullback, plunged five yards for a touchdown in the fourth period, and Henshaw converted on a line drive.

The Moguls threatened in the fourth period, driving down to the 8-yard line, but there the attack stalled for lack of power to reach pay-dirt.

PIGGLY WIGGLY

Kerr, Rayburn To Speak At Wichita Falls

WICHITA FALLS, Texas, Oct. 12.—Democrats from Texas and Oklahoma will assemble here on Thursday, Oct. 19, to see and to hear two of the nation's leading personalities in the Democratic party address a gigantic two-state rally in Memorial Auditorium. Gov. Robert S. Kerr of Oklahoma and Congressman Sam Rayburn of Texas have accepted invitations to appear in person before voters of the two states to further Democratic party principles.

The two orators have assured Col. W. T. Knight, general chairman of the house of representatives and head of the Texas state Democratic league of business and professional men, that they would be on hand to seek support for the Roosevelt-Truman ticket.

Kerr, keynote of the July national Democratic convention in Chicago, is recognized as one of the country's outstanding speakers. Kerr's Wichita Falls address will mark his only appearance in Texas during his present series of campaign speeches throughout the Oklahoma area. Rayburn, speaker of the house of representatives and widely known figure for his efforts as a Democrat, will introduce the Oklahoma governor.

All Democrats in the North Texas-Southern Oklahoma region are being extended invitations to attend the Wichita Falls rally, and already delegations from Oklahoma are making arrangements to be present.

The speakers will take the stump from the stage of the Memorial Auditorium here at 8 p. m., and a two-state radio hookup will carry Kerr's address to voters of the sector. Stations which will broadcast the program will be announced later, Chairman Knight said.

Besides Kerr and Rayburn, other outstanding Democrats who will attend the rally will include Harry L. Seay of Dallas, chairman of the Texas state Democratic executive committee; Myron Blalock, Texas national committeeman; James V. Allred, leader in the recent fight for control of the Texas Democratic party; W. H. Kittrell of Dallas, secretary of the Texas state Democratic executive committee, and widely known congressmen from both Oklahoma and Texas.

"Hundreds of thousands of dollars are being poured into doubtful states and districts in an effort to defeat the Democratic party, and to return the control of our country to the hands of a few, as it was under Hoover," said Colonel Knight.

"It is vital to the welfare and prosperity of our great Southwest to defeat this effort, and I urge that every loyal Democrat attend this great rally in Wichita Falls Oct. 19."

MILLIONS OF USERS HAVE FOUND THE FACTS ABOUT THE NEW GRADE-1 GOODYEAR

Testimonials are pouring in from all over the country... proving the superiority of the Goodyear tire-building skills and methods, the benefits of Goodyear's 20 years of Research in synthetic rubber.

AVAILABLE TO B AND C DRIVERS WITH CERTIFICATES

- The new Goodyear is close to the average pre-war tire in mileage and stamina.
- The new Goodyear can take tough going on all kinds of roads in all sorts of weather.
- The new Goodyear is exceeding expectations in safety and service. Gives you PLUS VALUE for your tire dollar.
